

Warmly Received

Barbara Blair, British screen star, evidently didn't expect to run into a heat wave in October, as happened recently when she arrived in New York en route to Hollywood. So she dressed for debarking in a long fur coat, a silver fox turban and carried a long scarf to match—just in case.

Senator Charges FDR Has Pledged Help to Allies

WASHINGTON, Oct. 18. (AP)—Senator Holt, (D-WVa.) today charged in the senate President Roosevelt had pledged this country to aid England and France in "an attempt to stop dictators by force."

"The only reason we are in session—and there is no us trying to fool the people—is to help England and France beat Germany," he shouted, pounding his desk.

A group of democrats agreed today to relax the controversial shipping provisions of the neutrality bill. Senator Connally, Texas, offered a proposal authorizing American vessels to carry all goods except arms to belligerent ports in South America, Pacific Ocean, China sea, Indian ocean, Bengal bay and the Arabian sea.

Power Is Disrupted When Plane Strikes Lines Near Airport

An airplane that struck power lines at the airport approximately 2:15 here this morning disrupted power service in the city for approximately one hour.

According to officials at the airport, Lt. Ray H. Horton, flying one of the planes stationed at the local port engaged in army maneuvers at Baldoona, struck the lines as he was making a landing, breaking them loose from poles.

Horton managed to land the plane without suffering any injury to himself although the plane was slightly damaged. A report of an investigation of the reason for the accident had not been completed today at noon.

Kathryn Hemphill May Win Texas Tournament

FORT WORTH, Oct. 18. (Special)—Miss Kathryn Hemphill today defeated Mrs. W. H. Ainsworth, 7-6, in their match here.

Miss Kathryn Hemphill, South Carolina golfer and sister of H. A. Hemphill of Midland, was one of eight women rated as possible winners of the seventh Texas Women's Open golf tournament at Fort Worth, a report today showed. She defeated Mrs. H. V. Cordona 9-7 yesterday and was scheduled to play Mrs. W. H. Ainsworth of Houston today. Miss Hemphill has been winner of principal championships of the nation in women's golf.

Turkey, Reds Fail to Agree in Conference

Soviet Demands of Country Declared Contrary to Saydam

ISTANBUL, Turkey, Oct. 18. (AP)—Prime Minister Refik Saydam, in an official communique last night, said the negotiations with Soviet Russia had failed because the Soviet demands were contrary to Turkish security.

It was reported reliably that definite agreements with Britain will be signed in Ankara this week, probably Thursday or Friday.

The official communique said the prime minister, in a statement to a parliamentary group of the republican peoples party, declared the Soviet government and suggested to Turkey proposals entirely different from those previously agreed upon.

The prime minister said the Soviet demands were incompatible with the Turkish policy regarding the Dardanelles proved incompatible with Turkey's engagements which the Soviet government knew had been assumed toward Britain and France, were contrary to Turkish security and the guarantees offered did not compensate for the obligations which Turkey was asked to undertake.

He said, however, that although it had been impossible this time to conclude an agreement with Soviet Russia, relations between the two countries were still friendly.

The communique was issued from Ankara, the Turkish capital.

Definite terms of the Turkish-British pact were not announced. Turkey has signed a pact with France, however, providing for mutual assistance in event of war in the Mediterranean. A similar agreement with Britain has not yet been signed.

Football Squad Is Honor Guest Today at Lions Luncheon

Members of the Midland high school football squad, members of the coaching staff and school officials were the special guests of the Midland Lions club at the regular weekly club luncheon in the Methodist annex today noon, members of the squad being introduced individually by Head Coach Bud Taylor.

A brief welcoming address was made by Bill Collins with the response being given by Dell Truelove. Coaches and school officials introduced were Bob Myer, Jim Moore, and Cotton Kimbriel, assistant coaches; J. L. Greene, president of the school board; Superintendent W. W. Lackey and D. D. Shifflet, high school principal. Lion Bill Holmes was in charge of the program.

Principal address of the luncheon meeting was made by Rev. Ned Johnson, revivalist at the First Methodist church, subject of the address being, "Playing the Game of Life." Good players, bad players, dumbbells and yellow dogs in the game were discussed briefly by the speaker. High spot of his address was the reading of a soliloquy, a humorous satire, "Looking at the World Through a Dictator's Eyes."

Harry Armstrong, song leader at the Methodist revival, also made a brief talk of a humorous nature.

Mrs. Alden Goldaday, the former Miss Bea Nell who is the Lions club sweetheart, was presented with a wedding gift by Lions Claude O. Crane and Clinton Myrick in behalf of the entire club.

Guests besides those previously mentioned were Ben Cole of Dallas and E. R. Osborn and Bernard Spivey of Midland.

The luncheon was served by the women of the First Methodist church.

Illustrated Lecture Given by Diver Holds Attention of Town Hall Group

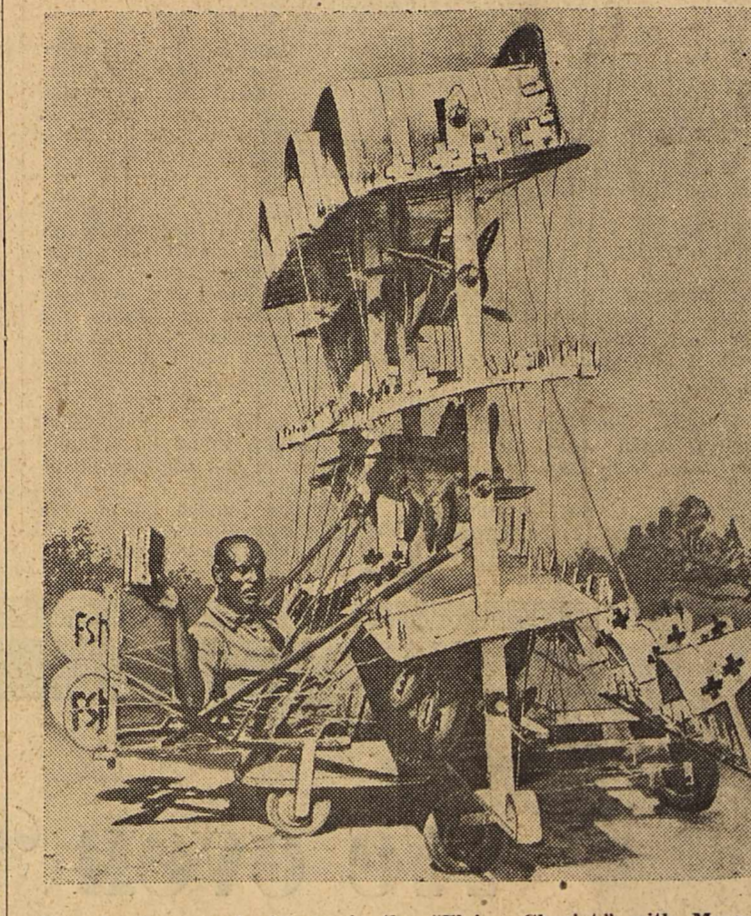

Entertainment and information, novel in content and interesting in presentation, was offered Town Hall members in an illustrated lecture presented by Max Gene Nohl, noted diver and inventor and photographer at the high school auditorium Tuesday night.

In connection with the showing of films actually made underwater, Mr. Nohl explained salvage work by telling of the done by himself and his associates on the run-runner "John Dwight," which went down off the Massachusetts coast with a valuable cargo of whisky and almost a quarter-million dollars in money aboard her. Weeks of work on the sunken vessel never disclosed the whereabouts of the money which the captain had hidden aboard and the liquor was found to be ruined by sea water.

In this work the regulation diving equipment such as that used by the navy was employed.

Mr. Nohl demonstrated, through the films, the use of some of the equipment which he himself has invented for furthering and making safer under-seas work. One of these is the self-contained helium diving suit in which the lecturer about two years ago descended to a depth of 420 feet, the greatest distance ever achieved by a deep-sea diver.

Swing High, Sweet Chariot

This, brethren and sisters, is the "Flying Chariot," with Moses Walters, inventor, designer, builder and pilot, seated in the cockpit. The aged Atlanta, Ga., negro said he built it because the "Lawd" commanded him in a dream to fly so that folks would listen to his preaching.

Henderson Declares Nazis Made Decision That Started the War

LONDON, Oct. 18. (AP)—Britain made public last night the "final report" of Sir Neville Henderson on his ambassadorship to Berlin in which he recounted in picturesque phrases the last days of peace, the "tragedy" of Adolf Hitler and side-light on "yes men" around the Nazi chieftain.

The 12,000 word white paper stressed repeatedly that Hitler alone made the decision to go to war, Sir Neville writing that "though he spoke of his artistic tastes and his longing for Russia, Sir Neville declared the impression that the corporal of the last war was even more anxious to prove what he could do as a conquering generalissimo in the next."

Of Hitler's personality, he asserted "geniuses are strange creatures and Herr Hitler, among other paradoxes, is a mixture of long-headed calculation and violent and arrogant impulse provoked by resentment."

Referring to the "bombshell" of the German non-aggression pact with Russia, Sir Neville said: "It is to be devoutly hoped that it may prove as Pyrrhic as are most diplomatic victories."

"I have some reason to believe—though I can not confirm it—that the order for the German army to advance into Russia, was actually issued for the night of August 25-26," the former ambassador asserted, and added that his flying trip to Hitler's chateau at Berchtesgaden "may after all have postponed the disaster for a week."

Sir Neville continued that it might have been Prime Minister Chamberlain's letter which gave Hitler "one last hesitation" and caused him to countermand the order to his army to march.

"But it was not the horrors of war which determined him," the diplomat asserted. "His hesitation

RETURNS HOME

Mrs. Bill Baker returned to her home today from a Midland hospital where she underwent surgery.

Local Legionnaires Attend Crane Meeting

Legionnaires Red Steele, W. H. Hoffman, J. F. Friberg, James H. Goodman and Slim Glenn attended a district American Legion meeting at Crane Tuesday evening, hearing addresses by State Commander Roberts, District Commander Ward Moody and other speakers. An attendance of 125 was registered, the local men reported.

Aid Is Rushed to Ships Damaged by Atlantic Storms

BOSTON, Oct. 18. (AP)—A coast guard vessel shot a line with medical supplies aboard the liner President Harding today for treatment of 20 passengers injured during a gale. The ship proceeded toward New York.

NEWARK, Oct. 18. (AP)—The coast guard cutter Hamilton sped through a storm today to aid the United States liner President Harding, hove to 300 miles south of St. Johns, Newfoundland, and the British steamer Blairbeg, which lost her rudder chains, 160 miles south of St. Johns.

The President Harding radioed for supplies to treat "many seriously injured in heavy weather." It is bound for New York with American passengers from war zones.

The Harding is 13,869 tons; the Blairbeg 3,509.

C of C Drive For Members Opens Thurs.

Breakfast at Seven To Start Contest Between Two Teams

With all arrangements having been completed and with both sides confident of victory, the annual membership campaign-contest of the Midland chamber of commerce will get underway early Thursday morning following a kick-off breakfast in the Blue Room of the Scharbauer Hotel Coffee Shop at seven o'clock and will end with a dinner tomorrow evening at six-thirty o'clock.

Forty campaign workers, divided into two groups, will solicit non-members of the organization in an effort to increase the annual chamber of commerce budget by at least \$2,500 thereby bringing the annual budget of the organization to at least \$10,000. Officials of the organization have pointed out that every business and professional man of the city should maintain a standing membership in the chamber of commerce and that the budget of the organization must be increased if the chamber of commerce is to continue to function as it should for the best interests of the city.

The drive is being staged in the form of a contest with two sides competing against each other on a point basis. Points will be given for new members listed, new members unlisted, dues raised, and dues collected in advance. Members of the losing side will be hosts to the city of the winning side at the Thursday evening dinner.

Captains of the two sides are Allen Watts and John P. Butler, rivalry between the two groups being at a high pitch and with both sides predicting more or less one-sided victories. Both captains have announced they have something up their sleeves that will mean victory for their respective sides. Pep talks by both captains and by Ed M. Whitaker, chamber of commerce president, will be given at the breakfast in the morning.

Arrangements have been made whereby persons not contacted during the day may leave their memberships at the chamber of commerce office, designating which side is to be credited with the points involved. Marion Flynn, chairman of the organization's membership committee, this morning urged all persons who are not at present members of the chamber of commerce to join readily when contacted on Thursday or to stop by the chamber of commerce office in Hotel Scharbauer to take out a membership card.

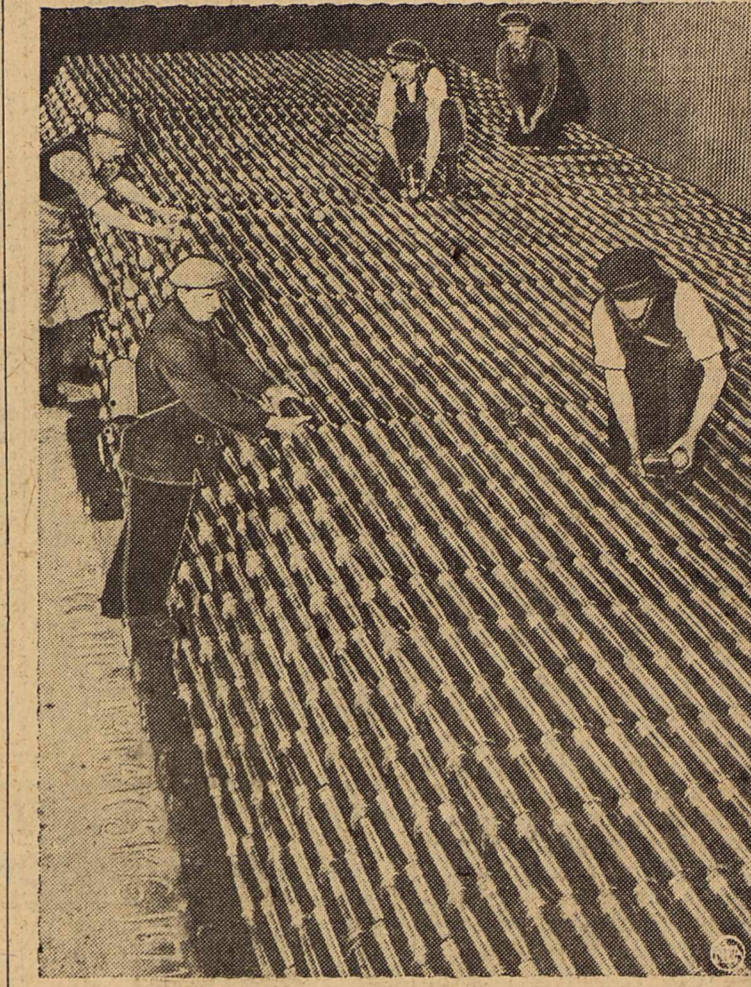

"I am urging everyone to get into the organization which is continually working for the betterment of Midland in every possible manner. He said that the chamber of commerce has been a guiding factor in the growth and development of Midland during past years and that the organization of every citizen to belong to the organization."

Practically every city the size of Midland in this area has a chamber of commerce budget of at least \$10,000 and it is felt by officials of the Midland organization that the budget should exceed such an amount. The Midland chamber of commerce belongs to the citizens of Midland and is continually working for the benefit of each citizen, it was pointed out, and is therefore deserving of the unlimited support and cooperation of the entire citizenry.

Present Whitaker and Chairman Flynn also expressed appreciation to workers who will give of their time tomorrow in conducting the contest.

The side captained by Allen Watts is composed of J. W. Reese, Ray W. Healy, W. H. Healy, J. C. Smith, L. T. Boynton, George McEntire, Jr., Harvey Conger, John P. Howe, Bob Scruggs, R. J. Kelly, Delbert Downing, J. E. Hall, P. A. Nelson, Dr. J. B. Thomas, L. G. Mackey, E. W. Angusli, Clinton Myrick, Roy (See C of C DRIVE, page 6)

For "Export" to Germany

Workers stacking shells in a British munitions factory build an ever-rising wall in whose "bricks" are sealed patriotic zeal and destruction. The scene is typical of night-and-day production in scores of British factories switched from peace-time manufacturing to munitions making.

Stanolind Stakes Wildcat Northwest Of Cedar Lake Discovery in Gaines

BY FRANK GARDNER

New location for the Cedar Lake area, northeastern Gaines county, was announced this morning by Stanolind Oil & Gas Company as its No. 1 T. S. Riley. The well will be drilled north of Cedar Lake, 660 feet from the south, 1,490 from the east line of section 11, block H. D. & W. R. R. survey. Contract has not yet been let for the test, which is approximately three miles north and one and one-half miles west of the discovery well of the pool, Stanolind No. 1 J. J. Rayner, which flowed 1,275 barrels a day on Yates gas lift when completed several weeks ago.

In central Gaines' semiole pool, Amerada Petroleum Corporation No. 1 I. E. Auten flowed 406 barrels of oil in 24 hours through 32.64-inch choke on 2-inch tubing and was shut in at midnight. Gas gauged 321,000 cubic feet per day, giving it a gas-oil ratio of 795-1. The well is bottomed at 5,315 feet in lime, topped upper pay at 5,200, main pay at 5,254, and has been acidized with 2,000 gallons in single stage. The well extends the northwest sector of the pool one-quarter mile north.

A mile north of Auten, Osage Drilling Company, Inc. of Oklahoma, No. 2 G. D. Johnson had shown nothing as it drilled to 5,370 feet in lime. The same firm's No. 2-A J. L. Tippett, in the northwest area, is drilling unchanged at 4,697 feet in anhydrite and lime.

In the pool, Magnolia Petroleum Company and Atlantic Refining Company No. 2 Havenway & Jenny is digging cellar and pits and moving in material. Location for Atlantic No. 1-B T. S. Riley has been moved two locations east to 660 feet out of the northeast corner of section 229, block G. W. T. R. R. survey.

Humble Oil & Refining Company today announced location for

No. 1 Mrs. Bertha D. Young, an Ordovician wildcat approximately eight miles northwest of the Apco Ellenberger pool, first Ordovician pool in Pecos county. Also in Pecos, No. 1 Young will be drilled 660 feet from the south, 1,490 from the east line of section 11, block 10, H. & G. N. survey. Humble has two sections of Mrs. Young's land under lease.

Another test, the sixth, for the Apco pool of northern Pecos has been staked by General Crude Oil Company at No. 1 Masterson, 660 feet from the southeast, 1,980 from the southwest line of section 104, block 10, H. & G. N. survey, offsetting to the southeast Magnolia No. 1 J. S. Masterson, which this morning was drilling lime at 3,027 feet. Lease consists of deep rights under the southeast half of the south quarter of section.

A half-mile north of the first Apco well, Anderson-Prichard Oil Corporation and Monte Warner No. 2 M. L. Masterson is drilled at 3,729 feet in lime. Childress Royalty Company No. 1 Masterson had (See OIL NEWS, page 6)

Officials Deny Arms Were Aboard Athenia When She Was Sunk

GLASGOW, Oct. 18. (AP)—The Donaldson line, owners of the sunken Athenia, today characterized as "tommyrot and absolute nonsense" America's affidavits charging the lined carried arms and was to be outfitted as a raider.

Norman Donaldson said the Athenia "set out when the world was still at peace."

Gustave A. Anderson, passenger, made affidavit the ship's chief officer said there was "plenty" on guns aboard.

Cowgirls' Part in Modern Rodeos Forms Basis of Magazine Article by Hendrix Featuring Midland

AUSTIN, Oct. 18. — The Southwestern ranch and rodeo scene was one ruled exclusively by the male element but those days are passed forever, as events in the recent Midland Labor Day rodeo revealed beyond a doubt. John M. Hendrix describes the entrance of feminine participation in rough riding events in an article, "Ride 'Em Cowgirl!" in the October issue of Texas Parade.

"To Southwestern cowmen," writes Mr. Hendrix, "have come the realization that their daughters can ride jump for jump, turn for turn and throw loop for loop with them. And their daily work—do it on their top cutting and roping horses, which they, in their egotism, thought none but themselves could sit in action. And the young ladies can do these things, too, without sacrificing any of the womanly charm or grace which makes them social leaders in their home communities.

"Realization of this came to the parents at the annual Midland rodeo on Labor Day this year when 5,500 paid spectators saw 10 of the ranch daughters turn in a job of cow work which left the stands breathless from applauding. This, incidentally, was not of the Oh! and Ah! variety but ran more to

stamping, waving, and lusty yells of "Go way round him, sister!" or "Don't crowd him too much, honey," and "Give him air, Baby!" All of which advice was neither heeded nor needed by the 10 young ladies doing the job, as they were exemplifying horsemanship and cow sense equal to that of the best hand with a paid ticket of admission or any of the hundred or more contestants lining the chute fences.

"The particular piece of cow work the young ladies were doing for the enlightenment of their parents and edification of the stands was that of penning a wild range calf and any cowman who knows the vagaries of a wild range calf will testify to the fact that penning one, even under normal conditions brings out the best in horse and rider. During the 20 minutes necessary to complete the event, cowmen saw horsemanship and horse training exemplified to the nth degree. As the horses wheeled and turned, as the cowman would put it, "on a dime with six cents to spare," their leg muscles automatically contracted and relaxed much as the auto passenger's foot presses the floor boards when riding with a strange driver. They knew the whipping and muscle strain the girls were

taking and doubted if they could do as well. They were proud of the thing they were seeing.

"When it was finished, the three judges, each mature in years and versed in cowlore and horsemanship, spent many minutes before announcing a decision, finally in favor of Miss Mary Nell Edwards, 17-year-old daughter of ranchman Marion Edwards of Big Spring, Texas, and valedictorian of her graduating class last year.

"These 10 young ladies were selected after a series of preliminary riding tests from among 29 other young ladies representing an equal number of Texas and New Mexico counties, communities, and ranches. These came at the invitation of the City of Midland and its rodeo committee to represent their sections and add color and beauty to the annual fall gathering. They have been a feature at it since its inception five years ago and are treated as honor guests of city and rodeo. Teas, luncheons, and a grand ball for them and their escorts are special highlights of their visit each year. Each girl or the community sponsoring her bears her expenses, while there as well as cost of costume and equipment. The rodeo as (See COWGIRLS, page 6)

FR Supports Peace Move by Small Nations

Says This Government Joins With Others in Principles at Stake

WASHINGTON, Oct. 18. (AP)—President Roosevelt today advised King Gustav of Sweden "this government joins with the governments of other American republics in expressing support of principles of neutrality and order under law for which nations represented at the Stockholm conference have, through out history taken a consistent stand."

The message marked the president's second attempt in a week to aid in preserving peace between Russia and Finland. His first was to Russia.

President Kallinin of Russia assured President Roosevelt yesterday that Russia's sole aim in negotiations with Finland was "consolidation of the reciprocal relations" and "strengthening of friendly cooperation" between the two countries.

This was his reply to Mr. Roosevelt's message last week expressing "the earnest hope that the Soviet Union will make no demands on Finland which are inconsistent with the maintenance and development of amicable and peaceful relations between the two countries, and the independence of each."

Russian Gold Said Sent to Germany by Speaker in Commons

LONDON, Oct. 18. (AP)—Sir Alfred Knox, conservative, asked the commons today whether the government was aware of "the fact" of a consignment, said to be the first, of 17 1/2 tons of gold had been transferred by the Soviet to Germany.

Foreign Affairs Secretary R. Butler replied "we have reason to believe the report was not without foundation."

The press reported Germany was receiving about \$16,000,000 in gold a deal whereby Germany is ordered withdrawal of Germans from the Baltic area.

LATE NEWS

AUSTIN, Oct. 18. (AP)—Governor O'Daniel today granted extradition of Richard Gray Gallogly to Georgia. He said that the fugitive career might show injustice if that it was not for him to be deported.

BERLIN, Oct. 18. (AP)—Guenther Prein, submarine commander, is today "except for a lone auto driver nobody saw our U-boat enter leave Scapa Flow" in a raid which sank the battleship Royal Oak.

Hitler decorated Prein and 37 men.

NEW YORK, Oct. 18. (AP)—maritime commission said today survivors had been rescued by American liner Independence from two British ships, the 10,000 ton Yorkshire, and the 3,509 ton City of Mandalay, sunk 500 miles off France.

AMSTERDAM, Oct. 18. (AP)—Residents of Schiermonkkoog land today reported seeing six ships attacked by 12 planes. Nationalities and results were unknown.

Evangelist Preaches On Subject "Playing The Game of Life"

Pleasure that members of churches are attending the series of the Methodist revival was pressed today by the evangelist party and the pastor, Rev. V. Hinds. "No one has any corner on the love of God and Brother J. consoling is for all men everywhere," he said.

Preaching Tuesday night on subject of "Playing the Game of Life," Rev. Ray N. Johnson, most of his illustrations from football field and from track, the lesson that "We must train must sacrifice, we must play we all want to win. It is spiritual things just as much games."

Tonight is Church Loyalty and the various departments of church were urged to have groups in attendance.

Services are held daily at 9 o'clock in the morning and 6 o'clock in the evening. Children services are at 3:30 o'clock in afternoon and young people's at 6:45 o'clock.

The public is invited to all services.

IS DISCHARGED

Mrs. L. L. Jones was discharged today from a Midland hospital receiving medical attention.

Americans Want Their Washing

Americans are, in some ways, an even funnier race than the French are alleged to be in the words of the old song. Come war or revolution, come weal or woe, they want their creature comforts.

The complaints of some of the passengers on the Iroquois that the passage homeward from Europe was rough and service terrible makes us think of one of the greatest of the short stories of W. Somerset Maugham, which he called "Mr. Harrington's Washing."

Mr. Harrington was an American in Russia at the time of the revolution, seeking certain contracts. So thoroughly inculcated in him were his midwestern ways, that he had no understanding whatever of what was going on around him. He saw everything in terms of his own life and home surroundings. A meek enough man, Mr. Harrington stood by until he got his contract, from a cynical official who finally signed it knowing that his government was doomed and that it meant nothing.

As revolution lowered overhead, Mr. Harrington was finally persuaded to leave the city, but insisted that no decent person could do so without proper clean shirts. His laundry had been sent out, and those slovenly Russians, who never seemed to do anything right, had not returned it.

But the patrols of irresponsible soldiers and revolutionaries roaming the streets were intent on other things than Mr. Harrington and his laundry. The next morning anxious friends found Mr. Harrington sprawled in a gutter, riddled with bullets, a futile and pathetic package of laundry still grasped in his cold hand.

A few of the Americans in Europe for the summer holidays seem to have a little of Mr. Harrington's spirit. They resent that Europe should interrupt their holidays with a mere war, and they do not propose to be bothered by it. And when ships are sent to bring them home, there are some to complain that the ships did not ride smoothly in a storm, and that cabin accommodations and service were pretty poor.

The State Department has now announced officially that "each American citizen in belligerent countries desiring to come back has had an opportunity to return."

There is a war going on in Europe. Europeans are anxious about it, even if a few Americans seem not to be. Will the time come when the United States is asked to go to war to defend the rights of American summer trippers traveling through war zones in staterooms with private bath?

Up or Down?

"If we only had some ham, we could have some ham and eggs, if we only had some eggs," goes the old saw. California seems on the verge of finding out about that. Whether it will get ham and eggs or will wind up with either ham or eggs, remains to be seen.

This means simply that the \$30 Every Thursday plan for old-age pensions payable in warrants retired by a weekly check, seems to have a chance of adoption. Nobody seems satisfied with these proposals until they are tried out, and then it is too late.

Alberta's experiment with a similar plan does not seem to have worked very well, but people are such that they like to know for themselves. The rest of the country will be obliged to California if it shows whether or not a magic-sounding scheme will work. Of course it may be hard on California if it fails, but after all, it is her own decision.

The theory of the individual states as laboratories for trial of experiments before they are attempted on a nation-wide scale still holds good.

Pay, Too

The highest and most immediate costs of the European war are paid, of course, in Europe. But we pay, too, in lesser degree.

It is likely, for instance, that if Europe were in any degree of reasonable state of peace we would be facing a substantial budget for the coming fiscal year of above \$900,000,000. Would the army just have placed orders for 1,000,000 worth of rifles and munitions? And would the assistant secretary of war be talking about a standing army of 600,000? It isn't likely.

The United States has a stake in what comes of the European war, and has an interest in any arrangements that give a hope for real peace at its conclusion. That is so means the same thing as saying that it has a stake in the military cyclone. The attitude of the United States toward a Europe dominated by a military alliance, and toward a Europe seeking to unite in a system which promises honest peace in the future must necessarily be different things.

The discoverer of a death ray says he will keep it a secret in the interests of saving humanity. Now if somebody had only kept Hitler a secret...

His old-fashioned get-up of heavy mustache and big pipe, Stalin like a town constable. Striding into the small Baltics, he seems to be usurping the county sheriff's duties.

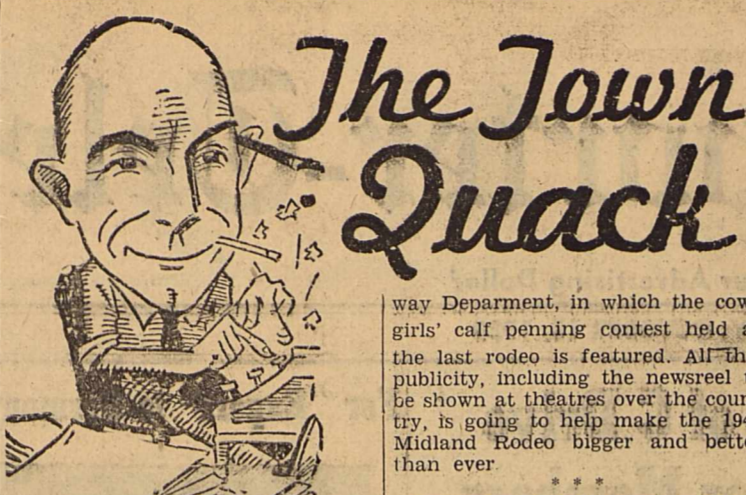

Almost a million more sheep and lambs were killed in New York earlier than in the Chicago packing center. Can it be the bulls and bears are on the loose again?

There has been a banner week for the lost and found bureau, what the Bremen mystery finally solved and reports sifting through the League of Nations is turning up again.

Access to the Hitler-Stalin agreements indicates that nazism and communism are merely different labels for the same brand of poison. It is, that's what Congressman Dies has been trying to tell us all.

It is not difficult to understand the confusion among the uninitiated the difference between radio and rodeo, for each has its own brand boys, the one singing, the other bucking.

It is about this time of year that the June bride finds the cooling and the billing begins.

Strong prices in the beef cattle market are not confined to range cattle or to heifers fed for the butcher. Yesterday's sale of registered cattle by John B. Strubling and Son of Rotan proved that registered Herefords are "up" in sympathy with their indirect offspring, the beef cattle. Heifers, 44 in number, averaged \$718.00 and bulls averaged \$553, the 57 head bringing \$38,245, or an average of \$670.90 per head. Good beef cattle are produced only with good foundation stock. More attention is being paid to the selection of good herd bulls now than for several years by West Texas ranchmen. Consequently, as the price of feeder calves and beef cattle go up, the price of quality registered Herefords goes along. Congratulations to the Strublings for this great sale.

Midland Rodeo publicity by John M. Hendrix has not stopped yet. Elsewhere in today's paper is a story about his article in the next number of The Texas Parade, official magazine of the Texas Highway Department...

BRUCE CATTON IN WASHINGTON

Reporter-Telegram Washington Correspondent

WASHINGTON. — The Russian gentleman who was born Samuel Ginsburg and now calls himself Walter J. Krivitsky has had an uneasy time of it during the months preceding his appearance here as a witness before the Dies committee on un-American activities.

On the one hand, he has been afraid of violence at the hands of Russian agents. For that reason he has kept in strict seclusion, remaining under cover in cities in New York and New England.

On the other hand, he has been afraid of the United States government, which has been trying to deport him. Only the intervention of Congressman Dies kept the government from shipping Krivitsky back to France last spring.

The true story of Krivitsky's stay in this country is only now coming out.

He entered the country on Nov. 10, 1938, carrying a French certificate of identity, French travel papers and a permit allowing him to live in France until December 1940. His papers permitted a four-month stay in America.

A PRESIDENT FOR SPONSOR At the same time the Labor Department (of which the Immigration Service is a branch) received a communication from William Bullitt, U. S. ambassador to France, saying that Leon Blum, ex-premier of France, had asked that all legitimate courtesies be extended to Krivitsky and had stated that he, Blum, was ready to vouch for him. Bullitt, who was in Washington at the time, passed this on without recommendation.

Krivitsky had lost his Russian citizenship — by his own account he was a former chief of Soviet military intelligence for western Europe, now in very bad with Dictator Stalin — and was what the State Department calls a stateless person, or a man without a country.

He joined forces with a literary collaborator to prepare some special articles and begin work on a book, and vanished from sight.

Nothing more was heard of him until March 21, when he applied for a renewal of his permit, due to expire March 23. On March 24 he was formally notified that his application had been received and that he would be informed of the decision in due course.

On April 15 appeared the first of his articles — an "expose" of conditions in Soviet Russia, printed in the Saturday Evening Post. Chairman Dies immediately decided that Krivitsky ought to testify before the un-American committee.

Early in May a friend of Krivitsky went to the immigration service and complained that Krivitsky hadn't yet had any word about his application. He was told that the application would be denied and that Krivitsky would presently be notified.

SAVED BY DIES SUBPENA Dies heard of this, and promptly served Krivitsky with a subpoena, to prevent his deportation until after his appearance as a witness.

Krivitsky lived uneventfully thereafter until June 29, when three things happened.

Newspaper stories announced that he was about to be deported; the company which had put up

Texas Today

By The Associated Press. Ordinarily Texas received from the AAA more benefits than any other three states in the nation. In like proportion it contributes to the conservation of agriculture's resources.

It has more cotton and range land than any other state, and it also has wheat, rice, peanuts, commercial vegetables, citrus fruit and other cash crops for which the AAA makes special provisions.

For participation in this year's program, Texas farmers and ranchmen are scheduled to get more than \$90,000,000, an amount equal to about a third of the total value of all Texas field crops in 1938.

To show for this money, the state got — to mention two of more than forty practices assisted by the AAA — some 20,000 miles of farm terraces and 10,000 stock watering tanks and dams.

These two items alone, according to Extension Service evaluations, will be worth more to Texas operators over a period of three years than the total amount expended by the government in 1938 for all specific land improvement work under the AAA.

No clearly-defined lines separate one phase of the program from the other, but — In West Texas, cutting off at the South Plains, the program means range conservation and a floor on wool prices by virtue of commodity credit loans. Elsewhere, the range program is state wide. In all but

In return they will improve or conserve approximately five acres of cultivated land for every ten acres they deplete with a cash crop, and by one means or another will raise the carrying capacity of 90 percent of the state's active range land. These estimates come from Texas A&M College state headquarters of the AAA.

Universally acclaimed features of the program are those dealing with farm and range land conservation and improvement, in which the government invested approximately \$9,000,000 through Texas farmers and ranch operators last year.

Before AAA, a typical blackland Texas farm of 160 acres, had 15 acres of pasture, 12 acres of corn, 10 acres of oats and 115 acres of cotton. Cotton came up to the front and back doors of the house. An arroyo ran through a corner of the farm and kept eating away the bank adjacent to a cotton patch. There were no trees; only four or five chickens, if any; no garden; a couple of mules but no milk cow. The farmer had to buy feed for his mules, and his family at out of a paper sack.

Assuming that this farm came into the program for the first time this year, it would have a cotton acreage allotment of 54 acres and an allotment for corn and oats and other general soil-depleting crops, such as sweet sorghum and sudan grass for ensilage.

Assume that its normal cotton yield is 167 pounds an acre and that the productivity of the farm is on an average for the county. This (See TEXAS TODAY, page 6)

With Another European War in Full Blast and an Election Year in the U. S. Approaching, You Need a Timely and Well-Edited Metropolitan Newspaper of the Caliber of

The Dallas Morning News "Texas' No. 1 Newspaper"

"The Dallas News is one of the best newspapers in America. It is free from sensationalism, its editorials are admirable in matter and expression, and its reports accurate." — From Autobiography With Letters, by William Lyon Phelps, published by Oxford University Press, 1939.

The News relies not alone on one great wire service — it has TWO... the greatest in the world — Associated Press and United Press. It also has the great wire feature service of North American Newspaper Alliance (NANA). Most newspapers would be content with these — but NOT The News, which also maintains its exclusively-own bureaus in Washington, Austin, East, West and Central Texas... to say nothing of more than 200 local correspondents scattered over the Southwest... and the largest local staff of editors, reporters, artists and feature writers of any newspaper in Texas.

In the Big Sunday News you get:

A Rotogravure Picture Section, "THIS WEEK," Colorgravure Magazine, a 16-page comic section in full colors, also The American Institute of Public Opinion, with Dr. Gallup's weekly polls.

The model illustrated is the Buick SUPER model 51 four-door touring sedan \$1109 delivered at Flint, Mich. *

ONE little thing will illustrate the unsparing care we're spending to make this 1940 Buick the best car we've ever built.

Take the springs—not simply the great soft-action spirals that cushion the car, but even the valve springs.

After they're shaped and tempered and finished there's likely to be here and there a tiny scratch on the surface of the steel.

Such a scratch conceivably might start a fracture. So, we shot-blast our springs—to heal such tiny scratches, "peening" the surface in miniature like hammered silver.

All through this massive, powerful, beautiful car you'll find special precaution like that.

For example, we used to balance by weight all sets of parts in our tornadic Dynafash straight-eight engine, to cancel out even a hint of "rough."

We do that still, but now we

do more. On special machines we electrically balance this great engine to micro-poised perfection after assembly, paring metal if need be to smooth its velocity to velvet.

Seat angles, pedal positions, shock absorber travel-arc, brake areas, control tensions—every detail comes under special study.

When the experimental models had done their stuff on the General Motors proving ground, we turned 'em over to sharpshooters to punish, over thousands of miles of bad roads and good.

Out of it all comes an automobile we're mighty proud to offer—an unbeatable travelmate you will be thrilled to own.

Come drive it—see how excitingly close steel and rubber and glass can come to being alive!

*Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

Dinner Party in Blue Room Honors Miss Evelyn Phillips, Wright Cowden

Mr. and Mrs. Donald Oliver were hosts for another in a group of pre-nuptial courtesies when they entertained with a dinner party in the Blue Room of Hotel Scharbauer Tuesday evening honoring Miss Evelyn Phillips and Wright Cowden who will be married Thursday.

The group gathered at the home of the bridegroom-elect's parents, Mr. and Mrs. Elliott F. Cowden, 201 North C street, at 7 o'clock and then went to Hotel Scharbauer.

In the Blue Room, the dining table was centered with an arrangement of pompon chrysanthemums in fall colors. Place cards were in wedding bell design.

Present were: The betrothed couple, Mmes. and Messrs. W. M. Elyvins, Hugh West, Louis Thomas, Ben Black, Frank Miller, W. C. Smith of Odessa, Thomas Lee Speed, J. C. Ratliff of Monahans, Chas. Edwards Jr., Mrs. Alf Reese, Mrs. E. I. Bailey, Mrs. Johnny Starr, Miss Helen Fasken, Miss Edna Mae Elkin, Ernest Sparks, Winston Elkin, and the host and hostess.

After dinner the group returned to the Cowden home, where dancing furnished amusement during the later evening.

'Baby Rat' Is Latest Star

Meet Hollywood's newest—and latest—star. After 77 other babies had been turned down, 14-month-old Peter B. Good landed job in "Brother Rat and the Baby." He has made such a hit that third "Brother Rat" story is being written for him.

you didn't have time to press it at the last moment.

Hat stands certainly are a must. The hat that is placed on the closet shelf or stuffed into a hat box night after night isn't going to retain its chic lines.

THINK OF THE MALE TOO

While you're shopping for closet accessories, you might consider some of those special trouser holders and special hat racks for the man of the house. The former save pressing bills. The latter—to be fastened on the back of the closet door—keep his hats in good order.

It's simple to remember to brush your clothes if a good brush is hanging on a nail in the closet. Or to whisk the dust off your shoes if a little shoe grooming box, equipped with brush and polish cloth, is handy.

Seldom-used dresses, jackets or coats won't fade or get dusty if your closet contains an adequate supply of opaque garment bags. And if you don't have dresser space for sweaters, how about keeping them in a sturdy box on the closet shelf instead of on hangers or worse yet, on the shelf minus any kind of covering?

Bridge-Luncheon Is Compliment to Bridgette Club

Centerpieces of decorated cake doughnuts lent a novel touch to quartet luncheon tables when Mrs. K. S. Blackford, 618 Storey street, entertained for the Bridgette club at 1:15 o'clock Tuesday afternoon.

Mrs. Martin Duvall was the only guest.

After the luncheon hour, three tables of bridge afforded diversion for the group with high score going to Mrs. A. H. Riley and second high to Mrs. S. O. Cooper.

Club members attending were: Mmes. L. A. Absher, Glenn Black, Cooper, A. E. Horst, W. L. Miller, Lamar Hunt, E. D. Richardson, Riley, W. B. Stowe, L. A. Tullos, Bill Van Huss, and the hostess.

FEMININE FANCIES
By Kathleen Eiland

In the beginning, man (and woman) secured food, clothing, and shelter without the benefit of money. We don't see why the same rule can't prevail now. It would save a good many of us lots of gray hairs, wrinkles, scowls, and heavy-heartedness generally. It is a source of unending wonderment to us how much money it takes to maintain a very modest standard of living.

We have always thought that a piano was a piano and nothing less or more. Apparently, we underrated the versatility of this once unwieldy instrument. We now have small pianos, in keeping with the tiny apartments which they grace. But that is not all. Pianos are made to do double duty by having book cases ingeniously built in the back—or by having book and knick-knack shelves at the ends.

Again that is not all! One need no longer have his choice of finishes for the instrument confined to oak, walnut, mahogany, or what-not. If tweed is preferred, tweed he may have. Or some other cloth finish or lacquer.

Yes, the more we think of it, the more we consider that, war or no war, the world is a nicer place to live in than ever before—because one can come nearer getting the things he wants.

Unique among bun baskets (or fruit bowls) is a shallow one of lacquered sycamore in bright red with white decoration. With it goes a jam jar of glass which wears a gay overcoat of the same red straw and pepper and salt shakers covered in the same bright material.

It's a tremendously gay little set and one to brighten up the soul of any housewife, overworked or no.

Personal

Mrs. Leonard Clark of Kermit was a visitor in Midland Tuesday.

Mrs. Jack Cecil went to Monahans Tuesday afternoon to visit a friend who had been injured in a car wreck.

C. P. Wilson was ill Tuesday. He is a member of Wadley's staff.

10 o'clock. Mrs. John W. Drummond will be leader.

Child Study club will meet with Mrs. W. L. Brown, 1707 W. Hollaway, Friday morning at 10 o'clock.

Belmont Bible class will meet with Mrs. Bertie Mitchell, 509 W. Texas, Friday afternoon at 3:30 o'clock.

Women's Golf Association will meet at the Country Club Friday morning at 9 o'clock for play. At one o'clock in the afternoon an important business meeting will be held, with all members urged to attend.

SATURDAY

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Treble Cleft Juvenile music club will meet at the Watson studio, 210 W. Ohio, Saturday morning at 9:30 o'clock. Parents and friends are invited to attend.

Midland county museum in the courthouse will be open from 2:30 o'clock until 5 o'clock Saturday afternoon. The public is invited.

Coming Events

THURSDAY

Presbyterian auxiliary will sponsor one of a series of week of prayer programs at the Presbyterian church Thursday morning at 10 o'clock. Mrs. R. L. Miller will be leader.

Bien Amigos club will meet with Mrs. Joe Pyron in Odessa Thursday afternoon at 1:30 o'clock.

Senior High PTA will sponsor a get-acquainted party at the high school Thursday evening from 8:00 o'clock until 10 o'clock. All parents of high school students are invited to attend.

Lois class of the Baptist church will have an all-day business meeting at the church Thursday. All members are urged to attend.

Needlecraft club will meet with Mrs. A. W. Wyatt, 515 W. Holmsley, Thursday afternoon at 2:30 o'clock.

FRIDAY

Presbyterian auxiliary will close its observance of the week of prayer and self-denial for non-missionaries with a program at the Presbyterian church Friday morning at 10 o'clock.

Cranberries Offer Wide Scope to the Pie Making Artist

BY MRS. GAYNOR MADDOX
NEA Service Staff Writer

If you like cranberries you'll be pleased to learn that about 625,000 barrels will be this year's crop. Despite the drought throughout eastern states, weather conditions were generally favorable as a whole. Now that we have cranberries, what shall we do with them? How about pie?

Cranberry Maple Syrup Pie
One tablespoon flour, 1 cup maple syrup, 2 cups cranberries, pie pastry.

Line an 8-inch pie plate with pastry. Sprinkle flour over bottom crust and add maple syrup. Top with whole raw cranberries. Cover with pastry, press edges together and brush top of crust with milk. Bake in hot oven (400 degrees F.) for about 40 minutes. This pie is 100 per cent with masculine appetites.

Cranberry Chiffon Pie
Two cups raw cranberries, 1-2 cup water, 3 eggs, separated, 1 cup sugar, 1 tablespoon gelatin, 1-4 cup cold water, dash of salt, 1 tablespoon lemon juice, baked pie shell, 1-2 cup cream, whipped.

Cook cranberries in water until all the skins pop open. Put through sieve and add to egg yolks beaten together with half the sugar. Cook over hot water until thickened. Add gelatin, softened in cold water, salt and lemon juice. Cool. Fold in egg white, whipped stiff with remaining half cup of sugar. Transfer to baked pie shell and chill until firm. Spread top with whipped cream just before serving. Definitely ladylike!

Horn O'Plenty Pie
(Serves 6)

One and one-half cups sugar, 1 tablespoon cornstarch, 1-2 cup water, 3 cups raw cranberries, 1-2 cup broken walnut meats, 2 tablespoons butter, few grains salt, 1 baked 8-inch pie shell, 3 egg whites, 6 tablespoons brown sugar.

Blend sugar and cornstarch; add water and bring to boil. Wash cranberries, add nuts and cook slowly in the water until cranberries pop open. Add butter and salt. Set aside to cool; do not stir. Beat egg whites stiff; gradually add brown sugar, beating constantly while adding. Pour the filling into baked pie shell. Pile meringue on top. Bake in slow oven (325 degrees F.) for 20 minutes, or until a delicate brown. Good for parties.

Episcopal Group to Big Spring Meeting

A group of Midland women attended a regional meeting and luncheon at Big Spring Monday at which St. Mary's Episcopal auxiliary honored Mrs. Grafton Burke of Fort Yukon, Alaska. The honoree told of her experiences as a missionary in the Far North.

Included were: Mmes. Don Stivals, R. W. Hamilton, C. O. Keith, Erle Payne, John P. Butler, J. A. Reaney, Geo. Kidd Jr., E. M. Miller.

Mrs. Alma Thomas Will Speak Before Group of Teachers

ALPINE, Oct. 18. — Mrs. Alma Thomas of Midland will be speaker and honor guest at a reception to be given by Beta Iota chapter of Delta Kappa Gamma honoring teachers of the Big Bend area Saturday night at Kokernot Lodge, Sul Ross State College. Teachers of Presidio, Terrell, Brewster, Jeff Davis, and Pecos counties are to be guests, with members of the Beta Iota chapter as hostesses.

Mrs. Thomas, Midland teacher, is past president of the Midland Theta Kappa chapter of the teaching fraternity. During the past summer she attended the International Educational Conference held in Rio de Janeiro, and will speak on interesting phases of her South American trip.

While in Alpine, Mrs. Thomas will be the guest of Mrs. Iris Boudins, former Midland teacher, now Social Director of the Sul Ross Women's Residence Hall.

Naomi Class Holds Business Meeting Tuesday Night

Naomi class held a business meeting at the home of Mrs. J. L. Rush, 901 W. Storey, Tuesday evening at 8 o'clock.

Discussion of two needy families to whom baskets will be sent and of class business occupied the group.

A social hour was held following the business session and refreshments were served to: Mmes. D. DeChicchiis, W. P. Knight, L. H. Tiffin, M. J. Nolan, W. P. Thurmond, Sam Laughlin, Miss Frances Farnham, Miss Jean Farnham.

Beta Sigma Phi Members Read Their Original Writings

Reading of original essays and short stories written by members of Beta Sigma Phi marked the meeting of the group in the private dining room of Hotel Scharbauer Tuesday evening at 7:30 o'clock. Praise was voiced by those hearing the work as being of high quality for a group of non-professional writers.

Miss Maedelee Roberts discussed prose.

Mrs. Johnny Sherrod spoke on "How to Criticize and to Review a Book," pointing out the differences in criticizing and reviewing.

Miss Betty Pat Barker, member of the Big Spring chapter of the sorority, was a guest.

Members present were: Miss Norene Kirby, Mrs. Frances Stallworth, Miss Freda Yarbrough, Miss Ellen Potter, Mrs. Tom Potter, Miss Marguerite Elyvins, Miss Roberts, Mrs. Sherrod, Miss Ruth Pratt, Miss Buryline McCollum, Miss Alma Heard, Mrs. M. D. Johnson Jr., Mrs. S. R. McKinney Jr., Mrs. Emil Stuter.

Women Golfers To Make Plans For Visitors

Plans for play, entertainment, and prizes for the special visit of Big Spring and Lubbock women golfers here on October 27 will be made at a meeting of the Midland Women's Golf Association at the Country Club Friday afternoon at one o'clock.

Mrs. W. B. Harkrider, president of the Association, urged that all members be present for the Friday meeting when details of the day will be discussed.

Members of the Association will meet at the Country Club, Friday morning at 9 o'clock for the regular weekly play.

HE CALLS ME HIS SENORITA Since I Told Him This Secret About Good Coffee!

Every morning he comes in, unhappy like!

ONE CUP OF COFFEE, PLEASE!

A BIG MAN LIKE YOU NEEDS MORE THAN JUST COFFEE FOR BREAKFAST!

OH, I EAT BREAKFAST AT HOME—IT'S JUST THAT I CAN'T DRINK MY WIFE'S COFFEE!

So I ups and tells him:

WHY NOT BRING HOME A CAN OF FOLGER'S—THE COFFEE WE SERVE HERE—YOU'LL LOVE THAT MOUNTAIN GROWN FLAVOR!

Next week he stops by:

SENORITA, IT WORKED! NOW I GET THAT WONDERFUL FOLGER'S COFFEE AT HOME! AND HERE'S A LITTLE PRESENT FROM MY WIFE!

That VIGOROUS FLAVOR comes from the "Magic Mountains"

A Mountain of Flavor in Every Spoonful!

THERE IS A SECRET to the wonderful flavor of Folger's coffee. That secret lies in the "Magic Mountains" from which it comes—lush tropical slopes so lavishly rich in all that nature offers that they endow this coffee with an incomparable wealth of flavor. Change to Folger's tomorrow and you'll never change coffees again.

RECEIVERS TAKE SPOTLIGHT IN GRID WARS

BY JERRY BRONDFIELD, NEA Service Sports Writer. AIB raid! The warning is sounded on all fronts as coaches throw up defenses for bombing attacks.

From left to right: Jim Mallory of North Carolina, Ed Frutig of Michigan, Al Krueger of Southern California, and Ken Kavanaugh of Louisiana State illustrate "glue-fingered" pass reception.

ACTING MORE IMPORTANT THAN CATCHING BALL

RECEIVERS have to be more than catchers. They've got to be actors as well. Virtually any well-coordinated boy can grab the ball if it's thrown anywhere near him, but the defense has just as good a chance of beating the pignun down as the receiver has of catching it.

BEST SINCE OOSTERBAAN, SAYS YOST OF FRUTIG.

MANY critics say Ken Kavanaugh, 6 foot 3 inch Louisiana State flanker, is the best pass-snatcher in collegiate ranks. An All-Southwestern Conference selection two years in a row because of his pass receiving, Kavanaugh is definite All-America timber this season for the same reason.

Red Raiders to Go On Tour After Game With New Mexico U.

LUBBOCK, Texas. — Saturday night's game here against the New Mexico Lobos will be the last for the Texas Tech Red Raiders until November 18th when they will battle Marquette in the Raiders' homecoming game.

THE PAYOFF

Some more questions and answers today as propounded by Coach Harry Taylor of the San Angelo Bobcats.

Ex-Blocking Back Is Now Ace Offensive Star of Bear Game

WACO, Texas. — From blocking back to standout offensive star in one full season is the remarkable grid story of Jack Wilson, Baylor's big 202-pound sophomore sensation.

Crippled Indians to Meet Jackets Friday

ABILENE. — Apparently "cannon fodder" for the remainder of their conference opposition, the crippled McMurry Indians meet the Howard Payne Yellowjackets at Brownwood Friday night in the 12th renewal of hostilities between the two schools.

Longhorns Prep for Razorback Invasion At Austin Saturday

AUSTIN. — Unmanned except in spirit, the Texas Longhorns week dismissed their Oklahoma foe and turned to preparation for the Arkansas Razorbacks' visit Saturday.

Red Raiders to Go On Tour After Game With New Mexico U.

LUBBOCK, Texas. — Saturday night's game here against the New Mexico Lobos will be the last for the Texas Tech Red Raiders until November 18th when they will battle Marquette in the Raiders' homecoming game.

After Saturday's game against New Mexico, in which the Raiders are the underdogs by two touchdowns, Coaches Pete Cawthon and "Dutchy" Smith will take their gridiron juggernaut on tour.

The Raiders will leave Lubbock Tuesday, October 24, and play Duquesne at Pittsburgh on Friday, October 27. From Pittsburgh the Raiders will invade Miami to battle the University of Miami on Friday night, November 3. After the Miami game, the Raiders will rush back to Lubbock, change shirts and board a train for Shreveport to battle the Centenary College Gents Saturday, November 11.

On the Florida trip, the Raiders will go from Pittsburgh to New York and then into Jacksonville, Fla., where they will stay until the morning of November 2, then they move over to Hollywood, Fla., and stay there until time to invade Miami and the game. They will leave Miami immediately after the game for Lubbock.

PENNEY'S

J. C. PENNEY COMPANY, Incorporated
Midland, Texas

Texas Today—

(Continued from page 2)

farm could earn payments as follows:

For compliance with its cotton acreage allotment, the farm would earn \$144.29 in cotton price adjustment payments and \$162.32 in cotton conservation payments, or a total of \$306.61.

For compliance with the general crop acreage allotment, \$42.30.

The cotton payments would be figured by multiplying the normal yield of the cotton acreage allotment by 1.6 cents, for the price adjustment payment, and 1.8 cents for the conservation payment.

The general payment would be 90

cents (the national rate, and which might vary according to the productivity index of the county) times the 47 acres allotted for general crops.

In addition, the farm would have a maximum soil-building allowance of \$20.30, to be earned by terracing, strip cropping, turning under green manure crops, contouring the pasture, or doing something else to build up the soil or conserve the moisture.

This allowance would be calculated by multiplying 50 cents times the 36 acres of cultivated land in excess of the allotment for cotton and general crops; 2 cents times the 15 acres of pasture; and 81 times the grazing capacity of the pasture, which in this hypothetical case is two animal units (two cows or ten sheep).

This farm could earn \$369.21 by cooperating fully in the program.

After three years of the program, this typical blackland farm, having taken full advantage of the program looks about like this:

It has 54 acres of cotton, compared with 115 previously; 27 acres of corn; 20 of oats and 25 of pasture. The farm is terraced and the pasture contoured. The corn and oats are strip cropped with the cotton. One and a half acre of forest trees surround the house and driveway. Half an acre has been sodded to perennial grass for a front lawn. Two acres of orchard and two acres of vegetables for home use have been planted. There is plenty of feed for a flock of chickens and a

Negro Man, Woman Killed in Collision

BIG SPRING, Oct. 18. (Special).—Georgette Frazier, negro woman, Clarksville, Willie Johnson, negro, Dallas, were killed and Sidney Frazier, husband of Georgette Frazier, and Buck Nolan, Lamesa truck driver, were injured in the collision about three miles east of Coahoma.

According to reports, the car being driven by Johnson collided with the truck, the truck being thrown over on the car and both catching fire. Johnson was pulled from the wreckage, dying while enroute to a hospital, while the negro woman was burned to death in the wreckage.

Injuries to Frazier and Nolan were not considered serious.

Cowgirls—

(Continued from page 1)

sociation cares for her horse, grooms and stables it. They are strictly non-professional and ride for the love of it and to represent the industry of their fathers. Their social standing at home would please a Park Avenue mother and the financial standing of their families would be equally satisfactory to Messrs. Dun and Bradstreet.

"The cowgirl sponsor idea originated with the Stamford Cowboy Reunion at Stamford, Texas, 10 years ago. It has grown in favor until it has spread to a dozen of the outstanding rodeos and reunions of the state. Notable among these are Canadian, Coleman, Beeville, Spur, Memphis, Colorado City, Seymour, Snyder, Lovings, New Mexico, and Midland. The Southwestern Exposition and Fat Stock Show of Fort Worth last year initiated a policy of inviting eight outstanding young ranch girls from as many sections of the state to be guests at its March show each year, giving them the title of "Ranch Girl Honor Guests." And a group of these same girls were invited to the Fall show at Madison Square Garden in New York. The delegation left the latter part of September and went scheduled to ride in the grand entry of the Garden rodeo and appear at the World's Fair. Girls selected were Miss Walter Fay Cowden of Midland, Miss Fern Sawyer of Brownfield, Misses Mary Nell and Anna Belle Edwards of Big Spring, Miss Elizabeth Miller of Flivanna, Miss Faye Marburger of Abilene, and Miss Peggy Minnick of Crowell.

"The cowgirl sponsors have done much to bring the various sections of the cattle country together for better acquaintance. They have done much, too, towards the breeding of better horses and the advancement of riding among Texas young women."

Youthful Diver Doesn't Think His Work Is Dangerous

BY KATHLEEN ELAND.

Eleven years of facing the hazards of the deep sea as a professional diver have left no visible marks of hardship on Max Gene Nohl, diver, undersea explorer, and inventor who lectured for Town Hall members at the high school auditorium Tuesday evening. Only the cool gray-blue eyes suggest the intenceness of vision which would be necessary in piercing watery depths of the ocean.

Otherwise he is a tall, medium-blond young man, youthful looking for his 29 years, with a slimmness which belies his 180 pounds of bone and muscle. That slimmness, by the way, is a necessity. Not an extra pound of adipose tissue must he carry when he goes down to explore Neptune's realm. If he ever begins to grow fat, Mr. Nohl says, he will go on a diet.

Deep-sea diving is not dangerous, he declares. There is danger present always, yes, but so far as being dangerous when proper precautions are taken, he does not believe that diving is as dangerous as driving a car.

"The fact that danger is present, however, and the attendant fear, gives the profession some of its fascination. "Every thrill is accompanied by its sense of fear," the young explorer, a graduate of Massachusetts Institute of Technology, explained. "The temptation to go just a little farther than he knows is perfectly safe is always with the diver but to deliberately go down with inferior or faulty equipment is courting disaster.

As to how he came to take up the unusual and hazardous not to say arduous, life of deep-sea diving, he attributes that to several influences.

There was, first of all, his desire to be an explorer of the unknown which led him to be interested in the ocean floor as a huge world untroubled by man. Then there was the "Book of Wonders" which came to him as a Christmas present when he was a small boy just learning to read. This book had a chapter on the romance of deep sea diving which the eager youngster just about memorized. Perhaps this had something to do with his later decision for his life's work.

His home was in Milwaukee on the edge of Lake Michigan where the waves came up to the yard and he used to sit and look out over the rolling waters.

Whatever the reason, young Max Nohl knew at an early age what he wanted to do in the world—and proceeded to do it. At 29 years of age (and he has been 29 only a month) he has already to his credit inventions, notably that of the self-contained helium diving suit, which promise to revolutionize deep-sea diving in the years to come.

Making pictures of under-ocean scenes are a part of his work as well as exploring sunken ships and carrying out other projects. He has full-length reels of ocean scenes. In fact, he is just now completing pictures of tropical seas in color. Last week he was in Key West, Florida, making these scenes which later audiences will view.

Last night he presented a number of ocean scenes, some colored and some not, dealing both with salvage work and with general under-seas work.

Mr. Nohl has none of the taciturnity which sometimes marks men who lead dangerous lives. He talks about his work with the buoyant high spirits and enthusiasm of youth, laughing easily, and using his hands for spontaneous gestures of illustration.

Arrangements Are Complete for Grid Rules Demonstration

All arrangements were announced complete for the football rules interpretation demonstration that will be held at Lackey field here tomorrow night.

The show will start at eight o'clock and there will be no admission for anybody wishing to see it.

The Junior chamber of commerce is sponsoring the demonstration in an effort to better acquaint football fans with the rules, thereby increasing interest in the game here.

Officials who will be in charge of the "game" were announced today as "Bear" Curfman, Kermit, referee; John Burleson, Odessa, umpire; "Froggy" Lovvorn, Odessa, head linesman; Bill Holmes, Midland, field judge; Thad Steele, Midland, announcer.

Two teams of players will be furnished from the squad of the Midland high school Bulldogs by coach Bud Taylor. The boys will demonstrate plays as they are called upon by the officials.

Legal and illegal methods of running plays on both the defense and offense will be demonstrated by the boys. As each illegal play is run, officials will mete out the penalties, giving signals for the rule infractions and these will be explained by Steele over a loud-speaking system.

Fans from all over the Permian Basin are expected to be on hand for the show, the first staged in this area. Chamber of commerce officials, realizing that few fans ever get to see a rule book in or out of season, are staging the show solely for the benefit of the people who pay to see the games.

The show will start promptly at eight o'clock and will last for approximately one hour; officials said after a "practice session" was held.

"Enemies of God" Scored by Pope

CASTLE GANDOLFO, Oct. 18 (AP)—Pope Pius, in a public address to the new Lithuanian minister, Stanislaus Girdvainis, declared today "enemies of God" are casting a "sinister shadow" over Europe in a more threatening way every day.

TO REPEAT MUSICALS

The musicals presented at the Macedonia Baptist church (colored) Tuesday night will be repeated tonight with some changes. It was announced this morning. White people of Midland are invited to attend. Admission is 25 cents, the proceeds to go toward the improvement of the church.

MINSTREL AT COTTON FLAT

A negro minstrel will be held at Cotton Flat Friday night at 8:00 o'clock. The show is being presented by the young people's Sunday school class. Admission will be 10 cents and the public is invited to attend.

Oil News—

Continued From Page One.

reached 2,460 feet in lime. Half-mile west extension of the Lehn pool in Pecos loomed as Richardson et al No. 1 Masterson-Lehn logged showings of oil above the regular pay of the area and bailed an estimated seven barrels of oil per day while drilling at 1,545 feet in lime.

Ward Oiler Becomes Gasser

Indicating opening of a new northern Ward county pool, Magnolia No. 2-43 George Sealy logged increase in gas from 2,900-05 feet in lime and is drilling ahead at 2,910 in lime, making 18,840,000 cubic feet of gas per day. While bottomed at 2,900 feet in lime, it had tested 9-650,000 feet of gas. An estimated 50 to 100 barrels of oil per day, which the well has been heading since drilling soft lime from 2,827-30 feet, has exhausted, probably because of back pressure from gas.

Denver Extension Sought

Don Danvers today announced location for Nos. 1 and 2 Wallace and Beaulieu Anderson, the first a quarter-mile north and the second a half-mile northeast of northeast side production in the Denver pool of southern Yoakum county. No. 1 Anderson is 660 feet out of the southeast corner of section 755, block D, J. H. Gibson survey, and No. 2 Anderson is 660 feet from the south, 1,980 from the west line of the same section.

Mabee Oil & Gas Company No. 10 Nelson W. Willard, extending the Bennett pool of southeastern Yoakum farther southwest, was gauged at calculated daily potential of 1,817.32 barrels of 34-gravity crude, with gas-oil ratio of 790-1 after acidizing with 6,000 gallons at 5,185 feet. It topped "pay lime at 4,940 feet."

Humble's staked location for No. 1 P. Bennett, 440 feet out of the southeast corner of section 762, block D, and already has dug cellar and pits.

Atlantic No. 1 H. T. Boyd, over two miles east of southeastern Cochran's Duggan pool is drilling at 3,860 feet in sandstone.

As a west offset to its No. 1-B Alex A. Slaughter estate, producer in the Slaughter pool of southwestern Hockley county Stanolind has staked No. 4-B Slaughter, 440 feet from the south and 2,200 from the east line of labour 8, league 40, Maverick county school land.

Stanolind has completed No. 2-B Slaughter at 4,970 feet for potential of 640.32 barrels per day after acidizing with 7,500 gallons and shooting with 200 quarts of nitro. Oil is 29-gravity and gas-oil ratio 1,096-1. Pay was topped at 4,900 feet.

Humble No. 1 J. Westheimer et al, northwestern Cochran deep test, is fishing for cones, bottomed at 7-346 feet in Abo, basal Permian, lime.

Enemities of God Scored by Pope

Want To Get Rich Quick . . . Or Wealthier Every Day?

The richest misers on Earth will envy you if you have a wealth of family . . . a wealth of appreciation for Nature's wonders and a lively awareness of the world's beauty . . . a talent for making more friends . . . a zest for good living . . . and a happy philosophy that says, "I wouldn't exchange places with anybody!" What a world of living such a wealthy man gets out of each day . . . sharing his wealth.

Of course, Budweiser is only incidental to your scheme for good living. But, since good living is a series of pleasant incidents, Budweiser becomes important . . . for its generous contribution of companionship when you are alone . . . fellowship when you are among friends . . . and contentment when the day's work is done.

ing. Desire to be an explorer, nourished by the stories of strange lands found in his geography as a schoolboy, made him survey the possibilities of the Arctic and Antarctic, as well as South America, and Africa, as fields for his future activities. He decided that the ocean bottom, beneath the waters which cover three-fourths of the earth's surface, offered the most fertile source of high adventure and of rich returns. He expressed the belief that tremendous stores of resources lie beneath the water and that in future man will obtain many materials from the ocean bed.

At the close of the illustrated lecture, the tall young speaker, who hails from Millwaukee, on the shores of Lake Michigan, answered question from the audience, which had listened to him attentively and applauded when the presiding officer expressed appreciation for the evening's address.

W. T. Schneider, secretary of Town Hall club introduced the speaker. He also explained the rules of the organization, permitting members unable to attend meetings to lend their cards to friends and permitting out-of-town guests to hear the lectures. Names of towns in this region which are members of the Associated Town Hall organization and in which Midland club membership cards are good for admission were listed.

He also announced the next two speakers on the Town Hall series. These are the famous Arctic explorer, Vilhjalmur Stefansson whose lecture here has been scheduled for November with November 13 as the tentative date and Major I. Drane Lester of the Federal Bureau of Investigation who will be here December 1. The latter date will be guest night, with each membership card admitting the holder and one guest.

Opponents of Embargo Repeal Are Accused Of "Filibustering"

WASHINGTON, Oct. 18. (AP)—Casually but unceasingly, Senator Connally (D-Tex.) accused opponents of the administration neutrality bill of "filibustering" against that measure Tuesday during a spirited senate debate.

He made the accusation as a play on words and in a manner so off hand that it went virtually unnoticed by the opposition group, and for the time being it went unanswered.

It was the first time, however, the word had been used by any senator associated with the leadership in the fight for repeal of the arms embargo, and thus was regarded as indicative of what some of them believe they may have to contend with before the neutrality act reaches a final vote.

The Connally accusation came in the course of the day's almost solitary exchange. Senator Danaher (R-Conn), an opponent of repealing the embargo, called attention to an old law permitting the president to place an embargo on shipments of arms and ammunition to western hemisphere countries threatened by civil war. He asked, ironically, why there should be an embargo in the one instance and not in the case of the European war. Spying Connally, a member of the foreign relations committee, entering the chamber he addressed his question directly to the Texas senator.

Connally explained that the old law was intended "to prevent gun running and filibustering except by the minority that is now filibustering in the United States senate." It was intended he added quickly, while the galleries laughed, to prevent the fomenting of revolutions in friendly countries from within the United States. By contrast, he continued, the arms embargo involved in the neutrality bill made "the United States an ally of Hitler and Stalin" and should be repealed.

Arrangements Are Complete for Grid Rules Demonstration

All arrangements were announced complete for the football rules interpretation demonstration that will be held at Lackey field here tomorrow night.

Eight Members Sign Up at Flying Meeting

At a meeting last night of the Midland Flying Club held at Hotel Scharbauer, eight members were signed up and made deposits toward purchase of a training plane. A total of 12 persons interested in flying attended the meeting, as well as factory representatives of the Aero-naca and Pipe "Cub" ships. The latter submitted bids to the club, of which Moran T. Smith is organizer.

At least 10 members must be secured before the club can be organized, and up to 15 members are eligible to enlist. Those interested are asked to call Mr. Smith at phone number 1184.

"Propaganda War" Said Being Won by British

LONDON, Oct. 18. (AP)—Prime Minister Chamberlain told the house of commons today Britain is winning over Germany in the propaganda battle. He commented on neutral countries' "full appreciation" of the allies' attitude.

He added that eight raiding planes of the Germans have been shot down.

He said that German claims of successful attacks against British war vessels were "fantastic."

"It is not true that the Hood or Repulse or any other capital ship has suffered the least damage. The same is true of the Ark Royal," he added.

He declared a heavy toll of German submarines had been taken. Chamberlain said losses of British ships and entering and leaving ports during the week presented only one-half of one per cent of the total number sailing.

Enemities of God Scored by Pope

CASTLE GANDOLFO, Oct. 18 (AP)—Pope Pius, in a public address to the new Lithuanian minister, Stanislaus Girdvainis, declared today "enemies of God" are casting a "sinister shadow" over Europe in a more threatening way every day.

Congratulations to:—

Mr. and Mrs. W. T. Bryan on the birth of a daughter in a Midland hospital Tuesday night. The baby weighed 6 pounds, one ounce.

Mr. and Mrs. H. M. Webb on the birth of a daughter in a Midland hospital Monday night. The infant weighed 6 pounds 13 ounces.

C of C Committee on Airport Dedication Meets This Evening

Members of the airport dedication committee of the Midland Chamber of Commerce will meet at the chamber of commerce office in Hotel Scharbauer this evening at 7:30 o'clock to set the date and to work out plans for the celebration to be held next month, it was this morning announced by R. L. Miller, committee chairman.

Members of the committee are Miller, chairman, J. R. Martin, M. C. Ulmer, E. H. Barron, A. M. East, George McEntire, Jr., W. H. Holmes, T. Paul Barron, J. W. House and George Bennett.

County Judges Meet in Lubbock Friday

LUBBOCK, Oct. 18. (Special)—Judge Marshall Fromby, President of the West Texas County Judges and Commissioners Association, has called a meeting here Friday at two p. m. of all members of the association. The meeting will be held in the East Ballroom of the Hotel Lubbock.

County judges and commissioners, mayors and city commissioners, chamber of commerce secretaries and other interested officials of the section are urged to be present at the meeting.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go!

The liver should pour out two pounds of fluid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks dumb.

A more bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Refuse anything else. At all drug stores, 10¢ and 25¢.
