Number 76

Canton Again Hit from Air By Japanese

Dead and Wounded Estimated at 1500 By Chinese Today

CANTON, June 6 (AP).—Japanese warplanes rained bombs on Canton in two punishing raids today as the Chinese estimated the toll of dead or wounded at 1,500.

More than 100 bombs were dropped in two raids, one scoring a direct hit on a French-owned capital, blowing out the side of the building and wounding a surgeon.

The French ambassador at Tokyo protested the bombing and French troops were rushed to the scene.

It marked the eighth day of air attacks since a week ago Saturday when officials placed the toll at 750 dead and 1,350 wounded.

Current raids have carried to a peak of destruction the aerial drive begun last year to end Canton's usefulness as the gateway for Chinese supplies.

The Wongsing and Taisatow railway stations and government buildings were the principal targets today.

Six accurately aimed bombs fell on the Wongsing station area, all striking and demolishing locomotive sheds.

They were released over the Shamen International quarter.

Railway lines also were attacked heavily, including the junction of the Canton-Kowloon railway leading to Hongkong and the Canton-Hankow system.

A 500-pound bomb fell at the gate of Sun Yat Sen university, making a crater 30 feet deep and 45 feet across.

Grand Jury Chosen, Starts Work Today For District Court

The Midland county grand jury met in its first session of this term of court this morning and was charged by District Judge Chas. Klapproth to investigate any charges of lawlessness reported to it by officers or citizens.

The charge delivered by Judge Klapproth was short, and he failed to cite any specific investigations that should be made other than against persons who have been arrested since the last term of court in March.

He charged the jury to investigate three reported car thefts, numerous forgeries and theft cases and one assault with intent to kill case. The assault with intent case is one in which T. L. Box will be the defendant, if indicted. He is charged with shooting Hershall Gunter, automobile salesman, on South Main street last week. Gunter is still in a hospital, said to be in a serious condition, and officials said that if he died before the grand jury adjourns, the charge will be changed to one of murder.

Members of the grand jury chosen this morning are Geo. Abell, foreman; Jess Barber, H. G. Bedford, H. S. Collins, Frank Eskin, W. T. Forehan, O. J. Hubbard, Clint Lockey, Paul McHargue, J. P. H. McMullan, L. G. Mackey, J. O. Nobles.

First petit jurors have been summoned to appear at the district court room next Monday morning at nine o'clock. The docket for next week will be prepared following findings of the grand jury this week.

Excitement Fatal to Local Woman's Kin

Friend here today received word from Mrs. L. G. Byerley that she would spend the summer in San Diego, where she was called early last week by the death of a brother-in-law, Guy Anderson.

A newspaper story bore the following report of his death: A fish catch the life of Guy Anderson, 45, 4114 Hamilton st., corner's officers reported.

On a holiday outing, Mr. and Mrs. Anderson were fishing from Biological pier at the Scripps Institution of Oceanography, La Jolla, this morning. Something struck Anderson's line with powerful force.

"I've got a big one," he exclaimed, and began reeling in the catch. Before he could gaff his catch he slumped to the pier before his wife's eyes, dead. Authorities said he died of a heart attack apparently induced by the excitement and exertion.

Companions meanwhile had grabbed the line and brought in the fish. It was a 150-pound shark.

L. G. Byerley is expected to return in a few days. He accompanied his wife to San Diego for funeral services for Anderson.

NLRB Testimony In Case Admitted

LONDON, Ky. June 6 (AP).—Federal District Judge H. Church Ford ruled today National Labor Relations Board testimony was admissible in the criminal trial of 44 Harlow meeting of the board directing to keep coal miners from joining unions.

Tank Pushes "Open Door" Policy in China

Like giant deadly caterpillars, Japan's bullet-splitting tanks brought a blight to the Chinese stronghold of Lincheng, crumpling the town's walls into yawning gullies for their supporting infantry. In the photo above, Japanese soldiers in shallow trenches pour a hail of bullets at the town's defenders while a tank lurches forward on its destructive mission.

13 Candidates in Governor's Race As 2 More Enter

AUSTIN, June 6 (AP).—Candidates for Governor of Texas jumped to 13 today with payment of filing fees by James A. Ferguson, Belton, and Clarence R. Miller, Dallas.

Another prospect, Marvin P. McCoy, Houston, telegraphed the committee his fee was in the mails.

Other office seekers posted payments, boosting the total of entries to 39. Included in those who posted their filing fee today was Representative G. A. Davisson, Eastland county, candidate for lieutenant governor.

Hodza Repudiates Claims of Hlinka In Address Today

BRATISLAVA, Czechoslovakia June 6 (AP).—Premier Milan Hodza, in a fighting speech here today, repudiated the claim of Father Andreas Hlinka and the latter's Slovakian autonomist followers to speak in the name of the republic's Slovakian minority.

He said: "They can speak only for their party."
The premier arrived amid echoes of a hostile demonstration by the Hlinka party yesterday.

Hodza threw the whole weight of his influence into efforts to solve problems arising from the Hlinka group autonomy demand.

"The Slovaks are urging action at a time when another section of the population, the Sudeten Germans, is pressing its demands for autonomy and the government is wrestling with a nationalities statute designed to settle its minority difficulties."

The law proposed by the Slovaks would recognize:

1. Slovak land is an autonomous part of the Czechoslovak Republic.

2. The Slovak language is the official school language in Slovak districts.

3. Introduction of national Slovak citizenship in Slovak territory with which citizenship in the Republic would be acquired automatically.

"The basis of self-government is a Slovak government which would choose its own national administration, legislate on questions of state citizenship, emigration, shipping, air travel, posts, taxes, customs, duties, state monopolies and state industries."

Midland Party to Birthday Dinner

A group of Midland people attended the birthday dinner, honoring Mrs. L. W. Woody and Miss Hope Woody, which was held at the ranch home of Mr. and Mrs. S. N. Woody southeast of town, Sunday.

Present for the occasion were Mrs. Bertha Kenney and son, Jackie, Miss Stella Woody, and Hughie Woody of Midland, Mr. and Mrs. John Woody of Odessa, Mr. and Mrs. Jess Woody and family and the family of Arthur Woody of Stanton, the honorees, and the hosts.

Democratic Primary In Iowa Underway

DES MOINES, June 6 (AP).—Unqualified support of Roosevelt policies was the main issue in the Iowa democratic primary election today.

Denver West Extension Well Flows 600 Barrels On Test

By FRANK GARDNER.

On a re-test, after reacidizing with 6,000 gallons as follow-up to first two acid jobs totalling 8,000 gallons, Gulf Oil Corporation No. 1 well, J. C. Futch, which extends the Denver field in southern Yorktown a mile farther west, flowed 600 barrels of gas and 12 barrels of acid water in 24 hours. Flow was through 2-inch tubing, with 750,000 cubic feet of gas, giving well a gas-oil ratio of 1.250 to 1. Casing pressure was 475 pounds, but there was no pressure on tubing. No. 1 Futch has also been shot with nitro. It is being acidized at 5,170 feet in lime.

Shell No. 2 Dora Roberts, three miles to the west, is drilling below 3,550 in anhydrite and redrock. Shell No. 2 Dowden, Denver pool well, is drilling at 2,983 in salt and anhydrite, while Shell No. 1 Lowe is drilling at 3,280, in anhydrite and redrock.

Derrick is up for a wildcat at short distance west of Cedar Lake in northeast Gaines, J. T. Perryman, Jr. No. 1 C. H. Doak estate. It was slaked 600 feet from the north, 1,300 from the east line of section 43, block H, D. & W. survey. Helmerich & Payne, Inc. have been awarded contract, and they are moving in rotary from Frank S. Perkins at No. 1 E. P. Cowden, southwest Andrews deep test.

3 Waddell in Simpson. Simpson, middle Ordovician, was topped at 5,943 feet. Datum of minus 3,282, by Gulf No. 8 Waddell, deep test in the Sandhills Ordovician pool of western Crane. It is running 12 feet low to Gulf No. 4 Waddell, large flush producer a quarter-mile to the south. Test is now coring at 5,894 feet in lime.

Gulf No. 4 McKnight, also seeking Ordovician pay in western Crane, is drilling lime below 3,571 feet.

Drilling has been resumed with cable tools in Magnolia No. 1-A J. H. McKee, northern Pecos Ordovician test 12 miles south of the Sandhills pool. This morning, it had reached 6,167 feet in dolomite, having made two feet below old depth, where 7-inch casing has been set.

In the Netterville pool of Pecos, Superior No. 6 Netterville flowed 50 barrels a day after 40-quart shot between 2,185 and 2,266. Gas-oil ratio is 1.200 to 1. Marsh No. 3 Netterville flowed 41.4 barrels a day, with 200-1 g. o. r., after 60-quart shot. Fay was topped at 2,245, total depth is 2,317.

Forgeron Running Tubing. Bailing with 4-inch bailer having

failed to lower fluid, H. S. Forgeron No. 1 Lockhart & Brown is running tubing, which will be swabbed in an attempt to exhaust water. Halliburton analysis showed fluid was not sulphur water, and it is therefore probably drilling fluid which has remained in the porous formations. Yesterday, the well was swabbed to bottom of casing at 4,302, showing some oil with drilling fluid. It was then bailed off bottom for two hours, recovering more oil and water. When operators went back in hole with swab, they found that fluid had risen 50 feet above bottom of casing. The well is bailed at 4,483 in lime. It will be acidized when drilling water has been exhausted. The No. 1 Lockhart & Brown is 660 feet out of the northeast corner of section 20, block A-41, public school land, five miles west of the south end of the Fuhrman pool.

In the pool, Fuhrman Petroleum Corporation No. 9 Ford flowed 1,230 barrels a day through tubing after acidizing with 3,000, then 6,000 gallons, bottomed at 4,455 feet in lime.

Ray R. Rhodes, Joe D. Tompkins et al No. 1 Emma Cowden topped solid lime at 3,810 feet, which is higher than either of the two Sinclair-Prairie wells in the area. It is drilling ahead at 3,890 in lime.

In southwest Andrews, five miles north of the Goldsmith field of Ector, Atlantic No. 1 Texaco-University showed 60 feet of drilling fluid, oil or gas, on a one-hour drill-time test from 4,320 to 4,378. It is now reaming down to drill ahead.

Perkins et al No. 1 Cowden was still shut down awaiting a special casing plug to shut off water which entered hole after 5-inch casing was perforated.

Martin Test. Has Marker. Anderson No. 1 Vance, southwest Martin wildcat, topped anhydrite at 1,510 and is drilling ahead below 1,535, in anhydrite.

Lou Stogner No. 1 Hendrick, Ector wildcat southwest of the Addis pool, is drilling below 3,650 feet in lime and anhydrite.

Larry E. Huitts No. 1 Gulf-Ross, northwest Terry wildcat, yesterday had reached 4,856 in lime.

Derrick will be completed tonight and rotary is being moved in for southeast Hockley's new wildcat. Skelly No. 1 Ellwood, C. J. Davidson Drilling Company has the 5,500-foot contract.

In southeast Cochran two miles

French Anti-Aircraft Guns Repulse Planes; Alicante Is Bombed Again

Score Slain, 100 Wounded In New Raid

British Tanker Is Fired, 3 Members Of Crew Lose Lives

MADRID, June 6 (AP).—Insurgent warplanes left 21 dead, 100 wounded and another British ship ablaze in a fierce bombing foray over Alicante; 75 miles south of Valencia on the eastern Mediterranean coast, today.

Nine women and a child, three members of the crew of the British ship identified as the *Winifred*, and two Alicante stevedores were included in the dead. Five German-made planes carried out the assault.

Another British tanker was bombed near Alicante Saturday.

Meanwhile, General Franco was reported to have held a council of war after fights between insurgent and Italian officers and was said to have taken measures to avoid open conflict by officers with the Italians.

A back-to-the-wall defense of Lucena del Cid, an inland gateway to Castellon de la Plana and Valencia, appeared Sunday to have blocked an attempted short-cut to insurgent conquest of those two coastal cities of eastern Spain.

Galician troops under Gen. Jose Varela were reported Saturday to have driven to position two miles from Lucena. Sunday dispatches amended this somewhat but the insurgents still were within a few miles of the town.

Lucena, with a population of 5,000, a center for the iron and lead mining industry, is sixteen miles northwest of Castellon de la Plana, about forty miles due north of Valencia, and about fifteen miles inland from one of two main coastal highways into Castellon.

Collins Is Named Director of TCCM After Convention

Bill Collins returned Sunday from Marshall where he attended the thirty-second annual convention of Texas chamber of commerce managers on Thursday, Friday and Saturday, the best attended and most successful convention in the history of the organization being reported.

Collins was elected a director of the statewide organization at the meeting.

Although the next convention city will not be decided until after the fall meeting of the board of directors, delegates to the convention were invited to hold the 1939 convention in Midland. Other cities asking for the convention are Plainview, Harlingen, Del Rio, Galveston, El Paso, Temple, Beaumont, Corsicana, Wichita Falls and Mineral Wells.

Fowler of Denton was elected president of the organization for the coming year; C. B. Godfrey, Oak Cliff, Dallas, being named vice-president and Harold Bryant, Tyler, secretary-treasurer.

Directors elected were Garnett Reeves, Pampa; Merle Gruver, Henderson; Sidney Holliday, Galveston; M. L. Moody, El Campo; E. D. Burris, Lufkin, and Collins.

Officials of AAPG Convention Meet

Meeting of several of the chairman in charge of arrangements for the American Association of Petroleum Geologists convention, to take place at El Paso, Sept. 27-Oct. 2, was scheduled for this afternoon in the Skelly Oil Company office here.

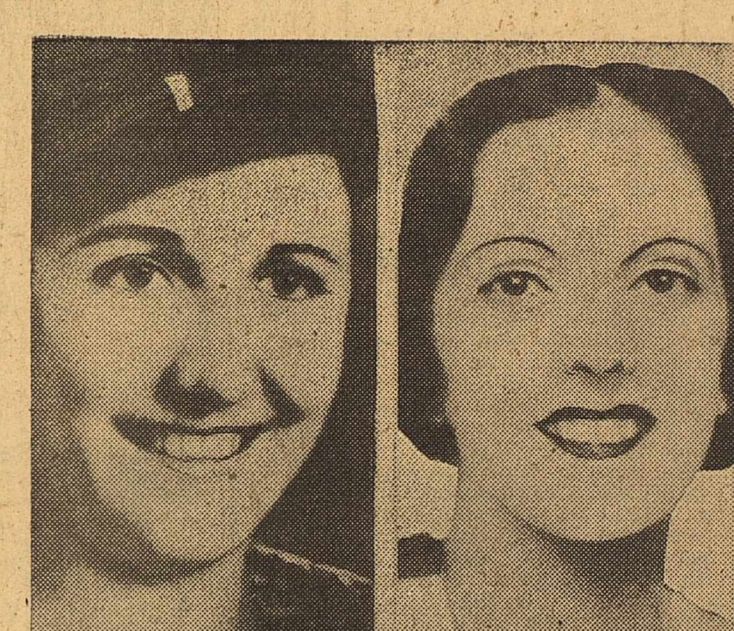

Present will be Berte R. Haigh, general chairman, H. A. Hemphill, assistant general chairman, and president of the West Texas Geological Society, which is sponsoring the convention; Cary P. Butcher, West Texas Representative of the AAPG and assistant general chairman; W. D. Anderson, chairman of the finance committee; W. C. Fritz, treasurer of the finance committee; Georges Vorbe, chairman of the hotel arrangements committee; and James FitzGerald Jr., chairman of the publicity committee.

Group Goes on Picnic Outing

The call of the country lured a group of Midland people into the "wide open spaces" for a picnic Sunday. Following the church services four couples with several children motored to a location north of town to spread a lunch and spend the afternoon in playing games and relaxing.

Going were: Mr. and Mrs. N. G. Aates and children, Colleen and Alex; Mr. and Mrs. Stacy Allen; Mr. and Mrs. Harvey Powell; Mr. and Mrs. Luther Tidwell and son Terry; Beth Prothro, and Claude Flournoy.

Negro Admits Brick Slayings of 5 Women

The 18-year-old negro shown at left, who first came under police scrutiny when he was a boy of 6 in Louisiana, has confessed in Chicago that he bludgeoned to death with bricks the four women and a girl shown above. The murderer, Robert Nixon, corroborated his statement by sketching with an expert hand the floor plans of his victims' homes. Mrs. Florence Johnson, upper left, the murderer's most recent victim, was slain May 27. Mrs. Florence Thompson Castle, upper right, met the same fate in June, 1936. Anna Kutcha, lower left, was the victim of an attack slaying last August. These women were killed in Chicago. Nixon also confessed the brick slayings in Los Angeles last summer of Mrs. Edna Worden and her 12-year-old daughter, Marguerite, shown lower center and lower right.

Pecos Man Victim Of Drowning Sunday In Red Bluff Lake

PECOS, June 6. Red Bluff Lake claimed its first drowning victim of the year Sunday morning when Albert Alexander of Pecos lost his life after his fishing boat capsized.

Mr. Alexander was spending the week-end at Red Bluff with his wife and 10-year-old daughter. The accident occurred as he was running a trot line. Mrs. Alexander, watching from the shore, saw the boat overturn and her husband go down.

Eight motor and row boats had been put in use in a search for the body. Game Warden Curtis McElroy, Highway Patrol Captain E. M. Wells and others joined the search with drag lines and grapple hooks. An effort was being made to locate Captain Johnny Burns of Van Horn, who is an amateur diver, to obtain his services.

Besides the victim's wife and daughter, survivors include his parents, Mr. and Mrs. W. F. Alexander, and two sisters, Mrs. L. E. Polk of Pecos and Mrs. Horace Woodruff of Dallas.

Adjournment for Congress Expected Over the Week-end

WASHINGTON, June 6 (AP).—Congressional leaders agreed in a discussion with President Roosevelt today congress could be adjourned this week-end if an early agreement was reached on the wage-hour bill.

Representative Rayburn, Texas, said the president told him much progress had been made in the committee drafting a compromise on the wage-hour measure; and added that the \$300,000,000 deficiency measure would be reported to the house tomorrow and probably be passed Wednesday.

The task of the conferees, who are seeking to harmonize differences in the measures approved by both chamber, was made even more acute when President William Green of the American Federation of Labor called on his followers to support the house version, which establishes rigid wage-hour standards, and to resist attempts to vest administrative power in an independent agency as proposed by the senate.

Green asserted that any ultimate wage-hour legislation must contain a universal floor for wages, a flat ceiling for hours, and that it must be simple in administration.

Banquet Will Honor El Paso Good Will Group Wednesday

Tickets to the Midland Chamber of Commerce banquet being given in honor of El Paso good will trippers in the Crystal ballroom of Hotel Scharbauer here Wednesday evening at eight o'clock went on sale this morning, the tickets being priced at one dollar each. Efforts will be made to have as many local business men in attendance as is possible, merchants and others being asked to purchase extra tickets for the El Paso visitors.

The El Paso business men will arrive here in a large Greyhound bus Wednesday evening about seven o'clock, hotel reservations for the group having been made at Hotel Scharbauer. The good will group is comprised of 40 persons. The good willers will be the guests of the Odessa Chamber of Commerce at a breakfast in Odessa Thursday morning.

Leaving El Paso early in the morning, the party will spend Tuesday night in Roswell, Wednesday night in Midland and Thursday night in Marfa, returning to El Paso Friday.

Local business and professional men wishing to attend the stag affair are requested to make reservations at the chamber of commerce office. Marion Flynn, chamber of commerce president, will preside at the dinner, a brief program being scheduled.

Pilots Flee Without Any Damage Done

Daladier Rushes To Disturbed Area For an Inspection

PERPIGNAN, France, June 6 (AP).—French territory was invaded again today by bombing planes from Spain, which fled back across the frontier on warning shots from French anti-aircraft after a ten-minute, six-mile flight into France.

Premier Edouard Daladier flew from Paris to the frontier region immediately.

The French referred to nine unmarked gray planes as those of "unknown nationality" but officials of the Spanish government, whose anti-aircraft fired at the ships, turning and missed, said they were insurgents.

A French official predicted a "pleasant surprise" for the "next bombing error" of Spanish planes. The planes today dropped no bombs.

Violation of the French frontier by nine bombing planes from Spain and reports of unrest behind the insurgent lines added fresh complications to the Spanish war picture last night as government forces apparently stopped an insurgent short-cut to two important coastal cities.

The nine warplanes, "of unknown nationality," swept across France's Pyrenees frontier and dropped numerous bombs 15 miles within French territory. No casualties were reported.

Premier Edouard Daladier immediately ordered French military planes to pursue and force down any aircraft that threaten French soil.

High Spanish insurgent source reported Insurgent Generalissimo Francisco Franco had ordered an urgent meeting of his military leaders following reports of Spanish insurgent and Italian officers at Malaga and Zaragoza.

Travellers reaching Gibraltar over the week-end said there was increasing bitterness between Spaniards and Italo-German forces aiding Franco.

Fistifights and exchanges of revolver shots were said to have resulted.

Government defenders of Lucena Del Cid, 16 miles northwest of Castellon de la Plana, appeared to have halted insurgent forces attempting to reach Castellon and Valencia by a short route to the coast.

Defense troops were still holding Lucena, the inland gateway to Castellon, despite fierce insurgent assaults.

In Barcelona, a government announcement said four members of the crew of the British tanker *Maryad* had been killed when an insurgent seaplane attacked the vessel off Alicante Saturday.

Two insurgent planes were brought down, the government also said, during two raids on the temporary Spanish capital Saturday.

G-Men Hunt Clues To Solve Kidnaping Of Little Jimmy Cash

PRINCETON, Fla. June 6 (AP).—Federal agents sought through wholesale questioning Sunday the vital clue that can lead them to kidnaper Jimmy Cash—or his body—and to the treacherous abductors who collected \$10,000 ransom.

All day yesterday until long past midnight, close-mouthed investigators splayed about the countryside in automobiles picking up some 25 to 30 persons. Each was brought here to the field headquarters of G-man Chief J. Edgar Hoover and apparently all were returned to their homes after intensive questioning. Identity of those questioned was not revealed.

Sightseers swarmed into this unincorporated village on the Miami-Key West highway.

Thousands thronged about the Cash residence to look at the screen door through which the kidnappers cut last Saturday night to snatch blond, 5-year-old "Skokie" from his bed.

They rode along the back road where the boy's father, James Bailey Cash, Sr., tossed \$10,000 in ransom currency to a waiting automobile.

But mostly they came to watch the much-publicized G-men dashing in and out of their field office or standing silently on guard at the Cash home.

Search for Jimmy's body—his parents have abandoned hope for his life—was resumed shortly after daybreak by a force of 200 men assigned to special sectors. Sunday Hoover dismissed with thanks this remnant of an army of 2,000 possemen retaining only a dozen to aid the G-men in hunting over small, specified areas.

SUPERIOR OFFICIAL HERE.

C. A. Dore, vice president in charge of the land and geological departments, Superior Oil Co., arrived from Houston today by plane. Sam Gormley was pilot.

Behind the Scenes in Washington

Editor's Note: The opinions expressed in this article are those of Mr. Dutcher, NEA-Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, June 6. — Just about the time that the whole family has chicken pox and the landlord is about to foreclose the mortgage is no time at all for papa and mama to be throwing all the available assets at each other and for the kids to go experimenting with papa's shotgun. There may be those who will flout that theory, as applied to the rather critical economic situation which now besets the United States. The theory appears to find few warm friends either among the Roosevelt crowd which now rides the saddle of administration policy or among the business elements which continue to express simultaneous fear and hatred of the administration.

Nevertheless, there is a strong group scattered between Washington, New York and points north, south, east and west which believes that business conditions are going from bad to worse and that the most sensible thing for Mr. Roosevelt to do under the circumstances is to call a conference of the outstanding leaders in government, industry and labor whose combined prestige would command respect and whose joint recommendations might inspire widespread confidence in the country's future.

TOO BIG FOR ONE MAN. THAT group of industrialists, labor leaders, brain trusters and politicians is united on at least one point: This is no time for the American people to be having family quarrels.

It may be over-optimistic to assume that such an assortment of lions, lambs, tigers and tom-cats can lie down together and produce a solution or even a partial cure for the country's present economic bellyache. But you can't prove that, unless the stunt is tried.

There are pump-primers who believe the only answer is a greater amount of federal spending than is provided in the administration spending-lending program and New Dealers who believe that such a gathering of the "best minds" would exert influence adverse to Roosevelt and his reforms.

But most leaders of industry and labor also are convinced that the deepening depression is too big a job for any one man to lick—even at Roosevelt.

STILL LISTENING. WEEKS ago a group led by John L. Lewis, Owen D. Young and Tom Lamont of the Morgan firm—a group of labor leaders, industrialists, financiers and brain-

trustees—was invited to the White House at the invitation of Dr. Rex Tugwell.

This group told the President that hostilities between government, industry and labor ought to be suspended until national income was built up to a point where there would be something to fight about. The group urged that it be expanded as a consulting, advisory body which would work with the President toward national recovery. It left the matters of expansion and subsequent meetings and procedure to Mr. Roosevelt.

And it hasn't heard a word from Mr. Roosevelt since.

EVEN HOPE HITS NEW LOW. MEANWHILE the administration economists who had hoped that the promise of a new spending-lending "recovery" program would prevent further recession are no longer hopeful. WPA rolls must be increased. Business hasn't picked up. The usual summer slump is expected—even from present low levels. The railroad situation hasn't been tackled and several large bankruptcies impend. Inventories are moving slowly. Automobiles are in bad shape. Widespread wage cuts are threatened. Steel production would be as low as its lowest point in the last depression except for government business. National income, which was up to a rate of 70 billions dollars this time last year, is now running at the rate of 55 billions a year—a loss of about \$12,000,000,000 a month.

Soon, according to present plans, the President will take off on a long trip, while his strategists bend themselves to nominating New Dealers in the primaries. The brightest spots in the picture he will leave behind him, unless something pops up meanwhile, are a desire in Washington to get the pump-priming program started as quickly as possible and a general belief that if the situation isn't better by late August or September, he will have to think of something new.

Four Brothers Never Miss Day of School

DALLAS, (AP). — The four sons of H. R. Shaw of Mesquite have set a school attendance record for future generations to view with awe when they set out on school careers. The four boys, Bob, 17; Steve, 15; Bill, 13, and Dan 12, have been neither tardy nor absent for a total of 6,000 school days. It would take one person, going to school

Bright Young Man Looking For An Opening

The Town Quack

A press dispatch says Ernest Thompson has become known as the "Rain Maker" because it rains everywhere he appears to make a speech.

If he will come out here and get the same results, he can be assured of at least 90 per cent of the votes in the county.

While Midland county residents are appealing to the spirits on high for rain Big Spring residents are planning on asking for WPA funds for flood control work in that city. Seems like that three-inch downpour they had the other night did

every regular school day, thirty years to pile up that total. Upon being graduated at the Mesquite high school recently, Bob received a certificate recognizing he has been neither tardy nor absent for ten consecutive years.

In his years in high school he has also found time to letter in every sport, including football, base ball, basketball, track and tennis. He paralleled the athletic record with a scholastic one by winning the title as the school's number one mathematics shark.

As for the other boys, they're a little young for athletics, but Steve, Bill, and Dan have won certificates for not being tardy or late for eight years, seven years, and five years respectively.

The boys' mother graduated from the Mesquite high school in 1915 under the same principal now serving.

Not content with the public school record, the boys also may lay claim to having spent a good part of their lives in Sunday school, not one of them having missed a Sunday since he was eight months old.

New Kiln to Dry Pine Lumber Is Tested

CENTER, (AP). — A new type of dry kiln for curing green yellow pine lumber is being used by a saw milling firm here. Each kiln is an enclosure about twenty feet square and ten feet high with four large, wood-burning heaters made from 50-gallon oil tanks. Stove pipes carry the smoke outside. These produce an intense heat which cures the lumber in four days.

About 30 days would be required for sun-curing. It is explained that the new process is much less expensive than steam curing and better suited to mills of small capacity. The owners say that as far as they know the kiln are the only ones of the kind in existence.

Texas cities are in the forefront in number and score of air-conditioning installations in stores. In the nation, more than 700 department stores now have conditioned air as an aid to maintaining sales regardless of outside weather.

Ranchers Explain Early Shearing

SAN ANGELO, (AP). — Beating nature to the job of salvaging mohair is the reason nannies are shorn before they kids are born in the spring. Ranchmen explain goats begin to shed their coats early, often before final frosts. Shearing of ewes, however, comes after they have lambed and their young obtained a start on the range.

Ranchmen carefully protect nannies in the kidding season. Little board tepees are set up for each kid and sheds are located nearby to house the mothers in cold weather. Goatmen see to it that the allotment of mother's milk is forthcoming when kids beat for it.

Ewes and lambs generally are allowed to shift for themselves. The reason is most of the wool still on their bodies and it is a protection. Unlike nannies they do not shed in the early spring.

Sheep are tagged before lambing time, the tagging consisting of shearing away belly wool and the short fibers about the legs and on the rump. This insures a cleaner mother and reduces mortality among lambs. After losing its importance as an original milk provider the ewe goes into the shearing pens in April and May.

Texas State Teachers college. The entire annual was printed in the college print shop under the direction of J. D. Hall, Jr. North Texas is the only college in the state that prints its annual, and one of few that features color work in any considerable measure in its year-book.

Hundreds of action pictures, a modernized sports section and a "streamlined" style made it the most modern annual printed at the college, Editor Black said.

Herbert Clan to Hold Annual Celebration

BEAUMONT, (AP). — The Herbert clan, one of the largest of East Texas and Southwest Louisiana families, is preparing to gather for its annual celebration.

The anniversary, scheduled for July 4, is expected to be one to make the lowlands ring for it coincides with the 92nd birthday of J. M. Herbert, active leader of the clan. Mr. Herbert leads the rodeo parades and in the exhibitions of horsemanship shows the boys how to grapple steers, brand calves and saddle wild horses.

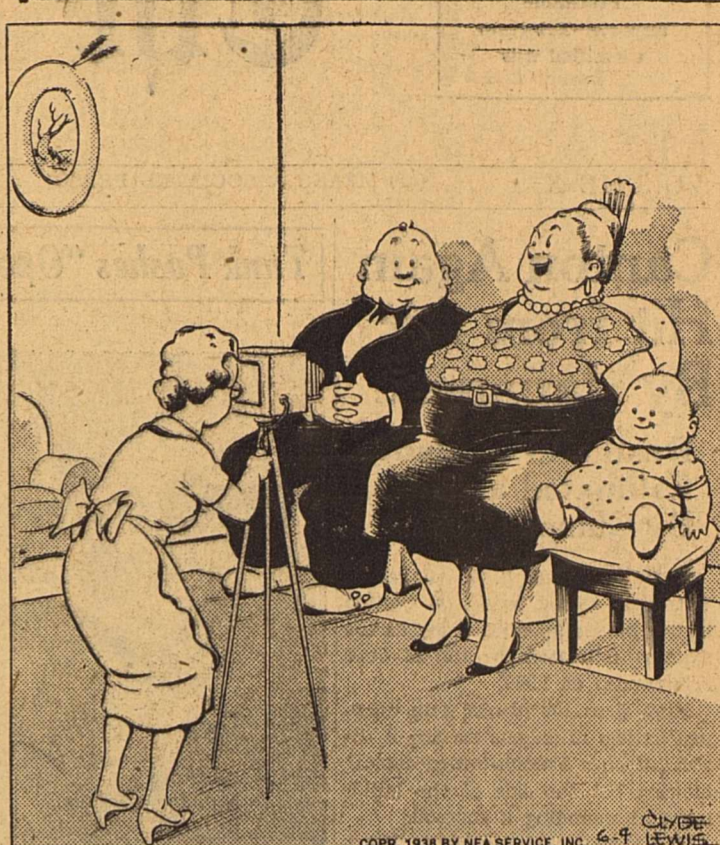

Astride "Basil," his favorite mount, Herbert rides the range and supervises his large cattle acreage in Jefferson county.

Twins Celebrate On Different Days

ATHENS, (AP). — Twin daughters of Mr. and Mrs. R. G. Godwin of Martin's Mill, born at a hospital here May 29, will have different birthdays.

The largest of the babies, weighing four pounds and one ounce,

Hold Everything!

"The cook is leaving, but she said she'd rather have a group picture of us than a written recommendation!"

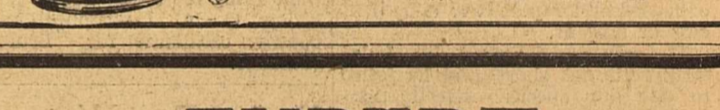

was born at 11:56 Sunday night and the second, weighing three pounds and eight ounces, arrived at 12:09 a. m. Monday.

Prehistoric Tusk Is Found at Clarendon

CLARENDON, (AP). — A prehistoric tusk eight feet long and said to weigh 460 pounds, was acquired by S. R. Pinkerton of Wellington after it was ploughed up on Salt Fork. Described as forming a wide spiral and as being "perfect to a point," it ranges in diameter from eight inches at the base to 2 inches at tip and "resembles polished ivory."

Miss Barber, Clyde Pate Wed in Morning Ceremony

In an attractive early morning ceremony at the First Methodist church, Miss Freddy Lou Barber, daughter of Mr. and Mrs. Fred Barber, became the bride of Clyde Pate Sunday.

Rev. W. C. Hinds officiated at the single ring service, reading the vows before an altar flanked with pots of greenery and tall floor vases of salmon-pink gladiolus.

Mrs. Ruth Ramsel sang "At Dawning" as a pre-nuptial solo.

Miss Clea Dee Tate played Mendelssohn's "Wedding March" for the entrance of the bridal party, "I Love You Truly" during the ceremony, and the wedding march again as the recessional.

The bride entered with her maid of honor, Miss Daphne Shafer, and was met at the altar by the bridegroom and his best man, Ernest Vance.

Miss Barber wore a pleated blue chiffon frock with puffed lace sleeves of self-color and a pink organza corsage at the low neckline. Her hat was of pink straw with flower trim and she carried a bouquet of larkspur and pink rosebuds.

Miss Shafer wore navy blue chiffon with pink and navy hat. Her flowers were a corsage of pink roses.

Numerous friends and relatives of the couple were present for the wedding, including the bridegroom's parents, Mr. and Mrs. Vann Pate of Plainview.

Later in the morning the bridal pair left for Abilene where they will attend the summer assembly of Methodist young people at McMurry college.

On their return at the end of this week they will be at home at 101 E. Ohio.

Mrs. Pate is well known in Midland where she has been reared. She is a graduate of Midland high school and during her school years was a member of the Home Economics club and vice president of the Public Speaking club. She is also active in young people's work at the Methodist church. She is employed in the office of John P. Howe, Inc.

Mr. Pate is a graduate of Plainview high school and is cashier of Walker-Smith company here. He has been with the company's Mid-

Centennial Club Meets at Home Of Mrs. Schrock

Mrs. W. M. Schrock was hostess to the Centennial club and guests with a dessert-bridge at her home, 405 N. Big Spring, Saturday afternoon at 1:30 o'clock.

Sweetpeas and roses were used in the party rooms and a pink and white color scheme was featured in the dessert plate, in tallies for the bridge games, and in prize wrappings.

Dessert guests were Mrs. L. B. Lancaster and Mrs. R. E. King.

In the afternoon's games high score prize went to Mrs. Geo. Grant, floating prize to Mrs. J. M. Speed Sr., and out to Mrs. Carl Ulfers.

Present, besides the dessert guests named, were: Mmes. Tom Sealy, Speed, Ulfers, W. D. Anderson, E. C. Hitchcock, J. H. Rhoden, Grant, S. H. Hudkins, and the hostess.

Naomi Class Hears Lesson on Service

"Serving by Personal Devotion to Christ" was the subject of the lesson taught by Mrs. J. Howard Hodge.

Mrs. Earl Griffin presented the lesson reading and Miss Ruth Guy read the selection from the Scriptures. Offertory was played by Mrs. J.

Vote 8-Hour Day For Simplicity

For daytime hours, from nine to five, men like best to see women in simple, conservative dresses such as this model of lightweight wool in a soft shade of blue. It is short-sleeved, has a draped bodice and flattering skirt.

Miss Walker and Alvon Patterson Are Married in Quiet Service Saturday Night

Coming as a surprise to friends was the wedding of Miss Mary Jane Walker, daughter of Mrs. Frances Parker of Midland and L. B. Walker of Cleburne, and Alvon Patterson, son of Mr. and Mrs. E. B. Patterson, which was solemnized at the Methodist church Saturday evening at 8:30 o'clock.

Rev. W. C. Hinds officiated at the double ring ceremony which united the couple in the presence only of the immediate families of the two. There were no attendants.

The bride wore a gray crepe dress with trim of forget-me-nots and blue ribbon. Her accessories were two-tone, in light blue and navy.

Mr. and Mrs. Patterson left immediately after the wedding on a motor trip. They will attend the summer assembly of Methodist young people at McMurry college, Abilene, this week and then go on to San Antonio and Houston, before returning here to make their home.

The bride is a graduate of Midland high school and has lived in Midland a number of years. In her

high school years, she was active in school projects being a member of the choral club and pep squad and one of the typists for the annual. She is also active in young people's work in the Methodist church, being treasurer of the Senior League and of her Sunday school class. She is the grand-daughter of Mrs. M. J. Nolan of Midland.

Recently she has been employed in the office of attorney Jas. H. Goodman.

Mr. Patterson was reared here and is a graduate of Midland high school. Later he attended the University of Texas. He is employed with the Texas Oil Company as geological clerk.

The "platform sole" is merely a thing. Who said humans are not swayed by influences and follow the lead of comrades, even in matters of the heart? Not that we mean that such epidemics of marriages are not just as loving and just as likely to be successful as if spaced out over years.

It is simply that there are times when wedding music seems to be in the air just like spring fever or autumn wanderlust.

Wimberly Pupils to Present Second of Programs Tonight

As the second, and concluding, year's end recital for his music classes, Wallace Wimberly will present a group of piano pupils in a program at the Baptist church auditorium this evening at 8:15 o'clock.

The following selections will be played: Jane Hill—Russian Dance (Engelmann).

Lou Nell Hudman—Mazurka Noble (Fontaine).

Merle Scott—Dark Eyes (Perry).

Dolores Barron—The Rosary (Nevin).

Fay Dublin—The Waltz in E Flat (Godard).

Payton Anderson—Moon Rocket March (Morrison).

Dois Lynn Pemberton—Prelude in C Minor (Chopin); Poem (Fibich).

Frank Nixon—Revoluntary Prelude (Chopin); Polchelle (Rachmaninoff).

Billy Noble—Londonderry Air (Kohlmann); Angel's Serenade (Braga).

Joan Proctor—Grand Valse Caprice (Engelmann).

Frank Nixon—Adantino (Lemare); Ave Maria (Schubert).

Billy Noble—Valcik (Mockrejs); Prelude in C Sharp Minor (Rachmaninoff).

Jack Walton will announce for this second program in the series, the first program having been announced by Billy Noble.

The public is invited to attend the recital.

Pertinent Pressing Points.

When pressing your clothes never rest the iron on the right side of your material, as this will cause shine. Most pressing is done on the wrong side. If it is necessary to press the right side always cover with pressing cloth. Be sure your iron is not too hot when you start to press a dress. There are few marks harder to remove from a garment than scorch, aside from the fact that weakens your material. Heavy materials can stand a hotter iron than thin. Rayon materials should be pressed with a warm iron.

Adaptable Wedge Shoes.

One of the season's most important trends in footwear fashions is the wedge sole. So utterly "different" wedge soled shoes are proving exceptionally popular, particularly because of their amazing comfort. Made now for every occasion from sports to dancing, they are seen in city streets as well as vacation resorts. Very charming are evening wedge slippers of pastel leather with contrasting binding and ribbon bows. White leathers and white trim with colored leathers or reptiles, especially nice for sports and country; darker suedes and black patents are handsome for town wear.

Evidence of the value to merchants of stimulating the auto-loan trade is seen in statistics showing that, one the average, 26 cent of each tourist dollar goes to retail merchants.

Feminine Fancies

Every peace loving individual should give three cheers for the pictorial magazines and newspapers which are steadily and effectively de-bunking war and stripping it of its glamour by showing the horrible results of it upon both fighters and non-combatants.

In our opinion, nothing will strengthen more the determination of the great masses of people to have no war. And though we are not visionary enough to see world peace looming on the immediate horizon, we do believe that whatever the general mass of mankind wants and wants hard enough, it will get. The collective will, when thoroughly awakened, is bound to be stronger than that of a few dictators or war-mad profiteers and sword-jinglers.

More power to those who picture for Young America, not the stirring music of uniformed bands or the glitter of banners waving but the blood, and filth, and suffering which are the reality of war and for which its false splendor, as shown by propagandists, are only decoys.

Variations are already being run upon the theme of the wedge heeled shoes which have swept over the country the past few months. One

Guldahl's U. S. Open Record of 281 Appears Safe

Difficult Denver Layout Remodeled For 1938 Classic

BY ART KRENZ
NEA Service Golf Writer.

THE U. S. G. A. may not realize it at the moment, but by taking the 42d annual National Open Golf Championship to Denver's Cherry Hills, it has found the answer to the problem of stopping the downward flight of the open record.

Tony Manero brought the mark down to 222 in 1936 at Baltusrol. Guldahl never thought the winning score in the Open would be that low. Yet Ralph Guldahl came along last year at Oakland Hills and went Manero one better.

So there the record rests—at 281. And at 281 it'll remain through this year at least.

Even the 14-club rule, which went into effect Jan. 1, hasn't prevented the big names in golf from wrecking par at every turn.

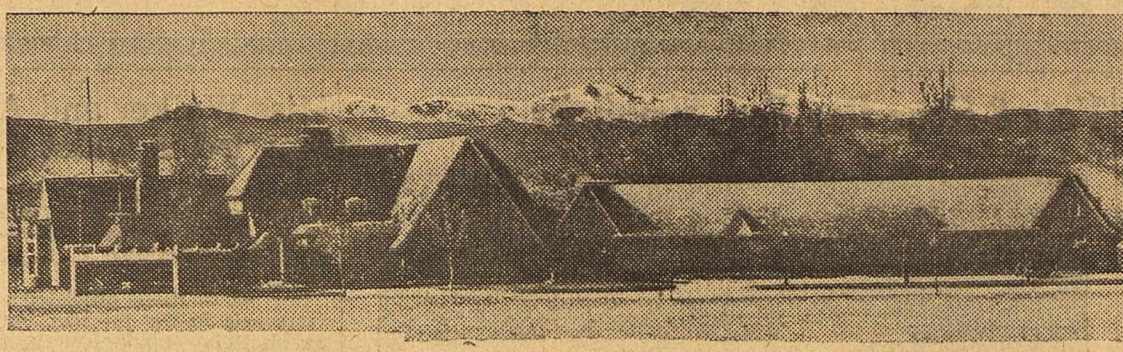

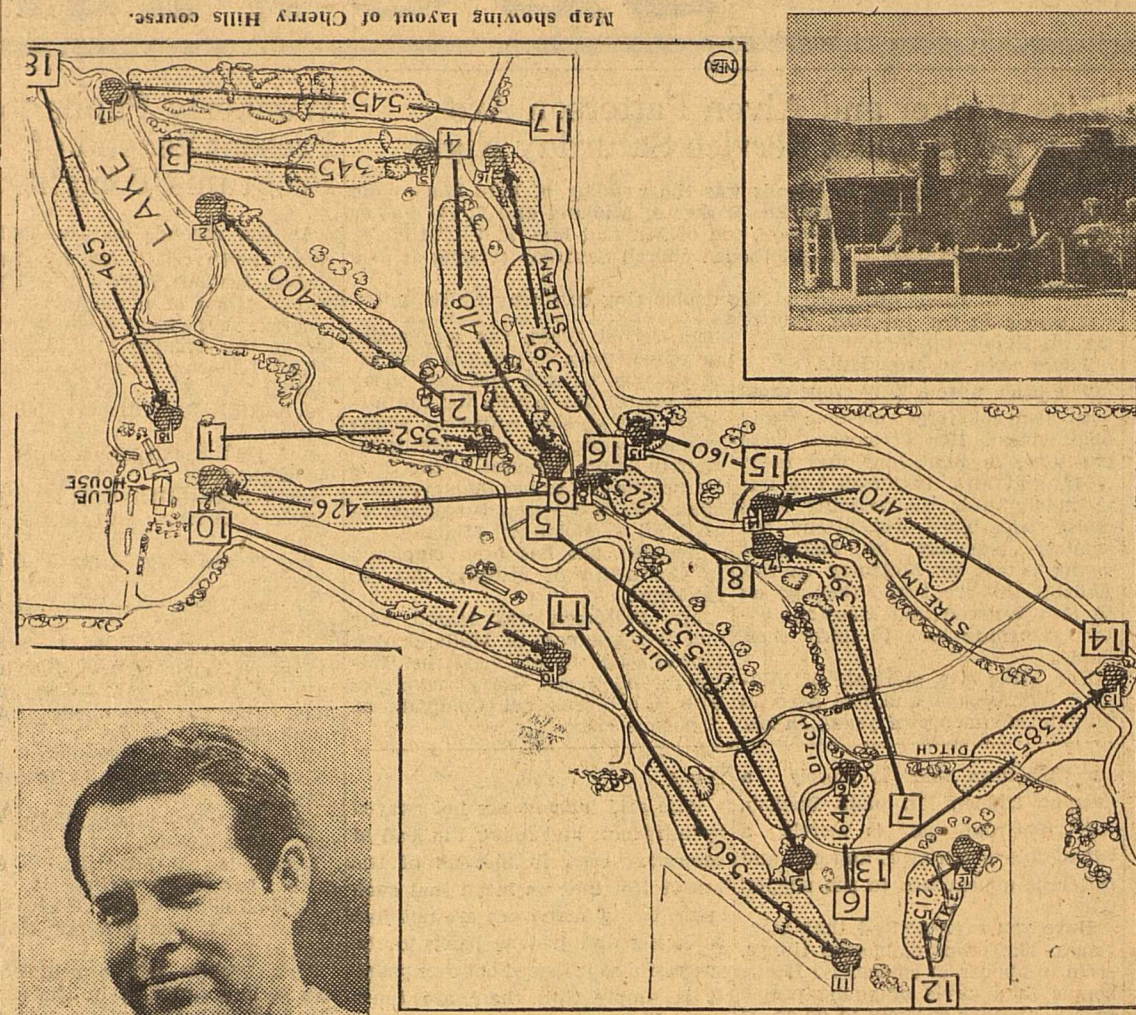

Cherry Hills, however, should take care of all that par-blasting business. This course may not be the longest ever used in the annual classic, but it's far from the easiest. With its numerous creeks, where once prospectors panned and sifted glittering gold, and its ditches cutting across the fairways, those who are a bid wild off the tee will find their scores mounting. Not to forget the fact that no two fairways are parallel with each other.

It's easy to see where the "sprayers" are in for a bad session in the rough.

BUILD NEW TEES TO LENGTHEN FAIRWAYS.

SEVERAL holes have been lengthened from 16 to 60 yards by building new tees. The fairways have been narrowed by allowing the rough to grow along one side, making such holes as Nos. 2, 4, 5, and others, more sporting. The fringe of grass bordering the lake to the left of No. 18 has been mowed. Where once there was little danger of the ball rolling into the lake to the left of No. 18, it is now necessary to hit a straight tee shot to the upper side of the fairway, or fade the ball onto it. A hooked ball hitting the fairway which slants toward the lake will find a watery grave.

With its postage stamp greens

Framed by a background of snow-capped peaks, beautiful Cherry Hills, clubhouse of which is shown above, will be host to the National Open, June 9-11. Left is a map of the tricky course, showing position and distance of holes. Left below, Ralph Guldahl, defending champion, who holds the Open record of 281.

Ralph Guldahl

correctly takes a superb golfer. The last five holes were so designed by William S. Flynn, Pittsburgh architect, with the idea of making them as tough a finishing group as can be found anywhere. The idea was to avoid play beyond the 18th hole in match play tournaments.

NOT IN BOOKS FOR GULDAHL TO REPEAT.

THOSE golfers that get too hot will soon be cooled by the breezes blowing off the snow-capped mountain peaks. No record should be broken at Cherry Hills. In fact the winning score will be closer to 290 than to the record of 281.

Ralph Guldahl, the defending champion, is good enough to repeat but the winning of the Open title two years running is seldom done. In 41 years of the history

of the tournament it has been accomplished only three times. Willie Anderson won three in a row, in 1903, '04 and '05. J. J. McDermott won in 1911 and '12 and Bobby Jones in the successive years of 1929 and '30.

I look for a new champion to be crowned—one that has never held the title before. He should come from the following list: Sam Snead (coupled with Vic Ghezzi, won recently), Harry Cooper (overdue), Ed Dudley (ditto), Henry Picard (won from field at Augusta), Jimmy Demaret (a Texas dark horse), Vic Ghezzi (same as for Snead), Ky Laffoon (** SPECIAL, likes the track), Harold McSpaden (has won his share), Byron Nelson (rates close), Johnny Revolta (a good bet), and Jimmy Thomson (may like the going). There will be seven former

Measuring moisture absorption

Early Lead Gives Cardinals 9-7 Victory

The Midland Cardinals rolled up an early lead off Pitcher Lucas yesterday afternoon and made it hold up as they came through with a 9-7 victory over the Wink Spudgers.

The Cardinals got to Lucas for one run in the first, five in the second and three in the third before he could be taken out and Cheeves, reformed outfielder, took over the hurling duties. The winners got only two hits and no runs off his delivery.

Parks went all the way for Midland and would have had a shut-out with perfect support. But errors paved the way for the Spudgers to make three runs in the seventh and four in the eighth.

Free Admission for Ladies Tonight

Ladies will be admitted free of charge to the baseball game tonight with Wink at the city park, which is scheduled to start at 8:30 o'clock, according to Manager Withers of the Cardinals.

The manager also announced that Tommy Warren will start on the mound for Midland.

Lubbock Plays Extra Game Here Wed.

The Midland Cardinals will meet the Lubbock team here Wednesday afternoon at 4:30 in an extra game. It was stated this morning that the admission price will be substantially reduced for this extra game.

of fibers is one of the uses of the springs. This feat is accomplished by saturating the fiber with water vapor, and then weighing the fiber in a vacuum. The water absorbed is noted in the stretch of the quartz spring.

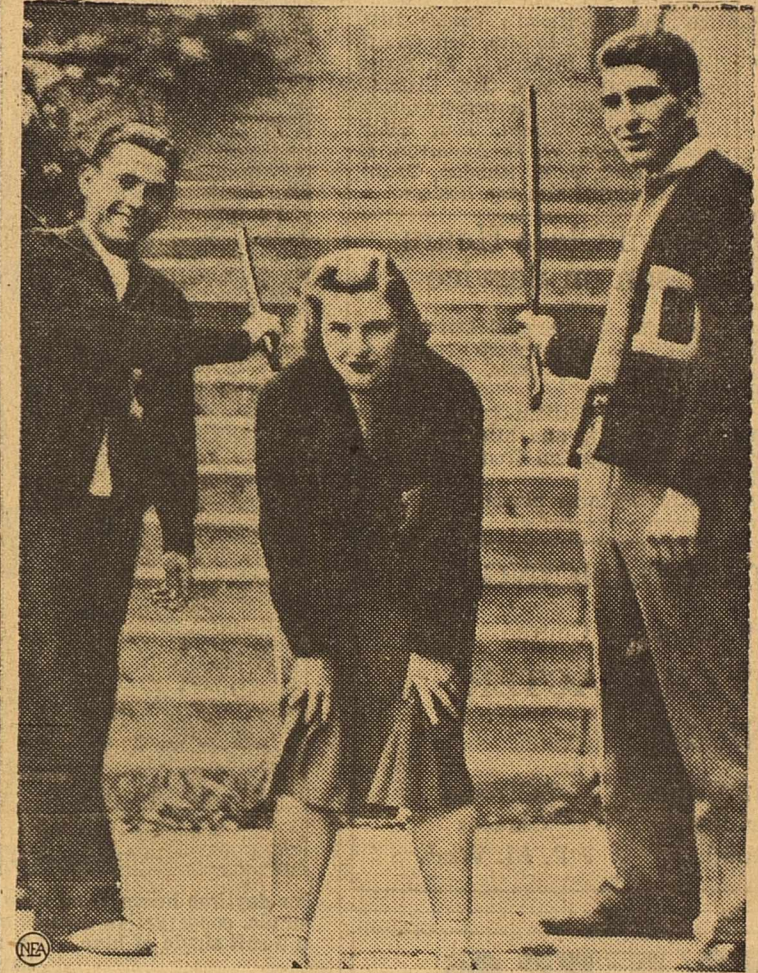

Theater Cleans Up Town.

CALDWELL, Ida. (U.P.) — A local theater virtually solved the city's "clean-up" week problem by offering a free ticket to a special matinee to every boy that brought in 10 old tin cans. The "receipts" were exceeded 10,000 cans.

Dean Frank C. Whitmore of Pennsylvania State college says the south will be the "chemical frontier" of the nation during the next 25 years, citing the region's ability to supply, in proximity to each other, such basic chemical materials as sugar, petroleum, sulphur, natural gas, cellulose, starch and vegetable oils.

Manufacture of citrus meals as a livestock feed, from formerly waste fruit peels by dehydration process is a growing by-product industry in Texas' lower Rio Grande Valley's citrus industry.

READY FOR THE RITES

Pretty Janet Shock of Dayton, O., found she had to pay a price for becoming the first co-ed to participate in Ohio intercollegiate athletics. Miss Shock, one of the state's best feminine golfers, won nine of 10 matches against male competition while playing for Dennison University this spring, and is shown about to be initiated into the Dennison Varsity "D" Association. Wielding the paddles are Paul Welsh, left, and Bob Gehrandt.

G-Man Warns Hot Days Spur Violent Crimes

HOUSTON, Texas. (U.P.) — Don't provoke your friends during the hot summer months if you think they have homicidal tendencies.

R. T. Harbo of Washington, administrative assistant of the Federal Bureau of Investigation, offers this advice.

In an address to a civic group here, Harbo said that people are more likely to commit murder in hot weather than at any other time.

Harbo further advises husbands not to taunt or tease wives unnecessarily.

"If you examine the records of 100,000 killers at large," he said, "you probably would find that more of them were women."

The G-man said that less than half of the nation's killers ever have served prison sentences for their crimes.

"Last year there were 12,000 murders," he continued. "Police look into custody 9,000 men. Half of this number was not punished at all. Half of them was convicted to serve less than four years in prison."

"Persons who have shown they are going to commit crimes as soon as they get out of prison again, should serve lifetime sentences."

"We have records of 13,600 kidnapers, extortionists and bank robbers in Washington. Of 2,900 who were paroled, 36 per cent were arrested while on parole and 40 per cent were arrested soon after their paroles expired."

"And two-thirds of those re-arrested after being paroled were guilty of rape, murder and other such crimes."

Train Laundry Delivery Men.

BERKELEY, Cal. (U.P.) — Berkeley high school has opened a course for laundry route men. No effort will be made to increase their general culture, but rather on how to get the packages delivered on time.

Detroit at Boston. Cleveland at Washington.

The PAYOFF

By HARRY GRAYSON
Sports Editor, NEA Service.

Donald Budge is the leader in singles, and probably in doubles with Gene Mako. There's no question about that.

That leaves the remaining singles on the 1938 American Davis Cup team open to Sidney B. Wood Jr. and Wilmer Allison.

The younger candidates are Bobby Riggs, Joseph R. Hunt, Frank Kovacs, and Elwood T. Cooke.

Wood has shown in other years that he is capable of everything on a tennis court.

On his game, this seasoned performer who was a star at 15, easily might prove the outstanding victor against the Australians or whoever may be the challengers. Wood has a gift for out-thinking opponents, for bringing off the unexpected. Until Budge came along

STORIES IN STAMPS

Tiny San Marino Honors Lincoln

TWICE in its history has the smallest republic in the world, San Marino, in northern Italy, chosen to honor Abraham Lincoln. In March 1861 the tiny state named the Civil War President as an "honorary citizen." In thanks, Lincoln wrote to San Marino: "Although your dominion is small your State is nevertheless one of the most honored in all history." Now San Marino has honored the memory of Lincoln, issuing two souvenir stamp sheets. The stamp, one of which appears below, is printed in a different color for each sheet, 3-lire blue and 5-lire scarlet. The Lincoln letter of 1861 is reproduced on the stamp below an engraving of a statue recently dedicated to him. Thus for the first time in history Lincoln appears on a foreign stamp. Only 32 square miles in area, with scarcely 13,000 population, San Marino exports wine, stone and postage stamps. It finds a fruitful source of revenue in the frequent change of its stamps, first issued in 1877 and divided into two classes in 1899, one for foreign and one for domestic use.

Quintuplets Prepare for Action in Latest Movie

Dionnes Will Sing, Dance, Wisecrack In New Film Roles

For the nursery rodeo that will feature their new movie, the Dionne quintuplets will appear in the "cow-girl" costumes being modeled in the above picture by little Mila Zamrich, who closely resembles the quint themselves.

NORTH BAY, Ont.—The quintuplets are in process of becoming a quintet. Amid the hilarity and excitement of the "shooting" of their third movie, the little Dionne girls are really revealing their musical and histrionic talents for the first time. Previous pictures merely contained sequences showing the children naturally at play. This one, "Five of a Kind," is going to show them "doing their stuff."

"ALL MIXED UP"

WRITTEN BY SIDNEY CLARKE
MUSIC BY SAM FOKASS
TRUMPETS BY ERAL GALLIENE
VIOLINS BY ERAL GALLIENE
VIOLAS BY ERAL GALLIENE
CELLO BY ERAL GALLIENE
CONDUCTOR: SIDNEY CLARKE

Here's a preview of one of next season's popular songs. It's sure to be, because it was specially composed for the Dionne quintuplets, and they'll sing it in the movie now being made in and near the Dafoe Nursery at Callander.

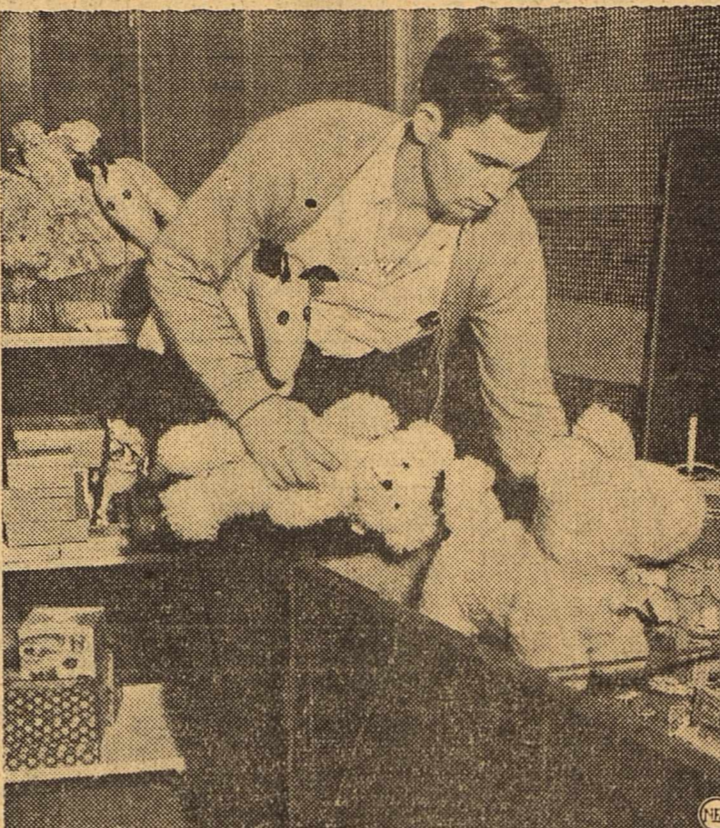

have all been made in and around the nursery, or at Callander. This time Corbell is going to be the setting of the outdoor "shots" in the new movie, thus gaining a place in the sun which local residents felt had been more or less usurped by Callander.

The 10 members of the 20th Century-Fox movie company now on hand include no women except the wife of Director Herbert I. Leeds. The actresses who play the feminine leads in the picture are not coming to the quint's home this year, as the scenario is such as to make it unnecessary. They are to be Claire Trevor and Joan Davis.

MORE ACTING. MORE HILARITY.

Five sequences are to be made in which the quint will appear. That means that their camera routine will be longer, as well as more exacting than previously.

Their costumes were made for them in Hollywood, and were modeled there on 3½-year-old Mila Zamrich, who is not only the same size as the famous children of the north, but resembles them closely.

Great packing-cases filled with toys and dolls, brought by the movie troupe to Callander, help to sugar-coat any aspect of toil that might go with the making of the Dionne quint's third movie.

talent for singing and dancing will be given free play. For the first time, they will really do stunts revealing the results of the training in music and dancing which has been a part of nursery routine since they were able to walk.

WILL "WORK" WHILE THEY PLAY.

All activities of the movie company at the nursery are, as always, under the close supervision of Dr. A. R. Dafoe, and the fact that five sequences are to be made of the children instead of two and three, respectively, in the former pictures, will not be allowed to disturb their routine.

"Rehearsals" for the musical numbers and stunts are sandwiched into the day's routine in such a way as to seem a mere part of the play periods. And the song, "All Mixed Up," is simply written, being specially composed for the quint's use, so that it will not present much greater difficulty than their familiar nursery songs.

"Rehearsals" and actual shooting of film will be occupying a good part of the playtime at the Dafoe nursery until the latter part of June. Then the quint's direct share in the new movie will be completed, and the rest of the picture will be made in Hollywood.

Personals

Mrs. H. S. Foster of Odessa is a visitor here today.

Mrs. Ruth Ramsel left Sunday on a vacation trip to Winters, Lampasas and other places.

Miss Joyce Holman, seriously ill in a San Angelo hospital for some time was slightly improved Sunday, friends reported today.

Mr. and Mrs. Ray Trammel made a week-end trip to Kermit.

Mrs. Lillie Koon was a visitor to Carlsbad, N. M., over the week-end. Lindsay Austin made a trip to Wichita Falls during the week-end.

Thomas "Speck" Voliva has returned from Stephenville where he was a student in John Tarleton college the past term.

Jm Currie of Big Spring, Lyle Currie and family of Ballinger, Mrs. Claude Porter and son of Houston, Mr. and Mrs. A. E. Davis of Houston and Miss Josephine Currie of Houston have arrived in Midland to be at the bedside of their mother, Mrs. Robert Currie, who is seriously ill at her home, 900 S. Main street.

Mr. and Mrs. Robert E. Stone and daughter have returned to San Angelo after a visit with Mrs. Stone's parents, Mr. and Mrs. M. S. Hines.

Traffic Alibis Standardized, Judges Agree

DETROIT (UP)—Judges and Reierers in Detroit traffic court, who ought to be experts, have listed these alibis as "standard" for traffic violators:

Parking in prohibited area: "Somebody pushed my car in front of that hydrant."

Intoxicated driver: "Just two beers was all, judge."

Failure to appear on schedule to pay fine: "I gave the money to a friend who said he paid it."

Speeding: "I guess my speedometer must be wrong."

Failure to observe a stop sign: "I'm a stranger in that part of town and didn't know the sign was there."

One-armed driving: "We became engaged only last night."

Failure to pay fine: "I'm out of work, but I've got a job promised me and can pay you tomorrow."

Failure to have operator's license: "I was driving around the block for a friend."

Driving the wrong way on a one-way street: "The sun was behind a cloud so I couldn't tell what direction I was going."

4-Minute Mile Becomes Goal Of Wooderson

LONDON (UP)—Sydney Wooderson, lanky, bespectacled holder of the world's official mile record, 4:54, has two ambitions.

He wants to run a 4-minute mile and he wants to beat Glenn Cunningham, who has an unofficial record of 4:44. He would like to accomplish both in one race.

Wooderson was scheduled to go to the United States this summer for a "mile of the century" race, but had to decline, owing to pressure of business.

Now it is hoped that Cunningham can be persuaded to come to England to meet the English speedster. The most suitable occasion for such a race would be the international meet at the White City track on August Bank Holiday, Aug. 1.

It is considered here as toss-up whether Wooderson can beat Cunningham, but it is almost a certainty that neither of them can run a 4-minute mile on the White City track. Although the best in London, its bends are too sharp for a super mile; it is unsheltered, and the track itself is considered too slow for really fast time.

Trapper Uses Outdoor Lore On House Mice

MINNEAPOLIS (UP)—For five years through blizzards and freezing weather, Jake Frederickson, rifle couched in arm, followed his line of steel traps along the Canadian border.

Today his trap line contains 75 traps—for mice and rats—and Frederickson makes his living by keeping University of Minnesota buildings clear of them.

He considers 80 rodents a day a good catch. The library, he says, is the most seriously infested building on the campus. One day he caught mice in 26 of the 29 traps set.

"If you were trapping game in the woods, you wouldn't use new traps," Frederickson explained. "You'd throw them in a river for three or four days until they took on smells a muskrat or beaver knows. Trapping mice is no different. Mice are smarter than some game animals, so you can't expect them to be fooled by traps that have a human smell."

He refuses to disclose his method of treating mouse traps, however, considering it to be a trade secret. He does not believe the university will ever be free of rats and mice, but thinks continued trapping will keep them from becoming a serious menace.

Announcements

Tuesday.
Women's Bible class will meet at the Church of Christ Tuesday afternoon at 2 o'clock.

Midland county museum in the courthouse will be open Tuesday afternoon from 2:30 until 5 o'clock. The public is invited.

Wednesday.

Saturday.
Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

University club will sponsor its monthly dance in the Crystal ballroom of Hotel Scharbauer Saturday night at 9 o'clock.

In Lincoln, Neb., a motorcycle of the police department has been fitted with a loudspeaker system to enable the driver to direct traffic.

Movie Hero Saves Girl in a 'Sure-Nuf' Rescue

Gallantly escorting Myrna Loy from the flaming, oil-smeared wreckage of a crashed plane, Clark Gable is pictured above in a rescue role which movie folk insist was no make-believe. They claim that Miss Loy, playing the part of a famous aviatrix arriving in China in the nick of time with desperately needed serum, was almost trapped in the cockpit as a sudden wind fanned the flames attacking the plane. Gable got his co-star out of the plane and rushed her to safety and, luckily, a movie camera was right on hand to record the rescue, which occurred during filming of M-G-M's "Too Hot to Handle."
