

Severe Penalties Inflicted on Jews

New Fire Truck Monster of Power

Six and one half tons of harnessing power, brute force, lightning speed and public protection are encased in the new \$10,000 American LaFrance fire truck received Friday afternoon by the City of Midland...

away runs, the big truck has pumping equipment of 750-gallons per minute capacity and 200-gallon booster tanks. Three lines of hose may be played on a blaze at once...

alized at the right side of the truck, just to the front of the cab, so that the operator may handle pressure of all lines conveniently. The truck itself is built of heavy steel and is so large that concrete buttons had to be removed from each side of the fire station door...

for fireman to ride or to work on each side of the hose compartment. Strong commendation of the new equipment was voiced Saturday by Mayor C. C. Gilmer, Fire Chief J. Tidwell, Fireman Jim Walker, Fire Marshal Frank Prothro and by members of the volunteer department.

That smile may not have been quite so bright after Mr. Roosevelt got news of democratic losses in key states. The president is shown with his wife and mother as they voted at Hyde Park.

Heavy Fine For Murder Of Diplomat

Report Arrests Throughout the German Nation

BERLIN, Nov. 12 (AP).—Jews today were assessed one billion marks (\$400,000,000) penalty for the Paris murder of Ernest von Rath, German diplomat, it was announced officially. Herman Goering, director of Germany's four year plan, issued a decree effective January 1 prohibiting Jews from conducting retail businesses, mail order or commission houses or independent handicraft enterprises.

Another decree ordered Jews excluded from theatres, movie houses, concerts and other public presentations. Propaganda Minister Goebbels today indicated that more grief was in store for Jews if those abroad do not cease "misrepresentations and distortions of happenings here."

Frankfurt-on-Main reported all male Jews between 18 and 60 years were rounded up and confined in some smaller towns the arrests of male Jews appeared to be 100 per cent. Additional decrees later today said the Jews must pay all damage to Jewish property "occasioned by the indignation of the people over the international incident by the International Jewry against the national socialist Germany."

Geological Society To Meet Tomorrow Night in Ballroom

Members of the West Texas Geological Society will meet Monday night, Nov. 14, at eight o'clock in the Crystal Ballroom of the Hotel Scharbauer. Berte R. Haigh, general chairman of the program committee for the mid-year convention of the American Association of Petroleum Geologists, held in El Paso Sept. 27-Oct. 2, will give a final report on the meeting.

Connally Doubts Additional Tax Levies for Year

WASHINGTON, Nov. 12. (AP) — Senator Connally (D-Tex), member of the senate finance committee, predicted today that the next congress would pass no general tax bill. Improving business conditions, he said, should increase federal revenues and make tax revisions unnecessary.

Eight Lose Lives In Hotel Blaze

ROUYN, Quebec, Nov. 12. (AP).—Flames raced through two hotels and a block of other buildings today, and police said they believed "seven or eight" lives were lost. The fire originated in a hotel. It was impossible to make an accurate check of the loss of life, as hotel records were lost.

TO ATTEND CONFERENCE

Rev. and Mrs. W. C. Hinds will leave Tuesday morning for Childress and Memphis, to attend the Methodist conference at the latter town. They will go to Childress where their daughter and son-in-law reside and spend the night before going on to Memphis Wednesday to the conference. They plan to be away about a week.

Football Excursions Meet With Disaster

Forty Notre Dame Fans Injured as Trains Collide

SOUTH BEND, Nov. 12 (AP).—Two football special trains packed with persons bound for the Notre Dame-Minnesota game crashed at right angles here today, injuring at least thirty-five or forty, hospital attaches said.

Red Cross Roll Call to Be Launched Here Tuesday

Midland's annual Red Cross roll call will get underway Tuesday morning at 9 o'clock and if possible will be completed Wednesday afternoon, roll call team captains and committeemen decided at an early morning breakfast in the Blue Room of the Scharbauer Hotel coffee shop Saturday.

Dare-Devil Stunts On Roped-off Street To Promote Safety

Jimmie Lynch of Texarkana, internationally famous automobile stunt star and safety exponent, will present his "Danger for Safety" program in Midland on Missouri street near Loraine next Thursday afternoon at 4 o'clock, arrangements having been made with city officials to block off the street.

O'Daniel Pleased At Public Response To "RFC" Plan

FORT WORTH, Nov. 12. (AP).—Governor-Elect W. Lee O'Daniel said today most of the comment he has received on his "Texas RFC" plan has been favorable. "It is encouraging because folks aren't bashful about letting you know when they don't like your idea," he said.

Walsh and Sloan Here From New Oil Fields

W. T. Walsh and W. H. Sloan, independent oil operators of Midland who have been in the Illinois and Kentucky fields for the past few weeks, are back for a visit with families and to look after Permian Basin holdings. Walsh has been in the Owensboro, Ky., area and Sloan at Mattoon, Ill. Both declared the new fields to be experiencing heavy play.

Safety Lane for Testing Motor Vehicles To Be Conducted Here Over 4-Day Period

With every modern device for testing motor vehicles for mechanical defects, the Safety Division of Texas State Police, will operate a Safety Lane in Midland for four days, Nov. 18-19-20-21-22 according to Captain George Schauer, Director of Safety education. This type of testing equipment is new to traffic safety work in Texas, where there are two such safety lanes operating over the state, testing over 2,000 vehicles a day.

RETURNS HOME

Joe Lee of Bells, Texas, who has been visiting his brother, R. D. Lee and family here, has returned to his home. Wheel alignment tests are next in line of inspection. The accurate machinery determines if wheels are out of line and points to the defective unit. Defective wheel alignment contributes to tire wear and difficult steering.

Baptist Church Revival To Begin This Morning

Opening of a revival meeting at the First Baptist church is announced for this morning, with services to be held each day, morning and evening, closing date to be determined later. The Rev. H. D. Bruce, pastor of the church, will do the preaching, music for the services being under the direction of Chase Murphree, choir director.

Church Contest Winners Will Be Named Next Week

Winners in the "Why I Go to Church" or "Why I Don't Go to Church" contest, conducted through the columns of The Reporter-Telegram for a local committee, will not be announced until Sunday, Nov. 20. Judges, working on the large number of letters entered up to Saturday, asked for further time in which to give consideration to the entries. It was decided to make the announcement in next Sunday's paper.

Affidavit Required On Assumed Names

County officials yesterday pointed out the provisions of the law of Texas relating to businesses operating under assumed names, which reads as follows: "No person shall conduct or transact business in this state under any assumed name or under any designation, name, style, corporate or otherwise other than the real name of each individual conducting or transacting such business, unless such person shall file in the office of the county clerk of the counties in which such person conducts, or transacts or intends to conduct or transact such business, a certificate setting forth the name under which such business is, or is to be, conducted or transacted, and the true full name or names of each person conducting or transacting the same, with the postoffice address of each. Said certificate shall be executed and duly acknowledged by the persons so conducting or intending to conduct said business in the manner provided for acknowledgment of conveyance of real estate."

Pratt Is Speaker To Rankin Masons

W. I. Pratt of Midland addressed a large gathering of Masons at Rankin Thursday evening, a banquet and entertainment accompanying the program. Roy R. McKee of Midland, district deputy grand master, made his official visit to the Rankin lodge. Others from Midland attending the program were Judge Chas. L. Klapproth, Dr. L. B. Pemberton, John P. Bride Lessons by Noted Authority Booked by Lions

Arrangements have been made by the Lions club of Midland with W. F. (Rufus) Steele, internationally famous bride authority, to conduct classes here during the week of November 28. Two classes will be given each day, one in the afternoon and one in the evening, at the Crystal ball room of Hotel Scharbauer, according to Bill Collins, president of the Lions club.

Bridge Lessons by Noted Authority Booked by Lions

Mr. Steele will entertain the joint sessions of Lions and Rotary clubs held each year the day before Thanksgiving, on November 23, it was announced, demonstrating card tricks and methods used by card sharps the world over. Beginning Monday, November 28, classes will extend through, December 2, with a fee of \$2 each to those attending the classes, the major portion of the revenue to go to the Lions club for its sight conservation and recreational programs. Night classes will be a repetition of the afternoon classes, although students may attend both.

## Top Hair Coming Down

The shower bath swoop is coming down. The fashion of piling a lady's crowning glory in soft ringlets on her head is definitely skidding. No longer will it be necessary to have a hairdresser around to help milady remove her hat. The olden days of the long bob and windswept hair-do are here again.

The movies are said to be a contributing factor in the trend away from the top-heavy pile. Greta Garbo's arrival from Europe with a long bob, the refusal of Norma Shearer to continue wearing her hair top-side, and Joan Crawford wearing a long coiffure that conceals both ears were all bad news so far as hair stylists were concerned.

But the hectic battle to "put it up" was not without its ultimate benefit. Instead of the French "coiffure" the country now speaks of a hair dress as a "hair-do," a thoroughly American combination of words that expresses exactly what is meant much better than the imported word used since the Gibson girls first flashed on the American scene.

## BABSON'S AUTHENTIC STATEMENT

By ROGER W. BABSON

Copyright—1938—Publishers Financial Bureau

BABSON PARK, Mass. November 12.—With the election out of the way, it is time to forget politics and to get busy. We have had hard times in America for so long that we have lost our perspective. Even the most cheerful and optimistic observers think that the 1929 business peaks can never be scaled again. Yet, in the midst of today's uncertainty, I am willing to forecast that American business within a few years can pass 1929 peaks, if everybody will quit trying to ride in the cart and will, instead, help to pull it.

Glance at a chart of United States business for the past 70 or 80 years. You will see that in 1871-73 activity reached the highest peak up to that time. Then followed a loud crash and a long dreary depression. Read the newspapers of

1873-1878 and you will find just the same gloomy pessimistic attitude about the future of America as we hear today. Yet, great prosperity soon returned.

### PEAKS IN '73 AND '90.

Look along to 1890-3 and you will find that business made another new all-time high in those years. This was followed by the usual panic and then five years of depression. 1897 marked the bottom of that depression. I remember that date vividly for it was the year that I finished my work at Massachusetts Institute of Technology. When I started out to hunt a job that spring, everyone was ready to give the country back to the Indians. Yet, four short years later business

had chalked up a new record. It is interesting to note that no boom period ever stopped before the previous highs had been broken! Why? Because of new industries. Just think, in 1873 the majority of today's biggest industries were not even known! The first transcontinental railroad had just been finished. The same was true in the next boom. Many of our biggest industries of today were unheard of in 1890.

The point I want to emphasize is that in every earlier period when it looked as though American business had stalled, new industries swept us on to undreamed of heights!

Tomorrow we will again be blessed by a flood of more new industries and myriads of new products. More patents have been issued in the past ten years than in any previous decade in our history. A huge demand for our old, as well as new, products has been built up by a whole decade of sub-normal consumption. American business, within a few years, can hit highs which even the most optimistic cannot contemplate.

### TELEVISION A REALITY.

As an example of what I have in mind, take the recent announcement by Radio Corporation of America that television sets will go on the market in 1939. For two hours a week, the first regular television program will be broadcast. Receiving sets will be put on the market, priced from \$150 up. In Great Britain, television is already going strong. The British Broadcasting Company sends out programs for two hours every day. The rapid progress made by television since I was in England a year ago was one of the biggest surprises of my recent trip.

I am using this news item simply to illustrate the potentialities in new industries. All this will make jobs for people manufacturing television sets, and the like. Also, it means a bigger demand for raw materials of all kinds; an increase in the freight carried by railroads and trucks; an addition to retail sales; and a greater consumption of electric power. I again suggest air-conditioning as another illustration. Furthermore, these new industries need not throw any people out of work.

### HUGE POTENTIAL DEMANDS.

Take the effect of these new industries on the utilities for an example. Within five years the chemical and metal industries will require 4,000,000,000, or 33 per cent, more kw. of electricity annually than they are now using! This means more generating equipment for the utilities, more fine steels and metals to make generating equipment, and more jobs to provide the fine steels

**The Jown Quack**

Social note (Editor Ralph Shuffler please notice): An Odessa lady won the high score prize at bridge at a party in Midland late in the week, some of the best Midland talent competing.

It seems that there is no end to my having to concede a point to Shuffler.

With the Bulldogs forced into Class A competition next fall, we should be enjoying the remainder of this 7-B season, with its intense rivalry and hot school-boy competition, fairly free of professionalism or commercialism. I don't know a thing about the AA district we will go into, but it's a cinch that a lot of shopping around has to be done to build up a team strong enough to play those from cities of 25,000 population.

The Bulldogs have shown a lot of team work this season. In spite of the statewide publicity given Jay

and metals. At least \$3,000,000,000 worth of construction work is accumulating in the power industry.

Were unemployment eliminated, we would find a shortage of a million homes. This means a potential housing volume of \$5,000,000,000. The railroad industry needs \$1,000,000,000 worth of new rolling stock to run efficiently. Rebuilding factories and replacement of machinery will take another \$5,000,000,000. The potentialities of future business staggers the imagination. Furthermore, our banks have more money — and interest rates are lower — than ever before to finance this new expansion.

### END SELFISHNESS.

The stage is all set for America to go. There is only one thing holding us back: Our own selfishness! We are fighting and bickering among ourselves. Pressure groups are trying to loot the Treasury

# Water Facilities of Huge Mustang Draw Available!

The Mustang Draw water facilities project which will be operated to assist farmers of the Mustang Draw watershed area in the development of facilities for supplying water on farm and range lands is one of 38 such projects approved by the Water Facilities Board in Washington, D. C., for operation in 17 western states. Paul Walser, state coordinator for the Soil Conservation Service in Texas, announced today.

Walser announced that plans have been completed so that assistance can be given farmers living within the 4,000,000-acre drainage basin of Mustang Draw in the installation or construction of stock ponds, farm water storage reservoirs, wells, water spreaders, small garden irrigation systems and windmills or pumps. The project will serve farmers living in the watershed area in Midland, Martin, Andrews and Gaines counties and parts of Howard, Glasscock, Ector, Yoakum and Dawson counties. The project area has been divided into two parts. Technicians of the Soil Conservation Service attached to the Region 4 office at Fort Worth will direct work in Midland, Martin, Howard, Glasscock and Ector counties. Work in Andrews, Gaines, Yoakum and Dawson counties will be directed from technicians attached to the Region 6 office at Amarillo. Field offices have been set up at Midland by Region 4 and at Lamesa by Region 6.

The water facilities program in Texas is a cooperative enterprise, being carried on jointly by the Bureau of Agricultural Economics, the Farm Security Administration and the Soil Conservation Service.

Under provisions of the Department of Agriculture water facilities program, the Soil Conservation Service is given general responsibility for the operations phase of the program, especially in working out plans for water facilities with the farmer and in supervising the construction or installation of water facilities. The Farm Security Administration is responsible for financing the program for individual farmers and in assisting in the preparation of a farm plan. The Bureau of Agricultural Economics is charged with over-all planning for designated agricultural areas.

Work on individual farms will be financed through loans made to the land operators by the Farm Security Administration. Funds thus advanced may be used by the farmer to meet costs of installation of the facilities. The farmers will not be required to pay for planning or other technical assistance furnished.

The loans will be made at three per cent interest and may extend for the life of the structure, but in no case for more than 20 years. Farmers and ranchers must agree to furnish as much as possible of the necessary labor and materials needed to install or to construct a water facility. They also must adopt a sound farm or range management plan worked in cooperation with the Soil Conservation Service and the Farm Security Administration. Such plans will provide for the use of a complete and coordinated soil and water conservation farming system and a crop production program which will provide living expenses, operating costs and loan payments as well as subsistence for the need of all.

## Ceremony at Parsonage Unites Midland Couple

Miss Dephane Shafer, daughter of Mrs. C. Shafer, and Ernest Nance, son of J. A. Nance of Clyde, were married at the Methodist church parsonage Saturday morning at 1:30 o'clock. The unusual wedding hour was chosen in order that the ceremony might take place immediately after the bride reached her eighteenth birthday.

Baskets of pink roses were placed at vantage points about the living room where Rev. W. C. Hinds, pastor, officiated at the single ring service.

Miss Vivian Arnett sang the pre-nuptial solo, "I Love You Truly." Walter Johnson played the wedding march for the couple who entered unattended.

A small group of close friends and relatives were present.

The bride wore a green wool suit with trim of red fox fur. Her accessories were in British tan alligator and her flowers were a corsage of Token roses.

Following the ceremony a reception was held at the home of Mr. and Mrs. John W. Rhoden Jr., 906 W. Kentucky.

Yellow chrysanthemums were used on the dining table where a three-tiered white wedding cake, decorated with yellow rosebuds, was cut by the bride. The same flowers

## Eighteen Students Present at Meeting Of Treble Clef Club

Eighteen students of the Watson school of music were present for the meeting of the Treble Clef club at the studio, 210 W. Ohio, Saturday morning.

Miss Lydia G. Watson gave a biography of the composer, Bach.

Shirley Cooper made a report on the varying characteristics of the Dione quintuplets whom she visited while in Canada recently.

The following impromptu musical program was presented:

Piano, "The Band Plays Dixie" (Williams) — John Harvard.

Mandolin solo, "America" — Claude Ramsey Jr.

Piano, "Drifting" — Norma Jean Hubbard.

A roundtable discussion was held on the right type of practicing.

Two new students were introduced. They were Ray Harwood, piano, and Scharbauer Heartley, violin.

Geraldine Fuller introduced her guests, Margot Ann Sams.

Bob Cross presided at the attendance card.

The meeting closed with the club motto.

Present were: Kathryn Jordan, Helen Armstrong, Meibe Schlosser, Marjorie Ann Monaghan, Jane Hill, and the hostess.

## At the Library

Merchants of Death; a study of the international armament, by Engelbrecht and Hanighen: "Three charges are made against the munitions manufacturers in this book—that they make enormous profits out of instruments of death, that they are 'international', namely, sell to both friend and enemy, and that they exercise undue influence in politics and in the press. In probing these charges, the authors trace the history of the arms industry and describe the careers of such leading figures as Krupp and Zaharoff. They conclude that the munitions makers themselves are not to blame for war—that the only solution to the problem is real disarmament, which... would necessitate a remaking of our civilization. . . Well documented and written with admirable restraint and detachment." (Booklist.)

Guns or Butter, by R. H. Bruce Lockhart: In the last two years the author of "British Agent" has revisited the continents of Europe and writes of his reactions to and impressions of Scandinavia, Holland, Yugoslavia, Rumania, Bulgaria, Austria, Czechoslovakia, and Germany. His account of Europe, from the peace-loving north to the war-scarred south is graphic, lucid, vital.

The Best Plays of 1937-1938, Burns Mantle (editor): The ten most representative plays of the year are included by excerpt and summary as follows: Of Mice and Men, by Steinbeck; Our Town, by Thornton Wilder; Shadow and Substance, by Carroll; On Borrowed Time, by Osborn; The Star-Wagon, by Anderson; Susan and God, by Crothers; Prologue to Glory, by Conkle; Amphitryon 38, by Behrman; Golden Boy, by Odets; What a Life, by Goldsmith.

We Are Forty and We Did Get Jobs, by C. B. Thompson and M. L. Wise: Here is mighty news for the forty-year-old! With the whole country seething with the problems of the unemployed mature, two forty-year-olds prove that, notwithstanding the current post-forty phobia, anyone (man or woman) is better equipped at forty to serve an employer; is actually worth more

"Mortals and Immortals" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 13.  
The Golden Text is: "If any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new" (II Corinthians 5:17).  
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "We that are in this tabernacle do groan, being burdened; not for that we would be unclothed, but clothed upon, that mortality might be swallowed up of life" (II Corinthians 5:4).  
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scrip-

## Woman Official of FSA to Work Here During Next Week

Mrs. G. Pearl Flache, home management supervisor for the Farm Security Administration in Howard, Midland, Ector, Martin, and Glasscock counties, will be in this county part of nearly every week to carry on her work among families who have loans under the administration. Headquarters for her work is at Big Spring.

There are approximately 32 families in Midland county now who come under this classification, Mrs. Flache said. With the women of these families she will work out plans for feeding and clothing the family and running the household efficiently, attempting to attain a "live-at-home" basis, as nearly as possible.

In explaining her work and its aim, she said: "The Farm Security advisors have been thoroughly convinced, as a result of four years of experience, that farm families, trying to get a start on small units, cannot produce a sufficient cash income to take care of even the necessities of the family."

"For the last two years the Farm Security Administration has urged every family to keep a Farm Family Record Book, which is a simple account of all income and expenditure. From these records, we find that, for a family of five, the actual living expense is approximately

\$300.00, which does not include the milk and butter for the family. We know that this farmer cannot, in addition to the farm operation expense, use \$300.00 for living and be able to repay a loan or ever get ahead so that he will not have to borrow for next year's operations. We cannot do away with the farm operating expense, so we must produce the living on the farm in order that the cash income from crops can be used to repay the loan, or used for next year's operation, and we would hope to be able soon to improve the living conditions or possibly get a small farm of our own."

"A complete 'live-at-home' program would be to produce, on the farm for the family's use, a sufficient amount of milk and butter; pork, beef and chicken for meat; vegetables, fresh and dry; and eggs. Then, to have some income, either weekly or monthly, from the sale of cream, eggs, or any other home project. You may, of course, need two or more of these on a small scale in order to make the income yearly. You may plan to have a few turkeys to sell along in the winter when the hens have quit laying. Your projects, of course, will depend on the feed supply and the facilities you have available."

"I sincerely believe that such a plan can be worked out in most every case, if the family believes in it and is willing to work at it consistently, and if necessary, study out problems with the help of all available material." Mrs. Flache continued. "I think, too, that the farm family would be more interested if they realized the actual value in cash of what they get for their work on the farm. We have worked out a 1939 plan for the family who spent \$300.00 for living expenses and the column, 'we plan to buy,' totals \$109.00 and the column, 'we plan to produce on the farm,' using selling price for the

estimates, is \$215.00 and I believe at the end of the year they can truthfully say that they had a much better living than last year."

Mrs. Flache said that she is greatly encouraged because the farmers will be helped by the Water Facilities program in this county. This part of the soil conservation service is new, and she is pleased to notice that the president of the United States, after studying the survey of economic conditions, considered water conservation in this section important enough to create such a program; which simply means provision for water in sufficient quantities for home use.

"The program will develop on a larger scale, I am sure, but to start with the most of the projects will be of family size," she stated. "The two big problems in this county, when it comes to making a garden, or even raising chickens, is the wind and water. With the co-operation of the Farm Security Administration and the Soil Conservation Service in this county, some plan, in each case, may be worked out which will make it possible to carry out the 'live-at-home' program."

There will be no regular after-

noon meeting of the Episcopal auxiliary Monday. Instead Mrs. Allan Hargrave will serve a Mexican dinner at one o'clock at her home, 213 South L street, to auxiliary members who have made reservations with the hostess at 75 cents a plate.

Baptist WMU circles will meet Monday afternoon at 3:30 o'clock as follows: Annie Barron circle with Mrs. R. O. Collins, 701 N. Big Springs, with Mrs. J. Howard Hodge as speaker; Glenn Walker circle with Mrs. Geo. Grant, 1401 W. Illinois, with Mrs. W. L. Easy on the eye—easy to buy—on General Motors Terms!

## It's got looks—and so have you!

It makes the eye glad and grateful—your spot that the instant your gaze takes in this suave and sparkling Buick for 1939. It's sleek and swift and businesslike, lean and clean in every line, the trim bonnet low-set, the graceful upper-structure light-and-airy looking, neat and fine.

Why, it's almost like being in an open car, with the outlook you've got here!

The long nose tapers quickly out of eye-way, the pillars modestly retire to the background, overhead stop lights drop into easy vision—ahead, to right, to left, you can see!

The ruler will tell you there are as much as 413 added square inches of safety plate glass in this Buick, but the area is not the vital thing.

These inches are placed where they count. They take away that closed-in-feeling—let in the light and the air and the open view!

It has a lot to do with making Buick beautiful, this grand expanse of openness!

And like "catwalk-cooling": radiators low where air pressure is greatest—and the lines of the bonnet: broad, clean aerodynamically better—Buick's stepped-up visibility both sets a pattern and fills a function.

You'll like this marvelously good car—the way it handles, the way it behaves, the way it stands up to the job, the way it leaves you cool and unwearied at the journey's end.

So take a good look into its bigger, better, broader outlook.

It's one thing among many that Buick's got that you'll want in your next automobile.

# BULLDOGS ROMP TO EASY 37-7 WIN OVER THE PECOS EAGLES

## FOUR TOUCHDOWN LEAD ROLLED UP IN FIRST HALF

The Midland Bulldogs go six years without a win over the Pecos Eagles simply because a Midland team never "puts out" against Pecos like it does other clubs. But it was different Friday.

The Eagles think the war is started all over again as the Bulldogs pass and run them dizzy and take a surprisingly easy game by the score of 37-7.

The boys on the Midland team tell the coaches before the game that Pecos "ain't a-gonna" win this one. And they tell the coach the truth.

The Bulldogs score the first time they get their hands on the ball during the game and they keep it up with monotonous regularity throughout the first half. In fact, the Bulldogs score four times on the seven times they get the ball in the first half. Twice they have to kick and the gun gets them at the half as they were headed downfield again.

The Bulldogs make touchdowns on

short runs, long runs and passes. Everything they try works out right and there is no doubt about who is going to win after the first couple of minutes.

The Eagles are all set to stop Jay Francis before the game starts. The line men lay back and wait for him to take the ball and come to them. But Jay fools them. Suffering from a bad leg injury, he leaves most of the ball carrying up to Fatsio Wright, Temple Harris, Dale Truelove and Jim White. And how those boys do carry the mail. Wright would just take the ball, duck his head, and blast his way through the line like a mad bull. He falls down oftener than the Pecos boys ever knocked him down. But he never fails to pick up a bunch of yards before doing so. Little Harris carries most of the time off a spinner and only once does he fail to gain. Truelove and White usually pick on the ends for their gains. And they make plenty.

In the line, Paul Klatt plays like a crazy man. Crazy like a fox! He is in every play, recovers fumbles and once does he fail to gain. Truelove and White usually pick on the ends for their gains. And they make plenty.

## LONGHORNS EASY FOR HORNED FROG CLUB; SCORE, 28-7

FORT WORTH, Nov. 12.—The Texas Christian University Horned Frogs remained on the unbeaten list of major university teams today by easily defeating the Texas Longhorns, 28-7.

The Frogs scored two touchdowns

while he was in the game. Ford, Edison, Whittaker, Foster and Bryan give the Bulldog backs the best interference they have had this year.

The Eagles come to life in the third quarter and make the Bulldog fans plenty glad they have a good lead. The visitors get pushed on the goal line twice, are pushed back and then return—this time to score. They have a lot of luck in getting the touch but they really deserve a score.

The Bulldogs, however, don't like to be shoved around and in the fourth period decide to do something about it. The result was another touchdown and a field goal.

Incidentally, when big, awkward "Lug" Ford kicks the field goal it is the first one to have been made by a Midland team in about three years.

The Pecos backfield is composed of one man, Frank Medanich, and he is slower than molasses in the winter. His mates shake him loose several times but it is a simple matter for one of the Midland backs to catch him from behind. The best player Pecos has in the field during the game is a boy named Griffin who plays halfback on offense and end on defense. Without him the score would have been higher.

To sum up the scoring, it goes something like this:

Ford kicks off to Medanich and he returns 11 yards to his own 20. Medanich and Armstrong make a first down. Midland is penalized 5 and Francis reaches up and takes a pass that Medanich tosses to the Midland 40. Jay is stopped on the Pecos 47.

From there Wright and Francis alternate at carrying the ball, going down to the five in seven carries and Francis makes it over in one more try. Klatt kicks goal.

About five minutes later Midland gets the ball on the Pecos 43 and after a pass over the goal by Truelove falls far in front of Van Dyke. Francis decides to try a ground play. He takes the ball from center, spins and hands it to White and Jim is off for the races. A Pecos tackle shoestrings him on the 30 but Jim gives him a scissor kick and keeps on going until he crosses the last stripe. Klatt's kick is high and through the middle.

The quarter ends in a couple of minutes but the scoring doesn't.

The second quarter is only about two minutes over when Wright, Harris and Francis carry down to the Eagle 7 and Francis slides over for another touch. Again, Klatt kicks goal.

After Pecos takes the kickoff they carry the ball twice and Klatt gets on a Pecos fumble on the Pecos 43. Francis makes 19 at right end, White makes 20 at left end and Harris goes through the middle for the fourth Midland tally. Klatt's educated toe works again and the score was 28-0.

The Eagles come out in the third period mad as wet hens. They drive down inside the Midland ten twice but each time Medanich fumbles and Midland recovers. The third time, however, they get down to the ten. Medanich passes over the goal to Griffin, Francis slaps the ball down and forward and it lands square in the hands of an end by the name of Brownlee. Medanich makes one try at kicking and it is blocked but Midland is offside and he gets another try. This time, it is good.

The game is getting nearly over when Truelove drops back to his 35, the ball is on the 43, and huris a 30-yard pass that Van Dyke takes over his shoulder like a DIMaggio. He goes the other 35 yards for the fifth Midland touch without ever being touched. This time, Klatt's kick is low and the score is 34-0.

Van wasn't even through playing after that. About 45 seconds later he blocks one of Medanich's kicks on the Pecos 20 and returns it to the 14. Midland gets a 5 yard penalty for too many times out as a flock of substitutes take over. Tommy Wilson picks up three, Bobby Walker makes it to the 15 in a couple of stabs and with fourth and 11 staring him in the face Ford drops back to the 25 and sticks his big foot into the ball, sending it high and through the middle of the goals. The timekeeper says the game is over before the ball can be put into play again.

The Pecos Eagles fell from a tie for top place over the week-end when they lost a 7-37 decision to the Midland Bulldogs, leaving Wink high and dry in the driver's seat, and dropping the Eagles to third place in the season's standings, second in conference standings.

Crane took things easy in handling Stanton a 25-7 drubbing and maintained fourth place in the standings. Monahans nosed out Kermit by a 13-6 score to move up ahead of the Yellowjackets in the standings. Meanwhile, the Wink Wildcats were coping a 31-0 decision over Class-A Odessa.

Only four of the seven conference clubs will see action this week, Wink getting a breather with the Kermit club and the Midland Bulldogs and Crane Cranes meeting in Crane.

The Wink club will have no trouble whatsoever in ringing up their ninth straight unless something approaching a miracle occurs.

In the second quarter, one in the third and one in the fourth. Little Davey O'Brien, who paced the attack of the winners all day, kicked point after each touchdown. The Frogs made another touchdown in the first quarter, but it was nullified because of illegal play.

The lone Texas score came late in the third quarter against TCU reserves. Peterson, Steer end, picked up a fumble on the TCU 40 and carried to the TCU 22. On the first play Davis passed to Buck on the one yard line, and despite his not catching the ball, the play was allowed, interference being called against TCU. On the next play, Davis went through the line for the score.

The Horned Frogs mixed power with passes throughout to dominate the play all day. O'Brien and Sparks dealt misery to the victory-less Steers as long as they were in the game and substitutes took up where they left off when they were taken from the game.

Early in the second quarter the Frogs started a drive on their own 22 that ended up with Sparks crashing across from the two yard stripe. A pass from O'Brien to Sparks that netted 15 yards was the big gain of the drive. A few minutes later, O'Brien passed 15 yards to Duckworth and he went 20 yards for another score.

The third score came soon after the third period opened. Shook recovering a fumbled kick-off on the Texas 14, Sparks powered the ball over in five carries.

Late in the final period O'Brien passed 10 yards to Williams and he raced 15 yards to the Texas 8 before being downed. In two stabs at the line, McClanahan made the final Frog tally.

## SOPHOMORE BACKS PACE MUSTANGS TO WIN OVER HOGS

DALLAS, Nov. 12. (AP).—A sweet pair of sophomore snipers, Johnny Clement and Ray Mallouf, flipped three touchdown passes today to overwhelm Arkansas 19-6, and keep Southern Methodist University even

in her dash with Texas Christian for the conference title.

Arkansas got its aerial game together for its single score, but Methodist reserves kept the Razorbacks on ragged edge.

The invaders' famed passing attack bogged down, but Arkansas had the statistical advantage, running up 12 first downs to 11 for the Methodists and having a net gain of 233 yards to 219.

Clement fired a 17-yard pass to Bill Mullens, sophomore quarterback who skipped 30 yards for the first touchdown. Mallouf unwrapped his throwing arm near the end of the third period for another touchdown. A pass interception, by guard Aaron, started the Mustangs trotting again.

Arkansas pulled itself together for a few minutes of prodigious line

labor and two passes from Mitchell to Freiburger were good for a score.

Thomson snared a pass from Walemon Price and sped 28 yards.

The Aggies recovered Hancock's fumble on the Rice 35 and in two plays pounded to the 17, then to the five on a pass from Todd to Thomson. John Kimbrough relieved Price and scored on the first play. Todd converted.

Kimbrough again went over in the third quarter, then the Aggies sent in substitutes to make a touchdown on a pass from Marland Jeffrey to Odell Herman for 20 yards. Hall converted.

Playing without their two stars, Ernie Lahn and Ole Cordill, Rice never seemed able to get started.

The Aggies made 10 first downs to Rice's six, 151 yards rushing to 124 for Rice, and gained 151 yards on passes against Rice's 10.

crops to furnish food and feed for family and livestock.

In announcing approval of the projects from Washington, Secretary of Agriculture Henry A. Wallace stated that "the program is an outgrowth of the report made by the president's Great Plains Committee in 1936. This report recommended the development of small water facilities in arid and semi-arid sections as a means of promoting better land use and assisting in the self-rehabilitation of distressed farm facilities."

It was pointed out that the addition of certain installations to

supply water for farming needs will make it possible for many farmers who are now unable to profitably operate their land to make a success of their operations.

Applications for water facilities work may be made to any county agricultural agent, rehabilitation supervisor or member of the Soil Conservation Service.

The map reproduced herewith shows the drainage basin of Mustang Draw in nine West Texas counties, territory included in the Mustang Draw water facilities project area.

### Baptists Return From Conference

Mmes. E. W. Cowden, Eula Mahoney and Myrtle Scarborough-Smith returned Friday from Dallas where they attended the WMU conference of the Baptist church.

Also returning Friday were Mrs. J. M. White and Rev. and Mrs. H. D. Bruce, the latter couple having attended the Baptist general state conference. Mr. Bruce was elected a member of general board of the Texas Baptist convention, president of which for next year will be Dr. J. Howard Williams of Amarillo.

Mr. Bruce reported that 2500 messengers were registered at the conference. Several thousand other persons attended during the various sessions. The board set a goal of one million dollars for missionary endeavors for another year.

At the WMU conference 1995 messengers were registered.

Mrs. White was elected a member of the WMU state executive board.

### Big Spring Man Hurt When Car Overturns

Oliver Basden, Big Spring, received treatment for a head injury in a local hospital yesterday morning after the car in which he was riding with G. O. Flournoy, also of Big Spring, overturned a few miles east of Midland.

According to the injured men, a car being driven by G. E. Jones of Midland struck the rear of the car he was riding in, causing it to overturn, as Jones was crossing the highway. Neither Jones or Flournoy was hurt.

### Fear Man Lost in Underground Lake

SULPHUR, Okla. Nov. 12. (AP). — Fears that a young sailor, William "Buddy" Parker, of Sulphur, had perished in an underground lake near here were expressed today by searchers, after an all night hunt. He entered the cavern yesterday

ler, treasurer of the local Red Cross chapter, and Bill Collins, publicity chairman, also were in attendance. Other team captains are Mrs. I. E. Daniel, Mrs. Frank Williams, Mrs.

J. W. Rettig and Mrs. Bob Preston. The Midland goal this year has been set at 1,200 memberships, local workers being of the opinion that the drive will go "over the top" by several hundred memberships. An effort will be made to contact every citizen of Midland relative to a membership in the American Red Cross and local residents are urged to join promptly when called upon.

For many years, the Midland Red Cross chapter has exceeded its membership goal, this year's goal being the highest ever set for the local unit.

Business firms and offices whose personnel join the Red Cross will display attractive 100 per cent Red Cross stickers. It is hoped that many such stickers will be displayed throughout the city.

In a statement issued Saturday, Chairman Conkling urged all citizens to join the Red Cross and to give as generously as possible when called upon this week. He called attention to the fact that memberships in the American Red Cross range from one dollar up, the amount of the membership contribution being left entirely up to the individual. Fifty cents of each contribution, whether one dollar or five hundred dollars, goes to national headquarters of the American Red Cross, the remainder being retained by the Midland chapter for use locally, he said. Citizens are urged to respond readily when called upon during the drive in order that the roll call may be completed as quickly as possible.

The great American Red Cross is sustained by the annual roll call, and it is necessary that ample funds for the year's program, both nationally and locally, be raised during the campaign which is staged throughout the nation from Armistice Day to Thanksgiving.

Join the Red Cross when called upon next Tuesday and Wednesday.

In the Emma pool of southern Andrews, Anderson-Prichard No. 1 W. F. Cowden heirs drilled plug with standard tools from 7-inch casing cemented at 4,008, then made new hole from 4,129 to 4,150 feet, where it stopped to test casing.

Anderson-Prichard No. 2-Cowden failed to get cement job around 7-inch set at 4,016 feet and will re-cement. Total depth is 4,140, in lime.

### 1-B Mallet Swabbed.

Assuring the two-mile west extension of the Slaughter pool in southwestern Hockley, Texas No. 1-B Mallet swabbed 96 1/4 barrels of oil in 11 hours through 2-inch tubing set at 5,025, ten feet off bottom. It had logged continuous saturation from 5,007-35 when deepened. At old depth of 5,007, the well had swabbed 48 barrels of oil per day after acidizing with 3,000 gallons.

Texas No. 3 Slaughter, pool well, is drilling at 5,000 feet in brown lime, while the company No. 4 Slaughter is shut down for pump repairs at 3,750 feet in anhydrite and gypsum.

Texas No. 1 H. T. Boyd, two miles southeast of the Duggan pool in southeast Cochran, is drilling hard lime below 4,620 feet.

### Harper Wells Completed.

Three completions were reported at the week-end in the prolific Harper pool of Ector. Largest was L. H. Wentz No. 4-B TXL, which flowed 2,410.23 barrels of 37-gravity oil in 24 hours after acidizing pay between 4,050 and 4,152, total depth, with 4,000 gallons. It had gas-oil ratio of 920-1.

John E. Mabey No. 1 Paul Moss' flowed 1,105 barrels a day after shooting with 435 quarts and treating with 6,000 gallons, bottomed at 4,185 feet. It topped pay at 4,015. Oil tested 37.5 gravity, and gas-oil ratio figured 600-1.

Mabey No. 2 Moss flowed 1,795 barrels on 24-hour gauge at total
