"In The Agricultural Center Of Parmer County"

THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, AUGUST 23, 1961

BOVINA, TEXAS

VOL. VII, NO. 9

## WHITTLIN' BY DOLPH MOTEN

Surely it can't be this good. Area agriculture people continue to be most optimistic we've ever known them to be. Promises of bumper crops exist for all that are to be harvested in next few months... and an excellent wheat crop has already come to town.

From a farming community standpoint, the world's greatest combination is good yield and good prices. And both should be improved here over past few years.

Couple all those nice things with a nice pay raise for school teachers... and how could the situation be better?

Bovina Businesses Cotton Bowl Football Contest begins in next week's issue of the Blade. So it's time right now for you football fans--and who isn't one in this area to begin your crystal ball gazing and deciding on which teams are going to win in the season's opening games, which will be played September 1.

Grand prize, which will go to entrant who picks most winners over a 13-week season, will be an expense-paid trip for two to Cotton Bowl game in Dallas January 1, 1962.

Last year's winner was Neil Smith. He's expected to be back in this year's contest to defend his title.

In addition to the grand prize, there'll be three cash prizes for weekly winners. These make a wonderful opportunity for intelligent fans to make coffee money and at same time prove their thorough knowledge of the game of football.

Entrants will pick score of one game and just the winner of all others. The score will be used to break ties, as it was in last year's contest.

We'll be expecting your entry about nine days from now.

Unofficial slogan of Bovina Roping and Rodeo Association, according to C. E. Trimble, who is vice president of the group, is "We don't only lead 'em and feed 'em, we ride 'em and slide 'em."

Seriously, we think the association is taking an ambitious and progressive step in promoting a Quarterhorse show here October 7.

Not only will the show be beneficial to the organization, but will be of untold value to the community from a public relations and chamber of commerce standpoint.

It will, no doubt, attract visitors and exhibitors here from over a wide area. With 16 or 18 halter classes to be judged, plus three performance classes, there'll be lots of room for a lot of horses to prove their quality in an American Quarterhorse Association-recognized show.

This department is especially proud to salute the new organization for the big chore its preparing to handle. Certainly it will be another feather in Bovina's hat.

Prospects for producing sugar beets in this area are still alive and kicking, we understand. Warren Embree at the bank tells us that members of local sugar beet growers association are being asked to write senators and representatives in Washington. Purpose: To encourage them to support Paoge Bill which, if passed, would give U. S. farmers 75 per cent of the sugar quota which is now Cuba's.

With our limited knowledge of the situation, we'd guess that would, in turn, give this area sufficient sugar beet acreage to put us in the business.

Packers of sugar beet legislation for U. S. farmers feel that sugar beet production, and the things that go with it, is ideal to give this area another good shot in the arm. Could be.

Hospitalized in Friona at Parmer County Community Hospital is Mrs. T. J. Hopfgardner. She underwent surgery and is reported to be in good condition.

Mrs. Hylton Moore is hospitalized at Parmer County Community Hospital. She is improving and can have visitors.

# '61-'62 School Year Starts Monday

## Schedule Budget Hearing

A hearing on 1961-'62 budget for Bovina Independent School District will be conducted Saturday at 8:30 a.m., Superintendent Warren Morton announces.

Board of trustees will also view and discuss the budget at that time. The meeting will be in superintendent's office.

Patrons of the school district who are interested are invited to attend the session and take part in discussion.

The budget will be approximately \$16,000 higher than that of a year ago, Morton says. The district operated slightly in red last year and that is

(Continued on page 6.)

## Southwestern Installs Seven Street Lights

Seven new street lights have recently been installed in Bovina.

They are of same type which were being used elsewhere here --4,000 lumen.

Five of the seven lights were put up on Eighth Street, Otis Huggins, Southwestern Public Service manager, says. Two others were installed elsewhere.

Expense of the lights and installation is paid by SWPS. City pays the electricity bill for their operation. This is same set-up which is in effect for all other lights in the city.

## MONDAY & TUESDAY

# Trustees Talk Teachers' Pay

Board of trustees of Bovina Schools met in lengthy sessions Monday and Tuesday afternoons.

Purpose of the meetings was to discuss teachers' salaries. Reason for this business to come at this time is recent \$810 yearly raise which has been granted all teachers by state.

Bovina teachers have been receiving \$200 over state schedule, and this figure will probably be changed since the automatic state raise, Superintendent Warren Morton points out.

"This salary question is one which all schools are having to work out," the superintendent says. "We don't have this problem alone."

Local school district will pay roughly 20 per cent of the \$810 increase. This is \$162 extra that the district will pay in addition to whatever figure is agreed on to pay above state schedule.

Salaries for school personnel other than teachers were also discussed.

## KRESS HERE MONDAY

# Mustangs Scrimmage At Friona Tomorrow

CHEERLEADERS--Leading Bovina's cheering section during football season this year will be, left to right, Judy Strawn, Marilyn Brandon, Linda Estes, Elaine Fuller and Vickie Strawn.

HOUSING DEVELOPMENT GROUND BREAKING--City of Bovina Mayor Emmett Tabor, center, and Chamber of Commerce Manager-Secretary Jack McCracken, second from left, use a golden shovel to scoop first dirt from first house foundation in Ridgelea, Bovina's new housing development. Construction on initial house began Monday. Looking on at the ground breaking are Warren Embree, president of First National Bank, left; Bill Christian, developer of the area, behind Tabor; Mrs. Archie Castleberry, vice president and director of First National Bank; Robert Hopkins of Roswell; and Archie Castleberry, of Amarillo right, a director of First National.

## CONCERNING POLICY

# Chamber Writes Letter To Editor

Bovina Chamber of Commerce and Agriculture directors voted to present a letter to editor of this newspaper at a meeting Friday noon in Bovina Restaurant.

The letter, which was read to the group by Chamber Manager Jack McCracken, concerned "statement of policy" and is published elsewhere in this issue of The Blade.

Directors also voted to send a crate of Bovina cantaloupes to national government officials including President John Kennedy, Vice President Lyndon Johnson, Senators Ralph Yarborough and John Tower, and Representatives Walter Rogers, Bob Poage, Henry Ellender, and George Mahon.

Charlie Flynn, of Gateway Produce Co. here, who was present at the meeting, said he would see that a crate of Bovina cantaloupes was delivered to each of the men named.

Wendell Garner was elected president of Bovina Roping and Rodeo Association at a meeting

of members last week.

C. E. Trimble was named vice president and Al Kerby was elected secretary-treasurer.

This was first official meeting of the organization although it has been in operation, accepting members, and constructing a rodeo arena for past several weeks.

An area-wide Quarterhorse show will be sponsored by the club here October 7.

Named to show committee were Cecil Sisk, Tiny Walling, Rouel Barron, and Burl Spears.

"We took a pretty good country licking."

That was way Coach Hallie Gee summed up Monday night's scrimmage session here between his Bovina Mustangs and the Class A Kress Kangaroos.

This was first outside experience for Ponies. "Our defense was especially disappointing," the coach said. "Our offense worked about as well as we had expected it to, but we're going to have to do something about that defensive line."

The team is in its second week of twice-a-day practice sessions. Work up to now has been primarily on offense.

Thursday (tomorrow) night, the squad goes to Friona for another scrimmage session. It will begin about 7 p.m., Gee says.

A goodly number of fans braved rain and a cool breeze

A crate of cantaloupes will also be sent to Westzard, editor of Amarillo Daily News; Charlie Guy, editor of Lubbock Avalanche-Journal; and Cotton John Smith of KGNC-TV in Amarillo.

(Continued on page 6.)

## FOR OCTOBER 7

# Club Slates Horse Show

Wendell Garner was elected president of Bovina Roping and Rodeo Association at a meeting

of members last week.

C. E. Trimble was named vice president and Al Kerby was elected secretary-treasurer.

This was first official meeting of the organization although it has been in operation, accepting members, and constructing a rodeo arena for past several weeks.

An area-wide Quarterhorse show will be sponsored by the club here October 7.

Named to show committee were Cecil Sisk, Tiny Walling, Rouel Barron, and Burl Spears.

"We took a pretty good country licking."

That was way Coach Hallie Gee summed up Monday night's scrimmage session here between his Bovina Mustangs and the Class A Kress Kangaroos.

This was first outside experience for Ponies. "Our defense was especially disappointing," the coach said. "Our offense worked about as well as we had expected it to, but we're going to have to do something about that defensive line."

The team is in its second week of twice-a-day practice sessions. Work up to now has been primarily on offense.

Thursday (tomorrow) night, the squad goes to Friona for another scrimmage session. It will begin about 7 p.m., Gee says.

A goodly number of fans braved rain and a cool breeze

## About 500 Students Expected To Enroll

Monday, August 28, is opening day of 1961-'62 school year in Bovina. Enrollment is expected to be in neighborhood of 500. Students will register during the morning and attend classes during afternoon. Busses will run their regular routes at regular times and noon meal will be served in cafeteria. Superintendent Warren Morton announces.

Classes begin at 8:30 and are dismissed at 3:45.

Preceding beginning of school will be a faculty meeting tomorrow (Thursday) afternoon at 1.

Faculty still had two vacancies at press time, though Morton expects to have them filled shortly.

Mrs. Earl Hise was recently signed to teach a second grade section. However, Bobby Alawine, who had been hired to teach in seventh and eighth grades, has resigned.

Thus, two positions left open are the one vacated by Alawine and high school English.

A list of faculty members and their positions includes Mrs. W. E. Williams, first grade; Mrs. Lillian Fisher, first grade; Mrs. J. T. Hammonds and Mrs. Hise, second grade; Miss Belva Dee Lowrance and Mrs. Allen Ebersman, third grade; Mrs. Hodge Rigdon and Mrs. Sterling Donaldson, fourth grade; Mrs. W. E. Thornton and Wes Smith, fifth grade; Mrs. Dorothy Carter and Douglas Beaty, sixth

grade.

Robert Taylor will be elementary principal and Beaty will serve as junior high coach.

First six grades will be under grade school principal with 7 through 12 being headed by High School Principal James McLeroy.

Miss Grace Paul will be one teacher for seventh and eighth grade students with another teacher for this group to be named.

High school teachers include Earl Hise, music; Charles Thompson, science; Mrs. Charles Thompson, home-making; Roy Crawford, vocational agriculture; Richard Roberts, mathematics; Hallie Gee, history and coach; and Malcolm Kennedy, physical education and coach.

There will be only two sections of first grade to begin school, Morton points out. If another is needed, it will be added later.

## Crash Victims Are Improved

Three Parmer County men, injured in a head-on collision near Clay's Corner last Thursday morning are now recovering satisfactorily.

Sam White of Oklahoma Lane, who was in critical condition shortly after the accident, is reported "much improved" at a Muleshoe hospital.

White received a broken arm and leg, broken ribs, facial lacerations and internal injuries in the accident which happened on state highway 214 near Clay's Corner.

He is now receiving visitors. Two other men, Donny Waller, 23, a Friona farmer; and Leo Ruzicka, 39, manager of West Hub Gin, are reported in good condition but are still confined to hospitals.

Waller is at Parmer County

Community Hospital in Friona where he has been receiving treatment for facial lacerations, a concussion and a broken nose.

Ruzicka was taken to St. Anthony's Hospital in Amarillo shortly after the accident and he is recovering after undergoing surgery for mangled feet and legs.

According to Fred Lenz, investigating patrolman of Dimmitt, the accident occurred at 10 a. m. last Thursday when White, who was traveling north on the highway, attempted to make a left hand turn and drove into the path of a car driven by Waller.

The impact spun White's car around and knocked Waller's

(Continued on page 6.)

## Hail!

Hail, which area farmers have been able to escape this year for the most part, struck west of Bovina late Monday.

Farms hardest hit were those of Howard Ellison and John Lorenz, about seven miles west of town, according to reports. Hard rain also fell in the area. Some two inches were reported in addition to the moisture.

Vegetable crops in the area were destroyed, according to reports. From an area standpoint, damage was probably slight, but it was serious for the farms which were in the storm's path.

## Quarterbacks Set Meeting For Friday

Another attempt to organize a 1961 version of Bovina Mustang Quarterback Club will be made Friday night, Norvell Strawn, last year's president, announces.

Two attempts to hold such a meeting were made last week, but both were called off because of lack of attendance, Strawn says. The meetings conflicted with softball games, the president says.

Next meeting will be Friday night at 8. It will be in high school study hall.

Primary purpose of the organization will be to provide funds for filming of season's games. Films are used as coaching aids and are viewed by club members.

Approximately 100 fans were members of the group last season. Dues are \$5 per individual. Season tickets are also scheduled to be sold by members.

The show will feature 18 halter classes and three performance classes. Performance classes include barrel racing, open cutting, and reining.

The show will be approved by American Quarter Horse Association. Serving as judge will be Doyle Saul of Plainview.

Members of the club held a workday Saturday to continue construction the arena. Work was hampered by rain, however.

(Continued on page 6.)

MOUNTED OFFICERS--Elected to head Bovina Rodeo and Roping Club at a meeting last week were these three men. Wendell Garner, left, is president; Al Kerby, center, secretary-treasurer; and C. E. Trimble, vice president. The club will sponsor a Quarterhorse Show here October 7.

Letters To The Editor

The Editor The Bovina Blade Bovina, Texas

Dear Sir: When a sister Christian Church has the courage to take up Christ's Cross and truly follow his precepts, it is the duty of every one of Christ's disciples to aid and not to hinder. Although I am a neighboring minister, I cannot forget that Simon the Cyrenian (who helped carry Christ's Cross) was not a resident of Jerusalem. Some of the people from that city might have said to him at the time, "Stay out, this is a local affair." As we have seen, the man whom they put to death on the cross had far reaching consequences for all of us. I noted with interest a letter to your paper that raised a problem of no little consequence to us. I refer to the closing of the

bracero camp. Alongside of the letter was an unrelated series of pictures of "Bovina's future citizens." It probably was only an editorial accident that brought those young innocent faces into so close an association with this social problem. But, I would like to thank the editor for giving those children such an early introduction to what Christianity is all about. The questions that are raised by this issue for those who profess to be Christians seem to go beyond those of economic hurt or even physical hurt. The main consideration here should be, what harm is it doing to our souls and the souls of our children and the souls of those whom we are exploiting? God bless you for your high regard for freedom of the press. And God bless St. Ann's for its regard for the dignity of the individual.

Sincerely, Hudson B. Phillips Jr. Minister Union Congregational Church Friona, Texas

Dear Editor:

Board of directors of Bovina Chamber of Commerce and Agriculture feel from time to time that an explanation of, or statement of position on, various situations should be laid out, and explained to citizens of Bovina.

Along these lines, let us give, in part, Article 1 of by-laws of BCOCA:

"Section 2--Bovina Chamber of Commerce and Agriculture is organized for purpose of advancing the commercial, industrial, and civic interest of Bovina and its trade area.

"Section 3--The Chamber shall be non-partisan, non-sectarian, non-sectarian and shall take no part in, or lend its support to, the election or appointment of any candidate for public office."

Let us study Section 2: Advance the commercial, industrial, and civic interest of Bovina and its trade area. This we are bound by our by-laws to do. If our fine organization is to continue to grow, and aid the most progressive community in Parmer County to become more progressive, we must accept any action against Section 2 as action against our citizens, their commercial, industrial, and civic interests, and we must meet such action with immediate action to protect the future of this area.

This is our duty as your chamber officers and directors, just as the duties of city, county, and national government officials in their day-to-day obligations.

From time to time, a person or persons feel obligated to aid in the duties of these city, county, and national officials, but while possibly being sincere in the pursuit of objective, various hardships can come about as a result of ignorance of the situation, and outcome by the person or persons responsible. Irritation is usually corrected by removal of the cause, or by by-passing its source, but experience has shown it is easier and more efficient to remove rather than by-pass.

To sum up our point: if our community and/or our rural area and its commercial, industrial, and civic interests are ever threatened by one or more sources of action which we feel is detrimental to the continuation of the advancement and promotion of these aforementioned interests, we shall as board of directors representing Bovina Chamber of Commerce and Agriculture take action to eliminate or subdue such action.

Another point we would like to stress is Section 3 of Article 1: The Chamber shall be non-partisan, non-sectarian, non-sectarian, and shall take no part in, or lend its support to, the election or appointment of any candidate for public office.

We know each resident is proud to be a citizen of a community such as we have; a community which represents the essence of our national foundation and preservation. Sometimes being proud is not enough. Sometimes it takes effort to help make Bovina continue to be the type community we want it to be. As Christians we must support our churches, as educated people we must support our schools, and as citizens we must support our community and its goals and purposes.

Bowling Group Holds Bi-annual Meeting

The Friona Woman's Bowling Association held their bi-annual meeting, Thursday, August 17, at 7:30 p. m. at the local bowling alley with 21 members present.

All women in Friona, Bovina, Lazbuddie and surrounding areas are asked to sign up at Friona Lanes if they wish to bowl in the fall and winter leagues, and to specify the night they would like to bowl.

It is hoped that league bowling can start on the same night of the organizational meetings. Even if the team is organized and knows what night it would like to bowl, team members are asked to sign up so that it will be known how many teams will be bowling on a particular night. Other league nights might possibly be arranged if there are enough teams signed.

Other business discussed at the meeting included the 5¢ assessment per woman each night of league bowling. The president said that it would not be necessary to raise the bowling fee unless the league wanted to, and stated that it would be possible to take this 5¢ out of the amount contributed to the trophy fund each week if the league desired.

Dorothy Looney asked if it might be possible to split the teams so there would be an equal number of teams on Monday and Tuesday night instead of the set-up of last fall and winter league when there were 12 teams Monday and 6 on Tuesday. A discussion followed but nothing definite was decided at this time since it wasn't known how many teams would be bowling on any given night.

The group was asked if they would be in favor of a sponsor-team banquet next spring which would include both the Women's and Men's Associations. This affair, the president stated, would be held once a year and trophies for the preceding year would be presented. The idea was met with favor by those present and a finance committee was named to work on this project. To serve on the committee are secretaries of each league and Betty Louise Rector, chairman, Sandra Nichols and Betty Phipps. More members may be recruited for the committee if necessary.

Levina Brown was elected delegate to the State Convention held in Tyler next March.

It was emphasized by the president that all leagues should

be extremely cautious in setting up league rules so that there would not be any discrepancies after the league started. One of the most controversial subjects this past season was postponed games. Mrs. Ivy stated that one of the standing rules in the league rule book (this rule cannot be altered by any league) was that the team wishing to postpone a game must notify the opposing team 24 hours in advance. Exceptions can be made to this rule, but only in cases of extreme emergencies (the league to decide what constitutes an extreme emergency).

State association trophy which was to be presented to Jewel Tabor for high series of 541 for the past year had not arrived but she was presented a corsage by the president of the local association. A trophy is given by the state to each association in the state to be presented to the member having high series for preceding year.

Esther Ferguson, who was not present for the meeting, was also honored with a corsage for her high game of 229.

The following committees were named to serve for the coming year: tournament committee -- Myrtle Marot, chairman, Faye Keeth, Thelma Coffey, Shirley Steinbock, Betty Renner, Mary Jane Wilson; publicity committee -- Pat Read, Thelma Watkins and Levina Brown.

Printing of the bulletin each

week will be continued and will be financed by advertisers. A member from each league will be appointed to assist in gathering material and mimeographing.

Next scheduled meeting of the association will be held after the first of the year to name a date and rules for the annual city tournament.

There were 14 entries in the moonlight sweeper following the meeting. Placing in this event were: first place, Joy Hall with a 483 scratch series and 601 series with handicap; second place, Thelma Coffey, 481 scratch series and a 595 with handicap; third place, Dimple Hand, 435 scratch series and 557 with handicap.

Surprise Coffee For Mrs. Taylor

Mrs. Norman Taylor and infant son, Ricky, were feted with a pink and blue coffee last Friday morning in their home.

Members of Mary-Martha Sunday School Class of First Baptist Church hosted the surprise party.

Refreshments of spudnuts and coffee were served to Mrs. Travis, McPherson and Debbie, Keith Garner and Chuck Vickers, Dale Harmon, Jerry Rogers and daughters, Glenn Kelly, Weldon Moody, John Ferguson, Billy Don Read, Paul Holcomb and Shannon Taylor.

FLYERS HERE FOR DOUBLEHEADER

# Softball Tonight

The Cannon Flyers, crack softball team from Cannon Air Force Base at Clovis, will come to Bovina Wednesday night (tonight) for a doubleheader against a local all-star aggregation.

The Flyers bested Bovina in a twinbill Thursday night by scores of 3-1 and 9-1. Ray Carter handled Bovina's mound chores in both games.

In tonight's games, Glendon Sudderth will handle mound chores in second game with Carter pitching the opener. Lefthander Sudderth was out of town last week.

A good crowd was on hand for last week's games and is expected to be again tonight.

In other softball action last week, Bovina Gin downed Firemen in an exhibition doubleheader Friday night and Three-Way Chemical Co. defeated a colored team from Bovina Saturday night.

Tonight's games mark end of scheduled games for the summer.

## Mast, Davies Place First In Swim Meet

Placing first in the swim meet Saturday at Friona Pool were Christine Mast and Wendell Davies.

Miss Mast placed first in the 25-yard dash in the seven year old girls division and Davies first in both the 25 and 50 yard dash events for 15-16 year old boys.

Other entries were Carol Mast, who placed fourth in the 11-12 year old girls division and Wayne Davies who tied with Tim Rhodes of Friona for first place in the 25-yard dash for 11-12 year old boys.

## Local Boys Join Army

Leon Richards, son of Mr. and Mrs. Earl Richards, was inducted into the army Friday and is stationed at Ft. Ord, Calif.

Also entering the service recently were Bill Harwell, son of John Hartwell and Keith Huggins, son of Mrs. Wanda Berryman. Hartwell is stationed in California and Huggins is at Fort Hood at Killeen.

## Soil-Building Legumes Can Boost Productivity

Acres taken out of production under the new farm program can be profitably planted to soil-building legumes, says Farmer County Agent Joe Jones.

By planting legumes, such as sweet clover, alfalfa, or hairy vetch, farmers should be able to increase the productivity of their soil considerably, Jones says.

The county agent advises farmers who do plan to divert either wheat or grain sorghum acreage next year, to consider the possibility of working into their farming program some type of legume.

Past experience has proven that legumes are soil builders and they should enable the farmer to reap benefits in future years.

Ideal planting time for a legume would be late this month or early September, Jones says, and it could be plowed under early next year for the 1963 wheat crop, or left through the entire growing season if it is to be planted to grain sorghum or cotton.

A good legume would probably increase the productivity of the land to such an extent that the first crop harvested behind it would more than pay for the cost of the legume, Jones says.

### WITH THE COUNTY AGENT

JOE JONES

Soybeans should begin setting fruit anytime now. It usually takes a cool weather humid atmosphere like showers bring to get the best bean set. Unlike cotton, soybeans should have good moisture through September and into October. Let me suggest you take the water off cotton and concentrate on soybeans from now through September.

cotton is stopped between August 15 and 20.

This is not to say later irrigations have not paid some of the past years or will not in some years ahead, but it is to say this is the guide to go by for the most profit through the years.

While you still have time why not make plans to grow a soil building legume on some of your 1962 diverted acres. Clovers and alfalfa add nitrogen, organic matter, and do a good job chiseling the soil.

We have a real opportunity to do some soil improving work under present farm programs if we will only take time to figure out how legumes can be fit into the rotation.

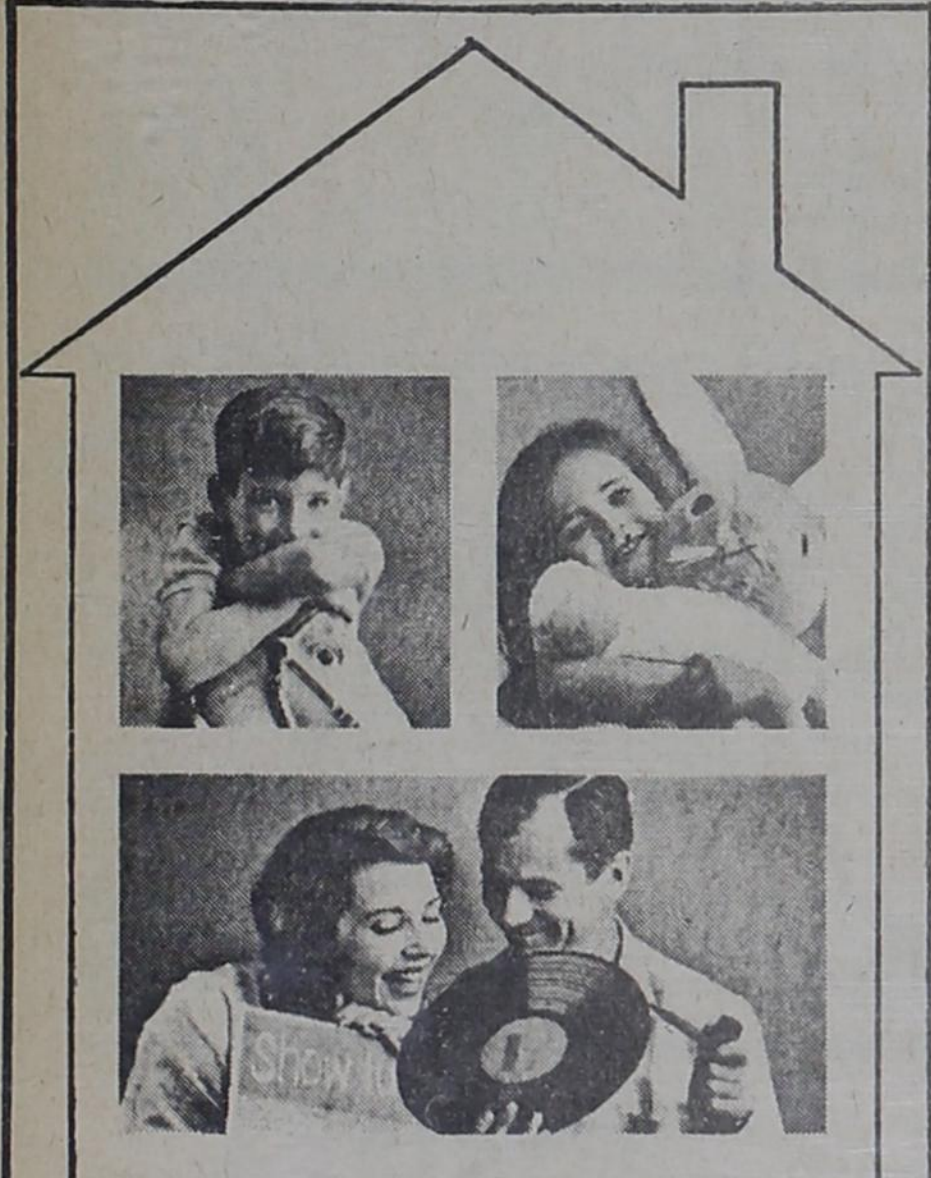

With the present prices of nitrogen at rock bottom some of you may be inclined to go overboard with nitrogen on your wheat crop. The soil test will give you a good guide to go by. You must remember we need balanced fertility. The application in excess on one element will not make up for the one lacking.

"Don't Guess, Soil Test" -- but do "Be Wise and Fertilize."

Cotton over the county certainly looks good, and we are all set for a bumper crop with a little cooperation from the weather. Keep in mind late irrigations will cost you money on the average. Research shows we are ahead when irrigations

are ahead when irrigations

# Estimate Parmer Cotton Yield At 65,000 Bales

COTTON FIELDS LIKE THIS ONE are the reason that estimated production in Parmer County this year is 65,000 bales. Never before has a cotton crop been in as good a shape as it currently is, and prospects for a good crop couldn't be better.

Parmer County cotton farmers, who have had two relatively good years the past two growing seasons, should find the spell broken this year.

This year's crop continues to remain in tip-top condition, and the estimated yield for the county has been set at 65,000 bales--some 50 percent above last year's yield.

This estimate was announced by the Plains Cotton Growers several weeks ago, and in view of the condition of this year's cotton crop to date, that may be a little conservative if the weather continues favorable.

Estimated yield for the county is from an acreage allotment of 47,587 acres. The number of acres is up about 11 per cent from last year when it was 42,540.

Plains Cotton Growers bases its estimate on word received from cotton ginners in the county and agricultural officials.

Last year's total yield in the county was about 40,000 bales, an average of less than a bale per acre. The year before that, in 1959, it was a little lower than that.

In 1958, which was considered one of the best years for county cotton growers, total yield was about 60,000 bales on 47,000 acres.

So, if Mother Nature continues to bless the cotton farmer with the right kind of weather, this year's harvest could well be the best one on record in the county.

Rains which have been falling on the crop for the past 10 days have been beneficial in that they brought needed moisture, but warm weather is the order of the day now as far as cotton is concerned.

Due to the ideal weather throughout much of the growing season, this year's crop has had very little insect infestation and blight. There was some early-

season thrip, but the fleahopper and bollworm have stayed away up 'til now.

If it should continue to remain cool and rainy, however, the insects could yet be a problem.

Even though the cotton farmer isn't "out of the woods yet" on this year crop, most of them admit that conditions would have to get quite bad to keep them from making a good crop.

At this stage of the growing season, the cotton could hardly be better and it is several weeks ahead of what it was a year ago. In fact, at no time during the past two years did cotton ever reach the stage that it's in now.

Blooms have been heavy in most fields throughout the county and the plants are loading up with bolls.

All in all, the cotton outlook is good, and farmers have a reason to be optimistic, and hopeful of a bumper crop.

## Spotted Rains General

Spotted rains continued to be prevalent early this week, adding varying amounts of moisture to almost every section of the county.

During the past 10 days, thunder showers have occurred on almost a daily basis, but at no time has the area received what could be termed "general rains."

Lariat. At Black, total moisture was about 2 inches, at Frona it was 1.01 inches, and at Farwell the total rains was about 3.5 inches.

These rain reports came from only certain individuals in these areas and they do not reflect a true picture, in view of the fact that all of the rains were spotted.

While Garner did report better than five inches at Oklahoma Lane, a few miles away, at the Harold Carpenter farm, only two inches were reported during the same period.

While the rains were spotted, though, every part of the county apparently received some moisture, which was badly-needed.

Amounts of moisture have varied, and except for a few isolated areas, the individual thunder showers have produced an inch or less of rain on each occasion.

When all the showers were totaled up however, the amounts throughout the county ranged from 2 to 5 inches.

Receiving the largest amount of rain during the past week has been the Oklahoma Lane area, where 5.1 inches was reported by Delbert Garner. The heaviest rain came Monday afternoon and it caused some washing and there was some hail.

For those who are planning to plant alfalfa as a fall seeded grass, now is the time to start land preparation. A good system of graded borders is needed to control the water for irrigation. These can be made by laying off small borders and removing the side fall with a grader type implement.

The soil must be deep enough to permit the necessary cuts to remove the sidefall and still have sufficient depth for normal root growth. The intake rate of the soil should range from about one to two inches of water per hour. The available water holding capacity of the soil should be more than one inch of water per acre foot of soil depth.

The cotton is in tip-top shape, and the moisture did help, but at the present time if the hot, sunny days would return, the crop would start doing better than they are now.

As one farmer said Monday, "I could use some more rain, but if it does rain, I hope it falls only on my feed."

Everything considered, the rains have been beneficial and crop conditions continue to remain in the best of shape.

## Test Soils Early Farmers Advised

Farmers in Parmer County will be planting wheat during September and October and most of the irrigated land will be fertilized.

County Agricultural Agent Joe Jones states that the fertilizer needs for wheat will vary considerably among soil types and that a chemical soil analysis affords the best known guide to profitable fertilizer use.

sample could be an excellent investment.

Jones suggests you come by his office for an information sheet that explains how samples should be collected and mailed. It is of great importance that you fill in the information requested on this sheet since all known factors are considered along with the chemical values in arriving at a fertilizer recommendation.

The Soil Testing Laboratory operated in Lubbock by the Extension Service is now located in new quarters at the Agricultural Experiment Station. The \$2.00 fee for testing a soil

By taking samples early the report will be on hand when the time comes to decide how much and what kind of fertilizer is needed.

### FOOTSAVING EDUCATION

James E. Edwards

**Is It Possible For A Child To Outgrow A Pair Of Shoes Within Three Weeks Of The Day They Were Bought?**

Yes, "Enraged." It is possible and it happens frequently but the "growth" is not true growth of that short period.

When a child's old shoes are too short, the child will unconsciously draw up his arch to keep his toes from bumping the ends of the shoes. Drawing up the arch shortens the foot. Try it.

Suppose the old shoes were size 7 and he now measures for size 8. An 8 shoe in the proper width will permit him to relax his foot and when the foot settles back to normal it may measure 8 1/2 to 9. The new 8's are outgrown and the shoeman catches a headache because the parents allowed the child to wear 7's when he needed 8's. If the shoeman attempts to anticipate this settling process and fits the shoes a half size too long, it invariably turns out that this child has a natural "butch" foot that doesn't care to settle. The shoes turn up in front like skis, they look like some a neighbor gave you, and they are worn out before the child grows into them. You can't win.

# HD Agent's Notes

BY MISS ETTIE MUSIL

In March and April I gave several ladies in the county seeds of the new Plainsman tomato variety. Each one was to report back to me about the production, how well the plants grew, and how they liked the taste of the tomato.

Last week I received a letter from Mrs. Helen Fangman that her one surviving bush out of the two was "just loaded with fruit and looks so healthy." She has had many tomatoes for her family meals. One plant had died from tomato curly top disease that is spread by the beet leafhopper.

On the tomato plants that Joe and Irene Jones and I have, we began harvesting ripe tomatoes the first week of July. My tomato bushes are bent over with fruit on grass clippings mulch.

Mr. and Mrs. C. C. Christian had a large harvest of tomatoes before the bushes died of curly top a few weeks ago. Jo Anne Schell, our secretary, reports that they have been eating fresh tomatoes for several days.

from taking the perk out of the percolator. Of course, you will need to remove the thimble before closing the percolator.

Did you know that plastic-coated containers have been developed for packaging fluid milk. They are now being used on a trial basis in several cities. These new containers are designed to replace the present wax coated cartons. Just think, no more leaky cartons and loose wax particles in the milk. It is supposed to improve the appearance of the milk package, too.

Did you know that soon you will be able to use non-sticking fry pans that need no grease. In fact, many New York homemakers can already buy the new greaseless cooking utensils. The fry pans are coated with a special substance which makes it possible to fry or braise without using cooking fats or oils.

It's hard to say if these greaseless pans are just a fad or if they represent a new trend in utensils. Sold with the pans is a wooden spatula which should always be used. Metal spoons or knives can scratch the coated surface.

And did you know that eating tossed green salads is an easy way to "take" vitamins and minerals. Dark green and yellow vegetables are excellent sources of vitamins A and C. Vitamin C is needed for healthy gums and body tissues. Vitamin A is needed for growth, normal vision, and healthy condition of skin and other body surfaces.

And did you know that at the time of this writing we have received 36 4-H record books from the girls and 31 record books from the boys. We are very proud of the effort the boys and girls have done in turning in their record books.

To be eligible to receive project completion year pins during

Now for a few "Did You Knows."

Did you know that you can place a thimble over the cap on the tube of the percolator while pouring in the dry coffee. This trick will prevent wet grounds at the bottom of the tube

# We Look To Africa As Possible Maize Market

A survey of the market potential for Texas grain sorghum in three West African nations has been conducted by Dr. J. Wayland Bennett of Texas Tech.

The Tech agricultural economics department head has just returned from three-weeks of travel in Nigeria, Liberia and Sierra Leone under a survey-study sponsored by the U.S. Feed Grains Council, Grain Sorghum Producers Assn., and the USDA's Foreign Agriculture Service. Bennett left the United States on June 27 and returned July 20.

"All of the nations we visited are on a subsistence-level of consumption," Bennett said, noting that "in most of the areas 90 per cent of the population

merely subsisted in the economy while about 10 per cent are in the money economy. The exception to this is Nigeria where between 15 and 20 per cent of the population participate in the money economy."

He said the primary objective of the study is to determine the potential of developing poultry and livestock enterprises in those nations with the secondary purpose of supplying them with the necessary feed grains.

"Primarily, all of the governments of the nations we visited are interested in developing their agriculture to raise their population above the subsistence level of consumption," the Tech agriculture economist said. "More than 80 per cent of the people in each nation are engaged in agriculture."

"If the primary purchasing power of this 80 per cent can be increased, they expect the economy will be improved all up the line," he added.

At present, Bennett said, Liberia has no feed production and Sierra Leone produces a small amount of grain sorghum and corn--totally inadequate for its needs.

In contrast, Nigeria is expecting a surplus of peanut meal but is short of supplies of grain sorghum or corn which are major crops there.

The supply is short mainly for livestock feeding as the maize is a major human food there. Nigeria was the only country of the three he studied that had a mill to make wheat flour. It was only a few years ago that wheat was introduced in that country, Bennett noted. Another mill is being constructed in Lagos, the capital city of Nigeria, but it will only supply flour for the surrounding area.

Bennett said that Liberia -- a nation that was founded for freed slaves from the United States -- is at present the poorest of the three nations he visited.

"But, Liberia probably has the potential of outstripping the others in economic growth in future years," he said. "Newly discovered and developed iron ore deposits are expected to produce up to \$200 million annual income by 1965. This will certainly increase the money population."

The government agriculturists in Nigeria, Liberia and Sierra Leone are putting primary emphasis on developing poultry enterprises, Bennett said. As the nations become more self-sufficient in foods and as their national budgets increase, they hope to put a greater proportion of their budget into agricultural development.

He said his conclusions on the market potential for U.S. feed grains in Africa will be reported to the U.S. Feed Grains Council, a report he is in process of completing.

Bennett was a member of a

survey team that included two businessmen, T. A. Cisco of Bloomington, Ill., Dr. John L. Milligan, of St. Louis, Mo., and John McCracken, Foreign Agriculture Service, Grain Marketing Division, of the USDA.

To be eligible for senior division, 4-H'ers must be 14 years of age on January 1 of the current year.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Do not forget that what the federal government subsidizes, it will eventually control.

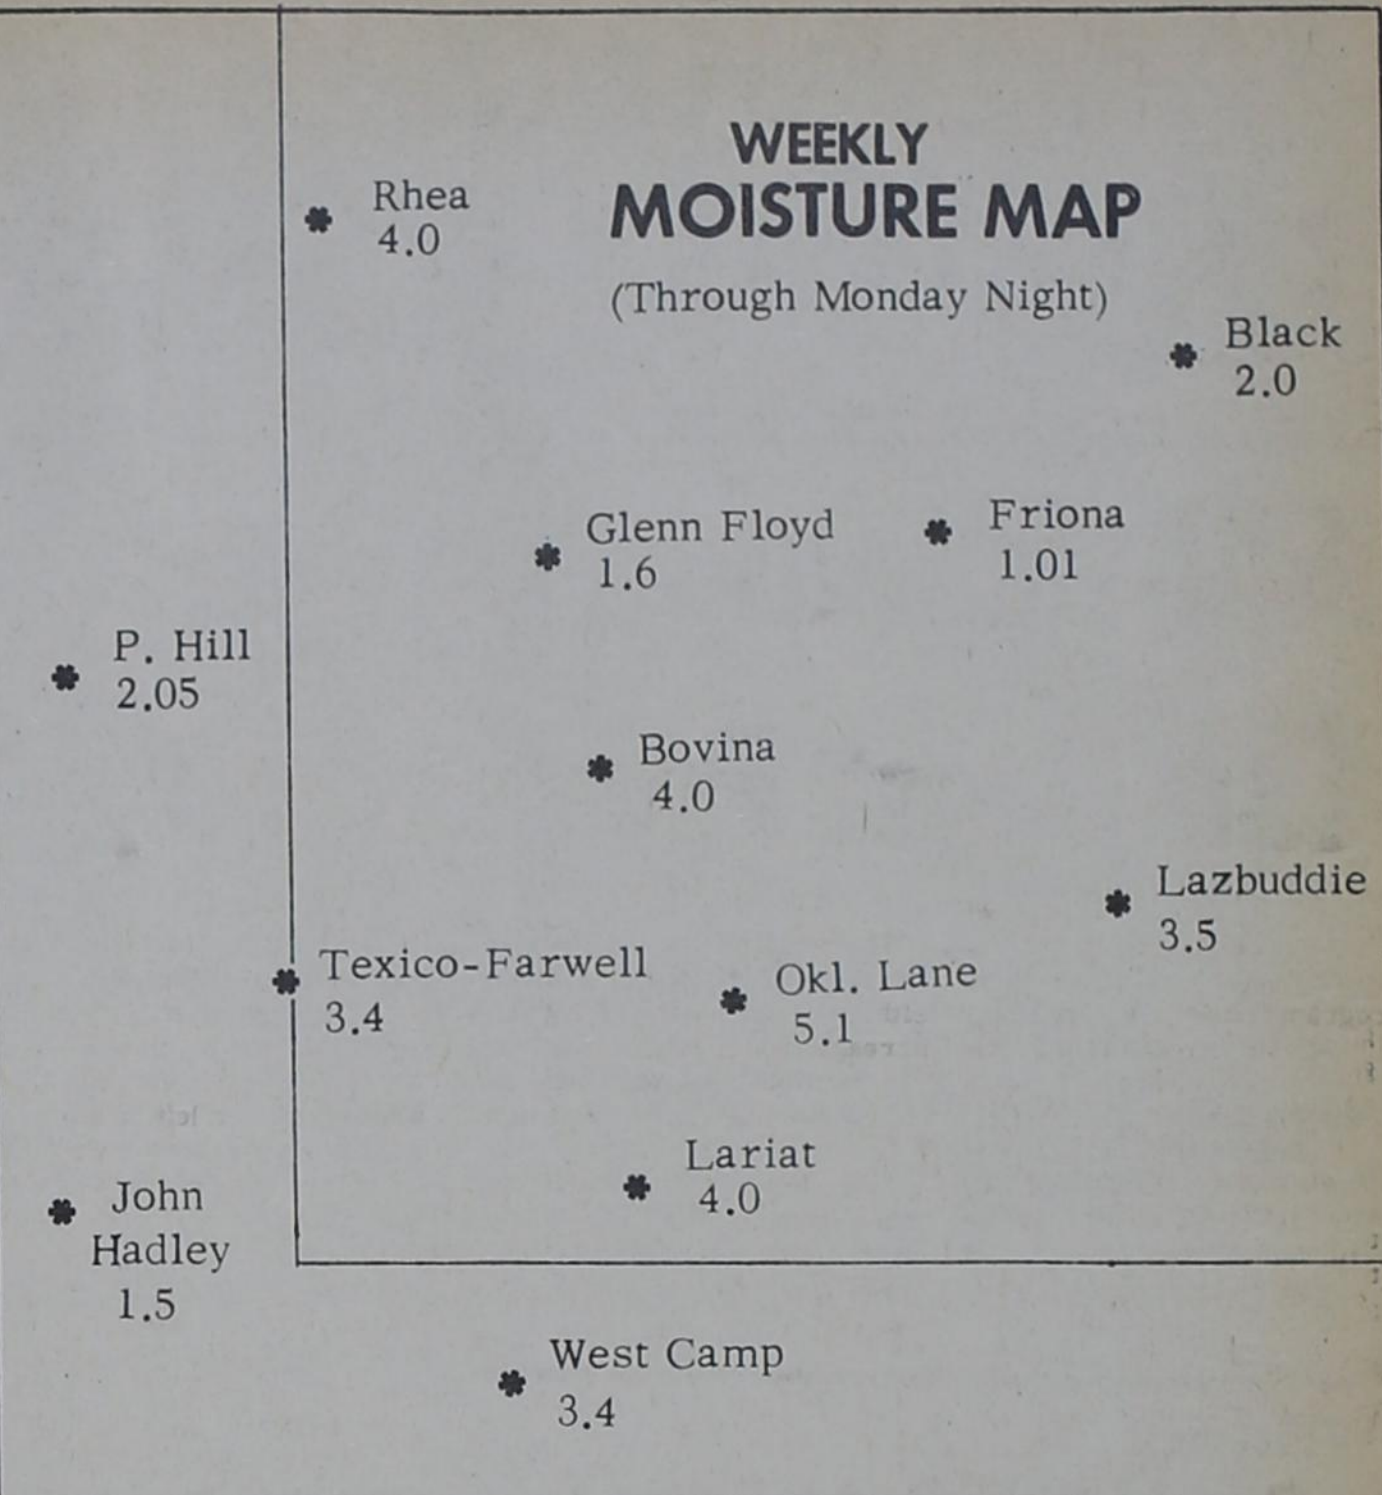

Teheran--Our Path in War and Peace, written by Earl Browder, former head of the Communist Party in the U. S., advocated the foreign aid giveaway program for the United States. The reason we mention this at this time is that the American Farm Bureau gave full support to the Byrd Amendment that would have curtailed the giveaway deals by eliminating borrowing money to give away to foreign nations and required annual appropriations by Congress. The amendment failed 39-56, leaving the door open. Texas had one Senator, Tower, who voted for the amendment, and one Senator, Yarborough, who voted against it. However, the southern region, which includes Texas, voted for the amendment 15-10.

Regarding state gas tax refunds for non-highway, farm-used gasoline, you may now file only once per year, or two or three times per year if you wish, just so long as your invoices are not more than a year old.

If you should be interested in buying grain sorghum for feeding (or anything else) from the Commodity Credit Corporation, you may do so by simply calling the regional office in Dallas at Riverside 8-5681, extension 301 and talking with Mr. Zellar, Wright or Austin. If they have grain available, they will tell you where to get it in amounts of not less than 60,000 pounds.

American Farm Bureau has been working hard to get an extension of a revised sugar act passed in Congress. Secretary of Agriculture Orville Freeman says "It appears inadvisable to present such recommendations before the beginning of the next session of Congress, primarily because world production and marketing of sugar are undergoing realignment and the situation has not yet stabilized."

Farmer County Farm Bureau's annual convention will be held some time in October. There will be five directors up for re-election or replacement and the office of president will be filled at this meet-

If you know some men you believe would make good directors or presidents, tell one of the directors about them.

Consider this: "A wise king scattereth the wicked, and bringeth the wheel over them." Proverbs 20:26

# THE LOST MONTH

This dream girl turned dreary drudge has only 11 months each year to ENJOY life. She spends the other month doing dishes by hand.

It's true. On the average, it takes two hours a day to wade through three stacks of dishes--breakfast--lunch and dinner. That comes out to 730 hours a year. And, friends, that's a month. A month of full 24 hour days.

Don't be a drudge and do dishes -- and lose a month a year. "Dial" dishes in an electric dishwasher and enjoy life all year long. It costs just a cent and a half a day to wash and dry dishes electrically. You couldn't buy the hand lotion for that little money -- and you get another month to live better electrically.

**SOUTHWESTERN PUBLIC SERVICE COMPANY**

LUCKY STRIKE!—A. M. Wilson of Wilson's Super Market, is shown with a display of cartons of Lucky Strike cigarettes. The American Tobacco Company, makers of Lucky Strike, recently began a series of advertisements in all hometown newspapers in Texas, including The Blade's farm and home section. This campaign is first of its kind in 14 years for American. Texas is being used as a test area for the national company. If this campaign proves effective, it will be followed by campaigns for other brands which also are made by American.

Vows Read For Joyce Burnett, Robert Hughs

A single ring ceremony at Methodist Church at Texico Thursday afternoon united Miss

Joyce Burnett, daughter of Mr. and Mrs. F. R. Burnett of Bovina and Robert Hughs, son of Mr. and Mrs. T. C. Hughs of Del High, Okla.

Attending her friend was Miss Nellie Bea Crook.

Congratulations to Mr. and Mrs. M. H. Carson on the birth of a 6 pound 14 ounce baby girl born Wednesday afternoon at Farmer County Community Hospital in Friona. Joan Carol is the name chosen for the baby girl.

Given in marriage by her father, the bride chose a blue taffeta dress fashioned with a pleated skirt and bateau neckline over which she wore a short jacket of the same material. She complimented her costume with white accessories.

Attending the wedding were Mr. and Mrs. F. R. Burnett and Mr. and Mrs. Owen Burnett of Bovina.

The Carsons also have four boys, Richard, Allen Dale, Gary and Galen.

Following a short trip to Carlsbad Caverns, N. M. and points in Oklahoma the couple will be at home in Farwell. He is employed by Bill Moss and Miss Burnett plans to complete her education at Farwell High School.

WSCS Has Luncheon

Plans were discussed to get an exchange student through the W.S.C.S. Wednesday at their luncheon meeting at Methodist Church.

attended. Hosting the luncheon were Mrs. Vernon Willard and Mrs. Wilbur Charles. Others present than the above mentioned were Mrs. Rouel Barron, Mrs. Mable Newberry, Mrs. H. L. Ivy, Mrs. C. O. Edens and Mrs. O. H. Jones.

The committee appointed is composed of Mrs. Billie Sudderth, Mrs. John Dixon, Mrs. Jimmy Ware, Dean Hastings and Bob Wilson.

Presenting the program to the ladies were Mrs. Harold Morris, Mrs. Sudderth, Mrs. Dixon, Carole Jean Hastings and Dixi Hartzog. They reported on the School of Missions at Lubbock which they recently

Miss Glenda Cruse, daughter of Mr. and Mrs. M. D. Cruse, became bride of Doyle Wassom, son of Mrs. Helen Wassom, Saturday afternoon in civil ceremony at Clovis.

Given in marriage by her father, the bride wore a blue dress fashioned with lace trimming and wore beige accessories. Those attending the wedding were the immediate family and Mrs. Glenn Ritchie. The couple will live in Bovina.

Joyce Burnett, bride-elect of Robert Hughs of Farwell, was feted with a lingere shower Saturday afternoon at the home of Vickie Strawn.

Pink rosebuds in a crystal bowl graced the serving table which was laid with a white cloth and set with silver and crystal appointments. Refreshments of cookies, nuts, mints and lemonade were served to guests. Carole Jean Hastings presided at the guest register. Among those present were the honoree, Vivillah Steelman, Dixi Hartzog, Carrie Cordum, Nellie Bea Crook, Patricia Crook, Floye Smith and Vickie Strawn.

Hostesses were Miss Strawn, Miss Hastings, and Miss Nellie Bea Crook.

An arrangement of pink dahlias intertwined with white net in a crystal bowl flanked on either side by pink tapers provided table decorations at the lingerie shower honoring Miss Glenda Cruse Thursday afternoon at the home of Vivillah Steelman.

Hosting the occasion were Misses Vickie Strawn, Carole Jean Hastings, Dixi Hartzog and Vivillah Steelman. Others present were Misses Floye Smith, Linda Gilreath, Linda Estes, Virginia Rea, Bonnie Cochran, Judy Strawn and the honoree.

Primary topic of discussions was recent closing of one of four bracer housing units by U. S. Department of Labor and effect such action would have on economy of community. The unit was closed following a complaint which was filed by J. Edwin Fallon of Bovina.

Additional money will come from a raise in tax rate which was recently put into effect by school board.

Both vehicles were demolished. Ruzicka was a passenger in Waller's car.

Warrengas fuel burns clean! Enters your engine as dry vapor, not as a wet fuel—no carbon and lead deposits to gum up the engine. FOR MODERN FARMING USE Warrengas fuel gives you added power! 115-plus octane rating gives you greater efficiency—more pulling and lugging power. Saves you hours of labor. Warrengas fuel saves you money! Costs less than gasoline in most areas—and it's so easy on your engine. You use 2 to 3 times less oil—besides saving on spark plugs...have lower maintenance costs.

Estes Heads Pep Club BEAT STEERS! . . . is the yell most frequently practiced by Bovina High cheerleaders for the coming season. As in years past Farwell is the biggest rival so plenty of practice is needed on the part of the cheerleaders in order that they be ready to urge the football team forward.
