Winter Weather Drives Southward Over State

DALLAS, Nov. 23 (AP).-Winter weather drove southward through Texas today, pushing against a bank of warm clouds that kept freezing temperatures out of the coastal country overnight. Fifteen degree weather had already moved across the South Plains around Lubbock and, a forecast said, was expected to hold enough sting to bring freezing temperatures as far south as

Will Settle Disputes by Consultation

Chamberlain Will Sign Agreement With the French

PARIS, Nov. 23. (A). —A French-German agreement to submit future disputes to consultation rather than threaten each other with war was announced officially today.

Announcement of the "war renunciation" pact came a few hours before the scheduled arrival of Prime Minister Chamberlain of Britian for talks from which virtual French-British military alliance is foreseen.

The French-German understanding is a development statesmen have been awaiting as a possible corner-stone on which to build European peace and complements the British-German anti-war accord.

The new accord goes further, however, by recognizing formally the present French-German border.

Protest of Nazi Savagery Is Reaffirmation of Faith

By BRUCE CATTON.

A significant thing has happened in American life during the last few days. For the first time in many years, there has developed an issue of vast importance on which the American people have shown themselves to be in com- out keeping in touch with constituplete agreement—and have shown themselves also to be very lents. That's one reason the mor-

The newest Hitler pogrom simply turned America's collective stomach. The spontaneous, nation-wide chorus of indignant protests that poured forth was a revelation. Here, if outside Washington and their own nowhere else, was an issue on which all Americans thought balliwicks continue to roost comand felt as one.

On the surface, perhaps, there is nothing so very remarkable about all of this. After all, no decent people can enjoy the sight of a bully torturing an utterly defenseless vic- man who became a "statesman" tim. A crime against humanity and against civilization, when rapidly and over-estimated his poliit is as easily recognizable as the one just committed by the tical security in his San Antonio Nazis, certainly ought to draw protests.

Yet that simple stand for ordinary decency and hu- ago and turned out to be a hard-fighting leader. He came from an manity goes to the root of the whole matter.

For this whole fight against dictatorship, against tyranny, against repression and regimentation in all their forms and for liberty, democracy and freedom—what is it, at bottom, but a fight for ordinary decency and humanity?

Those are the first casualties under any dictatorship. It is not decent and humane, for instance, to deny men the right to speak and think as they please, to persecute those whose FORGOT race or religious convictions differ from yours, to arrest without warrant and imprison without trial, to substitute force for reason and to subject men to mental and emotional strait- national figure, leaped into the fray jackets. Yet every dictatorship begins with precisely those on one national issue after another, reason and to subject men to mental and emotional straitacts, committing them under the plea that necessity compels

And the noise that the dictators make, the apparent successes that they have won, often make us forget what their power is based on: a direct and simple offense against the most elementary principles of civilized conduct. So we actually get to the point where we can talk about the good things which this or that dictator has done for his people—overlooking the fact that his whole program is founded on a profound and unqualified wrong.

This new Hitler pagrom restores the whole picture to most elementary principles of civilized conduct. So we actually leads the mer confident of renomination in the primaries, unaware that his described them and licked him. Maverick hasn't anything to do except be in San Antonio be Governor Frank Murphy of the primaries, unaware that his described them and licked him. The middle-class voters and San Antonio had decided Maverick as a ticket for speeding to a ticket for speeding to a ticket for speeding to a ticket for speedin power is based on: a direct and simple offense against the

its proper focus. Here the real meaning of dictatorship—any it was an especially sad lesson bedictatorship—is brought out into the open in such a way that cause his opponent's margin was a lesson bedictatorship—is brought out into the open in such a way that no man can fail to see it for what it is. If we never realized it before, now we are compelled to realize that tyranny means a brutal and contemptuous denial of the most fundamental ideals of a decent and humane society.

That is why this spontaneous, nation-wide revulsion Maverick wasn't the only date to learn such a lesson. against the Nazi excesses is so significant.

It reveals that the American character simply cannot up his own fences, hoping to knock left by Justice Cardozo's death. Alstomach the obscenities on which any dictatorship must be built. It shows that the ultimate defense of our freedom is something fundamental to the spirit of all of our people. This protest against the savagery of the Nazis is a reaffirmation of our faith in the American way of life.

What most of the nation's voters want to see next on the stamp city machine in 1934 and 1936, it that Roosevelt will have one or is a ring-necked pheasant.

Historical Society Fears Spinning Is Lost Art

has collected.

ROCHESTER, N. Y. (U.P.) - Almost convinced that spinning by hand is a lost art, the Rochester Historical Society is on the lookout for someone to set up and operate the spinning and flax wheels

"No one on the staff can set up the machines," said J. Shelton Fisher, curator, as he looked at the jig-saw puzle array in a storeroom. "We can't even begin to get the things set up and as for operating, it seems impossible unless we can find someone to assist us," he explained.

The art of operating a spinning or flax wheel, seems to be lost," the creator observed. "However," he add-"there may be some Rochester or vicinity who knows the operation of the machines.

To You Who Have Made

We Extend Our Heartiest Thanks

And we also thank you for the record reception you are giving to the new Chevrolet for 1939, which plainly indicates that once again "Chevrolet's The Choice!"

Thanks to you, the motor car buyers of the nation, Chevrolet has again won first place in passenger car and truck sales in the year 1938 to date. This is the seventh time in the last eight years that Chevrolet has won leadership in motor car sales, and this definite preference for Chevrolet and its products is greatly appreciated by both Chevrolet and its dealers.

Thanks to you, also, the new Chevrolet for 1939 is now winning the largest public acceptance ever given to any new Chevrolet, making it plain that "Chevrolet's The Choice" again for the forthcoming year.

Chevrolet always endeavors to bring you the highest quality motor car it is possible to build, and to price Chevrolet motor cars so low that they will be the nation's greatest dollar value. Naturally, it is pleasant to have you tell us we have succeeded, by giving such wholehearted preference to these products year after year.

May we take this opportunity to thank you again most sincerely for your preference and good will. And may we also renew our pledge to do everything possible to deserve your continued friendship in the future.

Why Make a Sunset of the Sunrise?.

For some people the day is over just as soon as it begins—a tiresome twin

of an empty yesterday. There are others who meet the challenge of each new day with the hearty confidence of our pioneer forefathers, who believed—and proved—that success was never final and failure never fatal. Despite yesterday's success—or failure they greet every new dawn as a dare. They have seen people in America rewarded more generously with comforts and conveniences than the peoples of other lands. They know that each sunrise in America ushers in new opportunities . . . to those who keep their chins , up . . . who never lose that lusty courage and willingness that made ours the most envied nation on Earth.

Take Calotabs to Help Nature Throw off Colds

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fourth night if needed.

How do Calotabs help Nature throw of a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of any virus-laden mucus tion of cold poisons from the blood. Thu Calotabs serve the double purpose of a purgative and diurette, both of which may be needed in the treatment of colds Calotabs are quite economical; only twenty-five cents for the family package ten cents for the trial package.—(adv.)
