WASHINGTON, June 13. — Boy and girl graduates desiring to keep off WPA may get some ideas out of a dictionary of occupations, which the Department of Labor will publish in about a month.

At least 25,000 types of jobs are being listed and defined, although there's no guide to any particular place where one might be found. Anyone unsure whether he would like to be a bulldozer operator, gin hand, powder monkey, fetter, green pipe passer, empty pallet boy, plugger, sagger or special shapes man can find out what these jobs are by consulting the dictionary.

In the brick and tile industry, it will be found, are jobs such as sponger, tosser, wicket man, catcher, and soft mud-molder. Some workers are pea pushers. The dictionary will also list pugilist, boxer, prize fighter and fisticuffer. And hustler, busker, cat man, mammal man and deer man. If you want to know what a grip or an emcee does for a living, again you must consult the dictionary.

Apple trucker, another job, suggests the big apple — erroneously. Draw your own conclusions from bone picker, gang-knife man, bab-biter, tube tester, smoker, soaker, silker and gever out.

For young ladies there are such jobs as bushel girl, inside pocket girl, flume girl, bundle girl, binding girl, jar girl, punch girl, can girl, sample girl and cutting-in-girl. Not considering it an occupation, the dictionary will fail to list "dream girl."

STILL A CHANCE FOR MEMORIAL

IF you were one of 2,000,000 school kids who contributed in 1922 and 1923 a \$340,000 collection for a Navy and Marine Memorial, you'd be interested to know there's still a chance of getting it finished. The memorial was cast in Cleveland, a green bronze assemblage of waves and underpinned seagulls in flight, and planted down near the Potomac river three years ago, surrounded by dirt. Congressman Arthur Jenks of New Hampshire seeks a \$189,000 appropriation to provide steps and other finishing touches.

"It is one of the worst looking things I have ever seen," says Congressman John Taber of New York. "We ought not to go on with its construction."

"If the gentleman had bought only a suit of clothes and got only a coat and vest, leaving the suit standing at that, it would not look very well either," retorts Congressman Kent Keller of Illinois. "It is a beautiful piece of work and ought to be completed."

Temporarily buried in the House by Taber's objection, the bill to complete the memorial will be brought up in the Senate.

Winged Victory

The Town Quack

What with one thing and another, this country is getting to be more like Western Oklahoma all the time.

Cyclones are generally regarded as monopolies of Oklahoma and Kansas, but we have had a couple pretty close by in the last four days.

They told in Stanton yesterday of a farmer who was having to plant his cotton for the fourth time this year. First, it was rained out, then blown out, then hailed out, and the deluge that fell Saturday night again washed it out.

There are some farmers in Midland county who would be glad to plant a couple of times if they knew it would do any good.

I was almost of a will today to write this column like Jim Kelly did his last week in the Stanton Reporter. Jim had this, and this only, to say about his Snooter Knows column:

Almost two days, first of the week without use of linotype because of repair work being done on it has caused lots of reading matter to be left out of the issue and

resorting to measures, etc., to get this issue out the best way possible under the circumstances.

That's what I call getting a job over quick.

It is lack of ideas rather than lack of equipment that is holding this one back.

I heard an argument in the post-office this morning that I want to keep out of.

Joe Crump was complaining because his box was so close to the floor and County Judge Elliott Barron told him it was placed that way so Joe could work off his "bay window" in getting his mail two or three times per day, but Jack Cusack said the boxes were given out in accordance with a man's social standing.

One more thing about the Stanton cyclone: A fellow who said he had opened up a filling station Saturday morning for the first time was on the job alone when the storm came up. He said the gale out of the northeast took the sign from over the place and he had what he thought was his last view of it as it sailed high and far into the southwest.

In about 15 minutes the sign came back, hit the roof of his porch and caused it to collapse.

Let Ripley beat that one.

Mail Carrier for 23 Years Is Retired

STAMFORD, (P). — J. S. Sloan, 65, rural mail carrier here, was retired from service May 31 after 23 years of service, with approximately 300,000 miles of travel behind him. Four and one half years of his service was a postmaster at Roscoe.

Experience he relates range from wringing a chicken's neck for a farmwife on his route—and she was a trained nurse—to killing rattlesnakes coiled in housewife's kitchens. When his service began in 1912, Sloan had a buggy for cold and windy days, road cart for ordinary weather, and saddle horse for rainy spells. Native of Henderson, Miss., Sloan has lived in Texas 30 years.

Giant Atlantic Clipper Ready for Launching

Largest plane ever built in the United States, the 74-passenger Atlantic Clipper constructed by the Boeing Aircraft Co. is shown poised for its launching at Seattle. First of a fleet of six ships that will make regular trans-Atlantic crossings for Pan American Airways, the 41-ton clipper is 109 feet long, has a wingspread of 152 feet and will carry a crew of eight in addition to 74 passengers.

Students Earning Money for Chapel

DENTON, (P). — Misses Patsy Childers of Tyler and Nita Hinds of Abilene, students at West Texas State College for Women, are prepared to demonstrate that tiny accumulations make large totals in fields other than oceans and deserts. Small sums earned through sodapop sales, rummage cleanups, waffle breakfasts and other money-making ideas have pushed their hopes for a campus chapel almost \$2,000 nearer realization.

The two students, working through out the school year as managers of the chapel fund, point to more than \$1,904 in the bank. In addition to profits from almost every kind of benefit sale, the fund was increased by gifts from individuals and organizations. Managers for 1938-39 predict another boom year or two will practically open the door of the chapel.

Miss Strawn, Elton Hinze Are Married Here Sunday

With Rev. D. H. Bonner officiating at the single ring ceremony, Miss Marcella Strawn, daughter of Mr. and Mrs. C. E. Strawn, and Elton Hinze, son of Mr. and Mrs. August Hinze of Orange Grove, Texas, were married in a 7 o'clock service at the home of Mr. and Mrs. Ernest Neill, 411 North A street, Sunday morning.

English ivy, interspersed with pink rose buds, blanketed the mantel in the livingroom and baskets of pink roses flanked the hearth before which the bridal party stood for the service.

Nuptial music was presented by Ned Watson who played Mendelssohn's "Wedding March" on the guitar for the processional and "I Love You Truly" during the ceremony.

Miss Strawn was attended by Miss Helen Hinze of Orange Grove, sister of the bridegroom, as maid of honor.

Marvin Hinze of San Antonio was his brother's best man.

The bride wore a navy crepe morning dress with bolero bordered in white lace, a navy hat, and white shoes. Her flowers were a corsage of Sunlight roses.

Miss Hinze wore a dusty rose crepe with beige accessories and a corsage of blue delphinium.

After the ceremony, Mrs. Ernest Neill and Mrs. Garth Neill were hostesses to a reception.

In the dining room, Mrs. Ernest Neill presided at the wedding cake which stood on a lace laid table wreathed with fern. The bride cut the first slice of the cake which was baked in three tiers, iced in white, and topped by an ivory basket filled with real lilies of the valley.

Mrs. Garth Neill served at the punch table which was laid with a white cloth and decorated with fern.

Mrs. Ed Carson of Odessa and Miss Jane Doran assisted in the reception rooms, the latter also being in charge of the bride's book where guests registered upon arrival.

The bride, who received her diploma from Midland High School in May, has been educated in the Midland schools. She was feature editor of the *Catoico* for 1938, vice president of the Home Economics club, a representative of the third year foods class at the Homemaking rally at San Antonio this spring, and a member of the pep squad.

Mr. Hinze is a graduate of the Orange Grove high school and has lived in Midland about two years. He is salesman for the Dunagan Sales company here.

The couple is at home at 809 N. Lorraine.

University Club Members and Guests Dance Saturday

The combined orchestras of C. A. Rogers and Ned Zradney with the former as vocalist and the latter as director played for the monthly dance of the University club which was held in the Crystal ballroom of Hotel Scharbauer Saturday night.

Weekend Dance Held At Country Club

The Country Club was the scene of two informal affairs during the weekend.

Friday evening, C. B. Reid entertained a group of friends informally. Approximately 20 persons gathered at the club for dancing, which was the evening's amusement.

Mark Dorsey was host to a group of high school and college young people with a dance at the Country Club Saturday evening.

Music for dancing was supplied by the club nickelodeon.

A good attendance was reported for the party.

Pastor Baptizes 104, Finds It Hard Work

DANVILLE, Va. (UP)—River baptism of religious converts is hard work for the preacher. The Rev. R. J. Barber of East Thomas Street Tabernacle asserts.

Household Hints

Beef Facts
When purchasing beef, look first for the government stamp which indicates that it has been inspected and certifies its grade. Select cuts have the following qualities: bones porous and pinkish; flesh preferably fine-textured and fresh bright red; fat firm and cream-colored; little gristle. Beef with a little fat running through it is apt to be more tender than a very lean cut.

Shining Aluminum
Discolorations on the inside of aluminum utensils caused by alkaline foods may be removed by boiling a solution of one tablespoon of vinegar to one quart of water in the utensil.

Salt Quenches Fire
If fat in your frying or broiling pan catches fire, a handful of salt thrown into the pan is usually sufficient to put it out immediately. If not, throw on more salt.

Press Along The Weave
Garments hold their shape better when pressed along the weave of the fabric, rather than across the weave. Press completely dry. Clothing put away even slightly damp is apt to be wrinkled and lack freshness when put on.

Roll in Towels
Garments made of material which are not thoroughly colorfast should be rolled in dry towels before tubbing, with additional towels spread aside to prevent layers of the material touching and colors running into each other. Iron as soon as sufficiently dry.

Quality Rugs
Long wearing wool rugs should have a minimum of sizing on the back, relying on tightness of weave and quality for body and firmness; the pile should be thick and of flexible live wool; the colors deep and clear. American Orientals derive their sheen from a chemical process and should be cleaned only by a reliable rug cleaner.

Police Force Protege Carries on for Father

NEW ORLEANS (UP)—Jacob Uhle, Jr., 24, protege of the New Orleans police department, has achieved his goal of succeeding his father—killed in line of duty by a bank bandit.

The son was 11 years old when the minister explained:

"It's harder on the preacher than the converts because they're full of religious zeal and do not feel the cold."

Beauty Seeker Must Learn to Endure What Can't Cure

BY ALICIA HART, NEA Service Staff Writer.
It might be a good idea—at least it would be a consoling idea—for a woman who is habitually unhappy about her appearance to ask herself "Is it possible for me to correct defects that worry me?"

If the answer is yes, then the sensible procedure would be to get and correct them. But if it is she ought to make the best of it, then stop worrying, and concentrate on learning ways to minimize points and dramatize good ones.

For instance, if one who is a chested has done regularly and correctly all the exercises designed to strengthen and develop the muscles and the results of her trouble are nil, then she must as well stop worrying and start looking more fully developed. In long run, she'll be happier because she faced the fact instead of spending much of her life searching for a cream or a lotion or a cure treatment. Your doctor will agree (and this is a problem about which he should be consulted, anyway) that few and far between are records of flat-chested adults who were able to develop their breasts.

Unless your budget can be stretched to cover a plastic surgery, you cannot do anything about the shape of your nose, either. So you might as well concentrate on attaining a perfect figure and simply beautiful hair. And spend time figuring out a coiffure and a makeup which tend to draw attention away from your nose.

Codfish Weighs 500 Pounds.
SOFIA (UP)—A codfish weighing 500 pounds and measuring 14 feet long was caught by a fisherman at Bourgas and sold to a fishmonger here for \$150. It is said to be the largest ever caught in the Black Sea.

Jacob Uhle, Sr., tried to stop notorious William E. (Bill) Wrigg as he departed out of a branch bank with \$13,000 and a sawed-off shotgun. Uhle pursued and was shot through the head, but was avenged when officers at Mobile killed the fleeing Wrigg in a gun battle.

The "force" raised \$7,500 by benefit show for the patrolman's wife and young son. The department also sent Jacob, Jr., through the Gulf Coast Military Academy at Gulfport, Miss., and helped him through two years at Louisiana State University.

After nearly three years as a salesman, Uhle became a motorcycle patrolman in the same division, serving under the same Capt. Henry Letnie, as did his father.

Cardinals Return Home for 8 Days

LOSE FINAL GAME OF SERIES WITH PUDDERS SUNDAY

The Midland Cardinals returned home today for nine games in the next eight days after having broken even in two games on the road.

The Cardinals lost out yesterday, 8, after having defeated the Wink pudders in the initial game of the series Saturday night by a 13-1 score.

In stopping the Cardinals yesterday the Spudders broke a losing streak that had stretched to 10 straight and had caused them to fall from first to fifth place in the league standings.

It will be Midland and Wink again tonight at 8:30 when the game starts at City Park. The Spudders will be here for three games in three nights. The Clovis Pioneers will be here for three games Thursday, Friday and Saturday nights and the Lubbock Hubbers will be here for two games Sunday and one the next day.

The pitching assignment tonight will probably go to Cliff Neighbors or the Cardinals. Neighbors has won his last three starts and seems to be in the peak of condition at the present time.

The Cardinals worked two hurlers in the game yesterday, Franklin and Parks. Franklin was forced to quit in the third after having damaged his pitching hand attempting to tag a man out while covering up on third base.

Residents Urged to Get Vaccinations

AUSTIN—No matter how busy you are just now planning your vacation, looking up road maps, camping sites and equipment stored since last summer, Dr. G. W. Cox, State Health Officer, advises all Texans to add one extra item to their list of things to be done before vacation starts.

The advice: "If you have not been vaccinated against typhoid fever within the last year or two, go to your family physician and have him give you the three shots" that will protect you against the disease. It takes several weeks for the protective treatment to establish itself throughout the system, so it is an undue risk to wait until just before starting your vacation to attend to typhoid vaccination. Begin the treatment without further delay."

Dr. Cox admonished. "Typhoid fever is much less of a menace than it was a number of years ago. But it still is the cause of much unnecessary sickness. Typhoid fever is contracted through the mouth. You either eat or drink the germs. Typhoid is transmittable through the use of water, milk or other foods that are contaminated by typhoid germs passed on by someone ill with the disease or someone who has had the disease.

"Vigilant protection of public and private water supplies from pollution, pasteurization of milk, protection of food supplies from contamination and such sanitary precautions have reduced greatly the incidence of typhoid fever in Texas.

"But there are certain other sources of danger that cannot be reached by public precautionary measures. Certain persons who have had typhoid fever continue to pass the germs that cause the disease long after they have recovered from the illness—these persons are called

Durable Gabby Hartnett Conducting Iron Man Act of His Own This Year

By JERRY BRONDFIELD
NEA Service Sports Writer.

CHICAGO—"Peace, it's wonderful," sighs Leo the Loud, otherwise known as Gabby—last name Hartnett.

"Do you know," he beams, "that I haven't worked since 1921? Since that day, in fact, when it was so cold that I froze my ears going down to the mill at 5 in the morning. It was right then and there that I decided I'd never work again as long as I lived."

This from a gent who at 37 is the oldest regular in the major leagues. A gent who has been with the Chicago Cubs every season since 1922. A gent who, if he works 100 games this year, will become the first receiver in baseball history to catch more than 100 games a season for 13 years.

There's someone besides Lou Gehrig who deserves an Iron Man label in the majors. And Charles Leo Hartnett of the Florida face and boisterous manner says he quit working 16 years ago. It is to laugh! Or maybe the Gabby One doesn't consider his diamond activities sordid enough to call it "work."

The ear-freezing episode to which he refers happened in Millville, Mass., his home town. As a youth he worked in a mill, where the hours were long—and tough. Young Leo was looking for an opportunity to get out of the "steel" business and when a 20-below temperature nipped his ears so painfully that was the last straw.

MAKES DEBUT IN EASTERN LEAGUE

That summer he sought a try-out with Worcester of the Eastern League . . . and got it and made good. In fact, made good to the extent of attracting scouts of the Chicago Cubs, who signed the youngster and shipped him westward, to training camp at Catalina Island.

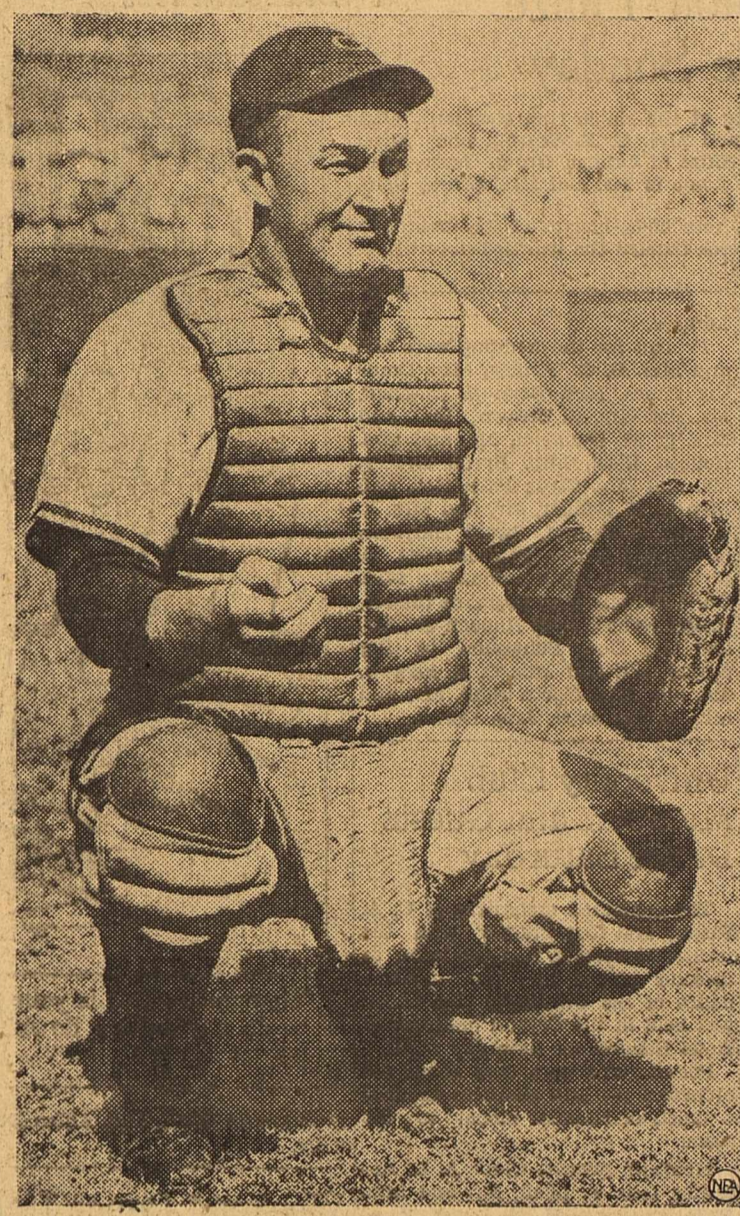

Bill Killifer manage (the 1922 edition of the Bruins, and he was looking for a young catcher in the worst way. He thought he had one in a recruit named McMillin, but two weeks after camp had opened he discovered how much he was in error.

McMillin, under fire, couldn't hit, couldn't throw, and couldn't handle pitchers. In short, McMillin couldn't catch.

So the night before the Cubs' first exhibition game Killifer approached a kid by the name of Hartnett, who had been catching for the Yanni-gans, and said: "You're catching

tomorrow, and I want you to run the game—understand?" Leo Hartnett—it didn't become "Gabby" until a couple of years later—ran the game all right. He handled Grover Alexander perfectly, made two hits, and howled like a maniac through nine innings of play.

Hartnett has been the Cubs' regular backstop since, with the ex-

Gabby Hartnett

and raucous tones on the field, is a fighter and pepper-upper from the word go. His line of chatter on the diamond would make a bunch of mummies rip off their wrappings and execute a triple play.

When you're playing with Hartnett you're playing to win. The Cubs have found that out.

"Slowing up? Not me!" he snorts. There's a little matter of a record on which he has his eye. He already has surpassed Ray Schalk's 1721 games played in, but because of his injury in 1928 he still lacks approximately 125 games of eclipsing Schalk's mark of total games caught.

In his 17 years with the Cubs he has dropped only two foul flies. At present he leads the National League backstops in fielding and the Cubs in batting with a juicy mark that goes over 350.

Like a certain Mr. Gehrig, Leo the Loud just goes on and on and on. And nobody knows just when he'll fold up and call it quits.

Louis, Schmeling Both Predict Win By Knockout Route

NEW YORK, June 13.—Joe Louis promises to finish Schmeling with a left hook to the solar plexus and Max says he'll win the title by repeating with his famous right to the head.

The principals of the coming championship bout turn authors in the current Liberty magazine, writing companion pieces.

Joe declares he's out for revenge; says he was too cocky and inexperienced for the previous fight. The champion says Max can't hit when he's being crowded and he promises to shoot left hooks at the German from close range. Joe says he won't be nervous just because Max "conked" him last time.

Max says he thinks Joe is punch shy and promises to feint the colored fighter into an opening. The challenger promises to start right off in the first round and look for an opening.

Says Joe: "Before I toss that hook I expect to zip Max's face into putty with rapid-fire jabs and to weaken him with right-hand thumps over the head."

Says Max: "The punch that will win for me will be a short blow delivered inside Joe's left hook. If he hooks his left, or crossed over his left if he jabs it."

ception of most of the 1929 season when he was out with a sore arm.

HED STR MUMMIES INTO ACTION

Gabby loves to play baseball. And if the Cubs do anything in a championship sort of way this season they'll probably thank Hartnett for their good fortune.

Board of Directors and the executive board will meet at 11 a. m. to adopt organization set-up and receive reports from committee chairmen.

Abilene Chamber of Commerce will be host at the noon day luncheon. The Abilene High School Eagles, official WTCC band, will furnish music for the programs during the day.

The three-story headquarters building, turned over to the Chamber last November, houses the administrative offices of the organization and the \$30,000 district and town exhibits. Each district tells the story of a major West Texas resource. Titles of the exhibits are wheat, land, oil, industrial, cotton and feed, cattle, minerals, climate, wool and mohair, and diversification. Ninety-three town displays show the major attractions of as many West Texas towns.

Radio stations which will carry the tour and dedication program are KGKO Fort Worth; KRBC, Abilene; KBST, Big Spring; KRLH, Midland; KFYO, Lubbock; KGKN, Amarillo; and KGKL, San Angelo.

In addition to WTCC directors and other officials expected to attend the opening, special invitations have been issued to West Texas county judges, members of the Legislature and members of the Texas Archaeological and Palaeontological Society.

Announcement was made today that a member of the Texas committee which went to Washington recently to confer with federal officials will make a report on the proposed federal agricultural research laboratory at the agricultural board meeting.

Wedding Weary

Plenty busy is Thomas H. Larkin, above, whose tranquil life as a small-town police chief was stirred into activity when none other than the President's son, John Roosevelt, and Miss Anne Lindsay Clark selected Nahant, Mass., for their June 18 wedding. Larkin's job is to organize a protective guard for the bridal couple and arrange to take care of a host of distinguished guests.

Stamp News

DESIGN of the 3-cent Delaware commemorative to go on first-day sale at Wilmington, June 27, is shown above. The stamp marks the 300th anniversary of the landing of the Swedes and Finns in America.

The central design is a reproduction of a painting by Stanley Arthur depicting the arrival of the first Swedish and Finnish settlers. Officials chose Wilmington as the first-day city because it was in this immediate vicinity that the colonists made their settlement, although the "New Sweden" actually comprised parts of what is now Delaware, New Jersey and Pennsylvania.

Postmaster General James A. Farley has announced authorization of a special U. S. postage stamp to commemorate the centennial anniversary of the establishment of the Iowa Territory. Details of the color, design and date and place of first-day sale of this stamp, which will be issued in the 3-cent denomination, will be announced later.

The Post Office Department will issue a second U. S. Northwest Territory commemorative, for release at Marietta, Ohio, July 15. The stamp will feature a new design, reproduction of the pioneer monument by Gutzon Borglum which will be unveiled in July. Use of an overprint of last year's Northwest Territory stamp was once considered. The new stamp will be 3-cent purple, 0.75 inches by 0.87 inches.

Newest British colonials re-leased include Sierra Leone, five stamps in two designs; Trinidad and Tobago, nine values; Nigeria, nine values; Newfoundland, four stamps; Hong Kong, \$1 value added. (Copyright, 1938, NEA Service, Inc.)

Stagecoach in Museum.

COORVALLIS, Ore. (UP).—The only remaining coach of the Ben Holiday livery of transcontinental stagecoaches has been placed in the Horner museum at Oregon State college. The vehicle, built before 1860, figured in Mark Twain's "Roughing It," in which the humorist described a ride taken by Horace Greeley, pioneer New York editor.

Red Light Stops Runaway. MILWAUKEE (UP).—During 15 years of drawing a milk wagon over Milwaukee streets, Frank, a 21-year-old horse driven by Henry F. Votapek has learned the spectrum of traffic signals so well that it even halted in the midst of a runaway when a red light flashed at an intersection.

Indians Turn to "Swing." NEW YORK (UP).—Indian youngsters are substituting popular music for their native songs, declared Princess Rosebird Yellow-Robe, a descendant of Chief Sitting Bull, who spoke to members of the Music club of Hunter college. The princess plays Sioux dances on a drum.
