Whom Shall We Trust?

To date, so far as we have been able to learn, the Americans haven't found a single civilian Nazi in their progress through Germany. In every village they take they are assured that the town officials and other convinced National Socialists have left. Those who remain, they are told, are just plain, decent folks, who are glad to see the Yanks because that means the war is almost over. All they want is peace and quiet.

Well, some of the civilians are just that, of course. And certainly some of the most ardent Hitlerites have fled. But it's a good safe bet that the Yanks won't meet any admitted Nazis out of uniform if they travel all the way to East Prussia. It's going to be too easy for them to put on a bland face and protest innocence.

And the Yanks, being strangers there themselves, won't be able to do much contradicting. They can remember those pictures of Hitler's peacetime travels, when crowds jammed streets and auditoriums wherever he appeared. They can remember the newsreels, and the Hitler broadcasts with their backgrounds of thousands whooping and hailing.

They can conclude that the war and the earth itself haven't swallowed up these frenzied throngs. But when it comes to choosing whom to trust, the job isn't going to be easy.

In fact, it's going to add up to a costly, complicated and confusing problem of military government. The complications have already started at the top, as shown by denials by Secretary Hull and Robert Murphy, General Eisenhower's chief political adviser, that they have had peace dealings with any Germans whatsoever.

It is natural that they should suspect any peace overtures of coming from Hitler agents. And there might be the equally ready suspicion that any able and active and anti-Nazi capable of heading a government has long since been liquidated by the Gestapo.

By now it is generally accepted that many Nazi leaders (though not the top ones) will succeed in "going underground" to work against the occupying forces.

They will know the country and the people, and this knowledge will surely be an irritating source of trouble to military government. It will be the same sort of trouble that the Nazis ran into in the occupied countries, though the Allies will not adopt the Nazis' brutal means of combating it.

Probably the Allies will have to look outside Germany for Germans who can be of immediate assistance and would be acceptable to the nucleus of at least a provisional government. There is not much of an assortment of politicians or statesmen to choose from.

But a government of German intellectuals, scientists and professional men would surely be preferable to one built around the Russian-sponsored committee of German officers who come from a class which suffers from chronic delusions of Teutonic military grandeur, and whose uncaptured colleagues are no doubt already planning the next world war.

Unemployed Veterans Will Be Paid Living Wage By Federal Government

By JAMES MARLOW

WASHINGTON—(AP)—A war veteran temporarily out of a job can get unemployment pay from the Federal Government.

This assures him of a minimum income of \$20 a week for a certain number of weeks, depending upon the length of his military service. The maximum number of weeks for which he can draw the pay is 52.

Who gets Federal unemployment pay? A jobless veteran who had 90 day's military service since Sept. 16, 1940, and was honorably discharged. If he was discharged before serving 90 days because of a service-incurred disability, he is credited with 90.

Where does he apply for the pay? He applies at the nearest U. S. Employment Service Office or at the local—state or county—unemployment office.

What's The Time Limit? The unemployment must have started within two years after discharge from the armed services, or within two years after the end of the war, whichever is later.

For how many weeks can a veteran draw Federal unemployment pay? For each of his first three months (90 days) of service, he is allowed 8 weeks' unemployment pay, or a total of 24 weeks for his first three months of service. This means, of course, that he must have been unemployed all of those 24 weeks in order to draw that much pay.

But for every month of service, after those first three months, he is allowed one month's pay. Suppose a veteran had served four months. Then for the first three months he would be entitled to 24 weeks' pay but for the fourth month only one month's pay or a total of 25 weeks.

What Are The Rules? A completely unemployed veteran gets \$20 a week. If partly employed, he gets the difference between his wage and the weekly allowance, plus \$5, for example: He earns \$10. Subtract the \$3 mentioned above from the \$10. That leaves \$7. Then subtract the \$7 from the \$20. That leaves \$13. His unemployment pay then would be \$13. This total weekly income would be \$23.

A self-employed veteran whose net earnings are less than \$100 a month can get this compensation, too. He receives the difference between \$100 and his net earnings for the past month. For example: Last month he earned \$50 net. The government will give him \$50. But, like the jobless veteran, the self-employed veteran earning less than \$100 net monthly can draw no more than the maximum \$20 weekly.

What Must He Do In order to get the pay, what must a jobless veteran do? He must register at a public employment office, be able to work and be available for suitable work. Illness or disability, which occurs during a period of unemployment for which allowances already have started, will not disqualify him.

What would disqualify him from receiving unemployment pay? If he leaves suitable work voluntarily and without good cause, if he is suspended or discharged for misconduct, if he fails without good cause to apply for suitable work to which he has been referred by a public employment office or to accept suitable work when offered.

But these disqualifications begin the week in which the disqualifications occurred and continue for the four weeks immediately following. After that 4-week period the veteran could get unemployment pay.

A veteran is also disqualified for any week in which unemployment is due to a work stoppage caused by a labor dispute involving the veteran.

What about veterans who also draw state unemployment pay? Some veterans will not qualify under state unemployment pay rules. They will have to depend entirely upon the federal government pay.

Some will qualify under both federal and state systems. In that case, the money the veteran drew from the state would be subtracted from his federal allowance.

Simplified Bond Redemption Creates Texas Cashing Spree

By THE ASSOCIATED PRESS

A new system of simplified bond redemption Tuesday found many Texans having cashed in on the first day's operation of the plan.

Many and varied were the reasons why Lone Star Staters lined up before bank cashiers to redeem War Bonds. A Lubbock resident said, "I need a new set of teeth."

He almost shut up shop during last weekend when the Detroit Tigers and St. Louis Browns were slugging it out for the pennant. Monday he did shut up shop, and his customers were responsible.

As he sat back exhausted, when the Browns were announced as the winners, a group of customers came in with a package. It was a round-trip ticket and a sheaf of expense money.

"Sort of a token of our esteem," they told him.

"Nothing like that ever happened to me," Thomas explained as he rushed for a train. "I danged near broke out crying."

THE WAR TODAY

By DEWITT MACKENZIE
Associated Press War Analyst

The American First Army's heavy and thus far successful attack in the Aachen sector may well be a preliminary to the all-out offensive for the German frontier defenses, but a tough task lies ahead of the Allies and we shall do well to note General Eisenhower's caution to correspondents not to count too immediately on a break through the Siegfried Line.

As a matter of fact it may not fall to Lt. Gen. Hodges' army at all to be the first to crash past Hitler's border defenses. One would expect Eisenhower to stage a series of big attacks along the entire 460-mile front, and it may be that the break will be made in some other sector.

Formidable Barrier
The Westwall in the Aachen zone presents a formidable barrier, and the mighty Rhine may be even more difficult since this swiftly moving river varies in width from a quarter to a third of a mile in the Cologne zone beyond Aachen. Should the Germans destroy the great bridges at Cologne and at neighboring cities it would give the Allied engineers something to sweat over.

Hitler has massed much strength in this strategic sector in anticipation of the attack which now has been launched. If this were the only battle he had to fight in the coming offensive he might hope to stand off the enemy for a considerable time.

Hitler Lacks Reserves
Hitler's troubles will multiply rapidly when the Allies launch big drives at other strategic points in the line, because he has no reserves to meet so many commitments. If he weakens any point under attack by withdrawing troops for use elsewhere, then General Eisenhower will hurl fresh strength against the weakened spot.

Thus while the Allies have a hard fight ahead of them they actually have Hitler on toast, since ultimately he must give way to this pressure. His forces on the Western Front are outnumbered at least three to one, and many of his "reserves" have been recruited from men who are unfit for active service. That's outside the fact that the Allies have overwhelming superiority in the air and in other equipment of all categories.

Triple Killing Near Brownwood

BROWNWOOD—(AP)—Two persons were shot to death and a third was wounded fatally by a razor slash in the throat Monday at a farm home in the Buffalo community near the Brown-Coleman County line.

Dead were Dan Evans, about 65, and his daughter-in-law, Mrs. Pauline Evans, about 31, who were shot, and his wife, Mrs. Myrtle Evans, whose throat was slashed.

No Verdict Returned
No inquest verdict has been returned. Sheriff George Robey of Coleman County was investigating. The home was just over the line in that county.

Deputy Sheriff Chester Avinger of Brownwood said that Melba June Evans, 5, daughter of Mrs. Pauline Evans, ran about one-quarter mile to the house of a neighbor to tell about the shooting. Charles Evans, the child's father, was at work in a field away from the home when the incident occurred.

Mrs. Myrtle Evans, who was found on the porch of the home, died several hours after the incident. Judge O. A. Newman, who heard a divorce action here last week in which Dan Evans and his wife were principals, had taken it under advisement.

C. C. Sousa Buys Interest In Cactus

Charley C. Sousa, an experienced restaurant operator, has purchased a half interest in the Cactus Cafe here from J. H. Wallace and will be active in the management of the business.

Sousa moved to Midland from Hobbs, N. M., where he operated the Roosevelt Coffee Shop. He sold the coffee shop before moving here. For eight years he was in the cafe business in Hobbs. He and Wallace have been friends 30 years.

Sousa also has been in the cafe business in Wink, Pyote, Dallas and Smackover, Ark.

Wallace purchased the Cactus Cafe more than two years ago and has managed it since then. Before coming here, he was in Odessa three years and Kilgore nine years.

Fashion Salutes Victory By Copying Peasant Styles Of Liberated Europe

NEW YORK—Fashion's salute to Victory headlines are peasant-influenced trends in clothes that exalt the apron to costume importance, feature of the dirndl skirt and corset-like belts that whittle down a waist to doll-size proportions.

Anything but naive are these ideas when designers translate them into swank dinner and evening gowns of fall, crepe, jersey and velvet which rate a girl's flashiest jewels and furs, her longest arm-climbing gloves. Cocktail dresses following this mode frequently have peasant scarves with the fabulous look of museum pieces set on skirts to fake an apron. And to make sure that no single detail of scarf pattern misses the eye, designs are picked up by sequin tracings.

Both cocktail and evening dresses interpret peasant influence with striking color combinations, as for example in the two New York creations modeled above from Traina-Norell. The 5 o'clock dress at the right combines electric pink jersey for the glorified apron and bodice, and black for the dirndl-type jersey skirt and faille eyelet corset-like belt.

The same corset-like look distinguishes the black and white jersey daytime dress shown at the left, which toggled out with fancy accessories.

Civic Theater To Present "First Lady" As First Production

As its first production of the year, the Civic Theater will present the play, "First Lady," early in November. It was announced at a meeting of the organization Monday night.

"First Lady," by Katherine Dayton and George S. Kaufman, is a satirical comedy dealing with "behind the scenes" in Washington, and satirizing the procedure used in selecting presidential candidates. With Jane Cowl playing the lead, it had a long, successful run on Broadway, and later played in most of the larger cities.

As Brooks Atkinson of the "New York Times" said in his review of it, "although the story is improbable, it is not impossible, for Washington is the capital of improbability."

The play was selected because of its timeliness, and because of its abundance of good roles. It has four unusually strong feminine leads, with five good male parts, and five supporting women characters.

Tryouts will begin at 9 p. m. Tuesday at the Civic Auditorium, and will also be held at 8 p. m. Thursday in the auditorium. Anyone interested in trying out is invited to attend one of these meetings. Ability, rather than experience, is to be the basis for selection.

NEW YORK GIRL IS BRIDE OF CADET AT POST CHAPEL

In a double ring ceremony at the MAAF Post Chapel, Miss Patricia Ann Drummond became the bride of Aviation Cadet Charles Edward Townsend. The Rev. Patrick J. Toomey, post chaplain, sang the nuptial Mass.

The bride was attended by Mrs. Irene B. Peteghen of Detroit, and the groom was attended by Aviation Cadet P. J. Ricci. For her wedding costume, Mrs. Townsend wore a navy blue, two-piece crepe dress, with fuschia accessories. She carried a corsage of white orchids and carried a white prayer book, which was a gift from her mother.

Her attendant wore a beige gabardine suit, with brown accessories, and a gardenia corsage.

Sgt. Donald M. Gillett, post organist, played the traditional wedding music and hymns during the ceremony.

Mrs. Townsend is the daughter of Mr. and Mrs. George L. Drummond of Port Chester, New York. Her husband is the son of Mr. and Mrs. Henry P. Townsend of Westfield, New Jersey.

The young couple will live in Midland until Cadet Townsend completes his training.

W.M.S. Of Baptist Church Opens State Missions Prayer Week

The W.M.S. of the First Baptist Church opened its State Missions Week of Prayer with an hour of prayer and study on the subject, "Magnifying Christ," Monday morning. The Lottie Moon Circle was in charge of the morning's talks. Mrs. J. M. White, District 8 W.M.U. president, gave the devotional. Mrs. Thurman Pylant talked on "Magnifying Christ in the Home" and challenged all women to be more concerned about the things that are magnified in our homes in America.

"Magnifying Christ in Our Private Tasks" was discussed by Mrs. J. P. McDowney, who emphasized the need for more family altars and a deeper prayer life for all Christian women.

Mrs. W. B. Preston announced that the boxes of clothes for Buckner Orphan Home must be in before Friday noon.

Mrs. J. V. Hobbs led the benediction.

Members present were Mmes. J. M. White, Jerry Roberts, H. B. Spears, Arnold Scharbauer, B. C. Girdley, Dot Price, J. P. McDowney, C. J. Ward, Geo. Phillips, Jno. C. Dunagan, R. D. Fennester, John F. —THE GOVERNMENT ANSWERS "NO!"

LEE MARSHALL

ON THE contrary, American farmers are doing everything possible to build up domestic production of fats and oils. But during the next 12 months, because of a smaller hog kill and reduced yields of some oil-seed crops, we expect that approximately a billion-and-a-third pounds less of fats will be produced.

Need Greater Than Ever

Therefore, more than ever, salvaging used cooking fats is an important resource on which the country must continue to lean in order to tide us over.

Saving used fats is not a glamorous task. It takes effort. But it is one that only you, the American housewife, can perform for the country. We ask you to continue the wonderful job you are doing to help speed final Victory.

Even victory over Japan will not ease the situation immediately. Not for a year or more can these areas be brought back to pre-war production levels.

In the meantime, the need for your used fats will be as acute as ever for these reasons:

- 1 Even after European victory, we still have Japan to beat. Vast supplies of ammunition, medicines, parachutes, rubber boats, soaps and other battlefield essentials must keep on going to our fighting men in a steady stream. These all require fats to make.
- 2 We must help in the rehabilitation of liberated countries, such as Greece, Norway and the Netherlands, with medicines, machinery, etc.
- 3 Many factories now producing for war will turn to manufacturing the civilian goods we need so urgently. These factories will consume vast quantities of industrial fats.

For every pound of used fat, your butcher will give you 4¢ and two free red points! Keep on saving every drop.

In This Cup You Taste The World's Most Flavorful Kind of Coffee!

SO RICH we urge you USE 1/4 LESS coffee per cup

This New Coffee Enjoyment Can Be Yours at no Extra Cost in MOUNTAIN GROWN FOLGER'S

This is a promise of new coffee enjoyment—not just the little difference you might expect between one brand and another... Because Folger's is Mountain Grown—the world's most flavorful kind of coffee: vigorous, rich, full bodied. It comes from the Tropical Americas where brilliant sunshine, volcanic soil and even-tempered mountain air and abundant rainfall combine to produce a miracle of flavor. Most people have never tasted this kind of coffee because it is relatively rare and forms only a small portion of the world's supply. Yet this rare flavorful kind of coffee need cost no more—perhaps it will even cost you less. For Mountain Grown Folger's Coffee is so rich in vigorous flavor we urge you use 1/4 less in making each cup.

Won't you try it? Be sure to ask your grocer for Folger's Coffee.

HE'S HOGGING OUR FATS!

DEFEAT OF THE NAZIS
won't solve our fats and oils problem:
 While Japan ravages the Pacific, Malaya, Java, the Philippines, we can't get the billion pounds of fats and oils we used to import every year for peacetime industry.
 Our farmers and cattleraisers have had to double production—every drop of fat and grease has to be salvaged in American kitchens to meet war demands.
 Used household fat is still urgently needed—will continue to be needed, until devastated South Sea Island coconut palms produce again.
Save and turn in YOUR used household fats for EXTRA red ration points!

Grand Jury In First Session Indicts Three

Five indictments were returned Monday by the Midland County grand jury during its first day of deliberation at the fall session of district court.

J. P. Francis, 58-year-old Midland County farmer, was indicted on three counts of incest. Bond was set at \$5,000 in each indictment. Each indictment carries a two to 16 year penalty and, if convicted, he faces a maximum sentence of 36 years, County Attorney Joe Mims said.

Jerry Stinson was indicted for burglary and his bond was set at \$1,000.

Another man was indicted for forgery. He is now at liberty on bond. Officers said he probably will be taken in charge within a day or two and his bond reset.

PIN-WORM ITCH MAY THREATEN YOUR CHILD'S HEALTH

Don't let your child suffer a single needless minute of misery with Pin-Worms! These pests are more than just a nuisance. Scientific facts now show that crawling Pin-Worms, living and growing inside your child's body, can cause real distress.

It is easy for anybody, anywhere, to catch this nasty infection, often without even knowing what is wrong. Learn the warning signs—the tormenting, embarrassing rectal itching; also, uneasy stomach, bed-wetting, nervous fidgeting, finicky appetite, and loss of weight.

If you suspect Pin-Worms, get a package of P-W tablets right away and be sure to follow the directions. P-W is the new Pin-Worm treatment developed by the laboratories of Dr. D. Jayne & Son, America's leading specialists in worm medicines.

Important Scientific Discovery

The small, easy-to-take P-W tablets contain a remarkable drug (pentan violet) which is being hailed by high medical authorities as the most effective means ever discovered for dealing with Pin-Worms. Thanks to this important discovery, P-W works in a special, gentle way to destroy Pin-Worms.

Ask your druggist: P-W for Pin-Worms!

The exploration will dig to at least 3,000 feet and possibly deeper. It will use cable tools. The test is on a farm out from Gulf Oil Corporation.

Testing On Swab
Humble No. 1 Doss, section 9, block A-24, ps1 survey, in South-Central Gaines County, was swabbing water at about 5,500 feet from the surface, from a perforated section at 7,003-7,233 feet, over a plugged-back total depth of 7,250 feet in the lower Permian horizon.

Stanford No. 3 Sealy-Smith, in the northwest corner of section 49, block A, G&M&B&A survey, in southeast Winkler County, and a due south offset to the discovery well of the North Monahans pool, has been officially completed for a 24-hour potential of 128 barrels net oil, plus 12 percent basic sediment and water.

Gas-oil ratio was 1.240-1. The pay section was at 6,095-6,300 feet in the Tubb zone of the lower Permian. Sinclair Prairie Oil Company No. 1 McKnight, section 6, block B-29, ps1 survey, Northwest Crane County prospector to around 11,000 feet, had made hole under 7,300 feet in line and was continuing.

Still Going In Crane
Gulf Oil Corporation No. 6-E McKnight, section 20, block B-17, ps1 survey, in West Crane County, had reached 6,588 feet and was drilling ahead in shale.

Sixty Oil Company No. 1 Hodges, section 446, block D, John H. Gibson survey, in West-Central Yoakum County, had bored below 7,160 feet in line and was drilling ahead.

Skelly No. 1 Wilson, section 16, block 26, H&T survey, North Howard County wildcat, had reached 4,722 feet in line and shale.

Magnolia Petroleum Company No. 22 Foster, section 17, block 29, TP survey, T-1-S, in West-Central Mitchell County, and due to drill to around 9,000 feet, had progressed below 7,374 feet in line of the Pennsylvanian series.

Humble No. 1 Parrott, section 3, EL survey, in East-Central Upton County, had conditioned the hole to the bottom at 7,995 feet in shale, and was preparing to take a drill-stem test.

pulsed. Farther south, other Americans cleared out the woods at Echtenbach, reich frontier town 11 miles northwest of Trier.

The U. S. Third Army assaulted a key fortress in the Metz chain, and captured Maizieres les Metz, on the Moselle's west bank seven miles above Metz.

Opposite Groenstraat in Holland the Monday assault caught the enemy by surprise, and struck through the heavy crust of the Siegfried defenses, which run back as deep as nine miles.

Berlin declared "so far the Allies have nowhere pierced really deep into Germany."

Far to the South in France U. S. Third Army infantry assaulted Fort Driant, key Metz fortress on the West bank of the Moselle, after an all-night artillery barrage. The attack opened at 10 a. m., and a good start was reported by Third Army headquarters.

Germans Fled Pillboxes
American mobile artillery drummed out so heavily that in many places Germans fled their suicide pillboxes and centered their defense in thicker-walled concrete field forts.

Fifteen miles to the South of the Aachen combat zone, the Germans tried to divert strength from Lt. Gen. Courtney H. Hodges' assault by counterattacking West from Hurtgen, but they were stopped.

To the North of the wedge, Allied soldiers all along the Meuse Line applied supporting pressure to keep the Nazis from shifting reserves.

They drove eight miles from Deuze to Meijel and flung the Germans from Overloon, their last strong Holland pocket west of the Meuse 17 miles Southwest of Nijmegen.

All along that line and North along the Nijmegen-Arnhem corridor they were in close contact with strong German forces as the Nazis poured reserves across the Rhine to hold the Allied tide back from the war-vital Ruhr.

On the Western flank of the corridor, past Hertogenbosch to the Dutch border North of Antwerp, no progress was reported.

A front dispatch said German units threatened with entrapment by the Canadians were pulling out of their salient North of Antwerp. The Germans abandoned Mersin on Antwerp's Northern outskirts, and Canadians began occupying it.

Patton Drives On
Lt. Gen. George S. Patton's Third Army drove to the outskirts of Grevinmacher on the Moselle River border, 10 miles from the German border, and in the South cleared the last Nazis from the forest of Gremeey almost 20 miles due East of Nancy.

The Seventh Army liberated Ronchamp in its closest approach head-on toward the town of Belfort. Ronchamp is 17 miles West of Belfort at the entrance to the 15-mile-wide Belfort Gap to Germany.

A front dispatch said the American First Army's drive North to Aachen was not expected to result

recent Nipponese conquests that emphasized Chinese military weakness—and sent to the Salween front to retard the enemy's India invasion. Now, it added, "Chinese on the Salween front are sorely in need" of aid from the British in Southeast Asia; "but the British forces remain inactive."

Increasing preparations were made by both the Americans and Japanese for the forthcoming invasion of the Philippines.

Brig. Gen. Carlos P. Romulo, who operated the Voice of Freedom from Corregidor before it fell, was with Gen. Douglas MacArthur in the Southwest Pacific on his way back to Manila.

MacArthur's bombers, sweeping over the southern approaches to the Philippines, sank six small freighters and damaged three.

Babetaup, largest island of the Palau group 515 miles east of the Philippines, was bombed by Marine Corsairs, presumably operating from captured and expanded Peleliu air field.

Air defenses of much-bombed Iwo Island, 750 miles south of Tokyo, apparently were reinforced. Nimitz said "eight aggressive enemy fighters shot down one attacking Liberator."

Jackie Cooper Freed On Delinquency Court

SOUTH BEND, IND.—(AP)—Jackie Cooper, 22, the former motion picture star, and three co-defendants were acquitted Tuesday by juvenile referee Albert L. Doyle of charges of contributing to the delinquency of two teen-aged South Bend girls.

In a sudden grand sweep to the Rhine because the Germans in that sector have prepared positions in depth for some 15,000 yards.

The indications are, the dispatch said, that the battle will be hard, bitter and bloody all the way, since the Germans are determined to protect the rich industrial region to which the First Army is pointed.

Midland Man Wins Idea Prize At MAAF

A check for \$33 was presented to the winner of the third civilian employees "Ideas for Victory" award at Midland Army Air Field Monday afternoon. The award was given to Thurman A. Pylant, of Midland, by Colonel Charles H. Dowman, commanding officer of the world's largest bombardier school.

In presenting the award, Colonel Dowman said, "It gives me great pleasure and a feeling of honor when I am called upon to make an award of this kind, that is directly connected with the war effort. Your suggestion, and the suggestions that won awards before you, have been and are the sincere representation of true Americans, one that is a vital essential here at this bombardier base in carrying out the strenuous training program to develop the airmen who will demonstrate devastating power when they meet with the enemy."

The suggestion made by Pylant, an employee of the Inspection Department at the base maintenance shop is reconstruction of rear cabin floorboards in the AT-11 bombardier training planes, and to be manufactured and installed in two pieces, instead of one.

of those in the armed forces both overseas and at home.

Tuesday morning, workers in the drive started out again making calls. Most workers are taking time off from businesses which are operating with a shortage of help, but they are giving their time to the drive and also making contributions, Miller said.

"Everyone should share in the War Chest with a contribution, no matter how small," Miller said. "Just a glance at the names of those who have gone from this county into the armed forces that are listed on

the board at the courthouse should inspire us to make the best contribution we can afford."

HERE'S HOW to Keep Electric Appliances on the job

After nearly three years of war, many Texas housewives point with pride to their faithful electric appliances. In these days when extra time is needed for war work or other worthwhile activities, these electric helpers on the home front are called on more often than ever to save time and energy.

Although wartime restrictions on the manufacture of a few electric appliances are being relaxed a little, many months may pass before new appliances are available in quantity.

Ask at our office for helpful free pamphlets on the care of various electric appliances. When expert repair work is necessary, take them to an electric repair shop where they can get the proper attention. Remember, most electricians are extra busy these days, so allow plenty of time for repairs.

TEXAS ELECTRIC SERVICE COMPANY

R. L. MILLER, Manager

Electric food mixers will last many years if handled carefully. Clean them after each use. Oil the motor and put grease in the gear box according to the manufacturer's instructions.

Electric irons should never be dropped. Avoid ironing over buttons, zippers or hard articles. See that the plug fits tightly in the iron. Keep the iron cord from touching the hot iron.

Electric vacuum cleaners will give better service if the dust bag is emptied after each use. Pick up hairpins, buttons or other hard objects by hand, as they might injure the cleaner.

Electric cords of lamps and other appliances are made of vital war materials and should be used carefully. Grasp the plug (not the cord) when disconnecting the cord from an outlet. Repair broken or frayed places with tape.

GERMANY WILL TRY IT AGAIN

By Sigrid Schultz Copyright, 1944, by Sigrid Schultz Distributed by NEA Service, Inc.

As an American newspaper correspondent in Berlin from 1919 to 1941, Sigrid Schultz saw at first hand the events that led from World War I to World War II. And she saw the behind-the-scenes preparation for the coming "war-in-peace" that she warns may culminate in World War III.

The Nazis worked out a Party ritual and Party historians, to give the masses the circus performance which the Republic was too proud to provide. Finding bread for the masses, rather than circuses, demanded the Republic's whole attention.

AS he wormed his way forward, Hitler was bothered by his inability to launch the huge propaganda campaign of his dreams. He scoured Munich until he found the poet-newsman, Dietrich Eckart, who knew all about propaganda.

Hitler first attempted open attack on a big scale in November, 1923, when he ordered his henchmen to seize power and compelled General Ludendorff to support him in the crisis, using him as a bludgeon against his friends.

Dietrich Eckart went to work to improve the grammar, the oratory, and the education of his Fuehrer. It was an advantage to the newspaperman in the little town of Munich to be close to an intimate of a Black Reichswehr leader who had enough money to procure him a newspaper of his own, as Roehm did.

Ludendorff never recovered the post he lost during the Beer Hall Putsch and the subsequent trial. His increasing racial fanaticism further weakened him, until many observers forgot the tremendous work he had done to entrench his militaristic and industrialist associates in impregnable positions.

McKENNEY ON BRIDGE

The bridge players of the nation are loyal supporters of the League's charity drives. I was especially thrilled when Sigmund "Jigger" Dornbusch, winner of the men's pair championship, announced that his appeal for the A. C. B. L. Children's Fund netted more than \$11,000.

General Ludendorff had exulted to his wife in 1918 that the Republic was already lost because it had failed to execute him and his associates.

When the trial took place in 1924, the general situation had quieted down in Germany, following a time when every other day had provided a sensation—the marriage of the Kaiser in his miniature court in Holland, or arson, or a plot, or a minor war which threatened the peace of the world.

Government Will Pay Tuition For Returning Vets
 By JAMES MARLOW
 WASHINGTON—(P)—The government will pay for at least a year's schooling for almost any veteran of this war, man or woman, commissioned officer or buck private. All ranks are included.
 They get paid while they're going to school and some of them can get as much as four years' education at Uncle Sam's expense. To get that much, however, they must have served at least three years in the armed forces.
 The requirements are simple: A veteran must have had at least 90 days military service since Sept. 16, 1940, and been honorably discharged. If discharged because of service-incurred disability before serving 90 days, he is credited with 90.
 The government pays school expenses up to \$500. They include tuition, library, infirmary, laboratory and similar customary fees, books, supplies and other necessary expenses. The government does not pay for board, lodging, or other living expenses.
 But the government does pay the student veteran \$50 a month if he has no dependents and \$75 a month if he has dependents.
 A veteran must apply for these education benefits within two years after his military discharge, or within two years after the war's end, whichever is later.
 A veteran can go to anyone of the following types of schools which has state approval as an educational institution: public or private, elementary, secondary, and other schools furnishing education for adults, business schools and colleges, scientific and technical schools, colleges, vocational schools, including industrial establishments.
Program Is Outlined
 If a veteran was under 25 years of age when he entered the service, it is taken for granted that his education was interrupted. He gets one year's schooling, automatically. He can get up to four, depending upon the length of his military service and upon his doing the school work satisfactorily.
 If a veteran was over 25 when he entered the service, he must show that his schooling was interrupted by the war. He gets one year and up to four depending upon his length of service and satisfactory school work.
 Any veteran wishing further details about the program—or about where he fits into it—should write to the nearest regional office of the Veterans' Administration.
 This should be remembered: Time spent in an Army or Navy special college training program does not count as part of the required 90 days of active service.

Antiaircraft Command Being Moved To Texas
 RICHMOND, VA.—(P)—Headquarters of the Antiaircraft Command of the Army Ground Forces will be moved from Richmond to Fort Bliss, Texas, October 15, the War Department announced Monday.
 The historic fort, near El Paso, already is the largest installation of the antiaircraft command. Located there now are the antiaircraft artillery school, antiaircraft artillery board, a large unit training center and replacement training center.
 The modern steel pen requires some 16 different processes in its manufacture.

Enlisted Bombardiers Receive Appointments As Flight Officers
 Two enlisted bombardiers, one a technical sergeant and the other a staff sergeant, who completed a total of 43 missions in the North African and China-Burma-India theaters of operations, received appointments as flight officers Tuesday at Midland Army Air Field.
 The new flight officers are Albert D. Mayfield, son of William J. Mayfield of Chetopa, Kan.; and Carl W. Bankston, whose wife, Rosemary, lives in Arabi, La., and whose parents, Mr. and Mrs. Andrew Bankston, live at Amite, La.
 Flight Officer Mayfield, who flew most of his 40 missions over North Africa and Italy, has been awarded the Air Medal with six Oak Leaf clusters. He served 11 months overseas, and received his bombardier training at Barksdale Field.
 Flight Officer Bankston, a veteran of 43 missions in the CBI theater of operations, has been awarded the Air Medal and a personal citation from General Claire Chennault, commanding general of the 14th Air Force and former chief of the Flying Tigers. He served 19 months in combat, and completed his bombardier training at MacDill Field, La.

Cards Favored

National Leaguers Favored 2 to 1 By Baseball Experts

By JACK HAND

ST. LOUIS—(AP)—Twenty-five hungry Browns who never cashed a World Series check and 22 Cardinals who've won three successive National League pennants Tuesday split this bulging old river city wide open on the eve of the first all-St. Louis world series.

Streetcar operators, bellhops and bartenders chewed your ear with retakes of Chet Laabs' two pennant-winning homers, and Sig Jakucki was boomed for "mayor." But the boys who say it with cash made the National Leaguers 1-to-2 favorites for the best four-out-of-seven series opening Wednesday at Sportsman's Park.

Rainy weather took away some of the enthusiasm Monday as Billy Southworth and his boys came home for the first time since clinching the flag to be greeted only by their wives, children and ticket-hunting relatives. The town, however, buzzed with baseball talk and both clubs reported a complete sell-out of reserved seats. Mayor Kaufmann issued a proclamation designating this as "Baseball Week."

"Fair and Cooler" At least 35,000 fans are expected to turn out for the opener with the weatherman promising "fair and cooler."

Luke Sewell had his Brownies out for a short drill between the rain drops Monday, and planned a lengthy dress rehearsal Tuesday morning, with the National Leaguers taking the field in the afternoon.

Neither manager has named his first game starter, but Mort Cooper (22-7) appears to be the natural for the Cardinals. Nelson Potter is the likely Brownie opener with his 19-7 record and his highly-trained screwball.

Consistently good pitching was the most important factor in the success of the Sewell crew all season and could be the turning point in this series which will be played on an every-day basis with the only off day between the sixth and seventh games.

Southworth can call on Lefty Max Lanier, Harry Brecheen and Ted Wilks to back up Cooper, but Lanier is a doubtful factor because of recent arm trouble. He is said to be ready but only an actual start will give the answer.

Sewell can back up Potter with Jack Kramer, Denny Galehouse, Bob Muncief and Jakucki, although Muncief is also on the sore-arm list. The Browns' staff is deeper than the cards and in good physical condition despite the grueling stretch drive.

The only ailing Cardinal is Left Fielder Danny Lithwhiler, who is bothered by a right knee injury. He told Southworth he was ready but it is possible the skipper might use Rookie Auggie Bergano in left field to give the club more left-handed hitting power against the American club's right handers.

Sewell's only southpaw is Al Hollingsworth, who hasn't started a game since July 27, and Sab Zoladak, who never has started a game. Although the teams met in a spring city series won by Southworth's champs four games to one, these figures can be tossed into the ash can because the Browns were missing many key men and both clubs were in the experimental stage.

Despite talk about St. Louis attendance (the Browns were last and the Cards fifth in the regular season unofficial figures) tickets are so hard to get that speculators are reportedly asking \$60 to \$75 for a three-game strip and \$30 for a single on Wednesday.

For the first time since Commissioner Kenesaw Mountain Landis took charge of baseball in 1920, the white-haired czar will miss the classic, remaining in Chicago under doctor's orders.

The commissioner, who will be 78 in November, is in a Chicago hospital, where his condition is described as "very satisfactory."

Sports ★★ Roundup

By Hugh S. Fullerton Jr.

NEW YORK — (AP) — Although there are five two-club cities in the major leagues, St. Louis is only the third to stage a World Series entirely within its confines. This series also will be the first since 1922 to be played all in one park. . . . New York had two like that before the Yankees moved into the stadium, but back in 1906 Chicago's Cubs and White Sox were virtual strangers from opposite ends of town. . . . Penn State's 98-13 football victory over Muhlenberg Saturday launched the Nittany Lions' 58th season of intercollegiate competition. It will be tough on the opposition when they get to be 100. . . . After looking at the movies of Clemson's 34-0 victory over Presbyterian, Coach Frank Howard of Clemson told one of his first-string guards: "You owe me \$1.20 for that midfield seat you had Saturday." . . . Wonder how much he expects to collect after that 51-0 trimming the Tigers took from Georgia Tech?

One-Minute Sports Page
Heavyweight Lee Oma has a pet canary which he has trained to do all sorts of tricks. But you'd better not try to associate "canary" with any of the numerous fights Lee has lost. . . . Ras Crowther, Penn line coach, says that after scouting Duke he realized Penn couldn't beat 'em by orthodox methods so he and George Munger cooked up a "muddled" defense that left the Blue Devils still wondering who they should block when the game was half over.

Service Dept.
Iceland's GI sports champions no longer get trips to England as a reward—reasons, rotation and temporary duty in the U.S.A.—but the guys who win the weekly boxing matches still get paid off in cartons of cigarettes, which isn't so bad these days. . . . Wonder what happened to that Maxwell Field, Ala. football team against Fort Benning Sunday? The advance dope from Maxwell listed nearly a dozen former pros, including Darrell Lester, Shag Goolsby, Kayo Lundy and Fouts Clements. . . . When the Fort Hamilton arena, the only soldier-operated boxing club, shut down for the season, it had grossed about \$100,000 with all profits going to the GI's—especially those about to go overseas.

No Cigaretts, So Women Smoke Pipes

PORTLAND, ORE. — (AP) — Four women war workers, unable to locate any cigarettes, are puffing away on pipes—and urging other women to follow suit. Does pipe smoking make them sick? "Well," coughed Mrs. Alma Hunt as the four began their third day of it, "not much."

St. Louis Browns' stock has enjoyed a decided boom as the result of the club's first pennant winner in 42 years. Bids of \$4.50 were offered in the market and one sale of 500 shares was reported at \$4.75. The price was up \$1.25 over last Saturday.

The Browns' winning percentage, .578, lowest in the history of the American League, was the exact figure by which the Cardinals won their pennant in 1925—a record. Both clubs won their pennants with 89 wins and 65 losses.

Bobby Scanlon, batboy for the Cardinals and the Browns, showed a mature wisdom when he decided he'd serve the "home team" in the series. . . . And he may collect a share of the swag from both clubs. The Brown already have voted him an unannounced cash award.

Facts And Figures On World Series

ST. LOUIS — (AP) — Facts and figures on the World Series opening Wednesday at Sportsmen's Park: Opponents—St. Louis Cardinals, champions of the National League, and St. Louis Browns, American League titleholders. Time of game—2 p. m. (Central War Time). Weather forecast—Cooler and no rain. Probable crowd—35,000 (capacity). Probable pitchers—Mort Cooper, Cards vs Nelson Potter, Browns. Betting odds—Cards 11 to 20 to take first game if Mort Cooper pitches. Order of games—First six games, if all are necessary on four out of seven basis, will be played on successive days with one-day skip between sixth and seventh games. Cards will be home team for first, second, sixth and seventh contests. Broadcast—Mutual System.

Maybe The Super Randolph Field Team Will Tri-Bowl

By HAROLD V. RATLIFF Associated Press Sports Editor

DALLAS—(AP)—It had to happen; it always does when there's a football team that appears head and shoulders above the field. Now comes the suggestion that Randolph Field's three teams—each rated as good as the other and all termed terrific—be distributed among the bowls on New Year's. In other words, send one to the Rose Bowl, one to the Sugar Bowl and one to the Cotton Bowl. If memory serves us right some such suggestion was made in 1941 when the University of Texas was wiping up the gridiron with its opponents and was hailed as the greatest team in Southwestern football history. Then came Baylor and Texas Christian and a tie and a defeat for Texas. Those upsets will rank with the greatest of all time.

No Prediction
This is not predicting that Randolph Field will be defeated. The Ramblers appear to have the stuff to bat down Texas and Southern Methodist by a comfortable margin. Other teams on the schedule are the Third Air Force, North Texas Aggies, Southwestern Louisiana Institute, Southwestern, Amarillo Army Air Field and March Field. There wouldn't appear to be a team in that group capable of taming the Ramblers.

From The Press Box

By JACK LIVELY

Plainview has the top team of the school's history.

This is the boast of Plainview and apparently it is a well founded one. The team is undefeated and has won its games by wide margins.

We still are harping on the fact that in their Childress game, Childress was forced to drop to a three man line in an effort to stop the Plainview passing marvel. And then it didn't stop him.

Coach Gene McCollum may leave center Edwards as the line and place the remainder of the team in strategic positions over the gridiron.

This will be something to watch and we will be there watching it. Team Scouted

A Midland scout who went to the Plainview game last weekend reports it not only has a one-man team, but that it has a running attack which clicks like a pre-war alarm clock.

Running and passing. The Midland Bulldogs are working out each evening this week solely in an effort to stop this running and passing. The coach is drilling pass defense into the boys like Ike Eisenhower is drilling into the Siegfried Line.

Last year, using an effective ground game, the Plainview team thrashed the Bulldogs 20 to 6. This year using aerial, running and plunging tactics, Plainview is a triple threat team that the Bulldogs will really have to set their teeth into to do any good.

We thought Pampa was "hot stuff" and look what happened. We also thought Midland didn't have a chance with Austin High's "college weight" team at El Paso and Midland took them like Grant was erroneously reported to have taken Richmond, Virginia. (Being a Virginian we will of course never admit that the Yankees ever invaded our sacred soil.)

Midland may take Plainview. We are going to pick them for a little personal bet anyway.

Browns Purchase
We see that the American League champions, the St. Louis Browns, have purchased three more players. Apparently the Browns already have their eye on a series of World Series pennants, like the Indians of old who, once they ob-

Conference Teams Working-Out Hard For Weekend Tilts

By The Associated Press

Southwest Conference football clubs Tuesday bore down in practice sessions with the opening game in the flag chase and two inter-sectional contests slated for the weekend.

Texas Christian and Arkansas play for keeps at Fort Worth Saturday when the two teams inaugurate the campaign for the conference championship. At Fayetteville, the Porkers, who dropped a 19-0 game to Oklahoma A and M last week, had a rigorous session Monday and Coach Glen Rose said he had hopes of beating T.C.U. this week. At Port Worth, Coach Dutch Meyer and the Horned Frogs stressed their passing attack, which helped them down the South Plains Army Air Field, 34-0, Saturday.

Two Inter-sectional Games
The two inter-sectional games find Rice meeting Louisiana State in Houston Saturday, and the Texas Aggies journeying to Oklahoma City to play Oklahoma. Bob Butch-Ofsky, Aggie back, is to see a Houston specialist this week for a jaw fractured in Saturday's victorious 27-14 game over Texas Tech, and may have to wear a special head gear if he plays anytime soon.

Coach Dana Bible of the Texas Longhorns said at Austin that because of minor injuries his team received in defeating Southwestern 20-0 Saturday, the club would take it easy this week in prepping for the Randolph Field game.

Jimmy Stewart's Southern Methodist Mustangs resumed hard work Tuesday for their game at Dallas Saturday against Southwestern. Stewart said the Ponies needed to show a smoother offense than they had in downing North Texas Aggies last week, 49-0.

tained a scalp, it was their duty to add scalp after scalp to prove their continued prowess.

New Browns are 22-year-old southpaw pitcher Stanwood W. Partherheimer and infielder Glenn Martin Crawford (a good name for a high flyer), the first from the Columbus, Ohio, farm, the second a player in the Texas League from Houston and the third, Henry Koch, another pitcher, from the St. Louis Cardinals' Lynchburg, Virginia, club in the Piedmont League.

Back To Football
Two of last week's victims, Texas Tech and Oklahoma A&M will meet Saturday at Lubbock.

But the big news of the coming weekend is the opening of the title race, Arkansas against Texas Christian. No other conference games will be played until October 21, when it will be D-Day for the rest of the conference members.

The schedule through a bomb-sight: Next Saturday: At Port Worth: Texas Christian vs Arkansas.

At Austin: Texas vs Randolph Field.

At Dallas: SMU vs Southwestern.

At Houston: Rice against Louisiana State.

At Oklahoma City: Texas A&M vs Oklahoma (night).

TIME WILL TELL THE WISDOM OF BUYING QUALITY

Time has a way of proving a man's faith in a quality label. Quality clothes look better, last longer and give a man added confidence in his appearance that help him do a better job.

Today the purchase of quality clothes is doubly important. That's why quality-minded men insist on famous, nationally-advertised Society Brand clothes—a name they know and trust.

Sturkie Resigns As County Agent

After serving as Midland County's county agent for more than three years, L. O. Sturkie has tendered his resignation to County Judge Elliott H. Barron, effective October 15. Sturkie has accepted a position with the Lederle Laboratories of San Antonio, manufacturers of vaccines for animals. Sturkie came to Midland in May, 1941, from McCullough County, where he was serving as county agent.

Whitewing Season Opens Early

WESLACO—(AP)—Ducks are winging down the Texas coast to the Rio Grande border, well ahead of the winter season and as far as ever, says State Game Warden Charles G. Jones, who surveyed a few flights of ducks while patrolling this area during the recent whitewing season.

Jones says that scores of small lakes left behind by Rio Grande floods should furnish good feeding places and considerable cover for ducks this season. He says that the tiny Bufflehead, once almost a rarity in this region, has come back and is now appearing in large numbers.

Police received a call at 12:43 a.m. Tuesday which represented a real emergency. A man's girl friend accused him of being out with another woman. The man called the police merely to prove by them he was sitting in a car in an alley with another man at the time his lady love said he was with the other woman. Police confirmed his story and all was sweetness and light again.

The first law making vaccination compulsory was passed in Bavaria in 1807.

Tax Payments Get Off To Slow Start

Tax collectors in Midland were not very busy Monday as the annual tax-paying season opened. None of the larger taxpayers made payment of county, city or school taxes. Several smaller payments were made. More than 50 per cent of the county and city taxes usually are collected during October as taxpayers take advantage of the 3 per cent discount offered for payment during October.
