NUMBER 220

Take Over G. E.

These two young men have taken over leadership of the giant General Electric Co. Reed, who is 40, succeeds Owen D. Young, retiring as chairman of the board, and Wilson, 53, will be president, taking the job of Gerard Swope, also retiring. Reed, attorney and electrical engineer, started with the company while studying law and had risen to the post of assistant to the president. Wilson went to work for the company at 13 as an office boy, and has been executive vice president for two years.

"Gold Brick" Swindle Found In New Mexico

West Texas Banker Is Listed Among Victims of Ring

PORT SUMNER, N. M., Nov. 21 (AP). — An agent of the secret service here today revealed an alleged "gold brick" swindle operation had been under investigation for several weeks.

Emmett Hargett, agent of the secret service in Albuquerque, said the swindle allegedly had already netted a West Texas banker and others of amounts thought to approach \$300,000.

Silver bricks, valued at around \$4,500, were held by El Paso customs officials as federal agencies considered what steps to take. Hargett said no charges had been made.

Hargett said that other bricks, which proved to be bronze, had been found in Texas.

French Artillery Opens Shelling on German Outposts

BERLIN, Nov. 21 (AP). — French artillery abruptly ended a 35-hour silence on the western front today with heavy shelling in the Per sector, at a junction of the German, French and Luxembourg borders, an official German news agency reported.

The agency also said floods had forced French out of some bunkers. In the Baltic and North seas, according to the agency, Nazi ships have compelled 127 merchant ships to enter German harbors for search since the start of war. All have been released.

Party of Seven Leaves For Deer Hunting Trip

Leaving Midland early Wednesday, another deer hunting party will invade the mountainous area near Madeira Springs. In the group will be T. E. Bizzell, Clint Vaughn, Roy Long, Ben Carpenter, B. F. Hale, Charter Hale and E. B. Early. They will reach Madeira Spring by noon, going horseback and with pack mules higher into the Davis mountains for the hunting ground.

Sinclair-Prairie 3 Fay Holt Fills 2,000 Feet With Oil From Deep Pay

BY FRANK GARDNER.

Third producer from the North Cowden deep pay in northern Ector county was assured today as Sinclair-Prairie Oil Company No. 3 Fay Holt filled 2,000 feet with oil in drilling to total depth of 5,160 feet in line. The well is an east offset to the discovery of the deep horizon, Gulf Oil Corporation No. 1 O. B. Holt, and is located 440 feet east of the southwest corner of the southeast quarter of section 1, block A, public school land, at the northwest edge of the pool.

No. 3 Holt will be acidized today or tomorrow, it was announced here. Drilled in with cable tools, it logged showing of oil from 5,140-45 feet and filled 1,000 feet with oil while drilling main pay in dark brown lime from 5,145-59 feet. It filled an additional 700 feet with oil in 48 hours and 300 more feet the following two and one-half hours, bringing oil level up to 2,000 feet from bottom.

Sun Oil Company No. 1-D Holt, producing from non-nominal Permian horizons in the North Cowden pool, flowed 650.10 barrels of 24-gravity oil on 24-hour potential test after shooting with 512 quarts. Pay was topped at 4,965 feet, depth is 4,925 in line, and gas-oil ratio is 551-1.

Three new producers were reported today for the Foster pool of Ector. Largest was Stanolind Oil & Gas Company No. 24-C J. E. Witcher, which flowed 2,197.38 barrels in 24 hours after shooting pay from 3,950 to 4,155 feet. Total depth, with 570 quarts. Oil is 35-gravity and gas-oil ratio 892-1. Stanolind No. 28-B Elliott P. Cowden flowed 356.30 barrels on 24-hour test following a 460-quart shot, bottomed at 4,170 feet. It topped pay at 4,020 feet. Oil tested 35-gravity, and gas was in the ratio of 552-1.

Arkansas Fuel Oil Company No. 3-C J. L. Johnson, also in the Foster pool, pumped 380.71 barrels of 36.3-gravity crude in 24 hours after shooting with 470 quarts in pay between 4,116 and 4,220 feet, bottom of the hole. Gas-oil ratio was 425-1.

On the Ector side of the Jordan pool of Crane-Ector, Kewanee Oil Company No. 1-B University rated daily potential of 1,335.96 of 36.5-gravity oil based upon six-hour proration gauge at 3,840 feet. Pay entered at 3,436 feet was shot with 720 quarts. Gas-oil ratio figured 550-1.

Crockett Deep Test Swabbing.

Swabbing of drilling mud through 2-inch tubing set at 6,292 feet still was in progress today at Continental Oil Company No. 1 Todd unit block, prospective deep producer 15 miles northwest of Ozona in Crockett county. Some reports stated that a

small amount of gas was showing; others said that no gas was present. Shortly before noon, fluid level was 3,500 feet from the top and swab was being run to 4,500 feet each strip. The well is bottomed at 6,316 feet in Ellenberger, lower Ordovician, dolomite, which it topped extremely high at 6,256 feet. It is 1,750 feet from the south, 1,980 ft. from the west line of section 30, block WX, G. C. & S. F. survey.

Two miles southwest of the Apco Ellenberger pool in northern Pecos county, Olson-McCandless No. 1 Mrs. V. W. Crockett, is standing in cement set around 9 5/8-inch casing. Humble Oil & Refining Company No. 1 Mrs. Bertha D. Young, eight and one-half miles northwest of the Apco pool, is drilling at 1,877 feet in anhydrite and lime. It is also an Ordovician test.

Gulf No. 5 Wriston Brothers, southeastern Ward Ordovician try, is drilling out with rotary at 2,536 feet. Original total depth, reached by cable tools, is 2,388 feet in line, but hole was off vertical.

In the northeast part of the Basin, Gulf No. 1-C Swenson, deep failure in Crosby county, is shut down at 8,414 feet in line and shale awaiting plunging orders.

Cochran Well Increased.

Increase in production was shown by Atlantic Refining Company No. 1 H. T. Boyd, discovery well two and one-half miles east of the Dog ear pool in southeastern Cochran county, as it flowed 24 barrels hourly for seven hours through 2 1/2-inch tubing after acidizing with 6,000 gallons in third-stage treatment. It had swabbed only four barrels an hour after first stage of 1,000 gallons, but kicked off and flowed 15 barrels an hour for six hours after re-treating with 3,000 gallons. The well still was showing a small percentage acid water at last report, and then take potential gauge. Pay was topped at 4,950 feet, and total depth is 5,040 feet.

Potential of 884 barrels of oil daily was rated by Stanolind No. 3-B Alex A. Slaughter estate, in the Slaughter pool of southwestern Hockley county. Bottomed at 5,040 feet in line, it was acidized with 2,500, then with 5,000 gallons. The same firm's No. 4-A Slaughter flowed approximately 665 barrels of oil in 24 hours through open tubing after treating with 1,000 and 4,000 gallons at 5,640 feet. It topped pay line at 4,500 feet.

In central Gaines' Seminole pool, Osage Drilling Company, Inc. of Oklahoma No. 3-A J. L. Tippett flowed 703 barrels of oil on 24-hour natural test taken through open 2- (See OIL NEWS, page 6)

Under Fire

Mayor Rossi of San Francisco has appealed to President Roosevelt to settle the West Coast waterfront dispute for which he held "the alien, Harry Bridges," responsible. Bridges, above, has worn out his welcome in San Francisco, the mayor said.

Over 400 Members Already Signed in Basin Association

More than 400 members have been enrolled by the Permian Basin Association, with offices at Midland, during the past ten days, it was announced this morning by H. B. Spence, executive secretary. Dozens of signed membership cards are coming in each day. Committeemen have reported an enthusiastic response from business and professional men and salaried people of Midland where the first drive was launched. Need of the organization apparently has been generally recognized.

A special committee will be named within a few days by J. L. Greene, president of the association, to lead a last round to contact firms and individuals missed heretofore by the committee.

A committee also will be selected to call on business firms who have placed their membership but did not clearly understand the duties they were expected to contribute and how the dues were to be paid. Many signed membership cards designating certain amounts which they intended as monthly payments. Dues in the association are only assessed once a year, to be paid in advance, and the membership fee is set up on a flexible or classified scale. Business firms are asked to contribute in proportion to their ranking and the volume of business they do. They may list as many of their employees as wish to be members.

To carry out the purpose of the organization, it will cost at least \$200 per year, per member, to keep members informed on all matters which affect any or all parts of the Permian Basin, to keep them informed on all activities of the Association, and to carry out an educational program as outlined by the founders and officers of the organization.

To accomplish the many objectives as set out in the Association's program of work and to adjust the many problems that are handicapping the future development of the Permian Basin, the association must secure thousands of associate members. The associate member is the member who has a limited income and pays the minimum dues of \$1.00 per year. The associate member will make up the strength of the organization, and its success depends on strength, it was pointed out. To really receive the most benefits, a large number of associate members of the association must secure sufficient finances from the members who have the most interest involved and will naturally receive the most benefits. A large and substantial membership will insure the success of the organization and to build such a membership it will cost a considerable amount of money, an official said. This means that firms and individuals who are in sympathy with the purpose of the organization and realize the necessity of united steps toward adjusting the many problems are expected to contribute in proportion to which they may deem such an organization beneficial to them.

Membership drives will be launched in Odessa, Big Spring, Seagraves, Colorado City, and Hobbs, New Mexico, within the next thirty days. Executives of the Association are working out plans with the officials in every county in the Permian Basin to launch membership drives in their counties just as soon as possible.

IS RECOVERING.

Mrs. Locksley Hall, who recently underwent surgery in Dallas, was reported this morning to be improving rapidly. She is expected to return home in about one more week.

1,000 Tickets to Football Game Are Sold in One Day

A request for more reserved seats to the Midland - Odessa football game on the afternoon of November 30 was made by local school officials after 1,000 of the 1,300 tickets sent here had been sold in slightly more than one day.

It now appears likely that the largest crowd ever to follow a Midland team out of town will see the game in Odessa. There was a steady line of ticket buyers at the chamber of commerce offices yesterday and again this morning. Officials are confident that more than 2,000 persons will journey to Odessa from here to see the game, rated one of the outstanding of the season in the Texas area, certainly the most important scheduled in this area Thanksgiving Day.

Persons desiring to procure tickets to the game here are warned to buy them as soon as possible since it is not known exactly whether more tickets will be sent here by Odessa officials. The few remaining tickets here are for choice seats, located between the 40-yard markers.

Students, Faculty To Be Honored at Revival Tonight

On Monday evening, to a large congregation, Dr. Porter M. Bailes of Tyler, who is preaching in the revival at the First Baptist Church, brought a soul stirring message on "The Why of Every Moral Failure." City and county officials were present for the services as honor guests. Up to date 25 have united with the church during the meetings.

This evening at 7:30 Dr. Bailes will preach on "The Greatest Story Ever Told." The student body and faculty and the trustees of the public schools will be the honor guests. The public is cordially invited to hear this message.

Wednesday morning Dr. Bailes' subject will be "Why Jesus Came." This service will be at 9:30 instead of 10 a. m. Morning congregations are increasing and those who can come are urged to do so.

Last night Dr. Bailes brought out in his message how sin is the cause of every moral failure. He showed how Israel had failed miserably, because they had sinned against Jehovah, their God. He brought a number of illustrations which set out in vital fashion how sin is the cause of every moral tragedy and failure from that day until this. In his closing remarks he showed how Christ and Christ alone is the cure for every ailment that afflicts poor suffering humanity. Rev. H. D. Bruce, the pastor, expressed the belief that a spirit of revival has laid hold upon Midland and that the church will witness one of its greatest spiritual victories during these coming days. He extended to everyone a most cordial invitation to worship in these services. He called upon all praying people to pray that the spirit of God may come in mighty power this time.

Kaiser's Family Is Said Backing Nazi Party in the War

BERLIN, Nov. 21 (AP). — The house of Hohenzollern was said Monday by one of its members, Prince August Wilhelm, fourth son of the ex-kaiser, to be solidly behind Nazi Germany's present struggle.

The prince, who made his statement to foreign correspondents in the only Hohenzollern prominent in the Nazi party affairs, he works in a Potsdam wartime food supply office.

"Immediately after the Munich incident on Nov. 8 my father telephoned from Doorn to the German minister at The Hague to express his gratitude that the fuhrer escaped a bomb shattering the Munich Burgerbrau house only 11 minutes after Hitler departed Nov. 8 following a speech.

"My entire house is absolutely against all efforts to injure Germany. And whatever is against the fuhrer is against Germany."

"It is unbelievable that anyone in my house or another German royal house could do anything against the fuhrer or the regime. We were as shocked by Munich as everyone else."

The prince said that his eldest brother, the former crown prince, was in Berlin and that he was engaged daily in the administration of Hohenzollern properties.

Meanwhile, with German troops on the western front kept busy removing trees uprooted by storms, a lively day was reported for German scouting planes.

DNE, official news agency, said German reconnaissance planes obtained "valuable scouting results" in flights over Sapa Flow, the British naval base in the Orkneys north of Scotland, over southern England and over the channel coast of England and northern France.

"Hot Oil" Trial of Renee Allred Opens

HOUSTON, Nov. 21 (AP). — The "hot oil" trial of Renee Allred, Jr., and Neal Powers started before Federal Judge James C. Wilson here Monday with most of the testimony given over to an elaborate explanation of the system by which the Texas Railroad Commission watches the production and transportation of crude oil. Olin W. Culbertson, former chief of the gas utilities division of the railroad commission, was the chief government witness.

The government called 122 witnesses.

A jury was waived and the trial proceeded before Judge Wilson with the reading of the 22-page indictments.

The two men, together with H. E. Hines, who never has been arrested, are charged with conspiracy to violate the Connally Hot Oil Act and with the transportation of a large volume of illegally produced crude oil from the Conroe field to Marcus Hook, Pa.

Russian Fleet Holds Baltic Maneuvers

MOSCOW, Nov. 21 (AP). — Russia disclosed today her Baltic fleet is holding large-scale maneuvers from newly-won bases in that area.

At the same time, Russia, in a newspaper article of Admiral Tributz, commander of the Baltic fleet, warned Finland that "nothing will ever break our decision to establish a strong peace all over the Finnish gulf."

German Ownership Exports to Be Taken

LONDON, Nov. 21 (AP). — Great Britain has decided to seize exports of German ownership or origin on the high seas, prime minister Chamberlain announced today, in retaliation for what he called "many violations of international law and ruthless brutality of German methods."

NAZI PLANE DOWN ON EAST COAST

College Girls S-t-r-e-t-c-h Into the Air

After weeks of stretching and a bit of head bumping to raise a knob, Kathleen Hildebrand has passed her height tests for admission to the Civil Aeronautics Authority pilot instruction course. She started at five feet one inch, and stretched out the required added inch needed for admission. She's a Kansas City co-ed. Her frantic reaching just doubled the half inch added height gained by another college girl, Gertrude Plummer, senior at the University of Maryland, who stretched herself into the same instruction course. Miss Plummer had assistance from Dolly Podolsky, left, and Mary Kahl, right.

Political Situation in State Declared to Be Clearing Up

AUSTIN, Texas, Nov. 21 (AP). — The political-pension-tax situation that has bubbled and spurred for months in Texas plainly was calmer and clearer today.

As a result of the decision by Governor W. Lee O'Daniel not to call a special session of the legislature, it seemed probable that:

Issues for the 1940 state political races had been drawn more sharply. No new state taxes would be imposed for a long time.

Old age pensions would not be increased at least before next October.

The state would not any time soon put money back of the constitutionally-approved programs of aid to needy blind, dependent children and retiring teachers.

For many weeks there had been much speculation whether Governor O'Daniel would summon the legislature into extraordinary session to provide additional revenue for social security.

When the door to a session closed, except for the possibility the governor would change his mind, the future of pensions and taxes was considered in capital circles as plainly settled until elections next year and probably until the general session of the legislature which meets in January, 1941.

And, if the governor adhered to his decision, his prospective campaign opponents and members of the legislature who stand for election were free to begin amassing ammunition for political warfare based on records made in the general session which ended last June, actions since and promises hereafter.

If the existing lines of political division were projected into 1940 an outstanding issue would be whether social security in Texas should be

JAPANESE LINER IS SUNK BY MINE

LONDON, Nov. 21 (AP). — The Japanese liner Terukuni Maru, bound from Japan to London, sank today off the east coast of England. It was reported the 11,930-ton vessel struck a mine.

The sinking ship could be seen from shore. Great spouts of water rose from her side.

Judge Says State Has Not Proven Kuhn Is Guilty

NEW YORK, Nov. 21 (AP). — Fritz Kuhn, an Irish-American, testified today under "leadership principle" of the organization he believed he had power to use funds to meet his own expenses as well as those of the bunch.

Kuhn acknowledged having sent telegrams of "love and kisses" to Mrs. Florence Camp, as charged by the prosecution, explaining he had "a liking for her at the time."

18 Freight Cars Are Derailed at Irene

PALESTINE, Nov. 21 (AP). — Eighteen freight cars, nine loaded with gasoline, caught fire after a derailment from a Missouri-Pacific track a mile south of Irene today.

No one was injured.

The cause of the accident was not immediately determined. A dispatcher's office said 27 cars remained on the track and that the derailment occurred near the middle of the train. Waco fire fighters hurried to the scene.

Slovakia to Recover Lands Poles Seized

BERLIN, Nov. 21 (AP). — Foreign Minister von Ribbentrop and Slovak Minister Cernak signed a treaty today whereby Germany agreed to return Slovakia territory annexed by Poland in 1920, 1924 and 1938.

British Ship Is Said Sunk By Submarine

5 Crewmen Are Lost When Trawler Sent To Bottom by Sub

LONDON, Nov. 21 (AP). — Destruction of a British mine-sweeping trawler and a raiding German plane today was announced by British officials.

The air ministry said that the German aircraft had been shot down in an engagement with royal air force planes over the east coast.

The trawler Mastiff was lost off the east coast when it struck a mine. One crewman was reported killed and five missing. The Mastiff was one of the new additions to the British force of light vessels.

Another British trawler was reported sunk by a submarine off the Irish coast. It was not disclosed whether it was a naval vessel.

The increased rate of sinkings put the mine ahead of the submarine, for the moment at least, as the leading North Sea menace to merchant shipping. It still was far under the craft destruction in the World War, which in 1917 reached some 800,000 tons for the month of April alone.

The latest reported sinkings sent the known loss of all nations to 136 vessels having a gross tonnage of more than 543,228 at least 2,000 persons have died on the seas since the struggle began Sept. 3.

The three latest sinkings raised the known British toll to 72 ships, more than five times the German loss of 15.

The current menace to shipping was so grave that about 1,000 passenger ships from Japan to London, sank today off the east coast of England. They were ordered to disembark at Lisbon, Portugal, rather than to travel to their northern European destinations through the mine-laden North Sea.

BRUCE CATTON IN WASHINGTON

WASHINGTON, Nov. 21. — Government officials who have been giving all of their time to the much talked of South American export trade boom are beginning to admit it will take the United States a long time to cash in on any opportunity that may be present there.

The last of three important conferences on the subject has just been finished at the Commerce Department. A survey of the ground covered indicates that no immediate boom is in sight.

Crux of the matter is that if the South Americans are going to buy more goods from this country, some United States money must somehow be put in their hands. The conferences examined three means by which this might be done: A set-up of tourist travel, an increase in sales of South American manufactured goods for U. S. retail trade, and an increase in exports of South American raw materials to this nation.

WANT TOURIST TRADE DIVERTED BY WAR

MOST recent was the travel conference. Last year, Americans spent something like \$8,000,000 on travel in South America. They also spent close of \$135,000,000 on travel in Europe.

With the war on, no \$135,000,000 will be spent in Europe in 1940. If a good share of this tourist travel could be diverted to South America, American exports to South America could rise by that much.

Steamship company executives, Commerce Department experts on Latin America, and representatives of South American governments gathered to discuss the ways and means of this diversion.

The South Americans were urged to spend some real money on advertising, to lift some of the petty restrictions imposed on foreign travelers and to provide better accommodations in some of the interior cities. It was suggested the shippers put on special cruises to make a strong bid for the tourist trade.

BUYERS SEEK FINISHED GOODS

THE conference on retail trade was held some three weeks ago.

Texas Today

By the Associated Press. The Texas Panhandle is a storehouse of tradition but the accepted versions of many legends have no sounder foundation than the embellished tales of pulp fictioneers. The Texas cowboy was an individualist who resented patronizing and personal affronts, but he was not the gunman so often portrayed in western fiction and moving pictures. Starting from this point debunking the popular conception of the cowboy as a swaggering, lurching, pistol-fingered individual is a sequence of facts. Unfortunately, the fictional type is the one the thrill hungry folk distant from Texas want. They won't have any other.

As a matter of fact no guns are allowed on Panhandle ranches and from the start of the cattle industry there were regulations against guns and gun toting. At each gate is the peremptory injunction: "No guns allowed." The 3,000,000-acre spread had rules prohibiting gun-toting, drinking and gambling on the ranch. Col. Charles Goodnight, one of the first trail-drivers, had a law against carrying guns and fighting on the trail.

When the Cattle Raisers' Association, now the Texas and Southwestern, was organized 65 years ago it adopted rules against drinking, gaming and wearing pistols.

Thus the herd-trailers were safeguarded against any instinct to "shoot-it-out," as the fiction makers would have it. On the other hand, there are abundant stories of the ways and experiences of cowmen which, if lightly touched by the brush of fiction, nevertheless ought to be true because they are no less dramatic than shooting from the hip or other miraculous gunplay.

Once two men who had started a ranching enterprise in the Panhandle were hit by drought. The earth was scorched and cracked open. There was no grass. Finally, the last water hole dried up. Then the men decided they had better move their cattle. They started early in the morning, moving the thirsty herd eastward. Tom carried a jug of whiskey. Bill didn't drink.

All day they drove the herd, but cattle, horses or men had no water. Occasionally Tom took a swig from his jug. Later in the afternoon he emptied the jug and dropped it. A short time later the cattle began to snort. They raised their tails, struck a trot—ran full speed ahead. "Small water," said Bill through his parched lips. "Ugh," grunted Tom.

The tired horses followed the cattle. After a run of a few hundred yards the cattle plunged into a water hole. Bill reined his horse around to the far side of the hole, dismounted and started to drop down for a drink. He looked across the hole, saw Tom drinking behind the cattle.

"Why don't you come over here where it ain't muddy?" Bill asked. "It don't make no difference," Tom explained. "I'm going to drink it all, anyhow."

The average cowhand draws \$30 a month and his keep.

Tascosa, old boom town on the Canadian which had decayed to the point where only a few traces are left, ships more cattle than Amarillo, a city of 60,000.

Few Panhandle ranchers feed or finish beef. They sell to mid-west feeders.

The Hereford is predominant in the Panhandle.

There still is much cattle rustling. The thieves haul off a few head at a time in trucks. However, there are more Jerseys than Herefords stolen in the Panhandle. The thieves seem to prefer the milkers—because the owners of milk strains usually are not members of the Texas and Southwestern, which has been rustling rustlers 65 years.

Syda Yockey of Canadian, an 18-year-old miss, is a big-scale rancher and a popular rodeo performer.

Many of the Panhandle's biggest operators live in the city. No few have gas and oil wells.

A man of no means who marries into a ranch family is known as a dollar and a half cowboy (the marriage license costs \$1.50).

Many ranchers have purebred Hereford herds. The purebred breeders are stylists, especially in designing their catalog announcements of auction sales. Each seems to try to out do the other in originality. Last year the catalogs were large, full of colored photographs. This year the pocket size catalog is the vogue.

Jay Taylor and Fred Hobart, the latter a rancher of the Canadian section, have hobbies hardly in keeping with the beef business.

They are tops in the art of making pork sausage.

identify victims of violence, amnesia or accidents. The prints may be taken by police officers in any part of the country and mailed to FBI headquarters here. Approximately 250,000 sets of prints arrive daily and are filed.

Rare Gridiron Game. PROVIDENCE, R. I. (UP) — A strange football game was played between Portsmouth Priory and Providence Country Day schools. Neither team punted during the game. Neither team was penalized. And the ball was let down only once as Priory won 19 to 7.

READ THE CLASSIFIEDS.

Ormandy Says Music Beyond Nation's Wars

PHILADELPHIA (UP).—Eugene Ormandy, director of the Philadelphia Orchestra, in an effort to prove that music transcends all differences between countries and creeds, will present several all-Russian and all-German concerts this winter.

"We must not permit ourselves to be led into the folly of 20 years ago," he said, "when Wagner and Strauss were cast out of our concert halls merely because they were German. That is cutting off the nose to spite the face."

"In such tragic times as these we need all the solace that great music can bring us. A composer is to be measured only by artistic standards. The place of his birth does not make his music great, any more than the language he learned to speak as a child can deprive it of greatness."

"It is the color of a composer's orchestrations that we are concerned with, not the color of his skin. It does not matter what church he goes to, or if he goes to any. Perhaps if we all steep ourselves in the universal harmony that is music we can sooner restore harmony among the warring nations."

Old Laws From Horsewhip Era Being Revised

FORT WORTH (UP).—City ordinances that literally are of "horse-and-buggy" days will be brought up to date here by city attorneys and National Youth Administration workers.

Laws that will be changed include: Limiting the time a horse may be left hitched to a carriage or wagon, parked on downtown streets, to 30 minutes during daylight hours. Prohibiting the feeding of horses, mules, sheep, hogs, cats, and chickens on principal streets.

Limiting the speed of horses around the courthouse to a "moderate gait."

Prohibiting the use of swinging gates, awnings, lamp posts, and fences as hitching posts.

A code of traffic signals involving use of buggy whips.

Prohibiting loud noises "tending to frighten animals," and meeting incoming trains with hotel hacks.

According to scientists, trees grow more during years of great sunspot activity.

Hold Everything!

"I say, Beasley, what does one wear to a five-alarm fire?"

RAISES 10-POUND YAM. TULARE, Cal. (UP)—A yam that weighed 10 pounds, 11 ounces was grown by Archie Hamilton in a plot at his home in Tulare. The yam proved to be of excellent flavor.

RECORD GOLD FIGURE IN '38. SAN FRANCISCO (UP)—California's 1938 gold production of 1,311,129 fine ounces with a value of \$45,889,515 was the largest since 1862. The present fixed value of gold helped make the record.

The oldest copper roof in the world is that on the Hildesheim Cathedral in Germany. It was put on in 1320.

The Jown Quack

Have you noticed how Midland is becoming more and more a beautiful city through the paving of streets? Just stay at home a week or two, then drive over the city and notice the changes. The pavement has added almost as much as the beautiful homes in making Midland a beauty spot of the state. Orders have been published to create the legal steps for another \$100,000 worth of paved streets. All that is necessary is for property owners to do their part, and it is likely that such an opportunity for reasonably priced paving will never again be presented. Let the good work go on.

afternoon. And the Bulldogs will meet a worthy opponent when they go up against the hard scrapping little "iron men" of Odessa. Neither team will be the favorite when the players go on the field. The favorite will be determined only after the game is ended. Get your tickets and see the whirlwind finish of a successful season for the Bulldogs in their first year of AA football.

Renewed interest in aviation is bound to follow the recent purchase and expansion of the Midland Municipal Airport, with its splendid dedication program last Saturday afternoon. A local flying club already has bought a ship, with several citizens who have flying hours to their credit, as well as others who will learn to fly, in the organization. The American Airlines showed interest in the local field when several of their officials attended the dedication, bringing the 21-passenger luxury liner, Flagship, here for the afternoon. This ship and the Humble's beautiful Lockheed treated many local citizens to flights over the city and it was a beautiful day for it. The Skelly officials who brought their organization, The American Airlines, attended the dedication, bringing the 21-passenger luxury liner, Flagship, here for the afternoon. This ship and the Humble's beautiful Lockheed treated many local citizens to flights over the city and it was a beautiful day for it. The Skelly officials who brought their organization, The American Airlines, attended the dedication, bringing the 21-passenger luxury liner, Flagship, here for the afternoon. LADY, let an expert keep YOUR CAR running right and looking good

IT'S EASY to solve the problem of caring for your car—shift its care to Humble's shoulders.

Humble Service Stations (there's one not very far from your home) are fully equipped to keep your car running right and looking good, and station salesmen are carefully trained to give it expert care.

Just say the word, and the nearest Humble Service Station will remind you when your car needs lubrication, when your battery needs attention, when your oil should be changed. They'll keep track of the hundred and one things which must be remembered if your car is going to give you trouble-free performance, if it's going to look the way a lady's car ought to!

Begin today. Stop at the nearest Humble sign—and shift the care of your car to Humble's shoulders.

HUMBLE OIL & REFINING COMPANY

Traveling by Car? Fill up at Humble Stations—they're clean. Humble Service Stations are noted through the length and breadth of Texas for their cleanliness. Restrooms are as spotless, as sanitary, as your bathroom at home. Driveways are scrubbed, brightwork shines with polish. And station salesmen, all neatly uniformed, are prompt, courteous, sincere in their effort to render you a helpful service.

Humble sponsors broadcasts of Southwest Conference football games every Saturday.

Three LEADED Gasolines. Humble Service Stations offer every motorist a LEADED gasoline within reach of his pocketbook: for thrifty-grade users, there's THRIFTANE, a good gasoline within easy reach of lower-price buyers; for value buyers, there's HUMBLE MOTOR FUEL, a better gasoline at regular price; and ahead of them all is ESSO, the best motor fuel you can buy. Humble service goes with every gallon of all three LEADED gasolines—fill up today.

National Officer of D. A. R. Speaks To Midland Chapter Here Monday

Mrs. John L. Marshall, vice president of the D. A. R. and chairman of the board of Tamassee Industrial School at Tamassee, South Carolina, one of the two schools supported by the D. A. R., spoke to members of the Lieut. William Brewer chapter here Monday morning at the home of Mrs. Frank Elkin, 1414 W. Indiana.

She explained the aims and purposes of the school which is located on 200 acres of farmland where the students raise crops, keep cows, and care for chickens to aid in their maintenance.

The school was opened in 1914 as a day school but is now a residential school open to children who cannot go to school elsewhere, principally children with no home. The reasons which make it impossible for the students to attend elsewhere are chiefly, she said, that is, distance, poverty, no home, and over age of 23 which puts them beyond the pale of the usual school.

For such children and young people, the school is maintained through the lower grades and high school. The speaker gave examples of students who had been accepted under the various conditions and of their records. Students are both boys and girls.

Tamassee is the larger of the two D.A.R.-supported schools, the other being Kate Duncan Smith school, a day school in the mountains of

Baptist Circles Meet for Mission Study Monday

Meeting for mission study Monday afternoon, five circles of the Baptist WMU heard book reviews on the mission study book, "Constraining Love."

Next Monday the auxiliary will meet with Mrs. C. L. Griffin at her home on Texas street.

Glenn Walker Circle

Mrs. C. G. Walker, 701 N. Colorado, was hostess to the Glenn Walker circle.

Mrs. R. O. Collins offered the opening prayer and Mrs. R. O. Walker presented the devotional.

The mission book was reviewed by Mrs. Geo. Grant.

Closing prayer was presented by Mrs. H. S. Collins.

Present were: Mmes. Collings, Bob Preston, R. V. Lawrence, Walker, Collins, Fred Middleton, Brooks Pemberton, T. Paul Barron, and the hostess.

Kara Scarborough Circle

Mrs. Anton Theis presented the book review for the Kara Scarborough circle which met with Mrs. Eula Mahoney, 614 W. Tennessee.

Opening prayer was given by Mrs. H. D. Bruce and closing prayer by Mrs. J. C. Hudman.

Present were: Mmes. A. Cole, Hudman, Theis, C. A. Travelstead, W. E. Dougherty, O. J. Hubbard, and the hostess.

Annie Barron Circle

Mrs. B. C. Girley offered the opening prayer and the hostess the closing prayer when Mrs. R. Chansler was hostess to the Annie Barron circle at her home, 605 W. Ohio.

The book review was brought by Mrs. J. Howard Hodge.

Lockett Circle

Mrs. Ray Blackburn, 1502 S. Lorraine, hostess to the Lockett circle, offered the opening prayer for the group.

Review of the study book was

brought by Mrs. Eddie Frank Conner.

Mrs. F. E. Curtis led in prayer at the closing of the session.

Present were: Mmes. Conner, Harvey Kiser, Curtis, Cecil S. Aycock, and the hostess.

Martha Holloway Circle

Both the devotional for the afternoon and the book review were presented by Mrs. S. L. Alexander for the Martha Holloway circle meeting at the home of Mrs. Robert Cox, 1907 W. Texas.

Prayer was offered by Mrs. N. W. Bigham at the opening of the hour and by Mrs. J. Webb Miller at dismissal time.

Present were: Mmes. B. A. Wall, C. Shafer, Bigham, Alexander, Miller, Walter Cowden, Clarence Hale, Austin Flint, and the hostess.

Christian Women Meet in Circle Sessions

Mrs. W. S. Elkin brought the devotional, the first Psalm, at the meeting of Circle No. 1 at the First Christian church Monday afternoon.

Mrs. Geo. Ratliff taught the lesson taken from the Book of Acts.

Mrs. J. V. Stokes Sr. presided at the short business session.

Present were nine members including: Mmes. Elkin, J. S. Cordill, G. H. Butler, F. F. Elkin, Geo. Ratliff, J. V. Stokes, Sr., J. R. Jones, and a new member, Mrs. Shipp.

Circle No. 2.

A lesson from the twentieth and twenty-first chapters of Acts was brought at the meeting of Circle No. 2 at the home of Mrs. Lynn Butler, 935 N. Baird. Mrs. Glenn Brunson presented the study.

Mrs. B. W. Stevens presided at the business session.

Nine members were present including: Mmes. A. B. Johnson, L. B. Pemberton, Stevens, Joe Norman, Brunson, S. E. Mickey, John E. Pickering, L. A. Arrington, and the hostess.

Circle No. 3.

Mrs. Chas. Brown brought the Bible lesson from chapters 15 and 16 of the Book of Acts at the meeting of Circle No. 3 with Mrs. R. Z. Dallas, 503 W. Storey.

A box of cookies was packed for the Juliet Fowler home at Dallas.

Mrs. Elliott brought the devotional.

Present were: Mmes. Brown, F. C. Cummings, J. Wray Campbell, Elliott, Herrington, A. Boring, Curtis Gilmore, Louis Thomas, W. M. Bivins, John Thomas, and the hostess.

Stanowski With Leafs

ST. CATHARINES, Ont. (U.P.) — Walter Stanowski, because of his smooth skating and hockey ability, has been assured of a berth on Toronto Maple Leafs Hockey team this winter. He was the star for the championship St. Boniface Juniors, Mrs. Bill Denson, M. R. Hill, John Moseley, and Bryan Dunn.

Methodist Women Have Business and Social Meeting

Methodist missionary society members held a social and business session at the annex Monday afternoon at 3:30 o'clock.

Mrs. Stacy Allen was in charge of the program presented by Mary Scharbauer circle.

She offered the opening prayer and made a talk on the conference.

Mrs. J. L. Tidwell brought the meditation talk.

Closing prayer was offered by Mrs. Frank Prothro.

Mrs. Jess Prothro was in charge of the business meeting during which reports of the different departments were made.

The Young Women's circle served refreshments to 35 or more women.

Shirley Collum Honored at Party

In honor of her daughter, Shirley George, Mrs. Dewey Collum entertained recently with a birthday party at her home, 939 N. Baird.

Games were played by the young guests and a story was told by Arliss Ann Klebold.

At the dessert hour, the white coconut cake decorated with tiny candy dolls and holding four pink candies was served with ice cream. Favors were tiny story books and assorted candy.

Attending were: The honoree, Ella Jane Cantley, Wanda Lou Steele, Mary Joe Hehl, Arliss Ann Klebold, Helen Golladay, Peggy Brunson, Pat Welch, Atrail Pace, Carolyn Reigel, Ruth Elizabeth Harris, Wynell Richmond, Jerry Green, Robert West, and John Green.

Mrs. T. E. Steele, Mrs. R. C. Cauble and Mrs. Bryan Dunn assisted the hostess.

Arrivals at the dessert hour included: Mmes. Ted Green, Ben Golladay, J. M. Sherwood, Miss Melba Rue Sherwood, Jerry Alsbrook and Dewey Collum Jr.

Sending presents but unable to attend were: Evelyn Hehl, Evelyn West, Mr. and Mrs. Billie Sherwood, Mrs. Bill Denson, M. R. Hill, John Moseley, and Bryan Dunn.

Student Commutes by Plane

KENT, O. (U.P.) — Galen Edward Elser, a graduate music student in Kent State university, flies his own monoplane every day from Youngstown to Kent to attend classes—a total of 2,500 commuting miles every year.

FEMININE FANCIES

By Kathleen Eiland

Reading all these special recipes for Thanksgiving dinners is enough to make any woman forsake a typewriter (temporarily, we mean) for a kitchen apron and mixing bowl. The trouble is that recipes which sound so simple and perfectly delicious on paper have a way of becoming enormously complicated and not-so-good when translated into reality.

For your Thanksgiving party plate, cheese molded in pumpkin shape plus a sliver of green pickle for a stem will add the properly festive seasonal note.

Something that is definitely different in the way of lingerie is that of sheer wool. Hand-embroidered and trimmed with lace in the manner of the more commonplace silk garments, these "woolies" are top-notch in style and beauty.

Bright topper for a gray day is a South American turban of stitched gold crepe flaunting a twisted bow of self-material.

The same type hat in green plus a huge gold pin adds up to headlines in chic.

For the girl who is a lover of fragrance, there will be hours of joy in a gift package which features a crystal dinner bell in which are packed three small bottles of perfume. The tiny bottles are shaped like bell clappers and the dinner bell is complete with clapper so that its old age may be useful.

It isn't only in the ability to stay neutral in a warlike world that the Scandinavians are leaders. We refer to the "ambulating laundries" which are used in Sweden.

In that country, the housewife doesn't even find it necessary to pack up her laundry and go to a "helpy-sely" to wash. The laundry comes to her. In a one-unit assembly, the laundry on wheels brings machine, drying-racks, and other equipment for the doing of the family washing with dispatch and ease.

Something that might well be copied by America, we say, along with the recipe for staying really level-headed during wars.

Orphans Home Week Is Discussed by Presbyterians

Discussion of business was combined with Bible study at the meeting of the Presbyterian auxiliary at the church Monday afternoon.

Observance of Orphans Home week, November 27 - December 3, for the home at Itasca was discussed at the meeting of the executive board at 3:30 o'clock. The board also discussed improving the church kitchen by addition of more dishes. Sentence prayers opened the group's session.

Following the executive meeting, the business session of the regular auxiliary opened with a prayer by Mrs. Ruby Braden.

Mrs. K. S. Ferguson and Mrs. John W. Drummond were appointed to buy clothes for the 11-year-old boy at the Orphans Home whom the auxiliary has "adopted."

Mrs. J. M. Caldwell taught the Bible study on "Witnessing" in the Book of John.

Twenty-seven women were present.

LIGHT UP for EASIER SEEING

"That Good Light Makes Kitchen Work EASIER"

● Of all rooms in the home, the kitchen gets most of the waking hours of the average woman. Three times a day and many hours in between, she spends in this workshop-laboratory, working, experimenting, cleaning or doing the host of other tasks that are necessary to turn out appetizing meals.

Better Light will make these tasks easier, because with EASY SEEING you can work faster and better. Put at least a 150-watt lamp bulb in your kitchen light, or get one of the new fixtures which screw into the present socket. You'll quickly notice the improvement.

Better Sight Lamps are Sold by Local Stores
TEXAS ELECTRIC SERVICE COMPANY
R. L. MILLER, Manager

Fill Sockets with Bulbs Large Enough For EASY SEEING

HERE ARE SOME TIPS FOR BETTER KITCHEN LIGHTING

- a 150-watt bulb in the ceiling fixture
- a light over the stove
- a light over the sink
- a light over the drain-board

STUBBORN HEAD COLDS

RELIEVE stiffness and misery this proved way: Melt a spoonful of Vicks VapoRub in boiling water, then breathe in the steaming medicated vapors.

THEN AT BEDTIME, rub VapoRub on throat and chest to get full benefit of its long-continued action while you sleep. And you will be delighted with **VICKS VAPORUB**

Service Plus

We offer you the most complete eye service in West Texas—thorough, scientific examination and no week's delay before your glasses are delivered. Lenses replaced immediately.

The PAYOFF

BY JESS RODGERS. Dan DeHann, one of the most rabid supporters of the Midland Bulldogs, called up this morning from Odessa to report the best idea he has had yet on how to give Jay Francis the statewide publicity he has so well earned in the past three years.

Dan says he couldn't understand the sudden popularity of the song, "The Little Man Who Wasn't There" until he discovered the dirty was being sung mainly by boys in district 3AA teams who have played against Francis this year.

Many an "old grad" of various colleges, now located here, are willing to "play it on the line" to get Jay signed up with their alma mater. We know of a San Angelo man who wants to take Jay to the Sugar Bowl game in New Orleans in order to let the Midland flash look over the Tulane campus.

Claude Duffey, Bob Myer and Sammy Hale sat back yesterday from the WTMM League meeting in Amarillo and reported things went off much smoother than had

been anticipated. A former manager of the Midland club, who had been expected to appear and press charges against the league president for "theft" of his club and its transfer last summer, failed to appear.

One thing the officials did that should meet approval of all concerned was to raise the player limit one man and hike the salary limit \$100 a month.

All clubs in the league last season agreed to be ready for the opening of the 1940 season on April 23. It was brought out at the meeting that Midland trailed the league in attendance last year but when it is remembered that the Cowboys stayed in the cellar most of the time until the last month of the season the fact is not altogether surprising.

A change will probably be made behind the bat. Jimmy Kerr caught nearly every game for the Cowboys last year but he will likely be traded or sold before the start of the next season.

Duffey and Hale will make the minor league meeting in Cincinnati and will probably make deals for two or three boys. They must get rid of a half-dozen members of the team to say inside the rookie ruling but there will be little demand for the ones they plan on dropping off.

Gridiron Glamor Boys . . . No. 7 OKLAHOMA'S STAR END IS ONE OF NINE MARRIED MEN ON TEAM

Sooners Claiming All-America Honors for Frank Ivy, Rampaging Swedish-Indian

Frank Ivy plays billiards for relaxation. Picture of domestication is Oklahoma's great end taking cooking lesson from wife.

Seventh of a series on gridiron glamor boys.

BY JERRY BRONDFELD NEA Service Sports Writer

FRANK IVY is a colorful mixture of Swedish and Indian ancestry . . . with Osage and Cherokee blood constituting the latter . . . Senior in Oklahoma College of arts and sciences, majoring in physical education and hopes to coach after

graduation. Is 23 years old, stands 6 feet 2 inches and weighs 175. Ivy (Polson Ivy to opposition) is one of nine married men on Sooners' squad . . . Married pretty Inez Daniel from home town, who is also part Osage Indian . . . They live in apartment in Norman, and teammates say polson Ivy is one of the best ends in land because of home cooking.

HAILED from little town of Skiatook, Okla., where he was chosen all-

state scholastic fullback in 1935 . . . Father is farmer, living four miles west of Skiatook in Osage Hills, where he grows the tallest corn in the country . . . Frank grew up doing farm work and roughnecking in oil wells during summer.

Quiet, level-headed, temperate youth with mild disposition . . . Favorite diversions are golf and billiards, both of which he plays moderately well . . . Nicknamed "Pop" by teammates because of bald spot . . . Average student who has never flunked single hour of college work.

TOM STIDHAM converted him into end, and last year he played both right and left wings . . . In Oklahoma's Orange Bowl defeat by Tennessee he was Sooners' outstanding flanker, looking much better than All-American Waddy Young . . . This year he took up where Young left off.

He's a great play-smasher and rushes passers fiercely . . . Dangerous as punt blocker, is good pass receiver and is Oklahoma's key tackle . . . If he fails Sooners' running game won't go . . . Ivy tossed Bill deCorrvont for seven-yard loss in Northwestern sophomore's first play in college football . . . Hasn't missed a minute of play because of injuries this year.

NEXT: George Strunweiss and Jim Lalanne of North Carolina.

The Mustangs got together Saturday morning for a trip to the sand hills. After a morning of free play and football, the boys ate their lunches, which each individual furnished, and about one thirty o'clock Santa came along with marshmallows and doughnuts for all. But for

Neff Boasts Largest "Class" in the World

WACO.—President Pat M. Neff of Baylor University possibly can boast of the largest class in any college or university in the world. His "class" has 2350 students who come without fail four days a week through each school year. It is the Baylor chapel service.

At 9:55 o'clock each morning, one is able to stand on a front step of Waco hall and see the students ply their way toward the hall from all sections of the campus—a thick mass of young vibrant humanity moving toward a central spot, the 10 o'clock chapel.

President Neff presides at the sessions. His "lessons" to the students may come in many forms: for speakers, singers, artistic performers of a dozen classifications, ministers and dramatic presentations go to make up the fare.

The chapel service is as old as Baylor, and its constituency since the year 1845 has included each and every member of the Baylor student body.

Aggies Rate No. 1 Team After Vols Have Trouble With "Vandy"

NEW YORK, Nov. 21 (AP)—Driving past a Tennessee team which had a hard time protecting its winning streak against long-shot Vanderbilt, Texas A. & M. today shot into first place in the race for selection as No. 1 football power in the nation.

After four straight weeks in the driver's seat, the Vols were dropped into second place in the season's sixth Associated Press ranking poll. At the same time the Aggies, a team which coach Homer Norton converted from a Southwest Conference also-ran into a club only one game away from a perfect season, drew 38 first-place votes, 37 second and 17 thirds on 110 ballots, a total of 963 points.

That was enough to beat out Tennessee by 65 points, and even the Vols were hard-pressed to hold second. Roaring up behind them was a 36-6 scalping of Dartmouth's Indians, which performance was impressive enough to earn 265 points, only 33 less than Tennessee and 101 more than Southern California, which had been third a week ago.

Thus the standings find the three top-flight all-winning teams at the head of the list, followed by Southern Cal., Tulane, each tied once, and then in order by five teams, each of which has been defeated once.

Ohio State, which lost by 9 points to Cornell but is out front in the Big Ten race; Notre Dame, which lost a one-pointer to Iowa; Duke, which blazed North Carolina out of the unbeaten division and out of the first ten, thus atoning for its one-point loss to Pitt; Iowa, which met Michigan and Tommy Harmon on their best day for its lone setback; and Missouri, soundly beaten by Ohio State but winner last Saturday over Oklahoma.

The standing of the teams (points figured on 10-9-9-7-6, etc., basis, Tied Eleventh Next . . .

Table listing teams and their rankings: 1. Texas A&M (38), 2. Tennessee (33), 3. Cornell (20), 4. Southern Cal (11), 5. Duke (10), 6. Ohio State (3), 7. Notre Dame (1), 8. Iowa (2), 9. Missouri (1), 10. Mississippi (1), 11. Holy Cross (1), 12. Duquesne (1), 13. UCLA (1), 14. Oklahoma (1), 15. Clemson (1), 16. Georgetown (1), 17. Tied for 17. Santa Clara and North Carolina (1), 18. Fordham (1), 19. Princeton and Georgia Tech (7), 20. Also ran—Nebraska and Oregon (6 each), Colorado (2), Mississippi (1).

If further proof were needed, the rankings demonstrate conclusively that the games of the week will be Southern California-Notre Dame at South Bend, Ind., and Cornell-Penn. at Philadelphia. This meeting with the Trojans, who hope

"chiseling" builders. "It is our duty and the duty of industry," he said, "to increase production and lower costs by seeing to it that every house of \$3,500 or more has all the things that men and women want when they seek new homes."

Hopes Country Stays Neutral

MERRIAM, Kans. (UP)—John Lewis Barkley, the "typical American soldier" of the World War, who captured a German tank single-handedly, favors "strict American neutrality" in the present European conflict.

"If Germany respects American lives and American shipping, then we should stay out of the European war," Barkley said. "But if they don't—well, that's a different story."

Barkley believes that French ar-

tilery will be able to wreck the German Siegfried line and after that barrier is broken, he believes the Germans will lose spirit.

Prevent Quick Tarnish. If soiled flat silver is not to be washed immediately, to prevent rapid tarnish, wipe off with absorbent paper and allow to soak handles up, in a vessel of mild soapy water.

Firm Fruit in Gelatin. When making fruit gelatin, always add the fruit after the gelatin has cooled, but not stiffened. If added while the mixture is still hot, the fruit will be soft and unappetizing.

Crippled Children Approve Double Texas Thanksgiving

Counting the hours until "turkey time," these two youngsters at Scottish Rite Hospital, in Dallas, will each return home to celebrate Thanksgiving, thanks to the two celebrations Texas will observe. Both of them infantile paralysis victims, little Yvonne Willis, 3, of McAdoo, Texas, will have her arms out of braces in time to celebrate the new streamlined holiday Nov. 23, but E. J. Levens, 3, of Chillicothe, will have to stay a week longer, getting home to eat turkey with his family on the traditional date, Nov. 30. Nurse Merle Magee points out. Both children have been in the hospital since August.

Chicago "Loop" To Have Tube By January, '41

CHICAGO (UP).—Sandhogs working behind the protection of huge steel shields soon will begin boring a twin tunnel under the Chicago "Loop" constructing the major portions of the city's first subway.

The work is part of a \$46,000,000 project expected to divert crowds that have made State and Madison street the "world's busiest corner" to underground passages.

More than 20,000 feet of single tube have been dug since the project was begun last December after the city obtained a WPA grant to help finance the construction. By Jan. 1, 1941, engineers expect to have completed seven miles of underground right-of-way serving the "Loop," north and northwest sections of the city.

Tunnels now under construction are the first sections of a proposed underground system which would replace completely the downtown elevated rail system. One unit, under State street, will connect with the present "L" system south of the "Loop" and at the near north side. The other unit will parallel the State street tube for a few blocks under Dearborn street, one, one block west of the north-south line, then angle off to connect with the northwest "L."

To Pass Under River.
 Both units will pass under the

Chicago river. To accomplish this, engineers say they will float prefabricated steel sections of tubing down the river from a Lake Michigan port about 15 miles away.

When the project was begun the cost was estimated at \$40,000,000. The federal government agreed to supply \$18,000,000 of the funds and the city contributed \$22,000,000 from its treasury fund begun in 1907, long before a subway even had been considered possible. During the year of operations, however, the estimated cost has risen \$6,000,000 and city officials believe it may cost even more.

Buildings along the right-of-way have been razed because their foundations were endangered by the boring and engineers still are working on plans for rearrangement of a maze of subterranean tunnels and conduits of telephone, telegraph, electric light and power, gas, water and other public utilities to make way for the tunnels. Cost of the relocation of the utility lines alone was estimated at \$5,000,000, and court action will decide whether the city or the utilities will bear the cost.

Complicating the construction

was the high moisture content of the mucky, clay sub-soil under the "Loop." Test borings showed soil moisture content in some sections to be 58 per cent. Because the work is being done by the bore method instead of by open cut excavation this high moisture condition required the use of metal shields weighing 190 tons each. The shields bore through the earth like cookie cutters propelled by giant steel jacks which exert a pressure of 400,000 pounds each. Purpose of the shields is to protect workmen from soil cave-ins and to guard against soil settlement under building foundations.

NAVY CALLS IN LAST COAL BURNER; WEEP, MATEY, FOR SHE WAS A LADY

BY WILLIS THORNTON
NEA Service Staff Writer.

SING a dirge of the sea, matey—the last coal-burning ship of the United States navy has been driven from the oceans.

When the stubby coastal gunboat, Sacramento, "Galloping Ghost of the China Coast," started a few days ago for an ignominious retirement berth in the fresh-water port

U. S. S. Sacramento, last of the navy's coal-burning fighting ships: Once they rigged her with the sail of a Chinese junk to conserve fuel.

There's a Good Reason You're Constipated!

When there's something wrong with you, the first rule is: get at the cause. If you are constipated, don't fiddle around with makeshift remedies. Find out what's giving you the trouble!

Chances are it's simple if you eat only what most people do—meat, bread, potatoes. It's likely you don't get enough "bulk." And "bulk" doesn't mean a lot of food. It's a kind of food that isn't consumed in the body but leaves a soft "bulky" mass in the intestines and helps a bowel movement.

If that fits you, your ticket is a crisp crunchy breakfast cereal—Kellogg's All-Bran. It contains the "bulk" you need plus the great intestinal tonic, vitamin B. Eat All-Bran every day, drink plenty of water, and just watch the old world grow brighter! Made by Kellogg in Battle Creek.

ing practice, too, and that's more than some of these snooty Diesel-driven packets can boast. They'll keep her from the frontier seas where she's chugged these 25 years. But they can't strip out the holes that bullets blasted through her funnels on the Yangtze. They can't chip out all of the concrete that was poured into her bow to reinforce plates torn by the ice filled seas up Arch-angel way. They can't rob a lady of her reputation—and the Sacramento was and is a lady.

A PROPER LADY CAN NUDGE WITH VIGOR.

A BIT active for a lady? Yes, but she proved that a proper lady can rub elbows with the world—occasionally tossing in a little extra dig—and still keep her good name.

First it was Vera Cruz. She had scarcely been commissioned in 1914 when she was sent down for the U. S. naval landing and occupation of the city. Then it was the Barbary Coast. She was the first American in that wicked lane since the days of Decatur, and she still had her good name when she left.

During the World War, she helped convey 483 ships, sailing more than 63,000 miles. She rescued the crews of the Sebastian when it burned at sea in 1917, and of the Swan River when it sank while the Sacramento was trying to tow it to port.

In 1919 she was frozen in at Murmansk while serving the troops guarding the Russian and Siberian Railway.

Three years later, she appeared at Vladivostok in the nick of time to save foreigners caught in the middle between fighting Reds and White Russians.

She turned south for the Honduras disturbances in 1922. Then she was off for seven years around the world, mostly on the China Coast.

She relieved earthquake victims in Yokohama in 1923, helped the Philippines Constabulary against rebels in Socorro in 1924.

In 1926-27 she helped protect the foreign colony at Canton during an uprising. By 1931 she was off Belize, Honduras helping earthquake victims and rescuing a group of castaways on Cocos Island.

off her bow, broke in all her ports, smashed her boats, injured several of her crew. She evacuated refugees from Shanghai and Hong Kong to Manila. She was at the bombing of Swatow, too.

Yes, she was a lady, and proud, too, but not too proud to dress herself in the sail of a Chinese junk one time and sail along with the Oriental wind to conserve the coal in her bunkers.

Last May she started home. Only 228 feet long, drawing but 14 feet, and very slow, she tossed like a chip in a typhoon. She said farewell to Straits Settlements, Port Said and Alexandria and steamed on into another storm in the Mediterranean.

But on past Naples, Marseilles, Gibraltar, the Azores and Bermuda, she came.

She reached New York in time to serve at the scene of the Squalus disaster. She stood by during the long weeks of the struggle to raise the sunken sub, acting as a "hotel" for the rescue workers, and helping to tow the Squalus to Portsmouth.

And now she's coming down the St. Lawrence to the Great Lakes that will be her prison.

Frankly, it's no way to treat a lady.

Acce Detective Is Sentenced to Pen

ENID, Okla., Nov. 21 (AP)—The ace among Oklahoma sleuths was sentenced last night to five years in the state penitentiary—to which he had sent an estimated 400 car thieves—for receiving a stolen auto.

He is Jake Strickler, former chief of the state department of public safety stolen car division, whose activities were credited with stamping out the car theft rings of Oklahoma.

Strickler testified he bought in good faith an automobile later found to be stolen. His attorney charged "jealous" metropolitan police had framed him.

"He won't be in that prison one day," Defense Attorney H. C. Kirkland told the jury, "before one of those thieves he sent there will stick a knife in his back."

A jury of only eleven men convicted Strickler. The twelfth was stricken by appendicitis yesterday and was critically ill. The defense agreed to go on with the trial anyway.

A LADY STANDS UP UNDER FIRE.

SHE was present at the first bombing of Shanghai by the Japanese. One bomb landed 20 yards

ing practice, too, and that's more than some of these snooty Diesel-driven packets can boast. They'll keep her from the frontier seas where she's chugged these 25 years. But they can't strip out the holes that bullets blasted through her funnels on the Yangtze. They can't chip out all of the concrete that was poured into her bow to reinforce plates torn by the ice filled seas up Arch-angel way. They can't rob a lady of her reputation—and the Sacramento was and is a lady.

Further discoveries of British poison gas in Poland!

The following is an official report:

On October 12th, the German Press published in the morning editions of the daily newspapers, details constituting incontrovertible proof that, firstly, poison gas had been used by Polish troops and secondly, that this poison gas had been supplied by Great Britain. The first definite reports concerning these monstrous facts were received as early as September 17th, 1939. Medical experts of international repute and neutral journalists were asked to assist in establishing indisputable and exhaustive proof of the various cases in which poison gas had been used. Only then did we inform world public opinion of the terrible details of this crime against humanity.

Methods of warfare, is further proof of the hypocritical and unscrupulous forms of warfare of that country.

We have, however, not only to ask in how far Great Britain believes that she can escape this serious question by a laconic reply, but we have today to bring a fresh grave accusation against Great Britain as being implicated in the criminal use of gas in warfare, for, in the meantime, new and definite reports have reached us, according to which poison gas was not only used in Jastko, the place mentioned in the German Communiqué of October 12th, but also in numerous other places in Poland. In these cases, it could be again be proved that the poison gas bombs,

The long arm of German Propaganda Minister Joseph Goebbels reached over the Atlantic and scattered untold thousands of anti-British circulars in the United States, according to reports from Federal postal authorities. Part of one received in a New Jersey community charging that Poles used poison gas supplied by Great Britain, is reproduced above. Mailed from Berlin, via Italy, circulars were addressed to names apparently taken from local telephone directories.

Oil News—

(Continued from page 1)

inch tubing. Total depth is 5,335 feet in lime. Amerada Petroleum Corporation No. 1-A T. S. Riley, which flowed 173 barrels naturally in six hours at 5.345 m time is preparing to gauge after acidizing with 2,000 gallons.

Odor of gas was logged from 4,426-35 feet by Stanolind No. 1 American Warehouse Company, west offset to the discovery producer of the Cedar Lake pool in northeastern Gaines, and it is drilling ahead below 4,540 feet in lime. Attempts are being made to kill Stanolind No. 1 A. L. Green, south offset to the discovery, by pumping in water. It has been blowing an estimated 50,000 cubic feet of air daily for 48 hours, but volume of air appears to be decreasing. The well blew out after encountering air from 3,640-54 feet, present total depth.

Stanolind No. 1 T. S. Riley, wildcat three miles north and a mile and a half west of the Cedar Lake pool opener, had drilled to 2,900 feet in anhydrite and sand.

Judge Says—

(Continued from page one)

at his conclusion that there was a shortage of \$8,510 in proceedings from a Bund rally to last February—a shortage which is the basis for two counts not involved in the present trial but which McCarthy said he dealt with as "a similar transaction."

After exhibiting impatience at the accountant's answers, Judge Wallace finally announced: "I'll instruct the jury right now that there is no proof at this time that the defendant stole any money as a result of the Madison Square Garden affair (the rally)."

BY PLANE TRIP.

Mrs. J. W. Rhodes, Evelyn Garvin and Pearl Kenley flew to Abilene Sunday on a pleasure trip. George McEntire was the pilot.

UNDERGOES SURGERY.

Mrs. L. F. Joplin, who underwent a major operation in a Big Spring hospital Monday morning, was reported doing well this morning.

FROM ROSWELL.

Soldiers of 1939 Keeps Old Lingo; Still Chow Hound

NEW YORK (UP)—The shavetail puffed off when he bunked fatigue.

That, according to Col. L. B. Magruder, 2nd Corps Area recruiting officer, merely means the second lieutenant made a mistake when he went to bed during a lull in drills.

Magruder got together a list of some of the more common expressions used in conversation among soldiers. They have not changed much down through the years.

Other terms included: battin' the breeze, a conversation which usually ends with an argument as to who won the Civil War; cabbage, money; chow hound, gourmand; circus water, iced drinks with meals; gold brick, lazy soldier; hash heater or shum burner, the cook; java and sidearms, coffee, milk and sugar; jawbone, charge it; mitt flopper, a handshaker.

TO NEW MEXICO.

Mr. and Mrs. Foy Proctor left this afternoon for a few days' trip to New Mexico.

IN HOSPITAL.

Mrs. S. P. Myrick of Stanton is in a Midland hospital where she was admitted Sunday.

IN FORT WORTH.

Mrs. F. B. Fromhold is on a visit to Fort Worth.
