## Syria And Lebanon Crisis May Split France's Empire

By ROMNEY WHEELER

LONDON—(AP)—The tiny Middle Eastern French mandates of Syria and Lebanon, backed by the Arab League, appeared Tuesday to be forcing a showdown which may cost France part of her empire.

Diplomatic observers in London, who are watching developments in the Levant with apprehension, expressed the view that France had only two alternatives—either she must stand by her demands and put down opposition by force if necessary or she must withdraw and accept inevitable loss of prestige as an imperial power.

Both in London and in Washington diplomats were seeking an amicable solution and striving to avoid violence which might further disturb the delicate balance in the Middle East.

Fighting already has broken out in Syria between French forces and natives protesting their presence. An Associated Press dispatch from Damascus said Syria's acting premier, Jamil Mardam Bey, had expressed fears that a "general clash" might be near as fighting spread to Homs, 120 miles north of the capital, after the French had moved reinforcements from there to quell an outbreak at Hama, 30 miles farther north.

Shooting At Anyone

The French were reported to have the main street of Homs under continual cross-fire Monday, shooting at anybody who ventured on the street, while French artillery shells had knocked out one wall of the Sarail (government) building. Syrians ambushed three French armored cars, killing six crewmen and wounding three others.

At Hama, best available estimates in Damascus placed the casualties at more than 200, including a considerable expected proportion of dead.

French and Senegalese troops garrisoning Homs and Hama were believed to number possibly less than 300 men in each town. In Damascus also the French are greatly outnumbered.

This tense situation was viewed in London as rapidly involving the question of fundamental colonial policy. The French Foreign Office wants to safeguard special interests from long established financial and cultural connections.

The Syrians and Lebanese see this aim as a violation of their sovereignty.

## Cochran Wildcat Shows More Oil, Less Wash Water

By JAMES C. WATSON

Oil Editor

Standard Oil & Gas Company No. 1 Edwards, Southwest Cochran County discovery for oil in the San Andres-Permian, swabbed 150 barrels of oil in 22 hours, and was still swabbing.

The petroleum was accompanied by 24 barrels of wash water. Fluid was remaining at 2,500 feet from surface and casing pressure had increased to 240 pounds, from former pressure of 220 pounds.

Operator was continuing to swab to cleanout accumulated wash water from the porous formation. The fluid was showing some gas, and at times was "kicking" back of the swab.

Yield Increasing

In the previous 24-hour period the discovery swabbed 17 hours and made 90 barrels of oil, plus 33 barrels of water.

Located 1,980 feet from north and 680 feet from west lines of section 13, block L, psi survey, the new development was producing from open hole between 5,025 feet and plugged-back total depth of 5,090 feet. The sulphur water between 5,100 feet and 5,111 feet had apparently been eliminated by the plug-back.

Stanford No. 1 Slaughter, in labor 49, lease 101, Jeff Davis County School Land survey, in Central Cochran, was swabbing out drilling fluid about 6,000 feet from surface, on a plug-back of 10,430 feet in the top of the Ellenburger. Operator is to clean out and test for any possibilities there might be.

Continental Oil Company No. 14 Todd, new Ellenburger producer on the side of the Todd field in Crockett County, has been completed for a 24-hour flowing potential of 1,852 barrels of high-gravity sweet oil from Ellenburger pay at 6,186-6,255 (Continued on page 6)

The chips are down on Japan's great gamble for victory in the Pacific. The enemy raked in some fat pots in the early days of the war when the Allies thought he was bluffing, but found he held many an ace. Now with his luck running out, the Jap is playing 'em close to his vest. Troops withdrawn from central China will solidify northern defenses for strongest possible stand there. Forces several hundred thousand strong in southeast Asia and the East Indies may be left to their fate, with orders to fight suicide stands and impede Allied advance as much as possible. U. S. aerial, submarine and surface forces cutting their vital sea-borne "life-line" at many points, have virtually isolated them from Japan, anyway.

## WPB Eases Limitations On Building

By The Associated Press

WASHINGTON—(AP)—The War Production Board Monday night eased its rigid limitations on construction activity.

The agency increased approximately five-fold the volume of civilian building activity which may be undertaken without special WPB permission. It did this by raising the dollar limitations on annual outlays for construction and alteration of homes, factories and business places.

As a preliminary to greater relaxations, WPB also removed its ban on grading, ditch-digging and similar earth-moving operations, and permit a start on such work in preparation for future building of highways, airports and other projects.

The decision gives no guarantee that building materials will be available WPB emphasized in a statement that lumber and other supplies probably will remain scarce "for some time."

The WPB amendment does not lift any of the restrictions which now govern the sale of lumber and building materials, but it does permit an owner to undertake five times as much construction, repair or alteration—if he can get the materials from his lumber yard—than was formerly permitted.

Work on a one-family home or farmhouse, previously was limited to \$200 a year; now the limit is \$1,000. Similarly, a factory could undertake work up to \$5,000; now the limit is \$25,000.

## Mercury Hits 102 For Second Time

Midlanders continued to sweat and swelter Monday as the mercury hit 102 degrees for the second straight day and went over the 100 mark for the third day.

The mercury held at 102 degrees for two and a half hours from 3:30 to 6 p. m.

The mercury fell during the night to register 74 degrees for Tuesday at 8 a. m.

Weather

MIDLAND AND VICINITY

Partly cloudy Tuesday afternoon and Wednesday with continued moderate winds. Not much change in temperature. Scattered showers Tuesday night north and north-west of Midland.

## Texas Hero Is With Big Infantry Show, Boosting War Bonds

When the "Here Is Your Infantry" show is presented at the High School athletic field at 8:30 p. m. June 6 the spectators will see Cpl. John Paul Cody of Farmersville display some of the action which he won for him the Asiatic-Pacific Theater Ribbon with two battle stars, the American Defense Ribbon and the Good Conduct Medal.

Corporal Cody is touring the nation with the show to boost the sale of War Bonds in the Mighty Seventh War Loan campaign, but he is doing more than taking part in miniature battles to help the sale of War Bonds. He has bought \$850 worth of Bonds since he entered the Army in November of 1940.

The show has a cast of 77 enlisted men and five officers. Twenty truck loads of equipment are used in staging the realistic battle scene. Citizens will have an opportunity to inspect the equipment when it is displayed on the courthouse lawn from 3 to 6 p. m.

Admission Is Free

While awaiting arrival of the "Here Is Your Infantry" show, War Bond sales in Midland failed to register much of an increase Monday.

Sales Tuesday morning totaled \$46,464.75, of which \$182,896.25 was in Series E Bonds. The county's quota is \$1,425,000 with a Series E quota of \$600,000.

The Midland Federal Savings and Loan Association will purchase \$50,000 worth of War Bonds this week, Ray Upham, secretary and treasurer, announced. A letter was received from the Memphis Petroleum Company stating it was applying \$10,000 of War Bond purchases toward Midland County's quota.

## War Bulletins

MOSCOW—(AP)—All Soviet youths of the eighth and ninth grades—between 15 and 16 years old—have been called for Army training scheduled to begin June 1, it was announced Tuesday.

LONDON—(AP)—Foreign Secretary Anthony Eden broadly hinted Tuesday that France should withdraw the reinforcements sent to the Levant States, in order to avoid a possible flareup in the Arab world that would hamper prosecution of the Pacific war.

LONDON—(AP)—Attorney General Sir David Maxwell Fyfe was appointed British representative Tuesday on the big power board of prosecution for leading Nazis.

SAN FRANCISCO—(AP)—Victims of last Saturday's great Superfortress fire raid on Tokyo have been allocated 50,444,000 yen (slightly less than \$13,000,000 at pre-war exchange rates), Domei news agency reported Tuesday in a broadcast heard by the Federal Communications Commission.

## Greatest Daylight Raid In Aerial History Envelops Entire City In Target

By LEONARD MILLIMAN

Associated Press War Editor

Approximately 500 fighter-escorted Superforts scorched Yokohama Tuesday with 3,200 tons of fire bombs in their greatest daylight raid, made 24 hours after Japanese suicide planes wound up their most damaging attack on U. S. shipping around Okinawa Island.

One light American ship was sunk and 12 other fleet units were damaged in the night-long Nipponese attack, ending Monday morning. At least 77 Japanese planes were shot down.

The enemy air strike didn't stop American divisions from making sweeping advances on both flanks of the sodden Okinawa front giving them control of two-thirds of Naha and half-encircling Shuri, keystone fortress.

Unconfirmed reports emanating from Chungking said Japanese appeared to be pulling out of Luochow, former U. S. air base in South China, as part of an indicated withdrawal to North China which may include evacuation of rubber and oil producing islands in the Dutch Indies.

Solid Foundation

A Chinese spokesman said recent reverses in West Central China have "laid a solid foundation for launching a general counteroffensive," to be spearheaded by Generalissimo Chiang Kai-shek's American-trained Sixth Army.

Development of Okinawa, 325 miles south of Japan, as a base for assaulting Japan is progressing ahead of schedule, said Commodore A. G. Bisset, who described it as "the biggest construction job ever attempted in the war, including Europe and the Pacific."

Tuesday's hour and a half B-29 raid on Yokohama was the first Superfort strike against that shipping and industrial center. Virtually the entire city, with its million inhabitants and maze of industries, docks and railway yards, lay in the target area.

An imperial communique said some of the attacking forces swept 18 miles northward to hit Tokyo and the intervening industrial town of Kawasaki. The Japanese admitted the raiders caused "considerable damage."

## England Suffered Over Million War Casualties

LONDON—(AP)—Prime Minister Churchill announced Tuesday that the British empire armed forces had suffered 1,128,315 casualties during the war, including 307,201 killed.

The reported death toll for the 66 months of the war was only a little more than a third as large as that of the British Empire in the 52 months of the First World War.

In reporting to Commons, Churchill said that additional losses were inflicted upon the civilian population of Britain by enemy bombardment. He said civilian casualties totaled 60,585 killed, 86,175 seriously injured and upwards of 150,000 slightly injured.

First Order

Churchill's report came as one of the first orders of business as Britain returned to party politics, and the prime minister led his new "caretaker" government into Commons for the first time. Conservatives cheered and waved. Labor members quipped: "Are you waving him goodbye?"

Churchill faced on the opposition bench some Labor ministers of the coalition cabinet which was dissolved last week. The House was tense, awaiting the first clash between leaders of two major parties which for five years formed a united front to fight the war against Germany.

Clement Attlee, former deputy prime minister and leader of the Labor party, arrived late and was cheered by the Labor benches.

## Weekly Oil Production Again Sets New High

TULSA, OKLA.—(AP)—For the fifth consecutive week United States crude oil production reached a new all-time high record, the Oil and Gas Journal reported.

The latest figure of 4,868,050 barrels daily represents an increase of 5,250 barrels over the previous week's record breaker. Mississippi output remained unchanged at 49,800 barrels.

## Krug Predicts Manpower Need Will Fall Fast

WASHINGTON—(AP)—Manpower requirements for war and war production will drop by 4,800,000 in the next six months, Chairman J. A. Krug of the War Production Board predicted Tuesday.

Reconversion unemployment will reach its peak during the next three months, he forecast.

Krug drew this picture of the manpower situation.

War production will require 2,300,000 fewer workers during June, July and August. Some 1,100,000 of these persons will not find employment, increasing the nation's jobless total to around 1,900,000 persons.

Of the remaining 1,800,000 workers, about 700,000 will continue working in the same plants where they now work or will find employment in other plants shifting to civilian goods production. The others will be absorbed in other civilian manufacturing, construction trades and services and other civilian occupations.

Number Will Increase

Although the number of persons no longer needed for war production will increase to 4,800,000 by the end of November, unemployment will decrease.

"Six months from now," Krug continued in his monthly report on munitions production, "the picture will have changed more sharply. The number of persons no longer required for war activities will have increased to 4,800,000. This will include 1,000,000 dismissed from the armed forces. The persons absorbed by the expanding civilian economy and the armed forces will amount to 4,100,000. At the same time, the withdrawals from the labor force are expected to exceed entrants by 200,000, leaving 1,300,000 persons unemployed, or 600,000 less than at the end of the first three months."

## More Silly Censorship

One of Ernie Pyle's columns from Italy told of the death of Capt. Henry Waskow. It was one of the best things Pyle ever wrote, and one of the most moving and memorable stories in the tremendous day-to-day literature of this war.

No one who read it could very well forget it. For those who didn't, it was the story of a well loved young officer, killed during a day's fighting in the mountains, whose body was brought down the steep trail at night by muleback, and laid on the ground in the moonlight with the other dead of that day's battle.

Ernie told how the men who had loved Waskow came by, one by one, to look at him for the last time. He told what they said—brief, awkward, grief-filled phrases, wrung from them by sorrow and by bitter hatred of the war and the enemy that had robbed them of another friend.

It was inevitable that this story, which Pyle told so beautifully, would be incorporated into the forthcoming film based on his writings. And it was equally inevitable that the dialogue should be taken intact from the original story, which happened to be one of those rare pieces of prose that can't be edited without being spoiled.

All right and proper, so far. But then the blue nose of the Hays office intrudes itself and tells Lester Cowan, the film's producer, that it cannot approve the picture because it regards some of the dialogue in the Captain Waskow scene as expressions of profanity.

As we recall the story, three GIs used the word order of a profane phrase to invoke God's punishment upon the causes of the grief which they felt so profoundly and expressed so simply. They were soldiers, not eulogists. And considering the circumstance and intent of their words, it seems a little blasphemous of the Hays office to brand those words as blasphemy.

It seems to us about time that interpreters of the Hays code be allowed to adopt a more adult attitude, or that the code itself be changed to permit some differentiation between tastelessness or vulgarity and strong words uttered in a moment of deep emotion.

This is the second recent instance in which the Hays office has behaved as if this tragic world were a Hollywood set. It has objected to a "damn" in a film dealing with the Nazis' mass murder of Russian civilians. Yet, if memory serves, it permitted a "damn" by Clark Gable somewhere in the interminable footage of "Gone With the Wind."

Two major film producers, Warner Bros. and United Artists, have lately left the Hays fold. This could be a hint to the guardians of movie morals that the time has come to wake up and grow up.

## Suicidal Stupidity

The Jap war machine teaches a young student the rudiments of flying, seals him in a plane and sends him on a suicide mission against American ships. It hops up a young soldier with crackpot patriotism, straps his body with explosives, and sends him hurtling into the American lines. This country, on the other hand, is constantly improving equipment with a view toward saving lives and planes and ships.

The Jap suicide pilots cause serious damage—when the hit. The suicide infantrymen do likewise—when they reach our lines. But whether they succeed or fail a life is expended in both instances and, in the first, a plane is lost as well.

American pilots sink ships, too. American infantrymen have wiped out half-dozens and dozens of Jape single-handed. And in the majority of such cases they have lived to fly and fight another day.

The Jap is not only inhuman; he is also inefficient.

## Defensive Air Power

Air power alone didn't beat Germany, as some military writers have taken pains to point out since V-E Day. But we should be short-sighted and ungrateful if we failed to think of the saving in time and lives which is due to defensive air power.

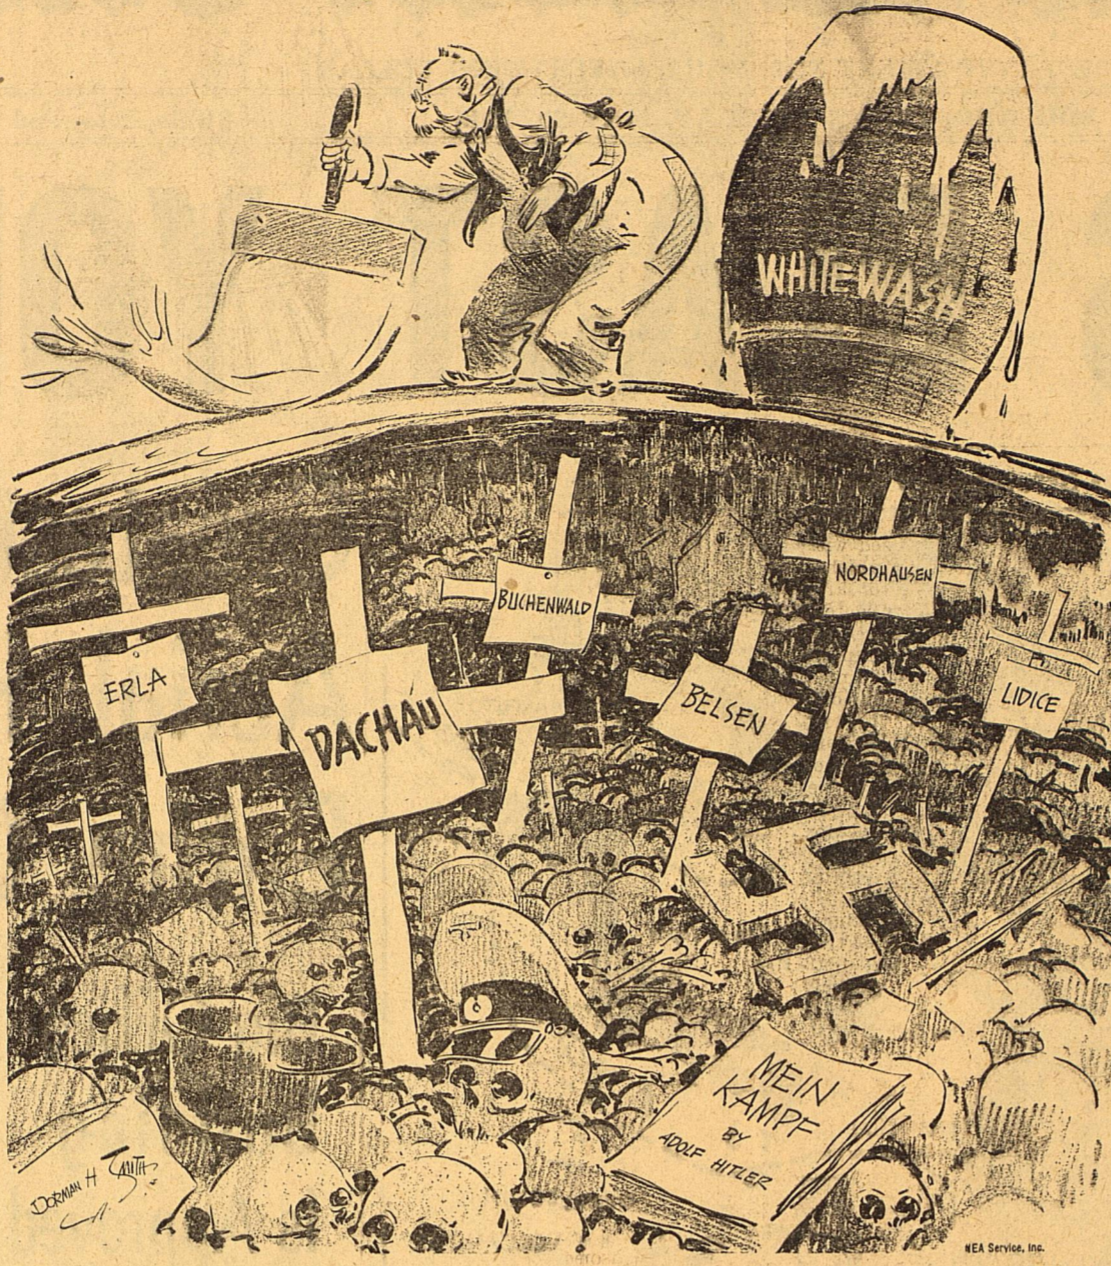

British fighters won the Battle of Britain. And though Allied fighters failed to stop the robot and rocket bombs, Allied bombers delayed their employment until the channel was crossed and Germany's fate was sealed.

Now it is revealed that Germany had a V-3 weapon, too—a 400-foot gun, almost completely buried beneath an invulnerable, 18-foot armor of concrete, capable of firing a rocket shell 100 miles. A battery of 50 of these guns was trained on London from the French coast. But air bombing, though it couldn't destroy the guns, hampered installation to the point that they were never used.

## Close Harmony

President Truman's conciliatory policy toward Congress has paid its first sizable dividend. Senators MacKellar and Stewart of Tennessee abandoned their fight against Truman's reappointment of David Lilienthal as chairman of the Tennessee Valley Authority.

## Stevenson Signs Road Bond Act

AUSTIN—(AP)—Gov. Coke R. Stevenson Tuesday signed the Road Bond Assumption Act, which provides for state servicing of certain bonds issued by counties and road districts for roads integrated in the state highway system.

His signature put the law in effect now, on the statute books for another two years. Efforts to amend it to include additional bond issues were defeated.

Other bills signed by the governor included those:

Providing for creation of corporations under the general law to buy livestock, poultry, and other agricultural products including fertilizers and insecticides, and to process and sell them, and providing further that these corporations shall pay a franchise tax for such activities.

Providing penalties for so-called "spite" killing or injuring certain animals.

Appropriating an additional \$100,000 for contingent expenses, mileage and per diem for members of the legislature, and employees.

Authorizing district court reporters to take depositions.

Making an appropriation for the upper Guadalupe River Authority.

Selling to the city of Corpus Christi certain waterfront land hitherto submerged in Corpus Christi Bay.

Authorizing independent school districts or common school districts and cities which have assumed control of public schools therein to purchase buildings and grounds for constructing stadia or other recreational facilities.

## Kidnapper To Be Executed June 8

LOUISVILLE, KY.—(AP)—Federal Judge Shackelford Miller Tuesday set June 8 for the execution of Thomas H. Robinson Jr., convicted of the \$50,000 ransom kidnaping of Mrs. Alice Speed Stoll here in 1934.

The 37-year-old former Nashville, Tenn., law student will be executed in Kentucky's electric chair at the state prison at Eddyville. His death will bring to an end a long legal battle in which he gambled a life term at Alcatraz federal prison against the death sentence or acquittal—and lost.

Robinson was brought here Monday night from the federal prison at Milan, Mich.

## Fifty-Two Enroll For Summer School

Fifty-two high school students enrolled Monday and Tuesday for summer school classes to be held from 7 to 12 each morning for the next two months.

Besides basic courses in mathematics, English, Spanish and science, the students elected a course in American history, and one in business arithmetic.

The classes are taught by Miss Emma Blake, Miss Margaret Stuart, Mrs. Gladys Tolbert and Harlan Howell.

Four top admirals in the Mikado's disappearing Navy were reshuffled, as delayed press dispatches disclosed the first Nipponese attempt to run supplies to Okinawa. The three ships making the attempt a week ago were sunk by carrier aircraft. Ten other sinkings reported Tuesday included a Nipponese destroyer.

A single Japanese platoon behind a road block composed of barrels was the only opposition encountered by Sixth Division Marines surging through Naha, capital of Okinawa, but Yank patrols reaching an island in the harbor were driven off by machinegun fire.

The Seventh Infantry Division on the East Okinawa flank wheeled nearly half way across the island to enter two villages south of Shuri. Stubborn Nipponese in Shuri fought off attacks by the First Marine, 7th and 9th Infantry Divisions.

Australian gains were reported on Tarakan of the Borneo Coast and on Bongainville in the Solomons.

Rumors of actual or impending Japanese withdrawals in China to a line north of the Yangtze were attributed by some Chungking sources to Nipponese concern over possible Russian entrance into the war.

## Lord Haw Haw Now Prisoner Of Allies

WITH THE BRITISH SECOND ARMY—(AP)—William Joyce, Briton whose broadcasts over the German radio won him the nickname of "Lord Haw Haw," has been captured by Allied troops, it was announced officially Tuesday.

Joyce's wife was captured with him, the announcement said. Details were not immediately disclosed.

Joyce had been broadcasting German propaganda over the German radio since April, 1939. One of his last broadcasts was the English translation of Grand Adm. Karl Doenitz' order reporting the death of Adolf Hitler, which he read over the Hamburg radio.

In October, 1940, Associated Press Correspondent Preston Grover cabled from Berlin an interview with Joyce, which contained the following quotes:

"I was born in New York in 1908. My father's people had lived in Ireland since the Norman conquest. I went to school in Ireland.

"From my earliest days I was taught to love England and her empire. Patriotism was the highest virtue I knew."

Joyce told Grover that he joined the British Fascists in 1923, when he was about 17 years old, and saw a "certain amount of street fighting against the Communists. He added that he joined Sir Oswald Mosley's "British Union of Fascists" in 1933 and instilled in it a definite anti-Jewish policy.

As Britain moved toward war, he said, he prepared to leave. He said he felt that if "for reason of conscience, I could not fight for her (England), I must give her up forever."

Grover said that Joyce, who was then using the German name of Frielech, was a ruddy-faced man, decidedly short, perhaps five feet four inches tall, and tightly knit physically.

The British government announced more than a year ago that British subjects who had worked with the enemy would be returned to Great Britain for trial.

The London Daily Mail said on May 4 that a cell in the Tower of London was waiting for Joyce.

Joyce was dubbed "Lord Haw Haw" by Jonah Barrington of the London Daily Express because of his exaggerated British accent.

## Conference Committee Report Is Adopted

AUSTIN—(AP)—The Senate Tuesday adopted the conference committee report on the judiciary appropriation bill calling for expenditure of \$4,801,226, for this branch of the state government in the next biennium.

Consideration of conference committee reports in the House on other major appropriations bills was delayed, however, by members who insisted on more time in which to study them before they are brought out for final debate.

## Dallas Detective On Trial Charged With False Imprisonment

FORT WORTH—(AP)—Testimony will resume in criminal district court here Tuesday in the trial of Max Moore, Dallas city detective, charged with false imprisonment of a Fort Worth postal inspector and his wife in connection with a diamond allegedly stolen from a home in Temple.

The state rested its case Monday after testimony similar in account by Mr. and Mrs. R. F. Holt. They said they had purchased a one-carat diamond after answering an advertisement in a Fort Worth paper and contended they did not know the diamond was stolen.

They told how four officers came to their home April 4 and took them to the Dallas jail.

A defense witness, Mrs. J. A. Talley of Temple, testified the diamond had been taken from her home without permission and later returned to her by Dallas officers.

The Holts are charged in an indictment returned by the Bell County grand jury with receiving and concealing stolen property. A similar indictment was returned against Jimmy Skipworth.

Judge Willis McGregor granted a motion for severance of the false imprisonment indictment against M. K. Tucker and Tom Connally, other Dallas detectives, who will be tried separately. The court overruled a defense motion for an instructed verdict of not guilty for Moore.

## Study On Christian Ministry Heard At Episcopal Auxiliary

A study on the subject, "This Christian Ministry," was presented by Mrs. William L. Kerr at a meeting of the Woman's Auxiliary of the Trinity Episcopal Church Monday afternoon at the home of Mrs. Charles D. Vertrees, 1211 West Indiana.

During the business period, tentative plans were made to have several watermelon suppers during the summer on the church lawn for the purpose of raising funds for the parish. The public will be invited to these entertainments. Announcement was made that the regular Monday sessions of the Auxiliary will be adjourned for the summer and will convene again Sept. 3.

Refreshments were served by the hostess to Meses, J. N. Allison, John P. Butler, Paul H. Kolm, D. C. Sivalls, W. A. Yeager, D. R. Carter, T. H. Thompson, J. P. Ruckman and William L. Kerr.

## Episcopalians Leave For Ceta Glen Camp

The Rev. R. J. Snell and three Midland youths departed Tuesday for the annual camp of the Episcopal Church at Ceta Glen, near Happy, Texas. Boys and girls of the North Texas District of the church attend the camp.

With Mr. Snell were Jimmy Allison, William L. Hoey and Jimmy Funkhouser.

Pat Ruckman, Marilyn Miller, Grace Baker and Ann Tucker left Monday for the camp.

## Infant Helps Father Design Perfect Buggy

Post-war babies who will ride out for their airing in a new super baby carriage that is roomy as a club car and as smooth-riding as a cloud will have 8-months-old Robert Deaton of Chicago, who helped design it, to thank for their good fortune.

Robert's father, Charles Deaton, assigned by industrial designers and engineers Barnes and Reinecke to study the carriage problem, decided the best way to do it was to study his restless infant. So Robert rides in carriages of all heights, shapes and weights, and according to him what the young set wants is one of aluminum, plastics, streamlining and a new floating ride.

"Observation of the baby in motion has prompted a carriage design that is entirely different from old-style buggies," says Deaton. "Most present designs assume that a baby will lie still, and he won't very long. The new carriage is planned with a wide action circle within which the baby moves in comfort and safety."

A new spotting of the center of gravity, so baby can't tip over, is an important factor in the design. The lightness of the new aluminum and plastic frame, the individually sprung wheels and a secret curbing feature will make taking the modern infant for a stroll only half the job it was before. Wheels are retractable and the buggy itself collapses easily into portable form.

A smart plexiglass hood on the new carriage lets the sun through but filters out harmful rays. The designers believe they have thought of everything, but it wouldn't surprise them if Bobby has another suggestion or two to make before they go into production.

## Forty-Eight Pupils Of The Watson School Of Music Presented In Recital Monday

Forty-eight pupils of the Watson School of Music, ranging from five to 11 years of age, were presented in a recital Monday evening at the High School Auditorium.

**STAND SHOULDER TO SHOULDER IN THE MIGHTY SEVENTH**

... After the bloody battle for Iwo no American can doubt that victory comes high—in lives and dollars!

... But every American is determined to win the final victory, no matter what the cost!

... Here at home we're engaged in the greatest, the most urgent War Bond drive of the war. It will take more bond purchases than ever before to put it over the top. Find your quota in the box at the right—and buy your share of Bonds—more if you possibly can!

**WHY MORE BONDS ARE NEEDED IN THE SEVENTH**

... As the fury of the fight for victory mounts, the cost of war becomes higher. The nearer we get to the heart of the enemy, the longer our communication lines become. That means more trucks, more transport planes, thousands of more troop and supply vessels. We need more special equipment, more B-29's and planes of all types, more tanks, more guns—more of every weapon of war. There are thousands of ways in which your money is needed to supply our fighters with the best.

... And don't forget—War Bonds are still the world's best investment. You get \$4.00 for every \$3.00 you invest, at maturity... and if, 60 days after issue date, you must have your money back in an emergency, you can get it at a moment's notice.

... Let's answer our country's call—buy more bonds for victory and your future during this great Seventh War Loan.

# Marriage is a Serious BUSINESS

By Randolph Ray

## Charting a Course For the War Bride

THE war bride has an uncharted course to follow, and most of the advice which is showered upon a young married woman is of no value to her. The reason, of course, is that marriage is normally a state of being together while the war marriage is a state of being apart.

The woman of courage will be able to manage, however, if she has, as Wordsworth says, "A few sound instincts and a few plain rules."

If the soldier husband is able to live at home part of the time, the best rule, now as always, is: "Set up a home of your own." It is not important that the home should be elaborate or properly and completely furnished. Who can do that, with priorities and taxes staring them in the face?

What does matter is that a couple should have a separate establishment, working out their own destiny without too much interference from their parents.

For the most part, it is not possible for the war bride to live with her husband. Indeed, if he is shipped from camp to camp in this country, a sound rule for her is not to follow her husband around. This is rarely satisfactory; the wife is not content if her husband can give her little time, and she faces the difficulty of pulling up stakes constantly. He can provide her at best only with a travesty of a home.

AS a rule, a newly married couple begin their adjustment to one another and to married life in the privacy of their own home or apartment. In wartime, many of them are attempting to make this delicate adjustment under impossible conditions, without privacy, in Army camps where living conditions are crowded and unpleasant, or in the home of

one of them, surrounded by the family.

There is no security, no sense of permanency, only an atmosphere of strangeness and discomfort. Separation awaits them at any moment. It is certainly the exceptional, not the average, marriage which can survive these weeks of distorted living.

The third rule for the war bride is, "Keep in touch with your husband's family." This is particularly important in wartime when the serviceman needs, to know that there is harmony at home. The war bride should make an effort to be friends with her husband's family and to see them frequently if she can. Reassuring news of this kind can do wonders at setting a fighting man's worries at rest and building his morale.

IT is absurd for a young couple to marry with the short-sighted idea, "I am marrying you, not your family." The family, on both sides, will inevitably prove to be an important factor in your life.

No bride can afford to forget that, henceforth, like it or not, her life is going to be closely bound up with "the whole connection of the individual man."

It is extremely important, therefore, that the couple shall be congenial with their in-laws. If there are strong antagonisms on either side, better stop and reconsider. For the fourth rule is, "Keep on good terms with your in-laws."

The deep-lying importance of solving the in-law problem intelligently appears when we learn that—whatever the ostensible reasons given in court—more divorces are caused by the interference of in-laws or by the necessity of having the parents, either of the husband or the wife, living with their married sons and daughters, than from any other cause.

(This is one of a series of hands from the recent world's championship Masters' individual tournament.)

Losing a world's championship title by one-half point after five sessions of play is indeed very heartbreaking. However, Al Weiss of Chicago, who finished second to Charles Goren in the Individual, proved a real sportsman and was immensely popular among eastern players. He is a great player and a fine partner.

While his contract was only three no trump, he squeezed out six odd. North won the opening

Winner of the Silver Star for "gallantry and intrepidity in action" aboard the aircraft carrier Franklin when she was bombed off Kyushu, Chaplain G. Weldon Gatlin of Fort Worth, Tex., told Methodist church officials in New York, recently, that he stayed with the ship, although he was injured, to keep men "in touch with God." A member of the Methodist Central Texas Conference, Chaplain Gatlin served the church at Grandview, Tex., before entering the Navy chaplaincy two years ago.

spade lead with the ace and returned a spade which Weiss won with the king. He then cashed dummy's king of diamonds. He returned to his hand with the heart ten and cashed the ace and queen of diamonds.

Now dummy's long heart suit was run. North could not protect the jack of diamonds and the queen of clubs. At the same time, South found it impossible to hold the queen of spades and protect the king of clubs.

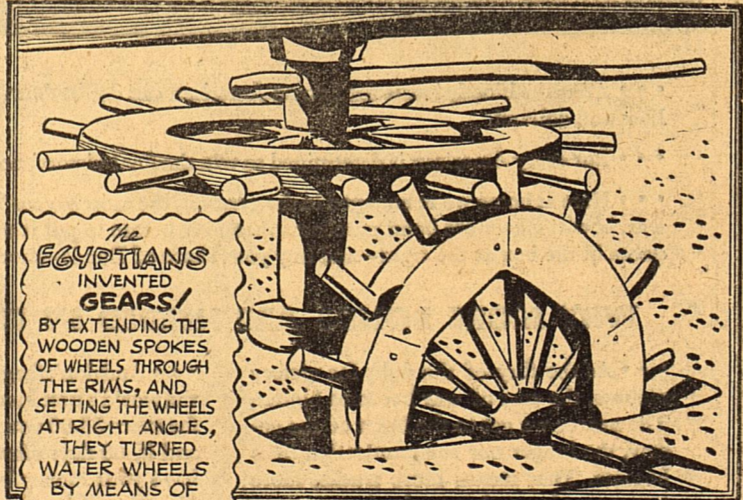

In duplicate bridge, match points are won by making those over-tricks.

### Pittsburgh Snaps Out Of Doldrums To Start Climb

By JACK HAND  
Associated Press Sports Writer  
Pittsburgh is beginning to live up to its press notices after a miserable Spring start and is showing serious intentions toward its first pennant since 1927.

Seven straight victories have re-kindled Forbes Field interest that was red-hot late last Summer when the Bucs knocked St. Louis around the lot in a wild but futile spurt.

After trimming New York in the second game of a Polo Grounds doubleheader May 20, the Pirates returned home and beat the Giants the next night, then took three in a row from Boston, and have won two straight from New York in the current series.

It took Frisch two days to win the second tilt from the leaders. Carrying over a 10-5 lead in a "suspended" game of Sunday, the Pirates made it certain, 11-5 when they finished it Monday. Rain saved the Giants from another possible setback at Pittsburgh led 2-0 at the end of four innings and needed only three more outs to make it legal when the game was postponed.

Brooklyn continued to fade, dropping a 5-3 tilt to Chicago and sinking into fourth place. Paul Derriinger gave the Dodgers a shove down the ladder with an eight-hitter for his sixth victory.

Cincinnati drew only 2,620 paying customers but the Reds pulled out of the fire, 2-1, over Boston in 12 innings.

Nate Andrews had Cincy shut out 1-0 going into the last of the ninth on Tommy Holmes' third homer of the year when a two-base error of Phil Mast's wild heave and an outfield fly permitted Gee Walker to tie it up. Eddie Miller's single finally broke it up in the 12, earning Freshman Howard Fox his first decision and handing Andrews a fourth tough setback.

The Philadelphia-St. Louis night tilt in the National and the Cleveland-Philadelphia, Detroit-Washington and St. Louis-New York contests in the American were rained out.

Only American League action action found Chicago snapping out of a six-game losing streak to blister Boston, 8-6.

Tony Cuccinello cam; up with a perfect four-for-four afternoon to lead the attack on Red Cecil and three relief men.

### Gil Finds a Helper

Gil Dodds, famed track star and divinity student, will appear at Soldiers Field, Chicago, on Memorial Day, but not in running togs. He'll take part in "Youth for Christ" program and is here shown assisting the aid of Bob Finley, right, captain of University of Virginia boxing team.

### Fort Worth Club Plans Unusual Golf Tournament

FORT WORTH—(P)—One of the richest and most select golf tournaments in the world will be inaugurated in 1946 at Colonial Country Club — scene of the last National Open.

It will cost \$20,000 with a minimum of \$10,000 in cash going to the professionals and suitable awards to the amateurs.

It will be the Colonial National Open Invitation and it came just five years after it was planned.

The tournament will be 72 holes of stroke play lasting four days and the number of players will be limited to 36—24 of the foremost professionals and 12 of the most famous amateurs.

Unusual Features  
There will be several unusual features about this links carnival. In the first place there will be no entry fee, no caddy fee or other clubhouse expense of any kind; all players will be guests of the club.

In the second place the winner will pull down around \$9,500. Other tournaments may offer larger purses but they are split so many ways none of them give the individual the amounts that will go to low scorers in the Colonial Invitation.

To Be Held In May  
The 1946 tournament will be held between May 16 and May 26 but exact dates have not yet been announced. The long, flat and wooded championship course, which lies along the banks of Clear Fork creek, is at the peak of condition in late May.

Only one round of 18 holes will be played by each contestant each day.

No scoring system will be used to determine what players will be invited. Instead the golf committee will select those they feel are most desirable. Golfing skill will be the principal but not the only requirement.

### Baptists Versus JayCees

The First Baptist Church softball team will play the Midland JayCees at 7 p. m. Tuesday at the South Main Street diamond, it was announced by Jim Woodall, captain of the Baptist team.

### Leslie Strickland Is Visiting Here

Leslie L. Strickland, son of Mr. and Mrs. Roy Strickland, is in Midland on leave from the Navy visiting with his parents and his brother, Durwood Strickland, and family. Strickland volunteered for the Navy in October, 1944, and has been serving in the South Pacific.

### Sports Roundup

By Hugh S. Fullerton Jr.

NEW YORK—(P)—It used to be that the funniest baseball stories were told about happenings in the Three-Eye or the Sally League. . . . With those circuits inactive, the Eastern League seems to have become the center for unusual doings.

For instance, a couple of weeks ago Pete Naktanis, who combines working in a firearms factory with pitching for Hartford, turned in the first no-hitter of his career and was lucky to get a shutout when he gave seven walks and his teammates made three errors.

A few days later Binghamton pitched only one hit off two Scranton pitchers but won the game 11-4. Seventeen passes, two hit batsmen and three errors accounted for the scoring.

The very next night Ken Therrien of Hartford took a throw to second; the webbing on his glove broke, the ball rolled into right field and two runners scored to give Elmira the ball game.

### Not Letter Perfect

Hoss race experts have discovered that "Easy Spell," who figured in that \$1,000 daily double at Jamaica recently, actually was Grandpa Max, a stablemate who looks so much like Easy Spell that even their trainer finds it difficult to tell them apart. . . . That may be easy to spell, but its hard to right.

### One Minute Sports Page

The story keeps cropping up that the "Old Guard" Notre Dame alumni are peeved because the Irish let Ed McKeever get away but kept Frank Leahy. One version is that even the kids on the team objected. . . . Joe Hauser, the old minor league home run king, is running a sports goods store in Sheboygan, Wis., and making more dough than he ever did in baseball.

### Service Dept.

Wing Commander Douglas Bader, legless R.A.F. pilot who recently was released from a German camp after three and a half years imprisonment, was a member of the 19th Club golf team which defeated the Coastal Command 3-0 the other day.

### Bronze Bobby Sockers Perpetuate Themselves

CHICKASHA, OKLA.—(P)—The bobby sock co-ed of 1945 will be perpetuated in bronze at Oklahoma College for Women.

Postwar purchases of a statuette was assured when 84 seniors who graduated Monday left \$275 in war bonds to remind future students of the typical student—bobby sock, Sloppy Joe sweater, hair ribbon and all.

West Texas C. Of C. Continues Campaign For Rate Equality

ABILENE — The West Texas Chamber of Commerce, pioneer in a six-year war to bring equality in freight rates to Texas and Southwestern territory, is not resting on oars or laurels.

While pleased over the May 15 history-making order by the Interstate Commerce Commission to the nation's rail carriers to institute uniform freight classifications and work out interterritorial rate scales knocking out all discriminations and bringing parity to all sections, the regional chamber warns that the fight has just begun, calls for continued cooperation of all affiliated and allied agencies, and announces it is launching out on the following three-point program:

1. To help organize and actively participate in hearings for working out the commission's order on setting up a system of uniform classifications.
2. To instigate further proceedings "to once and for all time give us complete parity in scales."
3. To explore the entire field of commodity rates in order to win equality with other sections on like commodities moving in volume.
