

# Compromise Studied in Czech Crisis

## Cedillo Kin, Band Slain By Federals

### President's Home Not Bombed Sunday, Officials Declare

MEXICO CITY, May 23 (P).—The defense ministry announced today that the rebel leader, Saturnino Cedillo, had been killed with 11 followers in a clash with government troops Saturday near Lazuneta, southeastern San Luis Potosi state.

The ministry said Cedillo was heading a rebel band of 150 men. The ministry denied reports a rebel plane flew over San Luis Potosi city yesterday.

The Laredo Times said today three rebel aviators had been imprisoned in Nuevo Laredo after being arrested at the international bridge. The newspaper said the trio carried a large amount of money.

## "Go" Signal Given Today on Bank Annex Dismantling

Preliminary work of dismantling the two-story annex of the First National bank, preparatory to erecting the \$250,000 eight-story office building on the site, was under way today. A large group of men awaited employment on the project and it was indicated that a full crew would be at work within the next two days. Window and door frames and other pieces of removable equipment were being taken out today and a barricade was being constructed to route pedestrian traffic around the site.

In addition to tearing away the annex, twelve feet will be removed from the rear of the adjoining two-story Everybody's store building which was bought by the bank recently. The new structure will have a frontage of 52 feet on Wall street, running back south 75 feet, and will be situated at the west end of the bank and Everybody's store lots. The bank tower will be modeled to conform to material and architecture of the eight-story structure. However, the interior of bank, recently completely remodeled, will not be disturbed during the construction period and business will be conducted in the permanent location as usual.

## High School Band Will Offer Final Concert Tonight

The Midland high school band will give its final concert during the 1937-38 school year tonight in the high school auditorium. The concert will start at 8 o'clock and there will be no admission charges. Twelve members of the band will be appearing tonight for the last time in the concert. Graduation from school will end their stay in the band.

Several popular numbers, including the modern descriptive selection by Ferde Grofe, "On the Trail," "Safari," and military marches will be played. "Toward's Song," to be presented by the saxophone quartet, was the number played by the group in winning first place in the state contests and "Dance of the Reed-Flutes," the number presented by the clarinet trio of the high school in winning first place in the state contests, also will be offered.

## Appreciation of Motorcade Voiced By CC President

Termining the Midland motorcade to the annual McCamey Rattlesnake Derby and Birthday Celebration last Friday the most beneficial good will project sponsored by the local chamber of commerce in recent years, Marion Flynn, chamber of commerce president, this morning issued a statement expressing appreciation to all local citizens who joined in the motorcade and all who had part in making the trip a huge success. Flynn said that McCamey citizens extended a royal reception to the Midland group and were very appreciative of the good will gesture.

Twenty-three Midland business firms were represented in the motorcade which was comprised of 20 automobiles and 40 persons.

## MEDICAL AUXILIARY TO MEET.

The Medical Auxiliary of this district will meet with Mrs. W. G. Whitehouse, 1505 W. College, Friday afternoon at one o'clock for a luncheon.

## SON BORN TO PRICES.

Mr. and Mrs. J. E. Price are the parents of a son born this morning in a Midland hospital. The child weighed nine pounds.

## War Birds Fly Back to Nests

After having helped to repulse successfully a theoretical enemy invading the Atlantic seaboard during recent aerial maneuvers, the 144 planes of the Army's G. H. Q. Air Force staged a final aerial parade over New York before flying off in all directions to their home airports. Pictured above are two of the air armada on their farewell flight over Manhattan.

## Texas Delegation To Capital Plans Busy Three Days

HILLSBORO, May 23. — The Texas delegation of agricultural and business leaders going to Washington on May 28 have mapped out a busy three days of work while there on the days of May 30 and 31 and June 1.

"Principal purpose of the trip," explained Burris C. Jackson, chairman of State-Wide Cotton committee, "is to convincingly present Texas' claim to the contemplated cotton research laboratory through a comprehensive brief to be presented to Dr. J. T. Jardine, Research Director of U. S. Department of Agriculture, setting forth detailed reasons. Cotton improvement, better ginning, and insect control, the three other objectives of committee will be thoroughly discussed with department officials."

Elmore R. Tirm, agricultural director of East Texas chamber of commerce and secretary to delegation, said that on arrival Monday morning informal conferences will be held with Texas Congressmen and Senators, with a luncheon at noon, followed by conferences with leaders of the Bureau of Agricultural Economics, Agricultural Engineering, and Plant Industry, that afternoon in discussion of cotton improvement and better ginning.

Tuesday morning, May 31, the group will present brief of Texas claim for laboratory to Dr. J. T. Jardine, and a conference with Secretary of Agriculture Henry A. Wallace is being arranged for the Texas party on Tuesday afternoon by Congressman Marvin Jones.

Wednesday, June 1, will be devoted to discussions of a South-wide cotton insect control program with officials of Bureau of Entomology and Plant Quarantine. Approving the purpose of the trip, which every farmer and business man of Texas is welcome to make, and cooperating are the A. & M. College of Texas, Texas Tech., University of Texas, the State Farm Grange, Texas Agricultural Association, Texas Cooperative Council, Texas Cotton Growers Association, Texas Cotton Association, Texas Council of Agriculture, Texas Cotton Ginners Association, Texas Bankers Association, Texas Cottonseed Crushers Association, and regional and local chambers of commerce.

## BT-9's HERE.

Three BT-9's, led by Lieut. Moody, departed for Randolph Field this morning after an overnight stay at Sloan Field.

Pilot V. Smith, in a coastguard plane, arrived from Biggs Field at El Paso and went to Coleman, Texas.

## Essentials Outlined for the "Right Kind Of Leadership" in Sermon Given Sunday by Dr. Scarborough to High School Graduates

Spectators occupied all available seats, including chairs in the aisles, at the high school auditorium Sunday morning to hear Dr. Lee R. Scarborough of Fort Worth who impressively delivered the commencement sermon to 1038 high school graduates.

Taking as his subject, "Youth's Climb to Its Best," the Seminary president declared that high school graduates, more than a million in the United States, are being challenged to prepare themselves for places of leadership.

The challenge comes to fill places, he said, in the fields of statesmanship, business, industry, professions, education, literature, publicity, aviation, transportation, science and in religion.

His sermon outlined essentials for the right kind of leadership. Hard work, in preparation for leadership, is necessary, he declared. Ambition with a passion to be of use to God and man; character, well formed and with all flaws "rooted out"; sincerity and honesty, comprising a monument built without faulty material; a passion for service, unselfish in nature; faith, in "yourself," meaning confidence without undue

## Right to Impose Tax on Athletic Events Is Upheld

WASHINGTON, May 23 (P). — The supreme court ruled today the federal government could impose admission taxes on tickets to athletic contests at state universities.

The ruling applied specifically to the government's attempt to impose and admission tax on the intercollegiate football games at the University of Georgia and Georgia Tech.

## Debate on Wage-Hour Measure Is Voted

WASHINGTON, May 23 (P). — The house broke its rules committee's prolonged blockade on the revised wage-hour bill today by voting overwhelmingly to debate the measure immediately.

The action ratified a petition signed by 218 members to force legislation on the measure to the floor.

## QUAKE HITS JAPAN.

TOKYO, May 23 (P).—A severe earthquake shook northeastern Honshu, main island of Japan, today with considerable property damage.

## 2,000 Loyalists in Attempt to Break From Rebel Prison

HENDAYE, France, May 23 (P). — Two thousand captured Spanish government militiamen killed several of their guards in the insurgent prison at Pamplona last night in a futile effort to escape.

The insurgent commanders said the uprising was quelled after an undetermined number of prisoners had been killed or wounded.

## Midland Women Visit Los Angeles

LOS ANGELES, May 23 (Special). — Mrs. J. M. Caldwell, Mrs. A. and Lulu Hanna, Mrs. Lotta McBride and Edna Hanna, Midland are enjoying a vacation in Southern California, according to the Chief Welcome at the area's new Free Tourist Information Bureau in Los Angeles, which they visited for help in planning their vacation fun and sightseeing while here. After Los Angeles the travelers will return home.

## Adjournment Not Due for 3 Weeks

WASHINGTON, May 23 (P). — Democratic leaders told President Roosevelt today because of the final deficiency appropriation bill congress would be unable to adjourn before sometime between June 11 and 20.

Representative Rayburn, Texas, said one or two weeks of hearings on the last deficiency measure would be required.

## VISITS PARENTS

Cecil Elder, son of Mr. and Mrs. J. H. Elder, is visiting his parents here. He has been attending school in New Mexico.

## Tornado Hits Small Town, Five Killed

### Twister Wrecks All Structures In, Around Ivan

ATKINS, May 23 (P).—A tornado that swept through this central Arkansas section during the night killed two persons, injured at least five and destroyed much property.

The dead were Barbara Schneider, 62, and Dave Rankin, 65.

GRAHAM, May 23 (P). — A tornado struck the tiny town of Ivan of West Central Texas yesterday, killing five persons, injuring at least eight and damaging every structure.

The twister approached from the west, hopping over the hills, slicing off trees even with the earth and stripping chickens of feathers before it roared into the hamlet.

Three residences were crushed and others were damaged badly.

The storm swept the countryside for two or three miles and cut off communication for some time. Villagers were forced to go to South Bend, nine miles away, to call help.

Buildings leveled were the Teachers and the L. F. Martin and J. G. Davis residences.

The storm was first sighted by a group of ten persons at the W. T. Haley home, half a mile over the hills west of Ivan. The dark, funnel-shaped cloud, rising and dipping over the ranch country, rushed toward the house but the party ran into the cellar.

The roof was torn off the home but the group escaped serious injury. They said they saw the twister leap the hills and head for Ivan, a town of about 100 inhabitants, 20 miles southwest of Graham.

Mr. and Mrs. L. F. Martin, prominent aged couple trapped in their home in the storm's center, Martin was a retired ranchman.

J. G. Davis, 65, who died in a Breckenridge hospital.

Mrs. J. G. Davis, 63, died in a Breckenridge hospital.

Mrs. Fannie Robinson, about 60 and blind, of Loneta who was visiting in the Davis home, also died in the hospital. Mrs. Robinson was Davis' sister.

Nine-year-old Jim Gabriel Dooly, a grandson of the Davises, who was visiting there for the afternoon, was the only survivor in the wrecked home. He was found a minute after the storm, standing in the debris that covered his fatally injured grandparents and aunt.

The injured included: Mr. and Mrs. A. I. Phillips, Phillips, principal of the Ivan school, and his wife were in the teachers' residence when the blow struck. Mrs. Phillips, who suffered a severe head injury, was more seriously injured than her husband.

Billy Martin, 8, son of Dewey Martin a business man, a grandson of Mr. and Mrs. L. F. Martin. He suffered head injury and bruises.

Mrs. Dewey Martin, shock and slight injuries.

## Brazil Lifts All Restrictions on Imports From U. S.

WASHINGTON, May 23 (P). — The state department announced today Brazil had lifted all exchange restrictions regarding imports from the United States.

The department advised the bank of Brazil it will grant "spot" exchange to pay for American imports. 30-day exchange of contracts has been required.

## Midland Women Visit Los Angeles

LOS ANGELES, May 23 (Special). — Mrs. J. M. Caldwell, Mrs. A. and Lulu Hanna, Mrs. Lotta McBride and Edna Hanna, Midland are enjoying a vacation in Southern California, according to the Chief Welcome at the area's new Free Tourist Information Bureau in Los Angeles, which they visited for help in planning their vacation fun and sightseeing while here. After Los Angeles the travelers will return home.

## HAS APPENDECTOMY.

W. N. (Bill) Orson underwent an appendectomy at a Midland hospital Sunday morning. He is reported doing well today.

## RETURNS HOME.

Russell Jones of Ochoa, N. M., who has been visiting his parents, Mr. and Mrs. T. D. Jones and family, will return to his home today.

## Twin Babies; 'Twin' Fathers

The matter of putting two and two together is bothering Dr. Herman Bundesen, president of Chicago's Board of Health, shown above looking down into an incubator which holds little Jose de Jesus and Ana Maria, twin babies born out of wedlock on April 25. Two men—Luis Eising and Lanzarrin Timoteo—showed up at the hospital claiming to be the babies' father. Each man said he wished to marry the mother, but neither is legally separated from his present wife. Blood tests indicated that either or both could have been the father. Dr. Bundesen has suggested that one take the boy, the other the girl.

## Czechoslovakian Nazis Increase Party Strength

PRAHA, Czechoslovakia, May 23 (P). — The Nazi-supported Sudeten German party increased its strength in Czechoslovakia's German communities Sunday as almost 500,000 Czech soldiers guarded the war-fearing nation's 1,300-mile frontier facing Germany, anxious lest her territory be violated during strained municipal elections.

The vote, tensely watched throughout Europe as the vociferous German minority bid for power, resulted generally in a swing right in Germanic towns, a trend to the left in Czech communities and a sharp drop in Communist votes.

Overshadowing international interest in the elections, which at most would change only local governing bodies, the Sudeten army's renewed refusal to negotiate with the government over minority demands for autonomy.

Party leaders under Konrad Henlein, the Sudeten leader, said they would not negotiate "under the existing unconstitutional situation" in

which Czech troops were stationed in Sudeten regions during the election crisis.

Among the 1,500 municipalities voting today only 48 were predominantly German. Four of these in western Czechoslovakia were classed as elites.

The Sudetens increased their municipal parliament seats from 69 to 105 in the four cities while the Communists dropped from 14 to five and the United German Democratic party—non-Nazi—dropped from 28 to 18.

In cities predominantly Czech—notably Praha—gains of from 15 to 20 per cent were registered by the Czech National Socialist party, the group slightly left of center to which President Eduard Benes belonged before becoming chief executive.

It polled 142,000 votes as compared with 107,000 in 1931, and emerged the strongest party.

Communists were next with 89,000 votes. Extreme rightist parties lost heavily.

## Four-Mile Northwest Extension Of Gaines Seminole Pool Looms

BY FRANK GARDNER. Logging broken shows of oil from 5,068-98, present total depth, J. L. Frick and Osage Drilling Company No. 1 Atlantic-T. S. Riley, wildcat

four miles northwest of the Seminole pool in central Gaines, indicated that it might prove an important extension of production. A one-hour drillstem test was made from 4,875 to 5,073, which showed 120 feet of drilling fluid, but no oil or gas other than slight initial blow. Drilling ahead, the well found good increases, according to cuttings, particularly from 5,000-98.

Tubing is being run for test this afternoon. The prospect is located 1,980 feet from the north, 660 feet from the west line of section 249, block G, W. T. R. R. survey.

Eastland Oil Company No. 1 P. C. Dunbar, in southwestern Gaines, ran 2 1/2-inch tubing to 4,583 feet, with packer set up in 5 1/2-inch liner at 3,000 feet. It was acidized yesterday with 1,000 gallons, which went in under maximum pressure of 900 pounds and minimum of 400. At last reports, hole had been swabbed down to bottom of tubing, with only a scum of oil showing. It is understood that the first acid job was in the nature of a flush and that a large dose will be run tonight.

No. 1 Dunbar is bottomed at 4,640 feet in lime. It is in section 24, block A-12, public school land.

Carter-Conoco No. 1 Willard, in the northwest Gaines pool, is drilling at 4,895 feet in lime.

Black-Eubank Well Gauged. Harry W. Black and Eubank Oil Company, Inc. No. 1 University, three-quarters of a mile southeast of the discovery well in the Choate & Hogan pool of northwest Crockett, pumped 40.56 barrels a day on

natural test. It will later be shot. Total depth is 1,410 feet, plugged back from 1,475 to shut off bottom-hole sulphur water.

Choate & Hogan No. 1-J University, farthest southeast well in the pool, is cleaning out after shot with 600 feet of oil in the hole. It was plugged back to 1,450 from 1,592 and shot yesterday with 80 quarts from 1,425-50.

Choate & Hogan No. 1-H University blew out 12-pound rotary mud, first at 1,095 and again at 1,105, with over 2,000,000 cubic feet of gas daily. Seven-inch casing has been cemented at 1,582 feet, with 100 sacks, and operators will drill plug today with cable tools. Total depth is 1,105 in anhydrite.

Magnolia No. 1-A McKee, in northern Pecos, is drilling at 6,611 feet in brown Ellenburger dolomite. A 45-minute drillstem test from 6,033 to 6,139 showed 28 feet of oily mud and slight blow of gas. The well topped the Ellenburger at 6,102 feet.

Rhodes Anhydrite High. Ray R. Rhodes, J. D. Tompkins et al No. 1 Emma Cowden, in southern Andrews, topped anhydrite at 1,630 feet, datum of plus 1,536, and is drilling below 1,722 in anhydrite and salt. On the marker it is running about 20 feet high to Sinclair-Pringle No. 2 Emma Cowden, small producer over a mile to the southwest.

Atlantic No. 1 Texaco-University, in southwest Andrews, was shut down for pump repairs this morning, bottomed at 3,783 feet in anhydrite.

Frank S. Perkins et al No. 1 E. P. Cowden, wildcat in southwest Andrews, cemented 5-inch casing at 8,004, 12 feet off bottom, using 500 See (Oil News) Page 4

## Hodza and Henlein to Meet Today

### Effort to Settle Dispute Ere War Starts in Europe

PRAHA, May 23 (P).—Konrad Henlein, leader of Czechoslovakia's German minority, returned to Praha tonight by airplane and was expected to confer, perhaps tonight, with Premier Hodza.

It was understood Henlein came from Vienna, where, presumably, he met with Nazi leaders.

LONDON, May 23 (P). — Prime Minister Chamberlain told the house of commons today Czechoslovakia's premier Hodza, and the leader of her nazified German minority, Konrad Henlein, would meet tonight or tomorrow in an effort to settle a dispute which has brought Europe dangerously near the brink of war.

Smiling, Chamberlain acknowledges cheers which greeted his announcement. "At the moment, the situation seems to have been eased somewhat," he said.

It was presumed the British government had been instrumental in bringing the antagonists together.

In Paris, informed quarters reported France and Russia had joined in warning Germany Czechoslovakia could not be made a theater of war like that in Spain.

France, apparently sure of eventual British backing, already had reaffirmed her pledge to help Czechoslovakia to the utmost under their mutual assistance pact — if Hitler marched to the east.

Britain — bound by no such treaty — had refused the Czechoslovaks a similar prior pledge of immediate military aid, but informed sources took pains to recall Chamberlain's statement in the House of Commons March 24.

"If war broke out it would be impossible to say where it would end and what governments might become involved. This is especially true in the case of two countries like Britain and France."

Authoritatively it was emphasized that the talks between von Dirksen and Halifax here and between Ambassador Sir Neville Henderson and German Foreign Minister Joachim Von Ribbentrop in Berlin still were aimed at peaceful solution of Czechoslovakia's minority trouble and because she believed Czechoslovakia could not go on forever as a divided state.

Britain already felt she had persuaded the Praha government to go the limit in granting concessions to the Germanic minority.

Britain did this because she feared France's force of saving Czechoslovakia, even by chance, might be geographically impossible and because she believed Czechoslovakia could not go on forever as a divided state.

## Rebel Plane Driven From Cardenas Home By Federal Ships

SAN LUIS POTOSI, Mexico, May 23 (P).—Federal combat craft Sunday drove off a rebel plane which made a second attempt to bomb the Villa Hermosa residence of President Lazaro Cardenas.

A fast transport ship of the bomber type, identified by federal authorities as one of two planes in possession of the rebel chieftain, Saturnino Cedillo, dropped four bombs near Cardenas' field headquarters Saturday.

The bombs, apparently 25-pounders, dug up the earth along a nearby airfield where Cardenas had stationed an air squadron to help put down the "Cedillista" rebellion, but did no other damage.

Villa Hermosa is three miles from San Luis Potosi, the headquarters of Cardenas' punitive campaign. Guards around the villa were increased following Saturday's air attack.

The rebel raider did not get close enough to drop bombs as it did Saturday, and easily outdistanced federal pursuit planes.

Meanwhile, Mateo Hernandez Nieto, governor of San Luis Potosi, disappeared from his state capital leaving a note that designated the chief of the state supreme court as acting governor.

A group of other governors supporting President Cardenas last night told Hernandez Nieto he must show quickly what side of the fence he is on. His disappearance followed.

One would never know from President Cardenas' demeanor he had a revolution on his hands.

Here to put down an agrarian uprising, Cardenas is working from 7 a. m. to midnight every day at his headquarters, Villa Hermosa.

He receives commissions of peasants and workers, confers with state authorities and rarely meets his military aides.

Last night at supper—yesterday was Cardenas' 43rd birthday anniversary—"Cedillistas" and Saturnino Cedillo, the rebel leader, was not mentioned.

## A Job for Every Faithful Citizen.

Considerable comment was devoted by the Texas Weekly to an incident occurring in Dallas recently, when two major business executives were called for jury service and promptly executed for duty, not even asking to be excused. On first thought, one would say that was no more than should be expected. But, on second thought, the incident really is deserving of favorable comment.

Jury service has come to be recognized as a job to do only when you are caught and cannot get off, or for unemployed men who care to serve to earn the \$3.00 per diem. Jury service is equally as important, if not more so, than going to the polls. Only through faithful service on the juries can the right thinking people back up the efforts of their peace officers and bring about a cleaner law enforcement.

No matter how busy a man may be with his own affairs, he still owes to his community and state his services as a juror when called upon. The trouble about the above incident is the fact that it was so unusual. Busy men have developed habits of using all available methods of evading their court duties, with the result that the courts have suffered in many instances. In many cities, professional jurors sit constantly about the court houses, waiting for calls which will give them a few jury fees. That is how they earn their livelihood. Wouldn't it be better for every citizen to take his turn, serving to the best of his ability and carrying out the principles of a democratic government.

## Behind the Scenes in Washington

**Editor's Note:** The opinions expressed in this article are those of Mr. Dutcher, NEA-Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, May 23. — Jim Farley's last-minute leap into the Pennsylvania Democratic primary brawl, although its compromise phases were tied up with the November election was part of a widespread administration campaign to nominate New Dealers which had been greatly intensified in recent weeks.

The White House game is to pretend a hands-off policy in intra-party contests while letting it be known, unofficially but emphatically, that Mr. Roosevelt has certain preferences. Less and less effort is being made to conceal these choices.

When Secretary Steve Early publicly denied the statement of Gov. Charles H. Martin, conservative Democrat, that President Roosevelt had once described himself and Martin as a "good pair," insiders knew that the administration already had sent word to Oregon that it wanted State Senator Henry L. Hess, labor-supported-liberal, to beat Martin for renomination.

"Senator for a Day." Another White House favorite is Congressman Otha D. Wearin of Iowa, a leader in the House pro-

gressive bloc who seeks the toga of Senator Guy M. Gillette, anti-New Deal Democrat. Wearin will have important Washington aid.

Senator Homer Bone of Washington: "The other day a party was held in Washington at which many ladies were present, and little favors were on the table, one of which I secured. It was a 'George Washington birthday' party, at which little hatchets were distributed. This is one of them. It is a very patriotic-looking hatchet, colored red, white and blue, but down in one corner of it appear the words 'Made in Japan'."

Gillette previously has claimed White House backing. He voted for the reorganization bill, whereupon an Iowa newspaper proclaimed Wearin "senator for a day," asserting his candidacy had frightened Gillette into temporary support of the President.

New Deal endorsement of Senators Barkley in Kentucky, McAdoo in California, Duffy in Wisconsin and Pepper in Florida was

## Live Coals

chronicled long ago. Now Gov. Olin D. Johnson of South Carolina has seen Roosevelt and announces his pro administration candidacy against conservative Senator "Cotton Ed" Smith, who has left Washington before congressional adjournment for the first time in 30 years to test the strength of his fences. And Governor Rivers of Georgia has lunched conspicuously at the White House, presumably as a prelude to announcement of his candidacy against anti-New Deal Senator Walter George.

**NLRB WINS 22 Out of 25.** The National Labor Relations Board has been catching more abuse than any other government agency—which is quite a distinction. But it seems to be the Supreme Court's darling just the same. Even the lower federal courts have been upholding the NLRB in test cases with almost monotonous regularity. Nine circuit courts of appeal have decided in favor of the board 22 times out of 25. One of the three unfavorable decisions has just been reversed by the Supreme Court and another was lost by default.

In the Supreme Court itself NLRB lawyers have chalked up 10 straight victories, sustaining no defeats despite contention by some of the country's most expensive attorneys that the Wagner act was unconstitutional.

In the Mackay Radio and Telegraph case involving NLRB's order to reinstate union leaders after a strike and its order to the Third Circuit Court to show cause why its refusal to let the board bolster its procedural record shouldn't be overruled, the Court went far charges of sloppiness or unfairness in its procedure.

Although dead cats still fly, the atmosphere around NLRB continues serene.

## Wind Does Not Blow On the Plains—It Is Pushed Along

AMARILLO (AP).—All the talk about the wind blowing in the high plains country is just "hot air." The wind doesn't blow on the plains. It is either pushed or pulled and has nothing to do with the motion itself.

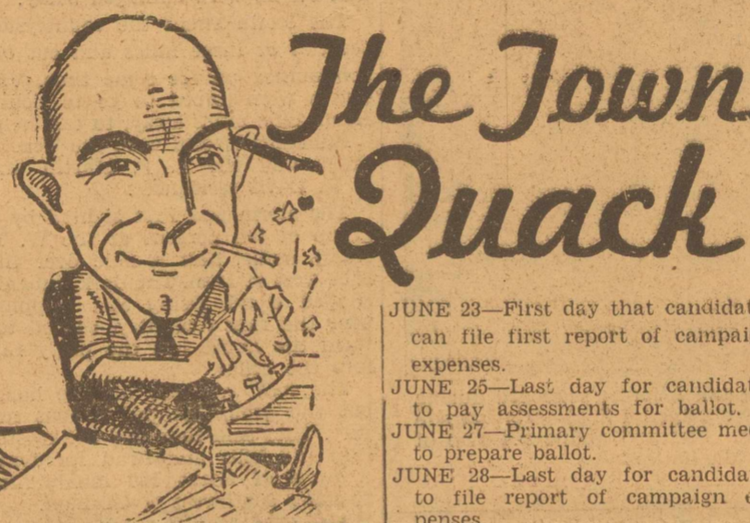

Weather Observer H. T. Collman at Amarillo says the south and southwest winds, the most prevalent on the plains, are usually pulled by a low pressure area. The north winds, he says, are pushed—that is, they "slide" down the pressure grade from high to the low.

The recent severe spring blizzard that caused heavy damage in the Texas Panhandle was pushed across the plains, says the weather observer.

The wind probably is the most talked of thing on the plains and visitors frequently ask: "What makes the wind blow so much out here?"

Collman explains it, again calling to the fact that the wind doesn't blow. Unequal heating of the earth's surface, he says, causes the motion of the air. The dry air in the plains country is more lively than in a damp climate and is easier pushed or pulled.

The summer winds, says the weatherman, are not necessarily caused by high or low pressure areas but by the heat. In the great body of practically treeless land, he says, the sun's rays hit the earth and glance upward and this heat puts the air in motion. The summer winds are usually pushed or pulled only in the daytime, since there is a lack of necessary heat at night. The summer day winds usually are moved toward the northeast (southwest wind) because of the force caused by the rotation of the earth. In general, says the weatherman,

Being just about out of anything to say, after a day of rest, I'm going to answer some questions I've heard expressed recently by printing a clipping which gives the dates of all details concerning elections in Texas. Here is the election calendar:

- JUNE 23—First day that candidates can file first report of campaign expenses.
- JUNE 25—Last day for candidates to pay assessments for ballot.
- JUNE 27—Primary committee meets to prepare ballot.
- JUNE 28—Last day for candidates to file report of campaign expenses.
- JULY 3—First day for absentee voting for first primary.
- JULY 11—First day that candidate can file second report of campaign expenses.
- JULY 15—Last day for candidates to file second report of campaign expenses for second primary.
- JULY 30—(a) County executive committee meets to canvass returns. (b) County conventions are held.
- AUG. 2—(a) Last day for candidates to file third report of campaign expenses for first primary. (b) Last day for candidates to file first report of campaign expenses for second primary.
- AUG. 7—(a) First day for absentee voting for second primary. (b) State executive committee meets to canvass returns.
- AUG. 15—First day that candidates can file second report of campaign expenses for second primary.
- AUG. 19—Last day for candidates to file second report of campaign expenses for second primary.
- AUG. 24—Last day for absentee voting for second primary.
- AUG. 27—SECOND PRIMARY ELECTION DAY.
- SEPT. 5—Meeting of state executive committee.
- SEPT. 6—Last day for candidates to file third report of campaign expenses for second primary.
- SEPT. 13—Meeting of state convention.
- OCT. 19—First day for absentee voting for general election.
- NOV. 5—Last day for absentee voting for general election.
- NOV. 8—GENERAL ELECTION DAY.
- NOV. 18—Candidates must file report of campaign expenses with county judge.

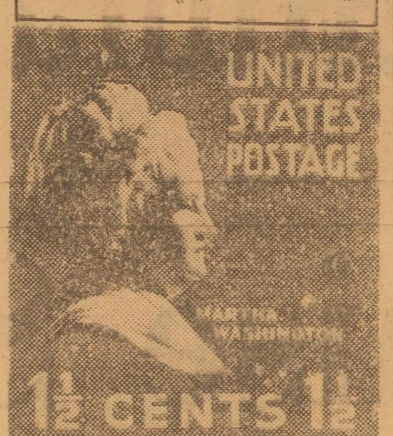

the high pressure areas move southeastward and the low pressure areas travel northeastward. The rotation of the earth controls the pressure area movements.

While on the subject of the wind, Weatherman Collman explained why the wind comes back from the south after being forced out of the north several hours or days. When the wind moves it goes from one place to another. In the area into which it moves (or is moved by the pushing or pulling force), the air piles up like dirt. The forces that have caused the wind to move become somewhat reversed and the wind is then moved back where it started. That isn't the only reason it moves, however. It has to be moved back before there can be more wind from that particular direction because there can be no more wind from that direction until the supply of wind is moved back. The weatherman says it's so. He has been forecasting plains weather 14 years.

The term "Eurasian" first was used in India years ago to describe the child of a Hindu mother and a Portuguese father.

## Stamp News

SECOND of the new U. S. regular series is the 1 1/2-cent Martha Washington stamp, the design of which is shown above. It is printed in brown and identical in motif with the 1-cent George Washington value.

To complete the current King George VI regular issue of stamps, the Canadian Post Office Department will issue six values, June 15, as follows:

- Ten-cent: Memorial Chamber, Ottawa; Peace Tower; 20-cent: Fort Garry Gate, Winnipeg; 50-cent: entrance, Vancouver harbor; \$1: Chateau de Ramezay, Montreal; 6-cent: airmail, scene on the Mackenzie river; 20-cent: special delivery, Canadian Coat of Arms. Colors have not been decided.

Orders for these stamps in mint condition may now be sent to the Philatelic Division, Financial Branch, Post Office Department, Ottawa. First-day covers should be forwarded to District Director of Postal Services, Ottawa. No checks will be accepted. The stamps are much larger than usual.

Interesting new issues: Chile—Six values to commemorate the 50th anniversary of the acquisition of civil rights over fascinating Easter Island (available Sept. 9); Fiji Islands—Ten values depicting island life; Iceland—Four values portraying Icelandic geysers.

Design for the U. S. Delaware tercentenary stamp will very likely depict the landing of the Swedes. The new stamp will be square, purple and of the 3-cent denomination. It will go on first-day sale in Wilmington, June 27. (Copyright, 1938, NEA Service, Inc.)

## Periodic Cleaning Advised for Engine Cooling Systems

An efficient engine cooling system is more important today than ever before because of the present

## Something to Crow About

As arrogant as it is rare, this Yokohama rooster, displayed by its owner, Mrs. J. E. Pepin of Los Angeles, has a "train" 15 feet long. Mrs. Pepin and her husband, who are animal importers and exporters, believe this longtailed bird and its mate are the only members of their species in America. They arrived recently from Korea.

trend toward higher cruising speeds and long distance travel, according to Ford Motor company engineers. Rust, dirt, oil and grease accumulate rather quickly in the cylinder water jackets and radiator and seriously interfere with proper cooling.

On the car of today the cooling system fills two important functions. It cools the engine and it also keeps the engine at the best operating temperature. Unless the system is clean, neither function is properly fulfilled, and internal overheating results. This causes engine oil film to break down, and increased wear comes on cylinder walls, pistons and pins, rings and bearings. Sometimes the result is scored cylinders and pistons, and burned-out bearings. Gas and oil consumption increase, and general efficiency is lowered. For cleaning, draining the radiator and refilling it with fresh water is not always sufficient. A solvent must sometimes be used to dissolve the scum which collects in the radiator and throughout the cooling system. In the automobile cooling system, rust and dirt are held together by oil and grease. Both rust and scale formations and also oil and grease must be removed, as both interfere with cooling. For this purpose only a non-acid cleaner should be used. A cleaner of this type has just been announced by the Ford Motor company, which is safe, effective and easy to use. The package contains a liquid and a powder.

**One reason you hear CLEARLY...**

Western Electric\* telephones are made to work together

\*Western is manufacturing and supply unit for the Bell System

Whether you're talking across the street or to San Francisco, it doesn't "just happen" that you hear clearly and easily over the telephone. One reason you can do it: Western Electric telephones, precision manufactured for the entire Bell System, are the same all over the country. You might say they're "tuned" to each other, somewhat like radios to a broadcasting station.

If telephones and equipment weren't uniform, voices might not be clear. It would be vastly more difficult for us to give you the good service at low cost that you have come to expect.

## Novel Announcement Tells Engagement of Couple

"Letting the cat out of the bag" in a 1938 interpretation of the traditional saying, Mrs. C. E. Strawn entertained with a betrothal party at her home, 605 W. Indiana, Saturday afternoon, announcing the engagement and approaching marriage of her daughter, Marcella to Elton Hinze. The wedding will be an early morning ceremony at the home of Mr. and Mrs. Ernest Neill, 411 North A street, Sunday, June 12.

Pink and white were stressed in appointments for the party. Baskets and vases of pink roses and pink larkspur were used in the reception rooms.

Various games were played during the afternoon.

At the tea hour, a pink and white party plate was served featuring individual cakes in the chosen color.

and ice cream moulded in the shape of pink wedding bells adorned with cupid.

Tiny white cats peeping from pink bags bearing the written message "Marcella and Elton, June 12."

The bride-elect has lived here for a number of years and is a member of the high school graduating class which will receive diplomas this week.

Mr. Hinze has lived in Midland about two and a half years, coming here from Orange Grove. He is associated with the Midland Bottling Company.

Present were: The honoree, Misses Neva Rae Drake, Doris Tidwell, Johnnie Fay Howe, Charline Parrott, Daphne Shafer, Freddie Lou Barber, Alene Buck, Jane Doran, Mmes. Garth Neill, C. M. Dunagan, Hugh Lytel, Ruben Etzel, Ernest Neill, and the hostess.

## Soft Veils, Gay Flowers Create Millinery Brimful of Romance

This utterly flattering Nicole hat of rough white straw is entirely covered with tiny white flowers with pale yellow centers. Over flowers and hat goes a frothy white veil, tied in a huge bow at back.

By MARIAN YOUNG  
NEA Service Staff Correspondent.

NEW YORK.—There's nothing casual about the smartest hats for summer. From wide-brimmed cartwheels to tiny pillboxes and toques, the majority are lavishly trimmed with veils and flowers and ribbon.

Veiling, in pastels and bright colors as well as navy, black and white, is used in dramatic fashion. Sometimes a veil fits snugly over the face, tying in a bow at the back and reminding one of the veils of the horseless carriage days. Again it is gathered off the face and up at the back, falling down over shoulders only.

Several modistes use navy veiling with bright pink dots over navy hats. Bright yellow honeycomb net is tied in a huge bow on the crown of a gay straw Breton and allowed to fall in rippling cascades to the waistline at the back. A wide, navy blue sailor of rough straw is finished with three cabbage roses across the front, and a delicate, lacy veil in navy blue goes over hat and flowers. For the crown of a wheat colored straw cartwheel, Juliette Nicole uses navy blue honeycomb net. A bow at the front matches the crown.

Flower trimmings continue to be as popular as veils. Sometimes crown and brim are entirely covered with tiny blossoms. Again, one sees a romantic hat with enormously wide brim and a shallow crown woven of leaves and flowers. The hair shows through between the blossoms.

A scarlet straw lampshade has clusters of cherries in various shades of red and sprays of little field flowers in blue, cream and yellow hanging from the peak of the crown to the center of the brim in front. A white sailor with brief white veil is trimmed with black patent leather roses. Another white sailor—slightly wider—has a spray of purple violets instead of black patent roses.

Equally dressy, but infinitely more simple, are cartwheels and sailors of linen straw which depend on unusual color combinations and neat ribbon trimmings for interest.

Turbans Are Practical. Less dressy and flattering to the majority are fabric turbans. These are inexpensive, easy to keep on when summer breezes blow more briskly and come in gay prints as well as plain fabrics to lend interest to costumes that include white frocks and white shoes. In more elaborate materials, the turban makes a perfect afternoon or dinner hat.

For resort and casual street wear, washable hats remain important. A white linen model has a narrow brim attached to the crown by means of a circular slide fastener. When separated, both crown and brim are simple to iron.

Crownless hats—so popular last year—will be as popular again. For traveling and for town, the fedora-shaped navy felt cannot be beat. And for evening, there are all manner of elaborate head-dresses.

To wear with a dinner costume,

For hot summer days, Juliette Nicole, one of America's topnotch modistes, created these three beautiful bonnets. The sophisticated model, top, has a wide brim of straw in the color of golden wheat and a crown and bow of navy blue honeycomb net. In the center is a bright red lampshade hat, trimmed with clusters of cherries in various shades of red and field flowers in blue, cream and white. The other wide-brimmed model, below, is of linen straw in rich, dark purple. The crown is faced with bands of wine, raspberry and the pink grosgrain, and the bow on the shallow crown matches the grosgrain.

a Paris designer makes a tiny pill-box of black satin ribbon with printed 18th century design in delicate pastel colors. A pert bow is purposely asymmetrical to increase the wearer's stature. Chanel shows a headdress of white faille ribbon and a branch of small flowers with a romantic summer dance frock. And for motoring or active sports, Aubry, one of the well-known coiffure experts in Paris, puts tubular grosgrain ribbon around and into curls of a lovely daytime hair-do. The ribbon matches a sports motif scarf to be knotted casually under the chin.

## Jr. Wednesday Club Sponsors Dance at The Scharbauer

Concluding club activities for the year, members of the Junior Woman's Wednesday club entertained with a public dance in the Crystal ballroom of Hotel Scharbauer Saturday evening.

C. A. Rogers and his orchestra from Lubbock played for the dancing.

personal world) if they try hard enough.

Not even years of personally experiencing slaps in the face, disappointments, and sundry other calamities that accompany adult life as a wage-earning individual has destroyed our belief that a person can "conquer the world" in the sense of attaining success, setting up the right values in life, and getting a good-sized share of love, friendship, and happiness along the way.

But far too many boys and girls have been taught such a heartening doctrine and therefore go out into the struggle of adult life depending on "breaks" to carry them on to success or down to failure. Everybody gets "breaks" both good and bad. The average man will succeed if he takes the good ones that come his way but does not over-rate the importance of either the good or bad ones.

Women of ours and other civilized lands think themselves lucky if they have diamonds to bedeck themselves for special occasions. But diamonds, to the native women of some parts of British Guiana, have no more significance than a dime store grater would have to the American housewife. They use them in grating boards in making their daily bread.

Rough diamonds, so we are told, are panned from nearby streams and imbedded in wax covering a slab of wood, to form a grating board.

A new variation in the poly-color rage is shown in an evening gown of net. Wide bands of the net in blue, peach, and yellow, combined vertically, form the skirt and bodice, worn over a peach slip. The soft colors are pleasing to the eye and the up-and-down design lend a different air to the gown.

The sash is peach color.

## Former Midland Girl Weds Stanton Man Saturday

STANTON, May 23. (Special). — Miss Margaret Parks, daughter of R. L. Parks, Sr., became the bride of Wayne Moffett Saturday evening at 8 o'clock, at the home of Mr. and Mrs. Ray Simpson.

The service was read by the Rev. Fred McPherson, pastor of the First Baptist church. Only relatives and a few intimate friends witnessed the ceremony.

The nuptial vows were taken before an improvised altar in the living room of the Simpson residence. Roses added a colorful note to the floral decorations throughout the house.

Miss Allene Kaderli of Midland, gave a vocal solo preceding the entrance of the wedding party.

The bride wore a brown silk marquisette afternoon frock. With this she wore brown and white accessories. She carried a bouquet of yellow roses.

Following the ceremony, the young couple were honored at a buffet supper at the home of the groom's parents, Dr. and Mrs. J. E. Moffett.

Immediately after the supper the bride and groom left on a short wedding trip.

Mrs. Moffett has lived here since childhood. She attended high school in Stanton and Midland.

The bridegroom is the son of Dr. and Mrs. J. E. Moffett. After being graduated from Stanton high school, he attended Texas Tech and Howard Payne college. At the present time he is connected with the First National bank here.

## Senior Endeavor Disbands for the Summer Months

"Friendship" was the topic of the Senior Endeavor of the First Christian church which presented its last program Sunday evening before disbanding for the summer.

Paul Shipley was leader for the evening.

Talks were made by Billy Noble, John Pickering, Peggy Wright, B. W. Reer.

A round table discussion followed the lesson.

Dismissal for the evening closed the group's activities until next fall.

**Junior Group.**  
Program for the Junior Endeavor meeting opened with a song service after which Mrs. J. E. Pickering talked on the scripture lesson of Philip and the Eunuch.

Taking part on the program were: Bonnie and Frances Collins, Ada Belle and Leroy Reader, Sylvia Holiman, Betty Ruth and Eloise Pickering.

After the business session, Mrs. J. K. Graves taught the Bible lesson.

## Naomi Class Plans Business Meeting

Mrs. J. Howard Hodge taught a lesson on "Serving Through Christian Citizenship" at the meeting of the Naomi class in the private dining room of Hotel Scharbauer Sunday morning.

Miss Mary Lowry led the lesson reading and Miss Ruth Guy the scripture selection reading.

Miss Frances Farnham played the offertory.

The song service was led by Miss Hove Jenkins.

Twenty-five members were present.

A business session was also held. Announcement was made that the class will have a business meeting at the home of Mrs. W. P. Knight, 1201 W. Missouri, Wednesday evening at 8 o'clock.

# Elton Dozier Cops City Tournament

### Winds Up With Nine Stroke Lead Over Field Late Sunday

Eighteen-year-old Elton Dozier continued to play sub-par golf yesterday to capture the second annual City Golf Tournament and win control, for the next year, of the Reporter-Telegram loving cup.

Dozier, who shot a seven under par 65 Saturday afternoon, came back yesterday morning with a 71, one under par, to further increase his lead over the field and, despite a 78 yesterday afternoon, wound up with a 213 and a nine stroke lead over C. V. Lyman, runner-up. A strong wind that was whipping across the course was blamed for his high score in the final round but he had a large enough lead that it did not matter.

Lyman, after shooting a 78 in his qualifying round, came back with a 73-71 yesterday to finish with 222, one stroke better than Jim Smith, defending champion. Pat Riley was the only other championship qualifier that played the entire 54 holes, winding up with a 234. F. A. Stacy, E. B. Dozier, O. S. Black and Paul Oles dropped out on the final 18.

In the first flight, Harry Sindorf captured top honors with a 239 and M. A. Park was runner-up with a 254. W. P. Thurman had a 256, C. E. Schlessler a 264 and Harry Prickett shot a 274. S. P. Hazlip, Rex Sackett and Bill Simpson all dropped out on the final round.

In the second flight, Sam Laughlin won first prize with a total of 262 strokes for the 54 holes played. Jim Harper was runner-up with 264 strokes and R. W. Hamilton, A. E. Horst and Bill Van Huss all tied for third place with 267. R. D. (Bob) Seruggs and Clint Lackey dropped out after two rounds.

Third flight prize for first place went to G. M. Shelton when he wound up with a 267. Runner-up honors went to C. A. Mix with a 276 and J. M. White was third with a 277. Addison Wadley, D. C. DeVito, W. G. Henderson, W. T. Bostwick and Lee Quinn all dropped out along the way.

The paper made in one year in the world would make a path a mile wide around the earth.

### SPUDDERS SUNDAY, 1-10 AND 13-14 CARDINALS DROP DOUBLE-HEADER TO

WINK, May 23 (Special).—The Wink Spudders retained their position only one-half game behind the league-leading Lubbock Hubbers by defeating the Midland Cardinals in two games here Sunday. The scores were 10-1 and 14-13.

Both games were played in a driving sandstorm that caused play to be halted at frequent intervals. The 16 innings played took up four hours and 30 minutes, and spectators and players alike were well tired out when the games were finally over.

"Lefty" Lucas, who lost a 1-2 tenninning decision to the Cardinals Wednesday night, started on the mound for the Spudders and was

in complete control all the way as he limited the visitors to four hits. Meanwhile, the Spudders were hoping on the combined offerings of Froschauer and Warren for 14 safeties. Fullenwider and Bates got home runs for the victors.

The second game was a slam bang affair with first one and then the other club in the lead. Wink finally winning out in the last half of the seventh when they scored two runs on a homer by Outfielder Cheeves. Barnhill and Quick also hit four-base blows for the winners while Brown, Battie, Doodoorian and Soutar hit homers for the losers.

Score by innings:  
Midland ..... 001 000 000—1 4 3  
Wink ..... 000 123 31x—10 14 3  
Batteries: Froschauer, Warren and Beers; Lucas and Bates.

Midland ..... 070 212 1—13 10 3  
Wink ..... 023 004 2—14 12 5  
Batteries: Campbell, Warren, Parks and Ballinger; Minchew, Hayes, Ferguson and Bates.

### All Types of Clubs In Semi-Pro Tourney

WICHITA, Kan.—Every type of baseball club will be represented in the series of district, state and regional tournaments which precede the national finals here August 12 to 24, according to Raymond Dumont, president of the National Semi-Pro Baseball Congress.

There will be towns entering clubs which don't have much larger populations than the number of players on their squad. On the other hand, industrial firms, employing thou-

sands of persons, will be represented. In addition, OCC teams throughout the United States will make their bids for the national crown by entering the district tourneys to be staged throughout the United States between June 20 and July 10.

Even church and lodge clubs have entered the program in the past. During the three years the national tourney has been staged under sanction of the National Semi-Pro Baseball Congress, an industrial team has won each time. These clubs came from Mismarck, N. D., Duncan, Okla., and Enid, Okla.

A team from one of the United States Army forts, Ft. Crook, Neb., proved to be a sensation in the national playoffs last year. A youthful Fort Crook pitcher, Herman Fischer was signed by the St. Louis Cardinals after the tourney.

Organizations desiring to enter the program of the National Semi-Pro Baseball Congress may write for full particulars at semi-pro headquarters in Wichita, Kan., Dumont said.

THE STATE OF TEXAS,  
County of Midland,  
NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Midland County, on the 26th day of March, 1938, by Nettie C. Romer, Clerk of said District Court, for the sum of Ninety Hundred Seventy-Five and 60/100—(1975.60)—Dollars and costs of suit, under a judgment, in favor of Texas Bitulithic Company in a certain cause in said Court, No. 2574 and styled Texas Bitulithic Company vs. Lizzie Moran et vir., placed in my hands for service, I, A. C. FRANCIS, Sheriff of Midland County, Texas, did, on the 14th day of May, 1938, levy on certain Real Estate, situated in Midland County, Texas, described as follows, to-wit:

Lot 4 and all of abandoned alley except North 75 feet in Block 84, Original Town of the City of Midland, Midland County, Texas, and All of Lots 6, 7 and 8, Block 84, Original Town of the City of Midland, Midland County, Texas, and levied upon as the property of Lizzie Moran and that on the first Tuesday in June, 1938, the same being the 7th day of said month, at the Court House door, of Midland County, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Lizzie Moran.

And in compliance with law, I give this notice by publication, in the English language, one week for three consecutive weeks immediately preceding said day of sale, in the Midland Reporter-Telegram, a newspaper published in Midland County.

Witness my hand, this 14th day of May, 1938.  
A. C. FRANCIS,  
Sheriff, Midland County, Texas.  
By Fisher Pollard, Deputy.

Houston at San Antonio.  
Only games scheduled.

### Running the Gamut of All the Emotions at Punch and Judy Show

Registering every reaction from delight to horror, these young spectators at a puppet show in Richmond, Va., respond to a degree that would please the most wooden-headed of puppets—or flesh-and-blood actors, for that matter. This unusual and entertaining picture shows varying feminine emotions as Punch bopped Judy over the wig with a rubber hose or something. Apparently the show is just too awful to see or hear—if you judge by the contortions of the two little girls in the "first row seats at the extreme left." But the young ladies on the right are entering into the spirit of the conflict with great zest. The masculine spectators seem uniformly pleased, except the one young fellow in the front row who seems to find the antics of his friends more diverting than the puppets.

### HUBBELL FEARS LAW OF AVERAGES TO CATCH UP WITH GIANTS THIS SEASON

Carl Hubbell

By HARRY GRAYSON  
Sports Editor, NEA Service.  
National League.  
Johnny McCarthy at first base has been hitting long balls and fielding well.  
Dick Bartell, one of the game's great shortstops, has been batting above 300.  
Mel Ott avoided the early season slump he suffered a year ago. He is a good enough third baseman, despite the fact that he played right field for so many years.  
"But even a well-balanced outfit like the Giants can't beat too much misfortune such as the loss of Bur-

gess Whitehead," confides Hubbell. The fifty second baseman was sent home suffering from a nervous breakdown. It followed complications which were the outgrowth of his appendectomy.

"Fortunately," explains Hubbell, "Lou Chiozza has been going great guns in Whitehead's place. We've been extremely lucky."

Giants Start in Better Condition.  
King Carlos doesn't believe that the Giants' flying start is an indication that they will cop the pennant in a walk. He believes the Polo Grounders obtained the jump on the remainder of the field because they started in better condition.

Hubbell attributes the Giants' spring fitness to their annual barnstorming training tour with the Cleveland Indians, one of the toughest teams in the American League.

There is real rivalry between the clubs. Playing that kind of opposition, the New York pitchers bear down. Fielders and hitters hustle, with the result that when the championship season opens, both arrays are ready to tackle all comers. The Tribe usually gets off to a flying start, too.

Hubbell rates the Cincinnati Reds the most improved club in the National League. They have been the hardest for the Giants to beat to date this spring. Aggregations led by Bill McKechnie are difficult to top, even when Wilkinsburg will hasn't too much talent. His men play sound baseball all the time.

Terry Takes Tip from Yankees.  
Asked to name the hitters who give him the most trouble, Hubbell lists Joe Medwick, Tony Cuccinello, Ernie Lombardi, and Gabby Hartnett.

"Cuccinello hits me like he owns me," smiles the remarkable left-hander, "though he doesn't seem to be able to give other pitchers headaches."

"While we were playing in Chicago the other day, I told Hartnett, 'Gabby, every year I decide that you're getting bigger, uglier, and harder to get out.'"

Hubbell at 34 asserts that he never felt better. The gentlemanly Oklahoman is beginning to believe that he is an exception to the rule that

baseball players get softer with age.

In reply to the question, "What club will bag the National League flag?" the Giants shout, "If not us, then try to select the team that will finish in front."

That is quite a problem, with Dizzy Dean out of the Cubs' lineup and old Tony Lazzeri hitting in the clean-up position, with the Pirates finding it necessary to rebuild, and with the St. Louis Gas House Gang a thing of the past.

Continued from page one

sacks of cement in the job. Eighty-two feet of cement plug is on bottom, but this will not be drilled out. Operators will gun-perforate the casing in zones that showed for production. Perforation job probably will not be made until next Monday.

H. S. Forgeron No. 1 Lockhart & Brown, west of the Fuhrman pool in Andrews, bridged hole from 4-312-30 and will re-cement 7-inch casing at 4,302 today. First two cement jobs failed. The well is bottomed at 4,483 feet in lime which showed some saturation and porosity from 4,400 to total depth.

Foster Edge Well Large.  
Arrow No. 2 Foster, east edge well in the Foster pool of Ector, flowed spring. Aggregations led by Bill McKechnie are difficult to top, even when Wilkinsburg will hasn't too much talent. His men play sound baseball all the time.

Gulf No. 1 Futch, one-mile west extension to the Denver field in Yoakum, swabbed 142 barrels of oil and eight barrels of water in 48 hours. It is cleaning out at 5,050, with total depth 5,170.

Ray Albaugh No. 1 Hogg, in southeast Dawson, is drilling at 4,110 feet in lime, carrying 1,200 feet of water.

In northwest Lynn, John L. Baldridge No. 1 Alamo Lumber Company is preparing to drill plug from 7-inch casing set at 4,450, total depth. Standard tools have been rigged up.

Devonian No. 1-C-8 Duggan, wildcat two miles south of the Duggan pool in southeast Cochran, is drilling at 3,500 feet in anhydrite and red rock. It topped anhydrite at 2,310 feet.

# Mexico Wants to Be Good Neighbor

By WILLIS THORNTON  
NEA Service Staff Correspondent.

MEXICO, D. F.—President Lazaro Cardenas today gave definite assurance that Mexico has no intention of shutting her doors entirely to foreign capital.

On the contrary, he declared that Mexico's doors are wide open to new foreign capital "for productive purposes without the aim of unduly exploiting Mexican workers."

In an exclusive statement through NEA Service, the leader of Mexico's "Super New Deal" revealed that some of the conclusions drawn from the expropriation of American oil properties in Mexico have been too broad.

The present wave of enthusiasm for "economic independence" will not go so far as to exclude foreign trade or try to develop a self-sufficient economy, Cardenas said. He gave assurance that Mexico hopes for a more extensive commerce, realizing that many products can be manufactured to better advantage elsewhere and are needed in exchange for Mexico abundant raw materials.

These and other vital clarifications of Mexican policy were made by President Cardenas in answering specific questions bearing on future Mexican-American relations.

### Has Far-Sighted Program.

His vision of better and more mutually-satisfactory relations with the United States was revealed in the carefully-considered answers framed by the leader of the political forces which are trying to drag Mexico out of the Middle Ages by its bootstraps and push it into day after tomorrow.

Because President Cardenas is not fluent in English, personal interviews present difficulties and a chance of misunderstandings. Hence written questions were submitted and he answered in Spanish, over his own signature. The questions and the English translation of the president's answers, follow:

### EXPROPRIATION.

Question: What may Americans properly read in the oil expropriations as to the future of other American business interests in Mexico, present and future?

Answer: The expropriation of the petroleum industry was due to the necessity of preventing the paralyzation of that industry and the consequences which such action would have brought about. That situation arose with the purpose of bringing about a closer relationship in their dealings with one another. Mexico gives every facility to tourists, not only for the commercial advantages which the tourist business has for a certain section of our people, but principally because Mexico believes that those who visit and travel freely about the country are naturally the best ambassadors of understanding and good-will when they return home.

Notwithstanding the official formalism which at times makes contacts between peoples difficult, diplomatic relations, nonetheless, are indispensable between nations. Mexico maintains friendly relations with many peoples of the earth regardless of the ideologies of their governments, for Mexico believes that the policies of each government may be transitory, while relations among peoples, in their very nature, must be enduring.

### SELF-SUFFICIENCY.

Q: Is the oil case the forerunner of a conscious effort to begin a self-sufficient economy?

A: Mexico does not believe an economy of national self-sufficiency is possible, in the sense that the country does not need international trade. On the contrary, Mexico hopes for a more extensive commerce which will permit the country to exchange its raw materials for manufactured products since its own industries cannot as yet fully satisfy the demands of its consumers, nor would it be advisable for Mexico to attempt to produce as yet those goods which, because of special conditions, it is unable to manufacture economically.

Q: If the Supreme Court's decision as to constitutionality of the expropriation of the oil properties should be adverse, would the government be prepared to return the properties?

A: The Executive Power respects the decision of the Supreme Court. Within the division of powers established in the Mexican Constitution, each branch of the government is independent of the other and all are mutually respectful to each others' autonomy.

Q: Does your administration plan to readjust tariff schedules to permit American trade with Mexico to return to normal?

A: The need for revising our tariffs on foreign imports is to be discussed by the Mexican Congress now in session. As was stated from the moment when the tariffs were raised, the measure was of transitory nature in order to meet an emergency situation.

President Lazaro Cardenas

U. S. RELATIONS.  
Q: How may better understanding between the United States and Mexico and Latin-American countries in general best be encouraged?

A: All methods which help to develop understanding between peoples are useful for the purpose of bringing about a closer relationship in their dealings with one another. Mexico gives every facility to tourists, not only for the commercial advantages which the tourist business has for a certain section of our people, but principally because Mexico believes that those who visit and travel freely about the country are naturally the best ambassadors of understanding and good-will when they return home.

Notwithstanding the official formalism which at times makes contacts between peoples difficult, diplomatic relations, nonetheless, are indispensable between nations. Mexico maintains friendly relations with many peoples of the earth regardless of the ideologies of their governments, for Mexico believes that the policies of each government may be transitory, while relations among peoples, in their very nature, must be enduring.

Q: To what extent has the "arming of the proletariat" been carried out, in what manner, and to what purpose?

A: The farmers of Mexico are organized as an auxiliary to the National Army for the purpose of maintaining order and peace in the regions where they live.

Q: Do your plans insure the vote for Mexican women in the future?

A: Congress is discussing this question during the present session. There is no real reason for denying the vote to women in a country where the laws have already accorded them economic liberty, the actual basis for political rights.

CHIEF PROBLEMS.  
Q: What are Mexico's chief problems? Educational? Economic? Social? Political?

A: The problems of Mexico are all intimately related. One might best say that rather than various problems, it is a question of many aspects of a single problem. Quite as important as the economic is the educational, the social or the political, but at any given moment,

President Lazaro Cardenas of Mexico, who today is only 43, entered public life at 11. You see him in the center picture above as a boy clerk in the tax office of his home town of Jiquipilan. He joined the revolution at 18, and is pictured at left as he appeared when he was a guerrilla fighting against Huerta in 1913. Soon he won promotion to a captaincy, and at right is the way he looked a year later while commanding a cavalry regiment. Although a full general today, he almost never wears a uniform, and regards the turbulent military experiences of his youthful days as a phase which Mexico will never face again.

any one of these may take special importance. Thus, at the present time, the situation arising as the result of the oil expropriation gives special significance to our economic problems.

This temporary situation brings into clear relief the real nature of our economic organization. Up to the present time, the principal sources of the country's wealth have been exploited with the sole aim of getting rich at any price. Because of this fact, the tendency has been to exploit men rather than natural resources.

The education problem is being cared for to the maximum of our

### Japanese Tighten Hold on Chinese

SHANGHAI, May 23 (AP).—The Japanese high command reported Sunday an unbroken circle of steel was being slowly compressed around Chinese forces on the central China war front and that complete annihilation of the defenders was under way.

The Japanese estimated 250,000 disorganized Chinese were trapped in an area 25 miles long and 15 miles wide, jutting out from the fallen railway junction of Suchow, with Japanese legions pouring in from all directions.

The territory around which the Japanese were closing lies south of the Lunghai railway and east of the north-south Tientsin-Pukow railway, extending from southeast of Suchow to the picturesque Grand Canal, on the east.

Meanwhile the Japanese staged their first air raid on the Peiping-Hankow railway, down which they plan to drive on China's provisional capital, Hankow.

### Volunteer Firemen Total 130,000 in Pennsylvania

PHILADELPHIA (AP).—About 6,000,000 of Pennsylvania's nearly 10,000,000 inhabitants depend on volunteer firemen for fire protection.

Of 135,000 firemen in the state, 130,000 are members of volunteer companies. Reading, a city of 111,000, in the 1930 census, is served by volunteers.

economic possibilities. This problem is considered central in the life of the country, intimately related to all others.

For example, in solving the agrarian problem, it is necessary that the distribution of lands and the giving of credit to the collective farmers be complemented by a technical, economic and social education that will enable farmers not only to cultivate their lands intelligently but will give them a clear understanding of the reaction of their own products to national and foreign markets.

In the narrow sense of the word, there is no political problem in the country at the present time.

CIVIL LIBERTIES.  
Q: Do you propose to maintain complete civil and political liberty in Mexico for those not

included in your party? Do you propose to maintain complete liberty to worship according to conscience?

A: The Party of the Mexican Revolution (Partido de la Revolucion Mexicana) supports the present government. However, this should not be taken to mean that other political parties in opposi-

### FLOATING RIDE IS LATEST ADVANCEMENT IN BICYCLE DESIGN

Matching strides with automotive engineers' never ending drive for greater passenger comfort, the Firestone Tire & Rubber Company now introduces a new bicycle featuring "jolt-free" action on front and rear wheels. This new bicycle, known as the Twin-Flex, incorporates a coiled-spring shock absorber just above the fork of each wheel hanger. Road shock and vibration from chatter bumps are absorbed before they are transmitted to the rider. Control of the tension of the shock absorber is effected through an adjustment nut at the top of the spring. This feature makes it possible to set ride control at the point of maximum comfort, regardless of street or highway conditions.
