Typhoon Leaves Okinawa In Shambles, Wrecks 127 Ships

By The Associated Press

Okinawa Friday was a shambles—reminiscent of its recent battle-ravaged litter—reduced by a 132-mile typhoon that killed three American Navy personnel, left 10 sailors missing and more than 100 Yank soldiers injured, and sank, damaged or beached 127 Naval vessels.

The typhoon, which struck Okinawa Tuesday after having twisted 150 miles to the southwest for 24 hours, swept northward to kill at least 69 Japanese, flood 8,000 houses, wash away 81 bridges and leave many thousands homeless in Central and Southern Honshu.

Fifty Superfortresses from the Marianas delivered 284 tons of food to the 150,000 troops on Okinawa Friday.

In addition to food, the troops needed shelter facilities to replace tents, quonset huts and other installations that were demolished or heavily damaged.

Parked airplanes were rolled about by the typhoon, the island's food stocks were nearly all destroyed, and hospital patients had a nightmarish time throughout the hours of darkness.

Official reports—conceded to be fragmentary because of limited communications—from Army headquarters in Manila and Fleet headquarters at Pearl Harbor, listed these casualties and damage on Okinawa:

Three Navy men killed and 10 missing.

One hundred soldiers injured.

Four Japanese prisoners of war killed.

Five small naval vessels sunk.

Fifty-two ships (presumably small) and 70 other Naval auxiliaries of all types beached on Okinawa's reefs.

Shore installations, including dock facilities, extensively damaged.

Damage On Honshu

First, incomplete reports from Tokyo listed this havoc on Honshu:

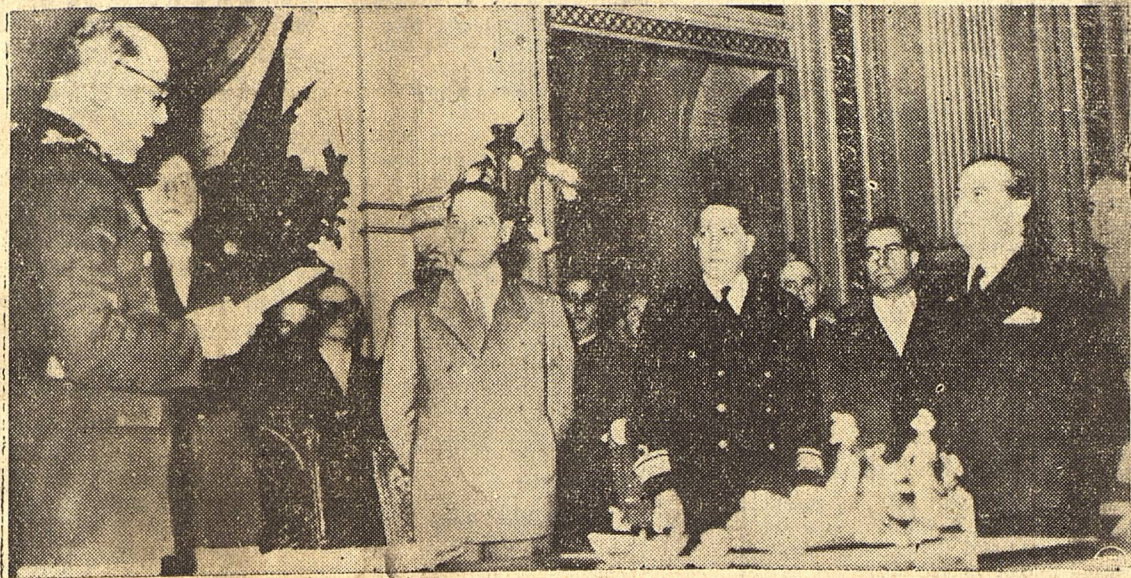

Sixty-nine killed.

8,000 homes flooded, 81 bridges washed out, many thousands homeless.

More than 1,000 acres of land washed out and many thousands flooded by heavy rains which accompanied the typhoon, increasing the nation's already critical food problem.

The U. S. Fleet, which six months ago rushed an invasion force of 100,000 to Okinawa, Friday was rushing to the aid of an equal number of almost destitute survivors of the vicious storm.

Decree Orders Arrest Of Peron And Resignation Of Argentine President

Argentina's government Friday ordered a free election for April, 1946, in an effort to stay in power after 120 Army officers demanded the resignation of the complete cabinet of President Edelmir Farrell and the arrest of Col. Juan Domingo Peron. Col. Peron already had been forced to resign as vice-president. President Farrell is pictured at the left above and Col. Peron is second from the right. Juan I. Cooke, new foreign minister, extreme right, is more friendly to democracies.

Admiral Is Accorded Spot In Hall Of State Next To Sam Houston

DALLAS—(AP)—Admiral Chester W. Nimitz, a Texan who became a five star admiral of the fleet and commander of the Pacific Ocean area, arrived here by plane at 11:05 a. m. Friday to receive the greatest welcome ever planned by Texas.

Gov. Coke Stevenson led a group of dignitaries that welcomed the arriving admiral.

Nimitz was escorted to the Hall of State at Fair Park, where he was introduced by Gov. Stevenson in a brief speech.

The Texas admiral was accorded a spot among the immortals of the state.

Support Anti-Strike Plan

WASHINGTON—(AP)—Strong support developed in Congress Friday for new anti-strike legislation.

Prominent legislators of both parties told a reporter after a sharply worded House speech Thursday by Rep. Robertson (D-Va.) that they want:

1. Repeal of the Smith-Connally War Labor Disputes Act which permits strikes if unions vote in favor of them.
2. New legislation to make labor unions and employers "mutually responsible" for observance of contracts.

Chairman May (D-Ky.) of the House Military Committee said in an interview he favors such action and added: "I want to hold hearings on it as soon as possible."

"Also, I'm personally in favor of"

specifying that either an employer or a union which won't submit to arbitration should have its bargaining rights taken away."

Not Partisan Matter

Rep. Amden (R-Ill.), minority party House whip, said in another interview:

"This is not a partisan matter, Congress and the people both want something done soon to halt strikes. One piece of helpful legislation

would be to put employers and employees on an equal basis, so they both had to assume responsibility for keeping their word."

Many other legislative leaders questioned echoed similar views.

Bills to repeal the Smith-Connally measure already have been introduced by Rep. Howard Smith (D-Va.), one of the original authors, and Rep. Harness (R-Ind.), an influential GOP law-maker.

Peron Flees To Avoid Arrest

WASHINGTON—(AP)—Chairman George of the Senate Finance Committee called Friday for reducing rather than wiping out income taxes for 12,000,000 low-income Americans.

He thus wants a change made in the \$5,550,000,000 tax cutting bill which rolled through the House Thursday by a vote of 343 to 10.

The Georgia Democrat said his committee will open three days of hearings Monday on the measure which—as it passed the House—would:

1. Grant a reduction of 10 per cent or better to every individual taxpayer next year, besides knocking 12,000,000 off the rolls entirely for an aggregate cut of \$2,527,000,000.
2. Cut 1946 corporation taxes \$1,388,000,000 by lowering the business surtax rate and reducing—though not eliminating until 1947—the excess profits tax.
3. Freeze back next July 1 the excess levies on luxury and semi-luxury items to pre-war levels for a savings to consumers of \$855,000,000 in the last half of 1946.

Repeat Auto Tax

4. Repeat the \$5 "windshield tax" on automobiles, and
5. Preempt the social security tax at its present one per cent rate each on employers and employees.

The slide rule experts who helped Congressmen frame the tax bill calculate that the reductions will trim federal revenue in 1946 to \$27,140,000,000 and hoist the national debt up another \$12,000,000,000.

BUENOS AIRES—(AP)—The Argentine cabinet has resigned, it was announced officially Friday.

BUENOS AIRES—(AP)—Col. Juan Peron, political strong man ousted from Argentina's government this week, apparently fled to a refuge in the countryside Friday in the face of demands by a group of army and navy officers for his arrest.

The regime of President Gen. Edelmir Farrell set next April 7 as a presidential election date in a decree issued shortly after the military group demanded Peron's detention and resignations of Farrell's entire cabinet.

As the army-navy group awaited results of their demands for Peron's arrest, a member of the former vice president's household said he had gone to the countryside "to take a rest," but gave no further details.

The group was not definitely connected with the army group of the Campo de Mayo garrison, which had forced the ouster of "Strong Man" Peron as vice president, war minister and minister of labor.

Army Group Splits

There had been reports that the group of army and navy men who made the demand was splitting from the garrison group. The officers, who presented their demands Thursday night to Gen. Carlos von Der Becke, army commander in chief, scheduled another meeting Friday.

The Interior Ministry decree announcing the elections was accompanied by a government declaration announcing there would be no official candidate, that voting must be carried out "with economic and social consciousness," and that candidates must be capable and honest.

There was no definite indication Peron would not be a candidate. In fact, his speech Wednesday after his ouster was interpreted as a bid to the electors. But it was because this speech was permitted that Campo de Mayo officers, meeting Thursday at the quarters of their commander and the new war minister, Gen. Eduardo Avalos, called for the resignation of Interior Minister Hortensio Quijano.

Farrell, in the meantime, was reported to have before him the resignations of all his ministers except Avalos and Commodore Edmundo Sustaita, named aeronautics minister Thursday.

The election decree, coinciding with one of Latin America's greatest holidays, was interpreted by some as the first big step on the road back to constitutional normalcy after more than two years of internal storms which have kept domestic and foreign matters in a state of ferment.

While the army and navy officers convened to deliberate whether Farrell's election decree was enough to meet their demands, some 5,000 civilians gathered outside the Officers' Club building and clamored for delivery of the government to the supreme court.

Other thousands thronged the streets, hurrying toward the area.

MADISON, FLA.—(AP)—A young negro under indictment for assault with intent to rape a five-year-old white girl, was taken from the county jail either late Wednesday night or early Thursday morning and shot to death, Sheriff Lonnie Davis reported.

Sheriff Davis said Thursday the negro, Jesse James Payne, was returned to the jail here from the state prison Tuesday for arraignment. He had pleaded innocent to the charges. His case had been scheduled for trial Tuesday.

Gov. Millard Caldwell at Tallahassee said he had received only a "sketchy report" on the affair but would start an immediate investigation.

Trail Of Houston Slayer Found In Shreveport, La.

SHREVEPORT, LA.—(AP)—A man who "kept talking to himself and complained of seeing bugs running about on the floor" was identified by a store owner as Riley B. McCaine, 40, of Houston, Texas, who is charged with the slaying of Elvora Collins.

T. M. Phillips, sheriff of Many, La., said the store owner had identified McCaine from newspaper pictures. He said McCaine had purchased a can of tomato juice at his store Wednesday.

McCaine was charged with the slaying of Miss Collins in a court at Beaumont Tuesday, and has not been apprehended. The 30-year-old preacher's daughter was found dead, nude except for bobbed socks, near Beaumont, Sept. 31. Her body was partly burned.

An empty tomato juice can was found beside the Converse-Shreveport highway Thursday, and officers still were investigating the can's fingerprints.

A niche for a bronze statue, the first ever accorded a living man here, will be set aside for his honor in the Hall of State. The last so honored was Sam Houston who died in 1863. Beside Houston, figures in the Hall of State include William B. Travis, Thomas J. Rusk, Stephen F. Austin, Mirabeau B. Lamar and James W. Fannin.

Massive Parade Planned

The major celebration is scheduled for this afternoon. A massive parade which is expected to include 10,000 persons will wind through downtown streets as several hundred Army and Navy planes roar overhead.

Numerous bands will dot the parade. Workers in Dallas skyscrapers have been saving paper and tape for days to shower down on Nimitz and his party.

From here Nimitz is to leave by plane for Austin where he will speak Friday night. Saturday he plans to visit his birthplace, Fredericksburg, and then Kerrville, where he grew up.

Austin Awaits Arrival

AUSTIN—(AP)—Austin spread the welcome mat Friday for Fleet Admiral Chester W. Nimitz.

A giant military parade on Broad Congress Avenue signals the arrival of the admiral and his party from Dallas.

Thousands are expected to gather in the University of Texas' vast Gregory Gymnasium for a public ceremony beginning at 8:30 p. m. Admiral Nimitz makes an address beginning at 9 p. m. It will be broadcast by the Texas Quality Network.

Midland Wildcat Continues Flow Of Oil, BS&W

By JAMES C. WATSON
Oil Editor

Humble Oil & Refining Company No. 1 Mrs. O. P. Buchanan et al. Midland County wildcat oil discovery, flowed 156 1/2 barrels of oil in the 24 hours ending at 8 a. m. Friday, and was still flowing to test saturated lime section at 10,370-390 feet.

The oil was accompanied by 31 barrels of basic sediment and water, for an average shakeout during that period of 16.6 per cent.

During last hour of the time covered by the report the well flowed seven barrels of fluid, with six per cent being water and 14 per cent being sludge, through a 1 1/4-inch tubing choke. Tubing pressure during that hour was 625 pounds.

Pressure Test

The well was shut in two and one-half hours during last 24 hours for a pressure build-up test, and the tubing pressure rose to 1,200 pounds. It produced gas at the rate of 1,000,000 cubic feet per day, and gas-oil ratio was 6,410 cubic feet of gas per barrel of oil.

In the report in this column on Thursday, of the well making its initial flow, two errors developed. Rowan Drilling Company started rigging up to drill the wildcat Sept. 13, 1944, and not Sept. 13, 1945, as appeared Thursday.

Location of the well is 1,980 feet from north and 660 feet from west lines of section 32, Baldridge survey No. 692, and not 1,980 feet from north and 660 feet from south lines of section, as was stated Thursday.

Texas Gulf Fracing Company No. 1 Slaughter, Central Cochran County wildcat, three miles west of the Slaughter field, and in league 113, Potter County School Land survey, reported official completion gauge of 141.15 barrels of 31.5 gravity oil flowing per day, plus 11 per cent basic sediment.

Gas-oil ratio was 1,360-1. It had pay section at 4,965-5,063 feet had been treated with 2,000 gallons and 7,000 gallons of acid. The oil was produced flowing, during nine hours and 54 minutes—at the end of that time the well died. Opera-

Laval's Attorneys Say New Evidence To Explode Case

PARIS—(AP)—Attorneys for Pierre Laval now under sentence of death for collaborating with the Germans, declared Friday they had uncovered new evidence which would "explode" the case against him.

The evidence, they asserted, will prove that Laval's former Vichy chief of government, was arrested by the Germans while plotting to turn his government over to Gen. Charles De Gaulle.

The attorneys said documents smuggled out of France and hidden in Switzerland had been found and returned Friday. These, they said, showed Laval came to Paris at the beginning of August, 1944, to declare it an open city and to have De Gaulle officially received by a meeting of parliament.

The defense counsel said they would present the evidence directly to General De Gaulle, who returned to Paris from Brussels Friday, and would appeal to him for a new trial for the former Vichy chief of government, now in Rennes Prison under sentence of death pronounced Tuesday at the end of a tumultuous trial.

Truman Criticizes DAR For Refusing To Allow Negro Singer To Use Hall

WASHINGTON—(AP)—President Truman Friday sharply criticized race discrimination in making public a letter concerning the refusal of the DAR to grant use of Constitution Hall here to a negro musician.

The Chief Executive said, however, he was powerless to interfere with the ban imposed by the Daughters of the American Revolution.

The President sent the letter to negro Rep. Adam C. Powell (D-N.Y.) whose wife, Hazel Scott, pianist, was refused use of the DAR's Constitution Hall for a concert Oct. 20.

"Artistic talent is not the exclusive property of any one race or group," the President wrote Powell.

"One of the marks of a democracy is its willingness to respect and reward talent without regard to race or origin."

"We have just brought to a successful conclusion a war against totalitarian countries which made racial discrimination their state policy."

"One of the first steps taken by the Nazis when they came to power was to forbid the public appearance of artists and musicians whose religion or origin was unsatisfactory to the master race."

"Truman said, however, Powell would realize "the impossibility of any interference by me in the management, or policy of a private enterprise such as the one in question."

AAF Centralizes Bombardier Cadet Training Here

RANDOLPH FIELD—Army Air Forces bombardier training in the AAF Central Flying Training Command, formerly conducted at five stations in Texas and New Mexico, will henceforth be centralized at Midland Army Air Field, it was announced here Friday at headquarters of the AAFOTC.

Student bombardiers undergoing training at Childress, Army Air Field, Big Spring, Army Air Field and San Angelo Army Air Field, who have expressed a desire to remain in the AAF and continue their bombardier training, have been transferred to Midland for the completion of their training.

Carlsbad Army Air Field, New Mexico, recently graduated its last class of bombardiers and was inactivated on September 30th. Instructors and mission pilots formerly stationed at Carlsbad have been transferred to Midland to augment the training staff under the consolidated training program.

Personnel other than students at the Childress, Big Spring and San Angelo Army Air Force installations will remain at these three stations. The Central Flying Training Command has not been informed as yet concerning the future utilization of these three stations in post war Air Force plans.

Centralization of bombardier training at Midland Army Air Field marks another step in the reduced post-war training program of the AAF Central Flying Training Command. Navigation training formerly conducted at four CFTC stations was recently centralized at Ellington Field.

J. W. Parks, Rancher, Dies In Hospital, Funeral Saturday

J. W. Parks, 80, father of Roy Parks of Midland, died Thursday afternoon in a Marlin hospital following a long illness. Funeral services will be conducted at 10 a. m. Saturday at Clifton.

Parks was a pioneer rancher in the Breckenridge area and owned a ranch there at the time of his death.

Among the survivors are two children, Roy Parks of Midland and Mrs. Jay Kerr of El Paso; three grandsons, all in the Navy; Roy Parks Jr., Cleve Kerr and Al Kerr.

LATE NEWS FLASHES

LONDON—(AP)—Voting under the Soviet Union and Australia, the United Nations executive committee Friday recommended dissolution of the League of Nations and that the new world peace organization take over its non-political functions.

MADRID—(AP)—Generalissimo Francisco Franco's government, in a move generally interpreted as a bid for support both at home and abroad, held out to the Spanish people Friday the promise of a restoration of civil liberties and amnesty for political prisoners.

BERLIN—(AP)—The Allied Control Council Friday formally pronounced the death sentence of the Nazi party, all its bureaus, formations and affiliated organizations, and decreed that any attempt at their revival in any guise would be a criminal offense.

PARIS—(AP)—Gen. De Gaulle Friday ruled out a new trial for Pierre Laval, sentenced to death Tuesday for treason. Asked whether he would order a new trial for the former Vichy leader, De Gaulle replied: "Certainly not."

Saturday Last Day For Mailing Yule Parcels Overseas

Saturday noon is the deadline for mailing Christmas parcels to men and women in the armed forces serving overseas. N. G. Oates, acting postmaster, reminded friends and relatives of the overseas men and women Friday.

No request from the person to whom the parcel is sent is necessary if the parcel is mailed before noon Saturday, Oates pointed out.

Oates recommended use of the sturdy boxes designed for shipment of overseas gifts which are on sale at a number of Midland business concerns.

ELEVATOR OPERATORS ARE GRANTED WAGE INCREASE

NEW YORK—(AP)—The 29,500 union elevator operators and building elevator workers who conducted a six-day strike here last month, have been granted a wage increase and a 40-hour week by former Supreme Court Justice George Frankenthaler in arbitration of the dispute.

Japanese Offers To Buy Oil With Raw Silk

TOKYO—(AP)—Japan, which has a critical shortage of fuel, asked permission Friday to import 120,000 tons of oil from the United States. The government told MacArthur it was prepared to pay for it with 46,000 bales of raw silk.

Mexican Doctor Denies Charges For Slaying

LAREDO—(AP)—A well-educated, neatly-dressed Mexican doctor, Gustavo Leal Morales, flatly denied charges Friday at Nuevo Laredo, Mexico, that he had been the leader of a gang of smugglers and murderers, who robbed and killed 37 men and one woman on the banks of the Rio Grande recently.

Claiming "I've been framed," the Monterey physician arrived in Nuevo Laredo Thursday, where he is to face federal prosecution in connection with the mass murder of a group of Mexican field workers, who were inducted into the United States and killed for their wages upon returning to Mexico.

A short, heavy-set man, with impressive manners, Dr. Morales told newsmen he would talk only if his statement was "printed in large letters."

German General Is Guilty In Death Of 15 Americans

ROME—(AP)—Gen. Anton Dostler, first German general to be tried in Western Europe as a war criminal, was convicted by an American military tribunal Friday and sentenced to death for ordering the summary execution of 15 U. S. soldiers captured behind the German lines in Italy.

The verdict was announced shortly after 2 a. m. CST. The five-man commission sitting in judgment on Dostler had taken the case under consideration at 9 p. m. Thursday.

The conviction must be reviewed by the commander of Allied forces in the Mediterranean Theater before the death sentence can be carried out.

The American soldiers, with whose execution Dostler was charged, died before a German firing squad at La Spezia on March 26, 1944. They had landed on the Italian coast from rubber boats on a mission to blow up a railway tunnel.

Dostler's defense was based on the contention he had acted under a blanket order from Adolf Hitler to execute all Commandos and that he consulted with his superiors before the execution was carried out.

The sentence was pronounced by Maj. Gen. Lawrence C. Jaynes, president of the military commission, who directed that he "be shot to death by musket."

Weather

Clear Friday afternoon. Light ground fog early Saturday morning. Slightly warmer Saturday.

Hollywood Among The Atoms

According to a confident communique from Hollywood, the Crosby Research Foundation, which Bing helped to form, has a simple, air-tight and fool-proof method of defeating the atomic bomb.

The news came from Bing's brother Larry, who heads the foundation which is described as a sort of clearing house for inventions.

"We do not intend to divulge our information to anyone," Larry is quoted as saying, "unless we are utterly certain it will be used for one purpose only—to compel other nations to play fair with Uncle Sam."

Seriously, it seems that the Crosby boys are taking on an undue international responsibility. If they really think they have a defense against the atomic bomb, they can safely turn it over to Uncle Sam.

It's quite likely that the President and the Army can be trusted to use it wisely.

Prediction

It will be interesting to see what defense the Nazi big-shots will offer when, stripped of authority, uniforms and medals, and appearing as the thugs and bums that they are, they stand trial for their war crimes.

Right now our guess is that the trial of Goering, Bormann, Ribbentrop, Papen and the rest will see a prodigious display of backbiting, buck-passing and finger-pointing. At least their early statements after capture indicated that they would have the world consider them pure as lambs at heart, and that any slight offenses against human decency which they might have committed were ordered by some higher authority who really was a rat.

At least Petain and Quisling had the brass to defend their treachery to the end, and assume responsibility for their own actions. But the Nazi gang may be expected to stay in character—disloyal in defeat, and looking decidedly more craven than the puppet traitors whom they lorded it over and cuffed around in the days of Nazi glory.

Off Their Hands

The Surplus Property Board was noticeably absent from that academic discussion of the authority by which President Truman gave General de Gaulle a de luxe C-54 transport. We suspect the Surplus Property boys were somewhere on the sidelines cheering, and happy in the knowledge that they had one less leftover airplane to dispose of.

They're worth waiting for—

New Maytags... coming soon!

BECAUSE you want the most for your money—you want a Maytag. And new Maytags will be here soon. Right now, Maytag is making washers again, after over two and a half years of all-out war work. And what washers they are—built for years of efficient, carefree service, with a whole list of exclusive features, and many important "post-war" improvements, to carry on Maytag's tradition of leadership! Come in now and get the facts—and you may be one of the first to get your new Maytag.

Open for Business

Thousands of signs on the doors of small businesses that read "Closed for the Duration" are coming down and "Open for Business" banners are going up. Small shops and plants whose owners and operators were called into the armed services are undergoing extensive alterations and remodeling, preparatory to again serving the public as they did before the war.

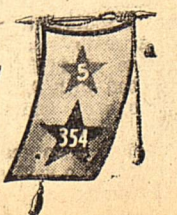

Since these stores and small factories were closed back in 1941, '42 and '43, many new and revolutionary applications of electric power to both large and small businesses have been developed. More efficient lighting equipment has been designed and perfected. New electrical machines, designed to speed up war production, are now becoming available. Thousands of kilowatts of electrical generating capacity, tied-up in war production for the past several years, can now help these returned fighting men resume their peace-time pursuits.

Texas Electric Service Company power engineers can be of great assistance in getting these "Open for Business" signs up in a hurry. They are ready and waiting to apply their war-time power experiences to your business—they helped speed the war-production schedules and they can help speed the return to peace-time normalcy.

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The statutes of the Lord are right, rejoicing the heart; the commandment of the Lord is pure, enlightening the eyes" (Psalms 19:8).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "God is the lawmaker, but He is not the author of barbarous codes. In infinite Life and Love, there is no sickness, sin, nor death, and the Scriptures declare that we live, move, and have our being in the infinite God" (page 381).

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Jack Rodgers Arrives In States From Pacific Area

M/Sgt. Jack Rodgers who has served at Ojinawa arrived in Tacoma, Wash., Wednesday after spending 30 months overseas with the 5th Air Force. He has been in the service 40 months and before that time was a draftsman with the Shell Oil Company Incorporated of Midland.

He will arrive in Midland after reporting at Fort Sam Houston in San Antonio. Mrs. Rodgers lives at 1208 West Texas.

Try Hot Water Plus After Meals For Acid Upset Stomach

Here is welcome relief from the distress and discomfort caused by excess stomach acid. Just introduced to the druggists of this state is a remarkable formula called Neutradid. Its name tells the story of excess irritating stomach acids being robbed of their power to cause upsetting distress.

There's nothing quite like Neutradid. Its fast action means quick relief and this alone should merit a test. So why not get a package today. Put one teaspoonful of Neutradid in half a glass of hot water and drink right after meals when distressed. Midland Drug Co.—Central Drug Store—Palace Drug Store and all good druggists have this new and remarkable formula for excess stomach acid.

OPA Ration Board To Meet Twice Weekly

Ray Rhodes, chairman of the Midland County War Price and Ration Board, Friday urged persons who seek certificates for automobile or motor truck tires to file applications at the board's office or to mail them to the board. He said the board has arranged to meet twice a week to consider the applications.

Many persons have been calling at offices of members of the board. These men are volunteers and receive no pay and are anxious to keep up with their personal business. They request persons not to call or visit them concerning tires, but to file applications. They promise prompt action on the requests. The tire shortage continues and Rhodes said no relief is in sight yet.

Demand For Texas Oil Is 1,990,000 Barrels

AUSTIN—The demand for oil in Texas for November will be 1,990,000 barrels daily according to an estimate by the Bureau of Mines.

In reporting this figure, Railroad Commissioner Ernest O. Thompson said the big question before the next statewide oil production hearing Oct. 17 will be: "Should we increase production to meet this demand or should we meet it in part by production balanced by withdrawals from storage?"

"Thought should be given by producers and refiners to the large increase in crude oil stocks," said Thompson, in referring to trade figures showing that crude oil stocks have increased by 11 million barrels during the past month.

Up from the Meadows Rich with Corn

ONCE again the folks who feed the nation are harvesting one of the great crops of our history, and the record-breaking harvest of these war years has been produced by fewer people maintaining top production on more and more acres.

The progress that has been made in agriculture in recent years is almost unbelievable—corn yields of well over 100 bushels an acre, a rarity a few years ago, are now common; the production of ton-litters of hogs in less than 6 months after farrowing is no great problem now; hens that lay more than 200 eggs a year are not hard to find; and there are dairy cows with records of well over 30,000 pounds of milk and 1,000 pounds of butterfat annually.

All of these advances in the production of food have played an important part in the building of America to its present greatness and to victory in the war.

Back in the days of George Washington, one farm family was able to produce enough food for itself and one other family. Today each farm family in America can produce its own food and enough for 19 other families. This tells the story of the American harvest. And it is a story unique in world history.

We at Swift & Company salute our farmer and rancher friends for their great achievements and we are proud to have had a part in the preparation and distribution of the fruits of the harvest to Americans everywhere.

MEET THE WINNERS! Hundreds of letters were received in our contest for the best letter on this series of Swift advertisements. The judges have awarded first prize of \$50 to 2nd Lt. Carroll M. Kester, 33rd Infantry Regiment, Camp Livingston, La., \$25 to Mrs. Carl J. Bachmann, Barberton, Ohio, \$15 to Mrs. Charles W. Voorhees, Trenton, N. J., \$10 each to Virginia Jean Potts, Philadelphia, Pa., Harold E. Marsh, Winona, Minn., Daisy McCutcheon, Dillon, S. C., Doris Reim, Covington, Okla., Mrs. Edward Seigel, Wheat Ridge, Colo., Mrs. Paul Norris, Grinnell, Iowa, Mrs. James Lennox, Indianapolis, Ind.

SOFT CORN INTO HARD CASH

Corn that gets "cooked" by frost before it matures is still valuable feed, especially for cattle. Here are several ways to turn soft corn into hard cash, listed in the order of their value to the feeder: (a) Make ear-corn silage. (b) Feed ears with stalks, chopped or shredded. (c) Turn cattle and hogs into standing corn. (d) Leave in field and pick ears as needed rather than risk spoilage in storage.

Three main precautions in feeding soft corn are: (a) Change to soft corn ration gradually. (b) Feed a protein supplement. (c) Feed before freezing weather, if possible.

We'll be glad to tell you where to get detailed information on soft corn feeding. Write Swift & Company, Department 128, Chicago 9, Illinois.

EGGS IN HASH NEST

By Martha Logan

Combine 6 cups ground cooked beef or lamb, 3 cups mashed potatoes, 4 tablespoons minced onion, 1 1/2 cups top milk. Melt 8 tablespoons fat in skillet and cook hash until heated through. Season to taste. Shape hash in patties and place on greased shallow baking pan. Make a hollow in the center of each patty. Slip an egg into the hollow and season with salt and pepper. Bake in a moderately slow oven (325° F.) for 20 minutes.

DO STEER CALVES GAIN FASTER?

Do male domestic animals grow faster and reach a greater weaning weight than females? This question is the basis of an interesting experiment conducted with beef cattle by Marvin Koger and J. H. Knox, New Mexico, A. & M.

They kept records of weaning weights of Hereford calves from the Experiment Station range herd from 1936 through 1943. Most of the calves were dropped in April of each year and all lots were weaned at approximately the same time each year, in October and November, depending on the feed supply and other factors. The sexes were not separated until weaning time and the bull calves were castrated about June 1.

The records reveal that of 419 steer and 444 heifer calves the steers averaged 443 pounds and the heifers 411 pounds at weaning age. The calves of 12 sires were kept track of and in all cases the steers averaged heavier than the heifers.

It was also determined that, except for the first two years when the number of calves was small, the bull calves were dropped an average of five days later than the heifers.

THE EDITOR'S COLUMN

When the war began, Swift & Company adopted the following wartime policy:

"We will co-operate to the fullest extent with the U. S. Government to help win the war. We will do everything possible to safeguard the high quality of our products. Despite wartime difficulties, we will make every effort to distribute available civilian supplies to insure a fair share for all customers everywhere."

Under the present conditions, meat packers know that there is no profit advantage in shipping meat long distances as compared with selling it nearby. OPA regulations set prices, by zones and areas, that meat packers may charge for beef, lamb, veal and pork. The United States is divided into ten zones for beef, lamb and veal and five for pork. Each has its own base price for each kind of meat. Additions to the base price are allowed for transportation and local delivery. These allowances are the very minimum and in many instances do not cover the actual cost of transportation, icing, and shrinkage.

Consequently, meat packers are better off when they sell close to their producing plants. In general, the net money they receive is greater the closer to the plant the sale is made. But despite this, Swift & Company has voluntarily adhered to its wartime policy of fair distribution. Starting in July 1945, all meat packers were required by OPA regulations to distribute their meats to the same areas they did the first three months of 1944.

ESME OF PARIS

I DANCE AGAIN

IN London, mother was too busy to listen to my request for a course of English literature but said she would write to my father about it (which she completely forgot to do), and in the meantime she would let me go to all the schools and classes I wanted, provided I left her alone with her concert.

I started studying piano at the Guildhall School of Music and attended classes in drawing from the nude three days a week, at the Frank Brangwyn School of Art in Kensington. The rest of the time I divided between the evening classes at the Chelsea Art School and the Whitmore School for Women.

Despite all Dr. Neumann's expensive treatments, I limped badly and could not even put a hat on or brush my hair with my left arm. Mother was bitterly disappointed about this, and I think this was the reason I threw myself into my studies with fervor and worked hard to please her, so that the money that had been spent on me in Switzerland should not be wasted. The old inferiority complex returned with interest, but I battled it through, passed the exams for Girton College, Cambridge, with honors, and won a gold medal for piano and theory of music at the Guildhall, in spite of my arm and the tortures I went through practicing with it.

The discussions about my future continued daily, and in the end we consulted the doctor about my trying to regain my flexibility for dancing.

He said that my physical condition had improved very much and that in his opinion I could have massage and stretching exercises, especially on my arm, which was the worst of all my troubles. If I had the will to take

a good deal of punishment, he saw no reason why I could not gradually start dancing exercises. I started training at the Pavlova School at Ivy House, Hampstead, and was really surprised to find that I could dance perfectly on my toes again and hide completely the shortness in my left leg. My body became limber in about three weeks, and it was impossible to tell there was anything the matter with me except for my left arm. This remained weak and awkward.

SOME months after this when I was dancing in the corps de ballet at the Palace Theater, the biggest of the Zeppelin raids over London occurred, about 11 o'clock at night.

It seems that when the raid was at its height, one of the staff of the Hotel Savoy had gone up to the apartment about the lights. There he found a grandmama crouched in front of an open window, mother's jewelry in one hand, shaking her other clenched fist at the raiders and shouting, "Cobardes—a que no se atrevan de bajar!" meaning, "Cowards, you don't have the nerve to come down here."

The effects of this raid were disastrous for mother's nerves, and besides, she was fretting continually about my brother. We knew he had been in action and that his division had sustained heavy casualties. Mother thought she should go with grandmother to Paris and endeavor to get my brother back on leave, or see if there was any way to get him transferred from the Legion. (This was, of course, impossible, but she insisted on trying it.) It was eventually decided, on advice from my father, that until the end of the Palace engagement I should board at the Sacred Heart convent, Portman Square, where a relative of his, Mother Maria Ag-

nese, was Mother Superior.

The convent was a wonderful experience for me: I loved it and for the first time in my life realized the full meaning of the words "peace" and "quiet." On my arrival, the sweet and wise old Mother talked to me for a long time in her office, asked me not to tell the nuns anything about the theater or any worldly topics, and said I was to be in the convent by 10:30 every night. Our ballet, finished at 9:30, so she had calculated to a fraction of a second, the time for me to return on the bus.

By the time I had got into the swing of living in a convent, a telegram came from mother in Paris, stating that she had been notified Bunnie was missing, and she wanted me to come to Paris at once to be with her.

OF my brother's arrival in Paris and the discovery of his blindness I do not want to write. All my life I have tried to forget it. Fortunately, father arrived and took charge of everything, and the fact that Bunnie was at least alive, though in a very serious condition, saved my mother's reason.

Father preferred to place my brother under doctors of his own choosing rather than depend on military hospitals. When Bunnie could be moved, he was placed in the American hospital in Neuilly and later in the convalescent home in Fontainebleau, where we took a furnished house.

We all spent Christmas together in Fontainebleau, and it was the only occasion that I had ever lived with both my parents under the same roof, and also grandmother, back from Spain. After the New Year, mother and I accompanied my brother to the Orthopedic Sanatorium at Berck, Paris-Plage. In addition to his head wounds and loss of sight, he had a shattered hip which had been operated on and had a platinum or silver head fitted to the hipbone. As a result of the operation, he could stand but not walk; his spine had become affected and he was very ill. Father and mother had received two decorations for him, as he was too crippled to appear at any ceremonies.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY

America's Card Authority

Beginners at bridge often ask, "How do you know which way to take a finesse when there is the choice of taking it either way?"

One principle I always pass on to them is to play the queen over the jack when all other things are equal; that is, if it does not make any difference which opponent gets the lead, and if the bidding fails to give an indication of the situation. In playing the queen over the jack you will be right at least

50 per cent of the time; if you try to guess every time, you may be wrong more often than that.

In today's hand several players in a duplicate game complained of hard luck when, after winning the first trick with the jack of spades, they took the club finesse and lost to East's king. The player who won top score on the board led a small heart at trick two, won with the king in dummy and returned a diamond, finessing the ten-spot.

South did not particularly care whether the ten-spot was won or lost. If West won with the queen, regardless of what he returned, declarer could cash one spade, four hearts, three diamonds and the ace of clubs. In this case the ten-spot held, but it gave declarer the same number of tricks.

South did not particularly care whether the ten-spot was won or lost. If West won with the queen, regardless of what he returned, declarer could cash one spade, four hearts, three diamonds and the ace of clubs. In this case the ten-spot held, but it gave declarer the same number of tricks.

Midland Wildcat

(Continued from Page One)

tor did not try to produce it by pumping.

Previous tests have indicated that the well will flow its full allowable, as a discovery, and owner will probably produce it as is for a time and then attempt to clean out more in an effort to eliminate the flowing lapses.

Sohio Petroleum Company No. 1 E. E. Wallace, North Kent County wildcat, in section 55, block 98, E&TC survey, was reported bottled at 6,614 feet in a lime and shale section, and preparing to run a drillstem test.

Some evidences of oil had been found in cores above the total depth. Operator tried on drillstem test, but it failed on account of a hole in the drill-pipe.

Humble No. 1 Parker, in section 24, block A-41, ps1 survey, in South Andrews County, reamed to bottom at 8,926 feet, in Wadell-Simpson lime and shale, and was going in to take a drillstem test. Some oil saturated sand had been encountered in cores in that zone.

A Good Well
Cities Service Oil Company No. 1-E Thomas, in the TXL-Devonian pool, in West Ector County, tested for 300 barrels of oil in four flowings, from section at 7,905-8,097 feet, after treating with 1,000 gallons of acid, and operator is preparing to complete.

This project showed only slightly oil and gas cut drilling mud when drillstem tested.

3-Q in Joins
Stanoind Oil & Gas Company and The Lanketh Production Company No. 3-Q Schaubauer, Northwest Ector County wildcat, in section 12, block A, ps1 survey, was to core ahead, at 8,898 feet, after a core at 8,880-98 feet, recovered 10 feet of green Simpson shale, and eight feet of Joins dolomite. Ellenburger could developed at any time.

Stanoind No. 1-BB University, outpost to production in the Three-Bar field in South Andrews County recovered 11 feet of dolomite with some scattered porosity, and bleeding oil in a core at 7,782-7,800 feet, and will core ahead. The section is lower Permian.

Found Water
Sinclair Prairie Oil Company No. 1 Ruffin, in southeast quarter of section 25, block 73, ps1 survey, in Southwest Andrews County, ran a drillstem test for one hour and 45 minutes at 9,688-9,780 feet.

Recovery was 1,980 feet of clear water, 1,080 feet of water cut oil and gas and 6,080 feet of black sulphur water. Operator is to drill ahead.

Shell Oil Company, Inc. No. 1-E TXL, Ector County Ellenburger exploration in the TXL area, was pulling the drill-pipe, after a 40-minute drillstem test at 9,615-60 feet, in the Ellenburger, showed gas of 462,000 cubic feet per day, and flowed 11.81 barrels of 40.4 gravity oil into tanks in last ten minutes of a 25-minute flowing period.

Checking Lower Zone
Amerada Petroleum Company No. 1-A Jones, Northwest Gaines County discovery for flowing production from the Devonian, was testing for water at 9,115-25 feet, in basal Permian.

In 19 hours of swabbing recovery was 66 barrels of fluid, 98 per cent water. This zone is supposed to be about the bottom of a possible producing section in the lower Permian.

AP Picks Army Over Michigan; LSU To Beat A&M; Texas To Win

By HAROLD CLASSEN NEW YORK (AP)—Not in the least embarrassed by having picked Georgia Tech to defeat Notre Dame (final score: Notre Dame 40, Georgia Tech 7) a week ago, this pigskin prognosticator returns for another whirl with a seasonal average of .813 or 91 correct picks in 112 chances.

Michigan; LSU To Beat A&M; Texas To Win

Southern California-San Diego Southern Cal. Navy: The Sailors are loaded but Southern Cal. Alabama Is Favored South Carolina - Alabama: The Crimson Tide to an easy triumph. Alabama Southern Methodist - Oklahoma A&M: The Mustangs haven't got enough to stop Bob Fenimore. Oklahoma A&M. Yale-Columbia: The Lions have defeated Yale only four times. They get victory No. 5 Saturday. Columbia. Detroit-Mississippi State: Harper Davis to give the Detroiters a real taste of Southern in hospitality. Mississippi State. Finishing the rest in a hurry: East: Pennsylvania over North Carolina, Colgate over Lafayette, Cornell over Princeton, Harvard over Rochester, Pittsburgh over Michigan State.

Texas To Play Sooners; A&M-LSU; Rice-Tulane And SMU-Okl. Aggies

By HAROLD V. RATLIFF Associated Press Sports Editor Southern Methodist's Mustangs, victims of two straight upsets, meet Oklahoma A. and M. at Oklahoma City Friday night to open a weekend of inter-sectional jousting by Southwest Conference teams. The top game of the week-end will be the Texas-Oklahoma tilt at Dallas Saturday but vying with it in importance will be Texas A and M.'s struggle with Louisiana State at Baton Rouge Saturday night. Rice tackles Tulane at Houston in the other inter-sectional bout. The conference will be well-satisfied to break even, expecting Texas to win and according to A. M., an excellent chance of knocking over veteran LSU. Southern Methodist isn't given much chance to upset undefeated Oklahoma A. and M. Nor Rice to slimmer the Tulane Green Wave. Arkansas, winner of two games out of three and able to give Oklahoma A. and M. a battle all the way, should take Baylor into camp. But Baylor has had two weeks to get ready and the Bears know this is the do-or-die period. Too, Arkansas doesn't boast such a good record as a road team.

Midland To Play Host To Sweetwater In Opening Conference Game Friday

By CROM HOLMES After three non-conference contests each, the Midland High School Bulldogs and the Sweetwater Mustangs will open "for keeps" league play at 7:30 p. m. Friday on the Midland athletic field. A bang-up game is expected, and sideline and halftime entertainment for sports fans will include bands from both high schools. A delegation of at least 300 Sweetwater fans are expected for the game. Many had arrived by early afternoon. Under the new tutorage of Pat Gerald, former coach at Vernon, the Mustangs are determined to get their District 3-AA campaign off to a good start, while the Midland Bulldogs also have some winning plans. Both teams will enter the game with one first string player not up to par. Quarterback Wilbur Yeager of the Bulldogs has been resting an injured shoulder since the Pampa game three weeks ago and Don Lambert, Mustang fullback, is not up to A-1 condition as a result of an injury received in the Sweetwater-Brownwood game. Both Midland and Sweetwater started the season with a group of boys largely inexperienced but willing to scrap. Midland's team is built around three regulars from last year's team and three reserve lettermen. Sweetwater is sparked by four lettermen from the 1944 squad. The Mustang backfield stars are Doll Feagan, left half and Shaff DeGaiish, quarterback, both lettermen. They do most of the running and the passing. Standouts on the line are Left End Fisher Mays and Center Abe Lincoln, also lettermen. Yeager and Center Jimmy Edwards, Right End J. C. McNeal and Left Tackle Howard Mickey are sparkplugs from the 1944 regulars, and reserve lettermen playing for the Bulldogs are Fullback Bobby Drake and Right Halfback Barney Hightower. Probable starting lineups: Midland Po. Maj. Warren Is Named Provost Marshal Of Central AAF Command

RANDOLPH FIELD—Assignment of Maj. Pat R. Warren to the AAF Central Flying Training Command as chief in the Provost Marshal Section, has been announced at the Command Headquarters, Randolph Field. An experienced man in this line of duty, Major Warren has served four years as a military police officer, and four additional years as a provost marshal. Before coming here he was provost marshal at the Midland Army Air Field. Major Warren first served with the Army in 1917, and was overseas with the AEF until 1919. Nine years later, he received his commission as a second lieutenant in the Infantry, and the next year saw him promoted to the rank of first lieutenant. Oct. 1, 1940, found him a captain, and he was commissioned major during 1942. Previous to his present term of service, which was begun Nov. 20, 1940, he held the position of assistant postmaster in the U. S. Post Office Department, Coleman, Texas. Son of J. B. Warren of Coleman, the major has two daughters, Mrs.

JayCees Vote For Civic Committee

Members of the Junior Chamber of Commerce voted unanimously at their meeting Friday noon at the Scharbauer, following a talk by J. S. Noland, to name a civic affairs committee to work with a similar committee from the Lions Club in obtaining civic improvements needed by Midland. "Let us forget that phrase, post-war planning," Noland suggested. "Postwar is now, and now is the time to start working toward those objectives which have been postponed because of the war." "The time has come to start doing instead of planning," the speaker said, and he named several improvements needed in the city. Carl Jacobs, rodent extermination specialist with the Fish and Wild Life Service, told the JayCees he had received better cooperation in Midland than any place he has been. "The Rev. Hubert Hopper, president, and R. J. Graham were program chairman. Advertise or be Forgotten Norma Gray Simpson, and Patsy Warren. He is a member of the American Legion and the Chamber of Commerce in Coleman.

Odessa B Team Rallies To Beat Midland, 26-14. Playing the Odessa "B" Bronchos on even terms until the final quarter, the Midland High School "B" Bulldogs dropped a grid game to the Ector County boys, 26 to 14, in Odessa Thursday afternoon. The halftime score stood 7 to 7, and the fourth period opened with the team tied at 14 to 14. In the final quarter Midland seemed to go to pieces and the Bronchos pushed across two touchdowns. Bill Little made both Midland touchdowns, and the Midland line played outstanding ball throughout most of the contest. The "B" squad will play Stanton here at 7:30 p. m. Thursday. A small admission will be charged.
