

Strikes Cause Scarcity Of Gasoline

'Life' Charges FDR Knew Of Attack 15 Hours Before

ALBANY, N. Y.—(P)—Gov. Thomas E. Dewey Friday declined to make public a letter from General Marshall which reportedly admitted President Roosevelt knew the Japanese were going to attack 15 hours before Pearl Harbor.

"Since I received the letter in confidence, I refer you to General Marshall for the text of it," the 1944 Republican presidential candidate said.

Questioned by reporters concerning a story in the current issue of "Life" magazine which also said Dewey declined to use his information in the campaign, the governor declined to answer most questions.

"I would rather not comment at this time," he explained.

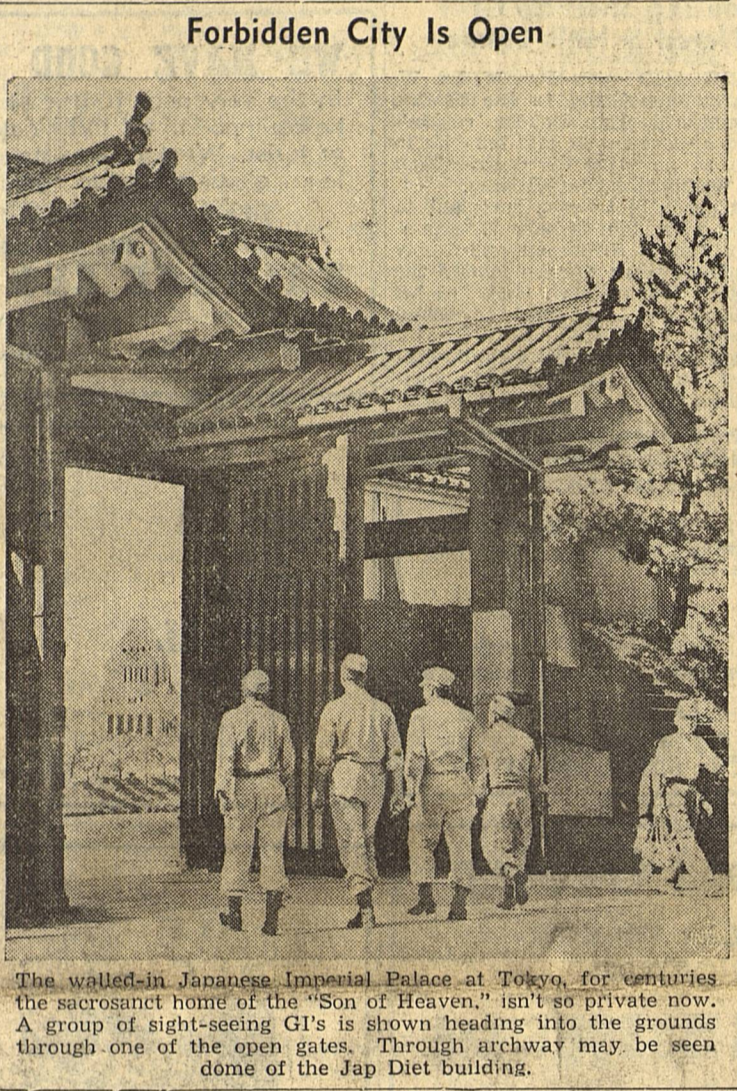

However, close friends of Dewey said he felt last year that he would rather be defeated for President than endanger the war effort.

From Jap Code

The "Life" article, written by John Chamberlain, one of its editors, said "Dewey x x x was in position to charge that the President had betrayed the interests of the U. S. in failing either to forestall or mitigate an attack for which we were, on the certification of General Marshall (U. S. Army chief of staff), not yet ready."

Chamberlain said Dewey learned long before the 1944 election that America had cracked the Japanese "ultra" code "some time prior to Pearl Harbor" and that Roosevelt and his advisers knew what the Japanese were going to do well in advance of the overt rupture of relations.

"More than 15 hours before Pearl Harbor, Roosevelt and the members of the Washington high command knew that the Japanese envoys were going to break with the U. S. the next day," Chamberlain wrote. "The only thing they did not know was the precise point of the military attack, which they assumed would be toward the East Indies and/or at the Philippines or Guam."

The walled-in Japanese Imperial Palace at Tokyo, for centuries the sacrosanct home of the "Son of Heaven," isn't so private now. A group of sight-seeing G.I.'s is shown heading into the grounds through one of the open gates. Through archway may be seen dome of the Jap Diet building.

Atlantic Has Oil In Ellenburger At Crane Wildcat

By JAMES C. WATSON, Oil Editor

The Atlantic Refining Company No. 1-A University East-Central Crane County exploration in section 33, block 31, University survey, has indicated another Ellenburger discovery.

A one-hour drillstem test was taken at 10,323-377 feet. There was a good blow of air throughout the period. A 5,000-foot water cushion was used.

When 82 stands of drill pipe were pulled there was a good blow of gas for three minutes. Then pipe pulling was resumed and the water cushion was recovered, cut with 20 per cent oil. The well was shut in for 14 minutes, and no water developed. It was drilling ahead below 10,390 feet early Friday morning.

Top of the Ellenburger had been picked, by some unofficial observers, at about 10,235 feet, on an elevation of 2,551 feet.

This exploration has already proven for prolific production in the Devonian, between 7,900 feet and around 9,100 feet.

Fraser Gets Signs

The Texas Company No. 1-D Fraser, in northwest corner of south 400 acres in section 27, block 45, TP survey, T-1-S, on east side of the TXL field in West Ector County, was to drill ahead from 8,541 feet in Devonian chert.

At 8,505-41 feet, a one-hour drillstem test was taken. There was a fair blow of air for 14 minutes, and recovery was 80 feet of oil and gas cut drilling mud. No formation water developed.

This project had slight oil shows in samples and on pits when it reached 8,538 feet, and operator tried three times to get a test before a satisfactory investigation was obtained.

It is said to be about 400 feet low structurally to nearest Devonian well in the field, and should it develop production it will stimulate more interest in the region.

S'll No Test

Stanolind Oil & Gas Company and The Landreth Production Company No. 3-Q Schaebauer, in southwest quarter of section 12, block A, psi survey, on north side of the Goldsmith field, in Northwest Ector County, had drilled to about 8,103 feet in lime and chert.

Assassins' Bullets Miss Suzuki As Japanese Surrender Announced

TOKYO—(P)—The newspaper Asahi Friday, added another dime-novel thriller to the tales of Japanese surrender-crisis intrigue, reporting that former Premier Kantaro Suzuki barely escaped with his life from a band of armed Japanese soldiers Aug. 15. The band, evidently angered by surrender plans, machine-gunned in quick succession two houses from which Suzuki had just departed.

Senate Rebuffs Truman On Job Compensation

WASHINGTON—(P)—Given the severest Senate rebuff since he took office, President Truman may be in for even rougher treatment in the House on the issue of aid to the jobless.

Truman's proposal for broad expansion of unemployment compensation was tossed over to the House after the Senate turned thumbs down on a large part of the Administration program. The chamber did, however, agree to extend unemployment benefits to a maximum of 26 weeks at federal expense and to pay travel expenses for displaced war workers.

Senator Wagner (D-NY) said the bill, passed by voice vote in the Senate Thursday, is greatly "watered down" from urgent Presidential recommendations.

LATE NEWS FLASHES

WASHINGTON—(AP)—Democrats on the House Ways and Means Committee voted down Friday a proposal to question Elliott Roosevelt personally about his business affairs.

AUSTIN—(AP)—An assistant attorney general representing State Labor Commissioner Leonard Carlton Friday conferred in Fort Worth with O. A. Knight, president of the Oil Workers International Union, and laid before Knight an offer of Carlton to assist in mediation of the Gulf Coast refinery strike if union and management officials agree to mediation.

DETROIT—(AP)—Labor troubles Friday closed another plant of the automobile industry Chrysler Corporation's Dodge truck factory, as more than 80,000 auto workers completed a week of idleness.

Circle World Air Service To Begin

By PAUL MILLER

WASHINGTON—(P)—Regular round-the-world air service, dream of American flying men since the Wright brothers first got off the ground at Kitty-Hawk, begins September 28 from Washington National Airport.

Six and one-quarter days (151 hours) will be required for the 23,147-mile flight, scheduled as "the Globster." Planes will leave Washington each Friday.

As the U. S. Army Air Transport Command made this announcement Friday it was learned:

1. Service will be restricted normally to military personnel, cargo and mail. However, a civilian certified as traveling in the national interest can make the complete flight for \$2,431 plus 15 percent transportation tax.

2. Later when the Army can get out of the business and planes are made available, U. S. commercial airlines will carry any civilian who wants to go; any civilian, that is, who (a) has the price and (b) is willing to undergo inoculations for everything from smallpox to cholera.

Three reporters, Miss Inez Robb of International News Services, Frederick C. Chittman of United Press and the writer, representing the Associated Press, will be aboard the first "Globster." The departure date is the twenty-first anniversary of the U. S. Army Air Corps' first round-the-world flight of 1924—a junket that required 175 days to cover 26,345 miles.

"The Globster" will leave Washington at 4 p. m. (CWT) Friday, September 28. It will cover 23,147 miles by way of the Azores, North Africa, Egypt, India, China, the Philippines, Hawaii and arrival back in Washington at 11 p. m., Thursday, October 4.

Midland's War Fund Quota For 1945 Is \$23,077

Midland's quota for its 1945 United War Fund campaign is \$23,077, Robert I. Dickey, campaign chairman, announced Thursday evening at a conference with campaign leaders.

The National War Fund will get \$13,077, the Boy Scouts \$7,500 and the Girl Scouts \$2,500. The drive will start October 1 and plans are already ready for the whirlwind campaign here.

The \$13,077 will be the final contribution for the National War Fund and is scheduled to last the agencies 18 months or until their tasks are completed. The Boy Scouts and Girl Scouts are on annual budgets and the amount they ask is scheduled to be used within 12 months.

The quota a year ago was \$18,777, the war fund being the same, but the Boy Scouts asked only \$4,200 and the Girl Scouts only \$1,500.

Dickey announced the appointment of R. K. DeFord as vice chairman of the campaign; F. H. McGowan as chairman of the special gifts committee, and James L. Daugherty as chairman of the drive in the business district. Ralph Barron is campaign treasurer.

Schwellenbach To Keep WLB For Use In Emergency

WASHINGTON—(P)—A swift guarantee of independence saved the War Labor Board from possible collapse Friday.

The pledge came from Secretary of Labor Schwellenbach who thereby materially strengthened the government's hand in reconversion labor troubles.

Reason: his own job of keeping industrial peace was made easier by the assurance that WLB will continue to function at least during the critical weeks immediately ahead.

Although one or two more public members may follow Chairman George W. Taylor out of WLB, it appeared that Schwellenbach's quick assurance of continued autonomy for the agency had halted any wholesale resignations.

Some officials had expressed fear privately of this possibility after President Truman granted Schwellenbach policy-making power over the board in transferring it to the Labor Department.

The secretary said Thursday he did not choose to use that power. That statement seemed to satisfy board members.

Truman Thursday accepted Taylor's resignation "with regret."

Weather

Partly cloudy Friday afternoon. Winds up to 30 miles per hour. Fair Friday night and Saturday with slowly rising temperatures.

Returns to U. S.

Felipe Espil, above, Argentine ambassador to the United States until the Farrell-Peron government took over, is returning to his old job. Espil has been ambassador to Spain. Renewed U. S.-Argentine tension prompted his return to Washington.

Senate To Cool Off Before Vote On Dean Acheson

WASHINGTON—(P)—The Senate entered a three-day cooling off period Friday in the matter of whether Dean Acheson did or didn't take a verbal crack at General MacArthur.

Sensors Wherry (R-Neb.) and Chandler (D-Ky.) say he did.

They made such an issue of it that Majority Leader Barkley (Ky.) recessed the chamber from Thursday to Monday without acting on a long list of appointments.

Among them was Acheson's promotion to under secretary of state. Barkley told reporters he thinks there'll be a peaceful confirmation Monday.

Others held up included the nominations of a scattering of U. S. attorneys and marshals.

Over Acheson Statement

Some question remained in the minds of most Senators as to whether Acheson was aiming at (Continued on Page Five)

Countess Edda Ciano Says Hitler Not As Furious As Ribbentrop, Himmler

ROME—(P)—Countess Edda Ciano says she still "loved and admired" her father, Benito Mussolini, even after he put to death her husband, former Foreign Minister Galeazzo Ciano.

She denied she ever was the "gray eminence" in Fascist politics and said she wanted to live the rest of her days on a small island "like an ordinary woman."

The countess was interviewed on Lipari Island where she is interned by the Italian government after being expelled from Switzerland.

Those who know her say her lot is not so hard. She goes where she pleases on the island, smokes American cigarettes and has a superb view from her villa of the Mediterranean in which she swims occasionally.

She said Claretta Pe'acci, Mussolini's mistress who was slain with the dictator and whose body also was exposed in the Piazza, had a great influence on her father.

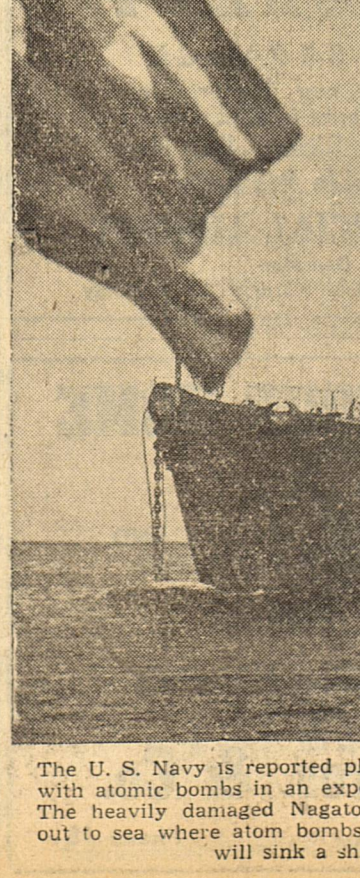

"She became the true head of the government," Countess Ciano said. "I hated her because I saw where she was dragging my father."

She asserted Mussolini "intimately hated the Germans," adding:

"But on the other hand, if he did not go to war on their side, they would have occupied us in one month, even if we fought well."

"Hitler was more human than generally believed and he certainly had charm," Edda said. "The furious man was Ribbentrop (Joachim von Ribbentrop, Nazi foreign minister awaiting trial as a war criminal), even more than Himmler."

Jap 'Guinea Pig' for Atomic Bomb

The U. S. Navy is reported planning to blast the 32,700-ton Japanese battleship Nagato, above, with atomic bombs in an experiment that may decide the form of all navies in the future world. The heavily damaged Nagato, only battleship remaining to the enemy, will be towed 500 miles out to sea where atom bombs will be dropped on it to ascertain whether America's superweapon will sink a ship of this sort and the effect of the blast on the water.

Reds Compare Midwest Cities And Port Arthur Feel Pinch Of Shortage

LONDON—(P)—Indications mounted Friday that the World War II peace settlement is becoming increasingly a question of the extent of Russian control in Europe as weighed against the extent of American control in the Pacific.

So far as is known the question of Pacific policy has received no attention from the Big Five Council of Foreign Ministers meeting here.

Nevertheless, the British press has seized upon Russian Foreign Commissar V. M. Molotov's press conference hint that Moscow is unwilling to give up its demand for Mediterranean colonies so long as the United States wants control of the mandated Pacific islands it seized from the Japanese.

While the foreign ministers continued their discussions on a Romanian peace treaty—which reliable sources report may be turned over to deputies Friday—there were more and more signs that no final decisions could be reached until global political contentions are ironed out.

It seemed evident that Russia sees no difference in American claims aimed at insuring Pacific security and its own demands for Central European security and commercial outlets.

Rev. C. C. Morgan Dies At Dalhart

The Rev. C. C. Morgan, formerly of Midland and minister of the Church of Christ at Dalhart, Texas, died of a heart stroke Wednesday and burial followed Thursday at Dalhart.

Morgan was minister here three years, leaving Midland in 1942 for Pueblo, Colo., and later transferring to Dalhart.

He is survived by his wife and two daughters.

CONGRESS VOTES TO END WAR TIME SEPTEMBER 30

WASHINGTON—(P)—Congress has voted to end war time at 2 a. m. September 30.

The Senate passed a house-approved bill Thursday and sent it to President Truman for his expected signature.

MHS Bulldog Mascot Disappears Friday

For a week high school students washed, groomed, and otherwise "prettied up" Tramp, MHS Bulldog mascot for the parade and halftime ceremonies at the Midland-Pampa game Friday night.

But this morning the pup, owned by Bonnie Robertson, high school student, was gone.

A search began, neighbors joined in, then high school students. But no Tramp. Then things grew frantic, and several Midland ladies joined the search. He was still missing at press time.

U. S. War Casualties Number 1,071,266

WASHINGTON—(P)—U. S. war casualties have reached 1,071,266, or 536 more than a week ago.

Army figures in the latest count include: killed 205,569. Navy killed 54,068.

Midwest Cities And Port Arthur Feel Pinch Of Shortage

By The Associated Press

Gasoline was back on the scarcity list in some sections of the country Friday as a strike of CIO oil workers gained headway.

More than a dozen refineries and plants were closed, and others were ready to shut down as workers took strike votes. Emergency rationing of gasoline was ordered in Toledo, Ohio.

As the federal government stepped in to attempt to effect a settlement of the strike started last Monday by the oil workers, the stoppages curtailed gasoline supplies in scores of cities and idled more than 20,000 workers. Elsewhere across the nation, labor disputes kept an additional 200,000 men and women away from their jobs.

Eighth Army Leader

Lt. Gen. Robert L. Eichelberger was awarded the Distinguished Service Star in Tokyo Friday by representatives of the Philippine government for conquest and liberation of the islands.

Senate Continues Fuss Over Army Demobilization

WASHINGTON—(P)—A demand to limit the draft to men between 21 and 25 popped up in the Senate Friday as Congress continued to wrangle with demobilization pawns.

To ease the source of discontent Chairman George C. Marshall (D-Utah) of the Senate Military Committee announced an attempt to narrow the age limits of the Selective Service system. He wants to attach this to legislation intended to encourage voluntary enlistments.

"President Truman has asked for continued selective service between 18 and 26 years," Thomas told a reporter before calling the military committee into closed-door session. "I want to raise the lower limit from 18 to 21 to allow boys to complete their education."

Differ On Demobilization

Meanwhile there was a sharp difference among lawmakers over Gen. George C. Marshall's promises that demobilization point scores will be lowered in each of the next two months and finally dropped. Marshall said that during the winter the Army will get around to releasing all soldiers who have served two years or longer.

"This whole business of releasing soldiers is in a terrible confusion and it's behind where it should be," Senator Wherry (R-Neb.) told the Senate late Thursday after Marshall's mid-morning appearance before members of both chambers.

"The time has come when Congress ought to have something to say about the size of this Army," Senator MacFarland (D-Ariz.) countered that he was "just as anxious as anyone to see our boys come home. But first I want the Japs to be made to realize they are a conquered nation."

Senator Wherry of Nebraska, the Republican whip, said the chief of staff failed to clarify numerous questions. Wherry mentioned such topics as the size of occupation forces, the number required for the peace-time Army, the need for selective service, and plans for voluntary enlistments.

Outlawing Atomic War

The United States government should and doubtless will lead the way in renouncing and outlawing the use of atomic-energy explosives in any future war.

The atomic bomb is not a means of warfare that we would have used except in the last extremity of necessity. It came after Japan had refused a peace offer that was just, honorable and, in view of the Japs' barbarous conduct of this war, extremely magnanimous.

This government need feel no shame for having used it. If one must choose, certainly an instantaneous death by atomic bombing is more humane than the brutality of the Bataan Death March, or the slow death by torture, starvation and disease of thousands of Allied soldiers and civilians.

In view of his past record, the enemy's shocked protests are in particularly bad taste. Yet protests have come not only from Japan, but even from this country and especially from England.

The providential circumstances which prevented Germany's development of the atomic bomb before her defeat has given this country not only the first possession of this weapon, but also the first responsibility for its future. And while the world, knowing the Japanese record, has no cause to censure our use of this weapon, it does have the right to expect us to take the initiative in banning it as an instrument of war.

In this connection, the analogous case of poison gas might be noted. The nations of the world outlawed its use after World War I. Yet they did not abandon research into its further possibilities, or development of defenses against it.

Chinese sources claim that the Japs employed gas. But if they did, it was not a general practice, and there is no record of its use against Americans. The Germans did not use gas, although they, like the Japs, would have had no moral scruples against it.

All the belligerents had poison gas ready to use if the others started it. The evident reason why it was not added to the other horrors of this war was that the Axis nations knew the Allies could beat them at the same game.

Such a procedure might guide the United States in dealing with the atomic bomb. Let us outlaw it. But let us not be so foolish as to abandon its research and development. No one need fear that we shall ever start an aggressive war. But until peace is secure and disarmament feasible, we should maintain our advantage in atomic warfare until every potential warlord would know that, however deadly a weapon he might develop, the United States would have an even deadlier one in defense.

Poor Butterfly

If any doubt lingers about the war being over, this should clear it up. Puccini's opera, "Madame Butterfly," which went underground Dec. 7, 1941, has re-established a beachhead in the repertory of American opera companies.

We understand that the San Carlo Opera already has mobilized a cast and redeployed it into rehearsal. Further landings may be expected at New York's Metropolitan and elsewhere in our land where opera has a foothold.

So it won't be long now until the hearts of American opera fans are again bleeding for poor Butterfly. Butterfly, as you may or may not recall, was the trusting daughter of one of the prewar sons of heaven. She met and fell for a handsome young lieutenant of the U. S. Navy by the name of Pinkerton. The armed services had no rule against fraternization in those days.

It's a very sad story. But it might seem that we were going in for forgive-and-forget stuff too soon and carrying it too far in restoring this story of the deceived Japanese maiden and the heartless American sailor to the operatic boards.

In fact, it would definitely be a bad idea if the fans whose hearts are going to bleed for Butterfly weren't opera fans. But the opera fans will hear "Madame Butterfly" sung in Italian, as they always have. Most of them won't understand the words and won't care. They'll be on hand just to listen to the music, which is lush, lovely, and about as Japanese as a grind-organ aria.

So there's very little danger that American opera patrons are going to confuse poor Butterfly with the poor Japanese. Besides, it might turn out that our alert post-war opera impresarios will have transformed Butterfly into a Chinese girl, and transferred Lieutenant Pinkerton to some mythical Graustarkian navy. Who knows?

Soft Ride

The Texas implement dealer who drove a new tractor home from Detroit has won quite a bit of attention as a hardy pioneer of the highways. But we are reserving our cheers until we find how he traveled from Weimar, Texas, to Detroit.

If he came those 1574 miles in a day coach and under present traveling conditions, he may have chosen his home-going conveyance from a purely selfish desire for comfort. We'd take a tractor ourselves, any day.

Seems Silly To Ride A Good Thing To Death

West Texas Generally Dry With High Winds Causing Feed Damage

AUSTIN—(AP)—East Texas was generally wet and West Texas generally dry, the United States Department of Agriculture reported Friday in its survey of crop conditions for the week ending Sept. 17. Crops were mostly made in the east, with conditions favorable for harvest. In the west, high winds, dryness, and blowing sand caused some damage to young wheat and late feed crops.

Moisture was needed for wheat planting in most western areas. Cotton picking continued active, and first bales were ginned in some Northwestern counties. Cotton was being salvaged in some Coastal areas hit by the hurricane, and damage was not as severe as earlier indicated.

Livestock was in good condition except in some Edwards Plateau and South Texas counties where ranges were dry and livestock was losing flesh. The supply of range feeds in the Northwest was getting low and marketings from dry areas were increasing. Stock water was low in some Plateau counties.

Housing Short So GI Offered Solon's Home

CHICAGO—(AP)—Pvt. M. Ira W. Roper, transferred to the Marine Barracks at Quantico, Va., couldn't find a place for he and his wife to live, so he wrote his Congressman in Washington, complaining.

Roper said he was surprised to hear from the Chicago Congressman, Rep. T. S. Gordon, and doubly surprised when Gordon invited the Ropers to live with him at his Washington home until they found a place.

But they didn't accept the invitation. They found quarters in Alexandria, Va.

Filipinos Award DSS To Gen. Eichelberger

TOKYO—(AP)—Lt. Gen. Robert L. Eichelberger, commanding general of the U. S. Eighth Army now occupying Japan, Friday was awarded the Distinguished Service Star by the Philippine government for "reconquest and liberation of the Philippines."

THE WAR TODAY

By DEWITT MACKENZIE
Associated Press War Analyst

General MacArthur seems to have stirred up a sizeable cloud of conflicting emotions by his announcement that Uncle Sam's occupation forces in Japan may be cut to some 200,000 within six months—a divergence of opinion which isn't strange in view of the numerous issues involved.

For the soldiers who want to get back home, and for their families, such a cut means one thing. It means quite another to the exponents of using the mailed fist on the Japs. To a further group it means something else, and so it goes. But it strikes me that whatever may be the premise from which you argue you always arrive at the same point, which is this:

We must maintain troops in Japan as long as is necessary to achieve the far-reaching objectives of the declaration of Potsdam by the Big Three—whether it be one year or twenty. We must keep as many soldiers there as are required to enforce this program—whether it be 200,000 or 2,000,000.

The Potsdam edict calls not only for the physical disarmament but for the moral rearmament of Nippon. The very character of the people must be changed to rid them of their medieval ideas, fit them to govern themselves, and so prepare them for a place among the United Nations.

Of one thing we may be sure, and this is that we aren't going to be able to "convert" to Western ways many of the militaristic minded people who have passed their youth. It's an ancient wheeze but true—that you can't teach an old dog new tricks. You have to catch 'em young—and you have to catch human beings young if you are bent on changing their natures. Of course there are some Japanese who are against aggression and who believe in the golden rule, but you probably could get most of them into your back yard at one time if you wanted to make a speech to them.

House Votes To Give State Coastal Claim

WASHINGTON—(AP)— Legislation to give the states undisputed claim to ownership of tidelands and submerged lands within their boundaries is past its first major hurdle.

The House passed the bill Thursday 108 to 11 and sent it to the Senate.

The only major opposition came in the form of an amendment proposed by Rep. Hobbs (D-Ala.) to give the federal government control over oil and other mineral deposits in the tidelands and lands beneath navigable waters.

The measure surrenders any federal ownership claim. It was supported by attorneys general of 46 states.

The bill was defended by Speaker Sam Rayburn (D-Texas), who declared the chief purpose of the measure was to clear up the question of ownership of the submerged lands.

Bad Weather And Flak Nearly Saved Nagasaki

WASHINGTON—(AP)—Capt. Kermit K. Beahan, 27, of Houston, Texas, who released the atomic bomb on Nagasaki, disclosed the enemy and weather almost prevented it.

Another target selected was abandoned, Beahan said, because weather would not permit dropping the bomb visually. Then flak and enemy fighters trailed Beahan's B-29 to the alternate target.

Beahan was an observer on the first atomic bomb mission against Hiroshima. He was one of the men arriving from Japan Wednesday night on the three Superfortresses which attempted to fly non-stop to Washington.

City-County Federation Opens Fall Season With Social At Mrs. N. A. Lancaster's Home

The opening meeting of the fall season for the City-County Federation of Women's Clubs was held in form of a morning coffee Thursday at the home of Mrs. N. A. Lancaster, 1705 West Indiana.

Entertaining rooms were decorated throughout with attractive arrangements of pink and red radiant roses and salmon and white gladioli.

As the guests arrived, they were greeted by Mrs. Lancaster and Mrs. Ernest Neill, president, and directed to the register presided over by Mrs. M. S. Dickerson. New members and visitors were introduced and welcomed.

Refreshments were served in the dining room. Centering the table was a lovely arrangement of pink and orchid asters. Mrs. J. Howard Hodge presided at the silver coffee service.

Stubbeman Gives Talk

After the meeting was called to order by the president, Mrs. Hodge, program chairman, presented Frank Stubbeman, chairman of the Midland County Memorial Foundation. He gave a talk on the organization and plans which have been made for the new hospital for the city.

He said a campaign will be officially launched in the near future and contributions can be made by the citizens. In concluding his discussion, Stubbeman conducted an open forum on his subject.

New officers to serve the federation for 1945-47 were introduced by Mrs. Neill as follows: Mrs. F. R. Schenck, first vice-president; Mrs. Clint Dunagan, second vice-president; Mrs. W. G. Epley, treasurer; Mrs. M. S. Dickerson, recording secretary; Mrs. A. A. Jones, corresponding secretary; Mrs. Harvey Sloan, parliamentarian; Mrs. Lois Patterson, auditor; Mrs. W. H. Rhodes, reporter.

Committees Named

Committee chairmen are: Mrs. Rhodes, publicity; Mrs. J. O. Hubbard, hospitality; Mrs. Marvin English, telephone; Mrs. William L. Kerr, ways and means; and Mrs. G. E. McCollum, nominating.

Guests present were Meses. A. O. Ballou, R. L. Miller, James N. Allison, Guy B. Nease, C. F. Schuessler, Bennie Estes, Stanley Erskine, Y. D. McMurry, J. H. Vicars and Miss Betty Trammell of Midland. Women of Odessa present were:

Hamburger Fry Will Be Held For Students

Following the Midland-Pampa football game Friday, a hamburger fry will be held at the First Baptist Church for all Midland High School students and the Pampa football team and their friends.

The entertainment will be held in the Young People's Department of the church and the refreshments will be served by the Brotherhood of the church.

A special invitation is extended to all of the football boys.

Garden Addition Club Meets At Hinsley Home

Mrs. J. P. Hinsley was hostess to members of the Garden Addition Home Demonstration Club Tuesday at her home.

After the meeting was called to order by Mrs. Roy Long, the minutes of the previous session were read by Mrs. J. Z. Parker.

Members responded to roll call by giving names of what they had planted in their gardens. New officers were named by the group.

One guest, Mrs. Ann McKnight, was present in addition to the regular members.

Trim Two-Piecer

By SUE BURNETT

Could I interest you in a button-back two-piecer with a world of stuff? This is one of my very special specialties.

Pattern No. 8539 is designed for sizes 11, 12, 13, 14, 15, 16, 18 and 20. Size 12 requires 3 3/4 yards of 30-inch fabric.

For this pattern, send 20 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, The Reporter-Telegram, 530 South Wells St., Chicago Ill.

DOROTHY HAMILTON IS NEW PRESIDENT OF TAWASI CLUB

Miss Dorothy Hamilton was elected president of the Tawasi Club at a meeting Wednesday evening at the home of Miss Ruth Simmons, 402 North Marientfield. Miss Hamilton will succeed Mrs. John C. McClure.

Other officers are: Miss Billye Starling, vice president; Mrs. Donald Crookham, secretary; Miss Holly Smith, treasurer; Mrs. Kathryn Hoover, reporter; and Miss Dorothy Bracewell, parliamentarian. Miss Bracewell, Miss Simmons and Mrs. Crookham were appointed on a committee to outline a program for the year on the theme, "Reconversion."

Members to serve on the rush program committee are Miss Edie Bryan, Mrs. Crookham and Mrs. Richard Ragsdale.

Meetings of the club will be held on the first and third Wednesday of each month with the first session designated for business and the second for social activities.

Present were Misses Bracewell, Lillie Mae Stovall, Aileen Maxwell, Starling, Janie Johnson, Dorothy Simex, Bryan, Simmons, Deana Gray and Meses. Crookham, Louise McClain, McClure and Hoover.

RETURN FROM CALIFORNIA

Mrs. R. S. Elliott and daughter, Sandra, returned to Midland Thursday after visiting friends and relatives in Pomona and Hollywood, Calif.

Demonstration On Upholstering Given At East Side Club

A demonstration on upholstering was given by Mrs. Nettie B. Messick, county home demonstration agent, at a meeting of the East Side Home Demonstration Club Thursday. Mrs. Guy White was hostess for the meeting.

Members responded to roll call with current events.

Refreshments were served by the hostess to two guests, Mrs. R. L. Taylor of Dallas and Mrs. B. L. Red, and the following members: Meses. G. P. Bradbury, Byrl Cramer, Dot Price, Bolton Bennett, Troy Stephenson, C. A. Barton, Doyle Maples, E. P. Burkhead, R. L. McCormick, M. R. Roling and Messick.

Try Hot Water Plus After Meals For Acid Indigestion

If thousands of unfortunate people who suffer from so-called dyspepsia, acid indigestion, food fermentation, sour stomach, flatulence, gas or other stomach distress brought on by excess acid would just try drinking slowly after each upsetting meal half a glass of real hot water containing one spoonful of Neutraacid they can usually get amazingly quick relief in a very few minutes.

Neutraacid is not a laxative—it is soothing and comforting to the mucous membranes and very agreeable to take. Neutraacid—a physician's formula can now be obtained at Midland Drug Co.—Central Drug Store—Palace Drug Store or any first class drug store.

When Johnny Comes Marching Home

It won't be long now until tens of thousands of Johnnies will be marching back home—back to the stores, factories and farms they left to answer the call to the colors.

Before the War, Texas Electric Service Company power engineers devoted all of their time and talents to working out more advantageous and efficient applications of electric power to peace-time pursuits. While the War was being fought, those engineers who did not join our fighting forces worked closely with war industries, assisting war plant engineers in making sure that electric power carried its full share of the production load.

Now that things are beginning to return to normal, these same power engineers are again at the disposal of business men and factory operators. They are prepared to aid in the big job of changing over from war production to post-war production.

Whatever your new power problems may be, our power engineers can be helpful. Call or write the nearest Texas Electric Service Company office. There is, of course, no obligation.

Hirohito Reported More Entrenched Than Ever Before

By RUSSELL BRYNES
 TOKYO—(AP)—Emperor Hirohito, target of one futile, short-lived plot to forestall his surrender announcement, now is more secure than ever on his imperial throne, Lt. Gen. Imura, commander of Japan's still-active gendarmerie, told me Friday.

Imura's organization, which maintains a tight check throughout the country on individuals as well as groups, has found no hint of any fresh plotting against the emperor's continued rule, the gendarmerie commander reported.

Other sources likewise agreed that Emperor Hirohito now is stronger in Japanese public opinion than at any other time in the modern era, as the result of his leadership in his nation's surrender.

These sources said that Communists and some other radical elements in the early 1920's had advocated elimination of the Japanese imperial house, regarding it as a barrier to the introduction of Communism. These elements, however, were ruthlessly quelled at the time by the gendarmerie.

Well-informed Japanese said any militarists who might have intended to force out the emperor as a result of his victory over them in forcing a surrender, now lack sufficient strength.

Low Grades Of Beef Will Go Off Ration

WASHINGTON—(AP)—The three lowest grades of beef will be sold without ration points on Oct. 1, food officials said Friday.

These grades, known as canner, cutter and utility, are used principally in canned and processed meats, hamburger, sausage and boiling meat. They make up about 20 per cent of the beef supply.

The low grades of beef will remain technically on the rationing list, although their ration values will be reduced to zero.

Atlantic -

(Continued from Page One)
 and was to run a drillstem test Friday.

Tests undertaken when total depth was at 8,095 feet failed.

Union Oil Company of California No. 1-A Williams, in Southeast Gaines County, in section 7, block C-44, psi survey, three miles southeast of Seminole, had reached 4,776 feet, in lime, and was continuing.

Woodley Petroleum Company No. 1 Preston, in section 20, block C-41, psi survey, in Southeast Terry County, had progressed below 4,420 feet, in lime. Operator expects to reach top of the San Andres shortly.

Another To Plug
 J. K. Hughes Oil Company No. 1 Shannon estate, West Crockett County exploration to the Clear Fork-Permian, in section 28, block GG, Martha T. Wilton survey, reached a bottom of 5,001 feet in sandy, shaly chert and lime, and filed application with the Railroad Commission to plug and abandon. Slight oil shows were reported at 4,223-40 feet, at 4,315-50 feet and at 4,412-22 feet.

To Swab In Sand
 Northern Ordnance, Inc., No. 1 Dinkard community, Comcho County prospector one and one-half miles northeast of the Eden gas field, was to swab a sand above plugged back total depth of 1,750 feet, possibly the Cisco. Some oil saturation was shown in a core at 1,715-25 feet, and some oil and gas out drilling mud had been obtained when cement was drilled out on 7-inch casing which had been set at 1,695 feet.

In Southeast Lamb County, one mile west of nearest production in the Ar on field, Humble Oil & Refining Company No. 1 Arnold, in northwest quarter of section 120, block A. R. M. Thompson survey, was bottomed 4,563 feet, in dolomite, at last report, and was to drill out cement in 7-inch casing set on bottom, and possibly test oil shows through perforations.

Had Some Shows
 Slight oil shows had been logged at 5,430-45 feet and at 5,543-55 feet. A drillstem test 5,523-5,637 feet, had a recovery of 15 feet of drilling mud with an odor of oil.

Amerada Petroleum Corporation No. 1-A Jones, Northwest Gaines County discovery for Devonian production at 11,380-420 feet, through 7 1/2 inch casing perforations in 5 1/2-inch pipe, reported running a six-hour test to establish official Railroad Commission potential and complete.

Discovery Completes
 In six hours the well flowed a total of 380 barrels of fluid, through one-half inch tubing choke. Of that recovery 332 barrels was 42.7 gravity oil and remaining 28 barrels was basic sediment and water. Gas-oil ratio was 254-1.

That gauge gives the well a 24-hour potential of 1,328 barrels net oil. It is understood that operator does not plan to test any of the other sections in the well which had indicated possible production.

No Indications
 Sinclair Prairie Oil Company No. 1 Ratliff, in northeast quarter of section 4, block 73, psi survey, in Southwest Andrews County, was to resume drilling from 9,350 feet in chert.

A drillstem test for 30 minutes was taken at 9,250-9,350 feet. Recovery was 15 feet of drilling mud, with no shows of oil or gas.

Agents To Check Cotton Picking Wages Paid Here

Investigators will be in Midland soon to determine if Midland County cotton producers are paying more than the OPA determined ceiling prices for picking and pulling cotton. D. L. Hudson, wage stabilization officer for the Department of Agriculture, said Friday.

The ceiling prices for Midland County are \$1.35 per hundred for pulling and \$2.25 per hundred for picking. The ceiling for crew leaders is 25 cents per hundred.

The maximum penalty for paying more than the ceiling prices is a fine of \$1,000 and one year in prison. The ceiling prices went into effect Sept. 14.

Assassin -

(Continued from Page One)
 Japanese press specified that news "must adhere strictly to the truth" and said that "nothing may be printed which might directly or indirectly disturb public tranquility."

Rather than restrict the press, which already is American-censored, the code emphasized truth in news and the elimination of propaganda.

MacArthur previously had laid down a set of regulations for Japanese editors. For infractions, he suspended the Domei Agency and two newspapers briefly.

Meanwhile American Marines prepared to expand the smoothly running occupation of Japan to the Big Naval Base of Sasebo on Kyushu. The Fifth Amphibious Force is scheduled to take over the base Saturday.

The only trace of violence in the occupation thus far was an accidental ammunition explosion that killed one American soldier and injured 60 others near Tokyo. Army authorities said an American soldier touched off the blast by accident and that no Japanese sabotage was suspected.

Crude Stocks Rise 759,000 Barrels

WASHINGTON—(AP)—The Bureau of Mines reported Friday that stocks of domestic and foreign crude petroleum totaled 214,480,000 barrels on Sept. 15, a net increase of 759,000 barrels for the week. Domestic crude increased 786,000 barrels, foreign crude decreased 7,000.

Daily average production was 4,538,000 barrels, an increase of 20,000. Runs to stills averaged 4,616,000, a decrease of 24,000.

Stocks, by grade or origin, and change from previous week (in thousands of barrels):

East Texas 18,058, increase 728; West Texas 32,110, increase 493; Gulf Texas 29,004, increase 91; other Texas 27,174, decrease 137.

Red Cross Recreation Club Opens In Japan

YOKOHAMA—(AP)—Lt. Gen. Robert L. Eichberger, commanding the U. S. Eighth Army, snipped a door-barring pink ribbon Friday to open the first Red Cross Club in Japan—in what formerly was a cabaret on Yokohama's "Broadway."

The closed club was refurbished and cleaned as a recreation spot for GIs. Scores of Japanese men, women and children pressed tightly against the plate glass front to watch enlisted men crowd up to the cake and coffee bar.

To Question State Department On Bases

WASHINGTON—(AP)—The State Department is in for some early questioning on Pacific Naval bases. Expressing impatience over the department's silence, Chairman Carl Vinson (D-Ga.) said he plans to call department heads before the House Naval Committee probably next week.

"I want to find out what the department's attitude is," Vinson told reporters.

Name Enters Trial

The name of Miss Nelson Kingsland, of Lake Charles, La., above, entered the trial of Samuel C. Epes of New York for the murder of his wife when the prosecution named Miss Kingsland as "the other woman" for whose love it claimed Epes murdered his wife and burned her in a foxhole. Miss Kingsland, who has refused to appear as a witness, has told police she did not know Epes was married until after his wife's death.

(NEA Telephoto).

Senate -

(Continued from Page One)
 MacArthur when he said at a recent news conference that the U. S. government, not any officer of the Army or Navy, would fix occupation policies for Japan.

Acheson's comment came after the State Department, the White House and the War Department were caught flat footed by the general's announcement that he probably could keep the Japanese in hand with 200,000 American troops six months hence.

Wherry said Acheson's statement was "in direct contradiction to the policies of General MacArthur, who I think is a great general." It was "a blight on the name" of MacArthur by the acting secretary of state, Wherry shouted.

Chandler leaped to his feet to agree that MacArthur had been "insulted." The Kentuckian added that it was just one of a long line of gratuitous slights that had been heaped on the Pacific commander.

Temperature Goes To 90 Degrees Here

The thermometer registered a maximum of 90 degrees Thursday for the second straight day. The top temperature was registered between 3:30 and 6:30 p. m.

Friday's minimum temperature of 74 degrees was registered at 3:30 a. m. and remained there until 9 a. m.

Three Couples Get Marriage Licenses

Three marriage licenses were issued Thursday at the office of County Clerk Susie G. Noble. They were for Juan Cruz Castillo and Beatrice Puentes, Billie J. Button and Claire Mae Erickson, and Edward L. Hisey and Marjorie Jean Harwell.

Lieutenant Filson Arrives In States

Lt. Robert L. Filson, son of Mr. and Mrs. Paul C. Filson, arrived in San Francisco Friday morning by plane from the Pacific theater of operations after having completed 35 missions as a bombardier on a B-29. He is expected to arrive in Midland Monday.

Lieutenant Filson has been in the Army two and a half years and has been overseas since February. He is a graduate of Midland High School. His wife lives in Midland.

Negro Is Executed At Camp Bowie For Murder

BROWNWOOD—(AP)—A 25-year-old St. Louis, Mo., negro, Pvt. Fred Hulse, was executed by hanging at Camp Bowie Thursday night after a courtmartial convicted him of the murder of Pvt. Eugene Pinckney, negro soldier, at Camp Berkeley, Texas, March 22, 1944.

SS San Angelo Victory Ship, Launched At LA

LOS ANGELES, CALIF.—(AP)—The SS San Angelo Victory, a 10,500-ton victory ship named for the Texas town, was launched Thursday at the California Shipbuilding Corporation.

Mrs. Henry Gardner Symonds of Houston, wife of the president of the Tennessee Gas and Transmission Company, christened the ship.

Navy Reveals Shell Fuse Knowing When To Shoot

WASHINGTON—(AP)—The war's second most startling invention is a fuse which knows when a shell is close enough to the target to explode effectively.

It cost the Navy \$800,000,000 to develop. But the "radio proximity fuse" works so well that two destroyers once shot down 35 enemy planes in 30 minutes and anti-aircraft gunners got 68 out of 72 buzz bombs bound for London.

H. Struve Hensel, assistant secretary of the Navy, ranks it next to the atomic bomb as a scientific war development. Gen. Brehon Somervell, chief of Army Service Forces, first told of the invention last Tuesday.

Elaborating at a news conference Thursday, Hensel said the fuse contains a five-tube radio set so sturdy it can stand being fired from a gun.

The fuse was a big reason why the Navy beat the Japanese suicide bombing threat.

FPC Told How Germans Made Fuel From Gas

KANSAS CITY—(AP)—Manufacture of motor fuel from natural gas by the German Fischeg-Tropsch process was described to the Federal Power Commission Friday.

The Germans, Miller said, by using coal as a base material were able to produce a low grade gasoline, diesel fuel, soap, and even butter which he said tasted "like a good grade of margarine."

By applying the yardstick of American economy gasoline produced by the Germans would cost between 12 and 22 cents a gallon, the witness said.

Federated Clubs Will Honor Business Women

AUSTIN—(AP)—Business Women's Week beginning Oct. 7 will give Texans an opportunity to commend women for the responsibilities they shouldered in time of war. Gov. Coke R. Stevenson suggested Friday in a proclamation.

He added that women may be counted upon to continue "cheerfully and efficiently, in business and at home, their contributions to the peace."

The week is sponsored by the Texas Federation of Business and Professional Women's Clubs.

Another High Nazi Captured In Germany

NUERNBERG, GERMANY—(AP)—Konstantin von Neurath, high on the list of German war criminals, was captured Wednesday in Baden Baden, a member of the French delegation said Friday.

Von Neurath was Hitler's foreign minister before Joachim von Ribbentrop.

Beauchamp Brothers To Erect Building

A city building permit has been taken out by Beauchamp Brothers calling for the erection of a one-story brick and concrete 25-by-100 foot business building at 216 North Main Street.

Work on the structure is expected to be completed within 60 days at an estimated cost of \$8,000.

F. W. Stonehocker is the contractor.

Strikes -

(Continued from Page One)
 had shut down at Port Arthur and at an eighth employees had voted to strike if necessary to achieve their demands. At Houston, employees of seven more plants had voted to strike and personnel at four others voted Friday on whether they will members of four plants balloted to strike. The 2,500 workers at the Magnolia Refinery, Beaumont, were taking a strike vote Friday.

Union officials called the vote "overwhelming." Pickets continued at their stations around closed plants. Maintenance crews stayed on the job. No violence was reported. Motorists hunted gasoline, anticipating a shortage. In Port Arthur the shortage was already a reality. Only persons with union-issued emergency cards could get gas.

Flynt New Manager Of Iva's Jewelers

Robert C. Flynt, veteran of 63 combat missions as a pilot with the 15th and 12th Army Air Forces in Italy, England and France, recently was named manager of Iva's Jewelers here.

Before entering the Army, Flynt was for several years an employee of the store which he now manages. He was honorably discharged in July.

Henry Ford Resigns As Company President

DETROIT—(AP)—Henry Ford II Friday became president of the Ford Motor Company. He succeeds his grandfather, Henry Ford, who simultaneously announced his resignation.

The younger Ford has been executive vice-president of the company since April 28, 1944.

The elder Ford in his letter of resignation to the directors said: "I heartily resign the office of president of this company, to take effect upon acceptance. I feel free to take this step at this time because the critical period during which I again assumed office has passed."

Doc Graham Is Released From Army

R. J. (Doc) Graham returned to Midland Friday to return to civilian life after having served more than 18 months in the Army. He plans to return to the insurance business. Graham was stationed at Fort Bliss most of the time he was in the Army.

LEANA PLANS POWER

VII

THE STORY: Destruction caused by the explosion is widespread. Carolyn finds Robert at the laboratory, unable to explain the blast.

IN Bob Hale's office the telephone rang. Carolyn, as his secretary, arose to answer it, but plainly Bob was not used to having a secretary yet. He reached for the handpiece himself.

"Hale talking," said he.

"This is Ken Palmer, Dr. Hale," came the voice. "Uh, would it be all right if I inquired about Miss Tyler? Carolyn? Fact is, I'd like to talk to her, if it won't be too much trouble."

"She's right here," He motioned to Carolyn. "It's Mr. Palmer."

Ken, it developed, wanted mainly to know where she had been keeping herself, and did she go out to the explosion yesterday, and was she trying to dodge him, and could he have a date tonight.

"Ken, you're an old darling," she said, with some fervor. "The truth is, I have been quite busy. This is a new job, you know. And Ken—I think I'd better not"—she glanced at her employer, who was feigning no interest—"better not set any dates for this week, because I'm expecting a lot of night work for a while. Dr. Hale's secretarial work had been rather neglected."

Dr. Hale, who technically hadn't been listening, interrupted, "Oh, please go right ahead, Miss Tyler!"

She stuck her ground. She and Ken talked a bit more and she bade him goodbye perhaps a little more sweetly than necessary.

IN studied manner, too, Bob Hale resumed their conversation where it had left off. "And so we

for him to finish, when she heard an outer door open and she knew, by some strange subtlety of sound and intuition, that Leana Sorini had come to Bob. Even then the telephone conversation was ending.

"Leana," Bob greeted her. "Sit down."

"Robert, I have been thinking." She plunged right in. "I do not believe you fully appreciate the magnitude of what we have here."

"But, Leana—"

"You have power in your grasp, Robert! That explosion merely proves it."

"Leana, you don't mean that. Not that way."

Leana's tone suddenly softened, grew more intimate and insinuating. "Don't you understand? Robert Hale, you can become the greatest man alive!"

He did not answer.

"You can have no end of achievement and greatness. Every power over mankind is yours. Think of it! Barely a teaspoonful, and whole factories wiped out. Who would dare cross you if your discovery became known?"

"Only two people know of this, Robert. You and I. Together we can be man and woman of the ages!"

SHE said it so dramatically that she cast a veritable spell. Carolyn, overhearing, was herself impressed.

"You and I know that what we have will render all other power sources obsolete. Within a few years at most, all of America's electric plants, all steam and diesel and gasoline engines, every phase of industry must be revolutionized, as you and I direct! Have you forgotten that?"

"Don't you see, Robert, dear, how far-reaching it is? Almost at once, we can control a continent. And then—and then—oh, Robert!"

In her little room Carolyn could almost hear her own heart pounding. As usual, when one eavesdrops, intentionally or otherwise, the things she heard here were exceedingly disturbing.

(To Be Continued)

He nodded at her, slowly, appreciatively.

"I have an idea," she went on. "You are distressed to death, Bob, about what to do with the remaining X-999, now that you have actually produced a quantity of it. You say you don't dare experiment on it here because of the danger, and yet a tragedy occurred when you tried to move a part of it. Now look—wouldn't it be feasible to—"

The telephone rang again and this time it was long distance wanting Bob himself. She waited. But the conversation turned out to be a long one, not concerning the matter at hand.

Presently, she retired to the small anteroom of his office, which was now her own private office.

CAROLYN was scanning her shorthand notes, waiting

GI's May Date German Girls But Marriages Won't Be Permitted

BERLIN—(AP)—The United States Group Control Council said Friday "there is no intention" of permitting marriages among occupation forces and Germans, or billeting troops in German homes in the American zone.

The American military government set forth its position in a statement issued on the heels of Thursday's action by the Allied Control Council relaxing non-fraternization restrictions to permit these two privileges at the discretion of zone commanders.

"In conformity with an agreement reached at the Thursday meeting of the Allied Control Council appropriate instructions are being issued in the American zone relaxing non-fraternization regulations," said the statement, issued at the U. S. Control Council's headquarters.

"Under this agreement, all restrictions against fraternization were lifted except the billeting of troops in German homes and the marriage of soldiers and German nationals.

"While zone commanders are authorized to permit billeting in German homes and marriages of soldiers and German nationals, there is no intention to grant such privileges in the American zone," the statement said.

Thursday's announcement by the Allied Council also said troops might visit in German homes and have normal social relations with Germans, without specific permission from their commanders.

U. S. troops have been forbidden to enter German homes.

OUR BOARDING HOUSE with MAJOR HOOPLE OUT OUR WAY —By J. R. WILLIAMS

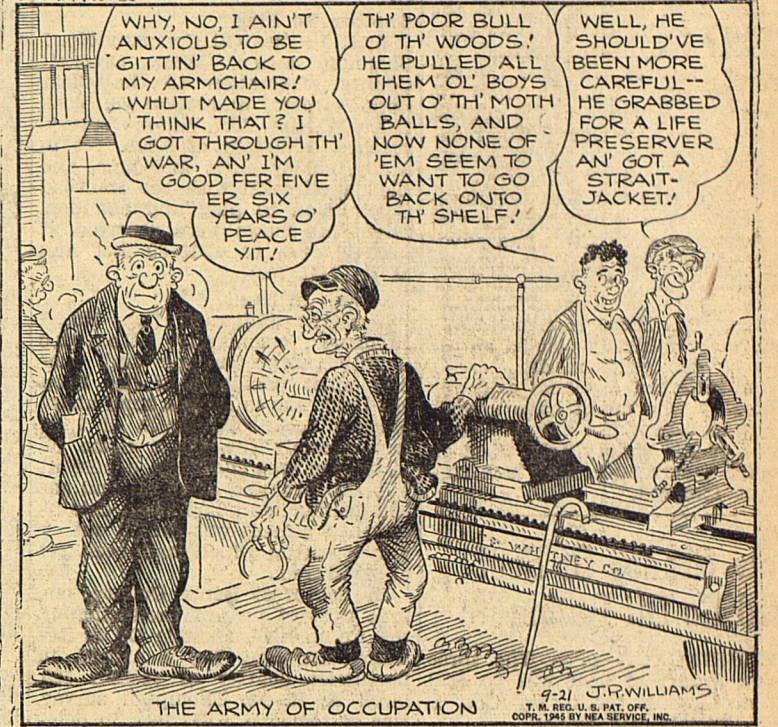

WE'RE GOING HOME? OH NO SMARTIES, NOT I! EGAD!

LET GO THE WHISTLE, JUNIOR! YOU'RE LISTED AMONG THE OVERSIZED TUBS AND WE OUGHT TO CHARGE YOU EXTRA FREIGHT! IF YOU DON'T LIKE THE TUNE YOU CAN DINE IN THE RIVER AND STAY UNDER TILL DARK!

WE DECIDED TO PLAY A DIRTY TRICK ON THE MISSUS AND TAKE YOU HOME!

CHOW'S ON COME, GET IT!

JASON'S ARGUMENT COOLED HIM OFF.

WHY, NO, I AIN'T ANXIOUS TO BE GITTIN' BACK TO MY ARMCHAIR! WHAT MADE YOU THINK THAT? I GOT THROUGH TH' WAR, AN' I'M GOOD FER FIVE ER SIX YEARS O' PEACE YIT!

TH' POOR BULL O' TH' WOODS! HE PULLED ALL THEM OL' BOYS OUT O' TH' MOTH BALLS, AND NOW NONE O' EM SEEM TO WANT TO GO BACK ONTO TH' SHELF!

WELL, HE SHOULD'VE BEEN MORE CAREFUL! HE GRABBED FOR A LIFE PRESERVER AN' GOT A STRAIT-JACKET!

THE ARMY OF OCCUPATION

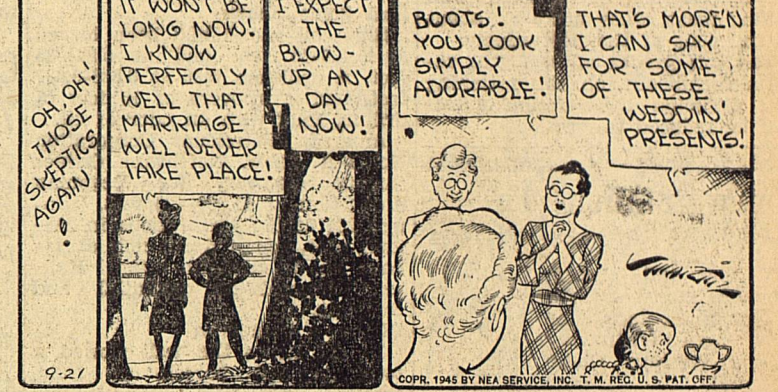

BOOTS AND HER BUDDIES —By EDGAR MARTIN

GOSH, I'M GLAD BOOTS HAS BEEN TOO BUSY TO ASK ABOUT THE HOUSING PROBLEM! WILL SHE BE SURPRISED!

NO! BOOTS IS HAVIN' A FINAL FITTIN' ON 'ER WEDDIN' GOWN!

THAT'S RIGHT, BOO! AND IT'S BAD LUCK FOR THE GAL TO SEE HIS GUY IN HER WEDDING GET-UP BEFORE THE BIG DAY!

OH, ON THOSE SUFFICES AGAIN!

IT WON'T BE LONG NOW! I KNOW PERFECTLY WELL THAT MARRIAGE WILL NEVER TAKE PLACE!

I EXPECT THE BLOW-UP ANY DAY NOW!

BOOTS! YOU LOOK SIMPLY ADORABLE!

THAT'S MOREN I CAN SAY FOR SOME OF THESE WEDDIN' PRESENTS!

Car Workers Probably Won't Strike Within Month—If At All

By JAMES MARLOW

DETROIT —(AP)—Don't expect big auto strikers—if they occur at all—for at least a month or two months.

Labor people and automakers both say this. Although the unpredictable could happen, here's the reasoning behind what they say.

1. The problem may be settled without strikes at all.

2. Usually there's a time lapse between strike threats and strikes.

3. The time's not ripe for an auto workers' strike.

Take No. 1—Settling the problem without strikes.

The CIO's United Automobile Workers (UAW) wanted a 30 percent wage increase—not from one firm only but from the whole industry. They'll probably settle for less, although they say they won't. It's old stuff for unions to make high demands and take less.

Automakers are not likely to say "Okay, you get the 30 percent." But they, too, may after discussion settle for some kind of raise.

Take point No. 2—The time lapse between strike threats and strikes. Act Requires Six Months

Under the War Labor Disputes Act—it says in effect until 6 months after the shooting war has been officially declared ended, which hasn't happened yet—a union wanting to strike must do this:

It must file with the National Labor Relations Board notice that it wants to take a strike vote among its members.

Then it must wait 30 days before taking the vote.

The auto workers haven't yet filed a notice with NLRB.

Take point No. 3—The time's not ripe for auto strikes.

The auto industry still is reconverting from war to peace. It's not expected to get rolling in good stride until November.

UAW officials are talking of striking—if a strike is necessary—against one fire at a time instead of the whole industry at once.

If that one firm yielded to the UAW's demands—or some of them—the same strike tactics could be used individually against the other firms to force them in line, too.

That sharp moment—when the whole industry is beginning to roll—will not occur till November, as noted.

McKENNEY ON BRIDGE

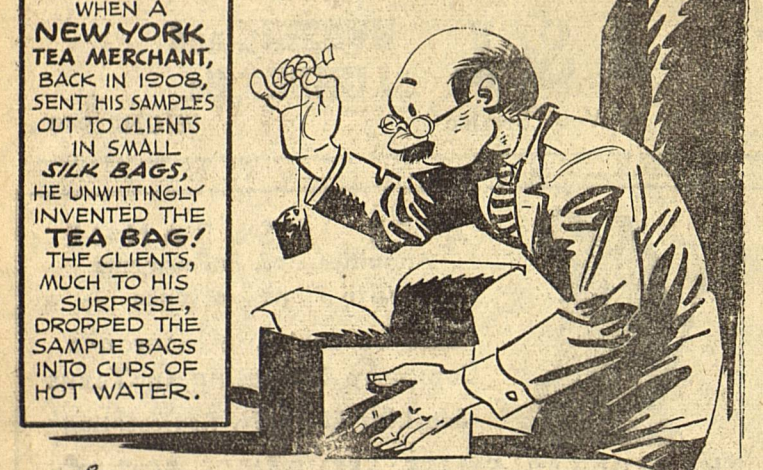

By WILLIAM E. MCKENNEY America's Card Authority

Winners of the Masters Pair Championship this year were M. A. Lightman, Memphis, Tenn., and P. Robert Appleyard of Randolph Field, Texas. They played today's hand with the North-South cards. Bertram Lebar, Jr., and Simon Rossant of New York, runners-up in the event, played the East-West cards against other opponents.

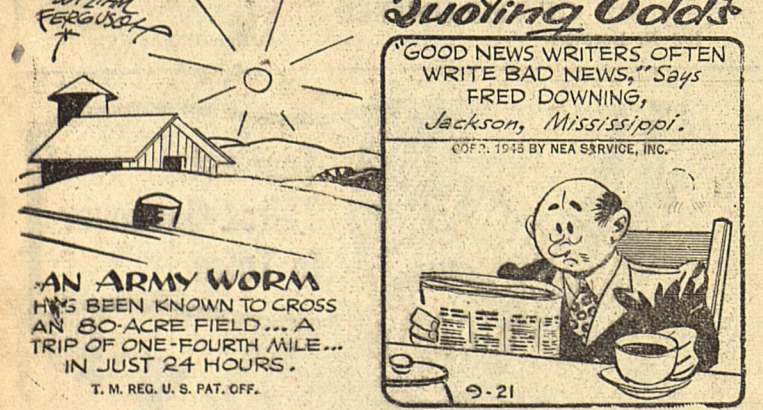

Lightman elected to open the bidding with one spade, and the bidding proceeded as shown with West arriving at four spades. Light-

CARNIVAL By DICK TURNER

"If you can stand mulligan stew, my pet, I've found ourselves a cook!"

Police 'Room' Awaits Slugger Of Hotel Clerk

SALT LAKE CITY —(AP)—The short stocky fellow said he wanted a hotel room.

The clerk said sorry, fresh out.

The short one then applied a for a ten spot.

The clerk opened the money drawer exposing \$82.

The short on then applied a hammerlock, slugged the clerk cold and left—roomless but \$82 ahead.

Always ready to give the right man a bed, police continue looking.

man did not double, and his judgment proved to be correct, as West made the contract easily.

When Lebar and Rossant played the East-West cards, South did not open the bidding. Lebar (West) bid a spade, Rossant (East) two hearts. Lebar three clubs, Rossant three no trump, and Lebar four spades. South, with his five spades to the queen, and a good honor in the other three suits, decided that the bidding had gone far enough and doubled—but of course Lebar made his contract without any trouble.

Happy Chandler To Help Revive School Baseball

AMARILLO (AP)—A. B. Chandler, commissioner of baseball, says he is "very anxious to revive high school play" and that he is trying to put through a rule now to protect the young athletes' eligibility. Chandler made the statement in reply to a protest filed by the Texas High School Coaches Association against scouts from the professional clubs signing athletes before they have finished high school. Howard Lynch of Amarillo, former president of the association, had written to Chandler on behalf of his organization. Lynch wrote an explanation of the problem to the baseball commissioner who answered from Cincinnati that the trouble cited by the schools already was "unders study."

Gate Sale Of Grid Ducats Starts At 7

Single game tickets for Friday night's football game between the Midland High School Bulldogs and the Pampa High eleven will go on sale at the gates starting at 7 p. m. school officials said.

Michigan, TCU, Texas, Minnesota, Illinois, Duke Favored To Win

By HAROLD CLAASSEN
NEW YORK—(AP)—Making the season's first football selections while loaded down with a crystal ball in one hand and a golden horse-shoe in the other.

Illinois-Pittsburgh: Ed Bray is back in the Illinois backfield after a year's absence and he is likely to embarrass the improved Panthers.

Texas Christian-Kansas: The Big Six team to disappoint its hometown backers—Texas Christian.

South Carolina-Duke: The Blue Devils opened grid practice by studying bowl literature—Duke.

Missouri-Minnesota: The Gophers have both Coach Bernie Bierman and Red Williams back in action—Minnesota.

Otterbein-West Virginia: The Ohioans will be an easy hill for the Mountaineers to climb—West Virginia.

Fresno-College of Pacific: Reports say that Coach Staggs has little more than uniforms this year—Fresno.

California-Ov. St. Mary's: California-St. Mary's: Buck Shaw to receive congratulations after his Bears down the Gaels—California.

Wisconsin-Great Lakes: Discharge papers. Not football, occupies the minds of the Sailors—Wisconsin.

Finishing the rest in a hurry: Texas over Bergstrom Field, Virginia over Coast Guard, Denver over Colorado College, Rice over Corpus Christi Naval, Virginia Military over Emory & Henry, North-western over Iowa State, Purdue over Marquette, Georgia over Murray, North Carolina State over Milligan, Clemson over Presbyterian, Tulsa over Wichita, Villanova over Bucknell, Baylor over West Texas, William & Mary over Fort Monroe, Muhlenberg over Swarthmore, Auburn over Howard, Texas A. & M. over Ellington Field, Fort Warren over Colorado.

Francis Scott Key composed the "Star-Spangled Banner" Sept. 13, 1814.

SPORTS ROUNDUP

Utah, Brigham Young U. and Wyoming really are loaded for basketball.

That seems like looking pretty far ahead, but at the same time word trickles in that Oklahoma U. has acquired nine players from the recent state high school all-star cage tourney, topped by Dale Bittle and Doug Lynn, a pair of six-foot, eight-inches.

At that, the Sooners will be topped by the Oklahoma Aggies, who have James Moore (6 10 1/2), Joe Halbert (6-7) and Lou Steinmeir (6-6) to go along with seven-foot Bob Kurland.

The newspaper business supplied presidents for three minor baseball leagues this year.

Sports Editor Bob Stedler of Buffalo, N. Y., heads the Pony Loop; Publisher Carl A. Jones, Jr., of Johnson City, Tenn., presides over the Appalachian League and Sportswriter Frank Coley of Columbus is chief executive of the Ohio State Circuit.

Other scribes still make out pretty well second-guessing the presidents.

Decide For Yourself (A quick look at the prospective World Series second-basemen)

Don Johnson. Cubs—Doe gives credit to his old friend, Eric Johnson, former White Sox and Yanks infielder, to Pirate Scout Sloppy Thurston and to Joe Gordon of the Yanks for making him a major leaguer. The war might also get an assist. Johnson made it last season after ten years in the minors, but he's done okay so far.

Emil Verban, Cardinals—another 1944 rookie who made good. He was the National League's best fielder, a second baseman in 1944 and has topped his batting average from .257 to this year's .275.

Eddie Mayo, Tigers—supposed to be the one who holds the Detroit infield together but if he's hurt any more he may have trouble holding himself together. A near 300 hitter, too.

George Myatt—lists his hobbies as "hunting and woodwork."

There's no sign of the latter in his .280 batting average.

Service Teams To Play Four S'west Elevens

By HAROLD V. RATLIFF
Associated Press Sports Editor
Southwest Conference football moves in Saturday with one of the seven teams playing at home and Texas Christian and Arkansas making the first stabs in inter-sectional play.

T. C. U. journeys to Kansas City to engage the University of Kansas in a night tilt. Arkansas will be in Shreveport to meet a Barksdale Field eleven in its second start of the season.

Baylor's Golden Bears, with one game already back of them, will have college competition, tackling a pretty good West Texas State eleven under the lights at Waco.

Outside of T. C. U. and Baylor, the opposition is all-service. Here is the remainder of the schedule: Texas A. and M. vs Ellington Field at College Station.

Texas vs Bergstrom Field at Austin.

Southern Methodist vs Blackland Army Air Field at Dallas.

Rice vs Corpus Christi Naval Air Station at Houston.

It looks like a grand slam for the conference schools in the first full week of the campaign. Baylor and Rice probably will encounter the strongest opposition and T. C. U. can look for a fairly hefty fight from Kansas.

The great fire of London began Sept. 2, 1666.

Senators, Tigers Lose Games And Cards Beat Cubs

By JACK HAND
Associated Press Sports Writer

Detroit may back into the American League pennant by matching Washington loss for loss but the St. Louis Cardinals are taking care that Chicago will have to win the National League flag the hard way.

Harry (The Cat) Brecheen played with Charlie Grimm's dancing Bruins Thursday night, shutting them out with only six hits, 2-0, for the Cardinals' fifteenth victory in 20 starts against the Cubs.

Relegated to the scrap heap of ed them back in 10 innings Wednesday, the Red Brins again are only two games behind Chicago with eight to go. Two more with the leaders are slated next Tuesday and Wednesday after the Cards entertain Cincinnati twice while Chicago is at home to Pittsburgh for a three-game set.

St. Louis' three night games at Sportsman's Park produced three keen pitching duels. Brecheen's decision over Ray (Pop) Prim was most important to Billy Southworth's tattered crew which would have been virtually eliminated, four games behind, if they hadn't won.

Despite Brecheen's fancy southpawing, it took a sensational double play engineered by Marty (Mr. Shortstop) Marion in the ninth inning to make it stick. Brecheen, the league leading pitcher, now has won his last six straight, allowing only a total of 29 hits in the six outings. He has gone the route 11 times in his last 12 starts.

Phil Cavarretta, Chicago's candidate for the league batting title, slammed his first hit of the series, a double in the ninth, while his average shrank to .350, only one point ahead of Boston's Tommy Holmes.

Both National League contenders are idle Friday with the only action a two-night doubleheader between Philadelphia and Brooklyn which dropped a 3-2 game to Boston Thursday.

Washington missed a chance to go into a virtual tie for the lead and Detroit blew an opportunity to take a commanding lead when the two pennant scrappers dropped respective 6-1 decisions to New York and Cleveland.

As a result Steve O'Neill's Bengal retained their one-game advantage.

Page Wins For Yanks
Lefty Joe Page, Joe McCarthy's only southpaw, earned his fifth decision and second over the Senators by scattering seven hits in the Yankees' 6-1 triumph. George Stirn was singled, doubled and homered, batting in two runs and scoring two in pacing the attack on Mickey Haefner and two successors.

Allie Reynolds tossed the Indians to a 6-1 edge over the desperate Tigers just when it looked as if Detroit was going to squeeze through with a 1-0 verdict for Al Benton. The Tribe flattened the ex-sailor and continued on Dizzy Trout and George Caster for six runs in the eighth inning, shortly before a terrific downpour halted play for 42 minutes.

With Washington running out of games to play—they have only four more counting Friday's finale with Detroit—they don't play again until Saturday and Sunday when St. Louis invades Briggs Stadium for two single tilts. In all the Tigers have six to go.

Boston swept its three-game final series from Connie Mack's Athletics, 2-0, behind Randy Hefflin's sixth-inning chugging. The victory was the fourth for the Red Sox in their 22-game season's series with Philadelphia. The other clubs were not scheduled.

Davey O'Brien Now FBI Agent In Dallas
DALLAS—(AP)—Davey O'Brien, former Texas Christian All America football star, has returned to Dallas, his old hometown, to work in the Federal Bureau of Investigation Office here.

Percy Willie II, special agent in charge of the Dallas FBI office, said Friday O'Brien has been transferred here from the Washington bureau.

Kansas accounts for one-seventh of the flour production of the United States, which totals over 250,000,000 sacks per year.
