

## Restrictions In Primaries Demanded

### Sheppard Declares Amendment Needed To Regulate Votes

WASHINGTON, Aug. 25 (AP).—Senator Sheppard (D-Tex.) suggested Wednesday a constitutional amendment empowering congress to prescribe the conditions under which primary elections for federal offices shall be held.

Such an amendment, Sheppard said, would permit congress to correct the practice, denounced yesterday by President Roosevelt, of adherents of one party intervening in another party's primary. The president said at Hyde Park, N. Y., that republican intervention in the Idaho democratic primary had raised a question of "political morality."

"I think the president is right in condemning the practice, no matter which party does it," said the Texas senator, who is chairman of the senate campaign expenditures committee. "Such action paralyzes party procedure."

Sheppard said he favored also the restoration of the power taken from congress by a supreme court ruling on the corrupt practices act in the Newberry case. The decision stripped away the senate's authority to inquire into the conduct of primaries, which were held to be a state matter.

Senator James P. Pope, an administration supporter, lost in the Idaho democratic primary to Rep. D. Worth Clark, who has opposed some administration legislation.

Meanwhile, a denial that republicans had entered the Idaho democratic primary in large numbers came from Fred Babcock, republican state chairman.

President Roosevelt said that republicans were being asked to enter the democratic primaries in Georgia and Maryland, where he has urged the defeat of incumbent democratic senators, George of Georgia and Tydings of Maryland.

A request from Tydings' "New Deal" opponent, Rep. David J. Lewis, for an investigation of the senator's campaign practices was granted by Sheppard's campaign expenditures committee.

Sheppard said committee investigators would try to determine who had placed newspaper advertisements stating that the CIO was helping Lewis' campaign financially.

## Eighty-five Persons Present Today at Club Encampment

Eighty-five persons were present for the ranch-style dinner served at noon today as a feature of the second and concluding day of the home demonstration club women and 4-H girls' first annual encampment in session at the Cross Bar headquarters on the Frank Cowden ranch north of town. "Son-of-a-gun", beans, and other favorites of West Texas diners comprised the menu.

Served by women of the Westside home demonstration club, the dinner climaxed a morning devoted mostly to recreation. After breakfast served by the 4-H club girls, a baseball game between the "fats" and the "slims" brought merriment to the group. An impromptu fashion show in which girls dressed a living model in a crepe paper costume was another specialty of the program.

A rest period from 1 o'clock until 2 was to open this afternoon's schedule, according to Miss Mary Jo Wiegens, county home demonstration agent.

Mrs. J. L. Huddle and Mrs. B. L. Mason were to give demonstrations during the educational period.

Breaking of camp will be celebrated with a song service and at 4 o'clock the group is scheduled to start homeward.

Attendance much larger than was expected has characterized the encampment which opened with departure of the clubwomen and girls for the ranch Wednesday morning, according to Miss Wiegens.

Sponsored by the home demonstration council and the home demonstration clubs of the county, the encampment is expected to be an annual event in the schedule of rural club activities.

Approximately 60 persons, it was estimated, spent the night at the camp.

### Mourner Finds Husband Dead.

CLEVELAND (U.P.)—Mrs. Lillian Peters returned from a funeral to find that her husband, Herman, had committed suicide by shooting himself through the right temple.

## Barbara and Her Count Meet Again

(NEA Radiophoto)

A three-day visit of Count Haugwitz-Revontlow to his estranged wife, the former Barbara Hutton, led some of their friends to believe a reconciliation was in the making. Barbara and the Count are pictured in the exclusive radiophoto above at a tea foursome on the terrace of a hotel on the Lido at Venice. Countess Barbara is at right, and the Count is seen at the center, leaning towards her. At left are two friends. Although the Count and Countess met amiably, the Count finally left Venice for Vienna and did not, apparently unsuccessful in any attempt at patching up their differences.

## Vacuum Pool Producing Limits Pushed Mile East By Phillips

BY FRANK GARDNER.

Producing limits of the Vacuum pool, Lea county, N. M., were pushed a mile farther eastward today as Phillips Petroleum Company No. 7 Santa Fe, section 27-17s-35e, flowed 129 barrels of oil through 2-inch tubing the first four hours of testing. The well began flowing after it had been swabbed in through tubing. It has not yet been acidized or shot, having drilled almost continuous pay over the last 250 feet in going to total depth of 4,610 in lime. It is a mile and a quarter southeast of Phillips No. 6 Santa Fe, a producer which recently extended the southeast portion of pool two miles northeast.

Two miles southeast of the No. 7 Santa Fe extension well, Helme-rich & Payne, Inc. and Conoco No. 1-G-36 State, section 36-17s-35e, is drilling past 3,640 feet in anhydrite. It is checking low to No. 7 Santa Fe on upper markers.

Increases in oil were logged from 4,513-18 and from 4,554-66 by Magnolia No. 1-L State, west offset to Phillips No. 6 Santa Fe. It is drilling ahead below 4,566 Phillips No. 9 Santa Fe is coring at 4,468 in lime, while Drilling and Exploration Company No. 1 Amerasia-State had drilled to 4,422 in lime. Three-quarters of a mile west of the south part of the pool, Texas No. 1-S State is drilling at 2,800 feet in anhydrite.

Depth of 4,753 feet in lime had been reached by Tide Water No. 1-L State, wildcat in section 23-1s-36e, three miles east of Tatum in north-eastern Lea.

Dickens' First Producer. Dickens' first producer, J. F. Morris No. 1 C. D. Bird, was shut in today while operators moved in cottonseed hulls which will be pumped in behind leaky 5 3/16-inch casing to shut off salt water. The well had 2,150 feet of fluid in the hole, estimated 40 per cent oil and 60 per cent water. The well has pipe set at 2,508, shutting off slight upper oil showings. It found main pay in saturated Blaine limestone from 2,511-36, depth at 2,536 having been corrected from 2,570 by sand-line measurement. Total depth now is 2,550 feet.

Two days ago, No. 1 Bird was acidized with 1,000 gallons, initial injection pressure of 1,000 pounds dropping to 400 pounds after 45 minutes. Operators began swabbing, only to have swab blown out of the hole on the third run. Following swab out, it headed 60 feet over the mast, apparently recovering all oil and acid. Estimates on the well's eventual productivity ranged from 100 barrels a day up to 400, but it would be only a small producer. Gas volume is said to be low.

Slaughter Extension Swabs Oil. Gulf Oil Corporation No. 2 Mallet Land & Cattle Company, pointing to a three-mile north extension of the east side of the Slaughter pool in southwestern Hockley, is drilling at 5,939 feet in lime, having swabbed 90 barrels of oil during the past 24 hours. Steel line measurement corrected depth at 5,033 to equal 5,053. The well has logged its only pay thus far from 4,975-85 and from 4,993 to 5,004, old measurement.

In eastern Cochran, Texas No. 1 Dela Slaughter Wright had drilled unchanged to 4,673 feet in lime. Magnolia No. 1 Wright is building rotary derrick.

In Yoakum, Denver pool, Texas No. 1 Miller is drilling at 5,032 feet in lime, having flowed 35 barrels of oil during the past 24 hours while drilling. Gas volume gauges 692,000 cubic feet daily. Shell No. 4 Dowden is drilling at 4,313 in anhydrite, while Shell No. 4 Lowe is drilling at 33 feet in caliche. Don Danvers et al. No. 2 Shell-Lynn is drilling at 4,294 in anhydrite and lime.

West of the pool, Shell No. 4 Roberts, southwest outpost of the Roberts area, is drilling at 3,996 in anhydrite and gyp. Texas No. 1 Edward Randall, south offset to the Texas discovery in the Walker area west of the Denver pool, swabbed 122 barrels of fluid in 18 hours, out eight percent with basic sediment and water.

Olson Water Increases. Olson Drilling Company No. 1 Lockhart & Brown, Andrews wildcat in section 20, block A-41, public school land, is shut down for orders today, bottomed at 4,981 feet in lime. It found sulphur water at 4,913, with large increase from 4,944 to total depth. Last night, on eight-hour bailing test, it recovered 31 barrels of sulphur water, water level staying at 1,400 feet from bottom while bailing. Operator said "mexhausted sulphur water" requirements of contributing companies. The well may be plugged back to 4,750 and given nitro shot in the entire pay section. It pumped 16 barrels of oil and six barrels of water per day while bottomed at 4,780, following acid treatments and shoals.

Sinclair-Prairie No. 2-B Paul Moss, showing for half-mile southwest extension of the Moss area in Ector, is drilling unchanged at 4,024 feet in lime, carrying 600 feet of oil in the hole.

## Party Purge Talked--

# Roosevelt, Farley in Conference

## Eight Arrests Considered In 4 Deaths

### Officials Study How Convicts Were "Baked to Death"

PHILADELPHIA, Aug. 25 (AP).—The arrest of at least eight persons in connection with the "baking to death" of four convicts in the county jail here was predicted today by Coroner Charles Hersch.

Investigators announced they would "turn on the heat" and enter the cells where the four hunger strikers were suffocated as they wished to learn whether the cell was a "deliberately planned roaster—as horrible as the black hole of Calcutta." They planned to subject themselves to the same temperatures as the prisoners faced.

Hersch announced he was requesting Governor Earle for state troopers to take over the prison during the investigation.

## Two Men Captured After Official Is Shot in Dimmit

AMARILLO, Aug. 25 (AP).—Two men who fled from Amarillo in an automobile belonging to Sheriff Garland Brown of Dimmit after the wounding of J. F. Easter, county justice of the peace, there Wednesday afternoon were captured in Deaf Smith county last night.

Neither of the men, offered resistance, officers said, although one was taken after a hectic 20-mile chase on highway 60.

The men, Bob McDonald and Carl Patton, were being held in jail at Hereford.

Easter, who suffered the loss of one finger on the right hand when shot by one of the two men, was in Northwest Texas hospital here. His condition was reported as good.

The shooting occurred in front of the real estate office of Louie F. Johnson about 4:40 o'clock after one of the pair wrestled a pistol from Easter while Easter and the two men were seated in the sheriff's automobile.

The pair were arrested by Deputy Sheriff Wallace Cox of Deaf Smith county and Carl Hill, Jr., employed by the county agency's office there. "We arrested Patton on the street here in Hereford," said Cox. "He had come here to get some clothes he had left here."

"McDonald came by in Sheriff Brown's car to pick up Patton, and when he saw us he took out. We chased him about 20 miles, or within three miles of Friona, before we were able to bring him to a halt. We turned on our siren and he pulled to the side of the road and gave up."

## Workers Alliance Officials Deny Aiding Campaigns

WASHINGTON, Aug. 25 (AP).—Officials of the Workers Alliance today denied intent to contribute to any candidate's campaign fund from the \$50,000 it is raising from WPA workers and others. The announcement was contained in a statement received by chairman Sheppard of the senate campaign expenditures committee.

The officials said the money would be used in "general furtherance of making clear political issues and interests of WPA workers and unemployed."

## Did You Know--

That Jimmy Morris is the only native Texas boy on the Midland Cardinal team? His home town is San Antonio.

He came to Midland via. Hobbs so is listed as one of the Originals—meaning one of the six retained by Manager Fincher Withers after the 1937 season. He has played both center field and first base positions so this former experience explains why he is put on first base when it becomes necessary to juggle the team around for various reasons.

During this season he has been playing left field and anyone popping a ball in that direction is just the same as "out." I don't believe I've ever seen Jimmy miss one.

Jimmy is 5 feet-11 inches tall and weighs 175 pounds; is twenty-three years old. Further records will show that he "bats and throws, left." That statement is very compact but means a lot. In baseball everything has been studied to a fine point so the fact that a player "bats and throws, right or left" is of importance.

Jimmy is a mainstay of the Cards and is one of the most valuable men on the team.

There are so many, many interesting things about these fourteen boys and their manager to relate that it is going to be a painful job to cut the material to fit the space and time. The season is drawing nearer and nearer to a close and I see (CARDS) Page SIX

## 'Pickets' Protest Transfer of Beloved Priest

Determined to maintain their vigil until assured they will not lose their beloved parish priest, the Rev. Simon Borzkowski, left above, his parishioners plodded up and down day after day before the St. Barbara rectory at Vulcan, Mich. At one point a group like the one shown above at right physically prevented the priest from leaving by a rear door in obedience to orders untransferring him. "He belongs to these people," said a spokesman. "They love him, and they want him."

## Hines Says Witness Lied About Paying Him Graft Money

NEW YORK, Aug. 25 (AP).—James J. Hines, veteran Tammany district leader accused of accepting money to protect the Dutch Schultz policy racket, stood in supreme court Wednesday and cried out that George Weinberg, one of the state's principal witnesses then on the stand, was lying.

The dramatic moment came after Lloyd Paul Stryker, chief defense lawyer, had begun cross examination of the witness.

Weinberg, a henchman of Schultz, had testified he paid Hines \$500 a week or more for protection, starting in the spring of 1932. The payments, he testified, took place frequently in Hines' apartment. Stryker asked Weinberg if he was sure he had paid Hines there in the summer of 1932.

Weinberg insisted he had. "Didn't you know," Stryker suddenly shouted, "that Mr. Hines never moved into that apartment until the first day of October 1932?"

The witness, apparently undismayed, shook his head.

District Attorney Thomas E. Dewey and his associates looked a little surprised. For a day and a half Dewey had led Weinberg through the mazes of the Schultz policy operations, drawing descriptions of various occurrences, the payment of money to Hines, the story of the transfer of police who raided the policy banks, and the story of two magistrates' court conducting the Mustang organization which is showing consistent growth.

O. B. Ferguson, accountant with the local offices of Horton & Bixler, made a brief talk on business auditing. He pointed out the need of regular audits as a means of keeping down expense, preventing fraud and avoiding pitfalls. He urged that all governmental bodies be subjected to regular audits, some states having made such check-ups compulsory, by law.

He said that the auditor should be a certified accountant and should be connected with a bonded firm, thereby making the audit good with financial houses or in the courts, the bond protecting against any mistakes.

Mr. Ferguson has been a certified accountant in England, spending several years in diplomatic corps auditing work.

Visitors at the luncheon today included Rotarians Ed Fisher of Houston, Hans Schroeder of Brownwood, Alfred Stiles of Sweetwater, A. J. Hunt, T. D. Murphy, J. J. Willis and Paul Moss of Odessa, also Joe Pond of Colorado, Gene Dawson of Los Angeles and H. H. Kendrick of Midland.

Fred Middleton and Mrs. Brunson attended funeral services.

He Sows and Finally Reaps. NORTH BROOKSVILLE, Me. (U.P.)—While sowing oats in 1910, Brooks W. Grindle lost a graduation ring he had worn since 1886. Recently while working in the same field, he turned up the long missing ring.

Dog Causes Fatal Shot. UKIAH, Cal. (U.P.)—Hiram E. Stewart, 69, died here as a result of being accidentally shot by his favorite hunting dog. Stewart was hunting and had leaned his gun against a tree, when the dog happened to brush by, discharged it.

Students Indorse R. O. T. C. CORVALLIS, Ore. (U.P.)—Compulsory military training in colleges was favored, 3 to 1, in a recent ballot at Oregon State college.

Redwood City, Cal. (U.P.)—The will of the late Mrs. Anna Getto disclosed the fact that she had not only willed away her property in the customary legal manner but that she also willed away the possession of her 9-year-old adopted daughter to friends.

Her husband is contesting the right to will away the child.

## Officials Say Japanese Warfare Will End Soon

TOKYO (Correspondence of the Associated Press)—Well-informed Japanese believe the war in China is nearly finished.

"The air is thick with peace," one high-ranking government official has put it.

For home consumption, however, Japanese officials make such statements as that of Lieut.-General Seishiro Itagaki, war minister, who asserted recently that Japan would continue fighting as long as Chiang Kai-Shek remained head of the Chinese government, and added:

"That may be for 10 to 20 years." The government is calling on the public to make great sacrifices, and it is believed the various campaigns for thrift and "spiritual mobilization" would come to a quick end if the man on the street thought the war was nearly over.

It was an undeclared war, and informed Japanese believe it will be an undeclared peace.

In their view there never will be formal cessation of hostilities, with a meeting of diplomats to draw up the legal documents of peace.

The war simply will peter out. Publicly, Japanese military men say they will chase Chiang clear to the borders of Tibet, if necessary.

Privately, they are saying that "it may be possible to halt the offensive" after capture of Hankow and a drive toward the south.

What they plan to do is to carve out a chunk of China, along the coastline, then stop.

Once they stop the positions will be reversed. Japan will be on the defensive.

Military men believe that when the Japanese army ceases to attack, the fighting gradually will slow down, then stop entirely. In this plan of inaction, Japan would find two advantages—defensive fighting is cheaper both in blood and money, and Japan would have an opportunity to start reconstruction of the occupied areas so as to regain from them some of the money she has spent.

Mustang Report, Auditing Talk on Rotary Program. Report on the recent trip of 44 Mustang boys to the Davis mountains was made at the Rotary club luncheon today by H. H. Kendrick, who was in charge of the outing. A letter thanking the club, signed by boys making the trip, was read. Part of the expenses were made through sale of first aid kits by the boys themselves, part was donated, merchandise was sold by local concerns at cost and the Rotary club's part amounted to \$89.28.

Upon motion of Addison Wadley, the club voted thanks to Mr. Kendrick for his work in organizing and conducting the Mustang organization which is showing consistent growth.

O. B. Ferguson, accountant with the local offices of Horton & Bixler, made a brief talk on business auditing. He pointed out the need of regular audits as a means of keeping down expense, preventing fraud and avoiding pitfalls. He urged that all governmental bodies be subjected to regular audits, some states having made such check-ups compulsory, by law.

He said that the auditor should be a certified accountant and should be connected with a bonded firm, thereby making the audit good with financial houses or in the courts, the bond protecting against any mistakes.

Mr. Ferguson has been a certified accountant in England, spending several years in diplomatic corps auditing work.

Visitors at the luncheon today included Rotarians Ed Fisher of Houston, Hans Schroeder of Brownwood, Alfred Stiles of Sweetwater, A. J. Hunt, T. D. Murphy, J. J. Willis and Paul Moss of Odessa, also Joe Pond of Colorado, Gene Dawson of Los Angeles and H. H. Kendrick of Midland.

Fred Middleton and Mrs. Brunson attended funeral services.

## Drive on Foes May Be Result

Developments in  
Half Dozen States  
Interest President

HYDE PARK, Aug. 25 (AP).—President Roosevelt called Postmaster Farley into a conference today which may result in an intensified administration drive to defeat anti-new deal democrats in congress.

The conference, scheduled for some time today and tomorrow, was considered one of the most politically important of the president's stay here.

Roosevelt presumably wished to discuss campaign developments in a half dozen states.

Farley's advice was expected to partly determine whether the president will make a personal bid in Maryland for the defeat of Senator Tydings, an administration foe.

Possibility of a rift in the democratic hierarchy, involving President Roosevelt and Farley, Wednesday night appeared to hinge on the decision of Senator James A. Pope (Dem.) of Idaho to run, or not to run, as an independent candidate in the November elections.

The new deal senator, who was defeated by Conservative Representative D. Worth Clark in the recent Idaho democratic primary, apparently holds the key to a ticklish situation which may result in confirming whether Mr. Roosevelt and Farley really have broken or are on the verge of a break.

Two important developments—Mr. Roosevelt's blast against republicans voting in democratic primaries, and Farley's endorsement of Clark after the primary—have rendered the Idaho matter complex.

At the Hyde Park (N. Y.) summer White House Tuesday, the president attacked the political morality of republican intervention in the democratic polls. He mentioned Pope's defeat specifically, and his words generally were interpreted as a build-up for the senator's independent candidacy.

General Upswing  
In Business Seen  
In Reports Today

WASHINGTON, Aug. 25 (AP).—Three federal agencies offered today statistical evidence of substantial business improvement in recent weeks.

The federal reserve board calculated the upswing in steel, textiles, petroleum, shoes and other industries had won back in seven weeks all the ground lost in seven months. The commerce department reported the first favorable turn in national income in nearly a year. The nation's income for the first seven-months this year was estimated at more than \$35,000,000,000.

The treasury reported a 25 per cent spurt in customs collections and indicated purchases of raw materials and other merchandise was increasing.

Nazi War Might  
Paraded Before  
Hungarian Group

BERLIN, Aug. 25 (AP).—Regent Horthy and high Hungarian officials today watched German military might in a two-hour parade. It was the largest military display in Germany since the World War.

Huge tanks not shown previously were trundled through the streets and the biggest howitzers ever seen in Germany were also exhibited.

For the first time, officers gave the nazi salute instead of the military salute as the result of a recent order applying to parades before Hitler.

Relatives Attend  
Sweetwater Funeral

Funeral services for Mrs. Les Crawford, whose death occurred Saturday night at Fort Worth, were held Wednesday at Sweetwater, her former home. Mrs. Crawford was a sister of Monte Preston of Midland, and a cousin of Sam, Tom and Bob Preston of Midland. She is survived by her husband and a daughter.

Going from here to the funeral were Mr. and Mrs. Monte Preston and son, Jack, Tom and Bob Preston.

TEACHER HERE.

Miss Katherine Anderson, former teacher at junior high school here, visited friends in Midland today. She has been teaching at Crane but will be connected with the Wink public schools this year.

FROM BALLINGER.

Doris Currie returned Wednesday from Ballinger where she has spent the last six weeks.

## BEHIND THE SCENES IN WASHINGTON

WASHINGTON—As they used to say back in the days of business II, he is funny.

Dr. Willard L. Thorp, economist, is qualified to appreciate the fact. Thorp was recruited in earliest New Deal days to be director of the bureau of foreign and domestic commerce. As an Amherst professor, he had made best use of his voice by registering as a republican.

Theodore Bilbo, since known in Mississippi as "Pastemaster General" because he was then clipping and pasting newspaper items for AAA at \$5000 a year, learned of this skeleton in the Thorp closet and charged in his senatorial campaign against Senator Hubert Stephens that the Thorp was the type of poltroon who supported republicans for office while many good Missisippians went plumes.

Stephens as chairman of the senate commerce committee, answered this foul slur by block-

ing Thorp's confirmation and forcing him out. He was aided in this by patronage-minded minor officials of Thorp's bureau, installed by Secretary Roper. These officials lobbied desperately against the director.

Thorp was given other important New Deal posts. Bilbo beat Stephens anyway and Stephens, after a brief lame-duck term as an RNC director, became a Washington lawyer-lobbyist.

You must know all this to appreciate such humor as there may be in the fact that Thorp lately has been reorganizing the bureau of foreign and domestic commerce. The last leader of the bureau's political gang which helped out Thorp's throat four years ago is out now—after a period in which the bureau fell apart from inefficiency and lack of leadership. More bureau shakeups are imminent.

**SALARY LURED THORP**  
The real secretary of commerce now is Assistant Secretary Richard C. Patterson Jr., recently executive vice president of the National Broadcasting company. Roper took a long summer vacation. He left Patterson with the worst-run department in Washington and the job of doing something about the bureau.

Then on to Patterson was piled the department's assigned part in the so-called monopoly investigation. He looked through the department, once great in prestige under Herbert Hoover—whose

## War Maneuvers Bring Out All Germans

special pet was the bureau—and couldn't find a single man he thought capable of producing the goods.

Just before NRA was busted Thorp had been chairman of its important advisory council. A. D. Whiteside, a member of the NRA administrative board and president of the famous New York firm of Dun & Bradstreet, was pulling out to return to his business and persuaded Thorp to become his firm's director of economic research as well as editor of Dun's Review. Thorp left to accept a salary far in excess of anything paid by the government.

**PATTERSON'S PLAN**  
Patterson telephoned Thorp. "We're in a hell of a hole," he said. "There isn't anyone who can do this job except you. If the department can't fulfill this assignment, it might as well fold up."

Being human, Thorp liked this. He obtained leave and came down to handle the department's end of the "monopoly" investigation. It was only after he arrived that Patterson explained he also wanted him to make a going concern out of the bureau.

Thorp didn't mind that, either. The bureau still has able veterans, most of whom have often wished Hoover was secretary again. But as they rejoiced, many inefficient jobholders—including some who had lobbied against Thorp—quaked as they heard the news.

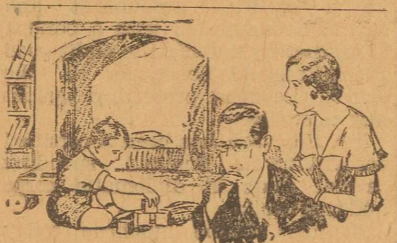

And Thorp is trying to do what politicians kept him from doing four years ago. To make the bureau familiar with American business problems, so business men and other government agencies can turn to it for help and information.

Here is one government agency where a big business man and an outstanding adviser of big business are running the show.

**Trophy Ring Wedding Band.**

## The Town Quack

W. Lee O'Daniel changing his tactics, elicited a gentle squeak-back yesterday by a couple of O'Daniel supporters. This writer was responsible for the heading. Possibly it was inappropriate, but Webster's dictionary describes "chameleon" thus:

1. Any of a group of peculiar Old World acrodont lizards having a laterally compressed body, prehensile tail and opposed digits.  
"They are very slow in their movements BUT CAN SHOOT OUT THEIR TONGUE FOR A DISTANCE NEARLY EQUAL THEIR LENGTH to catch insects."  
"They are remarkable for the changes of color of the skin, which depend on the temper and passions of the animal, as well as on surrounding conditions."  
"The chameleon was formerly supposed to feed upon air."  
"... (repetition)."  
"3. A persons having some of the real or supposed characteristics of a chameleon, as a fickle or inconstant person..."

**Old Lock to Be Exhibited.**

### Tables Turned Perfectly.

SAN FRANCISCO (UP).—Edward Collins, 27, feels that he has more than paid his debt to society. On the day he was released from San Quentin prison where he had served a term for robbery with firearms, he was held up in this city and robbed of his trousers and \$28 in cash by two gunmen.

### Left Turn Most Perilous.

TULARE, Cal. (UP).—"Beware of the left turn" is the warning of Cpt. W. E. Riley of the California Highway Patrol. His statistics show that 60 per cent of all auto accidents are due to wrong signals and the left turn.

### Life Goes Round 'n Round.

DES MOINES, Ia. (UP).—Ten thousand miles in a circle, that's George Gorsuchs' record. The 68-year-old amusement park employee says he has traveled that far operating a merry-go-round for the past 22 years.

### China Still Ships Eggs.

CLEVELAND (UP).—The war in China has not stopped shipment of fragile foods. Records show that eggs—217 dozens of them—were received here in April, at 19 1/2 cents a dozen, exclusive of duty.

### Butcher Snaps Bull's Neck.

BEALIBA, Australia (UP).—When charged by a bull, J. E. Matthews, local butcher, seized it by the horns and allowed his entire weight to be carried by the bull's head until its neck was broken.

## BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.  
The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.  
Frequent or scanty passages with aching and burning shows there may be something wrong with your kidneys or bladder.  
If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.  
Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

## THIS IS MY DAY OUT— BUT IT USED TO BE MY WORST DAY OF THE WEEK

Take a lesson from the smart, modern young housewife who calls 90 for complete laundry service! She used to bend over a steaming washtub—now she goes to the movies, plays bridge, or has fun with her children. And we do the wash more economically, more scientifically than you can at home!

**MIDLAND STEAM LAUNDRY**

### Student, 17, Is Godmother.

PITTSFIELD, Mass. (UP).—A 17-year-old North Adams student nurse is the godmother of 73-year-old Frederick Heanshaw. When Heanshaw was baptized, Miss Choquette consented to be his godmother.

### Family of 10 Flies.

MIAMI, Fla. (UP).—The family of Camilo Saenz, which numbers 10, made a journey from their home in Bogota, Colombia, to New York entirely by air. The 3,000-mile trip was made in 40 hours.

READ THE CLASSIFIEDS

### But Bill has produced a lot more beard than most of us thought he could.

Little George McEntire would risk his good right eye to see a ball game, and he almost let it get away the other night.

"It was in the seventh inning, with the score tied up," George said, by way of explanation.

Dr. Thomas says Bill Collins' beard is like a West Texas town—covers a lot of territory but is sparsely settled.

Here's how Blondy Cross, sports-writer of the Angelo Standard-Times got in dutch with some O'Daniel men:

What Do You Think?  
Headline, "A Chameleon," carried over a brief news note about

## Mrs. Laughlin Honors Newcomer At Afternoon Party

In courtesy to Mrs. Jack Mitchell who is a newcomer to Midland, Mrs. S. M. Laughlin entertained with two tables of bridge at her home, 210 S. Marienfeld, Wednesday afternoon.

Nasturtiums, roses, and zinnias stressed a summer theme in flower decorations, while summer colors of blue and white were chosen for table linens and prizes were wrapped in blue, white, and red.

In the afternoon's games, prize for high score was won by Mrs. Bill Collyns and travel prize by Mrs. Tom Rainbolt.

A salad plate was served at the conclusion of play to: The honoree, Mrs. Geo. Bennett, Preston Bridge-water, Collins, Butler Hurley, Rainbolt, O. G. Smith, L. A. Tullos; two tea guests, Mrs. Cotter Hiett and Mrs. Payton Thurmon, and the hostess.

## Country Club Dance Compliments Two Visitors From Spur

Jessa Lynn Tuttle was hostess to a formal dance at the Country Club Wednesday evening, complimenting two guests, Lillian Grace Dickson and Carl Arthur of Spur.

Chaperones were the hostess' mother, Mrs. J. A. Tuttle, and her aunt, Mrs. Horace Hyatt of Spur.

Music for dancing was supplied by the club nickelodeon.

A crowd estimated at more than 75 young people was present.

## Elegance in Velvet and Ermine

The fall 1938 edict for elegance in evening fashions is exemplified in this youthful gown of black velvet with quaint puff sleeves of snowy white ermine. Bands of matching ermine outline the top of the bodice.

## Household Hints

### Variety Adds Zest.

Use fully ripe, very red tomatoes for tomato cocktail. Peel, cut in small pieces, and serve. Season and add a little tabasco sauce, lemon juice, or horseradish for variety.

### Flavorful Canned Tomatoes.

When selecting tomatoes for canning, avoid using any that are even slightly molded or off-flavor. Even a slight taint in one tomato will spoil the delicious flavor of an entire jar.

### New Water Safety Device.

Safety in the water is an important factor to the ultimate pleasure of your summer vacation, be it in the mountains or at the seaside. Perhaps you are learning to swim but lack confidence. A new safety device that attaches to your swimming belt is so small that it cannot possibly interfere with your movement in the water, yet inflates in about three seconds to sufficient size to float even a fairly heavy person twelve hours. The device consists of an inner tube and a cartridge of bouyant gas inside an outer rubber tube. Breaking the cartridge at one end of the rubber tube releases the gas and inflates the tube to about the size of a football. Good to wear over outer clothing, too, on fishing or boating trips.

### Acme of Pressing Efficiency.

With all the marvelous new laundry equipment now on the market, there is no reason for a "blue Monday." The newest iron uses both steam and electricity to produce a maximum of efficiency. Simply fill the water compartment in the iron, connect with electric current and proceed with the pressing. Laundry is dampened as it is pressed, danger of scorching is eliminated, and it may be used, too, for steaming velvets and glazing furs.

## Mid-Summer Meals Bring Desire for Variety of Dishes

### By BARBARA B. BROOKS.

By the middle of summer the novelty of cold meals has worn off. Sandwiches and salads, iced drinks and chilled desserts have lost their charm, and there is a tendency, especially on the part of the men folks, to demand "regular" meals.

One way for the homemaker to out-distance the heat is to prepare as much food as possible in the early part of the day. Vegetables can be cleaned and placed in the refrigerator, casserole dishes can be ready all except a last minute of heating, and dessert can consist of fruit, crackers and cheese or

Saturday" slogans on the streets have the right idea. There is a certain obligation to vote—especially if you wish to have any right to make remarks about the way things are run after the election.

Isn't it Australia which fines a voter about \$10 when he doesn't vote? That may be the right idea, too.

There's a new, alluring adjective that is being used in advertising beautiful gowns. The prospective purchaser is exhorted to be a "Glow Girl" in a certain frock. Lovely, isn't it? Do these copy writers for the big stores know their business? We'll say they do.

## We, The Women

By RUTH MILLETT.

Men aren't all alike—no matter how many disillusioned women swear they are. But they are all alike in some ways. And that is why the technique that works with one man is almost sure to work with them all.

Result: The girl who knows how to interest one man attracts one after another. And the girl who can't get one man's attention fails time and time again.

In short, we are willing to guarantee that the man you are interested in at the moment likes: Good looking women. Women who make a man feel both smart and handsome.

Women whose clothes fit where they should fit. Women who walk like queens. Women who shine with cleanliness.

Women who seem dependent on a man's strength.

Women whose voices are low and pleasant.

Women who are gracious in the role of either hostess or guest.

Women who smile with their whole face—not just with their lips.

Women who glow with health.

Women who are a little bit demanding.

Women who can make a man feel at ease.

And it is a safe bet that this same man doesn't like:

Women who show their "ownership" before a man's friends or, worse yet, before an attractive woman.

Women who are so ill-at-ease that their self-consciousness is contagious.

Women who insist on worrying out loud.

Women who fill their conversation with the names of other men.

Women who never have anything good to say about another woman.

Women who are grimly ambitious for themselves.

Women who take the center of the stage.

Women who make themselves conspicuous, either by being loud or wearing loud clothes.

Women who punctuate their conversation with frequent profanity.

Women who tell questionable stories. (Though listening isn't barred.)

Women who drink too much.

Women who have a drab look.

Women who can take care of themselves—and never let a man forget it.

Free Ventilation.

Constant free circulation of air is the basis of cool ventilation. Keep the windows open at both top and bottom—open at the bottom to draw the cooler air into the room, open at the top to allow the hot air which has naturally risen toward the ceiling to escape. More actual comfort from your electric fan will be enjoyed if the fan is placed in such a position that it forces the hot air out of the upper window than by actually sitting in the path of its draft.

We are accustomed to thinking of the robot as something really new, something that is the essence of this Twentieth Century.

Apparently this age is not quite so clever as it believes itself to be since there is now in the Franklin Institute at Philadelphia the rejuvenated remains of a robot-like doll which the French inventor, Maillard, made about 200 years ago. The doll can write a verse in English and can draw three different pictures, accompanying its work by realistic gestures expressing pleasure or distaste.

The original doll was a boy's figure. But when presented to the Institute the head was gone and the entire mechanism with its mass of springs and contraptions had to be reworked. So the rejuvenators made the ancient robot into the guise of a girl.

It is something to reflect that men 200 years ago could project their minds almost as far into the future of mechanical invention as can the man of 1938.

For an example of having a good time, we commend study of a group of women on an all-women picnic.

Had you noticed how becoming cowboy garb is to the average man? Take a look at your next-door neighbor when he sallies forth for the day's work clad in vivid shirt and brilliant bandanna. You'll be surprised.

# CARDS LOSE TO WINK 7-15

## SUYTAR LOSING PITCHER; PLAYS EVERY POSITION

One of the largest crowds of the season last night saw the Midland Cardinals take a 15-7 drubbing at the hand of the Wink Spudders in what had officially been designated as Jake Suytar and Rodeo night.

The elongated first baseman of the Cards played every position during the game and, incidentally, was the losing pitcher. Jake started on the mound and before the Spudders could be retired they had rapped him for three hits which, combined with four walks and one hit batsman, were good for six runs.

The two clubs meet again tonight in the second game of the series and wind up the season's play against each other in a game here tomorrow night.

In the game last night, the Cardinals used three pitchers but none of them were very effective against the Spudders. Cliff Neighbors followed Suytar on the mound and surrendered three runs in three innings. Tommy Warren then took over and gave up six runs in the last five frames. Before retiring, Neighbors got his lone home run of the year. First baseman Jubela hit one for the winners.

After their six-run outburst in the first, the Spudders got one in the second, two in the third, one in the fifth, two in the sixth, two in the eighth and one in the ninth.

The Cardinals could not score until the third when they picked up one run and then got three more in the fourth. Their final three tallies came in the seventh.

The box score:

Wink	AB	R	H	PO	A	E
Spangler 3	6	0	1	1	3	0
Simpson ss	5	1	1	2	2	1
Reeves m	5	2	1	0	0	1
Lemuller lf	5	2	2	0	1	1
Jubela r	5	3	3	12	0	0
Rey 2	4	2	1	3	3	1
Stone r	5	2	3	0	0	0
Bates c	4	2	2	7	0	0
Ferguson p	3	1	1	0	3	0

Midland	AB	R	H	PO	A	E
Battle ss	5	0	1	1	3	1
Guinn 3	5	1	2	0	2	0
Ballingier c	4	1	2	8	1	0
Franklin lf	5	1	1	0	2	0
Morris 1	3	1	2	7	0	0
Barnhill 2	3	1	0	1	0	1
Beers r	0	0	0	1	0	0
Evans m	4	0	1	2	0	0
Suytar x	5	0	1	5	2	0
Neighbors p	2	2	1	1	1	0
Warren p	2	0	0	1	0	0

Totals 42 15 15 27 11 3

—Suytar played every position during the game.

Score by innings:

Wink	512	012	021	—15
Midland	001	300	300	—7

Summary: Home runs—Neighbors, Jubela. Triples—Stone. Neighbors, Doubles—Ballingier, Morris, Lemuller, Jubela. Runs batted in—Ballingier, Franklin 2, Morris, Neighbors 2, Spangler 3, Reeves 2, Lemuller, Jubela, Rey, Stone, Bates 4. Sacrifice hits—Rey. Stolen bases

## PITTSBURGH ASSEMBLES MIGHTIEST IN HISTORY FOR START OF SEASON

By JERRY BRONDFIELD  
NEA Service Sports Writer.

The backfield to end all backfields—that's what Pittsburgh's first string leather-lugging crew is being referred to as Jock Sutherland makes his plans to sharpen the Panther's claws.

Observers figure Pitt's quartet of Johnny Chickerno, Dick Cassiano, Harold Stebbins and Marshall Goldberg, will be the greatest ball-carrying department ever assembled in the Smoky City—maybe elsewhere.

Better passers, kickers, and other specialty artists have been turned loose elsewhere, but this bunch makes ball-carrying their chief stock in trade.

Last year the Panthers gained the amazing total of 2400-odd yards from scrimmage—and forward passes played a very small part of their march.

They should beat that mark in 1938.

Cassiano is the slippery, here-he-is-there-he-goes type, who runs the ends to death. Stebbins, a big 185-pounder, goes great on cutbacks and reverses. Goldberg, who shifts to full this season, is the power runner, who can bang off a tackle with terrific momentum, or split a line wide open merely from a short spinbuck. Chickerno, the blocker de luxe, clears the way like a mower in a wheat field, and picks up plenty of yardage himself on short bucks in close over center or guard.

Incidentally, both Mad Marshall and Stebbins have the happy faculty of being able to run equally well to the left as the right—something all too few backs can do.

### McMILLIN NAMES BUCKS AS NUMBER ONE SQUAD.

And listening to grid gossip here and there:

High street is very much put out with the way Bo McMillin has put Ohio State on the spot by naming the Bucks as the number one team in the Big Ten this year—the nation's craziest football thoroughfare in Columbus indignantly points to gaping holes in the middle of the Scarlet forward wall and wants to know how Bo gets that way, anyway.

Also, Ohio State athletic bigwigs are very much perturbed over the blunder someone made in making out the Bucks' 1938 schedule, which calls for the Scarlet Scourge to meet the N. Y. U. in New York on the same day Army plays Notre Dame in Yankee Stadium.

Lack of a little foresight may cost Bucks \$35,000 more or less—probably more.

Word from the University of—Rey, Stone, Double plays—Simpson to Rey to Jubela. Base on balls—Suytar 4, Warren 1, Ferguson 2. Struck out—Suytar 1, Neighbors 2, Warren 5. Left on bases—Midland 8, Wink 7. Earned runs—Midland 8, Wink 10. Umpires: Cartwright & Fritz. Time: 2 hours.

John Chickerno

Washington, out Seattle way, is that Rudy Mucha, a bustling sophomore of 215 pounds, and oh-so-very-fast, will be THE full-back on the west coast this year. He's from Chicago, and Northwestern is still grinding its teeth with rage.

### ALABAMA HAS FINE SOPH TACKLE IN FRED DAVIS.

Speaking about sophomores, even before they've recovered their first fumble, Alabama has a kid tackle named Fred Davis, for whom Frank Thomas wouldn't accept three guards, Gibraltar and the men's gym in an even trade.

Weight, 223; height, 6 feet 4 inches; disposition, extremely vicious.

Prediction: Northwestern will have the strongest forward wall in the Big Ten this year. 14 of 20 returning letter-winners are linemen. . . and they didn't earn them for "character" they got them the hard way.

Bernie Moore at Louisiana State blandly remarks, with no reservations, that his Barrett Booth is the best line-backer in collegiate football today. . . says if you don't believe him now, maybe you will by Thanksgiving.

Wisconsin was ready to take on all comers, with no quarter asked—but that was before Al Dorsch and John Loehrke, star tackle and end, respectively, decided not to play football this fall. . . both are exceptional students and will devote all their time to their studies in the college of engineering.

### Baseball Goes Soft.

NEW YORK (UP)—America is going soft. The National Recreation association has reported that there were more participants in softball during 1937 than in official baseball.

Use newspaper advertising first . . . the greatest builder of good will and sales.

## 'Lost Columns' Scatter Arabs

JERUSALEM (UP)—Faced with the problem of trying to anticipate the objectives of forays by Arab terrorists, British Officials in the Holy Land have been forced to create an isolated police force out of all communications with their headquarters.

"Lost columns" of police are being sent into the mountains to trap and ambush terrorists. These consist of 10 or 15 British police, half of whom have passed their examination in Arabic, and from 30 to 40 Arab supernumerary police.

Many of the supernumeraries who were recruited recently say that they were "in the hills" with Fawzi Kawakji, the "genarissimo" of the Arab revolt of 1936, but that they have concluded that enough is as good as a feast.

The police units leave their stations wearing khaki uniforms and Arab headcloths, the usual outfit of the terrorists, with instructions to report again in a fortnight's time. Meanwhile they are completely cut off.

They have no wireless or other means of communication. The men live on primitive Arab food, and speak only Arabic among themselves.

Thus the terrorists' sentries, who are usually shepherds keeping a weather eye lifting for police or troops while they watch their flocks, mistake these units for terrorist bands and do not give the alarm.

British police describe these tactics as stepping back 400 years, because of the complete isolation in which they act and lack of instructions. This, they point out, was normal for small detached forces until the modern technique of war was introduced.

### Gold in the Sewer.

COLUMBIA, Cal. (UP)—Repair crews cleaning the city sewers are finding enough pennies, nickels, dimes, quarters, dollars and gold rings to buy beer for themselves by the case.

### Pig Is Steeplechaser.

TYRINGHAM, Mass. (UP)—Ward McCarthy, local farmer, says he has a pig which can clear a four-foot fence with all the aplomb of a veteran steeplechase jumper.

CONTINUED FROM PAGE ONE

know that there are many who will want to know about the league play-offs of the four leading teams—and Midland is one of these—so I'll have to begin doubling and tripling on these boys.

We've been told about one of our pitchers, Jerry Soule, so here's another one—Tommy Warren.

Tommy was born and reared in Tulsa, Okla., and is a graduate of that high school. While in high school he lettered in the following sports: football, 2 years; basket ball, 2 years—and was an all-state forward; track, 1 year; baseball, 3 years. In the latter sport he captained the high school team during his senior year and it became the All-State

team. While playing with this team he was judged the All-State pitcher for Oklahoma high schools.

He is 6 feet-1 inch in height; weighs 165 pounds. Has one brother a year younger than himself. Loves to dance and travel.

Tommy came to the Cardinals from Bisbee, Ariz. He won 14 games and lost 7 last year.

Then there is Clifford Neighbors, another of the pitching group. "Cliff" injured his arm sometime ago and has not been able to play until recently. This boy is considered the most muscular man of the team and I'd hate to be thrown out by him!

He was born in Princeton, Missouri twenty-one years ago. His home town now is Fargo, Okla. He is a graduate of that high school where he lettered in baseball each year. Beside this he lettered in basket ball and was captain of the team during his junior and senior years.

"Cliff" came to Hobbs last year from Eldorado, Ark., and was one of the six brought from that team to Midland this year. He keeps a level head when in tight places, and this is very necessary for good ball playing.

The things "Cliff" likes to do best are: hunting, fishing and traveling. Now that you know all about these things about these boys, do you know them when you see them out of uniform? It makes a lot of difference in their appearance but come out and see them in that uniform any night this week.

Wednesday night was designated as "Jake Suytar Night" and it was great. These boys get as much out of cooperating with the fans as the fans and friends get out of the good games they see the Cards play. For this reason the manager, Fincher Withers, and each player would like to know who your favorite player is and what position you would like each player in to make the best team, in your opinion. The number of votes cast will determine what nights will be set to feature these players. You can vote by bringing the name of your favorite player and the position you would like to have him and the other players written out on a slip of paper and hand it in at the box office Thursday night. The team will be here through Sunday. Everybody come out and let's have a bang-up good time while these boys are here.

**Under Fire**

Harry Bridges, under heavy fire in Washington as the Dies committee investigating "un-American" activities heard charges that he is a Communist, seemed plenty nonchalant as he lighted up at the first California C. I. O. convention in Los Angeles, just after his unanimous election as chairman of the meeting.

**Stamp Experts Marked Down.**

SAN FRANCISCO (UP)—Lunacy examinations aren't rated as high here as formerly. The city's lunacy commission composed of four physicians have had their salaries slashed from \$915 a month to \$300.

**TRY DELICIOUS QUAKER OATS AND SEE THE DIFFERENCE!**

HOW grand to see them growing up! But how important that they keep building plenty of firm flesh as their little bodies "stretch out." Millions of parents have learned this pleasant way to help nature in its work! Start each day with wholesome, delicious Quaker Oats! Oatmeal, you see, is the richest of all whole grain foods in proteins, the vital food elements so necessary to firm muscles and strong sturdy bodies. It's richer too in iron for blood, in phosphorus for teeth and bones, and in important Vitamin B<sub>1</sub> than other thrifty cereals. Per-

**STAMP NEWS**

FOR the second time President Roosevelt is to be honored on a foreign stamp. Reports from China indicate that the President's head will appear together with that of Generalissimo Chiang Kai-shek on a set of four Chinese stamps. The proposed issue will commemorate the establishment of trans-Pacific telephone service. The denominations will be 5, 25, 50 cents and \$1.

Guatemala first honored the President on a miniature sheet marking the 150th anniversary of the U. S. Constitution.

The American Air Mail Society has announced plans to release this fall its exhaustive "American Air Mail Catalog." The book has been in the process of preparation for several years, each department being edited by a specialist in that particular field. For further information address, Walter Conrath, Albion, Pa.

Interesting new issues:  
Germany—two stamps honoring Count Ferdinand von Zeppelin, pioneer builder of dirigibles. The 25-pfennig blue shows the Count standing in the gondola of one of his early rigid airships. The 50-pfennig green depicts an upward view of the underside of a modern dirigible.

Spain—six new Loyalist "submarine" stamps, issued to transport mail through the rebel submarine blockade. The values range from one to 15 pesetas. Three of these were also issued in miniature sheet form.

Dominican Republic—single value 10 cent airmail, showing clipper plane over beautiful Trujillo harbor.

Spanish Morocco—a ten value airmail series, printed in vivid colors, depicting Moroccan scenes.

Colombia—seven stamps to commemorate the 400th anniversary of Bogota, capital city.

Bulgaria—four values celebrating the 50th anniversary of Bulgarian railroads.

France—50-franc value hailing Clement Ader as the "father of aviation" for "first" flight Oct. 14, 1897.

*Crystal Clear*

Only biologically pure water, with properly balanced mineral content can dissolve the extractive substances of malt and set free the full flavor and bouquet of the premium ingredients used in the brewing of Coors!

The words... "Brewed with Pure Rocky Mountain Spring Water," on the Coors label explain why this combination of pure, crystal-clear Rocky Mountain Spring Water, with the finest ingredients, thoroly aged by the slower, more expensive Continental method, produces that distinctive, that different, that finer flavor that is exclusively COORS!

Horseshoe Brings Ill Luck.

ORANGEVILLE, Ont. (UP).—Tossing a horseshoe over his shoulder for luck in an effort to assure his lacrosse team of victory proved hardly lucky for a young local player. The horseshoe struck a rafter in a barn, rebounded and struck him on the head. As a result he was unable to play his usual good game and the team lost.

Princesses Learn Tap Dancing.

LONDON (UP)—Princesses Elizabeth and Margaret Rose are learning to tap dance. Colombo Porselli, London shoemaker, reveals that the young princesses' head nurse visited him recently and ordered two pairs of tap dance shoes and that he made them from Pink Place kid.

'Bad Men' at End of Crime Trail

Described as No. 1 bad men of the nation by G-Man Edgar Hoover, Floyd Hamilton, foreground, and his desperado pal Ted Walters are shown here after being seized without a fight by Dallas, Tex., police. COSDEN REFINERY DOUBLES CAPACITY

Producers of Cosden Higher Octane Gasoline complete \$800,000 expansion program at Big Spring, Texas. The above picture shows the 6,500-barrel Dubbs Cracking Unit, the completion of which on July 10th, established the Cosden Refinery as the most modern in the United States, combining the latest improved features of automatic control now known to the petroleum industry.

To meet the ever-increasing demand for its Higher Octane Gasoline and to still further insure the uniformity and quality of its production, the Cosden Petroleum Corporation has just completed improvements and additions to its refinery at Big Spring which practically double its potential output and increases the octane of its Higher Octane Gasoline to a consistent 72.

The major addition, shown in the picture, includes a 6,500-barrel,

Universal Oil Product, Dubbs Cracking Unit. This unit is of latest design, featuring U. O. P. Up-shot cracking furnaces along with the latest design of reaction chamber and fractionating column. The equipment is designed to operate at a high degree of pressure and temperature as is necessary to secure maximum yield of high quality gasoline from crude.

This installation increases the output of higher octane gasoline by 175,000 gallons per day and

gives the refinery sufficient capacity to completely process into gasoline and fuel oil 14,000 barrels of crude oil daily, and by manufacturing various grades of Diesel and furnace oils will have a flexibility of 17,000 barrels of crude oil per day.

In addition to this new Dubbs unit, the No. 1 Dubbs Unit which has been in operation for several years, has been brought up to date by the installation of new centrifugal hot oil pumps, and has a daily capacity of 5,500 barrels.

Sept. 1.

Mr. and Mrs. W. L. Crothers had as their guests Wednesday Mrs. Crothers' brother, Paul L. Meaders, of San Antonio, Mrs. Meaders, and their son, Jaul, Jr. The San An-

tonians were en route to Cloudcroft and Ruidoso, N. M.

Mr. and Mrs. W. P. Knight have gone to Cresta Del Monte, N. M., to bring back their daughter, Belva Jo, who is in camp there. They will also have a brief fishing trip while away.

Mrs. Houston Sikes has as her guest her mother, Mrs. R. E. Powell, of Grandbury, Texas. Mrs. Powell plans a visit of two or three weeks.

Miss Marian Meaders of Fort Worth, accompanied by Mrs. Dee McNamara, Miss Frances Gilliland, and Miss Helen Lewis, visited with Miss Meaders' sister, Mrs. W. L. Crother, here this morning. The party was en route home from a visit to Carlsbad, Cloudcroft, and Ruidoso, N. M., and stopped in Midland to rejoin Miss Mary Eleanor

Meaders who had left the group here Sunday in order to spend a few days visiting with Mrs. Crothers.

Mrs. John Dublin has as her guests today Mrs. Lera Zabeloudial of Abilene and her son, Jake Jr.

Mr. and Mrs. T. O. Midkiff have gone to Wink for the day.

Mrs. H. H. Nicholson left early in the week for a visit with her parents at Weir, Kans. She plans to be away about a month.

Miss Lillian Grace Dickson and Carl Arthur of Spur left this morning for their homes. They were the guests of Jessa Lynn Tuttle Wednesday and Wednesday night. Mrs. Ruidoso, N. M., and daughter, Patsy Jean, of Spur have also been visit-

ing in the Tuttle home.

Mrs. J. Howard Hodge is expected to return today from a brief visit to Ruidoso, N. M.

Life Terms Go To 5 Philippine Head Hunters

MANILA (UP).—Following their conviction on charges of quadruple murder, five Ilongot head hunters have been sentenced to life imprisonment in Cabanatuan, capital of Nueva Ecija province.

The Ilongots, fierce mountain tribesmen inhabiting the Nueva Ecija-Nueva Vizcaya boundary area, murdered a man and his three children in a village within the jurisdiction of Nueva Ecija. Only their ignorance saved the head hunters from the electric chair.

The heads of the victims were alleged to have been taken as trophies by the murderers. Ilongots in general bear a longstanding grudge against the Christian Filipinos who have settled about their territories they occupy. They have accused Christians of grabbing their land and destroying their hunting grounds.
