Civic Music Club Will Present Open Program

Civic Music club will sponsor an open program at the north ward school auditorium Tuesday evening at 8 o'clock.

There will be no admission fees and the public is urged to attend, club officials announced Saturday.

An unusual feature of the program will be a dance by Mildred Tennis, who has experienced a varied career of thirteen years' study and teaching of the dance.

Among her famous instructors was Muriel Stuart, formerly of Hollywood, now associated with the American School of Ballet in New York.

After several years of work and study, Mrs. Tennis opened her own studio of the dance, in Springfield, Missouri.

Not only has she appeared in dances created by great artists, but she has composed many ballet and dance routines.

In accordance with the theme of the Civic club program, which will be a study of the music of Spain, Mrs. Tennis will present "Española Cani" from the music by Marquina.

In addition to Mrs. Tennis' featured dance number, vocal solos, piano duets and solos, and violin numbers will be played.

By Mrs. W. L. Miller.

"The Boy David" is the last play written by the late beloved English playwright, James Barrie, a fitting climax to the quiet solitude into which the author had gone after his many, many stage successes.

David, a child among his seven older brothers, and with his one desire to be called "the eighth son of Jesse" is laughed to scorn by them at the telling of his experiences in killing the lion and the bear.

BULLDOGS DRUB STANTON, 49-6, TO COP CONFERENCE OPENER

FRANCIS CHALKS UP 5 TOUCHDOWNS TO PACE ATTACK

The Midland Bulldogs won another game Friday night. But it was lucky for all concerned that the opposition was the weakest club in this area. The final score was Midland 49, Stanton 6. Had it been Wink, Pecos, Crane or Odessa playing the Bulldogs they would have been winners, going by the way Midland played.

The Bulldogs looked ragged at tackling, blocking, passing and practically everything else they attempted. Only the ability of Jay Francis to get into the open occasionally kept the game from being really close.

Francis, despite a bad knee was good for five touchdowns and three points after for a total of 33 points. He meant the difference between defeat and victory as the team refused to click at all when he wasn't in.

The Bulldogs could, and should, have made at least 100 points during the game. And they thought they were going to. That's why they didn't. But it is a cinch Bud Taylor will get the cockiness worked out

of them before Wink comes here in two weeks.

The Stanton touchdown was the first one made against the Bulldogs this year and the officials had large part in making it possible by imposing a 15-yard penalty on the home club to give the visitors the ball on the Midland 4 early in the third period.

The Bulldogs scored the first time they got the ball, thanks to some nice work by Patso Wright. After Eidson, who was booting them far and accurately all night, kicked to the Midland 21 Francis picked up 31 yards in three tries and Wright lugged the ball over for a touchdown. Francis went over ahead of Wright but officials ruled he stepped out on the Stanton 37. Francis then kicked goal.

A short time later, Francis got off a quick kick that was good for 50 yards, going out on the Stanton 11. Eidson then missed the passback from center, covering the ball in the end zones and giving Midland 2 points. Eidson then kicked from his 20 to Francis on the 50 and Jay returned 15 yards before being knocked out of bounds. On the first play, Francis went over his own left tackle all the way to pay dirt. He then kicked goal to make the score 16-0.

Wright set up the next tally a couple of minutes later when he in-

COMMITTEE ASKS FOR TREES.

A plea for trees and shrubs of any kind, or any bulbs, plants or seeds has been voiced by members of the highway beautification committee, an organization composed of Midland county women. Persons who will offer any of the plants wanted is requested to call the Midland county library.

Usually extinguished before leaving. Only a little thought is needed to prevent fires from smoking, electric bulbs too close to wood or paper, electric irons left while turned on, gasoline used for cleaning, oily rags and dust mops and the other causes of fire. Only a little thought is required to prevent 75 per cent of the fire losses we have.

Stop, look and listen this week to some of the things said about Fire Prevention and if any of the precautions given affect you, stop then and there and remedy the situation. The Fire Prevention committee of the chamber of commerce earnestly requests the cooperation of every citizen of Midland in this important work.

Move to Partition Spain Is Rejected

PARIS, Oct. 6. (AP). — A plan to partition Spain into two nations—one a democracy, the other a dictatorship—has been broached to the Spanish government, which rejected it, government spokesmen here disclosed Wednesday.

They asserted the plan, its origins obscure, would form part of international discussions aimed at ending the Spanish war as part of a general European settlement.

It was hinted "certain powers" brought up the Spanish partition scheme at the Munich parity Sept. 20 which arranged for giving Germany slices of Czechoslovakia, Europe's other major trouble zone.

At all events it was clear the Spanish problem, temporarily displaced by the Czechoslovak crisis, had come to the fore again since it figured in all talk of a four-power agreement for appeasing Europe. Britain, France, Germany and Italy would be the four powers involved.

In Rome the British ambassador, Lord Perth, and Foreign Minister Count Galeazzo Ciano have been holding a series of conferences aimed at putting the Anglo-Italian Easter friendship pact into effect.

A Spanish "settlement" presumably involving withdrawal of Italian soldiers fighting with the insurgents, was a prior condition Britain made to operation of that pact.

Residential Units Show Gain in Nation

WASHINGTON. — Nearly twice as many residential units for American families were built in cities of 10,000 population or more during August this year as in August, 1937, the Federal Home Loan Bank Board announced today.

On the basis of statistics gathered from these cities, the board found that while the number of all units constructed in August was slightly below those built in July, the total of one-family dwellings constructed in August was larger. This indicates at least a temporary trend from apartments to private residences. Numerically, the board's survey showed:

All residential units built in August, 1938—21,126; in August, 1937—12,601; all residential units built in July, 1938—21,660.

One-family dwellings built in August, 1938—13,150; one-family dwellings built in August, 1937—9,426; one-family dwellings built in July, 1938—11,707.

Index figures compiled on the basis of 100 for 1926 showed residential construction in the nation at 38.5 in August this year as compared with 23 in August, 1937, an increase of 67.4 per cent.

The rental market, on the basis of figures compiled by the National Industrial Conference Board, stood at 85.5 during August, exactly where it was in July.
