Bovina, Texas

VOL. X, NO. 3

WHITTLIN'

BY DOLPH MOTEN

Back when he was farming at Oklahoma Lane, E. H. Young had a good optimistic outlook on the problem of weeds.

According to a report from one of his former farming neighbors, Mr. Young's theory was that "a Careless weed never did get so big that frost wouldn't kill it!"

He now confines his farming activities to his excellent garden on Third Street. We doubt that frost ever gets an opportunity to kill a Careless weed in that garden.

Nonetheless, we bet his Careless weed-frost theory was encouraging to young farmers who thought weeds were going to ruin their operation.

Bull Town Days are just a month away!

This year's schedule of events promises to be bigger and better than last year's and people by the thousands are looking forward to the three-day celebration with excited anticipation.

Plans are now underway for the Blade to have a special edition for the celebration. Special editions take extra work and extra help. We'll appreciate your help in providing us with pictures made in Bovina in days gone by which you think might be of interest to Blade readers. That issue of the paper will offer blanket circulation in Parmer County and we hope to make it a good one . . . with your help.

The pictures can be returned to you, undamaged, after we have used them. Just call us or bring the pictures by the office anytime in the next couple of weeks -- the sooner the better. The pictures will be returned to you immediately after the Bull Town Days issue is mailed. Your help will be appreciated. And besides that, you'll enjoy it!

If you thought your air conditioner wasn't working properly early this week, you were normal.

The heat wave struck! This caused air conditioners to not give out the overall cooling effect most folks had been used to. But the conditioners were probably doing as much as they ever had -- it just didn't seem like it.

Seemed from here as if the temperature was just a little higher than it's supposed to be on the Plains, even in July. Maybe the humidity made it seem worse than it was. Anyway, it was hot and people who commented as such received unanimous agreement.

Returning from a downstate weekend trip Sunday afternoon, we noticed the time-temperature bank clock in Levelland read "107." and that was the temperature figure. The time was later than seven minutes past one.

But there's nothing wrong that a good, slow two-inch rain wouldn't fix!

This is the month when most of The Blade's subscription renewals come in. Or at least we have more renewals during July than any other month.

This department greatly appreciates those fine, upstanding citizens who promptly bring in or mail their sub renewal.

Understand, one sub renewal is as important as another in our business. The reason, however, that we might be a little partial to those which come in during July is because that's the month when the old, original subs were due. In other words, people who subscribed back when The Blade was founded, and have continued to renew each year since, have a July expiration date.

That means that they've been renewing their subscription right on time every year for 10 years. We're proud of 'em.

Benjamin Franklin, 200 years ago, devised the first bifocal lens, explaining he was tired of carrying two pairs of spectacles.

An estimated six million persons in the United States have some degree of hearing loss.

1,000 ACRES--

Vegetable Harvest Gets Underway Here

NEW POLICY--

City Buys Police Car

City of Bovina has its first police car.

It's a new 1965 Dodge Dart purchased last week.

Meeting in special sessions Thursday and Friday, the city council voted to furnish an automobile for Marshall Bill Denney and to buy the car.

The auto was purchased from Riding Motor Co. in Portales for \$2200.

Denney had previously been paid a salary plus \$50 per month for car expenses with the understanding that he furnish-

ed his own car.

Under the new set-up, Denney receives the same salary of \$400 per month but the car and its expenses are paid for by the city.

Bank's Deposits Down

Deposits in Bovina's bank showed a slight decrease at the June 30 call in comparison with the previous year.

The deposits total was \$1,468,535.34. The total for 1964 at the same time was \$1,884,573.52. The figure in mid-1953 was \$1,508,340.24.

Loans were also down slightly from a year ago but were still considerably higher than they were at the same time in '63. Total loans this year as of June 30 were \$1,214,362.94. Last year's total was \$1,542,310.13. In '63, the figure was \$863,941.31.

Total assets and liabilities at the mid-way point of 1965 were \$1,766,434.95.

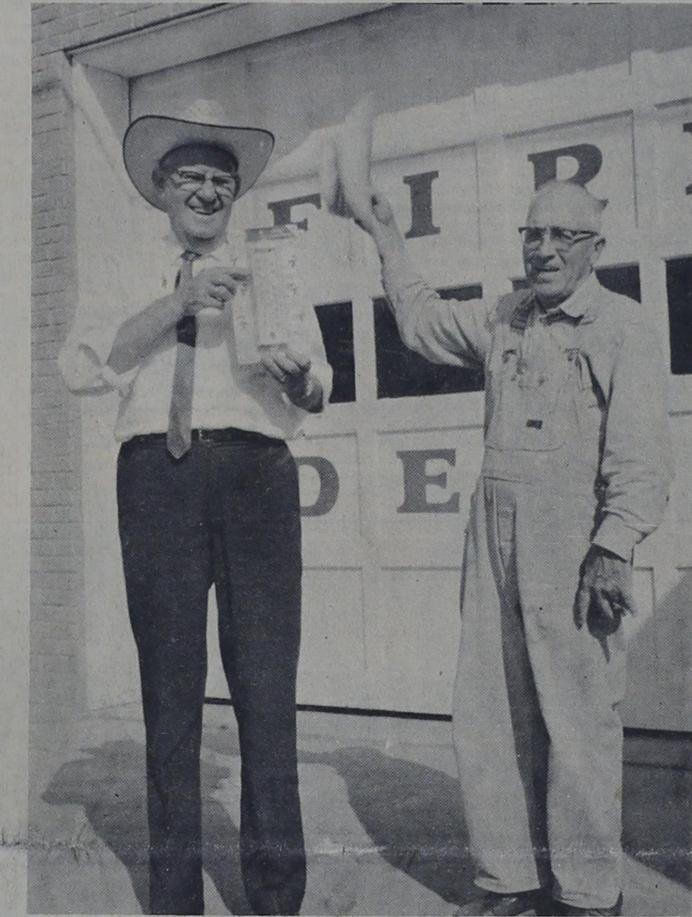

The bank's official statement of condition appears in this week's issue of The Blade.

Tim Kelly In Amarillo Hospital

Tim Kelly, son of Mr. and Mrs. Bob Kelly of Santa Maria, Calif., was admitted to Northwest Texas Hospital in Amarillo over the weekend with a blood clot in his leg.

He is expected to be hospitalized all of this week.

Tim has been visiting in Bovina with his grandparents, Mr. and Mrs. Odis White for the past few weeks.

HEAT WAVE! -- Weatherman Willie Williams points to the 100-degree mark registered on a thermometer as Wilbur Charles fans him with his hat during the first-of-the-week heat wave here. Temperature soared over the 100 mark Monday after the two previous days, Sunday and Saturday, were hotter than usual for this area.

★ ★ ★

Weather by Willie

Hot!
We could get a few scattered showers somewhere around the 25th of this month.

SEASON OVER--

Two Teams Tie In Little League

The Oklahoma Lane Eagles, the cellar team all season, played the role of spoiler in the year's final contest in Bovina Little League.

Playing the league-leading Bovina Wheat Growers-Bo-

vina Insurance entry Friday night, the Eagles managed for a 19-5 win. The loss by BWG-BI left them in a tie for the top spot with First State Bank-Lawlis Gin. Each of the teams had a 9-6 mark over the 15-game course.

The OL-BWG-BI tilt was the only game played last week. Originally scheduled for Tuesday night, it was postponed until Friday so some members of Oklahoma Lane's team could attend a church camp.

League play was nip and tuck throughout the six-weeks season with the top three teams continually battling for first place. This was probably the best balanced season since boys

baseball has been played here.

LITTLE LEAGUE

FINAL STANDINGS

Team	W	L	Pct.
Bank-Lawlis	9	6	.600
BWG-BI	9	6	.600
Gin-Gen	8	7	.532
Okl. Lane	4	11	.266

Leslie McCain In Hospital

Leslie McCain was admitted to Parmer County Hospital in Friona early Saturday morning.

He is expected to be released sometime this week.

Crop Prospects Looking Good

Vegetable harvest got underway here Saturday.

Cabbage and cucumbers are coming into the processing shed here. First shipments were made Monday, according to Charlie Flynn, owner of Gateway Produce Co.

Prospects for the vegetable crop "look good right now," Flynn reported this week.

Cucumbers are selling for \$3.50 per bushel and the price of cabbage is \$40 per ton, Flynn said.

Cantaloupes, which have received more publicity than any other vegetable grown in Bovina, are expected to be a few days earlier than normal this year.

Harvesting of cantaloupes is

expected to get started between August 1 and 5. This will be approximately a week earlier than normal for this area. Cantaloupes usually start coming in around the 10th of August.

The Bovina area has 1000 acres total, 385 acres are cantaloupes, according to Flynn, and the cantaloupe total acreage, too, is more than it was in 1964.

This is the first year for a vegetable crop to be harvested without bracero labor. Additional harvesting machinery and native workers are expected to handle the crop satisfactorily, native workers hope.

The Bovina area started producing vegetables on a commercial scale in 1958.

AT TEXAS A&M--

Herman Estes To Fire School

Herman Estes, secretary of Bovina Volunteer Fire Department, is expected to represent the organization at 36th annual Firemen's Training School at Texas A&M University next week.

This will be the second time for Estes to attend the school. Weldon Moody and Larry Webb represented Bovina at last year's session.

The school provides up-to-date training and information on the protection and prevention of fire as well as fire-fighting techniques, according to Pat Kunselman, chief of the department here.

Registration for the year's school, which attracts fire department representatives from throughout the state, is Sunday. Classes continue through Thursday.

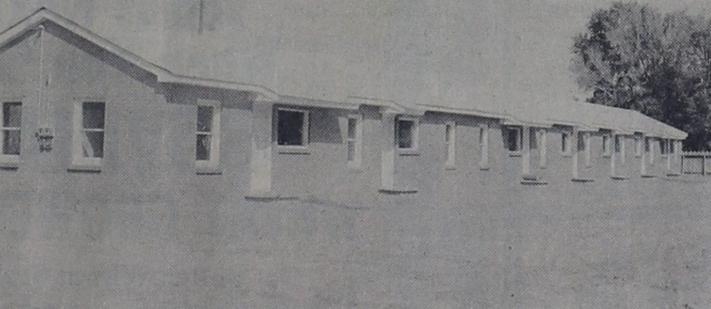

Bovina will receive three per cent fire insurance key rate credit for having a member of the department at the school. Four per cent credit would be given for two members attending and five per cent would be taken off if three or more attended the school.

At this month's regular meeting, Bovina's city council voted to provide \$200 each for two men to attend the school. Estes is the only member of the department who is interested in attending, according to Kunselman.

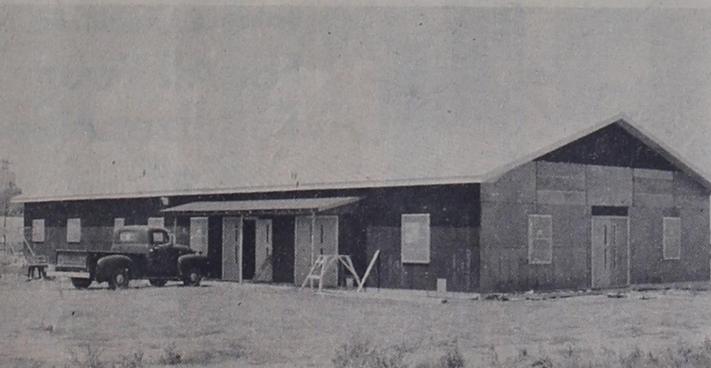

Kesler Still Owns Superior

Jack Kesler has retained ownership of Superior Electric Co.

An announcement in last week's issue of The Blade said that the business had changed hands. The deal did not go through and operation of the business will continue as it has in the past, according to an announcement from Kesler this week.

APARTMENT BUILDING READY -- This new apartment building on Fourth Street, owned by Don Sudderth, is nearing completion. The units will be ready for occupancy by August 1, according to Sudderth. The building contains 10 apartments. Six are two-bedroom units and four are one-bedroom.

CHURCH CONSTRUCTION -- Work is progressing on a new parish hall at St. Ann's Catholic Church on Third Street. The building, which is 40 by 88 feet, is expected to be completed in about 30 days, according to S. A. Brito and George Cervantez, carpenters for the project.

Four Girls Attending Band Camps

Four Bovina girls are attending band camps at West Texas State University and Texas Tech.

Pam Grissom, daughter of Mr. and Mrs. L.L. Grissom, and Karen Bell, daughter of Mr. and Mrs. Durward Bell, are attending classes in twirling and flute at Texas Tech. The girls will be there the remainder of the week.

Suzanne Wilson, daughter of Mr. and Mrs. A.M. Wilson, and Nancy Mitchell, daughter of Mr. and Mrs. Dean McCallum, left Sunday for two weeks at West Texas State University in Canyon for classes in drum majoring, twirling, and clarinet.

They all are members of Bovina Mustang Band.

Tuesday Night's Softball Results:

Jaycees 7

Second Game

Hammonds Hotshots
Over Oklahoma Lane
As Result Of 10 - Run Rule
After Four Innings.

FIRE'S OUT! -- Dickie Clayton is shown with a garden hose used to extinguish a trash fire at the home of his brother, Mr. and Mrs. James Clayton, nine miles northwest of Bovina Monday morning. The trash fire, which was burning in barrels at left, threatened to get out of hand and burn the building nearby. Bovina Volunteer Fire Department was called to the scene, but the fire was under control when firemen arrived and there was nothing left for them to do. A tractor comfort cover inside the building was destroyed by the flames.

Reflections

From
The Blade

I am happy to report that the Senate has unanimously passed the Drug Abuse Control Bill, which will increase controls in an effort to stop the illegal traffic and sale of pep pills, goof balls, and other stimulant and depressant drugs.

The bill has already passed the House and will now go to the President to be signed into law. I am proud to be a co-sponsor of this law which will curb the illegal and illegitimate use of these drugs.

For years our society has struggled to contend with the so-called hard narcotics menace, and we have felt that they were used only in the criminal and degenerate elements of our society.

Meanwhile, drugs, such as pep pills and goof balls that can affect the mind if abused in their use have invaded almost every segment of our society from truck drivers to housewives to our youth. Many of the tragic crimes in our society have been committed by people who were admittedly using these drugs to excess -- and the traffic in them has been steadily increasing.

These dangerous drugs have become popular with some students and some youths, even in our more stable neighborhoods. This bill is a needed control on the dangerous and socially harmful use of drugs. Legally, these drugs can be bought only on a doctor's prescription; however, testimony revealed that one half of the sales of these drugs were without prescription.

Under this bill there will be increased controls over the distribution of these drugs, strengthened laws regarding the bookkeeping and inspection requirements relating to the drugs and more control placed on the intrastate and interstate traffic or drugs. In addition, it will be made illegal to possess these drugs outside of the legitimate channels of commerce, in them, to discourage peddling and illegal distribution of the drugs.

This is an important bill in removing temptation from our youth and in removing a means of destruction in our society, and I am proud to be associated with its enactment.

Andrew Jackson, seventh president, seldom held cabinet meetings, but rather relied on a small group of advisors whom the newspaper dubbed the "Kitchen Cabinet."

Queen Anne of England (1665-1714) was so obese that she had difficulty in getting about, and in the last year of her life she had to be carried to the House of Lords in a chair.

THREE YEARS AGO, JULY 18, 1962
 Wendell Garner, Bovina farmer who was seriously burned in a wheat stubble fire three weeks ago, was transferred to a Galveston hospital Monday.

Fire did an estimated damage of \$6,000 to \$7,000 to the home of Mr. and Mrs. Warren Queen Monday morning. More than 600 people attended an open house hosted by C and C Construction Co. of Plainview at the new home of Mr. and Mrs. Nicky Foster and family Sunday afternoon.

Mrs. Bill Strawn was honored with a Coke party Tuesday afternoon at the home of Miss Virginia Embree.

Mr. and Mrs. Bill Crume of Lubbock became the parents of a baby girl, Olivia Loujean, Monday, July 9.

Miss Karry Mae Cordum became the bride of Joseph Zelmer, son of Mr. and Mrs. William Zelmer of Wautoma, Wisc., Saturday morning at First Baptist Church.

A bridal coffee in the home of Mrs. Wilbur Charles honored bride elect, Mardell Moore, Monday morning.

SIX YEARS AGO, JULY 22, 1959
 Tommy Williams was injured Sunday, when a horse he was riding fell on him. Williams' left leg was broken in two places. The accident happened on his father's farm.

Charles Corn, driver for Bovina Farm Chemical, escaped serious injury when his tank truck, loaded with ammonia, was demolished in an accident near Magnolia, Ark., Friday night.

All the children and grandchildren of Mrs. E. G. Free of Bovina gathered in Pomona, Calif. recently for a family reunion. The reunion was in the home of a daughter, Mrs. Albert Stone. Church of Christ of Bovina announces plans to build a new parsonage to be located just north of the church building.

Mrs. Harold Hawkins and daughters, Vickie and Debbie, returned home Saturday afternoon from a visit with her sister in Florida.

Bobby Redden, eight-year-old son of Mr. and Mrs. Eddie Redden, was honored with birthday festivities Friday. A number of friends gathered in his home Friday morning and went swimming. Later, Mrs. Redden, served hot dogs in the Reddens' backyard.

Mrs. Mary Paul of San Fernando, Calif., visited several days here with her daughter and family, Mr. and Mrs. Jack McCutchan and sons.

Two Bovina Future Farmers were awarded Lone Star Farmer Degrees at the 31st annual State FFA Convention conducted in Austin July 15-17. Arnold Kriegel and Sid Killough were awarded degrees.

Letters To The Editor

July 19, 1965
 Dear Editor:
 I have been reading with interest the articles about Bovina's Justice of the Peace. Sounds like some people think laws were made only for others. The Justices of Peace in Texas take an oath and they have a job to perform the same as the city, county and state law enforcement officers.

is 50 per cent of law enforcement and the stiffer the fine, the more effective it is.
 More power to your JP and I think you should be proud to have one like her.

Bill Horton
 906 N. 3rd
 Lamesa, Texas
 P. S. Please renew my subscription.

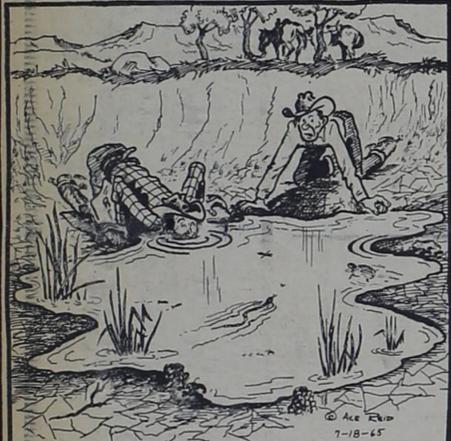

For ye, brethren, were called for freedom.

COWBOY WORK -- Shown "working" a herd of steers on Jesse Walling's place on Running Water Draw southeast of Bovina Thursday are Joe Wilson, who is branding the steer in the chute; Walling, second from left, who is dehorning the animal, Felipe Munoz, at left, assisting Walling; and Steve Walling, Walling's grandson and son of Mr. and Mrs. Tiny Walling of Fair Oaks, Calif. at right, whose job is to get the steers ready to enter the chute.

Labor Relations To Be Debated In High Schools

Students in some 10,000 high schools across the country will participate in discussions and debates on labor-management relations during the coming school year.

The three principal discussion questions are: "What share should labor have in the management of industry?" "What should be the policy of the federal government toward strikes in the basic industries?" and "What should be the policy of the federal government in regulating elections of labor organizations?"

The National Association of Manufacturers, Industrial Relations Division in New York has prepared a list of articles and authorities, as well as a complete kit, students may use in conducting research on the topics. It is available on request.

Three per cent of the adult population of this country suffer from rheumatoid arthritis.

The debate propositions include: Resolved: (1) That the federal government should adopt a program of compulsory arbitration in labor-management disputes in basic industries. (2) Resolved: That the

federal government should prohibit the requirement of union membership as a condition of employment. (3) Resolved: That the federal government should prohibit industry-wide collective bargaining.

Of Interest To THE WOMEN

Douglas, Bradford Vows Read July 11

Miss June Gay Douglas became the bride of Gerald Jamal Bradford in a double ring ceremony solemnized by candlelight in the Farwell Baptist Church Sunday afternoon, July 11.

Rev. J. L. Bass, pastor, read the ceremony before an altar centered with a large white gladiol and magestic daisies covered 15 pronged candleabra holding blue tapers and flanked on either side with two

candleabras, each decorated with white glads and daisies. These were interspersed with trees and pots of emerald fern. At the front of the altar was a satin-covered kneeling bench decorated with white daisies.

The bride is the daughter of R. L. Douglas Jr. and granddaughter of Mrs. R. L. Douglas Sr. Mrs. Loreta Bradford of Clovis is the groom's grandmother.

The bride was given in marriage by Henry Minter, a long-time friend of the family who took the place of the bride's father who was in the hospital recovering from an accident. The bride wore a formal length gown of white nylon over silk Peau de sole, with long-tapered sleeves, a scoop neckline with white daisies centered with seed pearls and a fitted bodice accented with a full skirt, white fabric roses and seed pearls adorned with a full train flowing from a bow attached to the waist. Her fingertip veil of illusion was attached to a seed pearl crown. The bride carried a white satin covered Bible topped with white stephanotis and lace. The bride's traditions of something old was a gold heirloom bracelet belonging to Mrs. Henry Minter, and she wore two blue garters.

The Maid of honor was Miss Tonya Vee Ivy of Bovina. She was attired in a street length blue dress with a circular skirt, three quarter length sleeves and a bodice featuring a sweetheart neckline. Miss Ivy carried an arm bouquet of white carnations and blue satin streamers.

Bridesmaids were Miss Sandra Patterson, Miss Lynn Loohey and Miss Dorothy Bowman, all of Bovina. All wore identical street length dresses of blue taffeta with three quarter length sleeves and sweetheart necklines.

Ringbearer, Kevin Hardage, son of Mr. and Mrs. Gene Hardage, carried a heart shaped satin pillow.

Laura Beth Doshier, daughter of Mr. and Mrs. Junior Doshier, of Farwell served as flower girl.

Candlelighters were Jimmy Redden and Billy Jay Charles of Bovina.

Serving as bestman was George Judah of Clovis, N.M., cousin of the groom. Grooms-

McCutchans Baby Boy Born July 15

Mr. and Mrs. Wayne McCutchan of Granada Hills, Calif., have a new son born July 15. The baby weighed 6 pounds and 12 ounces and was named Gary Don.

Paternal grandparents are Mr. and Mrs. A.R. McCutchan of Bovina and Maternal grandparents are Mr. and Mrs. Fred Roberts of Dumas.

The McCutchans are former residents of Bovina.

Shower Fetes Miss Boozer

Miss Drilma Boozer, bride-elect of Steve Hanly of Lubbock, was honored with a bridal shower in the home of Mrs. H.H. Kelso Saturday afternoon. The guests were served by Mrs. Lowell Boozer and Mrs. Delbert Morris from a table laid with the bride's chosen colors of blue and white. A lace table cloth centered with a boat-shaped bowl filled with

blue flowers graced the table. The guests were served blue cookies and lemonade.

Out of town guests were: Mrs. D.P. Brinker, Baileyboro; Mrs. Frank Griffith, Arch, N.M. Miss Laveda Smith and Miss Jennifer Smith of Midland; Miss Diane Lancaster, Mrs. Nelda Myers, Mrs. A.C. Myers, Mrs. Lester Lancaster of Hart; Mrs. Wyman Cooley, Mrs. Joe Handley, and Mrs. Russell Smith all of Lubbock; and Mrs. Marion Walker of Texico, N.M.

Local guests registering were Mrs. Paul Holcomb, Mrs. Frank Smith, Mrs. W.H. Rogers, Mrs. R.N. Williford, Mrs. Larry Webb, Mrs. E.M. Ware, Bonnie and Krita Morris, Mrs. E.E. Woefel, Mrs. Don Murphy, Mrs. Harold Jones, Mrs. Weldon Moody and children, Mrs. Kent Glasscock and Ginger, Mrs. Lowell Boozer and Mrs. Zemy Boozer.

Hostesses for shower Mrs. J.D. Stevens, Mrs. Travis Lloyd, Mrs. Delbert Morris, Mrs. George Douglas, Mrs. George Turner, Mrs. Jack Morris, Mrs. Jim Heard, Mrs. O.H. Jones and Mrs. H.H. Kelso.

PAT'S TER

By Pat Hawkins

How many people have used the city park this year? Notice that occasionally some children play there but it seems a shame that there isn't more use made of this public facility. Think that it would be an ideal place for a nice swimming pool.

Read an article the other day that will give you something to think about the next time you swat a mosquito. It may give you some comfort to know that you might be battling down somebody's nagging wife.

The nagging wife theory on how mosquitoes began originated in Viet Nam. There, legend has it, a young husband restored the life of his dead wife with a drop of his blood. She repaid him for his pains by scoring him as a petty fellow -- he should have given two drops of blood! Finally, perhaps to teach him a lesson, she left him for another man. Stung to the quick, hubby demanded she return the drop of blood. This she did and immediately fell against the dust. Slowly the dust changed into tiny grubs, which in turn changed into swarms of buzzing, furious creatures -- the first mosquitoes. Thus, the nagging wife is still nagging -- this time in the form of a mosquito.

Wigs for ladies are becoming more popular with the average housewife everyday. I can well understand why, with the fast pace we try to keep it is hard to find time to always look your best and the wig would certainly come in handy for last minute invitations and even special occasions that one would care to have a special hairdo.

Don't know about color. Have heard several ladies say that if given the choice of hair coloring they would pick one that is different than their own. However, this way it would be quite evident that the hair wasn't your own.

For ladies with a desire to wear false eye lashes and sun glasses at the same time, an American manufacturer is creating lenses to accommodate.

The lenses will be similar to bulging eyes of bullfrogs. Now this should be something to see. What with the larger round frames that are so popular and then to top it off with a bulge, think they will certainly create attention.

Have heard several remarks about some of the local teenagers hair styles and got the idea that it is acceptable for girls to adopt to the latest trend in hair styles but boys should go on looking like boys have looked for several years since the burr and flat top were made popular.

We think that it is fine to see the boys take interest in styles and changes made in their "men's world."

Can't see any difference in the long haired boys than the extremely straight hair the girls wear with bangs covering the eye brows. At least they look different from the adults and this is as should be . . .

Believe that the hair dos require more grooming than ordinary haircuts and grooming never hurt anyone.

men were Billy Minter, Larry Webb and Al Shamblin, all of Bovina.

J. B. Douglas, Friona, cousin of the bride sang "Together," "Whither Thou Goest" and "The Wedding Prayer" accompanied by Mrs. Mike Ellis of Friona on the organ.

The bride's grandmother chose a two-piece pink lace dress and black accessories and a white carnation corsage.

The groom's grandmother wore a blue lace dress and black accessories and a corsage of white carnations.

Following the ceremony, a reception was hosted in the Fellowship Hall of the church by Mrs. Henry Minter, Mrs. Travis Lloyd, Mrs. W. O. Chadwick, Mrs. Jack Patterson and Mrs. J. B. Sudderth.

The table was laid with a blue undercloth and a white lace tablecloth. It was centered with a blue and white floral arrangement flanked on either

side with blue candles. The traditional wedding cake was served from crystal appointments. Miss Judy Strawn and Mrs. Larry Webb served the guests.

Following the reception the couple left for a wedding trip to Colorado.

The couple will make their home in Clovis.

The bride is a 1965 graduate of Bovina High School.

The groom is a 1961 graduate of Portales High School. He is employed by Walters and Walters Construction Co. in Clovis, N.M.

COMMUNICATIONS — Your Tool for Progress

In case of fire, this telephone rings the alarm

In many of our towns, fire protection comes from a volunteer fire department. An effective communications system summons these volunteers by ringing all members' telephones at the same time. What's more, it is a distinctive ring which means "FIRE!" and brings firemen on the run. Here is another example of how Communications becomes a Tool for Progress — a communications service of great value to every town with a volunteer fire department. For full information about our many communications services, please call our Business Office.

GENERAL TELEPHONE

Parmer County Vegetable Harvest Is Underway

Vegetable harvest in Parmer County got underway on July 8 when some potatoes and onions in the Friona area were dug. The harvest is expected to continue for the next several weeks, but is due for completion by the end of August.

Producers of potatoes and onions in the Hereford area began harvest a little earlier than did farmers in the Parmer County area say vegetable growers.

The number of acres of spuds and onions in Parmer County this year is about the same as in 1964, despite the fact that several potato producers of previous years, in adjoining counties, did not plant potatoes this year.

John O'Haugerty, salesman for Friona Growers and Shippers, who has come to Parmer County for the past 12 years to assist with harvest operations (handling sales for his company) says his company has 150 acres of spuds and 50 acres of onions.

In addition the company is producing 50 acres of cabbage, several acres of cucumbers and also some carrots. Cabbage and cucumber harvest will begin in the near future, although carrot harvest will not begin until October.

Due to the shortage of acres planted to spuds in other areas of the United States and unfavorable weather conditions in some potato producing areas, potato prices locally are GOOD—with number 1 spuds bringing \$7.00 to \$9.50 per hundred in Parmer and Deaf Smith Counties. Number 2 spuds are slightly less. Potato producers will realize some \$1,000 per acre from this year's crop if the market holds.

Another reason advanced by O'Haugerty for the high price of potatoes is the demand for frozen and dehydrated spuds, which have been on the market only a few years. Also given as a reason for the high market price of spuds by O'Haugerty is the fact that French Fried potatoes are a must with many foods served by restaurant owners and those who cater to the teenage crowd at Drive-Inn eating places.

Onion prices are also good this year with a 50 lb. bag selling for no less than \$2.75. Friona Growers and Shippers is one of the largest vegetable producers in Parmer County. They employ some 30 persons in the packing shed during the busy season and an additional 75 in the field.

It has been a little harder to get adequate help this year ac-

ording to O'Haugerty, since the elimination of the bracero labor law. Most of the persons employed by his company are migrant Spanish-Americans who follow the vegetable harvest from one locale to another.

The only harvest activity in the Friona area on Friday was in the onion fields where some 50 persons were clipping onions. The average wage paid for clipping onions is 15¢ per basket. Carlos, foreman of the field crew explained that a good worker can clip as many as 120

baskets in a day. Other wages paid the harvest workers compare favorably with those in similar jobs, with a minimum wage set for the persons employed.

Farmers producing vegetables for Friona Growers and Shippers are A. L. Black, John Renner, J. B. Sneed, H. J. Wells and Kenneth Neill.

Most of the potatoes grown in this area are shipped to the southeastern states, said O'Haugerty who says his company grows mostly red potatoes.

No trouble to fill a basket here said Richard Martinez, 14, who is an experienced onion clipper. "Oh! I can fill approximately 100 baskets in a day," said this lad who has migrated to Parmer County from New Mexico for the potato and onion harvest.

Carlos, (in the foreground) foreman of the field crew, encourages lagging workers by gathering up a handful of onions to demonstrate how easy it is to clip five or six onions at the same time.

On The Farm In Parmer County

By JOE VANZANDT
County Agent

COTTON INSECTS

During the past week we inspected several cotton fields in the Bovina area and found some bollworms, lygus bugs and fleahoppers in just about every field. Two fields had 20% square damage, which is high for this early in the summer.

We have seen and heard of other bollworm, lygus and fleahopper infestations over the county. Therefore, we believe every cotton producer needs to check his cotton fields for bollworms, lygus bugs and fleahoppers. All three of these insects can and very likely will cause some damage to our cotton.

INSECTICIDES

Insecticides recommended for bollworms control follow with the pounds per acre of actual insecticide in parentheses: A. Strobane-DDT, 2-1 mixture, (3.0 to 4.5), B. Endrin + DDT (3 to 5-1.0 to 1.5) C. Toxaphene-DDT, 2-1 mixture, (3.0 to 4.5) D. Sevin, (2.0 to 3.0) TDE may be substituted for DDT in any of the above mixtures. Add .5 to 1.0 pound of methyl parathion to one of the above recommendations where tobacco bollworms, beet armyworms or resistant bollworms are encountered.

HOW TO CHECK FOR BOLLWORMS

Examine the terminal buds (upper 3-4 inch of plant) of 100

cotton plants and 100 consecutive squares and bolls at each of several points in the field. Begin treatment when bollworm eggs and four or five young worms are found per 100 terminals or 5% of the small squares and bolls have been injured by small bollworms. Make additional applications as needed. Check fields closely two or three days after each application to be sure of effective control. If needed, repeat application immediately using one recommended material plus methyl parathion.

COTTON IRRIGATION

A lot of cotton is blooming now and should be receiving a good irrigation. Generally irrigation should be timed as closely as possible to appearance of the first white blooms.

Highest water requirement of cotton plants occurs at peak bloom stage. At this stage, cotton will use one-fourth to four-tenths inches per day. This compares to less than one-tenth inch per day for cotton plants from emergence to squaring stages. From white bloom to peak blooming stage, cotton plants will utilize one-tenth to one-fourth acre-inches water daily.

Several years research at South Plains Research Extension Center, Lubbock, has shown a six-inch preplant irrigation plus two four-inch postplants gives maximum yields with top net returns in normal growing seasons. Observation of a water cut-off date is very important. In Parmer County water should be cut-off by August 20.

BAGWORMS IN EVERGREENS

Now is the time to check your Evergreens, (Junipers, cedars, Blue Spruce and etc.) for bagworms. The bagworm larva feeds on foliage after hatching in late spring or early summer. The young worm spins silken sac and attaches bits of leaves as it feeds. The worm carries bag wherever it goes. Full-grown worm has bag 1 1/2 to 2 1/2 inches long. Wingless female crawls out and dies after laying eggs inside bag.

Insecticides recommended are Lead Arsenate, Malathion, Sevin or Toxaphene.

Apply insecticides early while worms are small. Chemical controls are ineffective when worms are full grown. Hand pick and burn bags, because the winter is passed in egg stage within bag.

BOYS 4-H CAMP

Last Friday night we made

THE HIGH PLAINS FARM AND HOME

Farm Safety Week July 25-31

Whether you live on a farm or not, National Farm Safety Week, July 25-31, should serve as a reminder to you to promote safety in your home community and on the highways.

Accidents in the home and on the farm take a terrific toll each year, says the Texas Farm and Ranch Safety Council and most could be prevented. They cite a breakdown of the latest figures as evidence of the ter-

rible toll. Last year, nationally, over 8,000 farm residents died from accidents and nearly 800,000 were injured. The cost of these accidents has been placed at \$1.5 billion.

President Johnson in proclaiming the special week said, "This tragic and needless waste of human and economic resources is detrimental to the well-being of the Nation. I therefore view farm safety as a matter of vital concern."

"I urge all farm families, and all people and organizations allied with agriculture, to engage in a united effort to reduce accidents at work, in homes, at recreation, and on our Nation's highways and roads."

Co-sponsors of the 22nd annual National Farm Safety Week are the National Safety Council and the U. S. Department of

plans to have our annual Boys 4-H Camp, August 2-5 in Holy Ghost Canyon, New Mexico. The Camp fee is \$8 and any 4-H member wanting to go must get his money to the County Agent's office immediately.

Also, we need some more men to go and furnish some transportation. At the present time we do not have enough pick-ups going to carry all of the boys. If you can go contact the County Agent, Carl Schlenker or Roy M. Miller.

CROP DEMONSTRATIONS

Every year many farmers do a little experimenting on their own. A lot of interesting things show up on some of these trials from time to time. However, all too often very few people know about these trials.

We are interested in hearing about some of these trials you have had on your farm this year. Whether it is fertilizer, herbicides, pesticides, irrigation, land preparation or whatever. We would like to know about these trials now during the growing season, and also the results after harvest. It doesn't matter whether they show up good or bad because we can benefit by learning what not to do as well as what to do. Call or come by the County Agent's office in the Courthouse if you have something interesting to report.

Ginners Oppose New Farm Bill

Texas farmers are facing a drastic reduction in cotton acreage if the proposed farm bill passes the House. Best estimates indicate that contrary to the House Agricultural Committee's figures, Texas cuts in acreage would be in excess of 35%. Texas in the past has enjoyed considerable success in getting unused acreage released and in shifting this acreage to farmers who desired to grow cotton.

The proposed omnibus farm bill would eliminate for all practical purposes the release and reapportionment feature of the present law. Last year there were 5,850,000 acres planted to cotton in the State. Estimates indicate that under the proposed bill, acreage would be reduced by 2,102,000, a reduction of 35.91%. Translated in terms of income, assuming that crop conditions will be about the same as they were last year, this would mean a reduction of 1,462,992 bales of cotton worth \$219,500,000 to Texas cotton farmers.

Non-farm individuals and related organizations are encouraged, by the Council, to participate in this special emphasis week promotion for the prevention of accidents everywhere. Adopt safety practices in your work, recreation and everyday living and encourage others to do the same, advises the Council.

The Texas economy, however, would be decreased by a figure approaching one billion dollars since it is a well established fact that cotton multiplies itself in the channels of trade five or more times. Many producer groups, it is reported, are voicing opposition to the reported bill. The Texas Cotton Ginners' Association is definitely opposed to the acreage features, as it will mean a general reduction of income for this vital group of processors. The average gin in the State processes around 3,300 bales annually, consequently, the entire production from 443 of the State's 1,308 gins would be eliminated. Besides the drastic effect on the State's economy and the cotton ginning industry, drastic acreage reduction would curtail the individual farmer's efficiency by increasing his cost of production, which is directly opposite to what the bill is designed to do. House Agriculture Committee reports indicated a need to temporarily reduce acreage by only 15%, which the industry said it could stand.

Beef Supplies, Prices Level Off

Beef supplies and prices are leveling off somewhat this week. They are expected to remain at the same level for a time, says Mrs. Gwen Clyatt, Texas A&M University Extension consumer marketing specialist.

Features in beef cuts will vary, however, from store to store. Smoked meats, such as ham, picnics and bacon, have been moving upward for the past several weeks. Pork liver and lard have shown the smallest increases. The supply of pork this summer is considerably lower than last year. An increase in supply is not expected this summer or early fall.

Frying chicken has been increasing in supply, and there are some features in this easy-to-cook meat. The fryers are running heavier in size, thus giving more meat in proportion to the bone. Large-size eggs continue to be a good value. Some locally-grown produce continues to come to market. Most fresh vegetables are of good quality.

Blackeye, cream and purple hull peas are plentiful. Tomatoes, eggplant, radishes, green onions, celery and carrots are good vegetable choices.

There's plenty of sweet corn for boiling or roasting. Lettuce heads are running small, but the quality is improved. Snapbeans are nice in quality, but prices are relatively high. Squash and cucumbers are in limited supply.

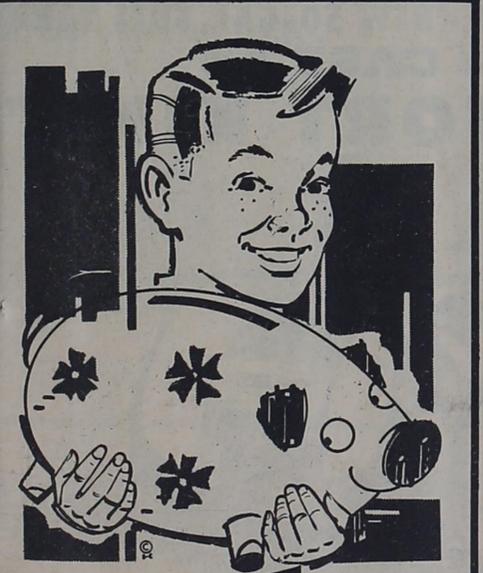

Dairy departments hold a variety of choices for refreshing drinks, snacks and desserts. Featured items -- found at slightly lower prices -- are ice milk, sliced cheeses, orange juice, and some brands of ice cream.

Peaches and seedless grapes are reflecting a downward price trend as supplies increase. Apricots, nectarines, Santa Rosa plus, Bing cherries, pineapples and blueberries are on the market at various price levels. And cantaloupes and watermelons are still plentiful.

Kathryn Gober, Ann Blackstone, Winners In County Dress Revue

Representing Parmer County, in the Senior District 4-H Dress Revue July 20th in Amarillo will be Kathryn Gober of Oklahoma Lane 4-H Club, Ann Blackstone, Lazbuddie 4-H Club, will model her garment in the 4-H Junior Division in the same event, according to Co. Home Dem. Agent, Cricket B. Taylor.

Kathryn, daughter of Mr. and Mrs. Webb Gober of Oklahoma Lane and Ann, daughter of Mr. and Mrs. Harvey Blackstone of Lazbuddie were chosen from 41 girls participating in the recent Parmer County 4-H Dress Revue in Friona.

Those participating were: Jeannie Morris, blue ribbon; Terina Whalen, red ribbon; Lynn's Widmer, white ribbon; Linda Howard, red ribbon; Deborah Harding, blue ribbon; Lupe Hernandez, red ribbon; Rebecca Hernandez, blue ribbon; Jan Jamison, red ribbon; Carlene Schlenker, blue ribbon; Pamela

Jarecki, red ribbon; Mary Cole, blue ribbon; Rhonda Bauer, blue ribbon; Carol Morgan, red ribbon; Karene Hart, red ribbon; Patsy McVey, red ribbon; Linda McVey, red ribbon; Vickie Schuler, blue ribbon; Pamela Nance, red ribbon; Kittle Warren, red ribbon; Linda Hart, white ribbon; Gay Rundell, red ribbon; Maxine Broyles, blue ribbon; Marilyn Fred, blue ribbon; Carolyn Herington, blue ribbon; Cheryl Boling, blue ribbon; Joyce White, blue ribbon; Polly Dollar, blue ribbon; Bessie Bowery, blue ribbon; Irene Bowery, red ribbon; Lynn Rundell, blue ribbon; Lynne White, blue ribbon; Sheree Rundell, blue ribbon; Cheryl Kaltwasser, red ribbon; Ann Blackstone, blue ribbon; Charlotte Davis, red ribbon; Patrice Broyles, red ribbon; Kathy Gober, red ribbon; Kathryn Gober, blue ribbon; and Janis Billingsley, blue ribbon.

Others assisting with the

Dress Revue were; Narrator, Mrs. Beryl Fish, Friona, Kevin Katwasser, Steven Kaltwasser, Larry Jones and Allen Gober of the Oklahoma Lane 4-H Club. Also Leslie Jarecki, Friona 4-H Club, who served as ushers and helpers during the dress Revue.

The Northside Home Demonstration Club decorated and furnished the music for the event.

Sandra Bean of Friona and Cynthia Hanna of Hereford gave training to the 4-H girls in modeling.

Judges were: Mrs. Arlyn Draper, Home Demonstration Agent, Deaf Smith County, Cynthia Hanna, Senior 4-H, Deaf Smith, Miss Rebecca Gaddis, Home Demonstration Agent, Castro County, Miss Laura Hickey, Home Economist, Southwestern Public Service, Clovis, Miss Eva Dean Ivy, Friona, College Home Economist Graduate, Mrs. Jimmy Briggs, Lazbuddie, and Katie Blackstone, Senior 4-H Junior Leader.

4-H ACTIVITIES

The county 4-H Dress Revue is over and it was a most colorful and lovely sight to see. The 41 girls modeling their garments lived up to the theme of show which was "A Pretty Girl is Like a Melody."

The Revue was the largest to be held in Parmer County. Some 150 people attending this revue expressed their appreciation for the event and highly praised the work of these 4-H girls.

Kathryn Gober was high score winner of the Senior Division with her very lovely green two piece garment, Janis Billingsley a red one piece garment.

Ann Blackstone of Lazbuddie 4-H Club took top honors with her print one piece garment and Maxine Broyles was second, also from Lazbuddie Club. There were 22 blue ribbons awarded. The construction and appearance of the garments on the girls reflected their skill in choosing fabric as well as the construction.

The boys assisting the girls off the stage, Leslie Jarecki and Larry Jones proves beyond a doubt that chivalry is not dead. Allen Gober, Kevin and Steve Kaltwasser looked very

"sharp" in their dressup suits, helping as ushers and handing out programs. They were appreciated too.

It was a big day for 4-H girls, parents and leaders too.

4-H BAKE SHOW is the next County event coming up Friday, July 23, at Friona. It is hoped that a large number of girls will enter this event. The top winner in the County may compete in the District Bake Show during the Tri-State Fair in Amarillo and have a chance to win the one hundred dollar bond, as the District prize.

TO DISTRICT 4-H CAMP

Six 4-H boys and girls and two adult leaders are preparing for the Electric Camp to be held July 26, thru 30th-high in the mountains of New Mexico at Scott Able 4-H Camp. Those who plan to go are: Jan Jamison and Linda McVey, Friona; Kathy Coker of Lazbuddie; Dennis and Jody Fallwell of Friona and Charles Bowery of Farwell.

Adult leaders attending are Mrs. Roy Miller of Lazbuddie and County Agent, Joe Vandant.

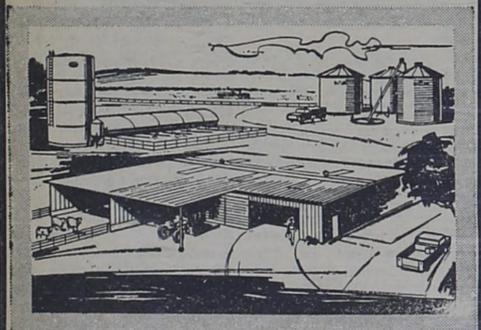

Parmer County girls and boys will have charge of Recreation for one evening during the Camp. They met with the County Agents recently and planned the activities for the evening. A total of 22 Counties will be represented at the Camp.

4-H members truly learn to do things by doing them, and the Electric Camp will be full of learning experiences.

Some Day or Night— This emblem may save your life

WHY IT'S IMPORTANT

Low speeds are dangerous! They cause more, worse, and more costly accidents than average speeds. In one-third of all highway accidents studied recently, one driver was going at least 30 miles an hour slower than the other. Very slow speeds has the greatest effect on the number of accidents.

You are least likely to have an accident if you drive at the average speed of vehicles on the highway you're traveling. During the day, a driver traveling at a speed of 20 miles per hour on main rural highways is about 100 times more likely to become involved in an accident than a driver traveling at a speed of 65 miles an hour.

Nearly half of all accidents were either rear-end collisions or same-direction side-swipes. About 46 per cent of day and 40 per cent of night accidents were of this type.

As expected, rear-end and angle collisions tended to increase as the number of intersections per mile increased. Since most farm tractors and machinery rarely travel long distances on highways, the more intersections and driveways there are the more likely slow-moving vehicles are to be on a given road.

THE SLOW MOVING VEHICLE EMBLEM

This SMV emblem:

* Was designed specifically

Parmer County 4-H Bake Show July 23

The Parmer County 4-H Bake Show will be held Friday, July 23rd at the Friona State Bank Community Room, Friona, beginning at 1:15 p.m.

All 4-H girls and boys who were enrolled in Food Projects are eligible to enter the Bake Show.

Products to be exhibited are Angel Food Cake and Sweet Milk Biscuits.

Mrs. Cricket B. Taylor, County Extension Agent of Parmer County will be in charge of the event. Participants are asked to bring card tables for their displays.

to identify Slow Moving Vehicles ONLY.

* Is the best emblem shape of 20 tested.

* Can be seen and identified at 500 feet or more under practically all driving conditions -- day, dusk, and night.

* Is made of fluorescent yellow-orange, the most visible color in daylight, and reflective red material that is highly visible in headlight beams at night.

* Is easily mounted on most farm, highway maintenance, and construction equipment.

* Requires no electricity.

* Is always the same size, shape, color, and pattern for all slow-moving vehicles.

* Is used in addition to present warning lights and devices required by law.

* Is inexpensive, durable, available, and movable.

* Does not interfere with operator, operator vision, or machine function.

You can get information on where to buy an SMV Emblem from your county agent or the Farm Department of the National Safety Council, 425 North Michigan Avenue, Chicago, Illinois, 60611.

SPECIFICATIONS

Whether you are an operator of a slow-moving vehicle on the highway, or a motorist who may encounter a slow-moving vehicle, this emblem has been developed to help protect YOU.

If you are operator of a slow-moving vehicle your SMV Emblem should meet these specifications and be displayed as shown.

Size -- 16" wide and 14" high.

Shape -- Equilateral triangle, one point up, points cut off, edges smooth, and corners slightly rounded.

Border -- 1 3/4" dark red, highly reflective, beaded material.

Center -- 12 1/4" triangle of yellow-orange fluorescent material.

Backing -- .040" aluminum sheet or 22 gauge mill-galvanized or primed sheet steel to which the reflecting and fluorescent materials will stick permanently.

Location -- Rear of vehicle, center of mass, and 3 to 5 feet above ground.

Use -- ONLY on vehicles designed to travel 25 MPH or less on highway. Does NOT replace other lights or devices required by law.

Mounting -- Portable emblem may be mounted on a "key-stone" bracket either directly on tractor or implement, or on a staff designed for it. The reflecting and fluorescent materials may also be permanently mounted directly on a large, flat, properly prepared, vertical metal surface.

House Agriculture Committee members gave final approval July 15 to H. R. 9811, a four-year omnibus farm bill complete with provisions for cotton. Committee Chairman Harold Cooley expects to get the bill through Rules Committee and to the House floor by about July 27.

H. R. 9715, without substantial change, is included in the omnibus measure under Title IV. However, since the last report in this space, four additions have been made to the cotton section. Cooley describes them as "refinements." They are:

1. Under the new authority for the Secretary of Agriculture to make direct payments to farmers, the producer would receive 50 per cent of his payment at the time he signed up in the program. He would receive the remainder only when he sold the cotton or when the government took title to it at the end of the marketing year, July 31.

2. Producers are authorized to assign direct payment checks under the program to private lending agencies for purposes of securing production loans.

3. Under the bill's authority for sale and transfer of allotments, a farmer who sold his allotment would not be permitted to plant cotton on his farm for five years. A farmer who leased his allotment could not plant cotton within the period of the lease. Thus, farmers who sold or leased their allotment would not be able to go into unlimited production under the "open end" section of the bill.

4. Under the cropland adjustment program, the Secretary can not buy up cotton allotments permanently at a rate more than 25 per cent above the rate he is paying for "renting" these acres under the payments program.

Supporters of the measure claim it will accomplish four major objectives, all highly commendable. The question is: Will it in fact do all its proponents say it will do? And if so, for how long?

FIRST, supporters of the measure assert it will protect producer income. And it can be conceded for 1966, and perhaps even for the life of the bill, that producer net would not suffer appreciably. But under this bill the producer would be dependent on a government check for from 40 to almost 70 per cent of his income. If government stocks of cotton and the corresponding costs are reduced as expected, how long will Congressmen and Senators stand still for this? Inevitably the cry will go up that the government's cost is too high, and the only logical place to cut

will be at the throat of the cotton producer -- either through reduced payments per pound or limitations on payments to an individual.

To further enhance their estimates of producer income under Cooley's proposal, its backers say cotton will sell at a price above the loan level. But in order for any commodity to sell at increased prices, there must first be a short supply. With provisions in the bill for sale of CCC stocks at market prices to make up for any "shortfall" between production and combined domestic and export needs, just how will a short supply develop?

It should be noted as well that producer income protection is only on the domestic part of his production -- 65 per cent. With such a drastic cut in acreage, per unit cost of production can not help but go higher, bringing on the necessity for an ever-increasing payment from the treasury if producer income is not to suffer. As the needed payment goes up, so will the clamor for cutting government costs go up, with the cotton producer in the middle.

These are inescapable developments. And as they take shape, the cotton producer will find his promised income protection no stronger than the languishing cotton industry that can be expected under this bill.

SECOND, it is said that cotton exports would increase under H. R. 9715. In fact, the bill leaves completely on his own any cotton grower who would produce for foreign markets. How many U. S. farmers, with government protected prices on every production input, can compete in a free world market? The bill would again make the proven mistake of holding a price umbrella over foreign cotton producers. Only this time the umbrella would be lowered to 21 cents from the current 23 1/2 cents.

Would not foreign producers simply sell at just below our 21 cent cotton leaving us once more as the residual supplier? It has been established that our fair share of the world cotton market is about 7 million bales annually. And one of the Department of Agriculture's own economist, Frank Lowenstein, says the price for U. S. cotton would have to drop to about 16.5 cents per pound in order to reach that level. How much increase in exports, then, can we expect with a fixed export price floor of 21 cents?

Further, support for this bill makes it appear the Department has no interest whatsoever in seeing cotton exports grow. On the one hand Cooley's proposal offers the opportunity to produce without restriction for

either export or domestic consumption. On the other it offers to pay producers not to produce. Followers of the Cooley concept may argue that the unlimited production would be at no cost to the government and therefore not a government concern. But is this true? Can these unlimited producers fail to have an effect on the markets of those who cooperate with government restrictions on production? Certainly not.

By its economic pressuring of farmers to produce only for the domestic market, the Cooley bill will not increase exports, but will eventually eliminate them. Whether or not this is the deliberate intent of the bill and the administration is open to question, but the devastating effect on the cotton industry would be the same.

THIRD, the administration and other Cooley bill pushers maintain that cotton would move into the channels of trade instead of into the government loan. Less cotton would, indeed, go into the loan, simply because less cotton would be produced, not because more cotton would be moving to the trade as they infer. A substantial part of each year's crop has gone into the loan because of administrative policy which encouraged a "take it in the front, sell it out the back" situation. Nothing in the proposed bill would prevent the same policy from being followed in the future.

It is also argued that the market price would be above the loan level, causing cotton to sell. But as was pointed out before, this is a slim possibility so long as supply exceeds demand.

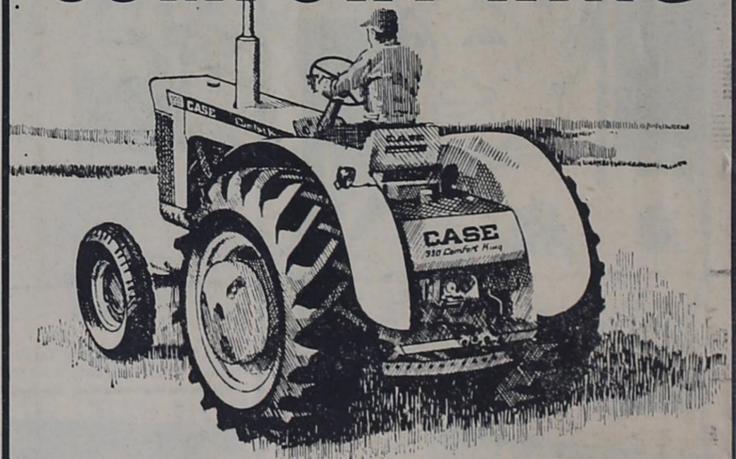

In the long run, Mr. Cooley's cotton program points the United States toward the production of less and less cotton on smaller and smaller acreages at higher and higher per-unit costs. Obviously this is no way to build an industry or to protect those who depend on it.

In contrast, the Cotton Producers Legislative Committee proposal, which Plains Cotton Growers, Inc. had a substantial hand in developing, would take us in the opposite direction. Flexible support payments to anyone guarantee consumption, with the amount of the payment determined by market prices, would keep U. S. cotton in world markets and provide competitive price to both foreign and domestic mills. Producer income would be preserved, effectively, by retaining the loan at current levels. Voluntary acreage diversion would cut production until such time as the level of surplus stocks and market demand justified production increases.

NEW COMFORT • NEW 50-GAL. FUEL TANK NEW CASE. 930 "COMFORT KING"

The Case 930... world's fuel economy champion* of all current model 6-plow diesels, and equally as famous for low maintenance and brute lugging power... hardly needed added laurels. But now there's a new and greater 930... the 930 Comfort King... to give you new operating ease, new operating efficiency --

"CONTROL TOWER" VISIBILITY -- you sit high and forward, well above the dust and heat zone. COMPLETELY ADJUSTABLE SEAT positioned ahead of the rear axle for a smoother ride. BIG ROOMY UNCLUTTERED PLATFORM with plenty of leg room to sit or stand in comfort. 15 HOURS WITHOUT A REFUEL under average conditions -- thanks to the new 50-gal. diesel (48-gal. LP-gas) rear-mounted fuel tank. We're ready to demonstrate!

Church Chuckles by CARTWRIGHT

"My views on God are private, gentlemen. I can't risk losing the votes of agnostics and atheists!"

HEBREWS 10:25

Not forsaking the assembling of ourselves together, as the manner of some is; but exhorting one another; and so much the more, as ye see the day approaching.

The Importance of Church Attendance

"Forsake not the assembly" is a passage quoted many times from the pulpit. This is one of the most important commandments in the Bible, but it seems as if some people let it go in one ear and right out the other. These people do not realize the importance of church attendance. The privilege of attending church in America was fought for and won by our forefathers, just as important is using this privilege because it is a privilege. People who attend church are doing the least they can to show their appreciation to God for sending his only son to die for the remission of our sins. The importance of attending church is undescrivable, in my opinion. It should be one of the basics in a family schedule. Not just Sunday morning services should be attended, but all the services held by the church. There is really no excuse for missing a service of the church, except in a case of sickness or death. When a regular attendee starts making small excuses up for missing a few services, then he may become a part-time attendee. Again, this person does not realize the importance and his obligation to be at church. Although we are free to attend church if it is our desire, we should feel it our obligation to go to church and be there on time. Most people would think it outrageous to be late to a dance or a ballgame. But what about church? It does not bother one at all when he is five or ten minutes late. A bad habit for church goers is to get there about two minutes before time to start. Being late, when it could be helped with very little effort, is almost as bad as not being there at all. Think it over. Don't you feel you owe it to God?

Shower For Judy Roach At Okla. Lane

Miss Judy Roach, bride-elect of Roger Ezell, was honored with a shower in Fellowship Hall of the Oklahoma Lane

Methodist Church Thursday afternoon, Mrs. L.L. Cooper served the guests cookies and punch from

a table laid with the bride's chosen colors of white lace over pink. The table was centered with an arrangement of pink flowers and milk glass appointments.

Hostesses for the shower were Mrs. Grace Jones, Mrs. Sam Billingsley, Mrs. Zula Rundell, Mrs. E.G. Snodgrass, Mrs. Melborn Jones, Mrs. Leon Billingsley, Mrs. L.L. Cooper, Mrs. Johnnie Rundell, Mrs. R.E. Blankenship, and Mrs. Harold Carpenter.

Out-of-town guests registering included Mrs. Bill Hubbel and Carey Hubbel of Clovis.

The average American spends more than four times as much for liquor and tobacco as he does for medicine and drugs.

At the present rate of increase, world population will likely double to six billion by the year 2000 and reach 12 billion by 2050.
