Senate-House Group OKs Tax Slice

By FRANCIS J. KELLY
WASHINGTON —(P)—A \$5,920,000,000 tax reduction bill giving corporations greater relief than individuals but sweeping 12,000,000 income tax payers off the rolls was approved Saturday by a Senate-House conference committee.

Subject to formal, final approval probably next week by the House, Senate and President, the legislation orders the following reductions:

- Corporations, \$3,136,000,000.
- Individuals, \$2,644,000,000.
- Repeal of use tax on cars and boats, \$140,000,000.

The Senate's formula for cutting individuals' taxes was accepted, without great effect except in the topmost brackets where the House measure would have given more relief.

Paradoxically, the "compromise" calls for larger cuts than either the House or Senate bill. The House had voted reductions totaling \$5,350,000,000, the Senate \$5,788,000,000.

No Luxury Relief

At that, the final version of the bill sets no definite cutoff date on the heavy wartime excise taxes on such articles as furs, jewelry, whisky and light bulbs and on such services as long distance phone calls, railroad fares and movie admissions.

The bill goes back to the House Monday. Under that chamber's rules, conference committee reports must lie over a day, so it will not be called up before Tuesday unless the rules are suspended.

The House agents finally accepted a Senate provision repealing the excess profits tax on corporations, effective next Jan. 1, for an estimated \$2,555,000,000 cut in revenue.

Both houses were in agreement on repealing the capital stock tax and declared value excess profits tax, for another reduction of \$234,000,000.

A compromise was reached on a reduction in the combined normal and surtax assessed corporations. On firms with incomes up to \$50,000, four percentage points will be taken off the graduated rates; above \$50,000, two percentage points.

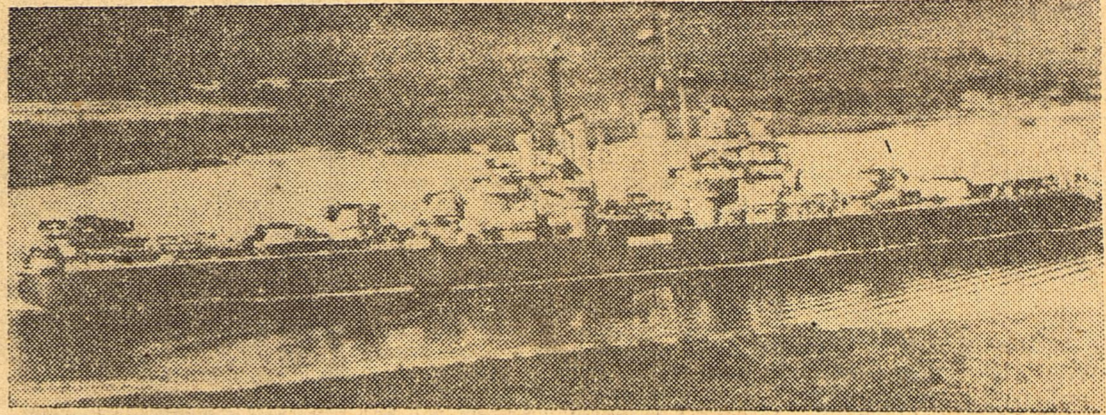

Three Steps In Reduction

Individual income taxes next year will be reduced by these three steps:

1. The 3 per cent normal tax will

Cruiser Houston Comes Home

The cruiser, Houston, passes the San Jacinto monument on her first trip to Houston, Texas. She was accompanied by two destroyers, three subs and one destroyer escort. All the ships will be here for Navy Day.

President Says Faith Necessary

By JAMES H. PORTERFIELD
NEW YORK —(P)—President Truman told the world Saturday the highest hope of the American people was the perfection of world co-operation to a point where "atomic methods of destruction can be definitely and effectively outlawed forever."

Making his first overall statement of foreign policy in a Navy Day speech before a million persons in Central Park, the Chief Executive declared:

"We seek to use our military strength solely to preserve the peace of the world. For we now know that that is the only sure way to make our freedom secure. That is the basis of the foreign policy of the people of the United States."

The President, outlining a 12-point policy, asserted that the nation regards possession of the atomic bomb "a sacred trust." He added:

"The atomic bomb does not alter the basic foreign policy of the United States. It makes the development and application of our policy more urgent than we could have dreamed six months ago."

Truman said the United States soon would begin discussions of the atomic bomb with Great Britain and Canada and later with other nations, but he reiterated those talks would not be concerned with the "processes of manufacturing the atomic bomb."

Colorful Review Of Ships

The President's speech in Central Park — the second he made here during a day-long series of tributes to the military fleet in the seas — presided a colorful review of 47 warships moored along a seven-mile stretch of the Hudson River.

Police Commissioner Arthur W. Wallender estimated 6,000,000 persons saw the President during the day.

On the commissioning of the 45,000-ton carrier, Truman stood with Mrs. Franklin D. Roosevelt and Mrs. Woodrow Wilson, widow of another war president.

Later in Central Park, with the powerful armada lying not far away, he reviewed the fleet with hundreds of planes poised for a sweep overhead during the review, the Chief Executive declared:

"What the distant future of atomic research will bring to the fleet we honor today, no one can forecast. But the fundamental mission of the Navy has not changed. Control of our sea approaches and of the skies above them is still the key to our freedom and to our ability to help enforce the peace of the world."

The President asserted the greatest threat to world peace was the possibility of a "loss of faith in the effectiveness of international co-operation."

Differences Can Be Settled

"Differences of the kind that exist today among the nations that fought together so long and so valiantly for victory are not hopeless or irreconcilable."

Truman said the United States must remain powerfully armed for four reasons: To enforce the peace on defeated enemies, to support the United Nations, to defend the Western Hemisphere and to defend the United States.

Describing the nation's foreign (Continued on Page Three)

United Nations' Home Set In US

LONDON —(P)—The executive committee of the United Nations Preparatory Commission approved Saturday a recommendation that the United Nations' home be located in the United States, provided the site meets necessary conditions.

The action topped a session at which the committee concluded the groundwork for a permanent peace agency and recommended that the first meeting of the United Nations general assembly be convened between Jan. 2 and 7, 1946, in London.

Before the assembly meets, however, the full preparatory commission must ratify actions of the executive committee, which has been in session here for two months.

The committee recommended that the preparatory commission meet November 23.

Britain and France Object

The recommendation on the UNO headquarters was approved without a roll call after France, Great Britain and The Netherlands — which fought for a permanent site in Europe — said they would abstain from voting if the question were put to a test.

A committee will be set up to decide upon the American city and to determine the exact conditions which must be met by the host community.

Postwar Improvement Program Goes Into High Gear In Midland County

By JOHN FLEMISTER
As the result of planning and work by civic leaders and city and county officials many improvements now are in progress, and others will be started soon, which will mean a better life for citizens of Midland and Midland County.

The improvement projects include: more paved rural roads, a paved road to Rankin, better maintenance of rural roads, better maintenance of the fire guards which protect the ranges of Midland County, better drainage of the streets in Midland, better fire protection, increased garbage disposal facilities, much better water distribution so an ample supply will be available at any time of the day or night.

Also planned are: eventual elimination of the unsightly and unsanitary city dump ground, increased sewage disposal facilities, more paved streets, a new street lighting system which will cover more sections of the city, more traffic lights at busy corners, better facilities for caring for juveniles by law enforcement officers, an enlarged and improved school system — and, a large and modern hospital.

All of these improvements did not just happen. The planning on most of them started many months ago and the work has been going on steadily.

County Cooperates

The caliche is down on the first eight miles of the new paved road to Rankin. On this project the county is working in cooperation with the State Highway Department by furnishing the right-of-way, the caliche, the road machinery and the men to operate it. Putting down of all caliche is expected to be completed by January 1, County Judge Elliott H. Barron predicted. The road will be topped with the next warm weather.

The county had the same deal with the highway department on the road which was built to Midland Municipal Airport, and right of way is being obtained to extend this road four miles north.

Right of way is being obtained for a 10-mile extension east of the paved road to Cloverdale which will serve citizens of the Stokes community. It will have a 100-foot right of way. A four-mile paved road will be built by the county from Highway 158 to the Valley View community.

The county has received one of the three new road maintainers which it ordered, and the others are expected within a few weeks. They will be used to maintain the more than 500 miles of rural roads in the county, and to maintain the hundreds of miles of fire guards which protect ranges from prairie fires.

City Employs Engineer

Planning started more than a year ago on the city's program of improvements. Mayor A. N. Hendrickson suggested at a meeting of the City Council the city could not (Continued on Page Two)

Backers Outweigh Opponents In Poll On Military Issue

By The Associated Press
WASHINGTON —(P)— Supporters outnumber opponents but a decisive segment of the Senate has not made up its mind about compulsory military training in peacetime, an Associated Press poll showed Saturday.

Eighty-four Senators were asked the question:

"Do you favor compelling physically-able young men to take military, or other war, training?"

Twenty-five, including 18 Democrats and seven Republicans, said they are for some form of compulsory training. Their ideas of form differ widely.

Nineteen, including eight Democrats, 10 Republicans and a Progressive, are against compelling young men to take training. Many of them suggested alternatives.

Forty Senators, including 24 Democrats and 16 Republicans, said they haven't yet made up their minds. Twelve Senators were out of Washington and could not be reached.

Only a small segment of the Senate expressed approval of President Truman's recommendation for a year of training for all except totally disabled young men, to be taken somewhere between the ages of 17 and 20.

It seems obvious from the results of the poll that unless sentiment changes the President's plan has little chance of passing the Senate by the form proposed.

But the fact that supporters outnumber opponents among those willing to commit themselves indicates there is a chance of obtaining Senate approval of some modified form of compulsory training.

There is a wide range of opinion among those who said they would vote for compulsion.

Victory Loan Kickoff Monday

Midland County's Victory Loan campaign opens Monday under the direction of John P. Butler with an overall quota of \$385,000, of which \$335,000 is for Series E, F, and G Bonds.

In the Seventh War Loan the county's quota was \$1,425,000 with \$600,000 for Series E, F and G Bonds. It was exceeded by a wide margin.

Butler already has mailed letters to many bond buyers calling their attention to the fact that money is needed to return servicemen from overseas, and that still more money is needed to care for the wounded now in Army hospitals. While the cost of maintaining armies of occupation is not as large as maintaining them in combat, the cost still is great, Butler pointed out.

Drive Opens At MAAF

Final plans have been completed at Midland Army Air Field for the opening Monday of the Victory Loan campaign there. Lt. William H. Hollingsworth of the personal affairs office, announced. Booths will be erected at the field where officers and enlisted men can obtain Victory Bonds. The booths will be operated by members of the Spotters Clubs.

Victory Bonds will be on sale in Midland at the Postoffice, First National Bank, Midland National Bank, Midland Production Credit Association, and the Midland Federal Savings and Loan Association.

"Let's finish the job is the slogan of the Victory Loan campaign," Butler said, and suggested the job be completed quickly.

Monday Is Last Day For Victory Chest Campaign In City

Workers in Midland County's Victory Chest campaign will start out Monday morning with a determined effort to obtain the \$326,955 needed to meet the county's \$23,077 quota, R. T. Dickey, campaign chairman, said Saturday.

Citizens of the county have contributed \$19,807.05 in the campaign, 85.8 per cent of the quota, Monday is the last day of the campaign.

"Midland County never failed in previous chest campaigns during the war and in War Loan campaigns to more than meet its quota," Dickey pointed out. "Let us be as generous in victory as we were in war."

A gift to the chest is a very real and practical way of expressing thanks and gratitude to those in the armed forces for the victory they have brought this nation, the campaign chairman declared.

"Before the campaign closes I wish to express my gratitude to the busy men and women who took time away from their businesses to work in the campaign," Dickey said.

Contributions can be made Monday with Ralph Barron, treasurer, at the Midland National Bank.

Pearl Harbor Attack Date Set Month Ahead

NEW YORK —(P)—Secretary of the Navy Forrestal disclosed Saturday night that documents taken from a sunken Japanese cruiser showed that the enemy had set the date of the Pearl Harbor attack more than a month before the blow was struck.

This was announced Saturday night in the annual report of Gen. Brehon Somervell, chief of Army Service Forces.

U. S. Invasion Gun

WASHINGTON —(P)—The Army had ready for the projected invasion of Japan a giant ordinance piece, a mobile 36-inch mortar firing a shell weighing nearly two tons.

This was announced Saturday night in the annual report of Gen. Brehon Somervell, chief of Army Service Forces.

China Government Makes Concession To Red Forces

CHUNGKING —(P)—A fresh government effort to break the current deadlock in negotiations with the Communists and prevent China from drifting into civil war was disclosed Saturday by Minister of Information K. C. Su.

He said the central government proposed that if the Communists refrained from obstructing railway communications, the status quo could be maintained outside the railway zones. (This implied that central government forces would keep hands off the Communists in areas away from the railway lines, providing they did not interfere with the movement of government troops and ordinary passenger traffic by rail.)

He said the government also had urged the Communists to send to Chungking their representative on the military subcommittee created at the recent unity talks here to discuss "practical arrangements for reorganization of Communist forces and areas where they are to be stationed."

Weather

Sunday, fair and slightly warmer. Monday, partly cloudy and slightly warmer.

In Navy Day Ceremonies—Millions Pay Tribute To Victorious American Fleet

By The Associated Press

In ceremonies from coast to coast and the capitals of the world, grateful millions Saturday gave a tremendous "well done" to the mighty, victorious United States Navy.

Observances ranged from a Presidential review in New York to a free beer party in London as tribute was paid to the deeds of the men and ships who downed the Japanese.

President Truman, spearheading the world celebration, rode seven miles from the tip of Manhattan Island up the Hudson River to inspect such mighty carriers as the Enterprise and Midway, and the Battleship Missouri, scene of the Japanese surrender. Twelve hundred Navy planes roared overhead, and guns boomed 1,029 times in salute.

The President made it the occasion to tell the world United States would use her military might "solely to preserve the peace of the world."

At Honolulu, where the Japanese made their first ignominious play for world power, the celebration was begun at dawn and citizens were welcome aboard warships and allowed to visit the Pearl Harbor Navy Yard for the first time since Dec. 7, 1941.

Fleet Admiral Chester W. Nimitz declared "reapower is our birthright; let's appreciate and keep it."

In Shanghai, planes flew over the city and the public was allowed aboard fleet units in the Whangpoo River. Newspapers there lauded "the greatest sea and air force the world ever has known."

Navy Leaders Speak

At home, Navy leaders took the occasion to discuss the atomic bomb. Admiral William F. Halsey Jr., speaking in Indianapolis, said atomic bombs would not end war.

Fleet Admiral Ernest J. King in Kansas City said experiments were underway to determine the effect of the bomb on fleet units.

Lt. Gen. Holland M. (Howlin) (Continued on Page Three)

Steel Workers To Seek Strike Vote

PITTSBURGH —(P)—Preparations for the nation's biggest labor strike vote were taking form Saturday as the CIO-United Steelworkers announced that a petition for a vote involving 643,595 workers will be filed Monday with the National Labor Relations Board.

This action carried with it the possibility of a general strike in the steel mills of America.

LATE NEWS FLASHES

THE HAGUE —(AP)—The Dutch government Saturday ordered Humberfus van Mook, acting governor general of the Netherlands East Indies, to begin negotiations immediately with the Indonesian Nationalists seeking independence.

DETROIT —(AP)—General Motors Corporation Saturday night proposed to the CIO Automobile Workers Union that it join with the corporation in petitioning Congress to change the wage and hour act to make the standard work week 45 hours instead of 40 during the post war reconstruction period.

LONDON —(AP)—A Reuters dispatch from Chungking Saturday night quoted the Communist-controlled Yanan news agency as saying a "large scale offensive" had been started by government troops against Communist-held liberated areas.

Texas' Lost Battalion Homecoming Set Sunday

WICHITA FALLS —(P)—Men of the 131st Field Artillery, Texas' Lost Battalion, who lived to tell the story of capture on Java and torture and disfigure in Japanese prison camps, will gather here Sunday for their official homecoming.

Sunday night they will meet in a mass memorial service for their companions who did not return and for those of every branch of the military service from this area who never came home.

Maj. Gen. Fred L. Walker, who commanded the 35th Division, personal representative of Secretary of War Robert Fatterson, will pay tribute to the dead at the memorial service. Bishop A. Frank Smith of Fort Worth will deliver the memorial address.

FPC POSTPONES GAS HEARING UNTIL DEC. 10

WASHINGTON —(P)—The Federal Power Commission has postponed until Dec. 10 a hearing in Dallas on the commission's natural gas investigation. The hearing was scheduled for Nov. 27.

CITY ATTORNEY MCGAUGH OF BROWNWOOD DIES

BROWNWOOD —(P)—Funeral services for Robert L. McGaugh, 33, city attorney of Brownwood and president of the Brown County Bar Association, will be held here Sunday.

Educating For Peace

Tucked away in Chapter IX, Article 55, of the United Nations Charter is the statement that "the United Nations shall promote . . . international cultural and educational cooperation." The declaration didn't cause a great deal of interest when the charter was being written. But its importance will loom larger as steps are taken to put it into effect.

The first of these steps will be a conference of the world's ministers of education, to be held soon in London. The conference intends to set up an educational and cultural body to combat what one of the American delegates has called "cultural isolation."

The ministers and their staffs will be undertaking a long and difficult program. Confronting them will be a world accumulation of nationalism, narrowness, opposition and disinterest. It may take a generation for their work to show any significant results.

But the ultimate achievement of world peace may depend as much on this program as on any concerted effort of nations. Means for settling international disputes, by force of arms if necessary, are outlined in the United Nations Charter. It is obvious, however, that it would be far better to get at the source of such disputes and destroy them before they grow into serious problems.

Much international bad feeling stems from misunderstanding. Cultural and educational cooperation among nations will not provide a panacea, but it promises to be of help in correcting old, deep-rooted misconceptions.

Hitler and his henchmen and the Jap war lords excited their people for war by exploiting such misconceptions. They played up contempt of other nations and races. They played up the myth of their own racial superiority. They sowed suspicion in the fertile soil of ignorance—though the Germans and Japs are, by accepted standards, literate nations.

We Americans, also considered a literate nation, are likewise the victims of considerable misunderstanding and ignorance.

Thousands of young men from the fighting countries saw foreign lands for the first time during the war. But many had only superficial views under abnormal circumstances. Trained in a narrow environment and judging what they saw by home-country standards, a lot of them returned more prejudiced than when they left.

The new London conference will have to develop a new, purposeful system of education aimed at understanding and peace. Delegates probably will have to agree on some broader base of instruction in the world's history and literature for each country. And their program obviously will have to exceed the bounds of formal education and consider such things as travel, motion pictures, broadcasts and a free press.

With such a program launched, it may happen in the fullness of time that the peoples of the earth will come to believe that foreigners are human, too. When that day comes, the hopes for lasting peace will be considerably brighter.

Charges Filed Against Two Men In Connection With Bank Robbery

DALLAS—(P)—FBI Agent Percy Wyly announced here Saturday charges had been filed against Ollie Oliver Melton, 38, of Asher, Okla., and Fred Pair of near Bledsoe, Texas, in connection with the robbery of the First State Bank of Morton, Texas, September 5.

The bank was robbed of \$17,622.46. Witnesses reported two men entered the bank while a third remained in an automobile. After herding customers and employees into the vault, they escaped in an automobile stolen the day before at Lubbock. It was found abandoned late the day of the robbery near Bledsoe.

Wyly said two other men were sought.

The FBI said Melton pleaded innocent when arraigned before the U. S. commissioner in Oklahoma City. He failed to make \$50,000 bond and was bound over to the U. S. marshal until the next session of federal court at Lubbock.

One Ex-Deputy Sheriff

Wyly described Pair as a former deputy sheriff of Dickens County, Texas. A complaint was filed against Pair on October 25 and his bond was set at \$25,000.

The FBI said the robbers' hide-out was located on a ranch near Bledsoe and that FBI agents, Texas Rangers and District Attorney B. S. Burkes of Lubbock were led to a spot where \$997 in one-dollar bills was buried in a jar.

Wyly said Melton previously served time for robbing the Fort Cobb, Okla., bank about 20 years ago. The agent said that in that robbery Melton escaped on a stolen horse. Later, as a posse closed in he abandoned the horse but forgot his coat. When the horse returned home Melton's name and address was found in the sleeve, Wyly related.

Op Jan. 3, 1934, Melton was sen-

Secretary Braden Says Peron Is Aping Nazis

WASHINGTON—(P)—Assistant Secretary of State Spruille Braden by implication Saturday night called Argentina's "strong man," Juan Peron, "a self-styled savior, supported by a clique aping its European Nazi prototype."

The former U. S. ambassador to Buenos Aires, speaking at a Navy Day dinner in the Mayflower Hotel, said that the Nazis, "while defeated on the battlefronts, have not yet been eradicated" and asserted that American appeasement might be fatal.

Although he did not mention Argentina or Peron by name, Braden obviously was referring to conditions in Argentina when he said he could testify "from personal observation" that the Nazis "survive in great numbers to spread their malevolent ideologies and, underground, to egg on their satellite and petty imitators."

Paul D. Anderson Is Back In Midland

Lt. Paul D. Anderson, son of Mr. and Mrs. W. D. Anderson, was returned to Midland on terminal leave from the Army Air Forces. He was with the 20th Air Force for more than a year and served with the first B-29 wing in India and China. He was in the Army three years and is a graduate of Midland High School.

CLINTON O. COUGHRAN RECEIVES DISCHARGE
WAR DEPARTMENT PERSONNEL CENTER, FORT SAM HOUSTON—Clinton O. Coughran of Midland has received his discharge from the Army. He served in the Army Service Forces.

tenced to 20 years for manslaughter, the FBI reported. He escaped from McAlester State Prison July 10, 1936, and later was apprehended near Atoka, Okla., Wyly said. He was released March 4, 1944.

Post-War

(Continued from Page One)
hope to finance all of the improvements wanted, and suggested employment of a trained and experienced municipal engineer to make a survey and determine which improvements were needed most.

Ashley G. Classen and Associates of El Paso were employed. After an exhaustive survey the engineers recommended as the most-needed improvements in Midland a better water distribution system which would supply all places in the city with ample water in the hours of peak demand during the hottest days of summer, improved sewage disposal, better drainage of the city's streets and a paving program which would tie in with the drainage program.

Work will start this week on the water distribution program and will be completed in about six months.
Drainage To Be Improved
Classen is doing the preliminary engineering for the new sewage lines and for the paving of an estimated 100 blocks of streets. Negotiations are in progress, and progressing favorably for obtaining right of way for a large drainage ditch which will carry the water which now stands on Midland streets when it rains to Midland Draw. The paving and drainage programs are correlated.

The paving and drainage programs both require a three-way agreement between the city, the highway department and the Texas and Pacific Railway. The present status of those negotiations indicates a complete agreement will be reached.

The city has ordered an additional garbage truck which will be put to use as quickly as it arrives. While the City Council has not yet voted formal approval of its purchase, a motorized unit will be purchased within six months which will enable the city, with one operator, to dig trenches at the city dump ground, shove the garbage into the trenches and cover it with dirt. This is the garbage disposal system used by the Army. Hendrickson predicted in a talk before members of the Junior Chamber of Commerce last week this unit will enable the city to bury the refuse which has gathered at the city dump ground.

Paving Is Requested
Applications have been received by the city for approximately 100 blocks of paving. Classen soon will be at work on the preliminary engineering, and the city can start letting contracts within six months. Some of the paving may have to wait until the new water and sewer lines are installed.

The Texas Electric Service Company now is working on a completely new street lighting plan for Midland, which will be put into effect before many months. The Latin-American and negro sections of the city will have street lights for the first time, and other sections of the city will receive adequate lighting.

As most motorists know, more traffic lights are needed in Midland. Lights are on order for the more dangerous intersections.

With the juvenile problem becoming increasingly acute, representatives of the Child Welfare Board appeared before the City Council and asked that the city provide facilities for separate detention of juveniles. The council has authorized Police Chief Jack Ellington to investigate plans of other cities for such detention. Ellington is investigating these facilities, and before many months Midland will have a place where juveniles can be confined without being placed with adults, some of whom are hardened criminals.

Schools Expand

Most citizens know two new 10-room elementary school buildings are to be erected in Midland, and improvements made at others. Months of planning were required to obtain these buildings. Other school districts of the county were consolidated with the Midland district. New tax rates were set for most of the consolidated districts. A bond election was called and held. Next school year those in charge of operating the schools hope to have facilities where students will attend school among pupils near their own ages, and teachers will not have to try to instruct over-crowded classes.

Due to efforts of civic leaders working through the Chamber of Commerce, Midland is promised a large and modern hospital which will be erected without cost to the taxpayers and with no public subscription.

Sweden, faced with a serious coal shortage, conserves its small supply for industrial use and taps its large forest resources for civilian consumption. Piles of logs which stretch down suburban street in Stockholm will be used to heat apartment houses at left.

300 Visit County Fair Exhibits; Awards Presented To Winners

More than 300 persons visited the Midland County Fair Saturday in the Civic Auditorium. Exhibits were sponsored by five home demonstration clubs, four 4-H Girls clubs, Soil Conservation, County

Health Unit, T. Paul Barron, and the Garden, Palette and Fine Arts clubs.

Of unusual interest were gifts from overseas. Other displays were: canned food, clothing, 4-H Girls club projects, hobbies, antiques, Ranch round up articles, home demonstration club exhibits, civic club exhibits, farm products, and the making of a feather comfort and dress forms.

First place in the booths award was presented to the Garden Addition Home Demonstration Club. All of the members participated in the exhibit, showing 62 varieties of foods. West Side Club won second place with 67 varieties of foods and 100 per cent participation by the members.

Valley View Club Third
The Valley View Club won third place, with 90 per cent of the members exhibiting 52 varieties of foods, and fourth place went to the Sunshine Club of the Stokes Community. Placing fifth in the judging was the East Side Club.

Julia Edith Midkiff placed first in canned peaches; Sara Betty Wheeler, second; Willie Mae Wheeler, third; Julia Edith Midkiff, second; Sara Beth Wheeler, third; Peach preserves—Julia Edith Midkiff, fourth; Pear preserves—Sara Beth Wheeler, third; Willie Mae Wheeler, fourth. Play suits—Janie Manning, first. Aprons—Pauline Norwood, first; Sammie Swails, second; Donna Howard third. Dresses—Willie Mae Wheeler, first; Lanell Howard, second. Blouses—Janie Manning, first. Skirts—Lela Norwood, first; Pauline Norwood, second.

Coffee and cookies were served to all persons visiting the County Fair, sponsored by the home demonstration clubs of the county.

New York City's famous "Ruberberks" buses were on the streets with crowds of sightseeing tourists on the Labor Day weekend for the first time since June of 1942.

Success Of Police Sponsored Show, Dance Is Assured

Saturday's reports on advance ticket sales for Gordon Kibbler's "Cover Girl Revue" and policeman's ball at the Log Cabin Monday night strongly indicated a successful event, Police Chief Jack Ellington said.

The revue will start promptly at 8:30 and the dancing to the music of Paul Neilsen's Studebaker radio orchestra will follow.

A number of citizens have requested reservations but Ellington emphasized no reservations will be made for the affair.

Ellington said a Victory Bond will be presented the oldest dancing couple present.

Tickets can be obtained from any member of the police department or at the police station. Profits will go into the police benefit fund.

Garage Is Damaged In Saturday Blaze

Fire Saturday afternoon caused damage estimated at from \$150 to \$200 at a garage attached to the home of A. W. Wyatt at 515 West Holmsley Street.

The fire started among papers and trash in the corner of the garage, Fire Chief Luther Tidwell said. The blaze was extinguished before it could reach the house.

JOSEPH W. ERICKSON TO RECEIVE DISCHARGE
S/Sgt. Joseph W. Erickson now is on Saipan awaiting transportation to the United States. He expects to receive his honorable discharge soon after arrival and thinks he will be back in Midland by Dec. 1.

Humble No. 1 Parker, South Andrews Wildcat Was To Test Shows Of Oil In Lower Ordovician At 9,032-54 Feet

By JAMES C. WATSON
Oil Editor

Shows of oil in a lower Ordovician section at 9,032-54 feet, in Humble Oil & Refining Company No. 1 J. E. Parker, South Andrews County were being investigated Saturday, in a drillstem test. This exploration, located 600 feet from north and 1,980 feet from east lines of section 24, block A-41, psi survey, cored at 9,031-36 feet, and recovered four feet of lime, showing oil. A core at 9,036-54 feet recovered six feet of lime showing oil.

Operator had not revealed definite identity of the section being tested. Some observers think it is possibly Ellenburger.

The wildcat showed for around 80 barrels of oil per hour natural, flowing from the McKee zone of the Simpson, middle Ordovician, at 8,925-898 feet, and also had some indications of petroleum in lower horizons of the Simpson.

A string of 7-inch casing was cemented about a week ago at 9,026 feet, in what is thought to be the base of the Simpson and operator has been coring since the plug on that pipe was drilled out.

Some sources report top of the Simpson was at 9,375 feet on an elevation of 3,925 feet. No information was available as to a possible top on the Ellenburger.

DeKalb Agricultural Association, Inc., No. 2 Colthrop, South Gaines County prospector, one location south and about one location east of discovery well for Clear Fork-Permian production in the Boss field, was bottomed at 7,100 feet, and was taking a drillstem test to check slight shows of oil and gas which had been encountered above current total depth.

Shell Oil Company, Inc., No. 2 Cox, one location north of closest production on northeast side of the Russell field, in Northwest Gaines County, was coring below 7,52 feet in lower Permian lime.

Cores from 7,501 feet to 7,542 feet had shown streaks of varying degrees of porosity and some oil stains and odors.

Amerada Petroleum Corporation No. 1-A Jones, Northwest Gaines County discovery for flowing production in the Devonian, perforated casing at 9,075-85 feet with 46 shots, and then treated at 9,075-9,103 feet, with 2,000 gallons of acid.

Still Shows Water
In 12 hours of swabbing the acid treatment recovery averaged 11 1/2 barrels of fluid per hour—of which 36 per cent was water—the remainder was said to be new oil. Swabbing continued.

The Texas Company No. 1 Callahan, in northwest corner of section 308, block D, John H. Gibson survey, in North Yoakum County, swabbed six hours at 5,204-5,240 feet, and recovered 15 barrels of salt water. The section had been shot with 1,000 gallons of acid. Operator is now

in the hole with the tools drilling ahead.

King, Warren and Dye No. 1 Stewart, in northwest quarter of section 382, block D, John H. Gibson survey, in Northeast Yoakum County cleaned up after a fishing job, and was making hole under 5,154 feet in lime. Operators were expecting a drilling break at anytime.

Repairing Machinery
Corrigan and Crump No. 1 Nystel, in southwest corner of section 8, block 38, psi survey, had reached 4,280 feet, in lime, and was due to be inactive for several days, while machinery repairs were being made. This project is expected to encounter the possible pay section at any point from here on down.

Coats and Foster No. 1 Cole, out-post to production in the Welch field in Northwest Dawson County, was on total depth of 4,200 feet, in lime, fishing for tools.

Humble No. 1 Buchanan, Midland County discovery for flowing production from the Strawn-Pennsylvanian, was still shut-in, while making bottom hole pressure tests.

Globe Oil & Refining Company No. 1 Downs, West Hale County wildcat to 5,500 feet, in southwest quarter of section 5, block JK, TT survey, had spudded to 347 feet and was waiting for plug to set on 19-inch surface pipe set at 325 feet, with 250 sacks of cement, before drilling out and drilling ahead.

SPOC Williamson D&A
Sinclair Prairie Oil Company No. 1 Williamson, West Ector County exploration, in section 40, block 45, TP survey, T-1-N, three miles north of the Devonian discovery in the TXL field, and two miles north of the initial Ellenburger producer in that area, is reported to be dry and abandoned.

Drilled to total depth of 9,923 feet in Ellenburger dolomite. There were only slight shows of oil and gas in that zone.

The exploration plugged-back to 8,052 feet, to test possible production in the Devonian. No appreciable shows were developed on natural testing. The section was acidized and shot with nitro-glycerin, but those activities failed to help. Only small amounts of oil and considerable water were recovered from the Devonian section.

A. P. Carr and others, No. 1 Slater, wildcat to 5,000 feet, in southwest quarter of section 4, block 42, TP survey, T-1-S, Southeast Ector County, had spudded and was making hole past 900 feet.

Texaco No. 29, Connell, Southwest Ector County wildcat, in northwest quarter of section 9, block B-16, psi survey, had penetrated below 7,795 feet, in Devonian chert, and was drilling ahead.

Stanford Oil & Gas Company No. 1 Williamson, in northeast corner of section 5, block 45, TP survey, T-1-N, Northwest Ector County, had reached 7,195 feet, in lime, and was continuing.

Humble No. 1 Cummins, in southwest corner of section 11, block 45, TP survey, T-1-N, also in Northwest Ector, had progressed below 8,395 feet, and was still making hole.

Taylor Still Digging
Stanford No. 1 Mack Taylor, in southwest corner of section 8, block B-2, psi survey, one and one-half miles east of southeast part of the Keystone-Ellenburger field, in North Winkler County, was drilling past 8,934 feet, in Montoya lime, and going ahead to test the Ellenburger.

Stanford and Westbrook-Thompson, No. T-35-M-88 Hendrick, in southeast quarter of section 33, block 27, psi survey, in Central Winkler County, about three and one-half miles west of Kermit, was drilling ahead under 6,556 feet, in hard lime and chert of the lower Permian.

John I. and P. B. Moore No. 1 Southland Royalty Company-Waddell, in section 19, block 2, H&TC survey, in South Crane County, perforated casing at 7,017-25 feet, with 48 shots, and tested for 20 stands of water and fluid cement.

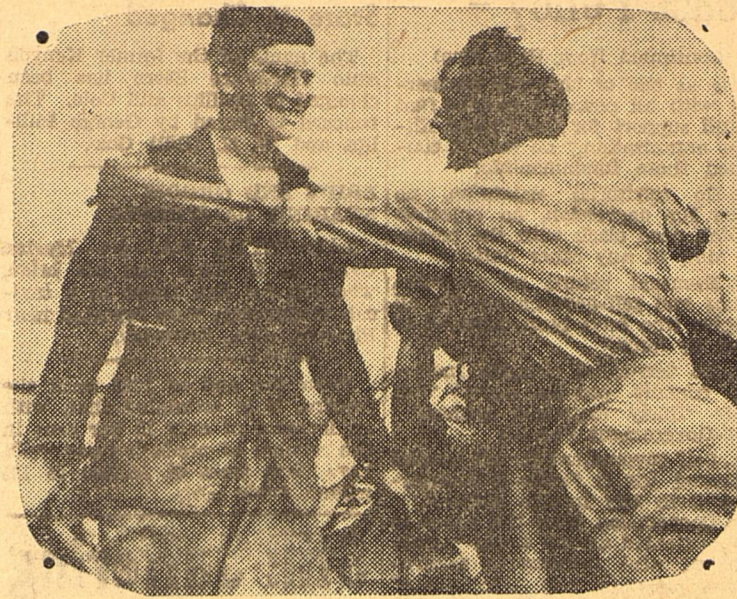

Operator is continuing to test to determine if the casing is properly set and the cement cured. The section under investigation is the Situan. It will be investigated further and then sections in the Devonian, which logged some indications of petroleum will be checked.

On East Side
Texaco No. 1 Mitchell, in section 301, block 97, H&TC survey, in Northwest Scurry County, had reached 8,283 feet in lime, and was continuing.

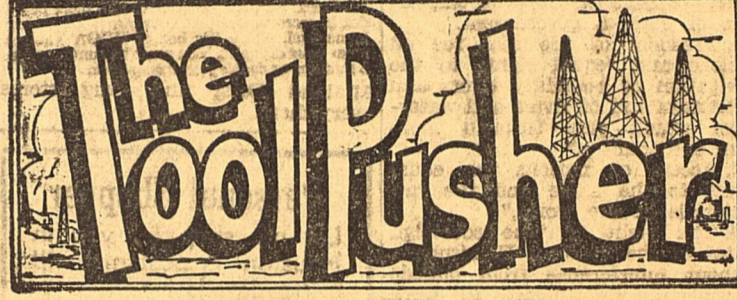

Honolulu Oil Corporation No. 1 Altman, in Northwest Garza County, in section 1255, TT survey, had progressed below 9,387 feet, in lime and was drilling ahead.

Operator has not officially confirmed reports that the project was drilling in Ellenburger.

Polish Reunion

(UNRRA Photo from NEA Telephoto)
Two Polish brothers, separated for five years in Nazi concentration camps, find each other again when UNRRA brings them together in Bari, Italy.

By JAMES C. WATSON, Oil Editor

100 GEOLOGISTS DUE AT TUESDAY DINNER

An attendance of about 100 persons is expected for the dinner meeting of the West Texas Geological Society at 6:30 p. m. Tuesday in the Crystal Ballroom of Hotel Scharbauer.

M. G. Cheney of Coleman, president of the American Association of Petroleum Geologists, will be the speaker. He has lived in Coleman many years and is an independent oil operator, as well as one of the best known petroleum geologists in the United States.

Persons desiring to attend the affair, who have not made reservations, should call Alan B. Leeper, secretary at Honolulu Oil Corporation.

F. H. McGuigan, president of WTGC, a regional affiliate of AAPG, will preside.

Commission Reports 84 Well Completions

AUSTIN — (AP) — The Railroad Commission reported completion of 84 oil wells in the week ended Saturday.

Completions for the year to date increased to 3,157 compared to 2,917 in the same period last year. Two of this week's completions were wildcats.

Fifteen gas well completions were made making a total of 661 for the year to date compared to 249 in the same period a year ago.

Eighty-seven wells were plugged, 32 dry wells, three gas wells and 52 oil wells.

Average daily allowable of Texas oil wells for the week was 1,808,749 barrels, an increase of 6,241 barrels over the previous week.

Total producing wells was 102,907, an increase of 71.

Lighter Stocking Rates Recommended

Increased profits can be expected from conservation stocking of range land, Herd Midkiff, district supervisor of the Martin-Howard Soil Conservation District reported Saturday. In comparing stocking rates on two pastures on his ranch south of Midland, Midkiff found that lighter stocking produced a 5 per cent better lamb crop and lambs weighing at least 10 pounds more per lamb. Besides increasing production, lighter stocking saves in feed and labor costs. Midkiff has reduced his stocking rate as a part of his coordinated soil and water conservation plan in cooperation with the Soil Conservation District.

Frank Midkiff also reports a heavier lamb crop as a result of lighter stocking.

North-Central Eddy Wildcat Is To Hunt Petroleum In Shallow Horizon

HOBBS, N. M. — A wildcat in North-Central Eddy County to test for pay in the Yates sandy lime, and a one-half mile east outpost to a recently lower Permian wildcat discovery, flowing from lower Permian pay at 6,845-6,995 feet, in the Yates field, in North-Central Eddy County, were reported Saturday.

Sergeant & Rutter No. 1 State, 330 feet from south and 2,310 feet from east lines of section 21-205-28e, two miles west of production in the Russell field, in North-Central Eddy, is the wildcat to the Yates. That formation is expected around 1,000 feet, and possibly higher.

Lion Oil Company No. 1 Wylie, at center of southwest quarter of northwest quarter of section 5-238-38e, is to drill to 7,000 feet, in Southeast Lea.

It is one-half mile east of DeKalb Agricultural Association, Inc., No. 1 Elliott, recently completed for an initial production of 536 barrels of oil per day, flowing from lower Permian pay at 6,845-6,995 feet. The Lion prospector is to start drilling at once.

Forest E. Levers No. 1-B Levers, Eddy County, 1,980 feet from north and 660 feet from east lines of section 34-168-29e, in the northeast part of the county, and about two miles northwest of production in the Halfway field, and about same distance south of the High Lone-some producing area, was making hole below 3,011 feet in lime.

Bailed 12 BOP
The project bailed for 12 barrels of oil per day at 2,660-65 feet, and was reported to have had an increase in oil at 2,961-41 feet.

Carl B. King Drilling Company and others No. 1 Santa Fe, in northwest quarter of section 29-98-37e, slated to drill to 5,000 feet, in extreme Northeast Lea County, had penetrated under 4,690 feet in lime.

Top of San Andres-Permian was picked at 4,170 feet, on an elevation of 4,000 feet.

Outpost Is Testing
The Texas Company No. 2 Lockhart, 660 feet from south and west lines of section 18-228-38e, on southwest side of the Drinkard area in Southeast Lea County, was swabbing to cleanout and test.

The section at 5,560-5,610 feet, had been re-treated with 5,000 gallons of acid. After 187-barrel oil load was swabbed out the development swabbed 42 barrels of new oil and five barrels of acid residue, in a 24-hour period, and was still testing.

Humble Oil & Refining Company No. 1 Cooper, in northeast quarter of section 23-248-36e, 7,500 feet wildcat in the Cooper shallow area of Southeast Lea, was bottomed at 5,657 feet in brown lime and chert, fishing for lost tools.

Humble No. 1-B Federal-Leonard, in northwest quarter of section 12-268-37e, scheduled 12,000-foot exploration in extreme Southeast Lea, had reached 5,792 feet in lime, and was continuing.

Skaggs Continues
Continental Oil Company No. 1-B-22 Skaggs, 660 feet out of northeast corner of section 22-208-37e and one-half mile northwest of production from the Wolfcamp-Permian, in the Skaggs area of East Lea County, had progressed below 8,072 feet, in lime, and was continuing.

TP Completes Gasser
Texas Pacific Coal & Oil Company No. 13-2-1 State, 1,980 feet from north and 660 feet from east lines of section 14-238-36e, east of production in the Lynn pool, in Southeast Lea, completed for a daily production of 10,900,000 cubic feet of gas, from pay in the upper Permian on a plugged-back total depth of 3,511 feet.

TP well drilled to a bottom of 3,873 feet. It had slight shows of oil at 3,576-3,715 feet. A drillstem test at 3,821-73 feet showed sulphur water.

Sunray Oil Corporation No. 1-B

Discharge Of Surplus Men At MAAF Starts; Aviation Cadet Is Released

The discharge of surplus men at the Midland Army Air Field started this week, with the release of six aircrew trainees Friday and seven officers Saturday.

The separation set-up is one of 13 similar discharge facilities authorized at various Army Air Force installations to further expedite the release of eligible personnel from the Army.

Under the new authority, the 13 stations—of which Midland Army Air Field is one—may release surplus personnel who already are stationed at their fields. They will not become separation centers, however, since personnel will not be shipped to them from other fields for discharge.

And, in addition to the capacity for discharge of each of the 13 AAF stations, the 32 AAF separation centers are continuing to operate full blast. Most of them have, in fact, increased their output of brand new civilians far above any expected quotas.

Trained Discharged
The aircrew trainees who were discharged at MAAF Friday included five on-the-line trainees and an aviation cadet. All were men who enlisted specifically for training as pilots, bombardiers or navigators.

Now that the war is over, it apparently has been decided that they can be returned to civilian life, and authority has been received from AAF Headquarters to release them.

Aviation cadets (OLCs), however, were not placed on an assigned status and were, therefore, not included in the release list.

They included Lts. Manuel V. Bettencourt, Robert E. Keyes, Manfred L. Kistler, Eugene D. Miller, Walter R. Orey, Allen G. Stephens and Chauncey O. Wirsing.

NOTICE PIANO OWNERS

Odessa And Midland 'B' Teams Will Play Grudge Game Tuesday

Midland football fans will have an opportunity Tuesday night to see a grudge game between the Midland Bulldog "B" team and the "B" Bronchos of Odessa.

In their first meeting of the season played in Odessa, the Bronchos rallied in the fourth quarter to score two touchdowns to win 26 to 14. And with this defeat in mind, the Bulldogs are out to get revenge Tuesday. The Bullpups are coached by Jack Mashburn.

The game will start at 7:30. A small admission charge will be made.

HS Boosters Club Will Be Organized

A Midland High School Boosters Club will be organized Monday at a noon luncheon in the Blue Room of the Scharbauer Hotel. Officers will be elected at the Monday meeting and plans are to have regular weekly meetings.

John Scrogin said the purpose of the organization will be not only to boost the football team but other school activities as well. Membership in the club will be limited to men.

"Organization of such a club will show the students we adults are interested in them and their welfare," Scrogin declared.

Interceptions Give Tulane Win Over SMU

NEW ORLEANS—(P)—Little Ernest Crouch, freshman quarterback, hauled in two Southern Methodist University passes and ran them back for touchdowns Saturday to give Tulane's football team its first victory of the season, 19 to 7.

A VETERAN RETURNS

Having served in every branch of our Armed Forces—and with every unit—and having been through every action in every theatre from Guadalcanal and El Alamein to Berlin and Tokyo, Y-B's are (gradually) being Honorably Discharged from the Service and will soon be home—greeting friends, old and new, at their favorite Cigar Stores.

It was GREAT being away with the boys! . . . But it's GRAND to be coming back with them!!

Sweetwater Defeats Lamesa Tornado, 14-0

SWEETWATER — Sweetwater High's Mustangs won their second District 3-AA game of the season here Friday night, downing the Lamesa Tornadoes, 14 to 0.

The first Mustang score came in the initial quarter when Elmer Shaw took the ball from Don Lambert on a double reverse and skived left end for 37 yards and a touchdown. Winston Robinson's place-kick was good. The Mustangs' second score was made in the waning minutes of play when Feagan caught a pass on the Lamesa 10 and went over.

Abilene's Offensive Clicks To Give Eagles 27-To-6 Victory Over Bulldogs

By CROM HOLMES

Abilene High School's Eagles reached the height of their offensive strength of the season in the second quarter of the Abilene-Midland football game here Friday night to score 20 points to send the Bulldogs reeling and gain a 27-to-6 victory.

The Eagles' burst of power came after the Bulldogs scored on a 70-yard play in the first quarter which gave Midland a 6-to-0 lead soon after the contest started. The Bulldogs tallied on the first play from scrimmage after stopping an Abilene drive on the 30 and taking the ball over on downs. Fullback Bobby Cole, taking a lateral from Quarterback Wilbur Yeager, dropped back and threw a 25-yard pass to Halfback Barney Hightower, who gathered it in on the 45 and scampered across the goal line. Yeager's kick for extra point was blocked.

Abilene's first score came early in the second quarter after Fullback Bill Murphey, Abilene's sparkplug, returned a Midland punt to the Eagles' 47-yard line. On the first play from scrimmage, Halfback H. D. Terry circled his own left end, and behind beautiful blocking galloped 53 yards to pay dirt. End Duane Hendley kicked the extra point which sent the Eagles ahead, 7 to 6.

The Eagles' machine was running at high gear and wouldn't be halted before pushing across two more touchdowns before half time.

Eagles Score Again

After getting possession of the ball on their own 44-yard line, Abilene put together a 11-yard pass, a lateral from Fullback Bill Murphey to Terry for 34 yards, and a 11-yard plunge by Murphey to rack up the second tally. The Midland line blocked the kick for extra point.

A few minutes later the visitors scored their third touchdown on a sustained drive from the Midland 41-yard line where they got the ball following a punt exchange. Halfback Ted Hardin scampered for 11 yards and a first down to start the drive. Murphey made eight yards before he was chased out of bounds on Midland's 22. Murphey shot Hendley a 16-yard pass which carried to the 6-yard line. Terry plunged for the touchdown, and Hendley added the extra point. Abilene led at the half, 20 to 6.

Third Period Scoreless

Midland's line braced in the third period and the Eagles were held scoreless. Unable to gain consistently against Abilene's line, the Bulldogs took to the air. Most passes were battered down or fell incomplete, but a pass from Hightower to Left End Ben Olliff connected for 34 yards. Neither team threatened seriously in the period.

Early in the fourth quarter Abilene opened a drive which carried 65 yards for a touchdown. With Murphey and Hardin doing most of the ball carrying, the Eagles advanced to the 6 from which Hardin pushed over for the score. Hendley's kick was good.

Midland opened its aerial offensive again. Yeager passed to Cole for a 29-yard gain, then two plays later he tossed to Henshaw for 9. But Abilene kept Midland pretty well back in its territory and the Bulldogs did not make a serious scoring threat. The game ended with Abilene on Midland's 26-yard line.

Odessa Broncs Beat San Angelo, 7-To-0

ODESSA—The Odessa Bronchos rode to victory over the San Angelo Bobcats, 7-to-0, here Friday night on a first quarter touchdown, after Sophomore Byron Townsend put the Bobcats in a hole with a punt that went out of bounds on the one-yard line.

San Angelo punted weakly to Townsend on the 30 and he returned the ball to the 25. Pug Gabrel scampered 22 yards to the three-yard line. Fry plunged to the one, and Townsend plowed over for the touchdown and then kicked the extra point.

Arzelo threatened seriously in the third period. Pete Renner, Bobcat end, intercepted an Odessa pass on his 35-yard line and sprinted 57 yards before being hauled down on the Bronc eight. The Bobcats hit the line twice for no gain. Dodson lost nine yards on a pass attempt. On fourth down the Bobcats got as far as the seven-yard line and the ball went over on downs.

Thompson, Odessa's ace, made runs of 36 and 24 yards, but was pretty well bottled up with those exceptions.

Odessa made 10 first downs to San Angelo's 7.

Junior High Team To Play Lamesa Thursday

Midland Junior High School will open its 1945 season with a game Monday with the Lamesa Junior High team at Lamesa. The Midlanders are coached by Claude Daniels.

A return game is scheduled for November 28 on the Midland athletic field.

Rice Upsets Favored Texas Longhorns, 7-6

AUSTIN—(P)—The Longhorns of the University of Texas fell from the unbeaten ranks Saturday, nipped by previously under-rated Rice Institute, 7-6, in a Southwest Conference game before 23,000 howling customers.

Texas was in the hole most of the afternoon and was edged out by Rice in most departments.

A&M Overtakes Baylor To Win Tussle, 19-13

COLLEGE STATION—(P)—The Baylor Bears, noted for being the most unpredictable team in the Southwest Conference, proved it again Saturday by fumbling away a ball game 19 to 13 to Texas A&M.

After playing smart, hard-hitting and heads up ball through the first period, leading 7 to 0 at half-time, the Bears let down and the alert Aggies collected on every miscue.

Heads of colleges and universities in America are known as presidents, rectors, chancellors, provosts and principals.

Members Of Midland Garden Club Are Hostesses For Tea And Flower Show Friday At Home Of Mrs. C. P. Yadon

One of the highlights of the fall entertainments was a tea Friday afternoon at the home of Mrs. C. P. Yadon on the Andrews Highway with members of the Midland Garden Club serving as hostesses.

The Yadon home was decorated with a lovely array of floral arrangements made by club members. Those having arrangements on display were Mmes. F. G. Aldrich, H. L. Anderson, Butler Hurley, W. C. Cremin, W. H. Gilmore, E. S. Longscope, Lloyd C. Mills, E. R. Osburn, Ray Pool, E. E. Reigle, A. L. Repecka, Frank Stubbeman, Addison Wadley, E. W. Vanderpool, Leslie T. Brown, R. K. Deford, J. E. Hill, J. A. Mascho, T. T. Walker, Yadon, and Orilla Osburn, Jr.

As the guests arrived they were greeted by Mmes. Yadon, Aldrich, Anderson and L. C. Link. Corsages were presented by Mmes. Reigle, Mascho and Ralph Trostch. In the living room were Mmes. Deford, Walker, Pool, Wadley, Hill and E. H. Davidson. Mrs. Osburn and Mrs. Cremin were general chairmen for the entertainment. Preside at Tea Service

Mmes. Longscope, Repecka and Gilmore alternated in presiding at the silver tea service. Assisting in serving were Mmes. Hurley, Stubbeman, Neely, Brown and Mills. Incidental piano music during the afternoon was played by Mrs. Vanderpool.

The tea table was attractive with a white maderia cloth and a centerpiece of orchid chrysanthemums. Flanking the centerpiece were pink tapers in silver holders. Decorating the buffet was a bouquet of yellow dahlias and chrysanthemums with bud vases of roses on either side.

Among those flowers on display were roses, dahlias, chrysanthemums, cosmos, marigolds, violets, petunias, pyracantha, galliardo, queens wreathe, everlasting, asters and others.

Fruit and vegetable arrangements were featured in the sun porch with the paneled walls furnishing

Casting For Civic Theater Play To Begin Monday

Casting for the new Civic Theater play, "It Pays to Advertise" by Mervyn LeRoi, will begin at 7:30 p. m. Monday in the Civic Auditorium. At 7:30 p. m. Tuesday in the auditorium, regular and patron members of the theater will meet for a business session.

"It Pays to Advertise" was on Broadway for two years in George M. Cohan's Theater and also was produced in London. It has been hailed as an outstanding play and was selected by leading dramatists as representative of American witicism.

Characters are as follows: Syrus Martin, a tyrannical yet self-made millionaire whose crusty manner does not conceal his warm heart. Rodney Martin, son of Syrus, "not a chip off the old block" but a typical spoiled son—not brainless, just undeveloped. Mary Grayson is a smart girl who knows what it is to work for a living, but is willing to marry the man she loves even if he is a millionaire.

A terrific promoter, Ambrose Teale never gets in a situation he cannot talk himself out of. He can talk on any subject and even if he has never heard of it before, he is still an expert. Countess Beaurien, "La femme fatale," is Texas Guinn with a French accent and a yen for a high finance on everything likely to place her in high income brackets.

Ellery Clark, like Rodney Martin, is unfortunate in that he is also a millionaire's son. He divides interest between spending his father's money and pursuing every good-looking girl.

Others are Marie, the maid; Johnson, a hoity-toity; William Smith, a family friend; Charles Bronson, a successful business man; and Jane Miller.

Preaching Mission At Episcopal Church Will Begin Sunday

The Rt. Rev. E. H. Jones, bishop of the West Texas Episcopal church, will conduct a preaching mission at the Trinity Episcopal Church beginning Sunday at 11 a. m. Confirmation and morning prayer will be held and the Rev. R. J. Snell, rector, will present the class for confirmation.

Services will be held at 8 p. m. Monday, Tuesday and Wednesday. Bishop Jones will address the United Council of Church Women at 3:30 p. m. Monday at the Episcopal Church. He will give a talk at a dinner meeting at 6 p. m. Monday for the Episcopal Men's Club in Hotel Scharbauer. Wednesday he is scheduled to speak at the Lions Club luncheon.

He was consecrated bishop of West Texas in September, 1942, having served as rector of churches in San Antonio and Washington, D. C., before that time.

Miss Evelyn Woodson Brewster Of Austin Will Be Wed To Payton Victor Anderson

December 9, in the Presbyterian Church in Austin.

Both Miss Brewster and Mr. Anderson are former students at the University of Texas in Austin. The bridegroom-to-be received his degree and is now a geologist with the Humble Oil Company in New Orleans.

The marriage will be solemnized

Plans Are Completed For Masquerade Party At Post Service Club

Plans have been completed for the Halloween masquerade party for Midland Army Air Field officers and their guests at 7:30 p. m. Wednesday at the Post Service Club.

A buffet supper will be served and will be followed by dancing. Guests are requested to come masked, and a fine will be assessed to those who do not comply. Fines will be contributed to the Community War Chest Fund.

Prizes will be awarded to both men and women for the most attractive, the most unique, the most appropriate and the funniest costumes. Arrangements have been made to present prizes in various dancing contests to be in progress during the evening.

Women serving on committees are Mmes. George C. Doyle, R. B. Gooch, B. B. Klose, Paul A. Miller and Howard Watkins. Members of the Officers' Club Council assisting are Maj. Julius Pickoff and Capt. C. M. Gleason, R. L. Glasser, Harold Price and Paul Miller.

WIVES OF MILITARY PERSONNEL MAKE SURGICAL DRESSINGS

Wives of military personnel met Friday morning at the Salvation Army USO to assist in making surgical dressings for the hospital at Midland Army Air Field. A short business session was held.

Those present were Mmes. Paul Miller, R. B. Gooch, Charles G. Cox, Lawrence Brady, G. E. Narramore, C. R. Herring, Chester P. Giger, M. B. Richmond, C. J. Manske, Karl Reidenback, Richard McCauley, J. G. McNally, H. E. Watkins, J. F. Welch and R. L. Glasser. The group will meet from 9:30 a. m. to 12 noon next Friday at the USO to make surgical dressings.

Girl Scout Troop Eight Makes Inspection Tour Of KCRS And Transmitter

Members of Girl Scout Troop Eight visited the Midland radio station, KCRS, Thursday afternoon. They were accompanied by Mmes. Holt Jowell, D. R. Carter and E. W. Anguish. The group also made an inspection tour of the radio transmitter west of town.

Those present were Jean Ferguson, Peggy Charlton, Sue Johnson, Peggy Minear, Margie Beth Carter, Betty Jean Wilson, Adele Blackman, Jerlen Jowell, Joyce Howell, Suzanne Young, Dephané Tabor, Sue Corser, Gloria Anguish and Hazelip.

Luncheon Meeting Is Enjoyed By Members Of Ladies Association

Progressive bridge was played following the luncheon meeting of the Ladies Association of the Midland Country Club Friday at the club. Hostesses were Mmes. L. G. Lewis, H. A. Hemphill and W. I. West.

High prize in the games of bridge was won by Mrs. West with second high going to Mrs. Lewis. The bingo award was presented to Mrs. Johnny Coulter.

During the business session, two new members, Mrs. Ted Lowe and Mrs. Henry Oliver, were introduced. Those present were Mmes. Payton Anderson, Ida Faye Cowden, G. E. Crays, James Chapple, D. R. Dickson, Frank Downey, D. R. Carter, J. A. Dillard, Joe Beakey, Coulter, Lewis, Bob Franklin, W. G. Henderson, Fred Hogan, Ralph Lowe, Ted Lowe, Oliver, Frank Johnson, Frank Hawk, Robert Roark, West, John Richards, R. L. Wood, E. A. Culbertson, Hemphill and W. L. Kerr. Guests were Mrs. James Vevan, Nina Mitchell and Jean Lewis.

Members are reminded to arrange for fourmes following the luncheon meeting at 1 p. m. next Friday at the Country Club.

Bishop E. H. Jones Will Speak At Meet Of Church Women

The Rt. Rev. E. H. Jones, bishop of West Texas Episcopal churches, will give a talk on the subject "My Part in the World Today" at a meeting of the United Council of Church Women at 3:30 p. m. Monday at the Trinity Episcopal Church.

Bishop Jones is conducting a preaching mission at the Midland Episcopal Church. He was consecrated bishop of West Texas in September, 1942. Before that time he was rector of St. Mark's Church in San Antonio, rector of the Episcopal Church in Waco and connected with the Cathedral in Washington, D. C. He is a native Texan.

World Communion Day will be observed by the United Council of Church Women in the Monday program. Following the meeting, the group will assemble at the home of Mrs. Ralph Lowe, 301 North F, where tea will be served.

A nursery will be open at the First Presbyterian Church for small children during the meeting.

VISIT IN ABELL HOME
Mrs. Atwood McDonald and daughter, Marilyn, of Fort Worth, are visiting in the home of Mr. and Mrs. George Abell. Mr. McDonald is chief justice of civil appeals in Fort Worth.

FORMAL OPENING

John H. Hughes announces the opening of

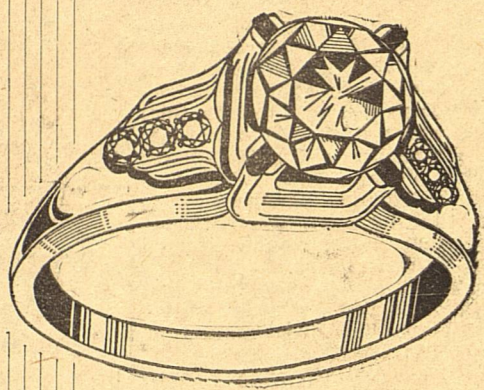

HUGHES JEWELRY CO.

203 W. Wall St.

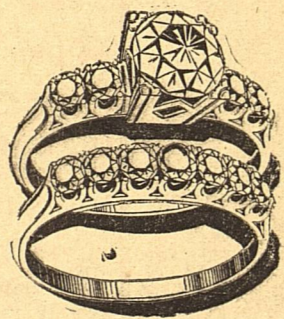

(Next to Cactus Cafe)

Monday, October 29th, at 9:00 a. m.

With 15 years of jewelry experience in West Texas, 7 years in Midland, we assure you that we will carry a complete line of jewelry and gift items, including a large line of diamonds and watches.

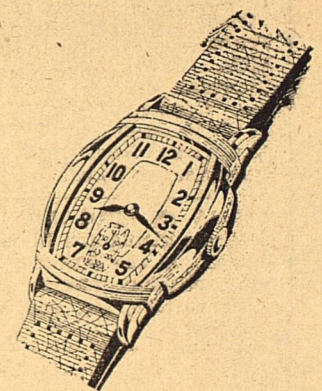

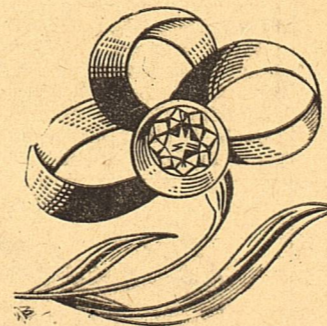

Exquisite diamond rings for men and women, beautifully designed; rings that will distinguish themselves among others.

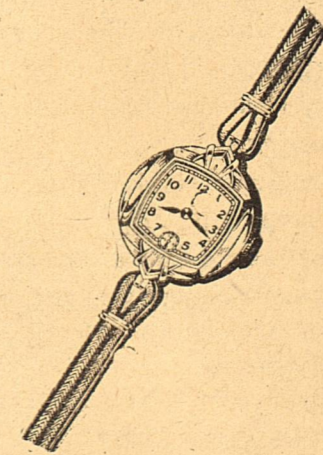

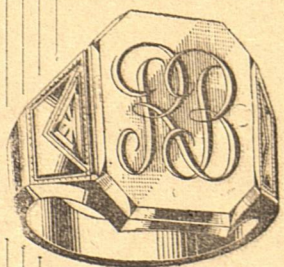

Lovely diamond engagement rings and diamond encrusted wedding bands; matched sets or singles; sets which will reflect the beauty of the occasion.

Costume jewelry to brighten that new Fall outfit; designs which will add that dash of color; jewelry which will bring admiration.

Smart men's wrist watches; water-proof, shock-proof, dust-proof, in numerous styles. A large selection of good-looking bands to match in gold or silver.

Handsome men's initial and other styled rings set in heavy gold or silver. Rings that any man will be proud to wear.

Ladies' wrist watches; jewel inlaid; in gold or silver cases of dainty design; all famed for accuracy and dependability.

Hughes Jewelry Co.

at 203 W. Wall St.

(Next to Cactus Cafe)

Numerous Changes Are Made At MAAF

Numerous personnel and assignment changes have been made at Midland Army Air Field, with the provost marshal's office being moved to the east wing of the guard house. Enlisted classifications moved into the vacated office.

The awards and decorations office moved into the office formerly occupied by Major Pat Warren. Capt. Robert W. Boyd, personnel officer, moved into the former awards and decorations office.

Capt. Lee C. Black, formerly of Carlsbad Army Air Field, became classification and assignment officer, replacing Lt. Kenneth M. Nuhn.

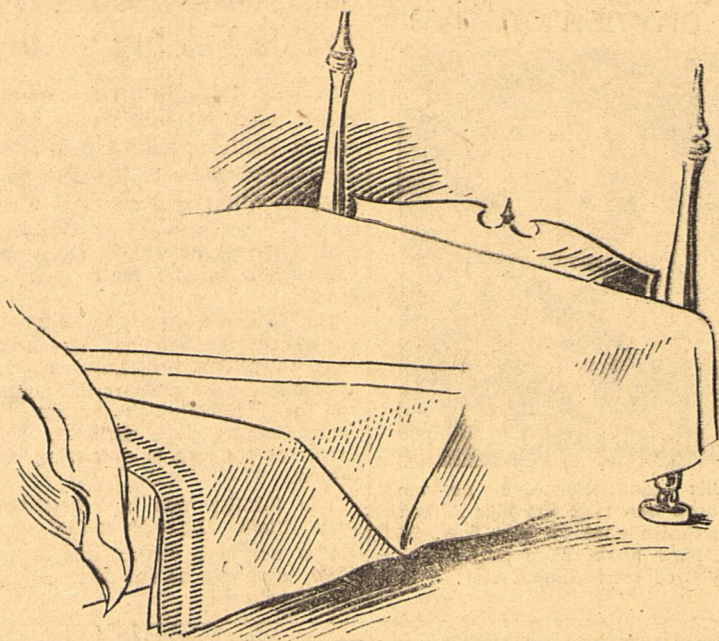

Capt. Allan E. Poole, Squadron A commanding officer, left the field this week for another assignment, and Lt. Richard E. Smith became CO of Squadron A.

Capt. Miles M. Olson, former assistant commander of Squadron H, took over as commanding officer of Squadron I. The assumption of duties as commanding officer of Squadron H fell to Maj. Ben. S. Murphy.

When Lt. Edward C. Nelson left to be separated from the service, Lt. Charles W. Cornelius was assigned as passenger and freight transportation officer.

Maj. Bryant C. Bartlett, formerly of Selman Field, arrived at Midland Army Air Field last week and was assigned as provost marshal.

Hot For Winter

This winter, when thermometers dip to new lows, you needn't pile on several blankets to keep warm. By spreading a sheet over the top of your woolen blanket as well as beneath it, you'll increase its warmth by 50 per cent, says a correspondence school home economics expert.

The reason, she explains, is that sheets act as an airtight insulation board, holding in body heat trapped in the air meshes of the blankets. Try it and see how much more rested you'll be when not weighed down with several coverings.

MAAF Ladies Club To Take Part In Clothing Drive For France

The National Association of Air Forces Women has undertaken the task of gathering clothing and blankets for the people of France in a manner which they feel can help repay a debt of honor that is close to the hearts of the U. S. Army Air Force.

Members of the Ladies Club of Midland Army Air Field will open the drive in Midland on Nov. 1 for clothing and garments urgently needed by the French people during the coming winter. The necessity for clothing is vital, and it is important that this drive be met with a complete and thorough challenge, members of the club pointed out.

Airmen who fought over occupied France along with the personnel who received direct aid which later culminated in their escape, are well-informed on the hardship and set-backs willingly absorbed by the French. The people of France showed utter disregard for their personal safety in order to return American airmen to Allied forces.

The drive will continue two weeks. Boxes will be placed in conspicuous places at MAAF for the purpose of collecting donations.

PLAY IS PRESENTED BY THIRD GRADE AT ASSEMBLY PROGRAM

A play, "Brier Rose," was presented by the third grade of North Elementary School at the assembly program Thursday. Miss Sara Neale was in charge of the play.

Characters were: Jerry Sides, reader; James Claiborne, king; Nancy Guyton, queen; Rose Retta Hazlip, Bryer; Loretta Blanton, nurse; Janeda Wilcox, old lady; James Wolfe, prince; Lynette Howell, Janice Rhodes, Barbara Munson, Betty Sue Crump, Shirley Robertson, Judith Cole, Carrie Phillips, Willie J. Beasley, Peggy O'Neal, Patricia Faulkner, Jo Nell Cherry, Margaret Arleage and Jan Scott, fairies.

Harvey Brown, Dickie McHargue, J. Van Arthur, Charles Hammer, Jay Leggett, and Robert Midkiff, pages; Chester Sinclair, Larry Clark, Turner Tabor, Clifton Newton, George Brown and Howard Reed, soldiers; and Lee Wood, Troy Allen and Robert Gray, guards.

The remainder of the program included piano numbers by Peggy O'Neal and Barbara Munson; violin solo, Jan Scott; poem, "A Spooky Song," Lonette Blanton; and poem, "Jack-o-Lantern," Janeda Wilcox.

Many Votes Cast In Carnival Queen Race

A total of 18,244 votes were cast in the voting for carnival queens Friday at the John M. Cowden Junior High School. The second primary of the election will close at 8 p. m. Wednesday at the carnival. The queens will be crowned in front of the stands on the west side of Lackey Field, with other candidates serving as attendants.

Winners in the Friday voting were: Sarah West, room 8-A, 2,141 votes; Madlin Scharbarum, room 6-B, 2,048; and Mary Wilson, room 6-D, 1,875. Other candidates were: Toya Charple, room 7-C, 1,832; Marion Sevier, 6-A; Doris Hightower, 6-C; Swann Hagler, 7-A; Beverly Keisling, 7-B; Deplane Tabor, 7-D; Mary Lou Price, 8-B, and Nancy Gray, 8-C.

Top winners in the fourth and fifth grade division were as follows: Melvina Brashears, 5-D, 1,526 votes; Charlene Wood, 5-C, 1,234; and Glenda McNeal, 4-C, 900. Also Jo Ann Bassah, 4-B; Rinda Regent, 4-A; Wanda Moore, 4-D; Peggy Thornton, 5-A, and Patsy Yeager, 5-B.

The public is invited to attend the carnival to begin at 6:30 p. m. Wednesday at the west gate of Lackey Field.

First Grade Pupils Of North Elementary School Give Assembly Program

First grade pupils of North Elementary School, under the direction of Mrs. Lavera Hummell, presented a program Tuesday morning at the school.

A group of 10 boys presented short verses from the book, "Ten Little Colored Boys," after which the pupils sang "Ten Little Negro Boys," and Lou Elynn Ferguson presented a piano selection.

Abilene Visitors

Mrs. Joe Whitmire and children of Abilene are visiting in Midland. Marshall Whitmire is a student at Abilene Christian College.

VISITS IN VANNAMAN HOME

Visiting in the home of her parents, Mr. and Mrs. George Vannaman, is Miss Ann Vannaman, a student at the University of Texas

COD LIVER OIL IS NEW BEAUTY AID

By ALICIA HART, NEA Staff Writer

Cod liver oil has come out of the nursery and appears in a new role on milady's dressing table. For its first step into the sophisticated world, the oil retains its vitamins A and D, but sheds the "fishy" odor and becomes an important ingredient in a sweet-smelling foundation liquid now on the market.

Developed for use on every type of skin, the pink-tinged translucent liquid goes on smoothly and acts as a blending agent for powder and rouge. The cosmetic effect is on the dewy side, and powder adheres evenly, although yours is a normally oily skin.

Back to the oil—its external therapeutic properties are said to be beneficial to the complexion.

Commemorative

This commemorative postage stamp honoring the late Alfred E. Smith goes on sale Nov. 26 in New York. It is purple and of conventional size.

County Has Second Traffic Fatality

Midland County had its second traffic fatality for the year when Joseph Willig of Odessa died early Saturday morning in the field hospital at Midland Army Air Field from injuries suffered when a car struck him as he walked along the highway near the main gate of MAAF.

The car was driven by a Stanton man, who reported the accident to Midland officers, Sheriff Ed Darnell said a court of inquiry will be held Monday morning in connection with the accident. The driver of the car is not being detained.

The fatality was the first this year outside the city limits.

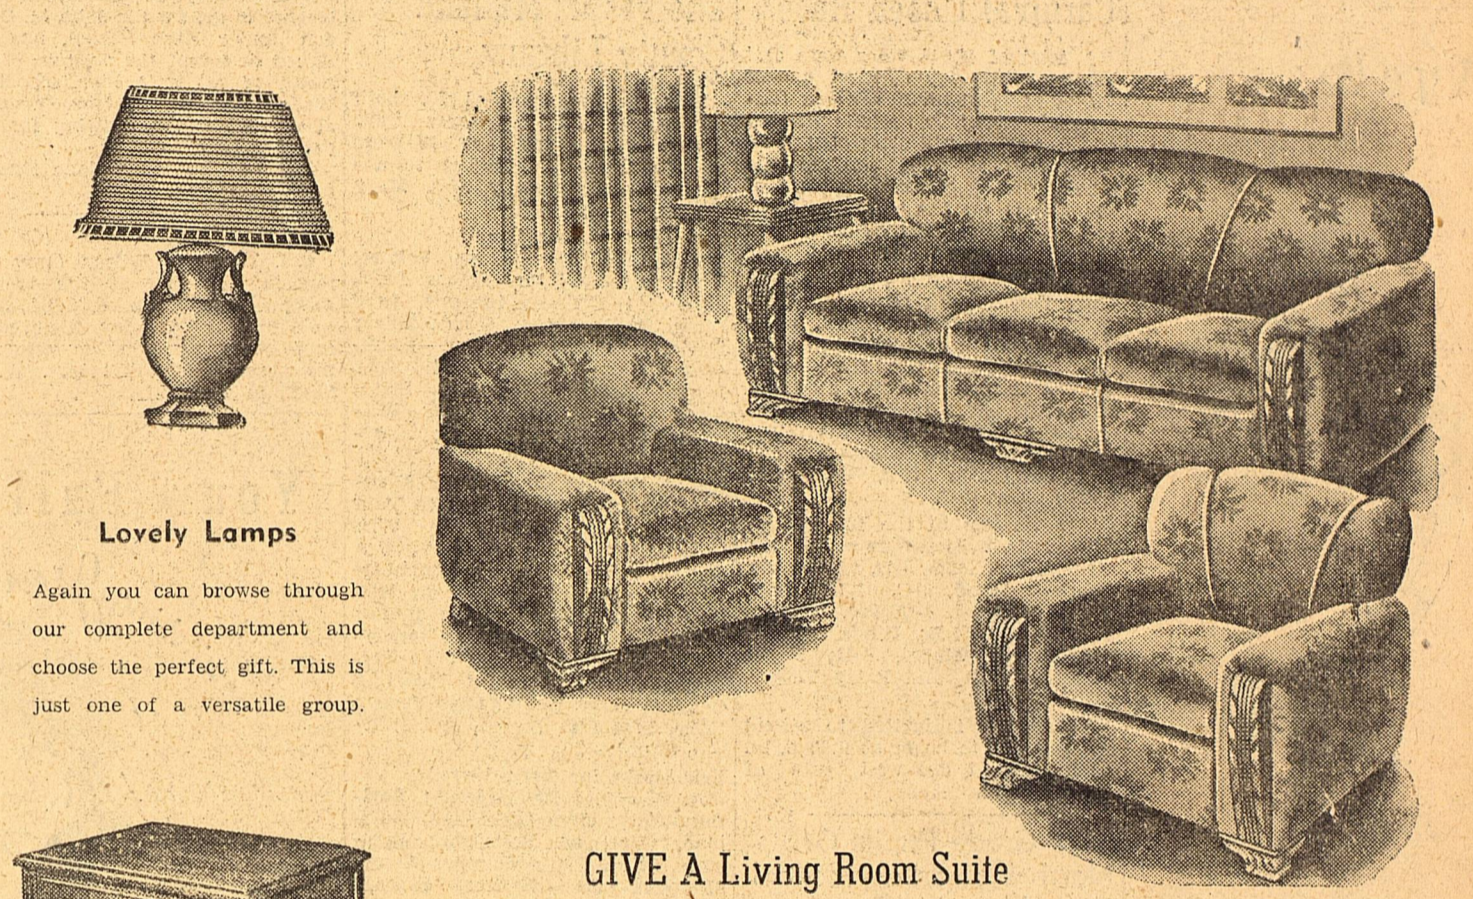

The accident victim was a civilian employee at the officers club at MAAF.

The Saxons were mentioned for the first time by Ptolemy about the middle of the second century.

Needlework Lovers

For the reader desiring the address of a needlecraft magazine, Mrs. L. K. L. Minnesota writes: "I'm sure the needlework lover would like Aunt Ellen's WORKBASKET. This monthly pattern and direction service brings the latest creations in handcraft and needlework from the country's foremost artists and designers. It is \$1.00 a year for twelve issues, but no samples are sent because each issue contains large hot iron transfer patterns as well as ideas for such items as dollies, edgings, bedspreads, tablecloths, hats, bags, and baby's things. Orders should be sent to the WORKBASKET, 2633 Westport Station, Kansas City 2, Mo." If you are not delightfully pleased with the first issue, Aunt Ellen will return your dollar and you may keep the material you have received without any obligation.—Adv.

Gifts for the Home

Nothing so enduring and practical as... Lovely Lamps... GIVE A Living Room Suite... Think of the long years of comfort and satisfaction that a suite like this will bring, with its luxuriously sized pieces... beautifully carved frames, and a most interesting choice of fine fabrics.

The Japs Are Returning Home, Too

In Japan, as in many other nations, soldiers are returning from the wars. Typical is the photo, above, of a Jap soldier, heavily burdened by huge pack, as he is greeted by his wife and child at a railroad station 80 miles south of Tokyo. Photo by Dave Davis, NEA Service-Acme Newspictures warpool photographer.

Battle-Scarred Old-Timers Set Glorious Records

By S. BURTON HEATH
NEA Staff Correspondent

NEW YORK — The Navy's old-timers, obsolete by every standard of naval architecture, took everything the Japs could hand out and contributed enormously to final victory. These ships made history — magnificent history — before coming home for Navy Day.

Consider, for example, the venerable battleship New York, commissioned in 1914. She made her fame in World War I, supported the invasion of Morocco, then went to the Pacific and was the only major fleet unit that stayed on the job throughout the entire 78 days of the punishing action at Okinawa.

Survived Many "Sinkings" — The battleship New Mexico, commissioned in 1918, wasn't too old to participate in almost every major Pacific action from Guadalcanal through Okinawa. She wasn't too frail to withstand three kamikaze hits — one in which the Divine Wind smacked square on the navigation deck, killing the commanding officer and 29 others and wounding 87; another when the suicide plane hit the gun deck, killing 58 and wounding 121.

New Orleans is honoring the battleship Mississippi, 29 years old and sometimes called the "Ghost Ship" because the Germans twice and the Japs once announced that they had sunk her. Twice she was hit by kamikazes, yet she survived to fight from the bitter North Atlantic to the sweltering Solomons, from the Aleutians to the China Sea. She lived to help support virtually every amphibious landing in the Pacific, and finally to enter Tokyo Bay in triumph.

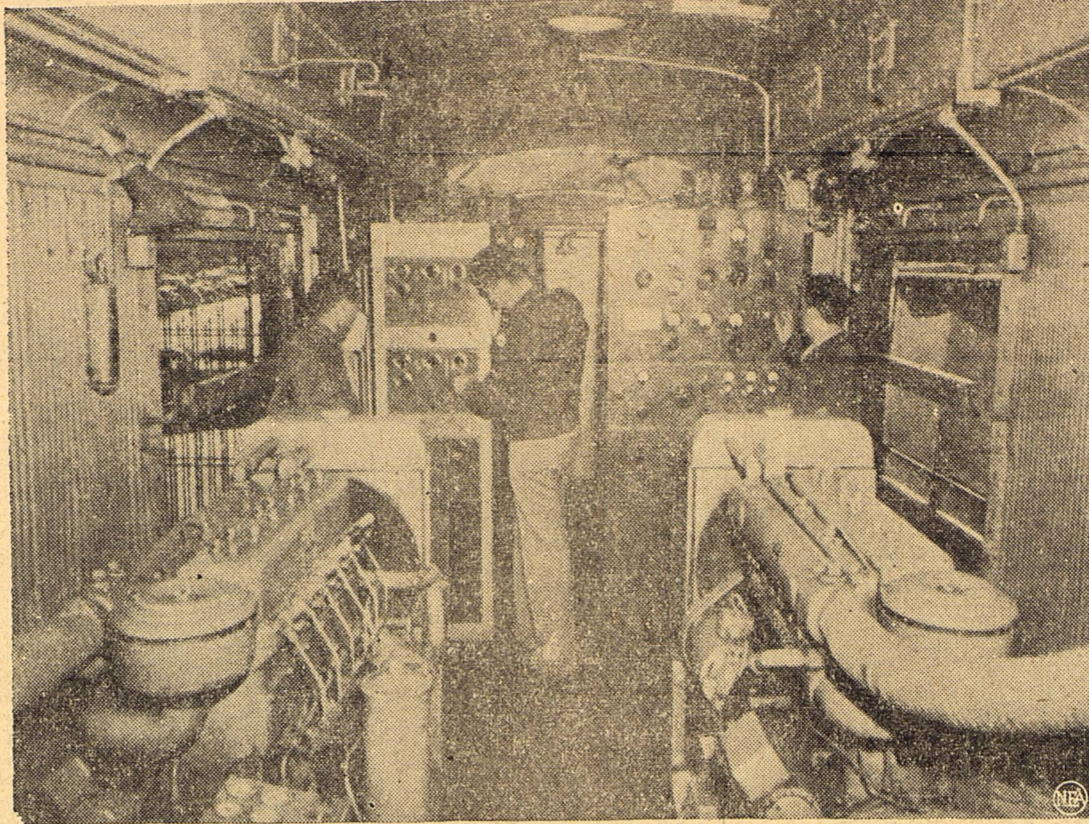

Great Aircraft Carriers — Nor was the aged Enterprise the only carrier that performed nobly. Directly across Pier 26 from her, in New York, lies the light carrier Monterey, whose planes helped to sink five Jap warships and to damage others. Her fighters ruined almost 500 Jap planes in the air and on the ground, and dumped bombs on almost 300 ground targets.

Historic, too, are the exploits of some of the Navy's newer vessels. These warships have impressive scoreboards.

Millions Of Tons Sunk — The destroyer Sterett helped to sink a battleship, a cruiser and a destroyer. By herself she sent two destroyers and 14 planes to the Pacific's bottom.

The submarine Rasher, like the Enterprise, sports a Presidential Unit citation. Her bag includes a Jap cruiser, destroyer and five cargo ships of 55,700 tons aggregate on a single patrol. The submarine Raton has verified claims to 22 Jap ships sunk and six damaged. The Silversides sank 29 Jap ships and damaged 15, and has a Presidential Unit citation. The Thresher not only sank seven vessels and damaged the same number, but helped to save our forces on Okinawa by sending information that enabled carrier aircraft to sink a large enemy task force. The Bowfin has a Presidential Unit citation, plus the proud boast that she sent 44 enemy ships to Davey Jones' locker and damaged seven more in two years of Pacific duty. The Crevalle's seven tours cost the Japs 115,000 tons of shipping sunk and 36,000 tons damaged.

President's 'Communications Center' on Wheels

When the President travels by train he keeps in instantaneous touch with whatever may be going on, and the photo above explains how he does it. Shown is the interior of a former Pullman car converted into a "communications center" for the Chief Executive. Equipment includes generators, teletypes, devices for scrambling and unscrambling secret messages and a two-way phone for direct communication with the White House. Three of the six-man crew pictured above are, left to right, T/Sgt. Wayne O. Schell, Chief Warrant Officer Frank E. Stoner and S/Sgt. Eckert Argo.

AUSTIN TO CELEBRATE TURKEY DAY NOV. 29

AUSTIN — (AP) — Despite Congressional declaration and Gov. Coke R. Stevenson's intention to proclaim Thanksgiving on Nov. 22 this year, Austin wholesale and retail merchants have voted to observe Nov. 29 as Thanksgiving.

A principal reason: An estimated 6,000 Austinites hold tickets to the Nov. 29 University of Texas-Texas A&M football game at College Station.

IT SEEMS FATHER DOHERTY WAS TAKEN FOR A RIDE

— GERVAIS, ORE. — (AP) — Father Martin Doherty, Catholic priest and author, gave a ride to a hitchhiking soldier bound for Washington state. Seeking to help the soldier farther, hospitable Father Doherty invited him to spend the night at his home here before he resumed his journey.

Next morning the soldier was gone. So was Father Doherty's car. It turned up later, near the Washington town for which the soldier was heading.

Dec. 3 Marks End Of Science Search By Westinghouse

The fifth annual Science Talent Search, sponsored by Westinghouse, will be conducted this year throughout schools all over the United States.

There are no age limits for competition, but the contestants must be seniors in high school. The requirements for persons entering are: each contestant must take the Science Talent Search examination on or before Monday, Dec. 3, 1945, each contestant must submit an essay, certifying teachers must fill out in each examination blank a scholarship record and personal record, and all entries must reach Washington, D. C., on or before Dec. 27, 1945.

The winners, one boy and one girl, will receive four-year scholarships of \$2,400 each. Honorable mentions will be awarded and there will be eight awards of \$400 for four-year scholarships and additional scholarships to be awarded at the discretion of the judges.

Any senior interested in taking the exam and entering a theme is asked to consult Miss Margaret Stuart, science teacher.

MRS. W. E. RYAN IS VISITING FRIENDS HERE

Mrs. W. E. Ryan, who now resides in Nashville, Tenn., is a visitor in Midland. She has purchased a new home in Nashville.

RETURNS FROM CARLSBAD

Mrs. Barbara Wall returned Friday from Carlsbad, N. M., where she visited her son-in-law and daughter, Mr. and Mrs. V. E. Payne.

Centenarian

At 100 years of age, Mrs. Louisa K. Kennedy, above, of Atlanta, Ill., recalls Abraham Lincoln as "an awfully homely boy who liked grandmother's cooking." A Civil War bride who has lived through six wars, Mrs. Kennedy has three daughters living, four grandchildren and three great-grandchildren.

New Camera Will Make Television Broadcast Of Grid Games Possible

NEW YORK — (AP) — A camera which will bring television out of the studio and make it possible to telecast anything the eye can see comfortably, has been announced by the Radio Corporation of America.

RCA and the National Broadcasting Company, which operates the New York television station WNBC, has demonstrated the camera which features a new tube which can see at times better than the human eye.

The device picked up studio scenes with the aid of a small flashlight, a couple of candles, a match and even the glowing end of a cigarette.

What's more, it reproduced a scene in the dark, relying only on infra-red rays—which the human eye cannot see at all.

The new tube, a wartime development described as "image orthicon," will make it possible to telecast news events, indoor meetings, and football games down to the last play in waning light.

"It assures television of 24-hour coverage" in any weather, said John Royall, NBC vice-president.

Addison Wadley, Midland Merchant For Forty Years, Is Happy In New Business

Addison Wadley, Midland merchant for 40 years, is in business again and happy in his work in his new store at Main and Wall Streets.

Wadley's Household Equipment Company is open for business in its new home, one of the most attractive business houses in Midland. Associated with Wadley in the business are his son, Lt. Barron Wadley, overseas in the Army, and his daughter, Miss Marian Wadley.

During the coming week, Wadley's will display the first General Electric postwar refrigerator here along with other postwar GE home appliances. The store features a complete line of electrical equipment and has the General Electric franchise for Midland County.

"We have used the word 'equipment' rather than 'appliance' for a reason," Wadley explained. "We will handle anything in the way of household equipment which we feel is good business."

"In addition to the complete line of General Electric refrigerators, washers, radios, ironers, freezers, heaters, air conditioners and appliances, we will handle Philco radios, Magic Chef ranges, Easy washers, Chambers ranges, and numerous other lines of nationally-known merchandise.

"We plan to open a first-class service department as soon as the

Addison Wadley

right kind of service men are available."

An elevator is being installed to serve the basement of the building which will be finished in keeping with the attractive interior of the store so that it also may be used as a display room as well as for warehousing of merchandise.

Two radio and phonograph rooms are being furnished and air conditioned.

"This business has been planned for the future," Wadley explained, "rather than for the year or two of flush postwar business."

James P. Smith Is Back In Midland

Mr. and Mrs. James P. Smith and daughter, Gwyneth Ann, have returned to Midland to make their home. Smith was in the Navy for three and a half years. He will rejoin the law firm of Whitaker, Turpin, Kerr, Smith and Brooks.

Lost Battalion Yanks Were Beaten But They Never Lost Courage

TEMPLE — (AP) — Three members of Texas' Lost Battalion are resting up at McCloskey General Hospital where they compare experiences.

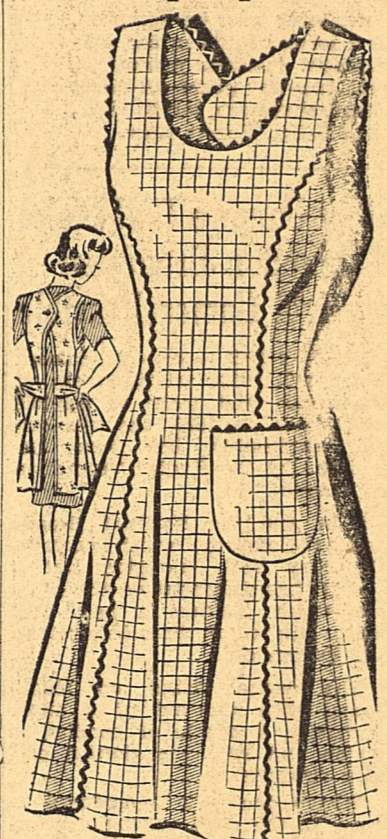

The members of the 131st Field Artillery outfit at the hospital include Cpl. Deniz O. Shores of Abilene, Cpl. Herbert R. Morris of Cisco, and Sgt. Earl F. Baldoock of Big Spring.

"We got hell beat out of us," Shores declared. "The Japs beat you with anything. Baldoock got beaten with a bull whip. Nineteen out of 20 of us got it."

"In my camp we were glad to get dog and cat meat," Morris said. "We even ate snails. You learned how to take care of yourself or you didn't live but even so I figure we lost 35 per cent of our men. I was lucky. When I had diphtheria they sent me to the Singapore hospital and they had serum there."

"We got rumors every once in a while, particularly after we got to Saigon," Baldoock stated, "and we never lost hope."

Pretty Apron

8863
34-48

By SUE BURNETT
Wonderfully easy to make and fun to wear. This pretty cover-all apron has just three pattern pieces. Make it in gay checks, floral prints or polka-dots.

Pattern No. 8863 is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, requires 2 1/2 yards of 35-inch or 39-inch material; 8 yards ric rac to trim.

For this pattern, send 20 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, The Reporter-Telegram, 530 So. Wells Street, Chicago 7, Illinois.

Naval Ship Hits Jap Mine

Overboard by rope and net scramble the Naval crew and soldiers after the U. S. S. President Coolidge struck a Jap mine and sank off the Solomons in 1942. The nation celebrates Navy Day and Navy Sunday on this weekend in tribute to the men in blue.

PUT PERFUME ONLY ON CLEAN SKIN

By ALICIA HART
NEA Staff Writer
The atmosphere established by thoughtful selection of perfume may be destroyed if an evening scent is carelessly dabbed over a daytime scent. To retain its greatest effectiveness, perfume should be applied only to a clean skin.

Esme of Paris, vivacious perfumer, suggests that American women, always rushing and on the go, should apply perfume only on the knee caps. By doing this, she says, the woman who doesn't have time for a complete bath between perfume changes has only her knee caps to wash thoroughly.

Consider what message you wish to send and what type of atmosphere you wish to create when you

choose perfume. During the daylight hours, strive for an aura of fresh fragrance with a light floral perfume or cologne. The heavier, more seductive scents are reserved for the after 5 o'clock hours.

Whatever perfume you wear, regard its use as a ritual. Exercise cautions. Never never dab it on in public, but apply it alone and behind closed doors.

Texas Paratrooper To Follow Dad In Getting Release From Army

BERLIN — (AP) — Pvt. Richard Eckles of the 504th Parachute Infantry Regiment is anxious to get home to his pretty wife, Peggy, in Brownwood, Texas, but he is just as glad that "Pop" will get home first to see "Mom" in Columbus, Ohio.

"Pop" is Sgt. William M. A. Eckles of the 718th Railway Battalion at Nancy, France. "Pop" has only

46 points to son's 48 but "Pop" is getting out first—and likely soon—because of his age. "Pop" is 39 and son is 21.

Father and son both were drafted. Richard, an only child, was inducted June 26, 1943, from Toledo where he lived in suburban Waldridge. Father was called up Aug. 13, 1943, from Columbus. "Pop" went overseas on July 20, 1944, and Richard followed on Jan. 31, 1945. They have met twice since being overseas.

Richard holds two battle stars and the Purple Heart for a wound suffered at Eldena, south of Schwerin, just four days before V-E Day.

Richard and Peggy were married a year ago. She is living in a civilian housing project in Brownwood.

OBTAIN MARRIAGE LICENSE
A marriage license was issued Friday at the office of County Clerk Susie G. Nobel for Guyton Neff Young and Rama Irene Barber.

Greathouse To Erect Business Building

A building permit has been taken out by Barney Greathouse calling for the erection of a brick and tile business building at 605 West Texas Street at an estimated cost of \$15,000. F. W. Stonehocker is the contractor.

Greathouse said a lease already had been signed for the 50-by-94-foot building.

Two Iron And Steel Developments In Texas To Be Sold As Surplus Property

WASHINGTON—(AP)—Two Texas iron and steel developments in which the government has invested a total of \$65,282,389 will be ready for sale by the Surplus Property Administration after November 7.

the 30-day notification period which ends November 7. Along with the list, the SPA submitted a report which incorporated some interesting observations concerning the chances of disposing of the Texas properties.

They are the Lone Star Steel Company's plant at Daingerfield in East Texas with its huge blast furnaces and coke ovens, and the pig iron producing units of the American Rolling Mill Company's iron and steel works at Houston.

Joined by Rep. Wright Patman of Texas and Sen. Tom Connally, Carpenter, who also is president of the Texas Power and Light Company, and Lynch, urged the Reconstruction Finance Corporation to finance the erection of a \$2,500,000 cast iron pipe plant as an additional facility at Daingerfield.

Complying with a provision of the Surplus Properties Act requiring that all government-owned plants costing in excess of \$5,000,000 can be sold only after Congress has been given 30 days notice of intent to sell, the SPA sent to Capitol Hill a list of 29 iron and steel facilities throughout the country, including the two in Texas.

Before setting forth its observations, the SPA disclosed that the total cost of the Daingerfield development has been \$28,055,384, and that the government's investment in the Houston project is \$37,287,005.

Noting that the Daingerfield development was the only one of the 29 throughout the country a blast furnace was not built adjacent to a steel mill, the SPA said: "Obviously, a steel producer more than a very short distance away from the surplus blast furnace is not likely to be a prospective purchaser. Furthermore, these furnaces do not present attractive possibilities for commercial operation."

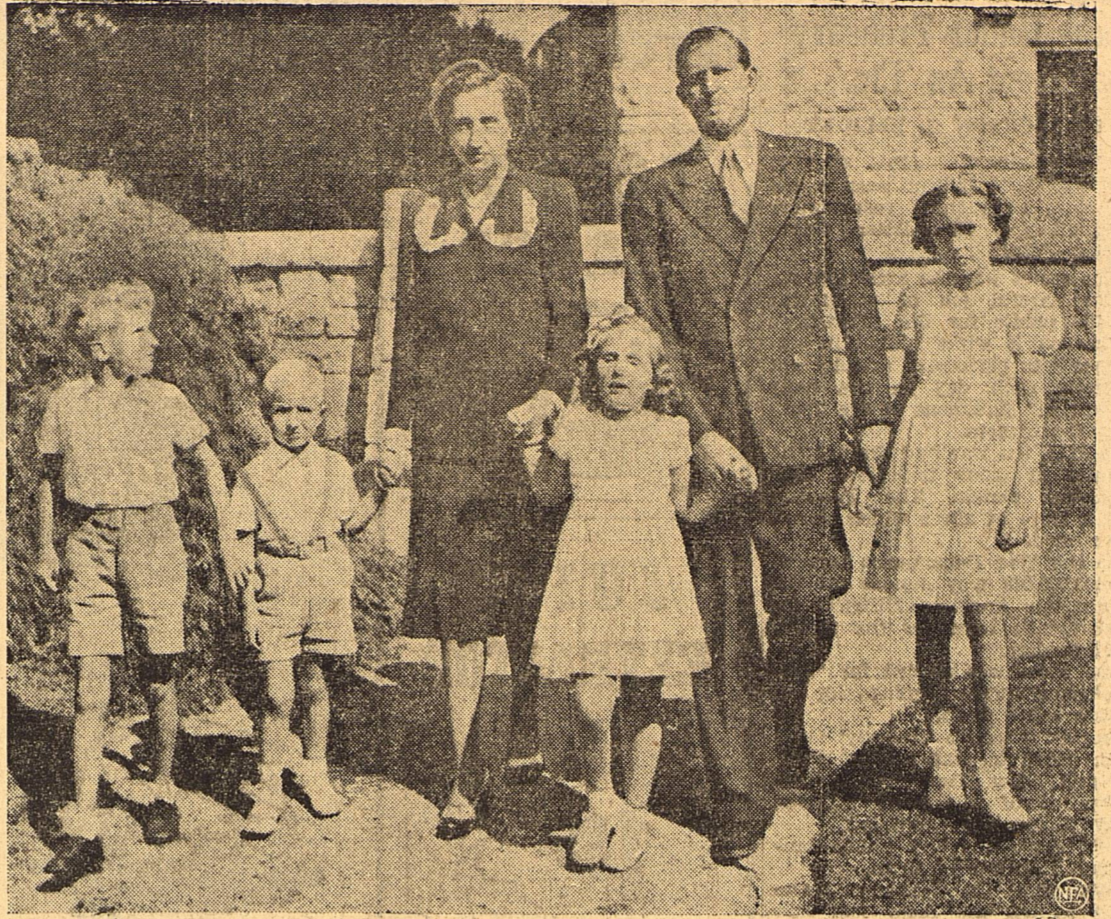

The report then noted that the blast furnace program under which Daingerfield was built was born of a war-time emergency when scrap steel supplies were inadequate, thus requiring more pig iron.

Turning its attention then to the Houston iron and steel plant, and noting that it was an integrated facility only enlarged with government capital, and that it could be expected to depend principally upon scrap in the future for its open hearth charge, the SPA continued: "The government-owned finishing facilities are scrambled with this part of the operation. For the government plant to operate independently, however, would either entail the building of steel production and new rolling facilities or substantial dependence upon an outside market for pig iron."

"Thus, even though the government-owned Houston plant is technically capable of independent operation as a pig iron producer, in so far as steel production is concerned it will be most logically operated in conjunction with the privately owned facilities."

PHOTOGRAPHERS COMMERCIAL and PORTRAIT WILL BE OPEN IN OUR NEW LOCATION AT 105 N. BIG SPRING ST. ABOUT OCT. 25th. Phone 363 105 N. Big Spring

Glasscock Pioneer Claimed By Death

GARDEN CITY—Funeral services were held here last week for Mrs. Mary Cox, 85, at the Cumberland Presbyterian Church with the pastor, the Rev. A. A. Collins, officiating assisted by the Rev. B. C. Welch of Lubbock, a former pastor of the church.

The pioneer citizen of Glasscock County died at her home here following a long illness. Her husband was the late S. R. Cox, pioneer rancher of this section.

Among the survivors are four daughters, Mrs. W. L. Lemmons, Mrs. Jim Ratliff, Mrs. Doll Long and Mrs. Stephen C. Currie, all of Garden City; five sons, P. A., Lee, Jim, Will, and John H. Cox of Garden City, and 26 grandchildren.

John H. Hughes Will Open New Jewelry Store Here Monday

Midland's newest jewelry store will open Monday, next door to the Cactus Cafe, on West Wall Street. John H. Hughes, who has been in the jewelry business in Midland for the last seven years, announced Saturday the date for the formal opening of the Hughes Jewelry Company. He has been in business in West Texas since 1930 and is well known as a jeweler throughout the Permian Basin area.

America's Best Secret Came Under Treasury Statement As 'Etc.'

By JACKSON S. ELLIOTT WASHINGTON (AP)—One of the world's best-kept secrets hid for more than three years under a small-type, three-letter abbreviation—"etc."

The secret was the atomic bomb. The careful job of accounting to the public for the Treasury's cutlay on it while hiding its existence was performed artfully but honestly each day in the daily "condition" statement of the Treasury Department.

In 1942, the war had drained the country of many important electrical-use metals. The Treasury had a store of silver which wasn't being used.

So the War Department borrowed 400,000,000 troy ounces for the Manhattan Engineer District, the department's term for the atomic bomb project.

The silver was needed for "bus-bars" giant current carriers for the atomic bomb plant. Proud Of Record's 'Honesty' The analysts, statisticians, printers and other Treasury employes are proud of what they call the daily statement's "honesty."

"We don't like any phony language," says one of them. "We want the Treasury statement to tell the facts—just how much the government has coming in, how much is going out and how much it has on hand."

Then one of the experts happened to look over the various items. He found "unclassified—collections, etc." "uncollected items, exchanges, etc." and "trust accounts, etc."

So every day since August 27, 1942, there has appeared a notation about leased silver reading: (So many) "ounces of silver are held by the Office of Defense Plants of the Reconstruction Finance Corporation, etc."

The "etc." stands for the Manhattan Engineer District's silver loans. And happily for the Treasury men with the consciences no one ever asked them the meaning of the—"etc."

About 90 per cent of the pulpwood cut in the United States is carried in trucks all or part of the way from woods to mills.

Little Gary Leonard, 2, sets a different kind of a speed record on the flight deck of the carrier Enterprise, as he rushes into his daddy's arms. Reunion took place in New York, where AMM 3/c Alfred Leonard welcomed his son after six months' separation.

Jesse Belflower Will Visit Midland Soon After 40 Months In Jap Prisons

One of Gen. Jonathan Wainwright's boys, Cpl. Jesse D. Belflower, who lived in Midland when he joined the Army in 1941, has arrived in Corpus Christi, after spending 40 months in Japanese prison camps. His parents, Mr. and Mrs. T. R. Belflower, who now live in Corpus Christi, expected Jesse to come to Midland last Monday from Dribble General Hospital, Menlo Park, Calif., before going to his new home in Corpus Christi. So Sunday they came to Midland to meet him here. Monday and Tuesday they met every train from the west—but no Jesse. Finally they received word from the corporal. The Army had delayed his trip and routed him to Corpus Christi. So Mr. and Mrs. Belflower made

a beeline for home. They left word they and Jesse would be back in Midland within a week or 10 days—for Midland is the home Jesse dreamed of returning to those 40 awful months. And the Belflowers are anxious for Jesse's dream to come true. Accounts of Japanese atrocities are corroborated by the 25-year-old corporal in a War Department release. Jesse's personal experiences include the Death March at Bataan; imprisonment at Cabanatuan for nine months, a 10-month work detail in a prison camp at Lipa, Philippines, and eight months hospitalization at Billibid Prison Hospital, Manila. **Freighted to Japan** From Cabanatuan, June 29, 1944, Belflower was loaded on a Japanese freighter with other prisoners and began a nightmarish 62-day trip to Japan. Of his experiences he says, "It was very bad—very crowded. Food and water were scarce. Treatment was bad." He was liberated last Sept. 12. At the Jap camp food was bad. Beatings frequent, and work long. In those days the corporal, whose normal weight is 195 pounds, weighed 137. In December of 1944 each prisoner received one Red Cross box. During the next six weeks one Red Cross box was distributed piecemeal to each prisoner. There was no mail, no communication with the outside world. Liberation came as a surprise, he said, with the Japs announcing the end of the war and relinquishing authority. Within a few days the Americans were on the way home. **Wounded On Corregidor** After Jesse joined the Army, he went direct to the Philippines, where he was assigned to the 60th Coast Artillery Corps. He took his basic training at Fort Mills on "The Rock." When the Japs struck in December he was on the mainland and after the surrender of Bataan withdrew to Corregidor, where he received his only wounds—shrapnel in his shoulder. He knew General Wainwright personally and was filled with bitterness when he recently learned of his commanding officer's treatment at the hands of the Japs. Besides the Purple Heart, the young veteran wears the American Defense Ribbon with a battle star, the Asiatic-Pacific Theater Ribbon with two stars, the Philippine Defense Ribbon and a star, a Distinguished Unit Citation and the Good Conduct Medal. Jesse worked as a florist at the Vestal Floral Shop in Midland before joining the Army. He will stay with Buddy Pullman and Westley Prime, old buddies, while in Midland.

Fair Weather Permits Resumption Of Work In Texas Crop Areas

AUSTIN —(P)— Open weather in the week ended Oct. 22 permitted resumption of field work in practically all crop areas of Texas and activities generally were in full swing. The U. S. Department of Agriculture said the clear weather following several weeks of rain aided growing crops and harvests. Livestock were entering winter in good condition. With adequate moisture range grasses made good growth and early seedlings of small grains were beginning to furnish some grazing. Stock water was plentiful except in a few local areas where rain fell too slowly to replenish tank supplies. **Cotton Harvest Accelerated** The rate of cotton harvest was accelerated. Picking and pulling were in full sway over most of the north and northwest portions of the state where a large part of the crop was open in the fields and where harvesting operations had been seriously hampered by continued rains. The improved harvesting weather resulted in increased demands for labor with an effort being made to avoid additional losses in quality to lint and seed. In central and eastern counties, harvest was being completed with available labor mostly adequate and with very poor yields on many farms. Of the presidents of 75 colleges in operation before 1840, 36 were graduates of Yale and 22 of Princeton.

Proposed Stamp to Honor Vets

Issuance of a special postage stamp, sketched above, is being urged by Disabled American Veterans to honor veterans of World War II.

Demand Of Crude Oil For November Rises

WASHINGTON —(P)— The Bureau of Mines estimated Saturday that the average demand for domestic crude petroleum in the United States for November will be 4,600,000 barrels daily. The advance estimated demand for October was 4,550,000 barrels a day, but reduction in refinery operations due to work stoppages resulted in a decrease to about 3,600,000 barrels daily, the Bureau reported. The estimated demand for November by states of origin, compared with the actual demand in August, includes: Texas 1,900,000 in November and 2,204,500 in August; Oklahoma 380,000 and 378,300; Louisiana 365,000 and 376,300; New Mexico 102,000 and 95,400; Arkansas 78,000 and 72,100. There are an estimated 600,000 chronic alcoholics in the United States.

TAIL-END TALE

Five squirrels came to an untimely end in Woodstock, Ont., when they got their tails tangled in fresh tar and then stuck together.

EIG CLEANING JOB

Cleaning the U. S. War Department's Pentagon building requires a force of 700 janitors and charwomen. The building has 16½ miles of corridors.

Navy Sets Up Fireworks In Preparation For Invasion

Invasion fireworks streak through the half-light off Borneo and send up great puffballs of smoke as Navy rocket-firing craft carry Australian infantrymen to the invasion near Tarakan, May 1, 1945. The scene was similar at each of the many landings that comprised stepping stones to Tokyo.

Engineers Who Design Plane Engines Create Art Both Functional, Beautiful

By JEAN GEORGE
NEA Staff Writer

NEW YORK—Modern art can go back to the attic. With a few drills and some polished steel, American mechanics have outdone the most fantastic drawings in the Museum of Modern Art.

Now that military secrecy has been lifted, manufacturers of the myriad machines and mechanical marvels that helped us win the war are exhibiting the products of their engineering genius. Some of the designs vie with Alexander Calder's abstract paintings for perfection and with Salvador Dali's surrealism for wackiness.

What is more, these artists with tool and hammer have done something that the long-haired dreamers still have not been able to do. Their designs work.

With a frame around them, these paintings in nuts and bolts could be hung over the fireplace, and not only would they look like the best in surrealistic art, but they would grind away smoothly, performing miracles of production in the cellar or kitchen.

The mechanical Michaelangelos of today long have held their light under a barrel. No one speaks in hushed tones about the spark plug in an engine, nor do any criticisms of a crankshaft and piston appear on the art pages of magazines and newspapers.

Artists Discovered

It took the Army to discover these amazing artists and give them exhibits worthy of their perfected works. Now, at last, the

wrench and hammer artists take their place among the immortal cubists, impressionists and dadaists. Army shows, especially of aircraft engineering, are drawing large audiences throughout the country.

Whoever dreamed up the main rotor head of a helicopter was the modern artist to end all artists. Officials of the Air Technical Service Command state in all sincerity that it works, but any casual observer would not be able to tell that slap-happy masterpiece from a modernistic painting.

Engines and motors are truly functional art. They fit into everyday life. Moreover, they teach a lesson to people who bemoan the fact that they can't understand modern paintings. Is there anyone in the crowd who can understand those delicate pencil lines in a radar blister?

Those who look at Picasso with bewilderment will find an intellectual counterpart in the radio gear on a B-17. It's utterly incomprehensible.

As a matter of fact, it seems that many of the modern artists swiped a lot of their ideas from the mechanics without giving credit. It is difficult to distinguish between an Army Air Forces' art show and the exhibits shown to the public with lectures and music at the art museum this week.

The 22 Swiss states differ from each other in nearly every point—religion, politics, industry, language.

BIG CHANCE CAME BUT HE HAD FORGOTTEN HIS PISTOL

KANSAS CITY—(AP)—"I've walked and walked that beat and nothing ever happened," complained Edward F. Smith, night watchman for a group of offices.

"But last night what happens? I find three guys giving the safe the works in one of the offices. I reached for my gun and it wasn't there. I felt like two cents."

Smith lost his big chance. The safecrackers escaped with \$45 in cash and checks while he ran after his pistol.

Movies Are Shown To Biology Classes

The biology classes saw movies on "Flowers at Work" in class last week, using the school's new projector for the first time. The film was sent from the Visual Aid Department of the University of Texas.

The High School Parent-Teacher Association started the fund for the projector in 1941. Miss Margaret Stuart, science teacher, said other films pertaining to the study of biology would be obtained.

Boston Tea Party (Freshman Version)

One freshman girl in foods class will doubtless live up to that old saying about a bride's first biscuits—that is if her cooking compares to her tea making! After being told to make two cups of tea, she did. Using two cups of tea leaves, the results were revolutionary to say the least.

THE BULLDOG

(Continued from Page Four)

"Why Stop? There's More To Be Done"

"No, I'm not buying War Stamps and Bonds any more. What made you think I was? The war is over. There is no reason to buy them, now." Have you heard someone say something like this, or said it yourself? If so, you are the one we'd like to talk to.

First, do you know what the money paid for Bonds and Stamps is used for, now that the war has been won? "No." That is what I suspected. The money that we loan to our government is now being used to buy medical equipment and give medical attention to our sick and wounded returning servicemen. There are approximately 11,000 men coming home each week who need medical care.

Our high school, along with many other schools throughout the country, has set \$3,000 as its goal. If we buy \$3,000 worth of Bonds and Stamps by December 21, the name of our school on a plaque will be placed over the head of a bed in a hospital for returning servicemen. This means that if each student in our school will buy \$4 worth of War Stamps, we will reach our goal and go over the quota. If we will work hard, we may even be able to qualify for two or three plaques.

So, if you hear someone say he is through buying War Bonds, pass this little bit of information on, and let's be proud of our school and make some wounded veteran proud of us, also.

Pantomime Studied In Public Speaking

If you pass by Room 101 second period any day and all the people seem to have lost their voices, don't be alarmed. Miss Verna Harris' public speaking class is studying movement in pantomime.

Barney Hightower, John Scroggin, Emma Sue Cowden, and Norma Jean Hubbard went back to the 1920s and the days of the days of the old Model Ts in their skit last week.

14 New Students Added To Register

Since the last week of September 14 new students have enrolled at Midland High School.

The students who have moved to Midland from out of the state are: Charles Harrington, New Orleans; Carol Bartlett, Monroe, La.; and Gerald Brunson, Alameda, Calif.

Others are: Ruby Huggins, El Paso; Bobby Stump, Colorado City; Rex Tatum, Winters; Carene Bruce, Cherokee; Cay Lee Tucker, McCamey; and Allen Dean Davenport, Amarillo.

Students previously attending Midland schools are: Don Brumham, Frank Cain, Dollie Currie, Hubert McKinley, and Salome Mondez.

Short Periods For Friday Afternoon

Principal Harlan Howell announced school periods next Friday afternoon will be shortened for school to let out at 3:15 so those going to the football game at San Angelo will have ample time to reach there without missing any school.

Those who leave for the football game before 3:15 will have five points deducted from their six-weeks grade.

Mr. Howell said the large crowd of Midland High students at the Big Spring game was a morale builder for the team and he would like to see many of the students attend the San Angelo game.

Vaseline or petroleum jelly is soluble in chloroform, benzene, carbon bisulphide and oil of turpentine.

PORT ENTRIES

Bulldogs Will Travel To San Angelo Friday

The Bulldogs Friday night will battle the Bobcats in a district game at San Angelo. Midland will be playing for its first victory over the Concho team in five years. Having an off-season, this year, the Bobcats won the state championship in 1943 and lost to Highland Park in the semi-finals in 1944.

The Bulldogs defeated Angelo 18-7 in 1939 and 7-6 in 1940. Succeeding years they lost 13-6, 33-7, 27-0, and 49-6.

This season the Bobcats, sparked by Quarterback Dwain Dodson, only returning starter from last year's squad, have played such gridiron powers as Highland Park and Odessa.

Advertise or Be Forgotten

Hallowe'en King And Chosen Queen Reign At Dance Climaxing Carnival

Hallowe'en, which brings visions of fun and polly, is an old, old festival. The old Romans held it about the first of November, in honor of Pomona, the goddess of fruit trees. In Britain the Druids

celebrated a festival at the same time in honor of the sun god, and in thanksgiving for harvest, and the two festivals seem to have become one in the minds of the Britons. When the people became Christians, the early Church Fathers wisely let them keep their old feast, but gave it a new association by holding it in commemoration of all saints and martyrs. Thus the eve of the festival came to be called All Hallow E'en.

First Year Girls Have Style Show

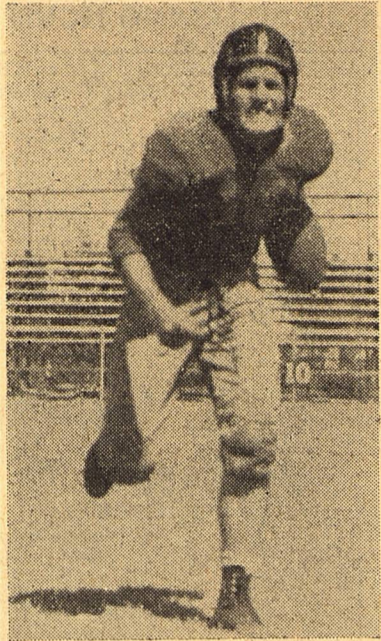

The first year clothing class, under the direction of Miss Eloise Odum, presented a style show in class Tuesday.

The girls modeled garments they had made for the contest. Elsie Schneider, modeling a green gabardine skirt, won first place. Second place went to Beth Whatley for a heart-shaped apron in red and white print. Ruth Lester, in a wine and white print blouse, won third place.

The judges were: Mrs. Percy Mims, Mrs. Earl Chapman, and Miss Helen Craig. Visiting mothers were Mesdames C. W. Carrell, H. S. Collins, J. E. Harwell, F. Hunter, E. F. Roderick, W. R. Upham, and Sam Logan.

After the style show, the freshmen food classes served cinnamon rolls, punch, nut bread, and orange marmalade.

Hightower Chosen Bulldog Of Week

Barney Hightower, 155 pounds, 5-foot 9 right halfback for the Purple and Gold has been chosen Bulldog of the week. This is the third year he has played football for M. H. S. and it is his second season on the "A" team. Number Four is a solid citizen of Midland, having lived here since he came into the world, Jan. 7, 1929.

The senior class treasurer, for diversion likes seeing Humphrey Bogart and Alan Ladd in the movies and playing tennis. Barney takes chemistry, public speaking, commercial arithmetic, senior English, and football. After graduation from high school Barney would like to attend the University of Texas.

Small Talk

Monday
Today as I wandered through the halls I noticed several students with sacks tied over their heads. It was a matter of necessity—three of our "Comrades-In-Arms" were blinded from everyone's beaming so much because we won the game at Big Spring. Must have been Coach's vitamin pills.

Tuesday
Well, you all heard the man in assembly this morning! We have to have at least half of our Senior class graduate so, Eddie, slow down to 90, will you?
Enthusiastic screams of "How wonderful!" and "Oh, that man!" were heard as some of the hand-some (?) Midland High boys were nominated for the Carnival King. Ain't love grand?

Wednesday
Sounds like they are having a hog-calling contest in a Capella Choir. And they collect quite a crowd, too. Don't worry about it though, 'cause we're liable to know what's up pretty soon.

Thursday
The sale of "drool cups" boomed during second and third periods today. Those lucky Foods girls!

Friday
Don't we feel fluce? Did you see all those businessmen in our pep rally?
As a natural consequence, at least 20 cases of broken toes stormed the hospital after the parade. Of course, that didn't hinder us at the dance. Which reminds us, wasn't it a swell dance?
We'll let you in on some more stuff next week.

Class In History Study Constitution
American history classes, taught by Miss Josephine Weaver, are making a detailed study of the Constitution of the United States. Each student is asked to memorize the Preamble and to make a notebook containing outlines, charts, and illustrations.
A round table discussion, based on Weekly News Review, daily papers, and magazine articles is held each week. Next week's subject is to be the United States and Preparedness.

Dean Bennett attended a district meeting of Diversified Occupation teachers in Abilene Saturday.

Dorothy Freeman went to Monahans Friday to have an appendectomy.

Miss Emma John Blake is spending the weekend at her home in Santa Anna.

Anne Tucker is spending the weekend with Shirley Lones. She is a Senior in Lubbock High School.

Van Johnson In Room 304

Flash! Midland High has a glamor boy in our midst—at least one girl appears to think so. In advisory room Monday, Phyllis Chancellor, in reading the list of pupils to fill certain Red Cross boxes, gave the class quite a shock—especially the girls—in calling out Van Johnson's name. It turned out that the blushing "celebrity" referred to was none other than that tall blond senior, Van Cummings.

How Will You Spend Your Money At School Carnival Wednesday?

From all accounts most of the money high school students have begged, borrowed, or stolen will go for food at the Carnival in the Gym next Wednesday night. The report of home-made pies, cakes, and candy has really reached appreciative ears.

Some will head straight for the fortune teller to find out about futures, and other prefer games of chance.

Rev. Hubert Hopper Is Assembly Speaker

The Rev. Hubert Hopper, pastor of the First Presbyterian Church, addressed the Midland High School assembly Tuesday on "Making Liberty Last."

He gave several Bible references pertaining to his subject and said to keep liberty Americans must have an attitude of willingness, most distinguish between liberty and license, and must begin at home to translate the idea of liberty. As an example of distinguishing between liberty and license he said pedestrians have a fifty-fifty chance with the fast-driving young people who have taken their liberty to an extreme.

Barney Hightower served as master of ceremonies. Mary Lee Cowden gave the scripture reading. Billy Jones, Doris Denton, and Barbara Brown sang "Rock of Ages" and "Abide With Me."

Miley's Room Leads In Red Cross Boxes

The students of the Midland County schools have gone all out to fill 500 Junior Red Cross boxes. The schools participating in this drive are: Senior High, Junior High, North Ward, South Ward, Prairie Lee, Carver, and Latin-American. Miss Miley's room led the high school with 18 boxes filled. Others are: Miss Stuart 3, Miss Farnham 9, Mr. Luttrell 9, Miss Weaver 10, Miss Carden 10, Miss Craig 5, Miss Jackson 4, Miss Klapproth 6, Mrs. Hine 5, Mrs. Philippus 9, Mrs. Magee 8, Miss Moore 8, Miss Blake 3, Miss Harris 8, and Mr. Howard 8.

Panel Discussion Highlights Program

Midland High School Parent-Teachers Association at its regular session Tuesday voted to sponsor a visitation hour from 4 to 4:30 on school days for high school parents to meet and visit-teachers. The association also voted to donate \$5 toward a National P-T. A. Life Membership.

A panel discussion on "How and When to Say No" was given by three students and three mothers, lead by Miss Verna Harris, speech teacher. The following participated: Marjorie Murray, Virginia Dunagan, and Jack Howell. Mrs. Don Sivals, Mrs. Delbert Downing, and Mrs. J. W. Drummond, and Mrs. W. C. Fritz presided.

Take One Language; Learn Five Others

First year Latin classes, sponsored by Miss Lucy Moore, are making notebooks for projects and comparing Latin with other languages. Some notebooks are being made on phrases and words in Latin that a lawyer uses, and prescriptions in Latin that a doctor writes. Other students are writing stories in Latin.
Students of the first year class are also comparing Latin with other languages: French, English, Spanish, Portuguese, and Italian.
"In this way we not only study Latin, but other languages, too," Miss Moore said.

Who's Who - Jimmie

The only two-year letterman on the Bulldog football team this year is Jimmie Edwards who plays a good game at center and wears number three on his jersey. During the first four games of the season, Jimmie was a co-captain. He lettered in basket ball, track, and football last year and received honorable mention as center for the all-district football team.

Jimmie was born in Lubbock Aug. 28, 1928. He lived in Big Spring for a while then moved to Midland, where he has resided eight years.

Jimmie's schedule this year includes mechanical drawing, physics, English literature, typing, and football. His favorite is football, and his favorite teacher is Miss Margaret Stuart. After graduation, he plans to attend Texas University and major in pre-medicine. His ambition is to be a doctor.

During his junior year, Jimmie was class treasurer and took part in the junior play, "Headed for Eden", and the all-school play, "Spring Green". Jimmie's favorite pastimes are pool and dancing. His favorite dance tune is "Smoke Gets in Your Eyes".

News Of Former Midland Students

Marshall Whitmore is home this weekend from A. C. C. at Abilene. S. 1/c James Mincey, formerly in the Philippines and New Guinea, is home for a 30-day leave. He is stationed on the Timberhitch.

Bill Hall, '41, is in the Philippines. Hazelle Midkiff, attending New Mexico A and M, arrived here Friday to spend the weekend.

Fred Dougherty and Kelly Jo Proctor are spending the weekend here. They attend Texas University.

Jacqueline Theis, a student in Mary Hardin-Baylor, in Belton, is a member of the Junior Scholarship Society.

Johnny Guy McMillan, '43, is on his way to Japan.

Orilla Osbourne, '44, is spending the weekend here. She is a student at the University of Texas.

T/Sgt. William C. Upham is stationed in Salzburg, Austria.

Bill Ponder, '45, is attending R.O.C.O., Military Academy in Arlington.

Ed and Jim Griswold, both S. 2/cs, are stationed in Corpus Christi.

Roy Parks has his discharge from the Navy, and is on his way home.

S. 2/c James Moore is stationed in Tokyo Bay on the U. S. S. Tamalpais.

Monte Mayfield is on his way home from Japan.

Bill Holcomb and Bobby Hyatt spent the weekend in Fort Worth on an A and M Corps trip.

Bud Aldrich is spending the weekend here from Texas Tech.

S. 2/cs Royce Howard, Alvin Bauman, and Nolen Timmons, formerly stationed in Camp Parks with the Seabees, left Wednesday for overseas duty.

Pvt. "Red" Roy is in Camp Robinson, Little Rock, Ark. He is the center on the football squad.

Ruth Hall is spending the weekend in Big Spring and San Angelo.

Genora Brown, Ruth Hall, and Anna Joyce Streeter sing on the Family Altar radio program Wednesday night.

Marilyn Boynton spent the weekend in Lubbock.

Charles Simms was out of school last week because of a wreck he had on his motor scooter.

Miss Martha Creagh has been in Breckenridge the past week visiting her mother who had a serious operation.

Audie Merrill and Dorothy Freeman played for the Masonic meeting in the civic auditorium Wednesday night.

Dean Bennett attended a district meeting of Diversified Occupation teachers in Abilene Saturday.

Dorothy Freeman went to Monahans Friday to have an appendectomy.

Miss Emma John Blake is spending the weekend at her home in Santa Anna.

Anne Tucker is spending the weekend with Shirley Lones. She is a Senior in Lubbock High School.

Van Johnson In Room 304

Flash! Midland High has a glamor boy in our midst—at least one girl appears to think so. In advisory room Monday, Phyllis Chancellor, in reading the list of pupils to fill certain Red Cross boxes, gave the class quite a shock—especially the girls—in calling out Van Johnson's name. It turned out that the blushing "celebrity" referred to was none other than that tall blond senior, Van Cummings.

GOOD YEAR TIRES

DEVELOPMENT + DESIGN + DETERMINATION = **GOOD YEAR DeLuxe LONGEST WEARING TREAD**

\$15²⁰ plus tax
6.00 x 16

Hard work and Goodyear determination did it... developed a superb synthetic rubber tire, shown by tests to give longer tread wear. This means more mileage, more safety for you. See us... go DeLuxe with Goodyear.

McKENNEY ON BRIDGE
By WILLIAM E. MCKENNEY
America's Card Authority
Lee Hazen comes through with a different type of "Sylvia" hand today. Several pairs in a duplicate game got to three no-trump on this hand, and most North players doubled—but not our Sylvia. She passed.

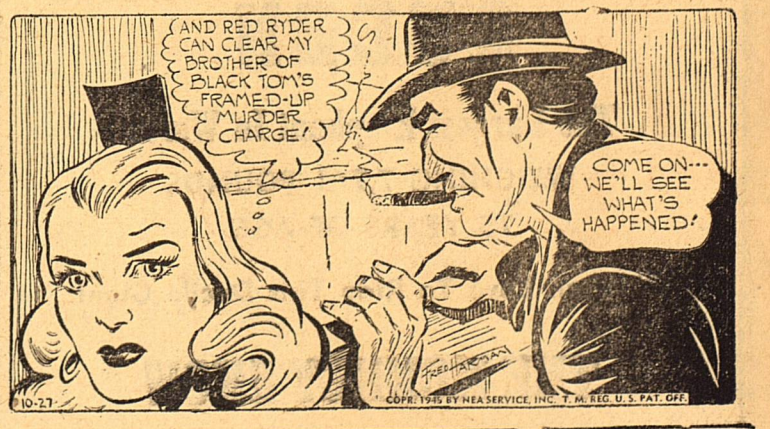

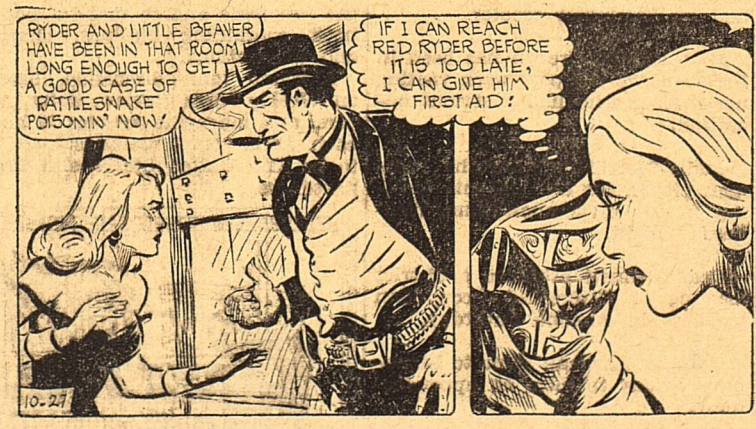

You can see that three no-trump is a wrap-up. With the spade opening, declarer wins and knocks out the ace of hearts. If North wins the first heart trick, the club is led. If he does not win the first heart, the other heart is an entry to dummy. West cannot help but make five clubs, three hearts and at least one spade. As a matter of fact, some West players made four-odd when North refused to cash out.

When the hand was over, someone asked Sylvia why she had not doubled. "Oh," she said, "my husband told me never to double with nothing but 'cheese' in my hand." Of course her holding was rather weak—just ace-king, ace, ace-queen, king!

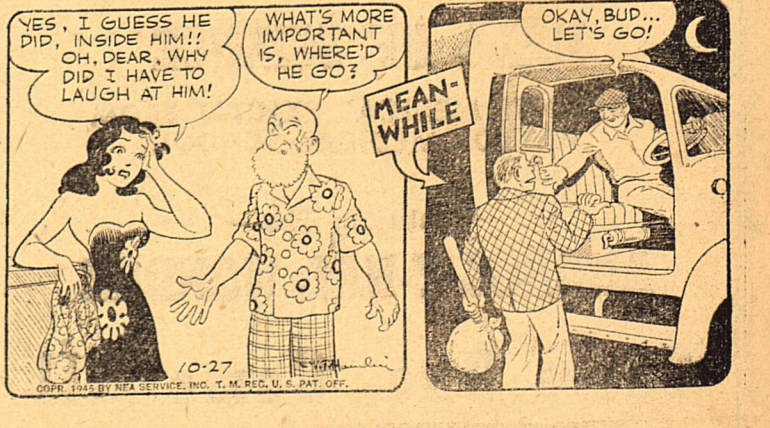

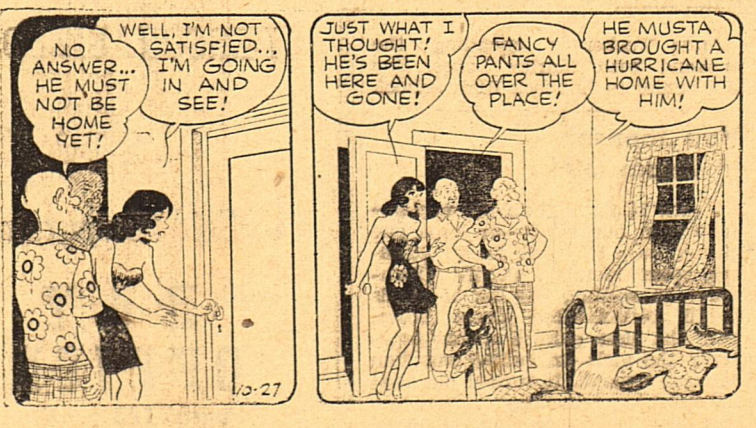

STUDENTS ADD HALLOWEEN TOUCH TO VICTORY LOAN
CHICAGO —(AP)— Students at Harrison High School have opened their portion of the Victory Loan Drive and have added a touch of Halloween to their door-to-door tour.

The students are promising all bond buyers protection against Halloween prangsters and they'll clean any soaped windows.

This Could Be YOU... And YOUR Home

in

GRAFALAND

You who dwell within the boundaries of Midland are the builders of its progress and its future. Your HOME is the town's very heartbeat.

GRAFALAND

is—

The Most Exclusive Residential District Between Fort Worth and El Paso

CONSIDER THESE FACTS:

- This is the first time you have had a chance to really CHOOSE your neighbors!
- Your investment is protected — you have the assurance there will not be a cheap, shabby house thrown up on the lot adjoining your home.
- Wide irregular lots for artistic landscaping.
- Arranged for staggering arrangement of homes.
- Clear of unsightly utility poles.
- Paving as soon as available.

It's Not Too Early To Make Your Decision

If there has been any doubt in your mind about the future of GRAFALAND and whether or not we could make our statements good about its stability and restrictions we invite you to let us show you the list of good people who have already purchased their homesites there, and explain just how we are protecting purchasers from being surrounded or adjacent to undesirable structures. We have not made a single statement in any of our advertisements or otherwise about GRAFALAND that we could not fulfill. A goodly number of our most substantial citizens have already bought their lots and are either building or drawing up their plans for early construction. Other choice sites are still available.

Paris Picks Book Shelves Clean At Sidewalk Stalls

By ROSETTE HARGROVE

PARIS—The famous bookstalls on the banks of the Seine are being ravished by eager bookworms, as Parisians, deprived of literature during the German occupation, descend upon the limited supply of books, comics, magazines and pamphlets that is now seeping into France.

Bookstall owners are making money hand over fist, and shelves that once held first editions are swept clean by nightfall of detective stories, old comics and confession magazines.

Anything sells in Paris today, and at prices high in the black market brackets. The publishing business was almost at a complete standstill during the Nazi occupation. For this reason everything from bound books to back-number newspapers costs about ten times what they did before the war.

The French are so avid for reading matter and news of the world that they are willing to pay any price for a few printed words.

Where the situation assumes the most serious proportions, however, is in the realm of school and text books. With the reopening of schools and universities all over France the scarcity is causing serious headaches in scholastic circles. Here, too, the black market extends its tentacles for the good reason that bookstores have been unable to replenish their stocks and cannot begin to meet the demand.

Costs Skyrocket
The cost of producing any kind of book has increased tremendously since the war. Labor, machinery and inadequate paper supplies are responsible for the rise in prices.

French educators and parents protest that if the government can find enough paper for the 30-odd newspapers and as many weeklies and monthlies, there should be sufficient supply to allocate paper for the publishing of text-books for the education of France's youth.

With scarcely a book to read, the youth of France returns to school to be educated to world democracy and the 3 R's. In addition to the lack of supplies there is a lack of buildings. A great number of schools were destroyed during the Battle of France. This is particularly true in Alsace and Normandy.

There are 10,000 students in Paris today who cannot find accommodations, and who have few if any books to study. Their lack of housing facilities is partly due to lack of funds, and perhaps even more to the grasping nature of the small hotel-keepers, who can make more money with transients.

Butter And Meat Point Changes Are Listed

WASHINGTON—(AP)—Here are the meats-butter point value changes announced by the OPA for the period Oct. 28 through Dec. 1:

| Commodity | New Value | Down |
|-------------------------------------|-----------|------|
| Fat backs and clear plates | 6 | 4 |
| Jowls, jowl butts or squares | 4 | 3 |
| Plates, regular | 6 | 4 |
| Bacon | | |
| Bacon-plate | 6 | 4 |
| Bacon-jowl | 6 | 4 |
| Jowls, jawbone in aged, dry cure | 3 | 3 |
| Ready-To-Eat Meats | | |
| Barbecued pork-sliced or shredded | 8 | 2 |
| Fats Oils and Dairy Products | | |
| Lard | 8 | 4 |
| Shortening | 8 | 4 |
| Salad and cooking oils | 8 | 4 |
| Margarine | 8 | 4 |
| Butter | | |
| Creamery butter | 8 | 4 |
| Farm or country butter | 8 | 4 |
| Process butter | 8 | 4 |

HE WILL BE FRIGHTENED ENOUGH WITHOUT CROWD

MILWAUKEE—(AP)—Kenneth Seitz, who is going to marry Sheila Benton, a Marquette University co-ed next month, is wondering about the 15,000 people who have been invited to the church where the wedding will take place.

The Marquette alumni publication published a story inviting homecoming grads to attend a memorial mass in Gesù Church at 9 a. m. November 3—the place and time for Seitz's wedding.

The publication unintentionally invited the alumni to the church instead of to the chapel.

Churches To Remember Men In Blue In Navy Day Services Sunday

Sunday is Navy Sunday in Midland by proclamation of Mayor Hendrickson. Navy men who lost their lives while fighting to safeguard America will be remembered in prayer at Midland churches during Sunday services. The picture above was made on a Pacific Isle as Navy Seabees observed communion service in a canvas chapel by candlelight, with sandbags for prayer benches.

Completely Synthetic Tires Will Be Made At Economical Cost

By JOHN F. CHESTER
Associated Press Business Editor

AKRON, OHIO—(AP)—Inside story of the automobile tire industry is that motorists eventually may be riding on 100 per cent synthetic rubber which can be produced for as low as ten cents a pound.

This won't come about tomorrow or the next day and the 70,000,000 passenger car tires that leaders of the tire business expect to produce in 1946 and again in 1947 will vary anywhere from 50 to 85 per cent synthetic with the rest natural. Production is expected to drop back to 62,000,000 in 1948 in line with demand.

These figures are bigger than the industry has ever known. In 1941 the output reached 53,000,000 against a previous all time high in 1929 of 61,000,000.

As much as 300,000 tons of crude rubber have been found in one-time Jap occupied areas in the Far East, most of it in Indo-China. The first exports into the big raw rubber areas reported that not over two per cent of the trees had been damaged and that due to a long rest they probably would produce more than ever before.

These facts came from top executives of the four biggest tire manufacturers in the rubber capital of the world. The statements were made to 16 newspaper reporters who have inspected industrial concerns in 15 cities in the last 26 days in an effort to learn about the progress of reconversion.

E. B. Babcock, a Firestone executive who was an assistant director of the Rubber Division for WPB, said improvements in the making of synthetic rubber would make it possible to make 100 per cent synthetic tires. Another official said it could be produced for ten cents a pound.

John Thomas, chairman of the board at Firestone which has been taking 26,000,000 pounds of crude rubber out of private holdings in Liberia, said his company and others were willing to take over government owned synthetic rubber plants at a reasonable price in order to get the best possible material for tires.

E. J. Thomas, president of Good-year, told reporters that synthetic is here to stay and it is only a matter of percentage.

At the time of the signing of the Declaration of Independence there were only nine colleges in America: Harvard, William and Mary, Yale, College of New Jersey, Kings College, College of Philadelphia, Rhode Island, Queens and Dartmouth.

About 400,000 barrels of the crude oil produced daily in the United States during the war came from fields discovered since U. S. entry in the war.

The gasoline used by one Super-tort to travel from the Marianas to Tokyo and back would have kept an average motorist in fuel for ten years.

Texan Gives Friend Place On Ship Home

DENTON—(AP)—Only an overseas veteran can truly appreciate the generosity of Cpl. Colton C. Erwin of Denton.

He had been overseas a year and was to come home on the Queen Elizabeth. Just before the ship sailed he met a soldier whose father and brother had been killed while he was abroad.

The young Texan gave his place on the ship to the stranger and returned to his base in Scotland where he may have to remain for another eight months.
