

The Lord shall reward the doer of evil according to his wickedness.—II Samuel 3:39.

The Midland Reporter-Telegram

WEST TEXAS: Fair tonight, Wednesday.

VOLUME XI (P) MEANS ASSOCIATED PRESS MIDLAND, TEXAS, TUESDAY, MAY 16, 1939 NUMBER 58

In Mystery

Secrecy surrounded circumstances of the fatal shooting of Corporal Christ's postmaster, Gilbert McGloin, top, and his assistant, A. E. Dittmer, bottom, in McGloin's office Saturday. A postal inspector who investigated the shooting refused to comment. Washington officials said it might be weeks before the inspector reported his findings. McGloin, shot in the back of the head, died two and a half hours later. Dittmer, shot in the temple, died almost instantly. (AP Photo)

Important Acts Are Considered by Both Upper, Lower House

AUSTIN, May 16. (P)—Important measures were considered in both houses of the legislature today. The senate started work on the house bill expanding functions of county and road district bond fund to distribute, sponsors estimated \$150,000,000 in 25 years, to counties to pay road debts and construct new thoroughfares. In the house the economy bloc killed several attempts at salary boosts in the departmental appropriation bill. AUSTIN, May 16. (P)—A bill remitting to counties all state purposes taxes for general fund purposes revealed unexpected strength Monday in the House and advanced to within a step of final passage. The measure, already approved by the Senate, was passed to third reading by a wide margin. Efforts to suspend the rules and place it on final passage immediately failed, 78 to 49. A four-fifths majority would have been necessary. The bill would take approximately \$5,500,000 a year from the state's general fund, which now is some \$17,000,000 in the red. Many House members still believed it never would reach the governor's desk. Another important Senate bill sent to final reading in the House was one creating a new division in the State Department of Education to teach school children that crime never pays. It would be financed by a 50-cent fee on everyone fined for a misdemeanor. The vote was 77 to 55. Backers of the general tax remission bill claimed it was unfair for the Legislature to single out certain counties for tax donations. Governor W. Lee O'Daniel last week signed a bill remitting taxes to Harris county, the state's largest. Opponents countered with arguments remissions to all counties would leave the state treasury in such shape that a general sales tax could not be escaped. The remission would be for five years and start with taxes for the year 1940. Counties might use the money for relief of the destitute, lateral road building, flood control and other purposes.

ARE DISCHARGED Mrs. S. L. Jackson and infant daughter returned to their home this morning from a Midland hospital. Mrs. Roy Clark and infant daughter are expected to return home this afternoon.

Tax Problem Compromise Is Studied

Revision of Present Revenue Laws Said Needed by Solons
WASHINGTON, May 16. (P)—Congressional tax authorities bundled up their problems and took them to the White House Monday for a conference expected to have an important bearing upon the question of revising the revenue laws. Fundamentally, they were said to be seeking a compromise under which taxes considered to be retarding business recovery would be lightened or repealed, without diminishing the Government's present rate of income. Invited to the conference were Chairman Harrison of Mississippi, of the Senate Finance Committee; Chairman Doughton of North Carolina, of the House Ways and Means Committee; Chairman Cooper of Tennessee, of the Ways and Means Subcommittee on Taxes, and Secretary of the Treasury Morgenthau. Doughton and Harrison were reported to be ready to offer a specific program. Both have been active in urging the elimination of taxes said to act as business deterrents. Harrison favors, among other things, repeal of the undistributed profits tax. At present the corporation income tax ranges from 12 1/2 per cent upon the smaller corporations to 16 1/2 upon the largest, if the latter disburse all their earnings as dividends. Large corporations which hold a part of their earnings in their treasuries pay from 16 1/2 to 19 per cent, depending on the proportion of earnings so retained. The latter provision, known as the tax on undistributed profits, has long been a target of criticism from business sources. President Roosevelt calls it a preventive for legal tax dodging, and has said that if it is repealed, Congress should enact other safeguards. Two tax revision proposals were current at the capitol, meanwhile, and one of them was said to have the approval of Senator Harrison. This would repeal the undistributed profits tax, and return the excess profits and capital stock levies. At the same time it would impose a maximum 18 per cent tax on high bracket corporation income, with a lower rate for smaller corporations.

King and Queen Are Expected to Reach Quebec Tomorrow

ABOARD EMPRESS AUSTRALIA, May 16. (P)—This line carrying the king and queen of England to Quebec for a tour of Canada and the United States sped along the Gaspe coast well up the St. Lawrence under bright sunshine today. Approximately two days behind schedule because of fog and ice hazards, the line is expected to reach Quebec tomorrow morning.

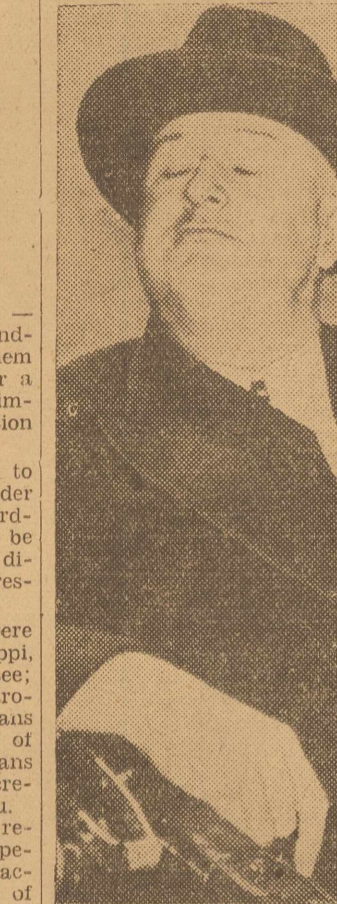

Ranchmen to Wage War on Rodents

COLLEGE STATION, — Reporters to the AAA's state office here indicate that Texas ranchmen who participated in the Range Conservation Program this year are going to make it tough on the rodents and insects that have been killing out the grass. Howard Kingsberry, Santa Anna stockfamer and member of the State Agricultural Conservation Committee, said a number of county committees have indicated they will require ranchmen to eradicate prairie dogs, kangaroo rats, moles, gophers, cut ants, red ants and grasshoppers to more completely effectuate the purpose of deferred grazing. The 1939 program provides that certain additional requirements in connection with deferred grazing, if the State Committee approves of the added requirements as being in the interest of range conservation. Use may be made of 20 per cent of a ranch's range-building allowance to help defray cost of carrying out the supplementary practices. The State Committee has indicated it will approve rodent and insect eradication under this provision. "We've been inclined to underestimate the damage done to our ranges by rats and prairie dogs, and other little varmints and insects that destroy grass and other desirable plants," Kingsberry asserted. "But there's no use to defer your land from grazing by livestock, and leave it to the prairie dogs. If there are enough of them, they'll make more grass disappear than the stock ever would."

Flier Attempting U. S. to Sweden Hop

ST. JOHN'S, Newfoundland, May 16. (P)—Carl Backman, Swedish aviator attempting a flight from America to Sweden, took off from Botwood airport today, according to word received here. Flying a 90-horse power, single motored monoplane, Backman landed at Botwood last night from Bangor, Maine. His plane has no radio.

Sniffs at Future

Does Jim Farley scent 1940 presidential prospects or is this simply an expression of disdain? Pictured in Cleveland, O., at start of coast-to-coast tour, postmaster-general denied he is rounding up delegates for next presidential campaign, said he's merely in the stamp business.

Northern Part of State Helped By Rainfall Today

By Associated Press
Widespread rainfall over the northern part of Texas was reported today. The heaviest precipitation, three and one half inches, drenched the territory around Olney. Fort Worth was struck by a 40-mile an hour wind and lightning which did slight damage. Plainview, Dallas, Amarillo, Abilene, Austin, Palestine also reported rain. A light sprinkle that lasted only a few minutes fell in Midland this morning. Although the skies remained overcast throughout the day, no moisture was forecast for this area.

FBI Urged to Probe Death for Insurance Ring in Philadelphia

PHILADELPHIA, May 16. (P)—Judge Harry McDevitt in a telegram today to J. Edgar Hoover, director of the federal bureau of investigation, said Philadelphia's insurance-murder racket was so vast "no one can estimate the number of crimes committed to date or ramifications of heinous murders." Hoover was urged to come here to make "a personal survey of this unbelievable crime syndicate." District Attorney Charles Skelley, saying all ring leaders had been arrested, announced he would seek murder indictments against six persons.

Texas Trails Nation in Education Quest

AUSTIN, — With less than half its high school group in the class rooms, Texas trails the nation in its quest for Democratic education, Dr. H. T. Manuel, University of Texas educational psychologist disclosed here today. Completing an exhaustive analysis of educational problems before Texas youth, Dr. Manuel based his measurements on a recent statement by University President-Elect Homer P. Rainey that the nation might soon see all its youth of high school age in the class rooms. There is still a long way to go in Texas, Dr. Manuel declared. He pointed out that less than half Texas' high school graduates annually enter college. Dr. Manuel estimates that in '38 there were 535,000 boys and girls in Texas 14 to 17 years of age—that is, of high school age. On the other hand, only 277,000 were enrolled in high schools of the state. Currently about 42,000 boys and girls are graduated from public and private high schools in Texas each year and thereby become eligible to enter college, the study cited. Only about 19,700 actually did enter Texas colleges in the summer and fall of 1937, or about 47 per cent. Ninth of a series under auspices of the Texas Commission on Co-ordination in Education, the study deals with "college age" brackets. Previous studies have carried the investigation through the various school levels.

Chico Bank Is Robbed by Two Bandits

Escape Effected After \$2,000 Is Taken From Till

CHICO, Texas, May 16. (P)—Two bandits, so alike in appearance they might have been twins, robbed the First State bank of Chico of between \$1,500 and \$2,000 shortly before noon today. The two escaped in a coupe with yellow wheels in the direction of Jacksboro. The robbery was executed so quietly two of four persons in the building at the time were unaware of the holdup. W. H. Tallant, assistant cashier, and Miss Evie Blackmon, secretary, were held at bay with pistols while the robbers scooped up all currency in their sights.

Lions Club Members Prepare for Carnival Friday and Saturday

Members of the Midland Lions club are this week getting their voices in shape for barking duties at the second annual Lions club carnival to be held on the Roy Stockard used car lot on North Main street on Friday and Saturday evenings, several members with voices especially adapted to carnival barking having been discovered at the practice sessions held on Monday and Tuesday evenings. If racket made at the practice sessions is indicative of the noise to be made at the two night carnival, then the affair will indeed be a noisy event. Coach Bud Taylor and Joyce Howell have proven their ability at carnival barking and will likely be called upon to head the list of barkers. Dr. John B. Thomas and Clinton Myrick will be the chief assistants. It has been said that the success of any carnival depends upon the barking, and if this is the case the Lions club carnival will indeed be highly successful from every standpoint. Entertainment for every member of the family from baby to grandmother may be found on the carnival midway, fun for all being assured.

Junior High to Present Play at School Tonight

Third in the series of commencement exercises for the city school system and last of three operettas, "King Ko-Ko" by Ira B. Wilson will be presented by Junior High school students in the high school auditorium tonight. Initial presentation of the operetta this evening is principally for students, drew an attendance estimated at "at least" 1500. The presentation tonight is for the general public. The program will be in two parts, the first consisting of invocation by Rev. John E. Pickering, a declamation by Martha Jane Preston, first honor student of the seventh grade, and a girl's quartet number, and the second part of the operetta. The program opens at 7:30 o'clock. The operetta is gay, mad comedy combining a South Sea isles atmosphere and life with the complexities of civilization. District Director of the presentation will be found elsewhere in this issue of The Reporter-Telegram.

Confirmation of Gentry Expected From the Senate

AUSTIN, May 16. (P)—The Senate committee on governor's nominations Monday reported favorably on Brady Gentry, former Smith County judge and Gov. W. Lee O'Daniel's fourth choice as chairman of the State Highway Commission. Senator Allan Shivers of Fort Arthur, chairman, said he had not decided when he would ask for an executive meeting of the entire Senate for considering the committee recommendation. Gentry, neatly dressed in a dark suit, appeared briefly before the committee. "They were fine," he answered when asked how the officials treated him. He was born on a Van Zandt county farm 43 years ago, attended rural school, high school East Texas State Teachers College, Tyler Commercial College, and Cumberland University. A bachelor, he served four terms as Smith county judge, succeeding Senator Will Pace of Tyler to that position. Consent of members was that the East Texan would receive Senate confirmation with few, if any, dissenting votes.

FROM ABILENE

Miss Hattie Widner of Abilene is the guest of Mrs. Cullen Elliott.

UTILIZATION OF RESOURCES URGED

Big Bomber Bogs Down in Mud

Casting shimmering reflection on muddy waters, mighty U. S. Army bomber is pictured mired in goo near shore of Lake Elsinore, Calif., after two student aviators from March Field made forced landing, escaped uninjured.

Cool Opponents in Washington

Philip Murray and John L. Lewis, left and right, in right hand photo, look speculatively over at trio of mine operators after White House conference in which President Roosevelt served 24-hour ultimatum to end strike deadlock affecting bituminous coal industry. Operators, left to right: J. D. A. Morrow, L. C. Gunter, W. L. Robison. Between Murray and Lewis is David J. McDonald, another member of United Mine Workers committee.

Local Oil Scouts to Attend National Meet at Houston This Week-end

A number of local oil men are planning to go to Houston this weekend to attend the annual convention of the National Oil Scouts Association of America. They include J. S. Meriwether, scout for Shell Oil Company, Inc.; W. M. Cones, scout for Humble Oil & Refining Company; Joe Paszy, scout for The Texas Company; H. D. Pennell, scout for Amerada Petroleum Corporation; A. W. Wyatt, scout for Atlantic Refining Company and president of the West Texas Scouts Association; J. M. Haygood, scout for Humble Pipe Line Company; A. H. Riley, scout for Standard Oil Company of Texas; R. S. Brennan, Jr., land man for Standard; M. T. Smith, crude oil purchasing agent for Shell; C. L. Sherwood, scout for Tide Water Associated Oil Company. Other members of the Midland scout check who will go to Houston are: Earl Gypert, scout for Magnolia Petroleum Company at Colquhoun City; Herman Pontius, scout for Ohio Oil Company at San Angelo; B. F. Jones, scout for Republic Production Company at San Angelo; and J. W. Doss, land man for Republic there.

Box Is Reported To Be Recovering

An attending physician today reported the condition of T. L. Box, suffering from a bullet wound in his chest, as favorable and gave him a chance to completely recover. Barring complications, Box is expected to recover from the wound. No surgical work, other than that already done, remains.

National Guardsmen Stationed by Gov.

HARLAN, Ky., May 16. (P)—National guardsmen protecting coal miners wishing to work were sent into Bell county today. Governor Chandler revealed some militiamen had been stationed in the corner of Bell county but said they are a part of the unit on duty in Harlan county.

Estate of Cardozo Totaled \$330,000

NEW YORK, May 16. (P)—Benjamin Cardozo, late associate justice of the supreme court, left an estate of \$329,500, it was shown today in filing a transfer tax appraisal. Cardozo left \$220,635 to charity.

Precinct Delegates Under Soil, Water Law to Meet Today

Precinct delegates under the new soil and water conservation law were to meet in the commissioners' court room at 3 o'clock this afternoon in the county convention called for that purpose. At conventions yesterday, F. F. Elkin was elected delegate for precinct No. 1 and Donald L. Huff for No. 3. Names of the two other delegates had not been announced here today. One delegate to represent Midland county at Fort Stockton May 22, in the district convention, is to be selected this afternoon. The five districts of the state will have representatives at a later state-wide convention.

New Uses for Cotton Discovered in Year

COLLEGE STATION, Texas. — Use of cotton bales for 12 per cent of the 1937 fertilizer sales accounted for 19,000 bales of cotton. A carload of sugar put up in cotton bags accounts for the production of 4 2/3 acres of average cotton land and gives work to 83 people. In 1938, America used 120,000 carloads of sugar. If it were all in cotton bags, it would have meant four months' work to 100,000 people and the crop from more than a half million acres of cotton. If each of the 503,000 farm families in Texas could have a new, 50 pound home-made cotton mattress—and most families need several new mattresses—it would mean the consumption of 50,000 bales of cotton in this state alone. Cotton bagging as a package for cotton bales, introduced last year when it was used on 17,000 bales in Texas, is superior to jute and sisal bagging from the standpoint of durability and is much preferred by spinners, who now have to comb jute and sisal fibers from the cotton. Use of cotton bagging, cotton rope for ties, and cotton patches would not only use up around 200,000 bales of cotton annually, but would reduce the gross weight of a bale of cotton by 20 pounds, and would thus effect a saving of several million dollars a year in freight and other handling charges. These and similar examples were quoted in a letter sent to county agricultural and home demonstration agents and signed jointly by F. E. Lichte, cotton gin specialist, Mrs. Bernice Clayton, home improvement specialist, and Dr. R. Barnes, clothing specialist, all of the Texas A. and M. Extension Service. The agents were urged to give their support in every possible way to the movement to increase use of cotton.

ICC Official Says Plants Are Needed

Works Committee of WTCC Favors Sales Tax in Convention

ABILENE, May 16. (P)—Chairman Walter Splawn of the Interstate Commerce Commission in an address to the West Texas chamber of commerce convention today counseled West Texans to utilize abundant oil and gas resources to process raw materials in numerous "small scale" factories. Packing plants, flour mills, cereal factories, tanneries, shoe factories and wool and cotton fabricating mills were a few of the enterprises he suggested should be built to take care of the section's raw materials. Among resolutions suggested by the chamber's work committee was one recommending creation of a cotton clinic committee charged with preparing a comprehensive program for rehabilitation of the cotton industry. Another suggested a resolution favoring a sales tax. The works committee of the West Texas chamber of commerce approved last night a resolution for a general sales tax with the proviso it be "fairly and legitimately" passed to the consumer and part of the revenue obtained be used to relieve property taxes. The same resolution, commending any governmental efforts to save money, said that if additional money is needed in Texas a general sales tax along lines outlined is the way to obtain it. The resolution is subject to directors approval.

Ector Extension Well Flows 381 Barrels on 24-Hour Potential Test

BY FRANK GARDNER.

Potential of 380.72 barrels of oil, flowing through 7-inch casing in 24 hours following nitro shot, was rated today by Sinclair-Prairie Oil Company No. 2 Fay Holt, short north extension to production in the northwest part of the North Cowden pool in Ector. The well was shot with 200 quarts from 4,194 to 4,245. Total depth is 4,300 feet in lime. It is in section 1, block A, public school land. A failure in northern Ector three miles north of the Cummins area of the Goldsmith pool is being plugged and abandoned by Landreth Production Company at No. 1-A Frank Cowden. The well ran low and quit at total depth of 4,617 feet in lime, where Schluemperberg confirmed presence of sulphur water indicated by cuttings. The well had logged some slight shows in cores, but they were of no commercial importance. Another Ector failure being plugged today is Magnolia Petroleum Company No. 1 TXL, in the extreme northwest part of the county. It went to total depth of 4,587, was plugged back to 4,480 to shut off flow, then was shot with 510 quarts without results. Barnes, Conkling and White No. 1 E. R. Thomas estate, closely watched Ector wildcat southwest of the Goldsmith pool, is drilling at 3,555 feet in anhydrite and lime stringers. Caswell Test Shows Gas. Humble Oil & Refining Company No. 1 W. T. Caswell, southern Gaines wildcat, is drilling at 3,005 feet in anhydrite, having logged slight showing of gas at 2,580 and from 2,983-97. Top of Yates sand has not been picked, but drilling-log indicates that No. 1 Caswell found the same interval between anhydrite and Yates as Finley & Cherry No. 1 Dalmont, a failure. The Humble test has been 83 feet high to No. 1 Dalmont on anhydrite topped at 1,738. In northwestern Gaines, Osage Drilling Company No. 1 Dr. E. H. Jones is drilling unchanged below 5,120 feet in lime. Atlantic Refining Company and Osage No. 2 J. L. Tippet, in the Seminole pool of Gaines, has been completed for 23-hour flow of 970.25 barrels of oil through 2-inch tubing. Full 24-hour test was not taken because of insufficient storage. Oil is 36.4-gravity, and gas-oil ratio is 550-1. The well topped pay at 5,100, is bottomed at 5,260, and was treated with 3,000 gallons in one stage. William A. Hudson of Fort Worth and Millon Oil Company of Wichita Falls No. 1 J. D. Webb, new Yoakum wildcat two miles northeast of the discovery in the one-well Bohage area, is rigging up rotary. Mr. Hudson announced here today. It is in the center of the northeast of the southwest of section 54, block D, J. H. Gibson survey. Osage is contractor for the 3,500-foot test. SLIGHTLY IMPROVED Mildred Brinson, small daughter of Mrs. Alma Brinson, is reported slightly improved today. She is in a Midland hospital suffering from pneumonia.

Beryllium--Another International Mystery?

If the average American ever heard the name "beryllium" it is only as a passing vagueness in a half-forgotten high school chemistry course.

Beryllium: a hard, silver-white metal; specific gravity, 1.93; and melting at 2550 degrees F.

That's about all the help the dictionary gives, yet this metal is so important in a world girding for war that secret, E. Phillips Oppenheim-ish conferences between British, French, German and American industrialists have already parceled out its use.

The story told before the Temporary National Economic Committee is a significant one, for it shows how matters of the utmost importance to great peoples are arranged without the average citizen knowing they are going on at all.

Beryllium, a scarce metal, is used in certain alloys considered vital to munitions manufacture.

Back in 1933 one American manufacturer made a cross-licensing patent agreement with Siemens-Halske of Germany, the committee was told, the American company to have the rights in the United States, the German company in Europe.

British representatives came to the American, asserted that beryllium might be the most important metal of the next war, and demanded that this agreement be modified so that Britain could buy beryllium from the U. S. firm, not wishing to be dependent on Germany for it.

Just how it was done, the American never found out, but the first of this year the contract was modified to permit sales to England under certain conditions. Some sort of pressure had been put on Dr. William Rohn of Siemens, the "mystery man" of the world beryllium situation, to make him open this supply to the British.

The French didn't like dependence on the Germans for beryllium either, and in some equally mysterious way, last year, they also were able to share in the Siemens patents, receiving the rights for France, Switzerland and Belgium. So now the United States firm holds the rights for itself and Britain, France for Switzerland and Belgium, and Siemens for the rest of Europe.

It would be premature to imply that there is anything shady about these remarkable transactions.

But it is interesting to note that a powerful German company close to that government was prevailed on to grant rights of this kind to countries not in favor with that government. And to note also that for its war supply of essential beryllium, as well as other metals, Britain now depends on the United States.

Precisely what these things imply, we do not know. But it is clear that they might gravely affect all the people of the United States, and that the TNEC is well-advised to uncover the whole situation.

Municipal Apprentices

The apprentice system is one of the oldest devices in the world for preparing young men to take their place in skilled work.

A thousand, two thousand years ago, young men were being set to work under the eye of skilled workmen to learn something of their skill before striking out for themselves.

But it has taken us a long time to apply this to municipal government. We have always assumed that it takes years to learn to lay brick, but that any fool can pull the levers of the complicated machine that governs our cities.

Eighteen cities now feel differently. Each has an apprentice system to train recruits for city jobs, the International City Managers Association reports. Cincinnati has 87 municipal university students in training. The understanding in most cities is that the apprentices, once proved competent, shall have permanent city jobs.

At least eight "graduates" of such apprenticeships have later become city managers, which would seem to speak well for the plan.

Roman Nose, and Face

With magnificent assurance, Achille Starace, secretary of Italy's Fascist party, has ordered the Roman nose cut off to spite the Brazilian face.

In other words, he has ordered all able-bodied Fascisti to cease drinking coffee, or cut down on it, to punish those coffee-producing countries which, in selling coffee to Italy, would like money in payment, and not whatever goods Italy happens to be able to spare from the munitions drive at the moment.

This will, perhaps, annoy the coffee-producing countries, though why Italy should wish to do this, we can't guess. We suspect that far more annoyed will be the coffee-drinking members of the party.

But perhaps the more highly-placed members of that organization will find a way to get their coffee anyway. It will be the plain housewife, who finds it almost impossible to get any coffee in the markets anyway, who will feel the pinch, as usual.

• BRUCE CATTON IN WASHINGTON

By BRUCE CATTON

WASHINGTON—Although Washington doesn't ordinarily take much interest in municipal elections, it is unofficially bending a speculative glance on one which is to be held in San Francisco on May 19.

On that date the voters of San Francisco will make one more effort to decide what is to be done with the electric power generated by water stored in the famous Hetch-Hetchy reservoir, in the Yosemite. And the federal government has several reasons for being interested.

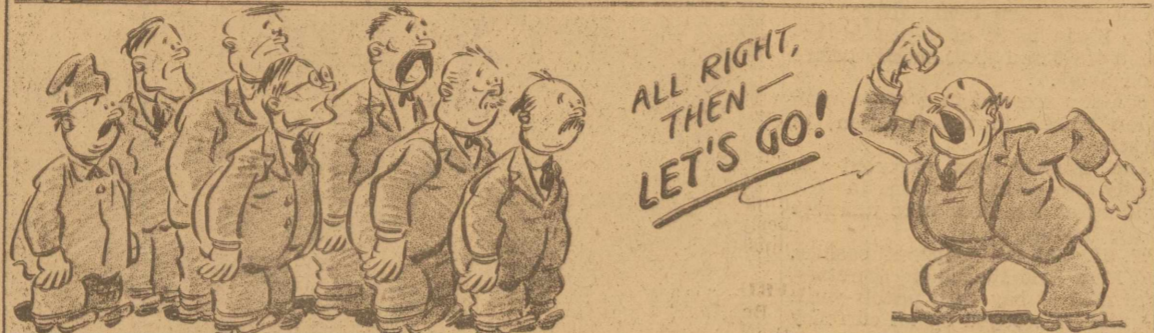

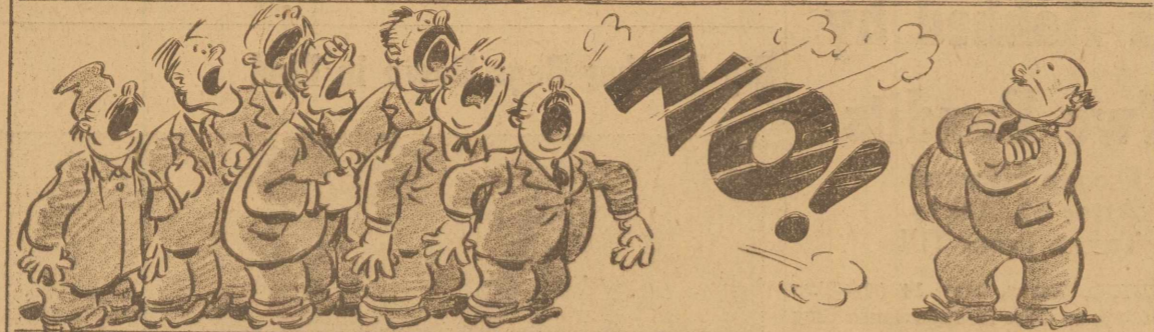

For one thing, a queer quirk in federal regulations and the enforcement thereof, has placed the

city of San Francisco in the position of a violator of the law. For another, the Securities and Exchange Commission has been asked to do something about the way San Francisco securities brokers have kept their right hands from knowing what their left hands are doing. For a third, Hetch-Hetchy and its electric power are a monument to one of the first public-power ventures of Senator George W. Norris.

HERE'S THE STORY

It's a rather complicated story. Around a quarter of a century ago, San Francisco got permission (by special legislation) to construct a city water reservoir in the Hetch-

Doesn't Gracie Allen Act Silly, Though?

Hetch valley, which is within the confines of Yosemite National Park. The enabling legislation also permitted it to generate electric power with the water so stored, but prohibited it from selling the power to any individual or corporation for resale. The idea was for San Francisco to get its own distribution system and sell power to its own citizens, direct.

The reservoir being constructed, San Francisco set out to build a transmission line from the power house at Moccasin Creek, at the foot of the Sierras, to San Francisco. It got the line as far as Newark, 45 miles from San Francisco—somewhere around 1925—and then ran out of money. Pending completion of the line and acquisition of a municipal distribution system, it negotiated an agency contract with the Pacific Gas and Electric Co., which paid the city some \$2,000,000 a year and resold the power to the citizens.

Now because Yosemite, where Hetch-Hetchy is, is a national park, these details some under the jurisdiction of the Department of the Interior. Permission to make this contact with the Pacific Gas and Electric Co. was, accordingly, sought of the secretary of the Interior. No definite decision was handed down, so since the contract had not formally been disapproved, it was put into operation.

There the matter has stayed ever since. Several times San election to decide whether bonds

should be issued to finance completion of the transmission line and acquisition of a distribution system. Each time the voters have said "no."

ICKES CHALLENGES

A good many years passed this. Then, at last, the matter came before the attention of Secretary of Interior Ickes, who challenged the legality of the contract—on the ground that the law specifically prohibited the sale of power for resale—and asked the Justice Department to take the matter into court. The department did so, and last year a U. S. district court ruled the contract illegal and enjoined San Francisco from continuing with it. Operation of that injunction has been held up pending appeal of the case.

So now the city is about to have a new election on the question of issuing revenue bonds to finance a transmission and distribution system. And Congressman Frank Havenner, California Democrat, has called on the SEC to have a look at the attitude taken by the Investment Bankers Association of California. This association, he charges, has circulated all of the city's registered voters with broadsides asserting that the issuance of these revenue bonds would wreck the city's credit; but meanwhile, he asserts, the members of the association have been selling to San Francisco investors precisely similar bonds issued by the city of Los Angeles, and have been holding them up as excel-

lent investments.

A queer situation will develop if San Francisco voters again turn down the bond issue and the higher courts sustain the injunction against the power-sale contract. San Francisco will then be in the position of owning a huge amount of electric power which it can neither use nor sell. It will lose the \$2,000,000-a-year fee from the Pacific Gas and Electric Co., which will mean a 30-cent hike in municipal tax rates.

Blalock Takes Over New Filling Station

Charlie Blalock today announced he was no longer a partner in the Conoco station located at 410 W. Wall street. Blalock has acquired the Conoco station located at 611 W. Wall street and will be sole owner of the place. An invitation to all his old customers and to others to visit him at his new location was extended by Blalock.

Dog Haunts Old Home.

SALINAS, Cal. (UP) — For six years, Van, a 13-year-old dog, lived with his master in a 71-year-old residence. Recently his master moved and the house was dismantled. Yet, every day at the same hour, Van leaves his new home, makes his way through the auto traffic and returns to his old stamping grounds to nose among the vines where he used to hide his soup bones.

Armored Car for "The Lady" on Mob Hunt

When a Social Registerite goes gunning for gangsters, she can't be too particular about the kind of automobile in which she travels. And so Columbia Pictures had to build a special automobile for Fay Bainter, recent Academy Award winner, and "The Lady and the Mob," Wednesday at the Yucca Theatre attraction in which Miss Bainter and Ida Lupino are featured.

"The Lady and the Mob" is the story of an autocratic society matron who refuses to pay tribute to racketeers, and refuses to permit her community's tradesmen to do so, either. She employs gangster methods to wipe out gangsters, and the result is one of the season's most hilarious comedies.

Miss Bainter's custom-built automobile is equipped with everything useful to this business of fighting fire with fire... including six machine guns and "The Mob," a gang of slap-happy yeggos who strangely resemble such capable actors as Warren Hymer, Joseph Sawyer, Tom Dugan and Harold Huber.

The artillery and the "mob" are the least of the Bainter automobile's accessories. The car was made of armor-plate. Bullet-proof windshield and windows further protect the occupants. To lend additional protection, the automobile engine can, and does, hit the high speed of 90 miles an hour in second gear. It possesses a device which spreads a thick black smoke screen and,

The Town Quack

Lin Yutang, Chinese author, in "The Importance of Living," said: "An American editor worries his hair gray to see that no typographical mistakes appear on the pages of his magazine. The Chinese editor is wiser than that. He wants to leave his readers the supreme satisfaction of discovering a few typographical mistakes for themselves."

The Imperial Type Metal Magazine, if that fails, a tack-spraying device which is certain to ruin the tires and dispositions of pursuers.

zine hands out some more philosophy:

Unless we make ourselves useful, we can't expect the world to pay much attention to us.

Once we solemnly and explicitly provided for the economic future of our descendants; now we are hustling to pay for today's dinner for ourselves.

A good name makes swell scandal news.

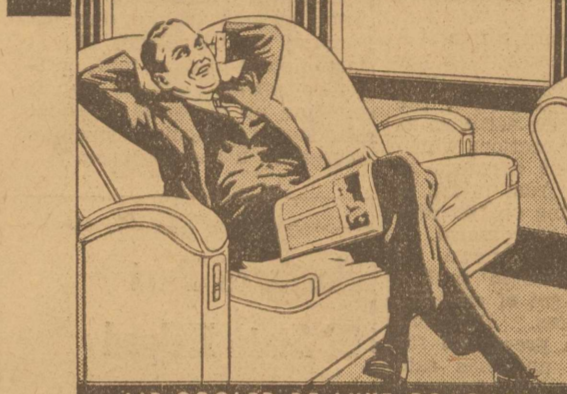

When the cost of living was high, we could at least make a living.

We are entertained too inexpensively by radio—we don't appreciate what we get.

Leading citizens should be compelled to take every seventh year off for the good of the community.

If you tell your wife how much you make, she immediately doubles your expenses and you have to make twice as much to break even the next year.

AND UP, delivered at Detroit, subject to change without notice. Transportation, state and local taxes (if any), optional equipment and accessories—extra.

See Your Nearest Cadillac-LaSalle Dealer

THERE'S ONLY one argument about LaSalle—people argue over who's privileged to drive it! The big Cadillac engine is so smooth and quiet and powerful—and the car is so easy to handle in every way—that driving is a sheer delight. In fact, almost half the people who take the wheel for a demonstration—take a LaSalle home for keeps! Don't buy any car unless you first try a LaSalle!

Methodist Women Have Program and Social Hour Monday

Methodist women's missionary soternoon for a social with the Young Women's circle in charge of the program and Belle Bennett circle hostess at the refreshment hour.

The following program was presented: Opening prayer — Mrs. Ray P. Simpson

In Latin America there are 8.6 miles of roads for each mile of route flown by an airline. In the rest of the world there are 34.5 miles of highway for every mile of air service.

Common Sense About Constipation

A doctor would tell you that the best thing to do with constipation is get at its cause. That way you don't have to endure it first and try to cure it afterward—you can avoid having it.

Chances are you won't have to look far for the cause if you eat the super-refined foods most people do. Most likely you don't get enough "bulk" and "bulk" doesn't mean a lot of food. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines.

If this is what you lack, try crisp crunchy Kellogg's All-Brain for breakfast. It contains just the "bulk" you need.

Eat All-Brain every day, drink plenty of water, and "Join the Regulars." Made by Kellogg's in Battle Creek. Sold by every grocer.

How to Behave As Shown by the Dionne Quintuplets

The good little Quintuplets say their prayers every night before going to bed.

BY OLIVE ROBERTS BARTON.

help us to behave better the next day, and to say we are sorry.

BEFORE you go to bed, it is good to pray, and to ask God to watch over you all night while you sleep.

God loves little children and although you cannot see HIM, He wants you to know about HIM and to trust Him. Maybe you do not understand all the words of your prayer just now. But God will understand. He knows what you are trying to say.

Sometimes we know that we haven't done our best. Maybe we were naughty. So we pray to God to

Miss Lovelady and Mr. Rouzer Wed at Big Spring Saturday

Following their marriage at Big Spring Saturday, Mr. and Mrs. W. H. Rouzer Jr. are temporarily at home here, planning to make their residence in Odessa soon.

Mrs. Rouzer is the former Miss Laura Lovelady, daughter of Mrs. Ollie Lovelady of Los Angeles, California.

She and Mr. Rouzer, son of Mr. and Mrs. W. H. Rouzer Sr. of Pitts-

burgh, Pennsylvania, were married at the home of Dr. I. D. McConnell, pastor of the First Presbyterian church at Big Spring, Saturday evening.

The couple had no attendants. The bride wore a two-piece ensemble of powder blue crepe with black accessories. Her flowers were a corsage of red rosebuds.

Mrs. Rouzer was educated in Oklahoma City. She came to Midland about three years ago and is now employed in the office of the Shasta Oil Company.

Mr. Rouzer is a graduate of Pitt university and a petroleum engineer. He is with the Phillips Petroleum company in Odessa, having been officially transferred there from Midland at the first of the year. He came to Midland about three years ago.

Episcopal Auxiliary Elects Officers For New Year

Mrs. Geo. Kidd Jr. was re-elected president of the Episcopal auxiliary at the group's meeting at the home of Mrs. C. L. Griffin, 807-A W. Texas, Monday afternoon.

Other officers elected for the coming year were: Vice president, Mrs. E. Erle Payne; secretary, Mrs. J. A. Reaney; treasurer, Mrs. R. E. Kimsey; corresponding secretary Mrs. Clifford Keith; chairman of hospitality, Mrs. I. E. Daniel.

Plans for the men's club were discussed.

Mrs. Kidd presided at the meeting.

Present were: Mmes. D. R. Carter, J. P. Butler, D. C. Sivals, Chas. Reed, I. E. Daniel, J. A. Reaney, W. A. Yeager, Erle Payne, W. W. Studdert, McMillan, C. R. Young, R. E. Kimsey, W. R. Hamilton, Geo. Kidd, one guest, Mrs. Moore, and the hostess.

A new instrument is now being perfected which, by means of radio compass bearings, is reported within two to five miles of his exact location.

Mrs. J. M. Hills Is Guest Speaker At Baptisti WMU

Discussing a trip she made to the Holy Land, Mrs. J. M. Hills was guest speaker at the meeting of the Baptist women's missionary union at the church Monday afternoon.

She described visits to Christ's birthplace, to the shop of Joseph the carpenter, and to the place on the Jordan where Christ is believed to have been baptized by John.

The speaker also touched on the present troubled political situation in the land, with Arabs and Jews contending for possession.

Mrs. S. L. Alexander was program leader with Kara Scarborough circle host-group.

Mrs. Myrtle Scarborough-Smith, WMU president, brought the devotional.

Mrs. Alexander made the introductory topic talk on "The Great Commission and Medical Healing."

Mrs. W. W. Wimberly offered prayer.

Mrs. Scarborough-Smith presided and Mrs. J. C. Hudman served as secretary pro tem during a short business session at which it was voted to accept an invitation to present the same program at Greenwood church Thursday afternoon of this week.

It was also voted to meet with the Prairie Lee group on Fifth Monday and present a mission program.

The missionary union will have a covered dish luncheon at the church Monday afternoon at one o'clock at which time each member is to bring a dollar for the baptismal robes.

Mrs. R. O. Collins was named chairman of the luncheon committee to be assisted by Mmes. M. R. Hill, J. Howard Hodge, B. F. Black.

A love offering was taken for the old minister's relief.

Miss Vivian Gidewell offered the closing prayer.

During the social hour which followed, refreshments were served to Mmes. Wimberly, Chas. West, F. E. Curtis, R. L. Debnam, Snodgrass, Geo. Phillips, W. L. Pickett, S. C. Daugherty, Harvey Kiser, H. D. Bruce, J. M. Hills, C. A. Travelstead, R. V. Lyatt, S. T. Cole, Barbara Wall, J. H. Barron, Claude Ramsey, Chas. Ward, Alexander, Collins, Hensley, Billy Gilbert, A. W. Wyatt, B. C. Girdley, H. S. Collins, M. R. Hill, B. F. Black, W. D. Anderson, E. F. Conner, A. T. Donnelly, Fred Middleton, Hudman, Miss Gidewell, Rev. H. D. Bruce.

Tadpole Gulper Fails. WOODLAND, Cal. (U.P.) — Bradley J. (Peanuts) Stephens, Jr., Junior College student, went all other higher institutions of learning one better by choosing tadpoles. He swallowed 25 and a world record seemed imminent, when one of them stuck in his throat. Then and there the stunt failed.

Announcements WEDNESDAY

A bingo party will be held in the Catholic parish hall Wednesday evening at 7:30 o'clock. All Catholics are urged to be present and the public is invited to attend.

Play Readers club will meet Wednesday afternoon at 3:30 o'clock with Mrs. W. L. Haseltine, 605 W. Indiana. Mrs. W. Y. Penn will read "The Little Foxes."

Junior Wednesday club will sponsor a barbecue at Cloverdale Wednesday as the official closing meeting of the club year.

Woman's Wednesday club will close its club year with a luncheon in the Blue Room of Hotel Scharbauer Wednesday afternoon at one o'clock.

Thursday club will meet with Mrs. J. W. Jordan, 1710 W. Missouri, Thursday afternoon at 3 o'clock.

Billy Graves Noble will be presented in a piano recital at the First Baptist church Thursday evening at 8 o'clock by Wallace Wimberly of the Wimberly school of music.

Social Hour club will meet with Mrs. S. H. Gwyn at her home on the old Andrews road Thursday afternoon at 2:30 o'clock.

Belmont Bible class will meet at the ranch home of Mrs. T. O. Midkiff on the Andrews highway Friday afternoon at 3:30 o'clock.

Stitch and Chatter club will meet with Mrs. Chas. Ward, 801 N. Weatherford, Friday afternoon at two o'clock.

Needlecraft club will meet with Mrs. J. O. Vance, 302 South I

Christian Women Meet in Circle Sessions Monday

Mrs. J. S. Cordill brought the devotional at the meeting of Circle No. 1 of the Christian women's church Monday afternoon.

Repetition of the Lord's Prayer in union followed the devotional.

A short business meeting was held, Mrs. J. R. Jones presiding. Present were: Mesdames Stokes, Jones, Cordill, D. E. Leggett, and D. B. Snider.

Mrs. Glenn Brunson reviewed the book, "Moving Millions" for the members of Circle No. 2, meeting at the home of Mrs. A. B. Johnson, 102 South L street.

A business meeting followed the lesson with election of officers as the high point of interest.

The nomination committee, composed of Mrs. Horace Rankin as chairman, Mrs. L. B. Pemberton and Mrs. Johnson, presented the following slate of officers: President, Mrs. B. W. Stevens; vice-president, Mrs. J. E. Pickering; secretary, Mrs. M. A. Park; treasurer, Mrs. S. P. Hall.

The slate was accepted by the group but Mrs. Stevens did not accept and Mrs. L. B. Pemberton was nominated from the floor and elected to the presidency.

Mrs. Hall reported that the three street Thursday afternoon at 2:30 o'clock.

Lois class of the Baptist church will hold an all-day meeting at the church Thursday. A covered-dish luncheon will be served at noon.

Bien Amigos club will meet with Mrs. F. E. Weaver, 604 North Carizzo, Thursday afternoon at 1:30 o'clock for a dessert-bridge.

Midland county museum in the courthouse will be open Thursday afternoon from 2:30 o'clock until 5 o'clock. The public is invited.

FEMININE FANCIES

By Kathleen Eiland

We understand that the King and Queen of England are "not particularly fond of" lemon flavoring, among other things, including corn on the cob.

But we do think their majesties circles of the council have sent three cases of eggs, one case each, to the Juliet Fowler home at Dallas.

Mrs. J. E. Pickering presided. Present were the following circle members: Mesdames Pickering, Brunson, Park, Hall, Chas. Klapproth, and the hostess, and one guest, Rev. John E. Pickering.

Mrs. Cullen Elliott, 1010 South Big Spring, was hostess to the meeting of Circle No. 3, when new officers were elected for the ensuing year.

Mrs. Chas. Brown was re-elected teacher. Others chosen were: Chairman, Mrs. A. Boering; vice-chairman, Mrs. W. M. Blevins; secretary, Mrs. John Thomas; treasurer, Mrs. Wade Heath.

Circle No. 3 will be in charge of the next council meeting and general plans were made for that.

Mrs. F. C. Cummings presided at the business session.

Mrs. Chas. Sherwood brought the devotional from John.

Mrs. Brown continued the series of lessons on Acts, teaching from the thirteenth chapter. She also offered the dismissal prayer.

A social hour followed the meeting. Present were Mesdames Blevins, Brown, Cummings, Heath, B. W. Rezer, F. R. Schenck, Thomas, Sherwood, Curtis Gilmore, the hostess, and one guest, Miss Hattie Widener of Abilene.

show a lack of discrimination turning thumbs down on anything as delicious as corn on the cob.

In fact, we'd wager that part their dislike comes from the fact that corn on the cob cannot be eaten with any great amount of dignity—such as the world might expect from crowned heads.

Cinderella's glass slipper has a way been considered a dainty fitting of fairytale imagination. But in this year of Our Lord 1939, it's an actuality.

Among the ultra-modern shoe designs is that of a bootie made of glass mesh with (of all things) glass heel.

So fairytale in the realm—shoes—and in many other realms—turn into reality.

Oh yes, and also fur is now being used to trim or make shoes. And there is even a lace-trimmed shoe to delight the lady who exemplifies femininity-plus.

Striking accompaniment to white costume is a black handkerchief with black and white file embroidery.

We call them cosmetic bag, though the manufacturer's name for them may be something else—these bags in gay print with rubberized linings and fittings for cosmetic.

Very nice for the woman who is traveling and has space for an extra bag. Large enough for an extra pair of hose or even a change of the filmy undergarments that women these days wear.

TULARE, Cal. (U.P.) — There are more bar girls than co-eds in the United States. Ethel Hubler, national temperance leader, told local audiences here. There are three girls working in liquor establishments throughout the country, she said, for every one registered in American colleges.

The new British Imperial Airways long-range flying boats have the distinction of being the first commercial planes to be equipped for refueling in flight.

COWBOYS COP 8-4 DECISION OVER SOX; TO MEET AGAIN TONIGHT

850 Fans See Locals Capture Second in Row

The Midland Cowboys made a couple of "firsts" last night when they not only got their initial win over the Amarillo Gold Sox but won their second game in a row for the first time this year.

The score of the game—one that ranged from terrible to sensational—was eight to four in favor of the Cowboys, thanks to a big fourth inning when the locals made four tallies.

It was Ladies Night at the park and the females took advantage of the chance to enter the park in a way that was highly pleasing to club officials. It was estimated there were two female fans to every male fan in the park—and the men purchased 273 tickets. It was the biggest crowd since opening day and not a one at the game was disappointed.

A large number of fans that attended last night's game did so in order to see and hear Neal Rabe, catcher-manager of the Gold Sox. Neal certainly didn't disappoint. He booted the crowd as often as it did him, "griped" at the umpires and made his evening complete by getting a couple of base hits in three official times at the bat. Midland fans will attend games solely for the purpose of booing Neal—but it is all in fun. There is not another player in the league—excepting local players—half as popular here as is Rabe. (And he has promised the crowd something extra tonight).

The two teams will meet again tonight at 8:15, weather permitting, and Manager Kerr announced this morning that right hander Johnson would be on the mound for the Cowboys. Abilene Apaches will be here tomorrow night at 8:15.

The Cowboys got away to a two-run lead in the second inning last night and after the Gold Sox tied up the score in the fourth came through with four runs in their half of the inning to take a lead they never surrendered as Ray Abernathy, making his initial appearance on the mound here, fired a fast

ball in to retire the Gold Sox scoreless in all except three frames.

The Cowboy scoring started in the second when Malvica got a life on an error. Everson struck out, Wooten walked, Volk fouled out to Rabe but Festa got a line single to left field that got away from Bolton and when the gardener finally got the ball back to the infield Malvica and Wooten had scored and Festa was on third. Abernathy popped out at second to end the rally.

The Gold Sox tied up the game at two all in the fourth when Dorman walked, Bolton got a life on Petzold's error, Rabe singled to send in Dorman, Hudson walked and Smythe reached first as Malvica tossed out Hudson at second, Bolton scoring. Abernathy then picked Smythe off first to retire the side.

The Cowboys bounced back with four runs on three hits and two walks. Malvica led off with the first of his two hits of the evening. Everson doubled and the bases were clogged when Wooten walked. Johnny Volk then cleared the baselines with a line double, went to third as Abernathy grounded out at first and came home when third baseman Jordan tossed one wildly back to the pitcher after an effort had been made to pick Volk off third.

The Cowboys knocked two pitchers out of the box, made one run in the fifth on some of the wierdest base running seen yet. After walking Mort and throwing two balls to Malvica, Falls was relieved by Flickerstein. He managed to make Malvica hit the ball but two were on base when Smythe muffed the hit. Everson then walked and Flickerstein was derailed. Dorman moved over from first base to the pitcher's mound and Mickey took over at the initial sack. Bob Wooten hit a single to right, Mort scored, then Everson failed to notice that the coach had held up Malvica on third and he ploved into the bag. Malvica then got into a "hot box" between third and home and was tagged out by Smythe. Wooten, who had stopped midway between first and second to watch the proceedings, was an easy out when Smythe fired to Hudson.

The final Cowboy run came in the seventh when Petzold singled, went to third as Rabe's throw to Hudson sailed into centerfield and came home on a single by Malvica. The Gold Sox scored once in the eighth on two hits, a hit batsman and a fielder's choice and another in the ninth on an error, single and walk.

Professor's Daughter Gives Nova Inspiration to Win Title of Heavyweight Champion

Growing Up With Symphony Pit's All-Round Athlete and Challenger for Heavy Championship

Lou Nova would have won any contest for healthy babies.

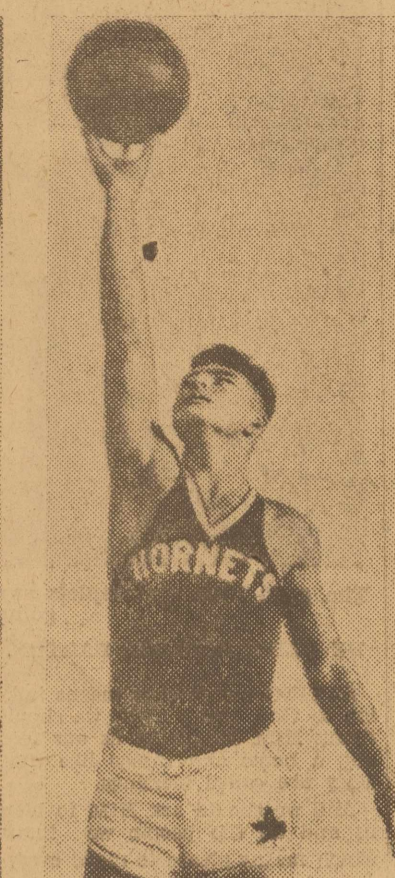

Nova at three... little man of the world... cane and all.

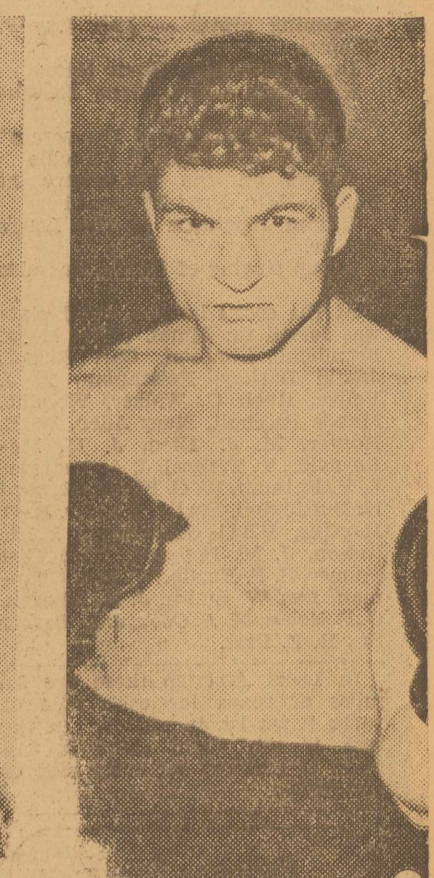

Nova... helping his mother... the man of the family at 11.

Nova in 1932... star of Alameda High's football team.

Nova at 18... crack shot of the Alameda High Hornets.

Nova today... equipped for Max Baer and Joe Louis.

Second of three articles on Lou Nova, the second Gene Tunney.

BY HARRY GRAYSON
NEA Service Sports Editor.

NYACK, N. Y. — Lou Nova is the first heavyweight champion challenger from the symphony pit. His father, who played in the San Francisco Symphony Orchestra, wanted his son to follow in his footsteps.

Nova would not now be training at the Clarkstown Country Club here to fight Max Baer at Yankee Stadium, June 1, had he not been blessed with so much

RAY CARLIN PAYS \$100 FOR PROSPETS' CONTRACT.

NOVA won 12 of his 14 amateur bouts and with them the national and international championships.

Then he got a job driving trucks laden with citrus fruit from Los Angeles to San Francisco. He earned \$800 in this way and took his mother on a trip to Honolulu. When he returned, he launched his professional career.

Ray Carlin, who handled Frankie Klink, the lightweight, paid Lorraine \$1000 for his contract after seeing him get up after being dropped and slow up Buddy Baer in a workout.

Carlin promised to take Nova to New York immediately. It was six years after Nova met Hertha Robbins that they were married. They recently were blessed with an addition to the family.

Lou Nova promised to take Hertha Robbins some place and won't be content to stop this side of the heavyweight championship.

NEXT: Nova, the professional fighter.

50,000,000 Pounds Of Butter Produced

COLLIER STATION, Texas. — Texas' annual output of 56,000,000 pounds of farm butter is 11 per cent of the nation's total and gives the state first rank in production.

The tragedy is that two-thirds of this butter is of poor quality and serves to curb the consumption of the product on the farm and at the market. W. V. Maddox, dairy manufacturing specialist of the Texas A. and M. College Extension Service, has commented, "Yet good sweet cream butter can be produced on Texas farms if milk and cream are handled correctly."

Correct handling begins with the production of milk, which should be clean and free from objection-

able flavors, he says. Clean, sterilized utensils are essential. Cream, whether mechanically separated or hand skimmed, must be cooled immediately after separation and held at 50 degrees until churning time. Freshly separated cream must be cooled before adding to cold cream.

Maddox recommends that the different lots of cream be mixed from two to four hours before churning so that the temperature and ripening will be uniform. Use of a thermometer will help insure butter after 30 to 40 minutes of churning, and 60 degrees in summer and 55 to 60 degrees in winter, and the churning should be stopped when the granules are the size of grains of wheat.

The granular butter should be washed twice with water of about the same temperature as the buttermilk. The buttermilk, which produces off-flavors very rapidly, can be washed out, but not worked out. An ounce of butter salt is added for each pound of butter, and if this is dampened, it will be more evenly distributed.

The modern artist designs not for man but for machines, Ralph T. Walker, member of the American Institute of Architects, believes.

Attacking "streamlining" in art, Walker said architectural design would become stagnant if architects accepted modern developments as being near perfect. Concert halls built more than 30 years ago, Walker cited as an example, were acoustically superior to radio studios costing millions of dollars.

"Carnegie Hall in New York, the Academy of Music in Philadelphia, Symphony Hall in Boston, the Au-

ditorium in Chicago, the Lyric Theater in Baltimore and the Tabernacle in Salt Lake City," he said, "are more desirable for concerts than the so-called 'heavens' that have been created by experts specifically for men like Arturo Toscanini."

Walker said fire laws preventing the use of wood and slow-drying plaster, "two substances which soften music and prevent echoes," were the cause of the inferiority of modern music halls.

Entries for the tournament are being received by J. J. Bailey and H. L. Bundy. Entry fee is fifty cents for the singles and one dollar for a doubles team.

Concert Halls Of Past Called Best for Music

NO. 1236
SHERIFF'S SALE

THE STATE OF TEXAS,
County of Midland

NOTICE IS HEREBY GIVEN That by virtue of a certain execution issued out of the Honorable County Court of Midland County, on the 28 day of April 1939, by Susie G. Noble, Clerk of said County Court of Midland County, Texas, for the sum of Three Hundred Fifteen and 77/100 (\$315.77) Dollars and costs of sale, under a judgment, in favor of Foxworth-Galbraith Lumber Company in a certain cause in said Court, No. 1226 and styled Foxworth-Galbraith Lumber Company vs. A. H. Flaherty and Son, placed in my hands for service, I, A. C. Francis as Sheriff of Midland County, Texas, did, on the 12 day of May 1939, levy on certain Real Estate, situated in Midland County, Texas, described as follows, to-wit: Lot One (1) and the East half of Lot Two (2), Block One Hundred Thirteen (113), West End Addition to the town of Midland, Midland County, Texas, and levied upon as the property of A. H. Flaherty and wife, Effie Matilda Flaherty, and that on the first Tuesday in June 1939, the same being the 6 day of said month, at the Court House door, of Midland County, in the town of Midland, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said A. H. Flaherty and wife, Effie Matilda Flaherty.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in The Midland (Texas) Reporter-Telegram, a newspaper published in Midland County.

Witness my hand, this 12 day of May 1939.

A. C. FRANCIS
Sheriff Midland County, Texas.
By OLA DUBLIN HAYNES, Deputy.

Oklahoma Man Takes Job in Bowling Alley

James S. Barr of Chickasha, Oklahoma, is in the city as an employee of the new Plamor Palace Bowling Alley, which is scheduled to open soon. Barr has been connected with the American Bowling Congress at Chicago and Cleveland.

The Oklahoma man says the new bowling alley here is one of the finest he has ever seen, and complimented J. R. Harrison, owner, and Son Edwards, manager, highly on it. The new establishment will have eight alleys, lounging rooms and modern fountain; a washed air system has been installed for the comfort of the players.

Nurses in France are being trained in war duties. The nurses are being instructed in parachute jumping, in landing in the front lines and giving aid to the injured.

W. S. Hill and Miss King Married Here Today

W. S. Hill and Miss Clarice King of Colorado City were married at Broadway Camp this morning in the presence of relatives and friends.

Judge Elliott H. Barron read the marriage service. Mrs. Hill formerly worked for Postal Telegraph here. She is the daughter of Mrs. Vann King now of Sweetwater and the late Vann King, longtime resident of Colorado City.

On the Trans-Atlantic Clipper there will be a crew of seven not counting the stewards; a captain, first officer pilot, second officer pilot, third officer pilot-navigator, engineer officer, radio officer and a junior flight officer.

I Wouldn't Mind Living On Kuku Isle..... Solo by Whizzle
Down With Everything..... Chorus of Boys
Let's Think of All the Lovely Things..... Duet by Darrell and Sally
When Dreams Come True..... Finale by Ensemble

STORY OF THE PLAY

King Ko-Ko, doughty ruler of Kuku, angered by the frivolous customs of the civilized world brought to the Island by tourists, has announced to his people that they must return to the good old cannibal ways of their forefathers. The tribe is rebellious but his will prevails. A primitive marriage rite and festival is interrupted by the crash of an American "Clipper Ship" on their beach.

The rescue party brings six badly bruised castaways in and they begin making plans of turning the native paradise into a modern community with everything from a Chamber of Commerce to electric lights. The Chief, determined that civilization shall make no further inroads on the life of his people, orders the castaways put to death.

The Americans try desperately to save the group from death. Finston Whizzle, an electrical supply salesman, makes love to the Chief's daughter, La Goona, hoping she can get them freed. Johnny Darrell, pilot of the plane, offers his engineering talents to develop comforts for the Chief. Bruz, the 14-year-old son of the President of the Airlines, organizes a rebellion among the young native boys, while Cissie, his sister, amuses herself by making ice-cream in the electric refrigerator carried by the plane. Miss Throttlewaite, their governess, offers to sacrifice herself in marriage to the Chief. The climax is precipitated when Ono, a young native, tries to abduct Sally Harrison, the pretty schoolteacher, who is in love with Johnny Darrell.

All of these efforts are in vain and they are about to be put to death when Cissie wanders in with a tray full of ice cream, which she offers to King Ko-Ko. His surprise and delight are unbounded. Declaring that ice-cream is the only good thing that civilization has ever brought to the Island, he commutes the death sentence, providing that forever after he be furnished with as much ice-cream as he desires. The various love affairs are brought to a happy solution, and all look forward to living a long and Simple Life, tempered by a few modern conveniences, on Kuku Isle.

NOTE

The stage scenery was painted by members of the seventh grade class under the direction of Miss Payne Hogue. The art department of the Junior High School made all of the leis, many of the flowers, and other stage properties used in the operetta.

Labor Camps to Be Replaced

Migratory labor camps similar to the one shown above will be replaced with modern facilities under a program which will be initiated by the Farm Security

Administration in Texas May 17. C. M. Evans, regional director of the FSA, will make the first purchase of land for the pro-

jects at Raymondville. He said health conditions in many of the present camps are a menace.

Plebe Talent Tops Par for Navy Eleven

ANNAPOLIS, Md. (UP) — More than an average number of last year's plebes are likely to see varsity or second string action with the Navy football team next fall.

With spring practice at an end, coaches at the Naval Academy admit that some likely plebe talent was uncovered. They say, too, that the Tar eleven will probably be better fortified at center than any previous time in recent years. They give as their reasons, Harold Harwood, 180-pounder from Los Angeles, who last year, his first on the squad, shared the varsity pivot position.

Up from the plebe team, is a brilliant young prospect, W. E. Sims, 190 pounds, from College Park, Ga. Both Harwood and Sims will have two more years of varsity football, for Sims played one year of varsity at Georgia Tech before entering Annapolis. This pair will likely wage a merry battle all season for the starting position.

Opp Shapes Up as Tackle. Another outstanding plebe is Dick Opp, 197-pound tackle. Opp is being groomed as varsity tackle along with Allen Berger. In view of Opp's showing Tom McGrath, tackle, has been converted into a guard. Rex Trimble, injured and out much of last season, is another outstanding guard who will be back.

Navy's largest midshipman, Harold Hansen, substitute back, has been converted into an end. Hansen, brilliant pass defense expert, will fight it out with Dick Corbett, Lou Burke and J. B. Schmitz, a promising plebe from Akron, O., for the varsity assignment. Schmitz weighs 176 pounds.

Vogts, fine plebe end of last year, has been changed by Capt. Emery E. "Swede" Larsen, head coach, into a tackle. Backfield Coach Keith Molesworth won't say much about his backs but he lists five players up from last year's exceptionally good plebe team, "as very promising." Heading the five is R. E. Leonard.

Nazis Consider Rise in Births As Inadequate

BERLIN. (UP) — Germany still does not have a sufficiently high birthrate to suit ambitious Nazis, despite propaganda, insignia, and special privileges for mothers of large families, and state marriage loans up to 1,000 marks, which are paid with the arrival of the fourth child.

The state program of birth promotion actually raised the German birthrate from 14.7 per thousand in 1933 to 19 in 1936, while England's, for instance, lagged at 14.4 and 14.8. Statisticians esti-

mate there will be 80,000,000 Germans, excluding Czechs, by 1950. The population of England and Wales meanwhile will decline, until 60 years from now there probably will be 20,000,000 fewer Britons.

But even present German births will not prevent the death rate from ultimately catching up and reducing the number of Germans during the next 60 years. Births are 11 per cent too low, says the Nazis; hence, redoubled efforts.

Study on Religions Made. The magazine Waechteruff suggests the birth deficit could be made up by somehow eliminating inter-denominational marriages, it having discovered that the average Protestant marriage yields 2.43 children; the average Catholic, 3.65; but the average mixed-religion marriage on 1.49. Thus, it figures, Germany has been deprived of 1,500,000 babies.

The mayor of Wattencheid in Westphalia in northwestern Germany meanwhile has gone to the heart of the question and decided to subsidize unmarried mothers —

in addition to boosting subsidies to medium-sized families. The mayor specifies that all unmarried mothers born before 1910 may expect the bounty of his city "because the men nature intended to be theirs were killed in the war."

He adds that the births must not be accidental, but planned in advance and cooperation with the authorities, who must approve of the father involved as "healthy and racially valuable."

Benefits More Substantial. With the first child the unmarried mother begins to receive the special bonuses of the city of Wattencheid ordinarily intended for later arrivals. These benefits are: Grants of 100 marks at the birth of third, fourth and further children born after April 1, 1939; and "the required capital for the erection of a home or acquisition of a healthy modern four-room apartment with bath renting for not more than 35 marks a month" for every healthy family which has fourth, fifth or further children after Jan. 1, 1940.

It is not explained whether the unwed father shares in these benefits. Finally, the mayor announced, "for these—honorable born—children the city of Wattencheid assumes the role of godfather. Further, the city's godchildren receive a savings account of 500 marks at birth and may count on the special attention of their city until they attain their majority."

N. E. A. Official Scores Married Teacher Ban

MEMPHIS, Tenn. (UP) — Dismissal of school teachers when they marry is class legislation and a rank injustice, in the opinion of Mrs. Myrtle Hooper Dahl, president of the Classroom Teachers Division of the National Educational association.

"If such practices are continued it eventually will result in many schools being filled with inexperienced teachers," she said. "If teachers must resign when they get married, there is no inducement for them to enter the teaching profession."

It is reported that the Clippers of Pan-American Airways carry about 300 items of emergency equipment. The equipment is provided for the entire list of passengers and crew with a 25 per cent reserve.
