NUMBER 151

NAZIS BOMB POLISH CITIES

HITLER ACCEPTS DANZIG INTO REICH AS INVASION IS BEGUN

WARSAW, Poland, Sept. 1 (AP).—The Foreign Office said today that German planes had bombed the cities of Krakow and Kapowice, in southwestern Poland.

German planes also bombed Czestochowa, Tczew and Erudziadz early this morning, the foreign office reported.

It was reported officially German troops had attacked Polish defenses at Mlawa, on the border in the southern part of East Prussia.

The foreign office confirmed fighting had started in Danzig.

AMERICAN AMBASSADORS VERIFY REPORTS

WASHINGTON, Sept. 1 (AP).—President Roosevelt directed today that all naval ships and army commands be notified at once by radio of German-Polish hostilities. The White House issued the following statement at 2:50 a. m. (Eastern Standard Time):

"The President received word through Ambassador Biddle at Warsaw and through Ambassador Bullitt at Paris that Germany had invaded Poland and four Polish cities were being bombed."

President Roosevelt directed that all naval ships and army commands be notified at once of the following dispatch from Berlin:

"Adolf Hitler today accepted the Free City of Danzig into the Reich.

"The Fuehrer acted after Albert Forster, Nazi chief of staff of the Free City and district

leader there, had proclaimed a reunion of the Baltic city with Hitler Germany and begged the Fuehrer to accept it."

BRITISH CABINET EXPECTED TO MEET

LONDON, Sept. 1 (AP).—Great Britain, standing pat on her pledge to fight for Polish independence, received the news of Germany's latest move in the European crisis with the deepest gravity as nations swept swiftly toward full war footing.

An immediate meeting of the British Cabinet was expected.

GERMAN HOSPITAL RECEIVING WOUNDED

BLEIWITZ, Germany, Sept. 1 (AP).—An army ambulance carrying wounded soldiers arrived at an emergency hospital today. The wounded men were carried in a wagon on stretchers. It could not be ascertained definitely from what point the wounded soldiers were being carried.

Hitler Says Germany Prepared To "Meet Bombs With Bombs"

NEW YORK, Sept. 1 (AP).—Chancellor Hitler said in a speech early today that Germany was prepared to meet "bomb with bomb" in settlement of the Polish question.

He promised to be the "first soldier in the field for the Reich."

He named Marshal Herman Goering his successor "should anything happen to me in this struggle."

"Should anything happen to my friend Goering, next in line for Fuehrer's duties will be Rudolph Hess. If anything should happen to him, the senate shall call the most worthy of the people," he declared.

Daladier Calls Deputies to Meet In Extraordinary Session Today

PARIS, Sept. 1 (AP).—Premier Daladier, informed Germans had bombed Polish cities, called an extraordinary session of the house of deputies for 10:30 this morning (3:30 a. m. C. S. T.).

Reports of the German invasion of Poland came from Berlin and the Polish embassy here.

Upon receipt of word of German operations, Daladier rushed to the war ministry and called Generalissimo Maurice Gamlin, supreme commander of land, sea and air forces, into consultation.

Psychologist Offers Recipe for Avoiding a Crabbed Old Age

The calendar cannot be trusted to tell you the truth about old age. While you may be "officially" old at 65, the years following that milestone need not be ones of senility, says Dr. Donald A. Laird, well-known psychologist. In the current Rotarian Magazine, he offers six rules as insurance against the unhappy, crotchety old age. These rules were developed from reports of scientific studies by such authorities on human behavior as Dr. Francis G. Benedict, Dr. Christine Margaret Morgan, Dr. Francis M. Pottenger, and Dr. Edward K. Strong, Jr. Here are the "rules":

- 1. Keep in good health. (Exemplary habits with regard to food, drink, and matters of hygiene, and above all, a philosophy of doing away with worrying work-wonders.)
2. Maintain an intellectual interest in many things. (An education has been found to help make old age happier.)
3. Enjoy your children and relatives—but don't live with them, if you can possibly avoid it! (Happiest old folks live alone so they can remain independent.)
4. Mingle with the younger crowd at least occasionally. (Retain membership in your club, lodge and church—and serve on committees.)
5. Keep occupied! (Choose hobbies and recreations which keep the hands busy, the mind occupied. One of the surest ways discovered to make old folks unhappy, crabbed, disillusioned, was for them to retire.)
6. Prepare for old age. (Organize your thoughts, your life philosophy, and your activities in middle age with the inevitableness of age 65 before you. This is as important as making financial preparations for your "declining years.")
And now, continues Dr. Laird, if you have doubts about your youthfulness, check your habits against these which follow. If you have lost or are losing interest in bridge games, the newspaper sports page, tennis, musical comedies, hunting, auto driving, full-dress affairs, golf, smokers, picnics, poetry, collecting stamps; and if you are gaining interest in "educational" movies, nature study, are galleries, museums, zoos, chopping wood, detective stories, raising flowers and vegetables, being left to yourself, methodical people—then, alas, you are growing old (regardless of your age!). In that case the above rules are given for your benefit.

BRUCE CATTON IN WASHINGTON

Reporter-Telegram Washington Correspondent
ALLENTOWN, Pa.—For the immediate present, at least, this particular corner of industrial Pennsylvania is feeling optimistic. Its people—those hard-working, self-reliant folk we dub "Pennsylvania Dutch"—are confident their community can come back from the depression.
It came back once before. The city used to be a great textile center, but the mills migrated off east and south. Yet the city rose again

U. S. Sets Up Wartime Protection For Tourists, Currency, Agriculture

No Americans will be left stranded if war comes to Europe, for U. S. preparedness includes plan for speedy evacuation of nationals from foreign shores. But these tourists found they could get out space on New York-bound liner President Roosevelt—and they aren't waiting for hostilities to start.

BY NORMAN KAHN, NEA Service Writer

TO GUARD SECURITIES FROM SHOCK

Elaborate precautions have been taken to stabilize currency and cushion the shock on American securities if war breaks out in Europe. The Treasury Department and the Security Exchange Commission are holding secret these plans, formulated last year.

1. Evacuation of American nationals and tourists from Europe.

2. Stabilization of currency and protection of American securities and stocks.

3. Adjustment of agricultural output to meet the inevitable upheaval in market conditions.

An American naval squadron already is in European waters to assist nationals to flee from belligerent nations. This squadron, a light cruiser and two destroyers, has been in European waters since the Spanish war. When the war ended, the contingent was ordered on "good will missions." The navy is ready to send three more light vessels.

The Maritime Commission is fully prepared to order the merchant marine to evacuate American tourists if hostilities break out. No American would be left

IN WASHINGTON

in spite of a bad drought. executives explains it: "Then there were some business men who were for him, who felt that the New Deal reforms were overdue and that its experiments were well-intentioned. Now there are none who feel that way."

BUSINESS INDICES NOW FAVORABLE

The usual business indices are favorable. Retail trade is excellent. A good deal of residential construction is going on, and—as a sleepless night bears witness—there is a substantial amount of store and office building construction, together with a good deal of remodeling of downtown business properties.

Relief rolls are substantially down. At the worst of the depression, the general assistance (direct relief) rolls carried some 4200 families; the list now is down to 1504, having risen a trifle lately due to WPA layoffs.

In the business and professional community, there seems to be an all-but-unanimous feeling that the New Deal has outlived its usefulness. By all accounts, anti-Roosevelt feeling in this class is stronger now than in 1936. As one of the city's most prominent business

men who were for him, who felt that the New Deal reforms were overdue and that its experiments were well-intentioned. Now there are none who feel that way."

WHAT UNWILLING RELIEF THINKERS THINK

The other group—much larger—is composed of those who want jobs and make every effort to get them, who hate to be on relief and will be off the minute it is humanly possible. Among them, says this, there is emerging a feeling which goes something like this:

"After all, on this depression has been going on for a long time, and the New Deal has had plenty of chance to do something about it. It hasn't done very well, because we're still on relief, and we're still on relief because industry hasn't got any jobs for us. Maybe we'd be better off if the New Deal was replaced by an administration which would turn business loose and give it a chance to make jobs for us."

It would be a mistake to say that the working man in general has lost his confidence in Roosevelt. The confidence isn't as strong as it was, probably, or as universal, but it still exists. A labor union leader says flatly that his members are as pro-Roosevelt as ever.

That compendium of neighbor-

Texas Today

By the Associated Press

The American hog, chief source of the American breakfast, is not choosy about its diet. But Fred Hale, chief of the division of swine husbandry at the Texas Agricultural Experiment Station, suggests there should be method in feeding as well as discrimination in preparation of rations if growers are to obtain the most from one of Texas' leading cash crops. Raising hogs economically and profitably, it appears, has problems.

"In fattening hogs," he says, "methods of preparing and feeding farm grains affect the net results about as much as does the kind of ration fed."

Hale says among questions asked the station are: What is the best method of feeding grain sorghum heads, threshed grain sorghum, wheat and barley to fatten hogs?; does it pay to grind these grains for fattening hogs?; what other feeds should be fed with farm grains to make a balanced diet?

After extensive study the station found it does not pay to soak milo heads for a fattening ration. Pigs used in the test made greater gains when fed dry milo heads in self-feeders, free choice, than did other swine fed soaked milo heads by hand three times daily. The labor involved in soaking and feeding the milo heads was about five times greater than that for dry milo heads, but the milo heads should be fed on a platform of some kind. Experiments demonstrated pigs gained 16 pounds more a head in 90 days and required 58 pounds less grain and eight pounds less protein supplement for each 100 pounds where the grain was fed on a platform instead of in the dirt.

Experiments demonstrated, Hale says, it is not necessary to soak threshed whole milo for fattening hogs. The pigs gained as fast and as economically on the dry as on the soaked milo grain and, furthermore it requires more labor to feed the soaked grain.

Another interesting point is that pigs will make as fast and as economical gains when fed whole milo or whole kafir grain in self-feeders, free-choice, as they will when fed ground milo or kafir. Pigs fed at the Texas Station for 90 days gained 1.93 pounds per day on whole kafir, and 1.94 pounds per day on ground kafir. Only 3.17 pounds of kafir was saved by grinding 100 pounds. The saving was too small to pay for the grinding. Observations made during these experiments show that pigs made 23 trips to the self-feeder in 24 hours. Out of every 100 pounds of whole kafir fed on self-feeders, only 2 pounds of whole kafir was undigested. This, together with

hood information, a filling station man, belligerently announced that he still thinks Roosevelt the best friend the working man ever had, and adds that he believes all the other working men feel the same way.

SURVEY PLANS TO REGULATE CROPS

The Department of Agriculture instituted a survey a year ago to determine what action might be necessary to keep crop production here on a normal basis.

The three chief commodities involved are cotton, wheat, and corn.

Loans on wheat and cotton through the Agricultural Adjustment Administration will play a significant part in stabilization of farm commodity markets.

Despite anything that happens in Europe this fall or winter, farmers in America will receive specified prices for their cotton and wheat acreage.

body on the sidewalk.

It takes two different kinds of riding to ride a horse race and to kick out a bronc. A. J. Norton was using the jockey style when the paint mare threw him off on the race track early Wednesday morning.

Homer Ingham is still keeping the market up on good little horses. Just let him show up with one that everybody likes, and he runs the horse market up several points.

Senator Tom Connally will be one of the honor guests at Midland Rodeo Labor Day. He is one of the state's most outstanding United States Senators in all of the history of Texas. A good turnout should accompany his visit here.

And Jim Goodman is back in town, too.

the observation that the self-fed pigs made 23 trips to the self-feeder in 24 hours, shows why they can profitably utilize the whole kafir when fed free-choice in self-feeders. It simply means that when fattening pigs are fed whole kafir by hand twice daily pigs eat faster, more greedily, and consequently swallow large quantities of grain before masticating than they do when fed by the free-choice self-feeder method.

Eskimo Will Face Trial in Strange Case of Murder

WINNIPEG, Man. (U.P.)—Bound for bleak Baffin Island, John McLean, Winnipeg barrister, on arrival there will try one of the strangest cases in Canadian legal history—Rex versus Eskimo Katcho.

The Eskimo is charged with murdering his two sons, mistreating them so that they developed brain fever and died. He will go on trial at Pangnirtung, on the southeast corner of Baffin Island.

McLean admitted he was puzzled over the punishment for Katcho should he be found guilty. In the Eskimo code execution for such an offense would be unjust. To take Katcho south to a penitentiary would be condemning him to death from tuberculosis. On the other hand, McLean said, to keep Katcho in the custody of the Royal Canadian Mounted Police post at Baffin Island would be to make him the envy of all his friends and would be no punishment.

Yet justice must be done and McLean will represent the crown in the prosecution. An attorney will be provided for the Eskimo. The trial probably will start in Mid-September.

Toledo Artery Realized.

TOLEDO, O. (U.P.)—A boulevard drive of 23 miles linking Toledo's many parks has been realized after a quarter-century of planning.

WOMAN ARTIST

Reich-Soviet Pact Shifts European Pattern Again

The new Europe is shaping up this way in the wake of the non-aggression agreement between Germany and Russia. The Oslo "peace bloc" nations, all neutrals, have taken leadership in seeking a peaceful way out for Europe. The other neutrals are largely inent on preserving their neutrality. Yugoslavia, under German-Italian pressure, and Bulgaria apparently have made no final commitments.

A GOOD TIRE IS LIFE INSURANCE!
The public has been deluged with confusing tire price advertising. When you buy tires remember this:
A Low Price Doesn't Always Mean Value
Too Low a Price is a Danger Signal
A good tire is LIFE insurance. You have a right to know what grade tire—first, second, third or fourth line—you are buying. See the nearest Fisk dealer. He will tell you the truth—and give you top value and SAFE mileage in whatever grade tire you buy.

an attempted air raid by Polish fliers.

ROME, Sept. 1 (AP).—The Italian government announced today Italy would refrain from starting any military operations.

By Associated Press.

German troops and warplanes have invaded Poland. Poland called for aid from Britain and France and France ordered general mobilization. British parliament was called to meet late today.

Official Warsaw sources said Polish cities have been bombed and that German troops were moving in heavy concentration toward Poland's frontier from East Prussia and the border elsewhere had been violated.

So far, war has not been declared. Adolf Hitler spoke to a hurried session of the Reichstag after he had accepted Danzig into the Reich.

Hitler refrained from saying war was on but he said "I am putting on my uniform and I shall not take it off only in death or victory."

Dramatically, he named Field Marshal Hermann Goering his first choice as his successor and his deputy, Rudolf Hess, second choice.

The German advance was described in Berlin as a counter attack in retaliation for Polish border violations.

King George today signed an order for complete British army, navy and air force mobilization.

President Roosevelt appealed to European powers for pledges they would not bombard civilian populations. France gave her pledge.

The Canadian parliament called an emergency meeting for September 7.

The Italian government announced Italy would refrain from starting any military operations.

Polish cities bombed, the Polish foreign office said, were Krakow, Katowice, Czestochowa, Tczew, Grudziadz.

It confirmed fighting had started in Danzig. Hitler intimated the Rome-Berlin axis was smashed. He said:

"I should like to thank Italy which has supported us this whole time.

"You will understand, however, that for carrying this fight through I do not want to appeal for foreign help."

Thompson Urges Tax Of 10 Cents Barrel Be Placed Upon Oil

SAN ANTONIO, Sept. 1 (AP).—Calling for a total tax increase of 10 cents a barrel on oil, Ernest O. Thompson, member of the railroad commission, last night urged that the sales tax be driven out of Texas forever.

In a radio speech, which he said was in a nature of a declaration that the recent oil crisis was over, interstate oil compact commission, asserted a five-cent per barrel tax should be levied on oil pipelines to finance social security and another five-cent levy placed on oil for the permanent school fund.

He charged the pipelines were making enormous profits and if they were not taxed "a nickel a barrel for grandma" pipeline rates would have to be reduced and the producers would make "just that much more money."

A tax for the permanent school fund should be levied promptly to provide for the day when Texas' vast oil reserves would be exhausted, just as the state's fathers set aside millions of acres of land for the fund, he said.

"Louisiana has a tax of 11 cents own interest against flying over territories mentioned."

BERLIN, Sept. 1 (AP).—A report by the German news agency today said Polish airplanes had attempted a raid on the outskirts of Beuthen, German Silesia, and dropped six bombs in the homestead settlement on Hohenlinde-Strasse. The report said there were no casualties and little damage.

NEW YORK, Sept. 1 (AP).—War fever turned an early rout on the stock market today into a spectacular upward reversal for many shares that had tumbled as much as eight points.

In late trading some shares registered gains of from one to four points. Wheat was up five to eight cents a bushel and cotton up five to 60 cents a bale.

WARSAW, Sept. 1 (AP).—Reports received here tonight said a large number of women and children were killed when German warplanes bombed a refugee train from Poznan at Kutno station, 70 miles west of Warsaw.

a barrel," Thompson stated. "Texas out to get a nickel for grandma, then also put a nickel a barrel into a permanent fund for use in the future of the income of that fund when the day comes that our oil will be gone. We will need that income after the oil is gone to take the place of the oil tax that will stop. It will be all gone."

Further regarding the shutdown-price struggle, Thompson declared order had been restored, hope renewed, the power and dignity of sovereign states upheld, proof given the states could and would work together when occasion demands. He said it had been demonstrated the Humble Oil company does not run Texas.

Everybody generally had been helped by the shutdown for 15 days, oil men, banks, public and the fields, he said.

More Than 150 Attend Session At Encampment

Midland home demonstration clubwomen, their families, 4-H club girls and visitors to a number estimated at more than 150 persons gathered at the Dick Midkiff ranch Thursday afternoon and evening for the opening sessions of the two-day annual home demonstration encampment.

The initial session yesterday afternoon included reports from the 4-H club girls who attended the A&M short course this summer. They were Mary Livingston, Lodell Vest (Gold Star girl for the county), Sylvia King and Avalene Crudup. Miss Alpha Lynn, Midland county home demonstration agent, presented a demonstration on theatrical makeup and showed how various inexpensive materials may be

Piet Lone Midland Choice on All-Star Team of WTNM League

The Lubbock Hubbers and the Big Spring Barons shared the spotlight in the selection of the 1939 all-star team for the West Texas-New Mexico League, each of them grabbing three of the 12 positions. The Amarillo Gold Sox and Pampa Plainsmen came up with two each and the remaining two were divided between the Midland Cowboys and Lamesa Lobes.

Although he had a little competition from Bob Mosel of Lubbock and Tom Wagner of Clovis, Bones Sanders of Amarillo came through with the first base assignment with room to spare.

At second base, Bobby Decker of Big Spring had more trouble, but he edged the decision from Al Summers of Borger.

Bill Capps of Big Spring showed his popularity at third when he sailed in well ahead of Johnny Taylor of Lubbock and Hack Harrison of Clovis.

Manager Salty Parker of Lubbock was a prime favorite for the shortstop job and came through the voting in easy fashion.

Gordon Nell of Pampa, placed in left field, was the only unanimous selection of the team, with every voter casting a ballot for him. Not all of them placed him in left, however.

Skipper Grover Seltz of Pampa goes along side of Nell in center field, and was another top-heavy favorite for the post.

Pat Stacey of Big Spring rounds out the all-star outfield in right and had little trouble placing.

Hack Miller of Lubbock was the "people's choice" as the catcher, only Jim Kerr of Midland getting more than one first-choice vote.

Lee Harris of Lubbock had a real fight on his hands to win the righthanded pitching job. He went in with a margin of only one vote over Jodie Marek of Big Spring.

Bus Dorman of Amarillo, the team's left hander, also squeezed in with the same narrow margin, his opponent being Howard Parks of Borger.

SHUR-TITE Favorite of the month \$5 AS SEEN IN Vogue Wadley's

Harper's Bazaar advertisement featuring shoes and the slogan 'Loveliness is afoot for you... straight from the pages of HARPER'S BAZAAR'.

Rodeo—

(Continued from page 1) zens of Midland have been wearing rodeo regalis on the streets. Bus trips have been made to advertise the rodeo in towns within a 150 mile radius, with members of the Junior Chamber of Commerce sponsoring the projects.

A steady flow of publicity has emanated from the rodeo office, directed by John M. Hendrix of Fort Worth, public relations manager of the Southwestern Exposition who was loaned to the Midland Fair for three weeks, and from the office of the Midland chamber of commerce.

J. Homer Epley, secretary of Midland Fair, Inc., has handled tremendous business in connection with the western event for several weeks. Mrs. C. A. Tyler, wife of the announcer and official program manager, will handle entries, records of time and winning of places in the rodeo contests.

Mrs. Bucy Honored With Ranch Barbecue Supper on Birthday

Honoring Mrs. Loraine Bucy of Lubbock who is visiting here, her sister, Mrs. Teague Hutchinson, and Mrs. Buddy Hutchinson were hostesses for a chicken barbecue supper in the back yard of the former's ranch home about 25 miles south-east of Midland, Wednesday evening. The occasion was Mrs. Bucy's birthday.

Home-barbecued chickens formed the special dish on the supper menu along with salad, buns, and other accompaniments.

Present were: The honoree and her two children, Martha Jane and Ralph Davis, Mr. and Mrs. Percy J. Mims and family, Homer Medlin, Mrs. Buddy Hutchinson, Mr. and Mrs. Teague Hutchinson and children.

Mr. and Mrs. Don Davis and Mr. and Mrs. Ben Dublin were unable to be present for the supper.

Mrs. Wade Heath Hostess to Party For Bridge Club

Mrs. Wade Heath entertained for the Wednesday Bridge club with a two-table party at the home of Miss Cordelia Taylor, 405 North A street, Wednesday at 2:30 o'clock.

Summer flowers formed house decorations.

Bridge games supplied diversion for the group with high score being held by Mrs. Ralph Geister and cut by Mrs. Hugh West.

A party course was served at tea time.

Attending were: Meses. Jack Wilkinson, Bill Blevins, West, Ben Black, Louis Thomas, Geister, Frank Miller, Miss Lucile Thomas and the hostess.

Kansas City Visitor Honored at Supper Given by Martins

Mrs. E. H. Brady of Kansas City, Missouri, who is here visiting her brother, J. R. Martin, and family was named honor guest when Mr. and Mrs. Martin held an informal barbecue supper in the back yard of their home, 2001 W Indiana, Wednesday evening.

Barbecue and accompanying dishes were served to about 40 guests.

The group spent the evening in playing various games or in conversation, as leisurely fancy dictated.

Want a Peach of an Idea for Dessert? Then Surprise Folks With One of These

Peaches in a regal dress—a fresh peach glaze pie with fluting of cream. Late August in its finest aspect.

By MRS. GAYNOR MADDOX, NEA Service Staff Writer.

PEACHES and cream give a lovely complexion to life. And they add smiles to the menu in pies, cakes, dumplings and shimmering salads.

Fresh Peach Pie Glaze. Eight fresh peaches sliced, or 4 cups sliced peaches, 3/4 cup sugar, 1 package orange flavored gelatin, 1 1/2 cups hot water, dash of salt, 1 baked 9-inch pie shell. Combine peaches and sugar and let stand 10 minutes. Dissolve gelatin in hot water. Add salt. When slightly thickened, turn into

cold pie shell. Chill until firm. Garnish with whipped cream, if desired.

Fresh Peach Upside Down Cake. (1 egg) One and a quarter cups sifted cake flour, 1 1/2 teaspoons baking powder, 1/4 teaspoon salt, 3/4 cup granulated sugar, 4 tablespoons softened butter or other shortening, 1 egg well beaten, 1/2 cup milk, 1 teaspoon vanilla, 4 tablespoons butter, 1/2 cup brown sugar firmly packed, 6 peaches pared and sliced.

Sift flour once, measure, add baking powder, salt, and sugar, and sift together three times. Add butter. Combine egg, milk, and vanilla. Add to flour mixture, stirring until all flour is dampened. Then beat vigorously 1 minute.

Melt 4 tablespoons butter in 8x8x2-inch pan or 8-inch skillet over low flame. Add brown sugar and cook and stir until thoroughly mixed. On this arrange peach slices. Turn batter out on contents of pan. Bake in moderate oven (350 degrees F.) 50 minutes, or until done. Loosen cake from sides of pan with spatula. Serve upside down on dish with peaches on top. Garnish with whipped cream, if desired.

Its a Scarf---It's a Bustle--- A Hood and a--- Well, Look at It

An ingenious little hood, which comes in black, brown, gold, green and bright red silk jersey, may be worn as a turban, a snood, hat, a bustle, a pocketbook sash or a hood, as the name implies. Above, three gold hoods are used—one around the head, another to form a monk's cowl and a third for a pocketbook sash. The dress is brown wool, the gloves brown suede.

Two of the clever new hoods—one for a peaked turban and the other for a "tummy muff" sash—lend glamor to a simple, basic dress of moss green crepe. As the season progresses, you'll no doubt hear more and more about "tummy muffs."

Three of the hoods, direct descendants of the traditional head-dress of the Caucasus, combining a peaked hood with two long, versatile scarf ends, are used to dress up a simple velvet evening gown. The one on the head is the way the hood looks when you buy it. The other two, knotted and pinned to form a bustle, show how handy a couple of them can be in any wardrobe.

Charles Brown Is Complimented by Employee Staff

Members of the staff of Midland Steam Laundry entertained with a surprise birthday party at Cloverdale Wednesday evening honoring the proprietor, Charles Brown.

The group gathered at the Park at 7 o'clock where the long supper table was centered by two birthday cakes, one for Mr. Brown and one for Lu Wertha, year-old daughter of Mr. and Mrs. Cotter Hiett whose birthday is the same as Mr. Brown's. Each cake bore the appropriate number of candles.

Mrs. Charles Brown asked the blessing, after which Cotter Hiett proposed a toast to the two honor guests.

A picnic supper, featuring fried chicken as the chief dish, was served and the evening was spent informally.

Present were: Mr. and Mrs. Charles Brown, Meses. and Messrs. Joel Weathered, Chas. Lynch, Bill Davis and son Don, E. L. Thompson, S. H. Martin, F. E. Roach, Cotter Hiett and daughter Lu Wertha, E. F. Munn, Tommy Irwin, Meses. Annie McLaughlin, Hilda Henshaw, Marian Koonce, Celia Shafer, Lou Ellen Long, Dutch Mayfield, Emma Hendrix, Ben Buffington, Greene, Misses Lou Alma Henshaw, Lillian Arnett, Vivian Arnett, Winnell Richman, and Ed Kostris, Dale Trulove, Jack Martin, Lois Skinner, Jimmie Van Arsdale.

Chilled Fruit Desserts

Heavy desserts are out as far as most summer appetites are concerned and, as fresh fruits are at their very best and are least expensive in midsummer, it's pretty smart to use them just as much as possible. Pile the fruit attractively—red and purple plums, nectarines, golden pears, black cherries, white grapes—in a shallow fruit dish and chill in the refrigerator before serving. Here's a dessert that induces leisurely conversation.

Modern Bathroom Fixtures

Ultra modern bathroom furnishings—hanger, stool, basket and medicine chest, are of gleaming mirrors, and there are some of crystal-clear combined with glass that are lovely, too. New rubber shower curtains, in fascinating designs and marvelous colors, have permanent pebbled or swirled finishes. An inexpensive new cotton base shower curtain, pleasant to the touch, can be washed and ironed and actually becomes more water-repellent after each laundering.

Inexpensive Window Charm

Theatrical gauze, marquisette, voile, are all inexpensive curtain materials. Choose these fabrics discerningly as to color and pattern in relation to the furnishings of the room they are to decorate and you will have charming windows at surprisingly low cost.

Hobby Runs to Fireplaces

CLEVELAND, O. (UP)—Charles E. Rush, new head of the Cleveland public library, has as a hobby, the collecting of chimney and fireplace descriptions. After 20 years, Rush has a collection of 1,000 fireplace figures. All are represented by a catalogue system, with pictures and detailed descriptions.

port card grades, misrepresenting ages, deceiving parents, forging excuses, and even "chiseling" on relief.

Teachers are not expected to tell their pupils what is right and wrong. Instead, they are to manipulate the lesson so the students may decide, from their own discussion.

A special lesson prepared for this fall deals with the practice of dropping slugs in parking meters. The lesson, prepared by H. L. Cleland, director of guidance for the board of public education, will contain copies of newspaper editorials deploring the fact that the slugs nearly ruined Pittsburgh's newly-installed meters.

To Form Own Opinion Classes will be asked to decide whether slugs were inserted in the machine as a joke, because motorists were too poor, or because of resentment against police, or any number of other possible reasons. In making a conclusion, pupils

will be confronted with the question, "What is the best method of educating the public in the proper care and protection of all public property?"

The character guidance program is arranged in each school by a committee of faculty and students and is built around peculiar neighborhood problems.

Historic Log Bequeathed NORRISTOWN, Pa. (UP)—A log book of the U. S. S. Constitution was bequeathed to a grandson in the will of Mrs. Helen S. Clayton, whose estate was valued at \$209,195.

A carburetorless-car may be the handwork of one University of Texas student engineer. He has devised a "mechanical injector" which will outlast and out-perform the ordinary carburetor, he believes.

Airline safety operations for the year ending June 30 showed an increase of 50 per cent over the previous year.

FRIDAY

Women's Golf Association will meet at the Country Club Friday morning at 10 o'clock in a called business session. All members are urged to be present to vote on the date of the city tournament.

Belmont Bible class will meet with Mrs. A. W. Lester at her home at the Magnolia Tank Farm, Friday afternoon at 4 o'clock.

Miriam club will meet with Mrs. Martis Miller, 106 E Maiden Lane, Friday evening at 8 o'clock.

Partitioned Dishes Attractive

Sectioned dishes make serving both attractive and easy. For desserts with a separate sauce or cream, there is a lovely new leaf-shaped serving bowl of clear glass with deep compartment and matching small side dishes. This can be used attractively as a salad dish, reserving the sauce compartment for dressing.

To Remove Paint From Windows Sponge paint stains on glass with hot water in which a little oxalic acid has been dissolved.

FEMINE FANCIES

By Kathleen Eiland

Our vote for the most coquettish hat we've seen in many moons goes to a dashing, sophisticated little creation composed mostly of ostrich plumes, piled softly and tilted forward or laid sleekly as a cap. As contrast to the clear light red, blue veiling is used for a note of color at back and front of hat.

It's the kind of hat we'd have no earthly need for in our role as the average working girl. But we look at it and delight in its bold gaiety, nevertheless.

Seeing some linen handkerchiefs adorned with sizeable figures of sunning puppies embroidered in wool thread, we were constrained to ask if they were designed for children's use. We were promptly informed they were for grownup ladies. Wonder if they were made with the outdoor girl specifically in mind? We can't imagine a coy, little blue-eyed lassie all in fluffies and ruffles and curls using such. But a golfing girl or one on a hike—yes.

The dark-colored handkerchiefs which are brightened by colored designs painted on, sometimes outlined with embroidery, are rather pretty.

Lovely is the adjective that best describes housecoats and lounging pajamas in corduroy—a kind of combination chenille and corduroy—especially if a soft, luscious pink is the color in which they are made up.

Stuffed Apples Are the Stuff For Hot Days

By MRS. GAYNOR MADDOX, NEA Service Staff Writer

Apples blush with excitement when you promise to stuff them. Pears get excited, too, when you plan to poach them. And the hungry family will welcome these seasonal fruit desserts.

MENU

BREAKFAST: Grape and pineapple juice, puffy omelet, wholewheat toast, coffee, milk.

LUNCHEON: Hot tomato soup, cucumber cups stuffed with salmon and celery salad, hard rolls, poached pears, tea, milk.

DINNER: Celery and carrot strips, beef and kidney pie, broiled tomatoes, romaine salad, baked apples stuffed with bananas, cheese, coffee, milk.

Baked Apple Stuffed with Banana

(Serves 4 to 6) Four large baking apples, 1 banana, 3-4 cup sugar, 2 teaspoons butter, juice of 1 lemon, juice of 1 orange, 2 tablespoons water.

Wash and core apples. Peel banana and cut in quarters. Insert a piece of banana in center of each apple. Place in baking dish, sprinkle with sugar, dot with butter, and add fruit juices and water. Bake 50 to 60 minutes in slow oven (325 degrees F.) basting frequently. Serve hot or cold.

Poached Pears

(Serves 4 to 6) Six ripe pears, 2 cups water, 3-4 cup sugar, grated rind of 1-2 lemons, grated rind of 1-2 oranges, 1-2 cup port wine or purple grape juice, if desired.

Peel, halve, and core pears. Simmer gently with water, sugar, lemon and orange rind until tender. Remove from fire, add wine or grape-juice and chill thoroughly before serving.

Honesty Course Put in Schools

PITTSBURGH (UP)—Pittsburgh school children, in regular classes this fall, will learn the consequence of dropping slugs in parking meters, dodging income tax returns, playing hooky, and other common delinquencies.

The course material will be part of regular classes in character guidance, to be given to local grade school students for the first time beginning in September. Classes will be held once a week.

Organized along lines recommended recently by the Cuyahoga county, O., grand jury, the courses are, however, a continuation of similar classes started in high schools here in 1927.

The Cleveland jurors urged that crime could be reduced and public morals improved if such courses were introduced in the schools, especially for impressionable children in the eighth and ninth grades.

Honesty Teaching Stressed

The teaching of honesty ranks high in Pittsburgh's plan of character guidance. Students and teachers discuss all sorts of common infractions as changing re-

Canada Echoes To Wheat Cry, "Let 'er Roll"

BY RONALD V. DODDS
United Press Staff Correspondent

WINNIPEG, Man. (U.P.)—Across the broad, seemingly unending prairies of western Canada the wheat's beginning to roll. Along the flat surface of the vast granary ar starting to roar massive, impatient steel mammoths, rumbling along with the world's bread behind them.

Across the prairies you can see them coming, miles away, like a ship coming into sight above the horizon, roaring down the rails, eating up distance that are measured by thousands of miles.

"Grain special," you hear as it tears by, and you try to count the cars. First it's 20, 50, 70, 90, and you give up. "Grain special," and in a hurry. It has to be in a hurry, for they're waiting for it in England, in China, in France, all over the world.

From all parts of western Canada at this time every year the wheat begins to come. Hundreds, thousands, millions of bushels of it.

To all parts of the world it goes. Out through Canada's great seaport facing the Orient, Vancouver, across to China, around through the Panama Canal, to Europe. Down the rails east to Montreal, across the Atlantic to a waiting continent. Up to the north, where the northern lights play on the freight cars, too Churchill and out through Hudson Bay.

Hard Work for Everybody

It's a rush for everyone, getting out the wheat. Down the rails pours the wheat train, stops, and the feeder from the elevator is swung around. Down pours the wheat into a freight car. That one's filled, the train moves up a bit, and it pours into the next.

For the men who grow it, it's a gamble. One night they're rich, thousands of bushels waiting to be harvested, the very weight of the kernels bending the stalks. The next day they're wiped out, and the wheat crushed beyond hope, by a hailstorm. But they stick it out. Perhaps it's the thrill they get when they see the wheat rolling.

Or, to sit and see a 40 bushel crop wither away and fade under a blazing, merciless sun, see it dwindle to 30, 20, 10 bushels an acre. The prairie's beautiful, but it's cruel. Some years it will pour out all its riches; the next year it takes them back.

Winnipeg Is Center

In Winnipeg, center of the world's grain markets, men and women are getting ready for the final rush, when accounts are to be settled, when the balance between a Ukrainian farmer in Saskatchewan and a flour mill in Yokohama has to be made straight, somehow. Up on the boards they'll be chalking the latest quotations, so many shillings in Liverpool, so many cents in Minneapolis, so many centavos in Buenos Aires, so many shillings in Melbourne.

They'll be at the exchange and the brokerage houses 24 hours a day, for the lights never go out, and black coffee in Winnipeg will mean rolls for breakfast in Paris.

All over western Canada it means work, hustle, excitement. In Winnipeg's railroad yards, largest in the world, they're in full swing. In the offices experts study charts. A sudden rainstorm in Alberta, that means a hundred more cars to be conditioned. A rise in temperature in Saskatchewan, that means they won't need so many there.

Three thousand elevators are serviced from Winnipeg, on the Canadian Pacific Railroad lines alone. That means work, night work, repairs, the glare of welding, the hum of lathes, the rattle of steam winches, in the night and into the early morning. The mammoths that go out after the world's bread live there, and they have to be made ready.

Everyone feels it from the grimy faced apprentice, smoking a furtive cigarette, to the executive telephoning that he won't have time for golf. The wheat's rolling!

Ships Coming In
Up on the barren shores of Hudson Bay they're getting ready. By the two's and three's ships are coming in, high out of the water, their rusty, flaking sides showing, their propellers thrashing. But they won't be when they go out, they'll be down to the Primrose line.

Handling of Tourist Trade Organization Is Set Up in Texas

Ten young women of the southwest—publicists, office secretaries and receptionists for chambers of commerce—have set themselves the task of aiding their local organizations in the handling of Texas' No. 1 crop—the tourist trade.

For two days the visiting girls sat around a "conference" table in the office of the El Paso chamber of commerce delving intensively into the problem and questions of the tourist business—where it comes from, where it goes, what it does, and above all what it wants.

Representatives attending the school also spent several hours at the information desk of the El Paso chamber of commerce, where a daily stream of tourists register and receive information concerning El Paso and the surrounding territory.

Divorced Wife of Nobleman Suicides

NEW YORK, Aug. 31. (AP)—Mrs. Clarissa P. Curtis Cantacuzene, 39, member of a socially prominent Boston family and the divorced wife of Prince Michael Cantacuzene, Russian nobleman, was found dead today in a three-room apartment near lower Fifth avenue.

Fuehrer Says Action Taken To Remedy Versailles Treaty

BERLIN, Sept. 1 (AP).—Chancellor Adolf Hitler, speaking before a special session of the Reichstag, today declared it is a "lie," we do all by force. "We meet to solve problems formed by the Versailles treaty. "Danzig is German. The Corridor was and is German. Over 1,000,000 Germans had to leave that area in 1919-20. "The dictates of Versailles was no law for Germany," he declared in a strong voice.

Ticket Sales for Rodeo Making Steady Progress

Advance sales of Midland Rodeo tickets were progressing today at the downtown office in the lobby of Hotel Scharbauer, but cattlemen again urged rodeo patrons to take advantage of the opportunity to avoid last minute gate congestion and secure tickets early.

Eighteen Girl Representatives Named in Group

Total of 18 girls has been named in the group of junior hostesses representing Midland firms, a report from the sponsor committee chairman this morning showed.

"Mass Killings" on Highways Listed

AUSTIN, Aug. 31. — What state police termed "mass killings" were peculiar to July traffic, which showed a nine per cent increase in the number of fatal accidents and a 14 per cent increase in deaths as compared with the same month a year ago, accident investigators declared today.

Parade Route Is Announced By Committee

Route of Midland Rodeo's two horsemen's parades, to be staged on the downtown streets Saturday and Monday at one o'clock, will be the same as last year, it has been announced by George W. Glass (chairman), H. G. Bedford and M. F. King, committee in charge of the procession.

Midland Oil Man Injured in Crash

EVANSVILLE, Ind., Aug. 31. (AP).—B. Nysewander, 45, Midland, Tex., president of the Montecito Corporation, oil firm, was in St. Mary's Hospital here last night with a back injury and shock suffered when his airplane ran out of gasoline and made a forced landing in a plowed field.

Play Nights for Tired Students

AUSTIN.—To rest their study-tired brains and bodies, some 60 to 80 University of Texas summer students "pop in" each Wednesday night at the Women's Gymnasium for an old-fashioned, informal "play night."

Fewer New Charters Granted in State

AUSTIN.—New businesses showed a reluctance to start operation in Texas during July, University of Texas business statisticians said today. Number of new charters issued to incorporating firms dropped 13.3 per cent below June, while capitalization of new concerns sank to a point 27 per cent below the preceding month.

War Materials Are Being Purchased by The United States

WASHINGTON, Aug. 31 (AP).—The government is about to begin a \$100,000,000 purchase program authorized by Congress to build up stores of essential war materials. The high command of the army and navy, keeping in mind that the outbreak of a European conflict might close some foreign sources of strategic supplies, has hastened preparation of a list of materials to be purchased with \$10,000,000 which Congress provided to start the program.

Sinclair Meets Oil Price Rate Of Other Buyers

TULSA, Aug. 31. (AP). — The Sinclair-Prairie Oil Marketing company, leader in the crude price reduction which resulted in a six-state shutdown, rescinded today its 20-cents a barrel slash. The increase was effective this morning.

Amon G. Carter to Attend Opening Day of Rodeo Here

Coming "Cowboy Style" With His Handsome Palomino Horse and Saddle in Trailer; to Ride in Parade and Grand Entry Saturday. Visit of the Hon. Amon G. Carter, publisher of the Fort Worth Star-Telegram and often referred to as "West Texas' Best Friend," here during Midland Rodeo was announced today by the officials, following communications over a period of several days.

Parade Route Is Announced By Committee

Riders to Be Ready At 12:30 Noon on Saturday, Monday. Route of Midland Rodeo's two horsemen's parades, to be staged on the downtown streets Saturday and Monday at one o'clock, will be the same as last year, it has been announced by George W. Glass (chairman), H. G. Bedford and M. F. King, committee in charge of the procession.

"Fortune" Told for Author by Professor

AUSTIN. — Long before Laura Lettie Krey, noted historical author, moved into the best-selling field with her Texas novel "And Tell of Time," a University of Texas professor of history indirectly "told her fortune."

Gamecocks May Wear Tiny Mitts for Boxing

HOUSTON, Tex. (U.P.) — "Boxing bouts" between gamecocks were planned by an operator here, who asked a district court for an order prohibiting police interference.

Notice to Bowlers

New Leader

Following the resignation of the Japanese Cabinet on account of the German-Russian non-aggression pact, General Nobuyuki Abe, former vice minister of war, was summoned by the emperor to form a new cabinet and radically revise Japanese foreign policy.

Masters' Grill to Be Opened Friday

The Masters' Grill, Midland's newest restaurant, will open in the morning at 5:30 o'clock, according to W. P. Masters, veteran West Texas cafe man. This new establishment is in the Crawford hotel here and will be operated by Masters and Mrs. C. E. Trammell.

Cement Plants Show Increased Business

AUSTIN.—Activity at Texas cement plants picked up during July, a University of Texas Bureau of Business Research index revealed today. Production of these plants rose 24.2 per cent over June and 5.9 per cent over July last year.

Commercial Failures In State Increasing

AUSTIN. — With liabilities more than doubled, commercial failures in Texas in July gained 75 per cent over the like month last year, University of Texas economists disclosed today.

VERY EXCLUSIVE

MERION, Pa.—Although 52 countries have competed for the Davis Cup, only four—America, France, England and Australia—have won the trophy in the 40 years it has been up for competition.

PATIENT IMPROVED.

Condition of Mrs. M. C. Brothers of Stanton who is ill at the home of her daughter, Mrs. Hurschel Howard, is reported improved today.

HEAR COLONEL ERNEST O. THOMPSON Chairman of Interstate Oil Compact and Member of Texas Railroad Commission, speak on "The Oil Situation Now" Over Texas Quality Network Radio Stations at 9:30 P. M. THURS., AUG. 31

To Make a Long Tale Short years ago fools used to blow out the gas—now they step on it. You can't drive a car, new or used, with safety with one hand around your Sweetie's neck and the other on the steering wheel. Do you know that a party of five can make a long trip in a used car with no more transportation cost than train fare for one?

NO TRIP TOO LONG FOR THESE: 1936 Chevrolet 5-passenger Sedan. Completely reconditioned. Looks and runs like new. Hydraulic brakes, turret top, safety glass. A real bargain. Down payment \$120. 1938 Buick Century Sedan. Excellent condition throughout. A low mileage family car that shows little wear. Deluxe equipment throughout, including radio and heater. Down payment \$250. 1936 Ford Tudor Sedan. Motor completely overhauled. Body, upholstery and tires all good. A good clean car that will give thousands of miles of inexpensive service. Down payment \$100. 1939 Chevrolet 1/2-Ton Pick-Up. Looks and runs like new. You should see this unit to be convinced of the unusual value. Six ply tires. Low mileage. Take your old car or truck in trade. Down payment \$195. 1936 Chevrolet 1 1/2-Ton Truck with flat bed. In good condition throughout. Has been carefully serviced in our own shop and never abused. A good unit for long and heavy hauling. Down payment \$125. ELDER CHEVROLET WE SELL THE BEST. AND JUNK THE REST. Phone 22
