MIDLAND, TEXAS, THURSDAY, OCTOBER 5, 1939

NUMBER 180

YANKS BEST REDS, 4-0 IN SECOND OF SERIES

Hurls 2-Hitter

(Monie Pearson)

Big Third Gives N. Y. The Game

Pearson Limits Reds To Two Singles for Second Win in Row

NEW YORK, Oct. 5. — The New York Yankees landed on Bucky Walters for three runs in the third inning and another in the fourth today, enough to give them a 4-0 victory over the Cincinnati Reds and the second in a row.

Monie Pearson, on the mound for the Yankees, hurled no-hit ball until one man was out in the eighth when Lombard Red catcher, drove a single through the box. Werber got a single in the ninth to make the only two safeties garnered off his delivery. Only one other man reached first base, Werber walking to start the fourth, but he was cut down attempting to steal second.

Walters pitched good ball outside of the third. The Yanks got to him for a total of eight hits, five of them coming in the big third. In the fourth, Babe Dahlgren, Yankee first baseman, got the first homer of the series by blasting one into the lower left field stands.

First Inning: Cincinnati — Werber popped out to Gordon at second. Frey flew out to center field. Goodman fouled out to Rolfe at third. No runs, no hits, no errors.

Second Inning: Cincinnati — McCormick flew out to center. Lombardi lined out to Selkirk in left who made a nice running catch. Craft struck out. No runs, no hits, no errors.

Third Inning: Cincinnati — Berger lined out to left. Myers struck out. Walters grounded out, third to first. No runs, no hits, no errors.

Fourth Inning: Cincinnati — Werber walked. Frey struck out and Werber was out trying to steal. Dickey to Crosetti. Goodman struck out. No runs, no hits, no errors.

Fifth Inning: Cincinnati — Gordon grounded out, third to first. Dahlgren hit a home run into the lower left field stands. Pearson struck out. Crosetti tapped in front of the plate and was out, catcher to first. One run, one hit, no errors.

Sixth Inning: Cincinnati — McCormick struck out. Lombardi bounced out, Pearson to Dahlgren. Craft struck out. No runs, no hits, no errors.

Seventh Inning: Cincinnati — Rolfe grounded out, second to first. Rolfe lined out to left. Dimaggio grounded into a double play, Walters to Myers (See BASEBALL, page 8)

Flays "Isms"

Rev. Frank Norris, the "Texas Cyclone," who is reported to have the largest pastorate in the world, two churches, one in Fort Worth, Texas, and Detroit, Mich., arrived in San Francisco on the President Pierce to launch a bitter attack on nazism and communism.

Japanese Sustain Heavy Losses in Major Offensive

HONGKONG, Oct. 5 (AP)—The Japanese army's first big offensive in a year appeared today to have been repulsed with heavy losses. Chinese reports, not denied by Japanese, said columns which had been driving against Changsha, Hunan Province capital, had been thrown back and now were withdrawing forty miles north of the city.

Rotary Convention Movies Shown Here

Moving pictures of the convention last June of Rotary International held in Cleveland, Ohio, were shown at the club luncheon here today, with Barney Greathouse, L. H. Tiffin and Tom Sealy in charge of the program. The pictures, made by a delegate to the world-wide meeting, were shown to the members of the office of Rotary International, giving a visual description of the convention's activities, of its speakers and principal officials and of various entertainment features by the city of Cleveland.

M. F. King, automobile leader, was introduced as a new member of the club today.

President Debnam announced that on November 16, the official visit of District Governor Hiram Arrant of Abilene will be made here.

Russia Wants Ships To Aid the Allies

COPENHAGEN, Oct. 5 (AP). — Danish shipowners turned a cold shoulder today to Russia's inquiry about chartering ships to transport timber from the White sea to the allies.

Norway told Russia she may have as many ships as she wants, while Finland and Sweden showed interest but reserved a decision.

ATLANTIC OFFICIAL DIES

Word was received here today of the death early this morning in Wink of T. P. Garrett, production superintendent for the Atlantic Refining company.

Daladier Declares France Will Fight Until Victory Is Won

PARIS, Oct. 5 (AP). — France will fight on until victorious in the "war that has been imposed upon us," Premier Daladier declared Wednesday in a reply to peace overtures from Germany and Russia.

"France does not wish to live longer in the state of insecurity of these last years," the premier told the foreign affairs committee of the Chamber of Deputies in a three-hour session.

Thus the French government was aligned with the stand taken by British leaders concerning peace moves from the opposing camp. Daladier said his government would stand loyally with Britain against any German-dictated peace.

Daladier declared that France "refuses to bow to violence and accomplished facts. She wishes not a truce between two aggressors but a durable peace guaranteeing absolutely her national security within a system of security for all nations."

German talk of peace, the premier told the committee, was a "trap" designed for internal propaganda purposes in the Reich.

HITLER TRIUMPHANTLY ENTERS WARSAW

Tobey Halted In Attempt to Delay Senate

Neutrality Authors Expected to Hear Shippers' Claims

WASHINGTON, Oct. 5 (AP) — Administration senators today lined up against a proposal of Senator Tobey of New Hampshire to split the neutrality bill and delay the arms embargo fight until restrictions on American shipping could be enacted.

Majority Leader Barkley of Kentucky predicted that Senator Tobey's motion would be defeated Monday when argued. Debate on neutrality policy was continued.

Senator George of Georgia predicted that senate authors of the neutrality legislation would meet "soon" to consider proposed changes, including demands of shipping interests for modification of restrictions on shipping.

Reserve Officers Elect Chapter Staff In Meeting Here

Perman Basin chapter of the Reserve Officers Association elected officers in a meeting here Wednesday evening. Lieut. A. E. Dillon of Odessa, first lieutenant F. A. Reserver, was named president; Lieut. E. W. Childers of Midland, first lieutenant F. A. Reserver, was chosen vice-president; and Lieut. B. W. Reecer of Midland, first lieutenant C. A. (A.A.) Reserver, was elected secretary-treasurer.

Twenty-one officers were in attendance, the largest group to attend a meeting since the Permian Basin chapter was organized in 1936. The meeting was held in the office of Col. John Perkins in the First National Bank building.

Attending were: V. G. Young, first lieutenant F. A. Reserver, Garden City; A. E. Dillon, first lieutenant F. A. Reserver, Odessa; Roy E. Prothro, captain F. A. Reserver, Odessa; Albert A. Johnson, first lieutenant Eng. Reserver, Odessa; James T. McKissick Jr., first lieutenant Dent. Reserver, Odessa; J. E. Dorr, first lieutenant Inf. Reserver, Odessa; E. W. Childers, captain Eng. Reserver, E. W. Childers, first lieutenant F. A. Reserver, P. D. Phillips, first lieutenant C. A. Reserver, Emil Stuter, second lieutenant Eng. Reserver, Nelson J. Rumsey, second lieutenant Eng. Reserver, James Falcon, second lieutenant, Inf. Reserver, W. E. Ryan, captain Medical Reserve, Jack S. Toler, second lieutenant Inf. Reserver, Chas. A. McClinic, second lieutenant Inf. Reserver, B. W. Reecer, first lieutenant C. A. (A.A.) Reserver, James Parked, major Cavalry Reserve, Paul N. Collier, first lieutenant M. I. Reserver, W. T. Schneider, first lieutenant Eng. Reserver, John Perkins, colonel C. A. (A.A.), Pay Coll, captain F. A. Reserver.

Mann Prepares to Fight Freight Rate

AUSTIN, Oct. 5 (AP)—Attorney General Gerald C. Mann left Wednesday for Washington where he planned to discuss with members of the Interstate Commerce Commission the problem of removing freight rate discriminations against Texas and the Southwest.

Accompanying him was Gibb Gilchrist, dean of the Engineering School of Texas A. & M. College and chairman of a citizens committee named by Mann to make a factual survey of the shipping cost situation.

Mann's department was granted a \$30,000 appropriation to prosecute removal of freight rates allegedly detrimental to Texas and the Southwest. Other Southwestern states have joined the movement.

Pete McKenzie Gets Commutation to Life

AUSTIN, Oct. 5 (AP)—The governor's office revealed today that Governor W. Lee O'Daniel had commuted to life imprisonment the death sentence of John (Pete) McKenzie of San Antonio, convicted of slaying Police Chief Sam Street in 1927. McKenzie had been adjudged insane since his death sentence was imposed.

Richard Halliburton Is Declared Dead

MEMPHIS, Tenn., Oct. 5 (AP)—Richard Halliburton, the author-adventurer who was last heard from in March after a typhoon hit the Chinese junk "Sea Dragon" which he hoped to sail from Hong Kong to San Francisco, was declared legally dead Wednesday.

A jury verdict said he died either March 23 or 24—the uncertainty resulting from the fact that at the time he was near the international date line where ships lose or gain a day depending on whether they are going east or west.

Texas Ranch Glamour Girls Arrive in New York for Rodeo

Seven Texas ranch glamour girls are shown above at their hotel upon arrival in New York City for the rodeo that opens at Madison Square Garden Tuesday. Left to right, Fay Marburger, Abilene; Walter Fay Cowden, Midland; Mary Nell Edwards, Big Spring; Fern Sawyer, Cross Roads, N. M.; Peggy Minnick, Crowell; Elizabeth Miller, Snyder; Anna Belle Edwards, Big Spring.

Sahara Completes Three New Oilers In Lehn Area of North Pecos County

BY FRANK GARDNER

The Lehn area between the Pecos Valley and Masterson pools, in northern Pecos county, came in for renewed interest today with the completion by Sahara Oil Corporation of a trio of new producers.

Largest was Sahara No. 4 Sullivan, which flowed 118.44 barrels of 34-gravity oil in 24 hours, with gas-oil ratio of 900-1, after shooting with 30 quarts. It topped pay at 1671 feet and is bottomed at 1,684.

Sahara No. 1 Sullivan flowed 103.21 barrels on 24-hour test after shooting pay zone from 1,670 to 1,740 feet, total depth, with 140 quarts. Oil is 33-gravity and gas-oil ratio 1,700-1.

The company's No. 1 Iowa Realty Trust Company flowed 84.96 barrels of 33-gravity crude, with gas-oil ratio of 1,300-1, for completion at 1,777 feet on a 140-quart shot. Pay was topped at 1,673 feet.

About three-quarters of a mile northeast of the Lehn area, Rockwater Oil Company No. 1 A. Sullivan is drilling at 1,555 feet in lime. Albert Flaherty, contractor and one of the operators, announced here at noon today.

In the Apco pool, source of the first Ordovician production in Pecos, Anderson-Prichard Oil Corporation and Monte Warner No. 2 M. I. Masterson, half-mile north outpost, is drilling below 1,960 feet in lime, while Childress Royalty Company No. 1 S. Masterson had reached 700 feet in anhydrite. Both wells are being drilled by Olson Drilling Company of Tulsa.

Devonian Adds Cochran Pair Two new producers were gauged today by Devonian Oil Company at in the Duggan pool, southeastern Cochran county. The No. 3B19 T. B. Duggan et al. flowed 127.8 barrels of 30.6-gravity oil on six-hour Railroad Commission gauge and was assigned daily potential of 511.56 barrels. It had topped lime pay at 5,020 feet, reached total depth of 5,068 feet, and was acidized with 5,000 gallons. Gas-oil ratio was 554-1.

At the south end of the pool, Devonian et al. No. 2-C-8 Duggan et al. set daily potential of 480.48 barrels later acidizing with 5,000 gallons at 5,080 feet. It topped pay at 5,040. Oil tested 30.5-gravity, and gas-oil ratio was 731-1.

Humble Oil & Refining Company's deep wildcat in northwestern Cochran, the No. 1 J. Westheimer et al., this morning was reported drilling at 6,845 feet in lime, anhydrite and shale.

Natural production of 135 barrels a day was rated by Alcoa Oil Company No. 1 E. N. Grey, south offset to Texas Pacific Coal & Oil Company No. 1 A. M. Brownfield, in the northeast part of the Denver pool in Yoakum. It topped pay at 4,945 feet and is bottomed at 5,200. Operators have filed intention to treat the well with 10,000 gallons of acid.

Oil Development Company of Texas No. 5-803 fee was estimated by operators at 170 barrels a day naturally from pay between 5,000 and 5,210 feet. They will shoot it with 500 quarts of nitro.

In the southwest part of the Bennett pool of Yoakum, Mabee Oil & Gas Company has dug cellar and pits for No. 12 Nelson W. Willard, 440 feet from the south and west of Gibson survey. A 5,250-foot rotary test, it will start drilling Oct. 8.

Humble No. 1 E. E. Stanford, in the west part of the Denver pool, is standing, bottomed at 5,258 feet in lime, after cementing 5 1/2-inch casing at 5,196 with 225 sacks.

Swabbing was in progress this morning at Stanolind Oil & Gas Company No. 1-A E. H. Blakney, but no gauge had been reported. The well, seeking the deep pay found three miles to the north and slightly to the west by Gulf Oil Corporation No. 1 O. B. Holt, is being swabbed through 2 1/2-inch tubing set at bottom of 5,160 feet in lime, with

Survivors Brought To Shore After Sub Sinks Greek Steamer

DUBLIN, Oct. 5 (AP)—The sinking of the Greek steam Diamantis Tuesday off Ireland was disclosed Wednesday when the crew of the 4,990-ton vessel was landed at Dingle, County Kerry, by the submarine reported responsible for the sinking.

The 28 survivors, who identified the submarine as the German U-35, reported their ship was torpedoed not far from the coast of Cornwall, off the Scilly islands. They said they were picked up by the submarine shortly after it sent three torpedoes crashing into the ship.

The Diamantis, listed by Lloyds as owned by D. J. Pateras of Chios, Greece, was bound from West Africa for Barrow in fumes, England.

Six members of the crew were said to have been taken to a Dingle hospital for treatment of injuries suffered in the explosions.

Standstill has completed three new Foster pool producers in Fetor, two on land of Elliott F. Cowden of Midland and the other on J. E. Wither. The largest, No. 21-C Wither, flowed 2,275.90 barrels of 35-gravity oil in 24 hours, with gas in the ratio of 990-1, after shooting pay between 3,965 and 4,170 feet with 605 quarts. No. 21-B Cowden gauged potential flow of 1,071.99 barrels following a 465-quart shot in pay zone between 4,005 and 4,170 feet, total depth. It has 35-gravity oil and gas-oil ratio of 420-1.

30-A Cowden flowed 617.35 barrels a day, bottomed at 4,190 feet, after a 525-quart shot in pay topped at 4,015 feet. Oil is 36-gravity and gas-oil ratio 570-1.

Four Midland Boys In Tarleton College

Billy Joe Hall, R. J. Kelly, Billy Simpson, Jr., Bob Throckmorton students of Midland, are among the 1244 boys and girls who have entered John Tarleton College. They attended the first general assembly last week to hear Dr. J. Thomas Davis, head of the institution, stress the importance of education in maintaining peace during the present crisis. "Education is seriously needed in distinguishing propaganda from truth," the educator told the assembly.

John Tarleton is a co-educational branch of Texas A. & M. College and one of the largest junior colleges in the country. With almost a hundred faculty members and a well equipped plant she offers a large field of subjects to her students.

To Present Play At Valley View

Members of the Valley View home demonstration club will present a three-act farce, "Aunt Samantha Rules the Roost," at Valley View schoolhouse Friday evening at 8:00 o'clock.

The public is invited to attend the play, admission to which will be five cents and 10 cents.

Following is the cast of characters: Aunt Samantha Simpkins, an old maid—Mrs. Sherwood O'Neal—Serena Simpkins, her older niece—Mrs. Bennie Bizzell—Sophie Simpson, her younger niece—Mrs. Preston Vest—Polly Paine, the maid—Mrs. J. E. Dyess—Annie Ambrose, the village dressmaker—Miss Ora Robertson—Blanche Bowers, a woman of very few words—Mrs. Earl Pain—Lucian Littlefield, a farmer—Mrs. G. C. Brunson—Blair Boswell, who likes Serena—Mrs. B. L. Mason—Frank Fairfield, likes Sophie—Mrs. Jack Tisdale—Lawrence Lovell, a stranger—Mrs. Louise Stewart—Buddy Baskins, the grocery boy—Mrs. Lois Lewis.

Collins Will Attend Meet of CC Officials

Chamber of Commerce Manager Bill Collins will leave early Friday morning for Dallas where he will attend the fall meeting of the Board of Directors of Texas Chamber of Commerce Managers, placing Midland's invitation for the 1940 convention of the association. Tentative invitation to hold the next convention in Midland was placed by Collins at the annual meeting of the group in Galveston last June. The convention city will be decided by the directors of the organization in Dallas Saturday morning. He will return Sunday.

J. B. Howell, manager of Hotel Scharbauer, will join Collins in Dallas Friday evening to assist in securing the 1940 meeting. Mrs. Howell will accompany him.

BAKERS HERE

Mr. and Mrs. A. P. Baker of Las Cruces, N. Mex., are visiting here. They formerly lived in Midland.

TO DALLAS

Addison Wadley is leaving tonight on a trip to Dallas.

Peace Hopes Based on His Friday Speech

Fuehrer Inspects Nazi Troops Which Effected Surrender

BERLIN, Oct. 5 (AP)—Chancellor Hitler went in triumph today to Warsaw, Poland's fallen capital, and inspected Nazi forces which had effected the surrender of the city.

First word of his activity in dismembered Poland, on the eve of his world-awaited speech before the Reichstag, came from his field headquarters.

Germany pinned hopes for peace on the possibility that Hitler might outline the basis on which hostilities might be ended. Observers, seeking information on what the German policy may be, knew in quarters close to the foreign office that there was dissatisfaction with the attitude of British Foreign Minister Chamberlain.

FRENCH POSITION ON NORTHWEST FRONT BETTER

PARIS, Oct. 5 (AP)—The French army reported today that it had strengthened positions so greatly on the northwestern front facing Germany as to minimize danger of an attempt to turn the left flank by a thrust through neutral Luxembourg. The Bourg Forest was controlled after a tank battle.

Police took action against members of the communist party, charging that they were trying to reorganize the dissolved party under a different name. Two party deputies were arrested.

SUBMARINE ESCAPES AFTER LANDING CREW

LONDON, Oct. 5 (AP)—The British Press Association said today that the German submarine which landed 28 men from the torpedoed Greek steamer Diamantis on the Scilly islands, was seen to attempt internment of the U-boat. The ship's crew was set ashore last night and when guards reached the scene of the daring maneuver there was a stretch of frothy sea where the submarine was submerged.

BREMEN CREW REPORTED RETURNED TO BREMERHAVEN

BERLIN, Oct. 5 (AP)—The newspaper Frankfurter Zeitung reported today that the crew of the British liner Bremen, more than 900 men, had returned to Bremerhaven last Friday after docking the ship in Bestral port.

Midland Men Chosen As Representatives At Church Session

Rev. W. J. Coleman, pastor of the Midland Presbyterian church, U. S., and Harry L. McClintic, lay delegate, are to represent the local church at the eighty-fourth annual session of the synod of Texas Presbyterian churches which will be held October 10-12 at Serman. The meeting will be one of several celebrations observing the nineteenth year of Austin's secession from the institution under direction of the Synod.

Among principal speakers will be Dr. Homer Price Rainey, 1919 graduate of Austin College and now president of the University of Texas; Dr. Austin College, and other programs are being planned by committees under direction of Dr. E. B. Tucker, Austin College President.

More than 300 ministers and laymen are expected to attend, as all Texas pastors are ex-officio members of the Synod and each church is entitled to representation by a ruling elder.

Two foreign missionaries of the church, Dr. Roy F. Cleveland of the Belgian Congo, and Dr. Alva Hardie of Brazil, are scheduled to attend.

FROM FORT WORTH

F. H. Schouten of Fort Worth, division geologist for Stanolind Oil and Gas Company, is here today on business. He was formerly Midland district geologist for the company.

Texas Today

BY DR. C. L. BAKER
Dept. of Geology, A&M College
Written for The Associated Press

Texas, showered by nature with vastness of resources and variety of climate is not overly blessed with suitable supplies of underground water. Yet the greatest of all natural resources is water, for lack of it, far more than excess of cold or heat, enforces a limit to human habitation. Water, therefore, is the most determining of all factors in the history of mankind.

In very extensive areas of Texas underground water exists which is too highly mineralized to be suitable for human use. In far too many districts where underground water of suitable quantity and quality was once fairly abundant the supply has failed or been greatly diminished because of great wastage. Unfortunately, much of this waste still goes on. The water stored in the rocks during past ages has been rapidly depleted and the replacement is such a slow process that the supply has now become inadequate. It is difficult to find Texas cities of more than 50,000 population which is not facing or soon will face, a serious shortage. It is well to warn San Antonio that she is apt to be no exception even though she has extremely favorable underground water conditions.

It is not generally realized that the rivers in Texas run the wrong way. They head in dry regions and flow into territory of more abundant rainfall, the Rio Grande, Pecos and Nueces being the only exceptions. If the opposite were true water would be available in places where it is greatly needed and not where it is more detrimental than beneficial. Our greatest tasks in irrigation, flood control, reclamation and drainage are greatly complicated by the fact that Texas rivers run the wrong way.

Recently Prof. Bacon of A&M College and I spent a month studying the geology of the territory adjacent to Alpine with the hope of discovering an adequate water supply for the city. Unless sufficient water can be obtained from wells in the vicinity the cost of obtaining a supply for Alpine will be large. To illustrate: A railroad in New Mexico had to build a pipeline 200 miles to get water for its locomotives, and the transcontinental

tal railroad in Australia has a water pipeline 1,500 miles long. In all but about 2 per cent of the western half of the United States there still exists need for water. For example, many mines which would otherwise be profitable, cannot be worked because water is too expensive. In the early days of the McCamey oil field in West Texas a barrel of water cost more than a barrel of oil. During the boom days of the Tonapah and Goldfield gold and silver mines a drink of water cost twenty-five cents.

It is very much the exception to find a ranchman west of the 100th Meridian who doesn't need more water. Very often he needs water where it cannot possibly be obtained, hence part of his ranch must remain unprofitable. A tremendous sum of money has been spent in western America in digging wells where water cannot possibly be obtained. The peach switch or other variety of diving rod works well enough where water can be obtained wherever it is drilled for to sufficient depth, but only a few thorough and painstaking geologic study and much good judgment based on geologic facts will find water in most of the Great American desert. One railroad company engaged a diving rod expert to locate water wells. He made twelve locations at only one of which water was found. A geologist afterwards found an adequate water supply in every well he located.

At the end of the first 25 years of the unprecedented and continuing drought in California one-third of the farm and ranch wells in that state had gone dry. The Los Angeles area has expended for a water supply \$1,250 for each man, woman and child living in the area.

It is fully as difficult for competent geologists to find water in many parts of our arid West as to find oil and gas fields. In some instances the skill demonstrated by geologists in finding water is as remarkable as that exhibited in finding ore bodies concealed entirely from view beneath the surface. The latter ranks with the most difficult of all tasks confronting the geologist.

It now appears probable that American geologists of the future will find their greatest field of activity in the location of water supplies. Before that day arrives, however, the majority of land owners and municipal authorities must learn that haphazard drilling of wells and employment of "water witches" is far too costly a procedure in any area where water is scarce or difficult to find. It chances that that is just the condition in three-fourths or more of the State of Texas.

On the heels of all of which, the British—but not the French—practically stopped ordering munitions in America.

SOME FEAR PROMISE WAS MADE
Now—ask the isolationists—isn't all of this at least a hint that some pledge went from Washington to London; that after a final appeal to Hitler the United States government said something in London which convinced the British that American aid of some sort would be forthcoming in the event of war, so that the British let up on their frantic effort to lay in a full supply of munitions before the embargo could be applied?

This interpretation may be the wildest and most fantastic misconception imaginable. It may never be offered publicly.

But the important thing is that a substantial number of U. S. senators feel that it is tolerably close to the truth.

It is because they do feel that way that they are waging such a bitter, last-ditch fight against repeal of the arms embargo. For the fear which haunts them is the fear that some commitment exists which will take the nation into war unless there is an about-face.

NEXT: Congress examines President's plan.

Southwest Texas Accounts for 7 Per Cent of U. S. Oil Reserve

HOUSTON, Oct. 5.—Remarkable success has attended the active exploration and field development in the Southwest Texas oil and gas region during the past several years, and the area now accounts for 7 per cent of the total United States' crude oil reserves, according to the October 9 issue of The Oil Weekly, which embodies special, comprehensive data on the district and the individual fields there.

Although major developments of the region started less than twenty years ago, it is estimated that 1,830,877,265 barrels of recoverable oil have been found. Of that total, 575,171,148 barrels have been produced, leaving 1,255,706,117 barrels yet to be recovered.

The crude oil found up to now has been within a total area of 172,310 acres.

The extraordinarily good results lately in finding new fields and new producing sands are reflected in the fact that 4 1/2 years ago the district had only 74,528 proved acres, with estimated ultimate yield of 571,892,404 barrels.

Although exploratory work has been lagging this year for the country as a whole, Southwest Texas activity has held up relatively well, and continued success in finding new fields has been the reward.

In the first nine months of 1939, there were 75 new discoveries in

the region, including 28 new oil and gas fields and 47 new zones in established fields. Discoveries totaled 169 in 1938 and 468 in 1937, the peak years in wildcatting success in the territory.

In finding these new fields this year, discoveries have far exceeded the quantities of oil that were taken out of the ground in the meantime, resulting in a further build-up of reserves. On July 1, the recoverable reserve of the region was 87,118,395 barrels greater than on January 1.

Big Tuna Tears Hole In Fisherman's Boat

GLOUCESTER, Mass. (UP)—Howard O. Day thought everything was going smoothly when he hoisted by the tail a giant 400-pound tuna he had caught with a baited line in Ipswich Bay. Suddenly the boat lurched in the heavy sea.

The fish dropped head first into the boat, tore a hole in the bottom, and one on board could stop the leak. Day raced the boat for port at full speed.

This is the time of year when the magazines you receive in the mail contain extra pamphlets . . . reminders that your subscription expires with this number. That's one bill I don't mind paying, as I know that if subscriptions didn't run out occasionally, a publication could not keep going.

Opening of the new Crawford Hotel is going to be announced in a few days. When the "open house" is held, and the public is given an opportunity to see the interior of this new hostelry, a lot of spectators are going to open their eyes wider. I had a preview yesterday.

Speaking of previews, the rodeo officials had a preview of the news-reel made of the last rodeo, over at the Yucca theatre this morning, and the public will be in for a treat when this is shown on a local movie bill. Watch for announcement of its showing here.

Things are really shaping up at the Municipal Airport. When the project is completed out there, Midland will be second to none in a first class landing field, with paved runways to handle great numbers of ships. When a detachment of army planes decides to land at once, it can't be done handsily on a forty acre tract.

Bank deposits, and conditions of the financial institutions here, continue to show up strong. There is plenty of money if it can just be kept in circulation. That's one place where I do my bit. It seems like if

I get hold of a dollar, it isn't long until it has been passed out through other hands.

Arthur Johnson is going to let up on the game commission now and start on the legislature. The game commissioners have admitted to him that the date of opening hunting seasons here is too late, but their hands are tied by legislative action.

It looks like there will be a revival of football special trains on the T. & P. in this section. Big Spring is working up one for the Odessa game Friday night and already they are talking at Odessa about running a special to Abilene when the Bronchos play the Eagles. If all the spectators will ride the special trains, it will be a lot safer for tourists on the highways, and vice versa.

This off-week for the Bulldogs probably is bearing down on the team members as hard as it is the fans. They survived the Wink game in such good physical shape that the apparently don't need a rest. But I still think Coach Taylor did a smart thing when he provided for the rest. The boys will have plenty of concentrating to do if they beat the Sweetwater Mustangs, and I believe it's in the cards to do so. So far, no 3-AA team has a better chance at the pennant than the Bulldogs, in spite of publicity over the state. I think the local boys are much ahead not to be under the strain of being chosen favorites.

BRUCE CATTON IN WASHINGTON

BY BRUCE CATTON
Reporter-Telegram
Washington Correspondent

WASHINGTON—One of the most important angles of the whole arms embargo fight is the isolationists' feeling that there is much that has not been told in the history of the outbreak of the present war.

Bluntly, they suspect that the American government somehow, somewhere, committed itself in pre-war conversations with the British.

There is no direct evidence to support such a charge. The accusation may never be made openly while the embargo is being debated. But the fact that a number of senators feel that the administration has already become involved in the European quarrel is an extremely important factor in the situation.

To explain why they feel that way it is necessary to recall some of the background of the present crisis.

WERE BRITISH "ENCOURAGED"?

Early last April, President Roosevelt bade goodby to a group at Warm Springs, Ga., and promised to return in the fall "if we don't have a war."

A week later Senator Walter F. George of Georgia rose in the Senate to say:

"When that declaration is made by the President of these United States it will arouse and it has aroused a genuine fear throughout this nation that somebody has afforded some encouragement to the distinguished English statesman (Lord Halifax) who today said that America, the United States, was in full sympathy with, or shared fully, the expressions that had just been made in the

House of Commons by the English premier."

A moment later Senator George added:

"I venture the statement, Mr. President, and I venture it without fear or hesitancy, if we let Europe alone there will be no war."

Today Senator George is ranked among the revisionists. But the isolationists have that fear mentioned—that "somebody afforded some encouragement" to the British, and that that fact helped to stiffen the British for war.

On April 11, at White House press conference, President Roosevelt, by warmly endorsing a Washington Post editorial, implied broadly that any general European war would involve the United States and that this country should stand with England and France against any Nazi-Fascist design to dominate the world by force.

ENGLISH SLOW UP MUNITION BUYING

On April 15, President Roosevelt made his famous peace appeal to Hitler. He asked Hitler to issue a pledge of peaceful intentions, offered to try to get such pledges from all of Germany's possible enemies, and promised that, if this were done, the United States would take part in a world conference looking toward the reduction of armaments, the abolition of trade barriers, and the making available of raw materials sources to all nations.

Shortly thereafter occurred one of the queerest factors in the whole chain of events—an abrupt drop in Britain's purchases of American munitions export licenses.

Senator John A. Danaher of Connecticut points out that Britain bought licenses for \$26,511,797

worth of arms and munitions in the United States in 1936. In the first four months of 1939 she bought \$14,008,000 more. But from the end of April to the end of August she bought only \$701,000—in which same four-month period France bought \$60,000,000.

Here is the way some of these isolationists put these facts together:

In April, the President talked freely of war and of the danger of America becoming involved. He made a dramatic peace appeal to Hitler, offering substantial benefits to Germany, and it was reported at the time that there was some advance knowledge of this appeal in London and Paris.

On April 28, Hitler contemptuously rejected the peace appeal—and simultaneously announced the German-Polish non-aggression pact, the Anglo-German naval agreement of 1935, and the Anglo-German consultative pact reached at Munich the previous autumn.

On the heels of all of which, the British—but not the French—practically stopped ordering munitions in America.

SOME FEAR PROMISE WAS MADE
Now—ask the isolationists—isn't all of this at least a hint that some pledge went from Washington to London; that after a final appeal to Hitler the United States government said something in London which convinced the British that American aid of some sort would be forthcoming in the event of war, so that the British let up on their frantic effort to lay in a full supply of munitions before the embargo could be applied?

This interpretation may be the wildest and most fantastic misconception imaginable. It may never be offered publicly.

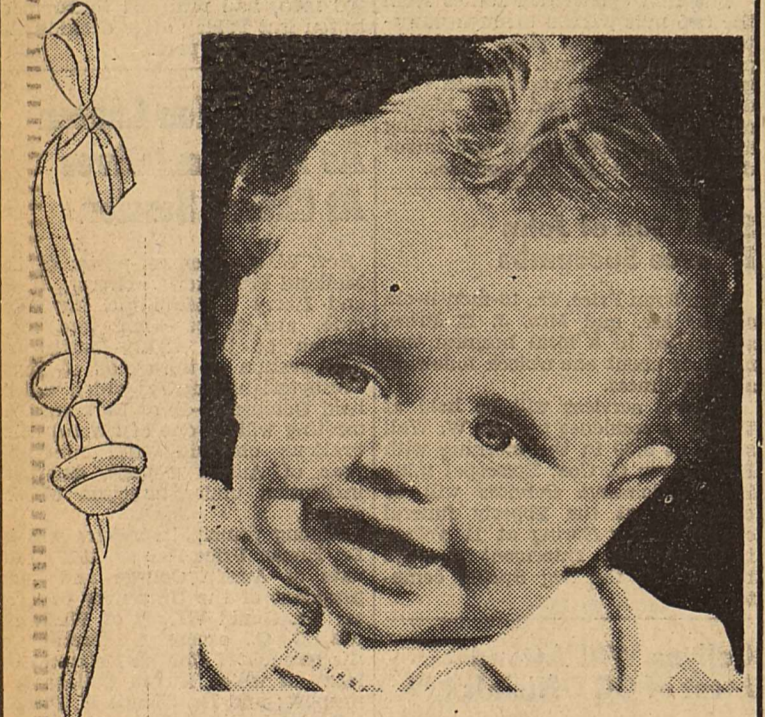

But the important thing is that a substantial number of U. S. senators feel that it is tolerably close to the truth.

It is because they do feel that way that they are waging such a bitter, last-ditch fight against repeal of the arms embargo. For the fear which haunts them is the fear that some commitment exists which will take the nation into war unless there is an about-face.

NEXT: Congress examines President's plan.

Announcing THE NEW FORD CARS FOR 1940

22 important improvements, added to fundamental Ford features, represent the most advanced engineering in the low-price field

WHAT do the Ford cars for 1940 offer to match their brilliant new beauty? New comfort, convenience, quiet, safety—and the roomiest, richest interiors ever designed for a Ford car.

They have many interesting new features. Finger-Tip Gearshift on the steering post. An improved transmission, unusually easy to shift. New Controlled Ventilation. Improved shock absorbers. Softer springs, improved spring suspension and a new ride-stabilizer.*

A combination of new features makes the new cars quieter in operation. They have big, powerful hydraulic brakes. They have new Sealed-Beam Headlamps that are safer, stronger and stay bright longer. They have the famous Ford V-8 engine (85 hp in the De Luxe Ford. Choice of 85 or 60 hp in the Ford)—which blends 8-cylinder smoothness with economy.

You've never seen cars with so much performance, style and comfort at such a low price. Get acquainted. You'll enjoy the experience!

22 IMPORTANT FORD IMPROVEMENTS

FOR COMFORT—More room inside. New Controlled Ventilation. New torsion bar ride-stabilizer.* Improved spring suspension.* Self-sealing shock absorbers. Two-way adjustable driver's seat. New-type resilient front seat backs. New "Floating-Edge" Seat Cushions.

FOR CONVENIENCE—New Finger-Tip Gearshift. Engine more accessible. Two-spoke steering wheel.

FOR SILENCE—Improved soundproofing. "Easy-shift" transmission. Curved disc wheels. Improved drums for big Ford hydraulic brakes.

FOR SAFETY—Sealed-Beam Headlamps. Dual windshield wipers at base of windshield. Larger battery and generator. Battery Condition Indicator on all models.

FOR STYLE—New exterior beauty. New interior luxury. New instrument panel. *85-hp models only

Aggies Enroute to Coast for Game With Santa Clara Broncos

COLLEGE STATION, (A&M)—The Texas Aggies streamlined traveling squad of 33 players and four coaches pulled out of College Station Monday night aboard a streamlined train and headed for San Francisco, Calif., where the Aggies will try for their third victory of the year against the Santa Clara Broncos Friday night, Oct. 6.

All of the Aggies came out of the Centenary game last Saturday unhurt and are in good physical shape for the game against the Broncos. Last year the Aggies took their first loss of the season when Santa Clara dumped them off to a season train and started them off to a season that ended as nothing to boast about. This year they intend to even the score by upsetting the Broncos and to do that Norton picked his squad carefully.

Bill Buchanan, Weatherford, end, junior college transfer, received his baptism as an Aggie last Saturday and made such a good showing that he is more than likely to start the game Friday. Jim Sterling, Pan-

Plenty of Ringside Seats for Lubbock Bouts Tonight

LUBBOCK, Texas. (Special)—As the time neared for Buddy Baer and Sandy McDonald to don their fighting regalia and step into the same ring at the ball park here, interest over the South Plains climbed steadily.

With only five rows of the \$1.65 ringside seats to the Thursday night event to be constructed, ticket headquarters noticed a sharp upturn in their sales. Wires, letters and calls started coming in from the Panhandle and Eastern New Mexico as well as from nearer points.

Backer Pup Thomas stated today that there are still plenty of good seats in the \$1.10 section, but that the ringsides were going at a fast clip although there are several good scattered ones left.

Grandstand boxes are selling at 75 cents with admission to the grandstand seats 40 cents.

Favorites Established in All Football Districts of State

DALLAS, Oct. 5. (AP)—Favorites stood out like bandaged thumbs today as the Texas schoolboy football field moved into its second month of play.

From Panhandle to Gulf the critics had selected the teams most likely to succeed in this hurly-burly marathon of the gridiron where upsets are rule and not the exception.

On the basis of the first month's grind they picked them like this in the district races:

1—Amarillo. 2—Wichita Falls. 3—Odessa, Sweetwater, San Angelo. 4—Austin (El Paso), El Paso High. 5—Gainesville. 6—McKinney, Sulphur Springs. 7—Masonic Home (Fort Worth), 8—Woodrow Wilson (Dallas). 9—Breckenridge. 10—Corsicana, Waco. 11—Tyler. 12—Lufkin. 13—Austin (Houston). 14—Port Arthur. Beaumont. 15—Austin, Brackenridge (San Antonio), Kerrville. 16—Corpus Christi, McAllen.

More than 20 conference games

this week will go a long way toward determining if the selections have substantial basis, and in addition there will be almost as many inter-district struggles that will accentuate the sectional picture.

Thirty teams reached the October grind with perfect records but ten of the district favorites were not included in that list, notably Corpus Christi, defending state champion; Lufkin and Port Arthur. However, on the basis of material, district opposition and potential improvement these teams must still be included when one talks about contenders in the state race.

The conference schedule this week:

District 2—Graham at Childress; Electra at Wichita Falls; District 3—Abilene at Sweetwater; Big Spring at Odessa; District 4—Ysleta at Austin (El Paso); District 5—Borham at Denison; District 7—Poly (Fort Worth) vs. Arlington Heights (Fort Worth), Riverside (Fort

Meyer Satisfied Despite Loss of Game to Uclans

FORT WORTH, Oct. 5.—A football coach is not supposed to be happy in defeat, but Coach Dutch Meyer is.

"We played the best opening game we have played since I have been head coach at TCU," the Dutchman says of the Horned Frogs' 6-2 defeat at the hands of UCLA in Los Angeles.

Last year, for example, the Frogs took Centenary 13 to 0 in their opener, but Coach Meyer says he is much better satisfied with the performance against the Uclans than he was with the play in the 1938 curtain-raiser.

"Sure, we lost the game! But we outplayed them in every department except scoring," Meyer points out. "The boys carried out their assignments well, the blocking was good, the passing was all we could

ask for and we gained as much on the ground as the Bruins did.

"Of course, there is a little matter of goal line punch that must be developed. But we're going to do something about that!"

"If the boys play every Saturday as they did in Los Angeles, we'll win some of our big games, and don't you forget it!"

TCU is not discounting the strength of Arkansas, whom they meet in Fayetteville Saturday, in spite of the Razorbacks' 10-0 loss to Mississippi State.

"Those Arkansas boys never fail to give us a real battle, especially

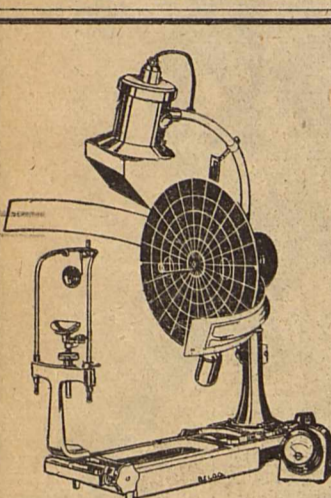

when we play them up in the Ozarks," Coach Meyer says.

The Horned Frogs will go to Fayetteville at top strength, barring scrimmage injuries this week. Bobby Sherrod played more than half of the game against the Uclans and his shoulder stood up o.k.

Bob Cook went the full 60 minutes, and it seems evident that his special shoulder brace will enable him to play at top form.

The squad will leave here Thursday afternoon and will work out there Friday afternoon for their first appearance in the new University of Arkansas stadium.

Jelly Crystals

In grape jelly, crystals sometimes form. To prevent these harmless cream of tartar crystals, stand grape juice overnight in a cold place before combining it with the sugar. The crystals settle to the bottom. Pour off the juice and strain it again. Another way of preventing this formation of crystals is to combine grape juice with the juice of other fruits.

hande soph, is likely to draw the assignment at the other terminal as he did last Saturday. These two boys are coming fast and will bear watching.

It was the intention of Norton to hold Buchanan out of service this year but his work in practices has been such that it looked advisable to sacrifice one year of eligibility and let him go this year. Bill was agreeable and broke into the game.

THERE IS NO WAR CLAUSE IN A PRAETORIAN POLICY

Wars and the rumors of wars cause the patrons and executives of life insurance organizations to meditate upon the factor of increased mortality incident to such violence.

At the outbreak of the World War all standard life insurance policies contained what was known as the "war clause," cancelling the insurance, or at least denying liability for loss or injury incident to military service. That limitation was deemed vitally requisite to actuarial soundness and solvency. Strange to relate that among the Americans enlisted, fatalities from disease exceeded the heavy mortality of the service at the front. In that holocaust of death and destruction, cruelty and murder, there transpired many fine things to redeem the depravity of the mad world. One incident of local origin, and a matter of modest pride, gave to all life insurance history, a new and challenging spirit. The Praetorian Life Insurance Society of Dallas, Texas, notwithstanding the war clause in its policy, on the 24th day of July, 1917, decreed and provided that the institution would pay all "CLAIMS FOR DEATH RESULTING, DIRECTLY OR INDIRECTLY, FROM ENGAGING IN MILITARY OR NAVAL SERVICE OF THE UNITED STATES OF AMERICA, AND THAT MEMBERS, WHILE SO ENGAGED, SHALL BE EXEMPT FROM PAYMENT OF PREMIUMS." This policy was carried out in good faith and actual performance.

Since nations feverishly prepare for war, and armies of the millions are now marching, what must be the thoughts of those now holding, and those desiring to acquire, life insurance protection? The alert mind and the keen thinker will act promptly before new clauses, exceptions and limitations are incorporated in future policies. There may be no real occasion for special concern in this matter, but who can foretell the tomorrow?

Praetorian policies now contain the following clause: "This policy is free of restrictions from date of issue as to change in occupation, residence or travel."

Modern Study Club Has Program on Fashions, Conduct

"Fashions and Conduct" was the provocative subject of discussion for Modern Study club members in their meeting with Mrs. A. H. Riley, 608 W. Cuthbert, Wednesday afternoon.

Mrs. H. E. McRae was leader for the program.

Mrs. John W. Skinner presented an interesting review of "Fashion is Spinach," the upsetting and unwholesome book on fashion which has made the name of Elizabeth Hawes, young American designer, known over the country.

Mrs. Tom Sealy dealt with second topic of study by reading excerpts from Margaret Fishback's "Safe Conduct." This book is a clever take-off on such writers as Emily Post and Marjory Wilson and presents etiquette in more practical form.

A roundtable on "Social Blunders" closed the program.

Mrs. Don Gray was elected to membership.

The club voted to cooperate in placing a bronze plaque honoring Clara Driscoll in the clubhouse at Austin.

Guests were Mrs. K. S. Blackford and Mrs. Volight.

Members present were: Mmes. J. H. Chapple, F. C. Cummings, J. M. Haygood, J. M. Hills, J. J. Kelly, L. C. Link, Lamar Lunt, McRae, P. A. Nelson, F. R. Schenck, Sealy Skinner, S. S. Stinson, Fred Turner, and the hostess.

Justamere Club Meets at Home of Mrs. C. J. McNeal

One visitor, Mrs. Ira Proctor, was present at the Justamere club party for which Mrs. C. J. McNeal was hostess at her home, 503 North D street, Wednesday afternoon.

Seasonal flowers decorated the party rooms where two tables of 42 amused the group until the tea hour.

High score in play was a tie between Mrs. Leonard Skaggs and Mrs. C. E. Nolan while low score was held by Mrs. J. L. Kelly.

Refreshments were served at the close of the games to Mrs. Proctor and the following club members: Mmes. Kelly, Skaggs, A. B. Stuckney, Nolan, Herbert King, C. G. Murray, and the hostess.

Mrs. Cummings Becomes Bride Of Carlsbad Man

Relatives here have been informed of the marriage of Mrs. Retta Cummings of Midland and Frank C. Stahl of Carlsbad, N. M., which took place this morning in Carlsbad.

Mr. and Mrs. Stahl will make their home in Carlsbad for a time. Mrs. Stahl had lived in Midland about two years, where she was occupied as a seamstress. She is the aunt of Mrs. J. P. Gibbins of this place.

Presbyterian Class Has Party for Group

Entertaining informally at the church, the Women's Bible class of the First Presbyterian church held a program party recently.

The following program numbers were presented:

Solo—"Unto the Dusk"—Mrs. Jack Hawkins accompanied by Mrs. A. M. McClure

Reading—"Billy Boy"—Mrs. Walter Anguish

Accordian solos — "Whispering Hope" and "Cribbitin'"—by Betty Jean McDonald.

A refreshment plate was served to about 35 women.

Betty Sivalls Honored at Party On Fourth Birthday

Mrs. Don Sivalls, 811 W. Louisiana, honored her daughter Betty on her fourth birthday anniversary with a party at her home Monday afternoon from 4 o'clock until 5 o'clock.

Guests played games outdoors until the refreshment hour when pink candies were lighted on the birthday cake and cake and ice cream were served.

Favors of cap guns were given the boys and dishes were given the girls.

Present were: The honoree, "Fellow" Patteson, Sherry Page, Van Welch, Bill Aldrich, Ralph Murphy, Tony Chapple, Emily Hamilton, Ann Hamilton, Carolyn Howell, Hugh McClure, and the two "big girls," Mary Martha Sivalls and Patsy Ann Patteson, who assisted Mrs. Sivalls.

To Remove Mildew
Mildew spots on book pages usually can be removed by gently brushing over with a soft clean cloth, then placing the book in a warm dry place until the pages are thoroughly aired and dried.

Woman's Wednesday Club Opens Year With Luncheon in Blue Room Wednesday

Informality marked the luncheon in the Blue Room of Hotel Scharbauer with which the Woman's Wednesday club officially opened the new club year Wednesday.

Bowls of pink roses were placed at intervals down the luncheon table and a rose was with the place card at each cover.

A three-course luncheon was served.

Mrs. John Perkins presided at the discussion of plans for the year, making a few comments in her capacity as new president of the club.

Featuring the occasion was the recital of vacation experiences under the general head of "Vacation Echoes."

Officers who are assuming duties this year include Mrs. Perkins as president; Mrs. W. E. Ryan, vice president; Mrs. M. C. Ulmer, secretary and treasurer; and Mrs. R. C. Conkling, corresponding secretary.

Mrs. Margaret Murray of Toronto, Canada, was a guest.

Club members present were: Mmes. J. M. Caldwell, R. C. Conkling, Elliott F. Cowden, J. M. DeArmond, Andrew Fasken, Geo. Glass, C. M. Goldsmith, M. R. Hill, O. B. Holt, R. L. Miller, E. Eric Payne, Perkins, Ryan, Ulmer, W. G. Whitehouse.

Betrothal Announced At Luncheon Party On Wednesday

Choosing a color scheme of blue and white for appointments, Miss Mary Jane Sweetman, Miss Doris Fox, and Miss Lee Johnson entertained with a luncheon in the private dining room of Hotel Scharbauer Wednesday noon, announcing the engagement of Miss Ruth Phillips and Roland H. Johnson.

Forming the table centerpiece was a cluster of blue and white chrysanthemums holding a silver wedding ring in which were white flowers were placed as "stones."

Guests were informed of the approaching nuptials when they received individual corsages bearing the message "Ruth and Roland" and the marriage date, "October 14."

Luncheon covers were laid for: The honoree, Miss Elizabeth Pratt, Miss Willette Duncan, Miss Julia Bacon, Mrs. Russell Peach, Mmes. Surce J. Taylor, M. D. Johnson Jr., S. R. McKinney Jr., F. N. Kennon, and the hostess.

Intermediate BYPU Groups Have Picnic At Cloverdale

Fifty-one persons were present when the Intermediate BYPU's of the Baptist church entertained with a picnic at Cloverdale Tuesday evening.

The group gathered at the church at 5 o'clock and went to the Park where supper was spread in picnic style.

Games were played under the direction of Betty Jo Daugherty and Irma Tunnell.

Adults attending were: Rev. and Mrs. H. D. Bruce, Mr. and Mrs. Tom Wingo, Mr. and Mrs. Joe Talley, Mrs. Herbert King, Mrs. Homer Hensley, and Miss Lucile Scarborough.

All Club Members Are Present for Bridgette Club

Mrs. Glenn Black, 1001 W. Louisiana, favored the Bridgette club with an afternoon party at her home Tuesday at 2:30 o'clock.

Mixed flowers were used in decorating the party rooms.

Three tables of bridge occupied the attention of the group with high score going to Mrs. A. E. Horst and second high to Mrs. E. D. Richardson.

A salad plate was served at tea time.

The club membership was present one hundred per cent. Included were: Mmes. L. A. Absher, K. S. Blackford, S. O. Cooper, Horst, W. L. Miller, J. J. Kelly, Lamar Lunt, Richardson, A. H. Riley, W. B. Stowe, L. A. Tullis, Bill Van Huss, and the hostess.

4-H Club Girls' Activities

Cotton Flat 4-H Club
Cotton Flat 4-H club girls started their recipe files in their meeting at Cotton Flat schoolhouse Wednesday.

French Toast made by a recipe of Mrs. J. R. Norris was much liked by the girls.

This recipe is: French Toast (Mrs. Norris)—To

Second Week of Prayer Program Is Presented

"The Open Door to Foreign-Speaking People" was the theme of the second week of prayer program presented at the Baptist church Wednesday afternoon by the Martha Holloway circle of the WMU.

Opening prayer was offered by Mrs. S. T. Cole followed by the theme song, "Open Wide the Doors."

Mrs. J. Boyd East brought the devotional and prayer.

A special number, "My Task" was sung by Mrs. J. Webb Miller, accompanied by Mrs. Robert Cox.

Three talks followed. They included: "The Mexicans in Our Midst and the Power of the Gospel among Them" by Mrs. Austin Flint; "Christ for Europeans or Chaos" by Mrs. Ray Hyatt; and "The Story of a German Family Converted" by Mrs. Cox.

Mrs. H. D. Bruce offered the benedictory prayer.

Programs will be held this afternoon and Friday afternoon in conclusion of the week of prayer observance.

Little Theatre Plans Will Be Discussed Tonight

Little Theatre work includes much besides acting, Miss Pauline McMurray who is one of the leaders in plans to establish a Little Theatre in Midland, said today. Directing, designing, and stagecraft are some of the other activities which must go along with the actual enacting of roles in presentation of the plays.

Not only those interested in acting but those interested in these other phases of theatre work are invited to attend a meeting at the home of Miss Elma Graves, 1211 W. Illinois, this evening at 8 o'clock for the purpose of making plans for a Little Theatre. It is hoped to have a functioning organization here soon.

Mrs. Harp Hostess To Adelante Club At Bridge-Luncheon

Mrs. Ralph Harp was hostess to the Adelante club with a bridge-luncheon at 1901 W. Texas, Tuesday at one o'clock.

Bridge games followed the luncheon.

A special feature of the party was a blessed event shower honoring Mrs. Phil Yeckel.

Guests were Mrs. Bob Taylor and Mrs. Emery Corbett.

Adelante members present were: Mrs. Yeckel, Mmes. M. F. Turner, W. B. Harkrider, Dallas Dale, Bernard K. Buffington and the hostess.

RETURN HOME

Mr. and Mrs. Jimmy Kerr returned home Wednesday from Baltimore where they had been visiting his parents. They also attended the World Fair in New York and visited in Washington.

each egg add 2 lbs. real thick cream and pinch salt. Use at rate of one egg per person. Whip up well, then in flat bottomed pan or platter, soak each slice of bread on both sides. Fry in pretty deep hot fat, about as you would doughnuts. Trimmed slices of bread make the nicest toast, and pieces about 2x4 inches make nice servings. Powdered sugar and cinnamon may be sprinkled over each piece if desired. Serve with fruit jam, jelly, maple syrup, or honey.

Five of the club girls started their recipe files. Eddie Locklar, who was absent, will start hers before the next meeting.

Members present were: Billy Franklin, Vera Williams, Sylvia King, Mary Nell King, and Doris Preston. Visitors were Mrs. Johnnie Graham and Mrs. Christine Moore.

The club adjourned to meet with the sponsors on October 25. (Doris Preston, reporter).

We, THE Women

BY RUTH MILLETT

ONCE a year a woman ought to check up on herself—find out as nearly as possible where she stands, and where she is going.

Check Number One should be: "If I'm not married and want to be, what am I doing about it? Do I know a single man I could marry, and if so, is there any chance of his asking me?"

Or Check One for the married woman: "How is my marriage coming along? Are we getting the things out of life that we really want and that are important?"

Check Two: "How about my friends? Are they still stimulating, or am I holding on to old friends who really don't interest me any longer, just because I am too lazy to make new ones?"

Check Three: "Am I building for the future, or am I going along not knowing what I want and not thinking any further ahead than next week?"

YOURSELF OR AN IMITATION? Check Four: "What do I really look like—the person I like to think I am or a slipshod, careless imitation?"

Check Five: "Have I worked out some kind of standards to live by, or am I still fumbling and being swayed by the things my friends think are important, still unable to trust my own judgment?"

It isn't easy to make an honest evaluation of what you are and where you seem to be headed, but

Mrs. Barron Reads Odets Play for Club Group

"Rocket to the Moon," one of the works of the brilliant young playwright, Clifford Odets, was chosen by Mrs. Elliott H. Barron for reading at the meeting of the Play Readers club with Mrs. De Lo Douglas hostess Wednesday afternoon. The group met at the home of Mrs. Russell Peach, 410 N. Marlenfeld. The Odets play is a drama of middle class love.

Club members present were: Mmes. E. W. Anguish, Barron, W. H. Bryant, Jack Hawkins, Wallace Irwin, Chas. L. Klapproth, W. L.

no woman ever gets the most she could have if she just muddles along.

Miller, William Y. Penn, W. T. Schneider, W. B. Stowe, Fred Wilcox, Fred Fuhrman, E. K. Buffington, W. W. LaForte, Miss Geraldine Dabney, and the hostess.

Mrs. Peach was the only guest.

Flirtatious Fall Slippers

If you are the type that wears frills effectively, it will be quite correct to wear them on your slippers this season. An exclusive Fifth Avenue shop sponsors a simple, graceful pump with high slender heel of hand-sewn black reindeer with an upstanding ruffle of black falls extending around the top, fairly wide in front, tapering very narrow at the heel. Match it with a generous-sized square handbag of soft, black reindeer with falls all-around ruffle. For evening the same pump is shown in black satin with black lace ruffle or black satin with red lace and red satin heel.

Stanton Ranchman Works Out Water Facilities Program

Earl Powell, well known Martin county rancher, has worked out, in cooperation with technicians of the Soil Conservation Service of Midland, Texas, a complete water facilities program on his 12,240 acre ranch located 9 miles north of Stanton, Texas on the Lamesa highway.

A soil map of the entire ranch was made by the soils specialists of the Water Facilities Project showing such things as soils type, amount of sheet erosion, amounts of gully erosion, length of slopes fall per 100 feet along the slopes, and other factors to be considered in determining methods of erosion control to be installed and the proper land use of the ranch.

Powell has some 895 acres in cultivation on his ranch which will have such conservation practices as terracing, strip cropping, contour

tillage, and crop rotation practiced as a means of conserving the maximum amounts of soil and water. The practices, as determined by a physical inventory of the soil, will insure proper land use of each acre according to its needs and adaptabilities, resulting in more profitable returns from the land.

A vegetative survey of the pastures was made by range management specialists of the Service to determine the number of animals the ranges is capable of carrying. It was found that the range has been overused, requiring livestock adjustments. The plan also calls for the planting of Sudan each year as relief for the permanent pastures during the late summer. Recommendations for such range management practices as controlled, rotated, and deferred grazing, distribution of grazing through the use of watering and salting points are based on a range survey which gives the amounts, kind, and distribution of different grasses and weeds, whereas any mechanical treatment such as contour furrowing and water spreading is based

Sul Ross Lobos to Meet Kingsville '11'

ALPINE, Oct. 4 — Out to avenge a stinging 19-6 defeat from Texas A&I Javelinas of Kingsville, last year, Sul Ross State College Lobos will throw their eight lone lettermen and wide scattering of inexperienced freshmen into a concentrated assault against the Javelinas at Marfa Highland Hereford Fair Friday night.

The Javelina tilt precedes the Lobos' encounter with the Texas Wesleyan College at Fort Worth in Monahans Saturday night, October 14.

Grooming a new quarterback for the Friday night clash with Texas A&I has occupied Coach B. C. Graves' time during the past week of practice.

The Lobos 7-0 defeat at the hands of the Abilene Christian Wildcats last Saturday night at Alpine revealed urgent need for a signal barker and for that position Coach Graves may use young Bill Ellington, freshman quarter from La-

Reichstag Called to Meet Friday to Hear German War Policy

BERLIN, Oct. 5. (AP). — Adolf Hitler last night summoned his Reichstag for a meeting Friday noon to hear a new German declaration of policy in the European war.

Speculation centered on the possibility whether Hitler in one of his stirring addresses would disclose any new chance to end the conflict.

The German point of view remained that the action in Poland is ended and that action in the west has never started.

Indications into last night were that Hitler would decide not to go to Warsaw today for a triumphant parade of German troops into the Polish capital.

The need for giving the closest attention to the latest international developments which might have a bearing on his Reichstag declaration was said to be the impelling reason for a decision to stay in Berlin.

The semi-official Deutsche Diplomatsch — Politische Korrespondenz, observed that the possibility of the United States becoming involved in the war had diminished in the past few days.

The call for the Reichstag meeting said merely that it was for the purpose of hearing a government declaration.

Political circles said they did not expect Hitler to repeat the peace proposals made in the German-Soviet Russian statement from Moscow last week, as they were considered sufficiently clear, but they did believe the Fuehrer would assure again that Britain could have peace or war as she desires, that Germany would prefer peace, but is ready to continue the war.

Hitler also was expected in these circles to reassert that the new order in the East, forged by the German and Russian armies in Poland, would not be altered.

Informed quarters said Prime Minister Chamberlain's statement in the English House of Commons yesterday contained nothing to cause Hitler to change the tenor of his Reichstag address.

There was a tendency here to believe that the British people did not want the war to continue and that Chamberlain was having difficulty in keeping the war spirit alive.

Authoritative sources described the Fuehrer as feeling that Chamberlain's speech did not give a clear answer to the German-Russian declaration of Moscow.

It was said that after his Reichstag speech Hitler would await reaction and then consult anew with Russia and Italy.

Satisfaction was expressed in official quarters over efforts of the Panama conference to keep the Americas neutral. These quarters said Germany saw her own and the world's interest saved if the largest possible number of states remained neutral.

War Boom's on In Berlin, N. H.

BERLIN, N. H. (U.P.) — This municipality in the center of the New England lumber belt sees prosperous days ahead as result of the European war.

The Brown company, one of the largest industrial firms in the city, already has placed scores of men on a full-time basis after two years of part-time work.

Officials said that extremely large orders for pulp, paper toweling, chemicals and fiber tubing had been pouring into the plant and attributed the increased order volume to the European war, which has shut off Scandinavian pulp importations.

They said no great number of new employes would be added to their payrolls, but said the situation meant steady income and regular employment for capacity crews.

Berlin business men said the increased business of the firm would be reflected immediately in their own concerns and reported that families already were buying commodities they had denied themselves through slack periods.

Undergoing reorganization proceedings at the time the war boom started, the firm was expected by

Officers to be completely clear of its financial predicament within a few weeks.

Flight of P-36's Leads Landings

Four ships landed at Midland Municipal Airport today, a checkup early this afternoon showed.

Topping the list of arrivals was a flight of two P-36's with Capt. Smith leading and Lieut. E. B. Young piloting the second ship. The craft were from Langley Field, Va., and landed at Midland from Hensley Field, Dallas, departing for Biggs Field, El Paso.

Major Kirksey, in an O-47-A, landed on a roundtrip from Biggs Field.

H. D. Dorr, second lieutenant, arrived from Hensley Field and departed for Lubbock. He was flying a BT-9C.

"Suggestion Week" Will Be Continued

Chamber of Commerce Suggestion Week, scheduled to end this afternoon, will be continued through the remainder of the week, it was this morning announced by Paul McHargue, chairman of the Activities Committee of the chamber of commerce. Chairman McHargue said that many excellent suggestions have been listed at the chamber of commerce office and that members of the committee are hopeful that others who have as yet not had the opportunity to offer their suggestions will call at the chamber of commerce office to list same by Saturday afternoon.

Opium Users Warned In Lost Chinese Areas
 CHUNGKING (UP)—In an effort to counteract the alleged spread of opium smoking in areas occupied by Japanese forces, Generalissimo Chiang Kai-shek has issued orders submitting offenders in Japanese areas to "double punishment."
 The generalissimo's announcement said that although "satisfactory results" had been obtained in the anti-opium campaign in the past year in Chinese controlled areas, "the government is not withdrawing attention from areas under Japanese occupation where the Japanese are purposely involving Chinese in the opium habit in an attempt to weaken Chinese resistance."

Mexico Takes Month's Rest From Politics

BY WILLIAM LANDER
 United Press Staff Correspondent

MEXICO, D. F. (U.P.)—Mexico's presidential campaign has entered a lull after two lively months and it appears that candidates will not become active again until early November.

The principal reasons for this situation are considered to be the following:

1. The European war has become the all-absorbing topic of the day. Furthermore, Mexicans realize that its economic and financial repercussions may have more effect on their daily lives than the election of any candidate.
 2. Internal issues have all but disappeared with the move to "rally around President Cardenas" which started when Mexico broke off oil negotiations with Donald R. Richberg, attorney of the expropriated foreign companies. (This happened in Washington in mid-August.) This attitude of standing by the chief executive was intensified after Cardenas' message to Congress at its opening session on Sept. 1, and the various banquets which have been held in his honor since then.
 3. More or less tacit decision to hold up the real campaign until the national convention of the semi-official party, PDM (Partido de la Revolution Mexicana—Party of the Mexican Revolution). It meets on Oct. 31, and is expected to nominate the candidate for President on Nov. 1.
 4. Necessity for raising campaign funds by sale of bonds and other methods. Since the campaign started prematurely—in January, 1939—whereas the election is only scheduled for July, 1940—most of the candidates have used up all (or even more) of their original campaign chests, and now need financial reinforcements.

Gen. Manuel Avila Camacho who holds the inside track for the PRM nomination, recently made a northern tour including a big mass meeting at Monterrey. He suspended it, however, to go to the bedside of his sick mother at Toluca, state of Puebla.

Campaign Strategy Mapped
 After his enthusiastic welcome to Mexico City, when he arrived from Monterrey on Aug. 27, Gen. Juan Andreu Almazan has dedicated himself to reorganizing his many committees. He intended to start his campaign tour with an "invasion" of Puebla, stronghold of the Avila Camacho clan (as Gen. Maximino Avila Camacho is state governor and Rafael Avila Camacho is mayor of the city,) however he now says that due to the illness of Avila Camacho's mother, he does not want to go there for the time being.

Every once in a while a newspaper story appears to the effect that Gen. Rafael Sanchez Tapia is going to retire from the campaign but invariably the next day there appears a political advertisement saying that he still is a candidate.

The ex-governor of Michoacan, Gen. Gildardo Magana, who resigned to become a candidate, is supposedly still at work drawing up his "manifesto to the nation."
 Whether or not any enthusiasm for the campaign may be revived later remains to be seen.

Woman Recalls Nazi Diplomat As "Rib" in '14

SEATTLE, Wash. (U.P.)—Joachim Von Ribbentrop, who as German foreign minister played an outstanding role in concluding the Nazi-Soviet non-aggression pact, once played—divinely—in a violin in a Montreal boarding house.

Then, before the World War, he was a bank clerk and he bumped elbows at a lodging house table with a miscellany of boarders, including Mrs. John F. Kennedy, now of Seattle.

He was known as "Rib" to other boarders she said, and he spent many hours playing the violin "divinely." Otherwise no one knew very much about him, because he listened a great deal and said very little. He was known as a "nice young man"—he was 24 years old then—but native Canadians and French and Scots rarely become affable with the serious German.

Mrs. Kennedy said Ribbentrop later left to taken another position in Ottawa, where he was located when the World War broke out.

"Rib" was playing croquet at a home in Ottawa when a telegram was handed him," Mrs. Kennedy said. "He dropped the mallet and ran for the house. The telegram told him war was going to be declared. He didn't even stop for his trunk at Montreal."

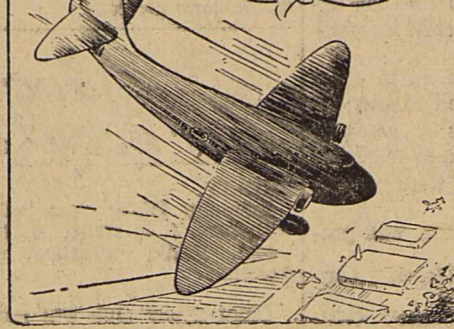

Once, she said, Von Ribbentrop leaned across the table and said: "You Americans are just like children—you don't know when you are being led."

FEMININE FANCIES

By Kathleen Eiland

We advocate hammered satin in gold color for exciting fascination in blouses and evening wear.

These black-and-red costumes are effective ones to our way of think-

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pen and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

ing, capping the sombreness of black with the fire of red jackets and red hats, the latter touched with black.

Black velvet is always tremendously effective when it is employed in simple designs. Example of this is a dress now being shown by a downtown store in which the only touch of color is found in half-circles of gold studded with white brilliants and a touch of green. These half-circles are set high on the blouse on either side of the neckline.

For one of those always-useful little dresses, we commend a wool plaid in shades of winey red with a wool-crepe bolero jacket in wine. The bolero teams with a wide corselet belt of the crepe. The whole is an attractive little costume. Removal of the belt and jacket gives a plain plaid dress while the lined jacket may be worn over other frocks.

Latest whimsy in the footgear world is that of "doll shoes". These are low-heeled and have a dancing youthfulness about them. Some are even laced with ribbon high on the ankle.

If milady is going in for naive and little-girl loveliness this winter, these shoes are just the thing to help keep her appearance keyed to her manner.

Delightfully spicy are the sachet pillows and sachet balls which come heaped in little baskets of enameled

Program of Music And Biography Is Heard by Robyn Club

Robyn club met at the Watson studio, 210 W Ohio, Wednesday afternoon with about 20 children present.

The meeting was called to order by the president, Eileen Eiland, after which roll call was answered by musical expressions and their definitions and the minutes were read by Dorothy Fay Lynch.

The following program was presented:

Piano—"Rob Roy March" (Anthony)—Lois D. Eiland
Violin—"A Levee Dance" (Wilson)—Edward Clark
Piano—Study Opus 32 No. 11 (Streaboggy)—Mary Frances Phillips
Biography of Bach—Marjorie Barron

General discussion of Bach
Piano—"The Joyous Peasant" Opus 68 No. 10 (Schumann)—Eileen

wire or woven straw. The luxurious little wardrobe accessories even come in tiny tinker chests which may be used as jewel boxes.

Oh yes, and those padded and covered coat hangers now come with ball sachets attached so that one's gowns and suits may have the haunting fragrance with which novelists surround their heroines.

Eiland
Repetition of the club motto closed the program.
Visitors included: Evangeline Theis, Jane Flint, and Patsy Collings, guests of Edith Raye Collings; Barney Hightower, guest of Bobby Drake; Barbara June Cowden, guest of Marjorie Barron.

Coming Events

FRIDAY.
Belmont Bible class will meet with Mrs. J. L. Kelly, 504 North D street, Friday afternoon at 3:30 o'clock.

Child Study club will meet with Mrs. S. P. Hazlip, 1007 W. Tennessee, Friday morning at 10 o'clock.

Concluding program of the series observing state mission week of prayer will be presented at the Baptist church Friday afternoon at 3:30 o'clock with Annie Barron circle in charge.

Women's Golf Association will meet at the Country Club for golf at 9 o'clock Friday morning. Surprise prize play of some kind will be held Friday morning. At one o'clock Friday afternoon an important business meeting will be held at the clubhouse and all members are urged to attend.

SATURDAY.
Story Hour will be held in the children's library at the courthouse

Saturday morning at 10 o'clock.

Midland University club will hold its first dance of the fall season in the Crystal ballroom of Hotel Scharbauer Saturday night from 9:30 o'clock until 1:30 o'clock. The dance will be invitational and informal.

Daladier—

(Continued from page 1)

Further indicative of the French mood was the arrest of two persons and inquiry against 29 others whose names appeared on an appeal for "immediate peace."

Those arrested were a man named Lecoin and another named Jean Gioani, identified as writers. The French censor withheld the identity of the 29.

The cabinet after a session this morning announced a decision to tighten blockade measures to keep credits as well as foodstuffs away from Germany, showing the importance the French are placing on economic weapons in this conflict.

"The experience of the last war will certainly be put to profit," commented the newspaper Le Temps, which called the blockade "one of the most terrible" of weapons of the allies' arsenal.

The paper compared "successful" operations to date with "blunderings" which characterized use of the weapons before.

Meanwhile, on the fortified frontier of Germany and France, the autumnal rains made aerial combat impossible. There were intermittent artillery exchanges in the Zwickau region, and semi-official sources said the French guns dominated that city along with the other German industrial towns of Bergzabern, Pirmasens, Saarbruecken, Saarlouis and Metz.

A general staff communique said there were "patrols and ambushes" on various parts of the front and that a German raid south of Pirmasens was repulsed.

The communique asserted that a French submarine had seized and brought to port a German merchant ship.

Baseball—

(Continued from page 1)

to McCormick. No runs, one hit, no errors.

Sixth Inning:
Cincinnati — Berger went out, pitcher to first. Myers grounded out, short to first. Walters bounded out, pitcher to first. No runs, no hits, no errors.

New York — Dickey lined out deep in right to Goodman. Solkirk struck out. Gordon struck out. No runs, no hits, no errors.

Seventh Inning:
Cincinnati — Werber flew out to center. Frey popped out to first base. Goodman flew out to center. No runs, no hits, no errors.

New York — Dahlgren struck out. Pearson popped out to short. Crosti popped out to short. No runs, no hits, no errors.

Eighth Inning:
Cincinnati — McCormick flew out to left field. Lombardi got a single through the pitcher's mound after Pearson had retired 22 men in order. Bordagary went in to run for Lombardi. Craft struck out for the third time. Berger went out, pitcher to first.

New York — Rolfe flew out to center (Hershberger catching for Cincinnati). Keller flew out to center. DiMaggio grounded out, short to first. No runs, no hits, no errors.

Ninth Inning:
Cincinnati — Myers bounded out, pitcher to first. Gamble was sent in to hit for Walters and struck out. Werber singled between short and third. Frey forced Werber at second, short to second. No runs, one hit, no errors.

Personals

J. R. Martin, Andrew Pusken and Frank Roberts are in New York attending the World Series games. They made the trip by automobile.

R. M. Barron has returned from a business trip to Grand Junction, Colo., visiting his brother, C. Y. Barron, and family while there. The Midland banker is interested with his brother in the Dr. Pepper franchise in that area.

Clarence Scharbauer and Roy Parks are aiding cattlemen attending the Highland Hereford show and sale at Marfa.

W. H. Spaulding returned yesterday from a visit with relatives at Hobbs, Clovis and Lubbock.

Foy Proctor is at Corsicana, judging a rodeo this week.

IT PAYS TO PAY FIFTY

Not just a phrase... but our sincere opinion gained from many years experience in outfitting men.

Stein Bloch Tailored Fifty Suits are a specialized product in which are incorporated the most outstanding of all quality features, that ordinarily command a much higher figure.

Pure, select, laboratory tested wools... hand tailoring of the highest and most luxurious order and style that presents casual drape and ease at its best.

Our suggestion for Fall is "It Pays to Pay Fifty".

Many Owe Their Lives to Him

He is the family physician . . . a man always willing to give unselfishly of his time and skill . . . a man always remembered in time of need and often forgotten immediately thereafter. Many owe their lives to him and some owe him for his services. If all who can afford to will pay medical bills immediately, physicians could better afford to devote more of their time to clinical and charitable cases.

Congratulations to:

Mr. and Mrs. A. B. Cole Jr. on the birth of a daughter in a Midland hospital this morning. The baby weighed 6 pounds 9 ounces and has been named Andrea Bea.

Europe Skeptical of Blockade by Americas

LONDON, Oct. 5. (AP)—British naval quarters declared today the smaller American republics might find it virtually impossible to establish effective control in carrying out the safety zone project agreed upon in Panama.

Only the United States, with a large navy, might enforce the plan around its coast, the spokesman said.

Park Ranger Discovers Hiker Who Won't Hitch

YELLOWSTONE NATIONAL PARK, Wyo. (UP)—Yellowstone park rangers have found an oddity

To Make a Long Tale Short

We wonder whether the man who composed the song, "I'm Dancing With Tears in My Eyes" had for a partner a girl who had been eating onions or garlic? Pack a lunch, take a friend and the dog along, and enjoy a real outing in one of our reconditioned cars; it will take you there and back again as well as a new car.

DON'T OVERLOOK THESE:

1936 Chevrolet Standard Coupe; all steel turret top; hydraulic brakes; black finish in excellent condition. Down payment \$100

1935 Ford Tudor Sedan; five passenger; transportation at low cost; finish in good condition; save money on this unit. Down payment \$75

1938 Chevrolet coach; see this late model used car today; economical to operate; Valve-in-Head motor; hydraulic brakes; solid steel top. Down payment \$160

1937 Chevrolet 1/2-Ton Pick-Up; ideal for farm or light commercial use; solid throughout, with motor, cab and body in excellent condition. Down payment \$125

1938 Buick Business Coupe, Special; owner driven, low mileage; a car that will give thousands of miles of service; see this car to appreciate its true value. Down payment \$225

ELDER CHEVROLET

WE SELL THE BEST. AND JUNK THE REST.

in this mechanical age—a hiker who wouldn't hitch.

Motorists were so dumfounded when their offers of rides were turned down that they reported the fact to ranger stations.

The hiker was Hilbert O. Felten, Benton Harbor, Mich. He walked the entire 147 miles of loop road, in the park plus 28 miles of entrance highway.
