NUMBER 123

LOUISIANA UNIVERSITY BOARD MEMBERS ADVISED TO RESIGN

All's Well--Now

Drops of water become precious jewels in the drought-ridden northeastern states. Here a farmer near Ellenville, N. Y., holds a shotgun in his lap as he mounts guard over his well after night raids by less fortunate neighbors.

American Woman May Be in Nazi Concentration Camp

Consul-General Asks German Secret Police Whether Tip of Escaped German Is True; Says Wife Former Resident of New Orleans

BERLIN, July 31 (AP).—The United States consul-general today asked the German secret police whether Mrs. Franz Lem, said to be an American, is in a Dachau concentration camp as charged by her husband. Lem, who is German, informed the United States embassy in Paris that his wife had been interned at Dachau on a charge of having carried on anti-Nazi propaganda. He said his wife was formerly Lill Harrison of New Orleans. Lem said he escaped from Dachau July 19.

Farmer Sought in Killing Gives Up to Posse on Safety Guarantee

LEXINGTON, July 31 (AP).—Charles Allen, 70, wealthy farmer of Cynthiana, Ky., was brought to the city jail here today and placed in custody without charges, for temporary safe keeping. He had been sought since Saturday as the slayer of George Dickey, chief of police of Cynthiana, the officer having been slain in front of Allen's house when he went there to investigate reports that a young girl was being enticed into Allen's barn.

Allen, when his home was surrounded by an indignant posse, offered to surrender if guaranteed protection.

There was a traffic snarl in front of the Allen farm home Sunday as curious crowds drove up to see the place where the gunfire had been exchanged. At daylight Sunday, the posse rushed the barn, expecting to find Allen, but it was empty.

Six officers and bystanders were wounded and several others peppered by buckshot during sporadic firing between the barricaded man and the posse members. Allen was known to be an expert shot.

Japanese-British Situation Thought Headed for Trouble

LONDON, July 31 (AP).—Fears were expressed in informed quarters Sunday that the British-Japanese talks in Tokyo on the Tientsin dispute were headed toward a breakdown.

Serious difficulties were said to have developed from Japanese demands that Britain support Japanese-backed currency in the British concession in the North China port and hand over silver belonging to the Chinese government and held in concession banks to the Japanese-dominated Peiping regime.

Sir Robert Leslie Craigie, British ambassador to Tokyo, reported the difficulties yesterday to the foreign office and new instructions were sent to him immediately.

It was understood he was told to inform the Japanese the question involved important international issues and could not be discussed in negotiations which were supposed to be confined to the local situation in Tientsin.

May Denounce Treaty.

If Japan persists in her demands, it was said Britain might be forced to break off the negotiations.

Official circles already have stated Britain was considering the advisability of following Washington's See (JAP-BRITISH) Page 6

Rotarians Asked to Contact Committee

Clinton Lackey, chairman of the "barbecue committee" of the Rotary club, reiterated today a request that all members advise him or Secretary W. I. Pratt the number of guests they will have Thursday at the club's annual outing at Cloverdale. Wives, family members and guests of the club members are welcomed at fifty cents each, officials said, but the committee needs a close estimate of the total attendance.

Tuesday Last Day For Transfers

Tomorrow is the last day on which transfer of school districts may be made, according to an announcement of County Judge Elliott H. Barron, executive county school superintendent.

All parents or guardians who wish to transfer school children from one district to another within Midland county or outside the county are urged to see Judge Barron Tuesday as transfers may not be made later than August 1.

HAS TONSILLECTOMY

Darrel Welch underwent a tonsillectomy in a Midland hospital this morning.

Grand Jury Points Out They Appeared Negligent in Duty

BATON ROUGE, July 31 (AP).—Governor Long announced today the resignation of State Representative Smith Offpaur as a member of the Louisiana University board of supervisors. He said he would offer the post to D. Y. Smith of Monroe.

BATON ROUGE, July 31. (AP).—The East Baton Rouge parish grand jury recommended in a report to the district court today that all members of the Louisiana State University board of supervisors serving during the regime of Dr. James Monroe Smith, indicted former university president, resign immediately.

The grand jury reported that while in 44 indictments returned by the body, only one board member had been indicted, it felt that the board had been negligent in its duties.

Tax on Gambling Too High Price to Pay Pensions,—O'Daniel

AUSTIN, July 31. (AP).—Governor W. Lee O'Daniel turned crusader Sunday, charging flagrant violation of gambling and liquor laws in unnamed sections of the state and urging radio listeners to rid their communities of "debauching" influences.

Without music from his famed Hill Billy string band for the fourth consecutive Sunday, O'Daniel faced the microphones and usual large crowds in the stately Texas White House and declared:

"I want to say to your very frankness that I yield to no man in my advocacy of adequately financing social security. But I believe the price of financing social security is too high when the price paid must be the licensing of pool halls, slot machines, race horse gambling and the re-establishment of the open saloon.

"The people of Texas had as well know that there are powerful forces at work in Texas today seeking to do all these things, seeking to take advantage of the pressing need of the state for revenue as a means of putting the state into the lottery business, violating the plain intent of the constitution by licensing the sale of liquor by the drink, by legalizing slot machines, and by bringing back to Texas race-horse gambling."

The governor asserted police, constables and sheriffs should not appeal to state agencies to enforce state laws, but that Texas rangers, liquor inspectors and other state law enforcement bodies stood ready to aid local officials. He urged the people to inquire into enforcement conditions in their communities.

O'Daniel made no direct mention of previous intimations he would call a special session of the Legislature to find revenue for pensions.

"So long as I am governor," O'Daniel said, "that portion of the constitution which states that the open saloon shall be forever prohibited will be the law of the land unless by two-thirds vote of the Legislature overrides the veto of the governor."

"Never with my approval will there be sale of liquor by the drink until the issue has been submitted to the people to make such sale actually legal."

Not will I ever lend by approval to using taxation as a means of See (O'DANIEL) Page 6

Self Experimenter

Something of a human guinea pig is Professor J. B. S. Haldane, above, noted British scientist, who delights in experimenting on himself when probing certain questions. His latest exploit was to seal himself in an air-tight chamber for 14 1/2 hours to discover if victims aboard the ill-fated Thetis suffered pain during their last hours. His conclusion to a London naval board of inquiry: "The men suffered no pain."

Garner Plans to Make Front Porch Campaign for '40

WASHINGTON, July 31. (AP).—Vice-President John Garner was reported authoritatively today to be planning a "front porch" campaign for the democratic presidential nomination. Garner's close friends said he had no thought of making any public appearances before the party's national convention next summer.

Garner will return to his Uvalde, Tex., home after adjournment of congress. There, his intimates said, he will be followed by one between the party's national convention and democratic strategy for the next campaign.

First, however, he will go fishing.

Jaycees and All-Star Girls to Play Odessa

Two Midland football teams will go to Odessa Tuesday evening to engage picked teams of that city at the baseball park.

The Midland and Odessa Junior Chamber of Commerce teams will meet at 7 o'clock, the Jaycee game being followed by one between the Midland and Odessa girl All-Stars.

A large delegation of Midland fans will accompany the two teams, it was predicted by Curt Inman, in charge of local arrangements.

HERE FROM COLORADO

Mr. and Mrs. J. Ralph Lee and children, Iva Helen and Rodney, visited friends here Sunday afternoon.

Eighty-One Mustangs Quality for Davis Mountain Trip; to Leave Here in Cattle Trucks Wednesday

Eighty-one boys and qualified for the annual Mustang outing to the Davis Mountains and will start moving in that direction at 6:00 a. m. Wednesday, in two large cattle trucks. After taking a swim at San Solomon Springs they will make their camp in the widest part of Madera Canyon and within a stones throw of one of nature's finest swimming pools which last year was 20 feet deep.

The Mustangs will break camp Friday morning and return by way of Fort Stockton where they hope to have a fine swim and also a game of soft-ball with Fort Stockton boys.

Hub Castleberry will go along as cook. That speaks for itself. He made himself famous with the boys last summer.

To make the trip a boy was required to make at least 50 points by various achievements such as life saving, handicraft, first aid, knot tying, club work, art, collecting stamps, match-folders, music, acrobatics, athletics, signalling or what have you. For scoring high in points the following boys were presented with Mustang hats, Russel Turnbow 836 points, Jack Walding 408 points, Otis Richmond 220 points, Hershel Parks made 408 points and was presented \$2.00 as a cash prize.

The following camp organization will also indicate the boys who are

going to make the trip. The Mustang Club is sponsored by the Midland Rotary Club.

Organization.
Camp Director, Harold H. Kendrick; Adjutant, Louis Cure; Utility director, James Phillips; King of Wild Horses, Jack Kenney; Aide to the King, Murray Howell; Pioneer, L. H. Tiffin; Photographer, L. H. Tiffin; Aide-de-camp, Glen Brunson; Camp Cook, Hub Castleberry; Safety Control, Bill Hall; Captain Life Guards, Bill Hall; Life Guards, Morris, Richey, Robert Voorheis, Thomas Flournoy, Flash Duncan, Odell Carr, Jack Kenney, William Rainey, T. Walling, Wm. Whittaker, J. C. Stevens; Lamp Lighters, W. J. Lackey, Buddy Bledsoe; Spat-bag captain, Monroe Patton, assistant, J. C. Stevens; First Aid Assistants, Glen Brunson, Odell Carr, Hershel Parks; Issue of Bags, Monroe Patton, Morris Richey, Hershel Parks, R. C. Vest.

RIOT BREAKS OUT IN BODY PLANT AS NON-STRIKERS TRY RIDE TO WORK

Military Talk Due This Week By 3 Nations

Mutual Assistance Pact Proposed by Soviet Spokesman

LONDON, July 31. (AP).—Prime Minister Chamberlain told the House of Commons today that British and French military missions would be sent to Moscow for staff talks "probably this week."

Minister Chamberlain added that a discussion on the proposed British-French-Russian mutual assistance pact would proceed side by side with military conversations.

"The Soviet government has proposed at the present state, negotiations would be at an advantage to begin military conversations forthwith," he said.

Bedford Family Has Annual Reunion at The Ratliff Ranch

Sons and daughters of the late Mr. and Mrs. H. G. Bedford Senior held their annual reunion during the past week-end, at the George Ratliff ranch northwest of Midland, keeping up a custom which has been observed practically every year for 24 years. Approximately fifty members of the family, including the sons and daughters, "in-laws", grand children and great grand children were present.

Mrs. George Ratliff of Midland, Mrs. Mary Hinton and Mrs. J. O. Jones of Lubbock, Mrs. Chas. Combes of Stamford, daughters of the early settlers, and H. G. Bedford of Midland, Bill Bedford of Sonora, Mex., and El Paso, and C. I. Bedford of Plains, Tex., were the immediate family members present.

They visited at the Ratliff ranch Friday, Saturday and Sunday.

Burglars Again Get Safe Here, Haul It In Odessa Truck

Burglars, driving a truck stolen from an Odessa supply house, entered a local cleaning establishment Sunday night and carried away a safe containing cash and checks estimated at more than \$300. The truck and safe were found early this morning at the end of the new eight-mile stretch of pavement southeast of Midland. One of the safe had been knocked off and the money taken out. It was the third similar burglary here in recent weeks and the second in which truck and safe were abandoned at the same place.

HOUSTON MEN HERE

C. H. Floyd and Joe Rutledge of Houston were week-end business visitors here. Floyd lived here twenty years ago when his father was agent for the Midland & Northwestern Railroad and it was his first visit to Midland in over fifteen years.

Mouthpiece Under Guard

The freedom that most convicts know at prison term's end is not for Dixie Davis. The one-time "attorney general" of New York's gangland emerges (center foreground) from Men's Detention Prison—only to be surrounded immediately by uniformed police and plainclothesmen assigned to protect him against underworld revenge.

Culbertson & Irwin Open New Spot In New Mexico as 1 Carter Flows

BY FRANK GARDNER.

Opening of a new producing spot in the Lynn area of Lea county, Southeast New Mexico, was assured today by Culbertson & Irwin, Inc. of Midland No. 1 Lee Carter as it flowed at the rate of eight barrels of oil per hour on six-hour test through casing. Gas volume was estimated at 1,500,000 cubic feet daily. Operators now have run 2-inch tubing and are testing further.

The strike is in the center of the northeast of the northeast of section 25-23s-36e, about a mile east of the nearest gas derrick in the area, the old Marland No. 1 Lynn. It logged broken sand pays from 6,535 to 3,615 feet and is bottomed in lime at 3,641.

Fred Turner, Jr. of Midland No. 1 Clay-Nickson, Eddy county, N. M. wildcat, was scheduled to drill plug today from 7-inch casing cemented at around 1,145 feet. Total depth is 1,231 feet in lime, and showing of gas was logged from 1,158-63.

Seminole Test Staked.

Osage Drilling Company today announced location for No. 1 Glenn Crain, a test at the north end of the Seminole pool in central Gaines. On farmout from Shell Oil Company, Inc. of the west 41 acres of section 216, block G, W. T. R. R. survey, No. 1 Crain will be drilled 1,320 feet from the north, 165 from the west line of the section. It is to be a 5,300-rotary test. The well lies about a quarter of a mile northwest of Adams & Bradley's north extension producer.

Now a "mystery well," Stanolind Oil & Gas Company No. 1 Jeanette Bay Rayner, high wildcat on the east edge of Cedar Lake in northeastern Gaines, today still claimed top interest although all drilling information is being withheld. The last verified drilling depth reported from the wildcat was 4,094 feet in anhydrite. It was at that point last Friday, and probably is several hundred feet deeper today.

In the Slaughter pool of southwestern Hockley, The Texas Company No. 1-D Mallett Land & Cattle Company rated 24-hour potential of 312 barrels, with gas-oil ratio of 920-1, after acidizing with a total of 13,000 gallons at 5,033 feet. Texas Pacific Coal & Oil Co., No. 2 L. L. Lauffoff is drilling at 2,950 feet in anhydrite.

Bennett Extended.

Extending the Bennett pool a half-mile south toward the Denver in southeastern Yoakum, Mid-Continent Petroleum Corporation No. 1 J. G. Comer is shut in while tank battery is being erected. Operators will acid the well after connecting it to storage. It drilled practically continuous pay lime from 4,990 to 5,205 feet, the total depth, and flowed into pits through 2 1/2-inch tubing set at 5,195. No estimates were made of natural yield.

In the southwest extension area of the Bennett pool, J. E. Mabee Company No. 7 N. W. Willard flowed at the rate of 1,878.84 barrels of 34-gravity oil per day, bottomed at 5,230 feet, after acidizing with 6,000 gal-

Tear Gas and Bricks Used, 34 Injured

Union Official Says No Tear Gas Used By Auto Workers

CLEVELAND, July 31. (AP).—Club warring brick tossers and tear gas bombing, in a riot at the strike-bound Fisher Body plant of the General Motors Corporation, today injured 34 persons, none seriously.

A crowd of CIO United Automobile workers, estimated by police at from 5,000 to 6,000, massed at the gates to "stop the plant." Police Captain Michael Blackwell said the fighting started after a brick was thrown through the window of an automobile carrying several non-strikers into the plant.

At least 300 gas shells and bomb were thrown, Blackwell said. Paul Miley, union official, denied the unionists had any tear gas of their own.

The strike was called three weeks ago by the skilled tool and die workers to press demands for a supplemental agreement.

Furrowing Machine Of Midland Agent Is Given Range Meet OK

BY JOE STORM, AAA Writer.

You can take out your pencil now and write down that pasture furrowing on the contour will draw three cents a hundred linear feet under the Triple-A's range program next year.

At a national range conference in Hot Springs, S. D., last week, the rate of payment was recommended for the signature of Secretary of Agriculture Henry Wallace when it comes time for him to put his okay on the 1940 national range program docket.

There was no doubt at the conference that Wallace would approve the payment increase, along with a recommendation that pasture mowing be added to the list of range conservation practices drawing payment, and that more of an operator's range building allowance be available for deferred grazing and supplemental practices.

The furrowing recommendation which will increase the rate of payment for that practice from 5 cents to around \$1.80 an acre, was a tribute to Curly-headed Steve Debnam, Midland county's inventive agricultural agent, and West Texas ranchmen who have pioneered and popularized improved furrowing techniques.

Both that recommendation and the one on pasture mowing were taken to the conference by delegates of the Texas Agricultural Conservation Committee, which is composed of active farmers and ranchmen and which directs the AAA program in the state.

West Texas ranchmen, at the meeting included L. W. Anderson, Pecos and Howard Kingsberry, Santa Anna and College Station, both state committeemen.

General outline of the new range program is the same as this year. Operators will be given range building allowances, which can be earned by a wide variety of conservative practices. None of this year's practices were dropped from the AAA County committees, chosen by and from local farm and ranch operators, will supervise and administer the county programs, as usual.

Extra Session Talk Again Is Revived

AUSTIN, July 31 (AP).—The Austin American-Statesman said Sunday "a probable pension-financial special session of the Texas legislature has been held in abeyance partly because of uncertainty federal alterations in social security laws."

Asserting the possible session has been "definitely delayed until October at the earliest," the newspaper declared it had learned Governor O'Daniel had "reiterated" willingness to convene it.

The governor has intimated, public statements, he would not call the lawmakers to Austin.

The state pension administration faces a problem in keeping payments at their current level after Sept. 1 because the legislature opened the way to bigger rolls through liberalizing pension eligibility at then provided no revenues to finance the additions.

The lawmakers also authorized administration to start repaying a private bank upward of \$2,000,000 in loans next October. The loans were made to keep pensions from dropping below certain levels.

MADE BUSINESS TRIP.

J. F. Friberg and T. D. Kirby returned Sunday from week-end business trip to Wichita Falls.

Miss Virginia Street Honors Guest With Formal Dance at Country Club

In courtesy to her houseguest, Miss Marjorie Pundt of Dallas, Miss Virginia Street entertained with a formal dance at the Country Club Saturday evening.

Barbecue Supper Is Courtesy for Santa Anita Visitor

A barbecue supper in the backyard of the Culbertson home, 909 W. Cuthbert, was an in-honor affair given by Mrs. E. A. Culbertson Saturday evening for her guest, Anita Winter of Santa Anita, California.

Potters Revive Old Art and Do Work by Hand

ALLENTOWN, Pa. (UP).—Two Powder Valley men claim to be the last producers of Pennsylvania German pottery in America.

The brothers, Thomas is 77 and Isaac 67, are sons of a veteran potter, who, like other craftsmen over the country, was forced to shut down his shop with the coming of the machine age because he could not compete with machine-made products.

In 1920, the Stahl brothers read in a newspaper that the pottery of the Germans was a lost art. It was then that they decided to revive the industry.

The following year they opened their kiln. Since that time, they have kept a register of all visitors to their shop. Art students, college professors and writers from every section of the United States as well as visitors from Scotland, Germany, England and other European countries have called.

The Stahl brothers dig their own clay, test it with their hands, and treat it themselves. They mold their articles with a potter's wheel and fire their wares in their own kiln.

Crisp for Fall

Crisp pique, usually thought of in terms of spring and summer, finds its way to fall wool dresses. This little vestee, edged with cut-out embroidery, is perfect with a round or V-neck wool dress or with a tweed suit.

Eighteen Attend BAU Meeting on Sunday Evening

Sixteen members and two new members were present for the meeting of the Baptist Adult Union Sunday evening, the newcomers being Mr. and Mrs. Haskell Wadkins.

"Conquering with Christ in Africa" was the subject of the program presented by Group II under Mrs. Gilbert.

Talks included: "Our Foreign Mission Secretary Visits Africa," Mrs. Thurman Pylant; "Material Progress in Africa Is Painfully Slow," Thurman Pylant; "How Baptist Churches Grow," Mrs. W. L. Sutton; "Help for the Helpless in Christ's Name," Leon Arnett; "Africa's Need and Hope," Mrs. Gilbert.

The group discussed plans for the Union's attending the Pisanzo Encampment in a body. At least two carloads of representatives are expected to attend next weekend.

Announcements

TUESDAY
Bridgette club will meet with Mrs. E. D. Richardson, 607 North D, Tuesday afternoon at 2:30 o'clock.

Women's Bible class will meet at the Church of Christ Tuesday afternoon at 3 o'clock.

Midland county museum in the courthouse will be open Tuesday afternoon from 2:30 o'clock until 5. The public is invited.

THURSDAY
Lucky Thirteen club members and their husbands will have a picnic at Cloverdale Thursday evening at 7:30 o'clock. Hostesses will be Mrs. Houston Sikes, Mrs. W. N. Cole, and Mrs. J. T. Walker.

FRIDAY
Belmont Bible class will meet with Mrs. Herbert King Friday afternoon at 4 o'clock. The lesson will be the first chapter in Genesis.

SATURDAY
Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5. The public is invited.

A new engine, with a rating of 2000 horsepower, and said to be the world's largest and most powerful air-cooled aircraft engine, is now being installed on army military planes in the United States.

Wins Texas Sweetheart Title

Pictured above is Miss Wanda Ticknor, who as "Miss Corpus Christi" won the title of Texas Sweetheart No. 1 over a field of 38 beauties and will have a featured part in the big Fort Worth Revue which runs through Labor Day.

Loyal Workers Elect Three New Officers

Election of three new officers marked the meeting of the Loyal Workers BTU of the Baptist church Sunday evening. Chosen were: Chorister, Leland Aldrege; treasurer, Miss Vivian Arnett; secretary, Miss Jo Ann Arnett.

Lesson for the evening was on "Missionaries in Africa (Nigeria)" with Miss Boerne Kidwell in charge of the program.

Miss Vivian Arnett sang a solo, "I Would Be True", accompanied by Walter Johnson.

Opening prayer was offered by Leland Aldrege and closing prayer by Jimmie Van Arsdale, who presided at the meeting.

The BTU will hold a business meeting at the annex this evening at 8 o'clock.

Rainey Pleased With Residence in Austin

DALLAS. (AP).—Dr. Homer P. Rainey, University of Texas' new president is "enjoying life" at Austin, he said here recently.

"Tennis is my favorite sport and I've been getting plenty of it," he confided. "I've been playing with Johnny Van Ryn, Mrs. Van Ryn, Wilmer Allison and several other crack court performers and if I shall ever be able to learn anything about the game I should learn it from them."

Mrs. Rainey, he said, had been renewing association with many of her former university classmates. "There are about 40 of her friends of former days in and around Austin."

Punch Bowl Set Gift From Bible Classes

OVERTON. (AP).—Prof. R. L. Bunting, former superintendent of the London schools, and Mrs. Bunting were presented a punch bowl with 24 glasses by two large Bible classes they taught at the Methodist church, upon their departure recently for San Marcos. The presentation was made by Rev. R. L. Jackson, pastor of the church. Prof. Bunting has joined the faculty of Southwest State Teachers college.

Mrs. Laura Wright left for her home in Long Beach, Calif., Saturday night, following a month's visit with her daughter, Mrs. Henry Butler, 700 W. Kansas. Before coming to Midland, she had visited the San Francisco Exposition and Sequoia National Park.

Miss Elisa Fabrega of Panama City, who has been the guest of her sister, Mrs. Jas. H. Chapple, and Dr. Chapple, for the past three weeks left Sunday night for New York City. She will visit her brother, vice consul from Panama, there before sailing for home about the middle of August. Miss Fabrega, who was complimented at a number of social affairs while here, declared that she found West Texans

very friendly.

Mrs. Walter Cowden has returned from Atlanta, Ga., where she attended the meeting of the Baptist World Alliance, which she describes as the "greatest thing that has ever come to America." On her way home she was joined at Abilene by her grand-daughter, Mozelle Ward of Wichita Falls, who will visit Mr. and Mrs. Cowden here.

Mrs. W. B. Riffie is leaving this afternoon for Amarillo to join her husband, employed with the Trinity Universal Company there. He was formerly with F. Massey and Company here. Mrs. Riffie has been employed in the offices of A. & L. Housing and Lumber Company. The couple's sons are at Pyote and will go to Amarillo for school.

Glass Substitute

If you have relegated your all-glass coffeemaker to the storeroom because of frequent and expensive breakage replacement, you can put it back into operation again. There is now on the market an upper bowl to fit the average glass coffeemaker made of a new composition that is inexpensive and practically unbreakable.

In an effort to develop a lemon that would grow successfully in Florida, the Federal Bureau of

Four Talk at Meeting of Senior League

Featuring a quartet of talks, members of the Senior League presented a program on "Achieving One's Best" at the meeting at the Methodist church Sunday evening.

Mrs. John W. Rhoden, who presided, spoke on "Make Room for Friendship." Miss Joyce Beauchamp discussed "Sharing." Van Edd Watson talked on "No Substitute for Work." Lois Guffey gave the concluding topic, "Let Joy Come In."

Nellie Mae Terry presented the scripture reading from Psalms 19: 7-14.

During the business meeting, Mrs. Rhoden, League president, called a council meeting to be held at her home, on Kentucky street this evening at 8 o'clock.

A song service opened the evening which was closed with the League benediction.

Twenty-five were present, it was estimated.

Miriam Club Makes Plans For Box Supper

Plans for a box supper to be held jointly with the Odd Fellows on August 23 were made at a meeting of the Miriam club at the home of Mrs. C. C. Carden, 311 S. Colorado, Friday evening.

Proceeds will go toward paying for the piano for the Rebekahs.

Date of meeting for the club was changed. It was decided to meet on the first Friday night in each month for a business session and on the fourth Friday for a social.

Present were: Mmes. J. W. Pace, J. A. Mead, Ludie Lykins, Babe Mayfield, Leota Johnson, Bertie Mitchell, Roxane Fuller, and the hostess.

Mrs. W. F. Prothro was in charge of the program presented by members of the Intermediate League at the Methodist church Sunday evening.

Following a 15-minute joint song service with the Senior League led by Cleo Tidwell, the Intermediate League discussed the subject, "Forgetting One's Self."

Mrs. Prothro gave the introductory talk. Other topics and those discussing them were: "Some Who Forget Themselves," James Tidmore; "Remembering Yourself," Marie Newton; "Forgetting Yourself," Marian Newton.

The meeting closed with sentence prayers followed by the benediction. Seventeen members and two visitors were present.

A business meeting preceded the program.

New Citrus Fruit

In an effort to develop a lemon that would grow successfully in Florida, the Federal Bureau of

Feminine

New and charmingly feminine is a piece of shirred net neckwear—really a bib with ruffled epaulettes. Wear it on a simple, black street dress to achieve an air of afternoon formality.

Chicken Barbecue Celebrates Double Anniversary

Double cause for congratulation inspired one of the parties on the weekend social calendar held Saturday evening at the home of Mr. and Mrs. L. G. Lewis, 714 W. Kansas.

The occasion: The birthday anniversary of Mr. Lewis and the ninth wedding anniversary of Dr. and Mrs. Jas. H. Chapple. The festivity: A chicken barbecue in the attractively-appointed backyard of the Lewis home.

Present to celebrate the occasion were: The honorees, Mr. Lewis and Dr. and Mrs. Chapple, Mr. and Mrs. Don Sivalls, Mrs. Chapple's sister, Miss Elisa Fabrega of Panama, Earl Klipp, A. L. Baker of Odessa, and the hostess, Mrs. Lewis.

Plant Industry has produced a hybrid, part lemon and part lime, now on the market called the Perrine lemon. In appearance and flavor it resembles the lemon. The pulp, however, is a pale, greenish-yellow like the pulp of the lime.

Industry Emigrates

Some of the finest paprika—that flavorful, colorful condiment we use to add zest and life to our daily dishes—now comes from Hungary. Originally most of the paprika used in this country was imported from Spain. The Spanish War practically put an end to this source.

Then it was discovered that climate and soil conditions in Hungary are perfectly suitable for its production. Skill in reaping and grinding the seed is required to assure a fine textured product.

Backward Interest in Fall Fashion

Pre-fall fashion showings indicate strong back interest in both dresses and hats—actual bustles, bustle-effect frocks and trim, forward-plunging chapeaux with huge dramatic bows across the back, flaring downward from the rear crown. Dashing visored models, postillions, flat-ish skimmers and swirled turbans are among the earliest favorites.

IRON MAN OF LUBBOCK HURLS TWO WINS OVER MIDLAND CLUB

Bridwell Holds Cowboys Down in Double Header

BY JESS RODGERS.

LUBBOCK, July 31. — Consistent Clovis Bridwell, mainstay of the Hubber hurling crew, unrelenting ironman performance here this afternoon when he pitched his Lubbock mates to a twin triumph over Midland, handing the Cowboys a heart-breaking defeat in the opener, 4-3, and coming back in the nightcap with 8-hit twirling to win, 5-4.

Victim of the opening setback was Joe Piet who gave up only five safeties, but one of those was a single by Al Carr in the final frame with the bases loaded, Matt Zorko and Boyd Watkins untying the game for victory.

In the finale, Tex Nugent kept the Lubbock artillery bouncing the pellet into the air, Lynn Everson engaging seven flies in centerfield, Lubbock's winning run came when Jimmy Kerr's wild peg to first in the seventh with two out allowed Carr to count from second.

First Game.

Midland	AB	R	H	PO	A
Parma 2	3	0	0	5	1
Cox ss	3	0	1	1	0
Kerr c	4	0	2	5	0

PASTOR IN SARATOGA CAMP MAKING BELIEVE HE IS DEMPSEY

BY HARRY GRAYSON
NEA Service Sports Editor

SARATOGA SPRINGS—Robert Pastor is here doing light training for his 20-round match with Joe Louis in Detroit, Sept. 20.

Bob Pastor has the same camp that the late Thomas C. Luther built for Jack Dempsey on the shore of beautiful eight-mile long Saratoga Lake.

Old Tom Luther is gone and a modern White Sulphur Springs Hotel has replaced the old ramshackle one which housed camp followers in Dempsey's day and as far back as the time of Kid McCoy. The new hotel is run by Tom Luther's son and daughter, Thomas F. and Margaret.

"I'm making believe I'm Dempsey," says the personable Pastor. "And I'll be bitterly disappointed if I fail to do a good job of looking like him when I get Louis where I want him."

Pastor is living in a cabin in the woods a mile and a half from his training quarters, which are seven miles from the Saratoga Racetrack. Attendants and sparring partners occupy the old Dempsey cottage.

Saratoga racing does not start until 3 o'clock, so Pastor toils at 1:15 to attract racegoers.

No one has tackled Louis with more confidence. Everybody from Pastor and his veteran manager, James J. Johnston, to the rubber seems cock-sure that there is to be a new heavyweight champion.

Johnston was the Garden matchmaker at the time. Promoter Mike Jacobs, who has Louis under contract, was the Garden's arch rival and it was said that Johnston was willing to disappoint his own trade to put a leak in the negro youth's reputation as a knockout.

To make certain of this, the Old Boy Bandit put Pastor on a bicycle.

"The most important thing I learned in that start was that Louis is dangerous for only the first minute of a round," explains Pastor.

"And that he has to hit you with a succession of punches to really hurt you. Old Jim Braddock was the only one he flattened with one belt.

Challenger Works Up Hate and Says He Won't Need Bicycle

Bob Pastor ponders fight with Joe Louis in Detroit, Sept. 20.

"I stayed with Louis in my first 10-rounder."

"This is chance I've waited for. Louis is facing a mean man."

"Louis is one-track fighter. I'll untrack him... knock him out."

Johnston was the Garden matchmaker at the time. Promoter Mike Jacobs, who has Louis under contract, was the Garden's arch rival and it was said that Johnston was willing to disappoint his own trade to put a leak in the negro youth's reputation as a knockout.

To make certain of this, the Old Boy Bandit put Pastor on a bicycle.

"The most important thing I learned in that start was that Louis is dangerous for only the first minute of a round," explains Pastor.

"And that he has to hit you with a succession of punches to really hurt you. Old Jim Braddock was the only one he flattened with one belt.

"Now, while I'm leaving my bicycle at home this trip, I don't believe Louis is going to clip me with a series of punches.

PASTOR PLANS TO UNTRACK ONE-TRACK CHAMPION

Pastor now scales 193 pounds... expects to march front and center with Louis at between 182 and 186.

Pastor says he made a mistake in running from Louis in their first meeting at the Garden in January, 1937... asserts that it was Jimmy Johnston's idea.

"I had never run from a fighter before and haven't since and honestly think that I would have stirred up plenty of trouble for Louis had I sailed into him toward the end of each round," he declares.

legs in the New York University backfield and again intends to make good use of them against Louis, although attack will play a vastly more important part in his tactics on this occasion.

Pastor believes the 20-round route is to his advantage.

"Louis is a one-track fighter," he goes on. "He comes out with one plan of battle and he's a novice when you untrack him.

"I promised Pop (Johnston) I'd knock him out.

"And I believe I will."

Bob Pastor will move closer to the battleground, Aug. 21. Meanwhile, he is absorbing much

Florida Turns Pulp of Fruit To Dairy Use

JACKSONVILLE, Fla. (UP).—A new industry—manufacture of dried citrus pulp—is a source of thousands of dollars income to Florida growers.

The new product, which is resulting in a great saving to dairymen, utilizes the pulp and refuse from grapefruit, oranges and tangerines. It is considered an ideal feed for cattle.

A bumper crop of citrus fruits this year is giving impetus to the pulp output. Today there are at least six large plants in the state producing citrus pulp in commercial quantities and a large number of smaller plants are in operation.

Quality of this profitable by-product, virtually is eliminating necessity for importation of dried beet pulp, formerly used as a dairy feed in Florida. Tests made with dairy cows prove that dried citrus pulp is a better feed than that which is imported from Japan, Poland and other countries.

Home Market Another Asset. Florida's chief advantage, of course, is that the market for this new product is right in its own backyard.

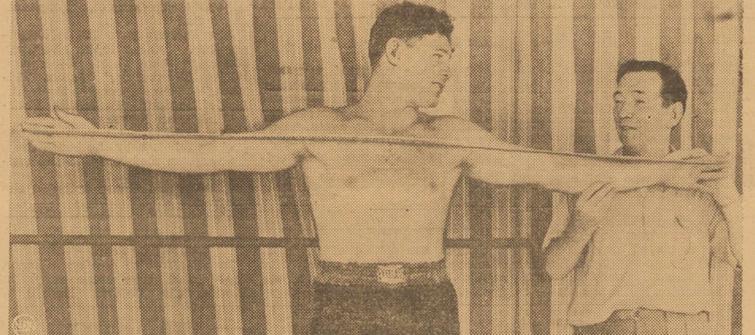

The dried citrus pulp industry, in taking over the beet pulp market, leaves some \$600,000 within the state, not to mention a saving to Florida dairymen of approximately \$100,000 in reduced feed bills.

Florida citrus growers easily can produce all the dried pulp needed by the state's \$30,000,000 dairy industry, and within a few years the annual output is expected to be increased and supply needs of dairymen in adjoining southeastern states.

Not only have tests proved that dried citrus pulp is a better dairy feed than beet pulp, but the cost is 20 per cent less, and in the central portions of the state—in the heart of the citrus section—there is still a larger saving.

Processing Varies Little. The process used in preparing the pulp is about the same in the various Florida plants. The slight variations in chemical composition are due to the general quality of the fruit used in canning. Naturally, those using better grades of

Proving Pastor Matches Louis in Reach... 76 Inches

Manager James J. Johnston trots out tape at Saratoga to prove Bob Pastor matches Joe Louis in reach with 76 inches. Gene Tunney said Tony Galento might have knocked out Louis had his arms been longer. Pastor fights the champ on 20 rounds in Detroit, Sept. 20.

World Flight Due by Crew Of Newsmen

TOKYO. (UP).—The newspapers Oskaka Mainichi and the Tokyo Nichinichi will sponsor a round-the-world flight, spanning more than 37,000 miles and 30 nations. The flight is tentatively planned to start in mid-August.

The land-plane to be used in this flight has been specially designed and built by the Mitsubishi concern at its factory in Nagoya.

It is equipped with two Mitsubishi Kinsei Model engines capable of a cruising speed of 140 miles an hour. It will carry a crew of seven, as follows:

Chief pilot and navigator—Sumitosi Nakao.
Sub-pilot—Shigeo Yoshida.
Engineer—Hapime Shimakawa Sato.

Wireless navigator and engineer—Chosaku Yoakawa.
Reporter—Takeo Ohara.
Mechanics—Tiroshi Sakai.
Chief Pilot Is Veteran.

The chief pilot, Sumitosi Nakao, is considered the foremost civilian

fruit in canning fruit and juice show a better grade of pulp in the finished product.

The pulp feed has been found to have no effect on the color or flavor of milk.

In preparing dried citrus pulp, the general policy is to utilize the peel and other portions of the fruit immediately after the juice or meaty sections have been removed.

The pulp is picked up immediately and is sent through a cutting process and as much water as possible is pressed out. Then it is steam-dried in huge drums. Virtually all the water content is removed without loss of any of the valuable ingredients.

During this process, molasses or lime is added. Some processing plants use both.

For the first time, Florida's citrus industry can make a claim superior to that of meat packers, who assert that in butchering they lose no part of the pig except the squeal.

Nothing is lost in the citrus industry—not even the fragrance of orange blossoms, for the pulp holds that.

flight will involve many feats which, although not unprecedented, will test capacity of a long-continued flight, demonstration under an extraordinary variety of transport conditions.

To Fringe "Top of the World" The first section of the journey outlined means a flight up near the top of the world, where Nome, Alaska, already has served as a guide-post to several aviators bound to or from the Orient.

The trip down the west coast of North America to San Diego involves no great hazards or difficulties, and there are well-charted courses across the continent to New York.

The Central and South American points of call are all on regularly established airline points. The trans-Andean crossing from Santiago to Mendoza, Argentina, involves high altitude flying, and since the Japanese aviators are not familiar with the crossing of the Cordillera, this accomplishment will be a real feat. The crossing usually is made at eleva-

tion of 17,000 feet or higher, through the Upsallanta Pass, above the well-known statue of the "Christ of the Andes" which symbolizes peace between Chile and Argentina.

They are Robert Fields and William Rittenhouse, of Dundee, Daniel Rittenhouse, of near Morgan town, and Byron Edwards, of Alexandria.

Their hobby is panning gold. The men assert that mechanical device which they use to remove gold from gravel or sand will be the major factor in making their fortune. No chemicals are

necessary for the separator to operate. And they are keeping the exact process a secret.

The machine is operated by hand. Sand or gravel is dumped inside a revolving drum and water is forced through the machine by a diaphragm pump. Then the machine throws out the useless material and the fine particles are tossed on a rocker at the bottom of the machine.

Each day that they have an opportunity they work one of the numerous small Indiana streams, and generally they find traces of gold. They have not yet discovered the metal in paying quantity, but they believe that their new ideas on recovering gold will eventually

bring them a strike. They seldom find more than \$2 in gold pieces for their day's work. However, they have found small quantities of copper and silver, one diamond, many small rubies and garnets and several petrified lizards.

Arrington Finalist In District Tennis Championship Games

Three Midland boys who entered the district tennis tournament at Sweetwater during the week end gave a good account of themselves.

Frank Wade Arrington was narrowly defeated for the men's singles championship by George Richey of Sweetwater. In the junior boys' doubles, paired in the latter with Fred Gordon Middleton, also went to the finals in junior doubles at Sweetwater before being eliminated, playing with Ray Miller of Sweetwater.

In the junior boys' singles, he defeated Bill Matlock and Bill Joiner. In the same group, Wayne Lanham and Bobby Walker were defeated, but both boys put up strong games, reports from Sweetwater said. Walker also entered the boys' singles but was beaten by David Elrod.

Machine Sifts Indiana Sands For Gold Bits

DUNDEE, Ind. (UP).—Four Central Indiana men have a hobby which they believe will make their fortune.

They are Robert Fields and William Rittenhouse, of Dundee, Daniel Rittenhouse, of near Morgan town, and Byron Edwards, of Alexandria.

Their hobby is panning gold. The men assert that mechanical device which they use to remove gold from gravel or sand will be the major factor in making their fortune. No chemicals are

of the traditional atmosphere which surrounded Jack Dempsey at the Spa.

The PAYOFF

Blondy Cross, that versatile sports writer of the San Angelo Standard Times, rested up here overnight Saturday, returning from the Davis Mountain coaching school. And here's what he gathered while apparently half asleep:

Commencing in from the Davis Mountain coaching school yesterday the dept. bumped into a furious foursome on the Midland country club course. . . . Incidentally, at the halfway point of this 18-hole match there was the lanky and rawhide E. B. Dozier quaffing a bottle of MILK, of all things! . . . Dozier was teamed up with Lloyd French against R. T. Mobley and Gordon Clark in a cutthroat engagement. . . . At the turn, the Dozier-French team was leading (Dozier had been keeping score) and had such an advantage it at that moment seems fairly safe to say they won the money.

The Midland country club has the best grass-green course on the highway between Fort Worth and El Paso (Big Spring may dispute this).

Anyhow, that's opinion of Midland golfers and Pro Gayther Nowell, late of Springlake, Waco. . . . The revamped Midland course has just been completed and the grand opening ceremonies are ticketed Aug. 15 with a barbecue and dance and a round of golf. . . . The annual Midland country club championship tournament is to be launched on the following weekend. . . . E. B. Dozier, Jr., is the defending champion. . . . Main contenders for his laurels are Jimmy Smith and H. S. Ferguson. . . . Bob Hamilton is the club president and I. Pratt the secretary. . . . The club also is watering its fairways, making the course truly one of the best if not THE best in the west. . . . Among things maybe you and I didn't know:

George Herring, who as representative of McCamey in the all-West Texas homey men's championship tournament staged through this col several years ago, now is one of Midland's distinguished citizens. . . . Herring still is just as homely if not homelier. . . . Incidentally, he was recipient of one of the several prizes awarded in that tourney. . . . Dr. J. M. Devereux possibly is Midland's most torrid baseball fan. He's after those West Texas-New Mexico league scores all the time. . . . And speaking of baseball, your old friend Kemper Kimberlin is as barn as ever. . . . Yesterday morning I met him in a swirl lining up a party to drive into Lubbock for the Lubbock-Midland double-header although the night before Lubbock had larruped Midland, 15 to 0. . . . Kimberlin, by the way, is Midland's king canoe fisherman. . . . Lugs one of the volatile craft up to Red Bluff dam and hauls in the limit frequently without capsizing.

German Fuses
New Diamond Cutting Alloy

BERLIN (UP).—The hardest working material on earth—a combination of diamond splinters and a secret metal alloy—has been invented by Dr. Wilhelm Mueller, a Berlin physicist.

The new material is so hard it cuts through hard steels, such as those used for crankshafts and pistons, 10 times as fast as previously used pure diamond particles. It is a dull gray substance in the surface of which diamond particles are evenly distributed as though on a piece of sandpaper.

Earlier attempts to make a durable combination of metal and diamonds all failed because diamonds, consisting of pure carbon, burn up at 850 degrees celsius. The new process, however, merges diamonds and metal at a lesser heat under simultaneous high pressure.

A tricycle landing gear, which guards against nosing over when landing in a muddy field, is another unusual feature that is to be used on army pursuit planes.

Admits Killing of School Girl

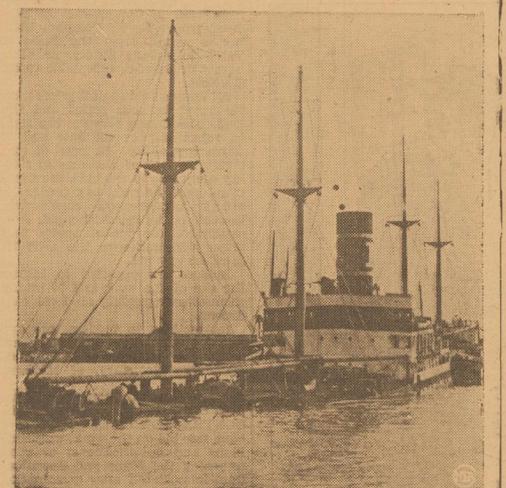

Thomas Boyce, above, 26-year-old father of three children, confessed slaying 11-year-old Elizabeth De Bruicker, whose body was found buried near Harrison Hills Country Club, Attica, Ind., where Boyce is employed as golf course worker.

Not Cricket---For Poor Cricket

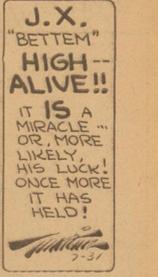

"Muzzled" with collar which prevents it from eating, sprayed with sodium arsenite dust, this cricket was subject in experiment at Montana State College, Bozeman, to aid farmers' war against insect pests. Purpose: to find method for killing crickets without having to wait for them to eat poisoned grain. Result: "muzzled" crickets died from effect of sodium arsenite touching bodies just as rapidly as those fed on poisoned food.

The Bigger They Come—

It was the old story of Goliath and David, when the big \$200,000 freighter, S. S. Edgar F. Luckenbach, collided with a humble New Orleans, La., ferryboat, then crashed into a concrete pier. The result is shown above, where the Luckenbach is pictured slowly sinking into the Mississippi River.

example of denouncing the American-Japanese trade treaty by abrogating the British-Japanese trade pact of 1911 if the Tokyo talks fail. Another cause for pessimism was continuance of the anti-British campaign in North China. Prime Minister Chamberlain prepared a comprehensive review of the international situation for the House of Commons today when Parliament starts its final week before recessing Friday until fall. Military aid to Moscow. It was expected he would be pressed to deal with the Tokyo talks and Washington's action to terminate the American-Japanese trade treaty. Whether he would be able to make any definite announcement about the proposed British-French-Soviet Russian mutual assistance pact was uncertain. It was understood, however, he would announce plans to send British and French military missions to Moscow for staff talks which would be carried on side by side with the political negotiations. It also was expected he would announce the personnel of the British missions.

Personals

Guy Bennett and family have returned from a vacation trip to Dallas and Hollis, Okla.

Mrs. Russell Peach arrived home Sunday night from Fort Worth where she had visited her mother.

Mrs. Loy Acuff of Big Spring visited Mr. and Mrs. Gene Acuff here Saturday.

Mr. and Mrs. Frank Dunlap Jr. of Odessa were visitors in Midland Sunday.

Mrs. W. J. Davis left Sunday for her home in Lamesa after a visit with her sister, Mrs. Dona Dunagan.

Mrs. Ernest Nance left last week for a three weeks visit with relatives in Central Texas. While away she will attend the Shafer and Cunningham family reunion at Georgetown, Texas, on August 1-2. She will also attend the Alexander family reunion at Brady, Texas, on August 10-11-12.

Return From Tour of Northwestern Country

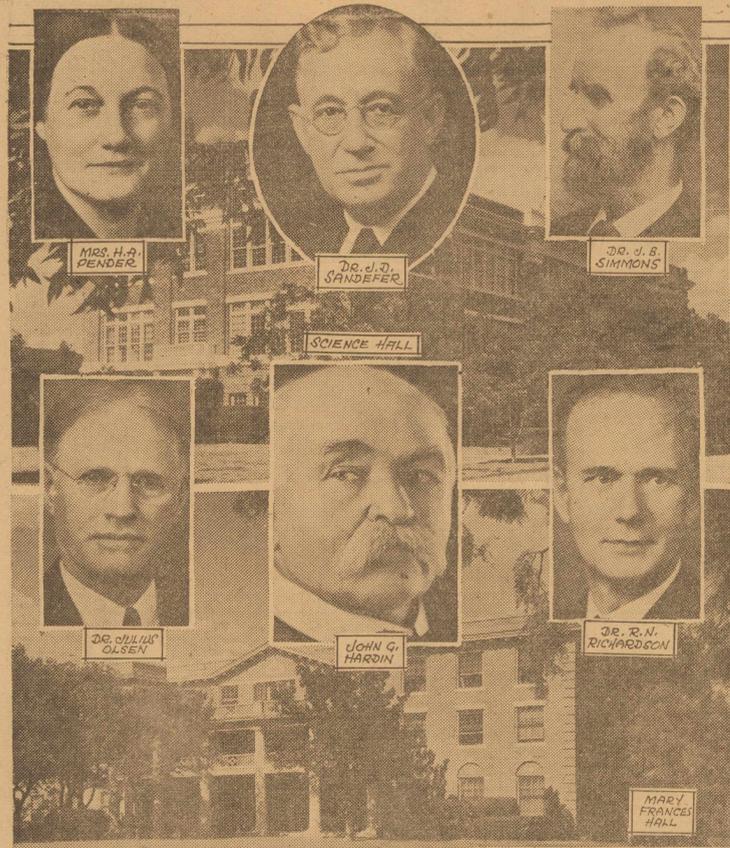

Visiting several northwestern states and a part of western Canada, Mr. and Mrs. Roy Parks, Roy Jr. and Buster Cole returned home late Sunday, having been on the vacation trip since July 4. High spot of the trip was the Calgary Stampede, at Calgary, Canada, where the world championship rodeo was witnessed for two days.

The party went north by way of Denver, thence to the Yellowstone and Glacier national parks, through Montana to Canada. After visiting the Calgary Stampede, they went up to Lake Louise, back down the Pacific coast through Washington and Oregon to San Francisco, coming home by way of the northern rim of Grand Canyon, Ariz.

band, identified by police as Mr. and Mrs. George Washington Treadway of Houston, were found in a trailer car on the outskirts of town today. Police said the two apparently were attacked about daylight.

A French inventor, Francois Bessier, perfected a storage battery in which iodine is the active material.

Hardin-Simmons University Plans for Golden Jubilee

Dr. J. D. Sandefer, dean of senior college and university presidents in Texas, completes thirty years in Texas, completes thirty years as president of Hardin-Simmons University, in Abilene, as Hardin-Simmons makes plans to celebrate its semi-centennial or golden jubilee, in 1941-42. Erection of a new \$150,000 library building to house the university's general library and

numerous outstanding collections, has been designated the first definite jubilee objective. Dr. Julius Olsen, dean of liberal arts, and senior H-SU faculty member with 38 years of service; Dr. R. N. Richardson, H-SU executive vice president, and widely known author and historian of the Southwest, and Mrs. H. A. Pender, '11, Abilene, president of the H-SU alumni association, are directing semi-centennial plans. Dr.

Sandefer, president of Hardin-Simmons since 1909, begins his thirty-first year as its head, in the fall. Inset show Dr. J. B. Simmons, late New York educator and Baptist pastor, and John G. Hardin, late Burk Burnett, Tex., philanthropist, for whom Hardin-Simmons University, established in 1891, is named. Buildings are Science Hall, top, and Mary Frances Hall, memorial girls' dormitory, below.

Men's Class Donates To New Church

A special donation to the Greasewood church, a newly-organized church in the southern part of the county near the Upton county line was given by the Scharbauer Men's class at its regular meeting in Hotel Scharbauer Sunday.

The lesson for the day, "Je-hoshaphat: A Life of Obedience," was taught by Mayor M. C. Ulmer. Leading the song services and presiding for the meeting was C. C. Keith.

Miss Clea Dee Tate played the offertory and accompaniments for the singing. W. I. Pratt offered the benediction.

DR. PEMBERTON BACK

Dr. L. B. Pemberton returned this weekend from his cabin at Pine Lodge, New Mexico. Mrs. Pemberton and the children will remain for three more weeks. Dr. Pemberton plans to return there in two weeks.

FROM RED BLUFF

Mr. and Mrs. Myrl Mannschreck and Mr. and Mrs. Paul Jones returned Sunday night from a fishing trip to Red Bluff. They report 11 bass caught.

Troubles Told Once A Month At Meeting, Highway Commission

AUSTIN (AP)—From every nook and cranny of Texas they come to tell the Highway Commission their troubles. They are a typical cross section of a state with multiple interest and industries, these men and women of plains, coast, piney woodlands, city and farm who assemble monthly in the Highway Department building to present pleas for better roads.

The law says the commission shall hold monthly hearings for this purpose and although practical experience has shown the same business could be conducted with more dispatch, equal efficiency and perhaps more convenience by correspondence, the hearings continue. A majority of the requests come from rural areas and, curiously, revolve around three factors—oil, farms and doctors.

Now oil fields bring certain demands for highway outlet to shipping points. Farm areas with unimproved roads continually seek all-weather routes to markets.

These were familiar requests as the commission went through its last docket. Sensing something amiss, a commissioner vetured the opinion that at least one delegation would point to the need of well surfaced roads for the convenience of a physician.

It was but a few minutes before a group fulfilled his request. A spokesman said his area needed a modern road to replace a dirt one impassable in wet weather. The doctor in the nearest village had declined to risk travel on muddy lanes. It was sometimes necessary to transport patients to town over the hazardous wet weather route.

These pleas fall on sympathetic ears. No one is denied his or her opinion when a delegation lines up before the highway officials. Rarely, however, is an immediate improvement order issued. Development of the highway system is a long range project. Each link must be planned well in advance as funds become available chances are they have been assigned to a project under consideration for many months. The state must match on a dollar-for-dollar basis federal funds made available for improvement of important highways. There is also a matching basis for secondary road construction and all state plans must be submitted for federal approval before a project can reach the construction stage. This takes time. So much time, in fact, that

legalizing gambling in this state, regardless of the purpose to which the revenue may be applied, I am opposed to the principle of gambling regardless of whether gambling is effected through bookie joints, horse racing, pool tables or slot machines.

"I am unalterably opposed to all those things which destroy homes and which debauch the youth of this country and never with my approval will any of these things be written into the law of this state."

British-German Peace Planner?

Resignation of R. S. Hudson, above, as secretary of British overseas trade department may be result of "embarrassing" world publicity given his talks on "peace consolidation" with Hellmuth Wohlthat, German economic expert.

Midland Party Visits the West

Mrs. J. C. Smith of J. C. Smith company has returned from a combined business and vacation trip to California.

She visited Los Angeles where she attended the style show and did marketing and visited relatives. In company with three Midland teachers, Miss Gladys Pinson, Miss Merle Smith, and Miss Iva Butler, she traveled up the sea-coast to San Francisco, via Monterey and Carmel-by-the-Sea. The latter famous resort, Mrs. Smith declared to be the "most beautiful place I've ever seen."

The party spent three days in San Francisco, though foggy weather made sightseeing unsatisfactory.

Chugs From Motor Kill Off the Prairie Dogs

SAN ANGELO (AP)—Ranchmen and stock farmers of Concho county have begun to look at the prairie dog more seriously when it was discovered the animal was making heavy inroads on the pasture lands. Ranchmen have been obtaining poison recently to rid their lands of the pests which destroy grass from the roots up.

One ranchman reports about 5,000 dog holes on two sections of his place with a 300-acre plot badly perforated with holes and mounds. Poison is placed at each hole and then covered. This is said to be an effective eradication method.

In the Eden section ranchmen find carbon monoxide from a motor exhaust to be another successful method. An automobile or truck is driven near the hole and a hose extended into the hole from the exhaust. A few chugs of the motor fumes from the exhaust leave the prairie dogs and any other animals in the holes dead.

Snake Hat Band for Navy Officer Wanted

DEL RIO (AP)—Jim Netts says Commander James B. Sykes of the Intelligence Bureau of the United States navy wants a rattlesnake hide for a hat band and has asked him to fine one. Right off Netts, secretary of the Del Rio chamber of commerce, informed the officer there were no snake pelts available in this vicinity cured and ready for banding a hat. Notwithstanding, Sykes asked him to try and find one and, while he seeks, Netts wonders what a Commander in the navy wants with such a hat decoration.

Extortion Charge Is Filed After "Trap" Takes Comanche Man

BROWNWOOD, July 31. (AP)—A complaint charging Tom V. Wilson, 28, of Comanche, with attempted extortion by threat of destruction of property and life was filed here Sunday in connection with a letter received by J. M. Siddons, Stephenville business man.

Sheriff Jack Hallmark of Brownwood, who signed the complaint, said Siddons received a letter Saturday demanding \$2,500 and threatening to blow up his auto parts store if the money was not forthcoming. Deputies Chester Avinger and Howard Becker of Brownwood arrested Wilson late Saturday night. Sheriff Hallmark said Wilson, formerly employed as a mechanic by Siddons, had made a signed statement in connection with the charge. He was held in jail here.

Hallmark said an arrest was made in the case about 10:50 p. m. Saturday at a cross marked point on Highway 84 between Brownwood and Zephyr, ten miles each of here, where a dummy package had been left as a trap. The letter to Siddons, Hallmark said, instructed him to go to Brownwood, park near the court house until 10 p. m., then drive at 50-miles-per hour on Highway 84 toward Zephyr, and from there at 20-miles-per hour toward Mullin, watching for a white cross on the pavement, where he was to leave the money.

The merchant conferred with Sheriff Jack Hallmark of Brownwood and Sheriff Carl W. Turnbow of Stephenville, and agreed to co-operate in laying a trap for the letter writer.

Siddons found the cross marked spot about two miles west of Zephyr. He drove there in a large coupe, with Deputy Avinger hidden in the turtle back. As Siddons left the package on the highway edge, Avinger crawled out and to a hiding place. Sheriff Hallmark and Becker drove by a few minutes later and Becker joined Avinger. The suspect appeared riding alone in a sedan which emerged from a side road. Avinger leveled a rifle at him as he leaped from the car to pick up the package.

FROM RUIDOSO, DALLAS

Mrs. L. G. Mackey and son, Graham, have returned from Ruidoso where they spent several days. Mr. Mackey has returned from a trip to Dallas. Accompanying him were Mr. and Mrs. Hayden Miles.

BACK TO SCHOOL

Franklin Stickey, Russell Holster, Harold and Jack Reid, have returned to Draughon's Business college at Lubbock after spending the weekend with relatives.

GO TO RUIDOSO.

W. J. Sparks, his sister, Mrs. C. H. Marchman of Dallas, her daughter, Mrs. Hobart Parks, and Miss Virginia Parks will leave during the week for Ruidoso to spend some time at Mr. Sparks' lodge there.

TRAIN KILLS ATTORNEY.

FORT WORTH, July 31. (AP)—John O. Ragan, 38-year-old attorney, died under the wheels of a switch engine here early Sunday near his home. Justice of the Peace Gus Brown, conducting an inquest, withheld his verdict pending further investigation. Funeral services will be held today.

NOTICE TO BIDDERS

Sealed proposals addressed to Honorable M. C. Ulmer, Mayor of Midland, Texas, will be received at the office of City Secretary until 2 P. M. August 15, 1939, for furnishing all necessary materials, machinery, equipment, superintendence and labor for constructing certain Airport Paving Improvements for Midland Municipal Airport, Owner, of City of Midland, Texas.

Bidders must submit Cashier's or Certified Check in the amount of \$5,000.00 from a Surety Company holding a permit from the State of Texas to act as Surety, or other Surety or Sureties acceptable to the OWNER. All lump sum and unit prices must be stated in both script and figures. The Owner reserves the right to reject any or all bids and to waive formalities. In case of ambiguity or lack of clearness in stating the prices in the bids, the Owner reserves the right to consider the most advantageous construction thereof, or to reject the bid. Unreasonable (or "unbalanced") unit prices will authorize the OWNER to reject any bid. Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions. Instructions to bidders, proposal forms, specifications and plans are on file at the office of J. C. Hudson, City Secretary, of Midland, Texas.

Copies may be secured upon deposit of \$25.00 to be returned to the CONTRACTOR on submission of a bona fide bid on the work, with such Plans and Specifications; or upon returning the Plans and Specifications immediately after examination of same, and advising the ENGINEER that the bid will not be submitted; otherwise the deposit shall be forfeited.

City of Midland, Texas
Owner
By M. C. Ulmer, Mayor
July 31-Aug. 7.

Stand-In

"Betsy" is Hollywood's most docile stand-in; never any trouble, never speaks, even when spoken to. She's a doll, rigged up to "work" with Carolyn Lee, who makes her screen debut in "Are Husbands Necessary?" Here are Carolyn and Betsy, as they appear on the set, smiling serenely.

SUSPECT HELD IN KILLING.

MARSHALL, July 31. (AP)—A suspect was held in the Harrison county jail Sunday for questioning about the mysterious shotgun killing of A. L. (Skinny) Brannon, 31, at a Marshall tourist court cabin last Saturday at mid-night. Brannon was shot through the heart as he stepped from the cabin.

GOES TO SAN ANTONIO

Oriel McDonald, Midland boy, left Sunday for San Antonio.
