

# JAPS RESHUFFLE GENERALS

## Rubber Plants Seized

AKRON, O.—(AP)—The Navy seized the five strike-paralyzed plants of the Goodyear Tire and Rubber Company at 11:15 a. m. Thursday, under executive order by President Truman, and ordered 16,700 CIO-United Rubber Workers back to their jobs Friday. Capt. H. K. Clark, USNR, took command of the sprawling rubber plants, and moved swiftly to resume production of war-vital airplane, truck and other tires which had been halted completely during the shutdown which entered its 20th day Thursday.

Captain Clark, in a statement Akron radio stations, ordered the given newsmen and read over all strikers to resume work with the regular Friday shifts or "become subject to all proper and legal sanctions and measures available."

Goodyear officials said the strike, caused by breakdown of negotiations between the firm and the union on 32 wage, hour and working condition provisions, had caused a production loss of 16,000 tires daily, along with thousands of other items used by the armed services.

Within 15 minutes after President Truman issued his seizure order in Washington, Captain Clark and a staff of about 20 men arrived at the main gate of the Goodyear plants to take over in the name of the government.

The Navy men were cheered by pickets as they passed through the gate and into the office of Edward J. Thomas, president of Goodyear.

Captain Clark, head of the plants emergency management in the office of the secretary of the Navy, was the officer in charge in the seizure of the United Engineering Company in San Francisco in April.

Following a short conference between Captain Clark and Thomas, the naval staff began posting notices at all gates and on all buildings, ordering the striking employees back on the job on regular shifts Friday.

In his seizure order the President told the secretary of the Navy that government possession should terminate "within 60 days after he determines that the productive efficiency of the plant, facility, or property, or portion thereof, prevailing prior to the existing interruptions \* \* \* has been restored."

**Conoco To Drill 6,700-Foot Test In N-E Lynn Area**

By JAMES C. WATSON  
Oil Editor

Continental Oil Company has filed application with the Railroad Commission to drill No. 1 W. H. May, as a 6,700-foot wildcat in Central-Northeast Lynn County, starting by July 8.

The project is to be 2,310 feet from north and 990 feet from east lines of section 10, block 7, EL survey, and is about six miles northwest of Tahoka.

Conoco has a block of approximately 3,800 acres surrounding the drillsite. The proposed 6,700-foot destination will take it to the lower Permian.

Humble's Cowden Shows

Humble Oil & Refining Company No. 1 Cowden, scheduled 8,500-foot wildcat in section 25, block X, CCSD&RNG survey, one and 3/4 miles north of production in the Crane-Cowden field in East Crane County, was drilling ahead below 6,193 feet in lime and chert, after a drillsite test at 4,183-4,233 feet.

The tool was open one hour. Gas came to surface in six minutes and the rate of 300,000 cubic feet per day after 10 minutes. After 30 minutes the gas was 225,000 CFDP. Recovery was 5,300 feet of oil and water emulsion and gas and 380 feet of water. The oil tested 41.29 gravity. A Schlumberger was taken, and drilling resumed.

Operator has not identified the section test. Some observers think it is Devonian.

More Indications

Magnolia Petroleum Company No. 1-B Tucker, in section 25, block 1, H&TC survey, a wildcat to the Ordovician, in Southwest Crane County, was to drill ahead from

## WAR AT A GLANCE

By The Associated Press

• **BORNEO:** Great oil port of Balikpapan, Dutch Borneo, virtually secured.

• **PHILIPPINES:** General MacArthur announced Philippines won back in 250-day campaign which cost 54,000 U. S. casualties—dead, wounded, missing—while Japanese lost about 450,000, mostly killed.

• **CHINA:** American 14th Air Force fliers blasted Japanese communications on 1,000-mile front from Yellow River to Indo-China.

• **OCEAN AREAS:** U. S. Navy announced two destroyers lost off Okinawa.

## Prime Minister John Curtin Of Australia Dies

By EDWARD WATERMAN  
CANNBERRA, AUSTRALIA—(AP)—Prime Minister John Curtin, 60, died Thursday after a long illness from a heart ailment with lung complications.

His successor will likely be chosen next Thursday by the parliamentary Labor Party from Deputy Prime Minister Francis M. Forde; Treasurer Joseph B. Chifley, a former locomotive engineer; or Minister of External Affairs Herbert V. Evatt, Australia's recent delegate to the San Francisco Security Conference.

Pending the selection, Forde will continue as acting premier.

At the war's outset, Premier Curtin said, "I turn to America without a pang."

Close To MacArthur

To critics who charged he had turned over Australia to General MacArthur lock, stock and barrel, the prime minister replied he was proud he could do just that.

The close friendship with General MacArthur made them known to each other as "John" and "Doug." MacArthur has conveyed his deepest sympathy to the Commonwealth.

The son of a police officer and native of a gold mining town, Curtin associated himself early in life with the Australian trade union movement.

## Submarine Trigger Is Believed Lost

WASHINGTON—(AP)—The submarine Trigger, with its wartime complement of 80 to 85 officers and men, is overdue from patrol and presumed lost, the Navy announced Thursday.

Next of kin have been notified. The loss, announced in a communique, brought to 45 the number of U. S. submarines lost since the start of the war including four announced as sunk, two destroyed to prevent capture, and 39 overdue and presumed lost.

The Trigger won the Presidential Unit Citation for outstanding performance in combat during her fifth, sixth and seventh war patrols.

In the battle of Midway, she was a member of the task force of Vice Admiral Frank Jack Fletcher, senior task force commander.

## Showers And Cooler Weather Due Friday

With the temperature in Midland expected to get near the 90 degree mark Thursday afternoon, Midlanders can look forward to cooler weather Friday, weather observers predicted. Not only will the weather be cooler but showers within the Midland area are forecast Friday.

A light sprinkle of rain fell in Midland about 6 a. m. Thursday. The mercury climbed to 84 degrees Wednesday and remained there for three hours from 6 to 9 p. m. During the night the mercury fell to a minimum of 72 degrees at 6 a. m. Thursday.

## Six Persons Killed In Nebraska Tornado

RISING CITY, NEB.—(AP)—Six persons were killed and at least 12 critically injured by a tornado which swept a path five miles long and two wide north and west of Rising City Wednesday night.

## Starvation Station Is Discovered

By A. I. GOLDBERG  
MUNICH—(AP)—A Nazi "scientific starvation" station, whose grisly experiments on children and adults were claiming victims until only a few days ago, has been uncovered in Bavaria by two public health officials of the American Military Government.

AMG authorities announced four German doctors and three hospital attendants had been arrested at the station in the Kaufbeuren area, 45 miles southeast of Munich. A woman nurse confessed killing 211 children, for which she drew an extra bonus, the statement said.

The station, masked under the title of a public sanatorium, was one of a series of systematic starvation and drug experiment laboratories scattered throughout Bavaria and Austria, the authorities said. Those who died were cremated.

Housed 1,578 Persons

Maj. Marvin Linick of New York City ar, Capt. Loyal Murphy of Memphis, Tenn., who found the Kaufbeuren station, reported that it housed 1,578 men, women and children on June 30, and a branch at nearby Irsee had another 468—all in various stages of malnutrition. Among the children found alive was a 10-year-old boy weighing less than 23 pounds.

The AMG's statement said the nurse confessed to having poisoned or killed by intramuscular injection at least 211 minors for which she drew a monthly bonus of 35 reichsmarks, about \$8 at the old U. S. exchange rate, or \$3.50 at the present U. S. military exchange.

Linick and Murphy said they found in an uncooled morgue hundreds of men and women who had died from 12 hours to three days earlier as a result of the "experiments." Each body weighed only 58 to 66 pounds.

The men said the extermination program included injection of chemicals to produce direct starvation, intended to kill either within three months or to take six months or longer.

## Postal Receipts Here Register Large Increase

Receipts at the Midland post-office for the first half of 1945 registered a 21.4 per cent gain over receipts for the first half of 1944. N. G. Oates, acting postmaster, announced Thursday.

The receipts for the first six months of 1945 totalled \$92,577.56, compared with \$70,366.40 for the first half of 1944, Oates said. The increase was \$22,211.16.

## Ballots Available For Bond Election

Absentee ballots were available at the City Hall Thursday for the city's \$400,000 bond election July 21 for water and sewer improvements.

Only city property tax payers who have paid poll taxes are eligible to vote in the election.

## THREE FLIERS ARE KILLED IN CRASH NEAR SHREVEPORT

SHREVEPORT—(AP)—Three fliers were killed and eight injured, six seriously, when a B-29 crashed in a swamp seven miles east of here Wednesday, the Barksdale Field public relations officer announced.

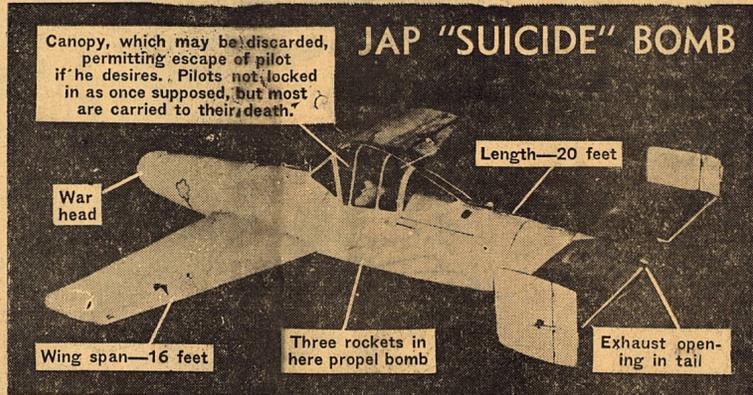

## War Bulletins

WASHINGTON—(AP)—An increase of 6,258 casualties reported in the last week raised the total for the armed forces in World War II to 1,036,937 Thursday.

PARIS—(AP)—Gen. George S. Patton Jr. left Thursday for his U. S. Third Army headquarters at Bad Toelz in Southern Germany.

ROME—(AP)—Three heavy bombardment groups, one fighter group and two night fighter squadrons from the U. S. Army Air Forces in Italy—all veterans of more than two years overseas service—have been designated to remain in Europe as part of the occupational air force.

LONDON—(AP)—A published report said Thursday that Prime Minister Churchill will meet Generalissimo Franco of Spain before the Big Three conference in Potsdam, but a Foreign Office commentator cast doubt on the report.

Pictorial diagram and photos above illustrate how the Japanese flying "suicide bomb" operates. Yanks have dubbed it the Baka bomb—baka being Jap word for "stupid" or "fool." The bomb, which is actually a flying torpedo, is carried under the belly of a medium bomber and released over its target—usually a ship. Once free, rockets in the tail section propel it in its death dive at over 400 miles an hour. Warhead in nose explodes on contact.

## Payless Paydays Face Thousands Of Federal Workers Due To FEPC Fight

By WILLIAM F. ARBOGAST  
WASHINGTON—(AP)—Payless paydays loom for tens of thousands of federal workers because of a Congressional fight over the Fair Employment Practice Committee.

Their salaries are wrapped up in a \$757,000,000 appropriation bill to finance 1946 fiscal year operations of 16 non-front war agencies.

The measure comes up in the House Thursday afternoon, and prospects are it will head for the Senate Thursday night with no funds left for 11 of the biggest agencies.

Although the agencies themselves may continue to function indefinitely under provisions of an emergency law allowing them to anticipate eventual receipt of the tied-up funds, the Treasury has held that they can only incur obligations—not actually spend money.

Get Paid Friday

Payrolls for three of the agencies are due Friday: the Office of Defense Transportation, Economic Stabilization, and Scientific Research and Development.

Friday also is payday for the FEPC, which is operating in anticipation of funds it may never receive, even when the deadlock is broken.

Money is available to meet Friday payrolls, however, since the workers will be receiving payment for a period ending June 30 when Congressional appropriations for the agencies still were available.

Later in the month employees of these additional agencies won't be paid if neither side in the FEPC controversy gives in: the War Labor Board, the Office of Inter-American Affairs, the Office of War Information, the War Production Board, the War Shipping Administration, the Office of Strategic Services, the Petroleum Administration for War, and the War Relocation Authority.

There were no signs that either side would capitulate or even accept a compromise.

By tying up the funds of the 11, FEPC backers hope to force a break in the opposition's lines.

## Accidental Deaths On Holiday Decline

By The Associated Press

Most of the nation's millions celebrated a "safe and sane" Fourth of July Wednesday, accidental deaths across the country totaling 138, most of them on the highway or in the water.

While hundreds of persons suffered minor injuries from fireworks, no deaths were reported. The fatalities compared to a total of 439 deaths reported for the three-day Fourth of July holiday in 1944.

## Son Of Publisher Dies Of Polio

WACO—(AP)—Funeral services will be held here Thursday for Joel Fentress, 13, son of Mr. and Mrs. H. M. Fentress. Young Fentress died of infantile paralysis in a San Antonio hospital Tuesday.

His father is publisher of the Waco News-Tribune and Waco Times-Herald.

## Weather

Midland and 50-Mile Radius

Partly cloudy and warmer Thursday afternoon. Cooler Friday with showers in Midland area.

## Fred Fleener Dies Suddenly While On Field Expedition

Fred Fleener, 40, an employee of the Shell Oil Company for more than 10 years, died suddenly Wednesday in Sutton County from a heart attack while on a field trip for his company. He was employed in the land department.

Fleener came to Midland about 18 months ago from Mississippi. He lived at 1202 West Ohio Street.

Funeral services will be conducted at 10 a. m. Friday at the Ellis Funeral Home Chapel with the Rev. Vernon Yearby officiating. Interment will be at the Tahoka cemetery at 3 p. m. Friday.

Survivors include the widow, a daughter, Brenda; two sons, Fred Fleener, Jr., and Jimmie Fleener; three brothers, Elmer and Scott Fleener of Houston and Ellis Fleener in the Navy; two sisters, Mrs. R. M. Parker of Abilene and Mrs. B. B. Harris of Big Spring.

## Texas Has Four Violent Deaths

By The Associated Press

The Fourth of July death toll in Texas stood at four Thursday.

Two persons were drowned, one was killed in an automobile accident, and a fourth was found slain in his apartment. Sixteen others were injured in airplane crashes and automobile accidents.

Garland Jones, Corsicana, a member of the Merchant Marine, drowned Wednesday while attempting to rescue Anna Frances Durbin, 15, of Ennis. She later was saved by Merrell Brown, 22, U. S. Navy.

The drowning occurred in Chambers Creek, four miles north of Ennis, during a picnic.

Elmer Clifton Powell, 16, of Texarkana, drowned in a bar pit when he apparently stepped into a deep hole.

Child Is Killed

Joe Raymond Henning, two-year-old son of Mr. and Mrs. J. M. Henning of Rowlett, was killed in a three-car crash at a Dallas intersection. Eight others were injured in the same accident, blamed by police on slippery roads following a rain.

Sam V. Storey, 44, a ship fitter, was found dead in his Houston apartment. Justice of the Peace Tom Maes returned an inquest verdict of murder. Police said they "walked into a shambles" when they entered his apartment.

They said they found broken milk and liquor bottles and blood splattered on walls, ceiling and floors. Detectives B. Porter and C. B. Shepperd said they found wounds over his entire body, and teeth marks on his arm.

Two Marines were taken to a Hereford, Texas, prison camp hospital following the crash of their passenger plane 12 miles northeast of Hereford.

## MAJ. GEN. O'DANIEL TO COMMAND INFANTRY SCHOOL

WASHINGTON—(AP)—Maj. Gen. John W. "Iron Mike" O'Daniel has been appointed commanding general of the Infantry School, Fort Benning, Ga., to succeed Maj. Gen. Fred L. Walker.

General Walker, former commander of the 38th (Formosa) Division, will become director of training of the Army Service Forces.

## American Airmen Blast War Plants On Nips' Islands

By LEONARD MILLMAN  
Associated Press War Editor

Emperor Hirohito's military leaders reshuffled eight generals Thursday as Tokyo broadcasts reported 300 American raiders from Okinawa and Iwo Jima struck at Japan again Thursday, continuing Wednesday's powerful blows which cut deeper into Nippon's manufacturing, shipping, and air power.

Japan's army shake-up included two military defense districts bearing the weight of meeting threatened invasion, including the Tokyo metropolitan area. Generals changing jobs included the head of the military propaganda section.

The enemy report on Thursday's air strikes said 100 Mustang fighter planes from Iwo Jima, guided by nine Superforts, hammered airdromes near Tokyo while 200 fighters and bombers raided Kyushu Island. Both would be repeat performances of two phases of Wednesday's extensive aerial blows which set four Japanese cities afire, wrecked 22 ships, destroyed 22 Nipponese planes and bomb-pocked dozens of air fields from Tokyo to Java.

## Gen. Spaatz To Direct Bombing In Pacific Area

WASHINGTON—(AP)—Gen. Carl A. Spaatz, who directed the strategic bombing which leveled Germany, Thursday was given the same assignment in the Pacific.

Spaatz will arrive at the War Department for conferences on his new assignment perhaps this week.

Undersecretary Robert P. Patterson announced at a news conference the creation of the U. S. Army Air Force in the Pacific with Spaatz as the supervising general, reporting directly to General of the Army H. H. Arnold.

There will be two principal air forces in the new bombing command.

The 8th Air Force will be under Lt. Gen. James Doolittle and the 20th will operate under Maj. Gen. Curtis Le May.

## Roosevelt Radio Enterprise Cost Two Men \$70,000

MONTCLAIR, N. J.—(AP)—David G. Baird, New York insurance executive, described as "private and personal investments" the loans totalling \$120,000 made by himself and a business acquaintance to Elliott Roosevelt in 1939 in which the two lost approximately \$70,000 when the Texas radio network business venture of the late President's son failed.

The loans were "entered into for profit because the loan carried for the lenders an option to purchase stock in the network at the original offering price," Baird said, "and the gains could have been substantial. The compromise did not turn out to be profitable, and the loans were liquidated at losses to the lenders."

Baird recovered \$30,000

He said that through "payment and salvage" he recovered about \$30,000 on a \$70,000 loan and that his acquaintance, Maxwell M. Bilofsky, a radio tube and electrical apparatus manufacturer, recovered about \$20,000 on a \$50,000 loan.

Baird said the lenders never purchased stock in the network.

Counsel for John Hartford, president of the Great Atlantic and Pacific Tea Company, revealed recently that Hartford had lost \$196,000 of a \$200,000 loan to Roosevelt and written it off as a bad debt in his 1942 income tax return.

Fourth Passes Off Quietly In Midland

The Fourth passed off quietly in Midland with no holiday accidents reported to police or the sheriff's department. The only activity reported by police was the arrest of two drunks and two persons involved in a fight.

Practically all Midland business concerns, except necessary service establishments, were closed.

MAJ. GEN. O'DANIEL TO COMMAND INFANTRY SCHOOL

WASHINGTON—(AP)—Maj. Gen. John W. "Iron Mike" O'Daniel has been appointed commanding general of the Infantry School, Fort Benning, Ga., to succeed Maj. Gen. Fred L. Walker.

General Walker, former commander of the 38th (Formosa) Division, will become director of training of the Army Service Forces.

D'ADLEY BOMB SENT TO BEAUMONT HOME

BEAUMONT—(AP)—Postoffice Inspector D. W. Boyd said Thursday a deadly, homemade bomb was delivered to an address in this area but failed to explode when it was opened.

Boyd withheld the names of the persons receiving the bomb because the incident still is being investigated.

Approximately 800 American planes were involved in Wednesday's strikes at Japan. Two B-29s failed to return from the day's heaviest strike, a 500 plane fire raid on four Japanese cities, which returning crewmen said set off "plenty of fireworks on the ground" and gave them their "most glorious fourth."

Nipponese ships hit included two destroyers bombed in the Yellow Sea.

Seize Balikpapan

On the ground, Australian forces seized Balikpapan, Borneo's richest oil port, and Gen. Douglas MacArthur officially proclaimed the liberation of the Philippines.

Approximately 420,000 Japanese were killed in the campaign, during which 17 American divisions liquidated 23 divisions of the Mikado's troops. An estimated 30,000 enemy soldiers remain to be hunted down in mountain areas. American casualties totaled 54,891, including 11,921 killed, 410 missing and 42,569 wounded.

MacArthur said the Philippines have become "a great land, sea and air base for future operations both to the north (Japan) and to the south" (Borneo and the Dutch East Indies). He significantly omitted mention of the west (China and the Asiatic mainland).

Immediately after Australian 7th Division troops seized Central Balikpapan, American landing craft wove their way into the harbor through sunken ships and Japanese mines, signifying the return of Allied shipping to the oil harbor after four years.

Aussies Thursday were enveloping the great Pandansari refineries in Northern Balikpapan, driving the last four miles toward Manggar airdrome and expanding their eight-mile-long beachhead in all directions.

Japanese artillery engaged supporting warships in a big gun duel and fired across Balikpapan Bay at the Aussies. The main tank-led drive was toward Manggar and the Samarinda oil field 48 miles beyond.

## Presidential Succession

While no one knows what eventually may be done with President Truman's proposed changes in the Presidential succession, the fact that he has proposed it is serving its constructive purpose. It is resulting in widespread discussions which cannot do other than broaden general knowledge of the workings of a highly important detail of government—something desirable in any democracy.

Under present laws, the next in line for the White House, after the vice-president, are cabinet members in this order: secretaries of state, treasury and war, attorney general, postmaster general, and the secretaries of the navy and interior. The departments of agriculture, commerce and labor had not been created at the time the law was enacted.

Truman's idea is that the order of succession, after the vice-president, should be, first, the speaker of the House of representatives; next, the president pro tempore of the Senate, and then the cabinet members in the present order. Actually, under such a plan, the succession probably never would go beyond the speaker. The House almost certainly would lose no time in electing a successor to any speaker who might be elevated to the presidency.

It is true that succession to the Presidency never has gone beyond the vice-president. But 14 times during American history, the secretary of state has been next in line for the White House—seven times each due to the death of the President or a vice-president. Thus it is a wise precaution to decide whether it is desirable for this condition to continue.

One persuasive argument in favor of Truman's proposal is that such a line of succession would tend to insure that the new head of government would represent the party in power. This, in theory, is desirable in a government which operates under the principle of majority rule.

On the other hand, American secretaries of state, taken as a whole, have been men of such outstanding ability and distinction that there is little reason to suppose that the nation would have suffered under their guidance. Among the 48 who have served in the office were six men who became Presidents. Others in the list included Cordell Hull, Charles E. Hughes, William Jennings Bryan, Elihu Root, James G. Blaine, Daniel Webster, John C. Calhoun, Henry Clay, John Marshall and John Jay. There is no reason why any secretary of state ever should be of less than presidential quality.

However, the decision on this question is in future. Regardless of what that decision may be, many Americans likely will know more about their government than they did before—which is all to the good.

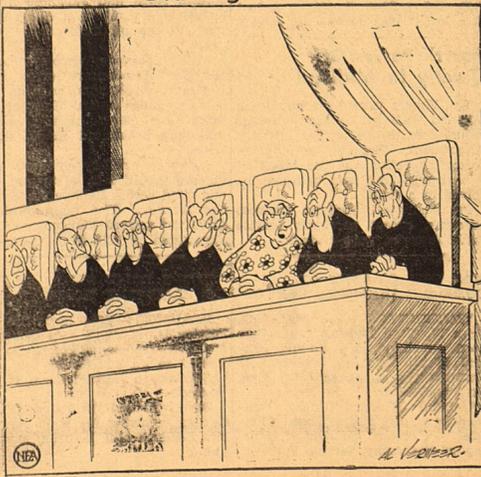

## Almost-Open Covenant

Seldom in Congressional history have prospects for speedy action on important legislation appeared brighter than do those for the United Nations charter now before the United States Senate for ratification. And the indications are that speedy action will mean speedy approval.

Many reasons doubtless contribute to the favorable outlook. But, regardless of any others, one of the most important stems from the fact that proceedings in San Francisco were conducted in a cards-on-the-table manner as contrasted with the secrecy of previous international conferences. Tending further to inspire confidence was the bi-partisan complexion of the American delegation which included, among others, distinguished members of both major political parties in the Senate. This should guarantee that any action taken by the Senate will be based on full and first-hand information from sources in which full confidence can be placed.

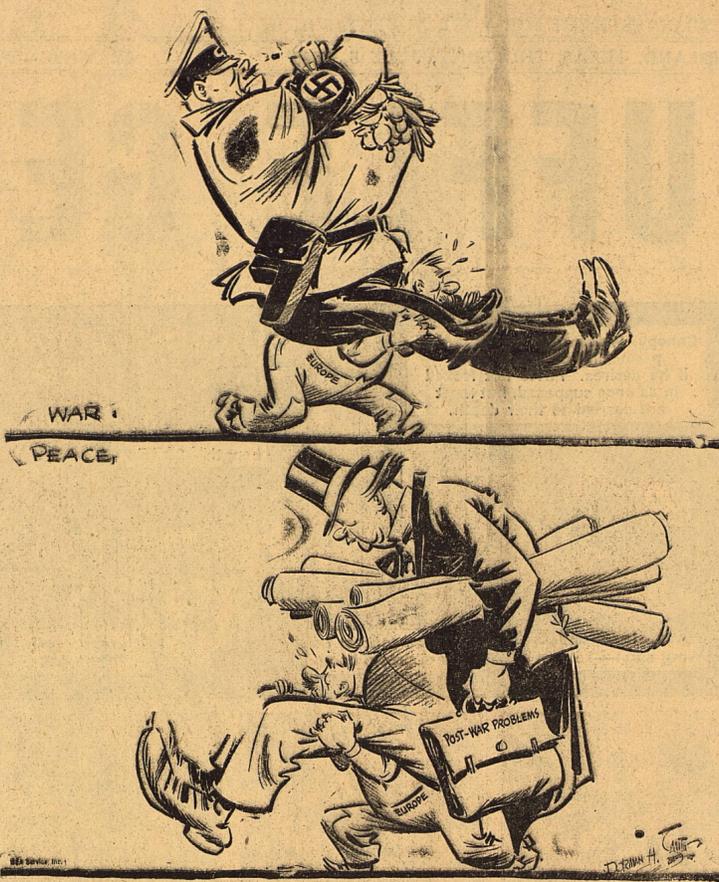

The favorable atmosphere in which consideration of the charter begins should insure more of the above-board, and less of the hush-hush, in future conclaves of public concern. It does not mean that the day of "open covenants openly arrived at" has dawned. But the dawning almost certainly has been brought measurably nearer.

## Drawing Cards

"And so would you if your wife made it!"

## Six Of One, Half Dozen Of The Other

## Universal Military Training Approved By House Committee

WASHINGTON—(P)—The House Postwar Military Policy Committee Thursday endorsed the "broad principle" of universal military training in peacetime.

The committee recommended that Congress enact legislation to put the program into effect, and that the action be taken during the present session.

The recommendation was approved by 16 of the 22 members. Committee members said only one member, Rep. Bradley (D-Pa.), opposed the recommendation, although five others did not sign the formal report.

The names of the five non-signers were not disclosed.

## Tech. Sgt. M. C. Peck Returns From Germany

M. C. Peck of the production department of The Texas Company, received a telephone call from his son, T/Sgt. Marshall C. Peck, who is now in Camp Patrick Henry, Va., after being a German prisoner of war since Feb. 25, 1944.

Sergeant Peck expects to arrive in Midland soon for a visit with his father. Sergeant Peck was serving as a radio operator and tail gunner on a B-17 when he was shot down on a mission over Germany in 1944.

## Dallas Reports Heavy Rainstorm

DALLAS—(P)—One of the heaviest summer rainstorms on record swept Dallas early Thursday. Between 7 and 8 a. m. more than an inch of rain fell, flooding many low sections of the city. In the previous six hours the fall measured 1.28.

Other cities reporting rain included Fort Worth .09, Waco .09, Abilene .27, Houston .23 and Galveston .16.

## Canadian Soldiers Smash Store Windows

ALDERSHOT, ENGLAND—(AP)—High Army officials said Thursday that upwards of 40 men were involved in a smashing of store windows and other property destruction in a two- and one-half hour demonstration Wednesday night by hundreds of Canadian servicemen awaiting transportation home.

Damage to the shopping district, which was littered with broken glass and debris, was estimated at several thousand pounds.

Maj. Gen. Dan Spry reprimanded the soldiers and told them he understood they had three main complaints—lack of shipping which was delaying repatriation of troops, inadequate food, and a delay in pay.

Apparently no one was injured in the outbreak. There was no drunkenness.

One provost officer said as many as 3,000 Canadian service men were involved, but other estimates ranged down to 700.

## Mayor La Guardia's Sister Is Liberated

BERLIN—(P)—American GI's chipped in Thursday from their own rations to provide a banquet for Mrs. Gemma La Guardia Gluck, sister of New York City's mayor, and her homeless family.

Mrs. Gluck, whose presence here was disclosed Wednesday night, said she had been imprisoned for 11 months by the gestapo because of the anti-Fascist reputation of her brother.

## Ford Outlines Postwar Plans

DEARBORN, MICH.—Plans for the 1946 Ford, Mercury and Lincoln car and truck production and distribution program were discussed here this week by Ford Motor Company executives, regional and branch managers and assistants and branch plant superintendents.

The meetings opened in the Ford Rotunda with a talk by J. F. Davis, director of sales and advertising. Davis indicated that the postwar line of Ford, Mercury and Lincoln automobiles would be greatly expanded to provide models and body styles to cover every price field from the lowest to the finest in style and performance in the automotive industry.

The meeting was highlighted by a luncheon address from Henry Ford II. Ford spoke to the entire Ford supervisory family of approximately 200 executives and department heads.

The meeting was highlighted by a luncheon address from Henry Ford II. Ford spoke to the entire Ford supervisory family of approximately 200 executives and department heads.

He outlined the company's proposed 150 million dollar expansion program, designed to step up Ford's share in the automotive business, emphasizing, however, that the company still has a war job to do.

Ford explained that "Many of our war contracts have already been terminated, and more of them will be soon, because we were principally engaged in manufacturing material for the European theater."

"As our services become less and less necessary to the direct war effort," he said, "we will complete the shift from war work to mass assembly of automobiles just as rapidly as government restrictions are removed."

"We will do everything in our power to shorten the transition period, and to prevent a serious slump in employment which would result from a prolonged postponement of passenger car production for civilian use."

## Belgian Target

Dark-haired Princess of Rethy, common-law wife of King Leopold III of the Belgians, above, is target for attacks of Communist wing seeking abdication of the King, now in Austria. A featured article in the Communist newspaper challenged payment of a pension to her father.

## Thurman Arnold Will Quit Court Of Appeals

WASHINGTON—(P)—The White House Thursday announced the resignation of Justice Thurman Arnold of the United States Court of Appeals in Washington, effective July 10.

Arnold formerly headed the Anti-Trust Division of the Justice Department.

## Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unguilty weight and help bring back alluring curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back-breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

## Newsman Will Not Attend Sessions

WASHINGTON—(P)—The White House announced Thursday that newspapermen will not be permitted to cover actual sessions of the forthcoming Big Three conference in the Berlin area.

Press Secretary Charles G. Ross told reporters that news coverage of the conference will be by official communiques which will be issued "as may be decided on from time to time."

He gave no intimation of a date for the coming meeting between President Truman, Prime Minister Churchill and Marshal Stalin.

The statement cleared up speculation whether newsman would be permitted to attend actual sessions of the first Big Three conference since victory in Europe.

It is estimated that bees collecting nectar for one pound of honey, will travel a distance equivalent to almost three times around the earth.

**MANY NEVER SUSPECT CAUSE OF BACKACHES**  
This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disease of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

The dance was the only special holiday event scheduled in Midland.

## Band To Rehearse For Public Concert

The final rehearsal for the Midland Municipal Band's fifth summer concert will be held at 8 p. m. Friday in the band hall of the Midland High School. F. C. Gambill, director, announced Thursday. The concert will be presented at 8 p. m. Saturday at the courthouse lawn.

Sgt. Paul Bowman will be the vocalist. He will sing "At Dawning," and "Will You Remember?" Gambill invited all citizens who can play a band instrument to attend the rehearsal. Instruments are available for those who do not have them.

## Shirtwaist Frock

8797  
1444

Indispensable in your summer wardrobe—this good looking shirtwaister that's ready for any occasion. Easy to make—and wear!

Pattern No. 8797 is designed for sizes 14, 16, 18, 20, 40, 42 and 44. Size 16, short sleeves, requires 4 yards of 35-inch material.

For this pattern, send 20 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, The Reporter-Telegram, 530 South Wells Street, Chicago 7, Ill.

Send today for your copy of FASHION—it's full of ideas for summer wardrobe planning. 15 cents.

## SOMETHING FOR THE BOYS

—Photograph courtesy New York Dress Institute.

The kind of clothes our fighting men like to see their girls wear added up to "all kinds" in the recent fashion show presented by the New York Dress Institute for four thousand wounded veterans in the Thomas, England General Hospital in Atlantic City.

Such very feminine evening gowns as the bouffant taffeta gown pictured today got the most approval when a bevy of New York's cutliest models showed clothes in all types of girls from the "cute" to the sophisticated. Over a hundred costumes created by topflight New York designers were presented, in everything from beach wear to bridal gowns.

Next to evening gowns, the veterans showed most enthusiasm for pure swim suits as a black wool jersey diaper suit modelled for the boys' amusement, with fun designer as magnificent black fox stole, and next-to-nothing playsuit of a button-back bra and shorts in white whipcord.

Many festive colored nets and lathering straw cartwheels were shown with spectator and afternoon lothes, such as a yellow tulip silk suit and a short white crepe dress printed with large red roses.

## Litchfield Criticizes Guayule Program

AKRON, O. —(P)—Chairman F. W. Litchfield of the Goodyear Tire and Rubber Co. said Thursday a proposed government program for the subsidized planting of 400,000 acres of guayule, a desert rubber-bearing shrub, may prove a white elephant to U. S. taxpayers.

In a statement, Litchfield said under the government subsidy plan "now being given serious promotion" some 35,000 long tons of guayule would be harvested each year, beginning four years after planting, and sold at a fixed market price of 28 cents per pound.

The harvest, he declared, would come into the market at a time when a "huge surplus of synthetic and natural rubber" would be available at prices ranging from 12 to 15 cents per pound.

## Coming Events

FRIDAY

The Ladies Golf Association will have lunch and play progressive bridge at 1 p. m. at the Midland Country Club. Reservations may be made by calling one of the hostesses, Mrs. Dave Goggins, Mrs. E. A. Culbertson, or Mrs. J. R. Gibbins.

The Boone Bible Class of the First Methodist Church will entertain with a coffee at 10 a. m. at the home of Mrs. F. A. Crockett, 2008 West College.

SATURDAY

Children's movies will be shown in the courthouse basement at 2:30 p. m.

All members of the 4-H Girls clubs of the county are invited to attend a meeting at 3 p. m. in the assembly room of the court house. The session is being sponsored by the Warfield 4-H Girls Club.

A floating seaport supplies our fighting forces off the Japanese homeland with everything from ice cream sodas to 16-inch shells.

## Capt. John Matthews Promoted To Major

B-29 BASE, GUAM—The "City of Red Bank" received more recognition recently when her airplane commander, John A. Matthews, of Little Silver, was promoted from captain to major.

Major Matthews, a flight leader in a Guam-based Superfort squadron of the 314th Bombardment Wing, has led several formations over the heart of Tokyo in their devastating strikes against the Japanese homeland.

Major Matthews entered the Army August, 1941, and won his pilot's wings in 1942 upon completing his advanced flight training at Victoria, Texas. Before his present assignment, he was an instructor at Kelly Field, Texas, and commanding officer of a squadron at the Midland Army Air Field, at Midland, Texas.

Prior to his military service, Major Matthews was associated with the Selected Risks Indemnity Company of Red Bank.

Major Matthews' wife, the former Frances Ellen Link, lives in Midland, Texas.

## Wows POWs

Meet Joan Leslie, "Official Sweetheart" of American prisoners of war, now in England. Joan was given the sweetheart tag after a special showing of her new film, "Rhapsody in Blue," at Bournemouth for hundreds of Yanks recovering from their ordeals of captivity.

## State Guard Will Leave On Bivouac

The Midland unit of the Texas State Guard will leave July 21 for a two-day reconnaissance bivouac in the Davis Mountains, Capt. E. R. Osburn, announced Thursday.

The unit has received a truck and a command car from the government and will be able to supply its transportation. Members of the guard who wish to make the trip are asked to be at drill Friday night at the Civic Auditorium to help assemble equipment and receive further instructions.

Rifle practice will be one of the major features of the bivouac. The unit has received an allotment of ammunition.

## DUTCH CHILDREN IN ILL HEALTH GO TO SWITZERLAND

AMSTERDAM —(P)—A first group of 200 children in delicate health, from six to 12 years old, left Amsterdam Wednesday for a three-month stay in the Swiss Mountains where the Swiss Red Cross has undertaken to find lodging for 3,000 Dutch children at one time.

The radio manufacturing industry, with a wartime payroll of 350,000 workers, estimates about two-thirds of them are women.

## Too Much Sun Ages Your Hair

OSA MASSEN, Protects hair.

By ALICIA HART  
NEA Staff Writer

Brief daily sunnings will enrich color and heighten glossiness of hair. But because hair is unable to build up a protective pigment, it should not be given the prolonged sun baths that you give your skin.

Having learned her lesson the hard way, screen-lovely Osa ("The Master Race") Massen, says she lets the sun have a few minutes at her hair, then puts it under cover of kerchief, bandana or hat to keep off further peltings while she's out to coax a tan.

To keep harsh coatings of salt and chlorinated water off hair—another despoiler of beauty Osa warns you against—either shampoo hair after a swim or fortify your bathing cap to prevent seepage. Osa's trick of wrapping her hair-line with a chamomile band and tying it fast before she puts on a cap is one you can duplicate with cotton flannel, or any other absorbent fabric which helps to repel water.

## Government Opens Attack Against Inflation In Real Estate Prices

By MAX HALL

## Secretary Byrnes Expected To Shake Up Department Of State

WASHINGTON —(P)—There's pretty good evidence that the new secretary of state, James F. Byrnes, will shake up the State Department. He has announced:

"I have asked the director of the budget to make an investigation of the structure of the department. Until I receive that report and have an opportunity to study it and make such personal inquiry as I deem advisable, no change in personnel will be made."

When Edward R. Stettinius, Jr.—Byrnes' predecessor in the job—took over last December he began reorganizing the department, but that wasn't very drastic.

Until that time the department had rocked along, target of critics who complained it was wrapped in mothballs, and Byrnes now apparently expects to continue the job Stettinius started.

## President Now Has Power To Cut Tariffs

WASHINGTON —(P)—President Truman put on the statute books Thursday a three-year extension of the reciprocal trade program, which includes vast new executive authority to cut tariffs in agreements with other nations.

The law written after bitter party-line battles in Congress permits the trimming of some duties as much as 75 per cent below the rates of the last Republican tariff act—the Hawley-Smoot law of 1930.

State Department officials said the new powers would permit a return to the tariff levels of the Woodrow Wilson administration's Underwood Tariff Act, not item by item but on an average basis.

Specifically, the bill signed by the President permits him to cut tariffs up to 50 per cent under the rates prevailing January 1, 1945. Under the old reciprocal trade act of 1934, the President could trim duties as much as 50 per cent below the Hawley-Smoot rates.

A little chopped chive or onion put into cooked spinach gives a new flavor. Add when spinach is ready for the table.

CITY 80 CABS

WASHINGTON —(P)—The government Thursday began an attack against inflation in the field of real estate and securities.

Worried over speculation and rising prices, the 18-man Economic Stabilization Board headed by William H. Davis is reported to have approved unanimously a three-point program.

The first point was to limit loans for buying stock exchange securities. The Federal Reserve Board did that by raising the margin requirements from 50 to 75 per cent, effective Thursday.

The other two points will be harder to put through. They are:

1. Limiting loans for buying real estate. This needs an order from the White House. The Stabilization Board has recommended that President Truman give the Federal Reserve Board authority to regulate mortgages on farms and homes—the way it now regulates stock market loans. If the order is issued, the reserve board probably will require certain down payments in buying farms and urban real estate.

2. Slapping heavier taxes on those who buy real estate or stocks and sell them quickly at a profit. This needs an act of Congress. The present law says such profits are exempt from income taxes if the property is held six months or more. The proposal is to extend this to three years, thus discouraging speculators who might want to sell in a shorter time.

Davis, director of economic stabilization, has made no announcement of the program. Apparently it is up to higher authorities to carry the ball from here—either War Mobilizer Fred Vinson or Truman.

A margin of 75 per cent means that anyone buying stock exchange securities on credit must put up 75 per cent of the price himself and can borrow only 25 per cent from his banker or broker.

## SPITFIRE MAKES A FRIEND

GINGISS was waiting for us in front of the Delamar Hotel in Bombay. He waited outside until we had signed up for rooms. When he saw us head for the elevator he came in and briskly walked across the lobby to join us. All the way up in the elevator he complained in a loud voice about the taxicab situation in Bombay, continuing his lute lament until all our baggage had been brought to the rooms and the porters were paid off and the doors closed. Then he sat down on the canvas bags and dropped into a chair, exhausted. In the welcome silence we could then hear the protesting whines of the cats.

We had arranged for transportation to Durbin on the east coast of South Africa aboard the British passenger ship Strathmore, and during our stay in Bombay we gave considerable thought to how we were going to get the cats aboard without letting the ship's crew know anything about it. The best bet finally seemed to be to put them back in the two canvas bags, and that is what we did. I took one bag, with Spitfire in it, and Tony took the other containing Margot and Suzy. G. Gingiss said it was up to us to get them out of Bombay; he had gotten them in. We stalled around until the last minute before the ship sailed, in the excitement of our late arrival, together with the fact that we were still wearing our service uniforms, the port authorities gave us no trouble at all.

IT'S a 10-day voyage from Bombay to Durbin—4000 miles of mild, blue Indian Ocean—and after two days sailing under the grim conditions imposed on us by the leopards, Gingiss and Tony and I were just about ready to slit each other's throats or murder the cats or both. One of us was always in the stateroom, another of us was always filching extra towels from the general toilet rooms to use—quite inadequately—as diapers for the pets. These had to be washed out and dried and used again for the same foul-smelling purpose. Asking the steward to bring a pitcher of lukewarm milk to the room hadn't seemed to disturb the fellow the first time—"One of my friends is a little uneasy on the water," Gingiss had explained. But when the same request was made every two hours the steward began to show a bit of interest as well as annoyance.

Finally, toward evening of the second day, I intercepted the Captain as he was heading for his cabin and said, "Say, Captain, how'd you like to see something? I know it's against the rules—but d'you know what I have in my stateroom?"

"No, sir," the Captain said stiffly, "I have no idea what you have in your stateroom."  
"Well, sir," I said, "you'll certainly get a kick out of this! Wait here a minute and I'll bring it out and show you."  
AS I led Spitfire out into the corridor I waited for the Captain's reaction. For no good reason I had an idea he would take an immediate liking to Spitfire.

## Mountain Climber Sets Lofty Goal

SEATTLE—(AP)—Dr. J. Howard Snively, a mountain climber despite his 67 years, has clambered up 99,000 feet of mountain so far this season. With his two sons, Bob and Howard Jr., he has mastered 13 peaks, including 9,671-foot Mt. St. Helens.

He wants, said Dr. Snively, to get 100,000 feet of altitude under his boots before the summer closes.

## Stamford Reunion Has Record Crowd

STAMFORD—(AP)—The three-day Texas Cowboy Reunion ended here Wednesday with a record crowd of 33,000 braving a pouring rain to witness the afternoon show. More than 8,000 saw the night performance.

Charles Featherstone of Wichita Falls was reelected president of the Texas Cowboy Reunion Association.

## McKENNEY ON BRIDGE

BY WILLIAM E. MCKENNEY  
America's Card Authority  
I was very pleased to tell John Whitney Richmond of the War Finance Committee that the American Bridge League would go over the top in its quota of two million dollars in the 7th War Bond drive. John is an ardent bridge fan, so I told him that he owed me a good bridge hand for fulfilling our quota. This is it. Of course, in all probability, most players would go down

## Hold Everything

"Well, son, how do London and Paris compare with Lonesome Center?"

## THE WAR TODAY

By DEWITT MACKENZIE  
Associated Press War Analyst

Our aerial bombardment of Japan has progressed far enough so we can say with assurance that, between this increasingly intensive bombing and the Allied blockade, the mikado's home islands could be crippled prior to invasion—if our high command should decide to pursue such tactics.

One suspects that the Allies intend to anesthetize Nippon so far as possible before undertaking amphibious operations and thus reduce our casualties. Tokyo claims a chain of powerful underground fortresses, girdling the entire coastline of the main island, is being rushed to completion.

I don't believe we want to dispute that claim, for it may easily be true.

## Just Beginning

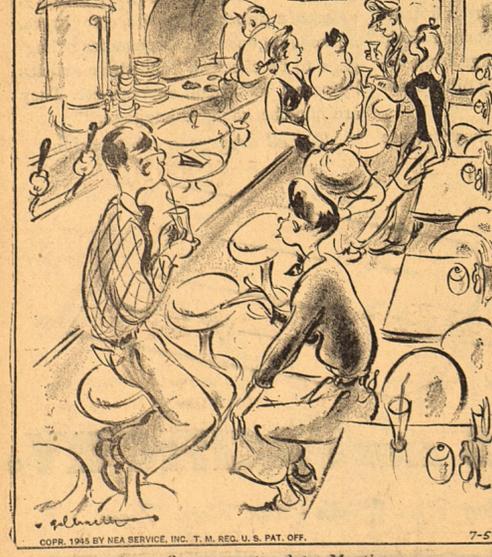

We are just beginning to get going in a big way with our bombing of Japan proper, and things are moving well. The Tokyo Radio admits 4,900,000 Japanese were killed, injured or made homeless by American bombing of Tokyo, Osaka, Yokohama, Nagoya and Kobe up to May 31. The broadcast said 1,135,000 homes were destroyed in those cities.

What's more to the point, as long ago as the middle of May, Major Gen. Curtis LeMay, chief of the 21st Bomber Command, said the B-29's had knocked out, or almost knocked out, war production in these key cities of Japan. That's a terrific blow to the mikado's fighting machine.

## More Vulnerable Than Germany

Daily our raids are demonstrating that Japan is much more vulnerable to bombing than was Germany—and the air attack was one of

City Council, the maximum maturity date being not more than twenty (20) years from their date, and bearing interest at a rate not to exceed Two and one-half (2 1/2%) per cent per annum, payable semi-annually, and to levy a tax sufficient to pay interest as it accrues and principal as it matures on said issue of bonds, for the purpose of constructing improvements and extensions to the City's Waterworks System, as authorized by the Constitution and laws of the State of Texas.

PROPOSITION NO. 2

"Shall the City Council of the City of Midland, Texas, be authorized to issue the bonds of said City in the amount of One Hundred Twenty Five Thousand (\$125,000.00) Dollars, maturing serially in such installments as may be fixed by the City Council, the maximum maturity date being not more than twenty (20) years from their date, and bearing interest at a rate not to exceed Two and one-half (2 1/2%) per cent per annum, payable semi-annually, and to levy a tax sufficient to pay interest as it accrues and principal as it matures on said issue of bonds, for the purpose of constructing improvements and extensions to the City's Sewer System, as authorized by the Constitution and laws of the State of Texas."

NOTICE OF ELECTION THE STATE OF TEXAS COUNTY OF MIDLAND CITY OF MIDLAND

To the resident, qualified electors of the City of Midland, Texas, who own taxable property in said City and who have duly rendered the same for taxation:

TAKE NOTICE that an election will be held in the City of Midland, Texas, on the 21st day of July, 1945, on the propositions and at the place more particularly set forth in the election order adopted by the City Council on the 3 day of July, 1945, which is as follows:

"RESOLUTION BY THE CITY COUNCIL OF THE CITY OF MIDLAND, TEXAS, CALLING AN ELECTION ON THE QUESTION OF THE ISSUANCE OF \$275,000.00 WATERWORKS BONDS, AND ON THE QUESTION OF THE ISSUANCE OF \$125,000.00 SEWER BONDS.

WHEREAS, the City Council of the City of Midland, Texas, deems it advisable to issue the bonds of the said City for the purposes hereinafter mentioned:

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MIDLAND, TEXAS:

1. That an election be held in said City of Midland, Texas, on the 21st day of July, 1945, at which election the following propositions shall be submitted:

PROPOSITION NO. 1

"Shall the City Council of the City of Midland, Texas, be authorized to issue the bonds of said City in the amount of Two Hundred Seventy Five Thousand (\$275,000.00) Dollars, maturing serially in such installments as may be fixed by the

PROPOSITION NO. 2

"FOR THE ISSUANCE OF WATERWORKS BONDS 'AGAINST THE ISSUANCE OF WATERWORKS BONDS'

PROPOSITION NO. 2

"FOR THE ISSUANCE OF SEWER BONDS 'AGAINST THE ISSUANCE OF SEWER BONDS'

Each voter shall mark out with black ink or black pencil one of the expressions on each proposition, thus leaving the other as indicating his vote on such proposition.

4. A substantial copy of this resolution signed by the Mayor of said City and attested by the City Secretary shall serve as proper notice of said election. Notice shall be given in accordance with Article 704, Revised Civil Statutes of 1925, as amended by Chapter 382, passed at the First Called Session of the Forty Fourth Legislature, supra.

The Mayor is authorized and directed to have a copy of said notice posted at the City Hall and at two other public places within said City not less than fifteen days prior to the date fixed for holding said election. He shall also cause said notice to be published on the same day in each of two successive weeks in a newspaper of general circulation published within said City, the date of the first publication to be not less than fourteen days prior to the date set for said election. Except as otherwise provided in said Article 704, as amended, the manner of holding said election shall be governed by the laws governing general elections.

5. The inadequacy and inefficiency of the existing waterworks and sanitary sewer systems of the City creates an emergency and that this resolution is necessary for the immediate preservation of public property, health and safety requiring that this resolution be declared an emergency measure making it imperative that the Charter provision prohibiting passage of an ordinance or resolution on the date it is introduced be suspended and that this resolution take effect immediately from and after its adoption.

ADOPTED AND APPROVED this 5 day of July, 1945.

(Signed) A. N. Hendrickson, Mayor, City of Midland, Texas.

ATTEST: J. C. Hudman, City Secretary, City of Midland, Texas.

7/5-12

Maj. Gen. Parks To Be Berlin Commander

BERLIN - (AP) - Maj. Gen. Nikolai N. Barinov, Soviet commander in Berlin, formally turned the American occupation zone in the German capital over to Gen. Omar N. Bradley Wednesday at ceremonies in which the American flag was raised over the Adolf Hitler barracks.

With Bradley was Maj. Gen. Floyd L. Parks, commander of the U. S. First Airborne Army, who has been named American commander in Berlin, and the French commander, Maj. Gen. Geoffrey de Beaulieu.

Ferry Command Men Work Over Fourth

Service men with the Ferrying Command at the Midland Municipal Airport spent a full day at work the Fourth, with no holiday passes issued. Major W. L. Burall, commanding officer of the post, reported Thursday.

All civilian workers were on the job at the usual hours, Major Burall said.

### Outsiders Win Four Of Seven Stake Races

**By TED MEIER**

NEW YORK—(AP)—Outsiders won four of the seven stake races on Wednesday's rich holiday turf program as 310,588 fans wagered a record \$14,718,844 at 13 tracks.

Mrs. Ethel D. Jacobs' Stymie, \$14.80, beat the mighty Devil Diver by 1 1/2 lengths in the \$50,000-added Brooklyn Handicap at Belmont Park while Charles S. Howard's Sea Swallow, \$34.50, romped off with the \$25,000-added Yankee Handicap at Suffolk Downs.

Greentree Stable's Dockstader, \$10.00, captured the \$10,000-added Diamond State at Delaware Park while David Strauss' Daily Trouble, \$10.20, snared one division of the \$25,000-added Phipps Mile at Washington Park.

**Other Favorites Win**

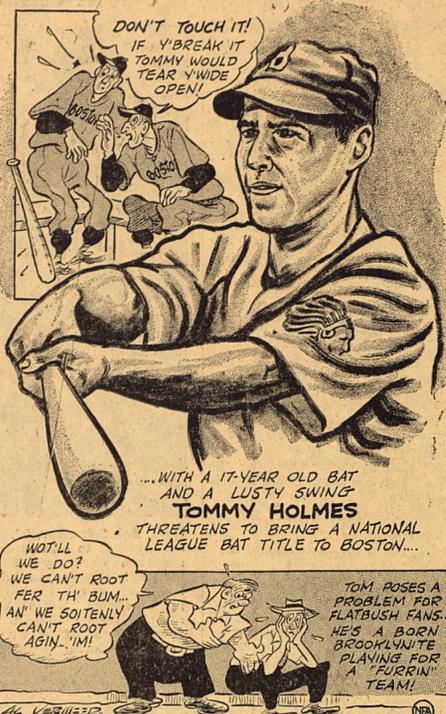

Favorites capped the remaining three standout races. Louis B. Mayer's Busher, \$5.50, won the \$50,000-added Santa Margarita Handicap at Santa Anita; Howard Wells' Equifox, \$5.60, took the other division of the Equipse Mile while R. A. Firestone's Degage, \$7.90, captured the \$7,500-added Tremont Handicap for juveniles at Belmont.

Stymie, once a \$1,500 plater; climbed into the \$100,000 class (\$117,470) by coming from last place to beat the 6 to 5 favorite from the Greentree Barn in Brooklyn.

At Suffolk a crowd made Mrs. W. G. Lewis' Darby Dieppe, third in both the Kentucky Derby and the Preakness, an 8 to 5 favorite, only to see him finish out of the money.

Perfectly rated by Jockey Headley Woodhouse, Sea Swallow won by three lengths over Mrs. Frank F. Magann's Michaelo.

### Sports Enjoy Biggest Fourth Of July Since Pearl Harbor Attack

NEW YORK—(AP)—Sports Wednesday enjoyed its biggest Fourth of July since Pearl Harbor.

Exactly 699,173 sports fans turned out to watch the races and big league baseball games as well as 10 minor leagues during the holiday.

Led by Belmont Park which set a new betting record for a race card when 50,269 turf addicts tossed \$3,804,362 into the pari-mutuel machines, the 13 United States tracks set a new one day wagering record of \$14,718,844 contributed by 310,588.

A total of 388,564 attended the ball games, with 209,035 of these at big league parks. The largest turnout was at Detroit where 45,376 saw the Red Sox and Tigers split.

### Sports Roundup

By Hugh S. Fullerton Jr.

NEW YORK—(AP)—A brand new idea of eligibility for college athletics may come from last week's meeting of the college baseball coaches, "I don't expect the schools to adopt it very soon. . . . The baseball men, mostly old-time professionals, can't see why a boy should become eligible merely by signing a contract with a league club. . . . In fact, they figure that kids who have tried to win pro jobs and failed might be given some special consideration as college material. . . . After all, that should be sufficient proof that they're not real professionals. . . . And a lot of coaches don't see why a kid shouldn't be allowed to pick up a lit'l'e change playing ball in the summer. . . . But that reasoning is based on the fact that a baseball player usually pays his own way through college."

**One-Minute Sports Page**

Sammy Cooper, kid brother of Mort and Walker, has joined Harry James' orchestra. And if anyone asks Harry what Sammy plays, James replies: "He's our pitcher."

Hugie Devore, Notre Dame coach, wonders if it wouldn't be a good idea to apply lend-lease to football to conform to the ODT request to use the home team's equipment whenever possible. "I'd like to use a few of those spare Army and Navy backs," Devore says.

**Service Dept.**

Lt. Dewey Fragetta, former boxing manager and promoter who is undergoing treatment for a back injury at Rhoads General Hospital, was more than pleased to find that one of the nurses recently assigned there was Lt. Adelaide Fragetta, his youngest sister. . . . The Air Transport Command Flyers, paced by Cpl. Walter Little of Rome, Ga., and S/Sgt. Ralph Mize of Cedartown, Ga., won the 1945 baseball championship of Trinidad. Little won 14 and lost 3 on the mound and Mize—no relation to Johnny—hit a cool 500. . . .

**Standings**

National League

Cleveland 4-2, New York 2-3.  
Philadelphia 3-5, St. Louis 2-6.

### MAAF Nine Defeated By 7 To 1 Score

The Midland Army Air Field suffered a 7 to 1 defeat in a Fourth of July baseball game with San Angelo's Goodfellow Field nine at San Angelo. The Goodfellow team slammed out 14 hits in the nine innings to make the seven runs.

The Midland team was limited to four hits.

### Hammett Wins Golf Tourney At Abilene

ABILENE—(AP)—J. T. Hammett of Eastland won the championship of the Abilene Invitation golf tournament Wednesday by defeating Doug Jones of Abilene 2 up in a 36-hole match.

Hammett also won the title in 1941.

### St. Louis Cardinals Top Home Run Fiesta With 27 Runs And 36 Hits

By JACK HAND Associated Press Sports Writer

The St. Louis Cardinals are beginning to hit and that's bad news for the rest of the National League.

Topping Wednesday's home run Fiesta with 27 runs and 36 hits in a double decision over New York, the world champs are making a habit of double number hit totals with an average of 12 safe blows per game in their last 19 starts.

Augie Bergamo was the big slugger of the majors 4th of July celebration which exploded 22 home runs, 11 in each league, into banner turnouts of 209,035 paying customers. The Cardinal outfielder hit two round trippers, one with the sacks loaded, and battered New York pitching for a total of eight safeties and nine runs batted in for a day he'll never forget.

Ray Sanders and Buster Adams helped Charley Barrett to an 8-4 victory by smashing circuit clubs in the first game rout of Bill Voiselle and two successors but Bergamo was the little man with the wallop who made Bud Beyer's second game breeze a 19-2 picnic. Eight of Augie's RBI's came in the nightcap as he hit one into the stands with the bases full of Red Birds.

Close in on Dodgers

Both the Cards and the Chicago Cubs, who trimmed Boston twice, 5-3 and 7-6, closed in on Brooklyn, whose lead was clipped to 3 1/2 lengths in a split with Cincinnati.

Bill Nicholson of the Bruins unloaded a pair of homers to help Hyd Vandenberg take the decision over Bob Logan in the finale after Logan had failed as a starter in the opener.

Hal Gregg finally grabbed his 10th victory on the fourth try, becoming the first hurler to hit the mark in the National, as he tossed the Dodgers to a 8-3 edge in the afterpiece against Cincy. Bucky Walters outpitched Art Herring in

the first with the help of four hits by Al Libke, two doubles and a pair of singles to win 4-3.

The Phillies made life tough for Rip Sewell, knocking him out of the box in a 7-6 shade over Pittsburgh. But Max Butcher lowered the boom on the Phils in the other half, won by Pittsburgh 13-0.

**Senators Will Pair**

Washington's surge continued to be the most exciting story in the American where the Nats swept a pair from Chicago 5-4 and 11-2 for their thirteenth decision in their last 17 starts. Marino Pieretti and Mickey Haefner did the pitching and Harland Clift boosted in with three homers to help the Senators into third place, only 4 1/2 games back of Detroit. Clift batted in seven runs in the finale.

The Tigers and Boston split two with ex-servicemen taking the bows in each end. After Dave Ferriss copped his thirteenth success in the first, 4-3, beating Dizzy Trout, Al Benton made his first start, since he broke his leg, a winning one, 5-2. The former sailor had to have help from Stubby Overmire in the seventh.

Frankie Hayes was injured in the Cleveland-New York double and had to leave the second game when hit behind the left ear by one of Al Gettel's pitches, perhaps endangering his consecutive game streak.

Patel won that one, 3-2 over Alie Reynolds after Steve Gromek decided Hank Borowy in the opener, 4-2.

Philadelphia broke its 14-game losing slump, 3-2, in St. Louis but fell in the second contest, 6-5 on Pete Gray's ninth-inning single which scored two.

### Les Jones Grabs Golf Honors At El Paso

EL PASO—(AP)—The El Paso Open golf tournament championship was won Wednesday by Pfc. Les Jones, former St. Louis pro now stationed at the Deming Air Base.

Jones had a 72-hole aggregate of 293, carding a 68 and 74 in the final two rounds.

Pfc. Angelo Bonino of Biggs Field, was runner-up with a 296. Shorty Hornbuckle, Odessa pro, was third with 298.

### MESGLEY RETAINS TITLE

PHILADELPHIA—(AP)—Joseph Mesgley of New York A. C. walked 20 kilometers in one hour, 58 minutes and 15 seconds Wednesday to retain his National AAU title. His time was 14 minutes slower than last year.

### Exercise Gal

Believe it or not, manpower shortage has hit the exercise lads at race tracks and in many cases girls have taken over. Above is Joan Maecher, who hails from Miami, is 20 and owns seven ponies and two mares. Latter are thoroughbreds and she has bred them. She works racers for trainer James McGehe.

### Conoco -

(Continued from Page 1)

4,223 feet in lower Permian, after a drill test at 4,183-4,233 feet. The tool was open 90 minutes. Recovery was 600 feet of foamy oil, cut with drilling mud. There was no formation water. Operator likely will take another DST soon.

**Taking DST**

Magnolia and Humble No. 1 Cowden, Southwest Andrews County Ellenburger prospect in section 7, block A-55, psl survey, was to take a drill test of the basal Permian horizon at 7,435-65 feet, after getting a petroleum odor in that zone.

Stanolind Oil & Gas Company No. 1 Edwards, Southwest Cochran County discovery for San Andres-Permian production, in section 13, block L, psl survey, ten miles west of the Slaughter field, was shut-down for storage.

**Edwards Flows Again**

In last test before shutting in the well flowed 17 barrels the first hour, after kicking off, 39 barrels the second hour, and 30 barrels the third hour for a total of 86 barrels of fluid in three hours, of which 82 barrels was oil and four barrels was basic sediment. Casing pressure was 80 pounds and tubing pressure 50 pounds.

The flow was after an acid treatment of 2,500 gallons and following flowing of 131 barrels of fluid, mostly oil, in 12 hours.

Sunray Oil Corporation No. 1 Glass, West Sterling County, well casing in section 31, block 22, H&TCo survey, was bottomed at 2,208 feet in lime, and was to drill ahead after rigging up a rotary.

**Reported Low**

The hole had been punched to current level with cable tools. Informal sources reveal that it is low, after being high on red beds, as compared with the old dry hole drilled by Phillips Petroleum Company about one and one-half miles to the northwest.

DeKalb Agricultural Association Inc. No. 1-C Lockhart, G. Brown, Southwest Andrews County exploration to 8,000 feet, in section 12, block A-41, psl survey, had progressed below 5,850 feet in the Glorieta-San Angelo section of the Permian. No top on that section has been released.

G. E. Day No. 1 McBurnett, Schleicher County prospector, was testing in lower section of upper Strawn at 5,420-81 feet, and was showing some water, of which operator had not been able to determine the origin.

Skelly Oil Company No. 1 Suggs, Irion County wildcat in section 45, block 1, H&TCo survey, was bottomed at 7,401 feet in shale and lime and was shut-down for rig repairs.

Humble No. 1 Buchanan, East Midland County wildcat in Baldridge survey No. 32-692, ten miles southeast of Midland, had reached 12,292 feet in lime and was out of the hole to change bits.

Union Oil Company of California No. 1-D Scott, in section 176, block 1, TP survey, six miles northwest of the Barnhart field, in Southeast Reagan County, was shut-down for repairs at 2,630 feet in lime. Operator has not released call on top of the lime.

Frank and George Frankel No. 1-I University, Devonian prospect in section 32, block 13, University survey, and between two proven sections for production from that formation, was making hole under 6,185 feet, in the Glorieta-San Angelo. Top on the section has not been officially picked.

However, reliable sources indicate it is high to the nearest Devonian producers and it is indicated the test is cutting out some section.

Shell Oil Company, Inc., and The Texas Company No. 1 Ratliff & Bedford, Southwest Andrews County discovery for production in four zones, was bottomed at 11,117 feet in Ellenburger trying to get a drill-stem test at 11,097-117 feet. The first attempt on that zone failed when the packer slipped.

### Land Commissioner Rejects Application For Andrews Lands

AUSTIN—(AP)—Application of G. W. Theisen and I. V. Daniels of Abilene for a mineral lease on an all-gaged vacancy covering 4,265 acres in blocks 13 and 14, Andrews County, in the heart of the highly productive Fullerton Field, was rejected Thursday by Land Commissioner Bascom Giles.

The effect of the decision was that the University of Texas permanent fund will not have to refund bonus, rental and royalty monies received thus far from several oil companies holding leases on the all-gaged vacancy.

Had Giles declared it a vacancy, the refund would have been necessary, and it also would have been necessary to re-offer the lease. In this event, the benefits would have gone to the permanent school fund instead of the university fund.

The acreage involved has an estimated potential production valuation in excess of \$5,000,000. Land Office sources said. One 321-acre tract recently brought \$450,000 in bonus money alone.

### Jap Aerial Blows Sink Two Destroyers

WASHINGTON—(AP)—Japanese aerial blows sank the destroyers Twigg and William D. Porter off Okinawa six days apart.

Naming the vessels after previously reporting their loss, the Navy said casualties totaled 24. Of these 183 were suffered by the Twigg in a surprise attack June 16 which blew off the ship's bow.

All officers were either killed or disabled, leaving command of the Twigg with Chief Pharmacist's Mate Joseph E. Deworocki of Long Beach, Calif. The Navy listed eight dead, 17 missing and 47 wounded as the Twigg's toll.

Sixty-one wounded comprised the entire casualty list of the Porter, hit June 10 by an enemy suicide dive bomber.

Flag of the 2,050-ton sistership's carried a normal wartime complement of between 300 and 350 men.

### STEERING COMMITTEE MEETS IN AUSTIN

AUSTIN—(AP)—A 12-member steering committee to prepare for Texas' participation in hearings of the Federal Power Commission on the conservation of natural gas met here Thursday under chairmanship of Railroad Commissioner Olin Culberson.

The committee was appointed by Gov. Coke Stevenson on the recommendation of a larger committee representing the oil and gas industry. This committee urged that Texas take a strong position in the claim to state control of natural gas.

### Livestock

FORT WORTH—(AP)—Cattle 2-200, calves 900; steady; common to medium slaughter steers and yearlings 10.00-14.00 with occasional good f-d yearlings up to 15.00; cutter and common steers and yearlings 7.00-10.00; medium to good beef cows 9.50-12.50 with cutter and common cows 7.25-9.25 and canner cows 5.50-7.25; bulls 7.00-11.50; good and choice fat calves 12.75-14.00; common to medium fat calves 8.50-12.50; cull calves 7.00-8.00; good stocker calves and yearlings 12.50-13.50; stocker steers 8.50-12.50.

Hogs 4.00; unchanged; few butcher hogs offered 14.55 with packing sows 13.80 and stocker pigs 15.00 down.

Sheep 9.00; active and steady; common and medium spring lambs 9.50-13.00 with a few medium and good grades 13.25 and culls downward to 6.00; common and medium shorn lambs and yearlings 10.00-12.00 with a few culls 8.00-9.00; medium and good shorn ewes and aged wethers 6.25-7.50 and cull and common shorn aged sheep 5.00-6.00.

### Gay Summer Blouses

Blouses, blouses, blouses—pretty blouses to wear all through summer. Stripes, prints and solids to tuck in your skirt or wear out.

### Rotarians Hear Classification Talks

Four Rotarians discussed their professions in brief addresses at the regular meeting of the Rotary Club in Hotel Scharbauer Thursday noon.

Paul Brooks, retail grocer and meat market operator, discussed his business and asserted the CPA has done a good job in holding down prices. He said the CPA can succeed only if wholesalers, retailers and consumers cooperate. Brooks discussed food shortages and prices.

Henry Krauss, a mechanical draftsman, outlined his work with the oil industry, and told of the importance of the profession to industry.

**Talks Of Boy's Work**

Bill Martin, Scott executive, discussed boy's work and asserted the Boy Scout program is based on citizenship training.

George McEntire, who is with an airplane manufacturing company in California, briefly told of the new jet planes which it is producing. He said they are both fast and easy to fly, but gave no details of the plane.

Percy Bridgewater called attention to the special school district election July 14 and urged all Rotarians to vote on each of the issues. One concerns a \$325,000 bond issue to improve the school system.

Richard Brooks, program chairman, outlined the objects of Rotary and Guy Brenneman, president of the club, presided at the meeting.

### Cotton

NEW YORK—(AP)—Cotton prices Thursday noon were unchanged to 15 cents a bale higher. July 22.56; Oct. 22.64, and Dec. 22.63.

**THIRSTY BATTERIES NEED A DRINK!**

On hot summer days the water in your battery evaporates faster than usual. This is a dangerous condition. If water is not replaced acid may permanently damage the plates and separators. Play safe . . . let us give your thirsty battery a drink now!

### Recognition Is Expected For New Polish Government

WASHINGTON—(AP)—United States and British recognition of the new Polish Government of National Unity in Warsaw will probably be announced late Thursday.

The State Department and White House declined comment on the matter, but it was learned a simultaneous Washington and London announcement was imminent.

The two governments have heretofore recognized the Polish Government-in-Exile in London.

### Bodies Of 930 Persons Are Recovered

PRAGUE—(AP)—Bodies of 930 persons who died in a gestapo march of death have been recovered by Czechoslovak authorities who completed opening of eight mass graves near Karlsbad Wednesday.

### RAYMOND PARKER WINS MEDALIST HONOR

CORPUS CHRISTI—(AP)—A record field of 176 amateur golfers from 24 Texas cities and Monterrey, Mex., teed off Thursday in the opening round of match play in Corpus Christi's eighth annual invitation golf tournament.

Raymond Parker, of Corpus Christi, won medalist honors Wednesday when he toured the country club lay-out in even par 70.

Igor Stravinsky, the composer, uses only half of his name. He was christened Igor Feodorovich Soulima-Stravinsky.

### Midland Studio Will Reopen July 17

The Midland Studio, owned by Randolph Rubin, will reopen July 17, after being closed since June 30 because of a shortage of materials.

"We regret it was necessary to close for a time because of the material shortage," Rubin said. "When we reopen we will try to have enough materials on hand so we can give our customers the type of service they like."

### Marines Dedicate Okinawa Cemetery

OKINAWA—(AP)—The Sixth Marine Division dedicated a cemetery on Okinawa Wednesday near where they stormed ashore Easter Sunday.

There are 1,697 graves in it—including 91 Navy men, 11 Army, and 55 unidentified who fell in the Marine sector.

### He Smelled Trouble; Then He Just Smelled

ABERDEEN PROVING GROUND, MD.—(AP)—Pvt. W. C. Caldwell was quietly plugging along on his tour of guard duty when he heard a noise.

About to challenge the source, he sprang it—too late: A skunk.

Caldwell retreated to the guardhouse, where he was relieved of his duty—from a distance.

Americans now are taller on the average than any large group of people in history.

### What Army Needs Is More Bad Shooting

GUNLOCK, UTAH—(AP)—Sgt. Rex A. Leavitt, a Gunlock cowboy before he entered the Army, missed his target by 200 yards with a mortar on Luzon—and blew up a Japanese ammunition dump. Leavitt had been firing at 18 different ranges under directions from his company commander, and the latter ordered him to return to his original target. The Utahian misunderstood but as the commencing was telephoning him about the error, the dump exploded. It kept exploding for three hours.

### Barrow Furniture Company Shows Much Better Quality Merchandise

New furniture obtained by S. M. Vaughan, manager of the Barrow Furniture Company, on a recent buying trip which took him to more than 100 furniture factories is arriving almost daily at the Barrow store.

The furniture shortage nationally has lent new meaning to the slogan of the Barrow Furniture Company, "The Largest Assortment of Furniture in West Texas." The slogan holds good today, although the firm does not have nearly all of the furniture it would like to have, Vaughan pointed out.

An especially nice assortment of period bedroom suites is being shown, and in one room of the large Barrow building is a special display of a canopy bedroom suite.

Because of the buying power of the Barrow stores, and the buying trips direct to the factories, some high quality blonde bedroom suites are being shown. This type of suite, which appeals to Midland citizens, is particularly difficult to obtain at the present time because of the scarcity of the wood.

The lower main floor of the Barrow building is well filled with living room furniture, both suites and occasional pieces. The suites are shown in an assortment of covers.

Attractive Display  
Vaughan has arranged a particularly attractive display in one of the concern's showrooms of some of the best quality living room furniture. The display includes suites and odd pieces which have been built with all of the painstaking care of prewar days.

Citizens interested in obtaining a dinette suite will find a carefully chosen selection at Barrow's. The selection of the better quality suites is unusually wide at a time when good furniture is extremely scarce.

The Barrow store is well stocked with some of the smaller furnishing items which lend charm and distinction to the home.

Picture lovers will find a generous selection from which to choose one or more pictures. Many of the pictures are reproductions of some of the world's great masterpieces.

Mirrors are something else Midland citizens will find in quantity at the Barrow Furniture Company, and to add to the comfort of Midland homes the concern is showing an assortment of quality built hassocks.

"Whether or not one is interested in buying new furniture at present, we believe many Midland citizens will enjoy seeing some of the better quality furniture we are showing," Vaughan said. "We cordially invite them to inspect our stock."

### Judge Didn't Even Ask For A Change Of Venue

MOLINE, ILL.—(AP)—When Police Magistrate Ralph Stephenson, who hears traffic code violation cases, walked out of City Hall, he found an overtime parking ticket on his car. He returned to his court, fined himself \$1, and he says, tossed in a silent lecture.

### Milk And Ice Cream Good Summer Foods

Milk and other dairy products are among the best summer foods, Carl Peay, district manager of the Barner Creamery, pointed out.

"Milk and ice cream combine the qualities of good food value with lightness," Peay said. "It is a widely recognized fact we should eat lighter foods in warm weather than in cold, and pure, wholesome milk and ice cream meet the specifications exactly."

### Insurance Should Keep Up With Costs

Fires in Midland last week when destroyed two houses and their contents should remind property owners they should check their insurance policies to determine if the amounts of their insurance have kept pace with advancing costs, Alton Brown, district manager for the Employers Casualty Company, said.

The concern has its offices on the fifth floor of the Thomas Building. Brown said he is glad to discuss insurance problems with Midland citizens at any time.

### Only 'Good German' Is Now Dead

LONDON—(AP)—Baron von Trottdin, former councillor at the German foreign office, was known to Canadian prisoners of war as "a good German."

"He was the only good one I ever heard about," said Lt. A. M. Hueston, Sernia, Ont., taken prisoner in August, 1942, while at Dieppe with the Essex Scottish regiment.

The baron, about whom Canadians heard from other prisoners, was in charge of a luxury prison camp near Berlin where favored or high ranking prisoners were held. He told prisoners he was a Rhodes Scholar at Oxford in 1929 and that he was a friend of the late Lord Tweedsmuir, former governor-general of Canada. He said he liked the English.

Evidence that von Trottdin had meant what he said came after the attempted assassination of Hitler last July. He was hanged and the explanation given by the German newspapers was that he had used official journeys to Sweden to discuss war secrets with the enemy.

### 400,000 Motorcycles Built By British

COVENTRY, ENGLAND—(AP)—The British motorcycle industry has built 400,000 motorcycles for the military since the war began.

A burn is the effect of dry heat of over 140 degree Fahrenheit; a scald is the result of moist heat of over 120 degree Fahrenheit.

### Fashion Cleaners Will Be Open Again Monday At 412 West Texas

The Fashion Cleaners, owned by A. B. McCain, will be open again Monday at 412 West Texas Street, after being closed for a time to give employees a vacation.

The concern is one of Midland's most popular cleaning and pressing establishments and since it started business February 12, 1936, its business has continued to grow with Midland.

One of the reasons for the popularity of the Fashion Cleaners is the courteous and friendly service given by the owner and his employees.

"Although we always cannot get out work as quickly as we would like, we can give our customers friendly, courteous service," McCain declared.

The location of the Fashion Cleaners is very convenient for citizens taking clothes to the cleaner's in cars as there is no parking problem.

As his business has grown McCain has kept pace with its growth by having only the most modern and efficient cleaning and pressing equipment.

As an example of the modern equipment used by the Fashion Cleaners McCain cited the Flexiform dress blocking machine.

By use of the machine, dresses maintain their shape regardless of how many times they are cleaned and pressed. Regular use of the machine, also, helps lengthen the life of the dresses.

"There is a difference in cleaning and pressing methods," he pointed out. "Here at Fashion Cleaners we use methods which help to protect the fabrics of clothing and increase the life of the clothing."

Use Tested Fluids  
Only tested and proven cleansing fluids are used at the Fashion Cleaners, fluids which are known to remove dirt and stains, but which will not damage the fabric. No abrasive cleansing agents of any kind are ever used on clothing sent to the Fashion Cleaners, McCain asserted.

All clothing sent to the Fashion Cleaners for cleaning is checked carefully for stains and spots which might accidentally be overlooked.

"We treat all clothing left here for cleaning as carefully as if it were our own," McCain said. "We have built our business with satisfied customers, and the only way to have satisfied customers is to give the best possible work."

McCain invited Midland citizens who have not had clothing cleaned at the Fashion Cleaners to give his firm a trial.

"We believe they will be satisfied," the cleaning establishment owner declared.

### Mechanized Farming Has Become Popular In Cochran County

By JACK RUTLEDGE  
Associated Press Staff  
Texas brings mental pictures of cowboys and horses to the average American.

It will come as something of a shock to learn that at least one Texas county has the unique distinction of being 100 percent mechanized.

There is not a horse-and-mule farmer among the 635 in Cochran County. The last of the tribe was O. E. Lee. He abandoned his work stock for tractors last fall.

Roy Hickman, county agent, says Cochran is the fastest growing agricultural county in Texas.

In the past it was cow country. There were large ranches, and livestock was the only source of revenue. It was what most Americans would call typically Texas.

But back in 1923 it began to turn to agriculture. Now it is almost completely a farm section. Twenty-five years ago, for example, there were only 500 acres of cultivated land in the entire county. Today there are 185,000 acres under plow.

The total tillable land amounts to about 229,000 acres.

Prices have gone up for land, too. One could buy land for \$13 an acre no more than eight years ago. But the land now brings on an average of about \$45 an acre.

To show how the section is growing, approximately 28,000 acres of new land was broken out in 1944. During that year, 45,000 acres were planted to cotton, a major crop. They also grow a lot of grain sorghum and hay.

The change to agriculture has brought prosperity, says Banker Ben Williamson. He said deposits in his bank have climbed from \$96,000 in September, 1941, to about \$2,000,000 today.

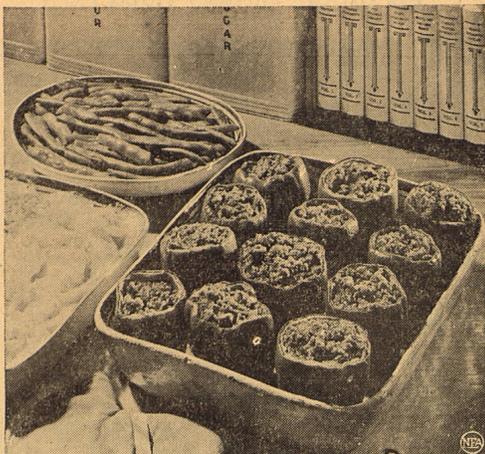

The lone prairie sounds nice in a song, but Cochran farmers say it's more profitable when it's not so lonesome.

More than 4,000,000 life insurance policy death claims have been paid in the United States since Pearl Harbor. Fewer than five per cent of these were on the lives of service men.

### Stuffed Peppers As Main Dish

Stuff green peppers with a little meat, bran and vegetables.

By GAYNOR MADDOX  
NEA Staff Writer

Stuffed green peppers make good main dishes on days when meat and fowl are scarce. A little meat goes a long way in them.

**Stuffed Peppers**  
(Serves 6)  
Six green peppers, 1 egg, 1 1/2 teaspoons salt, 1 1/8 teaspoon pepper, 3 tablespoons minced onion, 1 cup cooked tomatoes, 3/4 cup bran, 3/4 pound ground beef.

Cut stem ends from peppers, remove seeds. Parboil about 5 minutes in boiling salted water. Beat egg slightly; add salt, pepper, onion, tomatoes and bran. Let soak until most of moisture is taken up. Add ground beef and mix well. Fill green peppers with meat mixture. Arrange in greased baking dish, stuffed side up. Bake in moderate oven (375 degrees F.) about 40 minutes.

"Cooked to Your Taste," the new guide to vegetable cooking, suggests:

**Green Peppers Stuffed with Potato**  
(Serves 4)  
Four large green peppers, 1 1/2 cups tomato juice, salt, 2 cups cooked diced potatoes, 1/2 tablespoon caraway seeds, 1/2 teaspoon Worcestershire or soy sauce, or onion juice.

Cut off stem end of peppers, remove seeds, put into boiling water, cover and let stand for 2 minutes. Drain and cool. Fill with potatoes which have been mixed with caraway seeds and blended with Worcestershire sauce, soy sauce or onion juice. Place stuffed peppers in baking dish, pour in tomato juice and cover, and bake, covered, for 10 to 15 minutes, in a moderate oven. Uncover, and bake another 5 minutes. Serve in baking dish.

### GI's Say Turn 'Vinegar Joe' Lose In China

By HARRY GRAYSON  
NEA Staff Correspondent  
CALCUTTA—When a GI shows concern for a general, that's something. The Yanks out here ask all kinds of questions about Lt. Gen. Joseph W. "Vinegar Joe" Stilwell, now command'r of 10th Army forces on Okinawa. They regard him with the greatest affection and respect.

The boys ask you: "How's Uncle Joe doing with his brass hats back home? I hear the old so-and-so really cleaned out that Pentagon Building."

"Will he lead the invasion of China? It would be a pity if he didn't."

**Famous Proclamation**  
General Stilwell invaded North Burma with the Chinese 38th and 22nd Divisions he trained at Ramgarh, India.

He made his famous proclamation at Imphal on May 21, 1942: "We took a helluva beating. It was humiliating as hell. We ought to find out why it happened and go back."

The doughy general couldn't get the ammunition to the men, so he took the men to the ammunition. The 38th and 22nd were flown to Ramgarh and, when equipped and ready, flown back into action again.

General Stilwell and his men annihilated one of the crack outfits of the Jap army, the 18th Division, conquerors of Singapore. The Stilwell campaign culminated in the capture of Myitkyina, which opened a shorter air route over the Hump of the Himalayas. In this campaign, the "left hookers," as General Sustain calls them, storm troops who spearheaded the way were Maj. Gen. Frank Merrill's illustrious Marauders. They were volunteers from the Southwest Pacific and Panama, the first U. S. ground troops used on the Asiatic continent.

**General Recalled**  
General Stilwell was recalled at the demand of Chiang Kai-shek because he was more concerned about fighting Japs than Chinese Communists. The GI's recall his last words upon being recalled from his China-Burma-India command: "I wasn't perfect out here, but damn it, I never sold America short." This story is GI gospel.

### Flagpole In Italy Is Tribute To FDR

ROME—(AP)—A 63-foot flagpole—one foot for each year of the late Franklin D. Roosevelt's life—has been erected in an almond grove near Canosa, Italy, by members of a Negro aviation engineer battalion.

Mayor Guiseppe Sorrenti of Canosa publicly proclaimed that on every anniversary of President Roosevelt's death—April 12—the citizens will bank the flagpole's base with flowers.

The battalion built a four-foot wall around the base of the flagpole, each foot symbolizing a Presidential term. At the base they placed a marble plaque with the words: "This flagpole is dedicated in memory of President Franklin D. Roosevelt, 1882-1945."

### Births Outnumber Deaths In Florida

MIAMI, FLA.—(AP)—Put Dade County on the list of the healthiest place to live. The first four months of this year 2,274 children were born, with 1,262 deaths reported for the same period.

### Ex-War Prisoners Start Club

XPOW—that's the name of a club organized by three ex-prisoners of war in Zanesville, O. The club, originally started by, left to right above, Sgts. James Peterson, Bill Roberts and Gene Hazen, now numbers more than 40 in Zanesville alone, and is spreading through the state. Members, all ex-war prisoners, expect it to rank with the American Legion and Veterans of Foreign Wars as a service organization.

### Brain Work Important In Baseball Success

By RUSS NEWLAND  
SAN FRANCISCO—(AP)—Baseball fans may enjoy this look into the inner workings of the sport by Hap O'Connor, the old semi-pro umpire, who takes time out to write:

"The most interesting part of the game, the brain work and the generalship of baseball, is hidden under those coops behind first and third base, the dugouts. There the masters use fingers, eyes, head, feet, hands, cap, strange phrases and senseless words, all which are in the code to direct their puppets on the field.

"Old John Public never gets a chance to find out what is behind all the running and throwing and batting unless someone tells and it is impossible to tell even half.

McCarthy System  
"Joe McCarthy of the Yankees used this one until they got on to

it. He would change places with the man next to him on the bench. That was a hit and run play.

"The catchers give the signs to the pitchers and infielders. Then the shortstop or second baseman gives the sign whether it will be a fast or curve ball, to the outfielders. They give them behind their backs just when the pitcher starts his delivery.

"The clubs change their field signs every week as the sharpened coaches get their opponents' signals. Catchers especially have to change signals often, sometimes every day."

### Liberators Are Perfectly Timed On Longest Trip

By RICHARD C. BERGHOLZ  
 HEADQUARTERS, 13TH AIR FORCE, PHILIPPINES—(AP)—The ground crews lounged around the airstrip and watched the big Liberators warm up, engine by engine, checking manifold pressures and RPMs and temperatures and all the other things that have to be right before the takeoff.

These planes were going on the longest mission ever attempted by Liberators. To make it, the planes had been stripped to the bone. Now the clumsy-looking bombers were warmed and checked and ready to go. Then all engines were snapped off and gasoline trucks raced up and filled each tank to the brim. The engines were turned over again and with no more preparation the Liberators took off.

First went Maj. Bayliss E. Harris of Clovis, N. M. It was his squadron of "snoopers" that hit unscathed in the night, and it was he who cooked up the mission. Before the United States got in the war, he had flown British Wellingtons and Halifaxes and Spitfires. Then he flew Liberators in Europe before coming out here. Not long ago he planned and led a raid on Soerabaya, the longest formation flight ever flown by Liberators.

Then came Royal A. Putnam of San Antonio and the other officers and enlisted men whose lives were riding on Harris' ability to figure gasoline consumption and the ground crews' ability to have everything just right.

On Their Way  
 One by one, in close order, the bombers took off. They didn't waste gasoline gaining altitude. They simply leveled off "on the deck" and headed west.

The mission, the longest in history for Liberators, the one the Japs couldn't be done was on the way.

The target, Batavia, capital of Java, a jewel-like Dutch city so far from the nearest American air bases almost everybody figured it was unobtainable unless Superforts could be spared for a strike.

The Japanese were surprised, all right. Cars cruised along brilliantly lighted streets. The harbor lights looked like jewels set in an ebony figure.

Bomb Warship  
 Three Liberators peeled off in a dive and roared over the harbor at 200 feet. Two of the planes found no shipping worth hitting. The third plane, picked up a Japanese destroyer and its bombardier dropped the whole load on the warship.

Some planes lumbered over and blasted the Tandjoeng-Priok seaplane base. Other planes picked what targets they could find.

Return Trip  
 Then they wheeled and formed up and started the long trip back. This was where Harris' calculations began to work out. Here was where pinpoint navigation and the luck of the weather paid off.

Eighteen hours and 20 minutes after he had taken off, Harris circled the field and put the bomber down to an easy landing.

Twenty minutes after Harris landed, the last plane had been checked in. All had made it. More than 3,000 miles. To Batavia.

All the planes were unscathed. But the men—their faces were gray and drawn. Some were so tired they could hardly walk. For them there was only relief and sleep, balms for the horrible tension of the past 18 hours.

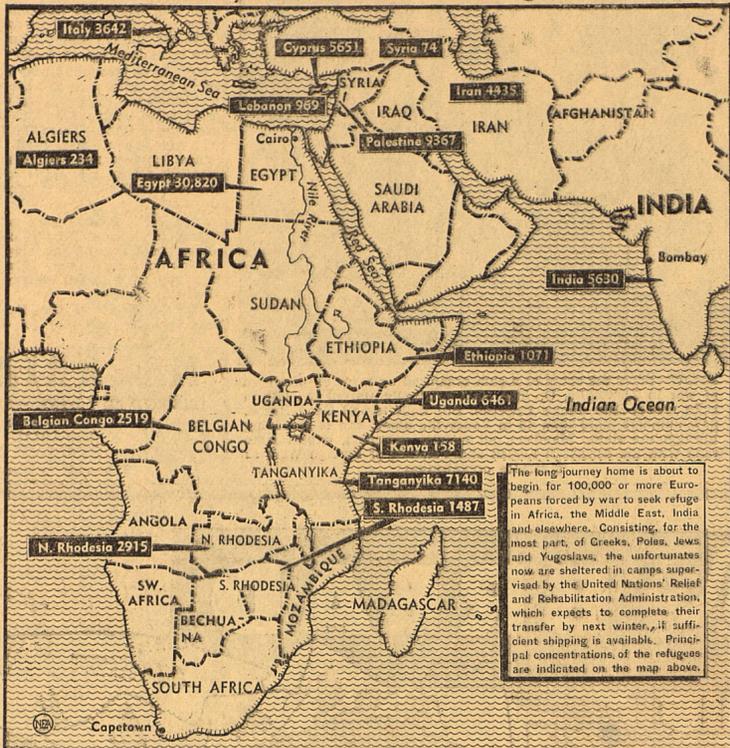

Feathered Friend  
 Finds A Human Enemy  
 ROCK ISLAND, ILL.—(AP)—Every day Edward Harkom gets the bird. Harkom, a bus driver, stops in front of the Rock Island Arsenal Administration Building each afternoon, and walks in to wait for passengers. A mother blackbird always attacks him.

The daily dive bombing started several weeks ago, when Harkom wandered over to a bush and looked at some baby blackbirds in the nest. That seems to have earned him Madame Blackbird's undying enmity. Harkom ignores her. She ignores everybody but Harkom.

The number of cotton-spinning mills in the United States has declined by 179 establishments, or 17.1 per cent, in the last 10 years from 1,046 mills in 1935 to 867 mills in 1944.

### Journey Home Nears for War Refugees

The long journey home is about to begin for 100,000 or more Europeans forced by war to seek refuge in Africa, the Middle East, India and elsewhere. Consisting, for the most part, of Greeks, Poles, Jews and Yugoslavs, the unfortunates now are sheltered in camps supervised by the United Nations' Relief and Rehabilitation Administration, which expects to complete their transfer by next winter, if sufficient shipping is available. Principal concentrations of the refugees are indicated on the map above.

### Blind Vet Gets His Commission

Shortly before he was blinded by an anti-tank mine in Germany last April, George W. Stafford, 24, Petersburg, Va., earned a commission as second lieutenant. He is shown above in Valley Forge General Hospital, Philadelphia, receiving his rank from Maj. Paul C. Larnce, left, as Col. W. E. Vaughan, hospital commanding officer, looks on.

### Talom Trail Is Sea Of Mud

By RICHARD C. BERGHOLZ  
 WITH THE 31ST DIVISION ON MINDANAO—(AP)—On some military maps you can find some chicken scratches extending from Kibawe in Central Mindanao to Talome at the head of Davao Gulf. This identifies what is known as the "Talom Trail."

The story is that after the Japanese had invaded and won strategic control of Mindanao early in the war they started work on the Talom Trail as an alternate route from Central Mindanao to Davao Gulf.

It's fortunate that Talom Trail wasn't marked as a highway because even the designation "trail" is enough of an exaggeration. Actually the Talom Trail is nothing more than a route from one place to another, a route based on the least strenuous means of struggling through wild, unexplored mountains.

At no time are foot-slogging doughboys less than ankle-deep in mud; most of the advances are made after struggling through mud up to the waist.

That's why it's understandable why the key man in the entire operations is Lt. Albert H. Todd of Lincoln, Neb. What makes his so all-important is that he is the man in charge of the only sure means of getting food and supplies to the men—a "fleet" of 17 water buffaloes.

These sluggish, painfully slow animals can make about four and one-half miles a day through mire impossible to any kind of wheeled or tracked vehicle. Each water buffalo carries from 100 to 150 pounds of supplies, including previous cans of gasoline for the field kitchen stoves.

The incessant mud and rain plus the heartbreaking terrain make the doughboy's job bad enough. The Japanese simply add to the misery. In this country enemy ambushes breed along the trail like mosquitoes and although there aren't a awful lot of strongly held well prepared defenses, these constantly harassing ambushes can be equally tough to deal with.

One veteran New England squad leader stood up well when he learned he had lost two brothers in Europe, but went completely out of his mind when repeated ambushes cost him two of his scouts.

### Nation Members Are Not Compelled To Appeal To Court

By JAMES MARLOW  
 WASHINGTON—(AP)—Suppose a couple of the United Nations get into an argument over things like these: Fishing rights in nearby waters or the use of a river separating the two countries.

Who's right? Who's wrong? They can argue, but who's going to make the final decision?

To settle international legal disputes like those the United Nations has set up an international court of justice.

Can Use Court  
 This country can make use of that court because it's a very important part of the United Nations' machinery to keep peace and the United States is a member of the United Nations.

United Nations members don't have to lay their disputes before the court for settlement. They are under no compulsion to do so.

If two nations have a legal dispute and want to go to the court, they can do so. But if one wants to and the other doesn't, then the court does not get the case.

Some of the nations long before they even dream of a legal dispute with anyone will sign a declaration of their intention any time in the future to lay their legal disputes before the court.

When they do that, they must submit their problems to court jurisdiction. Again, however, it will depend on whether the other disputant in case has signed such a declaration or agrees to go to court.

Suppose countries AAA and BBB agree to let the court decide their problem. The court decides against AAA. Country AAA then is supposed to abide by the verdict. But suppose it doesn't.

In that case country BBB can go to the Security Council—which may use the armed forces of the United Nations to keep peace—and ask that country AAA be forced to do what the court told it to do.

The court will serve another purpose. When it is trying to untangle some problem, the Security Council can ask the court for an advisory opinion on the legal phases of it.

### Danube Valley States Are Anxious To Get Under American Rule

By A. I. GOLDBERG  
 VIENNA—(AP)—A 10-day, 900-mile jeep journey through the five capitals of the Danube Valley states develops interesting parallels and contrasts.

The Red flag flies everywhere along the routes through Prague, Brno, Bratislava, Budapest and Vienna.

In Czechoslovakia there are grouped pictures of Marshal Stalin, Eduard Benes and Jan Masaryk, prominently displayed. Policemen in each state wear their own bright uniforms which mingle with the generally drab outfits of the Russians.

The Russians, as an occupying force, stipulated that the countryside must feed its armies. That explained the number of Fed army trucks loaded with cows, sheep, goats and poultry. Some of it fell to the Russians under the terms of the armistice where by restitution was to be made for Russian peasants whose cattle were destroyed by the Germans or Hungarian and Austrian soldiers who fought with the Germans.

Much of the machinery is going eastward as restitution and reparations. Some of it is farm machinery and some installations from factories in Vienna and Budapest.

The reaction to the sight of an American uniform or of an American jeep is the same everywhere.

In Brno we stopped in the square in front of the church to attend a funeral service for a Red army soldier. As the rites ended citizens clustered around the jeep.

The crowd attracted a Russian military policeman on a bicycle. His "what's going on here?" attitude changed when he learned we were the first Americans here in six years and, over cigarettes, we got chatty.

He spoke good German and finally asked, "when are we Russians going to help you fight the Japanese?"

"Well, when?" I challenged. "You tell me because you are a journalist," he answered.

"You tell me because you are a Russian," I said.

We both laughed and then he said seriously, "well, you go fight the Japanese. I will come along and help you."

**The Tail Gunner?**  
 Go Ahead and Ask  
 MIAMI BEACH, FLA.—(AP)—Capt. Edward J. Sawberger, of Baytown, Texas, awaiting reassignment at an Army Air Forces rehabilitation center here, described how his Liberator made a crash landing on an Adriatic island.

"Any one hurt?" he asked. "The nose gunner," Captain Sawberger replied. "He injured his nose."

"And the—" "No," said the captain, "the tail gunner wasn't injured."

### Ice Cream Supply Good Now

Vanilla ice cream, chocolate wafers and chocolate sauce for 100 per cent American dessert.

By GAYNOR MADDOX  
 NEA Staff Writer  
 Better take advantage of the ice cream supply now during the flush milk season. Later on the ice cream makers' sugar supply threatens to reach an all-time low.

Vanilla ice cream with chocolate sauce is truly American.  
**Chocolate Fudge Sauce**  
 (Makes 2 Cups)  
 One package (7 ounces) semi-sweet chocolate bits, 1 cup corn

Buttercup  
 Have Poison Punch  
 NEW YORK—(AP)—Buttercups have been found to yield a juice which indicates the germs of tuberculosis and some other microbes, but which is too poisonous for use as medicine.

The discovery was made by Beatrice C. Seegal and Margaret Holden of the College of Physicians and Surgeons, Columbia University.

Scientists are not overlooking the flowers in their search for antibiotics, or drugs from living sources that combat disease. Penicillin is an antibiotic that comes from green mold.

**English Farmer Leaves Recipe For Longevity**  
 SCARBOROUGH, ENGLAND—(AP)—James Tennant, retired farmer, has died in his 106th year. He attributed his longevity to "plenty of walking, and moderation in all things."

Aerial photograph maps proved highly successful in locating farms and buildings in the taking of the 1945 Census of Agriculture.

### Former Bartender Has Narrow Escape

WITH THE 24TH DIVISION NEAR DAVAO, MINDANAO—(AP)—Robert Benson, a former bartender from Benson, Minn., fighting Japanese in the jungles of Mindanao, felt a sniper bullet slam against his steel helmet. It glanced off without breaking skin.

A little later while on patrol he ran into pointblank machinegun fire. Red-hot bullets seared his ears and caused a minor dust storm around him. Again, he went unscathed.

Then, one morning as he was sitting in a foxhole contentedly leaning his lip against a cup of coffee, a Japanese artillery shell came out of the blue and the world exploded in his face. Once again, he scrambled to his feet unhurt but full of fight. The shell had spilled his coffee.

**Brazil Adds Four Ships To Its Growing Fleet**  
 RIO DE JANEIRO—(AP)—Brazil's navy has added four units to a fleet which Naval Minister Aristides Guilhem says has increased by at least 60 vessels since Brazil went to war in 1942.

The new ships, constructed in the shipyards of Rio's Guanabara Bay, were the destroyers Acre and Apa, and the submarine chasers Rio Pardo and Rio Negro.

They will join a fleet which, according to Guilhem, has already conveyed more than 2,901 ships of all nationalities in operations reaching into the Caribbean and Mediterranean as well as along Brazil's coast.

Total intercity movement of commerce of all kinds in the United States this year will be more than a trillion ton-miles, it is estimated.

In 1944, U. S. railroads did a passenger job equivalent to carrying almost one billion passengers for an average journey of 100 miles.

### Chinese Soldiers Win Praises Of General Sultan

By HARRY GRAYSON  
NEA Staff Correspondent  
CALCUTTA—When and if American troops land in China, they will have an intensely loyal ally who can fight.

Chinese soldiers are tough, hardy, well-trained. Lt. Gen. Dan I. Sultan, commander of the India-Burma theater, led them in the North Burma offensive which culminated in the capture of Bhamo.

As a result of this victory the amazing Stilwell Highway, new lifeline to China, was opened. Five American-trained and led Chinese divisions played the principal role in this campaign.

Political corruption and want greatly retarded the Chinese soldier, but, speaking from experience, General Sultan testifies that properly trained, equipped and supervised, he'll go to town.

"You must call him a Chinese and not a Chinaman," cautions General Sultan, a medium-sized Mississippian who in appearance greatly resembles the late Gen. Hugh Johnson. "Americans at home may have gathered that he is a double sort, but nothing could be farther from the truth. He is independent, possessing many good old GI qualities, not the least of which is that he will not bow or kowtow to anyone. If you don't get out of the way, he'll shove you off the trail, and no one is showing him off."

General Sultan relates a story giving you an insight into the psychology of the Chinese soldier. A patrol from the Chinese Army in Burma was moving toward a meeting at Namkhan with another from the Chinese Expeditionary Force trained in China. "Good food and clothes, a hospital when you get sick and plenty of ammunition," remarked one of the Chinese troopers as he trudged along. "And all they ask you to do is kill Japs."

Closely related to the air supply mission of the Eastern Air Command was its troop carrier mission. Movement of a large number of troops by air was also a standard operation. When the Japs were hammering at Imphal, two full divisions, complete with equipment, were flown in from the Arakan. The attack on Myitkyina was sustained with troops flown into its captured air strip, which was constantly under fire.

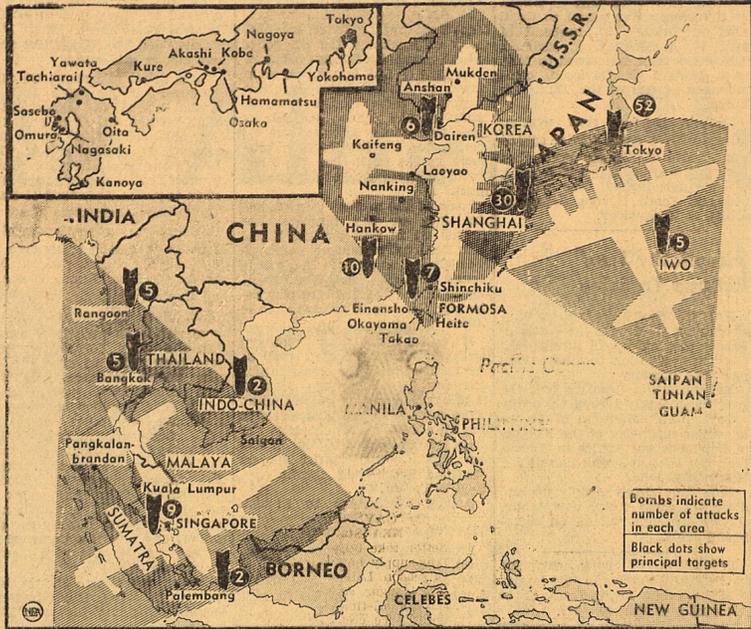

"On one such flight a Chinese soldier ventured up to an open door, and with a hand held on each side, stood there enjoying the scenery," recalls General Sultan. "Another soldier motioned as if to shove him out and, encouraged by others, did precisely that. They all took it as a huge joke, one of them remarking that the man who was shoved would hit the ground first. Life is cheap to them.

**Jap Is Nasty, But Dumb**

"Face is as important to them as it is to the Japs. They'll follow their leader right down the barrel of a Jap gun. They can take it as well as dish it out, and have suffered tremendous hardships. Many of those hospitalized got up by day to fight.

"The Jap is a nasty fighter, but he is as dumb as hell. If I were going into one of those suicidal banzai businesses, I'd be damned if I wouldn't take at least one of the enemy with me. But not the

### How B-29's Range Over Jap Targets

Map above, prepared from War Department data, shows how, from Chinese, Indian and Marianas Island bases, B-29's range over enemy-held areas and his homeland. Map covers first year of massed B-29 bombings, from June, 1944, through May, 1945. With acquisition of airfields on Okinawa, pattern of destruction over Japan itself will be highly intensified.

### Tight Blockade Squeezes Japan Into Hopeless Military Position

By THOMAS M. JOHNSON  
NEA Military Writer

News almost as big as announcement of the fall of Okinawa is buried in a paragraph repeating Radio Tokyo's announcement that American submarines are now operating in the Sea of Japan. It means that the steel snouts of the "pigboats" are beginning to root out the last of the tunnels whereby Fortress Japan received supplies and provisions for the siege that is tightening upon her.

Glory for this goes first to the hitherto unglorified, daring submariners. Despite air-conditioning, sun-lamps and ice cream, theirs is the most wearing service of all. Yet they have accounted for 70 per cent of all Jap shipping losses. Three-fourths of all the shipping Japan ever had has been sunk. This loss is a prime cause of her withdrawal in China and her relinquishment of her cherished "prosperity sphere."

**Work With Planes**

Now the last phase of a steadily-tightening blockade begins. It is the most complex in history, but the most far-flung and the most effective: under the sea, upon the sea, above the sea. Submarines not only sink ships, but by radio they work with planes that patrol the shallow waters where submarines cannot go. They lay mines off harbors. Both submarines and planes can summon the surface vessels now swelling to armada numbers through reinforcements from Europe.

Merely to get into the Sea of Japan is a feat. It had been a lake, landlocked on the east by the Japanese archipelago, on the west by the mainland of Siberia, Manchukuo and Korea. The only entrances were straits, of which the most important were, because of shoals, the most difficult.

**Major Cities Devastated**

These straits of Korea-Tsushima separate the main Japanese island of Honshu from Korea. The Japanese have already developed Korean ports and railroads as a funnel across the straits to Honshu. The granaries of Fortress Japan—Korea, North China and Manchukuo—are important food and supply sources.

Thus the Japanese hope to make up partly at least, their own deficiencies in iron, steel, aluminum and coking coal. Through synthetic fuel and rubber the Japs hope to compensate a little for the loss of the Indies. These possibilities have probably been exaggerated, but nevertheless are important enough to make Japan depend heavily upon the safe shutting of ships across the straits and indeed, across the whole Sea of Japan—especially now that our bombing of Honshu has attained such intensity.

**Burned Out Cities**

Already have virtually burned out Japan's five major industrial cities and are going after the secondary ones. As we develop Okinawa as a base, we can send over 1,000 planes at a time—be they B-29s, B-17s, B-24s, or even smaller planes now flocking from Europe. They can devastate every town or hamlet. They can burn some of Japan's stockpiles. They can singe crops.

With increasing effectiveness, they can cut off supplies of food and everything else from outside. Patrols over water routes will check Jap shipping. Presently, our aircraft can bomb ports whence ships cross the Sea of Japan to Honshu. Later, they can strike more fiercely at mainland industries.

**No Future**

Inexorably, our bomber-line advances. And in Manchukuo, North China and Korea, Japan faces increasing espionage, sabotage and even possible revolt, from subject peoples.

So the Japanese have no place to go, no future. In Kipling's words: "They may hide in the caves—they'll be only their graves." If their leaders had what we call horse sense, they would surrender now. Instead, they seem to be preparing their people for a national kamikazevade to self-destruction.

Perhaps a few months more of blockade and bombing will change their minds. If not, they may drag out for years a hopeless guerilla war—at a price no nation ever paid for the satisfaction of being dumb and stubborn.

For the longer they fight, the greater will be their losses in property and lives. Peace terms will be harsher, and their comeback afterward will be more difficult. Already 48 nations have declared war upon them; 12 are fighting them actively. One cannot help but wonder what they are waiting for.

### War Mobilizer Vinson Discusses Possible Conditions After V-J Day

By JAMES MARLOW  
WASHINGTON—(AP)—One of two things can happen to us when Japan falls: a depression or a boom.

This has been said before. But now War Mobilizer Vinson talks of it solemnly.

This is his story, as he tells it: "There'll be a big drop in munitions making. Workers will be discharged from plants making planes, tanks, shells, guns and ships. Cvertime will drop.

"There'll be, therefore, a big shift from the war plants paying high wages to the civilian plants paying less. This means a drop in workers' income. In turn, this means they'll buy less.

Even liberal unemployment pay is low compared with wages. So, families whose income drops will spend less on things like groceries, shoes, clothes.

"As these workers spend less, their very thriftiness may cause unemployment in places like retail stores, textile production, and so on.

Says Vinson: "This would be bound to deflate demand; manufacturers would be less anxious to expand; and instead of coming out of the war with an expanding economy and jobs for released veterans and war workers we will face another depression."

Here Vinson has drawn the classic picture of a depression being born. But in the following paragraphs he explains how a boom may occur.

During and after every war prices have risen sharply and then declined sharply. Most people after victory over Japan still will have good incomes. Large spending by this group could offset the fewer purchases by the unemployed and an inflationary spiral would begin. May Bring Crash Later

Then once production did get started, manufacturers, wholesalers

and retailers afraid that prices might rise—would begin laying in big supplies, too big.

This, Vinson thinks, would lead to a repetition of the big 1919-20 boom after the last war—and then to the same kind of collapse that followed that boom.

Vinson's suggestion for preventing either deflation or boom from happening is this: "To step up production which increases supplies and employment. So, he says: "To this end we must get rid of controls that are not needed and retain controls that help. However, if re-employment is slow, if a deflation spiral threatens, then government must be prepared to take positive action to bolster income and create jobs through public works."

Vinson, like President Truman, is all in favor of raising unemployment pay to give jobless workers a better income—and this help recovery after the war—by giving workers more money to spend to keep the wheels going around.

**NIMITZ CONTROLS LARGE LAND AND WATER AREA**

Adm. Chester W. Nimitz, as commander-in-chief of the Pacific Ocean Area, is in charge of an expanse of islands and salt water almost 22 times as large as the United States, and an ocean area larger than all the continents combined.

**THIS IS Kellogg WEEK!**

STOCK UP ON YOUR FAVORITE CEREALS NOW!

At your grocer's today, you'll find 8 different ways to celebrate "KELLOGG WEEK"—8 fresh, crunchy cereal treats to keep your family "breakfast-happy" every day! Every one provides good, solid nourishment. They're made from whole grain or restored to whole-grain levels in niacin, thiamin, and iron. There's a form and flavor to suit every taste. Made from corn, wheat, rice, bran—some are shredded, some are "popped," some are flakes, some are biscuits. So good—and so good for you! Nourishing, delicious cereals are one of the foods recommended for daily eating in the U.S. Nutrition Program. So, serve your family crisp, fresh Kellogg's Cereals regularly. Start now!

It's always a "GOOD Morning" with Kellogg's The Greatest Name in Cereals

- Kellogg's RICE KRISPIES**: So crisp, they snap! crackle! pop! More popular than all other ready-to-eat rice cereals combined.
- Kellogg's PEP**: Tender, crunchy wheat flakes—extra rich in important vitamins B<sub>1</sub> and D. Youngsters love it!
- Kellogg's ALL-BRAN**: Made from the nutrition-packed vital outer layers of finest wheat. Famous "regulating" cereal.
- Kellogg's RAISIN FLAKES**: NEW! Crisp flakes and tender raisins, in the same package. A double treat. Iron-rich, too!
- Kellogg's CORN FLAKES**: Crisp, golden-toasted flakes...always so fresh because they're the world's most popular cereal.
- Kellogg's SHREDDED WHEAT**: 15 hearty, nutritious whole-wheat biscuits in every package—tasted the famous Kellogg way.
- Kellogg's BRAN FLAKES**: Tempting wheat flakes with 40% of the healthful bran retained. Sweet tasting—swell for you.
- Kellogg's KRUMBLES**: Crisp nutritious shreds made from whole wheat. Delicious with fresh fruit and milk. Try it!

**Sweetbread Pie**

Sweetbreads, peas and mushrooms make a hearty main dish that will be pleasing to all. The three flavors are a perfectly blended combination. Serve with a crisp, tart, tossed vegetable salad for contrast. Here's good eating for summer dinners.

**Yank Traitor**

FBI-agents in Europe are preparing charges of treason against Edward Leopold Delaney, above, captured of Olney, Ill., who was captured by Russians in Prague, Czechoslovakia, in May. Delaney, a former actor, broadcast Nazi propaganda over German radios during the war. He is one of eight American expatriates recently indicted for arson.

**Social Situations**

THE SITUATION: The husband of a friend returns from overseas and he seems nervous and restless to you.

WRONG WAY: Say as much to his wife, when her husband isn't around.

RIGHT WAY: Don't add to her worries by making any comment about the effect the war has had on him.

Nazis Still Are Running Things

By CURT RIESS
Copyright, 1945, NEA Service, Inc.
SHAEP—The big Nazi factories that were not knocked out by our bombing are still being run by their pre-surrender Nazi owners...

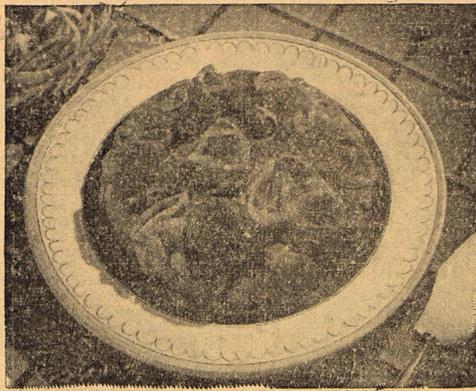

One case that I investigated was at the "Strength Through Joy" plant in the north German town of Fallersleben, which was to have built the cheap peoples' cars promised by Hitler but actually did make parts of Junkers 88's, V-1 bombs and Panzer-fausts.

Worked With Gestapo
No that Germany is defeated most of these boss' offer explanations for their return to the Fatherland. Hans Mayr, 54, who worked in the United States, says he returned to cure his hay fever. He became manager of the plant.

Mayr justifies this on the ground that the workers were very "obedient" and the Russians in particular were given to "plundering."
Most workers got the customary starvation diet of watery soup and 200 grams of bread daily...

Independent U. S. retailers reported a four per cent decrease in the value of inventories accompanied by an eight per cent rise in sales during 1944.
In the first nine months of 1944, 38 per cent of the total shipments of tooth brushes from factories went to military, post exchanges, ships' stores, Red Cross, and for export.

Pork Sausage Upside-Down Pie

Here's serving rich pork at its best in an upside-down pie with onion rings and tomato. Serve as one large pie and cut in wedges for servings. Make the rest of the meal buttered broccoli, vegetable relishes, milk and strawberry chiffon pie for dessert.

Capt. P. A. Drickey Gets Bronze Star

HEADQUARTERS TENTH AIR FORCE, INDIA-BURMA — Award of the bronze star medal to Capt. Paul A. Drickey, 27, husband of Mrs. P. A. Drickey of Midland, Texas, has been announced by Maj. Gen. Howard C. Davidson, commanding general of the Tenth Air Force.

Captain Drickey, staff weather officer with a troop carrier squadron of the Tenth Air Force, has been in the armed forces 35 months, 23 in India-Burma. The captain attended South Dakota School of Mines & Technology.

'Hospitality Jane' Returns To Seine

PARIS—(P)—The only Seine River steamer to survive the battle of France was laid up all through the German occupation because a vital part was missing.

But when the Germans left, the part mysteriously turned up again. Capt. Frank Flanagan of Toronto, senior supervisor of the Knights of Columbus war service in France, took the boat over and named her Hospitality Jane.

Now Jane chugs merrily up and down the river every day taking service men and women on sight-seeing trips.

Production of baby carriages, strollers, and walkers in 1944 totaled 1,636,000 units, an increase of 32 per cent over that of 1943.

SS Guards Spared Lives Of Hostages To Get Forgiveness

By CURT RIESS
Copyright, 1945, NEA Service, Inc.
MUNICH, —(P)—Prominent hostages held by the Nazis are alive today only because the SS defied Hitler's demand for their execution. SS leaders had been given strict orders to kill all hostages before permitting them to fall into the hands of the Allies.

Some of the mystery surrounding the fate of the hostages was cleared up in conversations I had with various prominent personalities. One of them was Marquardt, Count Schenk von Stauffenberg, cousin of the Stauffenberg who attempted the July 20 assassination of Hitler.

He and a dozen other prominent hostages were locked away by the Gestapo after the assassination attempt, passed through Munich but was not clear who sent them and here are many indications that it was all a mistake. Their plan was probably misdirected to the Bavarian capital, where officials were mystified about their arrival.

Among those sent to Munich was Obergruppenfuhrer Stiller, SS Obergruppenfuhrer Stiller told some of the hostages that he had secret orders for their execution. However, by the time Niederdorf, south of Innsbruck, most SS men, including Stiller, had become somewhat nervous about their own security and several approached the hostages to negotiate with them.

ere four members of the family of Stauffenberg, all of whom were supposed to have been executed. Countess Prettenberg, Mrs. Fritz Thyssen, and Mrs. Erich Heberlein, were also in this group.

These people and about 140 other prominent persons were kept in various prisons and concentration camps. When the Allies and Russians approached their camps they were swiftly spirited away. They were finally concentrated in Dachau, after having been changed from prison to prison more than 15 times.

In Dachau there were about 150 prominent personages, representing 2 nations. Among them were the Schussniggs, Schacht, General Halder, Leon Leon Blum, Niemoller and Captain Best.

According to Stauffenberg, all those rightly or wrongly concerned with the July 20 attempt would have been killed at once if Hitler hadn't interfered. Stauffenberg doesn't know why but he thinks that Hitler hoped to get something for himself.

Protect Hostages
In the meantime one hostage, Italian General Garibaldi, had contacted Italian partisans near Niederdorf. More important was the action of the British Intelligence Officer, Captain Best, and Colonel von Bonin, who contacted German General Jordan, in charge of the Army units in that area.

Jordan immediately sent detachments to protect the hostages against assassination by the SS. The SS, though armed heavily, didn't leave the hostages for several days, and they always carried hand grenades and other arms.

Only on May 4 did the SS finally decide to leave the premises at Niederdorf, just a few hours before the Americans arrived. According to Stauffenberg, the SS never was reached by the Americans because as soon as they had retired to the mountains they were attacked and eliminated by the partisans waiting for them.

On May 4 did the SS finally decide to leave the premises at Niederdorf, just a few hours before the Americans arrived. According to Stauffenberg, the SS never was reached by the Americans because as soon as they had retired to the mountains they were attacked and eliminated by the partisans waiting for them.

Tests Prove Parachutes Practical For Delivery Of Fragil Air Freight

By S. BURTON HEATH
NEA Staff Correspondent
WASHINGTON—The real benefits of this air age can be brought home to thousands of smaller communities through a development in cargo-parachuting that was demonstrated at the National Airport by Pennsylvania Central Airlines and the Switlik Parachute Company.

Mail, air cargo and general aviation executives of this and other countries were impressed when they watched a standard DC-3 airplane breezing past at 130 miles an hour, drop chinaware, watches, bottled medicines and phonograph records from a height of 300 feet on a small target, without so much as denting the corner of a package.

Ordinary Packing
These fragile items, and others more durable, were not specially packaged. They were in ordinary cardboard cartons, packed just as they would have been for mail or rail express or department store delivery. A couple of the boxes missed the grass target narrowly and landed on a cement apron, but so gently that no semblance of damage was done.

In time of war soldiers and military supplies are expendable. Death and breakage are regretted, but must be risked where an objective is at stake. In civilian aviation, air cargo paragonage will not be obtainable if the risk of breakage is very substantial. Nor would the government permit dropping of cargo if there were any possibility that, as happens sometimes in Army practice, a package might foul the plane controls and cause a crash.

Special Parachute
So Switlik devised a special parachute for the purpose, and PCA engineers developed a device that tosses packages out of the cargo door so that they can get into tail controls and so that as many as six, at least, will hit in a very small area.

There are as yet only 373 cities in this country with direct air service. This number presumably will be increased after the war, but there still will be thousands of substantial communities that will be able to send or receive air mail and cargo only by train or road shuttle to airports.

By use of the parachute it would be possible for a through plane, dipping low over a prepared target in such a town, to drop both mail and cargo on the spot.

The reverse picture—pickup without landing—already is in use to some extent, and in many instances could be combined with parachute dropping to give everything except passengers service to towns that could not support airports capable of handling the big planes passing overhead.

Total U. S. production of farm machinery in 1944 was valued at more than \$1,080,000,000, compared with \$552,000,000 in 1929.

Kenedy County, Tex., had the distinction of being the first county to be tabulated in the 1945 Census of Agriculture.

Throughout the Italian campaign Gen. Bernard Montgomery carried a cage of canaries and love birds with him.

Did you ever see a real movie script—complete with camera angles, stage directions and dialogue? Here's your chance. Read the Hollywood shooting script of Kiss and Tell. STARTS IN THE MIDLAND REPORTER-TELEGRAM Monday, July 9

At the old-fashioned, nostalgic charm that typifies the romantic, is captured in this dotted Swiss dress. Lamp-shade ruffles of eyelet embroidery accentuate the crop shoulder and the tiny waist-line.

One and one-half million more non-white persons were employed in non-agricultural industries in 1945 than in 1940, according to the Census Bureau.

Total sales of farm equipment in 1944 were more than \$1,067,000,000, compared with \$636,000,000 in 1943, and \$517,000,000 in 1929.

Check Make-Up In Bright Light
GRACE LENARD: Double checks.
By ALICIA HART
NEA Staff Writer
Subtlety is your cue for putting on summer make-up now that bright sunlight advertises flaws which during the sunless months might have passed unnoticed.
For her critical probe, Grace Lenard—radio's "Crime Doctor" actress—takes her hand-mirror out on her terrace for an all-exposure close-up.
You are apt to discover, as Grace says she has, that you don't have to go back to your dressing table and re-do your make-up if you've erred on the understatement side.
For a make-up that passes the acid test of a merciless light, she says mascara looks as though you had hardly touched brush to lashes; rouge has imparted only the suspicion of a blush; powder is the sheerest veil and not drifts of dust; lipstick is a slick coat that's tailored to a "T" to fit the natural boundaries of your mouth.
