

First Test in Embargo Fight Is Won by Foes

Downey Amendment Defeated by 2-1; Final Vote Due Soon

WASHINGTON, Oct. 27. (AP).—Driving toward passage of the administration's neutrality bill by nightfall, an overwhelming senate majority turned aside today an amendment to ban armed merchant vessels and submarines of belligerent nations from United States ports.

The proposal, by Senator Clark, Missouri, lost, 65-26.

WASHINGTON, Oct. 27. (AP).—Administration forces won by a two-to-one majority Thursday the first test of strength on the crucial issue of the neutrality program, repeal of the arms embargo.

The vote, 65 to 27, came on an amendment proposed by Senator Downey (D-Cal) which would have forbidden munitions sales to all foreign nations, neutrals or belligerents in peace time or war, except states of the Western Hemisphere at war with non-American nations.

Since the scope of the Downey proposal extended beyond the present war in Europe it contained some controversial matter not essentially involved in the neutrality debate. These extraneous issues cost the proposal the vote of Senator Vandenberg (R-Mich) and possibly one or two others.

However, with these exceptions, both sides agreed that the vote was a test of strength and that, when the Senate ballots on the question, the proposal of the administration to strike the repeal clause from the pending legislation—the roll call tally list would look very much as it did yesterday.

Administration forces, although they received but 55 votes on the Downey amendment, or 57 including the vote of Senator Danaher (R-Conn) who was paired, were still highly confident of amassing a final total of 65 or so. In justification of this claim they pointed to the fact that 14 Senators were absent, unrecorded yesterday most of whom are avowedly on the administration side in the argument.

The final ballot may come today. Majority leader Barkley (D-Ky) announced that he would ask for an agreement to vote on the bill and all amendments at five o'clock. Senator McNary (R-Ind) also announced that he would ask for an agreement to vote on the bill and all amendments at five o'clock.

Army Plot on Hitler Reported

East-Side Emma Pool Test Flows 1,227 Barrels Oil Daily

Anderson-Prichard Oil Corporation No. 7 W. F. Cowden heirs, east-side test in the Emma pool of southern Andrews county, today was completed for 24-hour potential of 1,226.60 barrels of 33.2-gravity oil plus one percent water. Bottomed at 4,312 feet in lime, it was acidized with 3,500 gallons. Pay was topped at 4,205 feet. Gas-oil ratio is 800-1.

Sinclair-Prairie Oil Company No. 8 Mrs. Emma Cowden, in the same area, is fishing for bit, bottomed at 4,270 feet in lime. Yesterday it had 3,000 feet of oil in the hole from upper show.

The Water Associated Oil Company No. 3 Carl Roberts, on the east side of the North Cowden pool in northern Ector county, flowed 861.30 barrels of 34-gravity crude per day with gas-oil ratio of 545-1, after shooting with 440 quarts. It topped pay 4,360 feet and is bottomed at 3,900 gallons.

Sinclair-Prairie No. 3 Hugh Corrigan logged showing of oil from 4,555-65 feet and is drilling ahead at 4,388 in lime, carrying 3,500 feet of oil in the hole.

Standoil Oil & Gas Company No. 1-A B. H. Blakney, deep Permian producer a half-mile southwest of the North Cowden pool, swabbed 45.2 barrels of oil and 6.9 barrels of water in the past six hours and still is swabbing through 2 1/2-inch tubing. Packer is on tubing but has not been set. Total depth of the well is 5,160 feet in lime, and it has been acidized at that point with 3,000 gallons.

Indian Territory Illuminating Oil Company No. 1-B J. L. Johnson, Ector test northwest of the Johnson area of the Foster pool and one-half mile southeast of Sloan & Zook No. 1 Johnson, small producer, is drilling below 4,075 feet in lime carrying about 1,000 feet of oil and foam in the hole from oil and gas show at 4,056-57. Bailer has not been run, but the well was showing that much fluid on drilling line.

To Drill Plug Today Atlantic Refining Company (formerly carried as The Sloan & Zook Company and Tom N. Sloan) No. 1 Mrs. J. E. Fitzgerald, northeastern Yoakum county wildcat in the southeast corner of section 22, block D, J. H. Gibson survey, will start drilling plug with rotary this afternoon from 12 1/2-inch surface casing cemented at 340 feet in red rock. If completed as an oil well, it will be the property of Atlantic; if a dry hole, the property of Sloan & Zook and Sloan. Atlantic purchases from the operator a 1,000-acre checker-board spread for consideration of \$30,000.

Square Dancers Will Give Show Here Tonight

Host to citizens of Midland and vicinity at the old-fashioned square dance to be held in the Crystal ballroom of Hotel Scharbauer this evening beginning at 8:45 o'clock will be the nationally-famous Blue Bonnet Square Dance Team of El Paso, all citizens of the community being cordially invited to attend. There will be no admission charge.

Advertising the Broadway of America Highway as the only all-year, high-gear, transcontinental highway, the Blue Bonnet dancers, who will state square dancing championship at the Port World Fat Stock Show last spring, are on their way back to El Paso after a month's tour which took them to the New York World's Fair, where they filled a ten-day engagement. The team has performed in practically all towns between El Paso and New York, being highly acclaimed by the press in all cities visited. They are scheduled to arrive in Midland late this afternoon to spend the night as the guests of Hotel Scharbauer.

In charge of the tour is L. A. Douglas, manager of the El Paso Gateway Club and secretary of the Broadway of America Association. Jack McDonald, El Paso, president of the Broadway Association, is also accompanying the group as is Michael McCue, manager of the Douglas, who is the state square dancing champion. The dancers have their own string band with them.

Members of the party will be the guests of the Midland chamber of commerce at a dinner at Hotel Scharbauer at 7:30 o'clock this evening. Ed M. Thomas, Dr. J. B. Thomas and W. B. Simpson to be in charge of the affair.

Following the dinner, the party will start the square dance in the Crystal ballroom, everyone being invited to attend. The Blue Bonnet team will stage a colorful performance following which everyone present will be invited to join in. Local square dance callers, including Sam and Bob Preston, have been asked to be on hand to call several sets.

The Blue Bonnet team is composed of Mr. and Mrs. Herbert Gregerson, Dr. and Mrs. Buck Stinson, Mr. and Mrs. Hinton McIntosh and Mr. and Mrs. Roy Allen.

The dancers are well known to Midland citizens, having performed here on three previous occasions.

'Isms' Rapped By Pope Pius In Talk Today

Condemns Leaders Who Assume "Autonomy of God" in Ruling World

CASTEL GRANDOLFO, Oct. 27. (AP)—Pope Pius today condemned governments which assumed "that absolute autonomy which belongs exclusively to the supreme maker" and offered consolation to dismembered Poland.

In the first encyclical of his reign as pontiff, after recounting failure in his efforts for peace, he also pleaded for settlements at the end of the present European war which would avoid errors of past treaties which failed to bring lasting peace. He blamed denial of "authority of God and the sway of his law" for the rise of governments which make the state "the last end of life."

Eclipse of Moon to Begin 9:42 Tonight

CAMBRIDGE, Oct. 27. (AP).—Weather permitting, one of nature's most spectacular "backouts" will be visible tonight.

Harvard astronomers set 9:42 CST as the time for the beginning of a "practically total" eclipse of the moon. It will last for more than five hours.

Officers Unable to Find Trace of Woman Who Escaped Asylum

PHOENIX, Ariz., Oct. 27. (AP).—While anxious relatives expressed the hope she would surrender to avoid the possibility of being debarred sane and executed, Winnie Ruth Judd, mad murderer, succeeded Thursday in keeping her whereabouts unknown.

Investigators admitted they had found no trace of the 34-year-old blonde, slayer of her two best friends in 1931, since her midnight visit Tuesday to the home of her parents, the Rev. and Mrs. H. J. McKinnell, a few minutes after she fled from the Arizona State Hospital for the Insane.

As hunters pushed the search for the trunk murderer, a brother, Burton J. McKinnell, Washington, D. C., joined the husband, Dr. W. C. Judd, Los Angeles, in declaring the escape a "mistake" and a "foolish move" and expressing the hope she would surrender as soon as possible.

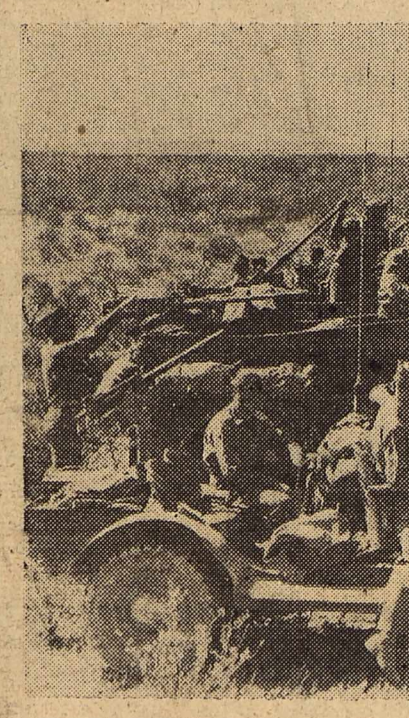

Should she remain at large until officers catch up with her Young McKinnell expressed the fear she might be declared sane and executed, a fate she twice escaped, once in 1932, after being convicted by the State Supreme Court, and again in 1933 by virtue of being declared insane.

Governor Bob Jones has promised she will not be punished if she returns voluntarily.

From Santa Monica, Calif., a sister-in-law, Caroline Judd, said she hoped Winnie Ruth would communicate with relatives or "give herself up as soon as possible" for her own safety and for the safety of those who love her.

CITY OF FLINT REMOVED BY NAZIS

Streamlined Steel Charges

WASHINGTON, Oct. 27. (AP).—Official advances received here tonight said the United States steamer City of Flint was being sailed from Murmansk to Germany under command of the prize crew from the German battleship Deutschland.

The freighter reported somewhere along the Norwegian coast, heading slowly into the British blockade area.

The Soviet government last night released the American freighter City of Flint and well-informed sources said she had sailed under the United States flag from Murmansk, Russian port where she was taken Monday by a German prize crew.

The government announcement said merely that the ship had been given clearance after inspection of her cargo and ordered to leave port immediately, but failed to throw any light on the all-important question whether the American or German crew was directed to take the vessel away.

Well-informed sources, however, denied German reports that she had sailed under the Nazi banner. The Germans have charged she was carrying contraband.

(United States Secretary of State Cordell Hull announced earlier in Washington that the United States government had demanded of the Soviet government the return of the City of Flint and her cargo to the American crew.

In Berlin, officials said that the Russian government had agreed to release the freighter and her cargo to Germany.

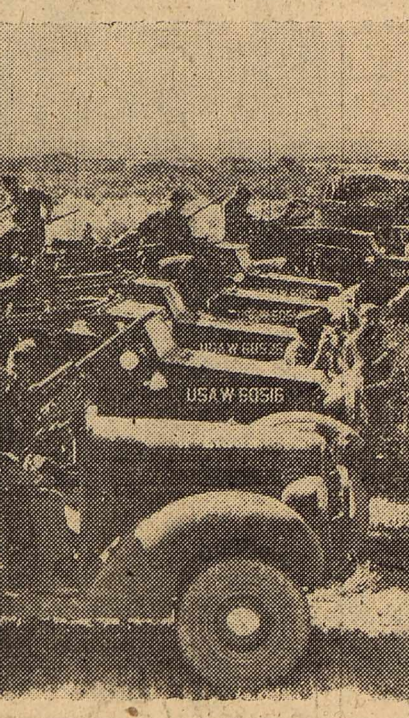

The United States embassy here has been pressing the foreign office for details of the status of the freighter and at the same time had been studying the question of what right the Russians had to examine her cargo.

STEIN HEDT FINALLY SEES RED OFFICIALS MOSCOW, Oct. 27. (AP)—United States Ambassador Laurence Steinhardt finally succeeded today in gaining an interview with Russian foreign officials in his quest for information on the City of Flint affair earlier attempts to get an appointment had failed.

There was no immediate announcement of the result of the interview.

German Crew Said Sailing Ship to Port

Boat Reported to Be Nearing Blockade Set Up by the British

WASHINGTON, Oct. 27. (AP).—President Roosevelt, striking out at critics who charge that his foreign policy may lead the United States to war, accused them last night of prepreting "one of the worst fakes in current history."

In and out of congress, he said, orators have been "beating their breasts and proclaiming against sending the boys of American mothers to fight on the battlefields of Europe."

This, he asserted in a radio address, is "a shameless and dishonest fake." No person in any post of responsibility anywhere in the United States, he said, has ever suggested that American boys be sent to fight abroad.

The president's speech, made as the senate neared the final action on his proposal to repeal the arms embargo, was delivered from the White House under the auspices of the New York Herald Tribune forum on "The war's challenge to the United States."

The president also praised the "majority of the press and the radio for 'objective reporting' of the international situation. He said this had worked so well that he wished 'for more of it in the field of domestic news.'"

After repeating that this country is neutral and does not intend to get involved in the war, the president said:

"That we can be neutral in thought as well as in act is, as I have said before, impossible of fulfillment because again, the people of this country, thinking things through calmly and without prejudice, have been and are making up their minds about relative merits of current events on other continents."

"It is a fact increasingly manifest that presentation of real news has sharpened the minds and the judgment of men and women everywhere in these days of real public discussion—and we Americans begin to know the difference between the truth on the one side and the falsehood on the other, no matter how often the falsehood is iterated and reiterated. Repetition does not transform a lie into a truth."

Germans Said Ready To Launch Attacks On Western Front

PARIS, Oct. 27. (AP)—Germans have moved tanks and artillery into attacking positions on the Siegfried lines, French military observers reported today.

French patrol reports indicated Germans were in "jump off" spots all along the northern flank, but intense cold proved an ally of the French.

A French communiqué said there was "local activity of reconnaissance units" during the night.

LIVELIER ACTION IS REPORTED BY NAZIS BERLIN, Oct. 27. (AP)—A German high command reported today action was livelier and artillery activity heavier at several points between the Moselle river and Warndt forest today.

Roosevelt Scores Critics Who Say His Program to Lead to War

WASHINGTON, Oct. 27. (AP).—President Roosevelt, striking out at critics who charge that his foreign policy may lead the United States to war, accused them last night of prepreting "one of the worst fakes in current history."

In and out of congress, he said, orators have been "beating their breasts and proclaiming against sending the boys of American mothers to fight on the battlefields of Europe."

This, he asserted in a radio address, is "a shameless and dishonest fake." No person in any post of responsibility anywhere in the United States, he said, has ever suggested that American boys be sent to fight abroad.

The president's speech, made as the senate neared the final action on his proposal to repeal the arms embargo, was delivered from the White House under the auspices of the New York Herald Tribune forum on "The war's challenge to the United States."

The president also praised the "majority of the press and the radio for 'objective reporting' of the international situation. He said this had worked so well that he wished 'for more of it in the field of domestic news.'"

After repeating that this country is neutral and does not intend to get involved in the war, the president said:

"That we can be neutral in thought as well as in act is, as I have said before, impossible of fulfillment because again, the people of this country, thinking things through calmly and without prejudice, have been and are making up their minds about relative merits of current events on other continents."

"It is a fact increasingly manifest that presentation of real news has sharpened the minds and the judgment of men and women everywhere in these days of real public discussion—and we Americans begin to know the difference between the truth on the one side and the falsehood on the other, no matter how often the falsehood is iterated and reiterated. Repetition does not transform a lie into a truth."

Concluding Phase of Army Maneuvers at Balmorhea Will Be Held Saturday Morning

BALMORHEA, Texas, Oct. 27.—Approximately 6000 troops will pass in review Saturday morning in the concluding phase of the annual maneuvers of the First Cavalry Division which have been conducted by the Division Commander, Brig. Gen. Kenyon A. Joyce. The review field is located on State Highway 17 southeast of Toyahvale, and special provisions are being made to care for all visitors who wish to attend.

General Joyce will be the reviewing officer and Brig. Gen. Jonathan M. Wainwright has been named Commander of Troops.

This is the largest concentration of troops at this time in the United States. Besides 6000 men, there will be 2700 horses and 750 motor vehicles of all kinds from motorcycles and half-ton trucks to the 12,000 lb. armored cars with their heavy armament of machine guns.

The Review will include horse cavalry—the 5th and 12th Cavalry Regiments, composed of the First Cavalry Brigade, and the 7th and 8th Cavalry forming the Second Cavalry Brigade; and Horse Artillery, the 82nd Field Artillery, which is armed with the newest type of 75 mm howitzers which can place destructive shell bursts on positions inaccessible to other weapons.

Infantry will be represented in the Review by the 9th Infantry from Fort Sam Houston, commanded by Col. Harrison C. Browne. For rapid movement it is transported in 1 1/2 ton trucks, but in the Review the Doughboys will march on foot. Other units participating are the 1st Battalion of the 15th Field Artillery, which is completely motorized and accompanies the Infantry, the 8th Engineer Squadron, 1st Medical Squadron, 1st and 2nd Signal Companies, 16th Quartermaster Squadron and Medical, Signal and Quartermaster detachments with the Infantry. Planes of the 22d Observation Squadron will fly past the reviewing stand at the conclusion of the review.

Music will be provided by the 5th and 7th Cavalry Bands.

In order to avoid damage to the reviewing field, the Review will not be held if the field is still soft after the recent rains.

"Community Chest" Month Designated

AUSTIN, Oct. 27. (AP)—Governor O'Daniel today proclaimed November "Community Chest Month" and urged all Texans to "give as liberally as they can to the chest and boost its work at every opportunity."

Between 800 and 900 Local Fans to Follow Midland Bulldogs to Big Spring

take the Big Spring game seriously, believing an easy victory is in sight.

No longer than two weeks ago, the Midland team would have been an

Persons desiring to ride the football special to Big Spring tonight are urged to procure their tickets at the chamber of commerce office this afternoon, thereby dodging a long wait that will greet them if they wait to purchase them at the depot. The tickets sell for 60 cents each and are good for the round trip.

overwhelming favorite to capture the game but during that fortnight, the Steers have shown more improvement than any other team in the circuit. Injuries and hard luck that dogged the Steers in their first few games seem to have been over-

come and they rate as a slight favorite in tonight's game. The Big Spring team also boasts more and better reserve power than the Midland team—a deficiency that cost them the game with Sweetwater.

Tonight's game will very likely turn into a free scoring affair with both teams crossing the goal more than once. The Steers finally got their offense clicking last week when they defeated Lamesa, 40-14, while Midland has scored in each game played to date.

The curious fact about the Midland team is that no boy on the squad has ever played in a high school game for the team when the team failed to score. It has been approximately four years since the Bulldogs were held scoreless in a game and there is no reason to believe they will be stopped tonight unless one of their key backfield

men gets injured.

In the backfields, the two teams rate about even. Midland will offer Jay Francis, one of the outstanding broken field runners of the state, Dale Truelove, a better than average passer and punter, and Jim White and Temple Harris. Although the lightest man on the team, Harris is rated one of the best defensive backs in the area. The Longhorns will counter with "Lefty" Bethell, grand passer, ball carrier and best punter in the district, Pepper Martin, Johnny Miller, D. R. Gartman or Owen Brummett.

The Steers undoubtedly boast the better line. The Bulldogs have only two letter linemen on hand, Paul Klatt and Bob Eidsen, two of the best guards in the district. Klatt is particularly outstanding in practically every game played.

(See FOOTBALL GAME, page 6)

Unidentified Man Is Killed in Train Wreck

UNVALDE, Oct. 27. (AP).—An unidentified man was killed today when a score of boxcars of a Southern Pacific train derailed at Anacho switch, 32 miles west of here. The cause was undetermined.

VISIT BROTHER.

Mr. and Mrs. C. W. McCain are visiting her brothers, Buster and Hurshel Howard, here for a week en route to their new home at Seminole. The McCains have been at Quahon but he is to be stationed at Seminole with the Amerasia. Mrs. McCain is the former Mary Merle Howard.

HONEYMOONING IN HOLLYWOOD

Word has been received here that Mr. and Mrs. Wright Cowden are visiting Hollywood on their honeymoon trip to California. They recently had dinner at the Earl Carroll Theatre in Hollywood. They plan to see the San Francisco World's Fair before returning home.

Scout Honor Court Is Slated Next Week

With an unusual showing of activity, 40 members of troop 54, Boy Scouts, last night made final plans for the court of honor to be held next week. Most of the meeting was devoted to patrol work. Each scout got all possible credits ready so a badge might be awarded whenever finished. Seven patrols were represented in the advancement session and under the direction of the patrol leader instruction in various tests were given.

In order to take care of new scouts, two new patrols were organized and the leaders were named through the junior council from a list of eligible scouts who were recommended for their leadership ability. Bert Allen Streeter was chosen for one new patrol leader and John Sindorf was selected as his assistant. Frank Trosteth was selected for the other patrol and Preston Dickson was named his assistant. There are eight patrols operating in a troop at the present time and leaders are being arranged for two new patrols within the next month.

Following the regular meeting a session was held for the patrol leaders to make plans for the court of honor next week. Each patrol is scheduled to have a stunt ready and fifteen scouts will be used in the investiture of new scouts. It is to have an all day meeting at the scout hall Saturday in preparation for the court of honor. All scouts are requested to be there some time during the day to complete their work.

TO SILVER CITY.

J. B. Kelley of the C. G. Morris variety store has been called to Silver City, N. M., on business with the store there.

War on Disease

The battle against disease goes on slowly, relentlessly, in the end usually productive of new developments to lessen the annual toll of lives.

Once in a while, scientists aiming for one result, stumble accidentally upon another, totally different from but as significant as the one they sought. Something like that happened when a Washington physician used the new drug, sulfapyridine to combat pneumonia germs. The doctor's patient was also infected with influenza germs, and the drug destroyed not only the pneumonia bacteria but the influenza germs as well.

Subsequent experiments by the U. S. Public Health Service have borne out the theory that sulfapyridine can be used effectively against influenza. But scientists are unwilling to accept the findings as definitive until exhaustive research has been completed.

At all events, there is some reason to believe that important progress has been made. The drug must be used with considerable care, and it will probably be some time before it is generally accepted. But the discovery may be the beginning of a fresh battle on influenza.

SO THEY SAY

A Suggestion to Our Area

(Lubbock Avalanche.)
A news story Sunday relating that the harvest of a sugar beet crop valued at more than \$150,000,000 is in full swing will serve to remind those informed on the subject of a possible agricultural opportunity for the South Plains which has been most effectively discouraged by federal crop control.

Enough experiments have been conducted in this area to demonstrate that, in many sections of it, sugar beets yield abundantly. The claim is made that in many such sections, the return is greater than from lands in portions of the nation where sugar beets are practically the only crop. In other sections of the South Plains, where diversified agricultural opportunities exist, the need for assistance from government is such that tests have not been permitted under government control on a sufficient scale to supply a real knowledge of the sugar beet possibilities of this section. Government approval is necessary because there simply is no market for those grown independently.

This would seem to be a dangerously short-sighted policy on the part of the government. Not only is sugar an essential food, but its chemistry is such that it is devoted to a long list of other vital uses—including munitions manufacture among others. Therefore, it is to the national interest to know just where it can be produced, surely and abundantly, if the emergency should arise. The more urgent the emergency, the less time there will be for experiment.

Large scale sugar beet production on the South Plains at the present time would be of great benefit to the area. The tests have gone far enough and the results have been sufficiently encouraging to justify the continuation of experiments on a large enough scale to determine definitely just what can be done if the necessity arises. It is a type of experiment which could prove most profitable at very little risk to the government, and to our area.

However, if such experiments are authorized, the initiative must come from this section. There isn't much probability that our regular feet acreage under government crop control will be increased just passively unless it is sought. Therefore the effort should be made for the very selfish reason that it might increase the area's agricultural income while helping to render a national service.

Red Cross Needs Are Greater, Mrs. Haley Asks Help

Faced with a growing demand for Red Cross assistance to the stricken populations of Europe's warring nations and a need for strengthening its domestic operations, the American Red Cross will embark November 1 on the greatest membership campaign since the World War. Mrs. John Haley, chairman of the Midland County Red Cross chapter, declared today.

The appeal, she said, will be carried by the 10,000 chapters and branches of the organization located in virtually every community in the country. Starting Armistice Day, Roll Call will extend through Nov. 30.

"Prior to the outbreak of hostilities in Europe," Mrs. Haley said, "the American Red Cross planned to appeal for a million more members in an effort to strengthen its services in this country. War, however, has increased the responsibilities of the Red Cross to the point where even greater membership support is needed to meet the appeals from abroad."

"The Red Cross is obligated by the Treaty of Geneva to assist in alleviating the sufferings of war. Our chapters throughout the country already have started the production of garments for the needy civilian populations of belligerent countries, while a limited number of chapters are now preparing hundreds of thousands of surgical dressings for use at the front."

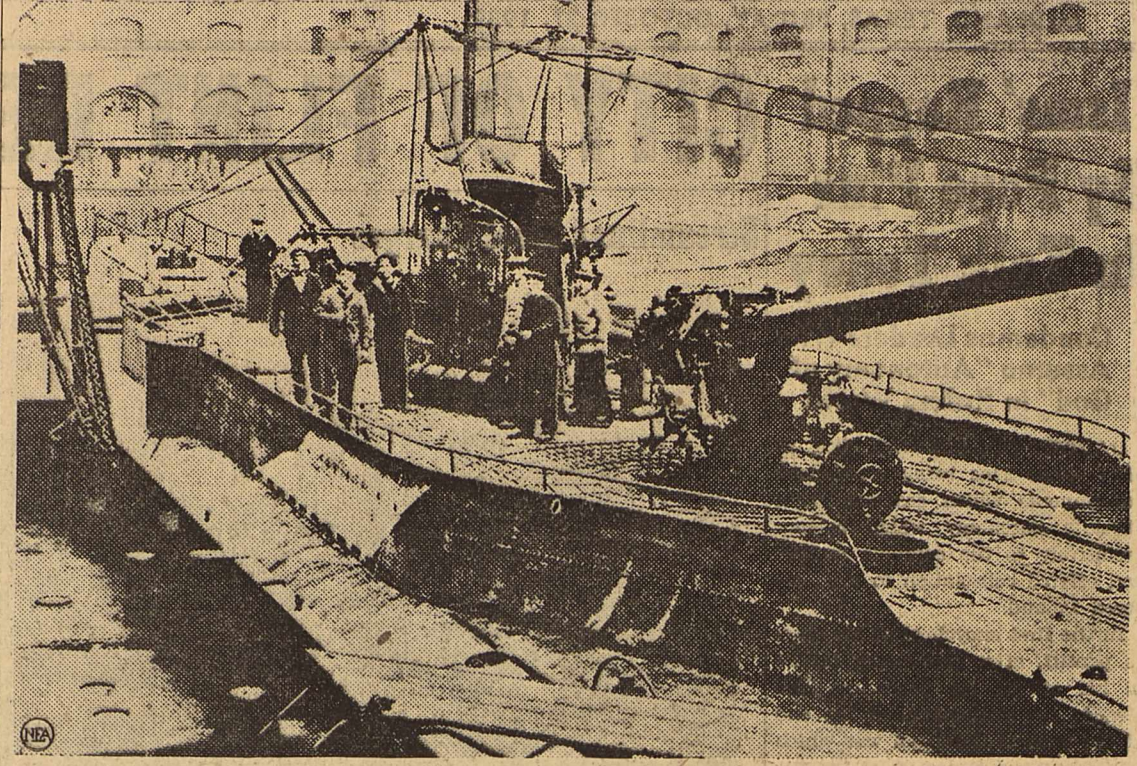

The success of the Roll Call this year will gauge the amount of assistance the American Red Cross can give the sick and injured of war and the comfort that can be brought to refugees and other non-combatants fleeing the danger zones, Mrs. Haley said.

"At the same time, the Red Cross must be prepared to continue its battle against human suffering in this country," the local chairman said. "The Red Cross has been constantly increasing its volume of service during the past few years. Along the nation's highways, in the homes of the underprivileged, in hospitals, military stations, schools and at the scene of disaster, the Red Cross is facing a challenge for greater service."

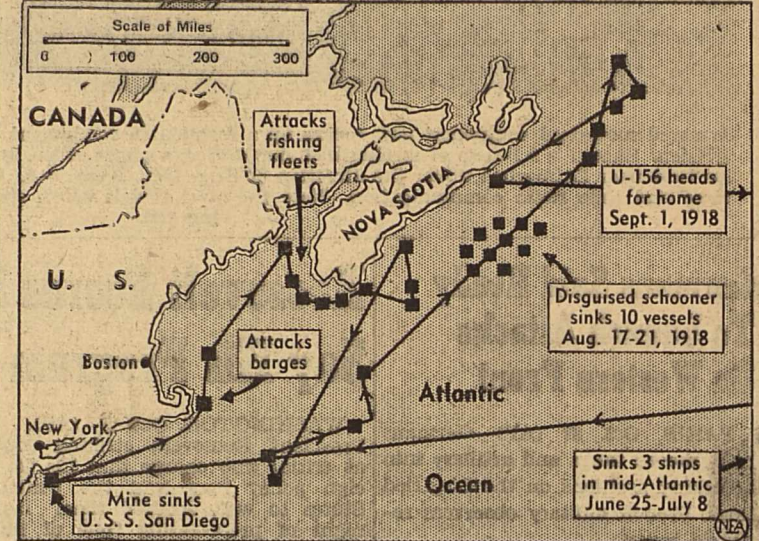

The 12-month period extending through June of this year, she pointed out, brought to this country the largest number of disasters in his-

How German Subs Sank 100 U. S. Ships--

U-BOAT BATTLED LOWLY TUG IN WORLD WAR COMIC COMBAT

Supplies for many months and shells for many attacks could be carried in the huge hulk of the German raider U-156. Her sister ship, the U-155, is shown above.

Map shows where U-156 and fishing schooner it armed sank 34 vessels while weaving treacherous path through American waters, June 15-Sept. 1, 1918.

This is the second of a series of four stories on German U-boat activity against American shipping during the World War.

BY SAMUEL TAYLOR MOORE.
Written for NEA Service.
Fishermen on Cape Cod still chuckle when they tell you the story of a raiding U-boat's comic opera engagement with a railroad tug and four barges off Orleans the morning of July 21, 1918.

Whether Kapitän Leutnant von Oldenburg of the U-156 was drunk with beverages, or merely with success, they cannot say. No submarine commander in his senses would have wasted three torpedoes on the unimpressive targets this one selected.

Fishing crews had been fruitlessly searching for U-boats by sea and by air, but it was the privilege of Cape Cod natives and summer visitors to see one in action. Most of the latter were still in bed when the U-156 sent its torpedoes shuttling through the water toward the 435-ton tug Perth Amboy with its four barges in tow.

All three charges missed, so von Oldenburg popped his vessel to the surface. For the next hour and a half a crowd demonstrated the poorest marksmanship seen since Aunt Tillie tried to ring the big gong in the Coney Island shooting gallery. Just as Aunt Tillie finally climbed over the counter to make sure she wouldn't miss, so the submarines closed in on its targets. It finally sank the four barges and set the tug on fire.

Attracted by the shooting, people lined the shoreline like fans at a softball game. Coast guardsmen fired with rifles from the shore, but the sub was just out of range.

SEAPLANES ADD THEIR BIT.
From Chatham naval base, four seaplanes joined the attack. Their bombs failed to go off. It was said German spies had tampered with them.

Six seamen were wounded by the guns of the U-156, but the tug itself floated and was salvaged. After this opera bouffe, von Oldenburg sailed for the fishing banks.

He captured a trawler, armed it with a deck gun and sent it out to destroy unsuspecting fishermen. If von Oldenburg or his crew were drunk at the time of the attack on the barges, they had reason for celebration. During the week preceding the U-156 had been laying mines along the lanes to New York harbor.

Two days before the Cape Cod race, one of these mines claimed the armored cruiser, San Diego, only U. S. Navy fighting ship sunk on this side of the Atlantic. Only six lives were lost among the crew of 1189 officers and men when the 14,600-ton vessel with 30-odd guns, went down off Fire Island.

LONE U-BOAT SANK 34 SHIPS.
The U-156 had left Germany about June 15. Ten days later she sank the 4175-ton British steamer Tortugero, first of this U-boat's "bag" of 34 vessels aggregating 25,000 tons.

Disguised as a steamer, she crept up on the U. S. S. Lake Bridge in mid-Atlantic July 5. The Lake Bridge returned fire and outdistanced the raider after a hot fight. Two days later the U-156 sank the 1987-ton Norwegian bark Ma-

serve Nov. 23 as Thanksgiving. Chief reasons for observing Nov. 30 as Thanksgiving Day are the football game between Odessa and Midland, and the fact that other towns in West Texas are observing that date.

FORT WORTH, Tex., (AP)— America will find its heavy munitions industry badly inadequate if large demands are placed upon it soon, according to Thomas D. Jolly, president of the National Association of Purchasing Agents.

Jolly said that he knew of no American factory equipped to turn out large-scale ammunition, and that a recent order placed by the U. S. war department for experimental purposes resulted in an output that was not acceptable to the army inspector.

Gene Howe, the Tactless Texan in the Amarillo Circle, who spoke out straight from the shoulder with his opinions of Lindbergh's chances in national politics, also has voiced definite opinions of the Germans and their propaganda.

The stupidity of the Germans is the most amazing thing I have ever observed. They are wonderful people and have done some very wonderful things but why is it that they can never turn out any diplomats that have any brains or common, practical sense?

Goebels, one of the German ministers, is now charging that the Athena was sunk by three British destroyers. He says so in so many words when the whole world knows that it was sunk by a submarine. But Goebels in an ever observed stately way says:

"How could you say, Mr. Churchill, that the Athena was sunk by a German torpedo when you know it went down under the fire of three British destroyers?"

Goebels is giving that out to the world in spite of the fact that there were a thousand or more passengers on the Athena and most of them were saved. And they didn't see any destroyers and they couldn't have seen them plainly if they had been within range.

There were a whole group of Texas people on that boat and they all know it was sunk by a torpedo fired by a submarine. Why doesn't Goebels claim it was a British submarine and not a German U-boat? But why tell a lie that can be so easily proved to be a lie?

Over at Kermit, according to the press, the sportsmen have bought fifty head of calves and organized a calf roping club, in an effort to revive the sport which has been heavily cut into by football and baseball.

If any sport can compete with football at this heated stage of the season, it will have stamped itself as stellar entertainment. Football is being talked three times a day with meals in 75 per cent of the American homes, or I miss my guess.

BABSON PARK, Mass., Oct. 27.—Ever since I visited the Philippine Islands last month, I have been wondering why the United States Government sent several hundred "unemployed" farming families to Alaska instead of the Philippines. I confess that I am not an authority on the Islands, having stayed there only four days. Certain visionaries, however, have not spent even four minutes in this locality. Hence, for those interested in 1940 "pioneering," let me say something now about the Philippines. It is a subject to which ninety-nine per cent of Americans have given too little thought—of this I am firmly convinced.

From purely a trade point-of-view, the Philippines are not too important to the United States. Their foreign trade is less than 3 per cent of the United States total. I am told that Java could land sugar in the United States after payment of duty for about what it now costs the Philippines to produce it. Sugar, however, is not the only important product of the Islands although it is the one that people in the United States hear most about.

COPRA HEMP NEEDED HERE.
Copra and other products of the coconut are very important. From copra comes the oil which is used in fine soaps, margarines, and cooking oils. The dairy and cottonseed interests of the States object, however, to importing this copra duty free. Rice is another important Philippine product, although not enough is raised to satisfy the needs of the Islands. Hemp is the outstanding raw material which the people of the United States gladly welcome free duty.

The Philippine Islands produce the finest hemp in the world. The production of tobacco and the manufacture of cigars is on the increase. So are other industries. Most of these compete to some extent with business in the States.

Even Hollywood is jealous because the Philippines are now coming up among countries making moving pictures. On the other hand, the Islands are the big purchasers of many of America's products. At a public discussion regarding the complete independence of the Philippines, I stated that the Islands must not expect "both to have their cake and eat it, too." That is, they must choose either a territorial status and free trade with the United States—or "independence" and the payment of the same duties which other foreign nations pay.

ISLANDS VITAL TO OUR SHIPPING.
The same statement applies to the people of the United States. We cannot expect the Philippines to buy our machinery, automobiles, radios, textiles, and a thousand other of our manufactured products unless we are willing to buy their sugar, copra, tobacco, hemp and other raw materials. Since the war, the Philippines have become an even better customer of the United States. This is a very important fact to remember. If China, the Islands were very happy over the idea. Since then, however, many thoughtful Filipinos have been worrying. They are now asking themselves two questions: (1) Will the Japanese try to take the Islands after 1946; and (2) Could the Filipinos protect themselves if Japan should try to take them? Frankly, there seems little point in discussing these questions today. Great world events will take place between now and 1946.

NO FEAR OF JAPANESE.
Yet, I do not now see how, without considerable help from us through tariff concessions and otherwise, our "little brown brothers" can raise the money necessary for military protection against Japanese invasion. Today, however, the Philippines have no fear on this score. They are both brave and proud. They have heard so much all their lives about the advantages of full independence, that they are determined to try it. However, conditions in the Orient during the next ten years may result in the disadvantage of the Philippines.

Meanwhile, the Philippines will continue as the frontier of America. The chief argument of our 8,000,000 unemployed is that virgin fertile land no longer exists in the United States. For them, the Philippines are a far better bet for such homesteading. They have fertile soil, sufficient rains, and every agricultural advantage. No one starves.

HOMESTEAD.
Moreover, I believe the cost of living there is lower than in any other part of the civilized world offering similar opportunities. I certainly would like to see the United States buy land in the Islands and open it up to American farmers on a homesteading basis. The Philippines have millions of acres of wonderfully fertile and healthy land and a friendly and progressive people. Much of our United States is mere sandhills compared with what the Philippines can offer.

The only hope for 8,000,000 of our unemployed is a return to the land. The Philippine Islands have millions of acres of good land which need farmers. I do not mean one-crop farmers, but those willing to raise all they consume except their shirts and shoes. I do not know whether or not this is practical, but it surely should be thoroughly tried out before 1946. The answer to such an experiment should largely determine the decision as to the future relationship between the United States and these rich but distant islands.

LOCKPORT, N. Y. (AP)— This Niagara County city claims to have the most streamlined session of federal court in the United States.

The court is held once a year and lasts long enough for a U. S. marshal to open and adjourn it. It convened at 10 a. m. this year, and closed half a minute later.

The same practice has been followed for the past 21 years. Each year a term is scheduled for Lockport but no cases are tried.

Fleming Assumes Wage-Hour Job

Putting in a little overtime himself until he learns the job, Lieut. Col. Philip Fleming takes over duties of wage-hour administrator at Washington just a year after law was passed.

New Trial Sought By Walter Stapp

SAN ANGELO, Oct. 27.—A formal motion for new trial in the case of Walter Stapp, convicted Thursday with fatal shooting of Jack Runnels and sentenced to 12 years in the penitentiary, was filed today, the defense counsel of B. W. Smith, San Angelo, and Hill D. Hudson, Pecos, said.

The request may be taken up by Judge O. L. Parish, immediately, otherwise ruled on during the present term. It is expected to include two statements made by the prosecution Wednesday in arguments to the jury.

In both, spoken by District Attorney O'Neal Dendy and his assistant in the case, Robert B. Brown, references were made to the fact that Stapp did not take the stand in his own defense. Subsequently motions for mistrial, overruled by the judge, contended that these were not lawful, and thus were grounds for voiding a jury's verdict.

The verdict was announced yesterday at 9 a. m. shortly after the body had reopened following almost 10 hours of deliberation Wednesday.

Many Pan-American Students at Univ.

AUSTIN.—On the ground floor of the University of Texas' proposed Latin-American Institute, to be opened next fall, is an already large nucleus of students from Pan-American countries.

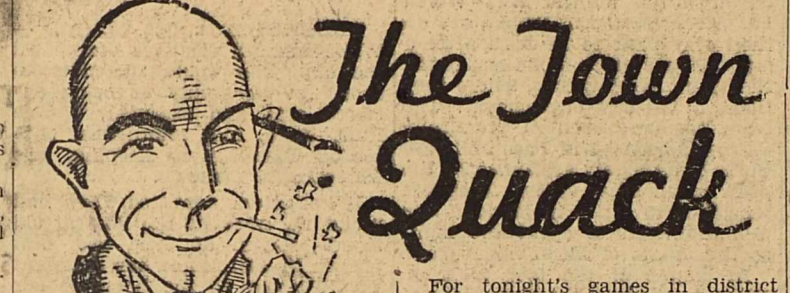

Among the 83 foreign students enrolled this year are 50 from Mexico, ten from the Canal Zone, four from Puerto Rico, two each from Brazil and Cuba, and one each from Colombia, Paraguay and the Santo Domingo Republic.

Latin-American students this week were stimulated by the visit on the campus of a group of famous Latin-American women touring the United States on commission of the People's Mandate to End War, a Washington, D. C., committee.

The delegation lauded the University for its emphasis on Latin-American affairs, and praised the extensive Latin-American collection in the University library.

Already taught in the University are almost two-score courses in language, literature, anthropology, government, history and education of Latin-American countries and peoples.

The bark of the giant Sequoia tree is not hard and tough, as might be expected. It is so soft as to be quite spongy, yet fire seems unable to penetrate it, while insects dislike it as much as insect powder. The tree's greatest enemy is man.

The Town Quack

For tonight's games in district 3-AA, I'm going to pick the winners as follows: Midland to beat Big Spring, San Angelo to beat Sweetwater and Abilene to beat Lamesa.

Gene Howe, the Tactless Texan in the Amarillo Circle, who spoke out straight from the shoulder with his opinions of Lindbergh's chances in national politics, also has voiced definite opinions of the Germans and their propaganda.

The stupidity of the Germans is the most amazing thing I have ever observed. They are wonderful people and have done some very wonderful things but why is it that they can never turn out any diplomats that have any brains or common, practical sense?

Goebels, one of the German ministers, is now charging that the Athena was sunk by three British destroyers. He says so in so many words when the whole world knows that it was sunk by a submarine. But Goebels in an ever observed stately way says:

"How could you say, Mr. Churchill, that the Athena was sunk by a German torpedo when you know it went down under the fire of three British destroyers?"

Goebels is giving that out to the world in spite of the fact that there were a thousand or more passengers on the Athena and most of them were saved. And they didn't see any destroyers and they couldn't have seen them plainly if they had been within range.

There were a whole group of Texas people on that boat and they all know it was sunk by a torpedo fired by a submarine. Why doesn't Goebels claim it was a British submarine and not a German U-boat? But why tell a lie that can be so easily proved to be a lie?

COURTNEY, WATER VALLEY TEAMS READY FOR SIX-MAN GAME HERE

Teams to Meet On Lackey Field Tomorrow Night

Midland's first game of six-man football will be played here tomorrow night between teams of the Courtney and Water Valley schools. The game will start promptly at eight o'clock on Lackey field. Admission will be 25 and 10 cents.

The teams are two of the best in West Texas, Courtney having remained undefeated through five games and the Water Valley team having won three of the four games it has played.

The Courtney, sparked by a full-back named Pinkston, has scored 126 points while allowing 20 to be scored against it in the five games played. However, Pinkston will be out of the game tomorrow night on account of injuries he received in a game last week. Despite the injury, that kept him out of the game nearly all the way through, Pinkston went in in the closing minutes of the game and crashed over for a touchdown to give his team a 12-6 win over Sterling City. There is a chance he will get in the game here tomorrow night only if his services are needed.

Because of their undefeated record, the Courtney boys will rank as the favorites to capture the game. The Water Valley boys are reported larger but correspondingly more inexperienced. This is the first year in the league for the Tom Green county lads while the Marlin coun-

ty boys played last season. A large crowd is expected to be on hand to witness the "Junior" grid game since most of the football fans of the city have never seen a game. The miniature game has rapidly spread over the country and in many places draws crowds comparable to Class A-1 football games. The six-man game is admittedly faster than its "big brother" since backfield men are not allowed to run with the ball but must pass or punt on every play. With fewer men on the field, spectators are afforded a much better chance to watch all phases of the game than when 11-man teams play.

Coach Robinson of the Courtney team has announced that if football fans here indicate they will support the six-man game he will bring his team back to meet the strongest opposition that can be matched.

Probable starting line-up for Courtney will be Graham, left end; Cox, center; Jones, right end; Kelly, quarter back; Lewis, half back; Schuelke, full back.

ACCIDENTS ON FARMS UP. COLLEGE STATION. —Accidental deaths are more frequent on the farm than elsewhere, according to accident studies of farms and other occupational groups made recently by the United States Department of Agriculture. According to M. R. Bentley, agricultural engineer for the A&M College Extension Service, factors conducive to farm accidents are the need for haste in rush seasons, which often means working after dark or with makeshift repairs and occasional attempts to use "home-made" electric wiring.

RAMPAGING OHIO STATE SOPHOMORES PUT BUCKEYES BACK IN THE NATIONAL EYE

BY JERRY BRONDFIELD
NEA Service Sports Writer

COLUMBUS, O. — The football gentry in this town are among the most critical in the world, and early this September they predicted Ohio State wouldn't go much further than a blocked punt.

Now that the resurgent Buckeyes shap up as one of only a half dozen remaining contenders for the national championship, the High Street quarterbacks are delighted to have been wrong for the first time in their lives.

There are four or five reasons why the Scarlet Scourge has rid itself of that anemic tinge of the last three campaigns.

Francis A. Schmidt apparently has forgotten that he ever was a bayonet instructor during the war and has tempered his colorful language accordingly.

For the first time since he stepped on The Oval in 1934 Schmidt has been seen to actually compliment a boy on a particularly fine piece of work. Quite a bit of the time he speaks in a moderate tone. He has ceased much of his side-splitting tactics and the boys have responded admirably.

SOPHOMORE TACKLES HAVE CLICKED FROM START

When practice started this fall Schmidt didn't have a single first-line tackle remaining from 1938. The best he had were a couple of very mediocre reserves.

Schmidt gambled with a converted junior center, Charley Maag, and five sophomores.

Ernie Godfrey, the capable little line coach who promises a new hat to every man who blocks a punt, turned in a fine job of development when he took those six boys and fashioned the strongest tackle brigade in the midwest.

Chief among this group is Jim Daniel, 210-pound kid brother of Averil Daniel, Pitt All-American of 1936. Critics say Jim already is a better lineman than the former Panther star.

The Buckeye team is a young team and a spirited team. A member of the athletic staff informs us this is the first time he can recall that there hasn't been a trouble-maker of some sort on hand.

GRIDDERS TAKE TIP FROM CAGE CHAMPIONS

A lot of credit must go to a boy who is no way connected with the squad, Jimmy Full, captain of Ohio State's conference basketball champions, last winter started something when he held weekly pep meetings at which the boys talked things over, ironed out their difficulties and vowed to keep strict training rules.

Steve Andrako, center and captain of the football team, borrowed the idea. The results have meant a world of difference in the brand of football the Scarlet is playing.

Esko Sarkkinen, a 190-pound Finn, is the best Buckeye flanker since Marie Wendt. Frank Clair, 260 pounds, is at the other terminal. Backing them up are Ross Bartschy, letterman, and Charley Anderson, colored sophomore passer.

Charley Maag, 215-pound junior, and Daniel, are the top-rank tacklers. But sophomores Jim Piccinini, Thornton Dixon, Jack Stephenson and Len Thom push them plenty.

Vic Marino, senior vet, and Bill Nosker, a 195-pound blond who should be posing for collar ads, play the guards. Behind them are a couple of fierce sophomores, Fritz Howard and Ed Bruckner.

Captain Andrako holds down the pivot. Behind him is still another sophomore, Bill Bell, a 195-pounder who should be a terror next year.

HERE'S QUARTERBACK WHO REALLY IS USEFUL

Cold analysis shows the backfield to be the best in the Big Ten. Don Woodrow Adams, 225-pound sophomore, will start at left tackle and Bill Crawford, 190-pounder, will start at right tackle.

Jim Daniel

Scott, a 205-pounder kicks, passes, runs and blocks with equal ability. Jim Strausbaugh, speedy left halfback, is a corking climax runner. Frank Zadowney, 195-pound blocking right half, is as gentle as a tank. Jim Langhurst, 188-pound fullback, is the best line-cracker in the midwest. And he was fast enough to outdistance George Franck, Minnesota sprint ace, in an 88-yard jaunt to the goal line. Zadowney is the only senior. The other three are juniors.

Jack Graf, son of Ohio State's 1914 fullback, Honus Graf, is a corking sophomore quarterback reserve. Dick Fisher and Howard Wedebrook—the latter punts 65 yards—are the halfback replacements. Johnny Rabb and John Hallabrin back up Langhurst.

The Buckeyes have it in the air and on hand this year—better balance than they've ever had. But they owe everything to that intangible thing called spirit.

Revised Lineup to Open Against Gents For Horned Frogs

FORT WORTH, Oct. 27. —Only four Texas Christian players who rated as starters at the beginning of the season will take the field against Centenary in Shreveport Saturday, and two of these four will be playing a new position.

Most important shift announced by Coach Leo R. (Dutch) Meyer is Connie Sparks from fullback to left end. This experiment is being tried in the interests of 1940, but it may help in 1939.

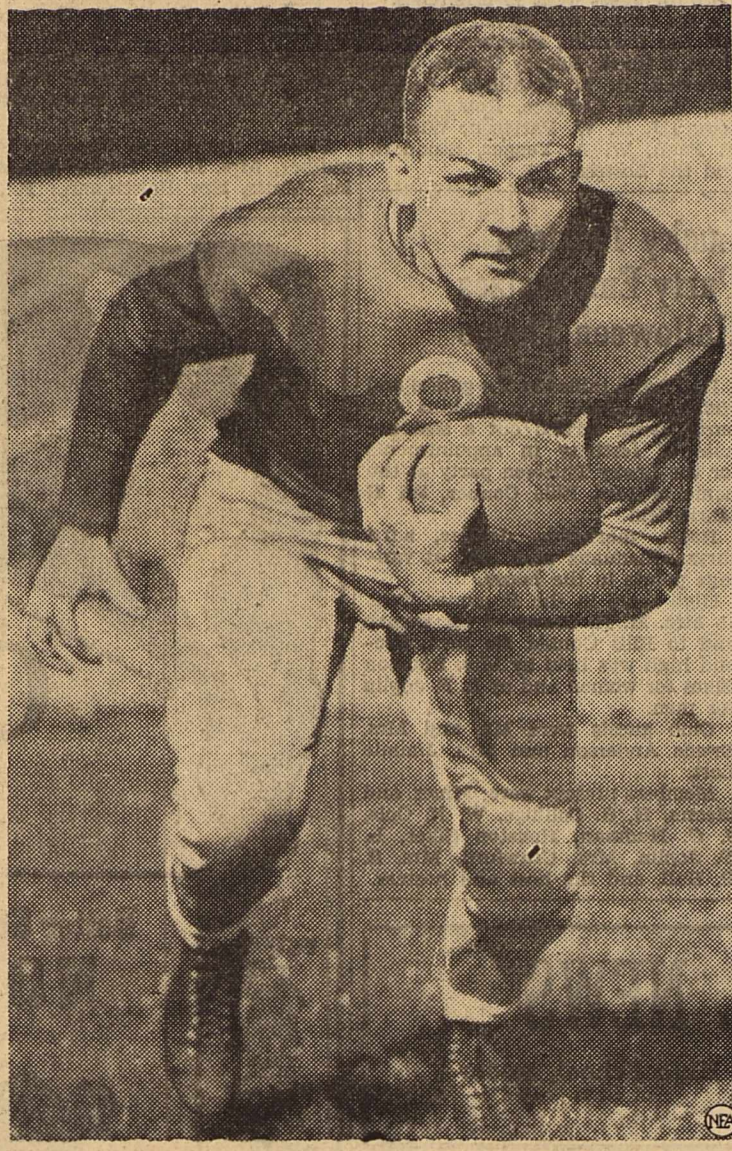

Sparks has taken to his new duties with a bang, and Kring is looking mighty good at the vacated fullback post. We may have something in this switch," says Meyer.

Frank Kring, 195-pound sophomore, got his first big chance in the Arkansas game, and has shown a lot of stuff since whenever he has broken into the lineup.

The other shift moves Durward Horner from left to right end, but since Horner has been playing the right side on defense all along, this shift involves little new.

Woodrow Adams, 225-pound sophomore, will start at left tackle and Bill Crawford, 190-pounder, will start at right tackle.

Recipe for Three Extra Yards

Jim Langhurst... Scarlet fullback travels hard, and fast.

Expect Record Crowd To See Aggies Tangle With Bears Tomorrow

COLLEGE STATION, (A&M) —When Texas A&M and Baylor University meet at Kyle Field here Saturday, at 2:30, it will be a game that will attract a near-record crowd for a game between the Aggies and the Bears.

Two years ago when the teams met they were both undefeated in conference play, although the Aggies had played a tie with TCU. That game drew a crowd of almost 18,000 and set a new non-Thanksgiving attendance record at College Station.

It is sad to bring up unpleasant history but when the final gun was fired, that day the Bears were still undefeated and the Aggies were out of the running for the championship that year.

This year both teams are undefeated in their conference schedule and are tied with University of Texas for the top rung of the ladder. The Aggies have a clear slate in all games played but Baylor dropped a tough one to Nebraska last week and Texas bowed to Oklahoma University earlier in the season.

The Cadets are reported in top physical shape and grapevine news out of Waco says that the injured Bears will be ready when it is time to kickoff.

The present seniors on the team never have seen an Aggie team lick Baylor since they entered the college although they have seen them yet started a game.

Fred Shook at center, Bobby Sherrod at right guard and Ennis Kerlee at right tackle are the regular starters at these positions.

Jack Odle's broken thumb will keep him out of competition for at least another week. Rusty Cowart will continue to carry on at quarter.

Spud Taylor, who played one of his best games against A&M, after Earl Clark was hurt, will continue on the left half job, as Clark's knee will keep him on the bench for at least this Saturday.

Jack Herring started at right half last week and will start again against Centenary. Logan Ware, regular right half is still laid up with injuries.

Kring, as noted, will take over the fullback duties.

Only two seniors appear in this starting lineup—Horner at end and Taylor at half.

Longhorns Out to Break Jinx Held By Owls 5 Years

AUSTIN.—The game of games for the Texas Longhorns is at hand—Rice institute at Memorial stadium here Saturday.

Although Texas A&M is Texas U's traditional enemy, circumstances have shoved the Owls into that position as far as the players themselves are concerned. Reason, of course, is to be found in the five straight defeats Rice has plastered on the Longhorns, and the fact that Owl elevens have won seven of the last nine games played.

This week in practice the Longhorns have shown unusual determination and eagerness to "get ready," and Coach D. X. Bible said today he felt they would be mentally and physically right.

The shoe fits the other foot, too, and Rice will be as ready as Texas. It all adds up to the banner game of the home season. If the weather clears by the week-end, attendance may hit 25,000 or even 30,000. Advance ticket sales have been heavy.

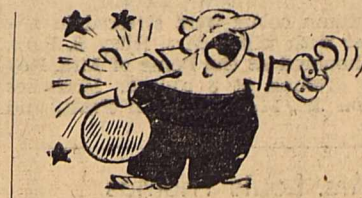

A mystery angle has been added to pre-game publicity because of Coach Jimmy Kitts' "censorship" of Owl practice news. Reporters and all other outsiders have been barred and the Owls will be working this week in strict secrecy. Whether Kitts plans sweeping lineup or play changes will not be revealed until the kickoff Saturday.

Some hope prevails here that Texas' one-clipper attack will start clicking on two in the Rice game, i. e., that injured Pete Layden will be in there chinking some passes as a variation from Jack Crain's goal-threatening runs. Layden has been out of action since the Florida game and Crain has been the big gun of the offense. He has scored five of the Longhorns' eight touchdowns on runs of 12, 35, 70, 71, and 69 yards, and he put them in position for another with an 83-yard punt return against Arkansas.

Coach Bible announced his probable lineup as follows: Neely and McDonald, ends; Williams and Myers, tackles; Dawson and Daniel, guards; Goodwin, center; Grubbs, quarter; Crain and Puett, halves; Patrick, fullback.

The Rice and Texas freshmen will start the shooting Friday night in an arc-lighted game on the local high school field.

Imperial Airways of England now carries more than 1,250,000 pounds of mail every three months. This is approximately 50,000,000 letters.

Humble to Broadcast Two Southwest Games

With two top-notch Southwest Conference football games scheduled Saturday, the eyes and ears of Texans will be on Austin and College Station; the capital city will be the scene of the Rice-Texas game, while unidentified Texas A. & M. College meets Baylor on Kyle Field at College Station. Both games will be broadcast by the Humble Oil & Refining Company, beginning at 2:20 p. m.

The Aggie-Baylor game will be described by Kern Tipps, who will be assisted by Hal Thompson as color announcer. Humble's broadcast can be heard over stations WACO, Waco; KPCC, Houston; WOAI, San Antonio; WFAA-WBAP, Dallas-Ft. Worth.

The Texas-Rice contest will be broadcast over a network of 13 stations: KNOW, Austin; KXYZ, Houston; KPDM, Beaumont; WRR, Dallas; KABC, San Antonio; KFJZ, Ft. Worth; KRBC, Abilene; KGGI, San Angelo; KGKE, Tyler; KTEM, Temple; KRGV, Weslaco; KRIS, Corpus Christi; KBST, Big Spring.

The Humble Company has retained Cy Leland to give the play-by-play description of this game; he will be assisted by Eddie Dunn, who will handle color.

WALTHAM, Mass. (U.P.) — "Man bites dog" may be news to most people, but not to Joseph Lawlor, 32. A dog trainer, he bites dogs as part of his training technique. Lawlor's theory is that a retaliatory bite quickly teaches a dog how it feels when the same dog has bitten someone. He reports, from application of his theory, excellent results with vicious dogs.

SIDE GLANCES

"Here's another letter from old man Turner's kid with no stamp on it—the boy must've got in with a pretty fast crowd at college."

COLUMBUS, S. C. (U.P.)—A young woman, arrested for driving past a red light, said she had done so because she was preoccupied with an excellent sermon she'd just heard. The judge asked the subject. She answered: "The handwriting on the wall." Case was dismissed.

7:30 p. m.—Preaching.
3:00 p. m.—Tuesday—Women's Bible class.
7:30 p. m.—Wednesday—Bible study.

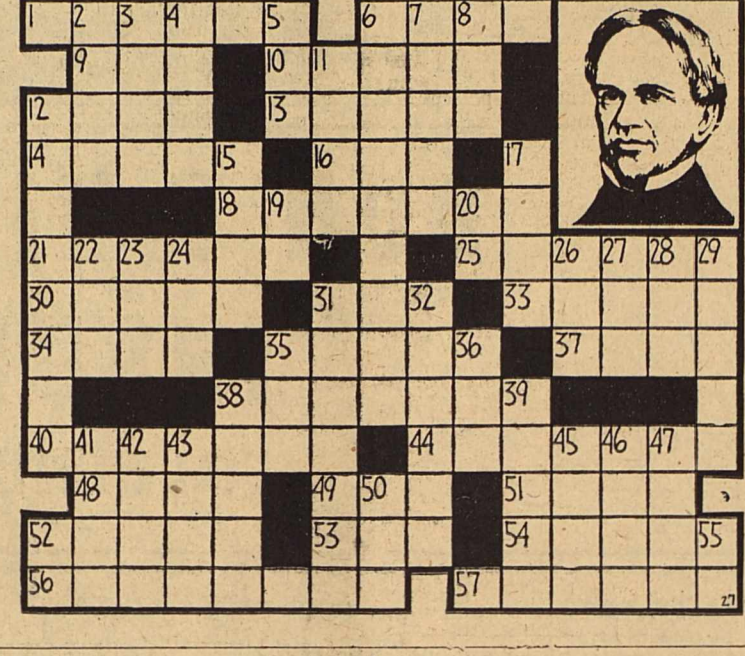

CHRISTIAN SCIENCE SERVICES
"Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all churches of Christ, Scientist, on Sunday, October 29.
The Golden Text is: "Cast away from you all your transgressions, whereby ye have transgressed; and make you a new heart and a new spirit: for why will ye die, O house of Israel?" (Ezekiel 18:31).
Among the citations which comprise the Lesson-Sermon is the following from the Bible:
"If thou, Lord, shouldst mark iniquities, O Lord, who shall stand? But there is forgiveness with thee, that thou mayest be feared" (Psalms 130:3, 4).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy:
"Let us remember that the eternal law of right, though it can never annul the law which makes sin its own executor, exempts man from all penalties, both those due for wrong-doing" (page 385).

one is playing politics?
I wonder what Germany thinks about Russia's getting control over the Baltic Sea and the Gulf of Finland. Do you suppose they will get jealous of Russia? We hope so.
Paul Goebels, Nazi propaganda minister, and Winston Churchill, First Lord of the British Admiralty, are still arguing about who sank the Athena. They may fool around and make us sore, yet, and we'll find out who did it.
One of the American freighters picked up the crew of a French tanker that was torpedoed off the coast of France. Wonder what Germany thinks about that? Looks as if we might have been accused of falling to stop and render aid if we hadn't.
CHARM COLUMN
Wanda Girdley
So many of us have more spare time than we realize. Why can't each of us utilize it to a good advantage? Our own library is at our disposal as well as is the County Library. And you must know that a few moments with a good whole-some book are never moments ill spent.
To listen and learn is a good habit to form. But it is better to turn a deaf ear to some of the conversations we hear on our streets today, and live in ignorance.
If you would be a possessor of charm, be yourself, not a chameleon that changes to every newly met personality just to be popular.

FISH ROW
High School
Dear Chickadees:
The freshmen came through O. K. on exams, that is most of us did. We have a clean slate; next time hope to do better than—well, even the seniors.
Billy Howze, our ardent Spanish student, proved himself a hero by taking home an "A."
Most of the choral readings and songs we don't know; so we have to put our brains to work to catch up with the upper classes. 8A is learning the "Marshes of Glynn," so it can't be said that we are the laziest freshman class that ever entered high school.
Oh, dear! Aches, pains, pulling hair, and what not! Algebra is getting me down. Imagine having to learn to multiply "backwards" after seven years "forwards." Maybe I am crazy!
Bon jour (till next week).
Merrile Freshie.

POET'S CORNER
HALLOWEEN
Tommy Carter
When the nights are growing chilly, And the days are growing short, People all start talking silly, About ghosts that moan and snort.
Hallowe'en is very near, With funny sights and noises queer, And boys and girls dress up in sheets, And prawl around like ghosts in streets.
Hallowe'en parties are lots of fun, For young and old and everyone. They tell ghost stories that make you quiver, And rattle your bones until you shiver.
Pumpkins cut in funny faces, Stare at you from lots of places, And witches ride on brooms they say, And carry bad little boys away.

GOODFELLOWS COLUMN
H5—Billie Ann Hill
By Rose Beth Shirley
Billie Ann Hill is one of Jr. High's best students and a favorite in H5. She always brings up her school work. She is always friendly with everyone. Billie Ann never cheats nor argues with her playmates. She is a good sport in every way, and everyone likes her.

5A—Claire Stewart
By Ann Cummings
Claire Stewart is our goodfellow this week. She can be counted among the small but mighty. Claire is a dynamo of personality and is a favorite among the teachers and her friends. Ask any of them.

5B—"Bitsy" Vertrees
By Dorothy Rhea Wolcott
Well, it is a good fellow week again. Charles Vertrees, "Bitsy" in other words, is our subject for the week. "Bitsy" is an all around good fellow. I suppose you've heard about his football team, and the big game last week. We of 5B think Charles is a swell guy, and look forward to seeing his name in the world of sports some day.

5C—Billy Brown
By Billie Jean Calloway
Billy Brown really is a nice fellow. He always seems to have more fun than anybody, especially playing football. He is the news reporter for 5C class. And when the class doesn't give him any news, he thinks up something to say himself. He is a grand play-fellow on the school ground; he is always kind to everyone. Billy is happy all the time. One never sees him out of sorts. He likes to do things for other people and his teachers. He made good grades on his report card the first six weeks.

7A CLASS NEWS
Hubert Drake, Stanley Blackman, Charlie Patten, and Leon Beyerly went to Sandhills Saturday with the scouts.
Wanda Jean Girdley went to Peeco and spent the week-end. She also saw "The Man Who Couldn't Be Hung" at the Cactus Theater in Peeco.
Patsy Tull and Otella Flynn went to Balmorhea with Elsie Scholser Sunday to see Uncle Sam's army put on a big show.
Sammy Hale and Charlie Patten

are the casualties of the room this week. Sammy has a black eye from football practice and Charlie a bad knee from an axe.
Duck Drake and Copper Daugherty are the two 7A football players that played with Fishes last week.

7B
Fred Wemple went to Dallas this past weekend to visit the dentist again. While he was there, he went over to Fort Worth to see the TCU and A&M football game.
Burvin Hines, Max Allen, Billy Wells, H. G. Bedford, L. C. Neatherlin, and some other Boy Scouts made the weekly trip to the Sandhills and cooked their own meals over a campfire.
Orilla May Osburn was absent from school Tuesday afternoon because of illness. Margaret Mims and J. L. Massoletti sit and fight in their spare time. Maybe it is a way to pass away the idle moments.

H6
Well, it looks like our room is keeping the bicycle stores in business. Bobbie Baker and Ike Fitzgerald each have bought new bicycles lately.
We have some new Texas geographies and also some new English books. We think our new geographies are very interesting. We just got our new English books today, but we think we shall like them too.

6A
Marvin Prager, the short guy of our room, was sick Monday and half of Tuesday. For a while, our ball team surely was glad to get him back in P. E. He's a good player because when you throw the ball at him, he doesn't even have to duck. He's so low the ball goes right over him. We're glad to know that he got over that spell of asthma.
We have another new pupil, Joy Schoolcraft from Abilene. Our room has thirty-nine now.
Phoebe Lewis was out of school Wednesday.
Bert Hemphill, one of our classmates, went to Fort Worth last weekend to see his aunt, Kathryn Hemphill, play in the Texas open golf championship for women. She played against Betty Jameson. Bert said it surely was exciting at the point when they were even, and his aunt hit the ball exactly one foot from the cup. Miss Jameson conceded the match.

6B
Two of our members, Juanda Ruth Lord and Mickey McDonald are busy practicing for their performance on the Armistice Day program. Juanda will play a piano solo, and Mickey an accordion solo.
6B students are planning a big Hallowe'en. All of us are going to a party of some kind.
But the biggest thing in view for us is when the skating rink comes to town. Mr. Freels has promised to put on a special skating number with his girl.

6C
We have a new pupil this week from Lamesa, Weldon Rotan. He was visiting some of his relatives there and going to school. We are glad to have him. Weldon's entering school leaves only one vacant seat in our room. Maybe it will be filled before long.
We have four new students now than we had when school started.

H5
Joe Snead went to Roscoe and Robert Lee Sunday.
Lost some time Monday, somewhere in H5, Mr. Freels' temper. Found the next day when the class had a good spelling lesson.
Six boys in our room are members of the Mustang Club. They make frequent trips to the Sandhills.
Fifty percent of our room heard the Indian Chief's program Monday.

5A
Well, we haven't had much excitement in 5A this week.
We used to play volleyball with 5C in physical education, but Mr. Kimbriel said we couldn't play anything but schlag ball. So we play that now.
We didn't get our news in last week. We had fourteen on our distinction list; four on summa cum laude and ten on magna laude. We were rather disappointed because we didn't have any straight A's.

5B
Bobby Norris, our good friend who has been in the hospital at Fort Worth for two weeks, got back Monday. Our room sent him a book, "The Seven League Boots." He seemed to like it a lot, and is having his classmates autograph it.
5B has bought some pot plants. The plants and pictures in our room make it look pretty. Some of us are going to bring some cut flowers each day to keep things looking bright and cheerful.

5C
Jesse Clark, one of our pals of last year, joined us again last week. Jesse says he has been too busy farming to come to school the first six weeks.
Payrene Cook from Hancock, Dawson county enrolled in our room last Friday.
Wendell Jackson, who was in our room last year, is with us again. He has been attending school at Shep in Taylor county.
Our room enrollment is forty-five with forty-one attending.

7C
Seven students from 7C plan to ride the special train to Big Spring Friday night to see the football game. Here's hoping they have a grand time, and help to bring home a victory.
We have a new pupil in our room, Melvin Schoolcraft, who came from a school called Noodle about twenty miles from Abilene. 7C has lost five students since school started. Lola Livingston and Virginia Lands were promoted to high school, and Fred Blackburn, Wilburta Bacon, and Margie Friday have withdrawn from school.

PERSONALS
Nelle Elkin Brunson
The Jr. Hi. girls have organized a choral club. There are ninety-eight members. A more detailed account of the organization will be given next week.
Rev. Pickering, pastor of the First Christian church, visited our new library Tuesday.
Mr. Vertrees paid a short visit Wednesday.
Mrs. Osburn and Mrs. Taylor, 7B mothers, were over this week.
Mrs. Glenn Brunson and Mrs. Paul Schlosser came to see the 7A program Friday.
Mr. Clint Lackey was another visitor to admire our library.
Mr. Hartwell called at the office Wednesday.
Mr. G. D. Collum spent a few minutes with us Monday.

Bill's Day Holds Favor for Those Carrying That Label
RALLS, Oct. 27 (Special). — Entries for the opening parade at the West Texas Bills' Day Celebration, November 6, in Ralls, this week included the 80-piece Junior High School band from Lubbock, and the Floydada, Crosbyton, and Spur bands. The gigantic parade will be led by the well-known Wa-wa-tasee drum and bugle corp of the McMurry College at Abilene.
Entry blanks were mailed to West Texas chambers of commerce this week, and all entrants are urged to contact the Ralls C. of C. at once.
Speakers of this unique one-day program for all West Texas citizens and to which all whose first name is Bill are specially invited include Ex-governor Alfalfa Bill Murray of Oklahoma and Bill McCraw of Texas.
Reservation tickets for the huge evening banquet are on sale this week and it is expected that all will be sold in a very few days. To Bill Campbell of Dubuque, Iowa, went the honor of first purchaser of a ticket to the banquet.
At the banquet to be held in the Ralls Municipal Auditorium both famous Bills will speak together with musical entertainment and the superb entertainment of Guy Woods.

Chamber of commerce Manager Bill Collins said today that he had received full information on the Bills' Day Celebration as well as an invitation to attend, but did not know whether or not it would be possible for him to be present at the affair. Any Midland Bills desiring to attend the celebration were requested to notify Bill Collins as soon as possible so that reservations may be made.

Coming Events
SATURDAY
Story Hour Saturday morning at 10 o'clock in the children's library will be devoted to a moving picture of "Hansel and Gretel." All children are invited to attend as well as adults who are interested in children's pictures.

Football Game—
Continued From Page One.
Coach Taylor received particularly bad news this morning when he was notified that Tommy McMullan, letterman lineman from last year, was ineligible to play tonight because he is behind in studies. McMullan was injured early in the year and was just rounding into shape once again when notified he was not eligible tonight.
As for weight tonight, the two clubs will be about even. What advantage there is will lie with the Steers, their line averaging slightly less than two pounds per man heavier than the Bulldogs.

FILM AT STORY HOUR.
"Hansel and Gretel," famous fairy tale, will be the subject of the film to be shown at Story Hour in the children's library at the courthouse Saturday morning at 10 o'clock. All children and adults who are interested in children's pictures are invited to attend.

Law enforcement problems have changed considerably in the last ten years, but Robert F. Uhr, veteran Beavertown county commissioner, thinks the sheriff's force at San Antonio still can get along very well without tear gas. He said as much when the commissioner's court refused to give Sheriff Will W. Wood some tear gas grenades.
