

MacArthur Cracks Down On Hirohito

More Goods Are Put On Civilian Market

By MAX HALL

WASHINGTON—(P)—America Friday entered its third big postwar day with:

1. More goods released for civilian use.
2. More wartime controls wiped out.
3. More men looking for jobs.
4. The government striving to keep peace on the labor front.
5. Hints of coming battles in Congress.

This was the picture:

More goods—The Army cut its coal orders and said the nation's coal problem is solved. The Solid Fuels Administration flatly denied this. But there was no doubt that the cut would help civilians.

The Army also announced more meat is being released for civilians, and it threw on the market 10,000 jeeps and vast quantities of other articles. It said, too, that reduced shipments should end railroad freight congestion immediately.

Fewer controls—The Petroleum Administration said controls over the oil industry will be removed fast and that the agency will start liquidating itself a once.

The Office of Defense Transportation abolished controls over taxicabs, rental cars, auto racing, state and local fairs. It also authorized bigger conventions.

Four million GIs From Overseas—More men—The Army announced it will bring back from overseas 4,000,000 troops in 10 1/2 months and will be releasing half a million a month by January 1. Wholesale canceling of war contracts threw Service Commission announced it thousands out of work. The Civil will accept federal job applications from veterans only.

Industrial peace—President Truman asked labor and management to keep their no-strike and no-lockout pledges until a new plan can be worked out at a labor-management peace conference this fall.

Truman also announced that voluntary wage boosts will be permitted if they don't result in higher prices. The War Labor Board will keep operating for a time and the President said he expects industry and labor to obey it. But the board will start winding up its affairs soon after the autumn conference.

CIO President Philip Murray indicated every major CIO union will ask for wage increases right away under the new policy.

Postwar struggles in Congress—(Continued on Page Five)

M & H 1 Cowden Flows 169 Barrels Oil In 6 Hours

By JAMES C. WATSON

Southwest Andrews County's discovery for Devonian production, Manville Petroleum Company and Humble Oil and Refining Company No. 1 Cowden, flowed 169 barrels of oil in six hours, following treatment with 1,000 gallons of acid.

The well was still testing Friday morning. Total depth is at 8,051 feet. The casing had been perforated from 7,900 feet to 7,960 feet. Operators' reports did not reveal where the acid was injected.

Discovery by Complete Texas Gulf Producing Company No. 1 Slaughter, Central Cochran County discovery, three miles west of closest production on west side of the Slaughter field, is rigging up a pump to complete.

Operator treated zone from 5,020 feet to total depth of 5,052 feet, with 2,000 gallons of acid, and after oil load and acid residue had been swabbed out, swabbed new oil at an estimated rate of eight barrels per hour.

After continued testing owner decided not to re-acidize, but to put the well on production.

Standard Oil and Gas Company No. 2-A Wheeler, Ellenburger development inside proven limits for production from that formation in the Wheeler Ellenburger pool of West Winkler County, ran a drill-stem test on the Silurian section at 9,140-228 feet for 20 minutes.

Flowed from Silurian The drill-pipe started flowing out the 1,000-foot water blanket in seven minutes and started flowing clean oil in 18 minutes and flowed at an estimated rate of 30 barrels of oil per hour.

Top of Silurian was at 9,085 feet. Practically all wells in the Wheeler area have shown production from the Silurian, but it is probable that the No. 2-A Wheeler has shown for the best production of any of the projects. Operator was preparing to resume drilling toward the Ellenburger Friday morning.

Due To Tap Sinclair Prairie Oil Company No. 1 Williamson, West Ector County (Continued on Page Six)

JOSEPH C. GREW

Acheson Succeeds Joseph C. Grew

WASHINGTON—(P)—President Truman has announced the resignation of Joseph C. Grew as under-secretary of state and appointment of Dean G. Acheson to the post.

Greww, a veteran State Department career man, resigned after 41 years in the service. He said in a letter to the President he felt the proper time has come to "lay down the responsibility of public office."

Acheson has been serving as an assistant secretary charged with contract work with Congress.

Midland Schools To Open September 4

Midland schools will open their fall term Tuesday, September 4, and all students are expected to report for studies at 9 a.m. that day, School Superintendent Frank Monroe announced Friday.

High School students now are registering for classes. Monroe expects classes to get away to a smooth start the opening day of the new term.

He hopes to have a complete staff of teachers for the start of the school season. Housing will be needed for many of the teachers and persons who have rooms or apartments available are requested to telephone the high school.

U. S. Air Forces Have New Plane

WASHINGTON—(P)—Gen. H. H. Arnold disclosed Friday the U. S. Air Forces have a new plane "considerably better" than the B-29 Superfortress.

The new plane, he said, is capable of ranging over all East Asia from Western Pacific bases.

The chief of the army air forces gave no details of the new craft except that it has speed the same or possibly greater than the B-29.

At the same time, he disclosed that he plans soon to step out as head of the AAF, explaining that he is "getting to be an old man."

San Francisco Riot Finally Is Halted

SAN FRANCISCO—(P)—Only after the police riot was invoked and 1,000 policemen and 2,000 members of the military police and snore patrol had gone into action, was a violent, smashing mob of thousands driven from Market St. early Thursday.

Behind them were more than 100 smashed store windows and looted shops. Women were assaulted and stripped. Seven persons were killed in accidents and 624 were injured in the three-day celebration.

Celebrations which started Monday as the end of the war neared, reached a climatic riot. The crowd, composed mostly of sailors, young civilian hoodlums and bobby-sox girls, was destructive and ugly.

Strance, RRC Chief Supervisor, Is Here

C. W. Strance of Austin, chief supervisor of the Oil & Gas Division of the Railroad Commission, is in Midland visiting with Fore Fulfilling, supervisor of the Midland district of the commission, and his staff.

Strance spent a number of years in the petroleum development and production business before joining the state regulatory body.

San Francisco Riot Finally Is Halted

SAN FRANCISCO—(AP)—An NBC broadcast from Manila said Friday the Japanese representative to the surrender conference will leave Tokyo Sunday for General MacArthur's headquarters.

WASHINGTON—(AP)—The Army will bring back from overseas 4,000,000 veterans in 10 1/2 months. By the end of the year it will be discharging high-point men at a monthly rate of 500,000.

SAN FRANCISCO—(AP)—Three Japanese parties carrying the imperial "Cease Fire" message to field commanders in Manchuria, China and "the south," left Tokyo Friday, Japanese General Headquarters said in a message to General MacArthur.

OSLO—(AP)—At least 58 persons were killed and hundreds of others were injured Friday when a German ammunition ship exploded.

New Premier Asks Japs To Obey Hirohito

SAN FRANCISCO—(P)—Gen. Prince Naruhiko Higashi-Kuni was sworn in as Japan's new premier Friday and in his first official act as premier-war minister ordered the army to "strictly observe" an imperial rescript to lay down their arms.

"The decision has been taken to cease fire and return to peace," he declared.

The new post-war cabinet, in which the royal premier who may himself be tried as a war criminal retained the war portfolio, went into session immediately after it was sworn in.

The Japanese Domei news agency quickly went on the air with the announcement that the first duties of the new cabinet would be the signing of the surrender, or "the peace terms," and "fulfillment of the Potsdam Declaration to be enforced."

The first meeting of the cabinet lasted an hour and a half, Domei reported, and was taken up principally with the premier's plea for full cooperation from his ministers.

Warms Against Violence "Once we have laid down our arms," said the broadcast recorded by FCC, "we must take up matters with absolute calmness. If there should be any incident in violation of his majesty's command, we will lose the confidence of the world. The new cabinet must see that the work is carried out with great care.

"The second thing which we must bear in mind is that we must recover ourselves from the ravages of war and plunge into the work of reconstruction at the earliest possible moment.

Higashi-Kuni announced to his cabinet a three-point "basic" policy—respect of the constitution, control of the military and maintenance of order.

The policy, Domei quoted the prince as saying, was "personally given by his majesty, the emperor, and the cabinet must adhere to it."

Was Jap War Leader Higashi-Kuni, 57, as one of Japan's war leaders, might be subject to Allied prosecution as a war criminal. He was on the supreme council of war councilors, in 1941 was commander of the home defense general headquarters, and was reported to have threatened trial and possible execution of Allied airmen forced down in Japan.

His vice premier is Prince Fumimaro Konoye, named minister without portfolio. Konoye was premier when Japan began war on China in 1937 and again in 1941 prior to Pearl Harbor.

The navy minister is Adm. Mitsumasa Yonai, who held the same position under Suzuki.

Resigns

Acheson Succeeds Joseph C. Grew

WASHINGTON—(P)—President Truman has announced the resignation of Joseph C. Grew as under-secretary of state and appointment of Dean G. Acheson to the post.

Greww, a veteran State Department career man, resigned after 41 years in the service. He said in a letter to the President he felt the proper time has come to "lay down the responsibility of public office."

Acheson has been serving as an assistant secretary charged with contract work with Congress.

Midland Schools To Open September 4

Midland schools will open their fall term Tuesday, September 4, and all students are expected to report for studies at 9 a.m. that day, School Superintendent Frank Monroe announced Friday.

OSLO—(AP)—At least 58 persons were killed and hundreds of others were injured Friday when a German ammunition ship exploded.

His Ordeal Is Over

Surrender of Japan brings freedom again to one of the Pacific war's early heroes—Lt. Gen. Jonathan Mayhew Wainwright, above, the man who took up the fight where MacArthur left off and held Bataan to the end, the man who so inspired his troops that they changed the name of Corregidor to "Wainwright's Rock." Since he surrendered Corregidor on May 6, 1942, he has been a prisoner of the Japs.

Mrs. Anderson's Condition Reported 'Slightly Improved'

The condition of Mrs. Clifford Anderson, 41, who was shot and wounded by her husband Wednesday night was reported "slightly improved" Friday by hospital attendants.

Funeral arrangements for Anderson, who shot himself after wounding Mrs. Anderson, had not been completed at 1 p. m. Friday. The body is at the Ellis Funeral Home.

Mrs. Anderson told Police Chief Jack Ellington the shooting occurred about 9 p. m. Wednesday. She remained in the house from the time of the shooting until about noon Thursday with a bullet wound in her head. Mrs. Jim Moore, a neighbor, found Anderson's body and Mrs. Anderson when she heard groans in the house.

After an investigation, Justice of the Peace B. C. Girdley returned a verdict of attempted murder and suicide.

Among Anderson's survivors are the widow, two sons, Vernon E. Anderson and Crusoe Dean Anderson, both in the armed forces, and a daughter, Mrs. Peggy Darlene Crow. The daughter's husband, Lt. Wayne Crow, also is in the armed forces.

Mansfield And Edwards Matched For Roping Event

Toots Mansfield of Rankin, Texas, has been matched against Sonny Edwards of Odessa in the Labor Day championship event at the Midland Rodeo grounds, Roy Parks, president of Midland Fair, Inc., announced Friday.

Mansfield and Edwards are among the top-ropers of the nation and Mansfield several years held the world's championship. He formerly resided in Big Spring but now calls Rankin "home."

Each will rope twelve calves.

A preliminary roping match with two top performers also is being arranged by the Midland Rodeo. Other features of the program will include a jack-pot roping and two or three matched races.

Truman, Congress May Split On Draft Act

WASHINGTON—(P)—The political "honeymoon" President Truman has enjoyed with Congress may come to an abrupt end when the legislators reconvene next month.

Whether the legislative branch and the executive come to a parting of the ways may depend largely on Truman's attitude toward continuation of the Draft Act.

The law would cease to exist next May 15. Either the President or Congress could end it sooner. Congress could end it by adopting a "joint resolution. President Truman could end it by proclamation.

There is strong sentiment in both Senate and House to terminate it promptly after Congress convenes in September 5. Several termination measures are ready for introduction by various members.

The President's attitude is not yet known. Many on Capitol Hill believe he would like to allow the law to run its course.

At his news conference Thursday Truman said it was up to Congress.

Many Congressmen say each additional man inducted adds to the "cost" of the war. Every inductee is entitled, upon discharge, to military-out pay, in addition to payments under the Allotment and Allowance Act.

North Texas Unemployed Apply For Compensation

AUSTIN—(P)—Operations at field offices of the Texas Unemployment Compensation Commission were near normal Friday with the exception of Fort Worth and Dallas, the state office reported.

Commissioner Harry Crozier said claim applications were heavier at the two North Texas cities because of sharp cutbacks there in war industries.

Vernon Board Will Not Draft Boys 18

VERNON—(P)—The Wilbarger County Selective Service Board said Friday it had notified Governor Coke Stevenson it would not draft 18-year-olds or those who are in college or high school.

The board said that under existing regulations drafting of such boys is required, but that it would not abide by the requirements.

Meat Rationing May End By September

WASHINGTON—(P)—Secretary of Agriculture Anderson said Friday he believes it may be possible to terminate meat rationing in the "very near future"—possibly as early as September.

Mansfield And Edwards Matched For Roping Event

Toots Mansfield of Rankin, Texas, has been matched against Sonny Edwards of Odessa in the Labor Day championship event at the Midland Rodeo grounds, Roy Parks, president of Midland Fair, Inc., announced Friday.

Mansfield and Edwards are among the top-ropers of the nation and Mansfield several years held the world's championship. He formerly resided in Big Spring but now calls Rankin "home."

Each will rope twelve calves.

10 Enemy Planes Attack American Ships Over Tokyo

By LEONARD MILLIMAN
Associated Press War Editor

General MacArthur cracked down on Emperor Hirohito as 10 Japanese fighters attacked U. S. photographic planes over the Tokyo area Friday.

In the newest of a series of Nipponese "post war" attacks, four B-32s photographing the Tokyo area were met by anti-aircraft fire and 10 interceptors. Two Japanese fighters were sent down smoking.

MacArthur flatly told the mikado to comply with U. S. Directives "without further delay." His order interrupted a series of messages from Tokyo, now in their second day.

Because of Tokyo's delays the scheduled surrender meeting in Manila has already been postponed until probably sometime next week and bickering developed Friday as to whose armies were responsible for continued fighting in China, Manchuria and Korea.

Russia Gives Japs In Manchuria Till Monday To Stop

LONDON—(P)—The Russians, charging that the Japanese had launched a widespread counter-offensive in Manchuria at the same time its headquarters asked Soviet troops to cease hostilities, Friday gave the Japanese until noon Monday to disarm and surrender.

The Japanese government, in a broadcast recorded in the United States by FCC, "urgently requested" General MacArthur Friday to "take proper steps to bring about immediate cessation of the Soviet offensive."

(The broadcast said Japanese troops were unable to cease hostilities because Russian troops "are still positively carrying on the offensive.")

Marshal Alexander M. Vassilievsky said in a broadcast order "as soon as the Japanese troops begin surrendering their arms, Soviet troops will discontinue war operations."

"Didn't Mention Surrender" The Soviet marshal, the Moscow radio reported, said also that the Japanese did not "mention a word about capitulation" in their request that the Russians halt fighting.

The Japanese commander was given the added time so that he could communicate with all of his troops.

A Soviet communique said the Japanese counterattacks were made at three points and were repulsed with the Russian capture of the key communication cities of Wang-ching, Kiamudze and Taon.

The Russians reported also that they were pushing closer to the major Central Manchuria arsenal and communications center of Harbin with the Amur River fleet joining in the battle against the Japanese along the Sungari River valley.

Special Missions Arrive In Manila

MANILA—(P)—General MacArthur's headquarters announced Friday night the arrival in Manila of special military missions from the United States War Department, Adm. Lord Louis Mountbatten, commander of the Southeast Asia Command, and the Australian Army.

The announcement said only they had arrived "to participate in Allied activities" but arriving at this time, they obviously are linked with Japanese surrender developments.

The representatives from the American War Department are Brig. Gens. C. L. Dasher and J. B. Stadier, who were not otherwise identified.

All the Russians the same thing, while one of the mikado's puppets tuck a thorn in the side of peace. Tokyo admitted, without apology, that its bombers attacked 12 Allied transports off Japan after the surrender and probably inflicted some damage.

Hirohito's spokesmen explained again that it takes time to stop the war machine that is being rolled for roughly a decade. They asked MacArthur to keep Allied ships out of Nippon's home waters a little longer, and asked him for further clarification of his orders.

It was in response to this that MacArthur replied that "the directive from his headquarters is clear and explicit and is to be complied with without further delay."

The mikado and his henchmen did take their first notable series of steps toward actually ending hostilities.

Hirohito issued an imperial rescript to "cease fire" augmenting his previous order to the same effect. He dispatched members of his household in three aerial parties to tell Rising Sun troops in Manchuria, China and the southern areas to lay down their arms.

In his first official act as Premier Gen. Prince Naruhiko Higashi-Kuni told Japan's soldiers to comply with the order "to cease fighting." Gen. Yashuji Okamura reportedly issued the same directive to Nipponese troops in China at dawn Friday.

In Manchuria and Korea, however, Moscow charged the Japanese were counterattacking. Tokyo protested in one of a series of messages that the Red Army was making out Japanese position in Manchuria very difficult and urgently requested an "immediate question of the Soviet offensive."

The Soviet commander said the Red Army would stop rolling when the Japanese virtually surrendered. He gave them until Monday to lay down their arms. Meanwhile tank-led forces continued to close in on (Continued on Page Six)

DeGaulle To Give Petain Life Term

PARIS—(P)—Gen. De Gaulle Friday commuted Marshal Petain's death sentence to life imprisonment.

The action consisted of approving a statement the court wrote in its verdict which expressed the wish that the execution not be carried out.

Four Persons Killed In Buenos Aires Riots

BUENOS AIRES—(P)—Police announced 26 persons were injured Friday in a continuation of this capital's three days of rioting. The three-day toll was put at four dead and 129 injured.

Breaking into headquarters of the Nationalist Youth Alliance, police arrested 22 men who, they said, were shooting at demonstrators.

Nine persons were wounded when police fired machine guns in an attempt to disperse one of the crowds.

The disorders began with the celebration of the Japanese surrender, when pro-Democratic groups attacked Nationalists in the street.

Most Large Industries In State To Operate

AUSTIN—(P)—Eighty per cent of 16 larger industries developed in Texas since 1940, including war industries, plan continued postwar operations, Acting Director Hall Loran of the Texas Postwar Economic Planning Commission said Friday.

Georgetown Soldier Gets Medal Of Honor

WASHINGTON—(P)—Lt. Eli Whiteley of Georgetown, Texas, was wounded but he killed nine Germans and captured 23.

Then he was blinded by enemy fire but he tried to conceal the fact and kept on fighting.

His commanding officer had to knock him out to keep him from leading an attack.

LATE NEWS FLASHES

SAN FRANCISCO—(AP)—An NBC broadcast from Manila said Friday the Japanese representative to the surrender conference will leave Tokyo Sunday for General MacArthur's headquarters.

WASHINGTON—(AP)—The Army will bring back from overseas 4,000,000 veterans in 10 1/2 months. By the end of the year it will be discharging high-point men at a monthly rate of 500,000.

SAN FRANCISCO—(AP)—Three Japanese parties carrying the imperial "Cease Fire" message to field commanders in Manchuria, China and "the south," left Tokyo Friday, Japanese General Headquarters said in a message to General MacArthur.

OSLO—(AP)—At least 58 persons were killed and hundreds of others were injured Friday when a German ammunition ship exploded.

How Well Will It Work?

It may have seemed odd to many Americans that the new British government's proposed domestic reforms were announced by a man who is not even an official member of that government.

But as chairman of the Labor Party's national executive committee, Prof. Harold Laski's importance exceeds that of the national committee chairmen of American political parties. He is not merely a boss of political campaigns. He is one of the new government's leading philosophers.

Hence, when he outlined the plan to nationalize successively the Bank of England, the coal mines, inland transportation and the iron and steel industries, one could be certain that he has had a major part in planning that program, and that his counsel will be sought in carrying it out.

But Professor Laski is still not in the government. It will be up to the members of that government to answer to the British people for the workability of their new program. They must prove not only that they are "prepared to give the little man . . . all the progressive chance that he requires." They must also prove that political monopoly is better than private monopoly, and that public enterprise is more just, profitable and productive than private enterprise.

And it will be up to the new government to take responsibility for the timing and extent of the reforms. However desirable these reforms may be—and the majority of Britons obviously want them—they must be done right.

Like it or not, the source of much perwar British wealth and many prewar British jobs lay overseas. That source has been dried up and replaced by overseas debts greater than the original investments. As a result, the island heart and nerve center of the British Empire is in a precarious financial position.

Added problems, of course, are the widespread destruction of industrial and business installations and private dwellings, and burdensome taxes. These must be wrestled with and solved without undue experimentation or intemperate public spending.

The new Labor government has a great opportunity as well as a discouragingly difficult task. But its great challenge is the same one that the Conservatives would have faced: not how good is your philosophy, but how well will it work?

Most Decorated GI To Get Discharge

SAN ANTONIO—(AP)—Lt. Audie L. Murphy, the nation's most decorated soldier, will turn civilian on Saturday.

The 21-year-old freckled face youth from Hunt County who won every medal there was to win, has applied for a discharge at the Army Ground and Service Forces Redistribution Station, Fort Sam Houston.

Murphy is leaving the service under an Army rule which holds that any Congressional Medal of Honor winner may apply for and secure a

discharge. Murphy won the highest decoration with the Third Division in France when he alone stopped a charge of 200 Nazi infantrymen and six German tanks.

The lieutenant said he expects to enter a business college but that he might try the Army again after he finishes school.

Murphy completed a 60-day furlough Aug. 15. He spent most of the period in Farmersville, Texas, home of his sister, Mrs. Corinne Burns but also visited in Dallas, Denison, Amarillo, Greenville and other Texas cities.

SIDE GLANCES

"We're so glad you've moved into the neighborhood—we'd like to have our little boy get used to playing nice with little girls!"

A New Experience for the All Highest

Marine Holds Tongue For Culprit Is Nimitz

GUAM—(AP)—Three Navy officers strolling near headquarters stopped a few paces astern of a Marine guard. One, casually dressed in shorts and shirt, picked up a rock and took deliberate aim at a bird in a tree. He missed and the bird flew away.

The Marine, with a wink, whispered in an aside: "I oughta read that guy off for throwing rocks around here—but I guess I won't."

His name was Nimitz.

Sergeant Peyton Arrives In States

ATLANTIC CITY, N. J.—S/Sgt. William L. Peyton, son of Mr. and Mrs. E. H. Peyton of Midland, has reported to the Army Air Force Redistribution Station here after serving as a radio gunner overseas on 32 combat missions.

Sergeant Peyton entered the Army June 5, 1942, and left for overseas Aug. 8, 1944.

Motorists Calm Now After Getting Gas

The first shock of being able to obtain gasoline without having to present ration coupons was wearing off Friday morning as service station operators reported a decline in the "fill 'er up" orders.

The operators reported Thursday was a distinct sale by the tank full day. Canned foods which formerly required blue points were carried from the city's grocery stores in large quantities Thursday with the demand showing a decline Friday morning, some grocers reported.

A turkey has 3,860 feathers.

Truman Arranges For Management And Labor Meet

By JAMES MARLOW
WASHINGTON—(AP)—President Truman has given a final shove to management and labor to get them into a room together.

He's calling a labor-management conference when Congress returns in September.

It was no sudden Presidential inspiration. The idea is not new. But it has been hanging in mid-air some time. Time is running out.

With labor and management no longer tied together by the common bonds of war, resumption of the age-old fight between them seemed certain.

Last March the AFL, CIO and U. S. Chamber of Commerce sat down around a conference table, drew up a "new charter for labor and management."

Its purpose: To seek labor-management peace at war's end. It proposed voluntary machinery and peaceful settlement of disputes as substitutes for wartime controls.

Nothing Has Happened
So far nothing much has happened. The National Association of Manufacturers took no part in it. The AFL finally said it would not sit down with management and the CIO.

It said management could settle its AFL problems with the AFL and its CIO problems with the CIO.

Then came the United Nations Conference in San Francisco. Senator Vandenberg (R-Mich.) was an American delegate there.

He saw 50 nations, with widely different views and interests, reach some common understanding on what was good for them. He was impressed.

He returned to Washington and on August 2 proposed a labor-industry-government conference.

Truman has asked labor and management to continue their wartime pledge of no-strikes and no-lock-outs until the conference has been held and some plan for industrial peace worked out.

And there is need for some kind of agreement between management and labor in the months ahead.

Crosby Sheriff Finds Body Of Son In Ditch

LUBBOCK—(AP)—Crosby Sheriff Roy E. Hillin Thursday found the body of his son, Lonnie Hillin, 30, in a muddy ditch four and one-half miles west of Crosbyton.

Two men were questioned here in connection with the death by District Attorney Burton S. Burks. Burks said one of the men stated he drove Hillin to the spot where his body was found after Hillin had been struck twice in a dispute. The man said the truck became mired in the mud and that Hillin disappeared.

THIEF STEALS 60 GALLONS WORTH OF GAS COUPONS!

DENVER, COLO.—(AP)—Add notes on silly behavior: A thief broke into a filling station Friday and took gasoline coupons for 60 gallons.

Service Paper Changes Name, Now: 'Cease Fire'

SAN PEDRO, CALIF.—(AP)—"Open Fire" was the name of the newspaper printed aboard the destroyer U. S. S. Norris, now in port here, and edited by Ens. J. Richard Nokes, former Portland, Oregonian reporter.

When the paper came out Wednesday it had a new name: "Cease Fire."

STEP BY STEP

Very few prescriptions call for a single drug. Most are compounded, step by step, of several ingredients, each of which must be measured with painstaking care. And they are at CAMERON'S! Step by step, we compound your medicine exactly as your doctor prescribed it—putting into it a full measure of professional skill to assure the unvarying accuracy that guarantees full medicinal value.

Miss Billie Walker Entertains With Coke Party Thursday

Miss Billie Walker entertained with a coke party Thursday afternoon honoring Miss Fay Doris Douglas who is in Midland visiting her parents. Miss Douglas is a student at the Baylor School of Nursing in Dallas and will return to that city in September to resume her studies.

Attractive arrangements of garden flowers were used in decorating the entertaining rooms.

Guests were Misses Bobbie Jean Gibbins, Isabel Morehouse, Norma Jean Stice, Martha Preston, Belva Jo Knight, Margaret Mims, Elaine Hedrick, Kathryn Hanks, Janice Pope, Patsy Tull, Glenna Graham and Mary Ruth Dozier of Big Spring.

VETERAN WILL SPEAK AT CHURCH OF THE NAZARENE SERVICES

Ted Hollingsworth, student at the Bethany Peniel College in Bethany, Okla., will be guest speaker at the Church of the Nazarene, 300 South Big Spring, at 8:30 p. m. Sunday.

A veteran of World War II, Hollingsworth will tell about a number of his experiences while serving with the armed forces in New Guinea.

The public is cordially invited to attend this service. The Rev. F. W. Rogers is pastor of the church.

'Covered Dish' Sale Will Be Sponsored By Lutheran Parish Workers

A "covered-dish" sale will be sponsored by the Lutheran Parish workers of the Grace Lutheran Church at the home of Mr. and Mrs. W. A. Baumann at 6 p. m. Saturday. The Young People's Society will furnish iced drinks.

All members and friends are invited to attend this entertainment.

11:00 a. m.: Morning lesson-sermon, "Soul."

The Golden Text is: "My soul waiteth for the Lord more than they that watch for the morning; I say, more than they that watch for the morning" (Psalms 130:6).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I love the Lord, because he hath heard my voice and my supplications. Because he hath inclined his ear unto me, therefore will I call upon him as long as I live" (Psalms 116:1, 2).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Life is the law of Soul, even the law of the spirit of Truth, and Soul is never without its representative" (page 427).

Scruggs Motor Makes Addition To Building
A building permit was obtained Thursday from W. F. Prothro, city building inspector, for a \$4,000 tile and stucco addition to the building occupied by the Scruggs Motor Company.

Work on the project is expected to be completed within 60 days. G. W. Bremmner is the contractor.

ANN ULMER FLIES TO COLORADO SPRINGS
Miss Ann Ulmer, daughter of Mr. and Mrs. M. C. Ulmer, flew to Colorado Springs, Colo., on a Continental Air Lines ship Thursday to visit her sister, Mrs. Barron Kidd.

Kamikaze Originator Commits Hari-Kari

NEW YORK—(AP)—The Japanese Navy Ministry announced Friday afternoon (Japanese Time) that Vice-Admiral Takijiro Onishi, vice-chief of the navy general staff, had committed suicide, leaving a note which said he wanted to "make atonement to the souls of my former subordinates and to members of their bereaved families," the Tokyo Radio said.

Onishi was the originator of the Kamikaze (Suicide) special attack corps and since May 29 was commander of the naval suicide forces.

The broadcast, recorded by The Associated Press, said Onishi, former commander-in-chief of Japanese naval air forces in the Philippines, took his life at his official residence at 3 a. m., Japanese time, Thursday, and left this note:

"To the spirits of members of the special attack corps: I express my deep gratitude to you who have fought so well. Ever convinced of final victory you feel gallantly as human bullets. But that conviction finally has not been fulfilled. With my death I desire to make atonement to the souls of my former subordinates and to members of their bereaved families."

A South African race called the Cape Colored is a mixture of Malay, Hottentot, Bantu and European.

Superfort Bombing Of Japan Cost 3,000 U. S. Fliers And 437 Planes

By VERN HAUGHLAND

GUAM—(AP)—General Spaatz disclosed Friday the year long operation of B-29s against Japan cost the lives of over 3,000 American fliers, while more than 600 others were rescued by Naval operations.

Combat operations resulted in the loss of 437 of the Superfortresses. Noncombat losses were not announced, but they are known to be considerable, particularly in the early months of the campaign when the crews were learning the capabilities of their planes.

Crews lost, averaging 11 men each, numbered 297.

In addition 106 Iwo-based long range fighters were lost.

On the other side of the ledger, the commander of the U. S. Army Strategic Air Force said, the giant aircraft destroyed the major industrial productive capacity of 59 Japanese cities and partially destroyed six others.

Six cities more than 75 percent destroyed were Numazu, Fukui, Hitachi, Takamatsu, Kuwana and Himeji.

Flew 100 Million Miles
The B-29s flew more than 100,000,000 miles in an aggregate of 32,612 flights from Marianas and Indian bases and dropped 169,421 tons of bombs.

A total of 581 important factories engaged in production of war materials has been either totally destroyed or severely damaged. Including in this number are 23 major factories of Japan's aircraft industry resulting in a 60 percent reduction in her combat plane production capacity, the communique said.

Japan's major oil refining capacity was knocked out with the destruction or severe damaging of eight principal oil refineries and a 15 percent reduction in steel capacity resulted from the damaging of two major steel plants.

Since March 28, 1945, the Superforts in a total of 1,435 flights have laid 12,1049 mines in enemy waters.

In their operations the B-29 crews destroyed or damaged 1,935 Japanese planes in the air and another 350 on the ground.

RADAR

spots targets through darkness smoke or fog

The Bell System is the largest source of Radar for our fighting forces

This is not surprising for Radar development and production stem from the same roots that produced and continue to nourish this country's telephone system.

Radar, the instrument which enables our land, sea and air forces to spot enemy targets through darkness, smoke or fog, is one of the outstanding new fighting instruments of this war.

Two years before Pearl Harbor the Government asked Bell Telephone Laboratories to put its wide experience and knowledge of electronics to work to help perfect Radar as a military instrument. Since then the Laboratories has co-operated closely in the Radar program with the National Defense Research Committee, with Army and Navy specialists, and with scientists of Great Britain.

The Western Electric Company, manufacturing branch of the Bell System, became the Nation's largest supplier of Radar systems. One type it makes is universally used by B-29's in the Pacific for navigation, target location and high altitude bombing. Another plays an important part in aiming the guns on our warships.

If you're waiting for a home telephone, it helps a little to know that Radar is one of the reasons. Our telephone manufacturing plants have been devoted to these war needs.

SOUTHWESTERN BELL TELEPHONE COMPANY

THROUGH JAPANESE EYES

by Otto D. Tolischus

HIROHITO'S ROLE

EMPEROR HIROHITO of Japan is in theory the absolute owner and ruler of his country and his people. He is God, and as such the highest being in the Japanese universe, to whom everything belongs. He is an Emperor who, by virtue of the national faith, the national tradition, and the national constitution, combines in himself all the rights of national sovereignty, to the complete exclusion of the Japanese people who have been granted civil rights but possess no sovereign rights—not even in theory. He is, finally, the High Priest of the nation, and as such its spiritual head. Whatever decisions he makes, or whatever decisions receive the Imperial sanction, are therefore acts of God, acts of an autocrat, and prophecies of a High Priest which engage all the religious and political energies of the nation, and to challenge which would be both blasphemy and political suicide.

Holding such a unique position, the Japanese Emperor can be a great force for good, and an equally great force for evil. The record of Hirohito's reign, which ironically enough is called by the name of "Radiant Peace," is one of unmitigated evil, culminating in the Pacific war, and indirectly in the whole world war.

Hirohito's Record

It is true that Hirohito's sins are primarily those of omission rather than commission. It is further true that Hirohito personally is supposed to be a westernized liberal who loves peace, and in particular opposed both the alliance with Germany and war against the United States. It is quite likely that he acted at least as a brake on the developments that led to Pearl Harbor. But Hirohito has been a willing puppet. He has been so partly because of a weakness of character that runs through the whole dynasty which has produced few strong men. This weakness, which has permitted unscrupulous military upstarts to use the authority of the throne as a cover for their own ambitions, makes the Japanese throne an everlasting menace for the future. For whoever can control Japan's God has also the whole nation at his command. It is also possible that, like so many so-called Japanese liberals, he has been really in agreement with the general aims of Japanese expansion, though shrinking from its inevitable consequences. The indications are that the latter is the case. Nobody knows whether he believes in his own divinity, but he has never raised his voice to op-

Symbol of "Radiant Peace"—1938
Hirohito's reign, which ironically enough is called by the name of "Radiant Peace," culminated indirectly in world war.

pose or condemn that interpretation of the Hakkō Ichiu principle which proclaims him Emperor of the World. On the contrary, he has constantly supported it by issuing Imperial Rescripts based on it.

He has never opposed or condemned the Japanese aggression that began in Manchuria in 1931 and led to the Pacific War. On the contrary, he issued Imperial Rescripts supporting it as well as Japan's secession from the League of Nations, thus giving them his divine, imperial, and priestly blessings.

Never Opposed Atrocities
He has never opposed or condemned the shocking atrocities which are an integral part of Japanese warfare and which were first exemplified in the rape of Nanking. Nor can he plead that he had no knowledge of them. It was his younger brother, Prince Asaka, who was in command at Nanking, and it is inconceivable under Japanese traditions that the younger brother did not describe in detail to his elder brother just what happened at Nanking.

He presided over that fateful Imperial Conference on July 2, 1941, which agreed on the conquest of East Asia even at the risk of war with the United States and the British Empire—a decision that already envisaged Pearl Harbor.

He issued the Imperial Rescript declaring war against the United States and the British Empire to "carry forward the task bequeathed by Our Forefathers," which calls for extending his rule until it embraces the world.

He has finally, within the limits of his office, done everything possible to mobilize the Japanese

Puppet Kingdom In Indo-China Defies Peace

SAN FRANCISCO (AP)—The Japanese puppet kingdom of Viet Nam, created last March by the Japanese from the French Indo-China protectorate of Annam, will not accept peace if it means returning to French rule, the Japanese Domei News Agency reported Friday in a broadcast recorded by the Federal Communications Commission.

The declaration in the name of the puppet premier asserted Viet Nam's intention of "defending the independence acquired in the last stage of the Greater East Asia War," the Domei dispatch, dated Hanoi, said.

The people of the Viet Nam empire "refuse to be subjugated again by France, under whose fetters they long suffered," the statement was quoted by Domei.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority
Today's hand came from Lawrence Held of Coral Gables, Florida. Bridge plays an important part in the recreation of the people of Florida. They have some very interesting rubber games.

The declarer was certainly disappointed when the dummy went down, but there is a lesson in it—never give up on a hand of this type.

THIS IS THE RUBBER:
"Unhappily, there exists between Our Empire and the League of Nations a wide divergence of view in this regard (conquest of Manchuria), and it has developed upon Us to cause Our government to take, upon mature deliberation, the necessary steps for the withdrawal of Our Empire from the League."—Imperial Rescript on Japan's withdrawal from the League of Nations, March 27, 1933.

"Eager for the realization of their inordinate ambition to dominate the Orient, both America and Britain, giving support to the Chungking regime, have aggravated the disturbance in East Asia. Moreover, these two powers, inducing other countries to follow suit, increased military preparations on all sides of Our Empire to challenge us. They have obstructed by every means Our peaceful commerce, and finally resorted to direct severance of economic relations, menacing gravely the existence of Our Empire. The situation being such as it is, Our Empire for its existence and self-defense has no other recourse but to appeal to arms and to crush every obstacle in its path."—Imperial Rescript declaring war against the United States and Britain, Dec. 8, 1941.

"I express joy to see our goal realized step by step."—Hirohito to Hitler on the anniversary of Pearl Harbor, Dec. 8, 1943.

Texas Faces Mass Unemployment; 45,000 Out Of Jobs

By The Associated Press
With many of her wartime industries silent, Texas faced a problem of mass unemployment Friday and the War Manpower Commission said that in seven Texas cities or areas the problem is potentially serious.

James H. Bond, regional WMC director, listed the seven as Dallas, Fort Worth, Houston, Beaumont, Port Arthur, Orange, Texarkana, Waco and Amarillo.

At least 45,000 workers of Texas wartime industries were idle as the result of contract cancellations.

At the North American Aviation Plant, near Dallas, 15,000 were laid off and the plant has announced no plans for future production.

Workers Swamp USES Office
Thursday, laid-off workers swamped the United States Employment Offices looking for new jobs. Uses cut short a two-day holiday and opened Thursday to meet the emergency.

Cancellation of uncompleted deliveries of seven Navy contracts in Houston, totaling \$519,000, was announced by the Navy public relations office at Houston Thursday. No more cancellations in construction of ships for the Maritime Commission by Gulf Coast Shipyards will take place at present,

L. R. Sanford, Gulf Coast representative for the commission, was quoted as saying by the Houston Chronicle in a special dispatch from Washington.

Sanford said he expected that some 100 to 150 ships which are being built now in Gulf shipyards will be completed for use in the peacetime merchant marine. He stated that, along the Gulf Coast, only 18 ships which had been contracted for will be scrapped.

No layoffs were reported in Galveston where the Chamber of Commerce anticipated full employment for several months at least because marine repair work at the dry docks and shipyards was due to continue.

In Waco, a layoff of approximately 3,000 persons was expected to be absorbed immediately in civilian production and business.

The Bluebonnet Ordnance Plant at McGregor, employing 2,000, was the only local industry not converting immediately to civilian production.

To Manufacture Fertilizer
At the multi-million dollar Lone Star Ordnance Plant at Texarkana, the ammonium nitrate graining plant will manufacture fertilizer. J. C. Herbert, general manager of the ordnance plant, said. Herbert

HOLD EVERYTHING

CARNIVAL

"Remember me from last year? I'm that little shrimp who had never eaten Wheaties before."

Never eaten Wheaties before? Try 'em tomorrow morning. Good nourishment in those big whole wheat flakes. Deliciously good eating. Get milk, fruit, and Wheaties, "Breakfast of Champions." And better order the new Extra-Big Pak. Remember Wheaties are famous for "second helping" flavor.

Rationing

(Continued from Page One)
 The President's "honeymoon" with Congress may end if he fights for retaining the draft. Some Congressional leaders want to kill the Draft Law quickly.
 Representative Colmer (D-Miss), chairman of the House Postwar Economic Planning Committee, came out against "hastily considered legislation" and said Congress already has enacted most of the necessary reconversion laws.
Army Releases Coal
 Army officials announced release of 120 million tons of coal within the next 12 months, saying this would solve the nation's "shortage of 25 million tons."
 The meat no longer needed by the Army was to have been sent abroad as "C" rations. The amount released was not specified.
 Goods declared "surplus" by the Army were valued at \$21,000,000. They include not only jeeps but razor blades, pillows, sheets, towels, brass shovels, trains, tractors, barbed wire, paper bags, and spark plugs.
 The Petroleum Administration for War, announcing its own end shortly, said a few controls will be kept for a time but that these will not interfere with the civilian consumer. The agency said he oil industry is in healthy condition and doesn't need any "reconversion" in the usual sense of the word.
Transportation Controls Out
 While some transportation controls were dumped overboard—on taxicab cruising, for example—railroad passenger travel is still restricted. Also the OTD said it is keeping restrictions on the frequency of retail and wholesale deliveries, but will lift them "as soon as conditions permit." Conventions now may number 150 persons instead of 50.
 The Army's latest cutbacks in materials include: cotton textiles 82 percent; wool (all types), 78 percent; leather, 75 percent.
 There also is a 44 percent cutback in the Army's gasoline requirements.
 Howard Bruce, director of material for the service forces, said that the Army had to move quickly when Japan tossed in the towel. Each day the Army went to market it cost the nation's taxpayers another \$400,000,000.

MacArthur Will Recall Memories Of Bataan When He Meets Japs

By RUSSELL BRINES
MANILA —(P)—The greatest peace drama of Pacific history is being prepared with the principal actors waiting anonymously by the wings and the precise curtain rising time not known.
 Aside from General MacArthur there has been no definite indication as to who will attend the momentous preliminary peace conference.
 MacArthur probably will be flanked with his key ground, Naval and air commanders. Whether such Allied commanders as Adm. Lord Louis Mountbatten will attend is not known, although unofficially it is considered possible.
 The Japanese also are silent on their selections—doubtless awaiting a final cabinet choice.
 The Japanese apparently are finding it difficult to name military leaders able to speak with authority and at the same time acceptable to the Allies.
 When MacArthur finally meets the Japanese he doubtless will recall many unpleasant memories—the first days of defeat on Bataan, General Tomma's arrogant, overbearing attitude in dictating unconditional surrender to General Wainwright and the enemy's subsequent atrocities against war prisoners.
 So General MacArthur's manner undoubtedly will be stern, commanding and business-like. The Japanese will be here only to listen to instructions and these probably won't take long. It will be clear from the outset who is in command.
 This will be the first time since Admiral Perry opened Japan that the Japanese envoys have come only to hear instructions.

Russia Declines To Free War Prisoners

WASHINGTON —(P)—Russia has declined to discuss the fate of hundreds of thousands of German prisoners in her hands.
 Disclosed Friday by a high official, this development of the Potsdam Conference has disrupted attempts to reach an Allied agreement for the systematic return of captured Germans to civil life in all parts of Germany.
 American occupation forces have proceeded on schedule to screen and release prisoners not held for war crimes. But so far as this country's representatives have been able to learn, Russia has released few, if any, of the men it holds.
 The supposition in official quarters here is that the Russians already have put many of these prisoners to work in rebuilding Soviet factories and cities devastated by the German invaders.
Russians Use Forced Labor
 The Russians long ago made known their intention of utilizing forced labor for reconstruction.
 There were reports that large numbers of civilians had been transported from Poland and other Soviet-occupied areas to Russia to work in factories, on farms, in the mines and on reconstruction projects.
 Secretary of State Byrnes is known to have gone to the Potsdam Conference with the question weighing heavily on his mind. But it is reported that all his efforts to bring the matter into discussion here were rebuffed by the Russians.
 The first Bessemer steel rails manufactured in the United States were rolled in 1865.

Temperature Goes To 96 Degrees Here

The weather continued warm in Midland Thursday as a maximum temperature of 96 degrees was registered from 3 until 5 p. m. Friday had a minimum temperature of 76 degrees at 8:30 a. m.

Chandler Urges League To Give Baseball Back To Vets And 'The Kids'

WASHINGTON—(P)—The sometimes-strained relationship between major and minor leagues apparently was strengthened during baseball's two-day joint postwar planning meeting here.

As a result of this closer feeling of kinship, Commissioner A. B. "Happy" Chandler said Friday "baseball is unquestionably headed for its greatest era in history. Both in quality and quantity."

The meeting ended Thursday. The minors took steps to make Chandler's prediction come true by outlining their biggest promotional plan.

They have applications for 30 to 35 new leagues on file. And they will send Art Ehlers, promotional director, into the field to help organize these circuits with an eye to compactness.

Committee Recommends Action

Chandler got two of his own ideas across to the minors and majors alike. They provide for special attention to returning war veterans and giving the game back to the kids.

The postwar committee recommended to the various leagues that a spot be found for every returning veteran-player regardless of physical condition.

In order to "take the game to the country boys, the high schools and corner lots," as the moguls expressed it, a fund of \$50,000 will be set up in the commissioner's office with a subcommittee to work out promotional schemes.

Cardinals To Stay In Race If Bums Manhandle Cubs

By JACK HAND
Associated Press Sports Writer

Billy Southworth's tattered St. Louis Cardinals, limping from town to town and aching in every muscle, still cannot be counted out of the National League race.

Five games back with 42 to go, 12 against Chicago, the World Champs are making hay in the Philly sunshine while the Cubs are wrestling with the alert Brooklynns.

Although Charley Grimm's happy hand all but knocked the Dodgers loose from their moorings in a 2-6 series opener, lippy Leo Durocher had the Bums back on their toes Thursday to grab a 2-1 evening behind Tom Seatz.

Durocher Sent to Clubhouse

Seatz copped a real important one for Durocher Thursday with a banner holiday crowd of 27,892 paid pushing the season attendance to 903,512 and adding another \$5,000 to Leo's bonus-plus salary.

The lefthander scored the first run, knocked in the second and fanned Bill Nicholson on a called third strike with the tying run on third in the ninth. Durocher wasn't around to see the finish because Umpire Ziggy Sears waved him to the clubhouse after he had stormed around the three arbiters in protest of a called strike on Luis Olmo.

Nab. Munitioneer

Fritz Mandl, above, former Austrian munitions magnate and one-time husband of Hedy Lamarr, has been arrested by Uruguayan police. He was seized at the frontier town of Colonia as he alighted from a plane arriving from Buenos Aires.

M&H 1 Cowden --

(Continued from Page One)

exploration in section 40, block 45, TP survey, T-1-E, and two miles north of initial Ellenburger producer in the TXL field, had reached 9,830 feet in Simpson lime, and was expected to encounter Ellenburger at any time.

Sinclair Prairie No. 1 Ratliff, Southwest Andrews County wildcat, in section 25, block 73, psi survey, had reached 8,656 feet in Missippian lime.

Anerada Petroleum Corporation No. 1-A Jones, extreme Northwest Gaines County development, in section 3, block A-6, psi survey, was t-ting through perforations at 11,437-441 feet in the Devonian. That formation had shown some indications of production.

Sharon Ridge Outpost

C. I. McLaughlin No. 1 J. C. Stinson, 330 feet from north and west lines of southwest quarter of southeast quarter of section 116, block 97, H&TS survey, in Southwest Scurry County is to be a one-half mile east extension effort on northeast side of the Sharon Ridge field.

It is to drill to 3,200 feet, with cable tools, starting shortly.

DeKalb Agricultural Association, Inc., No. 1 Bunleson, Upton County exploration in section 65, block 35, H&TC survey, had progressed under 6,749 feet in lime, and was continuing.

Col. Gruver and Coburn No. 1 Superior Oil Company-Starnes, in section 1, block W, GC&SF survey, in Southwest Upton County, and slated to dig to around 2,500 feet, had reached 1,195 feet in anhydrite. Said To Be High

Top on the Yates had not been called. However, it is reported by some observers, that the project is about 40 feet high to a wildcat drilled sometime ago about one-half mile to the southwest which had some shows of oil.

Skelly Oil Company No. 1 Sugg, lower Ordovician prospect in section 45, block 1, H&TC survey, was drilling ahead past 5,241 feet, in Ellenburger dolomite.

Frank and George Frank No. 1-I University, in northwest corner of section 32, block 13, University survey, Devonian exploration on the southeast side of the Fullerton area, in Northwest Andrews County, had reached 8,185 feet in lower Permian black shale, and was continuing.

Will Test

Stanford and Shell No. 1 Waddell in section 8, block B-7, psi survey, one-half mile northwest of closest proven production from the Ellenburger on northwest side of the Wheeler field, in East Winkler County, plugged-back to 10,793 feet, to shut-off bottom water.

A string of 5 1/2-inch casing had been cemented at 10,710 feet with 2,300 sacks, and operators were to test the Ellenburger in the 83 feet of open hole, when plug is drilled out.

The Texas Company No. 1 Phillips, Southwest Borden County exploration in section 2, block 82 TP survey, T-3-N, swabbed 18 hours on Aug. 14 and recovered 52 barrels of oil and 60 barrels of basic sediment and acid water.

Swabbing To Test

The project was shutdown on Aug. 15 for the holiday and on Aug. 16 swabbed 12 hours and made 16 barrels of fluid—50 percent basic sediment and acid water. It had been treated with acid at 3,110-2,210 feet. Some of the oil recovered was lead oil.

Hunt Oil Company No. 1 Graham, in section 328, block D, John H. Gibson survey, in Northeast Yoakum County, was bottomed at 5,354 feet, with sulphur water, developed at 5,350 feet.

The exploration was shutdown for orders. It had tested for between 50 barrels and 75 barrels of oil per day from above 5,335 feet.

Making New Hole

Gulf Oil Corporation No. 1 Starnes, Upton County wildcat, eight and one-half miles northwest of McCamey, was drilling in new hole under 5,087 feet. This project had been delayed several weeks, on account of having to drill by lost tools on a total depth of 5,081 feet. That hindrance has been by-passed and the hole is to go ahead.

To Coach At Sweetwater

SWEETWATER—(P)—Pat Gerald, coach of the Vernon Lions for eight years, is the new coach at Sweetwater and is here on duty. He succeeds Mack Alexander who resigned to go into Boy Scout work.

Ban On Sports Travel Is Lifted By ODT

WASHINGTON—(P)—The Office of Defense Transportation Friday formally lifted all restrictions on sports travel.

In a statement, Col. J. Monroe Johnson, ODT director, announced "discontinuance of the voluntary travel restrictions on major professional sports, intercollegiate and high school athletics, and bowling."

Johnson said that sports were entitled to early consideration in the easing of restrictions "because of their voluntary agreement" and "certainly the civilian morale and recreational angles are to be considered."

Tin teams easily with other metals to form hundreds of useful alloys.

Sports Roundup

By Hugh S. Fullerton Jr.

NEW YORK—(P)—If American officials have their way, the next Olympic Games will be held "on a very sound amateur basis, even if they have to be on a more modest scale." . . . That's the opinion that Avery Brundage is carrying to the London meeting next week. . . . One of the men he left behind pointed out that the last few times the games were held, there was a big argument as to whether ski instructors should be allowed to compete; soccer players from many nations were paid for "broken time" and gymnastics instructors could vie with their pupils.

Boxes for Boxers

It's a believe it or not item, but Mike Jacobs' publicity department insists it's true that Manager Frankie Jacobs actually exposed himself to hard work in order that Tony Janiro could become a big-time boxer. . . . The story is that when Tony, now 18, still was too young to get by as a pro, Jacobs took a job in a warehouse, lugging heavy cartons, around, to pay the board bills. . . . When Janiro finally came East for polishing, Frankie got time off afterwards to coach his protegee but had to make it up by night work. . . . The really incredible part is the statement: "Frankie Jacobs never squawked."

One-Minute Sports Page

The Army-Navy game likely will be played at Annapolis every second year after Navy finishes its big stadium, on which \$100,000 worth of excavation work already has been done. . . . That is unless a proposed Washington stadium is built and the "brass" calls for a game there. . . . Chicago papers are wondering why Larry MacPhail is taking only cash in his baseball deals. He received the promise of some players in the sale of Hank Borowy, but if the Yanks don't get the men, they'll receive another \$30,000.

Thompson Is Named As Auctioneer For JayCee Box Supper

Ted Thompson will be the auctioneer for the Junior Chamber of Commerce old fashioned box supper at Cloverdale Park at 7:30 p.m. Friday.

The last outdoor meeting of the summer for the organization is being given for JayCees, their families and guests.

Separate boxes will be prepared for children which will not be auctioned.

Thompson said indications pointed to a large attendance at the event.

Parents Receive Medal Given Son

Mr. and Mrs. Harley H. Hays have received the Bronze Star Medal recently awarded their son, Sgt. Marion Hays, for meritorious service in connection with military operations in France, Belgium, Luxembourg and Germany.

Sergeant Hays now is with the headquarters company of the 11th Armored Group in Nurnburg, Germany.

Van B. Turner Is Back In States

TREASURE ISLAND, SAN FRANCISCO, CALIF.—Van B. Turner of Midland, boatswains mate first class in the Navy, has reported at the United States Naval Armed Guard Center here after spending 13 months as a member of a gun crew aboard a merchant ship.

Atom Pioneer MacArthur --

(Continued from Page One)

Harbin, industrial and transportation key to the city.

Tokyo announced the beginning of the "voluntary" disintegration of the mikado's war-built empire, announcing that Portuguese Timor would be returned to Portugal on request.

A short time later the government-controlled Domei news agency announced that the puppet kingdom of Viet Nam in Indo-China planned to defend its "independence." Viet Nam was the French protectorate of Annam.

Major post-war difficulty, outside Japan itself, loomed currently in China. Credible reports said Japanese puppet troops in Shanghai and Nanking had gone over to Generalissimo Chiang Kai-Shek, giving him the edge over Chinese Communists in the race for these key North China cities. Shanghai will be the new headquarters for U. S. Forces in China.

Mao Tse-Tung, Communist leader, was reported to have declined Chiang's invitation to a unit conference. The same sources understood Major Gen. Patrick J. Hurley, U. S. ambassador, would fly to Yenan to try to get Mao to reconsider.

On Japan's home front, Vice-Adm. Tajikuro Onishi, vice-chief of the naval staff, committed suicide in atonement to suicide airmen who "fell gallantly as human bullets" in the belief they would help bring victory.

Prince Higashi-Kuni's peacetime cabinet was sworn in while Tokyo spokesmen continued to beat the drums for a resurgent Japan. Domei said the first task in the new government's "very difficult" path was to "sign the peace terms."

Cabinet Stripped of Military

The cabinet, stripped of the familiar saber rattling generals and admirals except for the war and navy ministers, included Prince Fumimaro Konoye as vice-minister. Konoye, often heralded as one of Nippon's leading liberals, was twice premier in pre-war years.

Typical of publicly expressed sentiment in Japan was a ministry of education statement urging that the school system should "be determined to recover the national might from the scoured earth" and a newspaper editorial saying "the light of the ideal for the racial emancipation enkindled by the war of Greater East Asia will keep burning" in the lands Japan invaded.

Atom Pioneer

One of the early collaborators in splitting of the U-235 atom and development of the atomic bomb was Dr. Vannevar Bush, above, director of the Office of Scientific Research and Development. Dr. Bush who witnessed the New Mexico test of the bomb, was originally in charge of the undertaking.

Livestock

FORT WORTH—(P)—Cattle 1-200, calves 600, generally slow and weak; two loads recently contracted fed steers 14.90 and one load at 14.20, were top medium and good pasture feeds; other steers and yearlings mainly common grassers 9.00-11.50; medium beef cows 9.00-11.00; common 8.25-9.00; good fat calves 12.00-75, medium 10.25-11.75; calves 12.00-10.00.

Hogs, 50, active and mostly steady; good and choice 15.00 lbs. up 14.55; sows mostly 13.80. Pigs scarce.

Sheep, 3,000, killing classes fairly active and fully steady; several lots of good 67-70 lb. spring lambs 12.00; common and medium springers 10.50-11.50; medium yearlings 9.50-10.00; medium and good shorn ewes 5.00-6.00; cull and common ewes 3.75-4.75.

CLOSES STORE BUT LEAVES BREAD OUTSIDE FOR SALE

FREEMONT, ILL.—(P)—When Leo Fagan closed his food store for the Victory holidays, he knew people would want bread so he placed several baskets outside with a sign telling patrons to serve themselves. They did, and left \$33.20, or 20 cents more than the bread would have brought if sold over the counter.

MOTORIST FILLS GAS TANK, THEN IT DROPS TO STREET

TRINIDAD, COLO.—(P)—A motorist drove into a filling station and exultantly told an attendant to "fill 'er up."

The attendant complied. As the motorist drove away, the full gas tank, unused to the strain, dropped to the pavement.
