BOVINA, TEXAS

VOL. VII, NO. 51

## WHITTLIN'

BY DOLPH MOTEN

In spite of all the trouble City of Bovina has had in one form or another this year, city park, we've noticed, is in best condition ever.

It looks down right inviting at present with its ample shade trees, trimmed grass, well-equipped play area, and picnic facilities. As far as we know it hasn't been used by a single group this spring and summer. If that's true, it's a shame.

Since we've only driven by the park, we couldn't say how bad mosquitos would be. They might be in such number that use of the park wouldn't be feasible. That's only thing that could possibly be wrong with it as far as we can tell.

The city park was one of several things that was long neglected, we feel, and certainly we're proud it's in such fine shape this year.

Willie Hester, who farms west of town, says he has his cotton crop right on schedule. He says he tries to have his crop up when first bale is ginned down in the Valley.

Recently, he says, he read in the paper where first bale had been ginned down in South Texas. Says he put his paper down right then, ran to his cotton patch to look and sure enough he had a stand.

That's real good timing, we'd say.

Willie doesn't mind other Texas farmers getting ahead of him but he doesn't want them so far ahead that they're picking cotton before he gets his up. That's just too far ahead.

Milburn and Wilburn Cash, twin brothers who farm here, are uncles of Norm Cash, star first baseman of Detroit Tigers.

We've talked to them about their nephew on a couple of occasions. They visit with him a couple of times a year during off-season and hear about some of the things which go on in the "big show."

Cash was American League batting champion last year. His average this year isn't so high. He told his Bovina kin when they saw him at Christmas-time that he expected to have a rougher time this season than he did last. One of the differences is that all the pitchers are "laying" for the batting champion and pitch more carefully to him than they would ordinarily. Too, they are better acquainted with him and his batting style than they were a year ago.

According to his uncles, Cash is getting about twice as much money this season as he was last year. The raise to the near-\$30,000 mark was a reward for his fine play last season. If he could have another good year, there's a possibility that he would get another good raise before next season.

That's pretty good wages for a country boy whether he gets another raise or not. Cash was raised on a farm in a community outside Post.

He has powerful arms, especially forearms. His uncles think his strength in his arms and wrists came as a result of plowing with an old, worn-out tractor which we won't mention the brand name of.

Tractors of that kind were considered hard to drive even for a man. But Norm Cash was handling one day in and day out when he was just half-grown. "That's bound to have helped build up his arms," his uncles agree.

While the Bovina Cash men have a natural pride for their talented nephew, they're not so sold on him that they figure he can do no wrong . . . as some people might be in the same position.

They point out, for instance, that he isn't hitting "very good" this season. Of course, what "isn't very good" for Norm Cash is still good enough to keep most any player in starting line-up of a big league team.

Cash got interested in baseball while he was attending Sul Ross College at Alpine on a football scholarship if we remember the story correctly.

(Continued on Page 3)

WEATHER--Water and hail damage was result of Sunday night's weather storm across a narrow strip north of Bovina. This scene is on Joe Pinner's farm north of Bovina on FM Road 1731. Rain across the area varied from none to two inches. Hail damage was confined to a small area.

★★

★★

## SUNDAY NIGHT--

# Rain, Hail Hit Here

Thunderstorms Sunday night and Monday brought relief in form of moisture to the lengthy dryspell here. The rain, in some areas, was combined with hail which did some damage to ready-to-harvest wheat and young row-crops.

An area just north of Bovina was worst hit by the hail. Wheat damage was estimated as high as 35 per cent in some cases.

Rain varied from two inches in the area which received the most hail to none south of town. By Monday afternoon, however, almost all parts of Bovina area had received some moisture.

Rain halted wheat harvest temporarily in parts of the area, but they kept operating in other parts during most of first of week.

Bovina itself received about .5 inch of rain and this seemed to be average figure reported by farmers across the area.

AT \$1.25--

## Court Sets Tax Rate For County

The Parmer County Commissioners' Court, sitting as a board of equalization in their meeting last week set the tax rate for the county at \$1.25 per \$100 valuation.

The commissioners accepted a bid from West Texas Equipment Company for a new Number 14 Motor Grader, in the amount of \$23,995, F.O.B., Parmer County. The grader is to be paid for out of Precinct 2 funds.

A bid from Bovina Implement Company was accepted for the purchase of an M-50 tractor, in the amount of \$2,589. The clerk was authorized to issue a warrant for the amount out of the Farm to Market Road and Bridge Fund for Precinct 2.

Minutes of the last meeting were read and approved, and all bills and warrants were approved for payment.

The tax table follows:

### LAND

Class 1 -- \$10 per acre  
Class 2 -- \$9 per acre  
Class 3 -- \$8 per acre  
Class 4 -- \$7 per acre  
Class 5 -- \$6 per acre  
Class 6 -- \$5 per acre  
Class 7 -- \$4 per acre

### COTTON GINS

No. 1 -- \$17,500  
No. 2 -- \$14,000  
No. 3 -- \$10,000

### FARM IMPROVEMENTS

No. 1 -- \$25,000-\$30,000  
No. 2 -- \$20,000-\$25,000  
No. 3 -- \$15,000-\$20,000  
No. 4 -- \$10,000-\$15,000  
No. 5 -- \$5,000-\$10,000  
No. 6 -- \$2,500-\$5,000  
No. 7 -- \$2,500 and less.  
Pool Tables \$100, each  
Cattle -- \$30, per head  
Horses -- \$20, per head  
Hogs -- \$15, per head  
Sheep -- \$5.00 per head

## CITY SECRETARY, WATER SUPERINTENDENT--

# New City Employees Begin Duties Monday

City of Bovina has new people in its two most important appointive posts this week.

Mrs. Mary Ruth Martin is city secretary and Paul Holcomb is water superintendent.

Both assumed their new duties Monday.

The replace Virgil Tritsch and John Wilson, formerly city secretary and water superintendent respectively. Their re-

cent resignations were effective Saturday.

Mrs. Martin has lived in the area since 1953 and in city since '56. She moved here with her family from Littlefield in '53. A widow, she has been employed as a bookkeeper at West Hub Gin Co. and has also been employed at Gaines Hardware Co.

Holcomb moved to Bovina area to farm in 1960. He moved into town in February of this year. He has been employed at H&M Garage since December.

Holcomb moved to Bovina area to farm in 1960. He moved into town in February of this year.

## Bovina Bounces Farwell

Bovina's Babe Ruth League-age baseball team picked up its first win of the season here Saturday night.

Texico-Farwell's team, an entry in Babe Ruth League at Clovis, was the victim.

Gene Pruitt did a creditable job of pitching for the Bovini-

(Continued on Page 2)

MRS. MARY RUTH MARTIN . . . signed as city secretary.

PAUL HOLCOMB . . . named city water superintendent.

## Concession Stand Open At Ballpark

Concession stand at ballpark is now open nightly.

The stand is being operated by mothers of boys who are participating in baseball program. All profits will go toward paying indebtedness on the park.

Building which houses concessions was donated by A. L. Hartzog. Lions Club members moved it from his farm to the park and it was remodeled at Lions Club expense.

Mothers of the boys will make and sell sandwiches each night. Mrs. J. W. Harris, one of the mothers assisting with the project, says.

Ladies wishing to help with the project are asked to contact Mrs. Harris.

## St. Ann's Slates School

St. Ann's Catholic Church has scheduled vacation summer church school classes June 25 through July 6 at the church. Classes begin each morning at 9 and dismiss at 2 p. m.

Teaching the classes will be three seminarians from Maryknoll Seminary in New York. They are Rev. Mr. John Corcoran, Rev. Mr. George Laudadio and Mr. Gene Toland. Also assisting will be Mr. Frank Hendrick a graduate of Fairfield University of Conn.

Everyone is invited to attend classes.

## BOYS BASEBALL--

# Bovina Implement Team Now Leading League

With Bovina's boys baseball program well into its third week, Bovina Implement Yankees hold a razor-thin edge on first place.

The Yankees suffered their first defeat of season Monday night as they lost a squeaker to Oklahoma Lane Farm Supply, the second place team, 9-8.

Last night (Tuesday) the Bovina Implement boys came from behind to win a protested, 7-6, game from Parmer County Farm Supply, a team which is tied with Charles Oil Co. for third place.

Ken Horn, Parmer County Farm Supply manager, filed a formal protest following the game in regard to an umpire's interpretation of a rule. The protest will be considered by Lions Club committee in charge of the program, if the protest is upheld the game will be replayed.

In Tuesday night's nightcap, Texico-Farwell Lions earned their first league victory with a 17-3 slaughter of Red Tops from same community.

Charles Oil blasted Red Tops 12-3 Monday night in the game

which preceded the Bovina Implement-Oklahoma Lane tilt. Thursday night of last week OLFS beat Lions, 12-8, and Bovina Implement race past Red Tops, 13-2.

Bovina's peewee teams split a pair of games during last week. Bovina Auto Parts won Thursday, 9-3, and Dairy Freeze bounced back for a 6-1 win Monday.

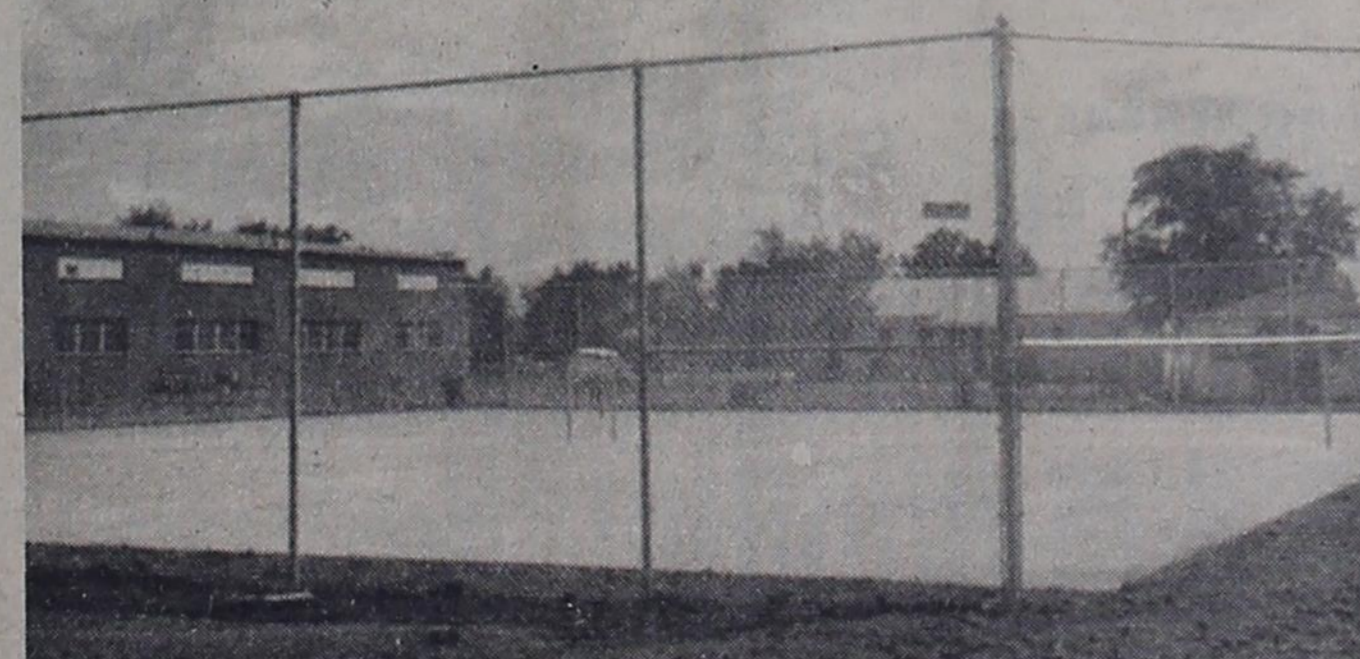

This week's schedule sees peewee teams play each other at 5:30 Thursday, Charles Oil vs. OLFS at 7 and PCFS vs. Lions in night cap.

Monday night peewee teams go again at same time, Red Tops meet Bovina Implement at 7 and PCFS plays Charles Oil in final game.

Tuesday night sends PCFS against Lions and Charles Oil against OLFS.

### LEAGUE STANDINGS

Team	W	L	Pct.
Bov. Impl.	5	1	.833
OLFS	4	1	.800
PCFS	3	2	.600
Charles Oil	3	2	.600
Lions	1	4	.200
Red Tops	0	6	.000

TENNIS, ANYONE?--New concrete tennis courts, complete with chain link back stops were recently constructed at Bovina Schools. The facility consists of two doubles courts and will be open to the public. A net has not yet been installed, but this detail is expected to be taken care of soon. Also, lights are scheduled to be installed sometime in the future. The project was paid for by school funds.

### Editorial Worth The Money

Due to a lack of sound planning, Bovina's current proposed paving program is having a rough time getting out of the proposal stage and into reality.

That trouble is all in the past, as far as we are concerned, if details are worked out and the program goes on as originally planned. We think the delay should be chalked up as "one of those things" and forgotten from a standpoint of criticism. The thing that's important now is to get the program underway and construction started.

We were disappointed when Second Street was marked off the proposed paving map several weeks ago at the hearing in regard to the entire program. Disappointed, but not surprised. Most property owners on the street were not in favor of paying for the street improvement. That's their business and their privilege.

We do think, however, that it would be a good idea and good for the community for the city to stand all the expense, if necessary, to pave, curb and gutter Second Street one block south of North Street and then one block of Avenue A from Second Street to Third Street.

This would form a "square" around the block which is most important to the city of Bovina.

We don't propose that the city pay for this cost as such. But we would like to see the improvement made with the cost assessed to the property owners on a pay as pay can basis. It goes without saying that the property would increase greatly in value and we think it would also be valuable to the community.

In addition to sheer dollars and cents, improvement of the two blocks as mentioned would do much to help the overload of traffic which North Street now has to bear by itself.

It's our opinion that every effort should be made by the city to include these two blocks in the paving program.

There are more advantages to the city to have these two blocks improved than just having two more blocks of paved streets.

The idea is worth full consideration.

### Pounds Home From Korea

Sammy Pounds, son of F. S. Pounds, returned recently from Korea where he has been stationed the last 16 months with the army.

Following a month's vacation he will be stationed at Fort Ord, Calif.

**Cheeseburger Variation**  
 The surprise is in the filling in spiced blue cheese burgers. Mix 1 pound of ground lean beef with 1 teaspoon of salt, 1/2 teaspoon each of ground black pepper and instant garlic, and 2 teaspoons of instant minced onion. Shape into 8 thin patties, about 3 inches in diameter. Top 4 patties with 1/2 teaspoon each of crumbled blue cheese, then with remaining patties, pinching edges together to seal in cheese. Brown on both sides in lightly greased skillet.

**YOUNG ROPER**--James Lee Calaway, son of Mr. and Mrs. Robert Calaway, was one of top ropers in Clovis Junior Rodeo which was last week. Calaway took third place in the show's calf roping average and was second in second go-round of ribbon roping. He's shown here a'stride his roping horse, Possum.

### To Dallas

Mr. and Mrs. Jerry Rogers and girls visited his brother and family, Mr. and Mrs. La Von Rogers in Dallas last week. They also visited Mr. and Mrs. Gerald Sharp, former residents of Bovina, at Dennison.

### Local

Mr. and Mrs. George Hise and family of Falfurris visited recently in the home of Mr. and Mrs. Earl Hise.

### Visits Sister

Visiting her sister, Mrs. Hetty M. Brown, in Oklahoma City recently was Mrs. George Turner.

### Bovina Bounces--

ans as he struck out 18 batters in going the seven-inning distance.

Offensive punch was provided for Bovina by David Anderson who poled two homeruns and Scotty Rundell who had four hits including two doubles.

The team will play again Saturday night of this week, Clements says, even if the game is between members of the squad.

**Cowboy Courtship:** One of the famous old Texas cattle brands is the LIL, and its origin is a love story with an ironic twist.

In pioneer days, as the story goes, Miss Lillybelle Plunkett came to Texas with her father who set up a store in the ranch region. From the first, Miss Lillybelle had plenty of suitors but there was no place where courting cowboys could buy the candy, flowers or perfume so important to winning the hand of a lady from the East. So they began catching maverick calves and presenting them to her branded LIL. She encouraged them all, but never chose one.

Sometime later, she wrote her old sweetheart back East, invited him to come to Texas and they were married. Her herd of LIL cows was the beginning of a very profitable ranch.

## Rusk Seeks NATO Nuclear Agreement

By JOSEPH W. GRIGG  
 United Press International

PARIS (UPI) — Secretary of State Dean Rusk set out today to try to settle the nuclear argument within the NATO alliance and get Western Europe to share more of America's foreign aid burden to underdeveloped countries.

Rusk arranged to confer immediately after his arrival here with Foreign Minister Maurice Couve de Murville before a conference this evening with President Charles de Gaulle.

In a brief airport statement, Rusk told newsmen: "I hope to have the chance to talk with leaders of the French government about the common goals and commitments within the Atlantic community and in other parts of the world."

Regarding these commitments, Rusk added, "our solidarity is unshaken."

Before leaving Washington shortly after midnight Rusk said the current ferment in the Atlantic alliance stemmed not from basic disagreements but reflected "a lively examination in all directions" of the new steps NATO must take.

"There are no cracks in the basement of this solid and great edifice of the Atlantic community," he said. "What we are talking about is how to add another story on this great structure."

Rusk listed three items as sub-

jects for immediate attention:

- Enlargement of the European Common Market by the addition of Britain.
- Development of nuclear strategy with NATO.
- Relations of NATO powers to the world's underdeveloped nations.

From Paris, Rusk will visit Berlin, Bonn, Rome, London and Lisbon, returning to Washington June 28. In each city he will find problems but probably none so great as he will find in Paris.

The United States and France are at loggerheads over de Gaulle's determination to create an independent French nuclear striking force.

Rusk has no illusion that he can dissuade the French from their present course despite the strong statement by Defense Secretary Robert S. McNamara last week that development of any national nuclear forces independent of NATO would be dangerous, prohibitively expensive, ineffective and an invitation to "pre-emptive" enemy attack.

American sources said Rusk was more likely to sound out de Gaulle's views on meshing the future French nuclear force with other NATO forces.

Your conception of the world is chiefly your conception of yourself.

Boost small-grain yields with Monsanto Anhydrous Ammonia from Parmer County Farm Supply

Bud Crump, Mgr. Phone 238-2621

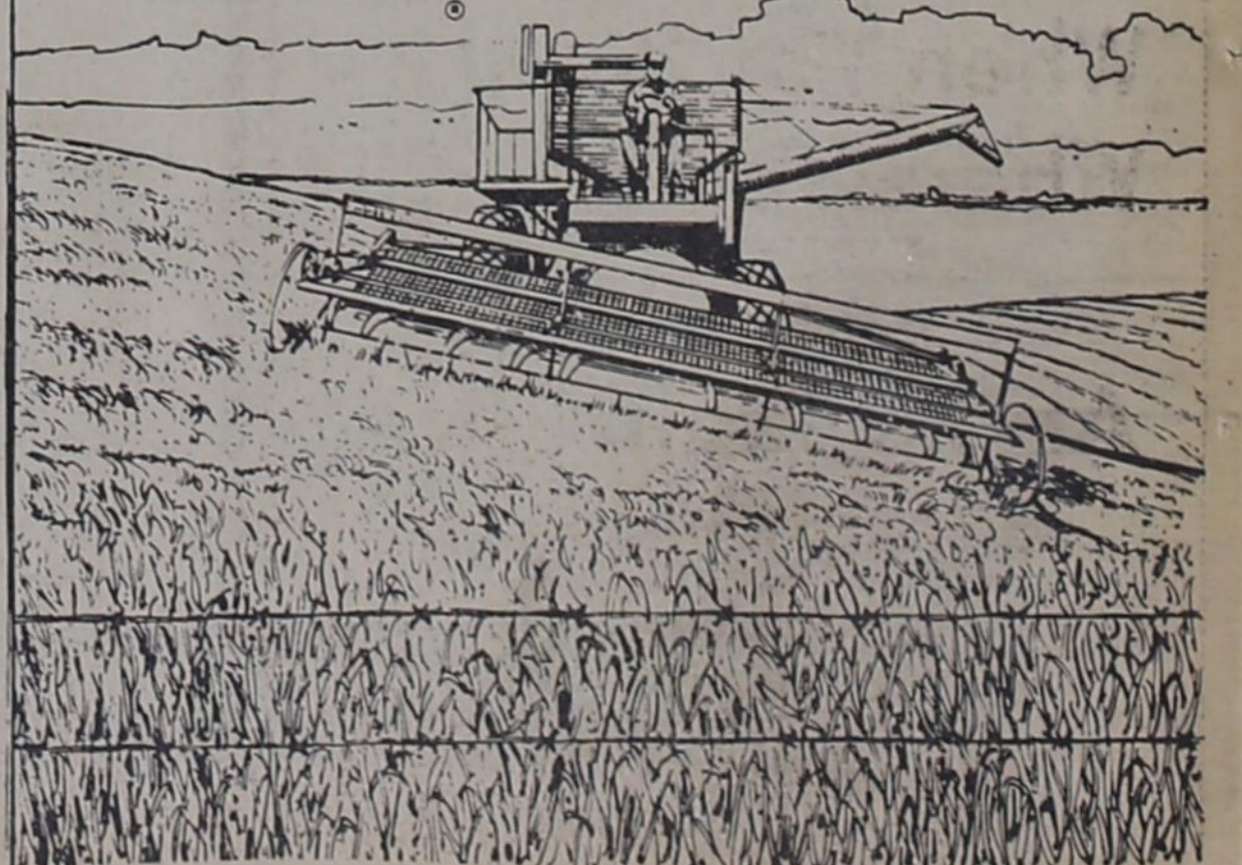

Bovina

"Your Complete Farm Supply Store"

You know how important nitrogen is to your small grain. Monsanto Anhydrous Ammonia packs more nitrogen per pound and per dollar than any other type of nitrogen fertilizer. It is guaranteed 82.2% nitrogen.

Monsanto Anhydrous Ammonia resists leaching ... remains "locked" in the soil, ready to work when your crops need it most ... and you put it right in the root zone.

It's easy to apply ... saves time and labor. Applicator tanks are quickly filled. No bags to tote, tear or tip. You can apply all you need for the entire growing season in one operation, or you can use it before planting, followed by an early side-dressing of ammonia. Let us help you build your fertilizer program around Monsanto Anhydrous Ammonia.

WITH 2-0 RECORD--

# Wheat Growers Softball Leaders

Bovina Wheat Growers took over undisputed possession of first place in men's softball league here Friday. The clear-cut version of the lead was earned by a closer-than-score-indicated, 11-1 verdict over Oklahoma Lane Farm Supply.

Ray Carter of Wheat Growers and Don McMahan of Oklahoma Lane battled in a close pitching duel for three innings. But in fourth inning the winners erupted for seven runs and the game was decided right there. Big blow of the rally was Carter's four-run home-run.

Carter pitched a no-hitter as he struck out 13. Oklahoma Lane's only run came as a result of a walk and three passed balls.

In softball league's first game Friday night, Dairy Freeze blew by Firemen, 15-2, in a game called at end of four innings because of 10-run rule.

Glenden Sudderth was winning pitcher. He struck out three and allowed two hits. Alfred Mills took the loss for firemen.

Don Cumpton, Jon Riddle and Sudderth each had home runs for the winners.

This week's action sends Oklahoma Lane Farm Supply against Dairy Freeze in opener with Wheat Growers meeting Firemen in nightcap.

LEAGUE STANDINGS

Team	W	L	Pct.
Wheat Growers	2	0	1.000
OLFS	1	1	.500
Dairy Freeze	1	1	.500
Firemen	0	2	.000

**Paving Bids--**

portion of the \$50,000 will be used in the project. "But we want to be sure we have enough money when we start."

Deadline for contractors to submit bids for this second time will be Thursday, July 5. Bids will be accepted in city hall until 2 p.m. of that date.

In the various special meetings, the financing problem has been discussed with city attorney, city engineer and a bondsman.

A legal notice in regard to the bids and issuing of the warrants appears in this issue of The Blade.

Legal technicalities are expected to be straightened out and the street improvement project ready to begin as planned after July 5, Gilreath says.

**Whittlin--**

We asked his uncles if they knew that he was a potentially great ballplayer when he was growing up. Though they're baseball fans from way back, they said they didn't realize he was big league material.

He was a real good football player in high school, they told us, but he didn't play much baseball, if any, until college. If we remember correctly, they said he did play some "country" softball and was a terrific hitter. Still nobody realized how great his potential was.

It's our guess that farm work has to be plenty rushing for the Cash brothers not to be sitting in front of a television set when Game of the Week is on... especially if the Detroit Tigers are one of the featured teams.

**Blade Sawdust** by SUE MOTEN

Read the other day that your landscaping and yard reflects your personality. I guess if you plant rose bushes in the corner and surround them by snapdragons psychiatrists would say you are frustrated.

Wonder what the analysis would be for people who have a yard full of dandelions, clover and unwatered grass, sprinkled with a few hap-hazard flowers which are unattended?

Probably would sound something like this: the psychological aspects of a person's character who had untidy or unkempt yards has a tendency toward maladjustment. However, believe this could be said simpler in that said person is just lazy and doesn't care for yard work. Anyway, the Moten yard is one described and feel that it is due to laziness rather than frustration.

Was amused the other day at a farmer's wife. She was mentioning that it was getting close to wheat harvest and grain hauling time. It seems her spouse was very kind in that he took the truck to the garage and told the mechanic to fix it up pretty good because that was the wife's truck. She didn't mention husband getting his truck fixed; seems he had something else to do, maybe fish?

Noticed several flags displayed on Flag Day. Was quite a change from last year when there wasn't one flying anywhere except at Post Office.

Chicago may have the nick name the "windy city" but would like to see a Chicagolan walk in Bovina without having to lean to the forward bow. Perhaps we should call our fair town, "Blowing Bovina."

Speaking of lawns, heard someone in our neighborhood crank up his lawn mower the other evening at about ten o'clock. Only logical explanation I could arrive at was that husband and wife had a quarrel and one decided to get out and or cool off before retiring. Might not be a bad idea except that the battle with the mosquitos might be worse than the one with husband or wife.

**SOIL CONSERVATION DISTRICT NEWS**

Crop residues left on the surface of the soil is one of the best erosion control and soil improving measures which a farmer can use in treating his land. These residues protect the soil from the direct impact of the raindrop, which exerts a tremendous force on the area which it strikes. These drops often strike with enough force to lift a 7 inch topsoil layer three feet high 86 times during a one hour rain. Thus the energy which starts the water erosion of soil must be controlled or absorbed before it can strike bare ground. Residues, in sufficient quantities, left on the surface of the soil will provide ample protection from this force.

Through research it has been determined that approximately one ton of residue per acre left on the surface of the soil will control 90% of the erosion caused by both wind and water. This may sound like too much residue to leave, but when a crop will produce from two to three tons of the residue per acre the amount which will control erosion is not too much to be maintained.

Sufficient quantities of crop residue to control the water

erosion will also maintain moisture near the soil surface. This is done by reducing the velocity of the wind, and shading the soil from the rays of the sun. The protection offered by these residues also will prevent the crusting of the surface soil.

The shading effect of crop residues can easily be determined by a simple process. A person needs only to place one of his hands on the soil surface under the residue, and at the same time place the other hand on bare ground to realize the difference. On days when the air temperature is around 100 degrees the temperature of bare ground has been as high as 135 degrees, when nearby under a good cover of residue the temperature showed a reduction of 50 degrees, or down to 85 degrees. Residues much like growing crops will maintain lower daytime temperatures and increase nighttime temperatures of the soil.

Fires are one of the causes of great losses to mankind, but the grain farmer who burns his stubble does not readily see this. The burning of stubble actually sterilizes the top portion of the surface soil each time the burning takes place, as well as leaving the soil exposed for wind and water erosion to start.

Each person should consider this question: "Is burning for your own personal benefit, such as your field may look clean, or is it merely an excuse for doing something that you do simply because some one else does? Why not think for yourself."

**PAY RESPECTS.** . . Area ASC officials were guests at the grand opening of the Parmer County ASC Monday in Farwell. Left to right are James Whitfield, Lubbock (former manager of the Farwell office), Lamar Aten, Littlefield, Dale Carter, Plainview, and Prentice Mills, Parmer County Office Manager.

surface better, even though the benefits may be several years in showing the benefits?"

Crop residues are the natural by-products of farming and should not be destroyed, just as getting them out of the way. Manufacturing concerns have spent much time and money in the past in searching for ways in which to use their by-products. Many of these businesses have found ways to use what had been formerly wasted, and now receive much of their

income from the better methods now in use. One of the greatest finds in agriculture is the now profitable use of cotton burrs which in past years were burned or hauled away from gins and dumped. This is not done to any extent now, and is a very profitable part of the farming operation.

Do you have a good sound reason for burning stubble, or is it merely an excuse for doing something that you do simply because some one else does? Why not think for yourself.

A PLANT HORMONE developed at Long Beach (Calif.) State College can make the cocklebur bloom out of season and may be the trigger for the blossoming of many varieties of plants. It's called florigen.

**South Plains Fair Will Feature New Farm Exhibition**

County 4-H chapters and livestock exhibitors are applying for entry into the 1962 Panhandle-South Plains fair at an ever increasing rate. Thirteen of the fourteen counties taking part in the county agricultural exhibition last year have already sent in application forms for this year's fair.

Another first at the fair this year which has been received with enthusiasm by vocational ag teachers throughout the area was announced by L. M. Hargrave, superintendent of the vocational agriculture department. This will be the vocational farm mechanics exhibition.

**THE HIGH PLAINS FARM AND HOME**

**Visitors Enjoy Parmer ASC Open House**

The Parmer County ASC staged the grand opening for its beautiful new building Monday in Farwell.

Scores of visitors enjoyed coffee and doughnuts at the new location at 114 9th Street, a block south of the Sherley-Anderson Grain Company in Farwell.

"We are very proud of our new facilities," said Prentice Mills, office manager. The new building has 4200 feet of floor space, including eight office rooms, two rest rooms and a kitchenette.

The building is constructed of concrete block and brick veneer. The interior of the building is painted a pale green.

The ASC offices had been in the Carver building on Avenue A in Farwell since September of 1956, when they were moved from the county courthouse.

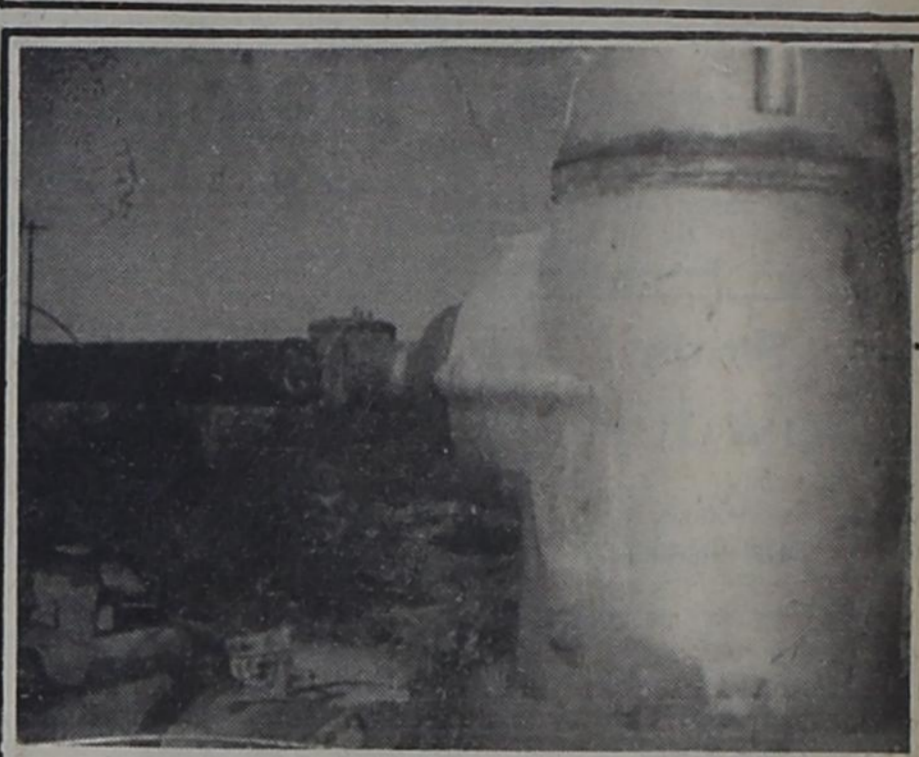

Mills has been office manager of the Parmer County ASC since 1956.

Monday's visitors included not only farmers and businessmen, but also ASCS officials from Lubbock, Plainview, Littlefield, Hereford, and Swisher County.

The moving of ASC office equipment was completed last week, prior to Monday's public opening.

# HD Agent's Notes

BY MISS ETTIE MUSIL

Wish you could have gone with me to all of the four precinct Refinishing Furniture Workshops last week. We all learned a lesson or two in buying as well as refinishing furniture.

Of the sixty-eight attending the workshops we had individual problems with each piece of furniture. You would have the shock

of your life to see what kind of wood was uncovered with the varnish remover.

I won't mention names but we had surprises in what we found that we didn't think we had bought. In other words, much of our furniture may have a completely different wood from the wood finish that was bought. I believe all attending the workshops will know the difference in wood finish and solid wood.

One homemaker had bought maple furniture for a maple wood price. After removing the finish she found pine or fir wood under the maple finish.

Another homemaker had a beautiful end table finished in shining dark mahogany. After the finish was removed she found a blond wood heavily finished with the mahogany color. You can't imagine what we found under the finish on the table top. None other than mahogany. The grain and mahogany finish had been rolled on to look like wood grain.

We'll be hearing results of furniture refinishing of the ones who attended the workshops. I'm sure these will be showing others of you what they learned and what they found out about wood. We plan to have a furniture review later, possibly in September, to see all the beautiful "new" furniture.

If you have any questions about furniture refinishing, let me know. This is a favorite subject, so we'll see what we can learn together.

If you wish, I can order a bulletin "Furniture Restoration" for you for the cost of fifty cents. It will be ordered from out of state. Our Texas bulletins are free but many states charge for their bulletins. This bulletin has many pictures and simple instructions to follow for repair, care, and restoration.

Free bulletins that we have should be of help to you now. They are available upon your asking. You may want copies of "Freezing Poultry For Home Use," "Frozen Foods -- How to Freeze, How to Cook," "Home Canning," "Salads," "Vegetables," "Quick Meals," "Home Lawns," "Controlling Insects on Vegetable Crops," and "Eat Well For Less."

WORLD'S LARGEST nuclear tests reactor will take three years to build at an Atomic Energy Commission site in Idaho. The new reactor will have an operating thermal power level of 250,000 kilowatts, compared with 175,000 kilowatts for the next-largest test reactor.

# Reports Show Lower Yield, Weather Damage To Wheat

Farmer County wheat farmers, already faced with lower yield prospects than they had a year ago, are still playing a "beat the clock" game with the weather, as the harvest moved into its final stages this week.

Some farmers received extensive hail damage in the Sunday night storm that concentrated on the Friona-Black area, and still others said their wheat was hurt considerably by the high wind of last Friday and Saturday.

The bulk of hail damage reported in the county was directly west of Friona. The strip hit was about four to five miles west, and was heavier near town. Clarence Martin, who farms four and one-half miles west of town, said his wheat was pretty well shattered, with grain covering the ground. He figured the damage would amount to at least 10 per cent, and possibly 20 to 30 per cent.

"The damage in my field ranged from none at all in some places to around 40 per cent in others," Martin said. Marion Fite, one mile west of Friona, said he would estimate the damage to his wheat at from 35 to 40 per cent. Fite's damage also varied. "The south end of the field was hit harder than the north end," he said.

Roy Clements, whose place is between Martin's and Fite's, reportedly believed damage to his wheat to be heavier than that on either side.

Rainfall received along with the hail measured around an inch to an inch and one-half. Its immediate worth could not be told, since young row crops were also damaged.

"It knocked the top out of the cotton and maize," said Fite, who added that it was too early to ascertain the extent of damage to those crops. Most farmers agreed that with dry weather the rest of the week, the wheat harvest could be pretty well wrapped up. Those who received rain were cutting again by Monday afternoon.

The rain was so spotted Sunday that many farmers were

not interrupted in their harvest. Hardly a trace was recorded two miles south of Friona. Bovina's precipitation was light, as was Farwell's.

No rain at all was reported in the Rhea, Hub or southern portions of the county.

Rosco Ivie, who farms three and one-half miles northwest of Black, measured 2-1/2 inches of rain with light hail Sunday. Bruce Parr, a mile east of Black, said it rained "barely enough to settle the dust."

The wheat that has been harvested has ranged all the way from "good" to "sorry." Friona Wheat Growers Elevator had seen average yields all the

way from 15 bushels to 50 bushels per acre, weighing from 47 to 64 pounds per bushel. Last year's crop had some averaging 70 bushels and more.

Arthur Drake, manager of Friona Wheat Growers Elevator, said it was his opinion that the deficit in this year's crop was due to hot dry wind which came this year at a critical stage in the wheat's maturing process.

Preach Cranfill of Continental Grain agreed that the hot days in May probably hurt this year's crop a good deal. He said that the top yield by anyone he's been in contact with has been 60 bushels per acre.

### Does Over-Weight Increase the Danger of Flat Feet?

It is said that the only person who knows all of the answers about foot-health is a shoe clerk who has been selling shoes for three weeks. From then on, if the shoe clerk is observant, he will notice that the things he knows "for sure" are forever being contradicted.

I was sure that overweight babies would develop flat feet but experience has proven me wrong. It seems that the foot is so well engineered it can handle far more weight than it usually does. To add to the confusion, thin children seem to be weakfooted more consistently than overweight ones.

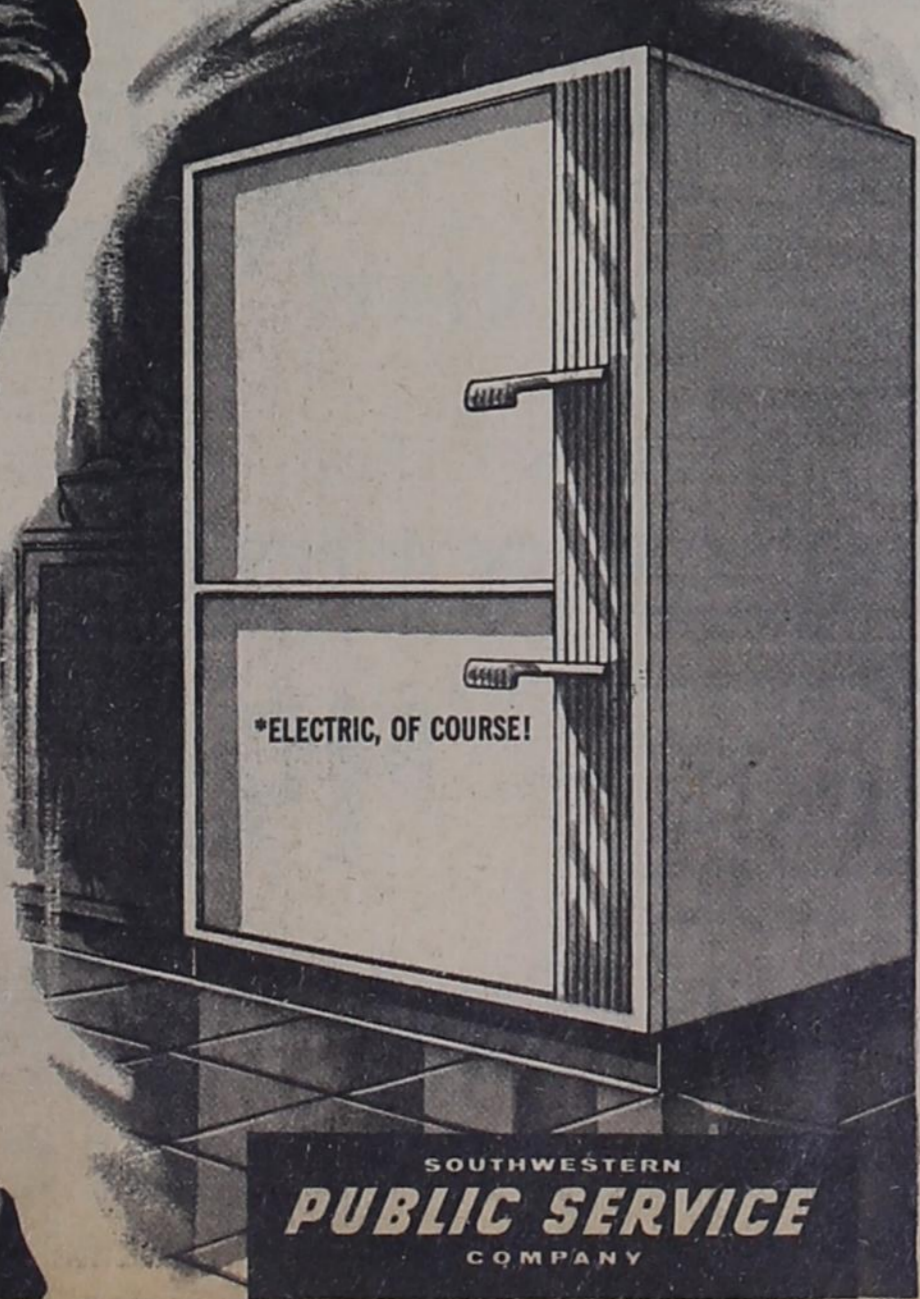

I would not give a definite answer to the above question, but I am pretty sure that the reverse is true -- weak feet increase the danger of overweight. The foot weakness causes the person to toe out; toeing but causes poor posture and a protruding tummy is usually a noticeable feature of poor posture.

# Sixty-Eight Attend Course For Furniture Refinishing

Sixty-eight homemakers, men and boys took part in the four county-wide pre-emptive Furniture Refinishing Workshops just completed. All workshops were conducted by County Home Demonstration Agent, Miss Estie Musil.

Workshops were conducted in Hub Community Center, American Legion Hall in Bovina, Oklahoma Lane Community Center and Black Community Center on June 8, 12, 13, and 15. The workshops were requested by the County Program Building Committee.

A variety of furniture or woods were refinishing with penetrating wood sealer or boiled

linseed oil. These pieces included lamps, salad bowls, picture frames, gun stock, night stands, end tables, coffee tables, ash tray stands, radios, and drawers from chest of drawers.

Miss Musil commented that many of the homemakers had stated, "Surely wish we had known how to do this before refinishing our furniture a short time ago." Homemakers were amazed how easy it was to apply penetrating sealer with old nylon hostery. No additional varnish, lacquer, or shellac is needed over the sealer stain. Steps used in refinishing furniture with penetrating wood

sealer are simple. First, old varnish or paint should be removed with good varnish and paint remover.

Next, smooth wood surface with fine sandpaper, garnet paper, silicon carbide abrasive paper, emery screening, or 3/0" steel wool. Clean wood pulp or dust with clean cloth or cloth dampened with denatured alcohol.

After wood has been thoroughly cleaned, first coat penetrating wood sealer should be applied with old nylon hose or lintless cloth. Do not let a heavy, glasslike coating of sealer build up on the surface. Wipe off any excess that is not absorbed. Allow the first coat to dry for twenty-four hours before second coat is applied.

Before applying next coat, and before every succeeding coat, smooth the surface gently with 3/0 steel wool. This removes bubbles and "makes tooth" for the next coat. Wipe surface with a dry cloth. Apply sealer as for first coat. Rub sealer on, in, and off. After second coat dries, repair any small cracks, or glue wood.

For additional coats, apply sealer as for previous coats. Apply several coats to undersides of table leaves and inside of drawers. Allow each coat to dry 24 hours in good drying weather, 36 hours or more if humidity is high. Then rub the surface lightly with 3/0 steel wool. Wipe with a dry cloth.

Continue to apply succeeding coats until no dull spots appear. For an even, satiny smoothness and a hard finish, apply three to five coats on chairs or legs of a piece. Apply nine to 21 coats on finish on dining and coffee tabletops, depending on degree of smoothness you desire and the intended use. Let final coat dry one week.

## WITH THE COUNTY AGENT

DERYL COKER

Wheat harvest is in full swing now and with hard wind each day, there is a great deal of danger of wheat burning or the straw burning after the wheat has been harvested.

Since our organic matter content is low to very low in Farmer County, let's try to save that straw. Burning is the easiest way out for now, but we will regret it some time! We always have a problem in getting our soil to take-up water as fast as it should, and burning the straw will make it worse, but if we work the straw back into the soil, we will maintain or build up the organic content of the soil which will help in keeping the rainfall and irrigation water on our land.

Some farmers last year sprayed a liquid nitrogen on the straw and they say that it helped a great deal in the decomposition of the straw.

V. R. Smith, of the US Fish and Wildlife Service was in the office and plans are being put together to eradicate the prairie dog towns in Farmer County. This treating of the dogs is a free service and if anyone has a prairie dog town please let our office know and we will put your name on the list.

Plans are to start treating the dogs in August and we would like to treat all the towns while he is in the county. Several farmers of the Rhea Community have already signed up and are responsible for getting this program started. Prairie dogs can do a great deal of damage, and ruin our pastures.

Several farmers are sending in applications to secure a permit so they can spray weeds in grain sorghum with 2-4-D. Farmer County has a herbicide law that requires a farmer to obtain permission to use 2-4-D if he is to treat 10 acres or more. These permits are available in our office.

Studies conducted at the Bushland Experiment Station indicate that Wheatland sorghum or a hybrid sorghum with wheatland sorghum as a parent are extremely susceptible to 2-4-D injury. It would be advisable for farmers to know what the parents of his hybrid are, before he sprays with 2-4-D.

If a farmer plans on using 2-4-D each year it would be advisable for him to plant a variety that does not have Wheatland sorghum as one of the parents. However, injury to Wheatland or Wheatland hybrid will be minimized if only one half pound of 2-4-D is applied when the sorghum is at least 10 inches tall. The 2-4-D applications should not be delayed much after this stage, however, because weeds will have already robbed the crop seriously for moisture and nutrients.

In 1959, several sorghum varieties or hybrids were treated with two pounds of 2-4-D ester per acre when the crop was five inches tall or when the sorghum was about 18 inches tall. For comparison, other plots of each variety were left untreated. The most injury occurred when 2-4-D was applied to five-inch sorghum.

In view of the large difference in 1959, a similar study was conducted in 1960 in which more varieties were included. As in 1959, the 2-4-D applied at two pounds per acre was much more injurious at the five-inch stage than at the 18-inch stage.

In another test conducted concurrently to learn more about 2-4-D susceptibility RS 610 was compared to Wheatland. One-half and two pounds per acre of 2-4-D ester were applied to separate plots when each variety was four inches tall, eight inches tall, and 18 inches tall. Yields of RS 610 were not reduced when one-half pound per acre was applied at any of the stages of growth. Two pounds per acre reduced

yields about two thousand pounds when applied to at the four and eight inch stages. At the same time, Wheatland's yields were reduced two thousand pounds by only one-half pound of 2-4-D per acre at the four and eight inch stages of growth. When two pounds per acre of the 2-4-D was applied to Wheatland, severe yield reductions occurred at all stages of growth. The yield reductions in both varieties were caused by both decreased numbers and smaller heads of grain.

## Cotton "Topping" Test Results In Good Yield, Grade

Cotton growers in the High Plains are continually striving to improve both the quality and yield of their cotton. Tests on one of the methods, mechanical topping of cotton, were conducted by Jim Valliant, Agricultural Engineer, at the High Plains Research Foundation last year.

The two varieties of cotton used in the test represented both open boll and stormproof cottons. On September 14, the cotton was topped with a topping machine. The cotton plant was cut just above the topmost mature bolls, eliminating top foliage, small bolls and square. The net return per acre for the untopped stormproof was higher (\$168.18) than the topped cotton of the same variety (\$155.15). However, the reverse was true for open boll variety.

# Of Interest To THE WOMEN

## McCallums Host Bridge Party

Several couples were entertained with an evening of Bridge Friday at the home of Mr. and Mrs. Dean McCallum. Following the entertainment refreshments of chips, dips, cherry cream pie, coffee and tea were served to Mr. and Mrs. Tom Caldwell, Mr. and Mrs. Gene Ezell, Mr. and Mrs. Vernon Estes, Mr. and Mrs. Johnie Horn, and guests, Mr. and Mrs. Durward Bell.

## C of C Ladies Have Luncheon

Mrs. Joe Pinner hosted a covered dish luncheon for several Church of Christ women in her home recently. Women spent the day making bedspreads for orphanage at Portales. Attending were Mrs. Mel Gunn, Mrs. J. R. Caldwell, Mrs. Robert Read, Mrs. Buck Ellison, Mrs. Howard Ellison, Mrs. James Boardman, Mrs. Billy Marshall, Mrs. Bryan Meggs.

Mrs. Paul Jones, Mrs. Robert Calaway, Mrs. Thomas Rhodes, Mrs. Levi Johnson and Mrs. Harley Riddle.

## Dennis Ellison Has Surgery

Dennis Creg Ellison, son of Mr. and Mrs. Howard Ellison underwent surgery Friday night at Parmer County Community Hospital at Friona. He is reported to be in good condition.

## Son Buried At Rochester

Carl W. Gaunt 23 of Plainview died June 10 at Plainview. He is survived by his wife, Donna and three children, Mickey, Shonda and Renee of the home, his parents, Mr. and Mrs. Clarence Gaunt and a brother, Bud and one sister, Cindy of Bovina. Funeral services were held at First Baptist Church at Silverton and burial was at Rochester.

## Mrs. Barrett Has WMU Program

"Let's Do Something About It" was title of program presented to Nellie Dean Whitten Circle of W. M. U. at First Baptist Church Tuesday morning. Mrs. J. B. Barrett was in charge of program. Mrs. Keith Garner gave calendar of prayer and others taking parts were Mrs. Bobby Englant, Mrs. Ralph Straw, Mrs. Charles Vickers, Mrs. Charles Embry and Mrs. Don Murphy. Present other than those mentioned were Mrs. Paul Holcomb and Mrs. Evelyn Burchell.

## WMU Meets With Mrs. E. H. Moody

Mrs. E. H. Moody hosted Dorene Hawkins Circle of W.M.U. Tuesday morning at her home. "Being Christian In Human Relationships" was title of program moderated by Mrs. Moody. "A prayer the tower of strength" was given by Mrs. Johnie Horn. "Others Help Us," Mrs. R. N. Williford; "Books on Human Relationship," Mrs. Ovid Lawlis; "Begin Where You Are," Mrs. Allen Cumpton; "The More Excellent Way," Mrs. W. W. Wilcox. Following the program refreshments of cake and coffee were served by the hostess. Attending other than those mentioned were Mrs. Ray Phillips, of Lockney, Mrs. J. O. Combs and Mrs. P. A. Adams.

## Society Meets At Parish Hall

Mrs. Gene Brito and Mrs. John Baca hosted St. Ann's Society Monday evening at Parish Hall. Fr. Declan Gilligan opened the meeting with prayer after which each member answered roll call by giving the name of a father in the Bible. Mrs. Edmund Kitten conducted a short business session in which the group decided to buy furniture for Parish Hall. Rev. Mr. John Corcoran, vacation school teacher, discussed the summer school classes with members and plans for the final picnic following the school were made. Members of both St. Ann's Society and Guadalupanas will prepare meals for directors of school each day at Rectory. Guests present were summer school teachers, Rev. Corcoran, Rev. Mr. George Laudadio, Mr. Gene Toland and Mr. Frank Hendrick. Fr. Gilligan closed meeting with prayer after which refreshments were served by hostesses.

## To California

Rev. and Mrs. Harold Morris are vacationing in Fullerton, Calif. They are visiting Mr. and Mrs. L. E. Morris.

## Receives Fellowship

Miss Sandra Jefferson, daughter of Mr. and Mrs. Charles Jefferson, received a fellowship to George Peperdine Christian College in Los Angeles, Calif. for the summer term. She will work on her masters degree. Miss Jefferson taught for two year at Aztec, N.M. and will be in Denver, Colo. school system next year.

## Miss Bradshaw To Tour Europe

Miss Dyalhia Bradshaw, daughter of Mr. and Mrs. Bill Bradshaw, will tour Europe this summer on an educational tour. Miss Bradshaw, a teacher in Denver, Colo. public school system, left last Monday for Philadelphia and New York City where the group will fly to London. They will tour 14 different countries during the summer months.

## Mrs. Dixon Has W.S.C.S. Program

"Methodist Beliefs" was title or program presented to Woman's Society of Christian Service Wednesday at Methodist Church. Mrs. John Dixon was in charge of program. During a short business session women decided to meet at 10 a. m. through the summer months. Mrs. Warren Morton, Mrs. Vernon Estes and Mrs. Leon Ware hosted the luncheon. They served grilled hamburgers and salads. Attending were Mrs. Rouel Barron, Mrs. Pearl Moore, Mrs. Billie Sudderth, Mrs. John Dixon, Mrs. P. O. Dixon, Mrs. George Turner, Mrs. L. M. Grissom, Miss Lola Grissom, Mrs. Halle Gee, Mrs. Jimmy Ware, Mrs. Mable Newberry and the hostesses.

## Visit Parents

Mr. and Mrs. Sam Sudderth and daughters are visiting her parents, Mr. and Mrs. Fred Roberts in Pierre, S.D. Traveling to Colorado with them was Mrs. Lee Sudderth.

## Has Surgery

"Pioneers In Bovina"

**"Modern?" That's like when you've got Gas Air Conditioning!**

"Modern" is a real hard word to explain. Like, fr instance, if you were talking about the "newest" in Summer comfort—the Sun Valley Gas air conditioner. It's the "most" in Summer comfort, because the air is the "coolest," and "cleanest" and stays that way when it's "hottest" outside. You might say it's the "economical"est," too, because it uses low-cost, dependable GAS. And no moving parts in the heating or cooling cycles make it the "maintenance free"est" of any unit on the market. So I guess you'd say "modern" ends everything with an "est," like the Sun Valley does.

### KING-SIZED FILTER

Mama says it'll be all right for daddy to stay in the house to smoke his cigar now, thanks to Sun Valley's new twice-as-big filters.

### BUDGET-SIZED ECONOMY

Mama says it's never too soon to learn the dollars and sense facts about utility bills. She says "constant efficiency" means it keeps you cool all the time, and doesn't cost any more when it gets hot.

### NO MOVING PARTS

Sun Valley works like a coffee percolator, and who ever heard of a percolator wearing out?

**Oil's Not Well in Cuba**  
 NEW YORK (UPI)—Oil Facts magazine says since Castro's Cuba confiscated private oil facilities in late 1960, the government has drilled only 15 oil wells and none is commercially successful. It also says that Cuban vehicles are being serviced because of a lack of spare parts, and lubricants and erratic supply of quality gasoline.

**LEGAL NOTICE**  
 THE STATE OF TEXAS  
 To: George W. Hart, et al, Defendants, Greeting:  
 You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A. M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 23rd day of July 1962, at or before ten o'clock A. M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 5th day of June, A. D. 1962, in this cause, numbered 2295 on the docket of said court, and styled, EDWARD ISAAC Plaintiff, vs. GEORGE W. HART, ET AL, Defendants.

The names of the parties to the cause are as follows:  
 Edward Isaac is Plaintiff and George W. Hart and his wife, Teresa Hart, and John S. Potts and his wife, Sarah Jane Potts, and if deceased, their unknown heirs, assigns, devisees and legal representatives, and all unknown claimants, are Defendants.

A brief statement of the nature of this suit is as follows, to-wit:  
 Plaintiff brings suit in trespass to try title, alleging he is the owner in fee simple of the following described land, to-wit: All of the West 21 feet of Lot 9, Block 116, of the Original Town of Bovina, Parmer County, Texas, described by metes and bounds, as follows: BEGINNING at the SW corner of Lot 9 and the SE corner of Lot 10, said block; THENCE in a Northwesternly direction along the boundary

line between said lots to intersect the South line of the A T & S F Railway right-of-way; THENCE in a Northeasterly direction along the boundary line between said right-of-way and said Lot 9, 21 feet to a point 9 feet from the NE corner of said Lot 9; THENCE Southeasterly on a line parallel to the common boundary line between said Lots 9 and 10 to a point on the boundary line between Lot 9 and North Street of the Town of Bovina, which point is 9 feet Southwest of the SE corner of said Lot 9; THENCE Southwesterly along the boundary line between Lot 9 and North Street, 21 feet to the place of beginning, and that on or about the first day of April, A. D. 1962, that Defendants each entered unlawfully upon said land and premises and ejected Plaintiff therefrom and wrongfully withheld possession from said Plaintiff of said property, and Plaintiff further alleges that he holds title to the above described lands by virtue of the 10-year statute of limitations, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this 5th day of June, A.D. 1962.

Attest:  
 Hugh Moseley Clerk,  
 District Court, Parmer County, Texas.  
 (SEAL)

## Camp Site Cleared Of Poison Ivy

By ISABELLE McCAIG United Press International  
 VERGENNES, Vt. (UPI) — Eight girls will set up a tent on 90 square feet of land, start a charcoal-burning fire, and settle down to life in the outdoors for two weeks beginning July 18.

Multiply the eight — and their problems — by 1,000 and you get some idea of the vast tent city that will mushroom over Button Bay State Park here when the 1962 Senior Girl Scout Roundup opens.

If eight girls drink 10 quarts of milk a day, 8,000 consume 10,000 quarts!

When the menu calls for hot-dogs, it means 30,000 of them, plus 30,000 buns and gallons of catsup and mustard.

The meals, to be cooked over 53 tons of campfire charcoal, will be simple but varied and healthful under menu planning by the Public Health Service. Pancakes with Vermont maple syrup will be featured at one breakfast.

Trucks carting the tons of food and supplies to the Lake Champlain campsite will use a separate route reserved for them to prevent congestion created by the estimated 75,000 tourists attracted to Vermont by the roundup.

Chief problems of the scouts will include rain and insects. Ailments such as sunburn, sprained ankles, overexertion or overeating, insect bites and even homesickness will be treated at the 200-bed field hospital set up by the U.S. Army.

Large central tents will house indoor activities if the weather proves inclement. Scouting officials, who overlook nothing in their planning, have ascertained that the weather is usually the best of the season during the last half of July.

Average daily temperature is 69; average maximum, 81; and average minimum, 58. Rainfall is normally spotty but occasional thundershowers are to be expected.

Poison ivy grows in the area but most of it has been killed.

**LEGAL NOTICE**  
 NOTICE TO BIDDERS OF CITY'S INTENTION TO LET CONTRACT OR CONTRACTS FOR THE CONSTRUCTION OF STREET IMPROVEMENTS IN AND FOR THE CITY OF BOVINA TEXAS AND TO ISSUE TIME WARRANTS NOT EXCEEDING \$50,000 IN PAYMENT OF ALL OR A PORTION OF THE COST THEREOF

SEALED PROPOSALS addressed to the Mayor and City Council of the City of Bovina, Texas, will be received at the office of the City Secretary, City Hall, Bovina, Texas, until 2:00 o'clock P.M., on the 5th day of July, 1962, for furnishing all labor, materials and equipment and performing all work required for constructing street improvements in and for said City, including drainage, curbs and gutters, in accordance with specifications and plans approved by the City Council, on file in the office of the City Secretary, and at such time and place all such proposals will be publicly opened and read.

PLANS AND SPECIFICATIONS may be examined without charge in the office of the Engineer, RALPH W. DOUGLAS, 403 LFD Drive, Littlefield, Texas, and may be procured from said Engineer upon a deposit of \$10.00 for each unit, as a guarantee of the safe return of the plans and specifications. All of the deposit will be returned to each bidder immediately upon the return of plans and specifications in good condition and to all non-bidders who return their plans and specifications to the Engineer in good condition at least five days before the bid date. Copies of general plans, specifications and other contract documents are also on file with the City Secretary and are open for public inspection.

A CERTIFIED OR CASHIER'S CHECK, or an acceptable bid bond, in an amount not less than five per cent (5%) of the total bid shall accompany each bid as a guaranty that, if awarded the contract, the bidder will promptly enter into contract with the City of Bovina, Texas, and furnish bonds on the forms provided.

**Eatery Economics**  
 NEW YORK (UPI)—Five years of studying the food service industry shows that the average restaurant makes only 0.3 to 0.7 per cent net profit after income taxes, according to the National Restaurant Association.

This means, the report said, that the average eatery can easily be thrown into bankruptcy by management mistakes, a drop in sales caused by months of bad weather, wage hikes, or changes in government regulations.

Flies from nearby farms sometimes are prevalent and mosquitoes swarm in wet weather.

Among attractions for both the scouts and the visitors will be the Village Green, an indigenous feature of New England, which hopes to display a two-man submarine from the U.S. Navy base at Groton, Conn., a replica of a thimble factory, and a space capsule.

THE SUCCESSFUL BIDDER will be required to furnish a Performance Bond and a Payment Bond, each in the amount of the contract, written by a responsible Surety Company authorized to do business in the State of Texas, and satisfactory to the City Council, as required by Article 5160 V.A.T.C.S., as amended by H. B. 344, passed by the 56th Legislature, Regular Session, 1959.

BIDDERS are expected to inspect the site of the work and to inform themselves of all local conditions.

ATTENTION of bidders is directed to the provisions of House Bill No. 54, Chapter 45, passed by the Forty-third Legislature, at its Regular Session, requiring that not less than the general prevailing rates of per diem wages for work of a similar character in the locality where the work is performed, shall be paid all laborers, workmen and mechanics employed in the construction of public works.

IT IS THE INTENTION of the City Council of the City of Bovina, Texas, and furnish bonds on the forms provided.

vine to issue time warrants to the contractor or contractors in payment of all or a portion of the cost of the above mentioned improvements, not to exceed the principal sum of FIFTY THOUSAND DOLLARS (\$50,000), said warrants to bear interest at a rate of not to exceed FIVE PER CENTUM (5%) per annum, and to mature serially, the maximum maturity date to be not later than December 31, 1982.

THE CITY will make arrangements for the contractor to dispose of the warrants here-in mentioned at their face value, and the contractor must agree to deliver the warrants at face value to the party with whom the City has made such arrangements.

THE CITY reserves the right to reject any or all bids and to award the contract to that bidder or bidders, who in the opinion of the City Council, offers the proposal to the best interest of the City.

/s/ Boyd Gilreath
