

Mayors, Civic Leaders Arrive Today

HUNDRED EXPECTED AT 2-DAY MEETING

To Preside

Mayor M. A. Harlan of El Paso, president of the Southwestern Conference of Mayors and Chamber of Commerce Representatives, will preside at the two day quarterly meeting of the organization at Hotel Scharbauer Friday and Saturday. He will arrive by plane this afternoon.

Expecting 100 delegates from Arizona, New Mexico and West Texas towns and cities for the two day session of the Southwestern Conference of Mayors and Chamber of Commerce Representatives Friday and Saturday, all was in readiness for constructive work toward study of projects, as well as for entertainment, this afternoon.

Mayor M. A. Harlan of El Paso, president of the body, was to arrive early this afternoon by plane. H. B. Fort, secretary of the body, arrived early today and was working with Bill Collins, vice-president, and local committees on plans for program and entertainment.

Registration will be started at the chamber of commerce late today with arrival here of a motorcade from western towns, continuing Friday morning.

Opening session will be at 9:30 o'clock Friday morning, with Mayor M. C. Ulmer of Midland giving the address of welcome at the Crystal ball room of Hotel Scharbauer where all business sessions will be conducted. Mayor Harlan will preside. Other business sessions will open at 2:30 p. m. Friday and 9:30 a. m. Saturday.

A luncheon in the ball room will be given Friday noon, with the City of Midland as hosts. At 3:30 p. m., a barbecue will be served at Cloverdale, with Chunky Cowden in charge. The delegates will attend the Midland vs. Wink football game at 8 o'clock, three rows of the center section having been reserved.

A dance will be given at Hotel Scharbauer after the football game, open to the public and with the convention delegates guests of Joyce Howell, manager. John Keating and his orchestra will play.

A busy program of work is scheduled, with addresses to be heard from Dr. D. M. Wiggins, president of the Texas College of Mines, El Paso; Paul V. Betters, executive secretary of the United States Conference of Mayors, Washington; H. L. Binney, El Paso business executive and founder of the Broadway of America highway association, and numerous civic leaders from three states and from Mexico.

Besides the conference meetings, a session has been called of representatives of the Broadway of America towns from Weatherford west to El Paso. F. O. Mackey of Douglas, Ariz., president of the body, will preside.

Woman Slays Son and Husband; Attempts to Take Her Own Life

EL PASO, Oct. 20 (AP)—Jose Fuentes, sign company owner, and his five-year-old son were killed today and Mrs. Fuentes wounded in what authorities described as a double slaying and attempted suicide.

Officers quoted Mrs. Fuentes as saying she shot her husband and son and then herself because she was dependent over her husband's ill health.

Instead of having the key to the city available for the guests, arrangements were made to throw the gate wide open and to wire it back to the fence. No one wearing a badge will be jailed, it was understood. Before late Saturday, the law forces here again will take over. In the interim, it's everybody for himself and it's too bad for the hindmost.

Democracies Built on Climates of Opinion, Speaker at Rotary Says, Urging Against Sacrificing Right to Freedom of Thought

"Climates of opinion" were discussed by Dr. D. M. Wiggins, president of the Texas College of Mines, El Paso, in an address at the Rotary club today. Here to speak at the Southwestern Conference of Mayors and Chamber of Commerce Representatives Friday, and to attend the Mines vs. Texas Tech football game at Odessa Saturday, Dr. Wiggins, who is a member of the El Paso Rotary club, accepted an invitation to address the local organization a day earlier.

He was introduced by Fred Wemple who recalled that Dr. Wiggins spoke on the Rotary district conference program here in 1935. At that time he was connected with Hardin-Simmons university and a member of the Abilene Rotary club. He reviewed the two distinct "climates of opinion" in civil war times, the line then being the imaginary Mason and Dixon line, and added that in these times there are widely different opinions in the various countries and parts of countries.

His talk dealt with the essentialities and the dangers of climates of opinion. A democracy is great because it permits and encourages climates of opinion, he said, whereas under a dictatorship there is only one opinion. Variations of thought are not encouraged. Where men are allowed to think for themselves, there are various climates of opinion. The different climates compose the democracy. The dictatorship is easier, as little thinking is required, and emotionalism prevails and sways the people.

Principles of democracies or dictatorships apply not only to governments but also to schools and colleges, Rotary club and civic organizations and to businesses themselves, he said. The test of a successful executive is one who can provoke and encourage climates of opinion and still maintain loyalty to the organization.

The dangers of climates of opinion are that they may be swayed by personal likes and dislikes, as in the case of men who believe in principles but oppose them because they dislike the leaders of the principles. Those dangers, however, comprise the challenge, he said. He exhorted his hearers not to sacrifice the right to form opinions.

Winter Hits In This Area; Rain Falls

.58 of One Inch Is Reported in City; Light Over County

Old man winter made his first appearance in Midland last night, sweeping off the Panhandle plains with a gust that brought the mercury down to 42 degrees. Rain totaling .58 of an inch also fell during the night.

The rains were declared not to have been general over this area, instead being centered in and around Midland. Ranges were benefited somewhat by the shower. A light sprinkle continued to fall intermittently throughout the day.

Tonight is expected to be even colder in this area, according to the official weather forecast. Frost is predicted for the Panhandle tonight. Clearing skies are forecast for tomorrow.

The Associated Press reported the lowest reading, 28 degrees, was recorded at Muleshoe. Other lows were reported as 32 at Dalhart, 33 at Amarillo, 48 at Paris, while the Corpus Christi temperature dropped to 68. Intermittent snow was reported at Pampa.

Ector Oil Lands Involved in Suit By Bates Heirs

ODESSA, Oct. 20. (Special).—A suit in trespass to try title on the Robert Curry ranch west of Odessa in one of the county's richest oil areas, in which damages amounting to \$3,000,000 are sought, has been filed in 70th District Court here.

The suit is styled Emily Pegues vs. Paul Moss and L. H. Wentz. Plaintiffs listed in the brief include Mr. and Mrs. Henry Pegues, Robert J. Bates, George F. Bates, Hattie Jo Bates, Alice Bates Tripp and husband, Tom B. Tripp; Laura Jane Graham Pickering and husband, Clarence Pickering, all of Ector county; Katherine Bates Ingham and husband, Homer Ingham, of Midland county; and Kyle Boyd Graham and Ray George Graham, minors of Ector county. The defendants are Paul Moss, Odessa attorney, and Lew H. Wentz, independent oil operator of San Antonio.

Property involved lies in West Central Ector county, where some of the most spectacular oil development of the last year has occurred. The ranch was part of the estate of the late W. F. Bates, who died intestate.

Property involved lies in West Central Ector county, where some of the most spectacular oil development of the last year has occurred. The ranch was part of the estate of the late W. F. Bates, who died intestate.

Midland Mare Wins Horse Show Honors

Rip Smith's polo mare was a heavy winner at the New Mexico State Fair horse show at Albuquerque last week end, winning the blue ribbon in the class for playing polo ponies. With Smith in the saddle, she won the polo stake race and was a certain winner in the polo pony bending race had she not grazed one of the stakes and knocked it over. She had won in her first group and was well ahead in the finals when the stake was knocked down. Smith has trained the mare at the fair ground here for the past few weeks.

Jay H. Floyd and Mrs. B. W. Floyd attended the horse show, he serving as one of the judges. The others were Captain Pudge and a colonel in the remount service, both of whom were high in praise of Smith's mare.

Floyd reported a strong show in all classes, with a large number of entries in the jumping and hunter classes and contests.

Redbird Serves as An Alarm Clock

AUSTIN, Oct. 20. (AP).—University of Texas students living at the residence of Mrs. Molly Connor Cook are about ready to throw away their alarm clocks.

For many days redbirds nesting in a tree near the house have been flying against the windows fighting its own reflection and waking the household at dawn.

Thanks to the birds none of the students have missed early classes.

NEED TYPEWRITER.

Loan of a typewriter is requested by the Midland Recreational project, of which L. P. Cure is director. Office is at the old north ward school building.

VISITORS FROM HOUSTON.

Mr. and Mrs. P. E. Langley of Houston are visiting Mr. and Mrs. R. R. O'Neil here.

ON TRIP.

Mr. and Mrs. David Googins are away on a trip to Fort Worth, Houston and New Orleans.

All's Fair at French Marriage Fair

Whether they swing it, or cool their ardor with an ice cream cone like the ones above, French couples at the annual "Marriage Fair" at Meaux, near Paris, enjoy the fête, which is specially designed to enable marriageable young folks to pick out their future mates. Eligibles look forward each year with pleasure toward this unusual French institution.

All Reserved Seats Sold For Midland-Wink Battle

The final 300 reserved seats set aside for Midland football game who do everything possible to keep standing patrons from obstructing the view of persons in the lower rows of the stands, but admit it is going to be almost impossible to keep standing customers back as if they appear for the game as is expected. Officials are confident between 500 and 1,000 persons will be forced to stand throughout the game because of lack of seating facilities.

Midland school officials today expressed confidence in the ability of field attendants to take care of the overflow crowd. Ushers will be stationed in all stands and will seat the fans as rapidly as possible.

Favorable publicity for the game has appeared in every paper having circulation in West Texas. District 7-B is generally conceded to be the toughest Class B district in the state and sentiment is practically unanimous that the game here tomorrow night will be for the championship. Both teams are high scoring aggregations and it is generally believed that both sides will make two touchdowns or more during the game.

There is no doubt that the largest group of sportswriters ever to gather for a game in West Texas will be on hand. Applications for press box room has come from scribes in Kermit, Wink, Pecos, Monahans, Odessa, Big Spring, San Angelo, Abilene, Fort Worth, El Paso and Lubbock. Providing working space for them is proving a job in itself.

6 CCC Members Lose Lives in Fighting Big Forest Fires

EMPRURIUM, Pa., Oct. 20 (AP).—The deaths of six members of a nearby CCC camp in a series of forest fires brought from a federal-county investigation today reports of incompetent leadership and incendiarism. Five died yesterday when trapped by flames. Ross Hollobaugh, 18, died today of burns.

Extradition Papers Signed to Return Man Here for Trial

IDAHO FALLS, Idaho, Oct. 20 (AP).—Extradition papers, signed by Gov. Barzilla W. Clark, were received here Wednesday for the return of James Burleson, lanky negro, to Midland where he will stand trial on first degree murder charges.

Hardware Company Remodels Interior

Interior improvements have been started by the Midland Hardware Co., to comprise a complete renovation and remodeling by the time it is finished, according to J. L. Tidwell, manager. Sniveling in the hardware department, formerly of the tall variety, has been reduced in height to conform to streamlining of the fixtures. A new floor will be installed throughout and walls and ceiling will be repainted and decorated.

Lem Peters Back; Is Recovering From Injury

Mr. and Mrs. Lem Peters returned late yesterday from Grand Canyon, Ariz., and other western points. Mr. Peters is recovering steadily from injuries sustained in an automobile accident near Fort Sumner, N. M., several weeks ago.

TO ENTERTAIN AUXILIARY.

Mrs. Tom C. Bobo and Mrs. Jas. H. Chapple will be hostesses to the Medical Auxiliary of this district with a one o'clock luncheon at the Log Cabin Friday.

Troops Take Over Control Of Palestine

Bring Peace After City Held in Sway Of Rioting 4 Days

By The Associated Press
British Coldstream Guards tramped into Jerusalem's old city yesterday to impose a quick peace upon the populace which for four days had listened to the thud of Arab bullets.

Peremptory and swift, the movement of British troops indicated a determination by London to bring order to Palestine, torn asunder by the Arab revolt in protest against the influx of Jewish settlers under the Balfour declaration to establish a Jewish homeland there.

Near Canton, China, other troops tramped and fought as Japan pushed its campaign in the south to beleaguer Generalissimo Chiang Kai Shek's armies defending the provisional capital of Hankow.

The Japanese navy resorted to the use of dozens of armed motor-boats for river navigation, to bolster the land assault on Canton. With Japanese troops only 50 miles away, Canton, began preparing for its capture by planting explosives in major factories, a continuation of the "scorched earth" policy.

In Shanghai, Japanese military authorities announced the capture of Hwangshihkang, 50 air miles southeast of Hankow.

Chancellor Hitler, absorbed in the problem of making a permanent peace with France, kept an eye on the squabbling in eastern Europe over Hungary's insistence of dismembering Czechoslovakia further.

Poland and Hungary apparently were trying to get the approval of King Carol of Rumania to the establishment of a common Hungarian-Polish frontier, but informed Nazi quarters in Germany said the Reich was not enthusiastic about the idea.

For its part, Prague's military hinted that if Hungary got obstreperous, the Czechs might make some counter-demands on Hungary for territory around Budapest containing predominantly Slovak populations.

Preliminary Franco-German conversations on a basis for a permanent peace evoked the report in Paris that Chancellor Hitler's price for it was too high. He wanted: (1) The return of German pre-war colonies in West Africa; (2) Numerical superiority in planes; (3) A free hand in Central and Eastern Europe; and (4) France's renunciation of her mutual assistance pact with Russia.

The Ebro River front in the Spanish civil war was quiet.

Speaking at the Trafalgar Day dinner of the Navy League in London, United States Ambassador Kennedy proposed that dictatorships and democracies reach a working agreement for solution of their common problems.

Rumrich Declares Glaser Aided Him In Nazi Spy Ring

NEW YORK, Oct. 20 (AP).—Letters tending to implicate Erich Glaser, former army private, with a German spy ring operating in the United States was read today in the trial of Glaser and two others charged with espionage.

The letters were identified by Guenther Gustav Rumrich, who pleaded guilty to spy charges at the opening of the trial.

Lester Dunningan, assistant United States attorney, read the letters, addressed to Rumrich, signed Erich Glaser. Dunningan questioned Rumrich about visits from Karl Schlietter, alleged messenger of the spy ring, and Johanna Hofmann, defendant.

He also asked Rumrich about subscriptions of army and navy registers which the witness said Glaser obtained for him.

California Labor Strike Settled

SAN FRANCISCO, Oct. 20 (AP).—Paul Smith, mediator, announced today settlement of an extended labor dispute which had closed 138 warehouses and threw 2,500 men out of work. The dispute lasted for 102 days.

JAPANESE ADVANCE.

HONG KONG, Oct. 20 (AP).—Evading a major engagement by circling strong Chinese defenses, Japanese forces advanced today to within 20 miles of Canton from the north-east, a semi-official Japanese source reported.

HAS TONSILLECTOMY.

Miss Stella Wood in convalescing at her home here from a tonsil operation undergone early in the week.

Buddhist Prays for Fallen Japanese

Far from the homeland, in war-torn Honan province of China, Japanese soldiers enlist the offices of a Buddhist priest at the funeral pyre of their fallen comrades. The priest, right, prays, as the soldiers stand in silence. The pyre is in the foreground.

Wildcat Southeast of Bennett Pool High on Anhydrite Top

BY FRANK GARDNER.

Topping of anhydrite at a favorable point by Shell Petroleum Corporation No. 1 Ruyts, wildcat a mile southeast of the Bennett pool in southeastern Tarrant, featured the day's developments in the North Permian Basin. The marker was picked at 2,380 feet, datum of plus 1,164, which is said to be 31 feet higher than the Honolulu-Cascade discovery well in the pool. Drilling this morning had passed 2,705 feet in salt. The well is located in the northwest quarter of section 743, block D, J. H. Gibson survey.

In the Denver field of southern Tarrant, Texas No. 4 Willard flowed 297 barrels a day through tubing after 7,000 gallons of acid injected in pay zones from 4,915 to 5,100, total depth.

Harry J. Brown No. 1 Wasson, west outpost to the Wasson area in northwestern Gaines, is drilling below 4,520 feet in lime. Carter-Conoco No. 2 Willard, in the Denver-Wasson linking area, flowed 886.01 barrels a day, with gas-oil ratio of 1,200-1, following 9,000 gallons of acid. Pay was entered at 4,893 and hole is bottomed at 5,020. Natural flow of 1,018 barrels a day, with gas-oil ratio of 1,424-1, was gauged by Conoco No. 2 Wasson. It topped pay at 4,890, and total depth is 4,938.

Big North Cowden Well. One of the largest producers for the northwest portion of North Cowden pool in Ector was seen as Landreth No. 2-A B. H. Blakeney flowed 1,057.25 barrels of 33.3-gravity oil per day following 240-quart shot from 4,150, where pay was topped, to 4,210, the total depth. Gas-oil ratio was figured at 892-1.

Temporarily shut down at 4,467 feet while clutch repairs were being made, Bert Fields, Inc. No. 1 Owenwood, three miles northwest of the Harper pool in Ector, this morning was reported preparing to deepen. Bailing test was to be made before resuming drilling, however. According to some reports, the well had shown one-half barrel of oil and one-half barrel of salt water per hour from 4,423-35, and more porosity—with probable increase in fluid—came in from 4,457-87. At least 360 feet of the fluid in the hole was oil. Phillips No. 42 Cowden, in the Goldsmith pool of northwest Ector, flowed at the rate of 1,033.12 barrels a day on potential test, with a gas-oil ratio of 884-1, after 1,000-gallon acid treatment. It is bottomed at 4,183 feet, with pay top called at 4,035.

Humble No. 1 Henderson, offsetting a light producer at the south end of the Foster pool in Ector, pumped 185 barrels a day, bottomed at 4,325 feet, after two acid treatments of 1,500 gallons each. Pay was topped at 4,215.

In southern Andrews, Rogers & Rogers No. 1 University kicked off without swabbing after setting 2-inch tubing at 4,523 feet and began flowing an estimated three to five barrels of black sulphur water per hour. It is probable that operators will plug back from 4,530, the total depth, to around 4,500 feet and test upper zones which showed oil.

Farther southwest, Wentz No. 1 W. P. Cowden estate is drilling at 3,880 feet in anhydrite and lime. It topped Yates sand at 2,760 or 2,780, calls on the point varying.

Great Western No. 1 Holt, west offset to the Rogers & Rogers No. 1 Holt discovery in southern Andrews, is drilling at 3,930 feet in anhydrite and lime. Operator plans to set 7-inch pipe at around 4,050 and rig up standard tools.

Vacuum Outpost Shut Down. Shell No. 1-U State, which had indicated two-mile east extension of the south edge of the Vacuum pool in Lea county, N. M. today was shut down after swabbing 90 per cent sulphur water following initial acid treatment of 1,500 gallons. It had shown no water before acidizing and was thought by some to have acidized into water. Total depth is 4,900 feet.

An unconfirmed report this morning stated that Westmount No. 1 Amerasia-State, wildcat southeast of Lexington, had logged base of salt at 2,835 feet. If the report is accurate, the well is said to be 120 feet higher than the old Western No. 1 State, dry hole a mile and a half to the south and slightly to the east. The Westmount test had been 72 feet high to the Western on anhydrite, topped at 1,895 feet.

Million Reported Off Unemployment Rolls

WASHINGTON, Oct. 20 (AP).—A leading government economist today estimated business improvement since the first of June had reduced unemployment by 1,000,000 men and women.

The economist, who declined to be quoted by name, placed the unemployed now at 9,250,000.

Father of Midland Men Continues Seriously Ill

W. B. Preston, of Evans, Tex., lay seriously ill this week with no new report received by relatives here today. Yesterday it was believed that he could not survive much longer from an illness which has rendered him bedfast for weeks.

Three sons residing at Midland, Sam, Tom and Bob, are at his bedside, family members having accompanied them there. W. B. Preston is among the earliest settlers of central West Texas and is widely known in that section.

HAS APPENDECTOMY.

Merle Fulton underwent an appendectomy in a Midland hospital Wednesday.

IS DISCHARGED.

Mrs. J. R. Custer has been discharged from a Midland hospital, following an operation.

Better Use of Water and a More Stabilized Form of Agriculture

Announcement by the federal government that money is available and engineers will aid in the better use of water facilities along Mustang and Seminole draws leads to some thinking about general farming methods in this section.

The Reporter-Telegram is without practical farming knowledge, but recognizes the fact that an intensive form of farming, in any matter whatsoever, should be better than the hit-and-miss variety.

Some farms are admirably adapted to the feeding of livestock. Others have facilities for irrigation, and should select crops which will yield the most by using the available water. Few of them will profit, year in and year out, by going the one-crop-cotton route. Not any more, anyway.

If Farm Security customers of Uncle Sam, for whom the loans are available along Mustang and Seminole draws, can profit by some form of irrigation or water conservation, why wouldn't such methods be profitable to other farmers having the same facilities. As the county agent says, the problem is one of storage, not capacity of the source of water. We would like to see a well planned, well engineered program of irrigated farming.

Already open for business in the village of Santa Claus, Ind., is a school for Santa Clauses. Does this mean the job's going to be harder this year?

A national survey shows that America spends more money on its dogs than it does on its shoes. And there's a little item after every jokemith's heart.

SO THEY SAY

RESEARCH IN MEDICINE

(The Dallas News.)

One medical policy over which there seems to be no factional dispute is the promotion of research. Dedication of the new \$750,000 laboratory of the Squibb Institute for Medical Research, at New Brunswick, New Jersey, is one of many recent steps that mark the efforts of American medical authorities to learn more about human diseases and means for their prevention and cure.

Establishment of this research institute indicates that the profit motive is not irreconcilable with unselfish support of public interests. If experiments to be made there in organic chemistry, virus diseases, bacteriology and medicine should result in important discoveries, the benefits will be derived not only by one company but also by the whole pharmaceutical industry, the medical profession and the general public.

Freedom for research is an advantage of democracy that often is overlooked. This freedom no longer exists in Germany, the country that, perhaps more than any other, gave scientific research the big impetus it received a generation ago. As Dr. Abraham Flexner of Princeton University declared the other day at the dedication at New Brunswick, the once great universities of Germany have been "gutted by the lunatics who rule the Germans like sheep."

Civilization will destroy itself, he predicted, if the destination of efforts made in universities and research institutions is determined by "impulses like Hitler or bullies like Mussolini." The success of objective research in medicine, as in other fields of science, depends on maintenance of freedom to follow facts to whatever conclusion they may lead.

ters of a minute. When he played football with Baylor, back in '01 and '02, he stayed on his feet for fifteen yards after he was tackled, every time he carried the ball.

I have yet to find a sportswriter except our own, who doesn't think Wink will beat the Bulldogs. Reminds me very much of the situation last year, just before we went over and beat Odessa 30 to 6 when they were supposed to beat us 21 to 0.

Sportswriters should bear in mind the scriptural admonition of Proverbs 6:2, "Thou art snared with the words of thy mouth."

From yesterday's Payoff column, by Jess Rodgers, I got this clipping:

"Homer Norton will probably keep his mouth shut before games hereafter. He was said to have declared Aldrich and O'Brien wouldn't be remembered after the game last Saturday."

I guess I'm getting old, but I don't seem to remember anybody by the name of Homer Norton.

But maybe I'm putting my neck out, because Norton's men take on Baylor Saturday, and I'm the guy who said it would take Baylor to stop T. C. U.

Many of the tracts, with conditions of their deed unfulfilled by the state, reverted to private owners.

In an ante-chamber to Gov. Allred's office, Mrs. Alma Albert, the governor's secretary, was busy dialing a telephone.

She got her number and spoke crisply: "Please rush a copy of the life and works of Gov. James Stephen Hogg."

A press correspondent inquired what was happening. "It's for the governor," Mrs. Albert said. "He often refers to biographies of governors of Texas and their speeches."

In the instance at hand, Gov. Allred was chatting with Senator Albert Stone of Brenham and wanted to cite what Hogg had said about a certain matter.

Jack Cowley of Hillsboro, who probably will be the youngest county judge in Texas, visited the capitol.

Cowley, democratic nominee for county judge of Hill county, is 22 years old. He defeated three opponents to win the nomination.

Jack Cowley was visiting a brother, Dero Cowley, who is a secretary of Gov. Allred. Dero also entered public life at an early age. He was 22 when elected to the legislature where he served two terms.

Girl Has Silk Worm as Pet.

PASADENA, Cal. (U.P.) — Miss Bo Ching, Chinese maiden, guards as her one and only exclusive pet, a silkworm named Sally. The idea of such a pet, she says, was suggested by the fact that her family once cultivated silk worms in China.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. This may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Hobbs School, City Hall Contracts Let

Contract was let at Hobbs, N. M., last week to the Ross Construction Co. of Gorman, for construction of a new municipal school building, for \$99,936. The plumbing and heating award was to Wells Plumbing Co. of Quanah, for \$19,700; the electrical to Linam Electric Co. of Hobbs, for \$5,234.

Contract for a new city hall for Hobbs was let to J. L. Hair Construction Co., of Wichita Falls, for \$55,548. Both were Public Works Administration projects.

Personals

Mrs. W. H. Ogilvy of San Angelo is the guest of her sister, Mrs. Ruth Ramsel.

Mrs. W. R. Norman of San Angelo was a visitor to Midland Tuesday.

Mrs. C. E. Stone was here from McCamey Tuesday.

Mr. and Mrs. S. N. Woody and Miss Hope Woody were in Midland from the ranch Tuesday, visiting Miss Stella Woody and Mrs. Bertha Kenney.

The Dominion of Canada has an annual per capita tea consumption of 2.9 pounds.

Australian plumbers have started a campaign to stop the jokes about them forgetting their tools.

Huge Opal Mined.

SYDNEY, U.P. — A German digger named Otto, working at Lightning Ridge, Australia's famous opal field, recently dug up a 15-ounce opal, value at \$7,500, the largest found there in the past 20 years.

The reticulated pythons of the Philippine Islands are the largest snakes in the world, often attaining a length of more than 30 feet.

Insects have blood of various hues; it may be red, green, violet, or colorless.

Find Out What Makes You Constipated!

You know that constipation often gives you that dopey, sunken, bogged down feeling. Why not get at the cause and prevent it?

If you eat what millions do—things like bread, meat and potatoes—the chances are all that's the matter with you is you don't get enough "bulk." And "bulk" doesn't mean what you may think. It's a kind of food that isn't entirely digested, but leaves a soft bulky mass in the intestines that aids elimination.

If this is your trouble, what you need is crisp crunchy Kellogg's All-Bran for breakfast. It contains both "bulk" and Nature's great intestinal tonic, vitamin B. And it's not a drug, not a medicine! Eat All-Bran every day, drink plenty of water, and see if the old world doesn't look a lot brighter! All-Bran is made by Kellogg's in Battle Creek. Sold by every grocer.

Junior Wednesday Club Studies Land Of Switzerland

In its initial program of a series on various foreign countries, the Junior Women's Wednesday club studied Switzerland Wednesday afternoon in a meeting with Miss Mary Maude Sparks at the home of her aunt, Mrs. I. E. Daniel.

Mrs. Hugh A. West discussed Switzerland from the standpoint of the nature of the country, the people, and their customs.

In the business session announcement was made that the club will donate a sum to the City-County Federation scholarship fund.

Miss Ellen Pearson was a guest. Refreshments were served at the close of the program to Miss Pearson and the following club members: Mmes. W. M. Blevins, Ralph Geisler, Marion Kidd, Frank Miller, Donald M. Oliver, Alfred A. Reese, Nancy Stevens, Louis Thomas, Hugh A. West, Misses Georgia Cox, Lucile Thomas, Mary Maude Sparks.

Sans Souci Club Is Entertained By Mrs. Absher

Mrs. Alton Absher was hostess to the Sans Souci club with an afternoon bridge party at her home, 521 W. Wall, Wednesday afternoon at 2:30 o'clock.

High score prize in the three tables of bridge played was won by Mrs. W. H. Street, cut prize by Mrs. Frank Williamson, and guest prize by Mrs. T. L. Morgan.

A salad plate was served at the close of the games to two guests, Mrs. Morgan and Mrs. Warren Anderson, and the following members: Mmes. B. L. Hoffer, L. A. Tullos, Street, J. B. Richards, Rea Sindorf, Williamson, Lester Short, R. T. Mobley, Payton Thurmon, Roy Downey, and the hostess.

Mrs. Miller Conducts Program Of Wednesday Club

"The Bright Side of Humanity" was the subject of a discussion by Mrs. R. L. Miller who was in charge of the program for the regular meeting of the Woman's Wednesday club at the home of Mrs. W. T. Walsh, 1503 W. Holloway, Wednesday afternoon.

Mrs. Miller described customs in Africa, in China, and among the Basque people of Northern Spain to illustrate the softer side of humanity.

Appointing of committees for the book review by Miss Evelyn Oppenheimer to be sponsored by the club Nov. 1 marked the business meeting preceding the program.

Mrs. Jas. H. Goodman, who will attend the state convention of Federated clubs as representative of the City-County Federation, was asked to serve as delegate from the Wednesday club also.

Present were: Mmes. Elliott P. Gowden, J. M. DeArmond, Andrew Fasken, George Glass, James H. Goodman, M. R. Hill, R. L. Miller, E. Erle Payne, John Perkins, M. C. Ulmer, W. T. Walsh.

Musical Program Presented by Robyn Club Wednesday

Robyn club of the Watson school of music met at the studio, 210 W. Ohio, Wednesday afternoon for a program of piano and violin numbers and a brief business session.

Lewis Wingo was elected secretary. Margaret Mims, vice president, called the meeting to order.

Virginia Coultiss introduced her guest, Sylvia Holliman, and Lewis Wingo his guest, Jane Wogencraft. Roll call was answered by musical expressions and their definitions.

Birthday greetings were extended to Lois Black, and Norma Jean Hubbard of the Treble Clef club and to Dorothy Rose Otho and Marjorie Barron of the Robyn club.

Alberta Smith played some of the major scales and their inharmonics as well as technical part of the musical program.

Other numbers included:

Piano solo — "Butterflies Wink Their Primrose Wings" — Jean Walsh.

Piano solo — "Sonatina" (Clementi) — Virginia Coultiss.

Violin — Fifth Air Vari (Dancal) — Dorothy-Fay Lynch with Doris Ray Lynch at the piano.

Piano solo — "Cris-Cross" (Williams) — Lois Dee Eiland.

Violin — "My Valentine" (Greenwald) — Joyce Vaughan with Wilma Dee Vaughan at the piano.

Piano solo — "Curious Story" (Heller) — Ann Ulmer.

Violin — "L'Espagnola" (arr. by Grooms) — Lewis Wingo with Pauline Wingo at the piano.

The meeting closed with the club motto.

Visit to Russia Described to Club By Mrs. De Ford

I have been a Stranger in a Strange land." Experiences in keeping with this quotation from the club's year book were recounted before the Modern Study club by Mrs. Ronald K. De Ford who was guest speaker at the meeting of the group with Mrs. J. M. Hills, 904 W. Missouri, Wednesday afternoon.

Mrs. De Ford spoke of her adventures while in Russia, which she visited once as a student and once in company with her husband who attended the International Geological congress.

A roundtable discussion of "Russia Today" followed Mrs. De Ford's address.

Mrs. L. Waldo Leggett was program leader.

During the business session, Mrs. M. A. Park and Mrs. C. K. LaGue were elected to membership in the club.

Mrs. L. C. Link was appointed to serve on the committee for the Far West Federation convention to be held here.

Mrs. Jas. H. Chapple was appointed alternate counselor to the City-County Federation, to serve when Mrs. Haygood was unable to be present.

Mrs. Wilmer B. Stowe and Mrs. Cooper Hyde were guests.

Members attending were: Mmes. R. H. Biggs, Jas. H. Chapple, F. C. Cummings, J. M. Haygood, J. M. Hills, L. Waldo Leggett, H. E. McRae, P. A. Nelson, J. H. Rhoden, F. R. Schenck, S. S. Stinson, Tom Switzer, Fred Turner, Jr.

Side Glances-----By George Clark

"The only way I could say anything to my family is to have it printed in the paper."

Mrs. E. H. Barron Reads Play at Club Meeting

Reading "On Borrowed Time", Mrs. E. H. Barron presented the dramatic number at the meeting of the Play Readers club for which Mrs. W. L. Miller was hostess at the home of Mrs. A. W. Cherry, 1801 W. Holloway, Wednesday afternoon. The play is a dramatization by Paul Osborn of the novel by Lawrence Sanders.

Club guests were Mmes. T. A. Pollard, Bill Mills, T. Paul Barron, and Miss Mary V. Miller.

Members present were: Mmes. E. H. Barron, R. M. Barron, Miss Agatha Bruner, Mmes. W. H. Bryant, De Lo Douglas, W. L. Haseltine, Jack Hawkins, Wade Heath, J. Howard Hodge, Wallace Irwin, Charles L. Klopffroth, Fred Wilcox, and the hostess.

"Meet The Girls" For Real Thrill

First-run audiences at the Yucca Theatre yesterday were introduced to the Big Town Girls and the meeting was indeed a pleasure, according to every indication. The Girls appeared in the first film of a new 20th Century-Fox series, "Meet The Girls" which was directed by Eugene Forde.

The Big Town Girls are the highly attractive June Lang and Lynn Bari, two Hollywood lovelies of the first pulchritude. Their first exciting escapade together opens in Honolulu, where they are stranded

S. Hudson, Edith Bizzell, B. L. Mason, Lottie Stewart, Preston Vest, Nancy Tisdale, Mary Thomson, and Jack Burks.

Letter 23 Years Late.

MALTA, Mont. (U.P.) — It took it 23 years to arrive, but Nels Watney, local garageman, finally received the letter his sister wrote Jan. 14, 1915, from Carpio, N. D., 300 miles away.

Thief Needs Shirt Badly.
OROVILLE, Cal. (U.P.) — Andrew Parkes and a fellow workman found that even a shirt isn't safe off one's back nowadays. They took theirs off while unloading a car of coal and a thief stole both.

without funds or fare back to the states.

In the hope of finding breakfast the girls board to San Francisco-bound liner "Maori", which sails before they can disembark. When they accidentally observe the theft of a valuable diamond aboard ship the excitement begins.

Robert Allen, Ruth Donnelly, Gene Lockhart, Wally Vernon and Erik Rhodes are included in the cast of the film, which is one of the Movie Quiz \$250,000 contest pictures. Howard J. Green was associate producer for the original screen play by Marguerite Roberts.

FEMININE FANCIES
By KATHLEEN EILAND

Ear ornaments of course are important, now that the upswep hair dress displays them prominently. For an individual and perky touch, clip a jeweled fish in either ear. And there won't be anything 'fishy' in the chic you achieve thereby.

Some people seem the kind that are born to wear ear rings—and some don't. We must be one of the don'ts. Only once did we attempt to add charm in that way. And we ventured only as far as round black circles. At that, the effect was not so bad but neither was it good enough to encourage us to try ear rings again.

Personally, we prefer long, dangly ear hoops only for evenings devoted to glamor—and not for every day wear as some people like them. But there's no getting around the fact that on girls of certain personality, large ear ornaments or danglers are strikingly effective. In fact, we rather envy those who have the flair for them.

Here's hoping (and not just because more parties make more news stories either) that Midland hostesses are all planning to make good use of the Halloween season to make up arrears in entertaining.

No party is such thoroughly good fun to plan as a Halloween party. It means gay hilarity, just a touch of superstitious belief in fortune telling and what-not, and an enchanting disregard for all the formalities of party giving.

Too, for those of limited budgets it means inexpensive decorations and refreshments.

Speaking of party refreshments, there's a delicious and quite rich pie noted recently that, in itself, with good coffee, would make sufficient party course. This combines a graham-cracker crumb lower crust with a custard filling, plus meringue, plus an extra topping of graham crumbs.

The result has a rich, faintly cheesy, quite sweet flavor that is delicious. It can be served either hot or cold.

Special likes: Big ripe purple plums such as are sold in markets these fall days; love stories that have a definitely happy ending and not one of these maybeso-yes, maybeso-no conclusions; rust colored and wine colored suede bags; high-heeled shoes of the kind our feet rebel against wearing; people who smile as if they wanted to smile and especially at you; people who talk interestingly.

Deer Bagged After 56 Years.
ALTURAS, Cal. (U.P.) — Leo M. Gloster, rancher, is at last convinced that patience and perseverance will eventually have their reward. Having hunted during every deer season for the past 56 years, he finally bagged his first deer this season. It weighed 306 pounds, about three times the size of the average deer being killed this season.

Announcements

FRIDAY.
Stitch and Chatter club will meet with Mrs. P. D. Reven, 809 N. Weatherford street, Friday afternoon at the usual hour.

Women's Golf Association will hold its first meeting of the year Friday morning at 10 o'clock at the Country Club. Election of officers will be held and business discussed. Those desiring luncheon are asked to make reservations with Mrs. J. B. Richards.

Belmont Bible class will meet with Mrs. D. E. Holster, 206 South A street, Friday afternoon at four o'clock.

A Three Days' Cough Is Your Danger Signal
No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Valley View Club Plans for Exhibit To Be Held Soon

Plans for the club exhibit were made at the regular meeting of the Valley View club with Mrs. M. E. Payne Tuesday.

Each woman is to bring one or more articles she has made this year to put on exhibit in the assembly room in the courthouse sometime soon.

The program for the afternoon which was to make a set of bookshelves was not carried out as most of the members were late in gathering due to the rush of farm work. A business meeting was held and making of the bookshelves was postponed till another time in the near future.

Mrs. B. L. Mason presented a short talk on cooperation with the demonstrator, emphasizing the fact that without the cooperation of the clubs she cannot succeed in her work.

Birthday gifts were presented to Mrs. G. C. Brunson.

Refreshments were served to the following members: Mmes. A. C. Francis, J. D. Bartlett, G. C. Brunson, Lois Lewis, Marion Holder, W.

ENJOY HAPPY EVENINGS IN A WELL LIGHTED HOME

I.E.S. Lamps Are Easy on the Eyes

This tri-lite Better Sight Lamp provides a general illumination throughout a room, and also is a good light for easy seeing.

The floor reading lamp, or lounge lamp, is another Better Sight Lamp especially designed for use by a lounge or an easy chair where a good reading light is needed.

● LIGHT has a way of spreading an atmosphere of cheerfulness and comfort throughout the home that is quickly noticed by members of your family and by friends who call. Plenty of LIGHT makes seeing easier and eliminates the fatigue often caused by reading under a poor light.

We will be glad to assist you in arranging the lighting in your home, using a Sight Meter so that you can see for yourself just how much light you now have, and how much you should have for easy seeing. This service is supplied to our customers free of charge, if you'll just call our office.

Fascism Defense In U. S. Is Urged By Secretary Ickes

LOS ANGELES, Oct. 20. (AP).—Harold L. Ickes, secretary of the interior, warned an audience here last night that "totalitarianism is on the march" in the United States as well as in Europe.

"Totalitarianism is insidiously boring from within the temple of our own liberties as well as assaulting it from without," he declared in an address at the Shrine auditorium under auspices of the Hollywood council for democracy.

"Our first line of defense against fascism is a passionate devotion to the American ideal of fraternity and equality of opportunity for all Americans, regardless of origin or mythical descent," he added. "There must be no stereotyped citizenship in the United States."

"It has become one of the elements of our own self-protection that we bring the forces of social justice within our own borders to equilibrium—in time. The state of our law—the state of our sense of social justice—have become almost as important items in our scheme of national defense as armaments themselves. They must be made right—in time.

"That's what Franklin D. Roosevelt declared to be influenced by Communist actions."

Lewis Declared to Be Influenced by Communist Actions

WASHINGTON, Oct. 20. (AP).—James Mitchell, formerly in charge of welfare activities of the local union of United Automobile Workers, a CIO affiliate, told the house committee probing un-American activities today the communists apparently "have a lot of influence on John L. Lewis."

He said communists "engineered" the sitdown strike in the Murray body plant in Detroit.

He said president Homer Martin had tried to rid the organization of communists but "it seems they are on the inside of the international union. They apparently have a lot of influence on Lewis."

Thompson Says FDR Favors Extension Of Oil Regulation

HYDE PARK, Oct. 20. (AP).—Col. Ernest O. Thompson, chairman of the six-state oil compact commission, said today President Roosevelt favored extension of production-regulation to include regulation of refining.

Thompson said he had discussed with the president the problem of avoiding price cuts and subsequent injury to independent producers after states had stabilized production to level consumptive demands.

That's what a liberal democratic party in the progressive tradition have been trying to do for these past six and one-half years—make those reforms, bring about those changes which will give America complete confidence that we may live in the best possible way for all, not a few, of us to live—before the sands of the hourglass run out in Europe's hands.

"And no one can escape the responsibility of enlisting on one side or the other in the lines that are forming, as surely as if on the battlefield, to hammer out the answer—either with the liberalism of Franklin D. Roosevelt or with the reaction and the threat of fascism."

Ask Doctor About This Ideal Way TO LOSE FAT

Make up your mind now that you'll lose some of that ugly fat and really enjoy life.

No one can blame you if you don't want to take harmful drugs, go on starvation diets and do backbreaking exercises. No sane woman would! And for sensible women like yourself who really want to reduce yet don't expect miracles overnight—who are willing to faithfully follow a most simple, inexpensive and pleasant 28 day plan (women considerably overweight naturally require longer periods), we suggest this easy plan.

First of all go light on fatty foods and sweets. Eat plentifully of lean meats, fresh fruits and vegetables. And for proper functioning be sure to take a half teaspoonful of Kruschen Salts in hot water every morning. And let's get this straight right now about Kruschen—

It is not harmful. It is NOT just one salt as some people may ignorantly believe. Look on the box! You'll see it is a blend of 6 active mineral salts, which when dissolved in water is similar to the famous medicinal waters of European Spas where wealthy fat people have gone for years.

A jar of Kruschen costs but a few cents and makes 5 gallons of marvelous mineral health water. Get a jar RIGHT AWAY! At Palace Drug Store and druggists everywhere.

Your Child's Future

THE biggest job you have ever had, parents,—that of caring for your children—is safeguarding their health so that their future happiness and success may be assured.

Nothing is more important to them than their eyes. No child is healthy without healthy eyes. No child can achieve success without good vision.

There's only one way to tell whether or not your children's vision is normal—have their eyes examined. Do it now before school begins.

The PAYOFF

BY JESS RODGERS.

The Standings.

Midland	31	Wink
53, Ezzell 0.	31	Hobbs 0.
66, Big Lake 0.	60	El Dorado 7.
32, Iraan 0.	72	Littlefield 0.
49, Stanton 6.	39	Crane 6.
	56	Stanton 13.

It won't take more than one look to tell that when football fans watch Midland and Wink teams in action they will be seeing two of the highest scoring aggregations in the state.

The Midland Bulldogs have averaged 50 points per game in hanging up four easy wins. The Wink Wildcats have averaged 51 3/5 in coming through with five consecutive victories. Wink has undoubtedly played some tougher teams than any Midland has met; but the Midland first team has not played nearly as many minutes as has the Wink first team. The total points scored by Midland would be much higher had the local coaches been out to see any scoring marks.

Not only will fans get to see a couple of high scoring teams in action they will get to see a couple of backfield men who are probably leading the state in individual scoring.

In Jay Francis of Midland and Don Ezzell of Wink coaches Taylor and Turner will present a couple of boys who have made the astounding total of 218 points in games played to date.

Francis was ahead in his individual duel with Ezzell until the past week-end when the Midland team had an off week and the Wildcats took on the helpless Stanton Bulldogs. Ezzell increased his total to 120 points by running over the Bulldogs for six touchdowns. Don has made 19 touchdowns and 6 points after.

Francis has scored 98 points in his four games, being held to one lone touchdown in the Iraan game when forced out early with a leg injury. He has scored almost at will in the other games. He now has 15 touchdowns, 8 points after to his credit.

In the initial game of the year, Francis scored on runs of 1, 21, 10, 35 and 85 yards. Against Roby he

came through with four tallies of sprints of 30, 33, 25 and 13 yards. His lone score in the Iraan game came on an 80 yard gallop. However, he recovered his form in the Stanton game and was good for touchdowns on dashes of 95, 60, 84, 76 yards. Against Littlefield, Don was at his peak, getting five touchdowns; the shortest run being 60 yards. The others were made on trips of 76, 75, 60, and 76 yards. Against Stanton he picked up 283 yards in scoring—6 touchdowns, his longest run being for 95 yards. Figures are not available on his other dashes.

Ezzell and Francis are alike in one respect. They both depend upon their terrific speed to outrun opposition for a lot of their scores. The similarity stops there, however. Where Ezzell uses the power furnished by his 172 pounds to overrun a lot of lighter would-be tacklers, Francis must depend more upon shiftness. There is probably not another player in the district that could keep up with Ezzell or Francis in a straightaway race.

Ezzell is shifty—make no mistake about that. But he is also as powerful as they come at his weight. He disdains going around a small safety man, finding it easier to run over him. He pulls his knees high and is double tough to bring down once he has got up full speed. He can change directions rapidly, a much needed stunt in getting into the open. A devastating stiff arm adds to his physical equipment.

Francis, although weighing only slightly more than 150, is as hard to get a good hold of as is an eel. He spins like a top when tackled and can sidestep and shake off tacklers with any of them. He is as lithe as a cat and can give a hula-hula dancer lessons in swinging his hips from one side to another.

The individual duel between Francis and Ezzell will be more interesting to a lot of fans than the game itself. Don will be working from be-

Undefeated Bears to Be Given Real Test In Bout With Aggies

WACO, Oct. 20. — Baylor Bears, undefeated in four starts this year, bump into the Texas A. & M. Aggies here Saturday in the feature conference game of the week.

It will be the home-coming tilt for the Bruin eleven and a sell-out crowd is expected to pour into Waco for the encounter. All the reserved seats for the contest have been exhausted for several days, leaving only seats in the end zones.

The Bears will face a severe test in the tilt with the Farmers. Last week the Aggies fell before the high-geared T. O. U. eleven 34 to 6 but will come to Waco to avenge the drubbing handed them last year in College Station by the Bears.

It will be Baylor's perfect record against a team that has won two and lost two it will be the second conference start for both, the Bears having won their opener while the Farmers were beaten.

The game, renewing a rivalry that dates back to 1899 for its beginning, should be a thriller all the way and it looks like a plain toss-up. The line a line that boasts around a 20 pound advantage per man—one enough to blast holes for him while Francis must rely more than ever upon cunning and those tricky hips of his. The crowd will get its money's worth any time one of the two can get in the clear with the other one in pursuit.

Of a necessity, there will be other backfield men on both sides. But the eyes of the crowd will be upon Ezzell and Francis. Without them, neither team would boast anything approaching the enviable records they now possess.

The following was presented me by Jack Knight, who was quite a baseball pitcher in his day, and is formally dedicated to Bill Holmes and Gordon Asbury.

With Apologies To Casey At The Bat.
It looked extremely rocky for the Houston team that day. The score stood seven to six with few minutes left to play. So when Sullivan failed to gain and Schuehle did the same, A pallor wreathed the features of the patrons of the game.

A straggling few got up to go, leaving there the rest. With the hope which springs eternal within the human breast. For they thought: "If only Ernie could throw one to Cordill." They would bet even money with Ernie in there still.

Then from the gladdened multitude went up a joyous yell. It rumbled in the stadium, it rattled in the dell. It struck upon the hillside, and resounded on the bay. For Ernie, mighty Ernie, was advancing to the fray.

Twenty thousand eyes were on him as he lumbered into view. Twenty thousand tongues applauded when he stopped to tie his shoe. And as he stood with hands on hips, the crowd went wild again. No stranger in the stands could doubt, 'twas All-American Lain.

There was ease in Ernie's manner as he waddled to his place. There was pride in Ernie's bearing and a smile on Ernie's face; And clutched in his manly bosom so that all who run may read. Was Collier's latest story about the mighty Ernie's deed.

Dick Freeman and Lloyd Gregory were hugging each other with glee. Andy grinned from ear to ear, 'twas a joyous sight to see. Who were these dumbbells from the north from Oklahoma town? Preposterous that they should lead our team of great renown.

And now the pigskin covered sphere came hurtling through the air. And Ernie heaved a mighty pass in haughty grandeur there. High above the fleet Cordill the ball unheeding sped. "To hell with that," said Ernie; "incomplete," the referee said.

From the benches, black with people, there went up a muffled roar. Like the beating of the storm waves on the stern and distant shore. "Interference! Kill the referee!" shouted many from the stand, And its likely they'd have killed him had not Ernie raised his hand.

With a smile of Christian charity great Ernie's visage shone; He stilled the rising tumult, he made the game go on; He signalled to the center, and once more the spheroid flew; But the Sooner line read Collier's note—the referee said, "Lost two".

Muckers Prepare for Game With Raiders In Odessa Saturday

EL PASO, Oct. 20. — Victorious over the University of New Mexico, 7-6, in their first Border Conference clash of the season, Saturday, Texas Miners were at work today for their Saturday engagement with Texas Tech at Odessa.

Gordon Wilson, 218 pound tackle, and George Aitel, guard, were the only Miners to leave the New Mexico game with semi-serious injuries. Both will be ready to go against the Matadors, however.

Coaches Mack Saxon and Harry Phillips will also have the services of Ed Alsop, reserve center, for the Raider tilt. Alsop was burned while pouring lime for the field Friday and was kept out of the Lobo fray. Barry Pennington doing 57-minutes of yeoman work at the pivot post.

The Miners were again sparked to victory by their 155-pound quarterback, Ken Heineman. It was Heineman's 18 yard pass to Allen Taylor, standing on the goal line, that gave the El Pasoans their touchdown in the second period. Heineman attempted 13 passes against New Mexico completing 7 for a total gain of 135 yards.

The Raiders met the Miners and Red Raiders met the Miners won 10-7, in a spring game in 1937 in Lubbock.

Remains Found of Early Explorers
CARLSVILLE (AP). — The credits of being among the first white men to explore the virgin pine-lands of northeast Texas must have seemed vain to two Spanish Conquistadores who died more than four hundred years ago from torture by savage Indians who once inhabited what is now Red River country.

The bones of the two unfortunate recently were found 12 miles east of here in shallow graves by William R. Latimer and C. Harves and Red Raiders met the Miners won 10-7, in a spring game in 1937 in Lubbock.

The skeletons, found by the amateur archeologists as they dug into an Indian burial ground, showed signs of torture. The feet and hands of one had been severed by a tomahawk or other sharp instrument and spear and arrow heads were found among the bones. On the first points were found pieces of charred flesh which showed that the bodies had been burned.

The identification was made by the shape and other features of the skulls and from sombrero bells and beads said to be of distinctly 16th century Spanish design.

Slam Club Meets With Mrs. Bryant On Wednesday
Slam club members and guests were complimented by Mrs. E. M. Bryant with an afternoon party at her home at the Atlantic Tank Farm Wednesday.

Three tables were appointed for bridge with high score in play going to Mrs. G. W. Adams, low score and travel prize to Mrs. H. H. Nicholson, and guest prize to Mrs. L. H. Wheeler.

A fall refreshment course was served at the tea hour. Visitors present were Mmes. R. L. Stewart, Wheeler, Ellis Knight. Club members attending were: Mmes. W. G. Ataway, Adams, R. L. Bailey, Joe Dobson, Robert King, R. L. Cline, and the hostess.

The club will meet next Wednesday with Mrs. Nicholson, 404 W. Ohio, at 2 o'clock in the afternoon.

The famous Italian composer, Scarlatti, wrote his well known "Cat Fugue" after hearing the notes produced by a cat which ran across the keys of his harpsichord.

Farmers will hold an edge in running power which the Bears will likely offset with their fancy aerial intrus led by Bullet Bill Patterson.

The outcome may make or break Baylor in the pennant race. If they get over the Aggie hump, they still face the Horned Frogs the following week-end. It is also likely to determine whether the Aggies can come back and battle their way upward in the conference chase.

Way to Make Paper Into Pulp is Found

COLLEGE STATION, (P).—A discovery which may revolutionize the pulp paper industry is reported by the Texas Forest News, a monthly bulletin published by the Texas Forest Service. The discovery is a method by which ink may be removed from the paper, which then is converted into pulp and back into newsprint.

Functions, Services of University. Package Loan Library are Explained

AUSTIN.—Describing the functions and services of the package loan library bureau, a branch of the University of Texas division of extension, Miss LeNoir Dimmitt, chief of the bureau, pointed out that, while many of the citizens of Texas have vast numbers of books at their disposal, there are 147 counties which have no libraries within their borders. She explained that there are two agencies in Texas through which citizens of these counties and of others where library service is limited can obtain reading material. One is through the free state-wide book service of the state library, the other the university package loan library.

Requests for material which come to the package loan library bureau are referred to the six reference librarians, each of whom is responsible for answering all requests in a specific field. "For example, a club woman has been asked to prepare to talk on some historical Texas novel written by a Texan and she has chosen as her subject one of the current best sellers, 'And Tell of Time' by Laura Krey," Miss Dimmitt said. "She would like to have some magazine reviews of it. Another club woman who is chairman of a program committee asks for suggestions for topics of study by a club which is particularly interested in art and music."

A teacher wants material for a Halloween assembly program. Here are 24 postals all from the same school. Each student wants material on the vocation in which he is most interested. Some of the vocations listed are diesel engineering, teaching aviation, teaching home economics, beauty culture and nursing. From another school also comes a shower of postals, but the writers of these are all asking for biographies of prominent people such as Hitler, Chamberlain, Mrs. Roosevelt, Douglas Corrigan and Jesse Jones. For a term paper in connection with the study of W. P. Webb's 'History of the Great Plains,' a student wants material on branding irons, Colt's revolver, and windmills.

"A rural route mail carrier who is preparing a speech to be delivered at a rural route mail carrier's banquet wants some material on the history of rural delivery. A minister who is planning to preach a series of sermons on the home asks for material on religion in the home, home and crime, foes of the home, etc. A county judge asks for something on needed changes in the present laws concerning county government. A man preparing for a civil service examination wants something on meat judging and inspection. A lawyer is asking for an extension of time on some articles on accidents caused by carbon monoxide gas because the case in which he is using them has been postponed. A chef of one of the large hotels in Mineral Wells wants to know where he can get a dictionary of culinary terms.

"A man who is a little theatre director and foreign tour conductor writes to express his appreciation of the service given him by this library both in lending him plays from which to make selections, and in lending him material on foreign countries. Another letter asking for the loan of plays comes from a teacher in one of the schools planning to enter the interscholastic league play contest.

Perhaps after the package library has reached its destination the borrower will write, as many others have in the past, telling how much it means to people, like him, living where there is no library to be able to get material from the extension loan library. Letters of appreciation like this make the members of the library staff realize that they are engaged in a very worthwhile and much needed library service. This consciousness and the opportunity of keeping well informed on the subjects in which they are most interested, as well as current happenings in general, are two of the reasons why some librarians choose this particular type of work.

"Only about 25 states have university library extension agencies, and there is not more than one such agency in any state. It is always a part of a state college or university, sometimes a bureau of the extension division, and sometimes a department of the university library. In some of the states this form of library extension work has been more highly organized, with a large scope of activities, than in others. Among the states most active in it are Wisconsin, Texas, Oklahoma, Michigan, Tennessee, Indiana, Kansas, Colorado, Florida, North Carolina, Virginia, and West Virginia. In some places there are only one or two people on the library staff, Texas with its ten full time staff members and ten part-time student assistants has one of the largest staffs."

backbone animals. Also shown are starfish, snails, sponges, and some plants, all in natural size. There were no birds in those days, and no land animals excepting a few similar to centipedes and scorpions. In the latter part of the period depicted began the development of land plants and four-footed amphibians. Prof. Johnston made the models. Much of the work on the case, however, was done by G. F. Sundstrom of San Antonio and some of the painting of the background is by Mrs. J. A. Hill. Another similar case completed some time ago shows animals and plants of the comparatively recent middle Pliocene Epoch—about 5,000,000 years ago. In it are seen dog-like animals, saber-tooth tigers, and huge elephants.

THIRTEEN other cases must be constructed to show the development of plants and animals from their earliest known existence to the present. This work is being facilitated through WPA scientific projects sponsored by the college. LABORER DONATES \$25,000. SAN LUIS OBISPO, Cal. (U.P.).—L. E. Wrassee, 89, who as a laborer at \$1.00 a day, invested his savings in annuities, has been able to donate \$25,000 to the California Polytechnic school here as the nucleus of a fund for scholarships for members of the Future Farmers of America. Benjamin Banneker constructed the first clock made in America in 1754.

Oil Conversion Of Coal Made In Two Hours

COLLEGE PARK, Md. (U.P.).—High Grade American bituminous coal can easily be converted into oil, Dr. H. H. Storch of the Bureau of Mines reported to the University of Maryland College of Engineering. The change, he said, is made under pressure in a reaction vessel. In about two hours, approximately 75 per cent of the coal is converted into a heavy oil. The other 25 per cent is released as gaseous hydrocarbons. He said the Bureau of Mines for 600 years.

planned to experiment with lower grades of coal to see if they could be reduced in a similar manner.

Although America is not faced with an immediate oil shortage, Storch said United States coal deposits were much more extensive than oil deposits. He said plans for breaking down coal would be particularly valuable to some European countries which have few natural oil reserves. In time of war, when oil importations would be blocked, Storch said these countries could turn to coal for lubricants. York cathedral, England, is to be cleaned, and the job will require 20 years. Many portions of the building haven't been cleaned.

Parade Will Be Big Feature of Ranger Jubilee

RANGER, Oct. 20. — A colorful parade will be one of the highlights of Ranger's annual homecoming next Friday, in observance of the twenty-first anniversary of the discovery of oil.

Pioneers in buggies and wagons will have an honored place in the procession which will start at 4:45 p. m., and a touch of the West will be given by many men and women

on horseback. The oil industry will be represented by a division. The bands and pep squads of Breckenridge and Ranger, whose teams meet in an Oil Belt football classic that night here, will participate in the parade as will the National Guard unit, fire and police departments, American Legion, State Highway Patrol and others.

Ten thousand persons are expected to attend the occasion. Mayor Hall Walker, general chairman, has especially urged citizens of neighboring cities and all persons who were in Ranger during the big boom to be on hand.

the convention to block the independent unions, which delegates predicted would spread to the steel industry and possibly the mines under the Wagner Labor Act.

"Something has got to be done to stop it. I hope this convention will take some action, because there are thousands of unorganized workers in the United States and the independent unions, many of which are dominated by employers, are beginning to take them in."

Williams assailed Mayor C. K. Quin of San Antonio for assertingly using policemen "as strike breakers in the teamsters and chauffeurs strike now in progress in San Antonio."

A veiled hint the state federation may throw its support behind a resolution asking that Governor James V. Alfred not be confirmed as a federal judge by the Senate, was made by the speaker, who said:

"I am going to leave it to this convention whether Governor Jimmy Alfred has been a friend of organized labor in this state. I do not care who he is, anytime an official injures the AFL, I am opposed to him."

Company Unions Are Called Threat to National Labor

BEAUMONT, Oct. 20. (AP). — A warning so-called company unions threaten the national labor movement was given the Texas State Federation of Labor convention Wednesday by W. R. Williams, San Antonio, A. F. of L. organizer.

"It is a menace more dangerous than the C. I. O.," he said, in addressing the convention, which a few minutes earlier had re-elected A. S. McBride of Houston as president and chosen Galveston as its next convention city. "These company, or independent unions as they are called," Williams said, "are asking a dual state federation of labor and we must combat it."

Williams, personal representative of William Green, president of the American Federation of Labor, ask-

Women Called Toll Cheaters

ST. LOUIS (U.P.). — Women are better cheaters than men.

Take the word of James E. Fisher for that. He ought to know, for after 45 years of toll collecting on the busy Eads bridge across the Mississippi River, he's learned all the tricks by this

Idea Sticks to Children.

SAN FRANCISCO (U.P.). — Amos 'n' Andy proved the undoing of Stevie Coal, 4, and his brother Phillip, aged 3.

To resemble their idea of their radio favorite, they painted themselves with brown lacquer paint. Hospital attendants had considerable trouble getting them back to normal without the use of a blow torch.

SYDNEY (U.P.). — Keith Wheeler won a \$40 bet by roller skating from Sydney to Newcastle, a distance of 220 miles, in 50 hours. His greatest difficulty, he declared, was dodging automobiles.

Movies Go to College.

LOS ANGELES (U.P.). — The University of Southern California now offers 22 different courses in the various branches of motion picture production. Studio directors and film executives serve as lecturers.

The power in the jaws of alligators lies only in the closing motion. A man can easily hold them shut with his hands once the jaws are closed.

On May 11, 1937, the planet Mercury appeared to touch the rim of the sun, and astronomers were able to confirm their beliefs that the tiny planet is entirely without atmosphere.

No. 2—THE BRITISH DILEMMA

TIME OUT

for a refreshing glass of our natural flavor milk

• All our milk is Frigid Filtered. Frigid Filtration, a new, hygienic process developed by Johnson & Johnson, permits milk filtration at 40° Fahrenheit, which removes sediment before it dissolves. The natural flavor is retained, adding increased enjoyment to the zest of quick sustenance. Try this grand old food with the new taste delight. You'll want it delivered to your door every day. It costs no more.

FRIGID FILTRATION
