## SO THEY SAY

### Victory for Press Freedom

(The Texas Weekly.)

Three weeks ago there was published in The Texas Weekly an article titled "Is Press Freedom Menaced in Texas?" in which an associate editor of The Weekly discussed the adoption by the Austin City Council of an ordinance regulating the solicitation of advertising and subscriptions by newspapers. This ordinance made it unlawful for any person "to solicit advertising, to sell or offer to sell subscription contracts for any magazine, book, periodical or newspaper... within the City of Austin without having first made application and obtained a permit from the City Manager". It also set up regulations governing the solicitation of funds "in the name of charity, patriotism, or philanthropy". But the first paragraph of the first section of the ordinance dealt with the solicitation of advertising and subscriptions by newspapers and other publications. The Weekly writer declared that, regardless of the worthy purposes of the ordinance, it gave the City Manager the right to say whether or not newspapers could live, and pointed out that the issue raised by passage of the ordinance was of much more than local significance—that, indeed, it was "the business of the people of the entire State... the business of all the newspapers of the State".

In the "Views of Our Views" section of this issue of The Weekly are to be found editorial opinions of various newspapers on the Austin ordinance. Leading editors of the nation joined with The Weekly writer in condemning that section of the ordinance affecting the press. Editor and Publisher interested itself in the controversy. The ordinance was denounced on the floor of the Texas House of Representatives. The Weekly writer declared that the issue raised by passage of the ordinance was "freedom of the press versus restriction of the press", and there was widespread agreement with that statement on the part of newspaper and of individuals concerned with the maintenance of a free press in Texas and in the nation.

To those newspapers and those individuals The Weekly is pleased to pass along the information that the ordinance is dead. Because of local opposition to the ordinance the Austin City Council requested the county attorney to submit it to the Attorney General of Texas for a ruling, and the opinion subsequently delivered held that the measure was "unconstitutional and invalid in its entirety". No opinion was given on the specific question of whether the ordinance involved an unconstitutional interference with the freedom of the press. It was held to be unconstitutional because it provided "no rules or standards governing the City Manager in approving or disapproving applications made under it".

Anyway, the ordinance is dead and out of the picture. As written, it deserved no better fate. Advertising racketeers and "charity" racketeers ought to be regulated, of course; but there surely must be some way of regulating them without infringing upon the freedom of the press. Free newspapers, independent and fearless, are essential to the preservation of a free society. If newspapers have to fight to maintain their freedom, they must fight, that's all.

## BRUCE CATTON IN WASHINGTON

WASHINGTON, June 13. — A slow, but significant drift in New Deal thinking in regard to business loans is in progress these days. It is headed up by the various lending proposals which are now under public discussion, and it points in the directions of vastly increased exercise by Washington of functions which even the New Deal has heretofore considered the private banker's job.

Most obvious, of course, is Senator Mead's loans-for-small-business bill. This wouldn't put the government directly into the banking business—or, at least, not all the way in. Basically, it is simply a plan to guarantee private-bank loans up to 90 per cent.

Next comes A. A. Berle's proposal for a government agency to lend money to business men or firms which had new construction programs in mind. This might either take the form of direct loans or of the purchase of bonds. It is commonly referred to under the name of the capital-credit system.

### STEPPING TOWARD THE BANKING BUSINESS.

The Berle plan is a step beyond the Mead plan. It may also be significant to notice that a step beyond the Berle plan is the proposal for a capital issues banking system which is being advocated by the American Association for Economic Freedom, and which will be introduced in Congress before the present session ends.

This last scheme would simply have the government take over the functions of the ordinary investment banker. The underwriting and distribution of all capital issues would be handled by a government organization set up somewhat along the lines of the Federal Reserve System.

It would put the private investment banker out of business—an aim which is also in the back of the minds of those who are talking up the Berle plan.

All of this is not to say that the Roosevelt administration is committed to any such step as this.

H. RALPH BURTON currently is an investigator for the House committee which is probing into the foibles of WPA, large and small. As such, he has presented to the committee a considerable mass of evidence which has been highly embarrassing to WPA.

Which somehow makes it interesting to report that approximately four months ago Burton—not then employed by the congressional committee

## The Search for Security

—went to WPA headquarters here and asked for a job on WPA's own investigating staff. He got turned down, soon after was hired by the committee.

### U. S. H. A. IS ROUGH ON RATS.

THE U. S. Housing Authority probably is responsible for the death of more rats than any other outfit in the country. When new dwellings are built under USHA programs, the law provides that an equivalent number of slum dwellings must be destroyed. These, the USHA people have found, are invariably rat-infested.

If left to themselves, the rats would simply move into the new buildings along with the tenants.

### WAGNER CHANGES READY—ALMOST.

HARRY HOPKINS' Business Advisory Council has put in weeks trying to work out a set of Wagner Act amendments that could get White House approval. The job is nearing completion.

It is said to include provisions for increasing the Labor Board membership to five, permitting employers to petition for elections, and modifying the rule which prohibits an employer from discussing labor problems with employees.

Hopkins is reported to favor this personally. However, he'll

On today's front page you will find news of water restrictions imposed by the city council. There is no cause for alarm, as there is decidedly no shortage of water at Cloverdale. The only factor of inconvenience is that of running water through the ten inch main line from Cloverdale to town during a few hours in the late afternoon, when everybody starts watering lawns at once.

Observance of the restrictions by all water users will prevent any reduction in pressure in the evenings, with plenty of time left for watering lawns, trees, shrubs and flowers. Just let the watering alone from 10 a. m. to 5 p. m. and from 10 p. m. and everything will be all right. Meanwhile the city officials are attempting to get some of that PWA money which is being spread over the country, so as to get another line laid from Cloverdale to town.

TO BOY... Many are the friends of man; but not all walk in the stature of human beings. Love, Loyalty and Service may come from the heart of those companions who never occupy the pedestal which man has reserved unto himself.

Boy was only a dog. But the virtues extolled by the gods of Delphi, Thebes and Karnack filled his heart, and his soul gave Loyalty and Labor to those who travelled with him through this vale of tears. He died the death of a martyr to the recklessness of civilization; and as he gave himself on the altar of dumb faithfulness, he no doubt felt the cruelty of inhumanity that makes countless millions mourn.

His last salute with the wag of his tail, as the spirit of life left the broken body and winged its way toward the Western horizon, said only too well: "Happy Landings, Tony."

It has been estimated that in the United States there is one filling station for every mile of surfaced highway.

Cotton cloth is an excellent binder for roads where concrete is costly. Around 20,000 miles of macadam roads are built each year, and another 45,000 miles repaired annually. Use of cotton cloth accounts for seven bales per mile.

Cotton fabrications houses are being tried out now, Lichte says. A five-room cotton house, with steel construction complete without central heating plant runs to around \$2,200.

## Editors Elect and Look Ahead to Texas of Tomorrow.

LUBBOCK — West Texas hospitality was extended to editors of the state when the Texas Press Association met during the week-end. 1—Walter Buckner, San Marcos Record, was elected president. 2—Nearly 200 members registered. 3—Charles K. Devall, Kilgore Herald, was elected vice-president, office that by custom leads to presidency. 4—Sam F. Harber, Richardson Echo, was elected to thirty-year past as secretary. Past presidents gave him a scroll of appreciation for three decades service. 5—Mrs. A. B. Davis of Lubbock poured tea for editors' wives; photo shows her serving Mrs. Deskins Wells, wife of retiring president. 6—Charles A. Guy, Lubbock Avalanche-Journal, was convention host, and Mrs. Guy hostess to women attending. 7—Lowry Martin, Comstock Sun, presented key of State Fair of Texas' sealed Golden Jubilee record box to retiring President Wells. 8—Ellington Leake, to be handed down year-to-year to presidents until 1988. 9—Lynn Landrum, Dallas News, was opening speaker. 10—James F. Donahue, Tyler Courier-Times and Telegraph, new executive committee member, responded to welcomes. 11—East met West—Presidents of regional associations attending were Jack McDermott, Lufkin News, and Douglas Meador, Matador Tribune. 11—Ray H. Nichols, Vernon Record, was program chairman. Invitations for 1940 convention came from Mineral Wells, Galveston, Waco, Hartlingen, and Lufkin. Big Spring bid for convention in 1941.

### More Uses for Cotton Crop Still Sought

COLLEGE STATION, Texas. — It is estimated that 99 per cent of the world's population uses cotton in one form or another, and still the search for more uses for cotton goes on.

This time F. E. Lichte, cotton gin specialist of the Texas A. and M. College Extension Service, comes up with the idea that increased consumption of cotton in already established lines is needed.

"Insist on cotton materials instead of cotton substitutes," he says. "We know of a silk producing nation whose law prohibits its people from wearing clothes containing cotton. Of course we want nothing like that, but we can use more cotton."

Cotton cloth is an excellent binder for roads where concrete is costly. Around 20,000 miles of macadam roads are built each year, and another 45,000 miles repaired annually. Use of cotton cloth accounts for seven bales per mile.

Cotton fabrications houses are being tried out now, Lichte says. A five-room cotton house, with steel construction complete without central heating plant runs to around \$2,200.

Cement in returnable cotton bags

is cheaper than cement in paper sacks; asphalt treated cotton is being used as ditch and canal linings; cotton mats for curing concrete roads have been made to replace the usual method of curing by ponding. And so it goes.

### Pineapple Shipments From Mexico Heavy

LAREDO (AP).—Pineapples from southern Mexico are arriving here at the rate of 15 carloads daily, and through May 24, about 175 carloads had been cleared through the port of Laredo. Upon arrival the fruit is sold largely to truckers who distribute it to markets mainly in Texas, Oklahoma and Kansas. The shipping season begins in May and lasts 60 to 90 days.

The pineapple is a slow growing

fruit and requires from 18 to 20 months from planting to maturity. As soon as the crop is cleared off the fields young plants are set out for the next.

### Farm's Cheapest Power Still Is the Windmill

ST. PAUL, Minn. (UP). — For the cheapest source of power available to the farm, A. G. Tyler, agricultural engineer at the University of Minnesota, suggests the farmer turn to the windmill.

"Farmers looking for farm power with low first cost, no operating cost, general reliability and freedom from monthly charges," Tyler points out, "should give first consideration to the windmill."

### Circle Plans for "Bridal Gown Revue" At Church June 28

Plans for a "bridal gown revue" were made at the meeting of the Rebecca circle of the Presbyterian auxiliary with Mrs. Jack Hawkins, 205 North H street, Monday afternoon. The revue will be held at the Presbyterian church at 8:00 o'clock on the evening of June 28 and will feature the wedding gowns worn by various members of the circle.

The following committees for the revue were appointed: Music, Mrs. Frank L. Elliott; decorations, Mrs. Jack Hawkins; gowns, Mmes. A. M. McClure, John W. Skinner, W. M. Osborn, Fred Kotyza; models, Mrs. Richard Peters; announcers, Mrs. G. W. Herrington; ushers, Mrs. R. F. Carroll; publicity, Mrs. Bill Collyns.

During the business session, it was also decided to meet at 10 o'clock in the morning during the summer months rather than in the afternoon sessions.

Mrs. A. E. Horst was leader of the program on "Week-day Schools of Religion." Assisting her in discussion of the subject were Mrs. W. M. Osborn who spoke on "Week-day Religious Education" and Mrs. W. B. Stowe who talked on "The Situation of Our Church."

Mrs. Horst read the poem, "Opportunity."

The day's devotional was brought by Mrs. Richard Peters.

Repetition of the Lord's Prayer

Special prices on RUGS and LINENS: 9x12 \$25.00, \$32.50, \$42.50. 5x8 \$12.50. Linen baby dresses 45¢ & 95¢. Also bridge sets, table cloths and handkerchiefs; all sizes. SHAHEEN ORIENTAL SHOP Next Door to Yucca

### Take Along an Extra Pair of Glasses This Vacation

This trip was easier with these new Ray Ban goggles from Dr. Inman.

It's a pleasure to spend a vacation behind these "cool" lenses from Dr. Inman.

Ray Ban Goggles are the newest sun glasses made by Bausch & Lomb. They are scientifically correct in color—ground and inspected even as a fine gem. They are optically correct and cut out infra-red and ultra-violet light. Ray Bans may be had in your prescription, too.

### Baptist Circles Hold Study Sessions Monday Afternoon

Study of the second and third chapters of the text, "What Baptists Believe" occupied the meeting of the Lockett circle of the Baptist missionary society with Mrs. Ben Black, 111 North G street, Monday afternoon at 4 o'clock. Mrs. E. F. Conner, study leader, conducted the lesson, assisted by Mrs. F. E. Curtis, Mrs. Guyser, and the circle chairman, Mrs. Chas. West.

The hostess brought the devotional for the day and Mrs. R. L. Denham offered the opening prayer. Present were eight members including: Mmes. Curtis, West, Conner, Ray Blackburn, Denham, Guyser, Cecil Aycock, and the hostess.

#### Kara Scarborough Circle

Mrs. C. G. Murray, 717 W Louisiana, was hostess to Kara Scarborough circle, seven women being present.

Mrs. S. L. Alexander taught the lesson on "What Baptists Believe." The devotional was presented by Mrs. S. T. Cole, the opening prayer by Mrs. Myrtle Scarborough-Smith, and the closing prayer by Mrs. Alexander.

Refreshments were served after the lesson to: Mmes. Alexander, A. T. Donnelly, Fred Middleton, Eula Mahonek, Cole, Scarborough-Smith, and the hostess.

#### Joint Meeting

Annie Barron and Glenn Walker circles met in joint study session at the home of Mrs. Geo. Grant, 1401 W. Illinois, with Mrs. R. Chansler as chairman.

The meeting was opened with group singing of "Count Your Blessings."

Mrs. Chansler brought the devotional. Others taking part on the program were Mmes. Paul Barron, R. O. Collins, and J. Boyd East who discussed topics from "Keys of the Kingdom," and the hostess who opened the meeting.

Ten members were present.

#### Ruth Circle

Ruth circle met at the home of Mrs. W. G. Whitcomb, 1905 W. Col. Ave., Monday morning at 9:30 o'clock, with 12 members present.

Mrs. J. M. Devereux gave the lesson. Mrs. Stockton brought the devotional.

Refreshments were served after the study period.

### Why Let Yourself Get Constipated?

Why endure those dull headachy days due to constipation, plus the inevitable trips to the medicine chest, if you can avoid both by getting at the cause of the trouble? If your constipation, like that of millions, is due to lack of "bulk" in the diet, the "better way" is to eat Kellogg's All-Bran. This crunchy toasted breakfast cereal is the ounce of prevention that's worth a pound of emergency relief. It helps you not only to get regular but to keep regular day after day and month after month by the pleasant means you ever knew.

Eat Kellogg's All-Bran every day, drink plenty of water, and see if you don't forget all about constipation. Made by Kellogg's in Battle Creek. Sold by every grocer.

### Modern Outdoor Furniture Boasts New Individuality

Smart and new for sunporch, terrace or backyard is this Danish reed furniture. The cushions are of waterproof rep and come in various colors. The table top is of heavy, cracked glass in a soft shade of aquamarine.

By MARIAN YOUNG  
NEA Service Staff Correspondent

NEW YORK.—Smartly beautiful furniture for porch, terrace or lawn no longer is something which has to be moved into the house when it rains or be repainted once during the season. It doesn't necessarily have to look exactly like the outdoor furniture of every other home on the street.

Outdoor furniture has taken on a new importance. And, regardless of how much or how little you have to spend, there are the right pieces to suit your individual requirements.

#### GLASS-TOPPED SET HAS IRON FRAMES

There are casual, rustic chairs,

divans and tables, in rattan, wood or aluminum and wood, on which guests in slacks or shorts may sprawl in sublime comfort. There are more formal types in wrought iron and glass or fine reeds for elegant terraces and elaborate sunporches. All types are teamed up with fade-proof, water-proof cushions, of course, which can be no more harmed by a little shower than the furniture itself.

One lovely set of terrace furniture includes a long table with glass top and iron frame, painted white; a serving table in matching glass and iron; six chairs with the design for the back of each resembling the branch of a tree and the cushion in a colorful striped material.

#### CHILDREN'S FURNITURE MATCHES ADULTS

For solid comfort, a reed lounge chair with a matching hassock, can't be beaten. Cushions for both come in a variety of colorful printed material, sun-fast and moisture-proof. Incidentally, it's easy to find for the children of the family charming little club and rocking chairs to match the rattan or wood outdoor furniture for adults.

To take along to the beach or on a picnic, there's a new rattan table with a cork top and short legs. There are tall, woven wood screens to put across the corners of a porch on chilly evenings. And there are new canopied hammocks which can be moved about as easily as chairs.

### "Condition" Your Hair for Permanent

By ALICIA HART  
NEA Service Staff Writer

Unless your hair is naturally curly or happens to look well when worn quite straight, an important aid to your peace of mind during summer months is a new permanent wave. And one way to be sure that the wave will be all you hope is to make sure that your hair is in proper condition.

It's an excellent idea to go in for reconditioning treatments for at least three weeks before you get a new permanent. Brush your hair every single night; use a tonic to correct whatever scalp defects you happen to have, and use it according to directions; have, if possible, some kind of weekly scalp treatment.

#### HOT OIL BEST FOR DRY HAIR

For dry hair, hot oil treatment

### FRIDAY

Belmont Bible Class will meet at 3:30 Friday afternoon with Mrs. D. E. Holster, 206 S. A.

### SATURDAY

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5. The public is invited.

The Midland University club will sponsor its monthly dance in the Crystal ballroom of Hotel Scharbauer Saturday evening from 9:30 o'clock until 1:30. Layton Bailey and his orchestra will play. The dance will be informal and invitational.

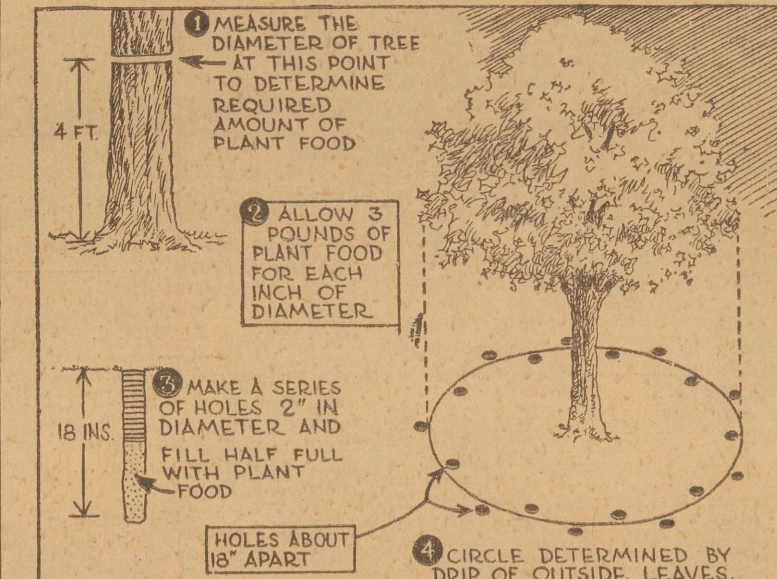

### ANNOUNCEMENTS

WEDNESDAY.  
Merinda club will meet with Mrs. J. F. Sirdevan, 504 N. Marlenfeld, Wednesday morning at 10 o'clock.

Seniors of the Methodist Sunday school will have a picnic at Cloverdale Wednesday evening with Mr. G. D. Taylor's class as host.

FRIDAY.  
Methodist women's missionary society will sponsor a program of

### Big Trees Need Food Where Roots Can Reach It

The stately old trees that beautify your home would be difficult, and certainly costly, to replace if they should die. Old trees seem so strong and hardy that few of us ever consider their well-being, yet they are subject to disease and the ravages of insects as are all forms of plant life. Trees really don't require very much attention unless decay has already set in. The important thing is to be sure that they are supplied with a sufficiency of all the food elements they require. A well fed tree, like a well fed animal, seldom succumbs to disease.

Supplying your old trees with plenty of all the plant food elements they require is not at all difficult, for the complete plant food that beautifies your lawn and garden and makes your vegetables tastier, as well as quicker maturing, will also have the desired effect on your old trees.

The process of tree feeding is quite simple. First you determine the amount of complete plant food required by the tree which you are going to feed. To do this measure the diameter of the tree at a point about four feet from the ground. To each inch of diameter allow three pounds of complete plant food. Inasmuch as the main feeding roots of a tree extend out in a circle equivalent to the circle made by the drip of the branches, this is the proper place to apply the plant food. Make a series of holes, two inches in diameter and about eighteen inches deep under the drip of the branches in a zigzag fashion. The holes can be made best with a ground auger but a crowbar or other pointed device can be satisfactorily used. Fill the holes full of the complete plant food and complete filling with soil. That is all there is to tree feeding—really it is easier to do than it is to tell about.

cannot be beaten. Simply rub hot olive oil into your scalp and the dry ends of hair, then wring a towel out of very hot water and wrap it around your head. The steam will help to drive the oil into your scalp. When the towel has cooled, again dip it in hot water, wring as dry as possible, wrap it around your head, then cover with a dry towel for a few moments.

Now place your elbows on a table, put your head in your hands and massage your scalp for three or four minutes. Afterward, shampoo in the usual manner, using a liquid shampoo, of course, and rinsing thoroughly.

For exceptionally oily hair, a pine tar or a balsam oil shampoo often is recommended. There are plenty of prepared shampoos which contain quantities of pine tar. And it is possible to buy balsam oil for use at home. To use it, simply rinse hair with hot water, pour on the oil, work it into scalp and hair for several minutes, then rinse out. Naturally, the rinsing requires time and patience. Thick balsam oil does not rinse out as easily or as quickly as soap.

### "The Radiant Heart" Studied by Group of Methodists

Study for the afternoon was conducted by Mrs. W. Earl Chapman from the book, "The Radiant Heart" by Coster J. Harrell, at the meeting of Belle Bennett circle of the Methodist missionary society at the church Monday.

Sentence prayers were offered by Mrs. N. G. Cates, Mrs. Prothro, and Mrs. Chapman.

The missionary society will sponsor Miss Mayme English-Lilloite in a program of readings from the poetry of James Whitcomb Riley on Friday evening at 8:00 o'clock in the Crystal ballroom of Hotel Scharbauer.

The public is invited to attend the program, admission fees being 25 cents for adults and 15 cents for children.

The cattle industry flourished in the province until an embargo was clamped down many years ago on exports to Great Britain. The embargo was lifted some time ago.

It is believed that revival of the beef cattle export industry would benefit New Brunswick agriculture as a whole, and especially encourage farmers to produce their own grain.

Turkish towels need no ironing—simply shake them when dry to fluff up the pile. Then press off the hems with a warm iron. Any loose ends or pulled threads should be clipped off even with the pile—never pulled. A firm, tight underweave, close even pile, firm selvages and well-finished hems should be assurance of long-wearing towels.

**PLYMOUTH BUILDS GREAT CARS**

# Here's the Score of "All 3" Low-Priced Cars on 25 Big Features Found in Most High-Priced Cars

PLYMOUTH	20
CAR "2"	9
CAR "3"	7

PLYMOUTH IS MOST LIKE THE HIGH-PRICED CARS

See this chart. Your Plymouth dealer will gladly show you this complete list of quality features.

THOUSANDS are learning it—Plymouth is the one low-priced car most like high-priced cars. Manufacturers naturally put the finest quality of engineering into their high-priced cars. But Plymouth alone of "All 3" low-priced cars has the majority of the 25 high-priced car features.

Note a few of these features:  
X-Braced Frame  
"L-Head" Engine  
Four Springs Per Piston  
Coil Springs (All Models!)  
The Plymouth "Roadking" has 20 of the 25... the De Luxe has 24!  
PLYMOUTH DIVISION OF CHRYSLER CORPORATION, Detroit, Michigan.

# LATE INNING RALLIES GIVE COWBOYS 8-7 WIN OVER PIONEERS

## Leonard to Be On Mound for Locals Tonight

The Midland Cowboys, back on home soil once again, last night racked up an 8-7 victory over the Clovis Pioneers in the first of a three-game series.

The Cowboys had to win the battle the hard way after giving the visitors five unearned runs in the second inning. But they finally managed to pull the game out of the fire by making three runs in the seventh, two more in the eighth.

Vickers, a new member of the Cowboy hurling staff, was on the mound for the Cowboys and hurled seven-hit ball. However, he was plenty wild in the second inning, giving up three walks along with two hits and two errors for the five tallies.

Jake Christie, one of the leading pitchers in the league last year, was on the mound for the Pioneers but was very plainly off form. He not only gave up an even dozen hits but walked no fewer than seven men.

The payoff blow of the game was delivered by Anderson, a catcher who hails from Odessa. After appearing very ordinary indeed during his first four trips to the plate he got hold of a curve ball that broke right across the plate about belt high in the eighth to send the tying and winning runs across the plate.

The two clubs will meet again tonight at 8:30 and "Slim" Leonard will probably be on the mound for the Cowboys.

After the Pioneers had made their five runs in the second frame last night the Cowboys started the long climb back by getting two in the third frame on two walks, fielder's choice and one base hit.

The Pioneers got another in the fourth but the Cowboys managed to call it with one of their own on an error, single and infield out.

Both sides were retired scoreless in the fifth but in the sixth the Pioneers made another run to make the score 7-3 in their favor.

However, the Cowboys started making their hits count in the seventh, rolling up three runs before they could be retired. Saparito started it off by drawing a walk. Joe Piet hit a hard single into right and Saparito scored a moment later when Guynes hit a single into center. Guynes was thrown out trying to stretch the hit into a double but Anderson followed up with a walk and Bob Wooten got a single to send one run home, then Johnny Volk came through with another bingle to send another runner home.

After Vickers had retired the visitors in order in the eighth the home club came to life with enough vim to sew up the game in their half. Pezold was out on an infield

grounder to start the frame but Saparito came through with a single and Piet followed him up with another to send him to third. Saparito then got in a chase between third and home and was finally tagged out by third baseman Harrison. However, Piet worked his way around to third while the chase was going on. Guynes then walked, stole second and raced home behind Piet with the winning run when Anderson got his single.

The box score:

Clovis		A	B	R	H	O	A	E
Smith	lf	5	1	1	0	0	0	0
Miller	2	3	2	1	3	5	0	0
Wagner	1	5	0	1	8	1	0	0

Struck out: by Vickers 6, Christie 7. Base on balls: off Vickers 5, off Christie 7. Left on base: Midland 12, Clovis 6. Earned runs: Midland 7, Clovis 2. Umpires: Howell and Capps. Time: 2:10.

## Clinic Reports Exercise Cures Crossed Eyes

WINNIPEG, Man. (U.P.)—A clinic for the treatment of children afflicted with crossed-eyes here reports a number of cures.

Contrary to general belief, doctors attending the youthful patients state that crossed-eyes persons do not see double. Instead they are able only to see an object with one eye at a time. Medical men say that the only time crossed-eyes persons see double is shortly after the onset of the affliction.

Treatment of patients is free to those unable to afford payment. The children are placed in front of two glass shutters through which are visible two separate objects. Then while the patient's eyes follow the process, the two objects are brought closer and closer together until they are superimposed.

"The result? Exercised eye muscles, and in many cases a resultant cure. If the treatment is ineffective the affliction is then corrected by an operation. To date, however, 40 children have been discharged as cured through eye exercise alone."

University Prof. To Study Kilauea

AUSTIN—Recent dispatches that Kilauea, Hawaiian volcano, is on the verge of eruption were of unusual concern to Dr. F. M. Bullard, University of Texas geologist, preparing to leave Los Angeles, June 8, bound for the fiery mountain.

Using Kilauea for his laboratory—4,000 miles from the University campus—Dr. Bullard will study at the United States volcano observatory which perches on the brink of the most active, yet tamed volcano in the world.

Before leaving Austin Friday, Dr. Bullard expressed hope he would see the volcano in eruption.

The University professor of geology, whose microscopic study of igneous (fire-formed) rocks has drawn him to the Hawaiian crater edge, will return to the campus here in September.

The Kilauea observatory is one of three such laboratories in the world. The other two are on Mt. Pelee, Martinique, and Mt. Vesuvius, Italy.

er nation was trying to save her life.

When Wilcox's silent film about Edith Cavell was finished in 1929 it was widely banned at the request of the German government. Warner Brothers, today the most bitter Hitler-haters, was one of the companies that refused to release it in America.

But this picture is not going to be anti-German, said Miss Neagle and Wilcox, supplementing each other's assurance. More than anything, she said, it is a straightforward, factual recounting of a great human drama. If it is anti-militaristic, she said, it is anti-militaristic. The tragedy of the Cavell execution is more a study of the implacable, pitiless, workings of a military machine. (Much on the order, I gathered, of "The Case of Sergeant Grischka.")

There are, in fact, several sequences which definitely are in sympathy with the other side—the distress of her jailer; the withdrawal of an officer who finds her administering to a wounded,

hunted, allied officer; the admission of the court-martial prosecutor that he had no evidence of her espionage; the refusal of a member of the firing squad to raise his rifle against her. (The latter was shot dead by his commanding officer and was buried in the same grave with Nurse Cavell.)

WILL DISCARD MAKEUP

Blue-eyed, vivacious Anna Neagle, who has proved that she can play anything from a girl to an octogenarian with makeup, will play this role without any makeup at all and may look something like her actual 34 years. Edith Cavell was older, but age really has nothing to do with the story.

Miss Neagle taught ballroom dancing once, and then got into the choruses of *Charlot* and *Cochran* reviews. She's awfully modest about her rise. "I went into a musical comedy lead literally on the shoulders of Jack Buchanan," she said. "That was in 'Stand

UP and Sing," and she scored a tremendous personal success. "And afterward, in my first picture, I merely had to be adequate." (She became a star almost immediately.)

"It always makes me laugh to hear picture people grumbling about their hard lives, when they're doing such interesting things and earning 10 times more than anybody else. Even if it is a strain, and all that, I don't mind having been lifted out of the rut. I'd probably have been a shopgirl by now."

DEER ISLAND, N. B. (UP).—Fishermen here are getting more for the fish scales than they are for the fish.

Many fishermen are engaged in gathering herring scales, for which a demand exists in Eastport and Luzec, Me., where pearl essence

Paul Harrison in Hollywood

By PAUL HARRISON  
NEA Service Staff Correspondent

HOLLYWOOD.—Anna Neagle is the only actress who does the research for her own pictures. Judging by her enthusiasm for the next one, "Nurse Edith Cavell," it seems like a good idea, and her industry should stand as a mild reproof to the many players who begin a production with only the foggiest notion of the characters they're supposed to portray.

Fortunately this English star, famous for her historical roles, likes history. She dug out all the information for the screen play of "Victoria the Great," which she then helped translate into a celluloid document by impersonating the queen between the ages of 18 and 81.

More recently she appeared in another Victorian film, "Sixty Glorious Years," which so far has grossed \$1,600,000 in the empire but hasn't been released in this country. It is to be shown here, under the title of "Queen of Destiny," after Miss Neagle becomes better known to American audiences through the drama of Edith Cavell.

Producer Herbert Wilcox and his star came over here a few months ago with the idea of making a boisterous flick about the life of the late (1929) Marie Lloyd. In New York, Movie Critic William Boehnel told Wilcox that America knew little and cared less about Actress Lloyd, and that the producer might better do the story of the martyred Cavell, whom he once had dealt with in a silent film.

HAS CAVELL'S OWN BIBLE

Wilcox and Miss Neagle decided, so, too, and the latter has been up to her ears in books, government reports and personal letters dealing with the Cavell activities and execution in Belgium. She even has Miss Cavell's Bible containing the owner's stark entries during those mid-October days of 1915 when ev-

# Pitchers Lead Parade of Nationally Known Softball Talent

Last of three articles on softball, America's fastest growing sport.

BY JERRY BRONDFIELD.  
NEA Service Sports Writer.

THEIR names don't make the headlines in big, black type used for major leagues, but softball has its Babe Ruths, Carl Hubbells, Bob Fellers and Joe Medvicks.

It wasn't so long ago that stars of the game were known only locally. Now national reputations are being established by Shifty Gears of Rochester, Chet Ternacki of South Bend, Lalo Escarrega of Los Angeles, and dozens of others whose ability to handle and swat the 12-inch ball places them in the All-America class.

Particularly outstanding are a dozen or so pitchers, who taking advantage of the 40-foot distance between the box and home plate, have compiled amazing records. Combining terrific speed with plenty of stuff on the ball they stand forth as 'the greatest figures in the game.

Possibly the outstanding flinger in softball today is Harold (Shifty) Gears, star of the Eastman Kodak team of Rochester. Veteran softball observers say he has the greatest assortment of tricks in the business.

Monday Ciesielski

Dorothy (Boots) Kluppig

PITCHES TWO NO-HITTEES IN NATIONAL TOURNEY.

FASTEST pitcher in softball is Norb (Cyclone) Warken, of the Carr Boosters club of Covington, Ky. He pitched two no-hit, no-run games in the national tournament in Chicago.

Chet Ternacki, 200-pound hurler for the Bendix Air Brakes of South Bend, has won 96 and lost only 10 in the last three years. In 1935 he pitched the Toledo, O., Crimson Coaches to a national title, and led the "Big" Body club of Detroit to the same honor in 1937. Leading Briggs pitcher now is big Ed Figelski.

Ray Kaczmarek playing for the St. Joseph, Mich., Auto Specialists has the greatest change of pace in the sport. His slow ball is virtually impossible to time.

At the age of 48, Sox Wainwright of the Toledo Crimson Coaches remains one of the best flingers in the midwest. For years, Frank Brauer of Cleveland has sent batters back to the bench in an endless stream.

Poison to batters are J. L. (Major) Murphy of the Lake Charles, La., Fobs Oilers, and Dick Berry of the Houston Yoks.

Pete Hargis, 20-year-old star with a windmill wind-up leads the way for the 20th Century-Fox team

of Hollywood. At the age of 12 he was a boy-wonder of Long Beach.

In Phoenix, Ariz., they sing the praises of Windmill Watson who was one of the outstanding performers at the national tournament last year.

MEXICAN IS HOMER KING ON COAST.

ONE of the greatest all-round stars in softball is Monday Ciesielski, shortfielder for the Bendix Air Brakes. Ciesielski, although only 5 feet tall, has speed to burn and covers an amazing amount of territory. At the plate he is another Joe Sewell, hitting consistently and tough to strike out.

Known as the home run king of the west coast is Lalo Escarrega, 22-year-old San Gabriel Mexican who averages a circuit clout every other game. He plays first base and is considered the finest fielder in the position has known in those parts.

Ben Fisher, 20th Century-Fox right fielder, is a long hitter and hasn't dropped a fly in six years.

Dick Harper of Evansville, Ind.,

Servels is one of the more solid sluggers in the midwest.

Binnie Thomas, third sacker for the Somers, Wis., Cardinals is a standout at the hot corner. In Mummy Derringer, shortstop, and Norm Wendorf, second baseman, the Kenash-A Blue Streaks of Kenosha, Wis., have the only bespectacled and probably the finest defensive keystone combination in softball.

PLENTY OF TALENT ON GOLDEN SLOPE.

THE feminine contingent also has its stars. Dorothy (Boots) Kluppig of the Chicago Down Drafts who pitched her team to the finals of the national tournament last year throws 'em almost as fast as a man. So, too, does Vera Timning holds world sprint records, is the batting star of a Cleveland girls' team.

There are plenty of stars already shining and many more rising as the game grows in popularity. And it's growing every day. Just look at the corner lot every time you pass, and see what the kids are playing.

factories are situated.

The "scalers" obtain the herring scales from weimen and seiners in exchange for labor performed in the dipping of the fish from the seines and the scooping of them aboard the large sardine carriers.

The scalers get 3 cents a pound for these scales—three times the value per pound of the fish at prevailing prices.

Giant Petunia Excites Interest

ROCKDALE (AP).—A giant petunia plant growing in the yard of Mrs. Martha Wallis of Rockdale has excited interest because of the profusion of blooms.

The plant sprang up in a bed of calandula and grew so large Mrs. Wallis requested Nurseryman A. C. Franklyn to determine whether there was more than one plant. Franklyn counted 471 rose purple blooms and declared it was a single plant.

Representative Caroline O'Day, above, of New York displayed this graceful sweep of coffee-sodden doughnut from cup to mouth (indicated by dotted line), but it wasn't slick enough to win a recent Congressional doughnut-dunking contest. Representative Jennings Randolph of West Virginia out-dunked her.

### 30,000 Bass Placed In Inks Hatchery

**AUSTIN**—U. S. Bureau of Fisheries and NYA officials at Inks Dam on the Colorado River notified State Youth Director J. C. Kellam today that 30,000 large mouth black bass had been placed in rearing ponds at the Inks hatchery. The six-weeks old "fry" were transported to the hatchery from Uvalde in a new tank truck.

The Inks hatchery, situated on a 70 acre tract just below the dam, contains 14 rearing ponds with a yearly production capable of 2,500,000 fish and was built jointly by the National Youth Administration and the Bureau of Fisheries on property donated by the Lower Colorado River Authority.

It was the first trip for the new type truck which carried all 30,000 fish in one load. It is equipped with six fish compartments, two ice compartments, and two automatic pumps that cool and spray the fish continually while being transported. Officials were highly pleased with the shipment after it was learned that the loss of fish was negligible when compared with the use of other transportation methods.

"With the help of John Bloz, and other officials of the Bureau of Fisheries, and the cooperation of the Lower Colorado River Authority, 150 NYA boys started work on the hatchery last year," Mr. Kellam said. "The work these boys have done under the supervision of Mr. Bloz and his staff will contribute a great deal toward making the lakes of the Colorado River one of the most important recreational areas in the Southwest," he added.

# PROTESTANT CHURCHES HAVE BACKS TO WALL IN FIGHT AGAINST NAZIS

This is the second of three stories on the position of the churches in Europe where in many countries Christianity itself is on the defensive.

BY MILTON BRONNER, NEA Service Staff Correspondent.

LONDON. — The Protestant churches of Germany are reeling after a long campaign of attrition by Nazi authorities.

From petty interference all the way to persecution and internment like that of the famous Pastor Martin Niemöller, the Protestant church in Germany has been subjected to a long and bitter campaign of harassment. Most recent were orders from Secret Police Head Himmler that the Confessional church relinquish its share of the church tax, surrender its status as a corporation of public right, and turn over certain of its cathedrals to the Hitler Elite Guard for its neo-pagan ceremonies.

In March, 1933, at about the time he took power, Hitler told the Reichstag: "The Nazi government thinks the two Christian churches are most important elements for the preservation of our national individuality. Their rights shall not be touched."

Four years later, Church Minister Hans Kerrl said: "The primacy of the State over the Church must be recognized. . . . The Nazi party represents a positive Christianity. The question of the divinity of Christ is ridiculous and inessential. A new authority has arisen as to what Christ and Christianity really are—Adolf Hitler."

After Hitler took control, the German Protestant churches made an effort to unite their 28 regional state churches into one strong denomination. This was complicated by the Nazi organization of a sect which it called "German Christians" or the Storm Troopers of Jesus Christ, a device for securing Hitler control of the church.

Hitler named his friend Ludwig Mueller, a former army chaplain,

Church Minister Hans Kerrl.

as his agent in the work of unifying the Protestant churches. The German Christians insisted on election of Mueller as Reich Bishop of the combined Protestant churches. But the churches chose instead Dr. Friedrich von Bodelschwingh. The fight between the opposing elements has gone on ever since. Bodelschwingh had to resign. Mueller was put up to succeed him. The whole party machine was mobilized to put over Mueller. Threats were posted against any who might vote against him, and pastors were kidnapped to prevent their speaking in their pulpits against Mueller. Hitler himself broadcast for his friend. Under those circumstances, Mueller polled a two-thirds majority. The Nazis were nominally now at the head of the Protestant church.

BUT opposition to Mueller reached such a point that he has now

Corpus Christi day in Berlin—nuns walk in solemn procession along Unter Den Linden.

been virtually shoved aside. Ministers laid aside their long-standing difference to unite in opposition to the Mueller play was not a complete success. All over Germany independent Protestant pastors met and declared themselves against Mueller and his tenets.

The German Confessional Church was organized, which did not recognize Mueller or the Nazification of

Christianity. Lutherans and Calvinists laid aside their long-standing difference to unite in opposition to the Mueller play was not a complete success. All over Germany independent Protestant pastors met and declared themselves against Mueller and his tenets.

"I testify that in the employ-

total indicated for June here of approximately 50,000,000 gallons, by 1650 users.

Wells at Cloverdale are capable of producing approximately 2,500,000 gallons in a 24-hour period. The city owns ample land on which numerous additional wells may be drilled of similar capacity. Securing the additional water main from Cloverdale, engineers say, will place the city well in advance of most cities of similar size for water facilities.

## Efforts to Return Legalized Betting On Races Defeated

AUSTIN, June 13 (AP)—Attempts to legalize pari-mutuel wagering on dog and horse racing were trampled in the Texas House of Representatives Monday.

The House permitted consideration of a measure making betting at dog tracks lawful but tabled by a vote of 65 to 60 an amendment adding horse tracks. Then opponents rolled up a 77-48 vote to table, which in non-parliamentary language means to kill the bill.

Proponents, pleading for votes, argued wagering at tracks would provide funds for social security financing, one of the main but unfulfilled objectives of the long general session. Estimates of possible revenue were as high as \$3,000,000 annually.

## IS TREATED.

W. A. Deane was treated in a Midland hospital today for head injury received in a fall on the street here. He was returned to his home and is reported doing well this afternoon.

## HOME TO AMARILLO.

E. C. Brown was discharged from a Midland hospital today to return to his home at Amarillo. He had been under treatment for burns sustained when an ammonia truck exploded.

ment of the Arvan paragraph within the precincts of the Church of Christ, a violation of the Confession is perpetrated."

Systematic persecution of such independent pastors followed. Dr. Jacobi of a Berlin church was attacked by Nazis. A bomb was thrown in the neighborhood of Dr. Niemöller's church in Dahlem. Of 18,000 Protestant ministers in Germany, it is estimated that 1300 have been in prison or under arrest since 1934. Dr. Niemöller, after a stretch in Moabit prison in Berlin, was sent to the Sachsenhausen concentration camp, where he remains.

NEXT: The battle to supplant Christianity with a "German" religion.

## Halifax Declares Britain Ready to Meet Any Attacks

By Associated Press

The British government answered opposition accusations of new "appeasement" inclinations Monday with a firm declaration that it was prepared to meet force with force.

Foreign Secretary Lord Halifax made Britain's stand clear as tension mounted in Danzig, Europe's current danger spot, over another incident involving Germans and Poles in the free city.

In this "era of power politics," Lord Halifax told the British House of Lords, Britain had no thought of abandoning her policy of "resistance against force."

His statement was prompted by a barrage of criticism levelled at his speech of last Thursday expressing Britain's willingness to negotiate German claims for "living space."

Before he spoke a foreign office expert on central European affairs, William Strang, left by plane for Moscow bearing a new formula which Britain hoped would produce the long-delayed British-French-Russian mutual assistance pact.

The situation in Danzig, meanwhile, took a serious turn when Nazis arrested a Polish customs inspector on a charge of spying and attempting to kidnap two storm troopers. One Nazi publication said he had confessed to the spying charge.

Authorities in the Nazi-dominated free city suggested the Danzig government might use the incident to attempt arbitrarily to reduce the number of Polish customs inspectors.

Polish circles in Warsaw reiterated that any such move or any effort to hamper the work of Polish inspectors would meet with effective counter-measures.

Foreign office quarters in Berlin accused Poland of "daring to make the situation in the free city worse because she now has British and French backing."

Hungary's parliament opened a new session in Budapest amidst reports that the government would propose expropriation of Jewish-owned lands to provide an initial 500,000 acres for landless peasants, and expropriation of 10 percent of all Arvan-owned estates above 700 acres. The move was regarded as a step to steal the thunder of Hungarian Nazis.

## Conservation Ideas Rapidly Gain Hold

COLLEGE STATION. — "Show me a crop that is being over-produced and I will show you a crop that is ruining the land on which it is growing."

Often quoted by R. M. Evans, national administrator of the AAA, that phrase keynotes the Agricultural Conservation Program, under which Texas farmers this year are advised to hold soil-depleting crops such as cotton to a maximum of 28,518,791 acres and devoting the other 10,045,340 acres of the state's tillable land to such soil-saving growths as clover, sudan grass, sweet sorghums and green manure crops.

The Texas Agricultural Conservation Committee, which makes headquarters at Texas A. and M. College, is determined to encourage greater use of available federal funds this year in conservation and improvement of crop and range land, George Slaughter, chairman, has disclosed.

Texas farmers, about 85 per cent of whom took part in the program

drilling at 3,975 feet in lime, while the company's No. 11 Waddell, in search of the same pay, is drilling below 200 in red rock.

Southwestern Andrews Wildcat. Richmond Drilling Company and William F. Hanagan No. 1 University, southwestern Andrews wildcat, this morning was drilling anhydrite at 3,430 feet.

Magnolia No. 1 Leta Jones, half-mile northwest outpost to the Fuhrman pool of Andrews is drilling below 3,020 in anhydrite and sand.

Humble Oil & Refining Company No. 1 W. T. Caswell, five miles northwest of the Kirk area in southern Gaines, lowered sulphur water to 2,000 feet from bottom in 13 hours of bailing. Total depth is 5,002 feet in lime.

Magnolia No. 1 J. B. Fry, in southeastern Dawson, nine miles southeast of Lamesa, topped Yates sand at 2,420 and frosted quartz grains at 2,440. It is drilling ahead at 2,784 in anhydrite. Elevation is 2,895 feet.

## Personals

Miss Margaret Sinclair of Boise, Idaho, is visiting in the home of her uncle, C. L. Sinclair.

Mr. and Mrs. J. P. H. McMillan have as their guests her brother, W. L. Hayley, and Mrs. Hayley of Norton, her sister, Mrs. Annie Parker of Clyde, and her niece, Mrs. Lum Laswell and children, Bobby and Mary Linda, of Bronte.

Mrs. Jack Wilkinson went to San Angelo during the week-end.

Jack Nelson, son of Mr. and Mrs. W. W. Nelson Jr., has returned from California, where he has been attending college this year.

Mr. and Mrs. W. N. Connell and daughter, Eleanor, Marguerite, Las Vegas, Nev., recently in Abilene, are visiting here.

Miss Eleanor Connell has returned from New Mexico where she spent a week with Mrs. Louise Coe, New Mexico woman senator, in her ranch home.

## A letter to boys and girls about Dad

Dear Children —

On Father's Day your dad will love you even if you give him something he can't use at all.

But . . . if you give him a present he can use, he will appreciate it ever so much.

Arrow shirts are this kind of a present.

All dads like Arrow shirts because they have nice looking collars—and because they fit better at the chest and waist—and because their buttons aren't forever pulling off.

Also Arrow shirts are Sanforized-Shrunk. This big word means fabric shrinkage less than 1%—so that it will stay your dad's right size when it comes out of the washing machine.

Arrow shirts cost \$2 and up at our store. You can't get him anything he'll like better!

Sincerely,

Wadley's

P.S. Arrow ties are just \$1. They go well with the shirts or they make a nice separate present.

FOR ARROW SHIRTS

## Agricultural Scribes Will Meet July 12-14

The Texas Agricultural Writers' Association will hold its annual meeting in connection with the Farmers' Short Course at Texas A&M College, July 12, 13 and 14.

The schedule calls for spending the mornings of the three day session with the farm families at the regular meetings, while the afternoon will be devoted to special programs of interest to the press.

Plans call for a banquet honoring the press on the evening of July 12. Discussions between county agricultural and newspaper editors will make up the banquet program.

H. D. Meister of the Yoakum Herald is president of the association and H. B. Fox of the Madisonville Meteor is secretary. A. D. Jackson, chief of publications of the Texas Experiment Station, is chairman of the committee on local arrangements.

last year, held soil-depleting crops to around 25,100,000 acres, devoted about 7,500,000 acres to soil-conserving uses and carried out additional soil-building practices such as terracing, strip cropping and cover cropping on an estimated total of 6,500,000 acres of cropland.

Besides, Texas ranchmen adapted range - conservation practices to around 31,500,000 acres of grazing land, destroyed millions of acres of prickly pear and other noxious plants and built storage reservoirs capable of holding more than 100,000 acre-feet of water.

## ANGUISHES RETURN.

Mr. and Mrs. E. W. Anguish and family have returned from Reno, Nev., where they spent the winter. They report the climate wonderful for the winter with skiing and other winter sports providing entertainment. They returned by way of New

## SOUR TEMPERMADE SWEET

When you are cross, irritable, and grouchy; when you find fault with the coffee, the eggs, the bacon, and the cook, you may well suspect that you have a touch of biliousness or so-called "Torpid Liver," so prevalent in hot weather. All you may need is a little Calomel, or better still, "Calotabs," the tasteless calomel compound tablets that make calomel-taking a pleasure.

Calotabs give you the combined effects of calomel and salts, helping Nature to get the sour, stagnant bile and washing it out of the system. One or two Calotabs at bedtime with a glass of water—that's all. Next morning your system feels clean and refreshed, your head is clear, your spirit bright, and you are feeling fine with a hearty appetite for breakfast. Eat what you wish and go about your work or pleasure.

Genuine Calotabs are sold only in checker-board (black and white) packages bearing the trade mark "Calotabs." Refuse imitations. Trial package ten cents; family package only twenty-five cents, at your dealer's (Adv.)
