NUMBER THIRTY

Just A Thought

by Carter

The young man who made his grand entrance into the livingroom of Mr. and Mrs. Benton the other day gave himself up. Due to the relationship of the young man to the Bentons the only charge that could be filed was "Operating a Vehicle in an Unsafe manner." Well, you win some and you lose some.

It seems that everyone is down on poor Henry Kissinger, now I'm no expert on the man's accomplishments, which puts me at an equal level with about 80% of the people who are criticizing him. Who knows he might be worse than they say or...heaven forbid, he might even be half decent.

Did you know that Texas is the number one spinach producer in the nation. Thought I'd throw that in to see if you're paying attention, in addition to its obvious educational value.

It was published by the Texas Department of Agriculture so it must be true.

We just received a letter addressed to the advertising director but we couldn't find him so it was gingerly placed on top of the ever growing mound of papers on my desk for "quick action."

Now to the next important item. Oh! the letter? It was another piece of educational material, (I'm learning a lot at this job) telling us where newsprint comes from (I always thought it was a giant roll of toilet paper that was sold from the back room of the super market.)

The point of the letter was urging everyone to save the trees, looking around it just didn't seem to fit our situation here so I filed it in "13".

Oops! they goofed, would you believe that OSHA admitted to an error (no just one, but who can tell they may admit to more). It seems they printed a booklet in "simple" English for distribution to farm workers. The experts at Purdue University succeeded in insulting their potential readers with their "simple" English.

That's what they get for believing their own statistics, and using an eastern expert at that.

I have been enjoying these attractive street decorations we have here, in particular the one at the corner of North 2nd and Avenue D, it's red in color and has the letters S-T-O-P across it. I sat there one day last week for an hour and a half watching that interesting subject of city beautification and do you know that forty four other beauty lovers stopped and looked at it too, of course there were those who have no appreciation for such things and drove right through it, 97 of them to be exact.

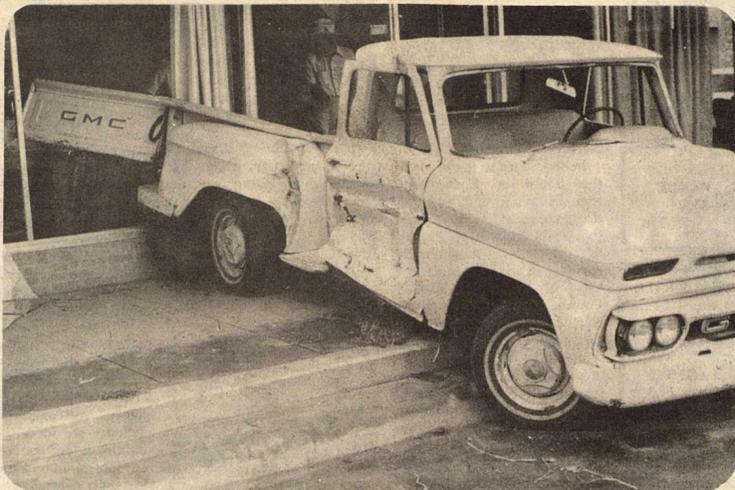

Seriously though not paying attention to these signs has caused serious injury to some of our neighbors and members of our own families. So watch those signs, the next life you save might be mine.

Burleson Announces CSA Grant

Congressman Omar Burleson announces the approval of a \$9,348 Community Services Administration grant to the Aspermont Small Business Development Center, Incorporated, in Aspermont. The grant is effective July 1, 1976, and will run for three months.

The areas served are Fisher, Haskell, Jones, Kent, Knox, Stonewall, Briscoe, Dickens, Cottle, Childress, Donley, Foard, Hall, Hardeeman, King, Motley, and Wilbarger counties.

The funds will be used to provide economic development activities in the areas served.

A TRUCK IN THE WINDOW...The pickup pictured was driven by Robert Wayne Crane of Haskell when it was struck by a trailer truck belonging to Merchants Freight Line and knocked into this position. Mr. Crane was rushed to Abilene where he is still listed in critical condition. Charges are still pending awaiting a statement from Mr. Crane. (Staff Photo)

State Comp. Representative In Haskell

AUSTIN—Comptroller Bob Bullock announced that a representative from his Abilene Office will be in Haskell, Wednesday, July 28th, to answer questions from taxpayers and provide assistance in filing tax returns.

Bullock said Enforcement Officer Mona West will be at the Haskell County Courthouse, Commission Court Room, 2nd Floor, East Wing, from 8:00 a.m. to 12:00 noon. "I hope local merchants will take this opportunity to get any questions they have about the sales or franchise taxes answered," said Bullock. "A little straight information can save us both headaches."

Bullock also announced that the Abilene office will be open from 7:30 a.m. to 6 p.m. for the convenience of taxpayers. The Abilene office, headed by James Martin, is located in Room 213 of the First State Bank Building, 4th and Oak, telephone 673-7849.

The Abilene office serves Taylor, Brown, Callahan, Coleman, Comanche, Eastland, Fisher, Haskell, Jones, Mitchell, Mills, Nolan, Scurry, Shackelford, Stephens and Stonewall Counties.

Haskell City Police Report

July 8-19

- 13 traffic citations issued
- 3 arrested for disorderly conduct
- 4 arrested for drinking in public
- 3 auto accidents
- 3 minors in possession of alcoholic beverages
- 4 no drivers license

CITIZEN SERVICE

Chief Toland pointed out that the accidents occurring this past week were caused by such things as parking on the wrong side of the street and failing to stop at a red light. Laws regarding these violations will be enforced.

Basketball Clinic Holds Game In Rule

The public is invited to a Basketball game Saturday night, July 24 at 8 p.m. in the Conner Horton Gym at Rule. Girls from the 3rd through 6th grades will be playing. This is the climax of the Basketball Clinic held this week in Rule.

FBC To Celebrate 88th Anniversary

Plans for the observance of the 88th birthday of Haskell's First Baptist Church are being formulated by committee members according to Mrs. Bailey Toliver, chairman.

The celebration is slated for Sunday, September 12 and tentative plans include special arrangements for both morning services on that date.

Basket lunches will be brought by members for families and guests at the noon meal at the church. An old-fashioned gospel singing session will follow.

Rooms will be arranged with displays of scrapbooks, and plaques, certificates or other mementos.

One room will be provided for tapes and records of musical programs that have been presented in the past by choirs and other of the church's musical groups.

Pictures, slides and movies of church activities that have been part of the history will be displayed in one room.

Mrs. Toliver asked that people make available anything they wish to be displayed as soon as possible. "We hope this will be a time of renewing old friendships and remembering days past in the life of the church", she said.

All former members, pastors and music directors are being invited, so those interested are asked to mark the date on the calendar.

Actual date of the church's beginning was September 8, 1888.

Anyone wishing further information may call Mrs. Toliver or the church office.

All Stars Play July 22-23

The Little League All Stars will be playing Thursday and Friday nights at 7:30 (July 22 and 23) here in Haskell.

Stamford and Rule will start off on Thursday night with the winner competing with the Haskell team on Friday night.

Lions Corner

At the Lions Club Tuesday luncheon meeting this week, Lion James Lanier was presented with a Lion pin, marking his ten year service as a Lion.

Jerry Sorrells introduced this weeks entertainment which included the singing of Jimmy Turner and David Hill, accompanied on the piano by Tamara Sorrells.

Haskell County 4-H Dress Revue

"Summer 1976" was the theme of the Haskell County 4-H Dress Revue held on Thursday, July 15th at the Rule Recreation Club.

Master of Ceremonies for the revue was Rod Townsend, Chairman of the County 4-H Council. Linda Fischer, a member of the Paint Creek 4-H Club led the opening 4-H motto, pledge and prayer. The welcome to the audience of approximately 125 people was extended by Kerry Kemp.

Guests were introduced by Kim Campbell and Gena Fischer. The purpose of the Revue was given by Janette Holmes and Kay Carmack, who are members of the Rochester 4-H Club.

The Dress Revue was held on the lawn and each girl modeled her garment around the swimming pool that was decorated by Rule 4-H Adult Leaders.

Sonja Tidrow and Gena Fischer narrated the Junior Division of the Summer of 1976.

JoAnn Cloud presented two 4-H members representing Stonewall County.

The Senior Revue was narrated by Kay Campbell. The awards were presented by County Judge B. O. Roberson and Mrs. Tom Yates, 4-H Committee Chairman. Mrs. Bill Flowers, Stonewall County 4-H Leader presented the Stonewall County Awards.

The Escorts for the Revue were: Zachery Wilcox, Barry Tidrow, Mark Lewis, Russ Lewis and Kyle Wilfong.

The following 4-H members participated in the review and placed as follows:

9-10 Year Olds
Missy Briscoe and Holly McBroom, tie for 1st place; Kathy Kemp, 2nd place; Shawna Welch, 3rd place.

11-12 Year Olds
Linda Fischer, 1st place and Jr. representative to District Dress Revue; Laurie Reynolds, 2nd place and 1st alternate to District Dress Revue; Lisa Baird and Mike-anna Wilcox, tie for third

place. Other participants in this division: Lisa DeBusk, Karen Beakley, Sheila Moeller, Renne Toney, Janette Holmes, Debbie Norwood, Tina Morris, Gena Peel, Leann Turnbow, Shannon Lane, Carla Marquis, Leigh Ann Greeson, Sheila McFadden, Donna Kemp and April Turner.

New Minister Installed

Trinity Lutheran Church will hold installation services at 9:00 a.m. on July 25 for their pastor, the Rev. Don Marquart. He comes to Trinity Lutheran from San Antonio and will be installed Sunday by the Rev. Mel Swoyer from Winters.

Rev. Don Marquart, his wife Nell, and their 5 year old son, Pat, will reside in Stamford where Rev. Marquart will serve as pastor of the dual parish Church Lutheran Church of Stamford and Trinity Lutheran Church of Haskell.

Trinity Lutheran has been without a pastor since May when Rev. Anton Kern accepted a call to Liberty, Texas. Rev. Gary Kleypas from Faith Lutheran Church of Sagerton has been assisting the congregation the past several months while they were without a pastor.

You are invited to attend the installation-worship service at 9:00 a.m. and Sunday School at 10:00 a.m.

THE REGIONAL PLAYOFFS between the champion team of the Cotton Belt League and the Tri-County League will meet in a best 2 out of 3 double elimination playoff in Haskell on July 26, 27 and 28 at 8:00 p.m. The Leagues are made up of boys from 16 and 17 years of age. The winner of this match will travel to Waco

for the State Playoffs to be held during the first week of August. Competing in the regional playoffs will be the Mohawks, Sgt. Jircik, Manager, vs. the Idalou Reds, John Mojica, Manager. (Staff Photo)

CARD OF THANKS
Our sincere thanks for every kind deed, words of comfort, and expressions of sympathy shown us during the illness and death of our loved one. We thank those who prepared food, those who had us in their home, and helped us in any way during our sad hours. Thanks for the beautiful flowers, cards, the memorials that were sent in memory of our mother. Thanks so much to Dr. Thigpen, Mr. McCauley and staff for their help and kindness. Thanks to Rice Springs Care Home for all the tender loving care she received while living there. When sorrow comes your way, may you have the same kind friends. May God bless you all is our prayer. The family of Eva McMillin. 30p

CARD OF THANKS
We want to say thanks to all the people for being so thoughtful and kind during my stay in the hospital and since I have been home. Your prayers, calls, visits, flowers, gifts, cards, and food has meant so much to us and makes us very proud to live among wonderful people like you. Your kindness will always be remembered. May God bless each of you. Callie and Jno E. Robison. 30p

CARD OF THANKS
I would like to thank the doctors and nurses for their loving care of my mother, Mrs. Nathaniel Bedford while she was in the hospital and a special thanks to Mr. Jerry Sorrells, the ambulance driver and nurse Verla Townsend who accompanied her to Fort Worth hospital. They were so kind. May God's Blessing be with all of you. Margaret Duffie. 30p

G.T.E. Pushing CCRA Passage

SAN ANGELO.—Congressional hearings are expected in late September on the Consumer Communications Reform Act—a bill aimed at keeping rates for basic residential and small business service as inexpensive as possible. Almost 150 members of Congress have joined in as co-sponsors of the bill supported by the telephone industry, according to Robert W. Shaffer, president of General Telephone Company of the Southwest. "The widespread support in Congress, as well as from consumer groups, labor unions and farm organizations is a clear message to the federal regulators in Washington: Stop experimenting with the world's best telephone system, especially when the experiments will lead to much higher basic rates," Shaffer said. Recent Federal Communications Commission decisions have allowed competition from customer-provided telephone equipment and intercity private line communications service not furnished by the telephone companies. "These federal policies will cause rate increases up to 60 per cent for residential and small business service, according to an 18-month study done for the U.S. Independent Telephone Association by Systems Applications, Inc., a prestigious telecommunications research firm in San Rafael, Calif.," Shaffer said. "The Communications Act of 1934 called on the telephone companies to develop low cost telephone service to reach everyone," according to Shaffer. "We have carried out our Congressional mandate, and 95 per cent of American homes now have telephone service. This nearly universal service was made possible by rate structures which give a price break to users of basic residential and small business service. "The telephone companies can compete with these outside suppliers, but to do so we must shift to cost-based rates across the board. This inevitably will mean higher rates for residential users, as has been well documented in independent research. "It is for these reasons we have asked Congress to make a determination of the true public interest in this matter." The proposed legislation would leave regulation of customer-provided equipment in the hands of the states, would forbid duplication of basic long distance service and would permit genuine intercity rate competition based on costs.

Burleson Ann. CSA Grant Of \$60,210
WASHINGTON, D. C.—Congressman Omar Burleson announces the approval of a \$60,210 Community Services Administration grant to the Community Action Program, Incorporated, with headquarters at Abilene. The delegate agencies are the community action programs of Mitchell, Haskell and Stephens counties. The grant was effective July 1, 1976, and will run for three months. The areas served are Taylor, Mitchell, Stephens, Jones, Kent, Haskell, Stone-wall, Knox, Throckmorton and Shackelford counties. The funds will be used to provide legal aid service, youth program, senior citizens program, comprehensive outreach and referral, community organization, economic development and manpower services. It will also provide administrative services for the following programs funded by other sources: summer food program, family planning, head start, day care for the elderly, medical transportation and human services delivery system.

Haskell County Farmers Place Third
AUSTIN—Haskell County farmers placed third in 1975 Texas guar production with a crop totaling 5,785,000 pounds, Agriculture Commissioner John C. White reported. County farmers harvested 8,800 acres with a yield of 657 pounds per acre. Texas guar production is concentrated on the Low Plains and Cross Timbers with small acreages seeded in South and Southcentral Texas. Experimental acreages have also been planted on the Edwards Plateau and Trans-Pecos areas. While guar is a legume crop and some fields are turned under for soil-building purposes, most of the crop is harvested for the bean. Guar can be planted as late as July, and farmers will plant it as a catch crop for cotton or sorghum that has been hailed or flooded. Wilbarger County led the state in production with 12,702,000 pounds. Complete figures for Texas field crops have been compiled in the "1975 Texas Field Crops Statistics." Copies may be obtained by writing Agriculture Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711. The two most disastrous tornadoes (in terms of lives lost) struck Texas more than 50 years apart. On May 18, 1902 Goliad was devastated by a tornado that took the lives of 114 people and injured more than 200. On May 11, 1953 a tornado moved through downtown Waco, killing 114 people and injuring 597. The costliest tornado in the state's history struck the City of Lubbock on May 11, 1970. Twenty-six persons were killed and 500 injured. Property loss was estimated at \$235 million.

Friersons Get Together

Family members and guests enjoyed the nineteenth annual Frierson family reunion, which was held at the Haskell Country Club, Sunday July 18. President J. Wayne McDermott presided over the business meeting which saw Riley Lewallen of Pecos carry away the "oldest Frierson still kicking" award while little Wes Frierson of Houston won the youngest Frierson around award.

Wes's daddy, Monte, brought up the rear by taking the long distance award.

Everyone enjoyed the good meal and fellowship.

Therwhanger Reunion Held

The family of Mrs. Eula Therwhanger and the late Mr. Therwhanger met on July 18 for their annual reunion at the Munday Community Center.

Prayer was led by John Therwhanger, then a delicious dinner was served at the noon hour, a picture session was held afterwards and a good time was had by all.

Families attended from Lamesa, Arlington, Brownwood, Seminole, Tullia, Plainview, Big Springs, Stanton, Haskell and Munday.

Everyone is looking forward to another one in 1977.

WTC Taking Veterans Applications

SNYDER—Veterans who are planning to enroll in college for the first time this fall and who will be applying for veteran's educational benefits should make application for those benefits well in advance of the beginning of the fall semester, Dan Dever, Western Texas College Veteran and Outreach Coordinator and Associate Registrar, said.

Veterans educational benefits are now paid in advance, Dever said, and if an application for benefits is received in the VA Regional Office 30 days or more before enrollment, VA normally can have the first educational allowance check available, at the college, prior to registration.

Veterans taking courses at any of the Western Texas College extension centers may draw educational benefits while enrolled at the center.

Dever is in his office in the WTC Administration Building from 8-5 each week day except Friday when the offices close at 4 p.m. Veterans who cannot talk to Dever during those hours may arrange an evening appointment by calling him in advance. He has all the necessary forms to be used in making application for educational benefits.

Most veterans with service after June 1, 1966, are eligible for benefits, Dever said, provided the active duty was continuous for 181 days or more, any part of which occurred after June 1, 1966. The veteran must hold a discharge under conditions other than dishonorable.

Educational benefits for post-Korean veterans, those discharged prior to June 1, 1966, have expired under the 10-year statutory limitation, but these veterans may have entitlement to tuition assistance under the Texas Hazelwood Act.

Veterans or other adults who have not completed high school or a GED program may be admitted to WTC by individual approval, Dever pointed out, and he can help veterans make arrangements for entrance to WTC under those circumstances.

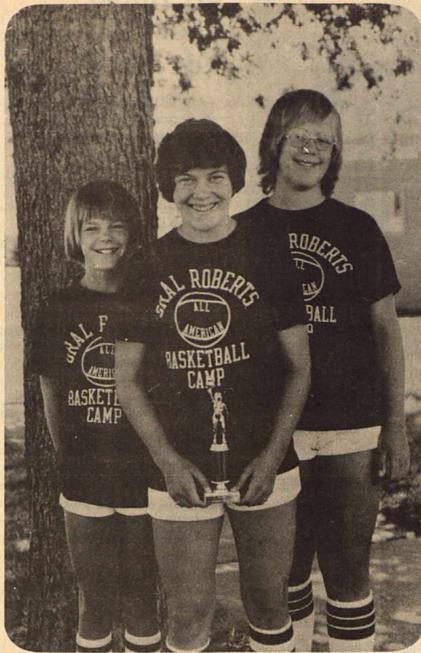

The World War II GI Bill was signed into law June 22, 1944, with responsibility placed with the Veterans Administration.

Significant changes are on the horizon for researchers working on agricultural projects. Underlying factor for these changes is the growing consensus among scientists that current research with its aims at yield increases through better fertilization and cultivation technique may be nearing its peak. In short, there is a growing feeling that we are reaching the stage of making a plant produce all that is possible. That's the reason for the change in direction. Scientists are now beginning to experiment on changes in the biological potential of plants. Basic changes in photosynthesis are being considered. Methods of limiting a plant's respiration are under study and the strange yield increases of some plants when exposed to carbon dioxide are being examined. In short, the new direction for research involves changing the plant itself in ways which could develop new and much greater yield increases.

Local Girls Attend Camp For Basketball

Four Haskell girls, Melinda Blakley, Mynea Jones, Kiersta Lane and Shannon Lane attended basketball camp at the Oral Roberts University, in Tulsa, Oklahoma, July 11 through 16.

The 96 campers in attendance spent seven hours daily on the court or in lecture sessions. The \$2 million Aerobics Center used has an indoor swimming pool, track, squash and handball courts,

four-court hardwood gymnasium floor, exercise and gymnastic areas, classrooms and offices.

The areas of competition were five on five, three on three, one on one, and free throws. Mynea came home with a trophy for first place in one on one and third place in free throws.

Not only did the Haskellites enjoy making new friends from several states, but they were impressed with the beauty of the ORU campus, noted for its ultra modern architecture.

PROCLAMATION COUNTY JUDGE OF HASKELL COUNTY

To all To Whom These Presents Shall Come: I, B. O. Roberson, County Judge of Haskell County, do hereby declare the week of July 25-31, 1976 as FARM AND SAFETY WEEK in Haskell County, for the following reasons:

WHEREAS, the citizens of Haskell County are proud of our farm and ranch families from whom comes our abundance of food and fiber; therefore, our citizens are deeply concerned about the safety and well being of this segment of our populations; and

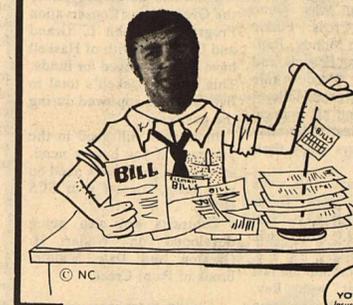

WHEREAS, our farmers and ranchers have become increasingly concerned with a new phase of agricultural safety through regulatory requirements for their hired labor and the added cost of new equipment (Roll-Over Protective Structures for Agricultural Tractors) as a result of these regulatory requirements; and the theme, "Planning Prevents Accidents," and

WHEREAS, planning for accident prevention includes a combination of proper attitudes, combined with practical, common sense precautions. The planning should include employee operating instructions for agricultural safety standards; use tractors with roll-over protection, Slow Moving Vehicle Emblems, fire extinguishers, legal lighting equipment and rear-view mirrors; and

WHEREAS, the farmer and rancher can develop a check list for himself, members of his family and employees which would include the following: enroll in the (NSC) Defensive Driving Course; (NRA)-Hunter & Home Firearm Safety Courses; (ARC) Basic First Aid Course; and Basic Learn to Swim Course; and include SAFETY in the Program of Work and Program Calendar for schools, clubs, churches and other group meetings.

GREAT PLAINS CONTRACTS APPROVED

Contracts developed under the Great Plains Conservation Program for John L. Grand and Dan R. Griffith of Haskell have been approved for funds. This brings Haskell's total to five contracts approved during the past year.

Interest is still good in the program. If you have a need, or feel that you have a need on your farm, contact your SCS Office.

Contracts are also being developed on Waller H. Overton and Dale Middlebrook of Paint Creek.

NEW VARIETY OF BERMUDAGRASS

Circus Director Gets Start With Capone

The career of Richard Barstow, director of Ringling Bros. and Barnum & Bailey Circus, coming to the Taylor County Coliseum in Abilene, August 3-4, 1976, began inconspicuously enough under the patronage of mobster Al Capone.

The trail of Barstow's professional life, which was launched in a Chicago speakeasy and led eventually to Circus sawdust, started in the 20's when the gangster czar noticed the talented youngster working in a family act and wanted him to dance in his night club, the Midnight Frolic, fronted by a man called Ike Bloom. Dick Barstow was 11 years old at the time and was dancing to help pay expenses after his father had deserted the family ensemble.

After a successful audition, Capone asked the boy's mother what salary she wanted, and she told him to ask Dick.

The immediate reply was \$125 a week, a fabled sum of money in those days.

Capone offered \$85, and Barstow recalls he was too young to know you didn't argue with Al Capone and he answered, "I'll have to think about it."

Barstow took the job, and Capone, who worried about a little boy being out late at night in Chicago, sent an escort of two bodyguards to see him home safely each evening. To further facilitate matters for the youngster, Capone got the Barstow family a rent-free apartment near the club.

"The only thing was that it was in what used to be called a house of ill repute. The girls thought I was cute, and I liked them too," remembers Barstow.

Between shows at the Midnight Frolic, Capone kept the youngster locked in the dressing room with piles of games. He felt the impressionable lad was too little to see the half-naked chorus girls who paraded around the club.

Despite all of his experience and expertise in various show business areas, The Greatest Show on Earth is Richard Barstow's first love. "There is absolutely nothing like Ringling Bros. and Barnum & Bailey," the director says.

robust grass which has much larger stolons, wider leaves, and taller growth than the other bermudagrass varieties and hybrids commonly used for forage.

Callie stands well under moderately high to high levels of nitrogen and produces excellent yields of hay. Hay yields have been 10-15 percent higher than Coastal grown under similar conditions.

SCS ADMINISTRATOR R. M. DAVIS COMMENTS ON FAMILY FARMING

"Family farming in the United States is holding its own as the most permanent and dominant influence in America's agriculture," stated R. M. Davis, Soil Conservation Service Administrator. This viewpoint of modern agriculture was recounted in the editorial of the July, SOIL CONSERVATION, the official media of the SCS.

According to Davis, Secretary of Agriculture Butz reports that about 95 percent of all U.S. farms are still family farms and produce about 60 percent of all farm produce sold.

"The ability of the family farm to survive is good news for conservation because the family farmer is also the mainstay of soil and water conservation," Davis said.

"Family farms have been first in conservation since the beginning of the Soil Conservation Service."

"Almost always, it is the family farmer or rancher—frequently encouraged by sons and daughters—who is the first to try out new parallel terrace systems or no-till farming, then invites the neighbors over for a look," Davis said.

"As we mark the 200th anniversary of our country's birth in freedom, we should remember that it was the yeoman farmer, the family farmer, who 'fired the shot heard around the world,' and eventually won our independence."

"Now it is the family farmer—and-rancher—who keeps alive our voluntary program of soil and water conservation...who conserves and improves our basic resource," Davis concluded.

4H Horse Show Set For July 21-24

AMARILLO—More than 600 horses are entered in competition in the 1976 State 4-H Horse Show at the Tri-State Fairgrounds here July 21-24. Events will be held at both the Bill Cody Arena and the coliseum.

The show will feature open invitational competition as well as the regular show for qualifying 4-H youth, announces B. F. Yeates, horse specialist for the Texas Agricultural Extension Service.

Some 280 4-H boys and girls who have qualified through competition at the county and district shows will participate in the regular show classes which include halter, showmanship, Western pleasure, Western horsemanship, reining, pole bending and barrel racing.

An additional 150 youth are expected to compete in the open classes which include cutting, breakaway and judged roping, hunter hack, working hunter and jumping while another large group will compete in precision riding and drill team.

The open invitational portion of the show begins Wednesday, July 21, at 8 a.m. while the regular show begins with preliminaries in showmanship at 6 p.m. Thursday.

Horses will be judged at halter beginning at 8 a.m. Friday.

Preliminary competition in Western pleasure, reining and pole bending will continue throughout the day and evening.

Preliminaries in Western horsemanship and barrel racing will be conducted Saturday morning, and final competition in all classes of the regular show will begin at 2 p.m. An awards program will conclude the show.

Yeates and Doug Householder, also an Extension horse specialist, will serve as show managers.

Show judges will be Mike Ross of Pinehurst, N.C.; Bob Johnson of Santa Rosa, N.M.; John Trimmer of Hale Center; Marcy Stimmel of Midland; Mrs. H. B. Freemann of Wheeler; and Dwain Stoddard and Bob Middleton, both of Amarillo.

A horseman's handicrafts show will also be a part of the total program, adds Yeates.

Basketball Camp Has Record No.

Texas Tech head basketball coach Gerald Myers has opened his annual basketball camp at Lubbock Christian College to a record number of boys.

Held each summer in the LCC fieldhouse, the camp has grown to 120 participants. Though this figure represents the highest total in the camp's four-year history, Myers pointed out that the facilities accommodate up to 150 boys.

Three more week-long sessions remain in this summer's program. They are July 11-16, July 18-23 and Aug. 1-6. The camp is open to boys between the ages of nine and 14. The cost is \$95 for resident campers and \$65 for day campers. Further information can be obtained by calling LCC at (806) 792-3221.

Easter Seal Action Line Initiated

A new service for disabled Texas children and adults, called "Easter Seal Action Line", has been initiated by the Easter Seal Society for Crippled Children and Adults of Texas. Easter Seal Action Line's 24 hours, toll-free number, 1-800-492-5555, can be used by disabled persons and their families to obtain information regarding help they need.

William E. Russell, Executive Director for the Texas Easter Seal Society, reports, "Many people, especially in the rural areas, don't realize how many services are available for the handicapped today." The Easter Seal Action Line is designed to serve as a link between the handicapped and those services. With just a phone call, persons can receive that assistance in helping them to locate service they need, where it can be obtained, and who can provide it for them.

Among the many services available through the Texas Easter Seal Society Action Line are speech, physical, and occupation therapies, evaluations, purchase of needed orthopedic equipment, all of which require a medical doctor's authorization. The Texas Easter Seal Society pledges to make every effort to locate the needed service if that service is offered in the State of Texas. The Texas Easter Seal Society makes these services available to the handicapped of all ages.

Any handicapped person or anyone who knows a handicapped person who needs help in locating a needed service is urged to call the toll-free Easter Seal Action Line, 1-800-492-5555. Day or night, 7 days a week.

OSHA GOOFS

WASHINGTON—The U.S. Department of Labor has announced it is halting further distribution of a recently released booklet, "Safety with Beef Cattle," pending its revision.

The booklet was developed and written by Purdue University's Research Foundation under contract with the Occupational Safety and Health Administration.

Dr. Morton Corn, Assistant Secretary of Labor for Occupational Safety and Health said that the intention of the booklet is to remind farm workers of the dangers they face daily on the job. "These dangers," Dr. Corn added, "make farm work the third most dangerous occupation in the nation today, according to National Safety Council data."

Dr. Corn noted that the booklet was written in simple language by the experts at

Purdue and printed in a format that would be easier to read by any farm workers who have reading problems. The U.S. Office of Education estimates that in the total U.S. population there are some 23 million persons with reading difficulties.

"Apparently many have viewed the booklet as being for all farm audiences," Dr. Corn said. "Our plan was and is to produce a standard version as well as a version for Spanish-speaking farm workers. We did not intend to insult anyone's intelligence—merely to develop materials to remind all farm workers and their employers of the dangers of working with cattle. The criticism has, however, directed our attention to several sections that must be revised. We are therefore, halting any further distribution of the booklet until it can be revised and all three versions made available at the same time."

SO YOU CAN KNOW US BETTER

INTRODUCING . . .

TO SERVE YOU BETTER

For the many people who have inquired as to where Royce Williams is now, and why isn't he in the office in the main lobby, Haskell National Bank proudly invites you to visit the new Agri-Loan and Farm and Ranch Management division, located in the south section of the bank building. Agri-Loan volume has increased by some 300% in the past three years, and due to size and complexity of these loans, much time must be spent in reviewing and allocating collateral. Haskell National Bank management felt that it would be a great advantage for all its customers to segregate the farm loans in one department. It would then be able to give more time and thought to each individual loan, and to be able to use the appointment method to a certain degree, thus eliminating much waiting, on the customer's part. Much of the delay for customers in the main lobby would also be eliminated. The process of re-arranging the loan department began in earnest in October of 1975, and the new department was in operation shortly thereafter. New offices were installed along with a new secretary, and the new Agri-Loan Department became a reality.

Royce came to Haskell National Bank as Vice President in January of 1971, and was elected to the Board of Directors in May of that year. He was promoted to Sr. vice President in January of 1973, and is in charge of Agri-Loan Department of the bank. Prior to beginning his service with HNB, he was employed with Rolling Plains P.C.A. for a period of 22 years, as a loan officer, and was President of Central Texas P.C.A. at the time he accepted a position with HNB. Royce has estimated that he has made loans in excess of one hundred million dollars in his capacity as a loan officer.

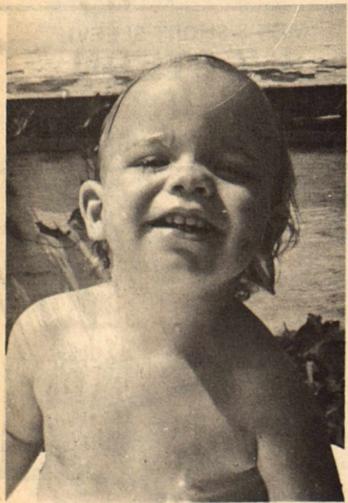

Royce was graduated from Stamford High School, and was caught up in World War II, shortly thereafter. He served with Hdq. 8th Army, and spent much time in Tokyo, Japan. His wife, Bobbie, is employed by Texas Dept. of Public Welfare Medical Assistance Unit, as a Registered Nurse Consultant. They have one son, Paul, who is a student in Haskell Jr. High School. The Williams reside at 508 N. Avenue F, and are active in church and civic affairs. Royce served as President of Haskell Chamber of Commerce in 1973-1974, and on Board of Directors of Haskell Country Club. They are members of First Baptist Church, where Royce is Church Treasurer.

Mental Retardation

Editor—This is one of a series of articles about Mental Retardation prepared by Mrs. Eugene Cochran and the Public Education Committee of the Texas Association for Retarded Citizens.

Editors note: This is the second in a series of three articles on the subject of mental retardation and its recognition that will be appearing for three weeks.

Another ally of mine who supports me is CONFUSION. Medical people argue with psychiatric professionals. State departments of government compete for responsibility while none have adequate funding. Community organizations and associations work fervently to get public funds and to get public agencies to do the job they should have been doing; yet, they all insist on autonomy. Lawmakers are not aware of the specific issues and are asked to vote for programs they don't even know are needed because they haven't been adequately informed. I am counting on the continued support of confusion.

Another of my allies is SELF-FULFILLING PRO-PHECY. As long as I have them convinced that those I touch are incompetent, socially non-adjustable, non-educable, and incapable of working, of living an independent life or of making their own decisions, most people will never expect much of my victims, and this gratifies me greatly. As long as educators, medical and psychiatric professionals, lawmakers and even parents don't expect too much, then I have little or no fear about my power and influence remaining stable and secure. People get what they expect, you know.

Finally, I have my greatest allies—PRECEDENT and

PROVINCIALISM. They usually weave their spell around the customary "let's not rock the boat" philosophy that has prevailed for so long. However, unless some dramatic events occur, and unless these advocate groups recruit some new, vibrant, aggressive leaders who are not afraid of change, I think their efforts will be to no avail.

In spite of this support from my allies, however, there is a move afoot that causes me concern. A group of so-called advocates are at work, interfering where they don't belong. Their efforts are becoming more distressing all the time. I don't like the way they are getting the ear of some legislators. And, they are instigating many new programs and services. I am distressed at the public awareness these advocates are influencing and at the swelling numbers of people in the rural areas nationwide who are joining their ranks. Perhaps most disturbing of all is that these groups are beginning to focus on research into my causes. This has never been before. It is intolerable. It rocks my very existence! It is one thing to mount a campaign to assist the people I touch with new services and programs; but, it is an entirely different matter to try and put me completely out of business. So, I will just try to keep things under control; and, with the help of my allies, I really don't think that I will have much to fear.

In the meantime, I still have my work to do. I will affect many more children today, some in the early developmental stages of life, some tiny infants, some yet unborn. As long as I am left alone, I can grow fat and powerful and run rampant across the nation. Yes, even the world. Who knows, perhaps I will even visit your home. I afflict almost 6 million Americans. I affect, including the families of the persons I affect, some 30 million Americans. I add new victims at the rate of one every five minutes or about 126,000 a year. I affect persons in the families of the rich, the poor, the

in-between, the scientist, the political leader, the skilled craftsman, the bank president, the labor leader, the newspaper editor, the unskilled laborer, the teacher. Who Am I?

I am caused by literally hundreds of things some of which include: an accident which damages the brain; German measles contracted by the expectant mother during the first three months of pregnancy; common measles contracted by the child; chemical failures in the child's system which prevents the body from using certain substances properly, thus permitting these substances to build up and damage body and brain tissue; certain drugs taken by the mother during pregnancy; malnutrition in early life; poor home conditions, which result in the child being neglected or ignored by its parents during the early years of development. Who Am I? I am Mental Retardation!

Leisure Lodge News

The ladies from the First Methodist Church brought the devotion on Tuesday. The pastor, Rev. Charles Graff brought the message. Mrs. Laura Overton was the pianist, accompanied by Mrs. G. F. Mullino on the French Harp. We do appreciate the efforts of our ladies who give of their time for our enjoyment. Patsy and Laurie Leonard from Plano visited their grandmother, Mrs. Ruby Moon over the weekend. We had a special treat on Sunday afternoon when the

singing school from the Church of Christ came out and sang for us. Following the singing the pastor from the First Christian Church, Rev. Jack Hamman and his wife ministered to us.

Mrs. Patsy Earles from Stamford, visited Princella Ford on Sunday afternoon.

Mrs. Dewie Wester, N.H.A. had her grandson, Dwight Wester from Breckenridge visiting her and attending the singing school at the Church of Christ.

Some of the ladies at Leisure Lodge have novelty pillows, aprons, etc., we would like for you to come by and see them.

Haney Stanfield was honored on his birthday Monday by having a birthday cake at the work shop shared by everyone. His mother, Mrs. Nellie Stanfield also surprised him by taking him to Rochester for another cake and party.

TAKE ADVANTAGE OF SALES: Avoid overstocking with commercially frozen food that's always available; use your freezer as your own bargain counter and store foods you can buy on sale. But do allow space for short-time baked goods, leftovers and special party foods.

LOCK IN FLAVOR: Use moisture and vapor-proof materials especially designed for freezers to wrap your foods. Tightly sealed, these lock in flavor and moisture and prevent "freezer burn" (surface drying) on foods. Don't use wax paper, bread paper or regular cellophane for freezer foods.

LABEL PACKAGES: Date and identify freezer packages so 1) you don't accumulate a lot of mysterious shapes and 2) you'll be able to pick out foods that have been in the freezer longest.

ALLOW SPACE FOR EXPANSION: Food in containers or jars shouldn't come up to more than 1/2 inch from the top. Leave at least 1 inch for a quart of liquid.

SINGING ALL THE WAY

By Roxie Parker

In the Old Testament book which bears his name, Nehemiah records that when the Jews were rebuilding the wall around Jerusalem, through permission of their captor King Artaxerxes, they did so against great odds. But he states simply, "So built we the wall; and all the wall was joined together unto the half thereof; for the people had a mind to work." Nehemiah 4:6.

To say that the small congregation of Haskell's First Assembly of God Church could raise \$25,000 in three years, buy a plot of ground 3 1/2 acres in size, and build a building which consists of an auditorium and class rooms with a total of 5,300 square feet, sounds beyond the realm of the possible. Because the average attendance on any given Sunday is between 40 and 50 people.

Accident Report

The Texas Highway Patrol investigated nine accidents on rural highways in Haskell County during the month of June, 1976, according to Sergeant F. Jirick, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and five persons injured.

The rural traffic accident summary for this county during the first six months of 1976 shows a total of 41 accidents resulting in one person killed and 18 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for June, 1976, shows a total of 549 accidents resulting in ten persons killed and 336 injured, as compared to June, 1975, with 572 accidents resulting in 25 persons killed and 355 persons injured. This was 23 less accidents, 15 less killed, and 19 less injured in 1976 at the same period of time.

The ten traffic deaths for the month of June, 1976, occurred in the following counties: three in Jack; two in Potter; and one each in Deaf Smith, Hutchinson, Wheeler, Clay and Parker.

Nehemiah's day, have a mind to work!

Carrying my trusty umbrella I went to the church Saturday in the rain to talk with the pastor and his wife and to tour the building. Boards were laid at random so I could jump from one to the other without sinking in the mud; the reason I went in the rain is simple enough—Rev. Amburn said the workmen would take a break at 3:30 and I somehow got the impression if I didn't catch them on that break they didn't plan to stop working just to answer my questions! Every minute counts with these laborers!

In December, 1972 Rev. and Mrs. J. C. Amburn and their 3 children came from Littlefield to Haskell in response to the church's call to him as pastor. He discussed with the congregation at the time a building program so that the old facilities, considered quite inadequate, might be replaced.

Approximately nine months later the church in a business session voted unanimously to go into the building program. There was a fund of \$3,000 in the bank at that time. Over a three-year period there was scarcely an idle church member. The women of the church cooked doughnuts every week and sold them throughout Haskell; the county fair afforded an opportunity to have a concession stand where good food was sold to fair-goers.

Men in the church contributed their time in assisting Rev. Amburn in heating and air-conditioning jobs, pay for which went into the building fund. The pastor is a heating and air-conditioning electrical contractor.

Those who labored and saw the building fund grow to \$25,000 were further encouraged as a number of Haskell's businesses and individuals not connected with the church began to contribute to the fund.

Negotiations for the building site began in November, 1975 and they "possessed the land" March 1, 1976. Construction began the later part of March.

The church named Pastor Amburn the general contractor; his uncle, Zearl Amburn, who is a carpenter, was hired and the foundation slab, brick-laying, and the roofing were sub-contracted. The rest of the work has been done by

the members. Sacrifice is a word used frequently by the pastor as he tells of the hours put into work on the building by those who already had worked 8 hours at their regular jobs.

Pointing to a workman "cooling off" in a doorway during the break, the pastor said, "See that man over there? That's Marvin Jones and he took his three weeks' vacation right here working on this building. We are so grateful for those who have come at night and on Saturdays to help out."

As planned, the auditorium and choir space will seat around 230 people, with educational space to take care of 100. There are six classrooms and Fellowship Hall which can be used by three classes. Also there is a kitchen and a church office.

Floors will be carpeted wall-to-wall except for the kitchen (where they plan to keep making doughnuts, Mrs. Amburn told me) and Fellowship Hall. The auditorium and foyer will have pecan paneling; the pews have gold padded seats and backs. Windows seen from the front of the building are multi-colored crinkle fiberglass. Outside brick is Dutch Colonial in a burnt ivory and chocolate color.

In addition to the labor donated by men and women of the church, savings were made through by-passing jobbers and buying some equipment direct from the factory. Among donations received were 350 sheets of Celotex.

"Out of the total cost of \$55,000 around \$49,000 was spent for materials. But because of the generosity of our friends and the sacrifice of money and labor of our members, we will have a beautiful and adequate church building valued between \$120,000 and \$130,000", Rev. Amburn stated.

the structure. One night the workers were all quite weary with their well-doing as several were plagued with stiff and cramping muscles. After climbing down from the rafters where they had spent several hot and tedious hours, a conference yielded the decision to sub-contract the

roof! There will be a driveway from Avenue E around to the back of the property where ample parking space will be provided. Landscaping at the front and sides of the property will provide a beautiful setting for the new building. "We have lost a few days

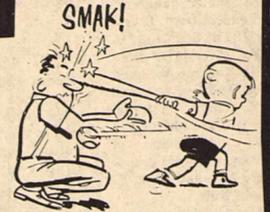

due to bad weather and a few days due to illness, but the work has gone forward and the people want to finish completely before we go into the building. We anticipate having the building completed and ready to move into by the middle or the last of September," the pastor said.

Letters To The Editor

[EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability]

To: The Patrons of Paint Creek School

This is a letter of information we feel might help clear up some rumors started by a few people in our school district and the school districts around us.

As you know the 1975 Texas Legislature passed HB1126 which is our Educational Finance Bill. This Education Bill hurt the schools of Texas in many ways but its effect will be felt more by schools which have fewer than 1500 students. [This includes all the

schools in Haskell County.]

This bill along with the Governors Full Market Value plan will adversely affect every school district in Haskell County.

When HB1126 passed in the spring of 1975 the Board of Education and Administration of Paint Creek RHS felt it would be wise to meet with the school districts which border us and discuss the problems brought about by HB1126 and see if we could come up with some solutions to common problems.

Since the spring of 1975 the Paint Creek School Board and Superintendent have met with the School Boards and Superintendents of Lueders-Avoca, Stamford, Haskell Schools along with Representatives of the Texas Education Agency.

As a result of these several meetings we found that we all shared several common problems, the most outstanding one being that of finance.

However, we also found this to be a common problem to all the schools and that the financial condition of Paint Creek School was as good as and in most cases more stable than the other districts, and could not be solved by consolidation. The Paint Creek School Board has in no way expressed a desire to consolidate with any one or combination of any of these schools to the school boards or any individual of the other school districts now or in the

farseeable future.

We feel like the students at Paint Creek are getting a quality education that will prepare them for whatever they choose to do after graduation whether it be college or some other field of work. The students at Paint Creek are taught a sense of responsibility and pride in their school and community that can only be obtained in a small school situation and that in no way is their future handicapped by attending Paint Creek School.

Our school offers a wide variety of courses in English, Math, Science, Business, Vocational Ag, Vocational Home-making and other electives. All of our teachers meet state requirements as to teach in their various fields.

We went through state accreditation program in 1975 and received a good report from the Texas Education

Agency.

We the board, as elected officials elected by you, feel that as long as we can offer the type of program we are presently offering to our students as a cost that is not prohibitive, by you the patrons and taxpayers of the Paint Creek RHS District, that we will continue to do so. At the present time we have no plans of closing down or consolidating with any other school district. We feel that as long as you the people of the Paint Creek Community want to keep our school, we will do everything that is within our power to do so.

Any rumor which you may have heard to do otherwise is completely unfounded.

At the present time our financial situation is more stable than it has been in several years.

If you have questions about the school or would like to

express your opinion either negative or positive about the above letter please contact us, the Board of Education Paint Creek RHS.

Thank you for taking time to read this letter and for your support.

Scout Camp Attendance Increases

Camp Tonkawa, the Chisholm Trail Council Scout Camp located near the State Park, closed out four weeks of Summer Camp with a record breaking 31% increase in attendance over last year.

The Haskell scouts recently completed their summer encampment at Camp Tonkawa.

There were 408 Scouts in attendance this year compared with 311 in 1975. Forty-eight adult leaders came to camp with the Scouts compared with 32 last year.

Chisholm Trail Council Scout Executive Don Knecht said that this increase was due primarily to the volunteer Scoutmasters, many of whom used their vacations to spend a week with their Scouts. Early planning by many Troops also was an important factor in the increased attendance, said Knecht.

Regional Area Camping Chairman Dr. Joe Alexander of Abilene said that this Council led all others in increased camp attendance in Area IV. This includes Councils from West Texas and all of New Mexico.

Camping is not over by any means for Camp Tonkawa this summer. Approximately 200 Cub Scouts and leaders will attend "Day Camp" the next two weeks, beginning July 20th.

Farmworkers Program Gets \$53.7 Million

WASHINGTON—To facilitate planning for migrant and seasonal farmworker programs in fiscal year 1977, Secretary of Labor W. J. Usery Jr. has announced planning estimates totalling \$53.7 million for 49 states and Puerto Rico.

In a notice scheduled for publication in the Federal Register of July 2, Secretary Usery said the funds would become available beginning Oct. 1, subject to appropriation by the Congress. Funding is authorized by the Comprehensive Employment and Training Act (CETA), Title III, Section 303.

The planning estimate for each state is based on the state's proportion of the

Nation's farmworkers, and is no less than 90 percent of the state's fiscal year 1976 allocation.

Migrant and Seasonal Farmworker Programs, operating in every state but Alaska, provide such services as skill training, work experience, education assistance, job placement, transportation help, and day care of children.

Prospective program sponsors must submit a Preapplication for Federal Assistance to the Labor Department's Employment and Training Administration. It must be received in Room 7122, Patrick Henry Building, 601 D St., N.W. Washington D.C. 20213 by 4 p.m. (EDT), Aug. 2.

FARM SAFETY WEEK

JULY 25-31

PREVENT FARM ACCIDENTS

Form 25
33 02 JUL 75

**DON'T BE A STATISTIC,
CHECK YOUR FARM
FOR SAFETY HAZARDS
TODAY!...**

Most farm accidents can be avoided if a little time is taken to remove obstructions, fill hazardous field depressions and check machinery for unsafe operating conditions. Safe farming conditions are as much a part of farming as cultivating or planting. Don't gamble with chance, remove the cause of an accident promptly!
