Behind the Scenes in Washington

Editor's Note: The opinions expressed in this article are those of Mr. Dutcher, NEA Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, July 1. — Between now and election day at least \$275,000,000 will be paid out to farmers by AAA.

The effect on purchasing power and business, however, should be more important than the political effect. About \$200,000,000 of the money will go to cotton-producing states, most of which are normally and solidly Democratic.

Confidential estimates prepared by government experts indicate that nearly \$145,000,000 will be disbursed in payments under the regular AAA farm program in the next four months and nearly \$130,000,000 under the cotton price adjustment program within the next 5 months. States receiving the most money and the approximate amounts are expected to be: Texas \$46,576,000; Georgia, \$18,813,000; Alabama, \$18,602,000; Oklahoma \$16,181,000; Mississippi, \$15,000,000; Arkansas, \$13,579,000; South Carolina, \$13,463,000; Iowa, \$12,000,000; Missouri, \$10,165,000; Minnesota, \$10,000,000; North Carolina, \$9,512,000; Louisiana, \$9,342,000; Tennessee, \$6,150,000; Illinois, Kansas, Wisconsin and North Dakota, about \$6,000,000 each, and California, \$5,770,000.

Political advice from Vice-President John N. Garner: "I'd rather have the barbers with me than the bankers, for three reasons: First, there are more of them. Second, the barbers talk. And third, and more important the barbers vote."

WHY DO THEY DREAM THOSE DREAMS?

THE worst dreams conservative Republicans have on these warm nights arise from fear that in some way or other they will find Mayor Fiorello LaGuardia of New York their party's presidential nominee in 1940.

It can be said with authority, however, that LaGuardia—whatever his immediate course in New York state politics—has no illusion that he can be nominated and elected to the presidency two years hence. His closest friends do feel that he would be a valuable vice-presidential nominee and there is reason to believe that LaGuardia himself doesn't scorn the idea.

If the New York mayor had figured on running for President in 1940 he long before this time would have begun to organize an effort to make him New York's governor or one of her senators.

LaGuardia is still personally close to Roosevelt and the betting among his friends is that before long he

will have entered into a more formal political alliance with the President.

WHY BOTHER ABOUT HUMAN BEINGS?

THE Food and Drug Administration and the Department of Agriculture are forbidden by law to test the effect on human beings of poisons sprayed on fruits and vegetables. Under Title I of the latest agricultural appropriation bill you'll find:

"Provided further, that no part of the funds appropriated by this act shall be used for laboratory investigations to determine the possibly harmful effects on human beings of spray insecticides on fruits and vegetables."

The proviso was first offered for the 1937 act by Congressman Clarence Cannon of Missouri, a fruit grower. Adopted, it interrupted a program of Food and Drug Administration research and experimentation on dogs. Congress appropriated \$50,000 to the U. S. Public Health Service for similar work. The U. S. P. H. S. hasn't yet been heard from.

Gifts Total \$294,000 To Principia College

ST. LOUIS, (U.P.) — Gifts to the Principia, a college for Christian Scientists students, during the past year total \$295,000, according to the board of trustees.

The school is neither owned nor controlled by the Christian Scientist Church, but at least one parent of a student must be a Christian Scientist.

One of the donations was for \$250,000, given by Mrs. Mary Horton Rackham of Detroit to cover construction costs of the largest of three dormitories for men on the campus at Elmhurst, Ill., just outside St. Louis.

Next largest gift was from Mrs. Agnes Anderson of Seattle, a contribution of \$30,000 toward a permanent endowment fund.

A scholarship fund of \$10,000 was given by Mrs. Arthur B. Goemour of Sycamore, Ill.

How Are You Coming Along With Your Work These Days?

The Town Quack

The new Garden City highway, after getting started from the southeast city limits, leads out straight in a southeasterly direction. If you don't believe it, go look where it goes smack dab through on old lake. Of course when the state builds up its grade, getting out of that lake will be a small matter, but just now you can see where a lot of cars have been driven up to the edge of the water, then taken for a U-turn and headed back the way they came. Maybe the ruts are hard enough that you can drive through, but the average driver not in any particular hurry, will lay off of a new road through a lake of water. Anyway, county officials still say the highway hasn't yet been opened for traffic.

That new road, however, is going

to be a fine thing for Midland and for the well settled country to the southeast. Some of our best farming land is right out in that direction, and many a farmer can take a straight shoot into town rather than have to follow the section lines from corner to corner as he has done in the past. The highway leads into some fine ranching country, cattle, horse and sheep. It connects with the road to be built from the county line to Garden City, which will make possible the better business relations between people of two prosperous adjoining counties. And that will lead to new contracts farther southeast, and Midland will be greatly benefitted.

Most of you think Martin county as being east of Midland, but it is north Glasscock, which we think of as being southeast, is due east of Midland county.

Philadelphia Zoo Gets 2 Young Siberian Tigers

PHILADELPHIA (U.P.) — Philadelphia zoo recently acquired two young Siberian tigers which, when full grown, become the largest of all cats.

The new animals are approximately 18 months old and weigh about 200 pounds each. However, they won't reach maturity until four or five years of age.

When full grown they weigh close to 700 pounds, the weight of the biggest lion.

Cactus Used to Make Fans and Lampshades

AUSTIN.—The Fascinating Story of the Manufacture of Dainty Articles from the Fiber of a Native Texas Plant—the Cholla Cactus—is the somewhat lengthy but intriguing title of a new set of slides prepared by the University of Texas bureau of visual instruction. The set depicts the process by which the cactus is transformed from one of Texas' greatest nuisances into such sturdy articles as fans, lampshades and evening bags. The slides were prepared with the assistance of Horace Atkin of Austin, discoverer of the process for utilizing the cactus.

Lawn Roller Purchased To Reduce Police Waits
MARSHFIELD, Mass. (U.P.) — Police Chief William H. Pratt does not like "corporations." He has posted on the bulletin board this notice: "Due to the nature of their work, most police officers in general and a few in particular, are inclined to form 'corporations' of the beltline variety. In order that all members of this department may present a physically fit appearance by the opening of the approaching summer season, this department has purchased a lawnmower, which, when filled with water, weighs 400 pounds. Fifteen minutes a day of close contact with this roller will improve both your own appearance and the lawns surrounding this building. Let your conscience be your guide." Miss Russell, Dick Colvin Wed in Twilight Ceremony

In a ring ceremony read by Rev. J. E. Pickering at twilight, Dick Colvin, son of Mr. and Mrs. W. H. Street, and Miss Dorothy Russell, daughter of Mr. and Mrs. E. J. Russell of Houston, were married Thursday evening on the lawn of the Street home, 102 South F street. The couple stood beneath an arched gateway to repeat the wedding vows. Miss Virginia White of Abilene

was the bride's only attendant. Don Colvin of Abilene was his brother's best man. The bride wore an afternoon dress of powder blue lace made on fitted lines with puffed sleeves. Her flowers were a corsage of pink sweetpeas.

Quartet of Guests Present at Meeting Of Needlecraft Club

Four visitors, two of them from out of town, were present at the meeting of the Needlecraft club with Mrs. A. W. Wyatt, 107 N. Marjinfeld, Thursday afternoon. Mrs. Ace Cain of Hollywood, Calif., and Mrs. Otis McClain of Plainview, sisters of the hostess, were the out-of-town guests. Mrs. M. R. Hill and Mrs. H. G. Bedford were the town guests.

Members had brought their sewing but the afternoon was so warm that most of the club hours were devoted to conversation. An ice course was served at the close of the afternoon to guests and the following club members: Mmes. Wallace Ford, Welden Worden, Eddie Blacher, Robert Cox, A. Johnson, and the hostess.

The club will meet next week with Mrs. Blacher, 501 W. Texas, Thursday afternoon at 2:30 o'clock.

Evening Service at Andrews Tuesday Unites Miss Webb and Aubrey Linne

Miss Mary Lois Webb, niece of Mr. and Mrs. J. E. Webb of Bernino, Texas, and Aubrey H. Linne, both of Midland, were married quietly at Andrews, Texas, Tuesday evening. Rev. Geo. Bryant, pastor of the Methodist church at Andrews, read the wedding service at his home at 8 o'clock. The date, June 28, was the anniversary of the wedding of the bridegroom's parents, Mr. and Mrs. A. A. Linne of Laverna, Texas.

The couple was attended by Miss Locksley Shropshire of Midland as maid of honor and Kermit McCaffrey of Odessa as best man. Miss Clara Belle Grimes of Midland was also present.

The bride wore a British tan print in flower design with white accessories. Her flowers were a rosebud corsage.

The couple will leave in about two weeks for a wedding trip to San Antonio after which they will be at home here.

Mrs. Linne is a graduate of the El Paso high school and Hotel Dietrich School of Nursing in that city. She has lived in Midland since last February, being employed at Mid-west Hospital Clinic here.

Mr. Linne came to Midland last March and is a salesman with Hughes Tool company. He is a graduate of Texas Christian University, having finished with the class of 1937. During his college years he was a letterman in football and played in the Sugar Bowl.

Triple-Hostess Shower Thursday Evening Is Surprise In-Honor Affair for Brides

Two June brides, Mrs. John W. Rhoden Jr. and Mrs. Alvon Patterson, were honored when a trio of hostesses, Mrs. Clyde Pate, Mrs. Fred Barber, and Mrs. E. B. Patterson, entertained with a miscellaneous shower at the Barber home Thursday evening. The affair was a surprise to the honor guests.

Pink roses decorated the home where the guests gathered at 8 o'clock.

A series of games opened the evening's entertainment, with Mrs. Pate directing.

At the presentation hour, Mrs. Barber's son knocked at the door in the guise of a Western Union messenger delivered a realistic looking "telegram" for each of the honorees. Each message directed the

bride to another part of the house where each found a large basket of gifts awaiting her.

Refreshments carried out a pink and white theme in pink lemonade and pink-iced white cakes. Roses were used on the dining table and Mrs. E. B. Patterson presided at a second table where the lemonade was served.

Present were: The honorees, Mmes. J. L. Barber, B. C. Girdley, Marvin Douglas, Misses Daphne Shafer, Bessie Flournoy, Lois Ficke, Ferrol Ficke, Lucile Guffey, Peggy, Jo Howze, Mmes. Joe Howze, E. V. Guffey, W. F. Prothro, J. L. Tidwell, N. J. Nolan, W. G. Flournoy, Frances Nolan Parker, Celia Shafer, Miss Kathryn Beauchamp, and the hostesses.

Humble Service Stations are built, equipped and maintained to make travel by automobile more comfortable. The service they render—from clean, sanitary restrooms to free ice water—is uniform throughout Texas. That's why so many service check cards from Humble customers tell the same story; the quotation above is typical of many we have received.

You, too, will be pleased with the service designed for your comfort and the comfort of your family at Humble Stations. One customer calls it, "just the best of the best." Try it yourself—stop for service where you see the Humble sign.

Blanchard Has Birthday and Hubbers Throw Party at Expense of Cardinals; Jerry Gets 2 Homers, Double, Single

LUBBOCK, July 1, (Special). — "Lefty" Jerry Blanchard celebrated his twenty-first birthday here Thursday by hitting two homers, a double and a single to lead the Lubbock Hubbers to an easy 18-3 win over the Midland Cardinals.

Franklin started on the mound for the visitors and gave up five hits and six runs in the first inning. Beerst finished the game. The Midland manager juggled his line-up from the start to the finish.

Blanchard pitched hitless ball thru the seventh but Jal Eckardt, Cardinal third sacker, hit one too hot for Taylor to handle to start the eighth, and Neison and Barnhill followed with

singles to score the hot corner guardian. In the ninth, Suytar doubled, Ballinger walked and Eckardt singled to send both runners home.

Al Carr hit his nineteenth homer of the season to remain ahead of the field, and Gedzius, Hubber shortstop, also hit one for the circuit. He made his round tripper as leadoff man in the first inning.

Score by innings:
Midland 0 0 0 0 0 12—3
Lubbock 6 21 2 0 4x—18

Batteries: Franklin, Beers and Ballinger, Suytar; Blanchard and Miller, Melito.

FAINT HEART NEVER WON such attention as guardsman (center) got when he fainted during ceremonial trooping of the colors on Horse Guards' parade in London, England.

CORNFIELD'S THE ROCKPILE for prisoners captured by Egypt's desert police in campaign to rid the country of hashesh smugglers. Hashesh, a plant whose leaves and stalks are a narcotic plague in Egypt, is sometimes smuggled with aid of camels—a small, shaved, hiding spot being covered over with loose camel hair. Above corn is growing in soil transplanted from the Nile.

4 Kids Making Oscar Vitt Look Like Miracle Man to Fans

BY HARRY GRAYSON.
Sports Editor, NEA Service.

CLEVELAND. — They're writing editorials about Oscar Vitt in Cleveland.

Suddenly the good people of Cuyahoga county have discovered that the manager who spent nearly a score of years in the minors is a cross between John McGraw, Frank Chance, Miller Huggins, and Connie Mack. The top strategist—no less.

The truth is that Vitt inherited a club that has been ready to win the American League pennant for several years, and—

Four remarkable youngsters are making him a great manager by making the opposition dizzy in their first real and full years. The kids are Bob Feller, Johnny Humphries, Ken Keltner, and Jeff Heath.

Any competent baseball man will tell you that instead of being barely out in front now, the Cleveland club should have a lead of 10 games. The Redskins are far away the best of a mediocre lot.

COUNTY FAIR BASEBALL.

VITT has the Indians playing county fair baseball, but you can't get away from a regular lineup average of .315; a pair of sluggers like Earl Averill, hitting .384, and Hal Trosky, hitting .363; the four powerful pregame, and the advantage of playing half a club's games in a park that is strictly a bandbox on the right field side.

Vitt handled Rollie Hemsley like an experienced diplomat on a foreign shore until the farmer boy settled down.

Meanwhile, he found that he had one of the finest catchers in baseball in Frankie Pytlak, who has carried to bulk of the back stopping burden.

Steve O'Neill would still be the Cleveland manager had not Feller hurt his arm in 1937.

Humphries easily may be the finest pitcher on a roster that includes Feller and the masterful Johnny Allen, yet he was locked in the dugout by Vitt until circumstances promoted his escape.

With the possible exception of the Prodigious Feller, this big free-armed North Carolina collegian, who won 21 games for New Orleans in his first whirl in professional baseball, would bring more money on the open market than any other member of the Tribe.

VITT CAMERA MANAGER.

GOING into the fourth of July, Keltner a big freshman from Milwaukee, is hitting .301.

A wrist hitter, he's a home run threat every time he trips to the plate. In the field, he is reminding of a couple of blokes who played plenty of third base, Pie Traynor and Stoney Jackson. He is an instinctive and aggressive infielder

During the conference delegates may secure meals at the Tarleton dining hall at the cost of 25 cents per meal. Tarleton dormitories will be open to delegates.

Fire to Be Recalled.

BAY CITY, Mich. (U.P.). — The great fire of 1892, which swept most of the city from the map, will be commemorated by one of the few old steam fire engines in the state. It has been refinished by local firemen and will be placed on permanent exhibition.

FRANKIE PYTLAK

Pytlak is hitting .288 and really gets around the bases. The little Buffalo pole is practically perfect mechanically. . . . Johnny Allen prefers to pitch to him. . . .

There has been more talk about Rollie Hemsley, but the unobtrusive Pytlak has done the bulk of Cleveland's catching. . . .

KRENZ

with a fast pair of hands and a strong and accurate arm. He comes in rapidly to handle a hopper as well as you've ever seen the job done.

Vitt did everything but use Heath until he had to. Even now he's alternating the Seattle youngster with Julius Solters in left field, much to rival managers' delight. The less they see of Heath the better.

Vitt now has the brilliant Mel Harder in the bullpen—waiting for his opportunity as a relief worker and hungry to be a filler-in.

Vitt has never failed to say the wrong thing at the right time.

Umpires call him the camera manager—one who plays to the photographers and the crowd.

But Oscar Vitt moved into Cleveland at the right time, and has a club that is moving along. Just another success story — in baseball.

Statewide Rural Life Conference Slated at College

STEPHENVILLE. — With the purpose of helping to make rural life more satisfying and complete, cooperating religious denominations of Texas and officials of John Tarleton College have arranged for a

statewide Rural Life Conference to be held at Tarleton July 11 to 14.

The conference will bring together men and women from all parts of the state to discuss religious, recreational, economic, educational and sociological problems of the rural community, and to plan ways of meeting those problems.

Members of the conference executive committee have explained that agricultural, religious, and educational leaders of Texas rural communities will attend these conferences, and gave a special invitation for the conference to all those in Midland county who are interested in making Texas "country towns" as well as the open country, better places to live and have homes.

Leaders of conference discussions will include Dr. Huha A. Moran of New York State Council of Churches, Ithaca; Dr. A. J. Walton, director rural extension, Nashville, Tenn.; Daniel Russell, head of the department of sociology, Texas Agricultural and Mechanical College; Roy B. Mefford, area supervisor of vocational agriculture, John Tarleton College; Charlie S. Wilkins, dean of students, John Tarleton College; Victor H. Schoffelmayer, agricultural editor, The Dallas News; Louis P. Merrill, regional conservator, United States Soil Conservation Service; the Rev. Dan Morgan of Tarrant county; the Rev. Edward D.

Hammer, Leon county; the Rev. J. E. Boulet, Grimes county; Miss Lela E. Vaughn, Comanche county; Howard Dalton, American Farmer, Mount Pleasant.

Recreation, which will include active sports, community games, moving pictures and plays, and a trip over the Green Creek Watershed project to observe soil conservation work, will be directed by W. J. Wisdom, professor of physical education, Tarleton. The program has allowed much time for open discussion and for personal conferences with leaders.

Delegates will consider, among other things, new interests in rural churches, the rural church in relation to the rural community, the week-day ministries of the rural church, sociological and economic problems of today's rural community, the training problem of the rural church, homemaking in rural Texas, developing leadership among rural youth, soil conservation in community building, and what the youth expects of the rural church.

Reservations for the conference may be made by writing Dean J. Thomas Davis of Tarleton or any of the following members of the

Extension Dept. of University Is Busy

AUSTIN.—Summer time is no slack period for the extension teaching bureau of the University of Texas, for the heaviest enrollment in correspondence courses comes during the summer months when students utilize correspondence work to fulfill requirement for August degrees and for teachers' certificates needed in September.

Registration from June 1 through June 25 totaled 434, Miss Julia Vance, registrar of the extension teaching bureau, reported. The total enrollment for the past ten months, beginning Sept. 1, was 815, Miss Vance said. This enrollment included correspondence students only, not those enrolled for winter extension classes, she explained.

The new course in United States government has been popular this past winter, Miss Vance said. A new state ruling requires all university students to take a full year course in United States government.

More Spy-Hunters and Stricter Laws Urged to Curb Foreign Peeping Toms

Revelations of the widespread activities of spies from many foreign countries in America are contained in a series of four articles—written for The Reporter-Telegram by Thomas M. Johnson, author of "Our Secret War," who is an acknowledged authority on international espionage. This is the fourth.

By THOMAS M. JOHNSON
(Copyright, 1938, NEA Service, Inc.)

NEW YORK.—The recent indictment of 18 men and women, including German government officials, for spying in this country for the nazis, is the first real step Uncle Sam has taken today closing up the free show he has been running for Peeping Toms of all nations.

For years, they have been having a good long look at our defense secrets while, until lately, our authorities mostly showed that they would not and could not take foreign spies seriously.

But today everyone is distinctly spy-conscious. The president himself ordered recently that our fleet maneuvers this summer were to be protected from the usual snooping Japanese steamers and fishing boats, if necessary by shelfire. That will protect them also against Germans and Ital-

ians, for all three powers interchange military and naval information.

Our army and navy both have taken other protective measures; especially the navy, which became alarmed by recent revelations including the Farnsworth and Thompson cases, and convinced that its big building program is drawing spies as molasses draws flies.

Lately the office of naval intelligence has gone on a war basis, multiplied its vigilance and doubled its expenditure. To protect its secrets it has bought new safes, and now orders its officers who travel by train with confidential papers, to reserve not lower berths, which cannot be locked, but staterooms, which can be.

Protective Regulations.
And try these days to get into a navy yard or a private shipyard that is building ships for the navy! Or, for that matter, private factories working on navy or army orders. Both services have promulgated new regulations for protecting "restricted projects" from the prying eyes of visiting foreigners.

From the prying eyes of the flying camera, too, protection is needed and President Roosevelt signed only recently a new law forbidding photographing and sketching from the ground or air, not alone of 24 military and naval reservations throughout the country from Sandy Hook to the Aleutian Islands, but various places in the Panama Canal Zone, Hawaii and other possessions.

Army and navy both much restrict photographing of such places even for newspaper and other publication; also of new equipment during the experimental period. Both services frankly hope this will smoke out foreign governments that want such information, and force them to offer some of their own in return—the usual international procedure.

But all of this is not enough really to plug all the leaks in Uncle Sam's peepshow. Our es-

plionage laws provide penalties ranging from two years in prison to twenty for "unlawfully obtaining or permitting to be obtained information affecting the national defense" or for "unlawfully disclosing information affecting national defense" or conspiring to obtain and disclose information. Fines up to \$10,000 are also provided for these crimes and for harboring and concealing violators, or obstructing justice—which is something to think about for the German steamship people who let spies escape to safety in Hitler's bosom.

New Laws Coming.
But for nearly twenty years the enforcement of these laws passed in wartime has been weak, first because of efforts to stretch them to cover Red propagandists and then by the influence of those very propagandists who accused the government of "Red-baiting." Now the government is trying to put back into the jaws of the law the teeth that peacetime has drawn, and promises some real champing in the coming Nazi spy trials.

We have in this country no detective force worthy the name that specializes in hunting spies and little or nothing else. If a spy is discovered in the ranks of the army or navy or about a fortress or battleship, military or naval intelligence is concerned but neither has more than a corporal's guard of operatives and those mostly in Panama, Hawaii or the Pacific coast. They must turn to the F. B. I.

Spy-chasing is the G-men's least-known duty probably because until lately it was so hard to get convictions. Many known spies could only be shooed out of the country like one who recently chartered an airplane to Canada. The coming Nazi trial will show whether we need still more comprehensive peace-time anti-spy laws and, as many authorities say, a force such as every European power has, trained especially as spy-hunters and as nothing else.

Building Permits In State Decline

AUSTIN.—Building permits in Texas during May were substantially below those of the preceding month and moderately under those of the corresponding month last year, the University of Texas bureau of business research has announced. Reports from 38 Texas cities show total permits of \$5,868,000, a drop of 22.1 per cent from April and a decline of 5.1 per cent from May last year.
