

His Report Hit

Denouncing the American Legion in a doctor's thesis as reactionary, Fascist and unpatriotic, Dr. William Gellenmann, above, of Northwestern University, drew bitter counter-attacks from Legion officials and stirred comment at the national convention of the National Educational Association in New York. The 41-year-old professor's study of the veterans' organization won for him a doctor of philosophy degree from Columbia University.

Conoco Starting Second Test in Vacuum Extension

By FRANK GARDNER. Location for a second test in the extension area four miles northwest of the Vacuum pool of Lea county, N. M. has been staked by Continental Oil Company for its No. 1-1-17 State. It is 336 feet from the north, 1,650 from the east line of section 7-17s-34e. The new test is 660 feet and 1,320 feet west of Repolo (Sinclair-Prarie) No. 1 State, lease No. 197, the extension producer, which was recently completed for flow of 75 barrels in seven hours at 4,685 feet.

Conoco No. 1-K-29 State, five miles southeast of Lovington in eastern Lea, is drilling below 4,270 feet in anhydrite and gypsum. In extreme northeastern Lea, Rowan & Nichols No. 1 State is drilling below 4,252 feet in lime. It topped brown lime at 4,239, 291 feet below sea level.

Big Bennett Well. Another large producer was completed yesterday in the Bennett pool of southeast Yoakum as Mid-Continent No. 5 Ruth E. Bennett, flowed 483.40 barrels the second six hours of a 12-hour gauge to rate daily potential of 1,934 barrels. Gas-oil ratio was 1,460-1. The well flowed 613.14 barrels the first six hours. It had been shot with 600 quarts in pay horizons between 5,060 and 5,244, the total depth.

Ralph H. Gill No. 1 Gulf-Dixon, wildcat two and a half miles northwest of the Bennett pool, is drilling at 2,040 feet in red beds.

It was reported that Gulf had farmed out to H. K. Riddle, of Oklahoma City, 1,920 acres of its Barrier block in eastern central Yoakum. Riddle received all of section 6, block D, J. H. Gibson survey, the north half of 7, the south half of 381 and all of 382. Well must be started within 30 days in the southeast quarter of section 6, with Gulf reserving all rights to production below 5,500. Location will fall nine and a half miles northeast of the Bennett pool, five and a half miles southeast of Gulf States No. 1 Gulf-Graham, recent duster, and seven and one-half miles south of Magnolia No. 1 Taylor, also a dry hole.

Gulf No. 1 Lucy K. Moore, test a mile and a half west of the Denver pool in Yoakum, is drilling at 3,980 feet in anhydrite. Some called top of brown lime at 3,900 feet, datum of minus 287. This puts the well 85 feet lower than Helmerich & Payne and Conoco No. 1 Ohio-Dowell, extension producer a mile and a half to the east, which topped brown lime at 3,830, datum of minus 202. The Gulf test had been about flat with the No. 1 Dowell on Yates sand.

Law on Anhydrite. Sinclair-Prarie No. 3-A J. L. Johnson, test several miles north of the Foster pool in Ector, topped anhydrite at 1,810, datum of plus 1,182. It is said to be running 45 feet low to Landreth No. 1 Johnson and 65 feet low to Sinclair-Prarie No. 1-A Johnson.

Sinclair-Prarie No. 2-B Moss is drilling at 1,120 in sandy shale.

In western Crane, Gulf No. 8 Waddell is preparing to core ahead five feet from 6,086, where it swabbed 93 barrels of sulphur water and 11 barrels of oil through casing in six hours yesterday. Gulf No. 4 McKnight is drilling lime below 5,375.

In northern Pecos, Magnolia No. 1-A McKee couldn't pull 7-inch casing and is now preparing to shoot the pipe in two. Hole has been cemented back to 6,180 from 6,267 to shut off sulphur water struck in the Ellenburger, lower Ordovician.

Magnolia No. 1-15 University, in eastern Crane, is drilling at 1,875

Ouster of Morgan Is Challenged

Ex-TVA Chairman Asks Recognition As Board Member

KNOXVILLE, Tenn., July 7. (AP).—Dr. Arthur E. Morgan filed suit in Knox county chancery court late Wednesday challenging the right of President Roosevelt to remove him as chairman of the TVA and asking that he be recognized as a member and chairman of the board of directors of the federal agency.

The tall, gaunt Ohioan asserted in the suit he had never recognized the president's right and power to remove him.

He asked payment of back salary since his removal by the President March 22, 1938, and a declaratory judgment voiding the president's removal order and forcing directors H. A. Morgan and David E. Lilienthal to recognize him "as a member and chairman of the board of directors of the defendant, Tennessee Valley Authority xxx."

Filing of the suit came on the eve of a congressional investigation of the TVA, precipitated by Dr. Morgan's charges of "dishonest management" against his former associates.

Dr. Morgan refused to support his accusations with testimony at a hearing called by President Roosevelt, and the chief executive ordered his removal as chairman.

New Officers of Rotary Club for Year Installed

Officers of Midland Rotary club to serve during the fiscal year ending July 1, 1939, were installed today. W. Clinton Lackey taking the chair as president. The outgoing president, Fred Middleton, is vice-president, W. I. Pratt continues as secretary-treasurer, and the other directors are E. H. Barron, George Abell, S. A. Debnam and W. C. Maxwell.

The new officers were fittingly introduced by Fred Wemple who discussed the need today for greater world understanding, better community and individual effort in preserving the principles and fundamentals on which America is founded. He pictured graphically the responsibilities of community leaders, declaring the position of Rotary club president to afford a great opportunity for service.

Short talks were made by Middleton, who thanked the members, committees and officers for the assistance and support given him during his term as president; and Lackey, who expressed gratitude for the trust shown him by the club in making him president. Pratt was praised highly by Wemple for the splendid management of business affairs of the club and for the complete financial report mailed to all members at the end of the fiscal year.

A high spot on the program was music furnished by Professor Ralph Levine, pianist and Signor Egidio Vilani, violinist, who are in the city to present a concert at the First Methodist church, Sunday evening. Lighter numbers were played during the luncheon, with classical duet and solo numbers played at opening of the program proper.

Report of President Lackey who was delegate to the convention of Rotary International at San Francisco was postponed until the luncheon next Thursday.

Visitors at the luncheon included Rotarians Wes Appleby and E. B. Ribble of Odessa and Walter Morrison of Big Spring.

Program committee for the first quarter, named by President Lackey, includes S. A. Debnam, chairman, Fred J. Middleton and Percy J. Mims.

ON VACATION. Mr. and Mrs. Ish McKnight Jr., are on a vacation trip in Oklahoma where they are visiting her parents at Nowata and his parents at Red Fork.

in salt and anhydrite, while Texas No. 1-G State had reached 551 feet in red beds.

troubling he began to spoof a loyal Swiss:

"It seems odd to me. You have a minister of marine, but you have no navy."

Here's one that deals with a Nazi visitor in Holland. With characteristic Prussian bluster and lack of tact, he remarks to a Dutch acquaintance:

"Hitler will be over here in Holland within a couple of months!" "Not at all unlikely," replies the Dutchman, calmly puffing at his pipe. "Your former Kaiser's here already!"

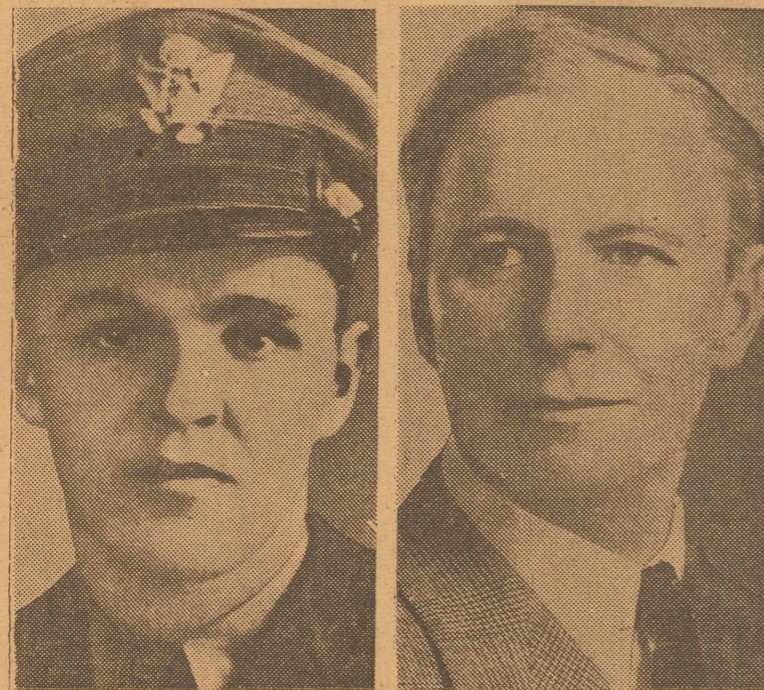

GOOSE-STEPPING NIGHTMARE. Sometimes a penetrating comment on current affairs as seen through non-official eyes lies hidden beneath the pleasant. Here's an ironical anecdote widely repeated as a result of Germany's grab of Austria, which brought German troops to the Brenner Pass and

tries come in for a large share of the popular ribbing, and the stories circulate widely in countries where their open publication would be followed by drastic punishment.

"Shouldn't seem odd to you," replies the stout Swiss. "I believe that you in Germany have a minister of justice!"

DICTATORS MAKE FINE TARGETS. Naturally, the dictatorial coun-

Technicians for World Flight

On board the plane in which Howard Hughes, millionaire sportsman and aviation fan, will fly to Paris and possibly around the world, will be Thomas Thurlow (left), designer of a new type of drift indicator for use over water, and Harry P. Connor (right), who will be navigator for the flight. One purpose of the Hughes flight will be to test out several new revolutionary flying instruments.

Roosevelt Policies Scored By Landon in Latest Speech

COUNCIL BLUFFS, Ia., July 7. (AP).—Alf M. Landon replied to President Roosevelt's recent fireside address last night with a charge the present depression was brought on by methods and policies of the administration.

"This depression, he said, is 'purely political.' He characterized the president's speech as 'the New Deal version of why we have twelve million people unemployed.'"

The 1936 Republican presidential nominee spoke over a nation-wide radio network. It was the first of a series of speeches he is expected to deliver during the coming congressional campaign.

Landon contends that "because Mr. Roosevelt has not been successful in restoring employment he adopts the strategy of nagging at business."

The former Kansas governor said that if the president would "practice what he preaches" in the way of governmental administration, republicans would "fight shoulder to shoulder with him to achieve the social progress and the economic recovery which we all desire and need."

He struck particularly at what he called governmental "financial recklessness," and "the use of WPA money to buy votes."

Replying to Roosevelt's fireside appeal for the election of "liberal candidates," Landon commented:

Death Sentence of Negro Commuted. AUSTIN, July 7. (AP).—The board of pardons and paroles announced today it would recommend commutation to life the death sentence of Willie Caesar, El Campo negro, slated to die Friday in the electric chair.

Governor Allred said he would accede.

10 Children Die In Fire Drills. LISBON, July 7. (AP).—Ten boys died today when firemen failed to rescue them from a four-story wooden structure set ablaze during an exhibition fire drill at Coimbra, 100 miles north of here.

Ten others were injured as the flames spread too rapidly to be controlled.

VISITS IN ODESSA. Johnnie Pearl Morelan, eight year old daughter of Mr. and Mrs. Bill Morelan, visited her grandmother, Mrs. J. M. Morelan at Odessa the early part of the week.

GIRL BORN TO GROWDENS. Mr. and Mrs. Frank L. Growden are the parents of a daughter born in a Midland hospital July 5. The child weighed six and three-fourths pounds.

DAVIDSON HERE. C. J. Davidson, Fort Worth and Midland oil operator, is here today.

STOGNER IN TOWN. Lou Stogner, oil operator of Midland and Odessa, is back at his business here today.

HERE FROM EL PASO. Mrs. Lillie Cowden is here from El Paso, visiting in the home of her son, Edd Dick Cowden.

HERE FROM PHILADELPHIA. Mrs. D. S. Smith and daughter, Doris Jane, of Philadelphia, Pa., are here for a visit with Mrs. Smith's mother, Mrs. E. W. Watlington, Sr. The Watlingtons and relatives enjoyed a picnic at Cloverdale Wednesday evening.

HAMILTONS RETURN. Mr. and Mrs. E. W. Hamilton and children returned late Wednesday from a trip to San Antonio, Houston and Galveston.

PIPELINE EMPLOYEE HURT. Carl Woodward of Houston, employee of the Texas Pipeline company, is in a Midland hospital for treatment of injuries received Wednesday.

NLRB Examiner Says Ford Should Bargain. WASHINGTON, July 7. (AP).—An examiner of the Labor Relations Board today told the latter it should order the Ford Motor company to bargain collectively with the United Auto Workers union (CIO) at the Saint Louis assembly plant.

He also proposed an order enforcing re-employment of 192 workers discharged and refused jobs because of union activities during the last November strike.

The company has 10 days in which to reply.

President Ready for Jaunt West

Month-Long Stay From Capital Is Arranged by Him

WASHINGTON, July 7. (AP).—Riding his special train, and accompanied by three times the usual number of reporters, President Roosevelt leaves tonight for a month-long western "stumping tour."

He is going to the coast via the Southwest and his final program includes an address in Oklahoma City July 9, a visit with son Elliott in Fort Worth on July 10 and a motor trip and address in Amarillo on July 12.

Postmaster General Farley is planning a coincidental trip in the near future through the northwest.

The president received some cheering business news on the eve of his departure for an ambitious transcontinental speaking tour.

The Federal Housing administrator Stewart McDonald, reported to the chief executive that new government-insured home construction would total about \$1,000,000,000 this year, or more than double last year's figure.

The president, holding a round of last-minute conferences, had a final word of advice for officials administering the spending-lending program, discussed the monopoly investigation with Chairman William O. Douglas of the Securities commission and made ready to appoint an administrator for the new wage-hour program today.

Old Settlers Will Gather In Stanton Tuesday Evening

STANTON, July 7.—Ninth annual old settlers' reunion will be held at Stanton, Tuesday, July 12, officers have announced.

Old settlers and their descendants will gather on the court house lawn at 6 o'clock Tuesday evening, after which a basket picnic will be served.

Turner Vance of Refugio will be master of ceremonies, returning to Stanton from his home to attend the gathering.

Old-time music and impromptu talks by various old settlers will make up an informal program, with "visiting" among old friends and recalling of old times as the chief feature of the evening.

All persons having lived in Stanton or Martin county 20 years ago or previous to that date are invited to attend the reunion, which annually is looked forward to as an important gathering of the town's year.

Bill Wilkinson, old-time cowman well known over West Texas, is president of the old settlers' organization for this year.

Dick Houston, whose brand was a prominent one among the ranches of the county for more than 30 years, is vice president. The office of secretary is held by his daughter, Mrs. Morgan Hall.

Officers for the coming year will be elected by the old-timers Tuesday.

NLRB Examiner Says Ford Should Bargain. WASHINGTON, July 7. (AP).—An examiner of the Labor Relations Board today told the latter it should order the Ford Motor company to bargain collectively with the United Auto Workers union (CIO) at the Saint Louis assembly plant.

He also proposed an order enforcing re-employment of 192 workers discharged and refused jobs because of union activities during the last November strike.

The company has 10 days in which to reply.

PIPELINE EMPLOYEE HURT. Carl Woodward of Houston, employee of the Texas Pipeline company, is in a Midland hospital for treatment of injuries received Wednesday.

HERE FROM EL PASO. Mrs. Lillie Cowden is here from El Paso, visiting in the home of her son, Edd Dick Cowden.

HERE FROM PHILADELPHIA. Mrs. D. S. Smith and daughter, Doris Jane, of Philadelphia, Pa., are here for a visit with Mrs. Smith's mother, Mrs. E. W. Watlington, Sr. The Watlingtons and relatives enjoyed a picnic at Cloverdale Wednesday evening.

HAMILTONS RETURN. Mr. and Mrs. E. W. Hamilton and children returned late Wednesday from a trip to San Antonio, Houston and Galveston.

PIPELINE EMPLOYEE HURT. Carl Woodward of Houston, employee of the Texas Pipeline company, is in a Midland hospital for treatment of injuries received Wednesday.

WHAT THE ENGLISH LAUGH AT. Still another story is giving Britain a chuckle right in the midst of its most intensive armament program. It concerns Britain's Jewish minister of war, Leslie Hore-Belisha.

Hore-Belisha has had time to win a reputation as a wit.

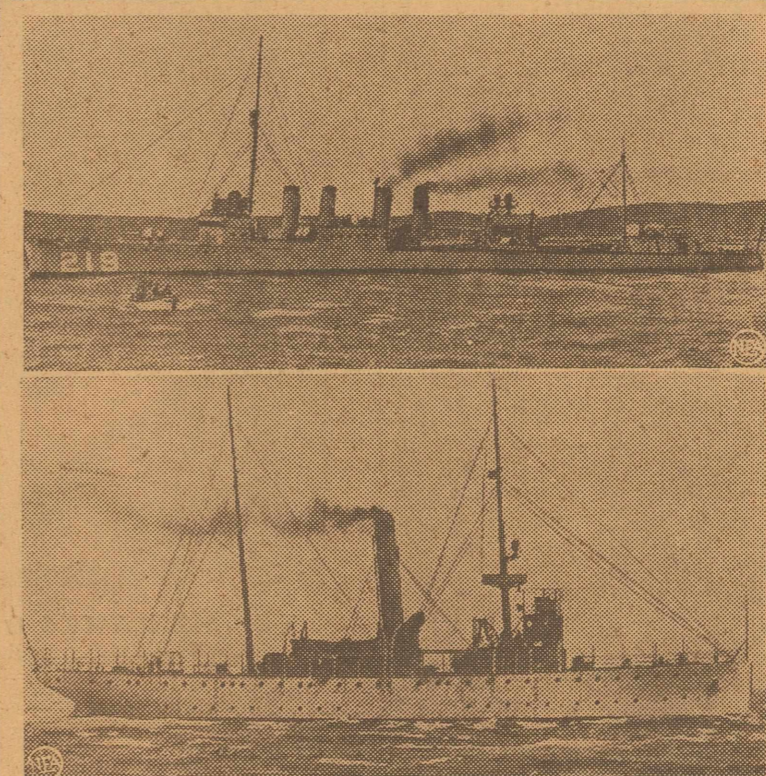

He won it, goes the story, with cracks like this. Most officers have taken with fairly good grace the extensive motoring of the ancient cavalry regiments. But some older officers, enamored of spurs and snorting chargers, have been very much annoyed. One such, discussing the changes with the minister, said:

"It is a scandal that our crack cavalry regiments, famed in history, should lose all their traditions in this way!" "Well," mused Hore-Belisha, eyeing the fiery colonel, "I have often thought that some coachmen make bad chauffeurs!"

That may not sound very funny, but who would begrudge an Englishman a chuckle? All too few things are funny in Europe today—and it's anything for a laugh.

Japanese Tighten Belts as Second Year of War Opens

Navy Stands By in China

While Chinese authorities combed demolished buildings in Swatow for the bodies of Chinese dead and protested a series of Japanese raids on that city which resulted in an estimated 300 dead and 400 wounded, the United States gunboat Sacramento, below, lies in Swatow harbor ready to evacuate Americans living there. The destroyer Edsall, top, is reported speeding north to a position where it could help.

Allegiance to Hitler Said Required of GA Bund Members

RIVERHEAD, N. Y., July 7. (AP).—Testimony that an oath of allegiance to Adolf Hitler was required of members of the German-American Bund was recorded today in the trial of six directors of the German-American Settlement League, a bund affiliate.

The directors are accused of failing to file a membership list with the secretary of state, required of oath-bound organizations.

Baptists May Call Pastor at Meeting Scheduled Sunday. Deacons of the First Baptist church, in a meeting last night, voted to recommend to the church Sunday morning that a pastor be called immediately. Pastorless for the past few months, since the Rev. Winston F. Borum resigned to accept a similar post at Altus, Okla., the pulpit has been filled each Sunday by visiting preachers and by D. H. Bonner, local C. I. T. official who is an ordained Baptist preacher.

If the church votes to go into the call of a pastor, deacons said, the names of those who have been heard recently, along with names of any others nominated, will be voted on at the Sunday morning meeting.

A large attendance of the membership was urged.

HERE FROM EL PASO. Mrs. Lillie Cowden is here from El Paso, visiting in the home of her son, Edd Dick Cowden.

HERE FROM PHILADELPHIA. Mrs. D. S. Smith and daughter, Doris Jane, of Philadelphia, Pa., are here for a visit with Mrs. Smith's mother, Mrs. E. W. Watlington, Sr. The Watlingtons and relatives enjoyed a picnic at Cloverdale Wednesday evening.

HAMILTONS RETURN. Mr. and Mrs. E. W. Hamilton and children returned late Wednesday from a trip to San Antonio, Houston and Galveston.

PIPELINE EMPLOYEE HURT. Carl Woodward of Houston, employee of the Texas Pipeline company, is in a Midland hospital for treatment of injuries received Wednesday.

BRITISH SEND SHIPS TO JERUSALEM. JERUSALEM, July 7. (AP).—The British government today ordered the cruiser Emerald to Haifa where 131 Jews and Arabs have been killed and wounded in two days of rioting. The powerful battle cruiser Repulse was reported arriving tomorrow.

The rioting caused the blackest Holy Land in the nation since the bloody Arab general strike in 1936.

Representatives of World Refugees in Conference Today. EVIAN-LES-BAINS, France July 7. (AP).—Jewish, Catholic and Protestant refugee representatives formed a united front today to obtain immediate international aid for the "oppressed minorities of the world."

It was agreed that the inter-governmental refugee committee must consider the plight of refugees throughout the world, not Germany and Austria alone; immigration plans should conclude those already departed from Germany; German negotiations started permitting refugees to take goods and money; liberty of Palestine immigration must be re-established.

Myron C. Taylor, United States, was elected president of the committee.

Beware! Fresh Paint on Tank. City officials today warned all drivers of automobiles here not to leave their cars parked for long intervals within four blocks of the new water tank on the north, northwest and northeast sides.

Painting the tank with spray guns is scheduled to start immediately and officials declare the prevailing strong winds are apt to blow the paint considerably, causing cars to be injured if they are in the path of it for a very long time.

Workmen will be on the job each day from 7:30 a. m. to 4:30 p. m. The job will be completed within a few days.

Peace Talk Said "Out" By Chinese

Invaders Claim Advances Along Route to Huchow

By Associated Press. As the second year of war was dawned Japan and China held memorial services last night and today. Japanese drew their belts a notch tighter although Premier Ko-noye had "an extra pickle" for lunch.

Chinese courage was screwed up by a statement from Madame Sun-Yat-Sen, widow of the founder of the Chinese republic, warning against possible peace gestures as "political maneuvering to complement conquest."

Japanese claimed continued successes on the Yangtze and toward Hankow.

An official Chinese communique said Japanese war planes raided Fuchow three times today, dropping 55 bombs and causing possibly a hundred casualties.

Japanese reported new gains over Chinese armies defending the Yangtze river approach to Hankow. China's provisional capital and goal of Japan's campaign.

Bombers ranging ahead of ground forces were said to have sunk a dozen Chinese troop-laden junks near Kiukiang, 135 miles downstream from Hankow and immediate objective of the invaders.

Japanese also said their naval craft were clearing the river of mines laid by Chinese between Kiukiang and Matowchen, 40 miles downstream.

Reports of Japanese successes in the land, air and naval drive on Hankow were countered by Chinese assertions that their guerrilla and regular forces were inflicting heavy damage to the invaders in scattered sections of the ever-widening field of hostilities.

Throughout the international sections of Shanghai authorities took precaution against outbreaks. The fourth regiment of United States marines established patrols in the American defense sector of the international settlement.

Chinese military and civilian leaders began a series of patriotic speeches, recounting the year's achievements and declaring the government's determination to resist Japan.

In Hankow, Generalissimo Chiang Kai-Shek appealed to the Japanese people to "halt the madness of their militarists" in a statement referring to the "barbarity and cruelty" of the Japanese army.

## Behind the Scenes in Washington

Editor's Note: The opinions expressed in this article are those of Mr. Dutcher, N.E.A. Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, July 7. — With everybody hoping and praying that the country is about to move upward from the depression's bottom, economists and statisticians have gathered in enough facts and figures to permit them to present a fairly plausible and well-connected analysis of factors making for the present inertia.

There is no assurance that such a diagnosis will be helpful in warding off economic depressions of the future. But you never can tell.

Laughlin Currie, assistant director of research and statistics for the Federal Reserve System, whose

business figures are widely used in industry and government, recently summed up his conclusions in a confidential survey.

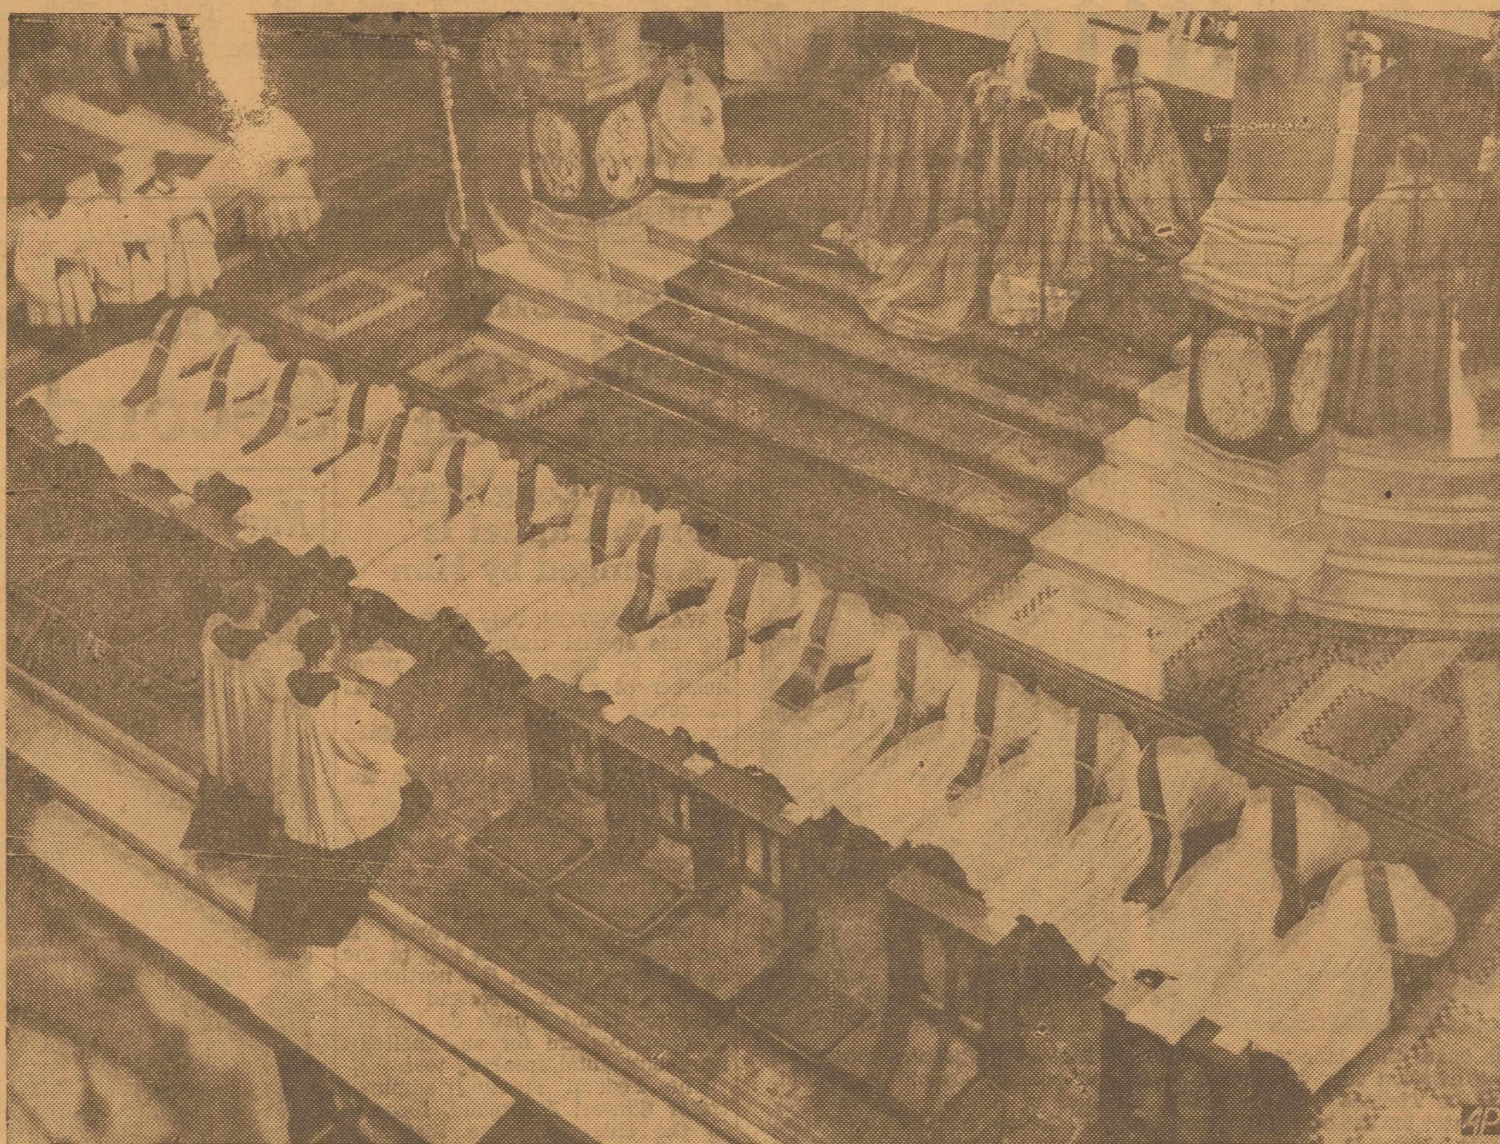

He stresses the factors causing the inventory and forward buying boom of 1936-37, the decline in residential building after April, 1937, and the abrupt decline in net federal expenditures in 1937. And he achieves some distinction by admitting that his is a "hind-sight" view, based largely on figures available only this year, and not something he was predicting all the time.

Currie groups essential depression factors roughly as follows:

### THE MONEY ROLLED IN.

NATIONAL INCOME: From 1933 to 1936 forces tending to increase the national income were ascendant. Government kept adding to buying power more than it took in taxes. Business increased expenditures on inventories, plant and equipment. In 1936 a residential building boom got under way. National income increased from less than 40 billion dollars in 1933 to 64 billions in 1936. The increase of nine billions in 1936 was one of 16 per cent, highest rate ever known in a period of stable prices.

PRICES: England's rearmament inspired speculation in certain raw materials and inspired inflationary sentiment. In a quick transition period, labor won substantial wage and hour concessions. A sellers' market resulted from anticipation of rising prices and fear of interruptions by strikes. Industries passed on higher costs in higher prices and some encouraged excessive forward buying by announcing price increases effective

TO THE RANKS OF PRIESTHOOD were admitted 17 men in ordination at London's Westminster cathedral with Arthur Cardinal Hinsley, England's only Cardinal, officiating. Above prostration before the altar is one phase of holy ceremony.

On future dates. From October, 1936, to March, 1937, wholesale prices rose 7 1/2 per cent, at an annual rate of 18 per cent in what Currie calls "one of the worst periods of forward buying and inventory accumulation we have ever experienced."

INVENTORIES: Dun and Bradstreet's survey covering 17,000 firms indicates that manufacturing and merchandising inventories increased by about two billion dollars in 1936 and three billions in 1937. Federal Reserve estimates what Currie calls an "astounding increase" of five billions in the 12 months ended September, 1937.

### ANOTHER SHRINKAGE.

GOVERNMENT EXPENDITURES: Here came the biggest, quickest drop of all among factors tending to increase national income. Next excess of activity-creating federal expenditures over and above tax collections was four billion dollars in 1936. This excess dropped from about \$335,000,000 a month through 1936 to less than \$80,000,000 monthly from March to December, 1937. Bonus payment swelled the total in 1936 and collection of a billion social security taxes shrank the 1937 figure.

OTHER FACTORS: The speculative movement had to subside sooner or later; this one ended in April of last year. Pressure of inventories began to be felt and industries began to sell from accumulated stock instead of new production. Increased reserve requirements and Mr. Roosevelt's warning against certain high prices dampened inflationary sentiment—"may have," says Currie. Effect of the armament boom seemed to have

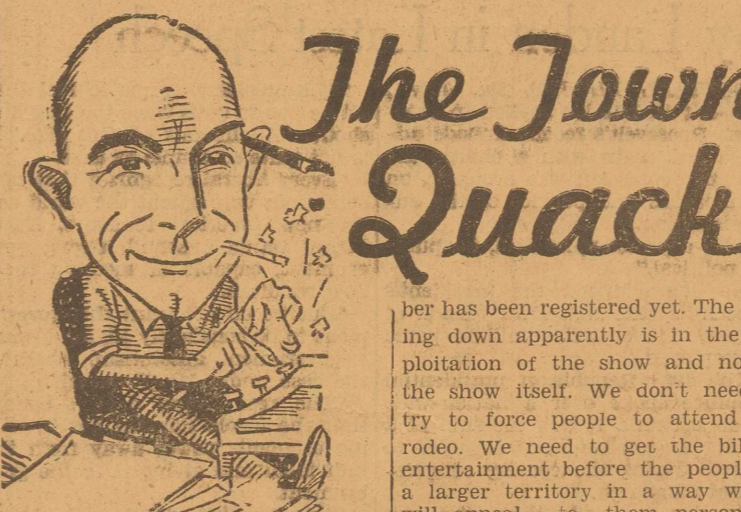

been overemphasized. The labor situation became more stabilized after the U. S. Steel and General Motors agreements with C. I. O., discounting another speculative factor. Statistics began to show that installment credit had been extended "dangerously." Residential building began to fall off after April, 1937, apparently because of cost and price advances. Industry was sufficiently confident to go on increasing new plant and equipment expenditures through the third quarter of the year, total such expenditure being seven billion dollars in 1937 as compared with five billions in 1936. But adverse factors eventually flattened out that factor, too, and everybody knows the rest.

## Prairie Chickens in South Texas Said To Be on Way Out

REFUGIO, (P). — The booming sound of the male prairie chicken is strangely quiet.

Few are the early morning fights between cocks for the entertainment of clucking hens, which came to the short grass hard pan flats to see their boy friends battle and then strut and preen.

The prairie chicken, considered the most beautiful of Texas coastal birds, is on the way out. The last Attwater prairie chicken census in 1937, showed but 8,711 chicks in Texas. Seventy-five years ago the chicks were estimated at 1,000,000. Most of Texas' prairie chickens are

Midland citizens go to Stamford and come back talking about the magnitude of the attendance at the Texas Cowboy Reunion rodeo. There's no disputing the fact that they get the job done over there when it comes to packing the crowds through the gates. They even have a few thousand left over, with no place to pack 'em. How do they do it? Most everybody will tell you that you see a better rodeo at Midland than you see anywhere this side of Fort Worth or Cheyenne. Yet, with all of our huge steel grandstand, the attendance problem stares us in the face each season. With our three afternoon and three night performances, we ought to show to 50,000 people. But the gate receipts reveal that nowhere near that num-

ber has been registered yet. The falling down apparently is in the exploitation of the show and not of the show itself. We don't need to try to force people to attend the rodeo. We need to get the bill of entertainment before the people of a larger territory in a way which will appeal to them personally. Stamford, with the cowboy reunion idea, makes everybody who ever wore a pair of boots feel like the show is staged for his individual benefit. If we are creating the impression of "Come and see the way we do it in Midland," we are on the wrong track. We must make it plain to the people of the southwest that the MIDLAND COWBOY CONTEST is their show, not just one in which the local favorites parade on the fat horses, as it has been expressed a time or two.

And that is just what the rodeo committee wants to do—namely to make everybody feel like the Midland rodeo is his own show. It costs a lot of money and this money is spent to provide superior color and entertainment for the people who want the best.

If you are a friend of Midland, get busy now and talk up this Cowboy Contest to be staged September 3-4-5 everywhere you go and to everyone with whom you converse. You can't say too much, because the committee will back up your wildest claims of a fast, wild, western, colorful, big-time rodeo—bigger and better than ever before.

The Reporter-Telegram will take its part of the blame for inadequate advertising and exploiting this annual western event. But we want the rest of you to take your shares, and then we can all do something about it.

Rodeo Committee, give us something to use for publicity. We are ready and a-rearing.

Watch for our Cowboy Contest special edition August 21. It will be distributed over the Permian Basin in a big way. We want you to help us help the rodeo to get over as it has not busted loose before. We'll be seen' you.

Addison Wadley may have received more publicity than he bargained for on his statement that he wouldn't swap a few feet of West Texas for the entire state of California. He has weakened to the extent that he said this morning may be it was just a little "sour grapes" on his part.

## This Happened Way Down on the Pecos

MCCAMEY, (P). — P. L. (Rattlesnake) Brown of McCamey has a genius for telling tall tales and making them stick.

Along with the rattlesnakes, tame mice and prairie dogs Brown keeps in his place of business is a 96-pound alligator turtle from the swamp and bayou country of Louisiana.

One day an old Pecos river cowhand stepped into Brown's place saw the ugly creature, and asked: "Brownie, whar'd you git this here critter?"

"Caught him out on the Pecos," Brown said.

"On the Pecos!" the old-timer shook his head. "Why I've rode the Pecos for 30 year and ain't never seen nothing like that along it. Whar abouts on the Pecos was it?"

"At Wagon Wheel Gap." "Wagon Wheel Gap! Whar's that?"

"Why," said Brown, "that's way down where the Pecos runs into the Mississippi river."

"Aw, well, then," said the cowhand apparently satisfied, "I ain't never been down that fur."

## Evangelists Class Honors New Teacher At Tea Wednesday

Mrs. Hal C. Bybee, who has accepted the position of teacher of the Evangelists class of the Baptist church for the remainder of the summer, was honored by class members with a "get-acquainted" tea at the home of Mrs. W. D. Anderson, 1209 W. Texas, Wednesday afternoon from 4 until 5 o'clock.

A pink and green color scheme was followed in party appointments. In the receiving line were Mrs. Anderson, Mrs. T. E. Nelly, class president, Mrs. Joseph Mims, vice-president, and Mrs. Bybee.

In the dining room, Mrs. O. J. Hubbard presided at the crystal punch bowl, with Mrs. Leonard C. Proctor and Mrs. Bob Scruggs assisting in the service.

An Italian cutwork cloth was used on the refreshment table which was centered with a reflector on which stood a crystal bowl of pink rosebuds and foliage, repeating the party tints. Green candles in crystal holders made an additional note of cool color on the table. Individual cakes were decorated with flowers and leaves in pink and green.

Jo Ann Proctor was at the piano during the afternoon.

Members of the class called during the tea hours and also several out-of-town visitors.

The class roll includes, Mmes: T. E. Neely, W. D. Anderson, C. E. Anderson, Lenton Brunson, D. M. Bryan, R. Chastor, W. N. Cole, W. E. Collier, H. S. Collins, J. L. Daugherty, A. T. Donnelly, W. H. Douglas, Martin Duvall, J. D. Ford, Fred Girdeley.

Mmes. John Godwin, O. J. Hubbard, Herbert King, L. W. Leggett, Ray Miller, Eula Mahoney, Joseph H. Mims, C. G. Murray, D. W. McCormick, W. L. Nicol, C. J. Oliver, Leonard C. Proctor, Bob Scruggs, Paul Smith, Roy Stockard, C. E. Strawn, W. L. Sutton, J. L. Taylor, C. C. Tull, J. G. Velvin, Takell, Robert Cox, S. M. Erskine.

## Ready For A Plunge at Camp Waldemar

West Texas girls know how to appreciate the clear, cool waters of the Guadalupe river at Camp Waldemar, and in this picture are a group of them on the swimming pier. In the water, front to back, are Hazel Dell McBrien of Midland, Gloria Strom of Big Spring and Nell Ruth Bedford of Midland. Seated, left to right, Mary Martha Sivalis and Jo Ann Cherry of Midland, Robbie Piner and Janet Robb of Big Spring. Standing, Mary Jo Thurman and Louise Ann Bennett of Big Spring. At the Waldemar location the Guadalupe is widened by an artificial dam, providing one of the finest waterfronts in Texas. Expert instruction is given in all water sports, and these girls are members of the classes. An elaborate swimming pageant was given Sunday night as a part of the July 4 celebration.

## Sewing Club Meets Wednesday at Home of Mrs. Klatt

Wednesday Afternoon Sewing club met with Mrs. Fred Klatt, 504 S. Mineola, Wednesday afternoon.

Club hours were spent in different kinds of fancy handwork. Refreshments were served to: Mmes. W. C. Moore, E. L. Reagan, A. E. Dixon, John W. Crowley, and the hostess.

Next Wednesday the club will meet with Mrs. Bill Wright, 207 E. Kentucky.

## Country Materials For Vacation Togs.

Designers are doing the cleverest things with the lowliest materials. A natty little jacket of off-white burlap is lined with gray printed calico with matching bands finishing front opening, short sleeves and square pockets. A headkerchief from the same calico goes with it.

## Bright Reversible Raincoat.

A dark, dull day will never get you down if you brighten it up with gay rain togs. A new reversible raincoat is made of two thicknesses of material, bright-colored, translucent on one side, silver-tinted on the other. It is light-weight well cut with raglan sleeves and deep rounded pockets and has a tie belt.

## G. A. Members Present Missionary Program Wednesday

Vernelle Howell was in charge of the missionary program presented at the meeting of the G. A. at the Baptist church Wednesday afternoon at 4 o'clock.

Those taking part on the program and their topics were: "The Parable of the Sower," Lena Fay Shelburne; "A Story in Persistence," Vernelle Howell; "Aunt Melay," Dorothy Shelburne; "An Example of Helpfulness," Anita Tindle; "Paderewski" by Wanda Lee Tindle.

It was announced that G. A. will sew for Buckner's Orphan home two meetings each month these being at alternate times.

Present yesterday afternoon were Wanda Lee Tindle, Anita Tindle, Irma Tunnell, Lena Fay Shelburne, Dorothy Shelburne, Vernelle Howell, and the sponsor, Mrs. Chas. Skinner.

Identify Camp Clothes. Young son or daughter will appreciate having camp clothes plainly identified with name tags or initials. Inexpensive woven name tags, together with a special adhesive cement are quick and easy to attach and can be purchased by the dozen.

## Mrs. Joe Dobson Entertains Slam Club and Guests

Mrs. Joe Dobson was hostess to the Slam club and a group of guests with two tables of bridge at her home at Atlantic Tank Farm Wednesday afternoon at 2 o'clock.

Pink and blue fallies in floral design were used in the games in which prize for high score went to Mrs. W. G. Attaway and high score for guest to Mrs. Margaret West. Prizes were wrapped in white and

blue cellophane ribbon. A salad course was served at the conclusion of play.

Club guests were: Mmes. J. B. Lacy, R. R. Richter, Margaret West, W. L. Nicol.

Members present were: Mmes. Attaway, R. L. Bailey, W. J. Stewart, and the hostess.

The club will meet next week with Mrs. Bailey hostess at the home of Mrs. Richter, 213 S. Big Spring.

Perhaps those extremists who predict that sometime we'll swallow our meals in capsules may be nearer right than they are given credit for being.

At the present rate of disappearance, cooking at home may become for future generations one of the last

of a few moments' notice.

Our ignorance has been enlightened. We have learned that nice white little potatoes, properly boiled, now come in cans ready to take their place on the dinner table at only a few moments' notice.

Perhaps those extremists who predict that sometime we'll swallow our meals in capsules may be nearer right than they are given credit for being.

At the present rate of disappearance, cooking at home may become for future generations one of the last

of a few moments' notice.

Our ignorance has been enlightened. We have learned that nice white little potatoes, properly boiled, now come in cans ready to take their place on the dinner table at only a few moments' notice.

Perhaps those extremists who predict that sometime we'll swallow our meals in capsules may be nearer right than they are given credit for being.

Our ignorance has been enlightened. We have learned that nice white little potatoes, properly boiled, now come in cans ready to take their place on the dinner table at only a few moments' notice.

SWEDISH SETTLERS reaching America 300 years ago paved way for 1938 visit of Sweden's Crown Prince Gustaf and Crown Princess Louise (above), expected as honor guests at tercentenary celebration's final banquet at the Waldorf, New York.

agreeable chore, there is a new product, which when dissolved in water and heated, removes tarnish quickly and effectively. Use any large enameled pan for the silver bath. A convenient tray with handles for holding the silver and removing it from the bath comes with the preparation.

Sanitary Brush. To keep a hairbrush clean between washings, brush the bristles with a cleansing tissue or clean soft cloth after about every ten strokes.

Stocking Beach Shoes. A very "different" beach shoe, fashioned somewhat like a short sock, is woven of strong yarn in many-colored stripes and has a flat, flexible sole of cork and rubber. It hugs the foot closely, yet is utterly comfortable and is not injured by water.

Emergency Potatoes. A new canned product for your emergency shelf—new white potatoes, small, consistent in shape and

size, full-flavored, cooked (boiled) ready to serve, packed in a light brine. Chill them for salads, brown them in butter or simply heat and serve with your favorite seasoning.

BROWN'S LOTION stops terrible itching of the groin from JOCK-STRAP ITCH with a few applications. MONEY BACK GUARANTEE. 50c and \$1.00 at Central Pharmacy. (Adv.)

# -- TODAY'S NEWS IN PICTURES --

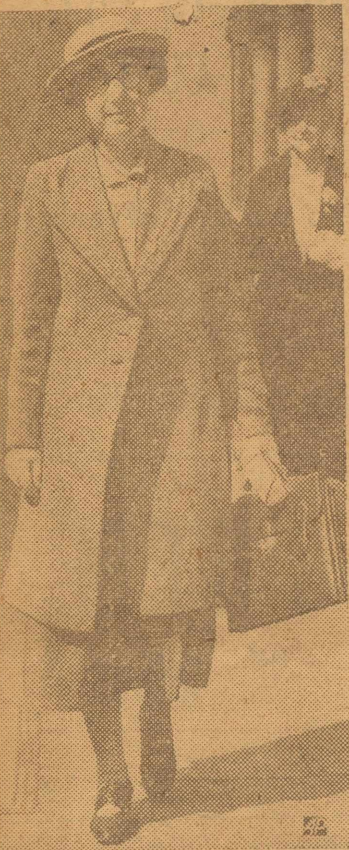

**CURIOSITY KILLED A CAT**, in the words of an old wheeze, and see what curiosity did for Hungarian beauty (data supplied by someone in front of her). She wanted a look at a newsreel camera while at Hamburg, Germany, festival.

**FROM LEFT TO RIGHT:** 125-pound tarpon which fought an hour, 16 minutes, before being gaffed in St. Petersburg, Fla. waters; Jay A. Gaines of Evanston, Ill., the victor; a mere 55-pound fish, also caught by the Evanston sportsman.

**NO ORDINARY BAIT WAS USED FOR CATCH LIKE THIS** off Weymouth, England, where a robot plane controlled by wireless was shot down by British naval gunners during King George's inspection of the home fleet. Seamen are fishing out the plane. The air craft was brought down by a new type aerial gun which fires 500 shots a minute into skies.

**SPINSTERS' HOPE** is pinned on Miss Florence White (above), who told London committee about hope of 4½ million English women past 55 for payment of spinsters' pensions.

**MAIDEN'S PRAYER** finds answer in "beautiful" Bob Taylor of the films, seen in New York's Versailles restaurant exchanging pointers on the manly art of fisticuffs with young Jimmy Boggiano. Taylor's dinner companion at the club was Jimmy Broderick, New York detective, who's reported to have been showing movie idol tricks about self-defense.

**POLITICAL PATH** of Sen. Frederick Van Nuys (above), Indiana Democrat, is apt to be thorny in campaign for re-election because of his opposition to federal court reform bill and his break with Indiana state Democratic organization.

**SLEIGHT OF HAND** view of E. J. Filby in action at Wimbledon tennis matches needs that shadow in foreground as proof that the tennis player really held a racket when the picture was made. The racket was tilted at such an angle and blended so closely with his arm that it's scarcely visible. Filby lost in the first day's play to H. W. "Bunny" Austin.

## BRITAIN VERSUS U. S.

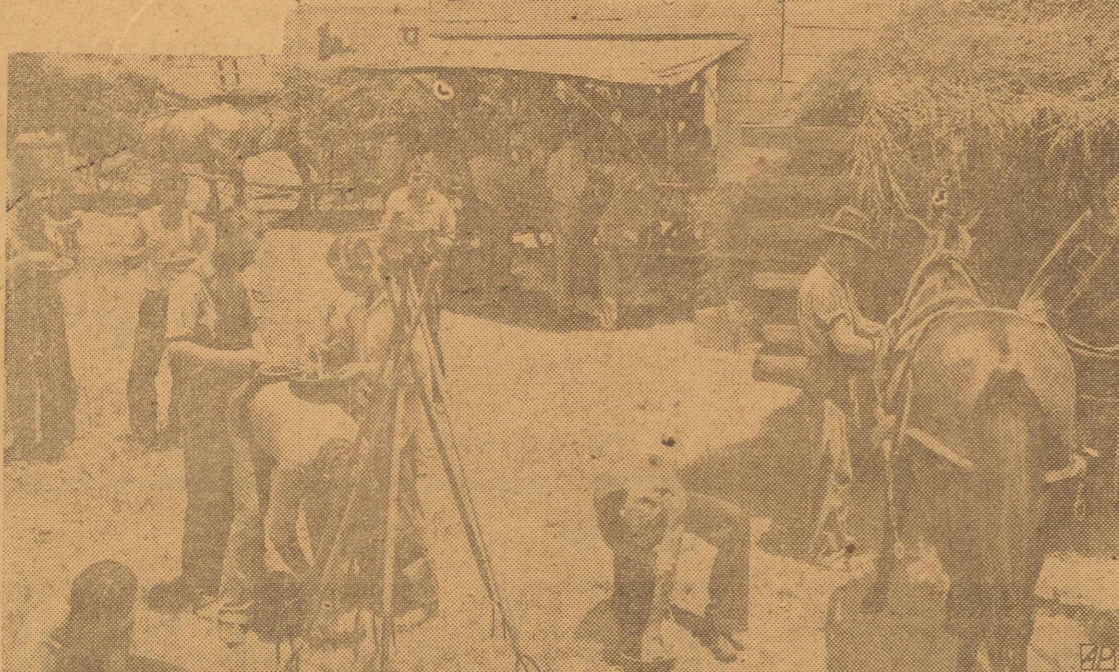

**POUND QUOTATION** was light on slim Georgina Hellen (left), chosen most beautiful employe of J. Lyons catering firm in England. American type beauty is shapely Kathleen Capps of Erie, Pa., wading surf at swank Atlantic Beach club.

**NAZIS** and foreign oil interests are blamed by Vicente Toledano (above), officer of federation of Mexican workers, for what he calls "slanders" about Mexico.

**WANTING TO GO** into their dance, little English youngsters pranced nervously in London where they did a lambs dance at a benefit for a hospital for children.

**FOOD FOR THE HARVEST ARMY** in the Texas wheat country is rationed out at the chuck wagons, and the lunch table may be most anything: the ground and even the broad back of a fellow worker (left of the forks). In harvesting the wheat, binders tie the stalks into bundles, and separators winnow out the grain and blow the straw into great piles.

**AMERICAN RICE FOR U. S. TABLES** is goal of rice farmers in Arkansas and other Southern states where new fields have been opened. This irrigated field of rice is near Goodwin, Ark., where—farmers say—2,500 gallons of water per minute will flow across this land for 90 days. Workers keep the fields clear of foreign matter, prepare for the fall rice harvest.

**IT'S A MAN'S WORK**—and woman's, too—during wheat-harvesting time near Dallas, Tex. These wheat-shockers know the knack of arranging bundled grain. Speed and skill count in the race to harvest nation's great "breadbasket."

Belmont Bible class will meet with Mrs. H. R. Braezeale, 304 W. Florida, Friday afternoon at 4.

Stitch and Chatter club will meet with Mrs. L. M. Hedges, 406 E. Tennessee, Friday afternoon.

**SATURDAY.**  
Story Hour will be held at the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open from 2:30 until 5 o'clock Saturday afternoon. The public is invited.

**Great Smokies Said Most Picturesque Park East of Rockies**

GATLINBURG, Tenn., July.—The wildest and most picturesque highland east of the Rockies is contained in the Great Smoky Mountains National Park, in Tennessee and North Carolina. Lost in the misty haze which gave the name of

"Great Smokies," these mysterious mountains contain gulfs no man is known to have penetrated. Years ago, when government agents attempted to round up Cherokee Indians and send them to Oklahoma, a considerable number escaped to the fastness of these mountains and could not be found. Their descendants now live on a reservation adjacent to the park.

The nation's most extensive forest of virgin red spruce and unspoiled hardwoods is in the park. Nowhere else in the world is there known to exist so great a variety of plant life. More than 1,500 varieties of plants bloom in the Spring, in this great wilderness area of the Appalachians. Here is the loftiest mountain mass east of the Black Hills of South Dakota, with sixteen peaks above 6,000 feet in altitude. Highest of these is Clingman's Dome, from where panoramas are to be had from an observation tower on the 6,642-foot summit.

The Great Smokies run the entire length of the park. The more than 600 miles of trout streams are bordered with rhododendrons and laurel. The mountain slopes are thick with flame azalea and wild honeysuckle. Very few facilities are available in the park, yet there are estimated to have been more than 700,000 visitors last year. Development is being withheld under Congressional requirement pending acquisition of additional privately owned lands. Approximately 410,000 acres were purchased for \$10,000,000 and donated to the government, after a campaign similar to one now being carried on in Texas to raise \$1,000,000 for establishment of the proposed Big Bend National Park.

There are two camp grounds, one in Tennessee and one in North Carolina. Tourist accommodations are available in towns bordering the park. Eventually the area will be developed with accommodations comparable to those of the great western National Parks. Over fifty miles of standard roads have been built, together with more than 500 miles of horse and foot trails.

There are more than fifty kinds of fur-bearing animals native to the park, including black bears, bobcats, red and gray foxes, and raccoons. Approximately 180 kinds of birds have been seen here.

**Statue Holds Up Film Production**

Time and again a motion picture company has been forced to "shoot around" a player taking an enforced vacation through illness or injury, but recently for the first time on record, a company suspended production because of injury to a statue.

During a comedy scene between Frank McHugh, the star, and Tom Kennedy for Warner Bros., "He Couldn't Say No," which plays today at the Ritz Theatre, an eight-foot statue of Diana Lewis was required to topple precariously on its pedestal.

Invisible wires were used to aid in the toppling and as a safety measure. Suddenly, while the cameras were turning, one of the wires snapped and the 150-pound statue crashed to the floor, shattering a table, lamp and other set props. Fortunately the actors were out of range.

Because the statue plays an important part in the story, production had to be suspended for the day, for the statue was broken beyond repair.

**Summer Enrollment At A. & M. Heavier**  
COLLEGE STATION, (P).—Summer time is not dull at Texas A. & M. College. From the close of the regular term early in June until Sept. 1, more than twice as many persons attend the college than the regular nine-month session. Approximately 13,000 come to the campus for the summer sessions, short

courses and conferences which last anywhere from one day to twelve weeks.

Heading the list for summer attendance is the annual Farmers Short Course, held in two sections and expected to attract about 7,500 persons. Regular summer sessions will have about 2,100 students; meeting for the society for the promotion of engineering education had 1,000; Fireman's short course, 650; statewide conferences, teachers of vocational agriculture, 500; county and rural superintendent's conference, 250; National farm loan associations conference, 200; Texas school administration conference, 200; semi-annual meeting state veterinary medical association, 200; national federation federal employees meeting, 100; soil and water conservation conference, 150; and annual coaching school, 150.

An excellent lubricant for squeaking doors and other parts of a car is a common wax crayon.

**Personals**

Mrs. Theron Ruple is ill at her home with a throat infection.

Mr. and Mrs. H. S. Tate and daughters have returned from a visit to Fort Worth and East Texas. They report surprisingly cool weather.

Mrs. Cecil Craft is ill at her home here.

Mr. and Mrs. Jake Sharp have returned to Dallas after a brief visit with her uncle, W. J. Sparks. Mr. Sparks also has as his guest Mrs. C. H. Marchman and Miss Virginia Parks of Dallas.

**Salmon Poaching Curbed By Spotters in Planes**

ASTORIA, Ore. (U.P.)—Columbia river poachers and bootleg netters have been kept on the move by a

**Albino Robin Becomes Mascot of Firemen**

MINNEAPOLIS (U.P.)—The Minnesota conservation department wants an albino robin, but only one way—stuffed.

That's the answer they gave the Minneapolis fire department when the fire laddies offered a baby albino robin, with fiery red eyes.

The bird, found near Minneapolis three weeks ago, has been fed for two weeks by a city-bred robin with four babes, and now the fire department is furnishing its daily fare.

The firemen say it will be their mascot until they can find a new home for it.

new stratagem adopted by the Washington state department of fisheries — policing from the sky.

Inspectors in airplanes can spot illegal fishing operations a long way off, through powerful glasses. Pre-season fishing was held at

minimum this year, and fresh salmon was as hard to get before the season opened as good whisky was during prohibition.

Flying has enabled inspectors to make arrests before the poacher could escape, or dispose of the evidence. In other years, the operator could hear the police boat in sufficient time to escape detection.

**Boy, 13, Will Teach Bible During Summer**

YORK, Pa. (U.P.)—Edward McCoy, 13-year-old York schoolboy, has found a unique way to spend his summer vacation.

He will instruct neighborhood children in Bible history and give daily Sunday school lessons in his father's garage.

Last summer, 35 boys and girls attended Edward's Sunday school classes. A student of the eighth grade, Edward said he has not definitely made up his mind whether to pur-

sue the ministry or music when he graduates. He studies the piano.

**WE BELIEVE IN THE PRINCIPLES OF DEMOCRATIC GOVERNMENT!**

We believe that every taxpayer should have the right to aspire to public office, an office which he, as a taxpayer, helps to maintain.

We believe that 16 YEARS IN PUBLIC OFFICE is long enough for any one man to enjoy the gift of the people and that in a Democracy public offices should be passed around to deserving, capable and worthy taxpayers and citizens of the community.

It is not the spirit of TRUE DEMOCRACY to set up royal oligarchies and perpetuate their regime for decade upon decade. This is not the American interpretation of liberty and equal rights for all men.

We support J. M. Speed for Sheriff, Tax Assessor and Collector because we believe in these principles of Democracy, because we believe the incumbent has HAD IT LONG ENOUGH and should make way for other deserving citizens who are taxpayers and have contributed to the upbuilding of our community. We support him because he is honest and reliable and because he has fearlessly declared that he will give every deserving person a SQUARE DEAL. Malefactors will find Midland County unhealthy under his administration.

We believe an unreasonable length of term in office is not consistent with those principles by which the people govern and are governed; therefore, we solicit your vote and influence for J. M. Speed for Sheriff, Tax Assessor and Collector.

REMEMBER: J. M. SPEED will be elected your next Sheriff, Tax Assessor and Collector.

J. M. Speed for Sheriff Club

### Hand Rattles Get Role In London Air Defense

LONDON, (U.P.)—Sirens and hand rattles will be used to give warning of air raids in Great Britain, Geoffrey Lloyd, Parliamentary under-secretary for home affairs, disclosed in an address to the Ladies Carlton Club of London.

"The signal for an air raid action warning will be an intermittent siren blast or a continuous blast, alternately rising and falling in pitch," he said.

"Gas warning which are much more local in character will be given by hand rattles sounded by air raid wardens.

"The air raid wardens will be equipped with armlets, steel helmets, civilian duty respirators, anti-gas eyeshields, and anti-gas curtains to protect the eyes and the back of the neck against gas spray."

When it is necessary to stop, you can save your brakes a great deal by having the engine help slow the car down. In other words, put your brakes on while the clutch is in.

### Tone-ing Up

Hollywood hears rumors of a Joan Crawford-Franchot. Tone marital rift, but there is certainly no trace of it in the above photo. Here are the Tones—apparently in perfect harmony, stylishly dressed, and looking up at life—as they attended the races at a Hollywood track.

### Canoes of Bronze Age Unearthed in England

NOTTINGHAM, Eng. (U.P.)—Two canoes, hewn out of an oak tree by Bronze Age men 3,000 years ago, have been found intact in the bed of the River Trent. They are 20 feet long and 2 feet wide. C. W. Phillips, of Cambridge Prehistoric society, who examined the canoes for the British museum, said they were "in an excellent state."

### All-Star Softball Club Meets Odessa Team Friday Night

A picked team of Midland softball all-stars will play the strong Farmer Trunkers of Odessa on the South Main street diamond tomorrow night at 8:30.

The Trunkers are rated the top team in Odessa and have lost only one game this year. They are reported to have two of the outstanding pitchers in this area and will be heavy favorites to cop the game here.

Lack of practice is likely to prove one of the greatest handicaps to the local squad, however, some of the team members have been playing long enough this season to get into fairly good shape.

The Midland team will be managed by Joe Pierce, leader of the Baptist church club. He announced this morning the following men would participate in the game:

Infielders — W. Whitmire, H. Whitmire, J. Hart, Pierce, Herbert Rehders.

Outfielders — John Crump, T. Bryant, Ray Beville, "Donkey" Rob-

erts, H. Chatham, Frank Earl. Catchers — Archie Estes, Joe Roberson.

### Midland Team Will Enter Tourney for Semi-Pros Friday

A group of Midland youngsters has teamed together to form a baseball club to represent Midland in the Colorado semi-pro tournament opening tomorrow.

The Midland team will meet the strong Forsan club in the initial game tomorrow afternoon at four o'clock. Despite lack of experience by most of the boys, they are confident they will be able to defeat some of the supposedly stronger teams of the area.

Two defeats are necessary before elimination in the tournament, and the winner will be sent to the state tournament that will be held in Waco July 20.

City officials of Colorado have declared Friday "Baseball Day" and all stores of the city will close during the first game—to be played by Snyder and Big Spring teams. The Colorado school band will play downtown before the game and later at the park. Congressman George Mahon has promised to pitch the first ball and Mayor J. A. Sadler is to be the catcher.

Teams from Big Spring, Midland, Snyder, Muleshoe, Amherst, Haskell, Colorado, and other towns have entered.

The Midland team will be composed of catcher Ed Dorsey, pitchers "Lil" Eidle, Russel Holster, G. E. McClintic, Bobby Walker, infielders Clinton Buffington, W. E.

Lynch, J. M. White, Terrell Miles; outfielders Bill Estes and John Rettig.

### Late News

WASHINGTON, July 7, (AP).—Senator Borah (R-Idaho) senate dean, was in bed today suffering from a breakdown caused by overwork.

WASHINGTON, July 7, (AP).—Secretary of Interior Ickes today denied any intention of withholding PWA money in San Francisco until it has agreed to distribute power generated by the Hetch Hetchy project.

BARCELONA, July 7, (AP).—As stiffened government resistance blocked insurgent Valencian efforts today in the Teruel sector, the government indicated it would demand specific assurance fascist aid had ended before accepting the London plan of withdrawing foreign volunteers.

DURANT, Okla. July 7, (AP).—Four armed men, at least two believed to be Kansas reformatory fugitives, fled toward Texas in an automobile taken at gunpoint from a Durant merchant last night.

### Mexico Contracts To Sell Surplus Oil

MEXICO CITY, July 7, (AP).—The Mexican government has contracted to sell \$10,000,000 worth of oil to Davis and Company of New York in a deal described last night as a broad step toward solution of the nation's problem of disposing of her vast petroleum stores.

About 50 per cent of the oil will go to Germany and the remainder to general European markets, principally those of Scandinavian countries, reliable official and unofficial sources disclosed.

The deal was reported by these sources to have been consummated yesterday. It was approved by President Lazaro Cardenas some weeks ago.

The oil will be obtained from wells expropriated on March 18 from 17 British and American companies and from wells owned by the government prior to taking over the foreign-owned companies.

A possible hitch in the deal was seen in a statement by ousted officials of the expropriated companies that they would start attachment proceedings against any tanker carrying oil from the expropriated wells.

It was pointed out they could file such claims against the carriers, claiming the cargoes as their property when they show up in foreign ports.

On the other hand, some sources said the oil might be kept in the Mexican government's name until it is discharged, thus averting litigation since governments can not be sued without their consent.

Unless legal complications develop, a tremendous increase in imports from Germany and a possible drop in like shipments from the United States was seen as a possible result. The United States for years has counted Mexico one of its best customers.
