

## Sad and Weary Mennonites

Symbolic of a migration that failed is the Jacob Sawatzky family of German-speaking Mennonites, above, shown waiting at Juarez, Mexico, for permission to cross the United States and return to Canada, which they left more than a decade ago to set up a colony in Mexico.

By NEA Service.

EL PASO, June 29.—Vanguard of a sad band of disillusioned Mennonites, 16 men, women and children have crossed the Mexican border here on the way back to the Canada they left between 1922 and 1925.

About 15,000 members of the religious sect trekked to Mexico in that period. They bought land for cash, and by hard work made a garden of formerly desolate areas south of Chihuahua.

But now at least half of them are painfully making their way back to the Peace river valley of northern Alberta, Canada. They believe they have been persecuted by an unfriendly government in Mexico. Bandits raided their peaceful homes. Taxes rose. Ex-

propriation bit into their lands. Crop failure piled on top of crop failure.

The returning emigrants must travel across the United States to Canada in sealed cars under guard, for 60 per cent of them suffer from trachoma, a contagious disease of the eye. Canada is welcoming their return and assuring each family a grant of 160 acres of virgin land for a nominal payment of \$10.

It will take two years to complete the migration of the half of the colony which has decided to begin all over again in the northern wilds. They have no fear of succeeding there, for with large families all working in the fields and a creed that implies hard work and no play, all they ask is land and the right to be left alone.

## Relief Official Is Reprimanded After Speech on Politics

WASHINGTON, June 29. (P).—The senate campaign funds committee gently reprimanded Aubrey Williams, deputy relief administrator, Tuesday for urging the unemployed to keep their friends in office and warned "all dispensers of federal funds" against dabbling in politics.

With the touchy question of influence of relief money and political officials on the coming congressional elections in mind, the committee applied the word "unfortunate" to Williams' speech of yesterday to a delegation of the workers' alliance. An organization of relief recipients.

Chairman Sheppard (D-Tex) indicated further action might be taken, however, such as the requisitioning of a transcript of Williams' speech, reported to be in the hands of the alliance, for comparison with a letter received from Williams today contending that what he had said was incorrectly reported.

"I pointed out to them," Williams said, "that in a democracy it was important for them to keep in office those who had their point of view, just as their opponents think it important to remove from office those who have their point of view."

"There was nothing political in what I said," he added, "nor were any political implications intended." Reporters who listened to Williams' speech said he told the alliance delegates:

"Keep your friends in power. Judge those friends by the crowd they run with when they come to you and ask for support." Coming as it did a few days after President Roosevelt's appeal for the election of "liberal" rather than "conservative" candidates to congress, Williams' speech was the subject of widespread discussion.

## Attorney Principal Speaker at Lions Club Lunch Today

Frank Stubbeman, attorney, was the principal speaker at the regular weekly luncheon of the Midland Lions Club today noon, the subject of his talk being, "A Sane Course Through Life." The speaker admonished his listeners to gather a few sane principles and follow them rather than grasping at wild ideas that are continually advanced by more or less radical persons whose ideas often destroy rather than build. We are greatly affected by circumstances, he said, and we should fit into these circumstances and things will perhaps work out for the best. He urged his listeners to follow a sane course through life.

Dr. Hal Bybee, head of the geological department of the University of Texas, Austin, was a guest of the club, also made a brief talk in which he stated that the University is handicapped to a great extent due to the fact that many people have the idea that the University of Texas is the richest school in the world. See (ATTORNEY) Page Six.

## May Get WPA Funds For Recreational Activities Here

Preliminary steps were being taken today by committees of the chamber of commerce, city and county officials to secure for Midland a share of Works Progress Administration funds set aside for recreational activities.

Funds amounting to \$4,701.28 are available for Midland from the WPA if matched by \$1,666.34 of local sponsors' funds, it has been announced by John C. Burnside, district WPA administrator at San Angelo. This is a part of approximately \$75,000 of federal funds allotted to the district.

Local civic leaders expressed the belief that such funds could be applied to the recreational program now under way at the old north ward school, used for Boy Scouts and the new Mustang organization which is sponsored by the Rotary club. Plans for participation by other service and civic clubs were discussed, with likelihood that additional recreational centers would be located in the negro and Mexican sections.

## Strike Violence in New Orleans Flares Up; Crowd Fired on

NEW ORLEANS, June 29. (P).—A policeman fired two shots into a crowd of negroes here today in a new outbreak of trouble in the CIO strike against major trucking companies. No one was hit.

Attorney Richard Dowling of the CIO charged that police drove two union leaders from the city "at the point of guns," and that other leaders were in hiding.

Acting Superintendent of Police John J. Grosch admitted police had taken the two organizers, J. Robert Robertson and Bert Nelson of San Francisco, to the parish line and told them to keep out of New Orleans. He denied that the men had been beaten.

## Lieut. O'Connor and Mother Visit Here

Mrs. Marion O'Connor and son, G. G. O'Connor, are here for a week's visit with her parents, Mr. and Mrs. A. Harry Anderson.

The two came to Midland from West Point where Mrs. O'Connor witnessed her son's recent graduation from the military academy. He is now ranked as a second lieutenant.

After a visit to Los Angeles, Lieut. O'Connor will be stationed at Ft. Sill, Okla., in the field artillery.

Mrs. O'Connor will be remembered by her friends here as the former Miss Marion Gray who was born and reared in Midland.

The two are traveling by automobile.

MAKES HEADQUARTERS HERE.

F. R. Wallace, district manager of the C. I. T. corporation, recently transferred his headquarters here from Abilene.

## Saturday Closings Disbanded

### Sunday Shutdowns Are Retained by RR Commission

AUSTIN, June 29. (P).—The state railroad commission Tuesday issued an order lifting the Saturday shutdown of Texas oil fields for July but retaining Sunday closings.

The commission fixed an allowable production on July 1 of 1,602,086 barrels but estimated the daily average allowable for July, with deductions for five shutdowns on Sundays, would be 1,359,192 barrels.

In addition, it estimated actual production during 1938 had run 1.85 per cent under the allowables, and on this basis stated the approximately daily production for July would be 1,334,047 barrels.

The United States bureau of mines had estimated Texas' share of the nation's market demand for crude oil in July at 1,360,300 barrels daily.

"The commission has given a great deal of thought to the possibility of lifting both Saturday and Sunday shutdowns," a statement by C. V. Terrell, commission chairman, said, "but while the trends are in the right direction we feel that they have not yet developed the anticipated momentum which would safely warrant the lifting of both the Saturday and Sunday shutdowns at this time."

Recently the commission had indicated the dual closing would be removed, but met protests from many oil operators, at a state-wide prorator meeting, who said such action might endanger the price structure.

The average daily allowable during the first 15 days of June was 1,196,586 barrels and during the second 15 days was 1,189,210. The bureau of mines estimate of demand for June was 1,329,300 barrels.

"Favorable trends developing in recent weeks continue to reflect improved conditions in the oil industry," Terrell said.

"Crude stocks have been reduced to a point where they are now three per cent lower than at this time last year, and gasoline stocks declined 1,700,000 barrels during the week ending June 18, 1938.

"We are now entering a period of high gasoline consumption, which should further reduce excessive stocks, x x x There are also important signs that business recovery may be taking place."

The order left field allowables unchanged, generally although some adjustments were made. The East Texas field allowable was estimated to be 512,037 barrels on July 1, compared with 508,897 on June 1 and 510,541 on June 20.

West Texas—Bennett 2,070, 2,070 and 2,100; Cowden, North 7,426, 7,597 and 8,797; Fuhrman 1,713, 1,780 and 1,460; Goldsmith 20,104, 20,298 and 20,684; Harper 8,730, 8,755 and 9,444; Kermit 20,001, 20,183 and 20,285; Means 2,239, 2,315 and 2,688; Penwell 4,270, 4,296 and 4,800; Snyder 1,096, 1,096 and 1,240; Wasson 5,682, 5,797 and 6,307.

## Seventh Attempt To Climb Mount Everest Dropped

KALIMPONG, India, June 29. (P).—Another attempt to scale majestic Mount Everest had ended some 2,000 feet short of the peak today. A member of the British expedition trying to scale the mountain arrived here with word from the base that the effort had been abandoned.

It was the seventh expedition in the past 29 years; none has ever been successful.

## 48 Million Given For Airport Aid

WASHINGTON, June 29. (P).—The PWA allotted \$48,000,000 today to the war department to extend and remodel army facilities in 28 states and the District of Columbia.

Among Texas posts included were Fort Bliss, Fort Clark, Fort Crockett, Fort Sam Houston, Fort D. A. Russell, Kelly and Randolph fields.

## Father of Midland Man Dies in Kansas

Mr. and Mrs. G. W. Folsom were called to Independence, Kans., recently because of the serious illness of his father. The elder Folsom, a retired druggist, died at the home of a son Saturday morning. Burial was Sunday afternoon at the home near Fredonia, Kans.

G. W. Folsom is employed at the offices of the Sinclair-Prarie Oil company here.

The bereavement was the second the couple has suffered this year. Mrs. Folsom's father having been buried in April.

ADDITIONAL MECHANIC.

Geo. Aughambaugh has arrived at Sloan field, coming from Lordsburg, N. M. He will serve as an additional mechanic of the airport force.

## Mussolini Talks---

# Franco Told to Use "Moderation"

## No Landlord Trouble in City Park

Twice in a month their landlords wouldn't wait for the rent, so two fatherless Cleveland families moved to a pavilion in a municipal park and announced their intention of continuing light housekeeping there until relief funds are available to pay their rent. Mrs. Emma Krus is shown, top, cooking on an improvised stove as her children Robert, 5, and Richard, 7, look on. The lower photo shows Mrs. Jessie Ferguson, mother of the other evicted family, watching over her sons Herbert, 11, and Wilfred, 7, as they sleep on a park bench under the pavilion. Said Mrs. Krus: "It's wonderful for the children."

## Duggan South Extender Gauges Flow of 107 Barrels in 20 Hours

By FRANK GARDNER.

Devonian Oil Company et al. No. 1-C-8 Duggan, effecting an important extension of production two miles south of present boundaries of the Duggan pool in southeast Cochran, gauged tubing flow of 107 barrels of oil cut four per cent with basic sediment and acid water, in 20 hours yesterday after acidizing with 2,000 gallons, bottomed at 5,051 feet in lime. It had previously been treated with 1,000 gallons when total depth was 5,033 and swabbed two barrels an hour afterward. The extension well topped pay at 4,973, with good saturation from 5,008-33 and broken increases to total depth at 5,051. It is located 580 feet out the northeast corner of labour 8, league 54, Oldham county school land.

Shell No. 2 C. A. Dowden, extending the southern Yoakum area linking the Denver and Wasson pools a half-mile southwest, flowed 198 barrels of oil through 2-inch tubing on 24-hour test. It had been acidized with a total of 5,000 gallons from 4,931 to 5,040, total depth, given in two stages. Oil tested 32.2 gravity at 66 degrees.

In the link area, Shell No. 1 Lowe, bottomed at 5,024 in lime, swabbed and estimated 60 barrels of oil naturally into pits in eight hours. It then kicked off, flowing 144 barrels in eight hours while unloading hole. Preparations are now being made to acidize.

Having reached completion depth of 5,090 feet in lime, Shell No. 2 Mrs. Dora Roberts, quarter-mile offset to the No. 1 Roberts discovery west of the Denver pool in Yoakum, is laying down drillpipe.

Eastland Pumps Water. With oil exhausting rapidly, Eastland Oil Company No. 1 P. C. Dunbar, southwestern Gaines field, yesterday pumped 60 barrels of fluid in 12 hours. At last reports it was pumping three barrels of sulphur water hourly, with only a slight show of oil, and with a strong odor of sulphur gas. The previous day, the well had pumped an estimated 40 barrels of oil in five hours, cut about 20 per cent with basic sediment and water. Total depth is 4,640 in lime, and it has been acidized. The test is in section 24, block A-12, public school land.

J. L. Perryman, Jr. No. 1 C. H. Doak, northeast Gaines wildcat

west of Cedar Lake, was reported to have topped gray lime at 4,583 feet and this morning was drilling below 4,553 feet. Its brown lime top was picked variously at 4,100 and 4,110.

Eight miles to the west and two miles north, Riddle & Warr No. 1 J. B. Brown is drilling at 4,140 in anhydrite and red rock.

After being shut in since Friday, southern Andrews' new discovery, R. R. Rhodes, J. D. Tompkins et al. No. 1 Emma Cowden, was opened yesterday evening and headed an estimated 60 barrels of oil in one hour, then died. Much of the oil represented accumulation, the well having flowed only about two barrels an hour before it was shut in. It will be flowed into tanks today, oil recovered to be used to load hole for a scheduled 1,500-gallon acid treatment. This will be followed by a 5,000-gallon job. The well, bottomed at 4,220 in lime, is located in section 1, block 44, township 2 north, T. & P. survey.

Olson (Forgeron) No. 1 Lockhart & Brown, also in Andrews, is cleaning out of bottom with sand pump. Tubing will be run tomorrow preliminarily to acidizing lower pay.

Ranger, Castel et al (formerly Stogner) No. 1 Hendrick, sole wildcat now drilling in Ector, had reached 4,193 without change last night. It, balled 15 gallons of oil in 12 hours.

Barnsdall No. 1 J. E. Witcher, in Ector's Foster pool, flowed 798.90 barrels on 24-hour test, with 65-oil ratio of 150-1. Pay between 4,015 and 4,175 was shot with 670 quarts.

W. D. Anderson No. 1 Vance, Martin wildcat, is drilling anhydrite below 2,810 feet.

New Mexico Fire. Spectacular fire broke out last night at 9:30 on Repollo No. 2 Fowler Hair, well in the Jal sand pool of Lea county, N. M., when gas caused 34,200,000 cubic feet of gas became ignited. Wreckage of burned derrick and equipment has been cleared away, and owners are preparing to extinguish the flames. The well first hit gas at 3,360-70 and found a big increase at 3,385, total depth, where it blew out.

Northeast of Tatum in northeastern Lea, Rowan & Nichols No. 1 State is drilling red shale at 3,935 feet.

Southeast of Lovington, Conoco No. 1-K-29 State is drilling at 3,356 in anhydrite and gyp.

## French Decree Death for Spies In Peacetime

PARIS, June 29. (P).—The French government today issued a decree establishing the death penalty in peacetime for certain forms of espionage. The law was designed to halt the growing number of spy cases in France in recent years.

Authorities said the decree annulled Germany's recent counter-espionage activities.

## Cowgirl Sponsors To Cowboy Reunion From Far-Off Points

STAMFORD, June 29. — Cowgirl sponsors who will represent towns or ranches at the Ninth Annual Texas Cowboy Reunion at Stamford July 4, 5 and 6 are coming from greater distances than for any previous year of the celebration. From Fabens, Texas, more than 400 miles west of Stamford, from Tulsa, Okla., and from South Pasadena, Calif., will come sponsors to represent their cities and compete for the handsome saddle offered as first prize in the sponsor's contest.

Official appointment of sponsors had been made by 33 towns and communities early this week. Appointments will be received up to Saturday night. Besides these, the winners of the contest for the past six years are expected to attend. Mrs. Charles F. Markham of Stamford is the official Reunion hostess this year. The list of sponsors follows:

Stamford, Miss Virginia Wood; South Pasadena, Calif., Miss Lois West; Hamilton, Miss Loraine Cleveland; Throckmorton, Miss Margie Parrott; Tulsa, Okla., Miss Billie Jo Wilson; Santa Anna, Mrs. Travis Hays; Barton Ranch, Mrs. T. E. Barton, Abilene, Miss Mary Anna Green; Anson, Miss Peggy Hagens; Jayton, Miss Lucille Daniels; Roscoe, Miss Anna Lee Spiers; Tahoka, Mrs. Lena Mae McMillan; Memphis, Mrs. Murray Dodson; Miller Bros. Ranch, Miss Elizabeth Miller, Lamesa; Miss Ann Woodward; Waco, Miss Ida Marie Crews; Bean Robinson Ranches, Miss Claire Evelyn Peach; Seymour, Miss Etta O. Rogers; Brownfield, Miss Fern Sawyer; Wichita Falls, Miss Nadine Stewart; Spur, Miss Pauline Shugert; Coleman, Miss Joe Morris; Lueders, Miss Jane Reves; Girard, Miss Dorothy Schuessler; Haskell, Miss Elizabeth Middleton; Merkel, Mrs. Jack Stanford; Fabens, T. DuBrez; McGargie, Mrs. Sybil Willite Prickett; Guthrie, Miss Caroline Bateman; Midland, Miss Walter Payne Cowden; Shallowater, Mrs. W. R. Sauls; Stamford, Miss Mildred Hood.

Former champions expected to attend are Miss Curley Seale, Baird, winner in 1932; Miss Emma Dean Bingham, 1933; Mrs. Ardeth Copeland, Blackwell, 1934; Miss Annabelle Mitchell, Sweetwater, 1935; Miss Mary Louise Furdom, Stephenville, 1936; Mrs. Guy Caldwell, Albany, 1937. These winners of former years will not compete for prizes.

## Jeanne Davis Named Midland Sponsor To Pecos Rodeo

Selection of Miss Jeanne Davis, daughter of Mr. and Mrs. W. Chapell Davis, as Midland sponsor to compete in the Queen of the Pecos Rodeo contest at Pecos on July 4, was announced by chamber of commerce officials today. Miss Davis to accompany the Midland delegation to the Pecos rodeo next Monday. Miss Davis represented Midland at the Stamford rodeo last year and also served as co-hostess at last year's Midland Cowboy Contest. She was Midland Duchess at the Homecoming Dance and banquet in Odessa last week-end.

Midland's famed young cowboy ropers, Clarence Scharbauer, Jr., Marion Flynn, Jr., Roy Parks, Jr., Buster Cole and Billy Wyche, Jr., will also be presented at the Pecos rodeo next Monday.

Plans for the Midland motorcade to the Pecos celebration next Monday were going steadily forward today. R. D. (Bob) Struggs, chairman of the motorcade committee, predicting the largest goodwill project ever attempted by the city of Midland. It is likely that at least 50 cars will comprise the caravan which will leave the high school next Monday morning at nine o'clock. Arrival in Pecos is scheduled for 11:30.

The Midland group will participate in the huge July Fourth parade at Pecos, and will be given numerous opportunities of advertising the Midland Cowboy Contest, September 3-4-5. Pecos has promised to return Midland's visit by bringing a large delegation to the Midland rodeo.

Persons planning on joining the motorcade are urged to call the chamber of commerce office as soon as possible.

## May Get Divorce

(NEA Radiophoto)

Striding along a Paris boulevard, Count Court Haugwitz-Reventlow, handsome Danish husband of the former Barbara Hutton, Woolworth heiress, is pictured in this radio photo as social circles around the world were stirred by a reported rift between the couple. The countess and their 2-year-old son Lance, over whom the controversy apparently arose, are in London, where a court order reportedly has been obtained to force the count before a magistrate if he goes to England.

## "Cap" Wallace to Be Honored by National Guard Unit of Ala.

W. E. "Cap" Wallace left for Decatur, Alabama, this morning following an invitation to attend dedication of a new national guard unit in that city Friday.

Wallace was the organizer and first commander of company E of the old First Alabama national guard in Spanish-American war, will be honored at the dedication ceremony.

Wallace's son, George Wallace, and his wife are visiting in Decatur at the present time and he will return home with them, probably next week.

## Fort Worth Youths Held After Dallas Driver Is Kidnaped

FORT WORTH, June 29. (P).—Two Fort Worth youths, one an Alabama university law student, early today kidnaped and robbed a Dallas taxicab driver and forced him to drive them to Fort Worth. The driver overpowered one of the youths after the other had left.

## Eddy Gene Cole Named Duchess to Big Spring Show

Miss Eddy Gene Cole, daughter of Mrs. Frank Williamson, has been selected by the chamber of commerce to represent Midland in the bathing beauty revue to be held in Big Spring next Monday afternoon, July 4, the revue to be staged in connection with the annual Big Spring rodeo and celebration. The revue will be held at the municipal swimming pool there.

Miss Cole, popular high school student, represented Midland in the bathing beauty revue at the recent Fort Stockton Water Carnival.

BT-9's LAND.

Flying a BT-9, Capt. Bryte departed from the airport this morning for Kelly field, San Antonio, after an overnight stay. Capt. Bryte arrived Tuesday night from Albuquerque, N. M.

Plotted by S. M. Parrish, a BT-9 arrived from Albuquerque late Tuesday and departed later for Randolph field, San Antonio.

## Protection to Alien Ships Is Offered

### Assurances Given British Bombings To Be Abandoned

ROME, June 29. (P).—Vergilio Gayda, fascist spokesman-editor, declared today Italy had advised General Francisco Franco to use "moderation" in his efforts to prevent British and other foreign ships bringing supplies to the government of Spain.

He said, however, that Italy approved bombing vessels carrying contraband but disclaimed any Italian responsibility therefore.

He said Italian Foreign Minister Ciano told British Ambassador Earl Pery last night Franco had already taken measures to give the British government satisfaction for the bombings.

Measures adopted included one saying British ships would not be attacked while navigating the British flag will be respected as far as possible in Spanish government ports; Franco is willing to name free ports of western Spain where "honest traffic" would make free entry.

Some diplomatic quarters believed the measures might bring a halt to the bombings. To date, 59 British ships have been bombed and 39 British seamen killed.

## Legion Regional Meeting Will Be Held in Big Spring

BIG SPRING, June 29.—Plans are shaping up for a varied program of fun and games when American Legion and Auxiliary members gather in Big Spring on July 9 and 10 for a two-day regional convention. Local committees are making arrangements for an attendance of 1,000, to make the occasion here one of the largest of the organization with the exception of the state department convention.

Entertainment will be stressed, and the convention will offer banquets, dances, junior baseball games, teas, golf, swimming, and barbecues.

Outstanding figures in legion activities will appear at the business sessions. These will include Dr. W. J. Danforth, Fort Worth, state department commander, Drury Phillips, national vice commander, and Dr. William F. Murphy, former national committee man. At the auxiliary sessions, Mrs. Pearl Ezell, department commander of the unit, will appear.

Local legionnaires are planning to have several state officials here during the convention.

The meeting will open Saturday, with entertainment features on the calendar for the afternoon and night. Business meetings are scheduled for Sunday.

The region to be represented at the meeting extends from Mineral Wells to El Paso, and from the Oklahoma Panhandle line to Del Rio. Posts throughout the area are being urged to send a big representation.

## 21 Known Dead After Heaviest Rains in 20 Years Hit Japan

TOKYO, June 29. (P).—Twenty-one persons known dead and 15 missing today as the worst rains in 20 years deluged all of Japan's main islands.

In Yokohama, a cliff caved in, crushing five homes and killing 12 persons. Almost 50,000 houses are flooded in Tokyo. Railroads and power lines were disrupted.

## Either Return Flag Poles—Or Trouble Due—Club Pro Says

Wanted: The return of two flag poles to the Country Club golf course—before trouble starts.

Sherm Elworthy, club professional, today reported two of the poles—used to mark the holes on the course—were stolen last night. He said the identity of the persons taking the poles was known and said that if they were not returned by tomorrow morning officers would be asked to recover them. He declared no questions would be asked of the person returning the poles—not even if they return them like they look 'em—after dark.

## Behind the Scenes in Washington

**Editor's Note:** The opinions expressed in this article are those of Mr. Dutcher, NEA-Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, June 29.—The year's most sensational rumor has been killed off by the General Motors announcement of operating schedules.

The rumor, believed and repeated in the highest places, simply was that the big three automobile companies were going to close down until after election.

The version attributed to Gov. Frank Murphy of Michigan, after a visit to the White House, was that this move was deliberately planned as a political blow at the New Deal. Fantastic or otherwise the yarn was given so much credence that Solicitor General Robert H. Jackson was asked to check up on such laws as there might be which covered "conspiracy against the public welfare."

From Palo Alto came a report that Herbert Hoover had explained

Congressman Brooks Fletcher of Ohio: "Much of this partisan ballyhoo reminds me of the performance of a clever side-show ballyhooer who got the people all excited about what he assured them was 'the famous Brazilian invisible fish, the only one of its kind in captivity.' This side-show ballyhooer artist had formerly been a fairly successful politician."

to Leland Stanford professors that the industry would fold up until after elections, delaying decisions on new models and postponing fall openings, because of its uncertainty and fear.

### A LOT OF LOOSE TALKING.

Correspondents who kept trying to check these and other versions could be sure only that the industry would produce relatively few cars in the next two or three months because of heavy inventory, that there was inside pressure for postponement of fall openings until January and that many interested persons—including certain automobile men—had engaged in a lot of loose talk.

Now General Motors announces that its plants will close on an average only three weeks longer than the usual shut down for inventory and model change-overs. Which means at least one thing less for Washington to be all hot and bothered about.

### THE HOWS AND WHYS.

President Roosevelt told the committee which is going over to study British labor laws and conditions

that he wanted it to find out why there was relatively little opposition in England to union organization and collective bargaining.

There's so much dynamite in H. R. 10936, a bill introduced by Congressman David J. Lewis of Maryland, that it probably never will be considered seriously.

The bill proposes that any U. S. senator or representative who engages in law practice with a partner or associate who acts as an attorney or agent in any case "in opposition to the interests or in the service of the United States" shall publicly disclose all items of income received by himself and partner in that connection.

The obvious next step would be to require lawyer-members of congress to disclose fees from and identity of all clients whom they or their law firms represent, which in many cases might be no end embarrassing.

But Lewis, who tossed the bill in at the last minute, apparently is seeking to build up campaign issues against his opponent, Senator Millard Tydings, member of a Baltimore law firm.

Girl employes under John L. Lewis at the big United Mine Workers headquarters here are required to give up their jobs when they get married.

### CCC Patrol Holds Line Against Cricket Horde

SPEARFISH, S. D. (U.P.)—CCC workers, assisted by farmers and ranchers, are battling this summer a Mormon cricket invasion described as the heaviest in years.

The crop-eating crickets, moving by the millions across the border from Wyoming are being met daily by a conservation corps patrol entrenched behind a 15-mile wall of steel.

Bands of CCC enrollees from the Fort Meade camp, armed with shovels, are stationed along the boundary to check the hungry brown army. When a trench becomes clogged with crickets, the patrol fills it with dirt and digs a new trench.

### Patriotic Square for City.

BERKELEY, Cal. (U.P.)—The city council has decided to rename one of the city's squares "Constitutional Place" in honor of the sesquicentennial anniversary of the American Constitution.

# The Town Quack

American war.

Cap serves often at a job which promotes him from Captain to Colonel. Did you ever hear of an auctioneer who wasn't called "Colonel"? Cap is a good auctioneer and he used to be introduced by Paul T. Vickers, on Trades Day, as "Colonel Captain W. E. Wallace."

Bill Pyle, with his family, left the dry ranges and spent his vacation in southern seas and tropical jungles. When he got back, the rains fell and his own pastures took on jungle-like growth.

Numerous rodeos are to be held around the July fourth holidays, which reminds us that our own big Cowboy Contest will come off early in September, and we ought not to miss a chance to talk it up to the cock-eyed world. Advertising will be distributed at these July fourth rodeos by members of the rodeo committee and by other helpful citizens.

CALLING ALL POLICE to a Berlin athletic field, Nazis staged a track meet for German police, and among the stunts was this somersault above a group of fellow cops.

# EURIPIDES WAS RIGHT

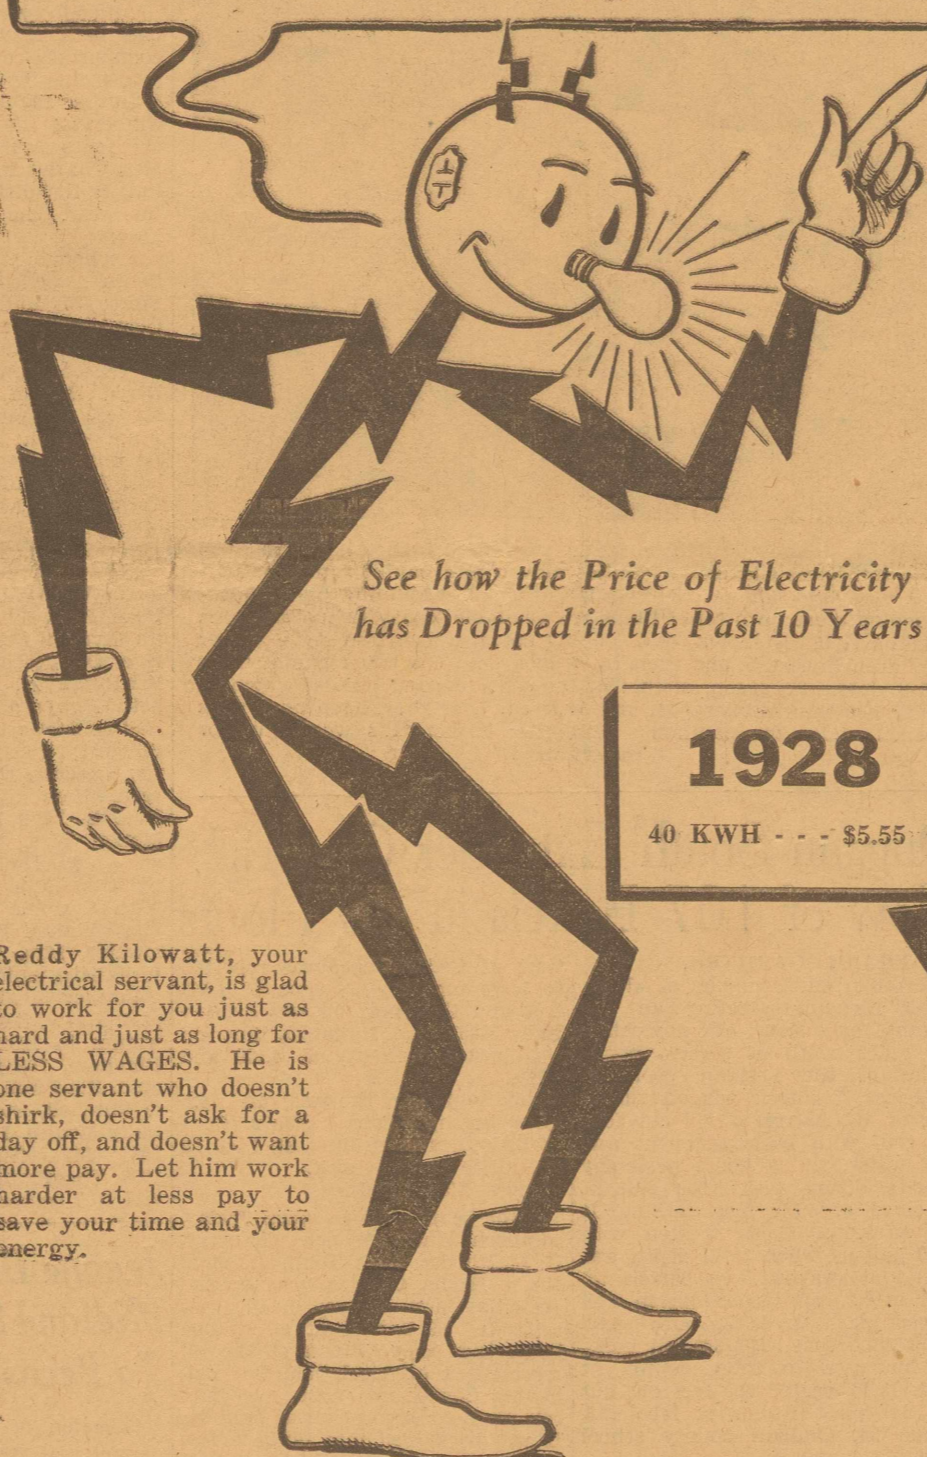

The ancient philosopher, Euripides, is credited with the saying:—"Whom the Gods would destroy they first make mad." Isn't it true today? To lose our friends, our wives, our jobs, or our business, we need only to lose our tempers.

Do you find yourself inclined to be grouchy, easily irritated or offended? Perhaps you are bilious, or as we Southerners say, you have so-called "Tropical Liver," so prevalent in hot weather. All you may need is a little Calomel or better still, Calotabs, the improved calomel compound tablet that makes calomel-taking a pleasure.

Calotabs is what the doctors call "a cholagogue" or bile-expelling laxative and diuretic. It gives you the combined effects of calomel and salts, yet is just as pleasant and safe as ordinary purgatives. One or two Calotabs at bedtime with a glass of water or sweet milk. Next morning your system feels clean and refreshed, your head is clear, your spirit bright and you are feeling fine with a hearty appetite for breakfast. Eat what you wish and go about your work or pleasure.

Genuine Calotabs are sold only in checker-board (black and white) packages bearing the trade mark "Calotabs." Avoid imitations or substitutes. Family package only twenty-five cents; trial package ten cents, at your dealer's. (A.S.T.)

# "DOWN GO ELECTRIC RATES FOR MIDLAND HOMES AND STORES!"

3rd Rate Reduction in 10 Years

## Cheap Electricity NOW CHEAPER Than Ever!

### RESIDENTIAL ELECTRIC RATES 50% LOWER THAN IN 1928

Another reduction in electric service rates to Midland residential and commercial customers becomes effective July 1. This is the third reduction since 1928, and cuts the price of electricity for the average residential and commercial customer 50 per cent below the 1928 level.

The Texas Electric Service Company, always has followed a policy of reducing the price of electricity as rapidly as conditions warrant, and the record of rate reductions over the last 10 years show graphically how electric rates have been consistently reduced, even during the depression. This latest reduction, which makes CHEAP electricity still CHEAPER, comes at a time when other living costs are generally higher, ~~the price of~~

Brighten your home and lighten your work by using CHEAP ELECTRICITY for better lighting, easier cooking and greater food saving. The new low rates make your electric service more than ever the biggest bargain in the home.

## Average Cost of Electric Service in the Home is LESS than 10¢ a Day

Electric service is one of the smallest items of household expense. The average daily cost of electricity in the home is less than 10 cents a day . . . .

- ... Less than the price of a package of cigarettes.
- ... Less than the price of a gallon of gasoline.
- ... Less than the price of a quart of milk.

Divide your next electric bill by the number of days in the month and see for yourself how small is your daily cost for the many ways electric service saves your time, your money, and adds to the ease of living.

## Lucky Thirteen Club Has Picnic at Cloverdale Tuesday

Yielding to the usual summer urge to "get out doors," Lucky Thirteen club members and their husbands substituted a picnic for the regular evening party Tuesday.

Mmes. Pearl Blair, Houston Sikes, and J. T. Walker were hostesses for the affair.

The group gathered at Cloverdale Tuesday evening where an old-fashioned picnic supper was served. The club's 42 games were omitted for the evening and childhood games furnished diversion for the party.

Present were ten couples including: Mmes. and Messrs. W. N. Cole, Ellis Conner, Pearl Blair, W. F. Hejl, J. C. Hudman, O. H. Jones, L. F. Joplin, J. A. McClurg, Houston Sikes, J. T. Walker.

## Tuesday Luncheon Club Meets With Mrs. Rettig

Mrs. John W. Rettig was hostess to the Tuesday Luncheon club at her home, 711 North D, Tuesday.

Calendulas and daisies were employed throughout the entertaining rooms where guests gathered for luncheon at one o'clock. The meal was served at quartet tables.

Following the luncheon hour, the afternoon was devoted to two tables of bridge.

Club guests were Mrs. Dot Carson, Mrs. M. D. Self, and Mrs. J. M. Armstrong.

Members present were: Mmes. A. B. Cather, John Cornwall, David

## The Winner

Miss Katherine Nations of El Paso, who represented the Hotel Paso del Norte in the All-West Texas Bathing Revue at the Fort Stockton Water Carnival, was chosen by the judges as Queen of the Water Carnival. She will reign until her successor is chosen at next year's show. Miss Nations won in a field of 44—all beautiful young ladies representing 13 lucky towns of West Texas.

S. Gogins, Paul Osborne, J. E. Simmons, and the hostess.

## Study of John Occupies Bible Class Tuesday

The sixteenth and seventeenth chapters of the Gospel of St. John were taught by Rev. Harvey Childress as the weekly lesson for the Women's Bible class of the Church of Christ meeting at the church Tuesday afternoon.

One visitor, Mrs. Southern of Dallas, mother of Mrs. Childress, was present.

Members attending were: Mmes. Elmer Walker, W. F. Hejl, S. A. Debnam, Harvey Childress, E. W. Watlington Jr., Paul Jackson, A. G. Bohannon.

## American Man Cradled in Minnesota, Perhaps

COLLEGEVILLE, Minn. (U.P.)—Belief that men described by prehistorians as Early American once roamed in Minnesota was expressed by Rev. Henry Reizek, West Union geologist, at a Minnesota Academy of Science meeting here.

Father Reizek based his belief

## Nine Midland Girls Enter Camp Mary White at Mayhill

CAMP MARY WHITE, Mayhill, N. M., June 29. (Special).—Nine Midland girls arrived at Camp Mary White this week to spend from two to six weeks among the pines and spruces of the mountains of southeastern New Mexico.

Camp Mary White is the only regional Girl Scout camp in this part of the United States. It has a staff and campers from all parts of the United States.

The girls are Jean Lewis, daughter of Mr. and Mrs. L. G. Lewis; Dolores Ann Barron, daughter of Mr. and Mrs. C. Y. Barron; Margaret Mims, daughter of Mr. and Mrs. P. J. Mims; Kathryn Jordan, daughter of Mr. and Mrs. J. W. Jordan; Patty Jane Griswold, daughter of Mr. and Mrs. E. H. Griswold; Mary Lou Hoskins, daughter of Mr. and Mrs. J. B. Hoskins; Liza Jane Lawrence, daughter of Mr. and Mrs. R. V. Lawrence; Marjorie Ann Monaghan, daughter of Mr. and Mrs. M. A. Monaghan and Margaret Ann West, daughter of Mr. and Mrs. J. P. West.

Most of the girls are living at the camp unit known as the Medina ranch. The exceptions are Dolores Ann Barron, who is in Koshare, the unit for youngest campers and Jean Lewis who is in Escondido, unit for those who want to do pioneering.

The girls were introduced to the staff members in an original parody of Snowwhite on the evening of their arrival. They are spending this week at sports, crafts and getting acquainted with camp life and their new friends.

## Alpha Club Has Concluding Party Of Season Tuesday

Alpha club officially closed its club year with an afternoon party at the home of Mrs. M. L. Weatherall, 1611 W. Illinois, Tuesday at 2:30 o'clock.

Two tables of bridge supplied entertainment for the group. High score in play was held by Miss Dorothy Henderson, second high by Mrs. Roy Downey, and cut by Mrs. C. R. Inman.

An ice course was served at the close of the games to the following members: Mmes. George Bennett, J. R. Crump, Downey, Dick Hardy, Inman, S. M. Laughlin, Welden Worden, Miss Henderson, and the hostess.

## Announcements

### WEDNESDAY.

Midland county public health board will sponsor a program broadcast over station KRLH Wednesday morning at 11 o'clock. The public is invited to tune in.

Wednesday Afternoon Sewing club will meet with Mrs. Fred Klatt, 504 S. Mineola, Wednesday afternoon at 2:30 o'clock.

THURSDAY. Needlecraft club will meet with Mrs. A. W. Watt, 107 N. Marientfeld, Thursday afternoon at 2:30 o'clock.

Midland county museum in the courthouse will be open from 2:30 until 5 o'clock Thursday afternoon.

Bien Amigos club will meet with Mrs. Nelson Young as hostess at the home of Mrs. Tom C. Bobo, 101 North G street, Thursday morning at 10 o'clock.

### FRIDAY.

Belmont Bible class will meet with Mrs. Herbert King, Friday afternoon at 4 o'clock.

Stitch and Chatter club will meet with Mrs. V. L. Feazell, 1400 N. Marientfeld, Friday afternoon at the usual hour.

### SATURDAY.

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 until 5 o'clock. The public is invited.

on recent archaeological discoveries he had made in the state. The evidence of four major relics, including his own "Sank Valley Man" found in 1935, he said, points to this probability.

## Feminine Fancies

Wonder how many citizens of Midland read the continuation of O. O. McIntyre's beloved "New York Day by Day" column which is being written by Charles B. Driscoll?

His description of an air trip to the West Coast contains the following as part of his comments on Texas:

Dusk over Texas, and that strange conviction of mysterious power and promise that always comes to me as I look down upon this vast empire whose productivity has hardly yet been tapped. Here, rather than in crooked alleys and city canyons, lies the strength and future greatness of America."

Makes one feel proud to be a Texan, doesn't it? It's a grand prophecy of a future for the state.

Pockets individualize a cool-looking white dress for wear on blistering days. Two generous-sized ones are placed, one above the other, on either side of the so-narrow center facing of the waist. The style-right touch, of course, is the fact that in this way the pockets on either side almost meet in the center front of the blouse.

Cool, too, is the effect of dark blue piping at the tops of the pockets, of a row of white buttons sewed on with blue thread upon each of the four, and of a narrow dark blue belt for the frock.

Reversing the dots is the newest avenue to chic where polka-dotted costumes are concerned. An example of this is found in a dress which has a black skirt dotted in white topped by a white blouse dotted in black. The only other touch of color is a green belt and this is finished with end tabs of the dotted material.

The fad is just as smartly used with other colors.

Most appealing things for children that we have noticed lately are miniature lawn chairs made especially for them, using the same bright colors that grownups like in outdoor furniture. So they are these little chairs that, more even than the conventional little red rocker, they bring a smile to the face of the beholder.

In general we try to rejoice in the blessings bestowed upon our fellowmen (or fellow women) and be glad for them when good fortune comes their way. But there's one time when the green-eyed monster threatens to gain ascendancy in our emotions and that's when we read of various and sundry departing upon long journeys hither and thither upon the earth. When others are getting to see strange lands and queer customs and odd people we've always longed to see—and we must stay at home, driving down the same street four times every day, and walking the same blocks from the Postoffice and back.

## Urge Pedestrians to Carry Newspaper After Dark

COLUMBUS, S. C. (U.P.)—To lessen pedestrian accidents in South Carolina, Wilbur Smith of the traffic division of the state highway department, has urged pedestrians to wear at night "some light-colored article of clothing that will reflect light," at least use a white handkerchief or carry a newspaper in the left hand.

Smith pointed out that 90 per cent of the pedestrian accidents in this state this year are attributed to some fault of the pedestrian involved.

The 1914 supermarine seaplane had a fully streamlined hull, wing floats and engine cowling. The plane also had a fully enclosed rotary motor and a three-bladed propeller.

## Two Are Hostesses To Auxiliary at Swimming Party

Mrs. B. W. Rezer and Mrs. T. J. Potter entertained the Business Girls auxiliary with a swimming party at Pagoda Pool Tuesday evening at 7 o'clock.

Two new members, Miss Vera Whigham and Miss Dezzie Carden, were present.

Following the swim, refreshment plates were served to: Misses Whigham, Carden, Marguerite Bivens, Zelah Gravette, Margaret Scott, Maeleee Roberts, Mmes. Sherwood O'Neal, J. V. Ogle, L. H. Tiffin, and the hostesses.

The president, Miss Gravette, distributed the new year books to members.

The next meeting will be a Bible study on July 12. Mrs. Ernest Sidwell will conduct the study which will be held at a place to be announced later.

## Chez les Amis Complimented With Bridge-Luncheon

Mrs. Sam Giesey entertained for Chez les Amis club with a bridge-luncheon at her home, 810 S. Baird, Tuesday at 9:30 o'clock.

Roses and daisies decorated the house where two tables were appointed for the morning bridge games.

At one o'clock, a two-course luncheon was served to the following: Mmes. Bill Collins, Bob Clarke, Hoyt McClendon, W. L. Miller, John W. Skinner, B. W. Stevens, Payton Thurman, and the hostess.

## Big Cheese Eating Trout Quits Life of Riley

CHARDON, O. (U.P.)—This is the story of the champion cheese-eating trout.

Frank Davis sells a large amount of cheese at his store near here.

STRAPLESS vogue favored, by some, for evening gowns has invaded bathing suit field. Social Edwina Atwell of New York gave strapless suit a trial at Atlantic Beach, N. Y.

and for the past eight years some of it was fed by people who stopped, to Old Battlesides, one of the few survivors of a load of rainbow trout which Davis placed in an adjacent pond eight years ago.

Nourished by pounds and pounds of cheese, Old Battlesides grew prodigiously, defied estimates of tourists who tried to guess his weight.

But now the fat old fish is dead. Its weight: 11 pounds and 8 ounces; length, 29 1/2 inches—the biggest rainbow trout ever heard of in Ohio. Cheese did it.

**Oh, if your Engine only could**

**OF COURSE**, you can't leave your engine standing on its head every time you park, but you can have it OIL-PLATED. And OIL-PLATING not only goes clear up inside your engine, but stays there—for hours—weeks—months—even while the engine is right-side up at a standstill! Now why is that better?

Well, this exclusive OIL-PLATING—formed in your engine solely by patented Conoco Germ Processed oil—is always up there ready to lubricate before other oils could even begin to circulate. Therefore, every start you make finds cylinders,

rings, bearings and other parts self-lubricated in advance. The action of the patented Germ Process has kept them continuously charged with oil, or OIL-PLATED.

They cannot "start dry," and thus you are rid of engine enemy No. 1. Good platings don't evaporate either, or lose their grip during Summer spurts. You can tell that about OIL-PLATING by noting how Conoco Germ Processed oil maintains the oil-level. Head in at Your Mileage Merchant's. Continental Oil Company

**CONOCO GERM PROCESSED OIL**

# CARDINALS DEFEAT BOOSTERS AGAIN; WIND UP SERIES TONIGHT

## SOULE GRABS HIS FIRST VICTORY AS RED BIRD HURLER

The Midland Cardinals made it two in a row over the Hobbs Boosters last night when they handed the New Mexico boys a neat 12-5 trouncing at City Park.

The victory failed to move the Cardinals up in the standings, however, as the Clovis Pioneers stayed in second place by defeating the Wink Spudders.

The Cardinals for the second straight night, failed to out-hit the visitors but 17 free tickets to first handed out by three Hobbs hurlers made victory easy. Each club got 12 hits but Soule had better control and was better in the pinches than the Booster hurlers.

The Cardinals took a two run lead in the first inning last night and were never passed. Hobbs tied the score in the first half of the second but the Red Birds bounced back with two in their half of the inning and four in the third to sew up the game. Two more were added in the fifth and one in the seventh, another in the eighth.

The two clubs will wind up the series tonight and the Cardinals will leave for three days, returning here July 3 for one game with the Big Spring Barons and two the next day.

The box score:

|               | AB | R | H | PO | A | E |

## Lombardi Is Big Gun in Rampant Reds, Defense as Well as Attack

BY HARRY GRAYSON, Sports Editor, NEA Service.

PITTSBURGH.—Johnny Vander Meer set off the spark which brought on the great spurt of the Cincinnati Reds.

Wally Berger added plenty to the club's explosive abilities by hitting a cool 500 after being obtained from the Giants.

But any discussion of the amazing rise of the Rhineland forces, which finished a smacking last in 1937, starts and finishes with Ernie Lombardi.

Signor Lombardi always had been a corking hitter, but Bill McKechnie agreed with the rest of the cockeyed world that he couldn't catch.

McKechnie tried to trade Lombardi to every club in the National League, publicly said that a large Italian couldn't handle pitchers, was weak on low pitches, and too slow.

Wilkinsburg Will announced that he intended to go along with Willard Hershberger, who was brought up from the Newark Bears to be the Red's first-string backstop.

But McKechnie quickly discovered that he needed hitting. The Red couldn't get into the thick of things with their center fielder, Harry Craft, hitting .267; their third baseman, Lew Riggs, batting .242; and their shortstop, Billy Myers, batting .237, for examples.

Lombardi calls shots. So McKechnie decided to sacrifice skill and finesse behind the plate for power. He would put up with the lumbering Lombardi.

The result has been as pleasantly surprising to him as the showing of his club. Lombardi's performance largely is accountable for the Red's strong position.

Cincinnati is getting great pitching. And Lombardi is the bloke calling what is to be pitched. It goes without saying that he is calling them right. He's going so well mechanically that, where he formerly appeared as slow as a Cleveland taxicab, he now positively looks

Walks—Off Soule 5, off Henderson 6, off Twitchell 3, off Hogan 3. Struckout—by Soule 5, Henderson 3, Hogan 2. Double plays, Donaldson to Smyly, Barnhill to Eckardt to Suytar, Barnhill to Suytar to Guinn. Losing pitcher—Henderson. Umpires: Fritz & Cartwright. Time: 2:15.

associated with the muscles which aids the determination of presence in space.

If the body tends to accumulate acid, dizziness is a prominent symptom. Anything that interferes with the coordination between the sense and the sensation coming from the semi-circular canals will produce dizziness.

If you are subject to fainting spells, or someone else in the house is, you should keep a supply of aromatic spirits of ammonia, or smelling salts, handy for use in such emergency. Furthermore, you should be familiar with emergency handling of a person who has fainted.

In most cases, the reason for fainting is a lack of supply of blood to the brain. This may be due to a number of different causes.

In the first place, the blood itself may be deficient in the important red blood cells which carry oxygen, or in iron which is largely responsible for forming the red coloring matter. Such condition of anemia may in itself interfere with the proper nutrition of the brain and bring about fainting attacks.

Sometimes the relationship between the nervous system and the blood supply is such that there is a sudden deviation of blood from the interior of the body to the surface. This also will bring about a fainting attack.

The blood supply to the brain may be disturbed if you rise suddenly from a flat position. Sorrow, pain, fear, the sight of blood, or similar conditions affecting the emotions, severe bleeding, the effects of heat, or sudden weakness of the heart may produce fainting.

Usually the first thing to do when a person faints is to lower his head and keep him flat on the back. Raising the head is dangerous because it makes the supply of blood to the brain more difficult.

All tight clothing, particularly the collar, should be loosened so as to permit the easier flow of blood. An abundance of fresh air should be supplied—if necessary by fanning—because the need for oxygen will be great.

The nervous system may be affected by sprinkling cold water on the face and neck. The sudden shock of the cold has a stimulating effect. If the person who has fainted is exceedingly cold, it is necessary to control the temperature of the body by applying warm towels.

Among the best stimulants for those who have fainted is aromatic spirits of ammonia. This may be inhaled, or smelling salts may be used, to stimulate the unconscious person.

If the person who has fainted is able to swallow, one-half a teaspoonful of aromatic spirits of ammonia may be given well diluted in cold water.

Obviously it is desirable for a person who has fainted and whose condition seems to be serious to have

## Canada Hopes to Expand Beef Marketing System

OTTAWA, (U.P.)—A new marketing policy for Canadian beef through which it is hoped ultimately to send 200,000 cattle a year to Great Britain and an equal number to the United States, has been outlined in the House of Commons.

The plan, announced by James G. Gardiner, minister of agriculture, is still only in the experimental stage. It calls for the movement of Western cattle to pasture lands in Ontario and Quebec. There they will be fattened and slaughtered. The beef then will be rushed to the seaboard and carried to England in fast refrigerator ships.

The beef, he explained, must be of the British market within ten days of slaughter or it cannot enter the fresh meat market.

Similar shipments will be rushed to United States markets by express.

a physician's attention as soon as possible. In serious cases the doctor can try emergency measures which are of great importance for the recovery of consciousness, if not for the saving of life itself.

# U. S. Ignores International 'Etiquette' In Showing Up German Master Spies

Revelations of the widespread activities of spies from many foreign countries in America are contained in a series of four articles—written for The Reporter-Telegram by Thomas M. Johnson, author of "Our Secret War," who is an acknowledged authority on international espionage. This is the second.

By THOMAS M. JOHNSON (Copyright, 1938, NEA Service, Inc.) NEW YORK.—Send fifty passport application blanks to the Hotel Taft," barked the strange telephone voice. "This is Mr. Weston, under-secretary of state."

Lamar Hardy, above, United States attorney for the southern district of New York, was instrumental in securing the indictments from the federal grand jury against alleged members of the Nazi espionage ring operating in this country.

There being in the United States no such official, the New York passport bureau sent a package—with a shadow. From the hotel he followed it through several hands, plump into the midst of the biggest spy case in America since the World war. But no one might have known that, only for G-2.

G-2, the Military Intelligence service, shocked first the state department and then the whole American people by insisting this wasn't just good clean fun but a serious attempt to steal American defense secrets for a foreign power whose identity at first was supposed to be a diplomatic secret. Today, newspaper readers who thought spy plots were like the seven dwarfs, funny movie stuff, see unrolling before them proof that G-2 was right.

That telephone call was on February 19. A week later two German-born American soldiers and a German woman, red-haired, good-looking hair-dresser on the German liner Europa, were arrested by G-men, whose least-advertised duty is spy-hunting. More arrests began with a series of dramatic revelations that have since culminated in the indictment by a federal

grand jury in New York of sixteen men and four women as German spies.

And still more unprecedented, two of them were Master Spies, officials of the German war ministry! With deliberate forethought, the United States government is violating international etiquette by showing up a friendly government's spying, a heavy blow at German prestige which the nazis will construe as further evidence of our hostility

to the dictator powers. Yet it is clearly revealed that for two years German officials had sponsored and operated a spy ring here to help Germany's feverish rush to re-arm on land, sea and in the air, especially in the air. Today of all the world, the United States admittedly lies highest and fastest, so that our planes and engines are bought by many nations... but not by Germany. In Spain, her boasted Junkers and Heinkels, flying to Franco, have been beaten by the Soviet Boeing fighters driven by Wright engines—an adaptation of an American plane that our army regards as obsolete. Thus proven to be lagging behind us and most of Europe, the Germans can catch up quickly only by stealing from us—if not the new planes, then their plans.

The ring has been glad to pick up whatever military or naval information has been available, but of the men arrested here one, Voss, worked in the experimental part of the Seversky airplane factory at Farmingdale, L. I., where some of the best of our army airplanes are made. Another, Erich Glaser, was a private stationed at Mitchell Field, L. I., whence the Army Air service code was stolen. A third, a former airplane worker, stowed away and escaped aboard the German steamer Hamburg, as did Dr. Ignatz T. Gröbel, former American leader of the German nazis.

Among the many witnesses have been German seamen, including two ship captains. One grand juror is reported to have proposed that in the future German ships be forbidden to dock in New York City.

It is a blue-ribbon grand jury, astounded by the situation disclosed, thanks largely to the initiative of Major Joe N. Dalton

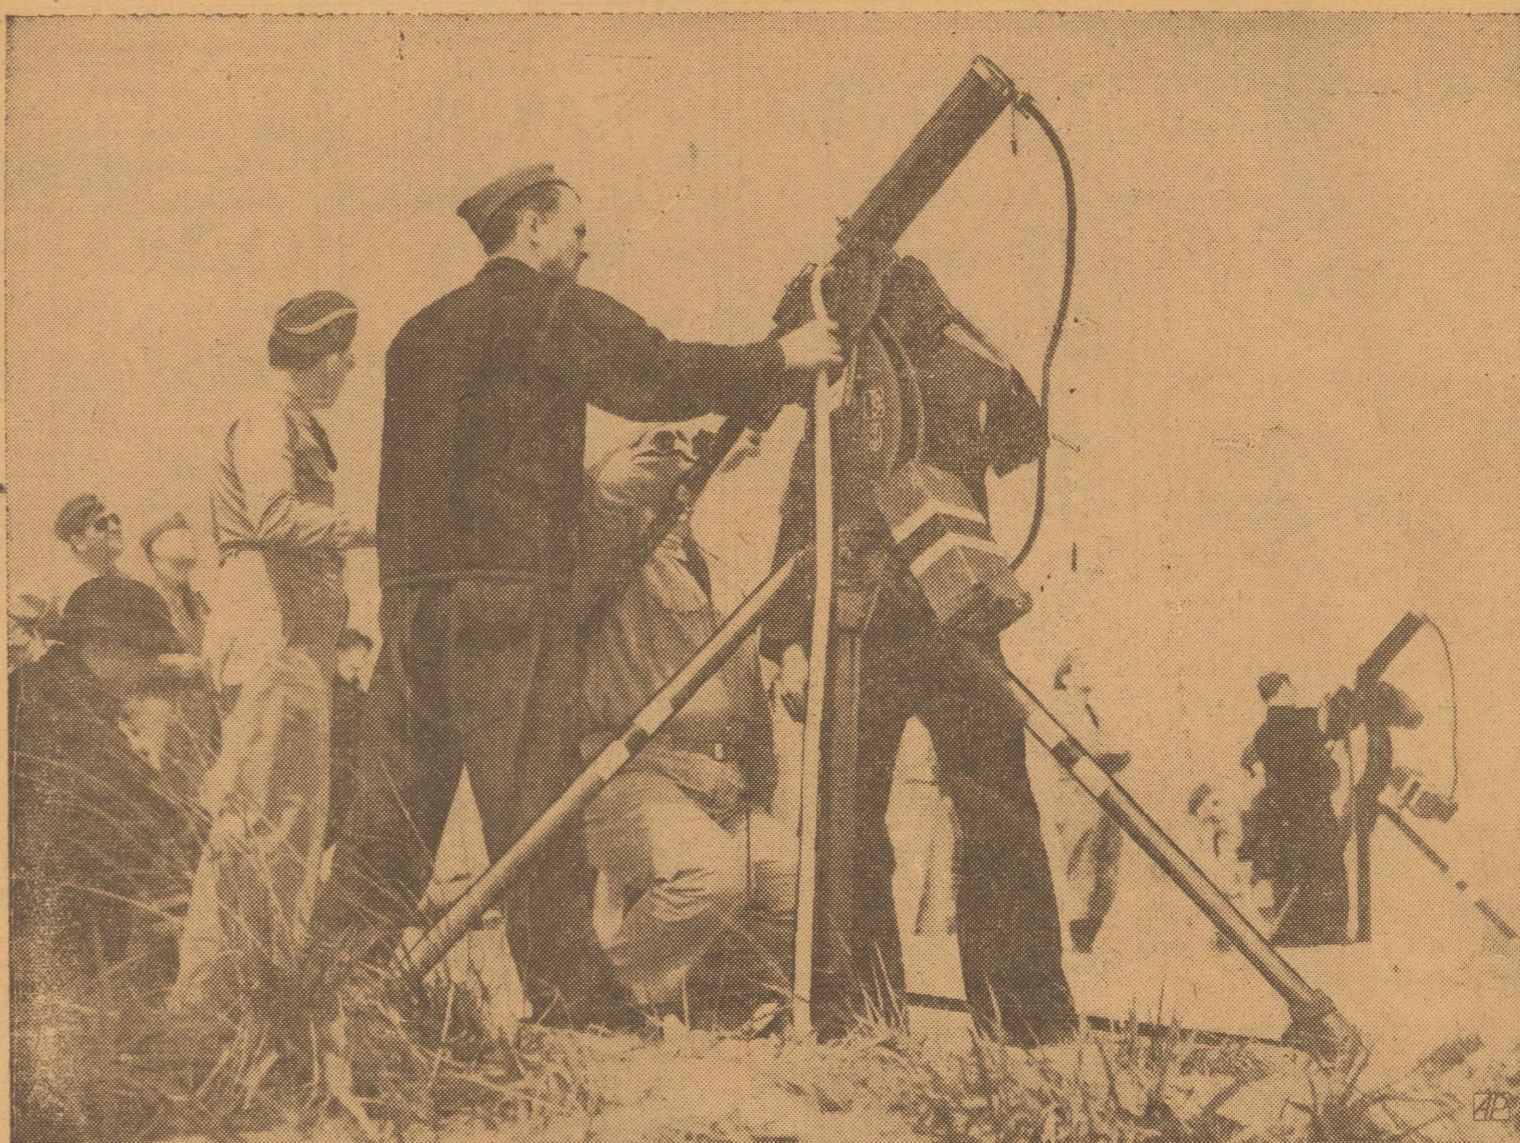

of the Military Intelligence who first saw the meaning behind the letters the red-headed hairdresser, Johanna Hoffman, brought over on the Europa, offering \$1000 for this or that American defense secret. And he had had the earlier case of a member of the ring caught boarding that very liner with a violin-case full of American aviation plans.

That was two years ago, and all that time the spies have been operating in this country. Luckily there was one fatal bungler, the army deserter Rumrich, who called himself Under-Secretary Weston. But the spy ring's operations were so widespread, and for long so successful, that the brains were no bungling amateurs.

They were, the government says, the brains of Captain Lieutenants Erich Pfeiffer, Hermann Menzel and Udo von Bonin, and Lt. Col. Busch, all high in the German naval and military secret services. Their sharpest tools were William Lonkowski, the violin-case man; Karl Eitel, outwardly one of the Europa's crew, and Karl Schleuter, an expert organizer—all well-trained spies. Lonkowski is now said to have a high position in the German air ministry.

Not yet has the government told all it knows, or even all that was in the red-headed woman's letters, and the grand jury is still investigating. There will probably be more indictments, more revelations of the relatively few but really clever professional spies who can gather around them in this hospitable, unsuspecting country, willing helpers in their snoopings and pilferings of the secrets we have already devised for our own defense.

NEXT: Standing, Oriental eyes seek out the United States secrets.

CLEARING THE SHORE OF MARINERS AND FLYERS, the 62nd Coast Artillery staged anti-aircraft drill at Fort Tilden, Long Island, popping down target balloons. Here are two guns in action. Aviators were warned to stay above 20,000 feet.

## Children's Bureau Official Visitor

Miss Georgia Ball, who is with the crippled children's division of the children's bureau, Department of Labor, of Washington, D. C., is in Midland today in the interests of the children's work. She is visiting several counties in the different parts of the Texas division, inspecting the progress of the work with crippled children.

J. J. Brown, director of the crippled children's service in Texas, is here with her.

"I think you have a wonderful state," Miss Ball said in discussing her visit in Texas.

## Harvey Hardisons Moved to Dallas

Mr. and Mrs. Harvey Hardison are leaving Thursday for Dallas to make their home, Mr. Hardison having been transferred to that city. He has been superintendent of development and production for the Standard Oil Company of Texas here.

During the nine years of his residence here, he has been active in oil affairs, being one of the organizers of the API and at present one of the directors of the Permian Basin chapter of the organization. Mrs. Hardison has been active in P. T. A. work and in club affairs. The couple has two children.

## Attorney - -

CONTINUED FROM PAGE ONE

This idea is entirely erroneous, he said, and while the University does have considerable money, it is far from being wealthy compared to several other colleges or universities of the United States. Texas University ranks seventh or eighth in wealth, he stated. Dr. Bybee told of overcrowded conditions in various classes at the University and said that appropriations are necessary from time to time. He said that the university must have the support of the legislature and of the people of Texas in order to carry on as a first class institution of learning.

The musical part of the program was featured by vocal solos by Miss Margaret Murray, accompanied at the piano by Walter Johnson, and by Miss Katherine Hewitt, radio entertainer, with guitar accompaniment. Lion W. C. Hinds was in charge of the program.

Berte Haik, chief geologist for University Lands here, was elected to membership in the club, and the transfer membership of Dr. I. S. Moore from the Ozona club was accepted.

Recently elected officers will be installed at next week's meeting, it was announced by President Ed M. Whitaker. The new officers are Bill Collyns, president; Claude Crane, R. C. Conkling and Paul McHargue, vice-presidents; George Philipps, secretary-treasurer (re-elected), and Tom Betzel, Liontamer.

Visitors at today's meeting included Dr. Bybee, Judge Morrison, Big Spring; and S. A. Debnam, Midland.

The fried chicken luncheon was served by the West Side Home Demonstration Club.

## Safety Council to Present Programs

A series of radio programs combining dramatic episodes with safety discussions will begin Thursday morning at 11:50 o'clock until 12 through courtesy of station KRLH, according to announcement of the Midland safety council.

The series called "The Old Observer" and the role of the title

character will be read by Billy Noble, high school senior. He will be assisted on certain other programs by other high school students.

The National Safety Council sponsors the series which is said to be interesting to young and old, not only because of the timely safety suggestions but also because of the speed and informality of the dialogue.

The program will be a regular Thursday feature at the hour named. The public is invited to tune in.

## Chamberlain Rapped By Labor Leaders

LONDON, June 29. (P.)—A major cabinet-commons storm added to the flood of Spanish war problems, is swirling around Prime Minister Chamberlain, Britain's apostle of "realism."

Chamberlain agreed yesterday to fight out the new domestic issue, a quarrel over anti-aircraft defenses for the British Isles, with a committee inquiry into an implied threat to invoke the rigid official secrets act against a member of parliament.

The war office, headed by suave Leslie Hore-Belisha, announced a military court would probe a leak of secret defense data into the hands of the members of parliament. Duncan Sandys, a conservative.

The affair directly involved Hore-Belisha and the anti-aircraft gun with which the war minister proposes to defend 45,000,000 Britons against bombing planes in event of war.

Chamberlain's foes seized upon Sandys' charge that Attorney General Sir Donald Somervell threatened to use the secrets law to gag him in an instance of what they termed repression of criticism which might ultimately break the present government.

With Britain's seagoing pride stung by attacks on 59 British merchant ships—with a loss of 36 lives—since the Spanish war started, Chamberlain pressed insurgent Generalissimo Franco to tell him why British ships were targets.

The Duchess of Atholl, one of three conservatives recently deserting the ranks of Chamberlain sup-

## Big Spring Rodeo Stock Said 'Salty'

BIG SPRING, June 29.—Looking over the stock to be used in the Big Spring cowboy reunion and rodeo here Saturday, Sunday and Monday, Marion Edwards, vice-president of the association and prominent Howard-Glasscock county ranchman, said that "we have the best stock this year we have ever had."

The calves, 75 in all, were delivered here by Vance Davis, Garden City, and are in top condition and are large enough to be plenty "salty."

A portion of the Brahmas steer herd brought by Red Lyon, Beyer, have never before been ridden. All of the steers and wild horses are in top shape. None of the animals will be used more than once each of the three days of the show.

Big Spring is taking on a holiday atmosphere in anticipation of the opening of the rodeo Saturday. The downtown area is bedecked with bunting and two score firms are working on decorated floats to be entered in a mile and a half parade Saturday afternoon shortly before the rodeo opening. Four bands and 100 mounted westerners will participate in the colorful parade.

A round of free attractions has

## Grandfather of Local Woman Dies

Mrs. Frank Gardner is leaving today for Fort Worth where she was called by the death of her grandfather, W. N. Guthrie, about 76, who died in that city Tuesday, following a long period of ill health.

The funeral services will be held Thursday morning at 10 o'clock but details of the place of services and of burial were not known here. Mrs. Gardner and Mr. Gardner, who is oil editor of The Reporter-Telegram, visited the aged man in Fort Worth last week-end.

## RAIN AT PENEASCO.

Good rains fell again at the Scharbauer Cattle company's "Peneasco," N. M., ranch during the past week-end and early this week, it was learned yesterday by Clarence Scharbauer in a telephone conversation with L. E. Beyer, foreman. All water holes were full, Beyer reported, after a three day slow, soaking rain. Earlier rains covered that section two weeks ago.

been planned for between shows here during the three days of the rodeo. Among these will be a bathing beauty revue, softball games and aquatic contests.

porters, added to the prime minister's worries today by furnishing details of what she said was the threat of German-made guns pointed at Gibraltar from insurgent Spain.

## McCormick Search Delayed by Clouds

ALBUQUERQUE, N. M., June 29. (P.)—Lowering clouds, which draped the heights of Sandia peak in an impenetrable gray mantle most of the day, slowed materially Tuesday a lagging search for McGill McCormick, 21, missing six days on a mountain climbing expedition.

An air of pessimism, almost of hopelessness, pervaded the field camp at the foot of the mile-high peak where young Richard Whitmore, McCormick's climbing companion, was found on the rocks six days ago.

Indomitable in her purpose to find her son's body, Mrs. Ruth Hanna McCormick Simms kept searching crews on the job. She was haggard-eyed and nerve-wracked.

Surveyors equipped with transits plotted off sections on the side of the peak, each section being assigned to a crew of searchers. As it was checked and rechecked, it was marked off in green crayon on a forest service topography map at the base camp.

## Late News

GREENVILLE, June 29. (P.)—Fred E. Horton, Greenville publisher-postmaster, died in his home here today. He was 63 years old.

WASHINGTON, June 29. (P.)—Chairman Sheppard (D-Tex) of the senate investigating committee, said today he doubted President Roosevelt's speeches in behalf of primary candidates was within the committee's jurisdiction.

The committee has launched an investigation of the North Dakota primaries.

HYDE PARK, June 29. (P.)—President Roosevelt announced today he had signed the omnibus flood control bill "with some reluctance."
