## Full Steam Ahead

The efficiency of private enterprise in the United States is shown by the speed with which it implemented our nation for total war. Not only did we equip our own forces, but while so doing, we supplied a large part of the armament for our allies.

Take oil as an example. In addition to furnishing all oil requirements, the petroleum industry perfected methods for producing high-test gasoline for our super planes and bombers, in quantities never dreamed of by our enemies. It was able to do this because as a competitive enterprise it was constantly on the alert and one jump ahead of demands made upon it. Now, instead of planning to rest on its laurels for a breathing spell when the war is finally won, the American oil industry is preparing to meet even greater demands from American consumers than the war called for. Oil companies have already announced plans for the expenditure of hundreds of millions of dollars for drilling, construction and modernization.

That is private enterprise. No waiting for government appropriations. No waiting while politicians wrangle over how, where and when to expand an industry. Instead, action when it is needed for the consuming public, without any drain on the taxpayer for costly government projects. The people of the United States should be thankful that they live in a land of private enterprise.

## Kindly-Hearted People'

Our faith in the Encyclopedia Britannica suffered a tremor the other day. Opening Volume 12 (Hydrozoa) of the latest (1942) edition, we glanced at the article of Moral Characteristics in the article on Japan. "Japanese," we read, "are essentially a kindly-hearted, laughter-loving people, taking life easily and not regarding their petty ills unnecessarily to disturb their equilibrium. Suicide is, it is true, by no means uncommon; but its most frequent victims are students and lovers. . . . It is rare to see a grown-up person, particularly among the educated classes, indulge in displays of temper. . . . Contact with the ruder outer world may perchance since have blunted a little the fine edge of the national courtesy; but, if so, it is hardly perceptible."

As Japan's contact with the outside world becomes ruder and ruder, we confidently expect that the hidden qualities of her national courtesy will become perceptible even in the cloistered studies of the Britannica's contributors. The result should be a revised estimate of the Japanese in the first postwar Britannica edition, and a renewal of our faith in the scholarly editors who were not the only ones, heaven knows, to be fooled by the little buck-toothed men.

It requires, directly and indirectly, 15 to 30 tons of water to produce one pound of beef.

## An Impossible Equation

### San Antonio Welcomes Returning War Heroes

SAN ANTONIO—(P)—Twelve generals and 40 other officers and enlisted men arrived from European battlefronts Wednesday and this old fortress city brought out flowers and flags and corralled a few cows alongside the Alamo.

For Lt. Gen. Ira Eaker, Chief of Air Staff, and his companions, San Antonio readied a 17-gun salute, two parades, a reception, a banquet with stuffed quab and chicken-under-glass. Troubadours dusted off their tinselled costumes and tuned their guitars, patrolmen prepared to handle a crowd of 200,000. Thousands of flowers would be strewn at the feet of the conquering heroes.

Three of the generals were coming home to Texas: Eaker, who commanded the Mediterranean Allied Air Forces and who calls Eden, Texas, home; Lt. Gen. Lucian Truscott Jr., tough commander of the Fifth Army, who was born at Chatfield, Texas; and Brig. Gen. Harold L. Clark, 52nd Troop Carrier Wing, Ninth Troop Carrier Command, of San Antonio.

### Mrs. Mattie Knox Dies In Corsicana

CORSICANA—(P)—A fall on the stairway of her home caused the death Tuesday of Mrs. Mattie J. Knox, wife of City Judge Chris L. Knox.

Survivors include her husband; a son, Chris J. Knox, of Corsicana; a daughter, Mrs. Walter Fendley of Dallas; three sisters, Mrs. W. P. McCammon of Corsicana, Miss Jennie Johnson of Dallas, and Mrs. Dave McKee of Midland; and four brothers, Congressman Luther A. Johnson of Corsicana, Ernest N. and Neal Johnson, both of Dallas, and R. F. Johnson of Houston.

**Lieutenant Sparks Arrives in New York**

Mrs. Ralph Hickman received a telephone call Tuesday from her brother, Lt. George H. Sparks, of Blanco, saying he had arrived in New York after having been in a German prison camp since November 27, 1944, and expected to be home soon. Mrs. Hickman plans to go to Blanco when he arrives.

Lieutenant Sparks is a brother of E. W. Sparks of Midland, and a nephew of Mr. and Mrs. I. E. Daniel.

## Patton Explains Battle Tactics

LOS ANGELES—(P)—Gen. George S. Patton Jr. explains his highly successful battle tactics simply: "The idea was just to keep on going."

Relaxing at his ranch home, the peppery Third Army leader, a former boxer, compared his army's dash through Germany with a prize fight.

"When a fighter is on his toes he can absorb a much harder punch when he is hit; but when he is on his heels, you can knock him out if you follow through," the tank commander told an interviewer. "We had the Germans on their heels after our initial punch and we just kept going."

**Saved Ammunition**

"When we made our breakthrough, the two things we needed were gasoline and ammunition. If we traveled fast, we used a lot of gasoline; and if we stopped, we would have to use a lot of ammunition. Therefore only a moderate use of ammunition was the thing. The idea was just to keep on going."

And, by the way, you thought the two-gun general's famous pistols were pearl-handled?

"They are not pearl-handled," Patton declared. "Anyone who uses a pistol knows that pearl handles are bad luck. My pistols are ivory-handled."

## You Can't Beat Yank Ingenuity

ODESSA—(P)—Sgt. William Alden Rogers, former Odessa accountant, is one finance officer who really knows his finances.

With the United States Occupation Forces in Germany, Rogers recently sent \$1,000 home for deposit in a local bank.

He said the money came from sale of a fraternity pin he designed for his buddies in Hammone, Germany, where he is stationed. He sold 20,000 of the pins in April and has 16 employees, he added.

"All that is keeping us from doubling production is getting enough silver from manufacturers in the States," explained Rogers.

## Rear Exit Popular In Milwaukee Bus

MILWAUKEE—(P)—One bus driver didn't have any difficulty in getting passenger to "Step to the rear of the bus."

The passengers made a bee line for the rear and right out the back exit when a small boy permitted a half-dozen harmless garter snakes to escape from their shoebox container.

## Defends Petain

In a book published in Montreal, French professor Louis Rougier, above, says that aged Field Marshal Henry Philippe Petain, instead of being a traitor as now charged, kept France and the French fleet from going over to the Axis while he headed the Vichy government.

## Dr. R. L. Sutherland Scheduled For Talk At Welfare Program

Dr. Robert L. Sutherland of the Hogg Foundation at the University of Texas, who is to speak here Friday at 8 p. m., at the First Presbyterian Church, has traveled throughout the state, speaking to many different groups in both rural and urban communities. The program is being brought here in connection with the Child Welfare Board, under the auspices of the Federated Women's Clubs.

Dr. Sutherland received his B. A. degree at Knox College, his M. A. at Oberlin College and his Ph. D. at the University of Chicago. Since finishing his formal educational work, he has applied his knowledge and skills to meeting the problems of people.

While on a leave of absence in 1936 from his duties as professor of sociology and dean of men at Bucknell University, Dr. Sutherland was the leader of a public forum project in Portland, Ore., sponsored by the United States Office of Education. He conducted discussions of current problems before varied groups in all sections of that city.

The public is invited to attend the Friday evening program.

New Issue Appears At Frisco Conference

SAN FRANCISCO—(P)— Defeat of an Australian amendment cleared the way Wednesday for approval in a United Nations Conference committee of the Big-Five demand for total veto control of proposed machinery for world security.

The amendment, which would have removed the veto from steps to settle international disputes peacefully and limited it to use of force, was voted down 20 to 10. Fifteen nations abstained and five were absent.

Simultaneously a new issue appeared to be gaining headway. The small nations, whose split over the veto issue assured the big-power victory, were beginning to rally behind a proposal that they should be promised another crack at the veto about 10 years hence.

In other words, they are calling for the right to amend the charter in future without any of the big powers being able to exercise a veto over the amendments. The Big-Five are dead set against this.

May Get Old Post

OPA Enforcement Staff For Area Has Been Doubled

DALLAS—(P)—The OPA enforcement staff for the Southwest six-state region has been doubled for an "all-out offensive to wipe out black market operations and assure a more equitable distribution of meat," Harry Hall, regional enforcement executive of the OPA, announced here.

Hall said plans comprise the most intensive OPA meat control and enforcement program ever launched. The program includes three main fronts:

Enforcement of ceiling prices in the purchase and sale of live cattle.

Enforcement of regulations governing the purchase and storage of meat in frozen locker facilities.

Enforcement of the OPA's new slaughter order, to go into effect July 1, which is designed to channel large supplies of meat from non-federally inspected slaughter houses to those which are federally inspected.

Must Surrender Points Hall said the slaughter order is expected to increase materially the meat supply for the armed services and certain metropolitan areas which have not been getting a fair share of meat.

Under regulations regarding meat in frozen food lockers, Hall said persons with frozen food lockers are asked to declare the meat in them with their local ration boards. They must surrender the correct number of red points for the meat if unable to establish previous point payment or the fact that they were entitled to the meat on a point-free basis.

Farmers who raise meat for their own consumption will not be required to surrender red points for it, Hall explained.

Regarding the ceiling price on live cattle, Hall said both buyer and seller will be liable for ceiling price violations in some instances. Reported upgrading of beef will also be investigated, Hall said.

New OPA Rent Inspector Named

Joe Blimber of Odessa has taken the place of James W. Kelly as examining inspector for the Midland OPA rent control office. Kelly has been transferred to Big Spring to act as director of the rent control office there. Kelly, an overseas veteran of the Pacific fighting, has been examining inspector here since last September.

Chinese Troops Evacuate Ishan

CHUNGKING—(P)—The Chinese High Command Wednesday confirmed an American report that Chinese troops had evacuated Ishan, 43 miles west-northwest of Liuchoo, June 11, after bitter fighting.

The Chinese said severe fighting was raging outside the city, formerly the main Japanese bulwark guarding the western approaches to the former American air base city of Liuchoo.

Chinese withdrawal from the city was first reported by headquarters of Maj. Gen. Robert M. McClure's Chinese Combat Command, an American liaison unit.

The Chinese had announced only a few days ago they had occupied the city.

Labor Disputes Threaten Shipyards In Gulf Coast Area

DALLAS—(P)—A labor dispute which has seen the picketing of a Houston shipyard Wednesday threatened activities in shipyards from Charleston, S. C., to Brownsville, Texas, a regional War Labor Board official said here Wednesday.

The Eighth Regional War Labor Board ordered all picketing and work stoppage at the Brown Shipbuilding Corporation, Houston, and the Magnolia Airco Gas Products Company, Houston, to cease.

Last week the Houston Metal Trades Council (AFL) established a picket line at Brown shipbuilding and drivers union employees of Magnolia Airco refused to cross the line to deliver welding and burning gases to the shipyards. Drivers for Magnolia Airco stopped work Thursday after the plant allowed "sub service" of the gases to Brown.

Herman Brown, president of the shipyard corporation, in a hearing before the regional WLB here said there had been no work stoppage at the shipyards. In dispute is a contract negotiation between the company and a group of craft unions.

Clifford W. Potter, disputes director of the regional WLB, said he was informed by J. T. Davis, secretary of the Houston Metal Trades Council that AFL unions in shipyards from Charleston to Brownsville had been asked to place on the union unfair list all yards doing business with Magnolia Airco and its parent organization, Air Reduction Sales Corporation.

No wartime restrictions have been placed on hunters in British Columbia, Canada.

Truman Wants OWI Budget Restored

WASHINGTON—(P)— President Truman expressed the hope Wednesday that Congress would restore the entire budget estimate for the Office of War Information, which the House has sharply slashed.

He told his news conference that in his judgment OWI is doing a job that needs to be done in the interest of a nation still fighting a war far from over. He added the people should realize that the war is far from over.

The House pared OWI's appropriation to approximately \$18,000,000 from a proposed \$35,000,000 for the fiscal year beginning July 1.

CARBON BLACK

the Miracle of the Modern Age!

Carbon black—"dusky queen" of the synthetic industry, is performing miracles in this modern age. Termed public necessity No. 1, carbon black is a vital ingredient for synthetic rubber used in urgently needed tires for battlefronts.

It is a basic requirement for over 100 other rubber items, including gas masks, life rafts, surgeon's gloves, and bullet sealing fuel tanks. Not only does carbon black fill the needs of a rubber-hungry world, but it is an essential ingredient in paint, printer's ink, lacquer, and the hundreds of new plastic articles.

Fifty of the 57 carbon black plants of the nation are located in Texas, Oklahoma and Louisiana. . . it is a "must" item whose transportation must be expedited to meet military and civilian needs.

From carbon black plants to manufacturer, the Texas and Pacific serves the industry. . . . We salute this great industry. . . . We are proud to serve them.

Southerners Count On Senate Filibuster To Block Poll Tax Repeal

WASHINGTON —(P)— Southern Democrats, with Fair Employment Practices Legislation shoved aside, banked Wednesday on a Senate filibuster threat to smother House-approved legislation to abolish poll taxes.

Hardly had the House voted 251 to 105 late Wednesday to outlaw poll tax payments as a voting requirement in Federal elections before southern Senators promised an all-out fight against the measure.

"We'll speak as long as we have to in order to prevent passage," Senator Bilbo (D-Miss) told a reporter.

Senate filibusters, or threats of them, have blocked enactment of similar legislation passed by the House in the two preceding Congresses. Seven southern states have poll tax laws.

Rev. Yearby Will Address 4-H Members

A discussion of the Twenty-Third Psalm will be the highlight of the program Thursday night when the Rev. Vernon Yearby will address about forty-five 4-H Club members and their guests at Cloverdale Park.

The purpose of the meeting will be discussed by County Agent J. H. Green, and entertaining features will be provided by club members.

A musical selection will be played by Velda Dee Pigg, Billie LaJean Pigg, and Lois Dee Eiland, all members of the Cloverdale 4-H Club.

"What 4-H Club Work Means To Me" will be the topic of a discussion by Royce Howard and Julie Edith Midkiff, and a chorus composed of Lanelle Howard, Joan McDonald, Nadine Manning, Sammie Swails, Dossie Casher and Esther Pearl Reeves will sing several selections.

Mary Lynn Manning will give "Cut In the Fields With God" and the Rev. Raymond Hall, assistant pastor of the First Baptist Church, will lead the group in song.

The responsive reading of the Twenty-Third Psalm will be read by Bobby Nell Reinhardt, and after the discussion of the psalm by Mr. Yearby, the benediction will be given by the Rev. Hubert Hopper.

Stettinius Will Continue On Job

WASHINGTON —(P)— For the third time in as many weeks, President Truman informed his news conference Wednesday that no change was contemplated in the State Department secretaryship, now held by Edward R. Stettinius Jr.

He laughed when the question was put again Wednesday and replied there is nothing new. He advised the questioner humorously to keep on asking it and then said Stettinius' status has not been changed.

He pointed out that Stettinius will accompany him to his coming meeting with Prime Minister Churchill and Marshal Stalin.

Equalization Board For School District Is Named By Trustees

Members of the board of equalization for the Midland Independent School District were appointed Tuesday night at a meeting of trustees of the district.

S. P. Preston, Russell Conkling and Roy Stockard, members of the equalization board, will start hearings immediately for property owners of the district who might wish to protest their evaluations.

Dwight McDonald, prominent agricultural leader, was sworn in as a new member of the board to take the place of late Percy Mims.

The board adopted a resolution praising the work Mims did for the schools.

Scientifically Developed Products Esso-Extra and Humble 997 Motor Oil are two examples of a long list of quality Humble products which are the result of years of intensive research backed by the resources of a company that produces and transports by pipe line more oil than any other company in the United States. Into every Humble product go all the skill and resources of one of the world's great research organizations. Humble's long years of developing fine petroleum products for you made possible its phenomenal wartime production record. DEVELOPER AND TOP PRODUCER of SYNTHETIC TOLUENE Baytown Ordnance Works, designed and operated for the Government by Humble, was the first plant in the world to make toluene synthetically from petroleum. Forty-five days before Pearl Harbor the first shipment of toluene was made; and since that time Humble has produced toluene for at least one out of every two bombs used by the United Nations. This is more toluene than was produced from all sources in World War I. Phils Lose 15 Straight Games In Senior Loop

By JACK HAND Associated Press Sports Writer. Shed a tear for fat Freddy Fitzsimmons whose futile Phillies are rushing madly toward an early clinching of the 1945 cellar championship with their usual fervor by losing 15 in a row.

Not since 1932 when Bert Shotton led them to the giddy heights of fourth place have the Phils failed to finish either seventh or eighth and seven times it was last. Managers came and went but Jimmy Wilson, Doc Prothro, Hans Lobert, Bucky Harris and Fitz saw nothing but the cold grey walls of the National League dungeon with an occasional next-to-last-place reprieve.
