

Ragged Return

Her stockings torn by the jagged edges of lava rocks, the heel of one shoe missing after wandering for four days through western New Mexico's uninhabited and waterless wastelands, Miss Laura Piedalue is pictured above after her rescue by state police. Miss Piedalue, a New York welfare worker, and two women companions, her sister, Irene, of Winchester, Ky., and Miss Antoinette de la Forrester, University of Kentucky instructor, got lost after visiting the perpetual ice caves.

Efforts to Rescue Two Fruitless

Soldiers Remain On Rocky Ledge Above Rio Grande

MARFA, July 28 (AP).—Two marooned soldiers, survivors of the ill-fated inner-tube journey down flooded Santa Helena canyon, remained today on a rock ledge just above the roaring Rio Grande. It was the fifth day for the men on the rock. Sergeant Clyde Rybert and Private Clarence Hanson, a companion, Private Harry Buckman, was drowned.

Supplies were being lowered by ropes to the two men. Rescuers are waiting a drop in the river and then will attempt to remove the men by boat.

The rescue party may lower a boat by cable so the men can try the rest of the journey.

The two sent a note up by rope saying Buckman had drowned. Blankets and rations were lowered to them.

Land parties scanned the river and canyon for Buckman's body.

Collins, Hurley and Wives Return from Lions Convention

Mr. and Mrs. Bill Collins and Mr. and Mrs. Butler Hurley returned last night from Oakland, Calif., where Collins, newly installed president of the Midland Lions club, last week attended the Lions International convention as a delegate of the Midland club. Ed M. Whitaker, retiring president of the local club and also a convention delegate, accompanied by Mrs. Whitaker, returned to Midland earlier in the week.

An attendance of approximately 10,000 Lions club members representing practically every state in the union and the seven foreign countries in which Lionism is reported to be reported by the delegates. Walter F. Dexter of Sacramento, Calif., was named international president for the coming year, with Pittsburgh being selected as the site for the 1939 convention. George R. Jordan of Dallas was named third vice-president, the Texas to become president of the organization in 1941, the three vice-presidents being stepped up each year. The Texas delegation, according to the delegates, was among the largest in attendance.

En route to Oakland, the Collins and the Hurleys visited Grand Canyon, Boulder Dam and Yosemite park, while on the return trip they visited Los Angeles, Long Beach, Santa Catalina Island, Phoenix and El Paso.

The Whitakers drove to Douglas, Ariz., continuing on to Oakland by train.

Premier Hepburn and Aides Land Safely

WHITEHORSE, Yukon Territory, July 28 (AP).—A message was received here today that Premier Mitchell Hepburn, Ontario, and his two companions had landed safely in their airplane at Carcross. The party had been missing all night and were the cause of much anxiety in the north-west.

Committee Raps Method of Vote Getting in Tennessee

NASHVILLE, July 28 (AP).—Unexplained orders postponing the departure of national guard units to out-of-state maneuvers gave rise today to reports Governor Gordon Browning might send troops to Memphis, back of his arch political enemy, E. H. Crump, in next week's democratic primaries.

"I will make my plans known Tuesday," was all the governor would say.

Washington, July 28 (AP).—The Senate campaign expenditures committee said Wednesday "every scheme and questionable device that can be used" for raising funds and influencing votes appeared to be "in full swing" in the Tennessee Democratic primary.

After hearing a preliminary report from an investigator sent into that state, the committee said in a statement conditions there pointed "sharply toward an election contest in the United States Senate regardless of which group's candidate triumphs."

The committee also disclosed it had asked the Post Office Department to investigate what it termed misuse of the franking system by the Farm Security Administration on behalf of former Governor Berry in his successful candidacy for the Democratic senatorial nomination in South Dakota.

The committee sent Postmaster General Farley a copy of a FSA press release referring to work done by Berry in 1936 when he was governor.

The franked letters contained what your committee believes is a veiled if not a direct effort to influence votes in behalf of a candidate for public office in South Dakota," the committee told Farley.

Invites Bigwigs

Would you accept an invitation from lovely Evelyn Keyes of the movies? American Legion officials figured most people would. That's why they selected Miss Keyes to make an air tour of the nation and invite the secretary and undersecretary of war and governors and mayors of large cities to the national legion convention in Los Angeles in September. Miss Keyes is pictured holding an invitation.

Couple "Married" 3 Miles Above Land Declared Not Wed

LOS ANGELES, July 28 (AP).—"Mr. and Mrs." Eduard Vanglatte, "married" by an airplane commander Saturday three miles above Los Angeles, aren't married, they were informed by county authorities today.

Sea laws do not apply to air, they were told.

Honeymooning in Michigan, the couple declared they had not arranged for a second marriage ceremony as they felt they were legally married.

Association Tables Resolution to Ask Black Information

CLEVELAND, July 28 (AP).—The American Bar Association's resolution committee today refused to approve a resolution asking the supreme court for information on the "eligibility" of associate justice Black.

It also unfavorably reported a resolution sharply criticizing Nazi Germany for "discrimination against law abiding citizens because of race, religion and politics."

Jew Organization to Barter With Nazis Is Announced Today

BERLIN, July 28 (AP).—The formation of the federation of Jewish Germany was announced today by a prominent Jewish newspaper here.

The federation will officially represent Jews in dealing with the Nazi government.

All Jewish societies were united under one head by the new arrangement. Rabbi Leo Baeck, chief of the Berlin Rabbi, was elected president.

"Jews are entitled to look for assistance," the federation declared, and predicted finding emigration opportunities almost an insurmountable task.

Courtney Is Site of Singing Convention

The Tri-County singing convention composed of Midland, Martin and Howard counties will meet July 31 at Courtney in Martin county. Singers are expected from all nearby counties.

Several quartets and music company representatives have signified their intention to attend. Everybody is invited to come and enjoy a full day of good gospel singing. All classes are invited to come and bring their books.

CVA Rapped After Flood Hits State

Restitution of All Financial Losses Asked by Farmers

BROWNSVILLE, July 28 (AP).—The Rio Grande, fed from choked streams of upper Mexico, continued a rapid rise in the lower Rio Grande valley today. The river rose 12 feet here yesterday and pounded on reinforced levees at Fort Brown. Crews of WPA workers were laboring to strengthen the dikes today.

The river was several feet above Brownsville streets but the levees were holding the water back. However, it was rising rapidly. A crisis is expected Saturday.

Weather bureau officials minimized the danger and advised extreme caution.

New acres of farm land were inundated as the crest of the Colorado river moved downstream toward Wharton. The country is due to receive a burden of water tonight and tomorrow.

Criticism of angry landowners fell on the Colorado Valley Authority Wednesday as Texas, in the throes of flood waters which smashed \$4,000,000 worth of livestock, crops and property, braced itself for fresh attacks.

As the Rio Grande, choked with drainage water from Mexico's plains, tumbled down toward the valley in rapid rises, the Fayette County Agricultural Association, in messages to President Roosevelt and other men of state, called the Colorado River flood "man made" and asked "restitution of some kind be made by the government."

Other organizations and individuals planned investigations.

Near LaGrange, the Colorado battered down a pier and the secondary span of the old river bridge, recently repaired at a cost of \$30,000. The crash could be heard in the business district, only six blocks away.

The city was cut off from the structure by five feet of water coursing over the highway.

The County Agricultural Association, in its communications to the President, Senators Connally and Sheppard, Rep. J. J. Mansfield, and the chairman of the Colorado Valley Authority, said it believed water turned out of Buchanan Lake caused the flood waters to reach higher stages and giving us less time to bring cattle and feed crops to safety."

It said "many of us have exhausted our credit producing the crop which now is lost. We ask that restitution of some kind be made by the government to those of us along the river who are not able to carry on by remaining on their farms."

The telegram was signed by C. T. Kasper, chairman of the Association, and Max Citzler, secretary.

At Dallas, Fritz Engelhard, chairman of the Colorado River Authority, denied the floods were "man made."

"The flood was just one of those things," he said. "When a flood comes along the people feel that they have to blame somebody."

"But the flood waters that came down were greater than in 1935 or 1936 and the flood stage was lower. As a matter of fact, if the dam had not been there, with the amount of water it absorbed, the flood would have been much more severe."

Engelhard said the dam took up a considerable part of the water and delayed the rest to let it pass down less violently.

Evacuation of Hankow Ordered

How Families 'Get in and Pitch' in Politics

Victorious after a campaign in which every member of his family participated, W. Lee O'Daniel is pictured above as he got a congratulatory kiss from his mother-in-law after winning the Texas governorship with a clear majority over 11 opponents. O'Daniel campaigned with a hill-billy band which included his two sons. His daughter accompanied him on trips and Mrs. O'Daniel ran his campaign headquarters.

Families have always been considered an asset to a political candidate but seldom have they participated in a campaign as actively as 12-year-old John L. McClelland, above, shown making a stump speech in behalf of his congressman-father, who seeks the Democratic senatorial nomination in Arkansas in opposition to Senator Hattie Caraway.

Pinch-hitting for her ailing husband, Mrs. A. B. (Happly) Chandler, is shown here as she fulfilled one of the Kentucky governor's speaking engagements in his campaign for the Democratic senatorial nomination. Mrs. Chandler has participated actively throughout the campaign, in which her husband opposes the veteran Alben Barkley, Senate majority leader.

Went to Hell and Mailed a Card Back

Charley McClintic was shocked a year ago, while visiting a friend, Dr. O. O. Cooper, at Hinton, West Va., when the doctor said he intended to go to Hell on his vacation this year.

This morning McClintic received a card from Dr. and Mrs. Cooper who were making a stop at Hell, Norway. The postcard showed the railway station with a red glow in the background, the realistic flames representing coal mines in full operation.

The Midland man said he had been worried for a year about the friend's declaration and felt at ease after receiving the postcard.

Expansion of Pump Priming Assured By Action of RFC

WASHINGTON, July 28 (AP).—Jesse Jones threw huge resources of his Reconstruction Finance Corporation behind the public works program last night, making possible a large expansion of the pump-priming operations through which to hasten economic recovery.

Jones and PWA Administrator Harold L. Ickes, two "big money" men of President Roosevelt's spending-lending program, agreed that wherever possible RFC would make loans for public construction and PWA would conserve its money exclusively for outright grants. Hitherto, PWA has been making both loans and grants.

Under the new system it will be possible, officials said, to undertake more big projects such as roads and bridges than if PWA had to furnish all the money itself. The last congress gave Jones' agency power to lend \$1,500,000,000 to states, cities and business men.

High officials said: "Jones and Ickes have been exploring the possibility of RFC making loans on projects requiring dollars by the millions, and their minds have met."

"They have decided it is feasible in law and in practice for municipalities to get grants from PWA and loans from RFC on contracts set up by the former."

Later Jones himself confirmed this, saying that at the request of Ickes "the Reconstruction Finance Corporation now is considering some loans." He did not indicate just what applications were being considered, but said his agency and Ickes were "in accord" on the proposition of RFC aiding the PWA program.

Other officials explained that RFC co-operation would be limited to revenue-producing projects such as roads, bridges, subways and others designed to pay off the loan from toll charges.

New York's proposed \$70,000,000 tunnel from the Battery to Hamilton avenue in Brooklyn, officials said, possibly would be one of the first co-operative RFC-PWA enterprises.

Yingling to Drill Wildcat In East Central Yoakum County

Announcement of an interesting wildcat location in east central Yoakum and a half mile north-east of the Bennett pool featured today's happenings in the North Basin region. It will be drilled by Sam C. Yingling (Southern Oil Company, of Dallas) on acreage farmed out originally by Gulf Oil Corporation to H. K. Riddle, of Oklahoma City. Riddle is said to have burned the block to Yingling, probably retaining an overriding interest.

Location for the test, on Barrier land, was staked 1,980 feet from the south, 660 feet from the east line of section 6, block D. J. H. Gibson survey. It is about three miles west of the Terry County line.

Gulf No. 1 Lucy K. Moore, extension test section 2 mile and a half westward spread of the Denver pool in southern Yoakum this morning was reaming core-hole to 4,850 feet preliminary to setting string of 7-inch casing there. Total depth is 4,970 feet in lime. Last core, from 4,856-70, showed oil saturation but scant porosity. The test is in section 397, block D.

Shell No. 2 Lowe, in the Denver pool, gauged flow of 327 barrels of oil the first 14 hours of potential test. Bottomed at 5,045, it has been acidized with 1,500 gallons. Natural output was 91 barrels in four hours.

Texas No. 1 Randall, south offset to the small discovery producer in the Walker area west of the Denver pool, is drilling at 4,736 feet in lime. Nearly two miles to the north-east, Magnolia No. 1 J. H. Lynn cemented 13-inch surface pipe at 531, four feet off bottom, with 200 sacks and is standing while cement sets. Farther west, Shell No. 3 Roberts is drilling lime at 4,640 feet. Terrell Test High.

High structural position is attributed to a wildcat in northeast Terrell, Schermerhorn No. 1 H. P. Allison, in the center of the south-east quarter of section 22, block B-2, C. C. S. D. & R. G. N. G. survey. With elevation of 2,640, it is credited with having topped the Rustler at 710, some 150 feet high to the old Wooley-Jones No. 1 Pankenhay, dry hole three miles to the west, in section 43, block B-2, which logged showing of free oil at 2,335. The Schermerhorn test is also running about 200 feet high to Ohio No. 1 Goodie, deep dry hole. It is about midway between the Ohio well and the Yates pool of Pecos. Drilling continued below 825 feet in sandy lime.

Gulf No. 4 McKnight, deep test in western Carra, is reaming 9-inch hole below 6,150 feet after halting coring at 6,272 feet in sand. It had shown rise of 4,360 feet of salt water, with 630 feet of circulating mud, when 25-minute drillstem test was made from 6,150 to 6,265. Simpson, middle Ordovician, was topped at 6,160.

Arso No. 1 TXL, in the Mason Delaware pool of northwestern Loving, flowed 65 barrels of oil the past 24 hours while cleaning out to 3,370. Total depth is 3,984 feet, in Delaware sand. The well has been shot, first with 30 quarts and later with 100 quarts.

West outpost to the Emma pool of southern Andrews has been staked by Ray R. Rhodes, J. D. Tompkins and Walter J. Donnelly for their No. 2 Emma Cowden, 269.3 feet from the north, 1,210 from the east line of the northwest quarter of section 1, block 44, township 2 north, T. & P. survey. It is 880 feet west and slightly north of their No. 1 Emma Cowden, first large producer in the area, which gauged 1,061 barrels a day on last test, bottomed at 4,220 feet. Rig will be moved to the new location Monday.

Olson No. 1 Lockhart & Brown, wildcat five miles west of the Fuhrman pool in south central Andrews, is drilling unchanged at 4,665 feet in lime.

Large potential flow of 1,555 barrels daily through 2 1/2-inch tubing was gauged today by Barnsdall Oil Company No. 2 Walter Ford, on the west edge of the Fuhrman pool. Gas-oil ratio is 750-1. The well topped pay at 4,310 and was acidized with a total of 10,000 gallons after bottoming hole at 4,460.

Sinclair-Prairie No. 3-A J. L. Johnson, two-mile north outpost to the Foster pool in Ector, logged slight showing of gas at 4,092 and drilled ahead past 4,122 in lime. Cities Service No. 6 Bagley, on the east side of the Foster pool, flowed 1,342.80 barrels a day, with gas-oil ratio of 321-1, after shooting pay between 4,100 and 4,282, total depth with 440 quarts.

In the Slaughter pool of southwest Hockley, Stanolind No. 2 Slaughter logged show of gas from 4,923-26 and is drilling ahead.

Texas No. 1 D. S. Wright, in eastern Cochran, is drilling below 2,714 feet in anhydrite and salt.

Drilling had reached 2,160 feet this morning in Osage No. 1 Miller, test northwest of the Seminole pool in central Gaines. No anhydrite top had been picked, although it was rumored that it had come in right at that depth, 2,160. If later confirmed, this would put the well 55 feet low to the Frick-Osage No. 1 Riley, producer two and a half miles to the southeast, which topped anhydrite at 2,053, datum of plus 1,330.

VISIT HERE

Mike Brumblebow, football line coach at Texas Christian university, and Blanford Spearman, head coach at North Side high school in Fort Worth, accompanied by Mrs. Brumblebow and Mrs. Spearman, spent the night here en route to El Paso and Cloudcroft.

Air Raids on Capital are Predicted

Chinese Fears for Area Exposed by Late Announcement

By Associated Press. Quick evacuation of all civilians in Hankow, China's provincial capital, was ordered today as Japan's forces steadily moved closer.

The order indicated Chinese fear for the area and a desire to avoid sacrificing non-combatants in the expected Japanese air raids.

Japanese reported their troops had occupied Taihu, on the north bank of the Yangtze, in the first overland advance since occupation of Kiukiang.

In Shanghai, United States marines re-established traffic patrols in the international settlement. Officials said "persistent and increasing violations" of an agreement banning military vehicles was blamed for the action.

In Spain, the surprise government counter-offensive at Catalonia was forging ahead for the fourth day, apparently putting much pressure on insurgents. The Valencia attack was temporarily halted.

Six were killed and 100 injured in Rangoon in rioting between Mohammedans and Buddhists.

The situation in Palestine was quiet but still tense.

An air raid on Madrid today by 18 insurgent warplanes killed 18, including Albert Moyell, Danish agent of the European non-intervention committee.

British Promise Protection of All Interests in China

LONDON, July 28 (AP).—Britain's foreign secretary, Viscount Halifax, warned Japan last night Britain intends to protect her century-old interests in China.

Addressing the house of lords, Lord Halifax used much blunter language about Japan than Prime Minister Neville Chamberlain did in the house of commons yesterday.

The foreign secretary appealed for international sincerity on other scattered fronts endangering world peace—particularly in the case of Czechoslovakia.

He admitted the Czechoslovak problem was going to take a "genius" to solve.

Lord Halifax dedicated Britain to work for removal of the "nightmare of fear" hanging over Europe, and he described as "stupid and useless the arbitrament of war."

Lord Halifax mentioned the strong bonds uniting Britain and France, and had word also to say about Italian restlessness due to the delay in putting into effect the Anglo-Italian friendship agreement of April 16 which depends upon a "settlement" of the Spanish war.

Heavy Surplus of Cotton from 1938 Crop Is Foreseen

WASHINGTON, July 28 (AP).—AAA officials said today that unless domestic and foreign consumption of American cotton has increased by fall growers may be asked to plant less than 30,000,000 acres next year.

They explained unless consumption is increased growers faced the same surplus as last year. Experts are hoping the autumn business upswing will remedy the situation.

County Convention Called Saturday

Delegates to the county democratic convention were called today to meet at county court house Saturday at 3 p. m. by County Chairman R. W. Hamilton.

The county is entitled to one delegate for each 25 votes cast for governor in the last general election. Precinct delegates presumably will have been named prior to the county convention, the Saturday meeting being for the purpose of naming delegates to the state democratic convention.

Former Midland Woman Succumbs

T. O. Midkiff was called to Collinsville yesterday afternoon on account of the death of his niece, Mrs. Virgie Jorman, who died suddenly.

Funeral services were to be held in Collinsville this afternoon at 2:30 p. m. Mrs. Jorman lived in Midland 10 years, but for the past ten years her home has been in Collinsville.

State Tax Rate of 49 Cents to Remain

AUSTIN, July 28 (AP).—Continuation for another year of the state property tax rate of 49 cents per \$100 valuation was voted today by the automatic tax board.

BEHIND THE SCENES IN WASHINGTON

WASHINGTON, July 28. — Mr. Herbert Hoover's decision to make a series of political speeches in September coincides with a wave of optimism among friends of the former President who hope to make him the Republican nominee in 1940. These friends find it rather easy to tick off other G. O. P. aspirants one by one, winding up with the conclusion that Hoover looks stronger each month and that the trend of events and Republican political settlement definitely favor him.

Chiefly they are encouraged by the fact that the party and its constituents indicate a revived trend toward conservative candidates and conservative policies. They point to the Republican primary in Pennsylvania where the relatively liberal Gifford Pinchot was badly beaten by the conservative candidate for governor, Judge Arthur H. James, and that in Iowa, where arch-conservative Lester Dickinson was nominated for senator. If public announcement that Hoover's decision to take the stump was in response to increasing pressure from the Republican rank and file—which was said to want him to unify the party and counteract President Roosevelt's pre-election swing—is to be taken at face value, the opinion of Hoover's friends would seem to come quite well-grounded.

Hoover will be out in front as the G. O. P.'s big spokesman, unless other party presidential aspirants can figure out how to dim his light. If no other Republican shows up as an oratorical big gun in the congressional campaign, Hoover is sure to receive much credit or any large Republican gains achieved in the November elections.

HOOPER AND WHEELER? Some of Mr. Hoover's friends even are beginning to suggest that Senator Burton K. Wheeler, Democrat, of Montana, would make an ideal

running mate for the sage of Palo Alto. It doesn't appear that any of them have actually summoned up the courage to suggest this idea about the vice presidency to Wheeler himself. Most of those who know Wheeler doubt whether he considers himself anything less than presidential timber—and many anti-Roosevelt Democrats feel the same way about it.

GARNER AND FARLEY? Both friends and foes of Vice President John Nance Garner have arrived at the conclusion that the salty, white-haired Texan is hankering to succeed Roosevelt in the White House. This story first stemmed from senators friendly to Garner who are wont to gather in late afternoons at Garner's office when Congress is in session. The vice president is so chary about talking to newspapermen that these senators are about the only source of information as to what he really thinks.

More recently the belief began to spread around the White House and upper reaches of the New Deal that Garner had been bitten by the presidential tick. And now friends of RFC Chairman Jesse Jones, who was bitten long ago—and hard—profess to see unmistakable signs of it and are expressing themselves right sourly. Current talk of a Garner-Farley ticket emanates from the Garner side of the fence and makes no hit at all with the friends of Farley, although the postmaster general and the vice president are on very good terms.

POLITICS IN GEORGIA. Anti-New Deal Democrats in Georgia are beginning to express doubt as to whether Senator Walter F. George or former Gov. Eugene Tal-

When Doctors Disagree

madge, campaigning against the senator, has the best chance to beat U. S. District Attorney Lawrence Camp, New Deal candidate for George's seat. On the ground that strong presidential endorsement of Camp as against George may cause nomination of Talmadge, George supporters have sent overtures to Roosevelt urging him to abandon his plans for and anti-George, pro-Camp speeches in the state. Thus far the answer has been that a Roosevelt endorsement of Camp is much more likely to nominate Camp than the anti-New Deal Talmadge. Georgia New Dealers are beginning to see visions of a Camp landslide.

Letter to Editor

Reporter-Telegram, Midland, Texas. Will you please put the following letter to my Midland friends in your paper: Many months have passed since I left you in Midland, and feeling that I may not be back among you for some time to come, I shall unobscure my soul to you and say, that to you I owe a debt of gratitude that could not be paid had I two lives to live, and for you I feel a love that neither the poets pen nor the silver tongue of an orator could describe. Nowhere on earth could I have lived and had friends more sincere and loyal, for when skies were brightest for me you shared my joys with me, and when storm clouds of disappointment and sorrow overtook me and obscured my pathway, 'twas you who clasped your strong arms of sympathy and love tightly about me and spoke the words that gave me courage to fight on, and know that "We shall reap if we faint not." Friendship so genuine and true, brings to my mind the thought that—"Life is a schooltime, we may share in its song, By a smile we may help some poor fellow along; We should live to be true, For the good we can do. That when we are called on to bid life adieu, We'll be strong, Again, I love you, and pray that God may ever keep and richly bless you all. Your devoted friend, Mrs. Addye Stevens.

Oil Men Urged To Plan Anew

TULSA, Okla. (UP).—Conservation of the country's petroleum reserves through proration of well production, while effective, has at the same time lengthened the pay-out time of newly drilled wells, Thomas C. Frick, associate professor of petroleum engineering at the University of Tulsa, told an oil association meeting here. Frick urged adoption by the petroleum industry of a new program "to stabilize development" of new fields. His tentative program listed several points, including: Curtailment of all unnecessary drilling. Utilization of both old and new fields. Necessity for development of some plan under which search for new areas could be carried on without throwing such areas into immediate production. "In the KMA field of Wichita county, Tex.," he said, "it will take at least three years to pay for the cost of drilling and completing the tests; and when depletion and other expenses are included, the time will be lengthened by an additional two or three years." Under current proration programs, wells are held down to a fraction of their potential flow,

Guardsmen Halt Labor Warfare

A national guardsman posts a notice on the courthouse declaring the town of Newton, Ia., under martial law after Gov. Nelson Kraschel ordered out troops to restore order to the strike-torn city. The guardsmen halted a wild fight between 1000 demonstrators and non-union workers at the Maytag Washing Machine Company.

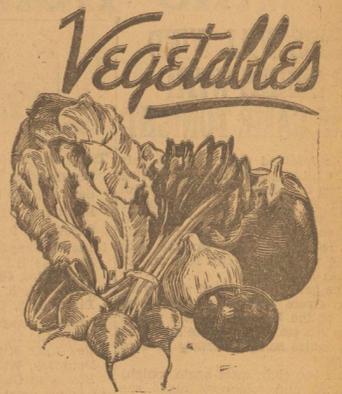

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

PARKS HURLS CARDINALS TO 6-4 VICTORY OVER BARONS HERE

CLUBS WILL WIND UP SERIES WITH ONE GAME TONIGHT

The Midland Cardinals got only one hit against the Big Spring Barons here last night but they got them in the first six innings to build up a four-run lead and that is enough for "Bardo" Parks, and left-hander came through with a 6-4 win, despite two runs in the fifth by the losers.

The game was marred slightly by errors but despite that was one of the best and fastest played in this season, only one hour and minutes being necessary to wind up.

The two clubs meet again tonight at 8:30 and tomorrow night the league leading Lubbock Hubbers are here for the first of a two-game series. According to unofficial averages, the Cardinals are two and one if games back of the Hubbers and the series here will give them a needed opportunity of climbing practically the same seat with the Hubbers.

The Cardinals really sewed up last night's game in the first two innings by making three runs off hurler Stasey of the barons. It was then that catcher Beers of the Cardinals hit a ninth inning home run the day before to cause the Cardinals to lose.

The Barons got one in the third and one in the sixth last night to come within one of tying the score, but the Cards got three in their half of the sixth to put the game on ice. The Barons got a couple of more runs in the first half of the eighth but Parks choked off their rally before they could get any closer.

Catcher Beers of the Cardinals and third baseman Capps of the Cardinals divided batting honors for the night, Beers getting a home run and a double, Capps a home run and a single.

The box score:

	AB	R	H	PO	A	E
Big Spring	4	0	1	0	2	0
Midland	4	0	1	1	2	0
Hubbert, 1	4	1	1	0	1	0
Capps, 3	4	1	2	1	3	0
Paritto, 1f	4	0	0	2	0	0
Beers, m	4	0	0	1	0	0
Beers, r	4	0	0	4	0	0
Stmdt, c	2	1	0	7	0	0
Stasey, p	3	1	0	2	0	0

Stals 33 4 6 24 9 1

Howard Hughes Forecast In History-Making Role

LOS ANGELES, (U.P.) — Howard Hughes, hero of the record-breaking flight around the world, was selected last January as one of the country's outstanding young men, it just has been revealed here.

Durward Howes, editor of "America's Young Men," a biographical dictionary, in his annual selection of names, said:

"Howard Hughes and men of his generation are the history-makers of our time."

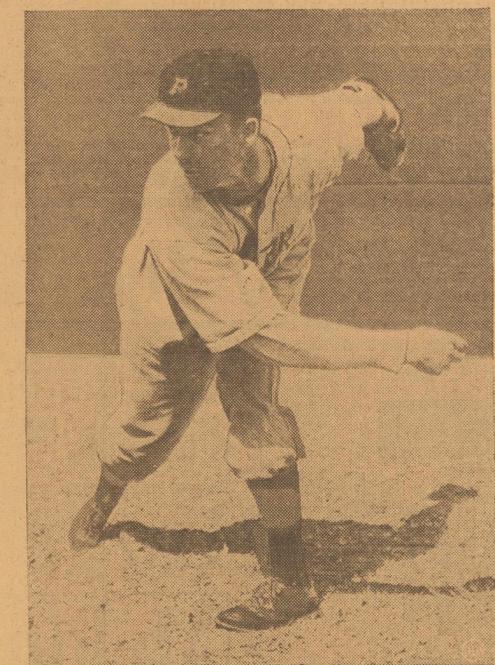

The third biennial edition of this book lists 6,532 young men as contemporary leaders. They were selected from 29,000 names submitted.

Average Motorist Drove 10,000 Miles Last Year

TULSA, Okla. (U.P.) — If you're a typical American motorist, you bought 655 gallons of gasoline in 1937 and traveled slightly less than 10,000 miles in the family car, says the American Petroleum Industries Committee.

The average automobile was used about 30 per cent more last year than it was in 1929, according to the A. P. I. C.

Pitchers Carry Load As Hitters Slump

Bob Klingler

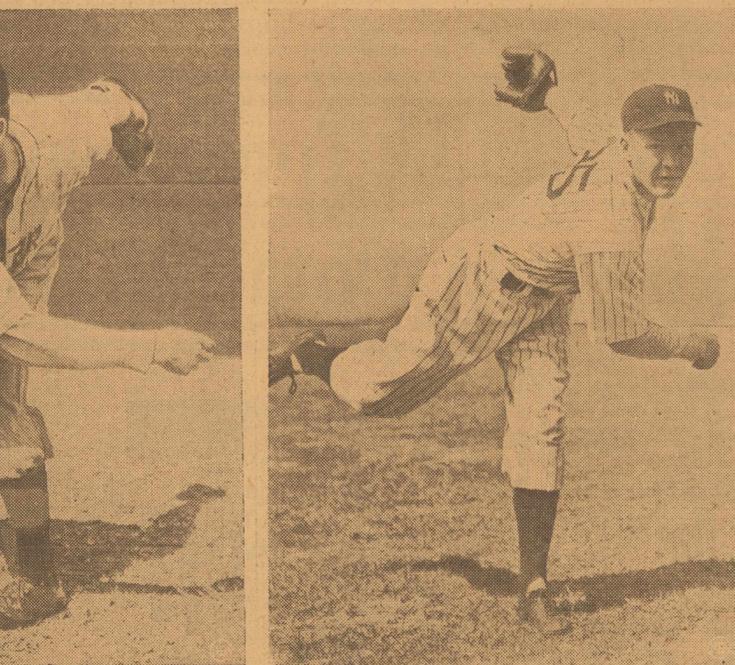

By JERRY BRONDFIELD, NEA Service Sports Writer.

NEW YORK. Despite the fact that Wally Berger, Jimmy Fox, Earl Averill, and a few others, are battering the cover off the ball, it begins to appear as though 1938 will round out into a year of pitching effectiveness rather than a season known for great strength at the plate.

A quick glance up and down the averages reveals that all the good pitchers are winning consistently and all too many of the heretofore fence busters are stumbling along at a pace far below their accustomed station.

"That's the way it appears to me," asserts Babe Ruth. "The pitchers are doing things in a big way. The all-star game developed into a pitchers' battle, and not a contest between a bunch of sluggers. And in most cases, the teams which are surprising everyone in the pennant races are being sparked by pitchers rather than hitters."

Two outstanding examples of Ruth's contention are the Cincinnati Reds and the Pittsburgh Pirates, Wally Berger, the National League's

Spurgeon Chandler

leading hitter, Ernie Lombardi, and Frank McCormick are piling up very satisfying batting averages, but it took young Johnny Vander Meer to make the Rhinelanders realize they were pennant timber.

ROOKIE SPARKS PIRATES.
 Bob Klingler, Pirate rookie, has been breezing along as smooth as silk, with the best average among senior loop hurlers. Just about a half step behind in general effectiveness are Mace Brown and Russ Bauers. Whatever the Corsairs may lack, it isn't and won't be the pitching.

Cleveland's Johnny Allen continues to set the amazing pace of a year ago when he won 15 straight before dropping the 16th to the Tigers. The lantern-jawed right-hander, and Bob Feller, are the hope and salvation to the faltering Tribe.

A lot of people thought Bob Grove was ready for the cleaners, but the Red Sox's 38-year-old veteran compiled an elegant string of 14 victories before an arm ailment caused him to walk off the mound

a few days ago.

Spurgeon Chandler, always possessed of the makings of a top-flight hurler, finally is coming into his own to bolster the Yankee mound staff which is just showing signs of snapping out of the doldrums.

Red Ruffing, meanwhile, is headed for another 20-victory year, which will help the Yanks cause no little and arl Hubbell continues to be the reason why the Giants are the team to beat in the National League.

With Tommy Bridges nowhere near his usual self, Vernon Kennedy's presence with Detroit is doubly valuable.

SLUGGERS HIT THE SKIDS.
 The picture looks like wholesale disaster when considering the hitters who have slumped on and fast: Arky Vaughan of the Pirates isn't even close to his 1937 form and the same goes for Dolph Camilli and Buddy Hassett of the Dodgers.

At this time last year Joe Med-

wick was hitting close to .400, but the Cardinal outfielder currently is below .350. A highly respectable figure, mind you, but not in keeping with Ducky's form.

The big bust of the year has been Lou Gehrig. The Iron Man hasn't been as weak at the plate since he entered the big show, and right now it looks as though he'll do well to wind up with .300.

Charley Gehring led the American League in batting last year but hasn't shown any signs of even coming close to his .371 of last year. Zeke Bonura has been a dismal failure as a slugger with Washington, and Moose Solters, who was one of the big buns in Cleveland's attack a season ago, probably won't hit his weight this trip.

Gabby Street says his Browns would get some place if it weren't for the fact that Harland Clift and Beau Bell aren't hitting in the healthy 300s.

It just isn't a year for the hitters.

Lumber Industry in Texas Shows Gains

AUSTIN.—The lumber industry during June made a quite unfavorable showing in comparison with the like month last year, but showed mixed tendencies in comparison with the preceding month, according to the University of Texas bureau of business research.

Reports from the Southern Pine association indicate a decline of 14 per cent in average weekly production per unit from June last year, but an increase of 2.2 per cent over May; average weekly shipments per unit were down 12.3 per cent and 2.7 per cent from a year ago and the preceding month, respectively. Average unfilled orders per unit on June 30 were down 12.8 per cent from the corresponding date last

Odessa Seeks New Football Coach As Brannon Named Rice Basketball Head

HOUSTON, July 28. (U.P.) — Byron (Buster) Brannon, former T. C. U. basketball and football player, Wednesday was named Rice Institute basketball coach.

Brannon, 28, coach at Odessa high school, succeeds Head Coach Jimmy Kitts, who asked to be relieved as basketball mentor to devote full time to coaching football.

The appointment of Brannon ended a month consultation by the committee during which Roy Needham, Jeff Davis high school mentor of Houston, was most prominently considered. Needham declined the position.

Brannon, who coached two years at Dublin high school and three years at Van high before taking a position at Odessa April 1, was an all-Southwest Conference basketball performer. He played guard on one T. C. U. conference champion-

ship team. He lettered three years as quarterback on the Horned Frog grid team.

Brannon played under Kitts' at Athens.

He won regional basketball laurels with his Dublin team and saw his Van quintet beaten in the district finals of the past season.

Brannon has had phenomenal success as a high school football coach. His teams have lost only four games of 46 since he started coaching.

Coast Guard Radio Aids Lake Vessels

CLEVELAND, (U.P.) — The Cleveland Coast Guard radio now is aiding vessels on the Lower Lakes with weather forecasts, hydrographic information, advisory storm warnings, and urgent notices to the Mariners' Lighthouse service.

The radiotelephone broadcasts are scheduled twice daily at 10:50 a. m. and 10:50 p. m. Storm warnings are sent at two-hour intervals, when necessary. The broadcasts are received by all vessels with radio equipment covering a frequency of 2,572 kilocycles.

Black ink can be made from white mushrooms; the common ink-cap mushroom can be used for this purpose.

"THE BEST BEER IN TOWN"

Dear Diary—

What a Summer this has been! Our family has never had so much fun. Picnics and trips. But for the first time we've really enjoyed our home. Dad and Mother have done wonders. A new porch swing and gay cretonne covers for the furniture. A croquet set for the garden, shuffleboard in the garage. My room done over—I helped with that! A sand-pile and gym corner for Bobby. Mother is mildly amazed that all this cost so little. Dad takes credit for that—he's a rabid ad-reader, and when the time came knew just what and where he could buy advantageously.

Of course, I've always been thataway too! When one has such a small allowance one soon learns to do preliminary shopping in the newspaper advertisements. And I know it was that darling blue evening frock I bought "as advertised" that brought Midshipman Duncan to his knees!

What a glorious Summer . . . thanks to our favorite newspaper and its ads!

Merritts Are Hosts To Family Reunion At Cloverdale

Mr. and Mrs. W. W. Merritt and family were hosts to a family reunion Tuesday night. The entire party gathered at the Merritt home on N. Main and then went to Cloverdale.

Those who attended were Mr. and Mrs. Jack Merritt and family, Midland; Mr. and Mrs. G. C. Merritt, and family, Midland; Mr. and Mrs. Barney Merritt, Midland; Mr. and Mrs. John Woody and children, Midland; Mr. and Mrs. Chilton Hobbs, Midland; Mr. and Mrs. Elbert Bills and children, Snyder; Miss Dora Myers, Midland; Ernest Flournoy, Midland; D. G. Collins, Odessa; Miss Ina Merritt, Midland, and the hosts.

Getting Smart, House Dress Is Promoted From the Kitchen to the Living Room

The classic house dress of the wrap-around type, upper left, is a far cry from voluminous wrap-arounds of yesteryear. Made of gayly printed dimity, this is cut on slenderizing lines and is finished in an interesting manner with ruffles of self-material. The other two new house dresses are variations of the dirndl. Either would be a perfect choice for the young, slender homemaker. The striped floral print, right, has a square neckline and a simple sash. The one on the seated figure is of dotted percale and is buttoned down the front.

(From Bloomingdale's, New York.)

By MARIAN YOUNG
NEA Service Staff Correspondent.

NEW YORK.—The newest house dresses are as fashion-right in the living room or on the porch as they are practical and comfortable in the kitchen. Except that they are as inexpensive and just as easy to wash and iron, this summer's frocks for the busy housewife to wear at her work have no relation to the voluminous wrap-around and plain white cover-all effects that distinguished (?) the house dresses of yesteryear.

For the young, slender woman, printed cotton dirndl-type house dresses take the spotlight. Cut with low necklines, short sleeves and very full skirts, these are especially suitable for one who is active. In the first place, she does not have to wear a slip or a girdle underneath such a full skirt. Secondly, a dirndl is so easy to get into that anyone can slip on a clean one while walking from the kitchen to the front door to answer the bell.

There are wrap-around frocks which can be opened out flat for ironing, of course. But they are much more subtly cut these days. Indeed, they mold the figure as flatteringly as does a dinner dress, and their skirts are flared to make legs look more graceful.

One especially attractive wrap-around house dress of this type is of a dimity print—white back-

ground with clusters of bright little blossoms, finished at neckline, sleeves and pocket with ruffles of self-fabric ruffles. The skirt which flares slightly at the hemline is amply cut so that it stays wrapped around once you get it on. It costs less than two dollars.

These days, the woman whose career is her home, buys clothes to wear while doing her daily chores as carefully as the business girl chooses street dresses for the office. She may pay ever so little for them, but she makes sure that each and every one is really becoming. She wouldn't think of wearing bedroom slippers or badly worn, broken down street shoes about the house.

Her every-day shoes probably are flat-heeled and a half size larger than those for street, but they are in good condition. They give her feet adequate support and they are not ugly.

If her budget is pretty limited, she doesn't wear very sheer, easily damaged stockings about the house, of course. But neither does she go around in old stockings that are full of runs, rips and holes. Instead, she buys service weight silk or hosiery hose which wear and wear well.

Furthermore, to protect her hair while sweeping or using the vacuum cleaner, she wears a gayly printed headkerchief—not a dust cap!

Noble will have the role of the "Old Observer."

Midland county museum in the courthouse will be open Thursday afternoon from 2:30 o'clock until 5 o'clock. The public is invited.

FRIDAY Belmont Bible class will meet with Mrs. W. P. Collins, 710 S. Weatherford, Friday afternoon at 4 o'clock.

Girls' Auxiliary Meets at Church; Sews for Orphans

When the Girls' Auxiliary of the First Baptist church met at the church Wednesday afternoon at 3 o'clock they continued work on pillow cases for Buckner's Orphans home. They began making pillow cases two weeks ago.

Seven girls and their sponsor, Mrs. Charles Skinner, attended. They were: Dorothy Shelburne, Anita Tindle, Wanda Lee Tindle, Irma Tunnell, Geneva Thompson, Evelyn Brittain, and Vernelle Howell.

Next Wednesday afternoon the girls will meet for missionary study.

Mrs. Lytle Honored With Pink and Blue Shower Wednesday

Mrs. C. E. Strawn and Mrs. Elton Hines complimented Mrs. John Lytle with a pink and blue shower at the home of Mrs. Hines, 605 W. Indiana, Wednesday evening at 6 o'clock.

Pink roses were used in decorating. The gifts were found around a large white stork.

Those present were Misses Alma Herd and Daphne Shaffer, Mmes. Johnny Sherrod, Frederick Mitchell, Susie G. Noble, John Rhoden, Jr., Clyde Pate, Hugh Lytle, F. L. Kidwell, A. R. Whitworth, and the hostesses.

Sending gifts were Mmes. C. M. Dunagan, W. L. Simmons, E. P. Connor, Josephine Ligon, Emmerson, and Misses Dorothy Hines, Beorner Kidwell, Anita Dorsey, Katherine Beauchamp, and Besta Daton.

Friday afternoon at 2 o'clock at the home of Mrs. E. L. Reagan, 211 E. Kentucky.

SATURDAY Story Hour will be held Saturday morning in the children's library at the courthouse at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5 o'clock. The public is invited.

Courtesy Rule Prevails For Animals or Tourists

NORTH BAY, Ont. (U.P.)—Police here are courteous even to animal visitors.

A young bull moose wandered into the town, so onstant T. W. Green left his post and escorted it to the outskirts. "Just as we do with all tourists who become lost."

Building Permits In State Increase

AUSTIN.—A sharp increase occurred in Texas building permits during June, both in comparison with May and with June last year. The University of Texas bureau of business research has announced. For the first six months of the year, permits were well above those of the corresponding period last year.

Reports from 40 representative Texas cities show total permits during June 39.6 per cent over the preceding month and 42.6 per cent over June last year. Aggregate permits during the first six months were 9.9 per cent above those in the first half of last year.

Indian farmers near Dal Lake, in the vale of Kashmir, grow their vegetables on floating gardens.

Good Advice About Constipation!

A doctor would tell you that the best thing to do with any ailment is to get at its cause. If you're constipated, don't fiddle with makeshift remedies. Find out what's giving you the trouble!

Chances are you won't have to look very far, if you eat just the things most people do. Most likely you don't get enough "bulk!" And "bulk" doesn't mean just a lot of food. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement.

If this is what you lack, your ticket is crisp crunchy Kellogg's All-Bran for breakfast. It contains the "bulk" you need plus the intestinal tonic, vitamin B₁.

Eat it every day, drink plenty of water, and join the "regulars!" All-Bran is made by Kellogg in Battle Creek.

Shipments of Stock From State Decline

AUSTIN.—Shipments of livestock to Fort Worth stockyards and interstate points during June were substantially below those of the like month last year because of the sharp drop in forwarding of cattle, according to the University of Texas bureau of business research. All other classes of livestock—calves, sheep and hogs—however, showed an increase over June last year.

cars, compared with 8,184 cars during the corresponding month last year, a decline of 9 per cent. Cattle shipments, 4,609 cars, declined 20 per cent; calves, 811 cars, increased 17 per cent; hogs, 490 cars, increased 19 per cent; and sheep, 1,563 cars, increased 28 per cent. During the first six months of the year shipments aggregated 40,645 cars, a decline of 13 per cent from the corresponding period last year.

According to an old city ordinance in Cleburne, Tex., a horse is a vehicle and must wear head and tail lights when traveling after dark.

3. SAVE MORE ON ICE
4. SAVE MORE ON UPKEEP

Come in and see an electric meter prove Frigidaire's lower operating cost. See how the New Silent Meter-Miser saves up to 25% more on current alone. And makes possible greater savings on food, ice and upkeep, too! It saves you money in all 4 ways. And unless a refrigerator does this, it may not save at all! A single "hidden extravagance" may waste the savings in one, two, even three other ways!

That's why the smart buyers are flocking to our Frigidaire 4-Way Saving Demonstration. They know that only Frigidaire has the miracle Meter-Miser... smooth, silent, the simplest refrigerating mechanism ever built! That only Frigidaire gives the extra work-saving usability of NEW "Double-Easy" Quickube Trays... NEWLY-STYLED 9-Way Adjustable Interior... NEW Moisture-Sealed Hydrators and a host of other exclusive advantages. Come in. See for yourself that you get more—you save more with Frigidaire!

Come in! Listen to the New SILENT METER-MISER Uses so little current—You can hardly hear it run!

Saves up to 25% MORE on electricity than even the current-saving Meter-Miser of 1937. Completely sealed. Automatically oiled and cooled. Comes with 5-Year Protection Plan backed by GENERAL MOTORS.

New "Double-Easy" QUICKUBE TRAYS Only Frigidaire has them!

1. Release cubes instantly—save 20% more ice! Only one lever to lift. All-metal for faster, cheaper freezing! No melting under faucet!
2. Trays come free at finger-touch... with exclusive Frigidaire Automatic Tray Release. Every tray a "Double-Easy" Quickube Tray! No other like it! See PROOF!

See Our 4-WAY SAVING Demonstration!

No Road Too Long for the Gadabouts

The fast-moving international set which Barbara Hutton's two foreign marriages introduced her is made up of people whose background includes more changes of one than a Max Reinhardt production.

Millicent Rogers Salm Rogers Balcom has been around some since she was just Millicent Rogers, American heiress to the oil fortune of H. Rogers. Already widely-travelled in Europe while a mere girl, it is at fashionable Biarritz that she met the fascinating Count Hugo Ludwig Salm von Hoogstraeten of Austria.

Father brought Millicent back to New York almost immediately after his meeting, for the count's reputation as a tournament tennis player throughout Europe seemed to Rogers scarcely enough qualification for a pick. But the count followed, and fascinated New York by the banality he had acquired in years rubbing about Europe.

In 1924 Millicent and her count sped, but the marriage lasted only a short time, and Millicent surprised a smart set by getting her divorce in Utrecht, Holland. Up to then Paris or Reno had been much more fashionable. Her next marriage to Arturo Peralta Ramos, a Brazilian, made her something of a commuter between South America and the United States, but when it came time to divorce Ramos, Millicent returned orthodox Reno for the ceremony.

Back to the European beat, she went, however, soon afterward, and her next marriage was in Vienna, where she became Mrs. Ronald Balcom. The Balcoms also travel.

Mrs. Gloria Morgan Vanderbilt's tentative and continual travels cost her the custody of her little daughter, Gloria. In extended hearings before a New York court, Mrs. Har- Fayne Whitney, the child's aunt, on the right to keep the child instead of the mother because, as the court and Mrs. Vanderbilt's travels had given little Gloria a life "in every way unfit, destructive of health, neglectful of her moral, spiritual, and mental education."

Travel may be broadening, but so much of it, done in the manner common to the international gene-shifters, is tough on 10-year-

Road Fund Row Stirs Missouri

ST. LOUIS, (U.P.) — An increase in the Missouri state gasoline tax is not necessary to produce sufficient funds for road construction this year, believes Roy F. Britton, president of the Automobile Club of Missouri.

Britton and the club's board of governors have gone on record as opposed to the proposal of the Citizens' Road Association for a constitutional amendment to increase state gasoline taxes from 2 to 3 cents a gallon. The amendment-petitions are now being circulated to place it on the ballot in the November general election — also would freeze registration fees on passenger cars at the present rates for the next 10 years, and would apportion highway construction funds between trunk line roads, city streets, and supplementary roads.

Britton declared that figures show Missouri has more than \$6,000,000 in the state road fund with which to match \$4,550,000 federal aid in 1938. The figures were compiled, he said, from state highway commission estimates, co-ordinated with 1937 actual receipts from gasoline taxes, registration fees, drivers' licenses and miscellaneous fees.

Denies Money is Dwindling. "The purpose of the club's estimate," Britton said, "is to dispel the impression that state road revenues are dwindling to a point where Federal aid will be reduced and to refute the argument that and increase in tax is necessary to maintain a road construction program, pending the outcome of the state highway planning survey now nearing completion."

Britton took exception to a recent state highway department report — endorsed by the Citizens' Road Association — estimating receipts and disbursements for this year. The report indicated that only \$3,579,000 of state funds will be available for construction to match Federal aid this year.

In the highway department estimates, he charged, receipts for this year were reduced to less than actual experience in 1937, and disbursement increased in certain accounts more than 1937 experience.

"In addition, a new \$1,000,000 disbursement account is included that never before has appeared in any of the department's statements of either actual or estimated receipts and disbursements. This new-found account is entitled 'cost of survey and plans, right of way, etc.' It's strange why an item of such major proportions should now appear for the first time after all these years when the state has built 15,000 miles of roads."

Offers "Rationalized" Estimate. Britton cited automobile club figures which "rationalized" the state highway estimates, an estimate authorized by Chairman C. C. Eary of the Highway Commission, and 1937 actual receipts from gasoline taxes and drivers' licenses.

"Actual gasoline tax collections in the first five months of this year exceed collections in the corresponding period last year by nearly \$500,000. Receipts from registration fees in the same period show an excess this year of \$1,260,000. Therefore, in estimating receipts for the full year, it is conservative to say that gasoline tax collections will increase at least \$500,000 over last year and that registration fees will gain approximately \$400,000.

"Consequently, estimated receipts total \$22,850,000 and disbursements \$18,812,100.

"Pretty slow reading, isn't it?" "Oh, no. It'll average one marriage, one divorce and one murder to the pound."

Holdup Men at Odds On All Except Loot

HOUSTON, Tex. (U.P.) — Two young gunmen walked into a service station here and drew a revolver on Henry Owens. "This is a stick-up," they announced in concert.

"Stand up," ordered one gunman. "Sit where you are," said the other with the revolver.

"Open the cash register," the other said.

"Sit where you are," said the other, "we'll open it."

The gunmen agreed on one thing — taking \$8.10 from Owens and fleeing.

Bandits Offer Lift To Man They Robbed

TEMPLE CITY, Cal. (U.P.) — The Good Samaritan parable was given a new setting here when three bandits slugged and robbed George M. Harrigan, of \$64.40, leaving him lying penniless and wounded on a lone highway. As Harrigan finally got to his feet and started to walk home, the three bandits came by in their car, invited him in for the purpose of driving him home and offered him both a drink and a package of cigarettes en route.

The only kindness they refused him was his request that they drive him to the police station instead of home.

Philippine First Lady Urged for Assembly

MANILA, (U.P.) — The National Assembly may have its first assemblywoman if the wishes of a number of towns in the first district of Tayabas province meet with the approval of Dona Aurora Aragon de Quezon, wife of President Manuel Quezon.

At least four municipal councils in the districts have approved resolutions asking the social worker First Lady to authorize them to launch her candidacy for assemblywoman. The resolutions have been forwarded to Mrs. Quezon, but it was considered doubtful whether she would consider running for an elective post.

Burns Get to Be A Colonel

Bob Burns, bawcock playing comedian from Van Buren, Ark., was made a full fledged colonel by Gov. E. W. Marland of Oklahoma, the commission having been delivered by Lieut. Gov. James E. Berry, shown left above, in Hollywood. Burns is in center and at right is Col. C. B. Akers, Oklahoma and Texas theatre man. Burns appears in "Tropic Holiday," opening with preview Saturday night at the Yucca theatre, as an Oklahoma politician, the first role that has taken him away from his native Arkansas. Gov. Marland conferred the colonel's title when he learned that Bob had "become a citizen of his state."

Plainsman, 83, Keeps 'On Go' for 65 Years

TULARE, Cal. (U.P.) — Eighty-three years have not dimmed the wanderlust of Capt. Fremont Scott, son of a Civil War sharpshooter with Grant's army and veteran plainsman who helped win the wild west. He passed through there en route to the Klondike to visit old friends and with the intention eventually of crossing the Bering Sea and having a look at Siberia. He has been on the "go" for 65 years.

He Lives as He Pleases And Gets Yearly Haircut

MANSFIELD, O. (U.P.) — Hugh J. Fokner, almost a Mansfield legend, is one of those rare people who live as they please.

He has not shaved in three years and his shoulder-length bob gets a haircut once a year. He works at odd jobs only when he needs some money.

Fokner, now 54, has been a "mystery man" for 17 years. Few people know his real name. The children have dubbed him "Tarzan," the grown-up "Olaf."

Louis Bromfield, Mansfield's famous author, put Fokner in two of his books.

Fokner was graduated from Oberlin Academy and had two years of college and spends his time, when he is not working, reading.

He sleeps in a room furnished by a grocery company, which employs him as a night watchman.

Your Money's Worth At Your Hotel

Hilton Hotel guests usually pay less than guests of other first-class hotels. You are never charged extra merely because the hotel is first class.

When you pay two dollars for a Hilton room, for instance, or 50 cents for a meal—you know you are not paying for anything you will not get.

The sense of well-being that goes with staying at the Hiltons—that costs you nothing.

This thing of minimum cost for maximum quality and service is a fairly new idea—introduced to Texas by the Hilton Hotels.

Can This Be Dignified Old England?

This comical sight was to be seen in London as dour-faced Bobbies leaped ungracefully (and ungraciously) into the Thames to test their life jackets, required equipment while they serve as members of the Port Authority dock patrol. Note the expression of grim determination on the face of the Bobbie just starting his leap. Although required to wear helmet, uniform and overcoat, he managed to remove his shoes.

It takes Time

With all the wonders of modern machine methods, it takes a year or more to produce an accurate timepiece.

The style and design of each may differ to meet individual tastes; but regardless of price the timepiece enhances in value with the beauty of its case.

Coors, thoroughly aged by the slower, more expensive Continental method, fits perfectly into inviting surroundings—the home—out of doors—or wherever you expect the best.

For a balanced beer that is light, and absent of sweet or bitter tones—it's Coors Pilsener.

Increased Number Of Charters Given

AUSTIN.—Charters issued to new corporations in Texas during June were in number substantially above those of the like month last year, and their total capitalization was sharply above that in June, 1937.

Aggregate capitalization during the first six months was well above that of the corresponding period last year and the total number chartered during this period was slightly above that of the first half of 1937. All groups except merchandising, transportation, and out-of-state corporations registered marked gains over June, 1937. Compared with May, manufacturing, merchandising and real estate building showed gains in number of charters granted while oil, transportation and banking-finance showed declines. A total of 128 charters was granted during June, compared with 122 in May and 99 in June last year, gains of 4.9 per cent and 29.3 per cent respectively, while total capitalization was \$5,947,000. For the first half year there was a total of 813 new corporations chartered with a total capitalization of \$15,793,000, gains of 0.2 per cent and 23.1 per cent respectively over the corresponding period last year.

Auto's Rental \$1,200.
 CLEVELAND, (O.P.) — How to collect the accumulated rental, about \$1,200, on a car they hired out a year ago is the problem of officials of a drive-it-yourself company here. The car, never returned, was found recently, and so was the man who rented it—in the Indiana state penitentiary.

Winrod Throws Politics Into a Dither

By ERNEST WARDEN
NEA Service Staff Correspondent.

WICHITA, Kas.—Opponents of Gerald P. Winrod of Wichita, who seeks the republican nomination for U. S. senator from Kansas, say that he is an "Apostle of Hate."

They contend that he is a Fascist, that he is anti-Jewish, anti-Catholic, and anti-Protestant.

Winrod, in turn, says that he has no quarrel with good Jews, and Catholics, or good Protestants—that his only quarrel is with the bad ones.

His opponents charge that his magazines—"The Defender" and "The Revealer"—were bitterly anti-Jewish and anti-Catholic up until the time Winrod entered the senate race. They cite two signed articles by Winrod. One of these, "The Woman and the Beast," attacked Catholicism; the other was titled "The Protocols and the Theory of a Jewish World Conspiracy."

OPPOSITION HASN'T JELLED.
William Allen White, famed Emporia editor, has led the fight on Winrod. White has tried to unite the anti-Winrod votes behind former Gov. Clyde Reed. But there were obstacles to such a union.

Reed, a progressive, refused to support Alf Landon for the presidency in 1936, and Landon and John Hamilton have not actively supported him against Winrod. White says nomination of Winrod would complete demoralization of the G. O. P. in the Sunflower State.

Most Kansans are either strongly pro-Winrod or definitely anti-Winrod. Twenty-one ministers and three Y. M. C. A. and Y. W. C. A. secretaries in Wichita issued a statement to the voters declaring that Winrod "appeals to religious bigotry and racial hatred and does not represent the ministers or the organized Christian forces of the city."

DIFFERENCE OF OPINION.
But 26 other Wichita ministers signed another statement in which they said, "We believe Gerald B. Winrod to be a thoroughly patriotic American, an upright Christian gentleman who has been actively engaged for many years in constructive labors for the betterment of society."

W. D. Jochems, former state supreme court justice and prominent Wichita lawyer, denounced Winrod; but two former county attorneys, one of them a Catholic, made radio appeals for his candidacy.

Thus it goes, with Winrod driving his expensive car and sound truck all over the state, attacking the New Deal in one of the most vigorous and colorful campaigns seen in these parts for many

Here is the man described by political opponents in Kansas as an "Apostle of Hate" The Rev. Gerald B. Winrod, candidate for the republican nomination for U. S. senator in the Aug. 2 primary, is pictured with his wife and their three children.

Mississippi, a new course in "Life and Literature of the South" will be taught by Dr. Philip Graham during the fall semester. It will deal with Southern poetry and the coloring of political doctrine against the Southern background during the earlier period, presenting Hayne, Poe and the minor poets of the region; in the new South period it will be concerned principally with prose fiction, with Ellen Glasgow and James Branch Cabell as the chief figures. The course is of senior credit.

Two new graduate courses will be offered, one on "Studies in Victorian Poetry," taught by Dr. J. B. Wharey during the fall semester, and the other "Studies in Milton and His Contemporaries," taught in the spring semester by Dr. E. M. Clark. Several senior courses besides the Southern literature survey will be added, including a Chaucer course, taught by Dr. M. M. Crow; "American Literature and Thought, 1690-1800," taught by Dr. Theodore Hornberger; "English Romantic Poetry—Shelley," by Dr. D. L. Clark; and "Elizabethan Literature, Exclusive of Spenser and the Drama," by Dr. D. T. Starnes. The first will be offered in the fall, the others in the spring semester.

Less advanced courses include "Study of Tennyson, Arnold and Swinburne" and "The Brownings and Rossetti," both taught by Dr. Wharey; and a reorganization of junior courses in American literature to combine both poetry and prose, dividing the field from 1800 to 1865 and from 1865 to 1900.

In addition, J. Frank Dobie will teach a course in the writing of the short story during the spring semester.

New Courses Will Be Added to Department

AUSTIN.—Several new courses will be added to the curriculum of the department of English at the University of Texas during the 1938-39 session, it has been announced. Of particular interest because it represents an extension of the English department to take in Southern literature originating east of the

Bowling Club Is Opened Here Today

Announcement of the completion and opening of the Midland Bowling Club, located at 115 South Main street, was made this morning. Two regulation Brunswick ten-pin alleys are ready to play now and two others will be installed in the near future, it was declared. A limited number of memberships will be offered to residents of Midland. Ladies nights are planned for once a week; and a high score prize will be offered each week. Later in the year, several teams are expected to be formed and a league organized.

Personals

Misses Helen and Lorena Dunagan have gone to Abilene to visit relatives.

P. A. Nelson, manager of J. C. Penny Co., here, is in Abilene attending a territorial meeting.

Harry B. Prickett has been called to Oklahoma City to attend the funeral of Russell Geisey who was district manager of the Chicago Pneumatic Tool Co.

Mrs. DeVere Ladd returned to her home in Mineral Wells today after an extended visit with her mother, Mrs. Frank Smith.

Adults Need Playgrounds, Says Recreational Expert

SYRACUSE, N. Y. (U.P.).—Playground facilities should be available for adults as well as children, Miss Ethel Bowers of the National Recreation Association declared at a Syracuse recreation institute. Miss Bowers said playgrounds as community centers, were becoming increasingly vital to the social stability of American urban areas.

But, she continued, the duty of playground directors does not confine itself to the playground. She pointed out that a part of the director's work was to teach people how to re-create their lives through play, off the playground.

The cocker spaniel was given its name because of its excellence in woodcock hunting.

Father Sues for \$1,000 Over School Punishment

CINCINNATI, O. (U.P.).—Padding Oliver Wheeler, 12-year-old Cincinnati grade school pupil, comes under the head of a luxury. The boy's father, Willis Wheeler, filed suit against James G. Andrews, an assistant principal, he charged with paddling his son. Wheeler said his son was ordered to draw a picture of a woman in a colonial costume as a part of a history lesson. The boy said he couldn't do it and then told the teacher:

"I'll bet you two bucks you can't draw it either."

The teacher reported the incident to Andrews, who allegedly then paddled the student.

Freak Deck of Cards Has 4 Suits, 4 Jokers

VANCOUVER, B. C. (U.P.).—Now is the time for all good men to watch their cards.

The recent five-suit deck of 65 cards is getting around the country, and now W. Felder of Vancouver has invented another deck of 64 cards, containing four suits of 15 cards each and four jokers. Felder believes the pack is practically cheat proof, and that it will eliminate much of the element of luck in distribution and add to the mathematical qualities of the game.

Felder's deck has additional one-spots in each suit, and one more honor per suit, the jockey, ranking between the jack and the queen. The additional jokers are called grandmasters.

Illies are recorded in these grotesque carvings.

Milwaukee Gains Many Vacationists

Thousands of folks from every state in the Union and from foreign countries are, this summer, as in previous years, spending part of their vacation in Milwaukee. Visitors are attracted to the Cream City chiefly by its cool breezes off Lake Michigan, its friendliness, its exemplary municipal government, its culture, its fine homes, and its world-famous premium beer. One of the outstanding show places of the Wisconsin metropolis is the brewery operated by the Premier-Pabst Corporation. More than one hundred thousand guests have toured the Pabst buildings since the repeal of Prohibition in 1933. And the number of visitors per year is increasing steadily. They throng to the home of Premier-Pabst because it is the oldest existing brewery in America's chief brewing center. They know that almost a hundred years of history is embodied in this vast plant which has progressed in production from three hundred barrels in 1844 to a capacity of two million barrels annually in 1938. They come to see the various processes involved in brewing carried through with a sensitive artistry and scientific precision which it has taken five generations of direct application at the Premier-Pabst plant to develop. Pabst tourists see a network of buildings covering eighteen acres, in which some 1,500 men and women are employed and over \$15,000,000 is invested. The journey's end brings the guests to the cool, restful, artistic old world Sternwirt where chilled beer and pretzels are served, and where thus refreshed and stimulated, one may assimilate the impressions accumulated in touring the plant.
