THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, AUGUST 5, 1959

BOVINA, TEXAS

VOL. V, NO. 7

## Whitlin

By Dolph Moten

Bovina has zoning! And evidently the citizenry is happy with it. Not one protest was registered at a hearing last week where the "nays" had the opportunity to make known their complaints. That was sorta disappointing in a way.

For years, we've known that zoning would be good for the town, but nothing has been done about such an ordinance because there was fear too many people's toes would be stepped on. Not so. People really go for this progress idea.

Frankly, we know people are not that willing to make a change. We feel the real reason that zoning ordinance went uncontested was that it will not directly affect any property owner right now... and said property owner isn't sure if he will want to construct anything in the future or not. Also, most people realize that zoning is necessary to protect the investments we have here now.

In my opinion, that zoning is a good thing and that it came too late, are the nice homes on Third Street. That's the street that connects Highway 60 and Highway 86. As it has turned out, Third Street is obviously the best remaining street for a business location. (We said street and that doesn't include highways.) Yet, because there are some nice homes on the street, there will be some conflict with residences and businesses. If zoning had gone into effect five or six years ago, this conflict would have been eliminated. And certainly Bovina's growth—and it's made a lot of it in that period of time—would have been more orderly.

But that problem, we're sure, will be a minor one. We're lucky we have a zoning ordinance now instead of waiting five years from now to get one into effect.

It appears from here that after this week, you will no longer be bothered with Fats-Leans ballgame stories or the games themselves, for that matter!

We fatboys lambasted the Skinnies last Friday night under the football lights by a score of 86-0, 80-6, or 8-6 or something like that. Anyway, it was bad enough that they agreed we had the best team and that they weren't interested in playing any more games this year.

As a matter of fact, Leon Grissom, Leans captain, was heard to say it would be next year before he'd be interested in playing again. That's the way it is when you lose; you lose heart in playing.

Really, we're not trying to promote another game. We've had enough, too, for one year. Besides, the next game would probably be a brawl game instead of a ball game and we're too little for that kind of doings... even if we do play for the Fats.

Another thing that killed interest in the Fats-Leans series is the fact that Lions Club Little League till is full... operating in the black... and all kinds of nice things like that. You'll remember that the Fats-Leans games were played to raise money for the Little League program. And hey did. Of course, other things helped, too. But the softball games did a small part and we're proud of them for that.

Up to now, we claim to be one of the few columnist in the Southwest who has ignored Louisiana Governor Earl K. Long's newsy vacation scamper across the Southwest. Nuf sed.

It's vacation time. Seems that 90 per cent of the people we know are just home from vacation, on one now, or getting ready to go.

Must be nice to be able to afford to take a week or two off?

Rev. Jack Jeter, Baptist Church pastor, keeps reminding us there will be a film concerning "Religion and The Presidency" at the school audi-

(Continued on Page 8)

## Highway Crew Wins District Contest

NOW IN EFFECT —

### Commission Adopts Zoning

Zoning regulations for City of Bovina went into effect Friday night after an hour-long public hearing during which no protests or requests for alterations were presented.

The hearing was from 8 to 9 and after time for protests had passed, City Com-

mission voted unanimously to adopt the zoning plan prepared and presented by Dudley Bayne, city manager of Hereford. The commission also adopted building permit ordinances to enforce zoning.

Permit ordinances are designed to aid parties building and those whose property is already constructed. After the Friday meeting, prospective builders must secure a building permit before erecting buildings in any part of town. Fee for the permit is one dollar.

City Secretary Henry Minter will be in charge of granting permits. Before granting permits, he will consult the zoning map in city hall and if the

(Continued on Page 8)

### Truck Wrecks Sunday

Sixty thousand pounds of truck and freight going west on Highway 60 went out of control on loose gravel on the west side of Bovina Sunday afternoon, jumped a culvert and ditch and jack-knifed before finally stopping.

Neither the driver or the relief driver, asleep in the bunk of the White Freightline, was injured but the truck was heavily damaged. The left cross member on the tractor was broken and brake lines were snapped when the tractor caught in the gravel and pointed north while the trailer was still headed west.

Both fuel tanks were punctured. The trailer was caved in on the right side where it hit against the cab when the tractor jackknifed.

The transport belongs to Transcon Lines, whose offices are in Oklahoma City, Okla. The truck was hauling a capacity load of general freight from Oklahoma City to Arizona when the mishap occurred.

Sheriff Chas. Lovelace investigated the accident.

\*\*\*

It was a RUDE AWAKENING for the relief driver asleep in the bunk of this truck that went out of control on Highway 60 Sunday afternoon. No one was injured in the accident but damage to the truck was heavy.

A MINOR ACCIDENT with no injuries and slight damage occurred Thursday afternoon. Spectators and occupants of the two vehicles wait for an investigating officer to arrive.

TOP CREW--These ten men were recognized for maintaining Parmer County highways better than any other section in District Five. Left to right, they are Weldon Moody, Billy Horton, J. W. Gooch, Herman Estes, Alfred Mills, Lloyd Killough, Alfred Haney, Bobby Englant, Wilburn Carlton and Alan Newman.

FRIDAY NIGHT —

## Fats Take 8-6 Win Before 250 Fans

Two big innings, a four-run third and a three-run fifth, gave Fats an 8-6 come-from-behind victory over Leans on Mustang Field Friday night before an estimated 250 fans.

The game was sponsored by Lions Club with proceeds going to Little League program.

Leans had jumped into a 4-0 lead with one run in the first and three in the third before the Fats big third inning. Fats never trailed again, as Fats pitcher Bob Wills gave up 10 hits, but left nine men stranded.

Glendon Sudderth, Leans pitcher, allowed only seven hits but his teammates made six errors behind him, two in the

third that helped the Fats to the four runs.

Neal Smith led off for the Leans with a single and after Mark Charles grounded to third baseman Robert Read, Wendol Christian plated Smith with a single.

Jimmie Clements doubled to put runners on second and third with only one out. Sudderth was walked intentionally to load the bases and the next two batters, Vernon Willard and Boyd Gilreath went down swinging.

Fats went down in order in the first as Dolph Moten popped out. Vernon Stewart was called out on strikes and Read grounded to Sudderth.

Jerry Rogers led off the Leans second with a strike out.

### Boy Hurt In Fall From Horse

Benny Kent, son of Mr. and Mrs. A. B. Kent, who live southeast of Bovina, was injured in an accident involving a horse late Friday afternoon.

Young Kent was admitted to Parmer County Community Hospital at Friona Friday night where doctors discovered his skull was fractured.

At the last report, his condition was good and he was expected to be able to leave the hospital late this week.

Benny, who will be a second grader in Bovina school this fall, was riding his horse bareback when the accident occurred. He fell from the horse, striking his head on the ground.

### Churches Plan Film Thursday

A film entitled "The Big Issue-Religion and The Presidency" will be shown in school auditorium Thursday night, beginning at 8.

The film is sponsored by Protestant and other Americans United in cooperation with local churches.

After the film, Mrs. G. C. Applewhite, an English teacher from Lockney, will direct a question and answer period.

Everyone is urged to attend. The sound movie lasts about 30 minutes. It has previously been shown on a national television network.

There will be no admission charge.

MINOR DAMAGE —

## Truck, Car Collide Thursday Afternoon

A '59 Ford carrying eight members of a Michigan family collided with a '52 Chevrolet pickup truck driven by Barbara Williams who lives Northwest of Bovina Thursday afternoon at the intersection of Highway 60 and Third Street.

No one was injured and damage to the vehicles was slight.

Bruce Devantier, of Mt. Clemens, Mich., was driver of the car. He applied the brakes and the tires skidded about one car

length before hitting the pickup. He was driving West on Highway 60. The Ford was practically stopped when the collision occurred.

Barbara Williams, the driver, her mother, sister and two brothers were all riding in the pickup. The pickup, owned by John Dixon, was crossing Highway 60 at the blinking traffic light on Third Street.

The Ford, was owned by Arthur Eckert of Mt. Clemens, father-in-law of the driver. Its left

front fender was slightly dented. Deputy Sheriff Henry Minter, who investigated the accident, estimated damage to the car at \$45.

The pickup's right door and fender were dented but damage was estimated at around \$50. Barbara Williams was issued a ticket for driving without license.

The Devantier and Eckert families were enroute from their homes in Michigan to visit relatives in El Paso.

## Killough Takes Prize As Top Foreman

Lloyd Killough, Texas Highway Department Maintenance foreman of Parmer County Section, was named winner of District Five maintenance contest in a foremen's meeting at Lubbock July 31.

District Five is composed of 17 counties, with 18 maintenance foremen.

Killough was recognized for his devotion to duty, and his care in operating his section. The first place award was made by O. L. Crain, district engineer. "We're very proud of Lloyd and his work," said Crain.

A veteran of 18 years of service with the highway department, Killough started in 1941 as a laborer. His starting salary was 35¢ an hour. He worked up to assistant foreman at Dimmitt. He held that position six years before becoming foreman of the Parmer County Section when it was created three years ago.

Mr. and Mrs. Killough will make a two-week expense-paid tour of highway department headquarters. The tour is part of the winner's reward. The tour will give Killough a chance to learn from other section foremen. He will also give them some of the ideas that helped him win the contest.

The Parmer County crew, including Killough, will receive a pay raise for their prize-winning work.

"I was really surprised to be named winner of the contest," Killough says. He says the heavy spring and early summer rains made keeping the roadsides mowed a difficult task. When the rains ended the crew then had to contend with irrigation "tail water," wasted irrigation water, that runs into highway barrow ditches and causes mowing machines and other equipment to bog down.

Trash along the highway presented one of the worst problems to Killough and his crew. Most of the rubbish was in the form of beer cans, Killough says.

"Our section lost more points because of beer cans along the road side than any other single point," Killough said. "Everyone has to pay for picking them up."

Killough was eager to pass credit for winning the contest on to his men saying, "They deserve the credit because they're the ones that actually did the work."

Members of the crew are Wilburn Carlton, Herman Estes, Bobby Englant, J. W. Gooch, Truett A. Mills, Weldon Moody, Alfred Haney, Billy Horton, Alan Newman and Don Owens.

Parmer County section includes about 210 miles of highway. Seven farm-to-market roads, two U. S. highways and two state highways make up the mileage.

District Five is composed of Bailey, Castro, Cochran, Crosby, Dawson, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Parmer, Swisher, Terry, and Yoakum counties.

Eugene Munsell in Lynn County was second in the contest and Emerson Wyer of Swisher County won third.

\*\*\*

CONGRATULATIONS to Lloyd Killough are given by O. L. Crain, District Engineer, as he gives Killough and his Parmer County crew the first place award in District Five's Maintenance Contest.

## Colored Revival Planned

A revival for colored people will be conducted in American Legion Hall beginning Sunday, August 9.

W. H. Bland, pastor of a colored congregation in Clovis, N. M., will be speaker for the week-long revival. Services will be held each night until August 16 beginning at 8:30.

Farmers are urged to tell their employees of the meeting.

First Baptist Church of Bovina is helping sponsor the revival.

CATHOLIC BIBLE SCHOOL had good daily attendance during its two weeks of classes. Here the children are shown during one of the recess periods during which St. Anne's Altar Society served refreshments.

### Editorial

## A Sample

Citizens got a taste of what a lighted ball park could do in Bovina Friday night at the Fats-Leans softball game played on the football field. Estimates on the size of the crowd have ranged from two to three hundred.

Friday night's preliminary game, featuring two squads of this year's Little Leaguers, gave some parents their first chance to see sons in action. All regular season Little League games were played in the daytime and few grownups can attend games during working hours.

For one night the question of what is there to do in Bovina was answered. Those attending the game saw some well-played softball. Surely one game a year isn't enough.

A lighted park would provide something to do for more than just softball and Little League players and fans. Baseball games could also be played and Bovina could possibly get into a league and play night baseball, which is hard to beat for entertainment and recreation. In most other places that have lighted ball parks, women's softball is played, so no group should be left out if a park were lighted.

After the game Friday people were asking themselves why there is no lighted field here. Interest is here. Apparently the only thing that kept a field from being lighted this year was lack of organization. Those who were ardently for a lighted field could not come up with someone or some group to take over and see that it was erected.

That there is plenty of interest and favorable sentiment for lighting a field, seems certain and if a well organized group ever takes over the project, success should come quick.

This writer has heard no less than five persons say they will make a sizeable contribution toward lighting a field if it is built soon so their children can benefit.

Something should be done while there is interest and sentiment for the project. The games Friday showed that youngsters, oldsters, men and women will benefit from a lighted ball park.

V. S.

### 3 Bovinans Among WT Candidates

Three Bovina students have been listed among 200 candidates for degrees at West Texas State College's summer commencement August 21 according to Dr. Walter H. Juniper, dean of the college.

They are Bob Kelley, Sondra Jefferson and Janie Sudderth. Exercises for summer graduates will be at 8 p.m. in Buffalo Stadium. A reception honoring students and their families will be given August 19 by President and Mrs. James P. Cornette.

Kelley is a candidate for a Master of Education degree. Miss Jefferson is seeking a Bachelor of Science degree and Mrs. Sudderth is a candidate for Bachelor of Business Administration.

### Camp Meeting Opens Monday

Annual conference and camp meeting for members of area Pentecostal Holiness Churches is being conducted this week at the camp grounds near Amarillo. The meeting opened Monday and will continue through Sunday evening.

Attending Monday's session from Bovina were Mr. and Mrs. A. T. Kersey, Mrs. Minnie McCutchan, Mr. and Mrs. John Crim, Mrs. Wayne Webb and children, Mrs. Jack Stanberry and children and Rev. and Mrs. S. W. Blake. Rev. Blake is pastor of the Bovina Pentecostal Holiness Church.

Several attending Monday's services will stay for the rest of the week's meetings.

### Spanish Revival Continues

Revival services for Spanish-speaking people are being conducted in American Legion Hall

### Family Gathers At Boys Ranch

Thirty-eight members of the McCutchan family gathered Sunday at Boys Ranch picnic grounds, near Amarillo for a family reunion. A number of the out of town visitors arrived in Bovina Friday and Saturday. Others met the Bovina limb of the family tree at the picnic grounds.

Among those present from Bovina were Mrs. Minnie McCutchan, Mr. and Mrs. Jack McCutchan and sons, and Mr. and Mrs. A. R. McCutchan. Others were Mr. and Mrs. Charlie Rauh, Friona; Mr. and Mrs. John Bilderback and family, Kingfisher, Okla.; Mr. and Mrs. Don McCutchan and family, Dumas; Mr. and Mrs. Buster McCutchan and children, Dumas; Mr. and Mrs. Earl Rauh and family, Masterson; Mr. and Mrs. Nick Dudley and family, Amarillo; and Mr. and Mrs. Ward Folk of Dumas.

### Brenda Charles Loses Tooth

It's almost too early to begin thinking about Christmas, but Brenda Charles has it pretty well figured out. All that 2 1/2-year-old will want, or at least wants at the present time, is a front tooth. She lost hers Friday afternoon.

Brenda, daughter of Mr. and Mrs. Mark Charles, fell Friday afternoon while playing and broke a tooth against the clothes dryer. She was taken to the doctor who removed the broken tooth.

Her aunt, Mrs. Jimmie Charles, reported Monday morning that she was getting along all right, though her mouth was still very sore.

Rev. Daniel Contreras, pastor of a Spanish speaking Baptist church in Clovis, N. M., is evangelist. Evening services begin at eight. The meetings began August 2 and will continue through August 9. The revival is conducted with cooperation of First Baptist Church of Bovina.

### Services For Mrs. Byrd Held Tuesday

J. D. Kirkpatrick of Bovina, were conducted Tuesday in Petersburg.

Rev. Jack Jeter, pastor of First Baptist Church of Bovina, and Rev. Todd, pastor of First Methodist Church in Sudan, officiated at the services.

Funeral services for Mrs. A. F. Byrd, mother of Mrs.

## Train Clips Auto

A slow-moving east bound freight train, that had switched off the main track to let a faster train through, clipped the front of a 1952 Oldsmobile in Bovina Sunday about noon.

The car, driven by Wilbert Weldon Nelson of Lubbock, had been stopped at the crossing on Third Street as the fast train passed. Nelson started across the tracks as soon as the train was past the crossing. He said he didn't see the train that hit him.

Luckily, Nelson's Oldsmobile was barely on the tracks. The train hit the right front fender and knocked the car back from the tracks.

Damage to the car was estimated at \$100 by Deputy Sheriff Henry Minter who investigated the accident. Nelson was not injured.

### Corns Visit In El Paso

Mr. and Mrs. Charles Corn and children, Eddi, Doris, and Heidi, returned last week from a vacation in El Paso.

The Bovina family visited with a former army buddy of Corn's, W/O and Mrs. Homer C. Bradley. They were also guests in the home of Mr. and Mrs. Robert H. Hicking.

A tour of Juarez, Mexico, and Cloudcroft, Carlsbad, and Alamogordo N. M., were also highlights of the family vacation.

### Catholic School Closes

Vacation Bible School at St. Anne's Catholic Church in Bovina closed Friday after two weeks with an average daily attendance of around 65 children.

A Thursday morning wiener roast at the roadside park southeast of Bovina was the highlight of the school. Members of St. Anne's Altar Society sponsored the picnic. The society also served refreshments to the children each day at the church.

### INJURES LEG

Mrs. Art Mast pulled muscles in her foot and leg Thursday morning in an accident in her home. The injury occurred as Mrs. Mast stepped from a chair onto the floor. She is now on crutches but reports that she is "up and around."

### Beginners Need Shots, Certificates

Parents of children who will start to school for the first time August 31 are urged to have their children vaccinated for both smallpox and diphtheria and secure a birth certificate, Superintendent Warren Morton, announces.

Morton expects about 55 first graders, which will be about the same number as last year.

Each beginner will be awarded a first-day diploma for being at school on opening day. Parents are encouraged to accompany their first graders to school to help them enroll and find out supplies which will be needed.

### School Of Missions Conducted In Lubbock

Four adults and two young women attended a Methodist School of Missions in Lubbock last week.

Returning home Friday from the five day school were Mrs. Davis Edens, Mrs. Leon Ware, Mrs. Billie Sudderth, Mrs. John Dixon, Miss Joy Redden and Miss Patsy Richards.

The school was conducted

to introduce a number of studies to church circle representatives from throughout the area. Studies were offered so that those taking them would be able to return to their home church and lead the same study, some time within the next church year.

Mrs. Edens took the Bible study of Luke; Mrs. Ware, "The Church's Mission in Town and Country;" Mrs. Sudderth, "A Study of Africa" and Mrs. Dixon, "The Role of the United Nations in World Affairs." Miss Redden and Miss Richards also participated in courses especially catering to the interest of young people.

The school was conducted at St. John's Methodist Church. Those attending lived on Texas Tech campus during the week.

### Six Attend Band Camp

Six young people from Bovina are attending an annual band camp in Canyon this week. Registration was Sunday afternoon. Throughout this week, the young people will be given instructions in their chosen instruments.

Friday evening a concert will be conducted, in which Bovina's representatives will play. Friday night, August 14, a complete concert will climax the two-week camp.

Attending from Bovina are Myrtice Shockley, Linda Estes, Billy Minter, Jimmy Redden, Billy J. Charles and Ronnie Glasscock.

Welcoming them to the camp was Norris Samuelson, former band and music instructor in Bovina Schools. He took them on a tour of West Texas State College campus as well as other places of interest in Canyon Sunday afternoon.

### Mrs. Ware Leads Study

Mrs. E. M. Ware was in charge of a study titled "Christ and Myself" Tuesday. The study was conducted in fellowship hall during a regular weekly meeting of the Marzie Lynn Circle of the Methodist Church.

Prior to the circle meeting, Mrs. Wilbur Charles gave a talk from the book "The Revelence of the Prophets" at the special prayer services.

Meeting closed with a group song, "Take Time To Be Holy." Attending were Mrs. Ware, Mrs. Wilbur Charles, Mrs. H. L. Ivy, Mrs. Rouel Barron and Mrs. L. M. Grissom.

### In Minter Home

Mr. and Mrs. Joe Carpenter and two daughters, Pamela and Pamela of Clovis, visited Sunday with relatives here. They were guests in the home of a cousin and family, Mr. and Mrs. Henry Minter and were Sunday dinner guests of their aunt and uncle, Mr. and Mrs. W. R. Minter.

### Many Attend Farewell Party

Approximately 100 friends gathered Friday evening in the annex of First Baptist Church for a farewell party honoring Mr. and Mrs. Roy Fuller and daughters.

Entertainment for the evening consisted of visiting and games of volleyball. A set of luggage, a gift from those present, was given the Fuller family. Rev. Jack Jeter, pastor, presented the gift and spoke in appreciation for the church and community efforts shown by the family during their residence in Bovina.

Mr. and Mrs. Fuller, Margie and Frances, plan to move to San Angelo in a couple of weeks. They have made Bovina their home for the past six years. Refreshments of homemade ice cream and cake were served.

### Attend Camp Meeting

Rev. and Mrs. A. F. Kersey and Mrs. Minnie McCutchan are in Amarillo this week to attend a camp meeting of Pentecostal Holiness Church.

Friday night visitors in the home of Mr. and Mrs. A. R. McCutchan were Mr. and Mrs. John Beckman and family, of Dover, Okla.; Mr. and Mrs. Charlie Rauh, Friona; Mr. and Mrs. Jack McCutchan and family, Bovina; Mr. and Mrs. Don McCutchan, Dumas; Barbara and Nickie Lynn Dudley, Amarillo; Mr. and Mrs. Wayne McCutchan and son, Bovina.

## County Agent Advises Cotton Insect Controls

County Agent Joe Jones says it's time to start doing something about cotton insects that are building up in most fields. "As late as our cotton is, we don't have time to lose the first crop and hope to make anything like a reasonable yield," Jones says.

The County Agent advises farmers to investigate and be sure their cotton is being damaged enough to warrant insect control before spraying. Insecticides required to give good control of aphids also kill all beneficial insects and pave the way for a cotton bollworm build-up.

The cotton bollworm, flea-hopper and cotton aphid have begun to show up in cotton fields, and although beneficial bugs often build up and control aphid infestations, harm can be done before this happens. Hard showers accompanied by winds will also control aphids but often these natural controls come too late.

According to Jones, reports from down the county show it is requiring around 1 1/2 pints of Parathion to do a good job. If using ground equipment, Malathion should be used instead of Parathion because it is less dangerous for operators.

To check cotton for bollworms examine terminal buds in several different locations in the field. Begin bollworm treatment when four or five small worms and eggs are found. To do a good control job apply recommended rates of insecticides at five-day intervals.

**FARM & RANCH LOANS**  
Long Term-Low Interest  
**Ethridge-Spring Agency, Friona**  
Phone 8811

In inspecting for fleahoppers, check the same way for bollworms and begin treatment when 15 to 35 fleahoppers are found per 100 terminals. In case of young, tender, late cotton poisoning should begin when the count reaches 15. The fleahopper does most of his damage when the squares are very small so when the season progresses and it is too

late for the young squares to mature before frost, forget the fleahopper. Squares about the size of a match head or smaller are often overlooked by farmers and these are the ones fleahoppers damage most.

The boll worm can ruin large bolls. Control measures must be carried out until the crop is matured to prevent boll worm damage.

SHOWING OFF THEIR PRIZE WINNING DRESSES are left to right front row, Diann Gibson, Linda Phillips and Susan Carmichael. Back row are Martha Coffey, Gwendolyn Christian and Phyllis Christian. These girls were high scorers in their division of the Farmer County Dress review held in Hub Tuesday of last week.

## Announce Soil Bank Program

The conservation reserve of the soil bank is a long-range program under which farmers voluntarily contract to take general cropland out of production and devote it to conservation uses for periods of time up to 10 years.

A farm operator who wishes to offer cropland to be placed under a conservation reserve contract starting in 1960 must take the following steps:

1. Apply to the ASC Office, during the period from August 24 through September 10, to set a "basic annual payment per acre" for the land which he desires to place under contract.

2. After the basic annual payment is established, the farm operator will have from September 14 through September 25, to advise the County ASC as to the payment rate per acre that he will accept for the land offered. Unless the rate per acre acceptable to the farm operator is less than the established basic annual per

acre rate, the land offered cannot be considered for contract by the county ASC committee.

3. If the offer made by the farm operator is accepted, the committee will prepare a contract for the farm operator's signature and notify him accordingly.

Contracts will be awarded to applicants under a definite plan of priority. The lowest offer per acre, in comparison with the basic annual payment rate per acre set by the ASC committee, will have the highest priority.

For example, if the basic rate for the land offered is set at \$12, the priority will be higher if the offer is at \$9 an acre than if it is \$10 or more an acre.

Land which has been used regularly for the production of cultivated crops or for tame hay is eligible, if owned by the offeror since December 31, 1956.

Farmers can help reduce surpluses by placing land in the conservation reserve program. This program "stores cropland instead of surplus crops," says Prentice Mills of the ASC.

Land in the conservation reserve is protected from wind and water erosion and other damage. Each acre must be planted to grass or other approved cover. The government shares the cost of establishing the approved cover on the reserved land.

Farmers who are interested in participating in this program are urged to visit the county ASC office between August 24 and September 10 for further details.

## Billingsley Wins County Dress Revue

Judy Billingsley, sixteen-year-old daughter of Mr. and Mrs. Leon Billingsley of Farwell, won the county 4-H Club dress revue at Hub's community center Saturday afternoon.

Miss Billingsley was chosen over 30 other candidates. It was her third win in a row at the county revue. In 1957, she was alternate state representative.

Winning Tuesday's revue means Miss Billingsley will go to Amarillo for regional competition August 7.

Judy will be a junior student in Farwell High School next year. She has been in 4-H Club six years.

Mrs. Turntine and Mrs. Draper of Hereford judged the revue. Mrs. Draper is home demonstration agent for Deaf Smith County.

Girls with a score of 99 were Diann Gibson, Linda Phillips, Susan Carmichael, Martha Coffey, Gwendolyn Christian, and Phyllis Christian.

A LAST MINUTE CHECK on the food supply is being made by this group of 4-H leaders and boys prior to their trip to Holy Ghost Canyon for a four-day encampment. Part of the equipment and food can be seen in the background.

## 35 Boys Attend Annual 4H Camp

About 35 boys from Farmer County and seven men gathered at the county courthouse Monday morning to load equipment before leaving on their trip to Holy Ghost Canyon, where the annual 4-H camp is held.

The boys were all 4-H members and each was looking forward to a week filled with fun

and work at the camp. Recreation activities at the camp are numerous. Swimming, horseback riding, fishing, hiking and camping out are included.

Each boy furnished his own bed roll and food, and had to help with part of the cooking and cleaning up.

The four day trip began about 8:30 Monday morning and boys will return home today (Thursday).

Sponsors for the group were Dee Chitwood, Walt Mabry, James Mabry, Alvin Mace, Frank Doshier Jr., Alton Pruitt and Joe Jones, county agricultural agent.

Friona had the largest number of boys going to camp with a total of 16. Farwell had 15, Lazbuddie, 8, and Bovina, 3.

Sales of farmland financed by land contract, a device which bypasses credit institutions as a party to the sale, have about doubled since 1946, says A. B. Wooten, extension economist.

Fertilizer applied in one year can result in additional profits at the end of the following crop year. Increased yields from carryover fertilizer can often pay for the original cost of the fertilizer, says W. F. Bennett, extension soil chemist.

Homemakers may obtain from the local home demonstration agent a copy of a new Texas Agricultural Extension Service publication, MP-342, "Manage Your Time and Energy."

## THE HAPPY HOMEMAKER

BY JUNE FLOYD

At this time of year many people get out the ice cream freezers and invite friends and neighbors to help them eat freshly frozen homemade ice cream. If you'd like to do this, try the following two recipes.

**HOMEMADE ICE CREAM**  
(1 1/2 gallons)  
2 cups sugar  
2 2/3 tablespoons cornstarch  
1 1/3 tablespoons flour  
pinch of salt  
1 1/2 cartons homogenized milk (1/2 gallon size)  
9 eggs  
1 can Eagle Brand milk  
1 tablespoon vanilla  
Mix dry ingredients. Add 1 carton milk. Stir while cooking. When it gets hot, add the egg yolks (beaten slightly.) Cook until mixture begins to thicken. Remove from the stove. Beat egg whites and fold into liquid mixture. Add the Eagle Brand milk and vanilla. Cool.

Pour mixture into 1 1/2 gallon size freezer and finish filling with milk.

.....  
This cake recipe was supposedly purchased from the

Careless hauling and handling of livestock can cost livestock producers a lot of money, says U. D. Thompson, extension animal husbandman. A recent USDA study shows the loss amounts to about \$100 million annually for the nation.

# A. L. Reznik Believes In Saving "Tail Water"

**WATER SAVER**--This is the system A. J. Reznick, whose farm is north of Friona, has installed to save "tail water" on a half section of his farm. Water is caught in the pit and pumped across the road into an underground tile system.

enough to cause enforcement of "no-tail-water" regulations. "This water supply may not be here someday if we don't take care of it," he says.

Not only does Reznik conserve water by catching it in the pit and then putting it on the 14 acre plot, but topsoil in the water makes crops getting the "second-hand water" produce more. "This block, (the 14 acres) cuts more grain than the one next to it since it started getting the "tail water," Reznik says.

Reznik believes each farmer has to be his own experiment station to a certain extent. This is one experiment that has proven it is beneficial to him and the area.

Reznik isn't sure conserving "tail water" saves or makes him any money but he believes in conservation and this practice conserves both water and topsoil.

He has a gravity system that waters another small plot with "waste water." But this came without much effort and he is reluctant to take credit for it.

Regulations of the High Plains Underwater Conservation District forbid habitual and willful waste of irrigation water, both for health and conservation reasons. Reznik believes in them and is for their enforcement.

The sight of irrigation water running down a ditch to a depression, low place or lake appalls A. L. Reznik, who farms northwest of Friona, and he is taking steps to see that it doesn't happen on his place.

"Water is precious and should be cared for accordingly," says Reznik. He has dug a pit and outfitted a small pump to catch the "tail water" from nearly half a section. With this water, that would otherwise be wasted, Reznik irrigates a 14 acre block.

To Reznik this is just a start on an experiment. "I plan to install an automatic switch on the pump so it will start when water in the pit reaches a certain level." The pump is powered by a 14 horse-power gasoline engine that has to be started and stopped by hand. The pit is five feet deep.

"There are still some bugs in my setup but I will keep trying to get them out as I learn more," Reznik says.

The Reznik farm is not free of wasted water. "We still waste some water on the north half, but it would be too expensive to remedy that without the water board forcing me to," he confesses.

Reznik believes the water board may soon force all farmers in the High Plains Underwater Conservation District to eliminate "tail water." He believes wasted water that runs off fields and becomes stagnant in a pool or lake creates such a health hazard that action will have to be taken to control it soon.

In addition to health hazards, Reznik also thinks the amount of water wasted is significant.

ing cold cuts, are closely inspected by the United States Department of Agriculture for wholesomeness and proper labeling. Cold cuts should be properly refrigerated like other meats, and should not be held too long before they are used.

Question often asked is "can chicken go from freezer to frying pan or broiling rack without thawing--and cook successfully?"

Extension foods and nutrition specialists say it's best to thaw first if you are going to fry or broil the chicken. Otherwise, it's difficult to get a brown crust on the pieces. For stewing, the cut-up pieces can go into the water while still hard-frozen. This information is based on research done at the New York State Experiment Station.

For roasting, it's best to thaw completely before cooking. Otherwise, the outside may be overdone and dry by the time the inside meat is done.

All this adds up to the fact that it pays to get the chicken out of the freezer and into the refrigerator a day ahead to be sure it's completely thawed before cooking.

This reminder--allow poultry to thaw in the original package. The skin of an uncovered bird becomes tough and dry when exposed to the air during the thawing process.

Homemakers are sometimes puzzled over causes for improper jelling, sugar crystallization, "weeping" and cloudiness in homemade jellies.

Extension foods and nutrition specialists of Texas A&M Col-

lege list some of the following causes for such problems.

Sugar crystallization may be caused by an excess of sugar, insufficient acid, overcooking or delay in sealing.

"Weeping" results when the juice used is too high in acid content.

Cloudiness may be caused by imperfect straining, or by starch in underripe fruit--often found in apple and crabapple jelly.

Failure to form jelly is due to an improper balance of pectin, sugar and acid. According to the specialists this improper balance may be caused by overcooking or undercooking the jelly, by undercooking the fruit in extracting the juice, using too much water in extracting the juice or using fruit which is too ripe.

Mold or fermentation of jelly may be caused by storage in warm or damp places, failure to sterilize glasses, imperfect sealing with paraffin, or not enough sugar.

Make sure of good results in jelly making by following recommended methods. Get a copy of extension bulletin, MP-279, from your local home demonstration agent. It gives directions and recipes for a variety of jellies, jams, preserves, marmalades and fruit butters.

Are you enjoying life? If not, then perhaps a check-up is in order, says Lucille Moore, Extension recreation specialist.

First off, what about your health? . . . If you don't feel tip-top, check your living habits. What about food, the

source of your energy? . . . Are you eating three well-balanced meals each day? . . . How about sleep? . . . Are you getting eight hours of rest at night? . . . Have you had a medical check-up this year? What about recreation? . . . You need time for something without any "musts" in it.

According to the specialist, every man, woman and child needs some family recreation, some neighborhood recreation, and some individual recreation. For happier living, develop more interests outside your job.

Summer may call for a "fresh-up" paint job for kitchen or bathroom walls or woodwork. The right paint will make your job a great deal easier and more satisfactory, remind Charlotte Tompkins, extension home furnishings specialist.

Paints today flow on smoothly and dry quickly. They are designed for specific purposes,

for ease of maintenance and years of lasting attractiveness.

Some paints are even resistant to heat. For areas where moisture is present much of the time, such as bath and kitchen, an alkylid semi-gloss or alkylid gloss enamel is recommended. Both of these are designed to resist moisture and abrasion so they can be scrubbed.

Color is no problem since the new paints come in many tints and shades. For areas where white is desired, there are non-yellowing white alkylid flat, semi-gloss and gloss enamels available.

There is one thing about paint that hasn't changed. That's the fact that it must be applied to a clean, smooth surface for best results. If you plan to paint over old paint, examine it closely. If it is not chipped, you can wash it down with a solvent before applying your new coat.

Cold meats are good standbys for summer meals and snacks . . . Economical, easy to prepare and nutritious, they make tasty main dishes, hearty sandwiches and add body to summer salads, according to extension foods and nutrition specialists. With more than a hundred different varieties available, you'll find a good selection at your favorite food store.

Meat and other protein foods are needed in summer just as well as in other seasons. Cold cuts compare favorably in nutritive value with fresh meats, according to the specialists. They supply the same high quality protein, B vitamins and minerals. Ready-to-eat, these meats save fuss and bother of preparation and fuel. Every ounce is edible and a pound will serve from four to six people.

All processed meats, includ-

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Wednesday, August 5th was the date for Congressional consideration of a so called labor reform bill in Washington. We think there have been a number of letters from individuals in the county urging opposition to passage of this bill in the hopes that one worth something may be substituted. We know that American Farm Bureau Legislative people are working to the end of getting a bill passed that will incorporate the following points considered necessary for any improvement in the situation:

1. Labor Bill of Rights.
2. Prohibiting of organization and recognition picketing.
3. Strengthening law relating to secondary boycotts, and
4. Giving more authority to states to deal with unfair labor practices.

Without these provisions, Farm Bureau says any labor reform legislation is reform in name only, and of no effect. So far as could be ascertained, Congressman Walter Rogers was already lined up on the farmers side of this question. Some other Texas Congressmen were apparently for the bill as it came out of the House Labor Committee.

The Texas Legislature finally came up with passage of a tax bill that will provide funds for the next two years of operation if inflation doesn't continue at a pace greater than expected and hoped for. So far as we can see, most of the items being taxed for the increase funds will suit most of the citizens who will contribute directly to them. We are not sure about the one on air conditioners and hotel occupancy, and we think the liquor lobby was able to get away with murder in the small increase placed on these industries which

contribute nothing to the economy or welfare of any place.

Also on the state level, Farm Bureau is attempting to get SB 16, by Rogers and Moffett, passed. This bill would exempt farm trailers and semitrailers from registration up to a gross weight of 10,000 pounds when used by a farmer hauling his own products to market, storage, process or distribution. It also provides that such trailers owned by cotton gins and grain elevators used by farmers without pay to such gin or elevators should also be exempt up to the gross weight of 10,000 pounds. Representative Bates and Farm Bureau contacted the governor last Thursday urging his favorable consideration of this bill.

CONSIDER THIS: Open rebuke is better than secret love. Proverbs 27:5.

At a number of cotton gins in Texas last year, growers increased their income from cotton by cooperating with the ginmer in a seed cotton grouping program. Fred C. Elliott, extension cotton specialist, says a moisture meter was used to determine moisture content of the seed cotton in the trailers. The trailers were then grouped on the gin lot according to moisture and trash content or method of harvesting. This enabled the ginmer to adjust drying equipment and machinery for the groupings. The result a better ginning job.

Egg producers and handlers may expand their outlets and volume of sales if they meet the demands of many buyers for wholesalers, local chain and independent stores and national supermarket chain stores, says F. Z. Beanblossom, extension poultry marketing specialist. Generally, he says, these buyers are asking for the things that will satisfy their customers and give the greatest possible chance for repeat sales.

## Fertilizer Tests Show Value Of Soil Testing

In eight fertilizer demonstrations conducted on cotton in Hockley County in 1958, soil tests closely predicted the most profitable rate to use in all but one case, said W. F. Bennett, extension soil chemist. Prior to establishing the demonstrations, Bill Taylor, Hockley county agricultural agent, sampled the demonstration sites. The samples were then tested by the A & M College Soil Testing Laboratory and fertilizer recommendations were made. These recommendations were then compared to the actual results of the

demonstration, said Bennett. On one farm the soil test showed that a 50-60-0 fertilizer was needed. The highest profit rate on this farm proved to be 45-60-0. On another farm the recommendations called for a 50-60-0 fertilizer. The highest profit rate here proved to be a 50-60-0. Results on two farms showed

that a rate higher than recommended by the soil test was the most profitable, but the soil test rate was the second highest profit rate.

Only on one farm did the soil tests not closely predict need. In this demonstration, there was no profitable response to any fertilizer application.

Bennett points out that there are many factors that affect crop yields which a laboratory cannot analyze. But a farmer can put a soil test recommendation together with these factors.

## 4-H Girls Take Camping Trip

A group of girls from Parmer County, accompanied by several mothers and Miss Jimmie Lou Wainscott, home demonstration agent, left Farwell Wednesday for Ruidoso for their annual summer 4-H encampment.

After checking in at a lodge, the girls enjoyed shopping in Ruidoso and closed the evening with a skating party.

Thursday morning, the group went for a horseback ride in the mountains and after lunch, they enjoyed wading in a mountain brook. Later, several of the girls rode the ski ride on the mountains and for the evening meal, the group had a wiener roast and campfire in the mountains.

Friday morning, the girls checked out and traveled to Lincoln where they saw the Lincoln County General Store and courthouse. They also toured the Lincoln Fort, where the Lincoln County Indian War was fought.

After visiting in Lincoln, they drove to Roswell where they went for a swim in the Bottomless Lakes Park. A tour of the park area concluded activities for the trip, and the girls arrived home about 8:30 Friday night.

During the trip, each girl was responsible for helping with the cooking for two meals.

Those going were Vicki Moss, Dianne Lovelace, Charlotte Seaton, Edith Ann Walling, Pat Chitwood, Susie Blair, Mary and Martha Coffey, Marilyn Wallace, Jenny Lynn Steinbock, Peggy Martin, Judy Billingsley, Teresa Quickel, Terry Sue Mabry, Susie Carmichael, Teresa Seaton, and Sherry Dean.

Sponsors for the group were Mesdames Jimmie Seaton, Dee Chitwood, Leon Billingsley, Dorothy Quickel, and James Mabry. Also Miss Jimmie Wainscott, home demonstration agent, and her sister, Miss Melva Wainscott.

One may smile and smile and be a villain still.--Shakespeare.

...paired for pleasant living!

Like apple pie and ice cream an electric dishwasher and electric water heater go together. Your dishwasher does the dishes "on the double" — you're out of the kitchen in half the time. And you break fewer dishes, keep your hands lovelier, and keep those dirty dishes out of sight — in the dishwasher — between loads. Plenty of hot water is what your dishwasher wants — and gets — from an electric water heater. You can put that electric water heater right where you want it — where you use the most hot water — because it has no vents — no fues. Yes, the electric dishwasher and water heater go together. Try one now — add the other later. You'll like them both.

**ATTENTION, HUSBANDS**  
Wouldn't you spend 1 1/2c a day to give your wife lovely hands? Of course you would — especially if you could get the dishes done for that price, too. You can! And electric water heating is inexpensive, too, with a big bargain rate.

### Kerry Lane Honored Tuesday

Kerry Lane, five-year-old son of Mr. and Mrs. Bill Lane, was honored with a birthday party Tuesday afternoon, July 28. The party was in the Lane home, with entertainment featuring informal games.

Refreshments of spudnuts and ice cream were served by Mrs. Lane. Mothers present and assisting her were Mrs. Earl Dean Boyd, Mrs. Howard Looney, Mrs. James Reader, Mrs. Glen Ritchie and Mrs. Henry Spicer.

Guests were Sharon, Marvin and David Readhimer, Steven and Joyce Sisco, Myrna Faye, Myra Sue and James Ritchie, Dala Boyd, Lea and Rush Looney, Tommy and Janice McCormick, Joe Don Stevens, Brenda Newbrough, Sheryl and Steven Lane and Nina Dell and Kay Spicer.

### Congratulations

Mr. and Mrs. Myrtle Jackson became parents of a daughter recently. The little girl, named Tamyra Lynn, was born in a Wichita Falls Hospital July 7. She weighed 7 pounds, 5 1/2 ounces. Mother and baby recently returned to Bovina from their stay in Wichita Falls.

Maternal grandparents are Mr. and Mrs. J. O. Linton of Ryan, Okla., and paternal grandparents are Mr. and Mrs. Berry Jackson of Henrietta. The Jackson family moved to Bovina in January.

A boy, Jay Be, was born Wednesday morning to Mr. and Mrs. J. B. Barrett of Bovina. The baby was born in Parmer County Community Hospital in Friona and weighed 7 pounds, 2 ounces.

Maternal grandparents are Mr. and Mrs. Harrison George of Flomont; paternal grandparents are Mr. and Mrs. E. O. Barrett of Lockney.

Mother and baby were released from the hospital Sunday.

### Mrs. Dolph Moten Feted With Bridal Shower

Mrs. Dolph Moten was honored with a bridal shower Thursday afternoon in Bovina Methodist Church parlor. Mrs. Moten is the former Sue Hofer, daughter of Mr. and Mrs. Aubra Ellison, Plainview.

The courtesy was a "come and go" affair, with friends

attending throughout the afternoon. Guests were received by Mrs. Glendon Sudderth, who presided at the guest book. They were then escorted through a receiving line.

Attending the honoree were her aunt, Miss Bennie Purnell of Happy, and her mother.

Minted lemonade, cookies and assorted nuts were served by Mrs. C. R. Brandon. The table was laid with a cloth of soft aqua and featured a centerpiece of gladiolus. The floral arrangement was in a Danish copper vase, a gift to the honoree by the hostesses.

Hostesses were Mrs. H. J. Charles, Mrs. Sudderth, Mrs. E. M. Ware, Mrs. Earl Stevenson, Mrs. Brandon, Mrs. Paul Jones, Mrs. Emmett Tabor, Mrs. Carl Rea, Mrs. Art Mast, Mrs. A. M. Wilson and Mrs. Lester Rhinehart.

### YWA Girls Have Party Wednesday

Members of Young Women's Auxiliary of First Baptist Church gathered Wednesday evening of last week for a party. The party was given in the back yard of Mr. and Mrs. H. N. Turner, and featured a picnic supper and outdoor games.

Members present were Sue Estes, Marylyn Turner, Loy O'Brien, and Nancy Cumpston. Guests were Mr. and Mrs. Turner and children, Rev. and Mrs. Jack Jeter and children, Mr. and Mrs. Don Murphy and Mrs. Leslie McCain, Mrs. McCain and Mrs. Murphy are YWA sponsors.

During the evening, a devotional was led by Loy O'Brien and a sing-song was conducted.

### Party Honors Margie Fuller

Friends gathered Wednesday afternoon of last week to honor Margie Fuller with a farewell party. The party was in the home of Carolyn Damron, daughter of Mr. and Mrs. Floyd Damron.

Games were played and Mrs. Damron served refreshments of cherry cake and punch and individual gifts were presented to Margie.

Guests were Irene Thornton, Patsy Cumpston, Connie Vaughn, Margie and Shirley Carter and Linda Johnston.

Mothers present were Mrs. Duane Carter, Mrs. W. E. Thornton, Mrs. Doyle Vaughn and Mrs. Damron.

Margie and her family, the Roy Fullers, will be moving from Bovina in a few weeks.

### Club To Meet

Members of Bovina Good Neighbor Home Demonstration Club will meet Friday, August 7, in the home of Mrs. Howard Looney. An afternoon meeting, at which members will piece a quilt for the hostess is planned. Members are urged to attend.

### PERSONALS

Visiting over the weekend with Mr. and Mrs. Leslie McCain were her sister and family, Mr. and Mrs. James Shiek and children of Pettit. The guests arrived Friday morning.

Mr. and Mrs. Buster McCutchan of Dumas are spending this week in Bovina. They are visiting with relatives here, among whom are Mr. and Mrs. Jack McCutchan and sons and Mr. and Mrs. A. R. McCutchan.

### With Parents

Mrs. W. L. Blackstone is at the bedside of her father in Gladewater. Leaving here Thursday, Mrs. Blackstone went to Gladewater to be with her parents, Mr. and Mrs. H. W. Weathers. He has been hospitalized for about two weeks.

The local woman's husband reports that "very little" improvement has been shown by Weathers. There are no definite plans for the date of Mrs. Blackstone's return to Bovina.

### Zoning

proposed building meets with standards of the zone where the builder plans to erect it, the permit will be granted. This method guards the builder against starting to build a structure and then finding his building will not comply with zoning regulations.

The map showing various zones and an accompanying pamphlet explaining the restrictions of each zone is available in city hall and citizens are urged to check it before planning their building.

Structures that do not comply with conditions of their zone will not be eliminated, but they cannot be expanded. Therefore, the zoning map should also be consulted before building additions are made.

### Whittlin'

torium tomorrow (Thursday) night.

We're afraid to comment further in "Whittlin'" about it, but there's a news story elsewhere in this issue about it.

### Fats Win

tian and Clements singled, Sudderth and Willard walked. Clements was out at the plate when Gilreath grounded to first baseman Charles Don Smith. Wiseman walked to force in a run and Jimmie Charles struck out, but an error by Shelby allowed the third run to score. Fats tied the game with four runs in the third. Charles Don Smith doubled down the right field line to open the inning. Wills walked and Moten hit a two-run single. Stewart grounded to shortstop, but Read and Shelby reached base on errors before Morton and Kimbrough fanned.

The night's fielding gem was turned in by Shelby in the fourth. Mark Charles opened the inning with a drive down the left field line that Kimbrough missed for a two-base error. With Charles on third, Christian sent a fly to medium deep center field that Shelby caught.

He fired a strike to Catcher Moten and nailed Charles trying to score.

Another fine play was made for the third out when Kimbrough made a running catch of Clements' hard liner to left.

Fats were given an opportunity for a run in the fourth when Mast reached base on an error to open the inning. Smith sacrificed him to second and he was safe at third when Clements dropped the catcher's throw. Wills filed to right field and Moten sent a line shot to the centerfielder to end the inning.

Leans were again unable to break the 4-4 tie in the fifth as Sudderth popped to third and Willard and J. D. Kirkpatrick fanned.

Fats took a 7-4 lead with three runs on two hits and two errors in their half of the fifth. Stewart grounded to pitcher for the first out but Read and Shelby singled. Jim Russell was hit by a pitch to load the bases and after Kimbrough fanned, consecutive errors by the first and second basemen let in two runs. Wills walked to force in the third run but Sudderth struck out Moten to end the inning.

Leans got four hits and a walk in the sixth but managed only two runs to make the score 7-6. T. C. Wiseman and Leon Grissom hit consecutive singles. Smith popped to first, but Mark Charles hit another drive for a double and Christian singled. Clements fanned and Sudderth walked. Willard forced Sudderth at second for the third out.

Fats got two hits and a run in the sixth. Stewart led off with a triple. Read fanned but Shelby sent Stewart home with the eighth Fats run as he singled to right.

Leans went down in order on two strike outs and a grounder through the box that the shortstop fielded for the final out.

Fats had lost two earlier decisions by 3-1 and 9-5 scores.

The box score:

Leans:

Name	pos	ab	r	h
N. Smith	1b	4	1	1
