

Wallace Discovers 'Honor' at Ex-Home

"A prophet is not without honor save in his own country," so say the scriptures.

And Captain W. E. Wallace, Midland stock farmer, lease and royalty dealer, former rancher, realtor and premier auctioneer will bear out the statement.

In the stress of busy times and due to the fact that much water has poured under the bridges of Alabama, he probably had just about forgotten himself, that he was the organizer and captain of Company E, Alabama National Guard, at the outbreak of the Spanish-American war.

But Alabama hadn't forgotten. To get the story straight, let's begin with the June 30 issue of the Decatur Daily, under the headline "1st Commander of Co. E Files to Dedication Here."

"Captain William E. Wallace, organizer and first commander of Company E, who now resides in Midland, Texas, received his invitation to the dedication of Fort Stephen Decatur late Tuesday after-

"At present both sons of Captain Wallace are in Decatur, one residing here and the other visiting his brother. Allen Wallace is a member of Legion Post 15 and his brother, George F. Wallace, who is visiting him, is a former member of that organization."

Crowds Greet Wallace.

The following day, that same Decatur newspaper picked up the story where it left off and, under the headline "Capt. Wallace Is Given Royal Welcome," said:

"One of the largest crowds to gather at union station in years gave Captain William E. Wallace, organizer and first commander of Company E, a royal welcome when he alighted from a train Thursday afternoon. Now a resident of Midland Texas, Captain Wallace came back for the dedication tonight of Ft. Stephen Decatur, handsome new armory."

"Company E's first captain left here 33 years ago to make his home in Texas and yesterday the calen-

noon. Wednesday morning he was aboard a transport plane on his way to Decatur for the dedication of his company's new armory. He is expected to arrive here by train from Memphis sometime Thursday afternoon.

"Thirty-three years ago Mr. Wallace left Decatur to go to Midland, to enter the oil business. It has been almost eighteen years since he last visited this city.

Goes By Plane.
"Tuesday afternoon a member of Legion Post 15 was talking with Allen Wallace, son of Captain Wallace and now employed by the State Highway Department, about the approaching dedication. It occurred to them that Captain Wallace, as first commander of Company E, might appreciate an invitation to the opening ceremonies. Though they doubted that he might wish to travel the 1300 miles between Midland and Decatur just to attend the dedication, they sent him a wire asking him to be present.

"That wire left Decatur Tuesday afternoon and Wednesday morning those gentlemen received an answer from Captain Wallace, stating that he was boarding a transport plane within the next hour and would land at Memphis Wednesday night."

"Captain Wallace lived in Decatur when the Spanish-American war was started, and about that time, 1898, he organized Company E of the 4th Alabama National Guard. He was appointed first commander of that group.

dar's pages were turned back in one respect. The official reception committee, composed of J. A. Nelson, W. M. Mosley, Sr., Thomas E. Pridemore, W. E. Crawford, old friends of the captain, met him at the station in a 19th century carriage drawn by two white horses. The vehicle is more than 50 years old and attracted much attention. Captain Wallace was ushered into the carriage and was driven through Bank street, then to the Spotswood apartment at LaFayette and Oak streets where another large crowd awaited and greeted him. Many photographers took pictures at the station and at other points.

"While here the captain will be the guest of his brother B. P. Wallace, at the Spotswood and of his sons, Allen Wallace and the McNeill apartments and of George Wallace who is here on a visit to his brother.

"Billy Wallace, another son, and his wife and daughter are expected to arrive today from Tyler, Texas, and if they do the three generations of the W. E. Wallace family and all members of the B. P. Wallace family will be together for the first time.

"Captain Wallace went from Midland to Memphis by plane and then boarded a train for Decatur."

Another story in the July 1 edition of the Decatur Daily described minutely the plans for opening and dedicating the new armory, in which Captain Wallace again was commemorated for organizing Company E. (Wallace) Page 8

Tide Water Stakes W. C. In East Lea

Humble, Shell Are Supporting Test On Seismic High

By FRANK GARDNER.

Northeastern Lea county, New Mexico captured oil men's interest at the week-end as Tide Water Associated Oil Company staked location for an important wildcat on a geophysical "high" three miles east of the town of Tatum.

To be known as No. 1 State, the test will be drilled in the center of the northeast of the northwest of section 23-128-36E. Humble Oil & Refining Company, owner of many State leases in the area, is reported to have contributed \$10,000 toward drilling, while Shell Petroleum Corporation has donated 90 acres. It was also reported that Ohio Oil Company is supporting the test, but extent of its contribution was not known.

Presence of a structure east of Tatum has long been indicated by findings of seismograph and gravimeter. A major company has recently been employing three parties in detail work over the area.

Farther northeast, Rowan & Nichols No. 1 State, center of the northeast of the northwest of section 22-108-37E, had drilled to 4,300 feet in lime. Brown lime was topped at 4,239, subsea datum of 291.

Southeast of Lovington in Lea, Conoco No. 1-K-29 State, in the center of the northwest of the southwest of section 20-168-37E, is drilling anhydrite below 4,388 feet. **Water in Martin Test.**

W. D. Anderson No. 1 Vance, Martin county wildcat northeast of Stanton, is drilling at 3,703 feet in sand, with 2,100 feet of salt water in the hole encountered at the top of the sand at 5,640. Operator plans to drill ahead until out of water sand, then will run 7-inch casing to shut off water. Some called top of brown lime in the test at 3,610 feet.

R. H. Henderson No. 1 University, north outpost to the Choate & Hog-wood pool of northwestern Crockett, was preparing to deepen from 1,551 feet after 180-quart shot from 1,460 to 1,540 failed to develop commercial production.

Humble is building road to its No. 20 J. B. Tubb, new Crane location 440 feet out of the southwest corner of section 18, block 32, public school land. It is a north offset to the same company's No. 1-B Tubb, nearly a mile southeast of the Tubb deep Permian pool, which was completed recently as a large gasser although it had indicated fairly sizeable oil production before setting packer. It is understood that gas from No. 1-B Tubb will be used for fuel in drilling No. 20 Tubb and subsequent wells on the lease.

A test north of the Church & Fields pool of eastern Crane has been started by Gulf on its No. 2 State-Lawseter, 330 feet out of the southwest corner of section 27, block 30, University survey. Farther northwest, Magnolia No. 1-15 University had drilled to 2,205 feet in anhydrite.

Further linking the Waddell and Jordan pools in northern Crane, Gulf No. 13 Henderson, which topped main pay at 3,512, had drilled to 3,529 in lime without increase, flowing 223 barrels of oil in five hours while drilling. On a four-hour test with tools pulled, it flowed 180 barrels through casing.

In western Crane's Ordovician pool, Gulf No. 3 Waddell swabbed 75 barrels of oil and 228 barrels of See (Oil News) Page 8

President in Texas--

Gives Four Addresses in Oklahoma

President Welcomed to Ft. Worth

FORT WORTH, July 9 (AP). — Texas' political faithful flocked to Fort Worth today to greet the nation's democratic chief, President Franklin D. Roosevelt, when he stops here tonight to relax from a cross-country trip to rally support for the New Deal.

All advance notices were that Mr. Roosevelt's Texas stay was to be "non-political," if such was possible for the party leader during a campaign year. Elliott Roosevelt, riding into Texas on his father's train from Oklahoma, said that "no political audiences will be held" when the president visits the son's home at Benbrook over the week-end.

Democratic leaders and candidates nevertheless arranged to greet Mr. Roosevelt, and some to accompany him from Ft. Worth to Amarillo Monday. Governor James V. Allred, retiring from office this year, headed the group that will meet the presidential special.

New Deal issues are not of major importance in democratic races for congress and state offices this summer, but several candidates' names were linked with the visit. One was Maury Maverick, 20th district congressman from San Antonio who is having a bitter fight for reelection. Paul Kilday, Maverick's opponent, charged that Maverick was trying to "crash" the presidential special for its journey across North Texas.

Karl Crowley of Fort Worth, former solicitor general for the post-office, was expected to discuss with Mr. Roosevelt his race for governor.

Several other congressmen, a few hard-pressed in their campaigns for reelection, were expected to seek the presidential blessing. Among those absent will be Vice President John N. Garner, frequently mentioned as an opponent of New Deal policies. Garner's office at Yvande reported this the vice-president would spend the week-end at home—possibly fishing.

Mexico and Peru Offer Refugees of Europe New Home

EVIAN-LES-BAINS, France, July 9 (AP). — Two Latin American nations offered to open their doors to German and Austrian refugees after other countries told the Evian conference they could not permit mass immigration.

Mexico promised "asylum to foreigners afraid for their lives," promising them opportunities for work.

The Dominican republic of Peru followed suit, saying it would welcome farmers and agricultural workers but "would place strict restrictions on lawyers, doctors and other professional emigrants."

Light Sales Show Cattle Situation On Solid Footing

Cattle sales recently have consisted largely of small lots, the ranchmen being slow to seek a market because of the green grass which has followed general rains report numerous inquiries for various classes of cattle.

Roy Hedrick of Sweetwater has been an active buyer purchasing 50 head of better yearlings from Donald Hutt, which he then resold to J. C. Miles to run on sudan pasture south of Midland. Hedrick bought from Jay Floyd 50 head of cows and calves, 32 dry cows and 20 heifer yearlings, some to go to Sweetwater packing plants and some to sudan pasture in that section. Hedrick bought from S. O. Golladay 30 head of mixed calves which had been creep-fed through the winter. He bought from Chas. Blacklock a car load of steer and heifer yearlings.

Jay Floyd sold to W. M. Pyle a car load of yearling and two-year old steers.

Major McCoy Here For Overnight Stay

Major McCoy, commanding officer of the Twenty-second squadron recently stationed at Midland arrived Saturday in an O-43 for an overnight stay, planning to depart today.

Capt. Lawrence, in a B-10, arrived from Barksdale Field, La., and went on to El Paso.

Lieut. Reister, in a BT-9, came from Hensley Field at Dallas Saturday and returned.

It's a Young Man's World

Midland's two service clubs are in the hands of the younger generation for the fiscal year July 1, 1938, to July 1, 1939. Installed last week, Bill Collins, left, is the new Lions club president and W. Clinton Lackey, right, is the new Rotary club president. Collins is manager of the Midland chamber of commerce and served last year as vice-president of the Lions. Lackey, who is district manager of the West Texas Gas Co., has served on the board of directors and on important standing committees of the Rotary club. Both were elected to their new posts without opposition.

Paraguay, Bolivia Adopt Pact Ending Long-Time Struggle

BUENOS AIRES, July 9 (AP). — Foreign Ministers of Paraguay and Bolivia adopted and sealed with a kiss today a preliminary accord to end the century-old territorial fight over the almost worthless Gran-Chaco border area.

The agreement must be submitted to the two governments for final approval. It is to determine the Bolivia-Paraguay boundary through arbitration by presidents of six American countries.

Oklahoma Man Dies As Feud Is Renewed

ATOKA, Okla., July 9 (AP). — M. L. Moore, 71, farmer, was shot to death today in what undersheriff Lester Wright said was resumption of a 16-year-old hill country feud.

Ed Killias, 26, a son of a man Moore was charged with shooting to death June 26, surrendered.

Senate Committee To Consider Ouster Of FHA Director

WASHINGTON, July 9 (AP). — Chairman Sheppard said today the senate campaign expenditures committee would consider any complaint filed in connection with the dismissal of Henry E. Webb, as Maryland Federal Housing Administrator.

Senator Tydings, Maryland, candidate for renomination, said Webb, Tydings appointee, was forced out of the job as a result of "political pressure" being placed on federal job holders supporting him.

NEW TECHNICIAN.

Miss Jean Gunther of Lansing, Mich., a recent graduate from the Franklin School of Science and Arts, a school for technicians at Philadelphia, Penn., is now connected with the Midland Clinic-Hospital. She replaces Miss Ernestine Bauer who returned to her home in New York because of ill health.

Expected to Give Aid to Sen. Thomas

Chief Executive Is Scheduled to Talk in Amarillo Mon.

ABOARD PRESIDENT ROOSEVELT'S TRAIN EN ROUTE OKLAHOMA CITY, July 9 (AP). — President Roosevelt, anxious to know his friends in the senate, advanced today toward Oklahoma's political battleground.

The day's engagements took him into the democratic senatorial primary fight involving Senator Elmer Thomas, Governor E. W. Marland and Representative Gomer Smith. The president was expected to give the edge in his Oklahoma appearances to Thomas, a loyal administration supporter.

During stumping across Ohio and Kentucky yesterday, Mr. Roosevelt gave a verbal push to the candidates for renomination of Senators Robert J. Bulkley of Ohio and Alben W. Barkley of Kentucky. The chief executive was especially emphatic

FDR Favorite

Elmer Thomas

Senator Elmer Thomas, facing a bitter fight for re-election as United States Senator in Oklahoma, was given a nod of confidence Saturday when President Roosevelt visited in his state and delivered three addresses.

Oil Men Take up Raising of Milk Fund for Triplets

Publicity given the need of a milk fund for the triplet babies of Julio Suvio and wife met with ready response Saturday when W. E. Walsh and W. H. Sloan, oil operators, became interested and were making personal solicitations for aid among local citizens.

The triplets, born in poverty a few weeks ago, were given financial assistance to provide necessary milk at the outset but later the milk bill increased and no funds came in. Request was made by Mrs. E. A. Culbertson, who had visited the family, for aid from the public. She discovered that there is now an unpaid bill of \$12 for milk the triplets have used and there is need for continuous provision.

Messrs. Walsh and Sloan asked that any citizens desiring to aid the babies contact them Monday or leave contributions at their office, 202 Thomas Building. The oil men declared that it would be a small thing for Midland citizens to make provision, in a day's time, of a fund to keep the babies supplied with milk for months ahead.

Christian Young People to Attend Youths' Conference

Rev. John E. Pickering, pastor of the First Christian church will leave Monday morning with a large delegation of the young people of the church to attend the Youth's Conference of Christian churches of West Texas.

The conference, lasting one week, will be held on Scenic Mountain at Big Springs.

Dr. J. V. Smith of Indianapolis, Indiana, will be the dean of the school.

Rev. C. J. Johnson of Odessa will be dean of men and Mrs. Wallace Jones of Ballinger will be dean of women.

Courses will be offered covering all phases of church life in which young people are interested.

Mr. Pickering will teach a course which will be compulsory to all who attend the conference on "The Origin and Inspiration of the Holy Bible."

Local delegates will gather at the church at nine o'clock Monday in order to leave in time for the first conference meal at noon.

Brother of Midland Men Dies Friday

W. D. Anderson and Richard Anderson left Saturday for Los Angeles, Calif., following news of the death of their brother, Edward, in that city Friday. Death was the result of jaundice and complications relatives have been informed. The funeral will be held Monday.

Howard Hughes Set For Flight Today

NEW YORK, July 9 (AP). — Floyd Bennett airport officials today said it was "extremely unlikely" Howard Hughes, millionaire aviator, would take off before tomorrow on his projected New York-Paris non-stop flight.

Gaines counties also has been the scene of extensive tank building.

Agriculture Heads Turn Attention to Corn, Wheat Belts

WASHINGTON, July 9 (AP). — Administration farm leaders, cheered by a 22 per cent reduction in cotton planting, turned their attention today to the midwestern corn and wheat belts.

The agriculture department has asked corn growers to reduce operations in view of prospects for a larger than normal surplus. It will learn Monday from the federal crop reporting board forecast whether they are cooperating as fully as cotton farmers.

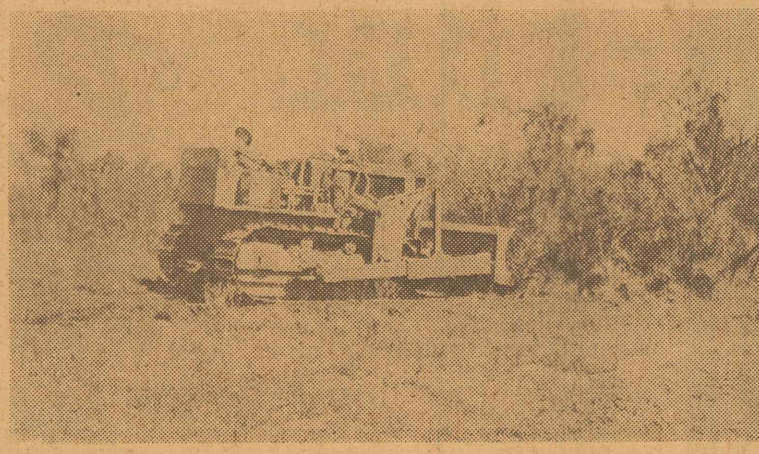

Private authorities have forecast corn production of about 2,500,000,000 bushels. Officials had hoped to keep this years corn production below 2,450,000,000 bushels to avoid marketing quotas.

Under the quota system, requiring approval by two-thirds of the growers, farmers would share a part of their crop under seal or pay a penalty tax.

Monday's report also will give the department its most accurate estimate to date on the size of this year's wheat crop. Last month's estimate forecast the largest crop on record — 1,045,000,000 bushels, or about 495,000,000 bushels more than normally is required for domestic and export needs.

If the report indicates a wheat crop as large as 950,000,000 bushels, the department will ask wheat growers to plant no more than 55,000,000 acres next year, compared with 79,500,000 seeded for the current crop.

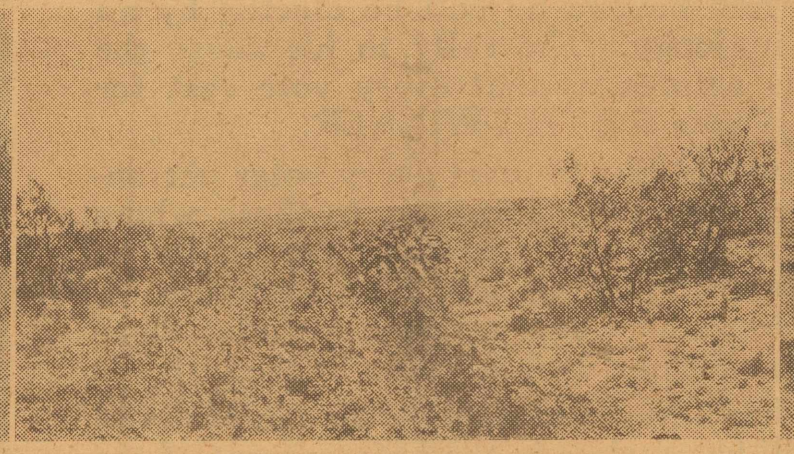

Soil Conservation Projects Active in County

Midland county ranchmen and farmers are well ahead on taking advantage of the government's soil conservation program. The first county to enter the West Texas chamber of commerce \$1,000 prize contest, Midland is expected to rank well in the percentage of participation, which gives small or thinly settled counties an even break with the more populous ones.

Farmers already have been practically one hundred per cent in availing themselves of the federal aid in terracing, farming on the contour, planting soil conserving crops and in strip cropping. Farm terracing, since the beginning of the soil conservation work, has been carried on in Midland county at the rate of fifteen per cent of the cultivated land.

And now ranchmen are taking to the range program equally enthusiastic. New equipment has been

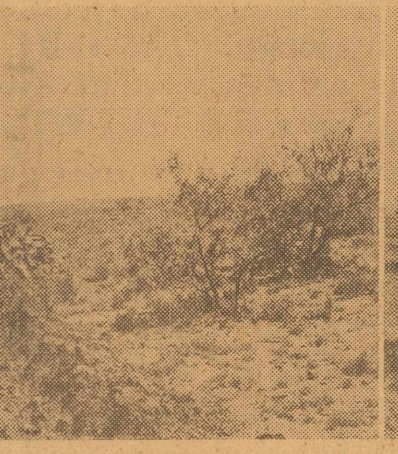

steers run on contoured pastures, at one experiment station, paid approximately \$14 per acre.

The contour listing, now under way on ranches in the southeast part of the county, requires considerable engineering. Directed by Agent Debnam, an experienced surveyor and a crew averaging six men are engaged in handling the running of lines prior to the listing itself. About 10,000 stakes per section are used in laying out the contours.

The county's new equipment includes a large Caterpillar tractor on the front of which is mounted an angle dozer for mesquite eradication and for cutting down dirt in laying out fire guards; also a Killifer lister which plows the furrows for the contours. The tractor, also may be used for road work and general tractor use.

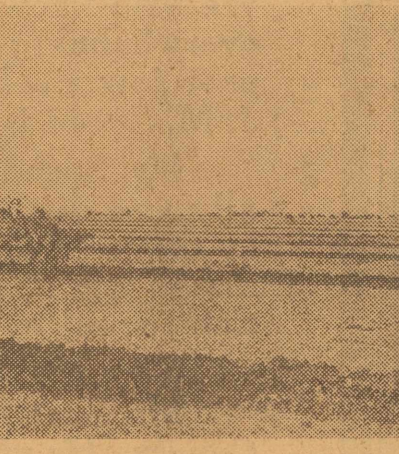

Mesquite eradication work and

pasture listing has been completed at the Floyd ranch in eastern Midland county, also on the Hutchinson ranch to the south, with the crew now located on a 3,000 acre project at the D. L. Hutt ranch. Some of the work has been completed on the Arthur Judkins ranch.

In the picture shown above, at left, the tractor, with angle dozer, is shown eradicating dense mesquite brush at the ranch of Mrs. W. A. Hutchinson. Many ranchmen are clearing the brush from watering places, clearing out for fire guards or roads and generally reducing the number of bushes to allow better grass growth. The dozer catches the bush at the level of the ground, literally uprooting it.

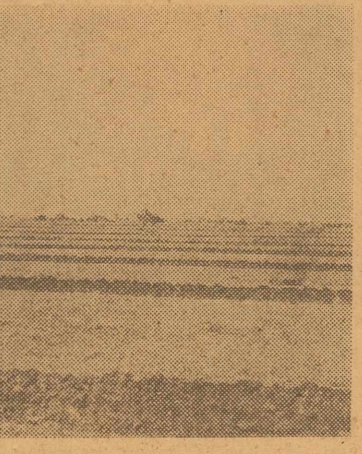

The middle picture shows two of the furrows made by the lister. These were made on the Arthur Judkins ranch in southeast Midland. Note the depth of the fur-

rows, calculated to hold water to prevent it from running down the gentle slopes, into the draws and entirely off of the range before it can aid in grass development. Stacked by the side of the furrow is a pile of prickly pears, for which the soil conservation program also provides payment. Midland county has only a small infestation of prickly pears and only a few ranchmen will adopt this project.

The picture at the right shows a series of contour ridges, or furrows, which will prevent waste of water when rains fall at the Teague Hutchinson ranch. Curves of the ridges do not show up in this picture, but present a model of engineering when the entire project may be seen at once.

Several ranchmen living at Midland, whose ranches lie in Ector, Martin, Andrews and Ector counties, also are making strides in soil

conservation work. One of the most notable tank building projects under way at present is on the Mabee and Pyle NA ranch, twenty miles north of Midland in Martin county, where a dam 350 feet long, 25 feet high and 75 feet wide at the bottom, reinforced with concrete, and to have a spillway 125 feet long and five feet deep, is being built by Jack Mayfield of Midland, water, running to the place from three draws, is expected to back up for a mile after the project is completed and rain water is caught. The new lake will lie near the old "Anglin's" lake and east of Baird lake of the C ranch, but will not detract from the latter's watershed.

Using team and fresnos, "Big Boy" Whatley has been engaged for several weeks building surface tanks on the 260 section O Ranch, in Martin, Andrews and Ector counties. The Bob Hill ranch in Andrews and

Got to Swim When in Mid-Stream

A few weeks ago, baseball fans, along with The Reporter-Telegram, were doing a lot of promoting to get a Midland baseball club in the West Texas-New Mexico Class D league.

And now the mid-season has rolled around, finding the Midland club near the top of the league but the attendance averaging only 257 spectators at the home games.

Personalities, misunderstandings, knocks, kicks and cuffs, magnified as is always the case, should be disregarded entirely.

Not many more than a dozen home games remain to be played. If you haven't been taking baseball as part of your summer pleasure, begin with the home games this week.

Mr. and Mrs. O. L. McNew Complimented At Bridge Party, Miscellaneous Shower

Honoring Mr. and Mrs. O. L. McNew who were recently married, Mr. and Mrs. J. R. Day entertained with a bridge party and shower at their home, 1605 W. College, Friday evening.

Cut flowers were used in the party rooms where three tables of bridge and various games occupied the early evening hours.

The play period was followed by a contest for married couples, under direction of Dave Pennel and Dimple DuBois who served as judges. Mr. and Mrs. McNew were declared winners of the contest and were presented with a miscellaneous shower of gifts.

A refreshment plate in pink and white was served.

Present were: The honorees, Mmes. and Messrs. W. D. Anderson, O. R.

Chapman, John M. Hills, Neal Bingham, Ray Young Mrs. DuBois, Dave Pennel and the host and hostess.

Sending gifts but unable to attend were Mr. and Mrs. Carl Barnhart, Mr. and Mrs. Hopper Deaux, Miss Bernice Raney.

Mr. and Mrs. McNew left Saturday on their wedding trip planning to spend two weeks on a tour of places of interest in Colorado. While away they will visit his parents, Mr. and Mrs. J. A. McNew of Antlers, Colo.

The couple was married at Odesa, June 25.

Mr. McNew is an oil scout for the Amerada Petroleum Corporation here. At the time of her marriage, Mrs. McNew was employed with the Stanolind company.

Take a Chintz And Be Chic

Club Members See Demonstration on Hemstitching

Three members of the Valley View club presented a demonstration on Italian hemstitching at the meeting of the club with Mrs. B. L. Mason recently. The demonstrators were Mmes. J. D. Bartlett, Bennie Bizzell, Earl Pain.

At the social hour games were played under direction of Mrs. Bartlett, after which Mrs. Herman Crawford and Mrs. Ernest Wilson were honored with a stork shower. Refreshments were served to: Mmes. R. C. Vest, Floyd Countiss, Jr., A. C. Francis, H. M. Carpenter, Floyd Countiss, Sr., Susie G. Noble, Bill Countiss, Herman Crawford, L. R. Smith, Mary Thompson, Phelan Porter, all visitors; Mrs. P. A. Brooks, new member, and Mmes. W. S. Hudson, Presston Vest, Bennie Bizzell, J. D. Bartlett, Earl Pain, M. E. Blanton, Lois Lewis, Ernest Wilson, and the hostess, club members.

Mrs. Nolan Teaches Belmont Bible Class Friday

In the absence of the teacher, Mrs. W. L. Fickett, Mrs. C. E. Nolan taught the lesson at the meeting of the Belmont Bible class with Mrs. Horace Braezeal, 304 W. Florida, Friday afternoon at 4 o'clock.

The fourteenth chapter of Joshua formed the scriptural text for the lesson study.

Refreshments were served at the close of the study hour to: Mmes. A. B. Stuckney, W. J. Stewart, W. G. Ataway, D. E. Holster, C. E. Strawn, Harvey Kiser, C. E. Nolan, and the hostess.

The class will meet Friday of this week with Mrs. Holster, 206 South A street at 4 o'clock. The lesson will be taken from the fourth and fifth chapters of Judges.

FLAPPER FANNY By Sylvia

"It's a special delivery from Chuck at camp! But he only had eleven cents, so he sent a postcard."

Feminine Fancies

This home radio set that we've been reading about is the cleverest thing, for the busy mother, that we've heard of in a dozen blue moons.

The contraption is a kind of two-unit, broadcasting and receiving set. One is plugged in on the electric outlet near the baby's play pen or bed and the speaker is plugged in in the room where the mother is working. She can hear every sound the baby makes through the broadcast.

Whoever thought up that variation of the radio had an understanding of the difficulties under which the average mother with a small child conducts her housekeeping. We vote that she should receive the crown of laurel leaves (indestructible) or whatever is the fitting reward of one who has aided humanity.

Chiffon squares for wear as scarfs with summer costumes now have matching pocket kerchiefs to

heighten the decorative note.

And by the way, the chiffon handkerchiefs are tops in fashion favor for keeping one's hair in order in the evening. Some of these are plain and some are jewelled, according to whether madly likes glitter or doesn't. Or for the ultra-frilly type, they are trimmed with lace.

They come in an array of luscious pastels and deeper shades to complement one's evening gown.

If you just must freshen up your summer sports clothes or street costume, get one of the 'sash and halo' sets. These consist of an adjustable halo for the head and a generous 54-inch sash to match. And come in polka-dot design.

The novelty gadgets for adding that finishing touch to sports or street costumes grow crazier and crazier in design. The puppy figures so popular for months now elect to wear bright-colored hats perched on their heads. Circus figures are in their heyday. And collections such as a pair of wee shoes and correspondingly tiny hat are stepping out in style.

Wonder if women will ever again be content to confine dress trimmings to such lady-like things as lace, ruffles, braid, and flowers? It would be rather monotonous after

Methodists Have Cloverdale Picnic Friday Evening

Junior, senior, and intermediate departments of the Methodist Sunday school were entertained with a picnic at Cloverdale Friday evening. The group gathered at the church annex and motored to the park where games were played and a picnic supper was served.

A special feature of the evening was the presentation of a wedding gift to Mr. and Mrs. Alvon Patterson from the officers of the Sunday school. Rev. W. C. Hinds, pastor, made the presentation.

Mrs. E. V. Guffey was in general charge of arrangements.

About 100 persons were present.

Rummaging Is Profitable.

EL PASO, Tex. (UP).—An insurance policy made out in 1888 in Mexico was discovered by Mrs. Aurora Cisneros when she rummaged through an old trunk. The policy was purchased 50 years ago by Mrs. Cisneros's 93-year-old father from the Life Assurance society.

Transparent Cottage Curtains.

Especially gay and suitable for summer cottage or beach bungalow are crisp, sparkling tie-back curtains of a new transparent material said to be both water-proof and sunproof. They come in three sizes and all the high shades as well as soft rose and deep burgundy.

Masculine Entertaining.

When the man of the house entertains stag, he and his guests will appreciate plenty of masculine ash trays placed handily, strong comfortable chairs to lounge in, excess doodads and bric-a-brac put safely away, and simply, hearty refreshments in generous quantities.

Quick Cream Whipper.

Among the new gadgets on the market for making summer a delightful and delicious season, is a siphon which, besides its ordinary function of making sparkling drinks, whips cream in double-quick time in double quantity. Different bulbs, of course, are used for each operation.

having flaunted every thing from vegetables to wooden Indian figures on their lapels, wouldn't it?

It pays to try out new things—as we discovered when we put cream into iced tea instead of the customary lemon.

We'd seen such a practice advocated in the cooking pages which we read so religiously (or at least skim through) but we really had doubts as to its deliciousness. At least we had until we tried it.

It really is good, particularly with tea that is strong.

Twenty-eight Are Present for Story Hour at Library

Nine children took part on the program of the Story Hour in the children's library at the courthouse Saturday morning. Dorothy Meade told a story; Eloise Pickering sang a song accompanied by her sister, Betty Ruth, at piano; Dianne Debnam read a poem; and Billy Pate, Mary Lou Hudson, Lois Black, Wilbur Yeager, and Billy Norred told riddles.

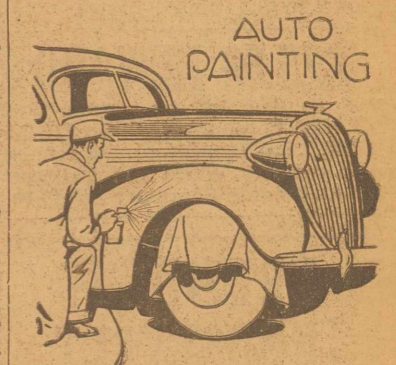

Mrs. W. Bryant, who was in charge of the hour told the following stories: "Little Butterkin" (a fairy tale from the Far North) by P. C. Asbjornsen; "The Story of Peter Rabbit" by Beatrix Potter; "One Eye, Two Eyes, Three Eyes" by Rosemary Kingston; "Why Jerry Muskrat Builds His House in the Water" by Thornton W. Burgess.

Twenty-eight children were present, including: Betty Jean Merriweather, Dorothy Sue Merriweather, Lois Black, Gail Black, Dorothy Fay Black, Junius Browne, Mary Jo Hale, Eugene Hale, Charles Jones, Janis Jones, Dianne Debnam, Stephen Debnam, Dorothy Gene Roderick, Fatsy Yeager, Wilbur Yeager, Goss Yeager.

John Larsh, Betty Chaney, Paul Chaney, Dorothy Meade, Billy Nick Norred of Colorado, Betty Ruth Pickering, Eloise Pickering, Mary Lou Hudson, Billy Pate, Jimmie Greene, Tola Chapple, Betty Jean Wilson.

Very handy for mixing up home-made ice cream. It has a color or enamel finish—tangerine, royal blue or turquoise.

It is reported that the most dangerous hours on a highway are between 7 and 8 o'clock at night.

"LOOKS" SELL CARS!

To renew your Car's desirability—even in your own opinion, nothing does the trick like a Fine Car Re-Finishing! The little, relatively that we charge for completely new car-surface beauty, is almost as nothing, compared to the amazing up-value it creates!

Nine Girls Attend Tapestry Club Meeting Friday

Tapestry sewing club met Friday afternoon with Joyce Jarnagin, 802 S. Pecos, where they placed on a quilt.

Since it was the birthday of Iva Lee Smith, gifts were presented to her from the club members.

Games were played and refreshments were served to the following girls: Iva Lee Smith, Foye Lee Branch, Wanda Lein Branch, Betty Lou Ward, Joyce Ward, Mildred Jones, Bertie Mae Richters, Maudie Richters, and the hostesses.

The club will meet Friday of this week with Joyce Ward at 403 E. Texas, at 2:30 o'clock.

2,000 Visitors on Hand for "Humble Day" in Wink Sat.

By BILL COLLYNS. WINK, July 9 (Special). — This thriving little city, located within the shadows of towering oil derricks of the famous Wink county oil field, was today overcrowded with throngs of people who came to Wink to join local employees of the Humble Oil and Refining company in celebrating another highly successful Humble Booster day, the "Permian Basin's day of days."

Each year citizens of Wink join with Humble company employees in staging the affair which always attracts Humble employees and others from over West Texas and South-eastern New Mexico, this year's event being termed by officials as the most successful yet staged.

Registrations at the office of the Humble Pipe Line company, located in the spacious and well kept Humble camp at Wink, totaled nearly 2,000 as company employees, their families and friends registered in order to partake of ball games, barbecue and dance.

Thousands of persons lined the streets at 10:30 this morning to witness the Humble day parade, the longest and most colorful yet staged in this section.

The spacious grandstand at Spudder park here was crowded to overflowing this afternoon as the crack colored teams of Odessa and Lubbock met in a grudge tilt, the Odessa nine winning by a 10 to 5 count.

At six o'clock, a real West Texas barbecue was held on the Wink high campus, plenty of the well prepared barbecue and all the trimmings being available for the huge crowd of hungry persons attending.

At eight-thirty, a regular West Texas-New Mexico League game between the Wink Spudders and the Big Spring Barons was scheduled to be played at Spudder Park, followed by a dance and elaborate floor show in the high school gymnasium.

Herbert Fox, chairman of the Trade Extension committee of the Midland chamber of commerce, Jas. H. Goodman, a large group from the Midland offices of the Humble Oil and Refining Co., and the writer were representing Midland at the annual event.

Wink's Humble Booster Day celebration attracted crowds from this section Saturday, with indications that more than a score of Midland citizens were present.

The engine of the first automobile sold by Alexander Winton in 1898 was cooled with ice.

Mr. and Mrs. S. J. Hanger of Anadarko, Okla., and Mr. and Mrs. Ben Hess and Billie Tabor of Sagerton, have left Midland after visit with Mr. and Mrs. J. M. Reising and family.

The United States produces 60 per cent of the world's annual supply of cotton.

Mr. and Mrs. S. J. Hanger of Anadarko, Okla., and Mr. and Mrs. Ben Hess and Billie Tabor of Sagerton, have left Midland after visit with Mr. and Mrs. J. M. Reising and family.

111 Absentee Ballots Cast in the County

Evidence of the interest in state, district and county elections this year is shown in the large amount of absentee ballots that have been requested of the county clerk here to date.

At noon Saturday, 52 persons had cast the ballots at the office and 59 had been mailed out. Two years ago, the number of absentee ballots cast was only slightly more than 200, but the figure will likely be double this year, it was said.

All eligible voters who do not expect to be here election day, July 23, are requested to cast their absentee ballots at the office of the county clerk or to arrange to have them mailed.

Absentee balloting will be continued until July 19.

The Antarctic region is about 30 degrees colder than the Arctic region.

CAPTURED KIDNAPER glares defiantly at photographer in Baltimore where science exploded a story that this rhesus monkey had given birth to triplets—a rarity among monkeys.

CARDINALS LOSE 11-INNING STRUGGLE TO CLOVIS PIONEERS

BAROMETER REMOVES GUESSWORK FROM FISHING, TESTS INDICATE

BY JIMMY DOUAHUE,
NEA Service Sports Writer.

LINCOLN, Ill. — Maybe you're thinking of buying a lot of new plugs, spoons, wobblers, flies, or bugs before you go on that vacation trip this year.

Take a tip from Brainerd C. Snider. Get yourself a barometer. After a year of intensive research on a nation-wide scale Snider newspaper editor and sportsman of this city, has come to the conclusion that feeding periods of fish, salt or fresh water species, are controlled by atmospheric pressure.

B. C. Snider

He will lay you a \$50 fly rod against a cane pole that 94 times out of 100 fish bite best under high atmospheric pressure, and least under low.

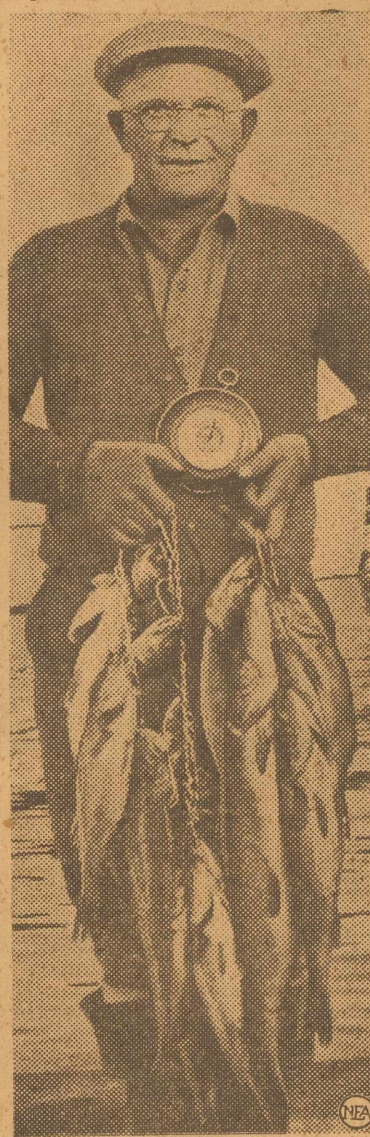

So conclusive are his findings that, after perusal of his records, the most skeptic disciple of Ike Walton will discard the wind in the east, dark of the moon, and other hoary theories, and buy himself a barometer.

Snider appears to have taken the guesswork out of fishing.

READ 'EM AND KNOW. He got the idea a year ago... started spotting barometers in various sections of the country and having readings taken when members of the Lincoln Sportsmen's Club went fishing.

RISE WITH PRESSURE. "When atmospheric pressure is low fish go down to equalize the pressure of air and water. They must even up their own bodily inward pressure created by air and water. When the atmospheric pressure becomes high they rise to evade the added weight of more air plus water, and thus relieve the strain on their air bladders."

A New Angle

They're getting fishing down to a science, as Emmett Weakley, above, of Lexington, Ill., indicates. That string of mixed pike were caught in Lake Kabetogama, Minn., with the aid of the barometer he holds. Experiments have proven that fish bite best on rising barometric conditions, and very little on a falling barometer. The tip, of course, is to take a barometer reading when you go fishing.

the center of the storm has passed and the atmospheric pressure is rising.

In looking over the scout's reports you find that David Rhoads at Walker, Minn., found between July 4 and 10 last year that wall-eyed pike and calico bass bit only when the barometer was up. He took the limit on a high barometer, and found boats reporting few if any fish when it was low.

INVITES CO-OPERATION. Snider's party at Lake Kabetogama found wall-eyes so plentiful there that some fish could be taken regardless of weather conditions. However, their barometer readings showed the limit of from 39 to 52 pike per boat was being taken when the reading was above 28.55 (uncalibrated to allow for change in elevation), and "poor luck" of eight to 12 pike a party when the readings were below that figure.

John Alden Knight, who compiled the solar theory and tables, is a devout believer in barometric effects on fishing conditions. Others have dabbled with the idea from time to time.

Motorcycle Police Curbed. CLEVELAND, (U.P.) — Motorcycle traffic policemen here have been ordered to cease hiding and "popping out of nowhere" at unsuspecting speeding motorists.

RATLIFF SINGLES TO EVEN SERIES AT 1 GAME EACH

CLOVIS, July 9, (Special). — "Old Folks" Dick Ratliff, once a member of the Midland Colts and later in the Texas League, singled to left field today to bring in the run that enabled the Clovis Pioneers to defeat Midland, 6-5 in 11 innings and regain second place in the standings, one half game ahead of the Cardinals. The victory evened the series, Midland having won Friday.

Tension mounted as the game progressed and umpire Donald Fritz ejected the Midland manager and catcher Beers of the Cards after a ninth inning squabble.

The Pioneers scored first when they pushed over two runs in the second inning out the Texans fought back to tie the score by making one run in the third and one in the fourth, then went ahead in the fifth by rallying one more. Their lead was shortlived, however, as the home club once more got a brace of tallies, this time in the sixth inning. The Cards came back with one in the seventh, saw the Pioneers make another in the eighth to regain the lead, then tied the score at five all with one run in the ninth.

Both sides threatened but could not score in the tenth but the Pioneers finally pushed across one in the eleventh.

Warren went the entire route for the Cardinals and was touched for 12 hits, while Dixon and Nelson of Clovis divided the hurling duties, Nelson getting credit for the win. Five errors by his mates caused Warren to get into frequent trouble.

The two clubs wind up the series today and the Cardinals leave tomorrow for Wink where they will be for two days.

In the Friday game big Jake Stuyar paced the Cards to a 11-7 win with two homers good for seven runs. Fresh from sweeping a three-game series with the Lubbock Hubbers, the Pioneers made five errors to hand the game to the Cards. Soule pitched all the way for Midland, giving up 10 hits, while Christi and Lumpkin toiled for the home club.

Marble From Vermont Makes Capitol for Oregon

The modernistic capitol in Salem, Ore., a \$2,500,000 structure almost ready for occupancy, has been constructed of pure white marble from the quarries of Vermont across the continent. Above is a view of the building with the famous statue of the Methodist circuit rider in the foreground. The new building replaces the one destroyed by fire in 1935. PWA contributed half of the cost of the structure, which boasts 131,750 square feet of usable space.

Top Tarpon

Jay A. Gaines tussled 1 hour and 16 minutes in bringing the 125-pound tarpon, which he so proudly exhibits, to gaff in the St. Petersburg, Fla., Roundup. It topped the list in the national tournament for thousands of dollars in prizes. Gaines is a wealthy young sportsman of Evanston, Ill.

RICHARD CARLSON

HES SOMETHING OF A RARITY, AN ACTOR WITH A PHI BETA KAPPA.

ALSO A RARITY IN HIGH SCHOOL, A FOOTBALL PLAYER, WHO WROTE NOVELS...

Escaped From Spain, Disarmed, Returned to Spain

Much-needed rest was what a "lost battalion" of 6000 Spanish government troops enjoyed, above, on French soil at Tarbos after breaking through the mountain passes of the Pyrenees where they had been surrounded by insurgent forces for many months. After disarming them, French authorities provided free railroad transportation in special trains back to Barcelona. Under the French rule refugees are permitted to return either to the Franco territory or to that held by the government.

Mustang Boys Club Column

The Mustang boys confined their activities on the 4th to water sports. The two sea-horses—Jimmy Egan and Robert Filson went to Big Spring sponsored by the chamber of commerce. Jimmy put on a one-man diving exhibition for about 2,000 spectators and won first place in the free-for-all 20 yard-free-style swimming race. The boys were disappointed that they did not have the regular swimming meet as planned, with various events in swimming and diving. They expect to enter the big A. A. U. water pageant to be held at Sweetwater the middle of this month. This is the biggest water event that has come to West Texas in many years.

day morning at the miniature golf course thanks to the courtesy of the manager. It is hoped that a four-some can be developed that will be able to challenge all comers.

Commencing this week there will be a special surprise event or contest held at 8:30 every Wednesday and Saturday night with small prizes.

Champagne as Hair Tonic.

LONDON (U.P.) — The latest device for beautifying women's hair being used in Great Britain is a fountain which throws out a spray of champagne. One of the fountains has been installed in a West End salon and dozens of magnams are being used weekly.

Speeding at 10 Cents a Mile.

CLEBURNE, Tex. (U.P.) — A 10-cents-a-mile fine is being levied on local automobile speeders under orders of Mayor W. H. Goldsmith. The first offender, charged with driving 35 miles an hour, was fined \$3.50 which the man elected to serve in jail.

The registry system of the United States postoffice was begun in 1854.

Cupid Was Much Faster

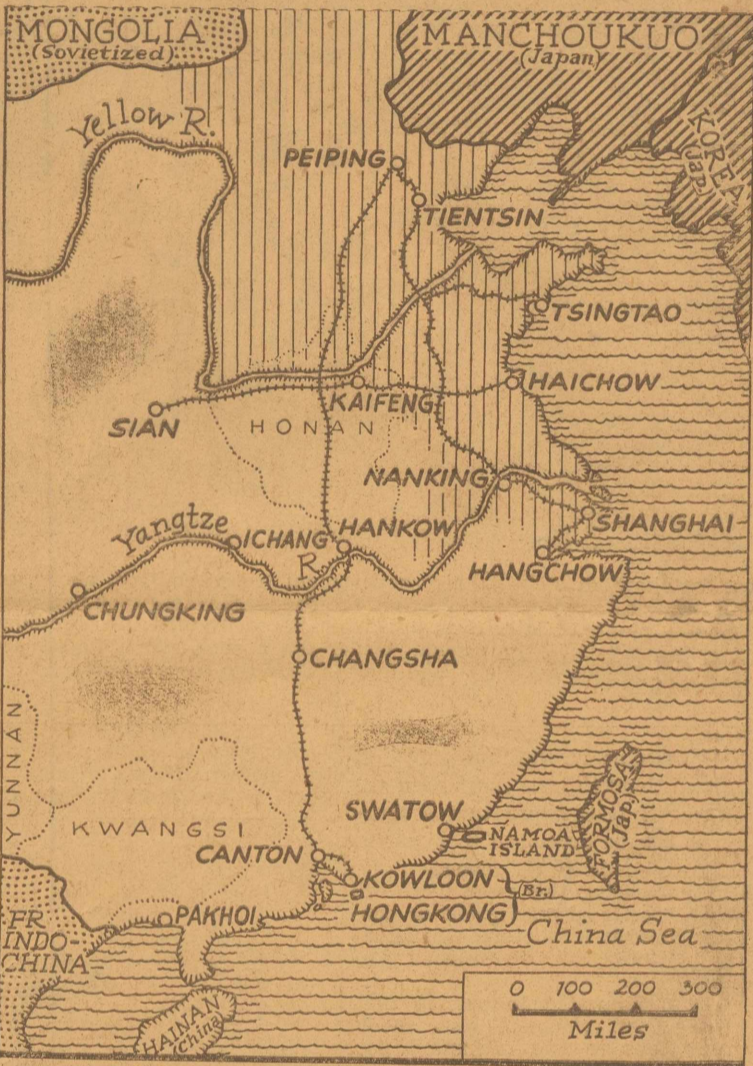

Gene Venzke is fast enough on the cinders, but Dan Cupid had little trouble catching him. The one-time Pennsylvania miler married the former Mary Margaret Eisenhower of Reading in Hollywood, Calif., where they are pictured in the garden of a friend's home.

Claiming the Spoils of Victory

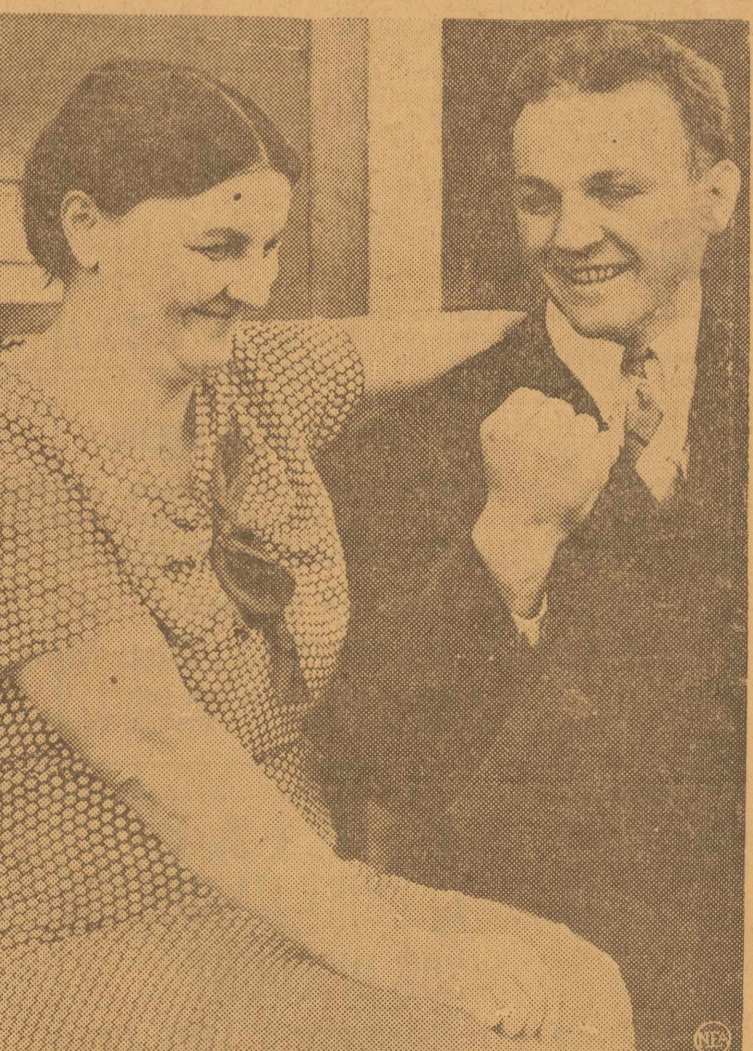

While Japanese Infantrymen line the sides of the narrow road in a protective fence, a Japanese tank is pictured above as it enters the shell-shattered gate of Mongchen in Anhwei province. The ancient Chinese pagoda on the gate's top has surrendered to modern death-dealing machines. Here is typified the spoils of victory. The Chinese defenders routed after a fierce battle, the victorious soldiers occupy the captured city to plunder and pillage in reward for their triumph.

TOWARD TWO CITIES—Hankow which became provisional capital after Japanese took Peiping, and ancient Canton near British-owned Hongkong—do Mikado's armies push. With an already sizeable chunk of land (vertical shading), Japan charted a "no man's land" for foreigners—this line extending north from Pakhoi to Ichang to Sian, then east and north along the Yellow river. Japan's bombing of Swatow, treaty port, and the landing of troops on Namoa island, presage a drive on Canton, China thinks. Britain and France have warned Japan to stay off Hainan island and will act to support each other in case "complications arise," said British government.

Breaks the News to Mother

Al Hostak of Georgetown, a Seattle suburb, shows his mother, Mrs. George Hostak, the right fist with which he hopes to knock his Tacoma neighbor, Freddie Steele, out from under the world middle-weight championship in a 15-round contest in Seattle, July 26.

Beer Declared Necessity.
DARWIN (UP)—Beer is a necessity for working men in Northern Australia. This statement, made by Dr. Cecil Cook, chief medical officer for the Northern Territory, is now included in Australia's official records as it was made before a court.

More Coyotes in Maine.
PASSADUMKEAG, Me. (UP)—An increasing number of coyotes has been reported in this vicinity in the past five years. Maurice Stevens recently caught an unusually large one, the sixth he has trapped since 1933. Others have been seen in nearby Argyle.

A Little Starch Freshens Summer Clothes.
A quart of hot cooked starch to a tub of rinse water (slightly blueed, except for colored clothes allergic to blueing) leaves a fresh, yet not stiff finish resistant to soil and damp on wash clothes. Shake out each garment, damp from previous rinse water, thoroughly so that the starch distributes evenly and turn clothes wring-side out. If you find that the last clothes starched do not receive enough stiffening, divide the starch and add to the rinse water as the solution thins. A little starch for crisping blouses and lingerie neckwear will keep sweet several days in the refrigerator.

Forty Years an M. P.
MELBOURNE (UP)—Dr. Maloney, member of the House of Representatives in Victoria for 39 years, claims the Empire Parliamentary long service record. Dr. Maloney celebrated his 84th birthday recently.

Australian Marriages Still Keep 1908 Ratio

CANBERRA (UP).—Statistics reveal that Australians are the most stable marrying people in the world. Neither the World war, the modern pace of living nor economic crises have changed their ideas on the subject, and their marriage rate is the same as in 1908. The latest figures show 8.4 marriages per 1,000 of population. The only countries with a higher marriage rate now are Russia, South Africa, Germany, Denmark and Rumania. Italy is lower.

City's state fair grounds. Speeding across Arkansas, he arranged a platform talk at Booneville.

Two of the Oklahoma senatorial candidates—Thomas and Marland—wired White House secretaries as the 10-car presidential special rolled through Tennessee that they would ride the train through part of that state.

Senator Josh Lee and three Oklahoma representatives, Lyle H. Boren, Wilburn Cartwright and Will Rogers also arranged to join the presidential entourage.

Governor Lloyd C. Stark of Missouri and Arkansas senators, Hattie W. Caraway and John E. Miller also were expected to board the special.

Elliott Roosevelt, planned to come aboard before his father reached Fort Worth.

Conferences with those officials and the four speeches promised a busy day for the chief executive. Some hours were allotted for the speech writing.

The manner in which the president would promote the candidacy of Thomas remained in doubt up until speaking time.

In Ohio, Mr. Roosevelt twice praised Bulkley. In Kentucky, he called both Barkley and Governor A. B. Chandler, the candidates for the senatorial nomination, his friends.

The president added he was not interested "in any shape, manner or form" in the Kentucky primary but he suggested at the same time, that Barkley's shoes in the senate would be hard to fill.

pany E and was pictured as the honor guest to be recognized by the speakers.

The July 2 issue of the Daily said that a crowd of twelve hundred attended the dedication of the new armory and the dance which accompanied it.

Wallace Is Speaker.

"Captain William E. Wallace, beloved organizer and first commander of Company E, took the platform and expressed his admiration of the Post for the fine objective it has realized. Captain Wallace, who flew 1300 miles from Midland, Texas, to attend the dedication ceremony, told the crowd of his experience in organizing Company E at the outbreak of the Spanish-American war and a roar of laughter broke from the crowd when the Captain related how the Governor had accepted his offer of 100 men—and I didn't have a man."

Company E also figured in the World War, the Daily showed, and Captain Raymond E. Brown, who commanded the company during its stay in Europe, was present.

Back at his home here late in the week, Captain Wallace laughingly told of his surprise at the welcome extended him by the people of Decatur.

"I told them that if I was that important in Texas, I could easily be elected governor," he said.

east of Seagraves, was last reported drilling at 4,966 feet in lime and anhydrite, with no shows logged. Farther southeast, J. T. Perryman, Jr. No. 1 C. H. Doak, west of Cedar Lake, is reported awaiting installation of standard tools, bottomed at 4,994 feet in lime. Seven-inch casing was cemented at 4,707 with 100 sacks. After drilling plug from casing, operator will shoot, then acidize lime section near bottom which showed some saturation, but no porosity, in cores.

Ranger, Casteel et al (Stogner) No. 1 P. O. Kendrick, southwest of the Addis and southeast of the Harper pool in Ector, after a two-day shut down at 4,300 feet while fishing for tools, was balled dry, recovering eight barrels of oil and

eight barrels of salt water. It was then shut down five hours, after which it bailed one-half barrel of water bearing only a scum of oil. Operators were awaiting new drilling line before resuming drilling.

North of the Foster pool in Ector, Sinclair-Prairie No. 3-A Johnson is drilling at 2,808 in salt. Sinclair-Prairie No. 2-B Paul Moss, second test in the new area south of the Harper pool, had reached 1,174 feet in red shale.

On the west edge of the Goldsmith pool in Ector, Rogers & Rogers No. 4-A TXL, on gas lift, 115.92 barrels of fluid daily, of which 78.83 barrels were oil and the rest water. Pay topped at 4.251 was shot with 210 quarts and treated with 1,000 gallons of acid. Total depth is 4,293 in lime.

New Yates Completion. New completions for the Yates pool of Pecos was reported in Station No. 6 S. W. Richardson, which gauged natural flow of 25.46 barrels in one hour through 1/2-inch tubing choke, with gas-oil ratio of 200-1. It topped pay at 1,350 and is bottomed at 1,369.

Magnolia No. 1-A J. H. McKee, northern Pecos deep test, had bailed hole down 5,200 feet from top. Total depth is 6,177, plugged back from 6,267 to shut off sulphur water found in the Ellenburger, lower Ordovician. Seven-inch casing, which struck was shot in two at 6,105 and raised to 6,043.

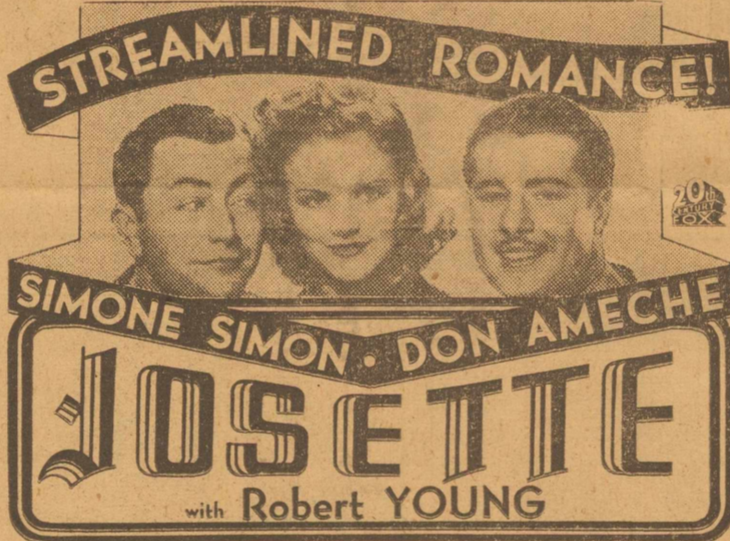

In the Estes pool of southern Ward, Gulf No. 97 Estes rated daily potential of 198.72 barrels, with gas-oil ratio of 3,738-1, following 320-quart shot. Pay was topped at 2,491, and total depth is 2,620.

Gill at 3,926. R. H. Gill No. 1 Gulf-S. J. Dixon, Yoakum wildcat two and a half miles northwest of the Bennett pool, is drilling below 3,020 feet in salt, anhydrite and red rock. Next marker will be the Yates sand, due to be picked up within the next two or three hundred feet. On anhydrite, topped at 2,460, 1,172 feet above sea level, the test is running about flat with producers in the pool.

Skelly No. 1 Kendrick, south offset to Shell No. 1-D Baumgart, farthest east producer in the Denver pool of southern Yoakum, stopped drilling at 4,661 feet in lime and is displacing rotary mud with oil preparatory to drilling ahead.

Presbyterian Group To Attend Summer Camp Near Stockton

Accompanied by Rev. W. J. Coleman, Mr. and Mrs. W. L. Miller, and Mrs. V. W. Siebert as counselors, a group of Presbyterian young people will leave Monday for Camp Comanche near Fort Stockton to attend the El Paso Presbytery's annual young people's conference, July 11-16. A minimum of a dozen young people and probably a considerably larger number is expected to go.

The theme of the conference will be "Christ Everywhere, Everywhere." On the faculty will be: Dr. Thomas W. Currie, Austin; Dr. J. M. Lewis, Lubbock; Dr. W. Bristow Gray, El Paso; Dr. D. F. McConnell, Big Spring; Miss Lillian Richter, Richmond, Va.; Rev. R. J. Kelly, Seminole; Rev. Fred Tyler, Barstow; Rev. Thomas D. Murphy, Odessa; Rev. Wm. F. Pruitt, Portales, N. M.

The curriculum will include courses for intermediates, seniors,

young people, and one for adults. Among them will be "Missions Today," "Jesus in My Everyday Life," "Great Decisions of Jesus" and number of others.

FHA Launches New Building Program

Several representatives of the federal housing administration from the insuring office located in Fort Worth will visit Midland on Tuesday for the purpose of launching the new FHA program under the recent amendments to the national housing act, according to C. A. McClintic, chairman of the local better housing committee, and J. P. Butler, chairman of the chamber of commerce housing committee.

A special conference of all architects, contractors, realtors, lumber dealers, representatives of financial institutions, newspapers and utilities has been scheduled for 8 p. m. July

Musicians Will Present Concert at Methodist Church

Taking the place of the usual evening preaching service, a concert will be presented at the Methodist church at the 8 o'clock hour by Signor Egidis Villani, violinist, and Professor Ralph Levine, pianist.

The program will consist of a few of the old favorite airs and a number of classical selections.

The musicians have just come here from a series of concerts at Alpine, Marfa, Fort Davis and other places in the Southwest.

Rev. Milton F. Hill, pastor of the First Methodist church at Marfa where the two presented a concert described them as "musicians of very high order." "The program which they gave here was one of the finest I have heard in my life," he said in a letter received by Rev. W. C. Hinds, Methodist pastor.

The two musicians have been praised by Midland citizens who heard them play briefly at both the Lions and Rotary club luncheons last week.

Professor Levine is a pupil of Miss Adele Westfield and of Dr. Albino Gorno and was post-graduated from the Cincinnati College of Music. Signor Villani, violinist, is a pupil of Anton Dvorak and of Giuseppe Martucci and was post-graduated from the Royal Conservatory of Music at Naples, Italy. Mrs. Villani, who arranges the programs and details of the concerts also is with them.

Mrs. Villani is traveling with the party and assisting in arrangements for the concerts.

The public is invited to hear the program tonight.

12 in the Crystal ballroom of Hotel Scharbauer.

The meeting will be confined to discussion of local activities covering an educational program to be launched here under the new amendments, according to McClintic.

R. E. Sikes, mortgage conference representative, and William W. Ryan, chief underwriter, will be present at the meeting. Round table discussion will be held at the close of the meeting, covering preparation of applications, financial arrangements and local activities.

All towns in the Midland territory have been invited by the Midland chamber of commerce to send representatives to the meeting.

HAS HEART ATTACK. T. A. Stancliff, Midland lease broker, was taken by plane to Denver yesterday after suffering a light heart attack early yesterday morning. He was flown by George McEntire, and will be at the home of a sister while recuperating.

Measles Epidemic Private. BURTON, STATION, O. (U.P.). — The Eli D. Troyer family had their own private epidemic when all 14 members had measles at the same time. The disease was fatal to one child of 2.
