## Crash of Army Bomber Fatal to Five

### Key Figures

Mrs. Kent W. Berry, top, and Irving Baker, lower, as they appeared in the Olympia, Wash., courtroom where Dr. Kent W. Berry is being tried on charges of kidnaping and torturing Baker. Dr. Berry charges Baker made improper advances toward Mrs. Berry.

### Full 30-Day Shutdown Is Asked Smith

#### 35 West Texas Oil Men Sign Wire to RR Commissioner

Advocacy of a full 30-day shutdown of all Texas oil wells or an order against any further withdrawals from storage was voiced in a wire Friday to Lon A. Smith, Texas railroad commissioner, signed by 35 representative producers in the West Texas oil fields.

The wire, in detail, follows: "The majority of producers of crude oil in West Texas, of which the signatories hereto are a representative part, are determined in their belief as follows: no action should be taken by the railroad commission in regards to present allowances which will tend to further upset an already near chaotic condition.

"As an alternative we advocate first, that a one hundred per cent shutdown order be issued for a thirty day period; second, in view of the fact that storage oil is now too low for public safety in the world beset with dangers of war, we suggest as an alternative for either of the above an order be issued prohibiting any further withdrawals from storage until such time as it is needed to augment the daily allowances as set by the railroad commission after the producers of this state are restored to full time allowances for each month.

"Any surplus production which may result in further crude price cuts will also result in premature abandonment of hundreds of wells and thereby cause tremendous physical waste."

### ADMITTED FOR TREATMENT.

Robert Porter was admitted to a Midland hospital Saturday for medical attention.

### Called Home

Hugh Wilson, United States Ambassador to Germany, who has been called home to make a report on the anti-Semitism campaign being pushed by the Nazi government.

### Churches Join in Special Service Thanksgiving Eve

Joint Thanksgiving services, in which the First Methodist, First Christian, First Presbyterian and First Baptist churches will join, have been scheduled in connection with the church (it was announced by pastors) revival meeting at the Baptist church, it was announced by pastors late in the week.

Invitation was issued to the public to make the service city-wide, as is done each year. Special musical numbers are being arranged under direction of Chase Murph, Baptist choir leader, in cooperation with choirs from the other churches.

### Odd Lots of Cattle Sold, as Ranges Lightly Stocked

Small lots of cattle have been moving during the past week, most of the deliveries of calves having been completed. Fewer cattle for sale have been reported than for several years at this time, and ranges are comparatively lightly stocked.

John Smith bought from the McElroy Ranch Co. 220 head of cows, to be run on wheat in the Plainview area.

Mose Newmen, who recently bought from Mabce & Pyle 1,000 head of calves to be run on his Sweetwater ranch, came back and bought an additional 160 head of heifer calves.

A. C. Francis sold to Bill and Earl Van Hous 100 head of cows to be run on their place which they recently took back after having it leased to Francis for several years. Francis bought from Dick Midkiff 400 head of breeding ewes. He also sold to Reeder Webb of Odessa twelve or fifteen head of registered Hereford bull calves, produced from the Aycock cows he bought several months ago.

Scharbauer Cattle Co. during the past week delivered a string of mixed cattle from the Penasco, N. M. ranch.

T. O. Midkiff bought from Scharbauer and Eldon 100 head of cow-calf pairs to be run on the R. W. Aycock ranch he recently acquired.

J. Howard Hodge has leased the eight section ranch of Mrs. Mary Turner, and plans to stock it with cattle soon.

### Washington Writer for NEA, Local Paper, Dies

WASHINGTON, Nov. 19. (AP). — Rodney Dutcher, chief of the Washington bureau of the Newspaper Enterprise association, died last night of a heart attack.

Dutcher was found dead in his office about midnight by employees of NEA. He had been head of NEA's Washington office many years. He formerly was associated with the United Press association.

As Washington correspondent for the NEA service, Rodney Dutcher's interpretations of news from the capital appeared daily in The Reporter-Telegram and other daily newspapers.

### GRASS FIRE PUT OUT.

A grass fire at Sloan Field was extinguished by field attendants Saturday morning after an alarm had been turned in to the fire department here.

## Order Name of God Erased

### Display Not To Be Made In Churches

#### Names of Jewish Prophets Also Put Under Ban

BERLIN, Nov. 19. (AP). — The name of Jehovah was ordered erased from Protestant churches throughout Nazi Germany today by Friedrich Werner, president of the supreme evangelical church council.

The order said the name of God of Israel must be obliterated wherever displayed in the Protestant church and the names of Jewish prophets—all prophets of the old testament—also must be erased.

### VOICES OPPOSITION TO REFUGEE IMMIGRATION.

WASHINGTON, Nov. 19. (AP). — Senator Borah, Idaho, expressed the opinion today any attempt to revise the immigration laws to take care of additional refugees from Germany would "arouse tremendous opposition" in congress.

Another congressional comment came from Chairman Dies, Texas, of the house committee investigating un-American activities, who challenged the president's right to extend the six month visitor's permits under which 12,000 to 15,000 refugees had been admitted.

### C-C Directors Are Advised of Change To Two-Year Term

Letters were mailed to all chambers of commerce directors during the past week, notifying them of the new system voted by the board at its last meeting, whereby no director will hold the office more than two years in succession.

Beginning January 1, President Marion Flynn said in his letter, directors will be elected for a two-year term and will not be eligible for reelection until the lapse of a year after the end of their term of service.

Eleven new directors will be elected one year and ten the next, the group of eleven to be named at the approaching January meeting.

Purpose of the new system is to give more citizens opportunity to serve on the board, thereby creating additional interest in the chamber, the president said.

### Robert E. King Is Elected Head of Midland Geologists

At a luncheon Friday, members of the Midland Geological Society elected Robert E. King, geologist with Shell Petroleum Corporation here, president for the coming year. W. Y. Penn, Midland independent geologist, was elected vice-president, and H. J. Peck, geological scout for Amerada Petroleum Corporation was voted secretary-treasurer.

Ronald K. DeFord presented a short talk on the proposed "West Texas-New Mexico Symposium", a collection of papers and discussions at the recent El Paso convention of the American Association of Petroleum Geologists.

### Contracts for 3 Warships Are Let

WASHINGTON, Nov. 19. (AP). — The navy department awarded contracts today for construction of three battleships, at an expected cost of \$150,000,000. Two will be built in private yards and the third at Norfolk Navy yard.

### Missing Arizona Child Found Dead

DOUGLAS, Ariz., Nov. 19. (AP). — The ranger station at Portal reported to Douglas authorities today that the body of five-year-old Jerry Hayes of Bisbee, missing for a week, had been discovered at Buckskin Canyon Saddle. The discovery climaxed a search by 1,000 men. The child had wandered away from his parents' hunting camp.

Mrs. M. D. Johnson Sr., who underwent major surgery in a Midland hospital several days ago, was reported late Saturday to be doing well.

### How Mr. R Looks to Four Crack Cartoonists

Outstanding newspaper cartoonists were asked to sketch the president for the annual Press Club dinner in Washington. And here's how Mr. Roosevelt looks to Reichhold of the Pittsburgh Press, Herblock of NEA Service, Nixon of the Detroit Free Press, and Seibel of the Richmond Times-Dispatch.

## Record Natural Well Gauged In Pecos Valley Oil Field

### By FRANK GARDNER.

The Pecos Valley pool along the Pecos River in Ward and Pecos counties chalked up its record natural producer at the week-end as E. C. Heidrich, Jr. No. 2 Bernier gauged 24-hour flow of 512 barrels of 38.9-gravity oil. Flow was through 3/4-inch choke on 2-inch tubing. The big well had a gas-oil ratio of 1,800-1. It topped pay sand at 1,796 feet and reached a total depth of 1,847. Location is in section 34, block 1, H. & T. C. survey.

In the North Ward pool, Gulf Oil Corporation No. 115 Hutchings flowed 375.86 barrels a day, bottomed at 2,641 feet, after shot with 430 quarts. Pay was topped at 2,577 feet. Oil is 34.7 gravity, and gas is in the ratio of 1,648-1.

Magnolia Petroleum Company No. 196 Walton, in the Kermit pool of Winkler, flowed 1,627.93 barrels of 34.9-gravity oil, with ratio of 1,013-1, on 24-hour test. It was given a 200-quart shot in pay between 2,830 and 2,887, the total depth.

Moore Brothers No. 5-A O'Daniel, in the Snyder pool of eastern Howard, flowed 782.22 barrels a day after shooting with 600 quarts. Pay was topped at 2,625, and total depth is 2,830. The well's oil tested 30-gravity, and it had gas-oil ratio of 475-1.

Crusader Petroleum, Inc. No. 1 A. D. Neal, central Glasscock wildcat southeast of the Carter area, is drilling with rotary below 1,240 feet in lime. It is 1,650 feet from the south, 350 from the east line of section 20, block 32, township 3 south, T. & P. survey.

Westmont Blowing Wild. Attempts to kill gas by pumping in water having failed, operators of Westmont Oil Company No. 1 Amerada-State, prospective pool opened six miles south and two miles east of Lovington in Lea county, N. M., yesterday were mixing 150 tons of barol with mud. It is believed that the heavier fluid will successfully quell the flow of dry, sweet gas, estimated upwards of 30,000,000 cubic feet daily. The well had blown out at present total depth of 3,988 feet in anhydrite. Air had been logged at 2,900-40 gas from 3,230-50, with an estimated 8,000,000 to 10,000,000 feet of gas daily from 3,308-19. Broken shows of gas were logged in sand and anhydrite from 3,905-50, and clean gas sand was

drilled from 3,956-84. Formation from 3,984-86, present depth, drilled hard.

The Westmont well, located in the center of the northwest of the northeast of section 12-175-35e, has shown 60 feet of thinning between the Yates sand, topped at 3,060, and gas sand, topped at 3,956, over the old Western Drilling and Engineering Company No. 1 Republic-State, dry hole a mile and a half to the south and a quarter-mile east. It had been 77 feet high to the old well on anhydrite, 142 feet higher on Yates sand, and now is 202 feet higher.

Amerada is digging cellar and pits and drilling water well for its No. 1-LA State, diagonal northwest offset to the Westmont strike. It was staked in the center of the southeast of the southwest of section 1-175-35e.

Barnsdall Oil Company No. 1 Humble-State, wildcat three miles northwest of the Westmont well, had drilled to 2,465 feet in anhydrite and salt. It was 103 feet low to the Westmont test on anhydrite marker, topped at 2,055 feet, datum of plus 1,837. Location is the center of the northeast of the southeast of section 33-158-36e.

In southern Roosevelt county, Shell No. 1 Harwood permit, wildcat 330 feet from the south, 660 from the east line of section 27-75-35e, is reaming core-hole at 4,349 feet. Total depth is 4,390 feet in lime. The well had shown 47 feet of drilling mud, with no oil, gas or water, when given 25-minute drillstem test from 4,262 to 4,390.

Wentz Cowden Shows Oil. Having logged slight showing of oil at 4,402 feet in lime, L. H. Wentz, Oil Division, No. 1 W. F. Cowden estate, southern Andrews wildcat southeast of the Emma pool, yesterday was shut down at that depth for test. Previously, it had encountered slight show of gas at 4,392 feet.

Texas No. 1-H State, Andrews wildcat south of Shafter Lake, yesterday was drilling at 4,713 feet in lime, showing no change in the amount of sulphur water and oil being carried.

Shell No. 1-B Witcher, Ector Foster pool well 2,310 feet from the south and east lines of section 19,

block 42, township 2 south, T. & P. survey, on 24-hour potential gauge flowed 1,016.24 barrels of 37.6-gravity oil, with ratio of 900-1. It topped pay at 4,045, is bottomed at 4,220, and was shot with 700 quarts.

New producer completed at the week-end in the Denver pool of southern Yoakum was J. W. Murchison No. 4 N. W. Willard, 660 feet from the north, 1,880 from the east line of section 799, block D, J. H. Gibson survey. It flowed 259.27 barrels a day after treatment with 7,500 gallons of acid in pay horizon between 4,798 and 5,139, total depth. Gas-oil ratio was 1,150-1, and oil tested 33.8 gravity.

In the Denver pool, Shell No. 6 Lowe is drilling past 4,005 feet in anhydrite, while the company's No. 6 Mrs. Dora Roberts, northeast edge of the Roberts area west of the Denver pool, is shut down for motor repairs at 4,181 feet in anhydrite and gyp. Don Danvers et al No. 3 Shell-Lynn, Denver pool well, is fishing for cones, bottomed at 4,683 feet in lime.

Three barrels of fluid hourly, 10 per cent oil and the balance drilling water, was being swabbed early yesterday by Shell No. 1 J. M. Ruyts, mile southeast outpost to the Bennett pool of southeastern Yoakum. Earlier, it had swabbed 12 barrels of fluid, 30 per cent water, in six hours, when tubing became plugged. Tubing was pulled, and when it was run, fluid level was found to have risen to 1,200 feet from bottom in 14 hours. The next four hours, the well swabbed 32 barrels of fluid, five per cent oil, with fluid level remaining at 1,000 feet from bottom. Total depth of No. 1 Ruyts is 5,266 feet in lime. It is 990 feet west of the north, 330 from the west line of section 743, block D, J. H. Gibson survey.

Seminole Well Drills in. On the northeast edge of the Seminole pool in central Gaines, Magnolia and Atlantic No. 1 Havenmyer & Jenny drilled porous, saturated lime from 5,033, where 7-inch pipe was set, to 5,072, total depth, and now is preparing to test. Location is 660 feet out of the southwest corner of section 219, block G, W. T. R. survey.

In section 216, three and a half feet (Oil News) Page 2

## Heavy Rain Is Cause of Catastrophe

### Two Hurt, One Unaccounted for As Plane Burns

LA GRANGE, Ga., Nov. 19. (AP). — Five army fliers were killed, two severely injured and one unaccounted for today after an army bombing plane crashed and burned in isolated woods seven miles northeast of here.

The big bomber, crashing in a heavy rain, plowed a path 150 yards through a stand of large pines. The plane was identified as Second Lieut. John Madre and Private Joseph Nanavotovich, attached to Mitchell field. Nanavotovich's condition was described as serious while Madre was given a chance to recover.

Officers at Maxwell field, Ala., said six others aboard the plane were: Second Lieut. Robert Kirkland Black, Second Lieut. Rolf McKechnie, Second Lieut. Allen M. Howery, Lt. Harry T. Jones, Lt. Jas. W. Stewart of the army medical corps, assigned to Randolph field.

Corporal Galloway (initials not available), assigned to the third weather squadron at Dallas. Mitchell field officers said the army bomber was on route west on routine flight to Montgomery, Ala. Four bodies were brought to La-Grange after rescue parties worked several hours to reach the scene over a muddy dirt highland and through a two-mile lane of trees. A fifth body was found at the wreck. None was identified immediately because of the condition of the bodies.

The ship crashed in a heavy rain which was measured at the La-Grange weather station at 1.20 inches in the course of the last night. Apparently the pilot had turned off his course for Maxwell field and was trying to make an emergency landing near here.

The big ship ploughed into a timber thicket, chopping a path through large pine trees about 100 yards long. Some of the trees snapped off would measure 12 to 14 inches in diameter, witnesses reported.

## Winners Named in Why-Go-to-Church Letter Contest

Judges in the "go to church" contest, recently conducted in this newspaper, announced winners Saturday, after having carefully studied the many entries over a week's period.

The \$5 prize for the best letter on "Why I Go to Church" was awarded to Mrs. Charles Brown. The \$5 prize for the best letter on "Why I Don't Go to Church" was allotted to C. G. Harris. Both winning letters were printed, along with others, during the campaign but will be reprinted in this paper Monday.

Many letters received high praise and it was with difficulty that judges averaged their selections to decide the winners, they announced. The committee of Midland people sponsoring the contest and paying the prizes expressed satisfaction with the various ideas brought out, on both sides of the subject, and declared they were glad not to have had the responsibility of choosing winners.

Money for the winning letters was left at the Reporter-Telegram office, to be paid to the winners upon calling there.

## O'Daniel Drops Texas RFC Plan

FORT WORTH, Nov. 19. (AP). — Governor-Elect O'Daniel said today he had given up plans for a state financing agency to promote industrialization of Texas in favor of a tie-up with the federal Reconstruction Finance Corporation.

He said: "I proposed a state agency hoping it would be established by Texas businessmen but have found, however, that my program for industrialization can be carried out with the aid of the RFC with more money available and no unnecessary delay in action."

## A DAUGHTER IS BORN.

Mr. and Mrs. Hugh Lytle are the parents of a baby girl, named Anna Carol, weighing seven pounds, born in Lamesa Friday.

## Discriminatory Freight Rates Costing West Texans Million Dollars Annually, According to WTCC Traffic Board Survey

The first-class rate from Midland to Paragould, Arkansas, a distance of 826 miles is \$2.73 or hundred pounds. The first-class rate from Springfield to Amarillo, 224 miles is \$3.52, according to the West Texas Chamber of Commerce. This represents a difference of 21 cents per hundred pounds in favor of the Springfield shipper.

This is one example of freight rate discriminations against West Texas quoted in an analysis of the rate question recently issued in pamphlet form by the traffic boards of the West Texas chamber. The report points out other discriminatory rates just as glaring. WTCC officials state. In fact, the discriminations, they contend, are costing West Texas \$100,000,000 annually.

Rate for shipping agricultural implements from Midland to St. Louis, 954 miles, is \$1.11 per 100. The rate for shipment of the same implements from Philadelphia to St. Louis, 961 miles, is 70 cents per 100. These comparisons of the West Texas rates for equal hauls with rates charged in other zones show the penalty West Texas is paying, WTCC officials declare.

While rail carriers contend that freight rates for the country as a whole have been decreased during the last two decades, figures presented by the WTCC repeat claim class and commodity rates in West Texas have increased an average of 109 per cent since 1914.

The first-class rate from Midland to Dallas has increased from 80 cents per 100 pounds to \$1.53 or 97 per cent during this period. The increase in first-class rates between Midland and Houston has been from 88 cents to \$2.06 or 135 per cent. This increase has been made during a period when production of commodities was increasing in many instances more than 1,000 per cent and when Midland and other West Texas cities were growing rapidly in population.

The freight rate penalty is, of course, against the consumer as well as the producer, for the consumer must pay discriminatory rates on everything that is shipped to him, the report points out.

West Texas development is being stagnated by the present condition of the WTCC charges. Contending that the present freight rate zones and structures like little Eva "just grew" over a period of many years and are now antiquated, the WTCC traffic boards recommend a complete overhauling of freight rate zones and policies. The boards also recommend that the Interstate Commerce Commission Act be amended to require equality in rates as between zones.

Hundreds of requests for the freight rate pamphlet have been received by the WTCC from all over Texas and from other states. News papers in every part of the state have given emphatic editorial approval to the recommendations of the traffic boards, WTCC officials say.

## Baptist Revival Goes Into Second Week, With Outstanding Sermons Scheduled; 26 Responses to Gospel Invitations Are Made

Splendid congregations have attended the services during the revival at the First Baptist church this week. These are expected to be climaxed with major crowds this morning and this evening. Through Friday evening twenty-six people had made response to the gospel invitation. The revival will continue into next week. The subject this morning will be "Heaven." This evening the sermon will be "Glorifying in the Cross." The following are subjects for evening services during the week: Monday, "The Unpardonable Sin"; Tuesday, "Life's Most Important Question"; Wednesday, "When the Saints Go Marching Home." Tuesday morning our service will be dedicated to the elderly people. Splendid song services led by our Brother Chase Murph give a spiritual tone to each service.

The pastor's subject Friday evening was "The New Birth." The text was, "Marvel not that I say unto you, ye must be born again." A summary of the preacher's message follows: "This subject is the key to the Scriptures, the basis of salvation. In this vital matter of salvation we must take heed diligently that we are really born again, that the new birth is really ours.

"Ye must be born again." I make no apology for a theme so fraught with concern for our soul. God is my witness, I would warn you lest you perish. I would wash my hands of your blood. I would not fail in preaching the truth to you. If ye perish, I want my hands washed of your blood. And so with all the strength of body and earnestness of soul, I say unto you ye must be born again."

"Who must be born again? The words of our text was spoken to Nicodemus, a ruler of Israel, a man in whom there was no guile. No word of reproach is brought against his character. He presented to us as a clean, upright man, respected by those who knew him, and yet Jesus said to him, 'Ye must be born again.'"

A grass fire at Sloan Field was extinguished by field attendants Saturday morning after an alarm had been turned in to the fire department here.

EDITORIALLY SPEAKING

Sloppy Driving Nothing for Which to Have Pride

The slipshod, careless, unthinking driver who flagrantly incurs the ill will of other motorists and who takes chances each time he takes hold of the wheel is a menace to street or highway safety.

There are five outstanding qualifications which will always be found in "real drivers":

RESPECT: A real driver respects human life and looks upon it as a sacred thing. He has a horror of injuring or killing anyone, especially a child.

KNOWLEDGE: A real driver knows his machine—knows every part which, if it goes wrong, will cause an accident. He knows and obeys the rules of the road.

CAUTION: The real driver knows that caution and careful driving always pay under all circumstances. He keeps his mind on his driving, looking ahead for danger and always has his car under perfect control.

SKILL: The real driver knows how to control his machine under all conditions. In an emergency he keeps cool, thinks quickly and acts instantly.

PRIDE: The real driver takes pride in driving without accidents. He is proud of his skill in handling his machine under difficult conditions.

Christmas Seal Sale Committee Announced Here

Local committee for the 1938 Christmas Seal campaign, to open Thanksgiving Day, was announced this week by Mrs. W. H. Sloan, general chairman.

vice, generously contributing time and effort to the fight against tuberculosis.

Receipts of the Christmas Seals support the local, state, and nationwide campaign against tuberculosis. Concrete evidence of the effectiveness of this campaign is the fact that in thirty years the death rate from tuberculosis has been decreased two-thirds, the Christmas Seal Committee points out.

There is a greater possibility of life on Venus than on Mars. A Chicago scientist states that conditions on Venus are more greatly like those on earth.

The Town Quack

J. C. Smith knew when to come home from his deer hunt. It was right after he got his buck. And he was home in time for the Saturday rush.

Cy Stinson couldn't understand why his subscription came due a month earlier every year, but we explained to him about the high cost of new Linotypes and he said he was willing to cooperate.

And speaking of our new machine, by the time you read this it will be ready to start grinding. Mr. Breit, the factory erector, certainly has put the intricate job together in short order and in fine shape.

The Kermit Yellowjackets certainly made a fine showing against the stronger Wink Wildcats, for the football championship of Winkler county. The time will come, and not too far distant, when Kermit will have the strong team of that section.

The Crane correspondent to the Angelo Times said Midland's "big back", Jay Francis, roared over for three touchdowns. What a whale, this Jay Francis. It takes all of the spare kidney pads, a shoulder pad and a gallon of liquid soap for him to bear down on the bath house scales enough to chalk up 152. There are bigger boys than Jay in North Ward. But for his size he is a little giant. And so is Tommy McMillan. He put up a good game at guard, subbing for Bob Eidson, according to all reports.

The story reprinted in this paper Friday quoting Ed Whitaker's nephew on European conditions was highly interesting. Among other things he said was that British citizens are poorly informed of their own plight. Chamberlain, he said, makes a play for capital and against labor and is paying blackmail to the gangsters in the way he lets Hitler get away with murder.

And that is a challenge to the newspapers of this country. We must not try to cover up the truth. Young Whitaker says someone is going to have to use force to stop German bullying methods, and it may be the United States. He says there is a possibility, never before considered, that Great Britain may be a foe of the United States some day, instead of an ally.

Church Services

FIRST PRESBYTERIAN CHURCH
W. J. Coleman, Minister in Charge
J. L. Kendrick, Church School Sup.
9:45 a. m. Church school. Good departments and efficient teachers for every grade.

11:00 a. m. Divine worship. Sermon. The minister will bring a Thanksgiving message on the "Reasons for Thanksgiving." There will be no evening service because of the Baptist meeting now in progress.

FIRST BAPTIST CHURCH
H. D. Bruce, Pastor
9:45 a. m.—Sunday school. Claude O. Crane, superintendent.
11:00 a. m.—Morning worship. Sermon by the pastor on the subject, "Heaven."
6:15 p. m. Training union. Dick Denham, director.
7:30 p. m. Evening worship. Sermon. Subject of the pastor's sermon will be "Glorifying in the Cross."
The revival meeting will continue through the week following with services at 10 o'clock each morning and at 7:30 o'clock each evening.

FIRST METHODIST CHURCH
W. C. Hinds, Pastor.
9:45 a. m. Church school.
There will be no 11 o'clock service because of the Baptist revival meeting now in progress.
Epworth League Evening Service.
6:45 p. m. Intermediate department at the church.
6:45 p. m. Senior department at the annex.
There will be no evening service because of the Baptist revival.

FIRST CHRISTIAN CHURCH
John E. Pickering, Pastor.
H. G. Bedford, Supt. of Bible School
Mrs. M. A. Park, Director of Music
Mrs. Lee Cornelius, Church Pianist.
9:45 a. m. Bible School.
10:50 a. m. Preparation for the Lord's Supper.
11:00 a. m. Sermon. Special Thanksgiving worship service.
4:30 p. m. Junior-Intermediate Endeavor.
6:30 p. m. Senior Endeavor.
Note: There will be no evening service on account of the Baptist revival now in progress.
3:30 p. m. Monday. Circle meetings.
7:30 p. m. Wednesday. Prayer meeting.
7:30 p. m. Thursday. Choir practice.

TRINITY CHAPEL (Episcopal)
P. Walter Henckell, Minister in Charge
Richard Gile, Lay Reader.
9:45 a. m. Sunday school.
11:00 a. m. Morning prayer and sermon. Rev. P. Walter Henckell in charge.

CHRISTIAN SCIENCE SERVICES.
"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 20.
The Golden Text is: "Yea, in the way of thy judgments, O Lord, have we waited for thee; the desire of our soul is to thy name, and to the remembrance of thee" (Isaiah 26:8).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "My soul, wait thou only upon God; for my expectation is from him" (Psalms 62:5).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Soul is the substance, Life, and intelligence of man, which is individualized, but not in matter. Soul can never reflect anything inferior to Spirit. Man is the expression of Soul" (page 477).

Record Low Cotton Crop in Prospect In County This Year

The smallest cotton crop for Midland county in several years appeared probable yesterday, using ginning reports as a basis of deciding this year's crop. Only 890 bales had been ginned at the three Midland gins and officials estimated at least two-thirds of the 1938 crop had been harvested.
Last year's crop in the county totaled more than 5,000 bales, a record high for the county. This year's crop will probably total no more than one-fourth that amount, according to officials. Late season due to lack of precipitation at times when it was needed, plus AAA agreements, have been credited with causing the low crop this year.
According to figures released Saturday, the Farmers Cooperative gin has handled 400 bales, the Midland Cooperative Marketing Society gin 340 bales and the Sweetwater Cotton Oil company gin 150 bales.

Oil News

miles north of the pool, Adams & Bradley No. 1 Ono-Glenn Crain, wildcat, will start tonight to drill plug from 10 3/4-inch casing cemented at 2,232 feet. Total depth is 2,240 in anhydrite.
Texas No. 1 H. T. Boyd, southeastern Cochran wildcat, is running 7-inch casing, bottomed at 5,000 feet in lime.

Bridge School, Sponsored by Lions, To Open Nov. 28

Sponsored by the Bridge Congress and directed by W. F. (Rufus) Steele, a bridge school will be conducted in Midland, opening Monday, Nov. 28, and closing Friday, Dec. 2.
The school comes to Midland under auspices of the Lions club and proceeds will go to the charitable

activities of that organization. Gatherings will be held in the Crystal ballroom of Hotel Scharbauer.
A nominal charge of two dollars per person will be made for the school, this fee admitting the player to both afternoon and evening sessions of all five days, if he desires to attend all sessions. The evening sessions will be a repetition of the afternoon classes.

The purpose of the schools which are being conducted over the nation by Mr. Steele and four others is to stimulate interest in contract bridge playing, he said. The Culbertson system will be taught.
Mr. Steele, who has been with the Bridge Congress for about 16 years and is the author of six books on bridge, will be at Hotel Scharbauer all this week. He will answer further questions of those interested in the school.

TAKE PART ON BROADCAST.
Mrs. L. G. Byerley, Mrs. R. Chancellor, and Mrs. Frances Carter discuss topics at a roundtable discussion

conducted by Mrs. Glenn Brunson at a radio program presented by Junior High PTA over the local radio station Friday. The discussion dealt with "Irritations and Disagreements of Family Members" and was taken from the "Parents' Forum."

BARROW Appreciates and wants to express T-H-A-N-K-S for the support and patronage of the good people of Midland and surrounding territory who have enabled him to build up and maintain a furniture store that is a credit not only to Midland but to West Texas.

It is a store that is recognized and complimented by those who know as one of the most modern stores and with the finest stock of merchandise to be found in cities much larger than Midland.

The outstanding lines of THE FURNITURE WORLD, such as Karpen, Kroehler, Pullman, Simmons, Bigelow and many others are shown.

Full credit is due to the loyal people of this territory who spend their money at home, recognizing that the home merchant is the man who helps build their town with a heavy investment, a sizeable payroll, support of local institutions and a service that takes care of their needs, accommodations and adjustments.

We shall endeavor to so conduct our business as to warrant your continued support.

WE THANK YOU!

Safe-Guarding Milk Supply Important For Public Health

Editor's Note: The following is the first of two articles discussing milk sanitation and food safe-guarding. The second will appear in a future issue of the Reporter-Telegram.

Our milk supply is a semi-public utility. The milk industry has courted public support, since health departments, boards of education and civic clubs all encourage the industry, endorse its efforts, promote wider use of milk, and spend public funds to advocate greater consumption of milk. This obligates the industry to furnish the public with a safe supply at a low price. In the larger cities this obligation is largely fulfilled but this is not true in the smaller communities.

In 1931 the United States Public Health Service reported that 80 percent of the cities in the United States of under 10,000 population had no efficient health supervision. Of these small cities, 5500 in number, only 332 had any sort of milk ordinance and his number, only 203 had adopted the Standard Milk Ordinance. Less than 1 percent of the municipalities in this population group employed a full-time inspector. In all early cases the inspector devoted only part of his time to milk, giving the rest of his time to sanitary inspection, private veterinary practice, meat inspection, food inspection, etc. Half of these inspectors had no professional college degrees.

One-third of these cities appointed their inspectors on a political basis and only one-sixth by Civil Service. As a consequence, it was found that 67 percent of all milk-borne disease occurs in towns and villages under 10,000 population. There continue to be in December 1936, in New York State, a city of 5,000 population had a milk-borne outbreak with 500 cases and 6 deaths from Scarlet Fever. The source of the infection was traced to one cow with mastitis. Twenty percent of the local milk supply was involved. This city now has a milk ordinance but many mothers in that city switched to canned milk, which is poor business for the local milk man.

The United States Public Health Service in 1922 was called on by the State of Alabama to straighten out a badly muddled milk situation in that State. From their studies, and after consulting practically all of the leading dairy and public health experts on milk in the country, the Public Health Service Standard Milk Ordinance was created. After 15 years the Ordinance has been adopted by over twenty-four million people. The largest city to adopt the Standard Milk Ordinance is Chicago, with a metropolitan population of about four million people. St. Louis is second in size with the Ordinance.

The Committee on Milk of the Conference of State and Provincial Health Authorities has in its reports repeatedly urged general adoption of the Standard Milk Ordinance. The 1935 report of the Committee recommends that "all State and municipal health departments should be encouraged to give thoughtful consideration to the advantage of a uniform method of milk control." The 1936 report of the Committee on Milk stresses again "the importance of the adoption of a standard milk ordinance in order to do away with the present anomalous condition under which milk considered entirely satisfactory by the health authorities of one State cannot be received for consumption in the next adjoining State."

In Texas 126 cities have adopted the Standard Milk Ordinance. The State Health Department, realizing that small cities and communities should receive the same public health protection and benefits derived by the larger cities from a milk control program and that in most instances the communities are unable to finance this activity, recommend the present State Milk Law to the Legislature.

The grade requirements of this ordinance were passed by the Legislature in April, 1937 and made a State Law. The Law virtually adopts the 1936 edition of the United States Public Health Service Milk Ordinance as a State standard for grade labeling of milk. The Law does not require grade labeling, but when milk is labeled it must conform to at least these specifications. It does not take any property right and it does not prohibit the sale of any milk; it merely prevents the misuse of the grade label.

The Law allows the more progressive dairymen, on compliance with the State regulations in a city that

Revival

CONTINUED FROM PAGE ONE

again. Jesus means that regeneration is necessary for each of us. Three deaths illustrate this. The daughter of Jorjus had just died. Her loved ones were scarcely conscious that she was dead. But she is dead as she will ever be. In the widow's son signs of decay have set in yet, he is no more dead than the girl Lazarus had been dead four days and stinketh. Yet, the daughter of Jorjus was just as dead as Lazarus. In our town the three are represented. There are those so fair in character that one can hardly

has no milk ordinance, the privilege of using the grade A label. He must make application to his city or county health officer for a permit to use the grade A label. The permit may be revoked for non-compliance, by the State Health Officer. It is unlawful for an unauthorized person to use a grade label on his milk. If any person is not absolutely sure about the milk which he is purchasing, he should call the local health officer to determine whether it is from a legal supply.

Just as we have witnessed a remarkable improvement in milk supplies during the last 15 years in Texas, we can expect a steady improvement in dairy sanitation in the coming year. An honor roll system has been worked out for those cities which are attaining a 90 percent proficiency in the enforcement of the United States Public Health Service Milk Ordinance, so ask your local officials about your city's rating. If it is low, they should be urged to improve this very important service.

Finally, since a safe, high-quality milk is available under the grade A label, we sincerely encourage the consumption of more milk.

Milk has been called from time to time the most nearly perfect food and has received a good many other encomiums as to its quality in the diet. All down the ages, history records the use and importance of milk as a food. Even the legendary tales of ancient Rome relate the story of the twins, Remus and Romulus, afterwards the founders and heroes of Rome, who as children were abandoned in a cave to perish, but who were miraculously nurtured by the she-wolf with her milk until they were found and rescued. In recent years repeated investigations and experiments of the various nutritional aspects of milk have taught us more specifically the food value of milk. It is essential for babies, valuable for growing children, and milk and its products are good food for almost all of us.

Milk is, roughly, seven-eighth water. Therefore, it quenches thirst. The rest is easily digested and absorbed. It is a mix ture of mineral salts, protein, fats, sugar and vitamins. These constituents go to build our bodies, repair bones and teeth, build muscles, and furnish energy. Despite the fact that modern science has demonstrated in a long series of brilliant investigations that milk is indispensable to adequate human nutrition and that the dietary qualities of dairy products surpass those of practically all other foods, the average American consumes too little milk. The diet of young children should include one quart of milk daily. This diet should be supplemented with a wide selection of other foods, among which should be included, in case, cod liver oil and green vegetables.

Normal adults may wisely include at least a pint of milk in their daily diet. Of course, abnormal adults or children should receive and follow competent medical advice. It seems reasonable to believe that in the future, public health officials will not always grade milk on the basis of its cleanliness and safety alone, but will also grade it with reference to its nutritive value as well.

No greater precaution can be thrown around the health of yourself and your family than to demand grade "A" milk upon any and all occasions. Use only grade "A" milk in your homes and demand it in restaurants, whenever you happen to be dining.

If this precaution is necessary when you are at home, where all conditions are known, it is doubly so when traveling where the local conditions are not known to you. For your health's sake, demand grade "A" milk.

realize their sinful condition; those living on the borderline of evil and respectability; and those whose lives are putrid and rotten. But all are dead alike in trespasses and sin. And if either is to live again, Jesus must quicken them. There are no exceptions. 'Ye — all of us must be born again.'

'Why must we be born again? We are all sinners. All have sinned, and come short of the glory of God. Man's heart is defiled, Isaiah says. The whole head is sick, the heart is sore; from the sole of the foot even to the head there is no soundness; but wounds and bruises and purifying sores.' Jesus speaks the final word 'for out of the heart proceedeth evil thought, murders, adulteries, fornications, thefts, false witnesses, blasphemies'; these defile a man. The heart of man is rotten, the natural mind debased and the body stamped with the image of the evil one; therefore, if we are to see life, 'ye must be born again.'

'Then there is no other way of escape. A man may reform and well that he should, but no man can make himself to be born again. There is no hope in baptismal re-birth, whether it be of an unconscious baby or an unregenerate adult. Neither shall church membership or the Lord's supper avail anything. 'Ye must be born again.'

'And finally, the new birth is necessary because of the nature of Heaven. Heaven does not consist alone of wall of Jasper, streets of gold and gates of pearl. It is partly a state made in the heart of God's spirit. And the unregenerated heart could not enjoy the things of Heaven. What would they do where there is eternal talking of eternal love, continual singing of God's praise and never ceasing fellowship with those who are pure in heart. Heaven is the home of spiritual beings, the paradise of praise, the place of delight in God, the trust of communion with Christ.' Except a man be born again, he cannot see the kingdom of God.

'What is the new birth? It is the change wrought by the spirit of God in which the human soul is renewed in the image of Christ, in which the spirit becomes a new creature with the image and likeness of Christ. This change is wrought by the quickening power of the Holy Spirit. Regeneration is an instantaneous act, not a gradual process. The influences leading to the new birth may have continued for years, but the moment comes when the heart yields. The will submits and man is born anew and the spirit is ready for Heaven.'

'What must I do to have this new birth? We shall have it, if at all, by a simple faith in a risen Lord. 'God so loved the world that He gave His only begotten Son that whosoever believeth on Him should not perish but have eternal life.' The new birth is by simple faith. There is no other name given under Heaven and among men whereby we must be

Red Cross Members Still Wanted to Reach 1,200 Quota

Drive for Red Cross funds has not been completed in Midland, it was announced Saturday by Mrs. Don Sivalls, chairman, although much progress has been made by committees and a strong financial showing has been made. Blanks for memberships have been left at the chamber of commerce office where contributions may be made.

Although final check-up of funds will not be made until receipt of several outstanding checks from firms and individuals, it was believed that the total has exceeded \$1,200. Due to several large contributions, however, the 1,200 members have not been secured. It was hoped that additional members would be enrolled early in the week, to aid Midland in reaching the quota of 1,200 members.

Interment Rites Are Held for E. A. Wright

Interment rites were held Saturday morning at Fairview cemetery for Alexander Ed Wright, 47, who died suddenly in his home here Thursday night. Funeral services were held Friday afternoon at the Ellis funeral home with the Rev. Norman Gipson in charge.

Wright had been a resident of Midland for approximately 10 years, being a day laborer during his residence here. He had apparently been in good health until shortly before he died.

He is survived by his widow and two children, Joy and Jessie Lee Wright, and eight children, three sons, Charlie, Carlisbad, N. M.; Herman, Brady, Edwin Wright, San Angelo; and five daughters, Mrs. Lenora Faulks, Barnhart; Mrs. Hurley Harris, Iraan; Miss Ardie Wright, all of San Angelo; by a former marriage.

Wife of Buchanan Dam Chief Dies

AUSTIN, Nov. 19. (P). — Mystery today surrounded the death last night of Mrs. E. V. Wilder, 29, in Buchanan Lake. Wilder, chief operator of Buchanan dam, found the body on the lake shore.

'No coin save the blood of Jesus will be legal when you come to die. The keeper of Heaven will not look for your morality, or social standing, or churchianity, but he shall look for the marks of the Lord Jesus which shall be on those who have washed in the blood of the lamb, slain in figure from the foundation of the world and historically on Calvary's Cross. Beloved, thing on these things.'

President Voices Thanks for Peace

WASHINGTON, Nov. 19. (P). — President Roosevelt, in his annual Thanksgiving Day proclamation, said today the nation had "ample cause to be thankful" for peace

among other blessings. "We have lived in peace and understanding with neighbors and have seen the world escape from the impending disaster of a general war," adding "we have cherished and preserved our democracy."

## Informal Dance at Country Club Honors Mr. and Mrs. E. R. Osburn Friday Night

An autumn background reminiscent of Thanksgiving formed the setting for the informal dance with which employees of the Texas-New Mexico Pipeline company honored their superintendent, E. R. Osburn, and Mrs. Osburn at the Country Club Friday evening.

The fireplace was decorated with autumn leaves and pumpkins and such emblems of the Thanksgiving season.

A fruit table was the central point in decorations. Rustic wooden candelabra held the candles which lighted the lacquered table, where red leaves and red chrysanthemums mingled in a riot of color with the fruits and pumpkins which were strewn down the cloth from the clustered central arrangement.

Punch was served throughout the evening from two small tables in the corners of the room.

At the refreshment hour, when guests were seated, the special feature of the evening was disclosed.

In behalf of the employees of the company, Ralph Troseth presented Mr. and Mrs. Osburn with a gift for their new home.

Present were: The honorees, Mmes. and Messrs. E. H. Davidson, Ralph Troseth, S. B. Roach, Francis Kingdon, W. B. Martin, C. L. Bradshaw, W. W. Studdert, J. F. Sirdevan, Robert Stassel, M. A. Floyd, Eugene Cecil, W. A. Rankin, Geo. Herring, Miss Teenie King, Miss Christine

## Children Take Part on Program Of Story Hour

Two piano solos, several readings, and two stories represented the contribution of the children to the program of Story Hour, held in the children's library Saturday morning at 10 o'clock.

Stories told by Mrs. Bryant, who conducted the hour, were: "A Great Surprise", from "Christian

Register"; "The Story of the First Corn" by Carolyn S. Bailey; "Pinochio", by C. Colodi; and "Perrimon Creek", by Nellie Page Carter (continued).

Children present were: Betty Ruth Pickering, Betty Jo Greene, Dorothy Blackman, Toya Chapple, Mary Helen Winston, Royce Ray McKee, Amye Richie, Charles Alfred Tom, Joan Frances Tom, Gloria Jane Cameron, Wanda King, Mary Nell Moran, Suzanne Schouten, Henrietta Friday, Junior McFerin, Marvin Prager, Donald Prager, Valda Dee Pigg, Billie LaJean Pigg.

Laura Dunlap, Rita Merle Dunlap, Doris Lynch, Donald Fritz, Duane Fritz, Rosalind Leggett, Waldo Leggett, Beverly Jean LaGue, Dorothy Ann LaGue, Betty Jean Wilson, Dan DelHomme, Dick DelHomme, Annie Aycock, Peggy Riley, Margaret Ann Sams, Margaret Ann McCarrier, Donna Mae Kelly, Robert Post, Martha Jo Post, Mary Elizabeth Collins, Patsy Riley.

Potash Imports Heavy.

TOLEDO, O. (U.P.) — Great Lakes ports have received more than 20,000 tons of potash from Germany and France this year. The shipments included a cargo to be used on Ohio, Indiana and Illinois farms for corn and wheat land fertilizer.

## Thanksgiving Bridge-Luncheon Is Courtesy to Club

Mrs. Harry Adams was hostess to the Escondida club and a trio of guests with an attractively-appointed Thanksgiving bridge-luncheon at her home, 606 N. Marienfeld, Friday afternoon.

Covers for eight were laid at a large table covered with a white cloth bearing a design of turkeys. At either end of the table was a novel straw stack around which were two turkeys. The centerpiece was of fruit, a bright note being cranberries strung upon hedge branches to simulate clusters of cherries just plucked from the tree.

Thanksgiving favors were presented to the group.

Bronze chrysanthemums were used on the sideboard.

In keeping with the Thanksgiving theme, prizes for the two tables of bridge which followed the luncheon were tied with gold ribbon and decorated with bronze chrysanthemums. Awards went to Mrs. Peck Cunningham for high score among club members, to Mrs. R. C. Crabb for high score among guests, and to Mrs. Hitchcock for bingo cut.

Guests were Mrs. Crabb, Mrs. Barney Graf, and Mrs. A. E. Stinson of Rochester, Indiana.

Escondida members present were: Mmes. Cunningham, Hitchcock, S. S. Stinson, O. L. Wood, and the hostess.

## Former Midland Boy Weds Missouri Girl On November 12

Of interest to friends of the bridegroom here is announcement of the marriage of A. B. Cole Jr., of Chillicothe, Missouri, formerly of Midland, and Miss Beryl Perriquet, daughter of Mr. and Mrs. H. Perriquet of Jefferson City, Missouri, which took place Saturday morning, November 12, at Trenton, Missouri.

The couple was attended by school friends.

Mrs. Cole attended school at Jefferson City.

Mr. Cole, son of Mr. and Mrs. A. B. Cole Sr. of Midland, graduated from Midland high school with the class of 1935.

Both the bride and groom are students of Chillicothe Business college and will be at home at 1022 Walnut street in Chillicothe after spending their honeymoon at Jefferson City.

## Colossians Is Subject of Study By Bible Class

Second chapter of Colossians formed the basis of the lesson taught by Mrs. W. L. Fickett for the Belmont Bible class which met with Mrs. Bill Wyche hostess at the home of Mrs. J. L. Kelly, 501 North D street, Friday afternoon.

Mrs. C. E. Nolan reviewed the Sunday school lesson for today.

Visitors were Mrs. W. T. Beauchamp and Mrs. J. M. Teague of New Mexico.

Members present were: Mmes. H. R. Brazzale, R. L. Mitchell, Harvey Kiser, W. G. Attaway, J. C. Hudson, R. Chanler, J. H. Trickey, W. P. Collins, C. A. Travelstead, A. B. Stickney, Herbert King, C. E. Nolan, C. G. Murray, W. L. Fickett, C. Shafer, D. E. Holster, J. L. Kelly, and the hostess.

Next Friday the class will meet with Mrs. C. E. Nolan, 1406 S. Big Spring, at 3:30 o'clock with Mrs. Herbert King as cohostess.

The lesson will be on the third chapter of Colossians and the memory verse will be Hebrews 13:6.

## Red and Gold Are Favored Colors at Bridge-Luncheon

Red and gold were Thanksgiving colors chosen for appointments at the bridge-luncheon complimenting the Pivot club at the home of Mrs. F. C. Cummings, 1002 W. Missouri, Thursday afternoon at one o'clock.

Covers were laid at one long table spread with lace. Red chrysanthemums as table flowers and gold candles stressed the favored colors in decorations.

After the luncheon service, two tables of bridge were played. Tallies were in red and gold and prizes were wrapped to harmonize.

Since the party climaxed a series of bridge gatherings over a number of weeks, high score prize and second high for the series was awarded Mrs. F. R. Schenck received the prize for high score and Mrs. Chas. Brown second high.

Mrs. Wade Heath won high score for play at the party.

Mrs. B. W. Stevens was a club guest.

Members present were: Mmes. R. F. Coe's, Heath, M. A. Park, Harry Prickett, Brown, Schenck, and the hostess.

## Miss Carden to Speak on Recent Trip to Europe

Special feature of the program to be presented at the regular meeting of the Senior High School PTA at the school house Tuesday afternoon at 3:30 o'clock will be a review by Miss Ruth Carden, high school faculty member, of her trip to Europe the past summer.

Miss Carden will discuss her journeys through England, Switzerland, Holland, France, Germany, and Italy. After the European tour, she returned to England where she attended school at Cambridge before sailing for America.

Second talk on the program will be "New Illustrations on Tuberculosis" by Mrs. A. Van Kampen, member of the Midland county public health board, who is giving these talks as a part of the educational publicity for the Christmas Seal sale which will open Thanksgiving Day.

Anyone interested in the talks to be given is invited to attend the meeting, whether or not a member of the Senior High PTA, officials announced.

## Mrs. J. C. Bryant Is Hostess to Stitch and Chatter

Meeting with Mrs. J. C. Bryant hostess at the home of Mrs. Ben Biggs, 501 N. Fort Worth, Friday afternoon, members of the Stitch and Chatter club quilted a wedding ring quilt for the hostess.

All members of the club were present except Mrs. E. L. Reagan. Present were: Mmes. F. D. Reven, C. W. Ramsey, Fred Klatt, L. M. Hedges, Ben Biggs, Chas. Ward, A. E. Dixon, Paul Hedges, and the hostess.

The club will meet next Friday with Mrs. Biggs, 501 N. Fort Worth, at 2 o'clock in the afternoon.

## Midland Musicians Play at Convention

Two Midland musicians were scheduled to appear on the program of the ninth district convention of Texas Federated Music clubs at Pecos Saturday.

Leaving for the two-day convention Friday at noon was Mrs. Lee Cornelius, delegate from the Midland Civic Music club, who attended the business session of the convention.

Mrs. W. L. Haseltine went to Pecos Saturday where she was to play a violin solo, "La Gitana" by Kreisler. Mrs. Cornelius' program selection also on Saturday's schedule, was "Polichinelle" by Rachmaninoff.

## Civic Music Club Will Meet Monday

In order to avoid conflicting with the high school Annual Queen Coronation on Tuesday evening, the regular meeting of the Civic Music club has been moved forward one day and will be held Monday evening at 8 o'clock in the auditorium of North Ward school.

This is an open meeting, members have announced, and the public is invited to attend.

The program will present an imaginary visit to Norway, Sweden, and Finland, as part of a musical tour of the world.

EYE OPENER! With all its extra value, this Buick sedan lists at \$51 less than last year!

Look at it! Standing still, every inch seems itching to get going. Streaming along, as you see it here, it's the perfect picture of perfect action!

Now, just put yourself behind that wheel! Imagine your eyes looking out over that comely, streamlined bonnet—your hand on that ready, instant-answering wheel—your foot on the gas treadle, bossing that ablest of the straight-eights!

You hardly know your engine's turning, so quietly does it pour forth its power!

The big bad bumps are like a mill pond's ripples, so smoothly do giant coil springs level them for you!

You look out on the wide, wide world past narrower posts and through deeper, wider windshields and windows—up to 413 more square inches of safety plate glass let you see America first, last and all the time!

Comfort? You've never known the like, what with lower floors, and wider seats, and as much as four inches more to stretch out your legs!

Convenience? It's everywhere — from a gearshift out of knee-way to a direction signal that operates by a simple flip of a switch!

An idle dream, you say? Not a bit of it! This great car's calling pointedly to you when it soplainly invites, "Step in! Let's go!"

Though bigger, though better, though more beautiful than ever, this great Buick is actually lower in price! Lower than last year—lower by far than you'd ever think to look at it—lower even than some sixes!

So, why don't you visit the nearest Buick dealer—just to see the surprising news that's written on his price tags?

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES

Alathean Class Dresses Dolls For Orphans

Alathean class members met at the home of Mrs. A. W. Wyatt, 515 Holmsley, Friday afternoon at one o'clock for its annual "doll dressing" day.

At the tea hour, a seasonal party plate was served to: Supt. W. W. Lackey, class teacher, and Mmes. Geo. Phillips, Cox of Abilene, Myrtle Scarborough-Smith, Elliott Barron, Paul Barron, A. C. Francis, H. D. Bruce, A. W. Wyatt, M. R. Hill, Elliott Cowden, Percy Mims, John Nobles, J. Howard Hodge, N. W. Bigham, Ray Hyatt, M. D. Cox, Frank Cowden, and three children.

announced. An address will be given by the Rev. H. D. Bruce, Midland Baptist pastor.

Elaine Conger Is Honored With Party On Third Birthday

Honoring her little granddaughter, Elaine Conger, on her third birthday anniversary, Mrs. E. H. Blakeney entertained with a party at her home, 311 N. Lorraine, Thursday afternoon from 4 o'clock until 5:30 o'clock.

Children played with their toys, rode the hobby horse, and told stories until the refreshment hour, when a photograph was made of the group gathered about the dining table with its Thanksgiving decorations and its candle-light birthday cake.

An orange and white color scheme was followed in the white birthday cake decorated with orange and bearing the inscription, "Happy Birthday, Elaine" in orange lettering. Three candles topped the cake. Plate favors were miniature turkeys standing on mints which were wrapped in orange cellophane and tied with red.

Gifts of toys were presented to the little guests by the following children present at the party: Mary Helen Winston, Jereen Jewell, Ellen DeChicchi, Patsy Yeager, Ruth Elliott McEntire, Freda Louise Black, Emily Hamilton, Camille Bridgewater, Betty Sivalls, Al Porterfield, Gerry Geisler, R. W. Patterson Jr., Timmy Cornwall, Bill Miller, Barron Ulmer Kidd, Clayton Tatom.

Presbyterian auxiliary will meet at the church Monday afternoon at 3:30 o'clock for Bible study. Circle No. 1 of the women's council of the First Christian church will meet at the church Monday afternoon at 3:30 o'clock.

TUESDAY Senior High School PTA will meet in regular session at the high school building Tuesday at 3:30 o'clock.

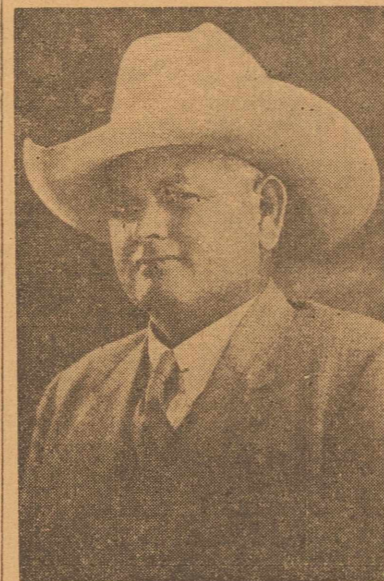

Delphian chapter will meet in the assembly room at the courthouse Tuesday morning at 9:30 o'clock.

Methodist missionary society will have a silver tea at the home of Mrs. G. B. Holt, 101 North B street, Monday afternoon at 2:30 o'clock. The affair will celebrate the sixtieth anniversary of the founding of the WMS. All women of the Methodist church are invited to attend.

Episcopal auxiliary will meet with Mrs. Cary P. Butcher, 904 W Tennessee, Monday afternoon at 3:30 o'clock.

All circles of the Baptist women's missionary union will meet at the home of Mrs. E. W. Cowden, 111 F street, Monday at 3 o'clock for a Royal Service program. Glenn Walker circle will be hostess and will

SUNDAY SCHOOL LESSON

BY W. W. LACKEY THE SACREDNESS OF THE HOME. Ex. 20:14; Matt. 5:27-30; Mk. 10:2-16; Eph. 5:22-33. Read also: Ps. 78:1-8; 92:1-4; 92:12-15, 1 Cor. 13:4-8; 1 Tim. 5:22.

I. THE MOSAIC LAW

- 1. The old teaching of acts, and the new teaching regarding thoughts.
2. The critical Pharisees; a divine institution; contemporary enemies.
3. The oneness of husband and wife a type of Christ and his church (home).
4. Jesus' love for little children, and Paul's picture of the ideal Christian.

II. ENDURING HOMES.

- 1. Children, similar ideals, similar interests, tolerance and patience.
2. Expressions of affection, a spirit of forgiveness, unselfishness — thoughtfulness.
3. Economic security, marriages based on character, and a Christian home.
4. Parental concern, trial marriages, and building for success.

III. JESUS IN THE HOME.

- 1. The great guest, the great fever, the great cure, the grateful service.
2. The healing touch, and the blessings of hospitality, entertaining unawares.
3. Three glimpses within the doors of the Bethany sisters; the fruit of love.
4. "She hath done what she could"; she hath wrought a good work on me.

IV. THE CHILD EXALTED:

- 1. The example, the worth, the salvation, and reception of a child.
2. Childhood, childlikeness, child-ness, child religion, child guidance.
3. Insurmountable barriers: Pride, arrogance, intolerance, inconsistency.
4. Earn of tender affections, trust, humility, docility, faith, obedience.

V. THE KINGDOM OF GOD

- 1. "In the breast of a bulb is the promise of spring; In a little blue egg there's a bird that will sing; In the soul of a seed is the hope of the sod; In the heart of a child is the Kingdom of God." — William L. Stidger.

VI. SENTENCE SERMONS:

- 1. "I see in every child the possibility of a perfect man."—Froebel.
2. "Blessed are the pure in heart, for they shall see God."—Jesus.
3. "The most dangerous man in the community is the one who would pollute the stream of a child's life."—Luther Burbank.
4. "Build thee more stately mansions, O my soul, as the swift season roll. Leave thy low-vaulted past! Let each new temple, nobler than the last, Shut thee from heaven with a dome more vast; Till thou at length art free, Leaving thine outgrown shell by life's unresting sea."—Oliver Wendell Holmes.

Rural Schools

PRAIRIE HILL For the November 11 PTA program, Prin. R. J. Sells of Prairie Lee arranged an old fiddlers' contest which proved a success both as entertainment and as a financial venture.

Mr. Luce of Big Spring won first prize in the contest and Mr. B. F. Logan of Coahoma second place. A number of fiddlers were present but only five entered the contest.

Proceeds will be used to buy equipment for work for the Interscholastic League contests.

Rhythm band equipment has been ordered for a 24-pupil band. The band will be under direction of Mrs. R. J. Sells, primary teacher.

Because of the large number of girls in school, two 4-H clubs have been organized, one junior club and one senior club. Pauline Cobb is president of the senior girls' group and Avalene Crutup is president of the junior girls' group.

The junior girls are finishing work on hose bags and scarfs and the senior girls are starting work on dresses.

Mrs. W. E. Pigg's fourth and fifth grades are working on cooperative geography booklets. The fifth grade is working on the Middle Atlantic States and the fourth grade on the Mediterranean lands.

Pupils who have been out to gather crops are coming back to school and a full enrollment soon is hoped for.

PLEASANT VALLEY

Pleasant Valley Parent-Teacher Association held a business and social meeting at the school house Thursday evening.

School children presented the following short program: Son—"Thanksgiving Day", Children.

Reading—"Landing of the Pilgrims" Chester Cogburn. Reading—"First Thanksgiving Day," Ruby Nell Cooke.

Reading—"I'm Thankful," Bonnie Jean Newton. Dialogue—"Danny Gobbler's Thanksgiving," Daniel Cooke and Joann Starley.

Reading—"The Hundredth Psalm," Group. Reading—"First Thanksgiving," Arvan Wilson.

Reading—"Massasoit's Kindness," Morris Kinsey. Reading—"Thanksgiving Turkey,"

Cowboy Evangelist To Hold Revival

Rev. E. R. Winter and his gospel singers of Coleman, Texas, are in Midland for another revival at the local Assembly of God Church, to begin this evening at 7:15. Pastor M. E. Stubblefield, announced.

This party conducted a series of revivals here last August in which the evangelist spoke on current events from a prophetic view point. There will be a divine healing service each Tuesday night, those who desire to be prayed for are requested to call at the service Sunday or Monday night and get a card to be filled out and returned to the evangelist not later than Monday night service.

Special Services Planned at Church

There will be special Thanksgiving Churchwide hrdr hrduoi hrduoi worship at the First Christian Church at 11:00 o'clock this morning, according to an announcement by Rev. John E. Pickering, pastor. The pastor will bring a special worship sermon on "Thanksgiving, using as the text: 'Bless the Lord, O my soul, and forget not all His benefits.'"

The choir, under the direction of Mrs. M. A. Park, has prepared special Thanksgiving music for the worship service.

The public is cordially invited to worship with the congregation in this special Thanksgiving service. The pastor has announced that in keeping with the custom of the churches to have no services the last Sunday night when a sister church is holding a revival, there will be no evening worship services, and the congregation would worship with the Baptist Church in their revival services. The young people's groups will conduct their services for the special Thanksgiving service Sunday morning as follows:

The Processional: "God Of Our Fathers, Whose Almighty Hand," The Thanksgiving Prayer, The Pastor. Prayer Response: "Father In Heaven Hear Us."

Choir Anthem: "Hymn Of Thanksgiving."

Holy Communion Hymn: "He Died For Me."

The Offertory. Special Anthem: "I Will Extol Thee."

Sermon: "Bless The Lord, O My Soul," The Pastor.

The Invitation: "Come To The Savior." The Recessional: "God Be With You." The Closing Prayer.

Keith Kinsey. Reading—"Thanksgiving Joys," Rebecca Watford.

Reading—"Thanksgiving Day," Glenn Starley. Song—"America the Beautiful," Group.

Games were played and refreshments were served to about 45 people.

The PTA now has 13 members. Parents other than PTA members were present at the meeting, however.

Cancer Cause of Lindsey's Death

DALLAS, Nov. 19. (AP). — A doctor's autopsy today reported that the death of Col. Dickinson Lindsey, 66, yesterday resulted from a cancerous condition. Burial was scheduled at Arlington Cemetery, Washington, Monday. Col. Lindsey was chairman of the first American Legion national convention and a former mayor of Dallas.

Diphtheria and Smallpox Increase

Health officials are worried about the state of Texas' health as shown by recent data. Increase in prevalence of smallpox and diphtheria are cited as cause for anxiety. This year's report shows that smallpox is five times as prevalent as last year, while diphtheria shows 100 cases more than were recorded for last year at this time. Attention of the public is directed to these statistics which indicate need for more active health safeguarding.

HITCH YOUR GIRLDE TO A STAR!

Belle-Sharmer Stockings

IN YOUR OWN LEG SIZE

Why fix a good girdle with stockings so short they yank it down at the garters—or so long they let it "rideup" and bulge? For that matter, why spoil your perfectly good legs with misfit stockings, when Belle-Sharmer's in your own individual leg size are so easy to buy and so economical, too. They're accurately proportioned in both width and length for a smooth, sleek fit from top to toe. See them here exclusively.

# HORNED FROGS DEFEAT OWLS 29-7; MUSTANGS DEFEAT BEARS

## O'BRIEN PASSES TO 3 SCORES FOR THE CHRISTIANS

HOUSTON, Nov. 19. — The mighty Texas Christian University Horned Frogs remained the top undefeated team of the nation today, pushing roughshod over the demoralized Rice Owls, 29-7.

The Frogs rushed over four touchdowns in the first half, then used almost completely a substitute team in the last half to play even with the Owls.

It was Davey "Dynamite" O'Brien, mite quarterback of the Frogs that paved the way for the victory. Three times he faded back and threw rifle passes to his mates for touchdowns and accounted for the fourth one by carrying the ball over the end zone.

O'Brien and Aldrich, TCU candi-

## Bulldogs Hang 18-7 Defeat on Crane

### Francis Scores 3 Touchdowns to Pave Way for Win

The Midland high school Bulldogs climbed into a tie for second place in the league standings Friday night when they won a hard earned 18-7 victory over the Crane Golden Cranes on the Crane field.

The Bulldogs, crippled through a series of accidents extending over the past month, had a lot of trouble in winning their eighth victory. Played in bitter cold, the game was slow throughout with neither club doing a great deal on offense.

However slow the game was, it was probably the roughest game of the year for both clubs. It is doubtful if a player on either club escaped without minor injuries. The Bulldogs were especially hard hit during the game, both halves. Wright and Truelove being forced from the battle because of injuries. Jim White, a third Midland back, suffered a sprained ankle early in the game but managed to struggle through to the rest of the game.

It was Jay Francis, sparkplug of the Bulldogs, that paced the Bulldogs to a victory, despite a leg injury that had him considerably slowed up throughout. When Francis was not in the game the Bulldog offense was seldom ever able to click into for All-America, were the only Frog regulars that entered the game after the half, so complete was the riot staged by the Frogs in the first two periods. O'Brien threw 18 passes during the game, completing 13 of them.

The Frogs scored the first time they got the ball and there was never any doubt of the eventual winner.

for a gain but he made the difference in the clubs while on the field. He scored all Midland points and barely missed getting loose several times. The 18 points raised his total for the year to 162.

The Cranes were never able to advance the ball past the 50 yard stripe and the lone score came on a pass that was good for 65 yards on the throw and carry. The Midland forward wall withstood attacks thrown at them all night and few yards were made by the Crane backs through the line. Practically all the ground gains made by Crane came around the ends.

All the injuries scored in the game were not on the side of the Bulldogs. Two of the Crane backs, Todd and Maynard, were carried from the field, Todd suffering from a broken arm. Other Crane boys were well battered from the bruising duties to Truelove.

Early in the fourth period Pendleton stood on his 35 and passed 35 yards to Edwards who took the ball away from Truelove and the big end raced for a touchdown. He was knocked over by the goal by Francis who made a desperate try to prevent the score. Pendleton kicked goal, making the score 7-12, interest in the game immediately increased.

With a player getting hurt on practically every play, the period rolled along at least 20 minutes before the final score was made. After dropping a 60 yard pass from Truelove on the Crane 10, Francis kicked out on the Crane 20. After a couple of passes he faked, Woodfin made another bad passback, Crane recovering on the Crane 1 yard stripe. Pendleton got off a bad kick that went out on the Crane 15 and after one stub at the middle of the line gained only a couple of yards. Francis duplicated the first quarter game play by going over his right tackle, cutting back to the left and racing for a score. For the third time, Klat's kick was wide.

The Cranes received the kickoff immediately started a passing barrage that was broken up when Francis intercepted a heave on the Midland 40 as the game ended.

the ball on the 50 and marched down to the 20, only to lose 12 yards in three more plays. With fourth down coming up and 22 to go Francis fooled the Crane team by sprinting through his own right tackle, cutting to the left down the line and outrunning the Crane secondary for another score. Klat's kick was again wide.

The third period was scoreless, with both teams kicking back and forth while fighting for a break. "Pats" Wright, who had been doing a lot of ball carrying for Midland, was forced from the game in that period, leaving the kicking duties to Truelove.

Early in the fourth period Pendleton stood on his 35 and passed 35 yards to Edwards who took the ball away from Truelove and the big end raced for a touchdown. He was knocked over by the goal by Francis who made a desperate try to prevent the score. Pendleton kicked goal, making the score 7-12, interest in the game immediately increased.

With a player getting hurt on practically every play, the period rolled along at least 20 minutes before the final score was made. After dropping a 60 yard pass from Truelove on the Crane 10, Francis kicked out on the Crane 20. After a couple of passes he faked, Woodfin made another bad passback, Crane recovering on the Crane 1 yard stripe. Pendleton got off a bad kick that went out on the Crane 15 and after one stub at the middle of the line gained only a couple of yards. Francis duplicated the first quarter game play by going over his right tackle, cutting back to the left and racing for a score. For the third time, Klat's kick was wide.

The Cranes received the kickoff immediately started a passing barrage that was broken up when Francis intercepted a heave on the Midland 40 as the game ended.

To start the game, Midland received and picked up one first down before Wright was forced to kick, the ball going out on the Crane 22. On the first play fullback Pendleton, ace Crane back, loped around his right end for 19 yards, but the Bulldogs braced and held for three downs, Pendleton kicking to the Midland 19.

At that stage Francis went on the field and immediately engineered a couple of first downs that carried to kick again.

It was early in the second quarter that the Bulldogs got the first break. With the ball on the Crane 20, fourth down, Woodfin made a bad pass back that Crane recovered on the Crane 7. However, the ball went over and after Wright and Harris picked up a couple of yards at the line Francis went over for a score. Klat's attempted placement was wide.

After kicking backwards and forwards for a while the Bulldogs took the field.

The Owls received to open the game and after failing to gain kicked to the Frogs on the TCU 44. O'Brien passed a couple of times to pick up 15 yards, he and Sparks punched down to the Rice 25 and O'Brien passed to Looney on the 20 and the big end raced over for the first score. O'Brien kicked goal.

Early in the second quarter the Frogs advanced to the Rice 26 and O'Brien faded all the way back to the 49 on fourth down and again passed to Looney on the goal for the second score. Again, he kicked goal.

About midway of the period Sullivan passed 10 yards to Steakley, Rice track ace, and he raced 36 yards for the lone Rice score.

The Frogs took the next kick-off and paraded straight down the field for a third score, Sparks and O'Brien alternating at carrying the ball to the one from where O'Brien stepped over. Not a pass was thrown during the 69 yard march.

The Frogs, however, weren't through even after that. Before the period could end, Aldrich intercepted a pass thrown by Lain on the TCU 46 and the march was on again. O'Brien got loose on a twisting run to the Rice 18 and after three plays faked he passed to Horner on the goal for the fourth touchdown.

The win left the Horned Frogs tied with the Southern Methodist University Mustangs for the Southwest Conference leadership and left the deciding game of the year to be played next Saturday when the two teams meet in Dallas.

## METHODISTS STAY IN TIE WITH TCU WITH 21-6 VICTORY

WACO, Nov. 19. (AP). — The Southern Methodist University Mustangs, firing from the air and aground, torpedooed Baylor's fine aerial machine here today, winning 21-6, to demolish a 22-year old jinx which had never let the Mustangs conquer the Bears in Waco.

A first period touchdown on tricky runs and two scores on passes tell only half of the story of the Mustang victory, however, because Baylor's great passer, Bill Patterson, had to watch four vital fumbles cost his team a bigger score.

It was a passers' battle, with 45 tosses gracing the air during the game. Baylor tried 29, completing 10 for 136 yards, while the Methodists with Ray Mallouf and Billy Dewell clicking, gained 169 yards on eight good passes out of 16.

In the first few minutes the Methodist pushed into threatening territory an Mallouf's 30-yard pass to Crouch and a line plunge by Muller; that carried 11 yards to the Baylor 14 but the threat vanished

Patterson took a punt in midfield in the second quarter and wriggled to the SMU 19, then rifled into the arms of Durham Bivens who caught the ball over the goal. The Mustangs smothered Nelson on his attempt to kick point.

The Mustang's final score was a short affair, in five plays, including two line passes from Mallouf to Collins which set the ball up for Bearden to drive for the score from the one-foot line.

## Williams Leads the Nubbins to 13-13 Tie

With big Weldon Williams leading the way, the Midland high school "Nubbins," second and third string football players, battled to a 13-13 tie with the Andrews Mustangs on Lackey field last night.

The Bulldogs got off to a one touchdown lead in the first period and doubled the lead in the second period but were unable to do much offensively during the remainder of the game. Williams was knocked out early in the third period and the Nubbins offense was completely wrecked.

The Mustangs scored for the first time in the third period and managed to tie up the game in the last minute of play. A power play for extra point following the last play failed, leaving the visitors with no more than a tie.

When the sun sets next Thursday afternoon all play in district 7-B will be over for the year, and unless 99 per cent of the fans are mistaken, Wink will once more be the club that will represent the district in a march toward regional honors.

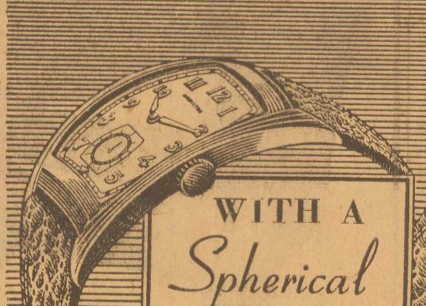

The Wildcats of the Winkler county oil town wind up the year against Pecos, a club that has lost only one game this year. It would take a vivid imagination indeed to picture Pecos as the winner. The best the Eagles could do was tie Odesa, a club the Wildcats beat by 31 points, and lose to Midland by 30 points, a team the Wildcats defeated by 24 points.

Wink continued to take it easy during the past week end by handing Kermit a 41-20 defeat. After rolling up four touchdowns in the first 15 minutes of play the Wildcats let up and allowed the Kermit boys to score three touchdowns.

Midland remained in a second place tie with Pecos by handing Crane an 18-7 defeat in a rough, bitterly contested affair at Crane. Both sides came out of the fray well

TOUCHDOWN

OH, DEAR! LUCK...

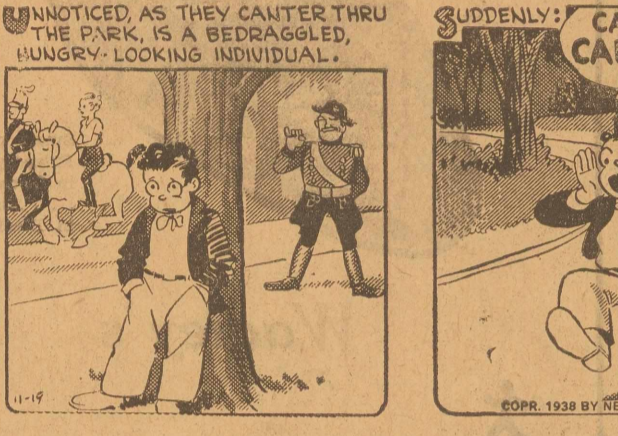

IT'S HANDY HEY, DOC! HANDY!!!

WASH TUBBS

UNNOTICED, AS THEY CANTER THRU THE PARK, IS A BEDRAGGLED, HUNGRY-LOOKING INDIVIDUAL.

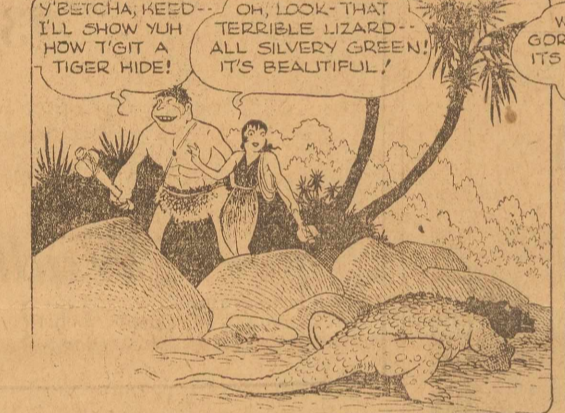

SUDDENLY: CAROL!

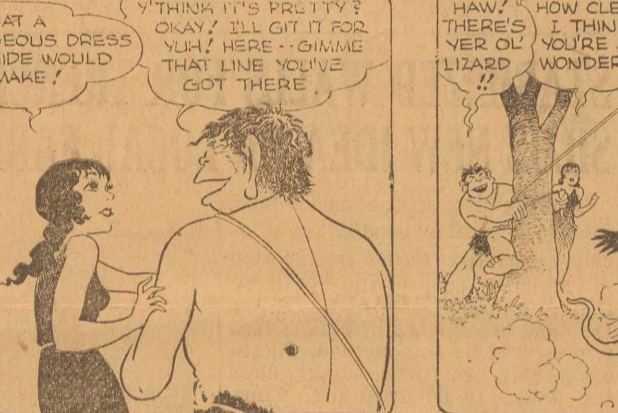

YOU BLOOMIN' LOP-EARED SCUPPER RAT! SO YE THOUGHT YOU'D GIVE OLD BULL THE SLIP, HEY?

ALLEY OOP

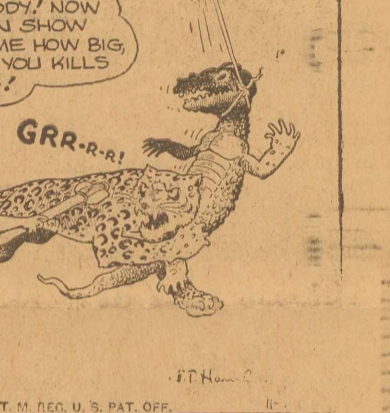

WHAT A GORGEOUS DRESS IT'S BEAUTIFUL!

HOW CLEVER! I THINK YOU'RE JUST WUNDERFUL!

WELL, GOOD GOSH! WHERE DID THAT CRITTER COME FROM?

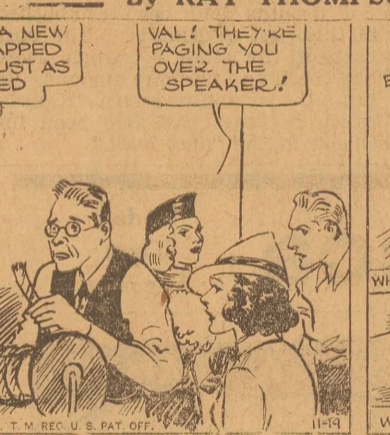

MYRA NORTH, SPECIAL NURSE

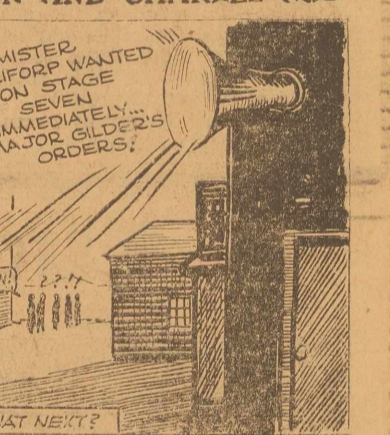

GOSH! WE MIGHT'VE BEEN KILLED!

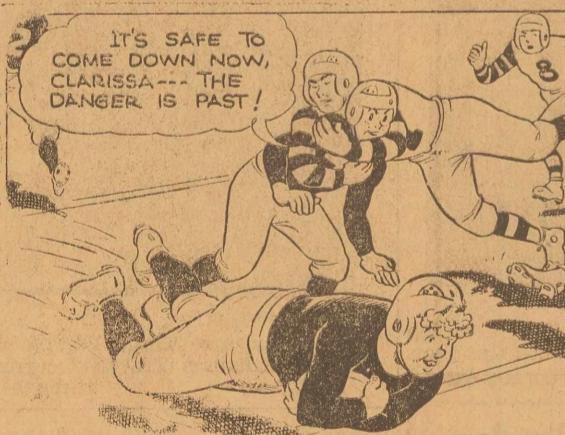

WHAT'VE YOU GOT TO SAY ABOUT THIS?

I-I DON'T UNDERSTAND IT, MR. HOLLAR.

FRECKLES AND HIS FRIENDS

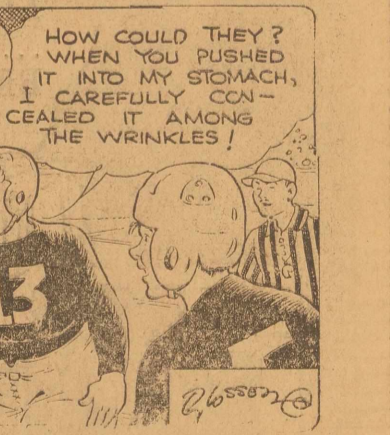

I THOUGHT YOU WERE CARRYING IT, YOU BIG DRIP!

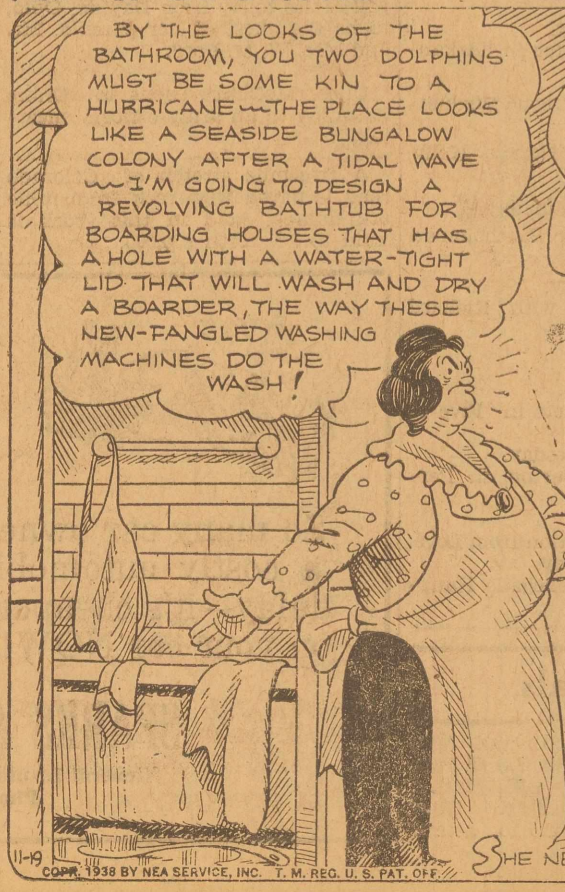

WE'RE A BUNCH OF NASTY DOUBLE-CROSSERS! WHY DON'T YOU TAKE UP KNITTING?

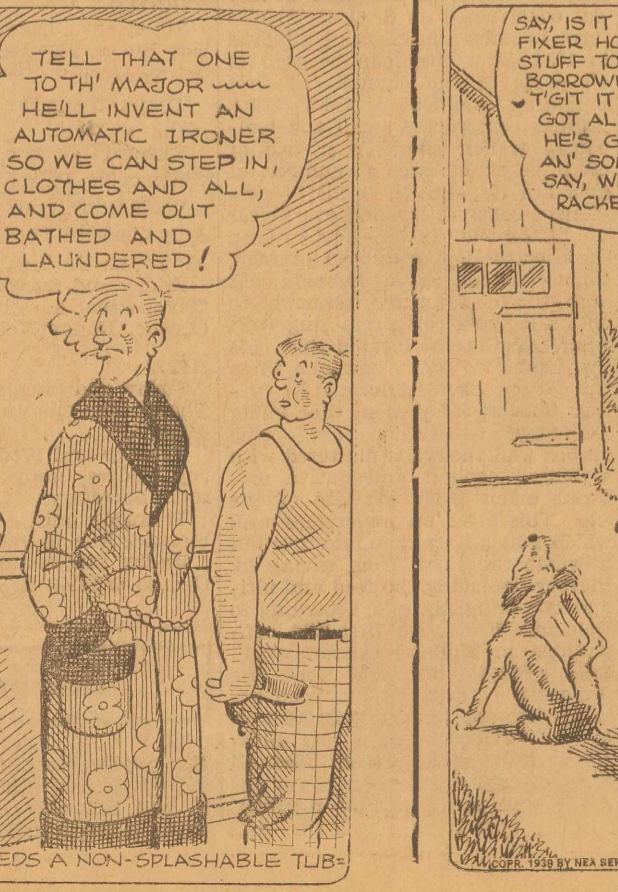

HOW DOES IT SEEM TO MAKE A TOUCH-DOWN, PAL?

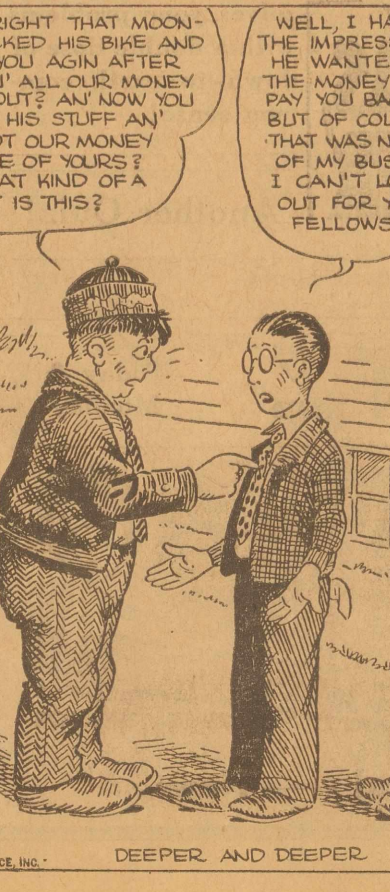

OUR BOARDING HOUSE with MAJOR HOOPLE

TELL THAT ONE TO TH' MAJOR HE'LL INVENT AN AUTOMATIC IRONER SO WE CAN STEP IN, CLOTHES AND ALL, AND COME OUT BATHED AND LAUNDERED!

SAY IS IT RIGHT THAT MOON-FIXER HOOKED HIS BIME AND STUFF TO YOU AGIN AFTER BORROWIN' ALL OUR MONEY 'T'GIT IT OUT? AN' NOW YOU GOT ALL HIS STUFF AN' HE'S GOT OUR MONEY AN' SOME OF YOURS? SAY, WHAT KIND OF A RACKET IS THIS?

WELL, I HAD THE IMPRESSION HE WANTED THE MONEY TO PAY YOU BACK, BUT OF COURSE THAT WAS NONE OF MY BUSINESS-- I CAN'T LOOK OUT FOR YOU FELLOWS

DEEPER AND DEEPER.

J.R. WILLIAMS

NO-NO- HE DIDN'T PAY US BACK-- HE NEEDED TH' MONEY TO BUY SOMETHIN' TO BORROW MORE MONEY ON-- Owwo!

DEEPER AND DEEPER.

**At the Library**

**NEW FICTION:**

The General's Lady, by Esther Forbes: The story of Morganna Bale of Boston who married a rebel general to save her Tory family's fortune, and of Alan Bram, a paroled British officer whom she had nursed back to health after he had been wounded in the defeat of Burgoyne's army. Though the center of the stage belongs to Morganna and Alan, Morganna's stepson and the country girl who had been placed in her care play an almost equally important part. The Revolutionary background is authentic.

Young Doctor Galahad, by Elizabeth Selfer: The efficient hospital in the little Missouri town seemed ideal to young Dr. Tony McNeill, and Dr. Gordon was obviously a first-rate surgeon and a first-rate man to work for. But Tony had what his friends called a "Galahad Streak" and, as he began to learn more about the medical conditions in the town, though he knew it was against his own best interests, he had to do something about it. The exciting story of one young doctor, his career, his girl, and his ideals.

The Killer, by Carolyn Wells: A wealthy bachelor, the only living member of a family of six, had just been told that he had angina pectoris and he was, therefore, anxious to locate any living nieces and nephews. Fleming Stone was successful in tracing ten of them, but their arrival at the Brent House in Vermont was the beginning of a period of terror, for within a short time three ghastly murders were committed. However, Carolyn Wells' famous detective quickly brings the murderer to justice.

Other mysteries: They Found Him Dead, by Georgette Heyer; Murder On Hudson, by Jennifer Jones; The World's Fair Murders, by John Ashenurst; The Day the World Ended, by Sax Rohmer; The Clue of the 14 Keys, by Miles Burton; Murder A la Roshelle, by Anita Blackmon; "The Treasure, and Undertow" by Kathleen Norris: The author selected two of her favorite books to be included in this single volume.

"Angels May Weep," by Jane Abbott: A light romance.

"Out of the Ground," by Norma Patterson and Cate Dalton: "A twelve month of life and love in the oil fields, with a young lawyer returning to find his home town captured by the lure of black gold."

"Family Style," by Karle Wilson Baker: The Priests were a large Texas family—most of them farmers, and when oil was discovered on their lands the excitement affected all of them, but in different ways. Some were greedy, others were resentful of their ruined farms, some were afraid of wealth, while a few welcomed it as a release and an opportunity for a fuller life. Kathleen and Duke, young and poor, who are the central figures, emerge from the experience mature and sane, with their marriage stabilized and their ambitions clarified.

"Emma," by Louis Paul: Marriage versus a career—can a woman have both? Emma thought so and felt that being merely a wife was hardly an adequate existence and so, though still in love with Bill, she left him to carve a name for herself in business. Her struggle, and the difficulties of temptations that came with recognition—the effect of her success on Bill—and the realization that it was meaningless without him—are ably presented in this frank portrayal of a modern problem.

"Drums of the Night," by Norma Patterson: Light romance.

**FEMININE FANCIES**

By KATHLEEN EILAND

Sweaters, that ever-popular form of winter-wear, are changing their forms to conform with the craze for something "different."

New in the wardrobe of the fashionable young woman are the soft knit or brushed wool vests to wear over blouses with suit or as a new topper for an old but reliable dress. The vests come in varied styles including the mannish button-down the-front type with points at the waistline or the softer, double-breasted style with wide lapels.

We've a warm place in our heart for that young couple of newlyweds, lost in a Utah snowstorm, who said they kept themselves alive by thinking of their wedding presents.

Now there is a marriage with some proper sentiment about it! We'll wager those wedding gifts are properly cherished and never secretly sneered at or exchanged for others deemed more appropriate.

Any boy and girl who start out in life thinking enough of their marriage to keep alive because of their wedding gifts will probably make the grade, even though storms other than snowy ones beset them.

For those who have not made the mark in the world they have dreamed of making and to whom the shadow of the 40's hangs ahead menacingly, there is encouragement in the words of Paul Griffith of Washington, D. C., American Legion re-employment director.

He said that research workers had shown that "the average worker at 40, because of his maturity and greater stability and responsibility, was just reaching the prime of his usefulness."

Very likely what he says is true—that is, if the worker has kept his mental flexibility and his willingness to accept new ideas and keep in step with the rest of the world.

Quite a lot of hullaboo raised in recent years about the "unreliability" of workers except the definitely young is, we think, both untrue and frightening to the man or woman approaching middle age—most particularly those to whom the depression brought temporary unemployment or less likeable employment than had formerly been their lot. Hearing dinned into their ears constantly that the middle-aged or elderly worker's day was over might well make such people who lost a measure of their self-confidence slump into a hopeless attitude which really would spell the end of their usefulness.

We salute Mr. Griffith for his share in attempting to lay this modern bugaboo.

**Drouth Hits Kansas.**

TOPEKA, Kas. (U.P.)—S. D. Florra, federal meteorologist, has announced a new all-time record for fall drouths had been established in this part of Kansas. The only part of the state in which there has been a normal amount of rainfall is southwestern Kansas, which in years past had been included in the "dust bowl."

**STABILIZED WALLS FOR TRENCH SILOS NEW IDEA ON LOCAL FARM**

Growing use of the trench silo, to derive greater benefit from locally produced feeds, is reported in Midland county this year by County Agricultural Agent S. A. Debnam. Succulence of bundle feed is preserved by this method, whereas feeding from the stack allows the fodder to be dried out. Thus, the trench silo provides a higher protein value.

F. F. Elkin, at one of his farms east of Midland, is building one of the outstanding trench silos to be used in a sheep feeding project. Finding that his old trench caved in, due to the sandy hill, used old brick to construct walls which were mounted on concrete footing, and then plastered the walls with emulsified asphalt, using a formula developed by Debnam. At the wings of the trench will be barns and sheds, with a track to carry feed directly to the sheep, so that the 500 tons to be stored there may be handled with ease in either good weather or bad.

In the accompanying pictures are shown: (top) Mexicans applying the asphalt to walls of the trench silo and (bottom) concrete pillars at end of the silo, to which will be joined wings of the barn. Elkin already has flocks of well bred sheep on pastures at the farm. On an adjoining place, he has his hog farm, with self feeder, good water facilities and small ponds in which the swine may "cool out" in warm weather.

Terry Elkin, operator of a large farm east of Midland, will begin feeding projects next year. He expressed himself recently as believing several years will elapse before cotton can be grown profitably, hence the best route for farmers of the Midland area will be to feed out livestock on the feed they produce. He has a large swine herd on feed this season.

Taking a lesson from the ant rather than from the grasshopper, Midland county farmers and ranchers are storing the 1938 feed crop for future use in trench silos, the first of which in Midland county was constructed on S. O. Golladay's farm 13 miles southeast of Midland in 1934. Now they can be seen in all parts of the county. At first somewhat skeptical of their value, farmers constructed small and temporary trench silos. After two or more years of use, a number of men are thinking in terms of permanent construction and every-year use of the silo. In an effort to keep the construction cost at a minimum, County Agent S. A. Debnam has engaged in extensive research to obtain low cost earth retaining walls where silos are so located that it is inadvisable to dig a new one when the old one has deteriorated by caving. Silos at the present time under Debnam's supervision are being curbed and the walls plastered with stabilized asphalt and native material taken from the site of the silo. This gives an impervious wall which not only retains moisture but prevents the earth from caving in, thereby damaging the feed and ultimately ruining the silo, according to Debnam. From the first silo constructed in Midland county, which held approximately 100 tons, the present total capacity has been developed to approximately 20,000 tons and a number of silos are under construction at the present time. All types of feed are being used for ensilage and a number of different feeding operations for lambs and

calves are in vogue. The feed crop in Midland county is good this year.
