

26 SCHOOL STUDENTS DIE WHEN FREIGHT TRAIN HITS BUS

BLAME SNOW STORM FOR UTAH TRAGEDY

SALT LAKE CITY, Dec. 1 (AP).—W. E. Speakman, chief clerk of the Denver, Rio Grande and Western railroad company, said this afternoon 26 bodies had been counted at the scene of an accident 19 miles south of here when a freight train hit a school bus. He said 26 dead had been counted, the bodies taken to mortuaries and efforts were being made to locate relatives to assist in identification.

SALT LAKE CITY, Dec. 1 (AP).—A fast freight train struck a school bus at a rural crossing ten miles south of here today and Sheriff Grant Young said "at least two thirds of 40 occupants of the bus were killed."

Twelve seriously injured were taken to Salt Lake City general hospital. Dead and maimed were strewn for a mile along the Denver and Rio Grande tracks, Young said.

The framework of the bus was rammed under the locomotive. At the hospital it was said seven of the children were in a critical condition.

Ages of the students ranged from 14 to 18. Most of them were children of farmers.

A newspaper reporter said "about 20" were killed. He said he counted 15 bodies along the tracks.

It was the worst school disaster in Utah history.

Grief stricken parents rushed frantically up and down the tracks trying to find children.

The bus was enroute to Jordan high school.

A snow storm had reduced visibility and the train, the "Flying Ute," a west bound freight, was an hour late due to the storm.

Elliott Roosevelt Named Big Spring CC Guest Speaker

BIG SPRING, Dec. 1.—Elliott Roosevelt, Fort Worth, Wednesday accepted an invitation to address the annual membership banquet of the chamber of commerce here Dec. 15.

Roosevelt, son of the nation's president and head of the Texas State Network, advised Dr. P. W. Malone, chamber of commerce president, that he would be able to come to Big Spring for the meeting.

He is addressing a Beaumont group on the evening of Dec. 14, he said, but would fly back to Fort Worth and arrive here by plane on the evening he is to speak.

Since making Texas his adopted state, Roosevelt has been active in not only the political but the commercial activities of his home city and state.

Announcement that he would be the speaker led chamber officials to urge those planning to attend the banquet to make reservations as soon as possible.

J. H. Greene, chamber of commerce manager, predicted that attendance would be so large as to exclude those who do not make early reservation. Obie Bristow is in charge of the committee conducting ticket sales.

Insurance Key Rate Here One of Lowest As Reduction Made

AUSTIN, Dec. 1 (AP).—Reductions in fire insurance "key" rates for nine Texas cities were announced Wednesday by Marvin Hill, fire insurance commissioner.

The reductions and reasons therefor follow: Pearshall from 48 to 49 cents; Monahan, from 63 to 59 cents; and Mineral Wells, from 39 to 38 cents, all because of fire department improvements. Rotan from 44 to 43 cents, street pavement work; Ferris, from 54 to 51 cents, improvements in waterworks system; Midland, from 30 to 26 cents, improvements in waterworks and streets; and Anderson, from 98 to 95 cents, fire prevention teaching in public schools; Kyle, from 92 to 89 cents, enforcement of fire marshal ordinance, and Kermit, from 96 to 84 cents, installation of waterworks system and new fire department organization and equipment.

East Denver Location. New east edge location for the Denver pool of southern Yoakum is Tide Water No. 1 M. M. Miller, 330 feet out of the southwest corner of the northwest quarter of section 891, block D, J. H. Gibson survey.

J. E. Mabee No. 1-D Coline-Willard, indicating linking of the Denver pool with the Bennett, is preparing to acidize. On natural production test, it flowed 320 barrels in 24 hours through open 2-inch tubing, bottomed at 5,227 feet in lime.

Adams & Bradley No. 1 Ohio-Glenn Crain, central Gaines wildcat three and a half miles north of the Seminole pool proper, this morning was drilling at 4,041 in anhydrite and red rock.

Father and Son Talk Made at Rotary by The Rev. H. D. Bruce

Picturing a father as the butt of all jokes and as the person to whom no credit is given for what he accomplishes, the Rev. H. D. Bruce, Baptist pastor, in a talk to the Rotary club today, declared that a father who has provided food, clothing and shelter for his children and has reared children of whom he may be proud, has not lived in vain.

The "father and son" talk urged men to give more time to their children, to give themselves as well as the necessities and luxuries.

Fathers can help stop certain evils which, beginning with youths, affect the world today: idleness, drinking, profanity, gambling and lust, he said. Each phase was discussed at some length, showing how the influence of the right kind of father affects the life of the children.

Visitors at the club luncheon today included Joe Piron and L. C. English of Odessa and Bill Collyns of Midland.

The club voted to cooperate with the Lions club, American Legion post and local theatres in staging the annual free Christmas party for children of Midland, the date having been set for December 24. Manager J. Howard Hodge of the Yucca theatre has ordered special films suitable for the annual event.

Antarctic Forecasts Planned

SYDNEY, N. S. W. (U.P.)—Plans to set up 12 meteorological stations in the Antarctic are under way, Sir Hubert Wilkins, the famous Australian explorer said on his arrival here from the United States.

State Secretary of Christian Churches To Talk Here Sunday

Rev. Patrick Henry, state secretary of the Christian Churches of Texas, will preach the sermon at the special Women's Day service at the First Christian church Sunday night at 7:00 o'clock.

The first Sunday in December has for a number of years been set aside as a special Women's Day in the Christian church. The women of the local church, led by Mrs. Charles Klapproth, president of the women's missionary society of the church, will have complete charge of the program.

"Rev. Patrick Henry has for many years been the state secretary of Christian churches in Texas and is known and loved by all members of the communion throughout the state," Rev. J. E. Pickering, pastor, said. "He is a forceful speaker and a pleasing personality. A capacity attendance is expected to worship in this special service."

In keeping with the theme throughout the day, Rev. John E. Pickering, pastor, will bring a special message at the 11:00 o'clock hour on "Witnessing For Christ."

Special music for all the services for the day has been prepared under the direction of Mrs. M. A. Park, director of music for the church.

Martin Declares Italians Urged to Support Fascists

WASHINGTON, Dec. 1 (AP)—Honorary Martin, President of the United Automobile Workers union, told the house committee investigating un-American activities today that the Italian vice council, Giacomo D'Amorelli had attempted to get American citizens of Italian ancestry in Detroit to support the "fascist government."

Martin declared "this meant American citizens were asked by the Italian government to be traitors to their country."

The witness said after this plan failed an economic boycott was threatened.

19 Shopping Days Till Christmas

WASHINGTON, Dec. 1 (AP).—Footprints in melting snow and a trampled batch of school papers served today as the only clues in a widespread hunt for Mary Brown, 18, business school student who vanished last night.

Mary's younger sister, Lucy Brown, looked over two suspects but failed to identify either as the "foreign looking, roughly-dressed" man she said abducted the girl.

Looking Back to Christmas 19 Years Ago—Ohioans were boosting their Senator Warren G. Harding for President.

With coal famine threatening cold Yuletides, Kansas governor called for 1000 volunteers to dig coal.

Country in grip of crime wave, with 300 murders in year for Chicago alone. Fear that kaiser would return to rule Germany.

Steel industry stunned by passing of Carnegie and Frick.

Third Member Of Spy Ring Is Convicted

Army Private Is Found Guilty Of Stealing Secrets

NEW YORK, Dec. 1 (AP).—German-born Erich Glaser, 28, a former U. S. army air corps private, was convicted late Wednesday with a recommendation for clemency — of conspiracy to steal American military secrets. The same federal court jury convicted two other German spies Tuesday night without recommendation.

Those facing the possible maximum of 20 years in prison under the U. S. code concerning espionage are Johanna Hofmann, 26, a hairdresser on the German liner Europa, and Otto Hermann Voss, 39, a former airplane mechanic.

Sentencing will be at 2 p. m. Friday by Federal Judge John C. Knox.

After Glaser's conviction the judge praised the government's prosecution staff for having had "the courage to divulge what it had learned."

He said the trial "should teach persons coming here, that they must understand that to engage in espionage is dangerous work and that such persons shall be punished."

Judge Knox also praised the jury. Glaser was accused of supplying the army's "z-signal" code for airplanes approaching a landing field to Guenther Gustav Rumrich, U. S. army deserter, who pleaded guilty, testified for the government and now also awaits sentence.

U. S. Attorney Lamar Handy, one of several who made investigations of the spy ring abroad, said in a statement:

"The conviction in this case is a condemnation of the German espionage system operating in this country, directed by high officials residing in Germany. . . . We have no counter-espionage in this country, and as long as that is so, the United States is an open field for the work of foreign spies. x x x x x."

Midland Scout Troop No. 54 Launching Toy Renovation Campaign

Midland Boy Scout Troop No. 54 this week is launching its seventh annual Toy Renovation Campaign, all old toys contributed to the Boy Scouts to be repaired and distributed to the needy children of the community on Christmas eve. In the past seven years, more than 5,000 toys have been repaired by the troop and distributed among less fortunate children of the city. The toy repair program has been one of the major objectives of the outstanding troop of which Buster Howard is Scoutmaster. Cooperating with the Boy Scouts in the movement is the Midland Lions Club, which organization furnishes the materials used in repairing the old toys.

This year's toy repair program will be handled by the recently organized Scoutcraft department of Troop 54, two Scouts, J. C. Heil and Kenneth Taylor, to be in charge of the department during the repairing of the toys.

Members of the troop announced today that they are now ready to receive all old toys, cooperation of the citizenry being urged in supplying used toys to the troop. Persons having used toys which may be repaired and used in the program are requested to leave them at the chamber of commerce office in Hotel Scharbauer, or call the chamber of commerce, No. 39, and the toys will be called for.

Police Search for Abducted Student

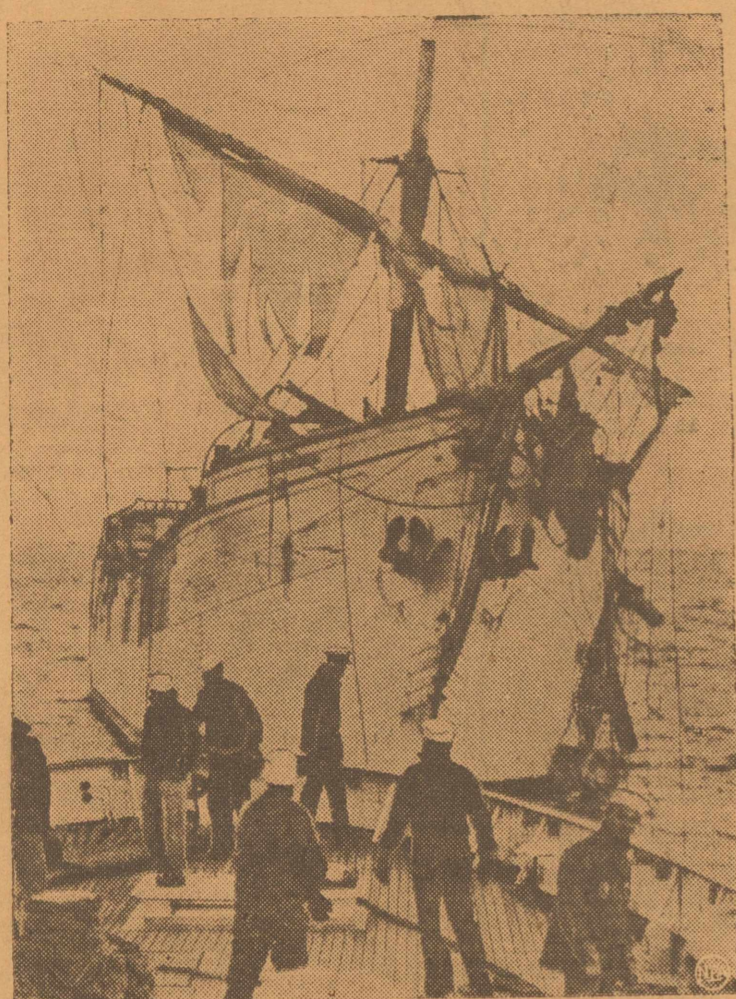

WASHINGTON, Dec. 1 (AP).—Footprints in melting snow and a trampled batch of school papers served today as the only clues in a widespread hunt for Mary Brown, 18, business school student who vanished last night.

Mary's younger sister, Lucy Brown, looked over two suspects but failed to identify either as the "foreign looking, roughly-dressed" man she said abducted the girl.

Cantata Rehearsal Is Not Scheduled Tonight

Due to the various church choir rehearsals this evening, the town-wide Christmas Cantata rehearsal will not be held at the high school tonight. The rehearsal will be resumed Friday evening at seven o'clock, at which time a full attendance is desired. This organization will give the Cantata, "Angelic Tidings" with 100 voices on the evening of Dec. 11, in the high school auditorium.

No Sail Today

Her masts swept away by a recent Atlantic storm, the Merchant Marine training barkentine Marsala looked like the loser in a naval battle. The Coast Guard Cutter Mendota towed her to Norfolk, Va. with her crew of 25 all safe.

Wave of Jewish Suicides Reported in Nazi Germany

BERLIN, Dec. 1 (AP)—A wave of Jewish suicides was reported by responsible persons Wednesday to have spread throughout Germany as the Nazis decreed new "ghetto" measures.

Rabbis worked overtime conducting funerals. They and other authoritative sources were forbidden to disclose how many killed themselves or died suddenly from causes attributed directly to anti-Jewish actions.

Police in all parts of Germany were empowered by a new order to forbid Jews to appear in certain districts or leave home at certain times.

A new attack on the United States was opened by the newspaper Fraenkische Tageszeitung, organ of strongly anti-Jewish Julius Streicher, Nazi leader of Franconia.

The newspaper called the United States a "land of lynch justice, kidnapping, false prophets and strip dancers" and added:

"America mixes in the most violent manner in the inner affairs of Germany and laments over the Jews without helping them, it forgets completely to tend to its own affairs. They are dirty enough and we all have reason enough to remind them."

The official Gazette printed the "Jewish Curfew" measure under the heading, "Police order regarding

Midland Church Group Attends Odessa Convention

Approximately 30 Midland people have gone to Odessa today to attend the district four all-day convention of the Christian church being held at the First Christian church in that city.

The Midland church is to be represented on both the afternoon and evening's programs.

In the afternoon session, Rev. J. E. Pickering, Midland pastor, is to discuss "Brite College of the Bible" and at 4 o'clock he will preach the theme sermon on "Witnessing for Christ."

The 6 o'clock laymen's dinner will be jointly in charge of Rep. James H. Goodman, of Midland, governor of district Laymen's League and of Rev. C. A. Johnson, Odessa pastor.

Special music will be presented by the choir of the Midland church during the closing session this evening.

Military Ships Lead in Landings

Three military ships and one civilian plane were listed in reports from Sloan Field early this afternoon.

Two SLP's arrived from El Paso and departed for Barksdale Field, La., with Pilot Butterfield leading. An SLP that arrived from Hensley Wednesday departed for Biggs Field, El Paso, after an overnight stay. It was flown by Pilot Rasseur.

Noted Texan, Frank Drane, Takes Life

Philanthropist Is Found Dead at Home Near Corsicana

CORSICANA, Dec. 1 (AP)—Frank Neal Drane, 76 philanthropist who pledged \$800,000 to help his fellow-men, was found dead today, his throat slashed. His body was found near a buzz saw at his home west of Corsicana. Justice of Peace A. E. Foster returned a verdict of "self destruction."

Drane's body almost decapitated, was found on the floor of his workshop by an employe, the justice said. The saw, electrically powered, had been switched off.

Drane made a fortune out of electric power, banking and agriculture. He organized the Navarro Community Foundation, a charitable institution, last May, donating approximately \$800,000 to it.

The capitalist and his wife donated Drane Hall to Trinity University at Waxahachie.

Survivors include one son, Hugh A. Drane, Dallas, capitalist.

Traffic Patrolman Urges Citizens Aid Safety Campaigns

(Editor's Note: The following article was prepared for The Reporter-Telegram by Frank Manning, Midland traffic patrolman, and is presented as an ever-present campaign against traffic violations.)

Will the United States cut its traffic toll in 1939? Will Midland do its part to make this possible? The next two months will tell. The first nine months have brought unbroken progress. Up to October 1st a total of 5,820 lives have been saved on America's streets and highways.

What are we going to do about it, in Midland? Are we going to coast along, or will we get in there and fight, to save more of these lives? In many ways the situation is similar to that of a football game. The safety team, after losing to accidents for years, at last find itself winning. It is leading at the end of the third quarter. The safety team will have to fight twice as hard in the final period as it has in the first three quarters to win.

Officials of the National Safety Council attribute the steady nine months' decline in traffic deaths to the fact that there has been more safety activity in the United States recently than ever before, with a resultant awakening by drivers and pedestrians to their individual responsibility and to the enormity of the human traffic toll. They list these specific factors as to contributing to the sustained reduction in the traffic toll:

1. Safer cars and equipment.
2. Better driver's license laws.
3. More and better traffic engineers and traffic police.
4. More and better school safety work.
5. More and better information on how and why accidents occur.
6. More and better organized safety campaigning than ever before in the nation, city and towns.

Speed too fast for conditions is an important factor in traffic accidents. High speed usually makes it more difficult to avoid accidents in an emergency and tends to increase the severity of the resulting injury or damage.

Daladier to Seek Vote of Confidence From Parliament

PARIS, Dec. 1 (AP)—Premier Daladier, having broken labor's effort to wreck his government by a general strike, announced today he intended to call parliament into session on December 8 and demand from it approval of his policies.

It was believed in government circles Daladier would muster sufficient strength to override opposition of communists and socialists.

Saint Nick Due to Arrive Friday Afternoon at 3

Santa Claus will arrive in Midland tomorrow afternoon shortly after three o'clock, every youngster in Midland and vicinity being cordially invited to be on hand in downtown Midland to greet the beloved old gentleman who left his busy Toyland workshop at the North Pole Tuesday afternoon to pay a pre-Christmas eve visit to the good children of West Texas.

Information received this afternoon by the chamber of commerce said that Santa Claus will arrive here on schedule, no trouble having been encountered on his plane trip to West Texas to date.

Immediately following his arrival here, Santa Claus will be escorted to the Midland high school where a parade being arranged in honor of the distinguished guest will be formed. The parade will be headed by

They Tell About Dictators

William Phillips, American ambassador to Italy, right, and Ambassador Hugh R. Wilson, recently recalled from Germany, appeared in jovial mood as they arrived at Warm Springs, Ga. They gave the president firsthand reports on Nazi and fascist treatment of minorities.

Shell Pipe Line Today Takes Over 97 Connections in Goldsmith Pool

By FRANK GARDNER.

Today at 7 a. m., Shell Pipe Line Company took over from Gulf Pipe Line Company connections to 97 wells in the Goldsmith pool of northwestern Ector county. The wells now are running a total of approximately 2,600 barrels of oil daily.

Leases affected by the switch are as follows: Amerada "Cummins," eight wells; Atlantic "Cummins B," four wells; Atlantic "Cummins C," four wells; Atlantic "Cummins D," four wells; Atlantic "Rumsey C," seven wells; Atlantic "Rumsey D," one well; Barsodi & Beatty Company, Inc. "TXL," two wells; Cities Service "Cummins D," four wells; Cities Service "Cummins C," six wells; W. H. Dunning, Jr. "Cummins B," two wells; Dunning "Scharbauer C," one well; Humble "Scharbauer B," eight wells; Landreth "Cummins A," two wells; Landreth "Scharbauer B," eight wells; Landreth "Scharbauer D," four wells; Landreth "Scharbauer H," four wells; Landreth "Scharbauer I," eight wells; Manson, "Cummins," four wells; B. F. Nysewander, Jr. et al "Scharbauer," four wells; Shasta "Scharbauer A," one well; Shasta "Scharbauer B," one well; Shasta "Scharbauer C," two wells.

Shallow Strike. H. F. Anthony et al (formerly Laqui Oil Company) No. 1 Richards-Shaw, prospective shallow strike in the Toyah area of Reeves county, today was scheduled to be shut in after installation of control head. Yesterday evening, it was showing occasional small heads, with gas volume still at around 280,000 cubic feet daily. The well struck first gas at 1,612-14, with show of oil at 1,621 and increase in oil from 1,625-30, present total depth. It filled 700 feet with oil the first 10 hours. Oil tested 38.4-gravily and was brown in color.

In southern Reeves, Ohio No. 1 Popham is drilling below 5,585 feet in Delaware lime and sand, with no shows reported.

Trans-Pecos No. 1 Popham, Pecos Delaware test, is preparing to drill plug on squeeze job with rotary.

Railroads Reject Citrus Freight Cut

WASHINGTON, Dec. 1 (AP)—Railroads rejected today a plan from Secretary of Agriculture Wallace for an emergency reduction of citrus freight rates, explaining the financial condition of the railroads was the most critical in history.

Washington, Dec. 1 (AP)—Railroads rejected today a plan from Secretary of Agriculture Wallace for an emergency reduction of citrus freight rates, explaining the financial condition of the railroads was the most critical in history.

Midland High School Band Under Direction of M. A. Armstrong, and Will Proceed Through the Downtown Section. Santa Claus Will Ride in the Parade on a Pick-up so that all children may get a good view of him. The parade will get underway promptly at 3:30 o'clock.

Santa Claus is bringing along 237 pounds of candy, aggregating a total of 16,540 pieces, to be distributed to the children of this section. The candy will be distributed from the pick-up in which Santa Claus will ride.

Following the parade, Christmas street lights will be turned on 'Christmas store windows will be unveiled and the Christmas shopping season will be declared officially opened in Midland.

Sport and Education

There is a strange voice in the academic shadows. It speaks of sport and of education in distinct tones, but the words are unusual indeed.

"All subjects should be taught in the same way as athletics and the system of giving grades in school subjects should be abolished since, as in athletics, it is only the results that count."

Sounds like a football coach, irked by the tradition that holds many a scholar to an age old routine.

But wait. "Because a student gets a grade of 95 per cent in a language under the present educational system, it doesn't mean that he knows that much, but simply that the teacher's score in catching him in mistakes is 5 per cent."

"You can't interrupt a boy playing football by teaching him the history of the sport. He isn't interested in getting a Phi Beta Kappa in the subject because the results are obvious."

That was no football coach speaking, but Dr. John Erskine, an internationally known author and for 35 years professor of English at Columbia University. He was addressing a foreign language conference of 200 teachers and public school administrators sponsored by New York University.

Grapefruit and Oranges

Organized retailers who met in Washington to draft a program for distribution and increased consumption of this year's bumper crop of oranges and grapefruit may have taken a most significant step in modern selling.

For the distributors proposed a plan where handling and distribution costs be reduced in that such savings be applied toward lowering consumer prices and improvement of producer prices.

There were other important provisions such as the elimination of third grade fruit from shipments, the provision of a maximum mark-up of 25 per cent, the reduction of transportation charges, and a permanent board to advertise and merchandise the product.

But the vital part of the program was the willingness of the growers to share their bumper crop, the bounty of nature, with the ultimate consumer, the housewife, by reducing prices.

Retailers of the country will do well to watch this effort on the part of one industry to move a bumper crop for the ultimate advantage of everyone along the line, producer to consumer.

A Cleveland WPA worker told a judge WPA workers were in the habit of getting drunk while they were supposed to be at work. Stagger system, eh?

The old expression "I'd give my right eye . . ." is a tricky saying these days, the market for corneas being what it is.

That knocking at Hitler's door which he mistakes for opportunity is really the sheriff with some long overdue accounts.

Four fellows arrested in Cleveland with 400 pair of loaded dice may be expected to shoot their way out of jail.

Sleeping with the window open is reported to be good for insomnia. So for that matter is sleeping with the window shut.

JOHN T. FLYNN

NEW YORK, Dec. 1. — As the United States turns her eyes toward South America in search of what President Roosevelt calls American "continental solidarity," there is one danger which seems to be overlooked.

One of the commonest of human frailties is found in the perversion with which men flee from imaginary perils into the arms of real ones. At present an immense noise fills the ears about the German menace in South America. This is set up as a giant enemy to be met and conquered. And so much energy is developed to meet and overcome this ogre that we give no thought to the great serpent coiled in the bushes which is the real danger.

The trouble in our South American approach is to be found in our confusion of the terms "Nazism" and "Fascism." They are continually used interchangeably. Hence the discussion as to whether South America has gone Nazi or Fascist becomes obscured in a good deal of fog.

South America is not Nazi, is not going Nazi and probably never will. But South America is going Fascist.

Fascism represents a new approach to the solution of the difficulties of capitalism. It is a form of social government in which the state attempts to organize and plan and control the economic life of the people.

The essence of it is the division between the economic life and the purely political life. The latter is still entrusted to direct state servants, political officials and even a political legislature. The former—the economic life—is entrusted directly to the representatives of business organized into groups and empowered to make rules and regulations affecting production, prices, competition, investment, etc.

THE NECESSARY DICTATOR.

WHILE business groups thus organized exercise jurisdiction over these economic problems in the first place, they are subject, of course, to the veto or supervision or interference or domination in the last analysis of the state which is represented by a dictator. A dictator is essential to the operation of this system.

This dictator-governed, dual organization of the state into political and economic authorities in which democracy is rigidly excluded involves minute regimentation, regulation at every point, drastic enforcement, espionage, as an aid to enforcement, etc.

It involves the sacrifice of democracy to save the economic system, but oddly in practice ends

very quickly with the destruction of the economic system it set out to save.

This is not German or Italian, although the idea was first tried in Italy and has spread to Germany and other countries. In each case it originated within the country itself.

Nazism includes a Fascist form of government, but it is something essentially German. It includes, not only the Fascist government forms, but all those other racial, cultural, military and external policies which we associate with Hitler's regime.

This Nazism has made no headway in South America whatever. But Fascism is making immense headway there and promises to make still more.

Our real danger, therefore, in South America, arises not out of German penetration, but out of the drift of our southern sisters to Fascist forms of government.

If we enter into any sort of League of Nations of the West with South America we may well find before long that we are in a league with a whole group of Fascist states—states as violently opposed to Germany as we are, but operated upon the Fascist model.

Wage-Hour Law No Bother to Students

DALLAS (AP)—The new wage-hour law has had practically no effect on Dallas high school students who work after classes and week-ends, said Miss Katherine Ball, supervisor of the student placement bureau at Dallas Technical High School. With the legislation in effect for several weeks, only a few students have lost their jobs because of the new regulations and business men have made practically no calls for additional help other than that ordinarily requested at the Christmas buying season.

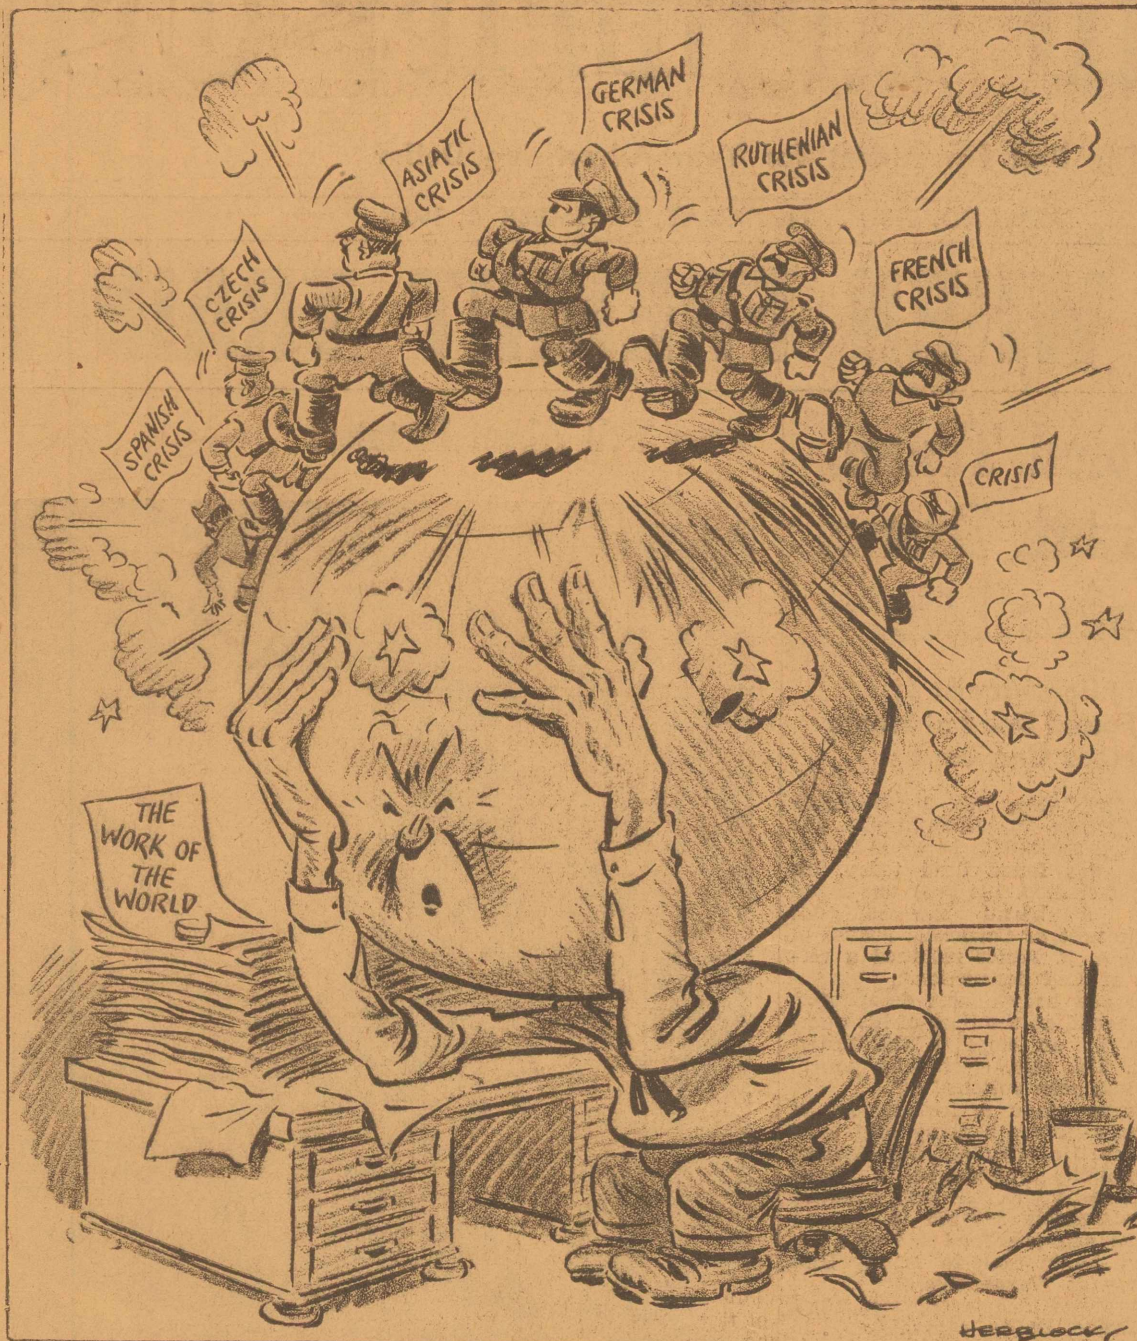

"I expected the law to cause considerable need for new workers," Miss Ball said. "But so far only telegraph messengers and newspaper carriers have been in additional demand."

More than 20 per cent of Technical High School's 2,500 enrollment hold one or more spare-time jobs this year as a result of the placement bureau activity, the new state part-time vocational training plan, or as assistant to their parents.

Pedigree Falls Cat.

SAINT JOHN, N. B. (AP)—Emery Colwell, poultry fancier, was justified in killing a prize-winning cat, owned by neighbor Edward Craig, when he found it stealing a chicken. That was Magistrate G. Earle Logan's decision.

'Boy, Do I Have Headaches!'

The Capitol Jigsaw

By Howard Marshall
Associated Press Writer

AUSTIN, Dec. 1. (AP)—Rep. Clinton Kersey of Bridgeport advocates steps to curb what he asserts is the dumping of Oklahoma coal in Texas at less than cost of production prices.

In Austin recently he said he might urge the legislature which meets in January to levy a retaliatory tax on such coal.

Oklahoma, he said, taxes out-of-state coal \$1.20 a ton, and as a result, Oklahoma mines are able to sell in that state for a good profit and dispose of their surplus in states like Texas which do not tax imported coal.

Coal mines in his district had been forced to shut down because of loss of markets, Kersey said, adding he could see no way for them to continue operations except with the aid of a retaliatory tax.

An oak forest is being shipped in to Austin by H. J. Litcher Stark of Orange, wealthy lumberman and regent of the University of Texas.

Four carloads of oak trees so large a crane was used to unload them arrived recently from Orange for re-planting at Stark's new estate in Austin and more are to come. Between 1,400 and 1,500 trees and shrubs will have a place in the landscaping.

Neither of two first primary opponents who supported him in the run-off will be assistants to Gerald C. Mann when he becomes Attorney General.

R. W. (Bob) Calvert declined to accept an assistant attorney generalship with the statement he would continue to practice law in his home town of Hillsboro.

Ralph W. Yarborough of Austin, who also could have been an assistant attorney general if he had wished, has returned to his duties as a Travis county district judge. It is understood he plans resuming practice on expiration of his term on the bench.

Lewis B. Goodrich of Shamrock, also eliminated in the first primary, supported Walter F. Woodul of Houston in the runoff.

More than 26,000 persons, including 9,000 in Austin, visited the O'Henry Memorial Museum here in the first 10 months of this year. In October visitors included 251 from 70 Texas towns, 79 from Austin, 10 from Missouri and one from the Hague, Holland. There also were registrants from eight other states.

house in which O'Henry (William Sidney Porter) lived for a time when he was a resident of Austin.

Located in a city park, it contains some furniture used by the Porter family and various household articles of the period.

Rep. Emmett Morse of Houston, sole remaining candidate for the speakership of the next house of representatives, drifted into the press on the second floor of the capitol.

"I know a couple of persons who are looking for jobs," called a press correspondent.

"I'll trade you a couple," Morse countered.

"Why, you don't mean there are lots of people looking for jobs with the legislature?" another correspondent cried.

Morse grinned.

"Say," he said, "from now on I'm in favor of civil service."

State police recently saw a demonstration of a machine gun operated by electricity from a motorcycle. It is the invention of C. A. Stockholm.

Mounted on the handlebars of a motorcycle, the gun is intended to permit the rider to fire at a fugitive without releasing his hold on the handgrips. A firing button may be operated with the right forefinger.

The gun will shoot at the rate of 480 rounds a minute, when used as an automatic, or it can be fired in single shots. It can be aimed by

Christmas Plans Discussed by Robyn Club

Plans for a Christmas tree at the studio, a Christmas program to which mothers will be invited, and the preparation of a box of Christmas confections and fruits for underprivileged children were discussed at the meeting of the Robyn club of the Watson school of music at the studio, 210 W. Ohio, Wednesday afternoon.

A clever chalk talk by Ned Watson and a musical story by Miss Lydie Watson were special features of the afternoon's program.

Following were the numbers presented by the children:

Guitar solo — Doyle DeArman.

Piano solo — "Maytime Fragrance, Opus 150" (Nolck) — Pauline Wingo.

Piano solo — "O Sole Mio" — Alberta Smith.

Talk — "Story of Beethoven" — Dorothy Lynch.

Piano solo — "An Old English Dance" (Smith) — Virginia Counsell.

Birthdays greetings were extended to Joyce Vaughan, and Edith Rae Collins.

Meeting was called to order by the president, Elaine Hedrick, with Alberta Smith as secretary.

Virginia Counsell and Alberta Smith presided at the attendance card.

Guests were Edna Roberts, Sylvia Holman, and Leora Mann.

SIMPLE DATE CONFECTION

Pit dates, stuff with peanut butter and roll in granulated sugar. If the peanut butter is too soft to handle easily, add enough confectioner's sugar to form a stiff paste.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germs.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Two Discuss England on Club Program Wednesday

Talks on England by Miss Lucile Thomas and Mrs. Frank Miller composed the program of the Junior Woman's Wednesday club meeting with Mrs. W. M. Blevins, 807 W. Kansas, Wednesday afternoon.

Miss Thomas, who visited England during a European tour last summer, discussed London and showed moving pictures she made during her trip.

Mrs. Frank Miller described rural England.

Guests were Mrs. J. Pitzer and an associate member, Mrs. E. I. Bailey.

Members attending were Mmes. Ben Black, Ralph Geisler, Barron Kidd, Miller, Donald M. Oliver, Alfred A. Reese, John M. Speed Jr., Louis Thomas, Hugh A. West, Jack Wilkinson, Miss Georgia Goss, Miss Thomas, and the hostess.

Myrna Getting Divorce From "Wife" Roles

Myrna Loy is suing for divorce. But don't misunderstand her. The kind of divorce that Miss Loy is seeking is a divorce from too many roles in a motion picture career. "I have not reached the decision that too many of them is detrimental in a motion picture career," declared the popular actress in a recent interview.

"As a diversion, I enjoy roles that permit me to be a little naughty and pugnacious as my present one with Clark Gable in 'Too Hot to Handle' permits me to be. In it I am a tomboy, a devil-may-care woman flier who enjoys a good fight and gets into several of them before the picture comes to an end."

Among Miss Loy's tomboyish escapades in "Too Hot to Handle" are the crashing of her plane as it arrives in China, flying Gable through a night fog to make a newsreel of a burning liner at sea, rescuing her brother from a savage tribe in the South American jungles and getting tangled up in a New York gang war.

FROM STANTON

Mrs. J. P. Boyd and Mrs. Ed Millhollen of Stanton were visitors in Midland Wednesday.

FEMININE FANCIES

By Kathleen Eiland

House robes, in infinite variety of styles, are always good news to the giver seeking really nice gifts and to the receiver.

There are new ones in white polka-dots on a solid color ground shirt-waist trend in simplicity of design. They even flaunt a neat white chiffon hanky in a breast pocket to further the tailored effect.

Very pretty and soft looking are the robes, made in conventional style, of a new rayon fabric with a soft pile surface and tracery design which makes it somewhat resemble chenille. The colors are solid ones in attractive shades.

And speaking of chenille—this fabric which a few months ago came into new popularity as a material for housecoats is now used, not only for the coats but for bed jackets, pajamas and even for the "scarfs" which are merely cut-down house slippers.

A nice Christmas idea would be to select a robe, jacket or pajamas, add scarfs in matching color for solem one. High school and college girls would be ecstatic, we predict, over finding such a package in the traditional stocking, while young matrons, and older ones, too, would be just as truly, if not as vocally, delighted.

If you go in for luxury, there's a delicate robe in white wool with a trim of pastel embroidery which is bound to everyone concerned—except the one who pays the cleaner's bills.

Gold and silver come to town in mesh belts to brighten up black or dark-hued frocks. One particularly pretty belt is made of gold threads woven into a flexible band with a gold edging to give it strength and stability.

If one of the junior members of the family is expecting a birthday party soon, you will be interested in the new cake decorations now on sale.

Made of pure sugar, these boast a whole menagerie of wee circus animals including the elephant and the camel and their four-footed brethren. Just right for a little boy's candle-light cake.

Then there are tiny figures of boys and girls in all sorts of gay poses, which will make most any kind of cake into a glorified "party" one.

And of course, there are little birds and various kinds of flowers, if a more conventional cake decoration is desired.

Wrapping Christmas packages can't be the task it used to be—what with all the gorgeous papers, ribbons, and what-nots advertised for doing it. For the wrapper-upper whose fingers are mostly thumbs (as our are) there is first aid in neatly-tied bows and tinsel-and-colored decorations which come all ready to put on top of the box as the finishing touch.

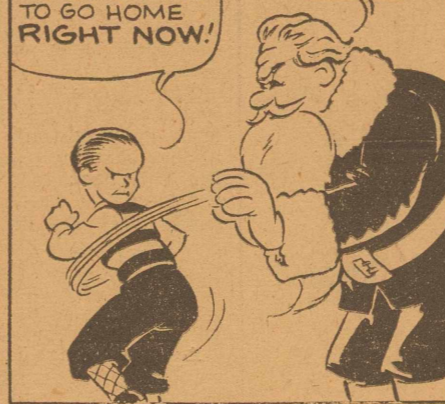

SOFT BRUSH FOR SUEDE
Use a soft hair brush for freshening suede. Harsh, stiff brushes tend to destroy the velvety nap.

BOBBY'S CHRISTMAS DREAM

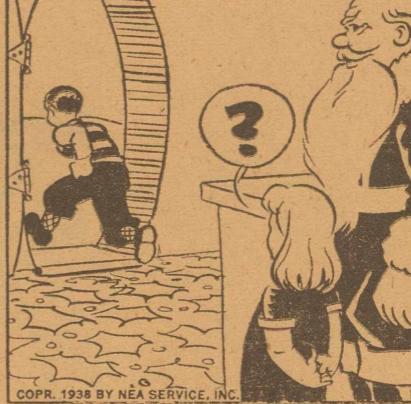

YOU MAY AS WELL KNOW THAT EVERYBODY IN TOYLAND EARNS HIS CHRISTMAS PRESENTS. THE MORE YOU WORK, THE MORE YOU GET... AND I OF HELP!

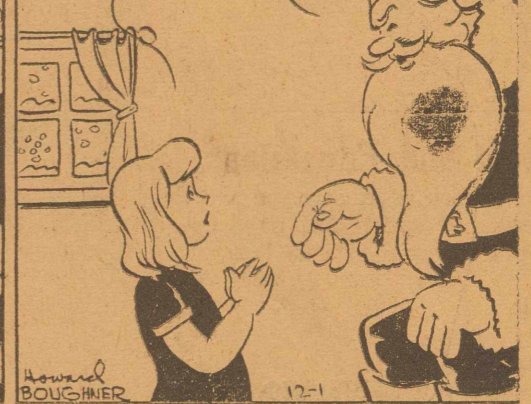

I NEVER HAVE TO WORK AT HOME... AND I DON'T WORK HERE. I WANT TO GO HOME RIGHT NOW!

WHAT A FOOLISH BOY!

WHY... WHY... I SHOULD SAY YOU CAN!

Far West Federation to Hold Its Semi-Annual Convention Here Friday

Midland clubs which are members of the Far West Federation will be hosts to the semi-annual meeting of the organization here Friday, the convention opening at 10 o'clock.

The public is invited to attend the sessions and particularly urged to hear the addresses by Mrs. William Dingus and Mrs. H. W. Morelock between 11 o'clock and noon.

All clubwomen of the town are invited to attend the luncheon at the Crystal ballroom of Hotel Scharbauer tomorrow at one o'clock and should see Mrs. W. T. Walsh for reservations.

Besides Mrs. Dingus, well-known speaker and member of the Foreign Language department at Texas Tech and Mrs. Morelock, prominent club leader and president of the Eighth District Federation, other active clubwomen will be present from out-of-town including Mrs. H. Y. Casey of Pecos, past president of the Eighth district, and Mrs. Lucky of Balmorhea, president of the Far West Federation.

Sponsors of the meeting here urge that a large attendance of Midland women be present for the sessions. The program for the day follows:

10:00 — Meeting called to order at Presbyterian church by Mrs. Lucky, President of the Far West Federation.

Greeting — Mrs. Geo. Glass, president of Women's Wednesday club.

Response — Mrs. Bell of Pecos. Assembly song — "Texas, My Texas" — led by Mrs. M. A. Park.

Reading of Collect — Mrs. F. C. Cummings, leader.

Business session. Music — String ensemble of Watson school of music.

Introduction of Mrs. Dingus — Mrs. John A. Haley.

Address — "Threats to American Ideals" — Mrs. William Dingus, Lubbock.

Organ solo — Mrs. Frank Elliott. Introduction of Mrs. Morelock — Mrs. W. T. Walsh, vice-president of Far West Federation.

Address — Mrs. H. W. Morelock, Alpine.

Adjournment. 1:00 — Luncheon in Crystal ballroom, Hotel Scharbauer, Miss Lydie G. Watson, toastmaster.

Invocation — Mrs. John A. Haley. 2:00 — Business session called to order by Mrs. Lucky.

Election of officers. Adjournment.

Mrs. Mills Reviews Booklet Before Home Art Club

A booklet review on "Floor Coverings" was presented by Mrs. John B. Mills at the program for the meeting of the Home Art club with Mrs. M. D. Cox, 611 N. Colorado, Wednesday afternoon.

Sewing and a special period occupied the remainder of the afternoon, refreshments being served at the tea hour.

Three guests, Mrs. W. A. Sherrod, Mrs. Eula Mahoney, and Mrs. T. J. Potter, were present.

Plans were made for the club Christmas party to be held at the home of Mrs. Mills, December 16.

Club members present yesterday were: Mmes. Ernest Neill, N. W. Bigham, John Dunagan, Garth Neill, B. C. Girdley, B. W. Reecer, Paul Filson, and the hostess.

USE UNBROKEN CRUST

When baking custard pie, be sure that there are no breaks in the crust before the filling is added, lest when the pie is removed from the oven, the crust be on top, the filling underneath.

FRIVOLOUS FEATHERS

For an utterly frivolous evening, you might like to consider a gay, whimsical feather headress and tiny matching feather muff. Of coque feathers or curled ostrich in black and white and the season's high shades.

For Bronchial Coughs, Colds

You Can't Go Wrong On Buckley's Mixture

One little sip and the ordinary cough is eased—a few doses and that tough old hang-on cough is "on its way"—it's really wonderful to watch how speedily hard lingering colds respond to Buckley's. Right away that tightness begins to loosen up—the bronchial passages clear—you're on your toes again and breathing easier. Get Buckley's—by far the largest selling cough medicine in all cold Canada—Costs but little at druggists everywhere. City Drug Store, Taylor Pharmacy. (Adv.)

Mrs. R. L. Bailey Entertains With Three-Table Party

Three tables were appointed for bridge games when Mrs. R. L. Bailey, 1101 W. Indiana, entertained for the Slam club and a trio of guests Wednesday afternoon at 2 o'clock.

Prizes in play went to Mrs. Joe Dobson for high score among club members, to Mrs. Robert King for second high, to Mrs. D. W. McCormick for high score guest, and to Mrs. L. H. Wheeler for traveling prize.

A party plate was served at tea three following the games.

Guests present were Mmes. Wheeler, A. M. McClintock, McCormick, Mrs. Cecil Pope was a new member present. Other members attending were: Mmes. E. M. Bryan, O. J. Battell, Dobson, Theo Ferguson, E. L. Jones, King, R. R. Richter, T. W. Taylor, and the hostess.

Next Wednesday the club will meet with Mrs. Ferguson at 513 W. Wall.

Letters to Santa Claus

Dear Santa:
I would like for you to bring me a Mexican doll and a set of dishes.

WINNING PLAYS OF 1938

Pitt Punt Protection Fails as Duke Upsets Panthers, 7-0

BY ART KRENZ, NEA Service Sports Writer.

PITT kicks from an unbalanced punt formation... one of the few teams in the country to do so... and the set-up boomeranged on the Panthers when they lost to Duke 7-0.

The left tackle pulls over and plays about three yards outside the right tackle. The right end plays about three yards outside him. Thus does Jock Sutherland hope to widen the defense and gain more

protection on the side of his punter's kicking leg.

The Pitt backs play in a straight line about a yard behind scrimmage. The left half is stationed in the gap between left end and guard, the fullback goes behind the right guard and the right half and left tackles.

In the Duke game, Bill Daddio, Pitt left end, apparently was more concerned about covering the kick than checking the Blue Devil end—his normal assignment, and his

lapse possibly cost the Panthers the game.

With Pitt punting from its own end zone, Willard Perdue, Duke end, romped into the Panther backfield unmolested while they were busy blocking out the Blue Devil middle linemen, and stopped Chickerno's kick with his shoulder. Then Perdue rushed to fall on the ball in the end zone for the touchdown.

favor for the Frogs are Todd of A. & M. and Schuele of Rice in the backfield; Boyd of A. & M. at tackle; and Dowell of S. M. U. and Boyd of Baylor at the end positions.

Coach Dutch Meyers' conference champions, for the first all-opponent eleven, named three Baylor players, two from A. & M. and one each from S. M. U., Texas, Arkansas, Rice, Tulsa and Centenary.

On the second team the Frogs put three Texas men, two from S. M. U. and one each from Baylor, Rice, A. & M., Tulsa, Temple and Centenary.

The two teams combined include four players each from Baylor and Texas; three each from S. M. U. and A. & M.; two each from Tulsa, Rice and Centenary; and one each from Arkansas and Temple.

The two all-opponent elevens as named by T. C. U.:

First Team
 ENDS: Boyd, Baylor; Dowell, S. M. U.
 TACKLES: Boyd, A. & M.; Thomas, Tulsa.
 GUARDS: Rhodes, Texas; Landry, Rice.
 CENTER: Nelson, Baylor.
 QUARTER: Patterson, Baylor.
 HALVES: Todd, A. & M.; Eskin, Arkansas.
 FULL: Schuele, Rice.

Second Team
 ENDS: Peterson, Texas; McKibben, Texas.
 TACKLES: Meyers, Texas; J. Sanders, SMU.
 GUARDS: G. Sanders, SMU; Akin, Baylor.
 CENTER: Woodell, Rice.
 QUARTER: Davis, Texas.
 HALVES: Lukac, Temple; Bynum, Centenary.
 FULL: Kimbrough, A. & M.

Care of a baby is a full-time job for 5 hours and 41 minutes every day, and a part-time job the rest of the day, it is estimated.

Duke Defense Inspired by Injury to Back

By HARRY GRAYSON, NEA Service Sports Editor.

DURHAM.—The Duke-Pittsburgh game will never be forgotten by any football-minded person who saw it. Never has the skill of one player so completely tied up a powerful grigiron machine.

Eric Tipton's exhibition of kicking perhaps was the greatest ever seen. He actually put English on the ball to make it roll the way he wanted it to roll. Forward, backward, right, or left, and out-of-bounds.

How Tipton did this with frozen hands and a slimy ball is no more of a mystery than how Dan Hill under the same conditions snipped the ball back to the Duke backs perfectly all afternoon. Not a single bad pass in a snow storm. Amazing.

They were the more remarkable stars of the remarkable Duke team which upset mighty Pittsburgh 7-0.

A club going through a nine-game major schedule unscored on in these days of dizzy football... where upsets are the rule and most anything can happen... is almost unbelievable. It would be a rarely accomplished feat had Duke played a string of old soldiers' homes. Age as such representative opponents as V. P. I., Davidson, Colgate, Georgia Tech, Wake Forest, North Carolina, Syracuse and its brilliant Wilmeth Sidat - Singh, North Carolina State, and Pittsburgh it is practically a miracle.

McAFEE'S LOSS BROUGHT CHANGE IN PLAN

I suppose teams went through seasons unscored on in the old days. Colgate was the last to do it... In 1932, but the Red Raiders schedule was not as tough as was the Duke program of this fall.

When Duke lost McAfee, around whom wily Wallace Wade hoped to build a blazing attack, the veteran coach told his players that there was nothing left to do but concentrate on defense. He realized that without George McAfee he lacked the speed to roll up large scores.

Their perfect record shows just how well the Duke tutor and his players built.

Duke answered Pitt's challenge right under the gun. The Panthers marched 71 yards on running plays. It was the first down on the Durham 10 and goal to go when the Blue Devils showed the Panthers and the crowd of 54,000 why their goal line was uncrossed in eight games.

Dick Cassiano was stopped off tackle by Leonard Darnell, the right end. Cassiano was thrown for no gain by Bob Spangler, the quarterback, in an attempt to sweep left end. Marshall Goldberg's pass intended for Bill Daddio fell incomplete in the end zone. Curley Stebbins was thrown for a two-yard loss at left end by Tipton.

Duke took the ball from mighty Pittsburgh on downs.

Only three teams were inside of Duke's 10-yard line all season.

COLGATE GAVE DUKE BIG SCORE

Colgate did not come close to threatening until the last four minutes of the game when, with Duke leading, 7-0, Hal Lube opened up with a series of phenomenal aerials. Lube faded far back, whirled, and threw one into the opposite flat to Herman, who took it to the one-yard line, where Bob Spangler forced him out of bounds.

Wilson hit the center of the line for two feet and it was second and a foot to go. Then Wilson, attempting to hand the ball to Lube on a quick line play, was hit by Frank Rife and Leonard Darnell and fumbled, Bob Spangler recovered for the Blue Devils on their three.

After punting out, Colgate came right back. They got a 15-yard penalty for holding which set them back to their 42, but Lube faded far back and shot a long one to Donnelly. The latter caught the ball in the clear on the Duke 30, but Spangler nailed him from behind on the three-yard line. Lube's pass to Coley in the end zone was incomplete. Herman hit the line for a yard, Lube, back to pass, was thrown for a 15-yard loss by Leonard Darnell. Lube's pass to

Eric Tipton

Coley was intercepted by Tipton on the Duke 27th. Two plays and the game was finished.

Wake Forest's threat also came in the final few minutes. The Demon Deacons started their march on their 42-yard line. Finally Tony Galovitch shot a pass down the middle to Fuller for a first down on the Duke eight-yard line. But Galovitch was thrown for a four-yard loss at left end by Harry Welch, sub quarterback. On the next play, Fuller fumbled, and Bobo Perdue recovered on Duke 17.

BLUE DEVIL LINE STANDS FAST

Wade started his second team and late in the first quarter Roger Robinson, substitute fullback, fumbled and North Carolina State recovered on the Duke 18. Wade immediately sent in his first team, but before they could get warmed up State reeled off a first down to the Duke six. Pavlovsky got two at center, Rooney picked up three at right guard, and then Rooney skirted right end for a first down on the Duke six.

On the first play, Pavlovsky hit left tackle for three yards to the Duke three-yard line. He tried again at the same spot, but was stopped for no gain. Sabolyk tried at right end, but was tossed for a two-yard loss. Pavlovsky was dropped for a two-yard loss at the center of the line and Duke took over on its seven.

GADGET TO AID DISHWASHING

Dishwashing three times a day can become less of a chore if eased by time and labor saving equipment. An inexpensive spray with attached soap cup plugged to the hot water faucet releases a plentiful bath of foamy suds over the soiled dishes. Pressure of a small device above the soap cup cuts off the suds and releases a rinse of clear water. Then if you use a rubber covered dish drainer, the whole operation is over in practically no time at all with a minimum of wear on the hands.

Willard Perdue

Greatly instrumental in Duke's smashing 7-0 victory over Pitt were Eric (The Red) Tipton, right, whose exhibition of punting against the Panthers was termed by experts as one of the best ever seen in Dixie, and Willard (Bobo) Perdue, Duke end, who blocked a Pitt punt and fell on the ball in the end zone for the game's only touchdown.

Aldrich, O'Brien Most Valuable in SW, Scribes Say

HOUSTON, Dec. 1. (P.) — Davey O'Brien, 150-pound sparkplug quarterback of the Texas Christian University championship team, and Kl Aldrich, kingpin of the Frog strong defensive unit, were named the most valuable football players in the Southwest Conference for 1938 by sports writers in the seven conference cities Wednesday.

The Horned Frog stars made a runaway of the race and will receive the Houston Post trophies when the team is honored at the annual banquet to be held in Fort Worth.

Aldrich was the unanimous choice of the sports writers. O'Brien missed unanimously by a single vote, polling 34 out of a possible 35.

Dick Todd, Texas A. and M., was runner-up to O'Brien, receiving six votes for second place and one for first. Wallace Lawson, Texas, was third.

Jim Rhodes, Texas, finished second to Aldrich with Joe Boyd, Texas A. & M., and Sam Boyd, Baylor, out. Billy Patterson was the winner of the most valuable backfield award last year and as a result was not eligible for the trophy.

FCC Pays Tribute To Retiring Texan

WASHINGTON (AP)—The Federal Commission paid tribute recently to a native Texan for long service with the government.

The man was William V. King, who voluntarily retired Aug. 16 as chief accountant of the commission, a position he had held since 1920. He had been in active government service 30 years.

Acting chairman Claude L. Draper of the commission was present at a ceremony in which King was presented with an illustrated copy of a resolution setting forth the Commission's appreciation of his service.

A native of Wolf City, King went to work for the government in 1909 in the Interstate Commerce Commission.

Fox tails once were used as handkerchiefs.

Frogs Unanimously Select Patterson As Quarterback on All-Opponent Team

FORT WORTH.—Bill Patterson, Baylor's bullet passer, ranks tops with the Horned Frog eleven of 1938. Billy was a unanimous choice for a backfield position on T. C. U.'s all-opponent team named today.

He was the only opponent to get a vote from every Frog.

Several other players, however, led the field by many votes in the balloting for their positions. Among those who held a wide margin of

Former Rockefeller Estate Gets Public Scrutiny
 CLEVELAND, O. (U.P.)—Forest Hills Park, a recreation area given to the citizens of suburban East Cleveland by John D. Rockefeller, Jr., has been opened to the public to permit voters to decide for themselves whether to approve an \$88,000 bond issues for the improvement of the plot.
 Visitors are told by WPA workmen and foremen that the bond issue is all that is necessary to get a \$2,000,000 WPA project under way which will put to work 2,000 men. The project calls for the completion of a lake for skating and boating, for landscaping of the plot, and for the construction of athletic fields and tennis courts.
 The land once was part of the Rockefeller estate and contains the golf course on which John D. Rockefeller, Sr., played.

10—Bedrooms

White Collars in Stock Yards

When stock handlers went on strike, C. R. Rice, president of the Chicago Livestock Exchange, shown above doing his bit, went into pens with other white collar workers to clear out animals.

Mother and Children Build Eight-Story House

AMBOY, O. (U.P.)—Mrs. Nellie Schlaich, who can drive a nail or saw a board "as well as any man," is building her own home near here.
 Since her husband died before he had completed the home they were building, Mrs. Schlaich has done the work, aided only by her children.
 Clad in overall, the woman carpenter works on the eight-room structure, which her husband began two years ago.
 "I don't see why a woman isn't just as capable of building a house as a man," she said. "Of course, men are more suited to handling heavy timbers, but a woman can

saw and plane just as well." Mrs. Schlaich's children, Teddy, 19, Tom, 15, Robert, 10, and even 7-year-old Donald, help her with the housebuilding, the milking of their two cows and the caring for the chickens and a large garden.

Terracing Allows Farmer to Make Crop

LITTLEFIELD (U.P.)—Terraces and contour tillage made possible the production of good crops on my farm with only three and a half inches of rainfall in the growing season this year because moisture from the heavy rains of last year was stored in the subsoil," says J. H. Hureska. He owns and operates a 177-acre farm near here.
 "If my land had not been terraced and farmed on the contour, I probably would have made no crop at all this year."
 When Hureska decided to adopt a soil and moisture conservation program in cooperation with the Soil Conservation Service CCC camp at Littlefield in 1936, his land was being damaged by wind erosion and there was considerable gullying and sheet erosion.
 First, he abandoned straight-row methods of tillage and the practice of planting his field solid to cotton. Terraces were constructed to hold most of the water where it fell and crops were planted on the contour. Sudan grass was planted on the terraces to strengthen the structures and prevent blowing. The field then was strip cropped, 4 rows of cotton being alternated with 12 rows of grain sorghums.
 As a result Hureska harvested a bumper crop in 1937, 60,000 cotton yielding 91 bales from 125 acres and the sorghum strips producing a ton of threshed grain to the acre.
 "This year, only three and a half inches of rain fell after I planted my cotton," Hureska said. "Moisture stored in the soil from rain the previous year resulted in a uniform stand of high grade cotton. Despite the low rainfall in the growing season, I have harvested around a half bale of cotton and three-fourths of a ton of grain to the acre. Erosion on my farm has been checked because I head the sorghums by hand leaving a good stubble which furnishes protection against blowing in the alternate cotton strips."
 Hureska also planted a tree windbreak around his home in the spring

Traffic Death Rate Slowed Up in State

AUSTIN, Dec. 1.—The lives of three hundred eleven motorists in Texas were saved during the first ten months of this year as compared to the same period last year, State Police announced today.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

for the year to 1,278 with a mounting toll expected during November and December.

Although there were 100 more crashes this October than in the same month of 1937, there were 29 fewer deaths.

Even the most skillful and physically fit drivers, passengers, pedestrians are unable to survive crashes at high speeds.

Bodily injury marked almost every collision reported in October, records of the safety department revealed.

riders were involved in accidents of which number three died. Four motorists were killed at railroad crossing, one in collision with a horse drawn vehicle and two died after colliding with livestock at large on the highway.

Don't Be Surprised If You Meet a Fox; They Like This Area

Animal life in this part of West Texas is changing.

Ranchmen say it's because so many pastures have been fenced for sheep. A few years ago, anyone meeting a fox in this section would have thought it was lost from a circus.

Jay Floyd reports finding the sly foxes sleeping in hawk's nests, in the day time, finding no difficulty in climbing the large mesquite bushes to avail themselves of such refuge.

Opossum, coons, and bob-cats also are becoming common south-east of here. Their presence probably is accounted for also by the scarcity of coyotes in the sheep country.

Color of automobile license plates is determined by the motor vehicle commissioners of the individual states.

Pitt Coach Backed by Students

Jock Sutherland, left, University of Pittsburgh football coach, glances through a book containing the signatures of 4500 members of the student body, promising the Panther grid mentor support during the bitter controversy over Pitt's new policy of athletic "Puritanism."

Book Review Tickets Placed on Sale Today

Tickets are now on sale for the book review to be presented here Wednesday, Dec. 7, by Miss Evelyn Oppenheimer under auspices of the senior class of the high school.

Miss Oppenheimer, who has appeared in reviews here three times in the past two years, is to review "Fanny Kemble, A Passionate Victorian" by Margaret Armstrong.

The public is invited.

Pecos Rancher Dies Of Fall From Horse

PECOS, Dec. 1.—Beau Eisenwine, 31 resident here all of his life, died in a local hospital Wednesday afternoon a few hours after his horse fell with him. His skull was fractured and neck broken.

Eisenwine was working cattle with Billy Prewit and Buck Jackson 10 miles south of here when the accident happened. He was born in Pecos and had been manager of the Eisenwine estate in recent years.

Surviving are the widow, a stepson, his mother, Mrs. Julius Eisenwine; three brothers, Norman and Tatum Eisenwine, both of Pecos, and J. W. Eisenwine, Kermit; and one sister, Mrs. Son Hendricks, Odessa; and other relatives in Menard County.

Members of local Boy Scout troops will assist in the staging of the annual Santa Claus parade here at 3:30 o'clock tomorrow afternoon, the Boy Scouts to assist in keeping the youngsters from getting too close to the pick-up in which Santa Claus will be riding. Other safety features will also be handled by the Boy Scouts.

Tenderfoot work will be given to new Boy Scout members at the Boy Scout headquarters this evening at seven o'clock, the work to be given under the direction of Buster Howard, Scoutmaster of Troop 54.

MELBOURNE, Australia (U.P.)—Australia's comeback from the depression manifests itself more and more every day. Local building permits for the past year were \$32,160,112, the highest for 10 years past.

OTTAWA (U.P.)—Roger Sarault, 16, probably will not ride his bicycle on the city sidewalks any more. He was brought into court on charges of riding his bicycle on the sidewalk in the Eastview section of the city.

SAN DIEGO, Cal (U.P.)—It cost L. B. Cossage, 22-year-old sailor, \$75 to see the "big red fire engines."

LIBERTY, Md. (U.P.)—William Jewell College will observe the 60-year teaching career of Dr. John P. Fruit, professor of English, in December.

CARMEL, Cal. (U.P.)—State highway officials have found it necessary to post warning signs along the new Carmel-San Simeon coast highway, reading: "Beware of Deer."

AMERICAN BOY MAGAZINE COMPANION TO THOUSANDS Teachers, librarians, parents, leaders of boys' clubs and hundreds of thousands of boys, themselves, enthusiastically recommend THE AMERICAN BOY Magazine for all boys over twelve.

SWEETHEARTS

Adapted from the METRO-GOLDWYN-MAYER Picture by GERTRUDE GELBIN

SYNOPSIS: Gwen Marlowe and Ernest Lane have starred for six years in "Sweethearts." Married and deeply in love they never have a moment together, thanks to the demands made by Felix Lehman, their producer, and by their large collection of relatives. Gwen and Ernest long for less time-light and a little quiet. To get away from it all, they decide to sign a picture contract with Norman Trumpett, movie mogul.

NOW READ CHAPTER FOUR—BELOW

"Remember! I'm not going to Hollywood."

"I'll need dozens of these for Hollywood."

"I don't know what your grandmother would think."

"He's signing my kiddies for a lifetime!"

The next morning, Gwen (Jeanette MacDonald) and Ernest (Nelson Eddy) break the news to their secretary, Kay (Florence Rice) and to Felix Lehman (Frank Morgan) that they're going to Hollywood. Kay wishes them luck, but tells them they'll have to get another secretary. She'd be lost any place outside of New York. Felix prays that Kay can influence his stars to feel the same way about it—but he soon discovers he hasn't a chance. All Gwen and Ernest want out of life is an orange ranch in the movie colony.

When Felix realizes they really mean it, he stages, first, a collapse, and second, a soul-stirring scene in which he pleads that he's a lonely old man—that he loves them as if they were his very own kiddies. But Gwen and Ernest know all his tricks. He's used them for six years to make them go through with the endless ballyhoo stunts he's worked for "Sweethearts." This time none of his antics have effect. Gwen and Ernest are adamant. They are going to Hollywood.

Gwen sets out on a shopping orgy, buying dozens of everything she'll need for every minute of the day in Hollywood. Ernest and Kay set to work cleaning up correspondence and last minute details. When Felix learns that even the hysterics of their joint families have failed to stop them, he knows the worst has come. He faces facts: he's losing his stars, and "Sweethearts," the show that has broken all Broadway records for six years, will have to close.

All he wants is some corner in which to brood! But Trumpett (Reginald Gardiner) phones him to taunt him with the news that the contracts are ready to be signed. Felix summons his staff, Leo, his librettist (Mischa Auer) has a brainstorm. Hollywood wants Ernest and Gwen as a team—but wouldn't want either of them alone. He has a plan, taken right from the plot of one of his plays, for separating Gwen and Ernest. Felix agrees that anything—even a plot written by Leo—is worth trying. Read the next chapter.

Industrial Recovery in Country Felt Lighter in Texas Than Most States

Up to the present time Texas has not shared appreciably in the marked improvement in industry and trade which has been noted for the United States as a whole. On the other hand when the sharp decline in business and industrial activity occurred last fall in the North and East, Texas business activity was slow to follow the downward trend; and the decline from the peak levels of 1937 has during the entire business recession been relatively moderate compared with that of the country at large. Among the reasons for this situation are the dominance of the oil industry in the economic structure of Texas which is comparatively stable and the large number of small industries in the State which are not so seriously affected by a National depression as the mass production industries of the North and East unless the depression is quite prolonged. Indications point to a more favorable business trend in Texas during the months immediately ahead, although October made a poor showing both in comparison with the preceding month and the corresponding month last year.

The composite index for October was 92.7 compared with 95.6 in September and 100.8 during October last year, declines of 3 per cent and 6 per cent respectively from these two comparable months.

The principal factors causing the decline were the sharp drop in department store sales and miscellaneous freight carloadings—the index of the former having dropped 14 per cent from September and 9 per cent from October last year, and of the latter 4 per cent and 19 per cent respectively.

All of the standard national business indexes have for some weeks been showing consistent gains, and current activity in a few major lines of industry is making a favorable comparison with the corresponding period a year ago. Barron's business index adjusted for long time trend and for seasonal influences has risen from 50 last March to 72.4 on November 14, an increase of more than 44 per cent. The Iron Age index of Capital Goods activity has been registering consistent gains since the early part of June, and on November had reached a figure well above that of the corresponding date last year. The Iron Age Capital Goods index on November 5 stood at 74.7 compared with 72.2 a year ago. In comparison with 1929, however, when Barron's index registered 115 and The Iron Age, 113, current business and industrial activity still has a long way to go before reaching the pace attained ten years ago. Of the Capital Goods industries steel is emerging from the recession most rapidly, supported mainly thus far by the automobile and miscellaneous minor industries and government spending.

A number of factors is now exerting a powerful influence toward bringing about industrial and business improvement which, if it should get definitely under way, might well extend over a period of years. The money supply of the Nation, for example, has never been greater than at present and could support a volume of economic activity far above the present level. The problem is how to make this element work constructively. Activity in a number of basic industries, such as commercial and industrial building construction, manufacturing of railroad equipment, and plant expansion of public utilities, has been far below normal for several years. Catching up with deferred requirements along these lines will in itself furnish an important stimulus to the heavy industries once the more distant business outlook becomes clearer.

Another current influence of growing importance is the huge Government emergency spending program under the Works Progress

Administration, the Public Works Administration, Agricultural Adjustment Administration, and other Federal agencies. Soon these will be supplemented by a vastly increased program which will be gaining momentum when some of the others begin to decline.

From the political angle, too, the outlook gradually becomes more encouraging. Leaders of both major parties appear to recognize more and more the potency of middle class public opinion once the attention of this class becomes focused upon the fundamental socio-economic and political problems of the Nation. Industrial leaders, too, seem slowly but surely to be awakening to the fact that there are trustees and not absolute owners of the properties under the management and as such are charged with profound social responsibility. Above all, there appears to be a growing recognition among public-spirited citizens of all classes that unbiased facts clearly presented to the public constitute the best antidote against selfish propaganda and are the only sound foundation for a democracy.

Home Mortgages Continue to Gain

WASHINGTON. — Showing no slackening whatever in the American demand for home-financing funds, the monthly report of the Federal Home Loan Bank Board today announced that all types of savings, building and loan associations in the country increased their home mortgage loans in October by two per cent over the figures for September. October loans totaled \$72,931,000, as compared with \$71,647,000 the previous month.

Loans in October helped to maintain well the period of steady volume in the demand for home-financing funds which began in April this year. The figures, compiled by its Division of Research and Statistics, were regarded by officials of the Board as particularly good because there was no inclination on the part of the public to slacken their requests for funds even though winter was approaching.

Both home construction and home purchase loans exceed those for October, 1937. Construction financing by these thrift and home-financing institutions aggregated \$22,039,000 last month as compared with \$17,114,000 a year ago. Loans for purchases of homes mounted to \$24,677,000 in October, while the figure for October, 1937, was \$22,494,000.

The balance of the loans in October were as follows: refinancing of existing mortgages, \$12,913,000; reconditioning and repairing of homes, \$5,727,000; and other purposes, \$7,515,000.

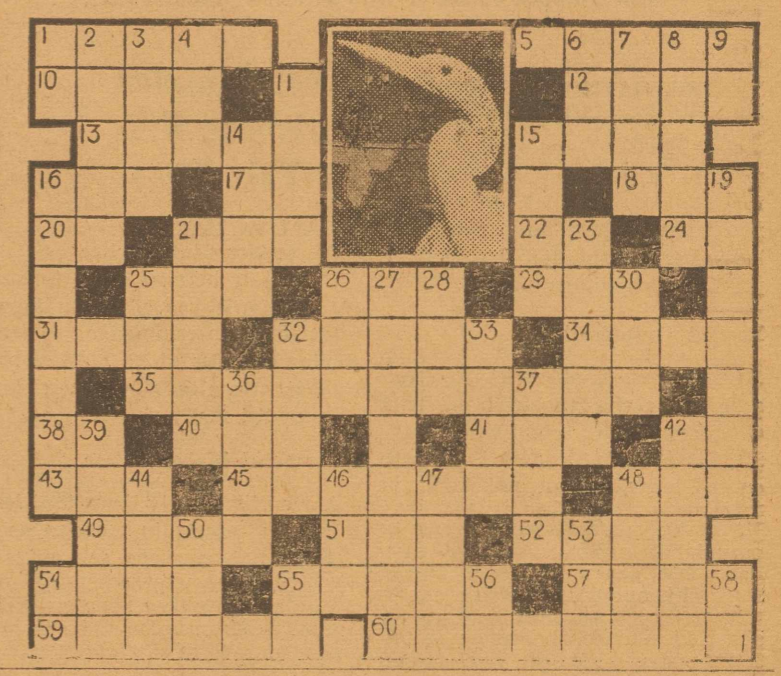

Of the total loaned for all purposes, state-chartered savings and loan association members of the Bank System led all other types of associations with \$30,546,000 during October, a 4 per cent increase over September. Federal savings and loan associations, with a total of \$26,634,000, had an increase of 3 per cent over September. State-chartered associations which are not members of the Federal Home Loan Bank System reported a decline of 5 per cent between the two months.

TO CLUB SESSION ON STRETCHER

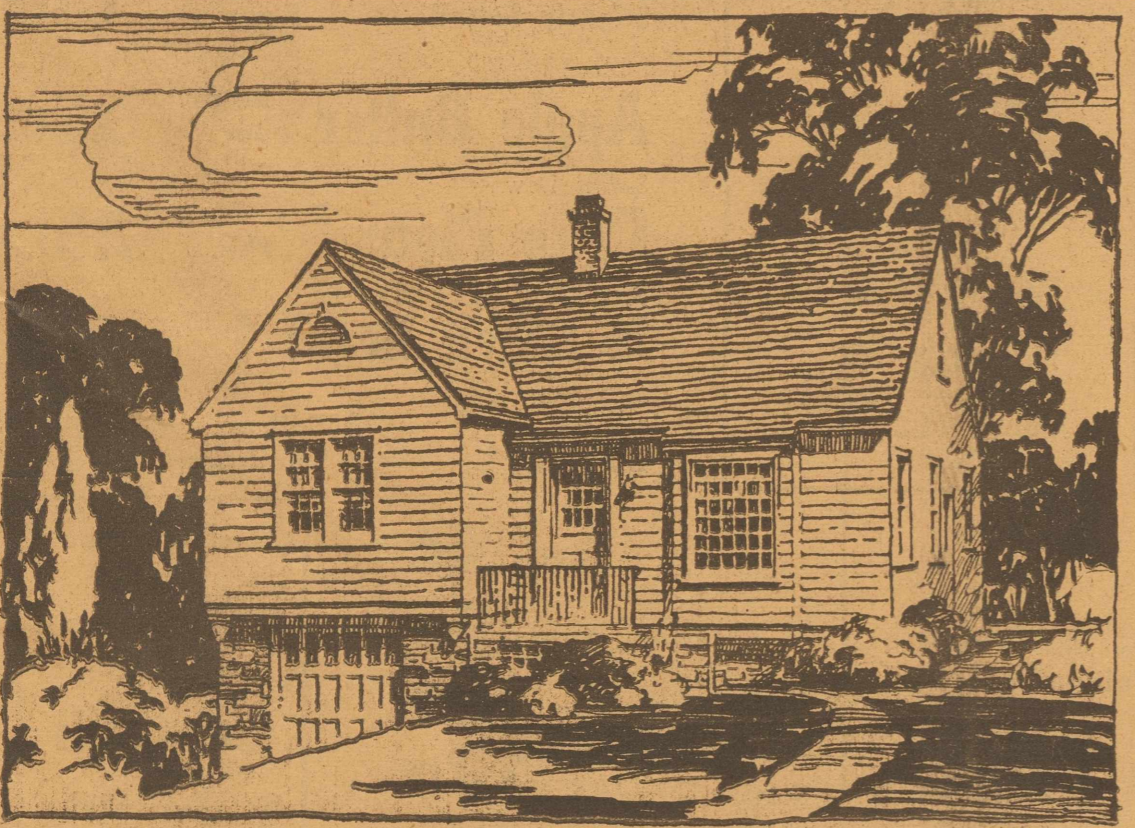

CRESCENT, Okla. (U.P.) — Every body reached the Crescent Women's Study club meeting before the hostess, Mrs. Oscar Brewster, but she had a good reason for being late. She was carried in on a stretcher with her arm in a cast. It was revealed that just before the first guest had arrived Mrs. Brewster fell from a chair, breaking her arm.

Broiled Grapefruit Dessert Is Easy As Pie to Make—And Justly Popular

Variations on the grapefruit pie theme—topped with hard sauce, with whipped cream or with softened peanut butter.

By MRS. GAYNOR MADDOX
NEA Service Staff Writer

GRAPEFRUIT—now in season—used to be a breakfast dish. Now it's all over the lot. Every year many readers ask for a recipe for broiled grapefruit. It's getting to be popular as a dinner dessert.

Broiled Grapefruit

Select smooth-skinned grapefruit and cut each grapefruit in half. Core and remove seeds. Loosen segments by cutting around them with curved knife, but do not take out membrane.

Sprinkle one tablespoon brown or granulated sugar on top of each half. Dot generously with butter. Dust with nutmeg if desired.

Heat through in medium oven for about 10 minutes, then place grapefruit under flame of broiler and allow to broil for 7 to 10 minutes, or until delicately browned. Serve immediately.

From Florida a reader sends this pie recipe. Tester, it proves its merit.

Two-Crust Grapefruit Pie

Five cups grapefruit segments, 1-4 cup brown sugar, 2 1-2 tablespoons flour, 1 teaspoon cinnamon, 1-2 teaspoon nutmeg, 1 tablespoon butter, pastry.

Line 9-inch pie pan with pastry. Mix brown sugar, flour, cinnamon and nutmeg. Place one half segments in pie pan. Sprinkle with half the sugar mixture. Repeat. Dot

MENU

BREAKFAST: Orange juice, scrambled eggs, fried ham, preserves, marmalade, wholewheat toast, coffee, milk.

DINNER: Noodle soup, radishes, weiner schnitzel, German fried potatoes, Brussels sprouts with chestnuts, mixed green salad bowl, two-crust grapefruit pie, hard sauce, coffee, milk.

SUPPER: Clear tomato bouillon in cups, crackers, celery root salad, baking powder biscuits, apple jelly, cocoanut layer cake, tea, milk.

with butter. Top with pastry. Bake in very hot oven (450 degrees F.) for 25 minutes.

Fancy Chicken Salad

(Serves 6)
And grapefruit also goes to bride luncheon parties.

Two cups cooked chicken (white meat), 1 cup celery, 2 tablespoons pimiento, 2 tablespoons green pepper, 3-4 teaspoon pepper, 1-2 cup mayonnaise, stuffed olives, 2 medium grapefruit sectioned, lettuce.

Dice chicken, celery, pimiento and green pepper and add salt, pepper and mayonnaise. Arrange lettuce in salad bowl with salad mixture in center. Garnish with ring of stuffed olives and grapefruit sections radiating like spokes of a wheel.

Lumber Production Shows Gain for Year

AUSTIN.—Lumber statistics during October were generally favorable, according to the Bureau of Business Research of The University of Texas. Reports from the Southern Pine Association show an increase of 4.4 per cent in production over October last year, and shipments were up 15.9 per cent; while unfilled orders on October 21 were 35.4 per cent greater than on the corresponding date last year. The gain in shipments from September to October was 8 per cent, and unfilled orders on the last of October were 29.5 per cent greater than a month earlier.

Postal Receipts of State Continue Gain

AUSTIN.—Throughout the business recession of the past year postal receipts in Texas have maintained consistent year to year gains, according to the Bureau of Business Research of The University of Texas. Although the margin of increase during October over the corresponding month last year was the narrowest thus far this year, it was, nevertheless, a gain, and the record of favorable comparisons remains unbroken.

Reports from 38 representative Texas cities show an increase in receipts during October of 6.2 per cent over September and a gain of 0.4 per cent over October last year.

Baylor Campus Is Highly Improved

WACO, Texas. (AP)—Approximately \$100,000 was expended on the Baylor university campus in improvements and additions, exclusive of two new buildings since Jan. 1, President Pat M. Neff told the Baylor faculty and trustees at a joint meeting.

In addition to the investment, the sum that has gone into faculty salaries annually increased \$53,470 over what was paid the faculty two years ago, and salaries of other employees on the campus increased \$6,397 per annum, he said.

Aside from regular campus improvements and additions for which the \$100,000 was spent, a \$175,000 physical education building was completed and an administration and classroom building is under construction.

Trustees, teachers and employees gave President Neff a standing vote of confidence and pledge cooperation in any plans he might have for the future. Motion for the vote was made by Prof. W. H. Pool, who has been associated with the institution longer than any other.

Core Cuttings Are Studied by Students

LUBBOCK. (AP)—Study of salt waters and core cuttings from oil wells, to identify strata through which the wells were drilled, is being made in Texas Tech's first course in quantitative spectrography. Made possible by loan of a spectrograph from the United States Bureau of Mines station at Amarillo, the course will attempt to identify oil-bearing formations by location of specific minerals found in the strata cuttings of various wells in the same region.

"The spectrograph is extremely accurate in the study of small quantities of chemical elements," Dr. W. L. Craig, chemistry professor in charge of the course, said. Light passes through these sets of quartz lenses and a double quartz prism in the spectrograph, and through one outside lens. The charting may greatly facilitate selection of drilling sites.

CLOVES ACT AS BAROMETER

SYDNEY, Australia (AP)—A family here has a novel barometer in the shape of a small model ship made entirely of cloves strung together by fine wire. The ship was brought from the cloves-producing center in the South Sea Islands. With every change of weather, the scent of the cloves changes. It becomes fainter or stronger according to the degree of dampness in the air.

"GAYWAY GALLOP" NEXT

SAN FRANCISCO (AP)—Jitter bugs are to get a new treat at the Golden Gate International Exposition. Betty Shayne and Dan Hecker, local specialists, are creating a new dance to be known as the "Gayway Gallop" for the exposition.

Don't Let Constipation Drag On!

Do you often have days when you wake up tired—when you feel dull, sink, "all bogged down"? It's time you do something about it. And something more than just taking a physic! You should get at the cause of the trouble!

If you eat what most people do—just bread, meat, potatoes—chances are that just this fact is responsible: you don't get enough "bulk." And "bulk" doesn't mean a lot of food, it means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines that helps a bowel movement.

If this is your trouble, what you need is crisp crunchy Kellogg's All-Bran for breakfast. It contains "bulk" plus Nature's great intestinal tonic, vitamin B₁. Eat it every day, drink plenty of water, and see if your old sparkle doesn't come back! Made by Kellogg in Battle Creek.

Order Initialed Christmas Gifts At This Time

By ALICIA HART NEA Service Staff Writer

It isn't a bit too early to shop for the Christmas gifts you intend to have monogrammed or to start finding out just which kind of perfume or cream or lotions the women on your list really prefer.

Waterproof Makeup Case

Among the beauty items that lend themselves nicely to monograms is a little flat envelope case of silk moire with waterproof lining and a tiny sachet pillow between lining and moire. Compartments inside provide separate spaces for compact, lipstick and comb. Any woman who is pretty weary of having to search through envelopes, pencils and other bottom-of-the-purse debris every time she wants to use her compact or lipstick will appreciate one of these. They come in all colors. Also nice are sachet lingerie cases in three sizes—for handkerchiefs, slips and nightgowns. And for the traveler, nothing possibly could be more appropriate than a stunning satin case into which a box of cleansing tissues fits neatly. The case keeps the box from getting soiled when packed in a suitcase. The woman who doesn't travel would like one of these to hang up in her bathroom or near her dressing table.

Gifts for a Hostess

For a guest room of your favorite hostess, consider a monogrammed silk or satin vase containing about a dozen small puffs of cotton in various colors. Or a silver monogrammed hand mirror in wood to match the dresser.

Stue to be appreciated, too, are a couple of exquisite handkerchiefs in a gayly printed silk handkerchief case that is simple to open and close. Or a set of bottles for the bedroom shelf. There are plain crystal ones on which monograms can be etched, an array of feather-light types in pastel shades and, newest of all, those covered with raffia and decorated with widely spaced polka dots in various colors.

A monogrammed travel case, completely equipped with all the beauty aids and cosmetics she'll need on a trip, is the gift de luxe for any woman, of course. And, for her husband, consider an unfitted case with waterproof lining into which he can put his own favorite toilet articles.

Where Forest Fires Swept Santa Monica Mountains

NEA Telephoto.

Roaring over a 200-square mile area of the Santa Monica mountains northwest of Los Angeles and Hollywood, forest fires are pictured in above telephoto at their height. Palatial mansions of movie stars, two of which can be seen upper left, were destroyed or threatened.

Tommies Are Alley Fighters

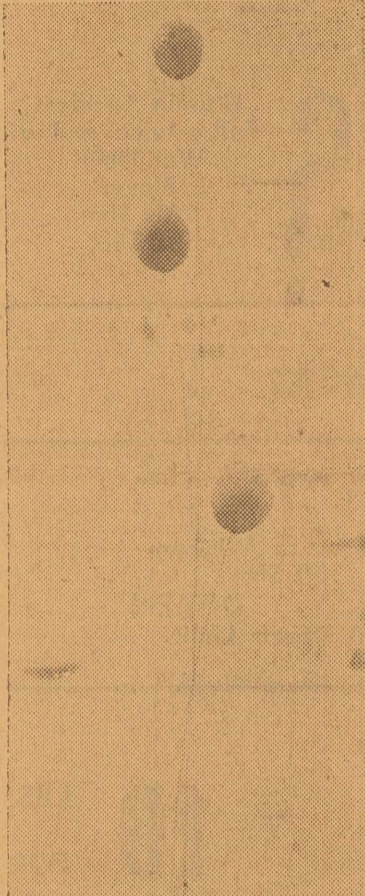

The twisting alleys and high walls of ancient Jerusalem make for a sniper's paradise and death lurks at every turn in the strife-ridden old city. Here two British machine-gunners, members of the "suicide squad," command an alley. They are among the 150 picked soldiers who remained to preserve order after Arabs were driven out by a mass movement of British troops.

Fired by Hitler but Gets Thanks

Col. Gen. Gerd von Runstedt, above, a regular army leader who stands well with the "professional" as contrasted with the "party" army in Germany, gave place to Gen. Fedor von Bock in the newest army shake-up, retiring with the thanks of Hitler, though he had disagreed with him over Czechoslovakia.

Robot Balloons Explore Sky

"Robot explorers," consisting of delicate instruments floated on a train of balloons, sailed nearly 13 miles into the stratosphere and sent back signals. These "reports" gave scientists of the Barbol Foundation of Franklin Institute, Philadelphia, valuable meteorological data.

Ready to Take Cabinet Post

Reported successor to Attorney General Homer S. Cummings, whose retirement is set for January, is youthful Solicitor General Robert H. Jackson, above.

Moving Up?

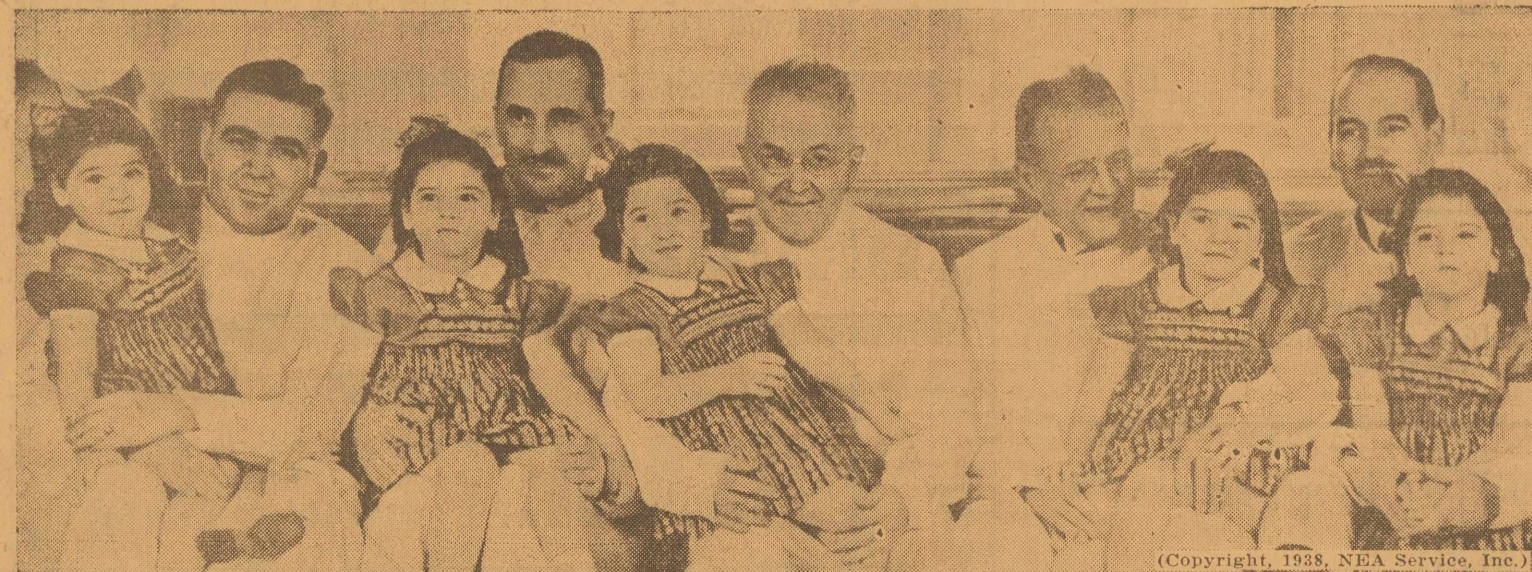

In line for chairmanship of the important House Rules Committee is 72-year-old Adolph J. Sabath, above, Illinois congressman who has represented his district 32 years.

Hopes Brazil Wants Wheat

Visit of Frank Theis of Kansas City, above, to Brazil to sell 15,000,000 bushels of wheat is seen as one phase of a concerted move to enlarge U. S. wheat markets abroad.

Dionnes Have No Hard Feelings for Doctors

Tonsils and adenoids, have they none, but pep and health—well, see for yourselves. Here are the Dionne quintuplets, fully recovered, in the laps of the five doctors who saw them through their recent operations: Left to right, Emilie and Dr. J. F. McCreary; Yvonne and Dr. E. S. Wishart; Marie and Dr. Allan Roy Datoe; Annette and Dr. Alan Brown; Cecile and Dr. C. H. Robson.

Sinclair Seals It With Kiss

Novelist Sinclair Lewis, more recently an actor, fervently kisses Actress Helen Hayes after Miss Hayes vouched for him when he applied for junior membership in Actors' Equity

Christmas Story Told in Faces

Christmas faces—fascinated by store window playlands and toylands. Faces . . . wistful, longing. Noses against windows . . . excited laughter of children . . . grownups, too . . . only how many more days for Christmas shopping?

Planning Corral for Trojan Horse

What else could Coach Elmer Layden, left, and Capt. Jim McGoldrick of Notre Dame be planning other than a corral for the Trojan warhorse of Southern California, which is all that stands between the Irish and their first unbeaten season and claim to the national championship since 1930? The teams drop the curtain on the football season in Los Angeles, Dec. 3.

Fight Milk Trust Suits

Posting federal bond after indictment on charges of violating Sherman anti-trust act by monopolistic practices in milk and ice cream industries are Dr. Herman N. Bundesen, right, president of Chicago Board of Health, and William J. Guerin, chief of the board's dairy inspection division.

Vatican From the Air

Palace of the Pope in Vatican City, Rome, is indicated by figure 2 and arrow in above aerial view. No. 1 is the great dome of the Basilica of St. Peter, and No. 3 is a portion of St. Peter's Square.

Chivalry in Sino-Japanese War

Out of range of the fires set in beleaguered Canton, this Japanese soldier carried a Chinese woman who was too weak to flee.

"Purge" of Alien Americans in U. S. Urged to Stop Persecution of Jews

People in the eastern states are up in arms, so to speak, about the recent anti-Semitic purge which is going on in Nazi Germany, says Craig Van Hunter, field supervisor for a piano company, who has recently returned from the east on a business trip.

Hunter, who in 1926 took a trip around the world and spent some time in Germany, says that it was the Jews who rehabilitated Germany after the war. That if it had not been for the Jews going in and lending and giving both of their time and money to stabilize the credit and economic structure, there would not have been anything like a Germany, as we know it today.

Hunter says there is one sure way to stop the purge in Germany, and that is to start one here. He means that if the United States were to confiscate all monies and property of Germans who have come to this country since the world war, and when it is proven that they are not United States citizens, that all their property shall be confiscated in the name of the government, allowing them only a certain per cent of their gross capital to allow them to return to Germany, and the monies so received from the confiscation of these Nazi Germans, would in turn help to rehabilitate the Jews in

their homeland of Palestine.

Hunter says no doubt that Hitler would speak to the third Reich, and show the people of Germany how they were being treated in other countries, so that they could justify their own actions. But if this were to take place no doubt the Jews would not want this to happen against the Germans in this country, because they feel that they are not wanting anything from anyone except to be allowed to live in their chosen countries in peace with their fellowman. But it seems, says Hunter, this they are not allowed to do.

Textile Concern Set Up To Push Ethiopian Sales

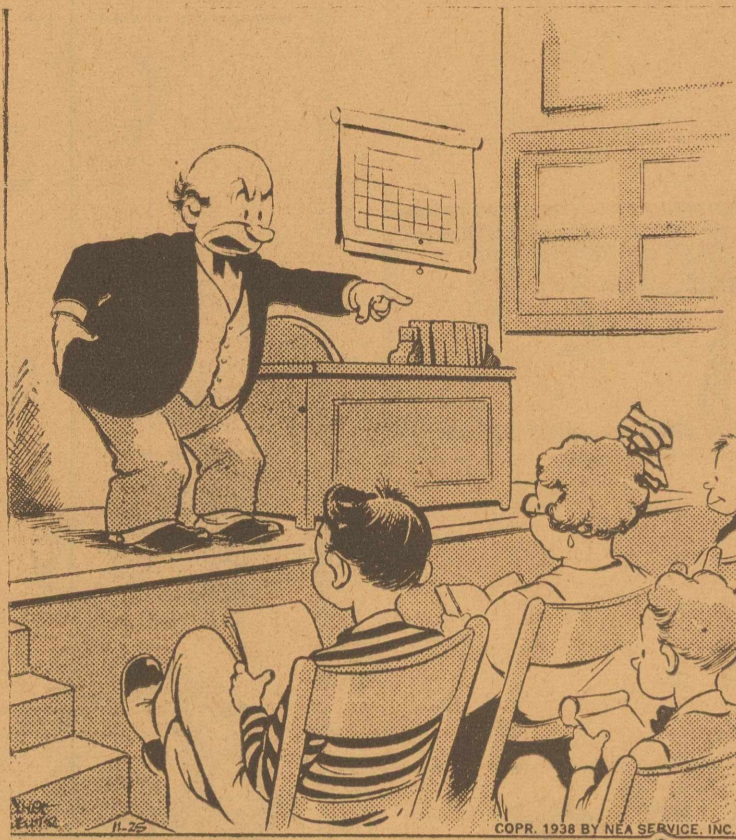

MILAN, Italy. (U.P.) — A cotton concern, backed by textile industrialists, to do business with Italian East Africa has been formed here.

The aim of this concern is to organize and co-ordinate the supply of ready-made goods in Ethiopia, to facilitate exchange of products with the empire for the increase of exports and to initiate any activity that may favor autarchy in the empire in economic fields in which the national textile industries are interested.

Army Graduates M.P.'s

LAWTON, Okla. (U.P.) — Six military police, the "M. P.'s" who enforce Army Law, were graduated from a special school at Fort Sill recently. The six weeks' course was the first of its kind ever held at the post.

Hold Everything!

"The smart-alec who put that tack in my chair is going to flunk algebra! All right—speak up—who was it?"

Work of the FHLB Expanded in Nation

WASHINGTON. — Surveying figures and data for its annual summary of home financing activities the Federal Home Loan Bank Board today stated that "the objective of a wider geographical distribution of adequate thrift and home financing facilities has to a large extent been achieved."

The Board pointed out that, as of June 30, 1933, the close of the fiscal year, "there were 2,868 counties in the United States approximately 95 per cent of all counties, being served wholly or in part by Federal savings and loan associations, an area within fifty miles of their area within fifty miles of their location."

When, in 1933, Congress enacted special legislation for Federal savings and loan associations, "there were 1,555 counties—approximately one-half of the total number of counties—in which there were no local home-financing institutions whatever."

Further outlining its studies, the Board said:

"During the fiscal year 1933, the number of Federal savings and loan associations increased from 1,286 to 1,346, the number of investors in such associations 801,347 to 1,030,096, and the estimated total assets from \$986,298,000 to \$1,213,874,000.

"In this period 90 new charters were issued, of which 13 were for newly-established Federal associations and 77 for converted State-chartered associations. On the other hand, there were 30 terminations of charter because of consolidations, merger, or liquidation."

The Board noted the gratifying rise of private investments (savings) in Federal savings and loan associations, which now makes unnecessary Government assistance formerly rendered. "Federal savings and loan associations have been able to expand their total share capital considerably by a steady increase of private share investments. ***On June 30, 1933, the ratio of private investments to total investments was 77.7 per cent, as against 74.8 per cent on June 30, 1932."

Summing up the steady expansion of the sphere of Federal savings and loan associations in home financing, the Bank Board disclosed that in the fiscal years 1932 and 1933 such associations supplied more than 35 per cent of the total amount loaned on home mortgages by all savings and loan associations.

"Between August 3, 1933, on which date the first charter was issued to a Federal savings and loan association, and June 30, 1933, these institutions loaned \$795,775,158, exclusive of loans made for the purpose of refinancing loans previously held by them," it was stated.

"One effect of chartering Federal savings and loan associations throughout the country has been to encourage the movement toward standardized practice in state-chartered institutions of similar type. Many such institutions have adopted the direct reduction loan plan and other features of Federal savings and loan associations when opportunity has been afforded them to witness the results of such practices in the growth of Federally-chartered associations."

Prize Winning Cow to Be Shown at Fair

WINTERS, (A.P.) — Pilgrim's Queen Ruby, gold medal milk cow, has been bidden to the New York World's fair next year.

She is owned by M. E. Leeman, who was invited to exhibit one of more of his registered Jersey herd at the exposition's "Dairy World of Tomorrow."

It is proposed that the unit display a milking herd composed of representative animals of all major breeds. They are to be housed and cared for by a commercial organization in its half million-dollar building under rules and conditions governing the use of dairy cows by dairy breed associations. Forty or fifty animals of each breed, which must be free of communicable disease, will be exhibited. They will be milked three times a day, the milk weighed and tested for butterfat.

Pilgrim's Peer Ruby is believed to be one of the few gold medal dairy animals in this section. Her dam is Libby's Devotion, and she was sired by Pilgrim's Peer.

Registered merit requirements are 360 pounds of butterfat in 305 days. Pilgrim's Peer Ruby produced 11,592 pounds of milk, 5.49 per cent butterfat, containing 636 pounds of butterfat, in that period.

Production of Sugar Beets Studied at Tech

LUBBOCK, (A.P.) — Experiment in commercial production of sugar beets is being carried on at Texas Technological College under the direction of Dr. A. W. Young, head professor of agronomy. Two acres planted on the college farm yielded 17 tons an acre.

The total yield on the South Plains this year is estimated at 35 to 40 carloads, 20 loads being shipped to a plant at Rocky Ford, Col. Advance tests showed a sugar content of 14.3 to 20.3 per cent.

The average yield varies considerably from 17 tons an acre on the Tech plot and 20 tons around Muleshoe, down to five tons in other places. Shipments have been made from Lubbock, Lockney, Muleshoe, Hale Center, Roundup, Anton, and other points.

Experiments on a small scale have been conducted for several years, especially in the Muleshoe, Plainship.

via, Tulla, and Hale Center areas. Owing largely to a disease known as "curly top" the earlier experiments largely failed. Another difficulty is getting the seed up, several plantings have been necessary in many cases the past season.

Meanest Thief Found By Llano Physician

LLANO, (A.P.) — Dr. H. J. Hoerster, physician, while on his initial hunt of the season discovered that the meanest man stalks the woods somewhere in Mason County. Hunting with Mrs. Hoerster on the ranch of her mother, Mrs. Mathilda Zesch, Dr. Hoerster bagged a pretty buck which he dressed on the spot. Hanging the carcass on a tree the couple went to their automobile not far away but when they returned soon afterward the deer was gone, and only the "dressings" remained as proof of the Doctor's marksmanship.

LISTEN FOR THE DANGER WHINE

REPLACE with a DELCO

The dull whine when the starting motor is laboring to turn over a motor due to a weak Battery is an ominous warning of impending starting trouble, or complete starting failure. Don't take a chance and be caught away from a service station and put to a great deal of inconvenience and expense. Have your Battery checked now and if it is run down or worn out, REPLACE WITH A DELCO — THE ORIGINAL EQUIPMENT BATTERY — the Battery with the reputation for unflinching service.

Salmon—River Kings

HARDY and important fish is the salmon. It inhabits the north Atlantic, ranging from Hudson Bay, Iceland and northern Europe to Cape Cod and the Bay of Biscay. It enters the major rivers of North America, and where it enters it is king.

Salmon feed mostly on mackerel, herring and sand-eels. It breeds from September to February. The female fish scoops out a trough in the gravelly shallows and, sinking into it, deposits eggs which are fertilized by the male. By adroit strokes of her tail she then covers the eggs, burying them often 12 inches deep. The eggs are about one-fourth inch in diameter, and hatch near the close of winter.

The young fish depend on a large yolk-sac for nourishment for a month or two. After that the fry, scarcely more than an inch long, emerge and swim in the shoals, feeding on bugs. Generally in about two years the salmon is six inches long and big enough to go down to the sea on his own.

Very few salmon live more than three or four years. Often they attain 80 pounds weight, but this is not because they are necessarily old; they have merely spent several years in the sea without spawning.

As in trees, salmon reveal their life history in their concentric rings. These lines of growth are located close together on the central part of the scale formed during life in fresh water. The more rapid growth in the sea is marked by more rings farther apart.

A salmon is shown here on a 1931 stamp of Newfoundland. (Copyright, 1933, NEA Service, Inc.)

Bicycles Are Being Registered by Boys

AMARILLO, (A.P.) — The action of six Amarillo school children in urging the city to register bicycles has caused nation-wide interest.

At the request of Ann Moreland, Mary Frances Russell, Terry Maxwell, O. B. Chessir and Jack Anderson, all teen-age youngsters, the city passed an ordinance providing for the registration of bikes.

Officials of more than 30 cities, including Buffalo, N. Y., and Chicago, inquired about the ordinance, designed to curb theft of bicycles. Owners are not required to register the wheels, but when a bike is registered a complete description of it is kept by the city, and a registered bicycle cannot be bought or sold lawfully until the city has been notified.

Registered bicycles bear number tags and many owners are having their wheels registered.

Legion Post Auxiliary Forms Last Wife's Club

WAVERLY, N. Y. (U.P.) — A "Last Wife's Club" believed to be the only women's organization of its kind, has been formed by members of the local American Legion post's auxiliary.

The members are to give a dinner each Armistice eve. In case of the death of a member, her place at the table will be set and marked by an empty chair.

A similar organization known as the "Last Man's Club" was formed several years ago by the Waverly legionnaires.

Girl, 14, Star Member Of Police Pistol Team

CHELLENHAM, Pa. (U.P.) — Fourteen-year-old Nancy Lennox has become a member of the Cheltenham police pistol and rifle team.

When one of the regular members of the team failed to appear, Nancy was given her opportunity and won her match over her man opponent by 10 points.

She is a high school junior and daughter of a police sergeant.

JP Finds Two Ways To Interpret Salute

TYLER, (A.P.) — Justice of the peace Roy Vinson says "There are at least two ways to interpret 'salute.' Experience taught him.

Embarrassment was his when, after marrying a couple recently and suggesting to the bridegroom it was proper to salute the bride, the groom replied:

"Go ahead, kiss her!"

He thereupon decided never again to use a word of double meaning involving osulatory performance. The bridegroom will be told plainly to do the kissing.

On another occasion he called upon an elderly farmer, whom he "saluted" his bride, whereupon the newly made husband reared back, clicked his heels and executed a salute that would have done credit to a shavetail greeting the most exalting brigadier general.

"Log" In Creek Is "Gator."

PINDLAY, O. (U.P.) — A. E. Redick thought he saw just another log in a dry creek bed — until it showed its teeth. The "log" was an escaped four-foot alligator which a neighbor had brought from Florida.

Britain to Build Three 21-Ton Land Planes

LONDON, (U.P.) — Three 31-ton passenger land planes each costing at least \$500,000, have been ordered by the British Air Ministry.

They should be ready in the summer of 1940. One will fly at 25,000 feet.

Two are designed to fly long distances non-stop at normal heights of about 10,000 feet, carrying 13 passengers and 3,000 pounds of mail and freight at a minimum of 200 m. p. h.

The third machine is purely experimental, to develop what is called "over weather" flying. It is designed to carry the same passenger, mail and freight load, with a top speed of 275 m. p. h., flying in the stratosphere at 26,000 feet.

Wool Growers Oppose Shorter Bathing Suits

MELBOURNE, Australia (U.P.) — Organized Australian wool growers are putting up a hard fight against an effort to shorten bathing suits one inch and to permit life guards to wear trunks instead of the one-piece suit.

"It may seem a matter of minor importance to some people," the secretary of the Australian Wool Board said, "but we are fighting hard to withstand the serious inroads of artificial fibers and where wool is really necessary they cannot accept a reduction in the amount normally used."

Thief Rests Conscience.

ST. CATHERINES, Ont. (U.P.) — A solid silver communion service, stolen from St. Thomas church during the night, was returned the next night by the conscience-stricken thief.

"If we had only had Insurance"

So many car owners say that AFTER a costly automobile accident! Don't delay—it's cheaper to carry insurance on your car NOW!
