Wherever Judy Goes, Cat Goes, Too

(Acme Telephoto.) "Aw, c'mon down, Judy! No one is going to hurt your baby." But ever since "Judy" adopted this gray founding kitten five weeks ago, she has guarded her "baby" jealously, even from Fort Worth cafe proprietor Andy Daniel, her owner. The strange combination attracts visitors by the hundreds. Everywhere Judy goes—whether it's a leap in a tree top or on the garage roof—she carries the kitten with her.

Annual Red Cross Roll Call to Be Launched Tuesday Morning

Annual Red Cross Roll Call in Midland will be launched early Tuesday morning and if possible will be completed that afternoon, it was announced yesterday by Ralph Geisler, Midland county roll call chairman, who said that all arrangements for the campaign had been completed late in the week. Mrs. Don Sivalis is vice-chairman.

Volunteer Red Cross workers, approximately 70 in number, will canvass the entire city in the interest of securing memberships in the American Red Cross. The city has been divided into twelve sections with a captain having been named to direct the drive in each section. The captains have selected workers who will assist in the membership solicitations. Membership booths will also be set up in the lobbies of various downtown buildings, a station and several workers to be stationed at each group.

Captains of the various groups who will conduct the drive will meet at a breakfast in the Blue Room of the Scharbauer Hotel Coffee Shop Monday morning at 8:45 o'clock. The captains and roll call officials will map out final details relative to the staging of the drive and will familiarize themselves with the designated areas in which they are to work. Chairman Geisler will preside at the breakfast.

Rotary District Governor Plans Official Visit to Club Friday

The Hon. Hiram Arrant of Abilene, district governor of the 127th district of Rotary International, will make his official visit to the Midland Rotary Club Thursday, it has been announced by S. A. Debnam, club president. The district governor will meet with the club assembly, including officers, directors and committee chairman, at a morning session, delivering his address to the club at the noon luncheon in the Crystal ballroom of Hotel Scharbauer.

The district governor is professor of history in Hardin-Simmons University and is Abilene city chemist. A member of the Abilene Rotary Club, he was unanimous choice for district governor when the annual conference was held at Big Spring last May, his election having been made final at the International convention at Cleveland in June.

Governor Arrant formerly was connected with the public schools here, having lived at Midland in 1920.

The Midland Rotary Club, organized in 1928, has 57 members, meeting each Thursday noon at Hotel Scharbauer.

Governor Arrant was one of the 200 men elected to serve Rotary's 5,000 clubs and 210,000 Rotarians in 80 counties and geographical divisions.

HIRAM ARRANT

On Friday, following the visit here, Governor Arrant will make his official visit to the Odessa Rotary Club, which holds its regular meetings in the Elliott Hotel.

Peace Plea Is Broadcast by The President

Disarmament of All Nations Is Urged to Further World Peace

WASHINGTON, Nov. 11. (AP).—President Roosevelt asserted today that the only object of arms is to "bring about a condition in which peace under liberty can prevail."

The president, speaking from the White House by telephone to cadets at Virginia Military Institute in Lexington, Va., on the one hundredth anniversary of the school, added that it is fitting to remember today that the only object of arms is to "bring about a condition in which peace under liberty can prevail."

The president spoke after returning from Arlington national cemetery where he led wreath-laying ceremonies at the tomb of the unknown soldier.

Special Service At Presbyterian Honors Armistice

Armistice Day services will be observed this morning at the First Presbyterian church, with the American Legion and the Veterans of Foreign Wars cooperating. An interesting program will commemorate the signing of the Armistice 21 years ago and all ex-service men are asked to meet at 10:45 o'clock in the East Sunday school room of the church for formation. Several ex-service men from other cities of the area will participate.

The Rev. W. J. Coleman, Presbyterian pastor, will give the principal address, on "Confused Ideas."

G. Ward Moody, district Legion commander, of Odessa will make a short talk of "The United States Flag," and Helen Armstrong, Midland high school student, will make a talk on "The Red Cross."

Mrs. A. M. McClure, Midland musician, will play organ selections and Mrs. G. Ward Moody of Odessa will sing a solo, "Song of the Legion."

Solution of Labor, Capital Fight in U. S. Urged by Pope

VATICAN CITY, Nov. 11 (AP).—Pope Pius, in a special encyclical, today appealed for application of the "Christian spirit" toward a solution of the conflict of capital and labor in the United States.

The encyclical was addressed to bishops of the United States on the one hundred and fiftieth anniversary of the founding of the Catholic hierarchy in this country.

The pontiff said a solution of social questions would "bring great honor to the American people."

The pope also deplored divisions and evils of "exaggerated egoism, thirst for pleasure, hungering after riches, neglect of the poor, breaking down of family life and neglect of duty to one's country."

House to Speak at Seagraves C-C Meet

John W. House, superintendent of the Humble Oil and Refining Company, vice-president of the Midland chamber of commerce and active leader in organization of the Permian Basin association, will be one of the speakers at the annual banquet of the Seagraves chamber of commerce Thursday night. He will outline the aims of the Permian body.

Judge C. C. Thompson of Colorado and Congressman George Macon also will speak on the program. Several Midland citizens plan to attend the banquet, upon invitation by Seagraves leaders.

County Judges Urge Special Session Call

FORT WORTH, Nov. 11 (AP).—Texas county judges and commissioners, in convention here today, adopted a resolution urging Governor O'Daniel to call a special session of the legislature immediately for the purpose of providing social security funds and handling security problems.

University Student Killed in Car Crash

AUSTIN, Nov. 11 (AP).—Dorothy Mae Moyer, 19, Austin, University of Texas student, was killed today when the automobile in which she was riding skidded and collided with a truck and overturned one mile north of Round Rock.

AMERICANS WARNED TO QUIT NETHERLANDS

Gang Victim

Chicago thrilled to a revival of its blood and bullet days that have inspired many a movie scenario when gangsters drove along side car driven by Edward J. O'Hara, left, race track president and riddled him with slugs. O'Hara, one time Capone associate, slumped at wheel and crashed his automobile into pole on busy thoroughfare.

Noted Explorer

Vilhjalmur Stefansson, above, has won fame by explorations in the Arctic and by his writings thereon. The veteran Arctic traveler, whose data has been employed by such groups as the United States government, Pan-American Airways, and students of dietetics, will speak to members of Midland Town Hall at the high school auditorium here Tuesday evening at 8 o'clock. All club members are urged to be present to hear the lecturer, who is known as "Dean of American Arctic Explorers."

Data Gathered by Arctic Explorer Used in Airways

Vilhjalmur Stefansson, America's greatest Arctic explorer and international authority on Arctic conditions, will address members of the Midland Town Hall at their meeting here on Tuesday evening at the high school auditorium at 8 o'clock.

During the past several years, especially during the past two, both the United States government and large American concerns such as the Pan-American Airways have utilized information on the Far North gathered by Stefansson.

Following routes mapped out for them by Stefansson, who is their official adviser on northern operations, this firm now operates passenger service across both the Atlantic and the Pacific. A still more northerly route from New York to China, via Alaska, and a more northerly transatlantic airway, crossing Greenland and Iceland, may soon be put into operation.

The U. S. government has employed Stefansson to make reports on the living and operating conditions in the Far North in connection with its defense preparations. The department of the interior recently issued a book on "The Problem of Alaskan Development" wherein is expressed "the gratitude of the department" to several individuals, "most notably Vilhjalmur Stefansson."

Stefansson's latest book, "Iceland the First American Republic," is attracting wide attention not only because of the gallant history of this first democracy of the New World but also because Iceland holds a strategic place in airway communication between the great cities of Europe and North America. Iceland lies upon the shortest, or Great Circle, flying route from Chicago to Berlin. It lies, too, on the shortest route from New York to Moscow.

On his history-making expeditions to the Arctic, Stefansson mapped and explored vast areas of hitherto unknown polar lands and seas and added three new islands to northern maps.

Bombing Plot Suspect Held In Munich Jail

Odd-Jobs Repairman Blamed for Deaths Of 7 Loyal Nazis

MUNICH, Nov. 11 (AP).—An odds-job repairman was under Nazi suspicion tonight in the beer cellar explosion which killed seven victims. Heinrich Himmler, head of the German police forces, announced in Berlin that an unidentified workman who had repaired the gallery encircling the beer cellar was suspected of the plot.

Himmler said it had been established preparations for the plot on Hitler's life which misfired started last August when the man under suspicion worked frequently at the beer hall.

Before Himmler's announcement, authorities ordered a roundup of all persons in Germany without proper identification papers.

FUNERAL SERVICES ARE HELD FOR SEVEN

MUNICH, Nov. 11 (AP).—Adolf Hitler today attended funeral rites for six men and one woman killed by a bomb of which he was an intended victim. He then went to the site of the blast—Buergerbrau Hall—where he placed a wreath on the coffins of the victims.

Later, he visited 63 injured at a hospital. Rudolph Hess, deputy Nazi leader, who delivered the eulogy, described the bombing as "one of the most dastardly plots in history."

Airport Ceremony Draws Attention From Large Area

Airport dedication covers are in demand by stamp collectors and the ceremony to be observed at Midland Municipal Airport next Saturday is attracting wide attention because of the compact from collectors throughout the country.

Bill Collins, chamber of commerce manager, has received covers from numerous collectors with request that they be mailed on the airport dedication day. A special "cache" is being prepared and will be here by Monday from a rubber stamp manufacturer, so that letters and covers may be given the special stamp and mailed throughout the world to commemorate the airport dedication.

Plans were practically completed for the two hour dedication ceremony late in the week. L. G. Mackey was named chairman of a special transportation committee and citizens who will provide cars for transporting visiting pilots, army officers and other notables from the airport into the city, and return have been asked to communicate with Mackey.

John W. House, program chairman, announced definitely that Congressman R. E. Thomson will be here for the principal dedication address.

Tom Sealy is chairman of the reception committee, George McEntire and George Bennett will aid in spotting the 75 or 100 airplanes expected for the occasion. Bill Holmes will be in charge of the banquet at Hotel Scharbauer in the evening and of the dance at the airfield hangar which is sponsored by the Junior Chamber of Commerce.

Mayor M. C. Ulmer and Judge E. M. Whitaker, president of the chamber of commerce, will be on hand to greet the visitors on behalf of the city and the chamber, jointly sponsoring the dedication ceremonies.

The program will be held between 2 and 4 o'clock Saturday afternoon and thousands of citizens of Midland and neighboring territory are expected to be here to witness the display of planes on hand.

From 25 to 40 ships are expected to bring army officers and national guard officers here for a week end visit.

Balkan Nations in Agreement Not to Make Hostile Moves

BUCHAREST, Nov. 11 (AP).—Informed sources said tonight Rumania, Yugoslavia, Bulgaria, Hungary, Greece and Turkey had reached an understanding to make no hostile moves against one another and to refrain from pressing any territorial claims for the duration of the European war.

Italy lately busy with diplomatic and commercial efforts to improve her position in the Balkans, was said to be strongly behind the move.

Short Speech Foils Killers

Lengthy orations have been the habit with Hitler, shown speaking above, but he cut his latest one short in Munich because of pressing business and escaped explosion in beer cellar where he was addressing "putsch" anniversary crowd.

Sloan & Zook and Sloan & Fitzgerald Tops Brown Lime Favorably at 3,910

BY FRANK GARDNER.

Favorable top of brown lime was reported yesterday for The Sloan & Zook Company of Bradford, Pa. and Tom N. Sloan of Midland No. 1. Mrs. J. E. Fitzgerald, northeastern Yoakum county wildcat in the southeast corner of section 22, block D, John H. Gibson survey.

The well encountered first brown lime at 3,910 feet, datum of minus 293, which is, according to some correlations, 85 feet higher than Magnolia Petroleum Company No. 1 Taylor, dry hole four miles to the southwest, and only 21 feet lower than The Texas Company No. 1-A Mallett Land & Cattle Company, producer in southeastern Cochran county two and one-half miles north and slightly west of No. 1 Fitzgerald. Drilling in the test had reached 3,999 feet in anhydrite and lime stringers, at last reports.

Two new producers were completed yesterday in the Denver (Wasson) pool of southern Yoakum county. Larger of the two was Alcoa Oil Company No. 3-A Miller, which established daily potential of 442.80 barrels of 33.8-gravity oil and gas, 9,500 gallons at 5,145 feet. It topped pay lime at 4,869 feet.

J. W. Murchison No. 3-B Elliott rated 24-hour potential of 410.48 barrels, bottomed at 5,070 feet, after treating pay lime topped at 4,842 feet with 8,000 gallons. Oil is 33.2-gravity and gas-oil ratio 3.915-1.

Magnolia was starting test yesterday on No. 9 R. M. Kendrick, east-side Denver well. It is bottomed at 5,150 feet in lime and acidized with 2,000 then with 4,000 gallons. The company's No. 10 Kendrick is drilling at 2,720 feet in anhydrite, while No. 11 Kendrick has completed cellar and pits. Sinclair-Prairie Oil Company No. 5-A Kendrick, which is bottomed at 4,968 feet in lime, is bailing rotary mud after rigging up standard tools. The same firm's No. 6-A Kendrick is standing at 266 feet in red rock after cementing 8 5/8-inch casing at 254 feet with 150 sacks.

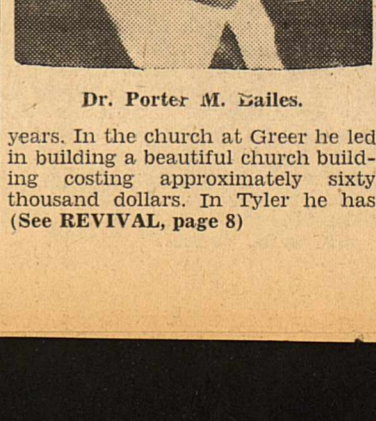

Producing only from the lower pay Seminoles Lower Pay, Amerasia Petroleum Corporation No. 1 Mrs. Sarah J. Averitt, one of the first wells in the Seminoles pool of central Gaines county, after recovering oil load, yesterday flowed 93 barrels of oil naturally in two hours through 1-inch choke on tubing set at 5,221 feet. Total depth is 5,225 feet in lime, and gas gauges 700,000 cubic feet daily. The well was showing about one percent basic acid.

Revival Meeting at Baptist Church To Be Opened by Dr. Bailes Friday

Opening of a ten day revival meeting at the First Baptist church has been announced for Friday, November 17, with Dr. Porter M. Bailes, pastor of the First Baptist church of Tyler, doing the preaching. J. Boyd East, choir and educational director of the Midland church, will be in charge of the music.

The Rev. H. D. Bruce, pastor of the Midland church, made the following statement regarding Dr. Bailes:

Dr. Porter M. Bailes.

"Dr. Porter M. Bailes who is coming to do the preaching in the revival at the First Baptist church has had a long and interesting pastoral-evangelist. He is a native of South Carolina and was educated in Furman University and the Southern Baptist Theological Seminary at Louisville, Kentucky. While in the Seminary he was pastor of the Lagrange Baptist church not far from Louisville.

Tension Said To Be Eased By Officials

Displeasure Voiced At "Alarming Reports" Circulated Abroad

THE HAGUE, Nov. 11. (AP).—Tension eased in the Netherlands tonight as officials expressed displeasure at "alarming reports abroad."

American citizens received an urgent notice from the United States legation and consulates at Amsterdam and Rotterdam reading:

"In view of the present situation in the Netherlands and the urgent reasons for remaining in the Netherlands are hereby advised to make arrangements to leave at the earliest possible moment.

"Failure to heed this notice may result in great difficulties later in obtaining transportation for leaving the country. Citizens must decide on their own responsibility their course of action."

Consular officials said virtually all American citizens who have not returned voluntarily to prison today after six months of a losing battle with a conscience and fear of apprehension.

Serving 40 years for murder, he escaped May 28 from the Wynne prison farm, returned voluntarily to prison today after six months of a losing battle with a conscience and fear of apprehension.

He wandered to New Mexico, Los Angeles, and elsewhere, finally going to Konawa, where his parents begged him to surrender.

He wrote to prison officials but when a reply was late in arriving, he rushed back for fear police had been ordered to arrest him, which means a whipping for escaping.

He remarried a second wife while out.

Russians Declare Finnish Attitude Is Not Peace Like

MOSCOW, Nov. 11 (AP).—Tass, official Soviet news agency, charged today Finns have intensified "their irreconcilability" in Moscow negotiations and also increased forces on Russian border, thus "demonstrating their uncompromising attitude."

The Tass said it was authorized to declare "that a report from Helsinki's English newspaper, Daily Express, to the effect Stalin has again rejected Finland's latest concessions," does not correspond with facts.

"No latest concessions have been made by the Finns, in view of which Stalin could not reject what does not exist."

Lubbock Football Coach Succumbs

LUBBOCK, Nov. 11 (AP).—Weldon Chapman, 38, Lubbock high school coach, died in a hospital today of bronchial pneumonia complicated by a 10-year-old throat ailment.

Chapman died a few minutes after his team had defeated Plainview, 10-0.

Man Slays Wife and Child, Then Self

DENTON, Nov. 11 (AP).—George Chapman, his wife and three-year-old child were shot to death in their home near Sanger today in shooting officially listed as double murder and suicide. Justice of Peace John Richardson returned the verdicts after hearing evidence that Chapman, 38, turned his pistol on the wife and child and then slew himself.

Assistant county attorney Earl Coleman said evidence at the coroner's inquest indicated Chapman was temporarily unbalanced as the result of an illness several years ago.

Heavy Gunfire Heard Off Coast of Norway

BERGEN, Norway, Nov. 11 (AP).—Nearby residents tonight reported hearing heavy gunfire off the Norwegian coast, which might mean the opening of a North sea naval battle.

Many warships had been seen in the vicinity before darkness, natives said.

A Good Job, Well Done--Midland's Demonstration to Visiting Ranchers

Friday's ranch tour conducted in southern Midland county was a highlight in the program of better ranching methods now under way in this part of the state.

Three stages of contour furrowing, showing how moisture is preserved for grass growth, washing of land is reduced and the soil is improved, were shown to almost 400 citizens of forty counties, with the state's principal AAA and extension service officials looking on.

The demonstration, conducted by County Agricultural Agent S. A. Debnam, was a triumph for the soil and water conservation program, exhibiting abundant grass on the furrowed pastures while land nearby had suffered from drought during the same period, with the pastures about equally stocked.

Not only did the visitors have opportunity to see the good effects of pasture contouring, but they enjoyed a touch of western hospitality at the hands of Rancher A. C. Francis which was second to none within recent years. The barbecued beeves, mutton and shoats, with a well equipped ranch headquarters as a setting, marked a high spot in a two day session which the AAA committeemen, ranchers and extension workers had enjoyed. Abundant feed stacks, well filled trench silos, good cattle on feed,—all this afforded an opportunity to observe modern ranching with application of business management.

Midland scored a point with a large territory in the ranch tour Friday.

Auto Monologues

(Amarillo Globe.)
"My favorite headache," said the man in the black car, "is a guy who thinks his eyes are better than yours, and he wants to prove it."

"That," he continued, "is the guy who never dims his lights at night on the road."

"And he's a real menace to society, brother, you can take it from me. Guys of his type have done more to increase the headache pills and powder business than all the hangovers in America."

"I was one of those birds who wasn't surprised when the Texas Department of Public Safety issued the bulletin that 20 per cent of the drivers WON'T dim their lights, even when repeatedly requested by the officer driver."

"And those same fellows, the ones who leave their lights up all the time, are the very birds who scream and yell and wave their arms and let the car waver all over the road when someone shines a light in their eyes."

"The car manufacturers made those nifty little foot-buttons which require such a light touch just for one purpose—helping the driver to be a gentleman."

"Be a good guy, won't you? Dim your lights. Don't wait for the other fellow to dim his lights first. Besides, sometime it might be a maniac on the subject and he might run you off the road into the Green Pastures—and I don't mean hay."

The Jown Quack

on? It has been on a couple of months any way and the English and the French haven't lost as many dead as are killed in America on our highways over a few holidays.

The English state that they have lost about 1,900 of the members of their sea forces and that this is more dead than the English and French have lost in the land battles. This means the Allies, together, have lost less than 4,000 sailors and soldiers in more than two months of fighting.

The new weapons of destruction have become so effective that both sides are afraid to take the offensive. They know what will happen if they do.

Hitler is a freak. He isn't normal and his abnormality has taken a Napoleon complex. Hitler doesn't like women; he is actually afraid to be left alone with them. A man who doesn't like any woman isn't normal; it indicates that he's all wrong. And he shouldn't have power to destroy a good part of the world.

The attempt to take Hitler's life indicates that there still exists some sanity in Germany.

A war story is about a couple of old crows from the Panhandle who flew down into South Texas the other day in their annual migration. And they landed in a field down near San Antonio. He happened to be on the firing ground of Fort Sam Houston and just as the crows started pecking around, target practice started. A 10-inch shell fell near them and exploded. But the crows weren't hurt, although they had a narrow escape, and they immediately took off.

"Gosh," said one old Panhandle crow to the other, "the army sure must be hard up for meat!"

There is a story about a wise old bird who lived back in New York. He had a whole lot of money in stocks and one day he started checking up his holdings and the situation as a whole.

"Why it's perfect, it's perfect," he remarked.

And this started him to thinking and he thought some more and the next morning he sold everyone of his stocks and put the money in the bank. Several days later the crash of '29 started and someone asked him why he was so smart.

"When anything gets perfect, it's time for something to break," he said. "It wasn't intended for this world to be perfect."

—Old Tack in the Amarillo Globe has bet a hat that the war in Europe will be over by Christmas. He adds that it will either be over by Christmas or will be popping like mad by spring.

Here are some pertinent paragraphs from Old Tack's column: How long has the war been going

Day Nursery Project Is Abandoned; Contributions Will Be Returned

Editor's Note: Abandonment of the project for a day nursery and girls' recreation center for Midland was announced Saturday by the sponsoring clubs. The following statement was made by women associated with the campaign for raising funds for the project.

The sponsors of the Midland Day Nursery and Girls' Recreation Center regret to announce that the project must be abandoned. When donations were solicited, the donors were assured that the money would be used for a large establishment that would be maintained and operated by the city and county of Midland, Texas. The such commitments have been given—although \$6,000 has been deposited in local banks and \$5,135 pledged to be paid when the city council and county commissioners court voted to maintain the organization, which was to be constructed as a WPA project and presented to the city of Midland.

The sponsors wish to thank the following for their generous contributions which will be returned this week: Clarence Scharbauer, John Scharbauer, Fred Wilcox, C. V. Lyman, Pine Arts club, Fred Fuhrman, Business and Professional Women club, G. M. Shelton, Montecito Oil corporation, Mrs. W. Y. Penn, E. Hazen Woods, R. K. DeFord, Elliott F. Cowden, R. E. Porterfield, J. N. Wilson, Chappell Davis, Excel-Sure cleaners, A. & L. Housing & Lumber company, Paula Vogel, Chas. Klapproth, A. N. Hendrickson, Mrs. J. E. Simmons, Presbyterian auxiliary, J. M. Bond Wholesale company, Silver Grill, White's Auto Store, American Beauty shop, Addison Young, Ike Ethridge, D. B. Watlington, Scharbauer Beauty shop, Shell Oil company employees, Standard of Texas employees, Honolulu Oil corporation employees, American Petroleum corporation employees.

The sponsors also wish to thank The Reporter-Telegram for the complete cooperation of the entire organization and the excellent publicity given free of charge; the A. & L. Housing & Lumber company; the West Texas reproduction company; R. W. Hamilton who advised on several occasions; Lem Peters, Fred Fuhrman and A. N. Hendrickson, who solicited funds of the organization; and Judge E. H. Barron.

To Palmer Potter, architect who drew the original plans for one building and who so willingly made new plans for two buildings when objections were raised to the use of property on Missouri street for the Day Nursery, the warmest thanks of the whole group.

Great credit is due Clarence Scharbauer who not only gave a large sum to the project, but also contributed a block of land. A block of land on Missouri street was contributed by Frank Cowden, Joe Crump, Hugh Corrigan and R. M. Barron. The sponsors thank these gentlemen and regret that it could not be used for the worthy cause for which they gave it.

An accurate record has been kept of all donations and checks will be mailed Monday, refunding the entire amounts contributed. One dollar bill was mailed to Box 1828 with-out the name of the donor. If this person will write for this, it will be returned.

Big Dave Wafford has turned in his football uniform at TCU and is now trying to get into shape for basketball. Plagued all season by a hip injury received last year, Dave was never able to get into shape or break into a game. By giving up this year, it will leave him three more years of eligibility. Meanwhile, "Woody" Adams is making quite a name for himself with the Frogs. He has been a starter in the last three games.

This'n that—A bouquet of poison ivy to the person removing one of the press box windows before the game Friday night. . . . As if we weren't having enough trouble dur-

28 WPA Projects for State Are Given Approval by Officials

SAN ANTONIO—Authorization to begin work on 28 WPA projects, involving expenditures of \$690,778 in Work Projects Administration funds and \$467,644 supplied by local governmental agencies, has been given Texas district directors, it was announced today by Stearns S. Tucker, deputy state administrator.

Authorized projects were listed as follows:

ANDERSON COUNTY
Improve six miles of State Highway 79 southwest of Palestine by constructing iron ore gravel shoulders with a 2 1/2 foot asphalt prime coat on each side of roadway; WPA funds, \$4,682; funds supplied by State Highway Department, \$5,000; workers, 29.

BASTROP COUNTY
Improve streets and construct curbs and gutters throughout Elgin; WPA funds, \$5,986; funds supplied by the city, \$9,171; workers, 44.

BEXAR COUNTY
Improve College Boulevard from Broadway to Circuela Street in Alamo Heights, by placing base and asphalt topping and constructing curbs and drainage structures; WPA funds, \$25,778; funds supplied by the city, \$9,987; workers, 57.

CALDWELL COUNTY
Improve Luling streets by paving and constructing curbs, gutters, and storm sewers; WPA funds, \$64,211; funds supplied by the city, \$36,454; workers, 104.

CASS COUNTY
Improve six miles of road between Atlanta and community of Anti; WPA funds, \$39,548; funds supplied by the city, \$19,261; workers, 128.

COMAL COUNTY
Improve Huffines school by installing drainage tile and landscaping grounds; WPA funds, \$6,178; funds supplied by the school district, \$1,527; workers, 66.

COMAL COUNTY
Construct sanitary sewer lines and manholes where needed throughout city of New Braunfels; WPA funds, \$35,931; funds supplied by the city, \$8,032; workers, 104.

CORYELL COUNTY
Improve Gatesville streets by excavating, placing base and surfacing, constructing curbs, gutters, sidewalks, and drainage structures; WPA funds, \$29,373; funds supplied by the city, \$28,503; workers, 62.

COTTE COUNTY
Eliminate unsanitary devices in rural and suburban areas throughout county where sewer systems are impractical; WPA funds, \$8,354; funds supplied by the State Health Department and the county, \$9,991; workers, 19.

DALLAS COUNTY
Improve Beckley road from Elmore Avenue south to U. S. Highway 77 by grading and surfacing and by constructing drainage structures, curbs, and gutters; WPA funds, \$44,579; funds supplied by the county, \$28,012; workers, 123.

DONLEY COUNTY
Improve roads in Precinct 1 by grading, surfacing, and constructing drainage structures; WPA funds, \$6,677; funds supplied by the county, \$2,339; workers, 75.

EL PASO COUNTY
Eliminate unsanitary devices in rural and suburban areas throughout the county where sewer systems are impractical; WPA funds, \$9,170; funds supplied by the State Department of Health and the city-county health unit, \$6,722; workers, 12.

FISHER COUNTY
Improve State Highway 92 beginning at Rotan and extending seven miles eastward by grading and drainage structures; WPA funds, \$22,827; funds supplied by the State Highway Department, \$20,813; workers, 100.

GRAY COUNTY
Improve 30 blocks of city streets and construct curbs and gutters in McLean; WPA funds, \$24,084; funds supplied by the city, \$18,203; workers, 47.

HARRIS COUNTY
Improve State Highway 79 between Addicks and Katy by flattening grades and stabilizing approaches to four culverts; WPA funds, \$2,500; State Highway Department, \$3,614; workers, 30.

HENDERSON COUNTY
Demolish existing school building and construct new brick and stone school plant containing 14 classrooms and an auditorium, landscape campus, and build bus garage at Malakoff; WPA funds, \$68,363; funds supplied by the school district, \$37,906; workers, 241.

HENDERSON COUNTY
Improve road near Trinidad by widening, clearing, grubbing, grading, and constructing and reconstructing drainage structures; WPA funds, \$4,587; funds supplied by the county, \$3,358; workers, 31.

LASALLE COUNTY
Reconstruct and improve road from Fowlerton south to Cameron Ranch road; WPA funds, \$19,847; funds supplied by the county, \$16,170; workers, 59.

MATAGORDA COUNTY
Make general improvements to road in Precinct 1; WPA funds, \$1,839; funds supplied by the county, \$1,180; workers, 29.

McLENNAN COUNTY
Improve sidewalks and driveways throughout city of Waco to eliminate hazards to pedestrian traffic; WPA funds, \$30,548; funds supplied by the city, \$20,500; workers, 50.

MIDLAND COUNTY
Pave streets and construct curbs, gutters, and sidewalks throughout city of Midland; WPA funds, \$70,086;

Improve roads near Omaha by constructing roadway, ditches, back slopes, retards, and drainage structures; WPA funds, \$11,274; funds supplied by the county, \$2,942; workers, 64.

FARMER COUNTY
Construct 14 miles of all-weather road; WPA funds, \$22,007; funds supplied by the county, \$20,948; workers, 54.

TARRANT COUNTY
Construct a brick building, 43 1/2' x 163', to house city administration offices for Village of Westover Hills, landscape grounds, and build tennis and play courts; WPA funds, \$86,238; funds supplied by the city, \$21,907; workers, 84.

TITUS COUNTY
Improve roads in Precinct 2 by grading, graveling, and constructing drainage structures; WPA funds, \$5,707; funds supplied by the county, \$1,558; workers, 39.

TRAVIS COUNTY
Improve North Loop Boulevard, Haskell, East 31st, Chicon, and Blanco Streets in Austin; WPA funds, \$28,354; funds supplied by the city, \$14,460; workers, 83.

WILSON COUNTY
Improve roads in Precinct 4 by widening, clearing, grubbing, surfacing, and constructing drainage structures; WPA funds, \$5,730; funds supplied by the county, \$2,114; workers, 45.

The PAYOFF

BY JESS RODGERS.

It is soon going to be time to start picking an all district football team, and this department had a couple of the spots filled Friday night the hard way.

In Jackie Vaughn and Gus White, Jr., the Lamesa club has two boys that should be unanimous choices. White is by far the best end we have seen this season. He is equal to any of them on defense and a terror on offense. A superb blocker, he catches passes like a major league outfielder. Not only that, he kicks points after touchdown, carries the ball some on end-around plays and even drops back to pass occasionally.

Vaughn is one of the better backs to appear on Lackey Field this year. He is not as shifty as Jay Francis, maybe not hardly as fast, but he is fast enough, has a lot of power and is adept at offering a hip to a tackler and then jerking it away at the right time.

We know of only three other players that we favor as all district right now. They are Jay Francis, Docie Foster and Paul Klatt. Jay is apparently a cinch but Klatt may have trouble making the team since there are a lot of good guards in the league this season. Docie Foster may make the official team at a tackle position.

Don't be too surprised if there are coaching changes at Rice and Texas Tech next year. Collier Paris, Lubbock sports scribe, was barred from Tech practice sessions after he hinted that something was causing Tech's poor record besides lack of talent. Jimmy Kites appears doomed at Rice with Frank Kimbrough of Hardin-Simmons favored to get the job.

Big Dave Wafford has turned in his football uniform at TCU and is now trying to get into shape for basketball. Plagued all season by a hip injury received last year, Dave was never able to get into shape or break into a game. By giving up this year, it will leave him three more years of eligibility. Meanwhile, "Woody" Adams is making quite a name for himself with the Frogs. He has been a starter in the last three games.

This'n that—A bouquet of poison ivy to the person removing one of the press box windows before the game Friday night. . . . As if we weren't having enough trouble dur-

ing the game, the lights went out in the third period and stayed out for the remainder of the game. At the district organization meeting early this year, this department urged officials to pass a rule prohibiting night games after November 1. . . .

Recent weather bears out the soundness of our proposal. . . . The real reason for some of the San Angelo regulars being out now would make very spicy reading. . . . In fact, too spicy. . . . Orchids for the Midland band and pep squad. . . . They come up with a better stunt each week. . . . Midland merchants apparently should have gone ahead and observed Armistice Day by closing up yesterday from the amount of business they didn't do. . . . Best crack of the last couple of weeks was heard after the Midland-Abilene game. . . . One of the Abilene boys, after diving futively at a Midland back who had caught a pass, skidded on his stomach and came to a halt directly in front of the Midland bench. . . . Looking up, he said, "what the hell you wanta' let 'em pass for when they can run faster than they can throw one."

Russia leads all other countries in the number of horses with in its confines, having 16,900,000 of the 75,000,000 horses in the world. America ranks second with 11,500,000.

Better Shots.
Here are the advantages as listed by Porter:
There is much greater visibility for spectators from the corner and behind the board. The net is almost entirely visible.

The smaller target promotes greater accuracy in shooting and minimizes wild-shooting by "percentage" players who hope that a long, wild toss may bounce off the board through the net.

The new board permits more offensive use of the four feet floor space behind the backboard. At the same time, it scatters the defense and the frequent bunching of all 10 players underneath a basket.

Insofar as the spectators are benefited Porter frankly admitted that basketball, like any other sport, has an eye on the box office. "May Be Used Now."

"The regular floor is only 90 feet long and limits choice viewpoints to sideline seats, thereby discouraging many potential customers," he explained. "These streamlined boards make the baskets visible from any seat in a gymnasium."

The new smaller boards have not yet been legalized by the rules committee though, of course, they may be used by mutual consent between any two team.

Porter predicted that the new board would be part of the regulations within five years.

Tarleton College Military Band

Sixty of the best musicians at Tarleton College, Stephenville, composing the Tarleton College Military Band, which performs between halves at Tarleton football games.

The band at Tarleton, under the direction of Professor L. G. Hunewell, functions as a band in the army, playing at all reviews, inspections, and military ceremonies. One of the high-lights of the season with the Tarleton bandmen is the annual trip to the Battle of Flowers contest in San Antonio. For the past four years Tarleton has won first place in her class in the band contest at this celebration. Shown in the picture from left to right are: First Row: John C. Hays, Graham; Ernestine Finnigan, Eldorado; Jack Lauderdale, Ciscos; Marvin Zindler, Houston; Joe Dyson, Stephenville;

BILLY JOE HALL, MIDLAND; Robert T. Heaton, Stephenville; Creel Grady, Brownwood; John Molloy, San Saba; W. M. Steckert, Brownwood; Second Row: Norris Hamilton, Austin; Victor Daniels, New London; Ernest Green, Ranger; Sam Partlow, Liberty; William Wayne Anderson, Teague; Earle McSpadden, Teague; Joe Hedrick, Stephenville; Edward Koerlin, Raymondville; Bill Lehmers, Brownwood; Robert Koons, Wharton; Third Row: H. A. Reesing, Cranfills; Barkley Thompson, Stephenville; J. Lewis Evans, Stephenville; Tommy Whitley, Mineral Wells; Pat Valliant, Rising Star; August H. Behling, Albany; Aaron Cunningham, Brownwood; Burney Garvey, Livingston; Dan Price, Rochelle; Ewell Hart, Beaumont; Charles Prater, Hamlin;

Bob Motley, Monahans; Morris White, Eastland; Fourth Row: Joe R. Hays, Graham; Cyrus Cathey, Hamilton; James Sikes, Stephenville; Raymond Tieman, Priddy; Anselm Tibbs, Valley Mills; Winston Blacklock, Munday; E. G. Bailey, Dexter, Mo.; Alan Studer, Robstown; Hershel Davis, Bluff Dale; B. D. Dobbins, Dublin; Ernest Shil-linburg, Jr., Dublin; Bill McGough, Hamlin; Fifth Row: Red Simpson, Brady; Robert Eaton, Comanche; Fred Jennings, Kerrville; Ewell Byers, Winters; Burl Wiley, Jr., Brady; Olin Johnson, Stephenville; Billy K. Dawkins, Dublin; Tommie Williams, Hamilton; Henry La-Master, Perryton; Leland G. Horne, Perryton.

Smaller Board Puts More Zip In Basket Ball

COLUMBUS, O. (U.P.)—Basketball, the national winter pastime, soon will be played against a drastically smaller backboard, H. V. Porter, Chicago, secretary of the National Rules Committee, predicts.

Successful exhibition games with the smaller boards have convinced the Committee of its advantages, especially to the spectator who pays the game's bill, Porter said.

The present board, in use for several years, is six feet wide and four feet high. The new type board is approximately one-third smaller, down to 54 inches in width and 36 inches in height.

The extra vertical foot was chopped from below, establishing the basket ring on the bottom edge. The top of the new board is rounded.

Better Shots.
Here are the advantages as listed by Porter:
There is much greater visibility for spectators from the corner and behind the board. The net is almost entirely visible.

The smaller target promotes greater accuracy in shooting and minimizes wild-shooting by "percentage" players who hope that a long, wild toss may bounce off the board through the net.

The new board permits more offensive use of the four feet floor space behind the backboard. At the same time, it scatters the defense and the frequent bunching of all 10 players underneath a basket.

Insofar as the spectators are benefited Porter frankly admitted that basketball, like any other sport, has an eye on the box office. "May Be Used Now."

"The regular floor is only 90 feet long and limits choice viewpoints to sideline seats, thereby discouraging many potential customers," he explained. "These streamlined boards make the baskets visible from any seat in a gymnasium."

The new smaller boards have not yet been legalized by the rules committee though, of course, they may be used by mutual consent between any two team.

Porter predicted that the new board would be part of the regulations within five years.

Morning Coffee Friday Is Compliment to California Visitor In Midland

Mrs. H. K. Loskamp Is Recipient of Courtesy at the A. P. Loskamp Home

Heading the social calendar on the eve of Armistice Day week-end was an in-honor coffee for which Mrs. A. P. Loskamp was hostess at her home, 2009 W. Holloway, Friday morning from 9:30 o'clock until 11:30. Honor guest for the affair was Mrs. H. K. Loskamp of Los Angeles, mother-in-law of the hostess, who is here as the houseguest of her son and his wife.

Clusters of chrysanthemums struck a seasonal note in decorations for the reception rooms where the hostess was assisted by a houseparty composed of Meses. Alton Absher, Ross Williams, Glenn Black, Charles Mik, and Walter Jarrett.

The coffee table, centered with fruit, was appointed with a red-and-silver theme with red Catalina pottery and a silver coffee service.

Guests were: The honoree, Meses. J. M. Armstrong, John Adams, Ben P. Black, W. R. Bowden, J. E. Burton, W. L. Brown, P. F. Brown, O. C. Black, Bernard K. Buffington, C. P. Butcher, T. C. Bobo, P. F. Bridgewater, John P. Butler.

Mes. R. B. Cowden, Jas. H. Chapple, Elliott Cowden, Joe Chambers, T. Corbett, John Cornwall, Ralph Cooley, Harvey Conger, A. L. Crump, Hugh Corrigan, A. E. Cather, R. P. Coats, I. E. Daniel, Robert Dickey, J. D. Dillard, Chapell Davis, Don Davis, Paul Davis, Alden Donnelly, Robert Dewey, S. P. Dewey, C. C. Duffey, E. B. Dozier, E. H. Ellison, Harris Eastman.

North Ward PTA Will Sponsor Silver Tea

North Ward PTA will sponsor a silver tea to be given at Hotel Scharbauer Thursday afternoon at 3:30 o'clock. Proceeds of the benefit will go toward the fund for purchasing a curtain for the North Ward stage.

Mrs. Alma Thomas, principal of North Elementary school, will be the guest speaker, describing her cruise through the Caribbean Sea and to South America last summer.

The bride will be given in marriage by her father.

She will wear a black traveling costume with a chubby of sheared beaver. Her flowers will be gardenias.

E. L. Hutchinson of Plainview will attend the bridegroom as best man.

The couple will be at home temporarily at Plainview where Mr. Dickinson is assistant manager of Montgomery Ward and Company.

Miss Barker attended school at Kansas City, Missouri. She is a member of Beta Sigma Phi sorority.

Mr. Dickinson, son of Mr. and Mrs. L. A. Dickinson of Hammond, Indiana, is a former student of the University of Illinois and of Illinois Wesleyan University. He is a member of Phi Gamma Delta fraternity.

Out-of-town guests expected to be here for the wedding today are: Mrs. O. F. de Habbe, Indianapolis, Indiana; Mrs. M. S. Goldman, Big Spring; Miss Jimmy Lou Goldman, Big Spring; Dr. and Mrs. H. B. Mills, San Antonio; Mr. and Mrs. Clyde Waits Jr. of Big Spring.

G street, Wednesday afternoon at 4 o'clock.

Justamere club will meet with Mrs. C. E. Nolan, 1406 S Big Spring, Wednesday afternoon at 3 o'clock.

Des Reales club will meet with Mrs. H. T. Newsum, at her home on Illinois street, Wednesday afternoon at 2 o'clock.

Sans Souci club will meet with Mrs. B. L. Hoffer, 1110 W Missouri, Wednesday afternoon.

Music Appreciation class will meet at the Cornelius studio, 706 W Ohio, Wednesday morning at the usual hour.

THURSDAY

Neighbors' club will meet with Mrs. Geo. Hardin, 802 S Cornell, Thursday afternoon at 2 o'clock.

Ocet club will meet with Mrs. L. L. Payne, 804 W Louisiana, Thursday afternoon at one o'clock.

Bien Amigos club will meet with Mrs. W. B. Harkrider, 1306 W Texas, Thursday afternoon at 1:30 o'clock, for dessert-bridge.

Midland county museum in the courthouse will be open Thursday afternoon from 2:30 o'clock until 5. The public is invited.

FRIDAY

Belmont Bible class will meet at the home of Mrs. C. G. Murray, 707 N Pecos, Friday afternoon at 3:30 o'clock.

Women's Golf Association will meet at the Country Club Friday at 9 o'clock for play. A business session will be held at one o'clock.

SATURDAY

Story Hour will be held in the children's library Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5. The public is invited.

Canadian Poles Will Fight

EDMONTON, Alta. (U.P.)—Polish men living in central and northern Alberta are awaiting word from representatives of the exiled Polish government in Paris concerning the formation of a new Polish army. Many men in this province stand ready, they declare, to enlist in this force to fight Germany.

Belmont Bible Class Elects New Officers

Mrs. Bertie Mitchell was elected president of the Belmont Bible class in its regular meeting Friday afternoon at the home of Mrs. D. E. Holster, 600 North A street. Mrs. W. P. Collins and Mrs. E. Chanler were cohostesses to the group which chose Mrs. J. L. Kelly as secretary of the class.

Mrs. C. E. Nolan taught the lesson, based on the last 25 chapters of the Book of Genesis.

A social hour was held following the business and study, and refreshments were served to Meses. Harvey Kiser, Herbert King, Nolan, S. Alexander, C. G. Murray, Mitchell, Celia Shafer, A. B. Stuckey, A. W. Lester, Holster, a visitor, Mrs. Geo. Holster, and the hostesses.

Next Friday the class will meet with Mrs. Murray at 701 N Colorado.

New Club Bears Greek Name of Leshe Fylaron

Leshe Fylaron, which is the English rendition of the Greek words meaning "Chatter-Chatting Club," was chosen as the title of Midland's newest club organized Thursday evening at the home of Mrs. Don Logan on South H street.

Mrs. Leland White is president of the new club, Miss Margie Harwell is vice president, Miss Jerry McMullan second vice president, and Miss Christine Moore secretary-treasurer and reporter.

Leshe Fylaron will meet on Monday evening of one week and on Thursday evening of the next. The group is a sewing club.

Members present at the organization meeting were: Meses. Eddie Moore, Jerry McMullan, Margie Harwell, Frances Moore, Christine Moore, Mrs. Leland White, Mrs. Geo. Sapp, and the hostess.

An increase in membership is anticipated at the next meeting which will be held on Monday evening at the home of Miss Frances Moore, 811 S Colorado.

Mrs. Logan served a party plate featuring the Thanksgiving season in clever miniature "pumpkin" salads made of apricots.

Miss Betty Patricia Barker Will Become Bride of Plainview Man Today

A handkerchief of hand-made lace over sixty years old will be carried by Miss Betty Patricia Barker, daughter of Mr. and Mrs. W. W. Barker of Plainview, Texas, in a high-noon ceremony at the First Presbyterian church today. The handkerchief is one which was carried by the bride-elect's great aunt, Jane Kiebler Gordon, of Kansas City, Missouri, at her wedding.

Rev. W. J. Coleman, Presbyterian pastor, will read the wedding vows before a group of invited relatives and friends of the couple. Soft organ music will be played by Mrs. A. M. McClure during the service.

The bride will be given in marriage by her father.

She will wear a black traveling costume with a chubby of sheared beaver. Her flowers will be gardenias.

E. L. Hutchinson of Plainview will attend the bridegroom as best man.

The couple will be at home temporarily at Plainview where Mr. Dickinson is assistant manager of Montgomery Ward and Company.

Miss Barker attended school at Kansas City, Missouri. She is a member of Beta Sigma Phi sorority.

Mr. Dickinson, son of Mr. and Mrs. L. A. Dickinson of Hammond, Indiana, is a former student of the University of Illinois and of Illinois Wesleyan University. He is a member of Phi Gamma Delta fraternity.

Out-of-town guests expected to be here for the wedding today are: Mrs. O. F. de Habbe, Indianapolis, Indiana; Mrs. M. S. Goldman, Big Spring; Miss Jimmy Lou Goldman, Big Spring; Dr. and Mrs. H. B. Mills, San Antonio; Mr. and Mrs. Clyde Waits Jr. of Big Spring.

G street, Wednesday afternoon at 4 o'clock.

Justamere club will meet with Mrs. C. E. Nolan, 1406 S Big Spring, Wednesday afternoon at 3 o'clock.

Des Reales club will meet with Mrs. H. T. Newsum, at her home on Illinois street, Wednesday afternoon at 2 o'clock.

Sans Souci club will meet with Mrs. B. L. Hoffer, 1110 W Missouri, Wednesday afternoon.

Music Appreciation class will meet at the Cornelius studio, 706 W Ohio, Wednesday morning at the usual hour.

THURSDAY

Neighbors' club will meet with Mrs. Geo. Hardin, 802 S Cornell, Thursday afternoon at 2 o'clock.

Ocet club will meet with Mrs. L. L. Payne, 804 W Louisiana, Thursday afternoon at one o'clock.

Bien Amigos club will meet with Mrs. W. B. Harkrider, 1306 W Texas, Thursday afternoon at 1:30 o'clock, for dessert-bridge.

Midland county museum in the courthouse will be open Thursday afternoon from 2:30 o'clock until 5. The public is invited.

FRIDAY

Belmont Bible class will meet at the home of Mrs. C. G. Murray, 707 N Pecos, Friday afternoon at 3:30 o'clock.

Women's Golf Association will meet at the Country Club Friday at 9 o'clock for play. A business session will be held at one o'clock.

SATURDAY

Story Hour will be held in the children's library Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5. The public is invited.

Canadian Poles Will Fight

EDMONTON, Alta. (U.P.)—Polish men living in central and northern Alberta are awaiting word from representatives of the exiled Polish government in Paris concerning the formation of a new Polish army. Many men in this province stand ready, they declare, to enlist in this force to fight Germany.

Fall Motif Is Employed at Party For Lucky Thirteen

The fall motif was emphasized in flowers and appointments for the afternoon party with which Mrs. J. C. Hudman entertained the Lucky Thirteen club at her home, 413 W Indiana, Friday at 3 o'clock.

Marigolds, roses, chrysanthemums, and autumn daisies brought a seasonal air to the party rooms where tables were laid for 42 games. Orange chrysanthemums as decorations on the tallies carried out the fall theme.

High score in the games went to Mrs. J. T. Walker and second high to Mrs. S. P. Hall.

Club guests were Mrs. W. E. Anderson and Mrs. J. O. Vance.

A party course was served at tea time to guests and the following club members: Meses. W. F. Hejl, Houston Sikes, H. S. Collins, Hall, O. H. Jones, W. N. Cole, Ellis Corner, Walker, J. A. McClurg, L. F. Joplin, and the hostess.

Top Mortgages on Farm Homes Climb

WASHINGTON, Nov. 11. — Outstanding mortgages on non-farm homes climbed \$220,000,000 last year over the 1937 figure to reach \$17,721,000,000 by the end of 1938, the November issue of the Federal Home Loan Bank Review said today.

This is the first definite figure of the amount invested in one- to four-family homes in American cities at the close of last year, due to the tremendous task of examining and coordinating various data from all sections of the country. The report as presented by the Review was compiled by the Federal Home Loan Bank Board's Division of Research and Statistics. In commenting on the figures, which still are incomplete in some aspects, the Review said:

"Since annual changes in outstanding home mortgages indebtedness have closely paralleled annual changes in net capital formation in residential real estate, this indicated that we added a little to the value of our existing stock of residential buildings. We built new units and brought sub-standard units up to par in sufficient quantities to offset the depreciation of existing dwellings and their loss through demolition, fire and similar causes."

The Review continued:

"Recent trends in the percentage of total home-mortgage debt held by different types of lenders have been: for commercial banks—upward since 1935; savings and loan associations—upward since 1936; individuals and others—upward since 1936—insurance companies—downward since 1931; mutual savings banks—downward since 1933; HOLC—downward since 1935."

"Comparison of the percentage distribution of the estimated home-mortgage debt on December 31, 1938, among the different classes of lenders with the volume of mortgages of \$20,000 and less recorded by these same types of lenders during the first eight months of 1939 shows that savings and loan associations are clearly gaining a larger share of outstanding home-mortgage investments. These institutions held 20.5 per cent of the home-mortgage debt at the end of 1938, but have made 31 per cent of the total volume of mortgages recorded so far this year."

"Similar comparisons reveal that commercial banks and their trust departments are increasing their home-mortgage holdings rapidly. Individuals and others are also increasing their participation. Insurance companies have made nine per cent of total volume of mortgage recordings in 1939, and held 7.5 per cent of the total home-mortgage

True Strong of Midland Weds Barstow Girl in Ceremony at High Noon Saturday

In a ceremony at high-noon Saturday, True Strong of Midland and Miss Elsie Carr, daughter of Mr. and Mrs. Ross Carr of Barstow, were married at the home of the bride's parents.

True Strong of Midland

Only relatives and close friends were present for the ceremony at which Rev. Fred W. Tyler, pastor of the Barstow Presbyterian church, officiated.

The bride's only attendant was Miss Jane Hadley of Dallas and Paul Carr, brother of the bride, was best man.

Immediately after the ceremony, Mr. and Mrs. Strong left for Midland. They will make their home here where he is connected with the Texas Highway department.

The bride is a member of a pioneer Ward county family. She is a graduate of the Barstow high school and attended North Texas State Teachers College at Denton.

Mr. Strong is the son of Mr. and Mrs. True Strong Sr. of Dallas. He was educated at North Texas Agricultural College at Arlington and at the University of Texas.

Honored at Shower

The engagement and approaching marriage of the couple was announced last Thursday evening when a bridal shower honoring Miss Carr was given in the home of Mrs. George Briggs at Barstow.

The bride-elect was presented with a huge pumpkin filled with gifts.

Seventy-two guests, in addition to the sixteen hostesses, were present.

debt at the end of 1939. Mutual savings banks, which held 15.1 per cent of the total, have made 3.5 per cent of the home mortgages recorded so far this year."

PERSONALS

Mr. and Mrs. Geo. Barham have returned to Midland from an extended trip East. They plan to be here for sometime.

Miss Ophelia Greene, secretary to the chamber of commerce manager, is spending the weekend at El Paso.

J. H. Rhoden is here from Lubbock to spend the weekend with his family.

Mr. and Mrs. Cy Foster and son of Electra are here for a visit with relatives.

Miss Evelyn Hudkins is spending the weekend as the guest of her parents, Mr. and Mrs. S. H. Hudkins. She is a student in Texas Technological College at Lubbock.

Mrs. Otis McClain and daughter, Donna Gale, left Saturday for their home at Plainview, following a visit with Mrs. McClain's sister, Mrs. A. W. Wyatt.

Billy Noyes is home from Texas Tech at Lubbock to spend the weekend with his mother, Mrs. Iva Noyes. He has as his guest Tommy Prickett of Lubbock.

S. C. Dougherty of the Highway Department here is in Austin attending a school for State Highway employes.

Spending the weekend at Arlington is a group of Midland women including Mrs. L. B. Pemberton, Mrs. Brooks Pemberton, Mrs. Fred Middleton, and Doris Lynn Pemberton.

Mr. and Mrs. L. H. Tiffin have as their guests for the weekend his mother, Mrs. S. C. Tiffin, his sister, Miss Eva Tiffin, and his brother, Bert Tiffin, of Graham.

Mr. and Mrs. David Hicks and Mr. and Mrs. Ray Parker of Odessa and Mrs. Johnny Sherrod of Midland made a trip to Sweetwater to see the Odessa-Sweetwater game Saturday.

Mrs. Lura Hollingsworth visited briefly in Midland Friday. Former Midland county home demonstration agent now stationed at Menard, Mrs. Hollingsworth was here as a member of the ranch tour group of visitors.

Mrs. C. P. Graves and Mrs. E. P. Van Zandt Sr. of Fort Worth, and their mother, Mrs. Young, left Midland Friday after visiting Mr. and Mrs. E. P. Van Zandt Jr. and Mrs. Graves' nieces, Mrs. Susie G. Noble, Miss Elma Graves, and Mrs. Chas. Brown.

Justice of the Peace J. H. Knowles, his niece, Mrs. Maida Johnson of San Angelo, and Merritt F. Hines,

Yankees Oppose 'Scarlet'

SOUTHBRIDGE, Mass. (U.P.) — Members of Congress have been asked to help suppress the moving picture "Gone With the Wind." The Malcolm Ammidown Woman's Relief Corps wrote to senators and representatives urging the film be banned as "an insult to the Grand Army of the Republic."

He Punished Himself

CLEVELAND (U.P.) — Robert Stumac, of Barberton, O., had seen only half of the Notre Dame-Navy game when police, who said he was intoxicated, led him out of the Cleveland stadium. Said the judge: "I believe you were punished enough by not seeing the last half of the game. Costs are suspended."

Coming of Clare Tree Major Children's Theatre To Midland Is Hailed as Cultural Opportunity

Child Study Club Announces Pre-Play Poster Contest

Child Study club which is sponsoring the appearance of the Clare Tree Major Children's Theatre in a series of three plays here this winter has announced the opening of its poster contest on Monday to run through Friday, Nov. 24.

Children of the various grades in the Midland school will enter posters during the two weeks' contest which deal with the first of the scheduled plays, "Rip Van Winkle." These posters will be 12 by 18 inches in size and will be judged on originality and neatness.

Prizes of one single admission ticket will be presented in each grade (not room) in North Ward, South Ward and Junior High schools.

Teachers have been supplied with a synopsis of the story of "Rip Van Winkle" and this will be presented to the students who will then design the posters.

Similar prizes will be presented before the staging of each of the two following plays later in the season. It was announced by sponsors.

RIP VAN WINKLE

Patron Tickets Mean Pleasure for Recipients, Donors

In the Catskills when it thunders, people say the little men of the mountains are playing nippers. The same strange little men who played a joke many years ago on lovable, easy-going Rip Van Winkle. Does the name, Catskill, bring to your mind as you try to name the funny little bearded men, shrewish Dame Van Winkle, Rip with his lazy hound dog at his heels, the keg that was poor Rip's undoing? It's all coming to Midland on December 4th when the bright colored trucks of the Clare Tree Major Children's Theatre roll up at the high school to unload scenery and costumes—among them Rip's twenty-year growth of beard.

Wouldn't you like to make it possible for two youngsters who could not buy tickets for themselves to thrill to "make-believe" brought to life before their eyes? Sales of patron tickets are progressing rapidly, according to the ticket committee. Anyone buying \$5 worth of tickets becomes a patron if he returns two children's tickets to the committee to be used for children who could not otherwise attend the

Rip Van Winkle (William Courtleigh, Jr.) goes hunting in the Catskill Mountains for a deer to settle his long bill for lager and schappats at Nicholas Vedder's inn, the King George. Hilda, his wife, is forced to do Rip's work in the fields. A scene from "Rip Van Winkle" which will be presented here December 4th by Clare Tree Major Children's Theatre under auspices of the Child Study Club.

plays. We hope that every child in Midland county can see at least one of the three plays to be presented this season.

Tickets provided by patrons will be distributed to underprivileged children through the Toy Loan Library and through the schools of Midland county. If the patron wishes to designate children to whom he wants tickets given he may do so. A complete list of patrons will be published at an early date.

Those who become patrons may rest assured that they are providing a rich experience, unique in our community, for children who, though less fortunate, are no less possessed of creative imagination and delight in "make-believe."

Season tickets \$1.00—\$1.50.

For information about patron tickets call phone No. 369 or 656.

Stage Productions Are Enjoyed by Adults, Children

By MRS. JNO. P. BUTLER.

We all cannot travel to New York for theatre performances so we have the Child Study club to thank for bringing three New York performances to us. They will be primarily for our children but I have never heard of an adult being bored by "The Three Little Pigs," "Wonderful Wizard of Oz" or both of movie fame—and we might also include the circus! All these are supposed to appeal to the children—but almost everyone loves to lose themselves in theatrical shows.

The three stage plays, "Rip Van Winkle," "Under the Lilacs," and "Aladdin and His Wonderful Lamp," sponsored by the Child Study club, are to be given by the Clare Tree Major Children's Theatre of New York. I had heard of these plays for several years but not until year before last did I connect any personal attachment to them as they seemed to be a remote cultural blessing that I could not avail myself and daughter of unless I could spend a great deal of time and money on journeying to and from the larger cities of the East and North. Winter before last, however, an invitation was sent to my daughter, by a family friend in Abilene, to visit her on three different occasions during the winter and go with her to see the three plays that the Clare Tree Major players were giving there. I remember the first was "Daddy Longlegs."

I had never realized how how devoid the lives of the children of today are of the flesh-and-blood theatre. Jane could hardly believe that she would actually see the players themselves—and not on the screen. She was perfectly fit to get into Abilene and back took time—and expense money—and a half day at school was lost, as the show was in the afternoon, but after each performance I could tell that the children's eventful day had been stamped on her memory.

The first year I did not attend any of the plays, but Jane always looked forward to going to each one with so much anticipation that I arranged for her to go again last winter and I went along to one just to see if the plays justified her enthusiasm. This was the last one of the past season and was "The King of Golden River."

The performances were held in the high school auditorium, as they will be here, and before the curtain went up, it seemed that every child in Abilene was in the audience—all eagerly awaiting the curtain's rise. Up went the curtain on time and immediately we were carried away to the land of imagination.

All scenery, lighting and mechanical effects had been perfectly arranged to each particular play and as each company acts as its own stage hands, everything moves with precision and timeliness. This all lays the excellent background for the company of child players who portrayed the characters so dear to the young in years—and heart.

The players are certainly not would-be actors or actresses. The majority have theatrical backgrounds—some as far back as three and four generations. The players are chosen carefully and personal character is considered as well as acting ability for they must be real trouper and more the show and all impediments to the next fortunate place and be on time regardless of drawbacks.

Midland is again far advanced in opportunity, in comparison to other towns in this state, for the Clare Tree Major Players have been sponsored in only towns of larger population. The Child Study club is making it possible for our children to see an art that is rare now that motion pictures are so common. This is also an occasion for adults to enjoy a double show—that of the players and the response of the children for we forget what modern children miss in not seeing their actresses and actors personally and not on a screen. Let us all show our appreciation of this club by giving them every support for we all are most fortunate in having the opportunity to attend these plays in Midland.

Rural Schools

Prairie Lee

Prairie Lee school opened Sept. 5 under the supervision of Mr. and Mrs. J. Sells and Mr. and Mrs. Gay Koonce. About sixty students are enrolled. More are expected to enter after the crops are gathered.

The school will have a girls' and a boys' basketball team this year. Most of the players are inexperienced but, after a few weeks of practice, are likely to develop into very good competition for county championship. Mr. Koonce, who is coaching the team, declares:

The teams opened their season with games Friday against the Lenora school in Martin county. (Editor's Note: Results of the games had not been reported to the paper at press time Saturday.)

The various class rooms are being decorated for the coming of Thanksgiving. Announcement of the date in November on which Thanksgiving holidays are to be given has not yet been made.

Thanksgiving programs are being prepared by the different rooms. A week in November has been set aside for National School Week. The faculty of Prairie Lee school expresses the hope that patrons and friends will take advantage of this week and visit the school. They are also invited to visit and will be welcomed as visitors at the school at any time during the year.

Cotton Flat

Good attendance was reported at the box supper which was sponsored by the Cotton Flat Sunday school Friday night. Approximately \$32 was taken in, it was reported Saturday.

Miss Christine Moore again heads the Cotton Flat school as principal, with Miss Lois Huggins as her new assistant. Miss Huggins, whose parents live in the Cotton Flat community, had taught the school for several years and the 4-H club girls in the room will attend the Achievement Day tour Thursday of this week.

Cotton Flat school entered the new year with a number of improvements in the building and property. The school was repainted, inside and out. The exterior is red with a black roof and cream woodwork. The interior is papered in light paper with white woodwork. All existing new desks have been purchased for the school and two new oil heating stoves have replaced the old-type stoves in the classrooms. Miss Moore says that an unusual attendance record was maintained by Pleasant Valley last month. There was 100 percent attendance in the entire school with no tardies.

A child is trying for 100 percent attendance for the entire year, as a prize is being offered the one with the least number of absences. Thanksgiving decorations are being made for the room. Some of the decorations are pictures of Pilgrims and women and the Mayflower. Window decorations are turkeys and pumpkins.

A large autumn field scene is the main decoration of the room. All children took part in making the fence, trees, turkeys, pumpkins and corn shocks.

Health hours were completed the past week. Each child had a house and for each health rule he observed every day he painted a brick on the house.

Peggy Stamp visited in school all day Friday.

Pleasant Valley

Miss Helen Lee Secrest has nine pupils enrolled at Pleasant Valley school this term, these being distributed among the second, fourth, and fifth grades.

A basket ball court has been provided and it is planned to have a mixed team this winter.

Chief improvements in the community has been the erection of a new Baptist church about a mile from the schoolhouse. The church has been erected since opening of school.

MIDLAND BUILDING ACTIVITIES

FHLB Repays Most Of Money Put Into The Organization

WASHINGTON, Nov. 11.—For each \$100 of net income, nearly \$77 is distributed to investors as dividends by savings, building and loan associations belonging to the Federal Home Loan Bank System.

This substantial return to long-term savers in home-financing institutions is emphasized in the leading article—"Operating Ratios of Savings and Loan Associations"—in the November issue of the Federal Home Loan Bank Review which was released today. The article represents an analysis of a survey by the Division of Research and Statistics of the Federal Home Loan Bank Board, of selected operating ratios for 3,094 member associations out of a total of 3,895 for the year 1938.

"Almost three-fourths—73.50 percent of the gross operating income of all the income of the average savings and loan association during 1938 was available for dividends and interest paid for the use of capital and for strengthening the financial structure through additions to reserves and undivided profits," the Review's article declared.

"The disposition of net income is explained in the following table, but it is interesting to note that for every \$100 of net income that almost \$77 was paid out in dividends or as interest on deposits and investment certificates, \$13 was credited to various reserve accounts, and nearly \$6 was placed in the undivided profits account."

Here is the table—"Disposition of net income for the year"—referred to:

Number of associations	3,094
Total Net Income (per cent)	100
Transfers to reserves	13.1
Dividends	76.6
Interest on Federal Home Loan Bank Advances	4.3
Interest on other borrowed money	4.3
Balance to undivided profits	5.6

"It must be emphasized that the presentation of these figures does not constitute in any sense a recommendation as to the soundness or unsoundness of any particular ratio," the Review pointed out.

"They are submitted solely for their significance as actual figures derived by consolidating the operating statements of 3,094 member associations for the calendar year 1938. They reflect the diverse operating conditions in different sections of the country, and for this reason are believed to be representative and useful."

STEADY CLIMB OF BUILDING IS REFLECTED IN CITY'S RECORDS

Low Cost, Small House Designs Are Approved by Federal Group

WASHINGTON, Nov. 11.—A score of low cost, small house designs drafted by architects for the National Lumber Manufacturers Association and cooperative groups in the construction industry have been approved under the Federal Home Building Service, it was announced today.

Homes built from these designs, if technically supervised throughout construction, will be eligible for registration with the Federal Home Loan Bank Board—certifying to the high type of design and construction and giving them a concrete evidence of value for resale.

To demonstrate that good homes can actually be built at prices ranging from \$2500 to \$5000, these homes have already been erected in Washington and a number of other communities, through the cooperation of lumber and other material dealers in a National Homes Demonstration program. In the Washington project prices ranged from \$2418 for three rooms to \$4095 for six rooms and a garage. These included grading, landscaping, walks and sodding but not the lot.

If costs in a community approximate those in Washington, home seekers can, under a 20 year financing plan, build a minimum home on a \$750 lot for \$327 down and about \$26 a month; the higher priced six-room home on a \$750 lot for \$485 down and \$40 a month. These figures include an average amount for fire insurance and taxes.

By applying to the Federal Home Building Service Section for approval, the National Lumber Manufacturers Association, it was explained, presents to the Bank Board's drive for technical approval of design and supervision of construction—the basis of the Federal Home Building Service Plan, which now is offered through some 270 lending institutions in the Federal Home Loan Bank System. The N.L.M.A. is a member of the Producers' Council, which joined the American Institute of Architects in becoming a co-sponsor of the Home Building Service several months ago. In producing its designs, the Association was aided by a committee of 32 co-operating materials manufacturers dealing in everything from roofing to plumbing and heating equipment.

"The 20 N.L.M.A. designs will be added to the library of home designs under the Federal Home Building Service," said R. A. Dier, producers of tungsten.

Estimates for 1939 are not yet available, but it is believed that they are commensurate.

Tungsten exports from China for the year amounted to 13,357,700 kilograms valued at \$50,492,082.

Although exports declined 3,160,000 kilograms as compared with 1937; the cash value of 1938 exports increased \$9,743,490, bringing the highest return since 1929.

Unaffected by War

The announcement said China would be able to maintain her tungsten exports because production centers in southern Kiangsi and northern Kwangtung are under Chinese control.

Germany, because of her rearmament program, was the leading purchaser of Chinese tungsten in 1937, the report disclosed. German purchases amounted to 4,815,300 kilograms. The United States was second with 2,380,400 kilograms, followed by Britain with 1,633,800 kilograms. The German purchases established a new record for a single country.

(Reports from Paris last month said that German planned to export captured Polish arms and munitions to China in return for tungsten, which would be shipped overland through Russia.)

Year's Total Runs to \$629,880 as Homes Are Built, Remodeled

Climbing steadily from month to month, Midland's building permits for 1939 had soared to \$629,880 Saturday morning, many of the recent projects having been for the altering and repairing of residence property.

Permits for the past two weeks, hitherto unpublished, included the following:

John M. Rush, dwelling, 902 South Big Spring street, \$3,950.

Mrs. J. D. Webb, 107 North Louisiana, alterations and repairs, \$700.

Mrs. R. O. Tom, 406 West Illinois, addition and alterations, \$800.

Herbert Deavenport, 407 West Kentucky, laundry building, \$800.

S. W. Luckey, Moody Addition, dwelling, \$300.

West Texas Advertising Company, 206 East Texas, sign, \$600.

Mrs. T. D. McGuire, 406 West Watson, rock veneering and altering residence, \$1,000.

C. E. Anderson, 119 North Weatherford, garage, rock business building, \$2,900.

B. M. McCellan, 506 Cuthbert, dwelling, \$3,000.

C. C. Newton, 2,000 West Indiana, \$6,500.

Isaac Johnson, 602 North Fort Worth, box house, \$250.

Reflecting the steady building activity for 1939, records of City Building Inspector W. F. Prothro are quoted here by months:

January	\$48,820
February	51,244
March	90,400
April	109,519
May	32,258
June	29,129
July	71,515
August	114,410
September	41,135
October	28,550
November (1-10)	12,900
Total	\$629,880

Individual home-financing institutions in other sections, it is being stressed not only by lending institutions but by chapters of the American Institute of Architects and members of the Producers' Council and dealers. The step taken by the N. L. M. A., according to Mr. Dier, is the first move in obtaining the cooperation of the lumber dealers throughout the country who are approached by thousands of families each year in their quest for new homes at low and moderate costs.

ED DOZIER JOINS SHOP.

Ed Dozier, well known to the Midland barber trade, has joined the staff of the Scharbauer Barber Shop, owned and operated by H. Paul Jones, and will be pleased to meet his old friends and customers, as well as new ones. (Adv.)

SUNDAY SCHOOL LESSON

BY W. W. LACKEY.

PUTTING GOD'S KINGDOM FIRST—Matt. 6:19-34; I Kings 3:4-12; Mark 10:23-31; Luke 5:1-11; I Tim. 6:6-11; Psa. 49:1-8.

THE CHRISTIAN'S CHIEF CONCERN.

1. Happy, useful life: Supreme loyalty, unifying purpose, master passion.
2. We must choose: What is first; good and evil; good, better, and best.
3. Principles: Laying up treasures: God and Mammon; Faith or Works?
4. Putting first things first: "Seek ye first the kingdom of God."

II. THE TEACHINGS OF JESUS:

1. Material interests and anxiety (physical necessities), peril spiritual welfare.
2. Not the chief good; not evil in itself; gifts, gratefully received, subordinated.
3. Production, proper use of: Means to moral and spiritual discipline.
4. Chief rival of the Kingdom: anxiety; proper trust, appropriate activity.

III. TREASURES IN HEAVEN:

1. Riches that last, the inner light, and two masters: God or Mammon.
2. Spiritual discernment, spiritual blindness, and spiritual darkness.
3. We must choose: Indecision, half-heartedness, and undivided service.
4. The treasure, the heart, and impossible neutrality.

IV. "BE NOT ANXIOUS":

1. Dr. B. H. Carroll's formula about worrying: Two things not to worry about.
2. Life than food, body than raiment; The philosophy of the "Indwelling Mountain."
3. Law of abiding civilization: The

strength of its spiritual life.

4. "Millions, inch of time,"—Elizabeth; \$200,000,000, ten more years.—Carnegie.

V. FIRST THINGS FIRST:

1. "The most business-like thing ever said in human history."—Chesterton.
2. Live the seeking life: "Seek first the Kingdom of God."
3. "The Upward Call and the Downward Tug."—Jack London, Call of the Wild.
4. Secret of a great life: "Magnificent Obsession," by Lloyd Douglas.

VI. SENTENCE SERMONS:

1. "Before the Ender comes, whose chariot?"
2. "The most business-like thing ever said in human history."—Chesterton.
3. "He that has light within his own clear breast."—Milton.

Committees Named for Christmas Seal Sale

Appointment of members of the local tuberculosis Christmas Seal committee for 1939 has been announced by Mrs. A. M. East, general chairman.

They include: Mrs. Don L. McKibbin, chairman of the Bangie Sales; Mrs. D. R. Carter, chairman of school talks; Mrs. Curtis Gilmore and Mrs. Watson LaForce, chairmen of the radio committee; Mrs. Wallace Trappnell, chairman of publicity.

"From the beginning of the organized educational drive against tuberculosis, volunteer service has been an outstanding factor in its success," said Mrs. East. "Volunteer service of generous and sympathetic men and women has been of tremendous value in reducing the death rate from the White Plague from 201 out of each 100,000 persons in 1904 to 49 out of each 100,000 in 1938."

The Christmas Seal sale, sponsored by the Midland Association, will open on Thanksgiving Day and continue through Christmas.

MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. What should a woman, dining in a restaurant, do with her purse and gloves?
2. Is it all right to ask a waiter to describe a dish with which you are not familiar?
3. Is "lovely" a suitable way to describe food?
4. Should a serving fork be placed on the platter of sliced meat when it is put before the host?
5. May a host ever use his own silver in serving?

What would you do if—

You are carving a turkey at table and want to know the preference of each person. Would you—

(a) Say, "Do you prefer white or dark meat?"

(b) Say, "What piece do you want?"

Answers

1. Put them in her lap, or on a vacant chair.
2. Yes.
3. No. Good, Excellent, or delicious.
4. No, it should be on the table.
5. No.

Best "What Would You Do" solution—(a).

Year-Around Circus Enjoyed by Children

HOUSTON, (AP)—The circus is gone, but the atmosphere lingers on for kids in the neighborhood of Mrs. E. C. Sturgis here. Indeed, they have a circus the year round.

Mrs. Sturgis furnishes the arena—her spacious front lawn where three dogs, a parrot, and numerous monkeys and cats romp about daily.

It is not a commercial venture with Mrs. Sturgis. She loves pets and has lots of them.

Among the animals, Rusty, a Capuchin monkey which has the run of the place, is the favorite. He races madly over the lawn with his dogs, rides on their backs, throws rocks at them from the trees, and bites their tails playfully when they least expect it. But it's all good, clean fun and the dogs enter into the spirit.

Polly the parrot, however, is more serious, and certainly the most voracious. When down comes, Polly crawls laboriously from her perch, places a foot on Rusty's cake and bursts into a song, "Girl of My Dreams."

If Mrs. Sturgis, eager to stop these didos, takes Rusty out of the room, Polly will chase after, shrieking, "Bring that monkey back here!"

Polly is quite a creature. She holds pretended conversations on the telephone—her favorite is with the grocer—can imitate an Irishman, can count to five, and can snatch from operas she has heard over the radio.

It's a strange and fascinating crowd Mrs. Sturgis has, and every day is circus day.

BULLDOGS COME FROM BEHIND TO DEFEAT LAMESA BY 33 TO 26

Francis Paves Way to Win in 2 Long Dashes

Coach "Choc" McCollum of Lamesa high school brings a bunch of boys into Midland Friday night who evidently cannot read the newspapers 'cause they certainly do not do what they are supposed to do. The Lamesa boys are supposed to play dead while the Midland Bulldogs roll up a heavy score over them but for 48 minutes the visitors gave the locals as nice a drubbing as has been seen, only to lose out in the final two minutes by a 33-26 count.

The Golden Tornado gets out on top early in the game, dropped one point behind twice and then takes a two-touchdown lead only to finally lose out when Midland's Jay Francis gets the lead out and starts to work in the final couple of minutes.

Jay proves a lot of times in the past three years that he can really travel but he waits for his last game on the home field to pull some of his most sensational stuff. He lies up the game with a 50 yard sprint through, over and around the Lamesa boys, holds the ball while Paul Klatt kicks goal to put the Bulldogs one point ahead, then intercepts a Lamesa pass and pulls one of his best runs of all time in making another touchdown.

Any boy in the Midland line should be able today to tell you how many stars there were out Friday night. They have plenty of time to count them as they lie on their backs and let the Lamesa boys run over them throughout the game.

Stories trickle into Midland before the game saying the Lamesa quarterback, a lightweightweight boy named Jack Vaughn, was good. The stories underestimate him. He is better than good, and he is not the whole team, either. A big boy named Furlow hits line a-la-Kim-

brought to pick up plenty of yards and a young end named Gus White, Jr., catches passes and slaps down interference like a machine.

Young Jim White of the Midland team will be eligible to play another year here if he wants to but he might as well go ahead and graduate now so some day he can tell his grand children how he plays the best game of his life in his final one at home. He makes only one touchdown but he gets off more than a couple of runs that were beauties to behold and is plenty rough on defense. It is not "Lazy Jim" out there Friday night.

Francis is the big noise for the Bulldogs during the game. He carries the ball most of the time, does all the kicking and most of the passing. He makes four touchdowns and the shortest distance he travels on any of them is 19 yards. The 24 points he makes during the game boosts his total for the year to 103 and lets him hold out in front of other league scorers.

A lot of fans stay away from the game because they think the Bulldogs will have a pushover. By doing so, they miss out on just about the best game of the year here.

The Tornadoes show early in the game they don't intend to be a heavy train for anybody. The second time they get the ball Vaughn gets loose for 35 yards to the Midland 9 but the locals hold and the ball goes over. But the next time they get the ball there is no stopping them. Starting on the 29, Vaughn completed a pass to White for 8, then carries down to the 1 in four stabs through the line and Furlow goes over for the touchdown.

The Bulldogs do not make a first down in the initial period but early in the second quarter Vaughn gets off a short punt that goes out on his own 35 and the Bulldogs come to life. White picks up 7, then Francis makes 5 and 4, tries a pass that falls incomplete and goes over his own right tackle, cuts sharply to his left and outruns the field to the goal line. Klatt kicks the goal to put the locals ahead.

The Bulldogs do not stay ahead

long. Francis kicks to Vaughn on the Lamesa 34 and on the first play he picks up 23 yards around end. Vaughn and Furlow carry down to the 30, Vaughn hurls one 20 yards to White and he heads for paydirt untouched. White then kicks goal to make it 13-7 in favor of Lamesa. The half ends with the score that way.

The Bulldogs get ahead early in the third period. Vaughn fumbles and Jim White recovers for Midland on the Lamesa 45. Francis is apparently trapped for a big loss on an attempted pass but he reverses his field and picks up about 15. Truelove gets 11 in three tries. White gets down to the 1 in a couple of tries, then goes over. Klatt again kicks goal.

But the lead doesn't last long. Vaughn kicks one out of bounds on the Midland 4, Francis kicks back to him on the Midland 40 and Vaughn heads for the races. He is finally pulled down on the 1 yard marker. Wilson hits the line and it is six more points. White boots another goal and the score is 20-14.

Near the end of the period Truelove fumbles and Lamesa recovers on the Midland 35. Vaughn just keeps calling himself each time and gets down to the Midland 1 early in the fourth period, then goes over and the score is 26-14.

Things really begin to look serious to the Bulldogs now. They go into an "Odessa spread" that fools the Lamesa boys temporarily. Francis, Harris and White picking up some nice yardage through the line to get to the Lamesa 25 and Francis broke around end and races for a touchdown. Klatt's kick is low and it is 26-26.

Both clubs kick and Midland is finally back on their own 20 yard line with only two minutes to go. Williams barely misses a pass that has touchdown written all over it. Francis skirts an end for 23 yards and Truelove picked up 7 to put the ball on the 50. Francis then went over his own right tackle, cut back to his left and ran parallel with the line until he got in the clear and turns on the steam to out-

run everybody to the goal. With the ball game in the balance, Klatt's kick was high and in the middle to make the score 27-26.

White kicks out of bounds and Vaughn opens a passing attack on his 35. Two fall incomplete and on the third one Francis jumps in front of the ball, shakes off a half dozen would-be tacklers and finally completes a 38-yard sprint to the goal. Klatt's kick is no good but no one cares. White again kicks off and Hardwick is downed on the Lamesa 34 as the game ends. And nobody is any happier than the Bulldogs.

Game at a glance:

Lamesa	Midland
16 First downs	17
65 Yards rushing	256
78 Yards passing	34
7 of 16 passes com.	2 of 3
1 for 214* punts	6 for 232
1 for 20 penalties	2 for 20

Starting line-ups: Lamesa—Oswald and White, ends; Holliday and Bussell, tackles; Barkhurst and

Spencer, guards; Morgan, center; Vaughn, quarterback; Reeves and Wilson, halfbacks; Furlow, fullback.

Midland—Bratton and Williams, ends; Foster and Wallace, tackles; Klatt and Eidson, guards; Cocks, center; Francis, quarterback; Harris and White, backs; Truelove, fullback. Substitutions: Lamesa—Hardwick, S. Cocks, E. G. Foster, Johnson.

Score by periods:

Lamesa	0	7	7	6	26
Midland	0	7	7	19	33

Scoring: Lamesa—Furlow ran for touchdown in first; Vaughn passed to White for touchdown in second. White kicking goal; Wilson ran for touchdown in third. White kicking goal; Vaughn ran for touchdown in fourth.

Midland—Francis ran for touchdown in second, Klatt kicking goal; White ran for touchdown in third, Klatt kicking goal; Francis ran for three touchdowns in fourth, Klatt kicking goal after one touchdown.

"Open House" Scheduled for Old, Prospective New Members of the Country Club Saturday

By F. A. STACY.

Members of the Midland Country Club, their friends and any contemplating joining the club are invited to a very informal open house to parade the many new improvements now nearly completed. Said open house will be from five p. m. until seven p. m. next Saturday afternoon at the club house.

The publicity department wrote several articles in the past about the many plans for improvements at the Midland Country Club and now it is fitting that we write an article about the completion of said plans.

The swimming pool will be ready long before there will be swimming weather. In fact, it is practically ready right at this time. There is of course a wading pool for the little ones and a spacious veranda for the ever-loving mothers to sit on and knit while they watch over the little dears.

The addition to the club house and the completion of a very fine water well also call for some notice. The new pro shop with ample room to work, the extension and addition to the lockers in the locker room is a much needed improvement that has been completed. The garage for the tools, tractor and truck is a worthwhile improvement. But the one thing that will do more toward making the course the beauty spot of the town is the water well. It is quoted at from 120 gallons to 300 gallons per minute; 50 or 60 gallons per minute would handle all the needs of the club. It will give the swimming pool ever fresh water as there is a well and a booster pump that will pump the water from the pool to the greens and fairways, flowing it through the pool practically twenty

four hours per day.

If the lake giving us a water hazard on present 7 hole gets too dry we can run a bit of water from the well into that to keep the lookers-uppers from dunking into dry dirt. There will be plenty of trees and shrubbery surrounding this little lake and it will beautify the grounds quite a bit, in fact, by next growing season, the fairways will be watered and planted, and the entire course will be as beautiful as any spot in West Texas.

Perhaps the most popular place on the entire forty acres will be the new eighteen hole bent grass putting green that will be lighted for night play. The bent grass was used by way of experimenting with the entire forty acres will be the new eighteen hole bent grass putting green that will be lighted for night play. The bent grass was used by way of experimenting with

Lombardi poplars and other shrubs will be planted around the swimming pool and lake, additional trees scattered over the course, and some of the trees now in the new fairways will be moved during the winter. Next spring will find the course showing the result of the work that has been done. Worlds of grass has been planted that can not make a showing until a growing season and there has been no need to plant willow trees and such until our water system is completed and hooked up to the new water well.

This open house is particularly for those doubting persons who would never believe that we would do the proposed work.

San Angelo Comes From Behind To Tie Big Spring Steers 13-13

SAN ANGELO, Nov. 11. (Special).—Overcoming a 13-point deficit in the third quarter, the San Angelo Bobcats scrapped the Big Spring Steers to a 13-13 draw in a district 3-AA game played in the mud before 2,500 fans here this afternoon.

The Steers drove 45 yards for a touchdown the first time they took the ball, Miller passing to Gartman for the final 13 yards. Savage's attempted conversion was wide. Bethel ran 24 yards for the second touchdown in the third period and Savage

place kicked the extra point. Drake recovered a blocked punt and ran 22 yards for the Bobcat's first touchdown in the third period. Stewart's attempted place kick was wide shortly afterward. Stewart plunged over the second touchdown from the five yard line and ran across the extra and tying point. Each team made 10 first downs. Big Spring gained 153 yards rushing and 12 yards on three passes of 11 attempted while San Angelo rushed 128 yards and gained 30 yards on three passes of 11 attempted.

Mustang Fumble Gives Aggies a Six-Two Victory

COLLEGE STATION, Nov. 11.—One lucky break early in the second quarter today was all the Texas Aggies needed and they capitalized on a Southern Methodist fumble to score a touchdown and come out ahead of the Mustangs by a 6-2 count. The victory left the Aggies on top in the Southwest Conference flag chase.

The game was played in a driving rain most of the time and neither team seriously threatened more than once. The lone SMU score came in the final period when an Aggie punt was blocked back of the goal line.

It was early in the second period when quarterback Conatser of the Aggies kicked out on the SMU 8 yard stripe. Presto Johnson hit the line for two yards but fumbled and an Aggie recovered. In three tries, Big John Kimbrough slid over for a touchdown.

The Aggies played in Southern Methodist territory throughout the third period, three partially blocked punts severely handicapping the Mustangs. The Aggies once advanced as far as the Mustang 11 before losing out.

The Mustangs came to life in the final period, unleashing a passing attack that kept them in Aggie territory most of the time. Late in the final period Conatser was forced to punt from behind his goal and Guynes of the Mustangs broke through to block the kick. However, Conatser managed to fall on the ball behind the goal, giving the Mustangs two points.

Britain Helps Service Men's Dependent Kin

LONDON (AP)—Great Britain does not fear starvation in the present war, according to government economic statisticians. Secret purchases and storage of foodstuffs during the past 12 months have been so successful it was said, that even if, in the future, ships were unable to reach British ports with supplies from abroad, the nation could be fed for more than 12 months—certainly until after another harvest was gathered in.

The full extent of the government stocks has not been revealed, but in ports where wheat is stored in silos and granaries stocks are known to exceed 11,600,000 cwt. This is 73 per cent higher than a year ago. Holdings of wheat flour are nearly 40 per cent heavier.

If the whole of Ireland is included, the stocks of wheat are 170 per cent greater than a year ago. Record Harvest. Purchases of wheat from abroad are reaching record figures. During the seven months ended July 31, 70,841,000 cwt. of wheat had been delivered from countries overseas. That was more than 14,000,000 cwt.

MUSTANGS NUDGE ODESSA 22-19

SWEETWATER, Nov. 11. (Special).—A fighting Odessa team almost toppled the Sweetwater Mustangs from the unbeaten and untied class here Armistice Day afternoon but the Ponies finally managed to outscore the Odessa county lads 22 to 19.

Odessa matched Sweetwater in matter of touchdown making, but failed to kick goal a couple of times and a fourth quarter safety made up for one Mustang failure to convert.

The Mustangs scored first on a nice gallop by Lynn, but Odessa came back with a touchdown strike thrown by Hogan to Alvin Caudle for 31 yards. The score was tied at 6-all. A few plays later Freeze tossed a 13-yard heave to Bill May and the Mustang end scampered 28 yards

to score. Headrick kicked goal. A few plays later the Broncs came back with a tally when Alvin Caudle took another Hogan pass and clicked off 53 yards and a score. Fred Caudle made a try from placement.

Shortly before the end of the half, Sweetwater took one of Hogan's short kicks on Odessa's 31 and Freeze passed to Flanagan for the distance. Headrick kicked goal.

Odessa took the opening kickoff in giving up the ball. F. Caudle taking giving up the ball. F. Caudle taking a pass from Hogan for the last 11 yards.

Headrick fumbled on Odessa's six in the final period and the Broncs recovered. Hogan, trying to pass on first down, was tackled behind his goal by Floyd Ratliff for a Sweetwater safety.

Ben Franklin a Born New Dealer, "Man of People," Says Biographer

PHILADELPHIA (UP)—If Benjamin Franklin were alive today he probably would be a New Dealer, says Dr. Carl Van Doren, whose biography of the colonial statesman - author won the Pulitzer Prize.

"Franklin's was the most eminent mind, I think, that ever existed in America," Van Doren commented in an interview.

"He would have been a New Dealer because he fundamentally was a man of the people. He never patented any of his inventions - he believed they should be made available to all. He was the most radical member of the Constitutional Convention.

"Of course he would have been a printer. His will read: 'Benjamin Franklin, printer.' I have no doubt that if he were alive today he would be printing books and papers just as he did two centuries ago. He might have ended us as the biggest printer in the United States of today, but I think he would have been head of the printers' union as well."

Franklin would have liked the modern world and probably would have become a great scientist—"an Einstein whom people could understand," according to Van Doren.

Finally, Franklin would probably have become a diplomat," the author concluded. He was the best ambassador we ever had in Europe by far. His was really a diplomat's mind.

"He would have been one ambassador who really knew what country he represented. He would have known he was representing America, and America only."

KELLOGG PLEDGED WORLD TO PEACE, BUT--

Editor's Note: This is the last of a series of stories on the men who built the international peace movement. It will be followed by a story rounding up the present day organized effort for peace.

By WILLIS THORNTON
NEA Service Staff Correspondent.

To another American fell the leadership in still another attack on war—the effort to outlaw it, to get the nations to promise not to fall back on force, which they declared an illegal means of attaining their ends.

This was Frank Billings Kellogg, secretary of state for President Coolidge until 1929.

Almost every conceivable approach to the problem of war had been made before that time. Ancient civilizations tried to create a single power so strong that no one would dare attack it, thus enforcing peace.

Grotius and his followers tried to set down laws for nations as individuals. Nicholas II tried to open an era of peace by conference and arbitration.

Nobel and Carnegie sought peace by publicity, and 1000 noble men and women worked for peace by pressure and for the sake of morality. Wilson attempted an association of nations—an "international government."

It remained for another American diplomat to try to make war illegal, an outlaw.

Kellogg, born in New York state, went to Minnesota to study and practice law, and was elected to the Senate. He was a delegate to the Fifth Pan-American conference at Santiago in 1923, and to the sixth, at Havana in 1928.

As Secretary of State Kellogg was active in the Geneva naval limitation conference of 1927 between Great Britain, Japan, and the United States. He tried to compose the Tacna-Arica dispute by discussions between Chile, Peru and Bolivia.

His most important achievement was the "Pact of Paris," in which 15 nations renounced war as an instrument of national policy in their relations with one another.

"ILLEGAL WAR" NO NEW IDEA
The idea had not been original with Kellogg. Thinkers on the subject had for centuries envisioned the truly effective attack on war as making it illegal, depriving it of its status as a recognized means of attaining national objectives.

In 1937 Premier Briand of France proposed a treaty between the United States and France in which 15 nations renounced war for all time as an instrument against the other. From this grew the desire to extend the plan, and after eight months of conference at Paris, on August 28, 1928, there was signed

a multilateral treaty renouncing war.

Original signers included Germany, the United States, Belgium, France, Britain, Italy, Japan, Poland and Czechoslovakia. This time the United States ratified the treaty the following year without reservation.

By mid-1929, a total of 45 nations had ratified this treaty. It is short and simple, pledging each to use war no more in attaining national objectives.

Although a certain cynicism had begun already to grow up regarding international pledges, Kellogg seemed justified in saying, "It is not too much to hope that through their adoption of and adherence to the principles embodied in the Pact, the nations of the world are entering on an era of better understandings in their dealings with one another."

So it might have been if good faith had matched intentions. There may be some significance yet in the fact that no country yet admits breaking the treaty.

Kellogg, again, did not live to see the complete nullification of his gallant effort to make of war an outlaw. He died in 1937.

Almost as old as war itself, then, is this war on war. Each of its small victories is followed by a great defeat.

Yet the fight goes on, and behind the war spirit in every country now fighting in Europe, there is a pressure for peace. Each year shows that the work of the thousands of devoted men and women who have worked for peace has not been quite in vain.

HAS SURGERY
Mrs. J. Harvey Fryar, formerly of Midland, underwent major surgery in a Midland hospital Saturday and was reported doing well late in the afternoon. Mr. Fryar, who is associated with the Standard of Texas company, is here at his wife's bedside. The couple live at the company camp near Westbrook.

HAS APPENDECTOMY

Light Rain Falls Over West Texas
Rainfall totaling 23 of an inch fell in Midland Friday night and Saturday and was general over surrounding areas.

It was reported that rain fell over practically all of West Texas, however, in most places it was only light drizzles that was of no great benefit. The rain that fell in Midland country in most places was light and was of no help to range lands badly in need of moisture.

Approximately 187,122,400 acres of nationally owned land is under protection of organized fire control systems in the United States.

Oil News—

(Continued from page 1)

ment, and operators planned to flow it until b.s. cleared up, then shut it in. Potential test probably will be started today.

No. 1 Averitt, soon on set to the discovery oiler of the pool, is located 1,980 feet from the north, 660 from the east line of section 226, block G, W. T. R. R. survey. It was originally completed nearly three years ago for flow of 207 barrels daily after acidizing at total depth of 5,039 feet, corrected by steel line measurement from 4,935. Deepening recently, it logged broken pay continuously from old total depth to 5,150 feet, where 5 1/2-inch liner was cemented. Operators then drilled plug from liner and encountered still more pay in drilling to present depth of 5,225. Whether they plan to gun-perforate the liner is not known.

Magnolia and Atlantic No. 2 Haverly & Jenny, Semmole pool well in section 219 is drilling at 4,719 feet in anhydrite and lime; Amerada No. 1-A T. S. Riley had drilled at 4,803 in gray lime; and Osage Drilling Company, Inc. of Oklahoma No. 3-A J. L. Tippett, in section 269, is drilling below 4,703 in anhydrite and lime.

Sinclair-Prairie No. 1-69 University, short northeast outpost to the Emma pool in southern Andrews county, is rigging up rotary.

Southeast Cochran Strike.
Preparations are being made to acidize with 10,000 gallons in Atlantic No. 1 H. T. Boyd, either the opener of a new pool or a two and one-half miles east extender of the Dugan pool in southeastern Cochran county. The well is said to have topped pay in lime at 4,950 feet and is bottomed at 5,040. No test of natural production was made.

Phillips Petroleum Company No. 1 "Midland," east-side well in the North Cowden pool of northern Ector county, flowed 1,340.45 barrels on 24-hour potential gauge after first treating with 5,000 gallons of acid then shooting with 400 quarts of nitro. Oil tested 32.5-gravity, and gas-oil ratio is 445-1. Pay was topped at 4,116 feet and total depth of 4,392 reached.

In the Jordan pool of Ector, Shell Oil Company, Inc. No. 7-D University was completed at 3,654 feet for initial 24-hour potential of 1,491.52 barrels of 34.3-gravity crude and gas-oil ratio of 886-1, following a 309-quart shot. It topped pay at 3,345 feet.

The Texas Company No. 44 King, in the Crane-Cowden pool of southeastern Crane county, pumped 344.91 barrels of 30.2-gravity oil in 24 hours upon completion at 2,395 feet. Pay entered at 2,327 was acidized with 2,000 gallons.

Magnolia No. 13 W. P. Edwards, one-half mile southwest extender of the Waddell pool in northeastern Crane, slopped oil over casing after acidizing with 5,000 gallons at 3,552 feet. It previously had been shot with 110 quarts. The well now is shut in.

Humble Oil & Refining Company No. 33 J. E. Tubb et al, one-mile east extender of the Sandhills deep Permian pool of western Crane, is building derrick.

Northwest Crockett Wildcat.
Zay Kimberlin of Midland No. 1 J. W. Robbins et al, northwestern Crockett county wildcat, logged slight showing of oil and gas in sand from 1,280-90 feet and is drilling ahead below 1,500 in anhydrite. It is several miles northwest of the Crockett pool on University of Texas lands.

Humble No. 1 Mrs. Bertha D. Young, northern Pecos county Ordovician wildcat eight and one-half miles northwest of the Apco pool, is drilling below 520 feet in red beds.

Mid-Continent Petroleum Corporation No. 4 Sealy, in the Magnolia-Sealy pool of northern Ward county, had drilled to 2,601 feet in anhydrite.

Magnolia No. 2-43 Sealy, indicating

Barge With Planes For British Sinks

NEW YORK, Nov. 11 (AP)—A barge loaded with two Lockheed bombers consigned to the British royal air force sank today while tied at a pier at Stapleton, Long Island. Detectives pointed out that there was neither wind nor high waves when the craft sank, although for the past week the barge had been buffeted by strong winds. Police started an inspection of the craft for signs of tampering.

Every "Strad" Not a Fortune Warnings Expert

CHICAGO (UP)—If your hope of sudden wealth rests in a violin case labeled Stradivari, 1716, you may as well abandon it.

Kenneth Warren, violin appraiser for a national music instrument firm, counsels:

"It is significant that of all the hundreds of so-called Cremonese violins that have been brought in for appraisal not a single genuine instrument has ever been found.

"Hundreds of persons a year who have violins bearing the labels of the Cremonese makers, Stradivari, Guarneri and Amati, come to us to sell them.

"These instruments were not made to deceive anyone. They were originally made as models from those of the Cremonese and a ticket put inside to indicate they were copies of the maker. In the course of time people think they are the original instrument. There are only about 450 Stradivari instruments left, and we know where all of them are. The chances of another turning up are exceedingly slim."

IS ADMITTED

Mrs. C. D. Hicks was admitted to a Midland hospital Friday night for medical attention.

PATIENTS DISMISSED

Dismissed from Midland hospitals Saturday were Mrs. R. S. Anderson and daughter and Mrs. E. C. Zimm and daughter.

Survived—to Face Tragedy

Saved from the sea, only to face tragic news, were these survivors of the British ship Yorkshire, torpedoed 500 miles off the coast of France. The little girl on the man's lap lost her father and mother. The couple at right learned their four children had been drowned. They were among 300 survivors of the torpedoed ships Yorkshire and City of Mandalay, picked up on the same night by the American liner Independence Hall, and landed at Bordeaux.

A British army surgeon wrote "Yankee Doodle" which was used as a marching song by the colonists during the Revolutionary War.

Ben Franklin a Born New Dealer, "Man of People," Says Biographer

PHILADELPHIA (UP)—If Benjamin Franklin were alive today he probably would be a New Dealer, says Dr. Carl Van Doren, whose biography of the colonial statesman—author won the Pulitzer Prize.

"Franklin's was the most eminent mind, I think, that ever existed in America," Van Doren commented in an interview.

"He would have been a New Dealer because he fundamentally was a man of the people. He never

think he would have been head of the printers' union as well.

Franklin would have liked the modern world and probably would have become a great scientist—"an Einstein whom people could understand," according to Van Doren.

"Finally, Franklin would probably have become a diplomat," the author concluded. He was the best ambassador we ever had in Europe by far. His was really a diplomat's mind.

"He would have been one ambassador who really knew what country he represented. He would have known he was representing America, and America only."

KELLOGG PLEDGED WORLD TO PEACE, BUT--

Editor's Note: This is the last of a series of stories on the men who built the international peace movement. It will be followed by a story rounding up the present day organized effort for peace.

By WILLIS THORNTON
NEA Service Staff Correspondent.

To another American fell the leadership in still another attack on war—the effort to outlaw it, to get the nations to promise not to fall back on force, which they declared an illegal means of attaining their ends.

This was Frank Billings Kellogg, secretary of state for President Coolidge until 1929.

Almost every conceivable approach to the problem of war had been made before that time. Ancient civilizations tried to create a single power so strong that no one would dare attack it, thus enforcing peace.

Grotius and his followers tried to set down laws for nations as nations set them down for individuals. Nicholas II tried to open an era of peace by conference and arbitration.

Nobel and Carnegie sought peace by publicity, and 1000 noble men and women worked for peace by pressure and for the sake of morality. Wilson attempted an association of nations—an "international government."

DIPLOMAT TRIES TO OUTLAW WAR

It remained for another American diplomat to try to make war illegal, an outlaw.

Kellogg, born in New York state, went to Minnesota to study and practice law, and was elected to the Senate. He was a delegate to the Fifth Pan-American conference at Santiago in 1923, and to the sixth, at Havana in 1928.

As Secretary of State Kellogg was active in the Geneva naval limitation conference of 1927 between Great Britain, Japan, and the United States. He tried to compose the Tacna-Atacama dispute by discussions between Chile, Peru and Bolivia.

His most important achievement was the "Pact of Paris," in which 15 nations renounced war as an instrument of national policy in their relations with one another.

"ILLEGAL WAR" NO NEW IDEA

The idea had not been original with Kellogg. Thinkers on the subject had for centuries envisioned the truly effective attack on war as making it illegal, depriving it of its status as a recognized means of attaining national objectives.

In 1937 Premier Briand of France proposed a treaty between the United States and France in which each renounced war for all time as an instrument against the other. From this grew the desire to extend the plan, and after eight months of conference at Paris, on August 28, 1928, there was signed

a multilateral treaty renouncing war. Original signers included Germany, the United States, Belgium, France, Britain, Italy, Japan, Poland and Czechoslovakia. This time the United States ratified the treaty the following year without reservation.

By mid-1929, a total of 45 nations had ratified this treaty. It is short and simple, pledging each to use war no more in attaining national objectives.

Although a certain cynicism had begun already to grow up regarding international pledges, Kellogg seemed justified in saying, "It is not too much to hope that through their adoption of and adherence to the principles embodied in the Pact, the nations of the world are entering on an era of better understandings in their dealings with one another."

So it might have been if good faith had matched intentions. There may be some significance yet in the fact that no country yet admits breaking the treaty.

Kellogg, again, did not live to see the complete nullification of his gallant effort to make of war an outlaw. He died in 1937.

Almost as old as war itself, then, is this war on war. Each of its small victories is followed by a great defeat.

Yet the fight goes on, and behind the war spirit in every country now fighting in Europe, there is pressure for peace, a pressure which shows that the work of the thousands of devoted men and women who have worked for peace has not been quite in vain.

HOPE FOR HARMONY AMONG NATIONS

Although a certain cynicism had begun already to grow up regarding international pledges, Kellogg seemed justified in saying, "It is not too much to hope that through their adoption of and adherence to the principles embodied in the Pact, the nations of the world are entering on an era of better understandings in their dealings with one another."

So it might have been if good faith had matched intentions. There may be some significance yet in the fact that no country yet admits breaking the treaty.

Kellogg, again, did not live to see the complete nullification of his gallant effort to make of war an outlaw. He died in 1937.

Almost as old as war itself, then, is this war on war. Each of its small victories is followed by a great defeat.

Yet the fight goes on, and behind the war spirit in every country now fighting in Europe, there is pressure for peace, a pressure which shows that the work of the thousands of devoted men and women who have worked for peace has not been quite in vain.

ment, and operators planned to flow it until b.s. cleared up, then shut it in. Potential test probably will be started today.

No. 1 Averitt, south outset to the discovery oiler of the pool, is located 1,980 feet from the north, 660 from the east line of section 228, block G, W. T. R. R. survey. It was originally completed nearly three years ago for flow of 207 barrels daily after acidizing at total depth of 6,039 feet, corrected by steel line measurement from 5,035. Deepening recently, it logged broken pay continuously from old total depth to 5,150 feet, where 5 1/2-inch liner was cemented. Operators then drilled plug from liner and encountered still more pay in drilling to present depth of 5,225. Whether they plan to gun-perforate the liner is not known.

Magnolia and Atlantic No. 2 Havenyer & Jenny, Seminole pool well in section 219, is drilling at 4-719 feet in anhydrite and lime; Amerada No. 1- A. T. S. Riley had drilled at 4,803 in gray lime; and Cragge Drilling Company, Inc. of Oklahoma No. 3-A J. L. Tippett, in section 266, is drilling below 4-703 in anhydrite and lime.

Sinclair-Prairie No. 1-69 University, short northeast outpost to the Ennis pool in southern Andrews county, is rigging up rotary.

Southeast Cochran Strike. Preparations are being made to acidize with 10,000 gallons in Allan-

No. 1 H. T. Boyd, either the opener of a new pool or a two and one-half miles east extender of the Duggan pool in southeastern Cochran county. The well is said to have topped pay in lime at 4,950 feet and is bituminated at 5,040. No test of natural production was made.

Phillips Petroleum Company No. 1 "Midland," east-side well in the North Cowden pool of northern Ector county, flowed 1,340.45 barrels on 24-hour potential gauge after first treating with 5,000 gallons of acid then shooting with 490 quarts of nitro. Oil tested 32.5-gravity, and gas-oil ratio is 445-1. Pay was topped at 4,110 feet and total depth of 4,392 reached.

In the Jordan pool of Ector, Shell Oil Company, Inc. No. 7-D University was completed at 3,654 feet for initial 24-hour potential of 1,491.52 barrels of 34.5-gravity crude and gas-oil ratio of 589-1, following a 309-quart shot. It topped pay at 3,345 feet.

The Texas Company No. 44 King, in the Crane-Cowden pool of southeastern Crane county, pumped 34.91 barrels of 30.2-gravity oil in 24 hours upon completion at 2,295 feet. Pay entered at 2,327 was acidized with 2,000 gallons.

Magnolia No. 13 W. P. Edwards, one-half mile southwest extender of the Waddell pool in northeastern Crane, sloped oil over casing after acidizing with 5,000 gallons at 3,552 feet. It previously had been shot with 110 quarts. The well now is shut in.

Humble Oil & Refining Company No. 33 J. B. Tubb et al, one-mile east extension test to the Sandhills deep Permian pool of western Crane, is building derricks.

Northwest Crockett wildcat, No. 1 J. W. Robbins et al, northwestern Crockett county wildcat, logged slight showing of oil and gas in sand from 1,290-20 feet and is drilling ahead below 1,500 in anhydrite. It is several miles northwest of the Crockett pool on University of Texas lands.

Humble No. 1 Mrs. Bertha D. Young, northern Peecos county Ordovician wildcat eight and one-half miles northwest of the Apco pool, is drilling below 520 feet in red beds.

Mid-Continent Petroleum Corporation No. 4 Sealy, in the Magnolia-Sealy pool of northern Ward county, had drilled to 2,601 feet in anhydrite.

Magnolia No. 2-45 Sealy, indicat-

ing opening of a new lime reef pool in northern Ward a mile and three-quarters south by southeast of the Magnolia-Sealy pool, still is standing after squeezing off 49 perforations in 5 1/2-inch liner from 2,940-53 feet with 150 sacks of cement. It probably will be deepened.

Revival—

Continued From Page One.

led in the construction of an educational building costing some seventy thousand dollars. The church at Tyler has just recently finished remodeling their auditorium at a cost of some seventy-five thousand dollars.

"In all of these years, he has led his own churches in an intensive evangelistic program. At the same time, he has responded to the call of many churches for aid in revival services until today he is considered one of the leading pastor-evangelists in the South. Every year he turns down more calls than he can possibly fill. These calls have come from the smallest country church to the largest of the city churches. Since being in Tyler he has been called back to both of his former pastorates for revivals. Out of this rich experience of pastoral leadership and evangelistic fervor he comes to lead the First Baptist church of Midland in a series of revival meetings.

"The entire church going public is most cordially invited to hear this man. God during these days. Some of our people heard him in Odessa last August and they recommend him most highly. He will be in Midland for ten days."

Initial Rehearsals Show Talent in Cast Of Opening Play

Although still in the initial stages of rehearsal, an abundance of first-class talent is already in evidence among members of the cast of the Midland Little Theatre's first production, "Stage Door," which is to be staged in the Yucca Theatre the night of December 13.

Rehearsals are being held in the Rex Theatre four times weekly and much progress has already been made. Members of the cast of thirty two are working hard on their parts and interest in Midland's Little Theatre is mounting daily under the sage direction of Mrs. Wilmer B. Stowe, assisted by Mrs. Don McKibbin.

"A gratifying amount of first-class talent is available for the production, many of the cast having had past stage experience. In view of the splendid showing already made at the rehearsals it is not too early to predict that Midland theatre goers have a pleasant evening of entertainment ahead of them and the sibly many a surprise as they see their friends and acquaintances transformed into real flesh-and-blood actors and actresses on the stage," sponsors said.

Organization of the theatrical group is virtually complete and most of the work incident to staging the show is going forward smoothly. It is pointed out, however, that new members are constantly being sought. The organization wishes to include everyone in Midland who is interested in any phase of Little Theatre work.

Mrs. Hal C. Peck is in charge of ticket sales and patron memberships and an effort is being made by her and her committee to sell as many of each as possible at an early date. The patron memberships, several of which have already been sold, are twenty-five dollars, each and are for sale to anyone who is interested in furthering the Little Theatre work in Midland. The season tickets sell for two dollars each and entitle the purchaser to attend all three of the scheduled productions of the Little Theatre this season.

Those wishing to purchase either patron or season tickets, or obtain further information about the Little Theatre are requested to phone either Mrs. Hal Peck 1061 or Miss Susie Graves Noble at 139.

Barge With Planes For British Sinks

NEW YORK, Nov. 11 (AP)—A barge loaded with two Lockheed bombers consigned to the British royal air force sank today while tied at a pier at Stapleton, Long Island. Detectives pointed out that there was neither wind nor high waves when the craft sank, although for the past week the barge had been buffeted by strong winds. Police started an inspection of the craft for signs of tampering.

Every "Strad" Not a Fortune Warns Expert

CHICAGO (AP)—If your hope of sudden wealth rests in a violin case labeled Stradivari, 1716, you may as well abandon it.

Kenneth Warren, violin appraiser for a national music instrument firm, counsels: "It is significant that of all the hundreds of so-called Cremonese violins that have been brought in for appraisal not a single genuine instrument has ever been found."

"Hundreds of persons a year who have violins bearing the labels of the Cremonese makers, Stradivari, Guarneri and Amati, come to us to sell them. "These instruments were not made to deceive anyone. They were originally made as models from those of the Cremonese and a ticket put inside to indicate they were copies of the maker. In the course of time people think they were the original instrument. There are only about 450 Stradivari instruments left and we know where all of them are. The chances of another turning up are exceedingly slim."

IS ADMITTED

Mrs. C. D. Hicks was admitted to a Midland hospital Friday night for medical attention.

PATIENTS DISMISSED

Dismissed from Midland hospitals Saturday were Mrs. R. S. Anderson and daughter and Mrs. E. C. Zinn and daughter.

Baptist Brotherhood Plans Supper Monday For Fathers, Sons

Second regular meeting of the Baptist Brotherhood, recently organized by men of the church, will be held at the church basement Monday evening at 7 o'clock. It has been announced by C. G. Murray, president.

The session will be a father and son affair, with each man asked to bring his own son or another boy. Younger men of the organization may bring their fathers or "borrow a companion," it was announced.

Supper will be served and an address will be made by H. L. Wren of Snyder, president of the district Brotherhood and one of the outstanding lay speakers of the Baptist denomination. Mr. Wren addressed the meeting here last month of the association Brotherhood and received high acclaim for his powerful speech.

Congratulations to:

Mr. and Mrs. C. A. Parr on the birth of a daughter in a Midland hospital this morning. The baby weighed 6 pounds 6 1/2 ounces.

Hunting Date Change Would Depend on Act Of State Officials

Possibility of having Midland county placed in the early zone for dove hunting rests with state authorities, according to advice from W. E. Crouch, chief of the division of game management, United States Department of the Interior, to J. Arthur Johnson, Midland sportsman.

Although the bureau of biological survey, of the department of interior, maps the various zones, "the dates for the dove season in Texas were decided upon after full consultation with authorities in your state," Crouch wrote Johnson.

His letter was in answer to correspondence from Johnson in which it was explained that the dove season opens in this section September 15 and the duck season November 15, after these game birds have migrated from this area. Johnson urged that an effort be taken to correct the measure for the zone of local hunters. Crouch's reply said:

"There are but three waterfowl shooting zones at present in the United States. The season on these birds does not extend beyond December 29 anywhere in the United States and Texas is in the zone having the latest shooting dates. It is not contemplated a hunter will get 45 days of shooting but that sportsmen throughout the state will have an opportunity to enjoy reasonable hunting opportunities.

"While it may be two years out of five there are no doves in your particular section there appears little likelihood of an earlier opening date for your area. The dates for the dove seasons in Texas were decided upon after full consultation with authorities in your state.

"As a matter of fact the Bureau has been of opinion September shooting of mourning doves in certain southern states was biologically unsound and the season this year in one state and parts of three states did not open until September 15 and in part of another until October 1, whereas last year the opening date was September 1."

SISTERS ARE GUESTS

Mrs. D. W. Young has as her guests her sisters, Mrs. Jess Watson of Newcastle, Texas, and Mrs. E. M. Remington of Grant, Texas, and the former's husband, Jess Watson of the AAA.

Survived—to Face Tragedy

Saved from the sea, only to face tragic news, were these survivors of the British ship Yorkshire, torpedoed 500 miles off the coast of France. The little girl on the man's lap lost her father and mother. They were among 300 survivors of the torpedoed ship Yorkshire and City of Mandalay, picked up on the same night by the American liner Independence Hall, and landed at Bordeaux.

HIGH SCHOOL NEWS

WRITTEN BY THE JOURNALISM CLASS OF MIDLAND HIGH SCHOOL

Editor-in-Chief, Frank Wade Arrington
Associate Editors, Joyce Saunders, Roger Sidwell
Faculty Sponsor, Miss Ruth Carden

Pro and Con: Should Six Weeks Tests Be Given?

PRO and CON: Should six weeks tests be given? Most students give a stonum of no's to this question. Frances Ellen Link, sophomore, believes that weekly tests and finals are enough tests and that some students get nervous over six weeks tests and are not capable of doing good work. Eddy Gene Cole says, "They are just too much work and cramming. Marilyn Moore feels that students study only just before the tests and have learned questions so quickly they forget them when the tests are over."

When asked for his opinion, Eugene Ferguson, senior vice-president, replied, "Students review old material that would otherwise be forgotten." Billy Kimbrough thinks that six weeks tests are a good idea, even though he could make better grades without them. Lucille McHargue says, "There would be no chance of exemption from finals if six weeks tests were not given."

Freedom of American Rights Is Stressed

Fundamental rights of man are derived from God and not from the government," was the theme of Representative James H. Goodman's talk on Americanism last Thursday, celebrating the Armistice Day season. Mr. Goodman stated that the seven fundamental principles on which the United States government is based are freedom of worship, freedom of the press, freedom of speech, freedom of assembly, freedom of endeavor, and the right to enjoy the fruits of our endeavor, and the freedom and the pursuit of happiness.

Bulldogs, Wildcats Clash November 17

The San Angelo-Midland game in San Angelo November 17 promises to be a game among games. The splendid developments of the Bulldogs coupled with the usual good playing of the San Angelo boys should give "a thrill a minute" to all those present. The Wildcats are a very strong team as indicated by their holding Sweetwater 7-0. This contrasted with Sweetwater's defeat of Midland, points to the difference of the two teams. Midland scored on Sweetwater as contrasted with San Angelo's failure to tally, but Sweetwater scored on Midland five times as much as she did on San Angelo. This seems to point to the Bulldogs as being a better offensive team than the Wildcats, but also makes San Angelo a better defensive team. Such "dope" doesn't prove anything, but it goes a long way to establish a favorite, if you wish to consider one of the teams as a favorite.

Senior Sideglances

Jay has completely won Virginia's heart. She talks about him constantly, when they are apart! Billy Kimbrough lives across the street from Jack Campbell. So they get together and discuss the latest scandal! Mary Jane Harper has evidently won Gordon's affection. Cause if Harper comes around, he has no objection. Billy Van Huss dated Betty Caffey Friday after the game. I guess they're back together and things are all the same. Darrell is still buying Glenna ice cream cones and candy. Isn't it absurd? Jack Hurt follows Elinor Hedrick—unnotticed (he thinks). He says he has something in his eye but Elinor says he winks!

Junior Jingles

Why doesn't some boy catch Kathryn's eye? Could it be someone at N.M.M.I. Most peoples' lucky number is seven. But Helen likes number eleven. (Leland). Joe certainly likes Edith Wemple. But winning her won't be so simple. Hugh and Payton are rivals again. You see they both seem to prefer Miss Monaghan. Louise is pining for Thanksgiving, and it isn't for turkey. Nor is it the holiday dances; it's Stephen Stookey! Here is a riddle to make your brain sweat. Who is this Wayne Ramsey likes? Her initials are B.C.J. Mary Helen and Jack just seem to be both so cute. Are Wilbur and Ella Lue breaking up? And such devotion? Tut, Tut.

Seventeen Boys Play Last Game in Midland

Friday, night, about 10:15, seventeen hard-driven, hard-tackling, hard-working boys ran off Lackey Field playing for the last time. Coach Taylor, when introducing his boys in assembly Friday morning stated that although this was their last game on home soil, it was just the beginning of the game which would be much more important, the game of life. He said that he and the rest of the coaching staff had tried to teach the boys to play fair on the field and it was up to them to play the great game that way and to keep up the training rules throughout life and they would be fit for anything. Some of these boys are seniors and some are ending their last year of eligibility but either way they are playing their last games in Midland. The names of these boys are: Bob Edson, Paul Klatt, Jay Francis, Dell Trulove, Temple Harris, Jim White, J. E. Wallace, Leland Foster, Wendell Williams, Fred Cooke, E. J. Ragsdale, Coleman Collier, Ode Kelly and Carl Ward, Jack Kenny, James Frank Johnson and Wilford Lester.

Who's Who

As this week's who's who we have chosen one of our most prominent senior girls, Frances Guffey, more commonly known as just "Frankie". Upon asking Frankie how she liked working on the concessions she replied, "It is loads of fun, but—it really is an awful lot of work." Frankie also worked diligently at selling ads for the programs and that is by no means an easy task. Frankie said that she was very fond of Tyrone Power (and who isn't?) But, well—Richard Green did have the cut-test diploma. On asking Frankie about an annual she immediately said, "Any senior or any other student that did not want an annual did not have much school spirit or they just did not have enough get up about them to put one out." Frankie's latest hairdo is now being copied by an awful lot of girls in high school (now, girls, remember you should try to be original). There were a cluster of curls on the top of her head and a cluster in the back. It really was ducky! Well, so much for Frances, but take my word for it you will be hearing more from her before the year is over!

FOUNDED: A girl with a date to the football banquet, Virginia Ford with Jay Francis.
LOST: Leland's football to Betty Shockley.
WANTED: To know why Thomas Wright has been seen so much lately without "Mac"? Have you noticed he is wearing his football again?
WANTED: A boy friend for Mary Lou Linney. If possible let it be Cecil Hall.
WANTED: To know why Frances Guffey was so mad Sunday after she read the Midland paper?

Rankin Owls Give The Bulldog B Team First Defeat

The Midland high school Nubblers or "B" string were defeated for the first time this season Wednesday night at Rankin, Texas, 12-6, by the Rankin Owls first string. The regular B string ends, Lester and Johnson did not go on this trip, since they wanted to stay eligible for the Midland-Lamesa game. Some of the players blame the absence of these two boys for the loss of the game. Gordon Bigham made the only touchdown for Midland but the credit for the best running was given by coach "Cotton" Kimbrel goes to Kenneth Wheeler because of his ground-gaining line plunge. Three successive downs in one quarter Wheeler drove for a sum of about 25 or 30 yards through the center of the line. Kenneth Casey kicked off, with about a 45 yard kick. Rankin did not make a first down, and punted the ball to where it was covered by a Rankin man on Midland's one or two yard line. Midland punted the ball but it did not go over 25 yards, putting Rankin about that far from pay dirt, but they did not score until the second quarter when Holmes of Rankin returned a punt for about a 50 yard run for a score. Here is where the Midland players said they needed some fast-running, hard-tackling ends. Rankin tried to kick the extra point but about four of Midland's line were in on the kicker before he had a chance to do anything. The ball did not leave the ground except for a few inches and went behind the goal line. At this point is where Wheeler made his ground-gaining plunges. These runs put Midland in scoring position and they were about to try a pass when the whistle blew ending the half.

Midland Is Among 42 Schools Present At Area III Meeting

Eleven girls and their sponsors, Misses Iva Butler and Jeanne Logan, represented Midland at the Area III meeting of the Future Homemakers of Texas in San Angelo last Saturday. One thousand girls were registered; out of this number ten boys registered, and 42 counties of West Texas were represented. Beth Prothro, of Midland is secretary and treasurer of Area III. Dr. B. O. Wood gave the invocation. A fashion show was presented by the merchants of San Angelo. Music during the fashion parade was given by the San Angelo high school orchestra. A one-act play, "The Modern Girl," by Nadine Sanson, a high school of Eden, was presented by students of the high school. Eden won first place on this play at the State Rally at Galveston last spring. "Homemaking in China" was given by Miss Eleanor Plerle of Fort Stockton, who has spent most of her life in China. Miss Plerle was dressed in a "typical" family pajama suit over 400 year old. She demonstrated fancy handwork that the Chinese women do and said that the Chinese women do a lot but her four girls were dressed in modern Chinese suits of the poorer class; the girls sang three Chinese songs "to show the lack of harmony." Miss Plerle said. The girls also ate rice with chopsticks.

Band News

The Midland High School band and the Junior band performed during the half last Friday night at the Bulldog-Lamesa football game. The bands marched on the field with the pep squad in five different squads. The band and pep squad combined then formed the letters "P-E-A-C-E-E." When the letters were formed, the band played "America," after which the bands and pep squad marched off the field. Mr. M. A. Armstrong, director of the high school and junior bands, asserted that W. D. Bruce and Edna Earle Lineberry deserve much credit for the work done by the band in marching and formations. Mr. Armstrong further stated that it is difficult to plan a different stunt every week in addition to directing regular music classes, but these performances are planned so that students and patrons will receive as much benefit, enjoyment, and satisfaction as possible from them. Mr. Armstrong stated that W. D. Bruce will lead the parade through San Angelo and at the end of the first half during the San Angelo-Midland game, Friday. The band will perform the "Star-Dust" stunt featuring Edna Earle Lineberry's twirling exhibition. Although this performance was given at the Midland game, Mr. Armstrong believes that the football fans will welcome the review of this stunt. The high school band has received an invitation to the annual San Carnival at El Paso this year. Last year the band planned to go to El Paso for this same celebration but because of finances was unable to go. Many band members have expressed a desire to go this year, and hope that the school and the town will support them in this undertaking.

Sophs Try Skill At Writing Ballads

Sophomores of Miss Jo Hestand's classes, after making a study of the ballad, wrote some original verses in ballad form. BIG DOG AND TINY BEE. Great big dog Head upon his toes; Tiny little bee Settles on his nose. Great big dog Thinks it is a fly. Never says a word Winks mighty sly. Tiny little bee Tickles doggie's nose, Think like a not 'Tis a blooming rose. Dog smiles a smile Winks his other eye, Chuekles to himself How he'll catch a fly. Then he makes a snap, Mighty quick and spry, Gets the little bug But doesn't catch the fly. Tiny little bee Alive and looking well, Great big dog Nosee gone to swell. —By Mary Lee Snider.

The Watch Tower

Monday: Back to putting the same old meat through the same old grinder! In other words back to school to put the same old lessons into our heads. Oh well! Some day we'll look back on them joyfully and say, "Those good old school days" (if some of us ever get out).

Tuesday: Everyone is putting a bug in everyone else's ear in the form of an opinion or an idea about the annual. Scraps of conversation heard in the hall are: "I don't see why we can't have one! Will I work on it?—well—er—oh—gee—well maybe you're right—maybe we shouldn't rush into it!" "Gee whiz! We've just gotta have an annual! Get a petition! Somebody get a petition. Who me? Or I can't—I don't have time!" "Golly yes—I'll work every evening. Sure I want an annual. Anybody who doesn't is crazy."

Wednesday: A senior class meeting was held and practically every side of the question "Shall we have an annual?" was heard from A to Z. Both Pro and Con opinions were voiced by the students. A vote was held and —The Pro have it! M.H.S. shall have a 1940 annual!

Thursday: It's wonderful to be a United States citizen. This was the thought that assailed quite a number of students as they left assembly this morning, after Mr. Goodman's patriotic speech. Students, stand just a little straighter and just a little taller when your country's flag goes up and remember it represents thousands of free people just like us.

Friday: Pep rallies are getting better as time goes on. Today everyone yawned, yawned, yawned, yawned, yawned. Concentration on lessons was thrown to the four winds and conversation turned, as ever on Friday, toward the football game. The Bulldogs were, judging from this conversation, slated for a big win. All optics were cast on the team and coaches.

Home Ec Studies

Six circles of the Future Homemakers chapter met during class period Tuesday with discussions on October and November holidays. The following girls presented talks for discussion in their circles: Foods IA Section 1. "Foods and Table decoration for Thanksgiving," Dorothy Prestidge, and "Parliamentary Law," Kathryn Hanks. Foods IA Section 2. "Parliamentary Law," Colleen Oates; "Decoration for October and November," Thelma Jo Brown; "Games for October and November," Betty Jo Tate; "Armside Giving" were discussed among members of the class. Clothing IB Section 2. Nell Ruth Bedford, poem, "Thanksgiving"; Lillian Harris, story "Little Brown Cow," "Gwendolyn Ward; "Colors in the Home," Elsie Zinn; "Personal Improvement," Elsie Plika; "Selecting the Proper Lights for Your Eyes," Elsie Mae Kinsey; and "Harmonizing Your Wallpaper and Draperies," Melba Schlosser. Miss Iva Butler of the foods department and Miss Jeanne Logan of the clothing department were sponsors for these meetings.

November Birthdays

Beulah Sapp, Nov. 3. Flora Alice Baker, Nov. 10. Winona Jones, Nov. 13. Margaret Shannon, Nov. 14. Lucille McHargue, Nov. 15. Bobbie Wood, Nov. 16. Bob Dozier, Nov. 17. Kenneth Wallis, Nov. 17. Frank Wade Arrington, Nov. 18. Morris Fichie, Nov. 20. Bobbie Wood, Nov. 26. Kenneth Taylor, Nov. 26. Dorothy Mauldin, Nov. 27. Myrtle Jean Butler, Nov. 27. Charles Rann, Nov. 30. M. H. S. Library Gets 18 New Books. Eighteen new books have arrived to add to the library collection. "They will be ready to check out by Monday," said Mrs. Niebhor. The new books are: "Our G-Men," "The Green Pastures," "Representative Poets," "This Singing World," "Mary of Scotland," "Victoria Regina," "Nine Plays," "The Late Christopher Bean," "The King's Henchman," "Abraham Lincoln," "Silver Shovel to the Rescue," "Sherwood," "More One-Act Plays," "Smoke Blows West," "In Great Waters," "Pecos Bill," "The Adventures of the Strawberry Finn," and a book for the department, which covers the subject to be used in the Inter-scholastic League debate this year. The book is "The Socialization of Medicine."

Iva and Merle

(A poem written to Miss Iva Butler and Miss Merle Smith by Supt. W. W. Lackey.) Iva and Merle, Girls of pearl, Make good candy That's a dandy. They're on the spot, Right on the dot, Nor 'twas late When some I ate. It tasted good As there I stood And ate a piece And grew obese. The best I could I understood; Oped I my door And ate some more. These girls are clever; Cease work they never; They help the crew. Do more than's due. Blessings on them, Each a gem; Of noble stem, None them condemn. Of them we're proud In any crowd, And anthems raise To sing their praise. Ho-de-de-de, "The Candy Man." (W. W. L.)

Senior Rings Are Here

After eleven long years (and may be more), the seniors are now the proud owners and wearers of their senior rings. We don't know how long some of these rings are going to stay on one person's hand, because the underclassmen girls seem to like the senior boys' rings very much. These rings are just too flashy! They have a deep red set in them with Midland High School, 1940, written around the set. On one side of the rings is a Bulldog, oil wells, and the words, "arts, sciences, languages, and industries." On the other side there is a steer, cotton stalk, and the school motto, "Not failure, but low aim is crime." The design was adopted as a standard for a period of five years by the class of 1939. G. A. T. Sponsors Dance. The G. A. T. club gave a dance over the Midland-Lamesa football game Friday night at the Country Club. Practically all the pep squad and band and several other students were present. Music was furnished by the nickelodeon.

Society

Sub-Deb Met Saturday. The Sub-Deb club met at the home of Louise Cox Saturday at 2 p. m. The members had a business meeting and then played bridge. Gingerbread with whipped cream was then served to Montez Downey, Marjorie Ann Monaghan, Jane Hill, Cathryn Collins, Mary Helen Walker, Gene Ann Cowden, Edith Wemple, Wilma Mahoney, Marthann Theis, and the hostess, all members, and Patsy Collins, a guest.

Choral Clubs Receive New Songs

Mrs. De Lo Douglas, director of the music and public speaking department, has arranged for two contest songs has reported that the Choral and Glee clubs this week. For the Choral club the song is entitled "A Celtic Lullaby" by H. S. Robertson, and the song for the Glee club is "Winter Song" by Fredonia Field Bullard.

Waiter Serves On Roosevelt's Trains 11 Years

CLEVELAND, O. (U.P.) — Edward Gossett, part-time Clevelandan, was assigned to his special train, "The Roosevelt," in 1928. Gossett has been a waiter on New York Central trains for 23 years, and has been Mr. Roosevelt's special waiter on travels throughout the United States and Canada for 11 years. "He's real folks," Gossett says. "I's not work waiting on him." Gossett met Mr. Roosevelt when he was New York governor and was assigned to his special train. When Mr. Roosevelt became President, he asked for Gossett's services. Gossett has gone along on all Presidential tours on the water. The President, says the waiter, is a light eater. He doesn't like soup, but drinks orange juice freely. A typical Roosevelt menu, says Gossett, consists of breakfast of a large glass of orange juice, two medium boiled eggs, two strips of medium-done bacon, very dry toast and coffee with cream; luncheon of frankfurters, potato salad and greens, and dinner of braised ox tongue, beef tenderloin, a non-alcoholic drink and cheese and crackers. The President always is cheerful at the table and never neglects to say "thank you" for the slightest service.

His Specialty Hero of 1917-18

PALMETTO, Fla. (U.P.) — Henry Clair, Manatee county farmer, is taking up hydroponic—water culture—farming on a big scale. He has built 12 huge wooden tanks in which he hopes to produce a diversified vegetable crop ordinarily grown in the field. The tanks are covered with a small wire mesh that holds moss and similar substances as supports for plants, which will grow in a nutrient solution. Roots of the plants will reach down into liquid of nutrient growth. So the plants will slowly down into liquid of nutrient growth. So the plants will be allowed to drain slowly but will be replenished for additional plantings. The bottoms of the tanks are covered with cinders as a filter. Clair expects to produce this winter a crop that will include flowers as well as vegetables. Simple Theory. According to County Agent Ed Large, the hydroponic water culture—farming on a big scale. He has built 12 huge wooden tanks in which he hopes to produce a diversified vegetable crop ordinarily grown in the field. The tanks are covered with a small wire mesh that holds moss and similar substances as supports for plants, which will grow in a nutrient solution. Ex-Student News

George Walker spent the week-end in Midland, after being here for the Hardin-Simmons game in Odessa. Billy Joe Hall has been ill in the hospital at John Tarleton College, with a severe sore throat. Joyce Beachamp is visiting Jane Bounds at Sul Ross this week-end. Kitty Gene Ellis spent last Saturday in Dallas. Mr. and Mrs. Fred Turner Jr. and Dorothy went by plane this week to visit Fredia Mae Turner who is in school at Sweet Briar, Va.

Personals

Miss Sude Pearl Muirhead spent last week-end in Waco. Mary Sue Cowden returned to school Monday morning after a week's absence due to illness. Lucille Morren visited in Coleman over the week-end. Paul H. Jones was absent from school Monday due to illness. Dorothy Caswell was absent from school Monday and Tuesday, due to illness. Lucille McHargue and Louise McClain are spending the week-end in Hillsboro, Texas, with Louise's grandmother and friends.

New Students Enter High School

Lewis Batts, a new student in 8A, arrived at Midland high school Monday from Albuquerque, N. M. His subjects are math I, history I, English I, lab-industry, and physical education. A new student arrived for 8C in the middle of the week. She is Benjie Savelle from Loring, Texas. Her subjects are clothing, foods I, English I, and history I. From San Angelo comes Frank Wright. He is in 10B and his subjects are mech. drawing, Spanish III, plane geometry, and history III.

Local Baptists to Attend Convention Held in Stanton

The Texas Baptist Convention will meet in San Angelo this week to hear reports from its ninety-first year of work and to make plans for the ninety-second year. The meeting is the largest of its kind in the world, some four or five thousand messengers and visitors attending the sessions of the annual meeting. These will represent 800,000 Baptist church members which co-operate with the General Baptist Convention of Texas. Dr. R. C. Campbell is the executive secretary of the Texas Baptist Convention and Dr. J. Howard Williams, pastor of the First Baptist church of Amarillo, is the president. Dr. Williams will preside at the meeting and Dr. Campbell will present the report of the extensive board which carries on the work between sessions of the convention. Several Baptists of Midland will attend, including Rev. H. D. Bruce, pastor of the First Baptist church, Mrs. J. M. White, president of the district WMU; Mrs. H. D. Bruce, president of the associational WMU; Mrs. Myrtle Smith, president of the local WMS; Mrs. E. O. Collins, secretary of the district WMU; Miss Vivian Caldwell, office secretary of the church; Mrs. E. W. Cowden, Mrs. S. T. Cole, Mrs. D. W. Brunson, and Mrs. A. T. Donnelly, Rev. and Mrs. Fred McPherson will go from Stanton.

Says Leaves Should Be Left in Gardens

COLLEGE STATION.—Every year thousands of dollars worth of "junk" because leaves are burned. The following summer gardens and flower beds will "burn up" for lack of moisture. Humus is valuable because it forms humus, and almost all Texas soils need humus, according to M. K. Thornton, Jr., agricultural chemist of the Texas A&M College Extension Service. Humus not only holds moisture, but it improves the physical condition of the soil since humus promotes bacteria growth, it also promotes the presence of soil nitrogen for plant use. Leaves may be raked into a pile, wet down, and left to decay. The pile should be broad and flat-topped. It may take as long as a year for the leaves to decay properly.

Buick Roadmaster Performance Leader

WITH SIX NEW LINES of motor cars for 1940, Buick covers more completely the market above the low price field. Illustrated above is the new Series 70 Roadmaster, an addition to the line for next year and held to be the outstanding performance automobile in the industry. The car has a 141 h. p. motor and is built on a 126-inch wheelbase chassis. Completely new streamline styling features the 1940 cars.

At The Library—

Following are some of the new books which will be on display at the library during Book Week, November 12-18. Many others will be included in the display.

Chester, by Charles Bracker: With strikingly natural full-color pictures of all sorts of dogs and a most unusual cat, and in an amusing text which teaches a real lesson in the understanding of animals, the author-artist tells a refreshing recent-day American story, sure to appeal to every small boy and girl who owns a pet or longs for one. Judy and Peter, and their remarkable cat, Chester, who found friend at last! (5 to 8 year group). Carmen of the Gold Coast, by Madeline Brandeis: Story of a "sojourn" journey with Carmen along the Golden Coast, presenting "The Golden-Evergreen-Beaver" country, Golden California, "Busy Beaver" and "Evergreen Washington."

Little Tony of Italy by Madeline Brandeis: Stories of Italy and Italian children. Illustrations from photographs by the author. Pro-

iz Today Through Tuesday

Modernize Your Home with Gas

West Texas Gas Company

New Design for State Colleges

MEMPHIS, Tenn. (U.P.)—The model university of the future, President James D. Holskins of the University of Tennessee believes, will be one in which a large majority of the students never appear on the campus.

Instead they will be going to school in their own community under a highly developed extension service plan which will send teachers to them.

To Be Focal Point

"After all," Holskins said, "a state university has but one reason for existence, and that is to create for its state. Gone are the days when a university was merely an institution for classical learning where knowledge was regarded as its own reward."

"It is not enough to train a person to be intelligent. He must be intelligent for some useful purpose."

In an agricultural state like Tennessee, he said, the state university should be the center of research with its functions spreading out into the rural districts through adult classes. He said the University of Tennessee has made a start in that direction with a constantly expanding extension service.

The Milkman Likes It

MINNEAPOLIS, Minn. (U.P.)—The city council has received protest from the Milk Drivers' union against an ordinance which prohibits milk deliveries before 6 a. m. during the winter.

always wanted to own the horse, and the two of them to the master of the Diamond Trail Ranch where they find work. (Ages 6-8).

Yankee ship in Pirate Waters, by Rupert Sargent Holland: Eight exciting tales of the days when Yankee captains dared make strange voyages in wild waters to trade with black devils and deal with black magics. Thrilling stories of wit and heroism based on the real adventures of hardy American sailors in China and the Malay seas.

Sons of Seven Cities, by Rupert Sargent Holland: Stories of American life in various periods of our history. In each a "son of America" takes an active part in the development of his chosen city, the first one being: New York in 1624; followed by Philadelphia, 1734; Boston, 1773; New Orleans, 1815; Chicago, 1833; San Francisco, 1849; and Washington, 1861.

The Young Brontes, Charlotte and Emily, Bramwell and Anne, by Mary Louise Jarder: In this sympathetic story Miss Jarder has made alive and human the four remarkable children of Haworth parsonage, the young Brontes. Their games of make believe, their days on the moor, their first writings, Emily's meeting with the original Heathcliff of Wuthering Heights, are made moving and exciting in this carefully subtitled story. Illustrations are by Helen Sewell. (14 years up).

Tales from Shakespeare, by Charles and Mary Lamb. Illustrated by Arthur Rackham.

Rip, in Winkle, by Washington Irving. Illustrated by Everett Shinn, Snapp, Snurr and the Red Shoes, Maj. Lindmann, famous Swedish artist, painted the pictures for this delightful book that has long been a favorite with little folk of foreign countries. "A bright picture book of how Snipp, Snapp, Snurr, three Swedish boys, earned the price of a pair of red slippers for their mothers' birthday." (Horn book).

Snipp, Snapp, Snurr, and the Gingerbread, by Maj. Lindmann: the same little boys have further interesting experiences in this book.

Snipp, Snapp, Snurr, and the Buttered Bread, by Lindmann: Similar to above.

Snipp, Snapp, Snurr, and the Yellow Sled, by Lindmann: This time the boys are dressed in winter costumes and their activities are centered about a fine yellow sled that they just MUST own.

Greta in Weatherland, by Maj. Lindmann: In this gaily colored picture book Maj. Lindmann has selected a favorite with little folk of foreign countries. "A bright picture book of how Snipp, Snapp, Snurr, three Swedish boys, earned the price of a pair of red slippers for their mothers' birthday." (Horn book).

Want to Feel like a Big Shot?

PROBABLY you're a big shot already to someone, so you know something of how good it feels.

What we mean is, how'd you like to feel like you used to think a big shot must feel, cruising along in his big brawny Buick, envy of every youngster in town?

Fact is, a big brawny Buick—this year's beauty of a Buick—is within your reach right now, if you just put your mind to it.

A husky headlong 107-horse-powered giant valve-in-head straight-eight can be yours to command—you can roll around town

in the staunch and steady carriage that's sure big beautiful and a bearcat in action when its boss gives the word!

look into what's included in these prices that they cover many an item that you will be asked to pay extra for elsewhere.

Yes, you can ride in the gentle lap of Foamtex-cushioned luxury—shift gears with a flip of your finger, take bumps without notice in BuCoil Springing's "full float" comfort, even signal your turns by a touch on a lever that shuts itself off when you're through with it.

And what do you pay for all this—budget-bursting prices?

Ix-nay! On the contrary, you can buy a Buick for less than some sixes! And you'll find when you

All it takes, really, is the imagination to step up to the car you've really wanted—and once you've made that step, there's no real problem, for this Buick retains its extra first cost in the extra trade-in value it has when you come to buy again.

So lift your sights. Quit grading yourself down. This year, go after the car you really want—which means talking delivered prices and trade-in terms with your nearest Buick dealer.

Only car in the world with all these features

- * "MICROPOISED" DYNAFLASH VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE • OIL-SAVING PISTON RINGS
- * ANOUE PISTONS • "CATWALK-COOLING" PLUS ULTRA-RAPID CIRCULATION UNDER PRESSURE • BUICOIL SPRINGING FOR THE "FULL FLOAT" RIDE • FULL-LENGTH TORQUE-TUBE DRIVE • TIPTOE HYDRAULIC BRAKES

Texas Company Completes Five of Seven New Wells Brought in Past Week in Lea

HOBBS, N. M. Nov. 11.—The Vacuum pool of Lea county claimed chief interest this week in the Southeast New Mexico region of the Permian Basin as seven new producers were completed, five of them belonging to the Texas Company.

All seven of the wells were completed without shooting or acidizing or acidizing, and all were gauged at six-hour flow.

Humble Oil & Refining Company No. 10-K State flowed 43 barrels of oil per hour for six hours through open 2-inch tubing set at 4,556 feet. It topped pay in line at 4,153 feet and is bottomed at 4,640 feet in lime. The well is in section 28-17s-36e.

Largest Texaco Well

Flow of 27 barrels hourly for six hours through 3/4-inch choke on 2-inch tubing set at 4,544 feet off bottom, was registered by Republic Production Company No. 4-B State, Vacuum well in section 32-17s-35e. Pay line was topped at 4,351 feet.

Largest of the quintet of Texaco producers was No. 3-R State, in section 6-18s-35e, which flowed 333 barrels of oil in six hours through open 2-inch tubing set at 4,630 feet. It entered oil line at 4,250 feet and is bottomed at 4,710. Second

five years old. Appeal 6-12 years).

Texas State Library received valued addition to State Archives recently when "Diary and Reminiscences of W. H. Hartgrove" was presented by Hattie Rue and Dale Campbell, to be preserved for this and future generations.

Texas State Library, founded in 1839, has the largest collection of source material on the history of Texas in existence. The papers of the Republic and State of Texas are here; of her presidents and governors; her army and navy; many transcripts from the archives of Spain, Mexico, and Cuba; personal collections; single documents such as treaties between the Republic of Texas and England, France, and the United States; and—Texas' treasure of treasures: Travis' letter written from the Alamo. The manuscript collection alone numbers between 750,000 and 1,000,000 pieces.

The Campbell are known to many old-timers of this area.

largest was Texaco No. 3-L State, section 1-18s-34e, which gauged initial flow of 261 barrels in six hours, bottomed at 4,714 feet in lime, through open 2-inch tubing at 4,701. It topped pay at 4,270 feet.

In the same section, Texaco No. 2-M State was completed at 4,710 feet for 103-barrel flow in six hours, while the Company's No. 4-R State, completed at the same total depth, proved good for 164 barrels in the same period. The latter well is in section 2-18s-34e, Texaco No. 2-X State, in section 5-18s-34e, was finished at total depth of 4,700 feet for natural flow of 80 barrels in six hours.

Gulf Eunice Producer

Skelly Oil Company No. 1 J. W. Sherrill et al. in the Mattix area of southeastern Lea, section 31-24s-37e, flowed 137 barrels of oil in 24 hours through 1/2-inch choke on 2-inch tubing at 3,535 feet. It was shot with 206 quarts of nitro in pay horizon from 3,491 to 3,540 feet, the total depth.

Gulf Oil Corporation No. 3-B Mattern, Eunice area well in section 31-21s-37e of Lea county, was completed for initial flow of 152 barrels in 24 hours through 1/2-inch and 3/4-inch chokes on 2-inch tubing set at 3,793, seven feet up from total depth. The well topped oil zone at 3,555 feet.

Magnolia Petroleum Company No. 5 Brunson-Argo Oil Corporation, in Lea's Hardy area, tested flow of 187 barrels in 18 hours through 3/4-inch choke on 2-inch tubing set at 3,650 and is bottomed at 3,721 feet in sand. The well, located in section 10-22s-37e, was completed after shooting with 125 quarts from 3,670 feet to total depth.

In the Mattix area of Lea, section 32-24s-37e, Skelly No. 2-M State responded to 336-quart nitro shot from 3,462 to 3,541 feet, total depth, by flowing 333 barrels in 24 hours through 3/4-inch choke on 2-inch tubing set at 3,536. Gas volume was gauged at 1,200,000 cubic feet per day.

Loco Hills Gains

New work in Lea and Eddy counties this week was slightly below the average of the past several weeks, only four new starts being recorded in Lea and two in Eddy.

Both of the Eddy locations were in

is drilling below 1,453 feet in anhydrite.

Continental Oil Company et al. No. 1 Robert C. Langston permit, three-quarters of a mile southeast of Frank Farley et al. (now Westlea Oil Company) No. 1-A Texaco-State, discovery producer of the Halfway pool in western Lea, had spudded and is drilling below 145 feet in red rock. It is in the center of the southwest of the southwest of section 15-20s-32e.

14-Inch Sweet Potato

MADISON, O. (U.P.)—Kenneth Green is displaying a sweet potato grown on his farm. The vegetable is 14 inches long, eight inches in circumference, and it weighs four and one-half pounds.

Appointment of S. M. Warren as Agent for Continental Oil Company Here Announced

Celebrating the appointment of S. M. Warren, well-known Midland business man, to be Continental Oil Company representative here, an installation banquet will be held Monday night, November 13, at the Scharbauer Hotel, when formal installation ceremonies will be conducted by Continental executives before a large group of local business men.

Warren, who for the past year has been with the Independent Petroleum Association, headquarters in Tulsa, Okla., as field representative, resigned this position to join Continental. A former resident of Midland, Warren was employed for several years as mechanical superintendent of The Reporter-Telegram and later was a partner with A. E. Horst in the West Texas Office Supply.

As the new representative of Continental Oil Company here, Warren will make his permanent headquarters at the Scharbauer Hotel. Attending the banquet celebrating his appointment as Continental representative will be P. W. Riggins, Division Manager, Fort Worth, C. W. Poll, Division Accountant, Fort Worth, and C. L. Oden, Assistant Division Manager, Fort Worth.

S. M. WARREN

H. H. Conger, Conoco agent here for eight years, will engage in another business venture but was not ready Saturday to make an announcement.

School Land Sale Has 1/4 Section in County

AUSTIN, Nov. 11 (AP)—Only 206,786 of approximately 640,000 acres of surveyed school lands will be offered for sale Jan. 2, Land Commissioner Bascom Giles, chairman of the new state school land board, announced.

The acreage was selected by the board after several weeks of examination and the sale will be the first of its kind in more than nine years. Giles said sealed bids will be received up to 5 a. m. Jan. 2 and opened by the board the next day.

A new law provided a minimum of \$1 an acre on land west of the Com. River and \$2 on land east of the stream but Giles asserted much of the land will bring more than the minimum.

The board, consisting of Giles, Governor W. Lee O'Daniel and Attorney General Gerald C. Mann, was authorized by the legislature to reject any bids if prices offered were considered inadequate.

Locations in 107 counties, acreages, by counties, included:
Angelina 283.6 acres; Cherokee, 125; Hunt, 199.4; Midland, 160; Pecos 4,793.5; Val Verde, 623.95.

Ex-Trail Driver, on Birthday, Recalls His 57 Years in Area

A resident of the Midland country for 57 years, J. Arthur Johnson observed his seventy-ninth birthday Friday. Still in comparatively good health, he is able to be on the streets daily or to look after cattle interests with his son-in-law, Aldredge Estes. An ardent sportsman, he did not miss a game during the baseball season recently closed, was a vice-president in the West Texas-New Mexico League and one of the principal backers here. He has long been a hunter and fisherman and is now conducting a campaign to have Midland county placed in the early zone for dove and duck hunting.

Born in Gonzales county, Mr. Johnson drove trail herds from the King and Kennedy ranches in South Texas to the Territory, for distribution into Wyoming, Colorado and Nebraska. He frequently crossed this section of the country.

In September 1882, he was sent by the federal court to liquidate the TX ranch on the Pecos river and made his headquarters at Horseshoe Crossing for five years while engaged in this big undertaking. He located at Midland in October 1887, engaged in the cattle business for several years and later in the hardware business. He served for six years as tax assessor and at one time was one of the most active like insurance general agents in West Texas. He still possesses a renewal contract with the company.

Remembering that he did not know how many more birthdays he would get to observe, he said he would "still be running with you young fellows."

Flowers for Service Donated by Concerns

Special floral arrangements for the Armistice services at the First Presbyterian Church have been made by the Midland Floral Company and Vestal's Flowers, it was announced by American Legion officials. Flowers and wreaths for the occasion are being donated by the two concerns.

Lady in Distress Leaves Gentleman in Distress

BOSTON (U.P.)—Being a gentleman is sometimes costly. Ernest Perry of Lee, N. H., learned that when he went for a walk with a young waitress he had met here. The lady complained that her shoulders were cold, so he gallantly draped his coat around her.

She returned the coat later without the \$3.75 that was in one of the pockets.

Only Insured House Undamaged by Cyclone

SPRINGVILLE, N. Y. (U.P.)—The only farmhouse which escaped damage when a windstorm swept picturesque Fox Valley was the only one with cyclone insurance.

"The insurance salesman came around to see me the day before the storm," William F. Fahibush, owner of the house said. "He told me my cyclone insurance had expired and asked if I wanted to take out some more. I said all right, and the next day the wind came."

SPRINGVILLE, N. Y. (U.P.)—The only farmhouse which escaped damage when a windstorm swept picturesque Fox Valley was the only one with cyclone insurance.

"The insurance salesman came around to see me the day before the storm," William F. Fahibush, owner of the house said. "He told me my cyclone insurance had expired and asked if I wanted to take out some more. I said all right, and the next day the wind came."

Yucca Today Through Tuesday

The smash Broadway musical hit, "Babes in Arms," comes to the Yucca screen today, with Mickey Rooney and Judy Garland reunited at the head of the cast.

Harvard, Yale, Wellesley Name Backwoods Towns

SPOKANE, Wash. (U.P.)—The collegiate spirit prevailed when small towns that dot the Inland Empire were first named. Across the Idaho-Washington state line in heavily-timbered country are seven tiny villages remote from civilization. Their names are Wellesley, Princeton, Harvard, Yale, Cornell, Purdue and Stanford.

Lumber officials claim the towns were named by a group of college students in a surveying party.

Wellesley—named for the girls' college—was so-called because of one of the students' preference in co-eds.

Hides Keys in Porcupine

COLVILLE, Wash. (U.P.)—W. E. Somers now knows that where there's a quill . . . there's a porcupine. Somers went deer hunting.

He parked his truck in a deserted farmyard, then hid the keys in what appeared to be a box full of dead grass. The "dead grass" was a live porcupine. Somers' companions had to use pliers to extract a dozen deeply-embedded from his hand.

Love Comes to Barbara

Back in the news on a nuptial note is 19-year-old Barbara Carroll of South Paris, Me., whose father and former sweetheart are serving life sentences for the slaying of Dr. James G. Littlefield and Mrs. Littlefield. She announces engagement to Armand P. LaCroix, salesman. Barbara was a central figure in the sensational trial of her father and former lover.

Hunt Lost Cyclist in Wilds

Airplane search for John Logan, 25, above, believed lost somewhere along the yet unblazed British Columbia-Alaska highway route with Slim Williams, Alaskan guide, has been asked by Dr. A. H. Logan, Mayo Clinic physician at Rochester, Minn. The pair, who left Fairbanks in May on motorcycles, have been unreported more than a month.

Royal Sewing Circle

Great Britain's Queen Elizabeth, at the head of the table, plies her needle in one of the semi-weekly "sewing circles" in a drawing room of Buckingham Palace. With wives of members of the Royal Household and women members of the palace staff, Her Majesty makes clothes and surgical dressings for the Red Cross.

Leg Perfection

These are most perfect legs in Hollywood the Physical Culture Foundation decided and awarded a cup to 21-year-old Virginia Gilmore. Marlene Dietrich came in fourth.

Rising Young Fighter

Up and coming young Al Davis (left), of Brooklyn, has both feet off the ring floor as he bounds in to plant the finisher on former lightweight champ Tony Canzoneri in their fight in New York's Madison Square Garden. Three-round technical knockout of Tony was first the veteran had suffered in 14 years of fighting.

He Doesn't Like Russia

Representative John W. McCormack of Massachusetts, pictured bitterly denouncing Russia following Soviet Premier Molotov's recent speech attacking U. S. "moral support" for Finland. In debate on Neutrality bill, Congressman McCormack demanded American Ambassador to Moscow be recalled.

They Guard the Shores of England

"Big Berthas" of Great Britain's coast defense, shown in hitherto unpublished picture blasting away in a practice session. Capable of throwing a shell across to France, they take on new importance under the ever-present threat of a German air and sea attack on England.

Held as 'Fence' For Shoplifters

A shoplifting ring estimated to have stolen \$200,000 worth of men's expensive suits was believed smashed when New York police arrested Charles Wexler (above). Alleged 'fence' is a brother of Waxey Gordon, ex-big shot bootlegger, now in prison.

World's Richest Riveter

Temporarily the "world's richest riveter," John D. Rockefeller, Jr., (left), wields a pneumatic hammer to drive the final rivet, a ceremonial one of silver alloy, into the final building of the vast Rockefeller Center development in New York. Assisting him is steel foreman N. L. Carpenter.

Held as Beheader

"An urge to kill" was the reason Walter Hibberd, above, gave for the beheading of Caroline Hibberd, 18, his bride of eight days, Springfield, Mass., police report. Coroner found the victim had first been stabbed and then dismembered.

Loses Life Grip, Drops to Death

Choking in smoke as she was carried down scaling ladder, Mrs. Travis Harrison lost her hold on a fireman's neck and dropped to her death. Fire gutting inside of Kansas City hotel necessitated outside rescue.

Beheaded Bride

Eight days after her wedding, 18-year-old Caroline Hibberd, above, was slain and beheaded by her husband. Walter Hibberd, according to police, of Springfield, Mass. They say "an urge to kill" was the reason 20-year-old husband gave for the act.

Learning A B C's of War-time Safety

No Congress of Martian monsters is this, but a scene in the classroom of a German girls' school. Gas masks are part of the pupils' equipment.

Kiss Confusion

That kiss of Movie Actress Ann Rutherford's covered a lot of territory when she hit New York. Four press agents set up four major receptions for Miss Rutherford and the resulting accumulation of welcomes left her no alternative but to blow a kiss in the general direction of somebody.

American Vessel Seeks to Sail Under Panama Flag

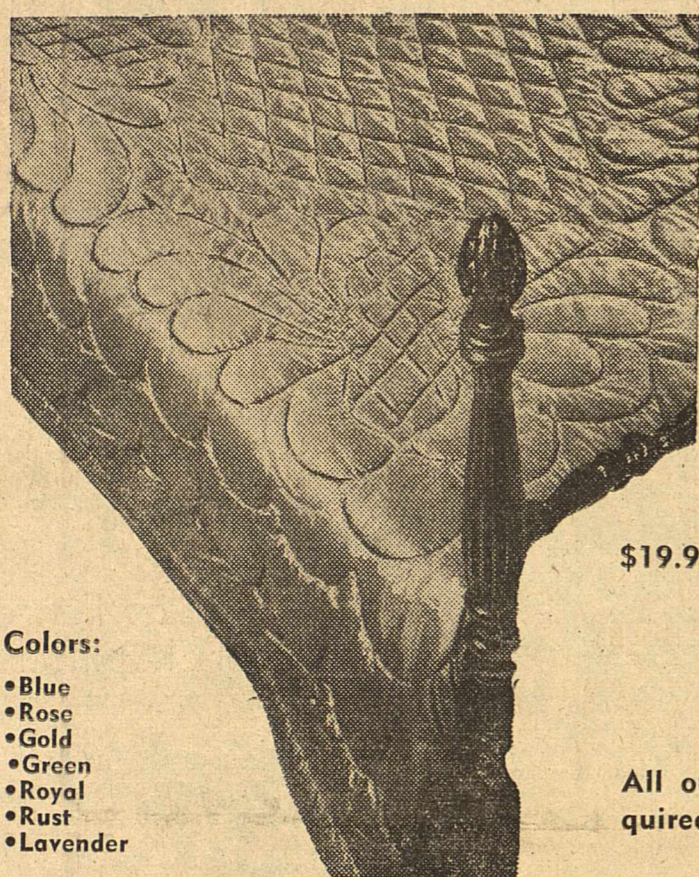

If United States Lines transfers nine of her 11 trans-Atlantic vessels to Panamanian registry to permit shipping to belligerents, both American flags and American crews will be deleted from ships. Here's one of the ships for which transfer is sought.
