The senate yesterday sent to the amendment calling for a two per cent sales and service tax and a 25 per cent boost in natural resources

Both the Wright bill and the substitute contained increases of 33 1/3 per cent in natural resources

The house last night snarled pension revenue plans by greeting cooly the senate amendment for a salesservice-natural resources tax, referring the measure to a sub-committee for altering. The amendment had received the official blessing of Governor O'Daniel, who rode a landslide of liberalized pension votes into the governor's chair.

The house constitutional amendments committee took a first look at the completed senate measure and openly expressed dissatisfaction at some of its contents.

The 2 per cent sales and service imposts and a 25 per cent increase in present taxes on natural reirces would produce an estimated \$35,000,000 annually of which maximum of \$20,000,000 would be earmarked for pensions, \$6,500,000 for other security purposes and the remainder for the state's available school fund, making possible reductions in the property tax.

### If Europe Fights, It Will Be Over European Issues

By WILLIS THORNTON.

Today, anyone with a long memory has a dream-like feeling that he has lived through all this before.

Yes, it was in 1914 that an expanding ambitious imperial Germany, bitterly complaining of "encirclement," ran headlong into war. And the cry rang out, "Save the world from this barbarism, this militarism!'

Imperial Russia, that historical defender of the rights of minorities and of small neighbor peoples, rushed to war, and with her France, bound by a military alliance. England hesitated a bare moment, then plunged into the

Now the crop is harvested, a crop of dictatorships and woe and basic problems left quite unchanged after

We know now that Britain, France and Russia went to war for one basic reason: to prevent the rise of a great German power on the continent of Europe.

Today it is happening all over again. A resurgent Germany again seeks domination over Europe, and again Britain and France seek to prevent it. Again Germany cries "encirclement!"

Again the cry of democracy is raised, but Britain allies herself with the Polish dictatorship, and seeks aid from totalitarian Russia, while France gives dictatorial power to her own ruler.

A world recoils with horror at the German purges and persecutions of minorities, yet we are asked to sympathize with Poland, whose treatment of minorities cer-

tamly leaves something to be desired, and with Russia, whose arbitrary and brutal purges rival Germany's.

Democracy? Let's not fool ourselves! What goes on in Europe is a naked struggle for power that is not a whit higher in principle than that of two savage jungle tribes shooting and braining each other for possession of the best hunting grounds.

The big idea was to introduce the lads to smelt, those little fish which are caught in buckets and old wash-boilers in the streams around Escanaba at this time of year.

But the rest of the state took hold in a big way. All sorts of commodities began to start coming in—beans, potatoes, cherries, celery, apples, whitefish, turkeys, champagne, and heaven knows what else. The result is that the diners will get one of the most all-inclusive meals ever served in the national capital.

Incidentally, Congressman Bradley is an aviation enthusiast. He has to be; his district covers parts of both the upper and lower penin sulas of Michigan, and he covers via his own plane. Now, just to do the dinner up right, he is sending the plane to Michigan to bring down the guest of honor for this festival—Miss Barbara Banks of Escanaba, who is extremely pretty but who has been saddled with the title of "Queen of Smeltiana."

Aptly enough, Mr. Bradley's sec-(Copyright, 1939, NEA Service, Inc.)

### There's a Good Reason You're Constipated!

When there's something wrong with you, the first rule is: get at the cause. If you are constipated, don't endure it first and cure it afterward. Find out what's giving

Chances are it's simple if you eat the super-refined foods most people do: meat, white bread, potatoes. It's likely you don't get enough "bulk." And "bulk" doesn't mean a lot of food. It's a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement.

If this is your trouble, you should eat a natural "bulk" producing food—such a one as the crunchy, toasted, ready-to-eat cereal—Kellogg's All-Bran. All-Bran is the ounce of prevention that's worth a pound of emergency relief. Eat it every day, drink plenty of water, and "Join the Regulars." All-Bran is made by Kellogg's in Battle Creek.
