Subs Told to Stay Out of U. S. Waters

Commercial, Naval Undersea Craft Are Barred by President

WASHINGTON, Oct. 19. (AP). — President Roosevelt decreed Wednesday that submarines of belligerent nations could not enter American ports or territorial waters, except when forced to do so by storms or other "acts of God."

The ban included both commercial and naval undersea craft.

The president's order was in the form of a proclamation putting into effect section 8 of the neutrality act. This relates to the use of American ports and waters by submarines and armed merchant vessels of belligerents. Only submarines were affected by the proclamation, and armed merchant vessels may still enter American ports and waters.

The president said he found that a ban on submarines would "serve to maintain peace between the United States and foreign states, to protect its citizens, and to promote the security of the United States."

He said submarines driven into American ports or waters by "force majeure" should enter and leave "while running on the surface with conning tower and superstructure above water and flying the flags of the foreign belligerent states of which they are vessels."

American territorial waters are still defined as 3-miles from shore, hence any submarine forced into an American port would rise to the surface at the 3-mile limit, and upon leaving must remain on the surface until the 3-mile limit is reached.

In banning the submarine, President Roosevelt took a step contrary to the position maintained by President Wilson before the war. Then belligerent submarines were permitted to enter American ports and waters, provided they left within 24 hours.

Culberson 'Fired' From Position on RR Commission

AUSTIN, Oct. 19. (AP). — Olin Culberson, director of the gas utilities division of the railroad commission, disclosed today he had been "discharged" by the commission majority.

"It is but natural that one charged with duty who would investigate and recommend reasonable and fair rates to be paid by the public should become a thorn in the side of powerful gas utility corporations."

"My discharge in itself is of no importance, but should serve to demonstrate the need for removing and recommending reasonable and fair rates to be paid by the public should become a thorn in the side of powerful gas utility corporations."

The commission order, signed by Chairman Lon Smith and Jerry Sadler, informed Culberson his services would be dispensed with effective November 1.

Evangelist Brings Dynamic Sermons In Revival

Preaching in a hard-hitting, straight-from-the-shoulder style, Ray N. Johnson, evangelist now conducting a revival meeting at the First Methodist church, Wednesday night chose his text from the query of Silas and Paul's jailer, "What Must I Do To Be Saved?"

"Mind God's Spirit," was his reiterated admonition to the audience which heard him plead for a closer personal experience of Christ and His power.

Last night had been designated as Church night and officers of the various organizations stood as they were called upon—being presented as a group to the congregation.

Speaking on the "Christian Secret of a Happy Life," the evangelist brought what is said to be one of his finest messages at the 10 o'clock service this morning. "Those who thirst and will drink and keep on drinking have the victory every day. As we live on the acre of faith and do not get away from it we have happiness and power in our lives to conquer," was his message.

Tonight at 7:30 o'clock, the evangelist's message will be on "Can Jesus Satisfy in 1939?"

Friday morning, Mr. Johnson will preach his last week-day morning sermon of the revival. The crowds have constantly increased at the morning services through the week and the public is invited to hear this last morning service.

Friday night the children will present a 20-minute song service. The public is urged to attend all services.

Gallogy Is Handed To Georgia Officers

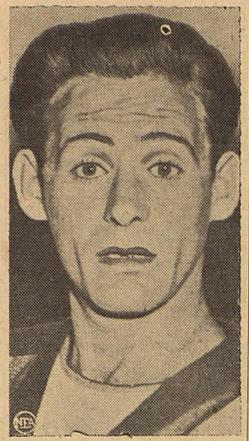

DALLAS, Oct. 19. (AP)—District Judge Grover Adams today remanded Richard Gray Gallogy, escaped Georgia life-terminer, to custody of Georgia officers in a habeas corpus hearing here.

He was brought here from the New Orleans federal prison.

WAFFORD ILL.

Mrs. Emma Aycock has received word that her son, David Wafford, member of the TCU football team, is ill with ptomaine poisoning in a Fort Worth hospital. He contracted the poisoning while on a recent trip with the team to Philadelphia, Penn.

Drowned Son

Because he teased his five-year-old stepson who was going insane, Lawrence Rogeau, WPA worker, awoke the child, tied his hands and feet on the pretext of playing "cops and robbers," and drowned him in the bathtub of their New York home, according to police. Rogeau is pictured under arrest after an alleged confession.

Cavalry Horse Buyers to Stop Here November 1

Army horse buyers will be at Midland November 1, advises the Reporter-Telegram today announced. Major Marion I. Voorhies, head of the Southern Remount Area, United States Army, at Fort Worth, sent a schedule of the trip to be made by him and the veterinary during the dates October 23 through November 5. They will arrive at Midland Wednesday, November 1, from Pecos and will inspect horses offered for sale at the Midland Fair park that afternoon.

Former LSU Prexy Pleads Not Guilty

BATON ROUGE, Oct. 19. (AP). — Dr. James Monroe Smith, former Louisiana University president, today pleaded innocent to nine state indictments, seven charging forgery and two embezzlement.

He was brought here from the New Orleans federal prison.

Kuhn Declares Bund Fighting Communism

WASHINGTON, Oct. 19. (AP). — Fritz Kuhn told the Dies committee today that his German-American Bund was still fighting communism in this country although it wholly approves the new Russo-German pact.

Representative Starnes (D-Ala) asked for grounds of the approval and Kuhn waved his arms and declared it would take 25 minutes to explain.

Farley Strike in Western Lea Swabs 70 Barrels of Oil First 45 Minutes

BY FRANK GARDNER.

Frank M. Farley of Fort Worth, and associates, No. 1-A Texaco-State, opener of a new pool in western Lea county, New Mexico started swabbing casing yesterday afternoon after drilling plug from 7-inch casing cemented at 2,593 feet. The first 45 minutes, it ran swab 16 times and recovered a total of 70 barrels of oil, lowering fluid to 1,500 feet off bottom. The next four trips of swab yielded eight, six, four and seven barrels of oil, respectively, but did not lower fluid.

The well then was allowed to stand for 25 minutes, during which period oil rose 700 feet, an estimated rate of about 80 barrels an hour. Hole still had eight feet of gravel on bottom, which was to be cleaned out before additional tests were started. Pay had been encountered in line from 2,627-29 feet, total depth, and hole was bridged back with gravel to 2,600 feet before pipe was set. Gravity of oil, which had tested 25.8 degrees before running casing, now is 28.6-gravity, corrected. Some reports state it to be as high as 28.8-gravity. The well will be swabbed until 1,000 barrels of

Dedication of Airport to Be November 18

Chairmen Named to Head Committees in Charge of Ceremony

Dedication of the Midland Municipal Airport has been set for Saturday, November 18. It was announced after a meeting last night of the chamber of commerce committee appointed for that purpose. The dedication ceremonies, to which thousands of citizens of the southwest are expected, will be held between 2 and 4 o'clock that afternoon.

United States Army pilots, off duty for the week end, are expected to be here from several fields, that being the reason for setting Saturday as the dedication date. The airport is one of the army's principal contact points, having radio and ground crew personnel stationed here with 24 hour service. Also, representatives of the American and Continental air lines and of principal airplane concerns are expected to be here, as well as prominent pilots. Several planes will be piloted here by Texas National Guard officers.

No stunting or hazardous feats will be performed on the program but the spectators are assured that some of the nation's best airplanes will be on hand.

A banquet will be given the visiting pilots and army officers that evening, in the Crystal ball room of Hotel Scharbauer, and a dance will be given later in the large hangar at the airport.

R. L. Miller is general chairman of the dedication ceremonies, with J. R. Martin, M. C. Ulmer, A. M. East, George McEntire, W. M. Holmes, T. Paul Barron, George Bennett and Bill Collyns, committee-men.

Chairmen of special committees to be in charge of the dedication were announced last night as follows: to be in charge of field, landing ships, etc., George McEntire and George Bennett; banquet for visiting army officers and pilots, W. M. Holmes; reception of visitors, Tom Sealy; program for dedication and for banquet, John W. House; publicity, T. Paul Barron. Other committees will be named to handle transportation of visitors from the airport to the banquet and to the hotels.

The Midland high school band and possibly other musical organizations will play during the dedication program. Addresses, to be announced by House later, will fittingly dedicate the airport, completion of the expansion having been set for approximately November 10.

The dedication will mark the completion of asphalt runways, two of which are 4,500 feet in length each, with paved approaches in front on hangars and buildings; of new radio sending and receiving equipment installed; of the United States Army, and of other projects inaugurated after purchase of Sloan field by the City of Midland. The purchase and expansion followed the issuance of \$125,000 in bonds by the city.

Business, Pleasure Carded for Visiting Business Women

Delegates from the various Business and Professional Women's clubs in district five will find that entertainment will go hand in hand with business according to the scheduled program for the two-day annual district conference to be held here Saturday and Sunday.

Following registration Saturday afternoon, a formal dinner will be held in the Crystal ballroom of Hotel Scharbauer with Judge Chas. L. Klapproth presenting the banquet address on "We, the People."

Through the courtesy of J. Howard Hodge, manager, visiting delegates will be guests of the theatre management for the midnight preview at the Yucca theatre following the dinner. The visitors will be admitted by badge to the showing of "When Tomorrow Comes," featuring Irene Dunne and Charles Boyer. This is the last picture Boyer made before being called back to France after the outbreak of the war.

Following the president's breakfast Sunday morning at 8 o'clock, a typical meeting of a "Bus-Pro" club will be held at 8:45 o'clock.

At 11 o'clock, the conference group will attend a special sermon at the First Baptist church.

A luncheon at 12:30 o'clock will feature an address by Miss Meta Meadow of Fort Worth, state president-elect of the Business and Professional Women's clubs.

Adjournment will be called at about 2:30 o'clock Sunday afternoon.

Miss Maria Spencer will be in general charge of convention arrangements. She is director of district five.

TURKEY SIGNS PACT WITH FRANCE, BRITAIN

NAZIS COUNT ON MECHANIZED FORCES TO BRING VICTORY OVER FRENCH, BRITISH

Major Attack May Be Opened Before Bad Weather Starts

BY THOMAS M. JOHNSON
NEA Service Staff Correspondent

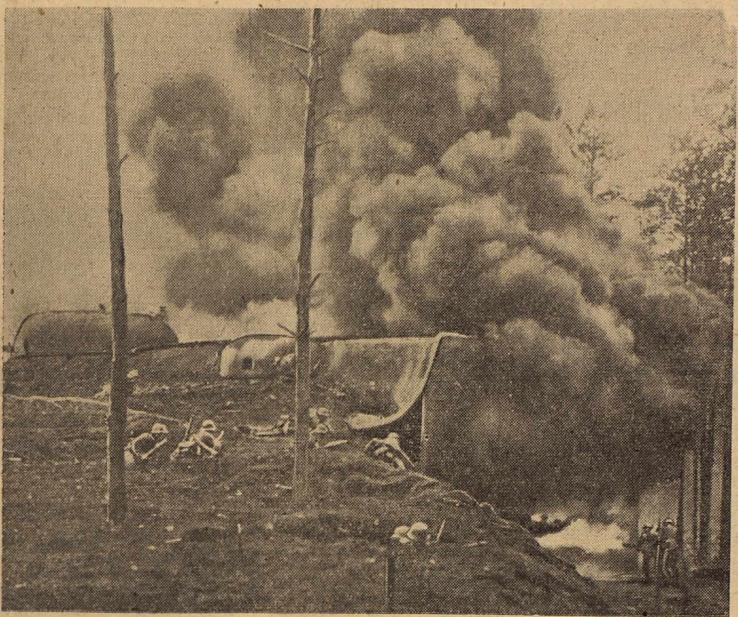

WASHINGTON, Oct. 19.—If the so-called "shadow-boxing" in Europe ends soon and the main bout begins, it will be because Adolf Hitler decides to gamble desperately for victory before the militarily paralyzing winter months set in.

For winter, with fogs descending over England and rains falling over France, would enable two enemy generals to gather strength against the Nazis.

One is "General Time," the friend of the Allies, who are laboring fiercely to match Germany's war preparations.

The other is "General Blockade," gnawing at the German people's vitals.

With those two generals working for them, there is no reason for the Allies to attack so late in the season, bringing on the costly, useless losses of 25 years ago. Theirs should be strategy of attrition, which Hitler might find so threatening that, to defeat it, he might attempt a world-staggering military action—an offensive that could result in either the Allies or Germany being quickly crushed.

A flame-thrower goes into action as German infantrymen, in a sham battle at Rossau, practice an attack upon concrete fortifications similar to those of the Maginot Line.

They have had time to consolidate the captured ground, and to survey fields of fire for their famous artillery.

However, the Germans' artillery is newer than the French 75's; the German equipment is largely model '39. To the West the Germans are bringing not only nearly a million more men, but also the mechanized Panzerdivisions whose armored cars and tanks so hastened Poland's whirlwind finish. Heavier German tanks with six-inch guns also probably will make their debut on the Western Front.

To be sure, these mechanized forces will run a gauntlet more fiery than in Poland. The British alone, with 158,000 men in France and some 30,000 actually in line, have 22 anti-tank guns to a battalion.

But German cannon-fodder now probably totals 100 divisions—as many as covered a larger front in 1914. And above them the wings of the air force cast dark shadows of deeds already done.

In Spain the Nazi flyers of the Condor Legion captured Bilbao not by dropping bombs in parades, but by dropping bombs.

"But," say some military men, "aviation cannot occupy a city."

That must be done by ground troops. To which airmen retort: "Bilbao was occupied by ground troops, not by infantry. Rather, by artillery. They just trotted in after the airplane bombs had driven out the infantry."

Then, in Poland, the Condor Legion again rehearsed this new-style warfare—on Kattowitz. Next? Perhaps it will be tried on two cities of A. E. F. tradition—Metz and Nancy. Both are on the French side of the Saar boundary.

CAN LIGHTNING WAR SEAR MAGINOT LINE?

ALSO, both cities are behind the famous Maginot Line, that fortified zone unique in military engineering, which follows the contours of the land so that the Germans, after driving the French from the Saar, must come first upon outposts, concrete machine-gun pillboxes and tanktraps of steel rails sunk in concrete.

But the Maginot Line's main strength lies in great galleries several levels deep underground, air-conditioned, capable of sheltering a special army that has been trained to fight from casemates sunk deep into earth or by emerging from prepared passageways to counter-attack the attacker.

Could even the Condor Legion's claws render a way through? Could low-flying aircraft bomb those casemates, heavy tanks shell them? Could flame-throwers sear those casemates until the defenders, though still living, would be driven half-insane by repeated shock, and made to surrender as did the garrisons of some Polish blockhouses? Some good American opinion thinks that is not impossible.

This, at least, is the greatest immediate question of the war on land. If the answer is yes, then just possibly Germany, by staking all upon the attempt, may win before winter. But that is hardly likely, if only because winter comes very early in the Saar and neighboring Lorraine, and is very nasty, as many an A. E. F. veteran knows.

If there is not time to break through the Maginot Line, would there be time to drive the French from the Saar? That may seem to Hitler well worth trying, for then—with "German soil freed of the invader"—he can make another peace offer that at least will help him at home.

SAZI LOSSES CANCL NAZI GAINS IN POLAND

THE Saar—a 125-mile stretch of border between Belgium and Luxembourg, and the Moselle, eastward to the Rhine—might be the spear-point of this offensive.

Wooded but rolling, this is "good fighting country," where Germans and French can readily come to grips and hope to get something in return for sacrifices.

Today the Polish cautious, nibbling advance of recent weeks has brought this 700-square mile region within range of their guns.

No longer do the Saar's big furnaces make a cloud by day, a pillar of fire by night. No longer does the Saar produce a quantity of coal and iron nearly equal to all the coal and iron that lies in the mines Germany got—partly wrecked—when her Polish conquest. Thus the Nazi victory in Poland has been mainly cancelled out by the ridiculed French "shadow-boxing" in the Saar—and will so remain until the Germans get the Polish mines going again full blast or drive the French back the three to fifteen miles they have advanced in the Saar.

CAN AVIATION CAPTURE GROUND?

THE French Army is perhaps the best in the world—well-trained, splendidly led. The poilus' moral is high from success, and

Evangelist Speaks At Rotary Club's Noon Luncheon

Substituting a sense of humor for a sense of honor, and its probable disastrous effects to the nation, was the subject of an address at the Rotary club luncheon today by the Rev. Ray Johnson, evangelist of San Antonio who is conducting a revival meeting at the First Methodist church. He warned against the present day trend in which Americans are prone to scoff at the principles "which have made us great."

A stronger regard for the principles on which America was founded was urged by the speaker.

Two songs were sung by Harry Armstrong, evangelistic singer who is aiding the Rev. Johnson in the revival meeting. Mrs. Holt Jowell played the piano accompaniment. W. I. Pratt was in charge of the program and introduced the singer and speaker.

Visitors at the luncheon included H. Rives, Paul Moss, A. J. Hunt, A. B. Knickerbocker, Joe Pylon and Thomas D. Murphy, Odessa Rotarians, and Lloyd Witter and R. Henderson, Rotarians of San Angelo and Abilene, respectively; George Houser of Venezuela, Judge Cecil C. Collins of Big Spring, Meeks of Dallas and C. E. West of Ft. Worth.

Announcement was made of the football rules interpretation demonstration at Lackey field tonight at 8 o'clock, the event being sponsored by the Junior chamber of commerce.

RETURN HOME

Mrs. J. R. Crump and baby returned to their home Wednesday night. Mary Fae Ingham, small daughter of Mr. and Mrs. Homer Ingham, also returned to her home Wednesday after undergoing an appendectomy a few days previously.

Everything "All Set" for Grid Rules Interpretation Tonight

Everything was pronounced "all set" this morning for the football rules interpretation demonstration that will be held tonight on Lackey field.

The demonstration is being sponsored by the Junior chamber of commerce as a method of acquainting fans with the problems of the officials and coaches, thereby giving them better insight of what is really going on during a game.

Officials have expressed hopes of a large crowd attending the show tonight since this is the first such "clinic" to be held in this area. Fans from numerous other towns in this area have signified their intention of being on hand.

There will be no admission to the show. Only the west stands will be available and all plays will be run off on the west side of the field. Fans are urged to be on hand early a good seat. The show will start at eight o'clock and last for approximately 45 minutes.

Two teams of boys from the high school football squad will run through the plays as ordered by officials throughout the show. Legal and illegal methods of executing the plays will be demonstrated, with officials explaining all illegal moves.

Officials will include "Bear" Curfman, Kermit, referee; John Burleson, Odessa umpire; "Froggie" Lovvorn, Odessa, head linesman; Bill Holmes, Midland, field judge; Thad Steele, Midland, announcer.

The show will be opened tonight with Holmes introducing J. W. House, vice president of the chamber of commerce, who will give a short speech on football from the fan's standpoint. Coach "Bud" Taylor then will give a short talk to the Coach's standpoint and Thad Steele will speak from the official's standpoint.

Following the talks, all brief, the

EVERYTHING "All Set" for Grid Rules Interpretation Tonight

Following is the program for the evening:

1. Kick-off
2. Position and duties of officials.
3. Explanation of choices.
4. Formation.
5. Kicking team.
6. Receiving team.
7. While ball is in air.
8. Out of bounds.
9. Why?
10. Short kick.
11. Why?
12. F. Fouls.
13. Offside (receiving team).
14. Offside (kicking team).
15. While ball is in air.
16. While on ground but not in possession.
17. Over goal line.
18. Touchdown.
19. Touchback.
20. Scrimmage
21. Position and duties of officials.
22. Fouls.
23. Running plays.
24. Officials (defense and offense).
25. Illegal formation (offense).
26. Back field in motion.
27. Also linemen.
28. Legal and illegal shifts.

(See GRID RULES, page 6)

VISITED IN CRANE

Mr. and Mrs. C. A. McClintic spent yesterday at Crane on a business trip. A new oil well will be started on the McClintic Bros. land in section 210, block F, Crane county November 1.

VISITS SON HERE

S. S. Davis of Fort Worth arrived yesterday for a visit with his son, Bill Davis. They had not met for seventeen years.

Join Up After Red Proposals Are Dismissed

Dardanelles Guardian Is Called "Insurance" Against Nazi Moves

LONDON, Oct. 19. (AP). — Britain and France today announced an agreement with Turkey, World War foe, guardian of the vital Dardanelles, in a mutual assistance pact in the Eastern Mediterranean area.

The pact followed closely suspension of negotiations between Turkey and Russia.

Britain said the pact, signed at Ankara, Turkish capital, was good "insurance" against extension of German influence in that area.

Britain, France and Turkey previously had a "gentlemen's agreement."

The Turko-Franco-British 15-year pact continued a clause permitting Turkey to remain neutral in the event of war between France and Britain with Russia.

General Maxime Weygand, Commander in chief of French forces in the Eastern Mediterranean, arrived Wednesday giving support to reports that Turkey would sign a mutual assistance pact with Britain and France within a day or two.

Reports were current that the war hero and former commander of the French army, would sign on behalf of his government and then confer with Turkish army chiefs regarding the common military defense plans.

Competent circles said they believed the British-Turkish pact would be signed at the same time.

Franz Von Papen, former German chancellor and now German ambassador to Turkey, arrived here from Ankara enroute to Berlin where he was said to have been summoned by his government.

Turkey coupled her diplomatic activity with intensified military measures. A number of heavy duty trucks and other large vehicles were requisitioned.

Mrs. Goodman Is Named on Library Building Committee

Mrs. James H. Goodman of Midland, wife of Representative Goodman of the 38th district, has been named one of the members of the building fund committee in a campaign sponsored by the Texas Woman's Press Association, to raise \$1,000,000 for the erection of a state library building in Austin.

Mrs. Sam Kay of Houston is chairman of the building fund committee and Mrs. Pearl L. Ward of Waco is co-chairman. Mrs. Ward is the mother of Ben L. Crites of Midland and has a circle of friends in Midland where she has visited several times.

The campaign will start November 1.

The library building would serve as a place of safekeeping for priceless state papers which have been housed in inconvenient and in some cases in dangerous quarters where fire or other destructive agencies could easily cause their loss.

The library building movement has already been given the approval and support of the legislature and the public lands and building committee of the legislature has been instructed to work with the Texas Woman's Press Association in the project.

District Official Visits in Midland

Mrs. Jessie Reuney, of Fort Stockton, district manager of the Woodman Circle, was present for a meeting of members at the home of Mrs. J. H. Williamson Wednesday afternoon. Mrs. Reuney gave numerous suggestions as to how interest in the Circle work might be created and so aid in increasing membership. She will leave this afternoon for Fort Stockton.

Strong Earthquake Felt in New England

BOSTON, Oct. 19. (AP)—A "very strong" earthquake which seismologists said "probably would have caused wide destruction and loss of life" if it had occurred in a big city, was felt today in New England, New York, Eastern Canada and as far west as Ohio.

It centered probably off Nova Scotia.

Northern Countries To Remain Neutral

STOCKHOLM, Oct. 19. (AP)—Finland's president and the kings of Sweden, Norway and Denmark agreed today "through close collaboration to adhere to complete neutrality."

A communique expressed willingness to "act for the cause of reconciliation" of the European war,

The Town Quack

Excerpts of conversations heard on the streets this morning:

"You get out and sign up these chamber of commerce members early. I've got to see Wright-Cowden get married at 10 o'clock."

"What you doing in town, Sparky?"

"I had to come in and see Curly get hitched."

"You going to that land owners' meeting?"

"Well, I'd like to, but Wright's getting married at ten."

"What does George look so downcast about this morning?"

"Oh, Evelyn's getting married at ten o'clock."

And so on, all around the town. Wright and Evelyn surely did upset the routine of the village.

Somebody is going to have pay for his own supper and another on the side, due to this chamber of commerce membership drive. The committee, divided in two teams, divided up the name of prospects, went out to win on a point system and will meet again at six-thirty in the "Blue Room" to hear the news. When the meal is over, the winners will be announced and the losers will pass the hat among themselves to pay for the feed.

Johnny House made an advance pep talk in which he sought to make his team the underdogs, but Johnny Butler refused to allow his team mates to become overconfident.

Don't forget the rules interpretation demonstration at Lackey Field tonight. Sponsored by the up-and-at-'em Junior chamber of commerce, the demonstration is for the purpose of acquainting football spectators with the meaning of referees' decisions, penalties and football rules in general, so that the spectators may witness a game and know what is going on. The two teams used in the demonstration will make all sorts of illegal plays and the referees' signals used to give the meaning of penalties will be shown, with announcement of each made by Thad Steel.

You will see an interesting spectacle tonight and will enjoy your next football game better. No charges, but just a service to the public by the Jaycees.

BRUCE CATTON IN WASHINGTON

BY BRUCE CATTON Reporter-Telegram Washington Correspondent

WASHINGTON—The real showdown on the arms embargo fight is apt to come when amendments to the administration bill are offered on the floor of the Senate.

The administration leaders claim a solid majority for repeal of the embargo, as of today. But the bill is complicated, and after all the general debate is over which won't be for a little while yet—at least half a dozen amendments to various provisions will come up.

A number of senators who are for repeal of the embargo itself are not in favor of some of the other provisions in the bill. One item which is sure to bring fireworks is the 90-day credit provision of the cash-and-carry part of the measure. Another is the stringent set of restrictions which the bill puts on American shipping.

Much may depend on the degree to which the administration is willing to compromise on such points as these. It will undoubtedly lose some votes which it is now counting on unless such provisions are changed. Incidentally, each amendment that is offered will be accompanied by a good deal of debate—which means that a final vote on the bill as a whole is still a considerable distance away.

ONE OPTIMIST IN EUROPE

The impression that peace in Europe might be nearer than European news dispatches indicate continues here.

A few days ago a New York brokerage house wired its branch offices to the effect that it understood that Maj. L. L. B. Angas (the English economist, now living in New York, whose "The Coming American Boom" made such a flurry at the dawn of the New Deal) was advising his clients to unload their "war babies."

This wire was shown to Senator Gerald Nye, who immediately wired Major Angas asking him if he cared to confirm or deny the report. Major Angas wired back:

"Yes, I expect armistice followed by peace."

Both administration and isolationist groups have just begun in

Texas Today

Written for the Associated Press By Walter P. Humphrey Editor, The Temple Telegram

Generally speaking, U. S. Highway 81 splits Central Texas right down the middle.

On one side is the black waxy soil of the famed Blackland belt. On the other are cedar brakes, ranches, and the west.

One side is rolling prairies. On the other side are rugged hills, largely cedar-covered.

Of course, the cedar brakes don't run up to the west side of the pavement on Highway 81 all down the line, nor does the Blackland belt stop when it hits the east side of the pavement.

Yet in the main, the division is correct and the country on both sides is as different as two sections of Texas could be.

Central Texas today! It's a fascinating country.

The hills of western Bell county and adjoining territory in Coryell and Lampasas counties provide some of the most picturesque scenery in Texas.

Spring-fed clear streams wind down through the hills into the Leon and Lampasas rivers, thence into the Little, the Brazos and the Gulf.

The hills are rich in old Indian campsites and in most communities you'll find one to several collectors of flint pieces, Indian skeletons, and other items out of the red man's civilization.

One of these is Louis Fry, who lives in western Bell county community of Palo Alto. Among his finds was one of especial interest near Potter bridge on Cowhouse creek. In a grave with an Indian skeleton he found a strand of fish scale beads, a Spanish Bible, a Catholic cross and a small flat stone on which was inscribed in his roglyphics so small they could be read only with a microscope, the story of seven Indian priests.

The inscription, partly deciphered now, gives the exact burial place in different parts of Texas, of the

uphold the embargo.

A California congressman reports that so far he has not found any man who voted for the embargo last spring who intends to vote for repeal this fall. Another westerner contradicts this and says that he personally knows of three such switches in his own part of the country.

All of which simply means that the situation in the House still is not clear, and that both sides are putting on strong drives there.

One of the most prominent isolationist senators had a poll taken in a section of his state a few days ago on the neutrality issue. He used the most accurate methods he knows of, which have proven reliable in past political campaigns. The result, he said, was a vote of about 3 1/2 to 2 1/2 in favor of keeping the embargo—out of approximately 6000 people polled.

The odd part is that this jibes neither with his mail from that section—which has been running about five to one for keeping the embargo—not with the Gallup poll, which has been running in favor of repeal. Now he's trying to figure which of the three indicators is most nearly right.

The wear on a car traveling 50 miles an hour is twice as much as on one 40 miles an hour.

Bids Requested on Stanton Gymnasium

STANTON, Oct. 19. (Special).—Bids will be received Nov. 7 at two p. m. by the Stanton school board for the construction of a gymnasium, band hall and home economics building. In addition to the new construction, the present elementary building will be thoroughly overhauled.

The new building will contain ample facilities for physical education classes, basketball and volley ball, shower rooms, lockers and all the appurtenances necessary to an adequate physical education program will be incorporated in the building.

New windows, doors, stairways of reinforced concrete and concrete floors overlaid with asphalt tile in class rooms and hallways will constitute the main features of the renovation of the elementary school.

Haynes and Strange of Lubbock are architects for the work.

Bonds were voted in 1938 for the construction and a PWA grant sought at that time. When PWA passed up the picture the district decided to go ahead on its own.

There are men (and boys) who go into dark caves in the hills and bring the rattlesnakes out barehanded.

West of the line, agriculture revolves around cattle, sheep and goats, wool and mohair, with a general diversity of other crops. Pecan orchards line the rivers; fruit orchards and truck gardens are common.

East of the line, the rolling prairies provide a different type of agriculture, with cotton predominating and feed crops running a close second. But even there, cattle has moved into prominence in the farming picture.

The Elm creek watershed project of the Soil Conservation Service, largest in the country is there. The nation's first solid block of erosion controlled farms (165 farms, 30,000 acres) is within this watershed.

Many other things in Central Texas impress you as you travel from community to community. The sunbonnet still rules! It may be old-fashioned but it's the most practical hat the farm woman has found, as its presence in cotton patches and on the farms everywhere testify.

You can go anywhere on gravel roads now. Before WPA you couldn't do that, at least not in the blacklands, where funeral processions often were bogged in the mud and rural residents were isolated after heavy rains. Rural electrification lines follow the most out-of-way roads. There are lights and power everywhere, and a growing market for electrical appliances. REA and private utilities shared the pioneering responsibility and divided the territory.

The Central Texas countryside is filled with new schoolhouses and gymnasiums and, amazing as it may seem, all of them are not WPA or PWA although most, it's true, are.

Last year, Troy, in northern Bell county, built a fine new gymnasium with local bonds and this summer Holland, in southern Bell county, completed a modernistic, concrete gymnasium and auditorium entirely by local financing.

Holland trustees claim their share of a PWA project would have been as much as their \$17,000 bond issue was for the entire cost!

The wear on a car traveling 50 miles an hour is twice as much as on one 40 miles an hour.

TEXAS OUT-O-DOORS

AUSTIN—Progress in game restoration by the use of scientific methods continues in Texas. During the past three months, nineteen game restoration areas have been constructed by game managers and other specialists of the Texas Game, Fish and Oyster Commission. These areas are intended for the restoration of quail, turkey, beaver, and muskrat.

Areas which will be utilized to add to the supply of deer, turkey, geese, and antelope will be set up within the next two months in various parts of the State it was announced by the Executive Secretary of the Game Department. In addition, the State-wide quail project with which the Game Department hopes to increase the crop of bobwhites three or four hundred per cent in some areas is going forward. The Department has two specialists in the field who are working with the ten regional game managers and biologists in securing sites for the building of areas in which quail can be increased.

That deer judiciously planted will do much to increase the big game supply of the State is evidenced by a report from Brown county received from the Game Department recently. In February five years ago, there were delivered to John McKinley of Byrds, Texas, four doe deer and one buck. All four of the does have each dropped nine fawns since that time and indications are that this small planting is doing much to populate Brown county with deer.

Duck hunters who have planted any kind of wild duck food in the past five years in order to improve conditions for waterfowl are being requested to get in touch with the local game warden or the Austin tin office of the Game, Fish and Oyster Commission. The purpose of the request is to provide a record of what grows and what doesn't grow in every part of the State.

The division of wildlife restoration is making a survey of duck management practices so that in the future recommendations can be made on the basis of experience. The trial and error method is commonly used by sportsmen and many ideal experiments are thus made available for observation.

Game managers or biologists of the Department will inspect sites that have been planted with duck foods and judge the value of the many species that are being sold to Texas sportsmen. Because of unwise plantings, considerable sums are wasted each year whereas wise plantings would have improved conditions for ducks.

Already biologists of the Department have accumulated considerable information on the use of native plants as duck food plantings.

Return From Europe Is Managed by Prof.

AUSTIN—Five weeks of blacked-out flight across warring Europe has ended for G. A. Dunn, Jr., University of Texas tutor and research fellow, who carried safely past armed frontiers 7,000 pages of manuscript and ten rolls of undeveloped film back to the Austin campus.

Manuscript and pictures largely concerned Dunn's advanced study on his thesis, "French Intervention in Syria in 1860." He said ruefully, "I soon found myself in the midst of English and French intervention in Poland in 1939."

As he traveled, through all the major European countries from Turkey across Central Europe to France, his manuscript notes and undeveloped film placed him under suspicion at every frontier as being an espionage agent, he recounted.

To climax the trip, Dunn said, he was a passenger on the mysterious Bremen—almost. With passage booked on the vessel, he missed connections, and after four weeks of work and worry, managed to sign

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows feels like it will tear your chest walls apart. You need reliable and ready help. Creomulsion relieves promptly because it goes right to the seat of the trouble to loosen germ laden phlegm, increase secretion and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough or you are to have your money back. (Adv.)

SOCIETY

Cowden-Phillips Wedding Focus of Midland's Social Attention Today

Ceremony Solemnized at Home of The Bride's Parents This Morning

Attention of society today was centered on the wedding of Miss Evelyn Phillips, daughter of Mr. and Mrs. Geo. D. Phillips, and Wright Cowden, son of Mr. and Mrs. Elliott F. Cowden, which was solemnized at the home of the bride's parents, 200 South L street, this morning at 10 o'clock.

Only the families of the couple and close friends were present for the single ring ceremony which was read by Rev. H. D. Bruce, pastor of the First Baptist church.

The couple repeated marriage vows before an altar formed of bankings of woodwardia fern and yellow chrysanthemums at the fire-place, with white tapers burning in tall candelabra at either side. Yellow and white was carried out in floral appointments in both the living room and dining room.

Nuptial Music

Mrs. Ellis Cowden presented the nuptial music, playing the piano number "Ah Sweet Mystery of Life" before the entrance of the wedding party. Lohengrin's bridal march as the processional, and "I Love You Truly" during the ceremony.

The bride, who was given away by her father, wore a heath blue wool suit after Molyneux, with self-appliqued band and bow emphasize-

ing the small waist of the dress, and with a sailor collar of brown sheared beaver on the fitted jacket. Her felt hat trimmed in beaver was in brown as were her other accessories. She wore a corsage of orchids.

Matron of honor and the bride's only attendant was Mrs. Johnny Starr of Seagraves. She wore black with a corsage of gardenias.

The bridegroom was attended by his father as best man.

Reception Afterward
A reception for those present at the wedding was held after the ceremony.

In the dining room, the two-tiered cake decorated with yellow roses and topped with tiny figures of a bride and groom was wreathed with a garland of fresh Joanna Hill roses and farlance fern. The table was laid with a cutwork cloth.

Yellow chrysanthemums were used on the buffet.

Mrs. Clyde Cowden served the cake. Mrs. Donald Oliver, sister of the bridegroom, presided at the punchbowl, and Mrs. Hugh West poured coffee.

Mrs. A. W. Wyatt and Mrs. J. O. Vance assisted in the houseparty. Mrs. Ben Black presided at the guest register.

Members of the houseparty wore gardenia corsages. After the reception, Mr. and Mrs. Cowden left by automobile for California. They will be away ten days or two weeks and will make their home in Midland on their return.

The couple is well-known in social circles here. Both are graduates of Midland high school.

The bride is also a graduate of Hockaday Junior College at Dallas, attended Ward Belmont college, and received her B. A. degree from the University of Texas the past summer.

The bridegroom, son of a pioneer ranch family of this area, attended A&M college and the University of Texas, holding a B. B. A. degree from the latter school. He will engage in the oil and ranching business here.

Mrs. Jorgensen Is Hostess to Dos Reales Club

Midland's newest bridge club, Dos Reales, met with Mrs. J. A. Jorgensen hostess at her home, 402 Holmesley, Wednesday afternoon at 2 o'clock.

Bittersweet lent a fall theme to house decorations in keeping with the Halloween motif carried out by Mrs. Jorgensen in party appointments and in the refreshments ser-

Long Live the Queen!

(Acme Telephoto.) Miss Margaret Jane Swift, 22, picked by the chamber of commerce of her home town, Claremore, Okla., to represent the city in the American Royal beauty contest, walked off with all the honors and was crowned Queen of the American Royal at the colorful coronation ceremony ball at the Kansas City municipal auditorium.

Mrs. J. R. Kimbriel was a club guest. Two tables of bridge supplied recreation for the group, with high score prize going to Mrs. H. T. Newsom and second high to Mrs. F. L. McFarland.

Club members are: Mmes. McFarland, Jerry Phillips, Newsom, H. W. Dear, E. S. Hitchcock, Fred Kotyza, J. C. Williamson, A. M. McClure, and the hostess. Dos Reales will meet every two weeks on Wednesday afternoon. Next meeting will be with Mrs. McClure.

Alcatraz Island Is Subject of Study by Jr. Wednesday Club

Two papers were presented at the meeting of the Junior Woman's Wednesday club with Mrs. Alf Reese, 712 W. Storey, Wednesday afternoon. Mrs. Thomas Lee Speed read "History of Alcatraz Island." Miss Helen Fäskén told of "Every-

Presbyterian auxiliary will close its observance of the week of prayer and self-denial for home missions with a program at the Presbyterian church Friday morning at 10 o'clock. Mrs. John W. Drummond will be leader.

Child Study club will meet with Mrs. W. L. Brown, 1707 W. Holloway, Friday morning at 10 o'clock.

Belmont Bible class will meet with Mrs. Bertie Mitchell, 509 W. Texas, Friday afternoon at 3:30 o'clock.

Women's Golf Association will meet at the Country Club Friday morning at 9 o'clock for play. At one o'clock in the afternoon an important business meeting will be held, with all members urged to attend.

SATURDAY

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Treble Cleft Juvenile music club will meet at the Watson studio, 210 W. Ohio, Saturday morning at 9:30 o'clock. Parents and friends are invited to attend.

Midland county museum in the courthouse will be open from 2:30 o'clock until 5 o'clock Saturday afternoon. The public is invited.

Day Life of Alcatraz

Two associate members, Mrs. E. I. Bailey and Mrs. John W. Starr, were present. Active members attending were: Mmes. Ben Black, W. M. Blevins, Ralph Geisler, Ralph Hickman, Nancy Maloney, Frank Miller, Don Oliver, Thomas Lee Speed, Louis Thomas, Hugh West, Miss Fäskén, Miss Lucile Thomas, and the hostess.

Justamere Club Meets at Home of Mrs. King

Cosmos, cannas, and fern decorated the houses for the afternoon party with which Mrs. Herbert King complimented Justamere club and a trio of guests at her home Wednesday. Guests were Mrs. S. L. Alexander, Mrs. Frazier, and Mrs. A. W. Lester. The guest group proved to be fortunate in the 42 games which were the afternoon's amusement, for high score was held by Mrs. Frazier and low score by Mrs. Lester.

A Halloween party plate was served at the conclusion of play to guests and the following club members: Mmes. C. G. Murray, C. J. McNeil, J. L. Kelly, A. B. Stickey, C. E. Nolan, and the hostess.

Mrs. Goodman Leads Federation Program At Wednesday Club

"It is through the Federation the voice of woman is heard today" is the quotation heading the program for Federation Day in the yearbook of the Woman's Wednesday club. The club presented the program at a meeting with Mrs. George Glass, 911 W. Texas, Wednesday afternoon. Mrs. James H. Goodman, club-woman active in women's affairs not only in Midland but in Austin where she lives during the legislative session, was the leader and presented the chief talk of the day.

In interesting and informative style she discussed the district, state and local organizations of the Federation giving the personnel of the staffs of the various groups.

The Woman's Wednesday club, she noted, has five district chairmen in its membership. These are: Mrs. M. C. Ulmer, chairman of family finance; Mrs. Geo. Glass, chairman of community literacy; Mrs. John Perkins, chairman of antiquities; Mrs. Elliott Cowden, chairman of drama; and Mrs. R. C. Conking, chairman of creative art.

Reports on their duties were given by various chairmen.

Two other members of the club were recognized by Mrs. Goodman. They were Mrs. M. E. Hill, first vice-president of the City-County Federation and Mrs. Andrew Fasken, second vice-president of the City-County Federation.

Mrs. Goodman also described the headquarters Federation building at Austin.

One of the first yearbooks of the club, dated about a year after its organization in the opening years of the century, was on display during the afternoon.

Resignation of Mrs. Ben Dansby was read.

Members present were: Mmes. J. M. Caldwell, Elliott Cowden, J. M. DeArmond, Andrew Fasken, Goodman, Hill, R. L. Miller, Erle Payne, Perkins, Ernest Sidwell, Robert Turpin, Ulmer, W. T. Walsh, W. G. Whitehouse, and the hostess.

Mrs. W. L. Miller Reads Drama of Mother Love

Two new members, Mrs. Earl Powell of Stanton and Mrs. Robert Muldrow III, were elected by Play Readers club in its meeting with Mrs. Elliott H. Barron, 507 N. Lorraine, Wednesday afternoon.

For the program number, Mrs. W. L. Miller read "The Silver Cord" by Sidney Howard. The drama portrays the type of mother love which "smothers" the loved one, driving a mother to interfere in the affairs of her sons and their wives and fiancées.

Half a dozen guests were present. They included: Mmes. G. U. Gregg, C. A. Mathews, A. M. McClure, V. P. Neissl, E. Hazen Woods, William Osborn.

Members present were: Mmes. R. M. Barron, W. L. Haseltine, Jack Hawkins, J. Howard Hodge, Wallace Irwin, Chas. L. Klapproth, Miller, William Y. Penn, W. T. Schneider, W. B. Slowe, Fred Wilcox, Fred Fuhrman, B. K. Buffington, W. W. LaForce, Miss Geraldine Dabney, and the hostess.

and County Federations were asked an answer.

Mrs. Chapple, who is a native of Panama, then presented an interesting talk on life in that country with its many Spanish customs and beliefs. Her small daughter, Toya, in native costume, sang a Panamanian song, accompanied by the hostess.

In the business meeting preceding the program, Mrs. K. S. Blackford and Mrs. H. E. Voigt were elected to membership in the club.

Guests present were Mrs. J. M. Hills Sr. and Mrs. Glen Lewis.

Members attending were: Mmes. F. C. Cummings, Haygood, J. M. Hills Jr.; T. S. Jones, L. W. Leggett, Lamar Lunt, H. E. McRae, J. H. Rhoden, Tom Sealy, J. W. Skinner, S. S. Stinson, Turner, Don Gray, and the hostess.

Halloween Theme Employed at Party For Sans Souci Club

The gala spirit of Halloween dominated in party colors and appointments when Mrs. Roy Downey was hostess to the Sans Souci club with an afternoon bridge at her home, 1210 W. Indiana, Wednesday.

Cosmos and other fall flowers were used in the party rooms.

Mrs. W. L. Crothers and Mrs. L. L. Payne played with the club as guests for the afternoon.

High score in the three tables of bridge which occupied the party hours went to Mrs. Crothers and out to Mrs. L. A. Absher.

A party plate was served to guests and the following club members: Mmes. Absher, E. W. Cowden, B. L. Hoffer, R. T. Mobley, John B. Richards, Lester Short, W. P. Thurmond, L. A. Tullios, A. E. Horst, B. W. Stevens, and the hostess.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's filter, and when they fail to filter out the excess acids and waste out of the blood, they help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

BIG SAFETY FEATURES

"SAW-TOOTH" TREAD
The tread of the new Seiberling Safety Tire has thousands of "Saw-Tooth" claws which grab the pavement from every angle when you pay your way through . . . stop you right now and straight in your tracks!

HEAT VENTED
All tires generate internal heat which is the cause of most blowouts. The new Seiberling Safety Tire gets rid of this dangerous heat through rows of patented "Heat Vents" which reach down through the shoulder to the vulnerable "Hot spots" of the tire. Equal this dangerous heat . . . pump in cool air . . . protect you from blowouts. No other tire in the world has this Safety feature.

"SAF-FLEX" CORD
The "Heat Proofed" body of the new Seiberling Safety Tire is made of the newly developed "Saf-Flex" cord . . . the identical cord as that used in Seiberling Truck Tires! This cord is 30% stronger than cords previously used and enables the tire to withstand terrific punishment and the heat of high speed flexing. A Safety feature of great importance.

Quartet of Guests Present at Meeting of Robyn Club

Robyn Junior Music club met in regular session at the Watson studio, 210 W. Ohio, Wednesday afternoon and presented the following program:

- Piano — "Valse" (Durand) — Elaine Hedrick.
- Biography of Beethoven — Betty Jo Joplin.
- Violin — "Minuet in G" (Beethoven) — Edith Raye Collings.
- Piano — "Curious Story" (Heller) — Marjorie Barron.
- Piano (extemporaneous) — "Flight of the Bumblebee" — Alberta Smith.
- Piano (extemporaneous) — "Minuet" (Heller) — Mary Frances Phillips.

Stories were told and comments made on the musicians in a formal discussion following the program.

Students introduced their guests as follows: Dorothy Lynn Butler, guest of Betty Jo Joplin; Lorene Stron, guest of Doris Ray Lynch; Betty Zane Vanduyke, guest of Dorothy Fay Lynch; Peggy Lands, guest of Lois Dee Eiland.

Birthday greetings were extended Marjorie Barron. Lois Dee Eiland and Jean Walsh presided over the attendance card. The president, Eileen Eiland, presided at the meeting and Dorothy Fay Lynch, as secretary, read the minutes of the preceding meeting. About 20 children were present.

The ancient city of Troy was built on top of eight other cities. Excavations showed the nine cities, each built on the ruins of its predecessor, the first dating back to the late Stone Age.

Rural Schools

Warfield school pupils have completed the first six weeks test and received reports Monday.

Making the A honor roll were: Billy Houston, Thomas Wayne Jackson, Eronson Smith, Pearl Wilson, and Betty Sue Randolph.

On the B honor roll were: Bess Truelove, Betty Bleiker, Billie Jean Taylor, Jean Randolph, and June Randolph.

A pie supper will be held at the school house Friday night, Oct. 20 at 7:30 o'clock, Principal Marvin Bryant has announced.

Proceeds of the supper will be used to purchase school ground equipment. The public is invited to attend.

Ducks Unlimited Blasts Dugouts for Wildlife

WEWUBURN, Sask. (U.P.)—Ducks Unlimited has begun blasting at Tatagwa lake near here under a new plan to create more dugouts for ducks in western Canada. The method of blasting "duck-outs" with dynamite was used successfully in the United States, where miles of ditches have been dug through swamps.

The idea is to create deep holes in dried-up lakebeds where water will gather in the spring and provide the migrating ducks a place to land during their flight northward.

Practice Law Court For Baylor Students

WACO—A law laboratory, in fact a practice court in which students may gain a practical angle on their theories, is the unique offering of Baylor University's law school—thanks to the embarrassment of James Patterson Anderson when he received a law degree from one of Texas' major educational institutions in 1908.

The "practice court" course at Baylor—comparable only with the offerings of a few schools in New England—was established by Alexander when he joined the Baylor law faculty in 1920, and has gained annually in service to students and in recognition from leading jurists.

Judge Alexander, now on the appellate bench, recalls how he returned to his father's farm near Moody 33 years ago with an LL. B. attached to his name but only theoretical knowledge inside his head.

He had no idea how to start a practice. He appealed to his father, and watched attentively as the ground-tiller explained the way a city lawyer had exultated some legal papers for him. Thus Alexander received his "practical" law lesson.

Two days later he had hung out his shingle and was charging clients for doing the same thing his father had shown him.

When added to the Baylor faculty, the judge wanted none of his law students to graduate with such a lack of practical knowledge. He resolved to prevent it through his "practice court."

Each student is required, under rules closely correlated with the Texas practice, either to prosecute or defend a civil suit through the entire process, including the preparation of the trial, the appeal to the Court of Civil Appeals, and to sue out a writ of error to the Supreme Court. Practical emphasis is placed upon the canon of legal ethics.

The class members themselves serve as clients, witnesses, and attorneys. After they get started following several days of procedure discussion, Judge Alexander lets them pretty much alone.

"When we get started, I won't teach you much," he explains, "I'll let you teach each other. If one of you makes a mistake, and probably you will, others will be expected to catch it."

Supplementing the practice court, the law students are required to serve an apprenticeship of not less than three months in the office of a Waco attorney before being graduated, Dean T. E. McDonald of the school explains.

Colorado City Man Named Secretary of Oil Men's Association

H. B. Spence, manager of the Colorado City Chamber of Commerce, was yesterday named executive secretary of the recently organized Permian Basin Association at a meeting of the executive committee of the association here. Spence has served as acting secretary of the association since its organization in Colorado City in August. He said that he would tender his resignation to the chamber of commerce at Colorado City shortly, he having served as manager there for the past two years.

The headquarters office of the association will be opened here within the next two weeks, according to J. L. Greene, president of the organization. President Greene, vice-president George Elliott of Odessa and Secretary Spence were authorized to act for the executive committee in setting up membership fee rates. Attending the session here yesterday were Greene, Elliott, C. C. Thompson, Colorado City; C. D. Bryant, San Angelo, and Spence.

Coupon Books on Sale By the Mustang Boys

In co-operation with several of the leading merchants in Midland, the Mustang boys are offering for sale savings coupon books that contain coupons worth \$3.72 at the places of business of the participating merchant and firms. The cost of a book is only \$1.00, and a large percentage of the proceeds will be used toward the Mustangs boys club summer camp fund.

Each book contains 14 coupons good for merchandise and service that most every person will want in the next week or two, and the purchaser can effect a saving of \$2.72 by purchasing a book for \$1.00. The sales campaign will extend through next week, and the public is urged to support this worthy enterprise.

The following merchants are those participating in the coupon book: Piggly Wiggly Shopping Village, Midland Drug Company, Cactus Cafe, Yucca Theater, Midland Steam Laundry, Good Eats Bakery, Lowe's Service Station, Oriental Cleaners, Ritz Theater, White's Auto Supply, Midland Bottling Company, and the American Beauty Shop.

Col. John Brooks. The ships came from Duncan Field at San Antonio and went to El Paso.

Five navy craft, O3-U3's, arrived from El Paso Wednesday and departed for Hensley Field, Dallas, after an overnight stay. These were in two flights, three ships being led by Lieut. W. C. King and two by Lieut. M. D. Allison.

A BT-9A, flown by Lieut. J. C. Britten, came from Albuquerque, N. M., and went to San Antonio.

A BT-9C, flown by Lieut. K. N. Allen, arrived from Hensley Field and returned there.

Today's landings included: An A-17, flown by Capt. Nedwed of the 22nd Observation Squadron who came from Brooks Field (the plane was taken on to Balmorhea by Lieut. D. W. Holes); an NBN1 flown by Pilot Collins from Hensley Field to El Paso; a B10, flown by Lieut. Hudgens from Brooks Field who went on the Saragosa.

Furniture making was not considered a craft until the end of the 12th century.

Legislative Action Required to Enable Game Commission to Change Dove Season

Blame for inability to regulate the dove hunting season in this section was placed on the lower house of the legislature by Wm. J. Tucker, executive secretary of the Game Commission, in a letter to J. Arthur Johnson, Midland sportsman. Secretary Tucker said a bill was passed by the senate which would have given the commission authority to fix the dove season but the bill failed of passage in the house.

Answering a letter in which Johnson protested the late season here, causing the doves to be gone from the area before the season opens, Secretary Tucker said:

"I received your letter before I appeared at San Angelo and thought that I might have the pleasure of seeing you there, or that you might appear at one of the meets and ask me to discuss the mourning dove season."

"In the talk I made to the sportsmen, I invited anyone to ask me any questions that they might care to ask and unfortunately no one seemed to care to ask a question about the dove season. I did discuss the matter privately with a number of sportsmen and there was a diversion of sentiment on this question."

"Probably you do not appreciate that this department does not make the regulations fixing the open season and bag limits for mourning doves, but that they are made by the legislature of this state and to conform with federal regulations. It is my personal belief that the mourning dove season should open in the Trans-Pecos region and on the high plains of Texas on September 1. In other words, the north-

Illinois Quail Plentiful

SPRINGFIELD, Ill. (U.P.)—Approximately one million quail will be bagged by Illinois hunters during the coming season, opening Nov. 10, Thomas J. Lynch, director of conservation, predicts. All suitable areas have been heavily stocked with birds.

ern zone of the state should embrace a considerable additional area than is now embraced in that zone.

"I know you will be surprised to know that I have no more to do with fixing the dove season than you do. This department did however, ask the legislature to give it authority to fix the mourning dove season so that we might arrive at some satisfactory solution of the existing problem with the Washington authorities. Such a bill was passed by the senate, but was not given favorable consideration in the house."

First Fire Responsible For Second 2 Days Later

OAKLAND, Cal. (U.P.)—The result of having the fire department put out a fire in the home of Mrs. W. W. McCarthy, was to have another fire 48 hours later.

Mrs. McCarthy gathered together the clothes and things that had been soaked with water and put them in a closet to dry. She also installed a heater to hasten the process. At almost the same hour, two days later, neighbors informed her she was having another fire. An examination developed that the heater in the closet had set fire to the garments that were drying.

The PAYOFF

BY JESS RODGERS.

Although it is not carded as a regular game, the "demonstration" of the right and wrong ways to play football that will be held at Lackey field tonight will prove more interesting than most of the games fans get to see.

I wonder why someone had not thought of the idea before. It will give persons who never get to see a football rule book a chance to really learn some of the "inside" of the game. The better one knows the rules, the better he can keep up with the game at all times.

Remember, there will be no admission to the show tonight. But a good turnout will show the Jaycees that fans appreciate what they are doing. Be in hand when the show starts at eight and stay until it is over.

Elsewhere on this page will be found a picture showing various signals given by football officials after fouls occur. Study it and know what each signal means as it is given and you will get a lot more kick out of the games. Better yet, clip it, along with tonight's program, and understand all going on tonight.

players, got loose, traveled a few yards and was tackled by another, again twisted loose and was hit by a third negro, got away from him and was finally taken to the ground by one of the white boys on the coast team. As the two boys lay on the ground, the TOU boy stuck out his hand and said:

"Doctor Livingston, I presume."

Another story also concerns the TOU team. Some wag says that the TOU team was lined up on one side of a large oval of paper with a photographer on the other side. As the team burst through the paper, their picture was to be taken. The oval had been placed down near the goal line and as the frogs hit it they were thrown for a ten-yard loss and Sparks fumbled the ball.

From O. C. Southland, Stanton superintendent of schools, we receive the following:

The Stanton Buffaloes seem well along the way to the championship of district 6-B. Only four teams, Wink, Pecos, Monahans and O'Donnell make up the district.

The Buffaloes defeated Andrews, 20-6, two weeks ago. Last week they took O'Donnell on at Stanton. With the score 21-0 in Stanton's favor, about midway of the third quarter the O'Donnell coach took his team off the field and forfeited the game.

O'Donnell's action came as referee Freels of Midland was banishing an O'Donnell player for slugging. Previously, an O'Donnell and a Stanton player had been banished for mixing it.

Following the game, Stanton's dressing rooms that had been turned over to visitors were badly messed up, walls being plastered with filth and sanitary facilities put out of commission.

This doesn't seem a very auspicious start for the new district, and it may fold up under such demonstrations. Stanton will seek a berth in another district next year, perhaps 7-A as the new 18-year rule will more nearly equalize the strength of Stanton with such teams as Kermit, Wink, Pecos, Monahans and Crane; or falling entrance to 7-A. Stanton will seek admission to the B district to the east.

With only one more conference game, October 27, with the light Seminole team, the Buffaloes' more experienced team—playing the past few years in 7-A, should clinch the district pennant at that time.

Chicago, Hollywood Battle for Rugby Football Laurels

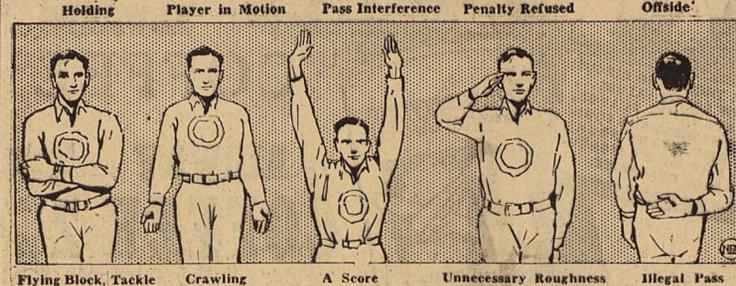

By NEA Service

CHICAGO—The national rugby football title will be at stake Sunday night, Oct. 8, at Soldier Field, when the Chicago Rugby Club meets Victor McLaglen's Hollywood team.

The undefeated Chicago club, by virtue of 19 straight victories over a three-year period, has proved itself to be the championship team of the middle west and east. The outfit from movieland comes roaring out of the far west with 11 straight scalps.

HALLETT STEPS UP.—Mose Hallett, Harvard varsity tackle for two years, has advanced to the first team as a running guard.

Know the Penalties as the Officials Signal Them

"Daffiest" Race in History Is Underway by Texas High Schools

By HAROLD V. RATLIFF.

DALLAS, Oct. 19. (AP).—For those who like their football rare, the current Texas school by campaign should meet every requirement.

It bids fair to go down in history as the "daffiest" ever staged, with "back door mat" teams ruining the records of top-rated clubs, with teams beating teams that beat other teams that had beaten the teams that started the merry-go-round and with the state defending champions unable to win a game in four starts.

Here's a sample of what the so-called "experts" have to contend with in selecting probable winners:

Odessa beats Austin (El Paso) 18-6, Austin beats Big Spring 6-0, Big Spring trims Odessa 6-0.

Greenville loses to Sherman 7-6, Denison 26-12, Ennis 30-0 and ties Dallas Tech 0-0. Tyler beats Jacksonville 53-6, Palestine 50-0, Athens 40-0 and Kilgore 28-7. Yet Greenville ties Tyler 13-13 and makes Tyler battle for dear life to avert defeat.

Amarillo defeats Fort Worth Poly 18-0, Poly downs Vernon 27-0 and Vernon beats Lubbock 7-6. That makes Amarillo 46 points better than Lubbock. But—

Austin (El Paso) beats Amarillo 7-6, Odessa beats Austin 18-6, Big Spring beats Odessa 6-0 and Lubbock downs Big Spring 18-0. That makes Lubbock 37 points better than Amarillo.

And so on until you can't even imagine what is going to happen in the next six weeks which will wind up the campaign for district championships.

Only 16 undefeated, untied teams remain of the original field of 101 and the race is but one-half over. These clubs with perfect records get some respite this week, however, with five of them not playing and only a few of the remainder having conference games.

There are 49 games on this week's schedule, 31 of them counting in the championship race. Only one of them matches unbeaten teams with Gainesville playing Paris, Gainesville, undefeated and untied, will be making its start in the District 5 conference struggle. Paris is unbeaten but tied once.

This week's conference schedule by districts:

1 None scheduled. 2 Wichita Falls at Quanah, Olney at Graham, Childress at Vernon, 3 Odessa at Abilene, Lamesa at Big Spring, 4 Bowie (El Paso) vs. El Paso High, 5 Paris at Gainesville, Sherman at Bonham, 6 None scheduled, 7 Poshall (Fort Worth) vs. Elworth (Fort Worth), North Side (Fort Worth) vs. Arlington Heights (Fort Worth), Poly (Fort Worth) s. Fort Worth Tech, 8 Forest (Dallas) vs. Adamson (Dallas), Sunset (Dallas) vs. Dallas Tech, 9 Mineral Wells at Ranger, Cisco at Brownwood, 10 Hillsboro at Waco, 11 Gladewater at Tyler, Kilgore at Marshall, Longview at Texarkana, 12 Palestine at Lufkin, Henderson at Mexia, 13 Lamar (Houston) vs. Davis (Houston), Conroe at Milby (Houston), Reagan (Houston) vs. Austin (Houston), 14 Orange at Galveston, Goose Creek at South Park (Beaumont), 15 Kerrville at Brackenridge (San Antonio), Laredo at Austin, Jefferson (San Antonio) vs. San Antonio.

Railroad Line Will Use Only Soft Whistle

ASHEVILLE, N. C. (U.P.)—Memories of the late Mike O'Connor, veteran Southern Railway engineer, soon will be revived, for the Asheville-Knoxville line of the railroad is going to replace the shrill locomotive whistles with chime whistles. A quarter of a century ago, O'Connor's special whistle was heard all along the line. Ordinary whistles didn't make enough noise for him.

The roundhouse gave him different whistles many times, but every time he switched engines he took his whistle along and attached it to the steam pipe.

Residents along the line used to set their watches by the old chime of the "special" O'Connor was more famous in this section than Casey Jones.

Many communities between Asheville and Knoxville hold local ordinances prohibiting blowing of train whistles within the town limits. But there never was a prosecution in O'Connor's case.

tonio Tech, 16 Corpus Christi at Kingsville, Harlingen at Edinburg.

Interdistrict games:

Breakridge at Lubbock, Electric at Plainview, Denison at Denton, Woodrow Wilson (Dallas) at McKinney, Athens at North Dallas, Stephenville at Cleburne, Sam Houston (Houston) at Bryan, Corsicana at Port Arthur, Nacogdoches at Livingston, San Jacinto (Houston) at Beaumont, Brownsville at Robstown.

Intersectional games:

Hobbs, N. M., at Borger, Van Buren, Ark., at Pampa; Norman, Okla., at Amarillo.

took the long end of a 20-14 score. The Frogs march up the field in grand style, but bog down nearly every time pay dirt is in sight. They have rolled up the amazing total of 106 yards from scrimmage in three games, to their combined opponents' 571.

"We're the statistical champions of the Southwest!" groans Meyer. The one bright spot in the team's showing at Temple was Rusty O'Neil's passing. He completed 19 out of 31 for 285 yards and one direct touchdown. It seems evident that Jack Odle's broken thumb will not upset things to the extent at first feared.

The Christians have nothing in front of them. The Board for Lease seems to be nothing to do but to keep trying to perfect a defense—and an offense that will carry beyond the 1-yard line.

The entire celer corps of A&M will make the trip to Fort Worth, and the Aggie Exes will gather in from far and wide. The game is due to be an over-flow affair, with temporary end zone seats occupied.

The Frogs are travel weary after covering more than 7000 miles in their first three games. They are hoping that a home game ahead of them will give them that something they have lacked. The something that has put them so close and yet so far—only seven points behind in three games, and all of them losses.

T.C.U. fans are whistling in the dark and hoping. The Frogs have tied or won from the Aggies in the past when they had no right to. "Maybe we can do it this year," says the loyal supporters.

"But we'll have to do more than roll up statistics!" Coach Meyer warns.

Pursuant to the provisions of Chapter 282 of the General and Special Laws of Texas, passed at the Regular Session of the Forty-first Legislature, approved March 29, 1929, and amended by Chapter 174 of the Acts of the Regular Session of the Forty-second Legislature, and as amended by Acts 1937 Forty-fifth Legislature, Chapter 145, the Board for Lease of University Lands hereby offers for sale, subject to the right to reject any or all bids, at public auction in Austin, Texas, at the State Highway Hearing Room, on Friday, October 27, 1939, at ten o'clock, A. M., the oil and gas rights in and under the following described University Lands.

The minimum consideration that will be accepted for Tract 32 will be a cash bonus of \$100 per acre, plus the legally required 1%, plus a well to be started within 120 days from execution of the lease and to be diligently drilled to a depth of 1,000 feet, or to commercial production of oil and/or gas, or to sulphur water in the lime. Tract 32 will be bid on as a unit, but each quarter-section shall be a separately leased area, and in the event production has not been secured upon said quarter-section within 12 months after execution of the lease an annual rental of fifty cents per acre shall be due.

All oil and gas leases sold at this auction will be for a term of five years, or as long thereafter as oil and/or gas is being produced in paying quantities therefrom. There is no limit as to the number of such tracts that may be bid in by any party or company.

All leases shall carry a royalty of 1/8 of the value of the gross production of oil and gas therefrom. The Board has fixed an annual delay rental of not less than 50¢ per acre on each tract offered.

No advance rentals shall be added to the bid price of successful bidders. But one per cent shall be added thereto and paid by successful bidders as provided in Sections 5 and 14 of Senate Bill 343, 45th Legislature, Regular Session, 1937.

Tracts numbered 24, 35, 37, 38, 39, 40, and 43 were erroneously advertised for lease and will be withdrawn from the sale.

Dated at Austin, Texas, this 30th day of September, 1939.

BOARD FOR LEASE OF UNIVERSITY LANDS.
By: K. H. Aynesworth, Chairman.
Mrs. I. D. Fairchild, Member.

How Wagon Yards Got Name Is Puzzler

AMARILLO, Texas. (AP).—Find a man who has stayed all night in a wagon yard and he'll tell you many fine stories. But, better still, find a man who operated a Texas wagon yard and you have a dandy chance to get a good story about life in Texas in the horse and buggy days.

Lon Sellars of Amarillo spent nearly half a century in the wagon yard business. He operated the last wagon yard in Amarillo, closing it in 1917 after having contributed to the demise of the wagon yard eight years previous by purchasing himself an automobile.

Sellars, now a commissioner in Potter county, tells stories about wagon yard days with gusto, but he has one regret.

"I wonder," he said, "why no one has thought to name an auto camp the 'Ok Tourist Park'?" You know, a tourist park is just a wagon yard with autos instead of wagons. The people are about the same. They are on the road just as they were in the days when tired travelers sighed with relief at the sight of the long board over the gate, the "Ok Wagon Yard." Why, when cars first became popular many of them stopped at wagon yards.

No one, not even the man who operated wagon yards nearly 50 years, seems to know why there were so many Ok wagon yards. Nearly every town in Texas had an Ok wagon yard. Sellars says the name probably started because the wagon yard man was, as they said then, on the up and up and OK. At least, he was a friend of the traveler. He aided them at births and deaths. When a horse was sick, the wagon yard man, calling upon his wide experience, decided whether the animal had botch colic or blind staggers and then helped the owner drench the sick horse—usually using the wagon yard man's medicine and drenching bottle. For the benefit of readers who are stop-

Walnut Tree Dispute

Nut for Judge to Crack

MODESTO, Cal. (UP).—Here is a tough nut for a judge to crack: John Jacobs asked the court, in a suit against Joe Anderson, to determine his share of the crop from 21 walnut trees standing on or near the line dividing plots of land owned by Anderson and himself.

If the trunks are on the boundary, Jacobs argued, each owner is entitled to an equal share of the walnuts, regardless of what proportions of the trunk or tree may be on the other's land.

However, if it is found that the trunks are wholly on Anderson's land and he is entitled to all the nuts, Jacobs wanted the court to give him permission to cut off any branches overhanging his land and any roots protruding into his property.

One-Armed Youth Bids For Basketball Position

KNIGHTSTOWN, Ind. (U.P.)—Sixteen-year-old Johnny Shafer of Knightstown has completed another season of softball and is preparing to bid for a position on the Knightstown high school basketball team.

John has only one arm. His left arm was injured in an accident several years ago and was amputated.

Last winter, however, he played with the reserve basketball team and has starred on a local softball team for the past four years.

French, German Troops Fight Flood Waters Along Main Front

PARIS, Oct. 19. (AP).—French today reported that German troops in the Seigried line were working with pumps to combat floodwaters from the Rhine.

The flood also was licking lower sections of the Maginot line but the main French fortifications are on higher ground.

A communique said "all is quiet on the whole front, and very rainy."

It added that French were still on German soil.

French military observers reported last night that German troops in their advance had made contact with the French main line of resistance at all points of the 100-mile-long northern flank of the western front.

The Germans were reported rushing up reinforcements to support units which had gained a foothold in French territory on the extreme northern flank.

A semi-official explanation of the German advance of the past two days from French general headquarters presided over by General Maurice Gustave Gamelin, commander-in-chief of the allied forces, said operations during the past few days had been carried on just as the French high command had planned.

Ranking French staff officers said the French troops never lost the initiative to the Germans although they technically were "withdrawing."

At many points, these officers explained, French troops which previously had withdrawn to new advance positions in German territory held without yielding an inch to the field gray clad nazis.

At other points they fell back before the German advance according to the French general staff's plan.

The French, who originally said their advance into Germany was to gain extended cover for the Maginot line, said last night their main lines now had been withdrawn to a point more easily supported since it was closer to the winter bases in the Maginot line.

GERMANS DECLARE FRENCH DISLOADED.

BERLIN, Oct. 19. (AP).—The German high command today announced the first phase of the war in the west had ended with complete withdrawal of French troops from German soil.

A communique said contact with the enemy broke in several places "because our troops did not cross the French frontier."

British troops have been "nowhere in evidence" in the front lines, the communique added.

Hitler announced formal annexation of Pomorze, Pommerellen, Polish Upper Silesia, conquered Polish provinces.

President Pleased Over Action Cutting Texas Freight Rates

WASHINGTON, Oct. 20. (AP).—Commissioner Ernest O. Thompson of the Texas Railroad commission discussed oil affairs and freight rates with President Roosevelt in a White House conference Wednesday.

The Texan said President Roosevelt expressed great interest in a Texas commission order to eliminate freight rate differentials in that state.

"Texas is leading the way in elimination of freight rate discriminations," Thompson said. "It is hoped that other states will follow suit and set an example for the Interstate Commerce Commission regarding rates throughout the south and southwest in interstate freight traffic."

"I can't disclose just what the president told me, but I will say he was highly pleased with the step taken by Texas."

Thompson, with other members of the Interstate Oil Compact commission, told the president of conservation practices now followed in producing states.

The Texan told Mr. Roosevelt that proration in Texas increased gasoline supplies and reserves and lowered the cost to the consumer.

Members of the seven-state commission advised the chief executive that all the oil needed "under any emergency" could be provided merely by "opening the valves."

The commission told President Roosevelt that states were doing "an adequate job" of controlling oil production and that there was no need for federal regulation.

Thompson said the president "seemed pleased that the states were doing a good job."

Asked whether he believed there would be any agitation in the regular congressional session for legislation providing partial federal regulation of the oil industry, Thompson replied, "I don't think so."

Thompson said there was now a reserve of 17,500,000,000 barrels of oil, compared with 5,500,000,000 in 1925, and that the reserves were being increased.

MIDLAND DRUG CO.
"If You Don't Know Your Drugs, Know Your Druggist"

Oil News—
Continued From Page One.

gas-oil ratio of 594-1. Total depth is 4,901 feet in lime, where the well had flowed 398 barrels a day on natural test.

Another For Cedar Lake.
Fourth test for the Cedar Lake pool of northeastern Gaines county was authorized yesterday by Stanolind Oil & Gas Company at No. 1 Mrs. Edith Johnson, 660 feet out of the northeast corner of section 6, block h. D. & W. survey. It offsets to the south the same company's No. 1 American Warehouse Company, a west offset to Stanolind No. 1 Jeanette B. Rayner, 1-279-barrel discovery well of the pool. No. 1 American Warehouse Company is topping road. Only yesterday, Stanolind announced location of No. 1 Thos. S. Riley, extension test over three miles north by west of the discovery.

Depth of 5,455 feet in hard lime had been reached this morning by Osage Drilling Company, Inc. of Oklahoma. No. 1 Johnson, extension test over one mile north of Amerada No. 1 I. E. Auten, completed yesterday for 406-barrel daily flow after 2,000 gallons to extend the northwest sector of the pool a quarter-mile farther north.

In the northwest area, Osage No. 2-A J. L. Tippett is drilling at 3,917

feet in anhydrite.

Atlantic Refining Company No. 1 H. T. Boyd, Cochran wildcat two and one-half miles east of the Dugan pool, is drilling at 3,917 feet in hard anhydrite. In northwestern Cochran, Humble Oil & Refining Company No. 1 J. Westheimer et al is drilling Abo lime at 7,353 feet.

Ward Gasser Unchanged.
Magnolia Petroleum Company No. 2-43 George Sealy, indicated operator of a new pool in northern Ward county, this morning was trying to pull tools. Total depth is 2,910 feet in lime, where it has been blowing 18,840,000 cubic feet of gas per day after encountering increase in gas from 2,900-05. Before striking the big gas, the well had been heading 50 to 100 barrels of oil per day from pay lime at 2,827-30 feet. Back pressure due to increased gas has stopped the oil heads.

In the Magnolia-Sealy pool of northern Ward, a mile and three-quarters north of the No. 2-43 Sealy, Mid-Continent Petroleum Corporation has completed its No. 2 Sealy for natural flow of 135 barrels net oil in 24 hours, flowing through 2-inch tubing, plus two percent basic sediment and water. Total depth is 3,037 feet in lime.

Anti-Trust Suit Is Filed Against Rice Companies in Texas

AUSTIN, Oct. 19. (AP).—Attorney General Mann's department filed an anti-trust suit against 11 rice milling companies in district court here today.

The suit was based on an investigation of allegations the companies' buyers had agreed on a price for rice at warehouse auctions.

Drivers Walk the Line For Inebriety Evidence

MILWAUKEE, Wis. (U.P.)—Tippy drivers arrested in Milwaukee county now must submit to "screen tests."

As soon as a tipsy driver is arrested, he is taken to the sheriff's office where he is forced to walk a painted "line" four inches wide and 25 feet long to the accompaniment of a whirling movie camera.

When the suspect goes into court, Sheriff Edward J. Mittens visual "evidence" goes with him.

TO DALLAS.
Mr. and Mrs. C. Harkins are leaving today for Dallas where they will spend the remainder of the week.

To Make a Long Tale Short

one of our recent bridegrooms asked his new wife if she didn't think he had a lot of sex appeal. "Don't be silly," said she; "you couldn't lure an old maid out of a burning building." The cars listed below are exceptional values, that should "lure" you into giving them the once over.

LURING PRICES ON THESE:

1938 Dodge 4-Door Sedan. A completely reconditioned unit, using new replacement parts where necessary. Finish in excellent condition. First cost will be last cost except for normal upkeep.

Down Payment \$200

1936 Chevrolet Coach. Sparkling black finish has original luster. Motor completely reconditioned. Fisher No-Draft ventilation. Turret top. Miles of service at small cost.

Down Payment \$100

1938 Packard 8 Sedan. Beautiful green finish. Upholstery like new. Mechanically perfect. Large car comfort at small car cost.

Down Payment \$275

1939 Buick 41 Sedan. A low mileage car with new car appearance and operation. Complete deluxe equipment including radio, heater and seat covers.

Down Payment \$325

1937 Chevrolet 1/2-Ton Pickup. Motor just recently reconditioned. A good unit for farm or light commercial hauling. Priced to sell.

Down Payment \$100

Four Fliers Killed As Bomber Crashes

SAN DIEGO, Calif., Oct. 19 (AP)—Four fliers were killed today when a bomber crashed into Black Mountain, the sheriff here reported.

Deputies found charred bodies near the burned wreckage. Remains of practice bombs and cameras were found nearby.

RETURNS FROM FUNERAL.
Mrs. C. O. Fredregill has returned from Shawnee, Okla., where she attended the funeral of her mother, Mrs. Anna Gray Pruitt. Rites were read Saturday.

Bulgarian Cabinet Quits Under Stress

SOFIA, Oct. 19 (AP)—Premier Kiossevanoff's Bulgarian cabinet resigned today, opening the way for formation of a government with a more definite policy in the tense situation in southeastern Europe.

Bulgaria, Russia's friend, has troops guarding the frontiers of Turkey and Rumania, which have been pledged military aid from the British and French.

Country Club Beer

I'll say it's "famous for its flavor"
