12 Members Inducted Into NHS

Haskell High School Chapter of the National Honor Society held its annual induction ceremony for new members at the Haskell National Bank Community Room, May 10. This year the traditional candlelighting ceremony was used to induct the twelve new members who were elected by the Haskell High School faculty.

John Cox, 1976 president, welcomed the guests and new

members. He then gave a brief history of the founding and the purposes of the National Honor Society. Rosemary Kimbrough next explained the importance of knowledge as the basic foundation of the Society. The four principles for which the Society stands-Scholarship, Leadership, Character and Service-were described by Cindy Thomas, Randy Dar-

den, Clark Richardson and Mona Bledsoe. Johnny Lancaster explained the meaning of the NHS symbol, the keystone and flaming torch.

Newly elected members were then led in the NHS pledge by John Cox and given their membership card and color pin. New members are: Jill Adkins, Mike New, Betsy Opitz, Connie Frierson, Nathan Frierson. Carol Lehde,

Floradean Hawkins, Dwain Weise, Cynthia Jones, Chris Colbert, Jimmy Browning and Kim Campbell. Officers for 1977 will be; President: Connie Frierson; Vice-President Kim Campbell; Secretary: Jill Ad-

kins; Reporter: Dwain Weise. James Wittenborn concluded the ceremony by congratulating the new members and extending an invitation to all guests to stay for the reception which followed.

NEW MEMBERS inducted into the local chapter of the National Honor Society, May 10, included, (back row I to r) Nathan Frierson, Chris Colbert, Floradean Hawkins, Jill Adkins, Carol Lehde, Cynthia Jones, Connie Frierson, Kim Campbell, Betsy Opitz, Dwain Weise, Jimmy Browning, and Mike New. Other

members are: (front row 1 to r) James Wittenborn, Mona Bledsoe, Clark Richardson, Rosemary Kimbrough, John Cox, Cindy Thomas, Randy Darden, and Johnny Lancaster.

DPS Investigates Two Accidents

The Texas Highway Patrol investigated two accidents on rural highways in Haskell County during the month of April, 1977 according to Sergeant Frank Jircik, Highway Patrol supervisor of this

These crashes resulted in no persons killed and one person

Defensive Driving Course Scheduled June 6 and 7

The Texas Department of Public Safety will present the National Safety Council's Defensive Driving Course, sponsored by the Rotary Club, at Haskell on June 6th and 7th.

The principal driver of a vehicle who completes the course will receive a 10 percent discount on auto insurance for three years.

The classes will start at 7:00 p.m. each night and will be conducted at the Haskell National Bank Community injured.

The rural traffic accident summary for this county during the first four months of 1977 shows a total of ten accidents resulting in no persons killed and five persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for April, 1977 shows a total of 462 accidents resulting in 17 persons killed and 273 persons injured, as compared to April, 1976, with 510 accidents resulting in 10 persons killed and 318 persons injured. This was 48 less accidents, seven more killed, and 45 less injured in 1977 at the same period of time.

The 17 traffic deaths for the month of April, 1977 occured in the following counties: Two each in Archer, Clay, Terry, Young, Hutchinson, Potter and Randall; one each in Armstrong, Gray and Swisher.

Baccalaureate Services Set May 22

Baccalaureate Services for seniors in Haskell County will be held May 22, for all county schools.

Baccalaureate services for Haskell seniors will be held at the Haskell First Baptist Church. Address will be given by the Rev. Charles Graff, minister, First United Methodist Church.

Paint Creek Baccalaureate Service will be held in the Paint Creek United Methodist Church. Pat Hale will give the address.

Baccalaureate services in Weinert will begin at 8 p.m., with Bro. Paris A. Barton giving the address.

Rochester school baccalaureate service will be held in the school auditorium and will begin a 7 p.m. The Rev. Don Jeffreys will give the address.

Murder Charges Filed In Lamesa

Murder charges were filed Monday morning in Lamesa against Pablo Soto Jr., 43, before Justice of the Pease Richard Nelson.

A representative of the Dawson County Sheriffs Office told the Free Press Monday that Soto was being held in lieu of \$100,000.00 bond. Dawson County officials transferred him to Lamesa early Sunday morning.

Officers from the sheriffs offices in Haskell and Knox Counties arrested Soto Saturday afternoon on a felony car theft warrent issued by Terry County. Following the arrest routine checks led to the information that Soto was also

Over 300 **Attend** Food Fair

Over 300 people attended the Food Fair held at the Haskell County Fair Grounds on Thursday, May 12th. The Food Fair was sponsored by the Family Living Committee of the Rolling Plains Economic Program and the Texas Agricultural Extension Service.

There were 14 educational exhibits provided by: Amonett Radio and TV, Bynum's Hardware; Barbershop Antiques; Bassing Jewelry; Lyles Jewelry; Jones and Cox Country Store; Food and Drug Administration; Fischer County; Knox County; Haskell Jones County Drug County; Council; Wichita County; Texas Department of Agriculture and the Haskell CowBelles.

In addition to the exhibits educational programs were presented through the day on Outdoor Cookery; Food Safety; Poultry Carving and Omelets; Food Preservation and Frozen Desserts. Cold drinks were served

through the day compliments of JRB Supermarket. Coffee and cookies were compliments of M-System Supermarket. Mrs. L. D. Burnett of

Seymour was Chairman of the Committee and Miss Thelma Wirges is District Extension Agent. Door prizes were furnished

by Haskell CowBelles, Haskell Livestock Auction and the Texas Poultry Industry.

wanted in Florida for parole violation.

Further questioning led to the discovery of the body of Frank Rodriquez, 36, of Lamesa, in an abandoned well on the Roy Herricks farm, five miles west of Weinert.

Soto took officers to the location, where members of the Haskell Volunteer Fire Department assisted officers in removing the body from the well.

Sheriff Garth Garrett said that the shooting apparently occured in Lamesa May 10. and that Rodriquez had been in the well for some time. Justice of the Peace H. M. Bledsoe pronounced Rodri-

quez dead at the scene from gunshot wounds. Cause of death listed in the autopsy report was four .22 cal.

bullets. Rodriguez and Soto worked together on the David Hughs farm in Dawson County, just north of Lamesa.

Officers conducting the investigation included Garrett, his deputies, District Attorney Joseph Thigpen, Special Investigator Larry Beauchamp, and Texas Ranger Marshall Brown.

Band Concert Set Friday

All local residents are invited to attend the annual spring band concert this Friday at 7:30 in the High School Gym.

Four bands will be featured, 6th grade, junior high, stage band, and high school.

Avariety of music will be performed. There is no admission charge.

R. A. Harris Is Mystery Cowboy

A total of six individuals were guessed by people calling in as to who the mystery cowboy was pictured in last week's edition of the Haskell Free Press. The majority who called in guessed it to be R. A. Harris who operated the Harris Meat processing plant in Haskell for a total of 25 years. He is the cowboy pictured at the time he rode for the Ferris Ranch 48 years ago. Mrs. Sonny (Carolyn) Reynolds was the first one to make the identity and will consequently receive two complimentary passes to the Jaycee rodeo scheduled for June 3rd and 4th.

R. A. (Red) Harris also rode for the Swenson Land and Cattle Company on their Throckmorton ranch for four years and three months. He was later made foreman of one division of the Flattop Ranch in Bosque County, where he was associated with the brand, F T on left jaw, for a number of years.

Mr. and Mrs. Harris are the parents of two sons, Wayne

and Lyndon, who received their high school education in the Haskell public schools and who were outstanding athletes. Wayne is now with the Bank in Rotan, and Lyndon lives in Albany, Louisiana.

R. A. recalls that the string of horses each cowboy was alloted varied with different ranches, usually from 8 to 17, with a part of them being bronc horses trained to do their part in everyday activities on the ranch. An idea of how many hours a cowboy spent in the saddle can be realized by the fact that he often rode from 40 to sometimes 80 miles per day before heading back to the ranch or the chuckwagon at roundup times.

He is definitely an old time cowboy who rode the range for many years and can be recognized and admired for being an outstanding type of westerner who is rapidly vanishing from the American west. He and Mrs. Harris are presently retired and making their home in Haskell.

Jr. High Awards Presented

Haskell Junior High School had the annual awards assembly last Wednesday. The Jr. High has garnered many honors this year. The presentation of awards was started by Wendell Gideon who presented the trophy for the 1st division at the Cisco Music Festival plus all the individual medal winners. Then all the various athletic trophies were presented by the different teams.

The 8th girls and 8th boys both won district in basketball. The Jr. High girls were district champs in track. Coach David Burson presented the individual ribbons to

KIM LANE

the district point getters. In all the Jr. High has garnered 15 athletic trophies this past Shelah Jetton then present-

ed the UIL literary district champion trophy. James Lanier presented the ribbons to the winners in the UIL contest.

Then, the high point of the assembly was reached with the presentation of the American Legion Award to the outstanding boy and girl in the 8th grade. Mr. C. H. (Bud) Herren, Adjutant of Rogers-Cox Post No. 221 of the American Legion, made presentation of the award to Kim Lane and Joseph Browning. who were elected to the honor

JOSEPH BROWNING

by the student body in secret ballot.

Kim is the daughter of Mr. and Mrs. Kenneth Lane. She was cheerleader, a member of the band (received 5 contest medals), a starting forward on the undefeated basketball team, and a member of the student advisory board. The attractive, friendly Kim was

also on the honor roll. Joseph is the son of Mr. and Mrs. Jimmy Browning. Joseph was a starter in football, basketball, and one of the most outstanding tracksters in the junior high ranks in this area. Joseph high-jumped, long-jumped. ran on relays (the 1320 relay was never defeated), ran hurdles, and the 330-440 (he was never defeated at these distances). Joseph is an honor roll student and a member of the student advisory group. A quiet leader. Joe is well liked and respected by all his

classmates. The assembly ended with the announcement of next year's cheerleaders who then ended the assmebly by leading the group in the singing of the school song.

The sixth grade and several parents and relatives were guests at the assembly.

Continue To Grow Several riding clubs and

Parade Plans

sheriff's posses have notified the Chamber of Commerce that they plan to be in Haskell for the parade to be neig at p.m., Friday, June 3rd, under auspices of the Haskell Jaycees, sponsors of the upcoming rodeo.

Others are expected to accept their invitation to be present on that day for the gala event and to ride in the grand entry on opening night of the rodeo.

All local merchants, clubs and organizations are urged to have an entry in the big parade, and are requested to notify the chamber office as soon as conveniently possible.

The Jaycees are putting in long hours of work getting the arena in the best possible condition for a fast and entertaining rodeo, and their efforts should be rewarded by a record turnout of fans on

Buffalo Gals To Visit Haskell

The old time hoe down tune of "Buffalo Gal Won't You come out tonight?" played on the fiddle and banjo, has provided the music for countless square dances both in frontier and modern times.

Not just one, but Nine Buffalo Gals will be in Haskell on the night of May 31st for the sole purpose of staging a rip roaring show in the Corral Building at the Haskell County Fair Grounds. Naturally, their appearance in Haskell is in conjunction with the annual Frontier Days Celebration and Jaycee Rodeo scheduled for the week of May 30th through June 4th.

The title of the band is a natural as they hail from Buffalo Gap, where they first gained fame and populatiry in 1976 by providing the entertainment for the Taylor County Old Settlers' Reunion, staged annually at Buffalo Gap in July. Since their initial appearance they have been

NEW NUMBER

called on for sixty performances to date at various functions in the Big Country and have numerous bookings on the agenda.

Now, any smart feller knows that it ain't healthy nor wise to guess the age of any woman and even if he did, it wouldn't be using good judgement to say what it was. So, to play it

safe, let us just say that the nine ladies of the unique band are well past the teenage status. Their old time music played on makeshift instruments and the comedy skits presented in conjunction is something to behold. We are hereby telling you'all folks to mark the date on your calendar and be in the

commences.

The members of the Buffalo Gals are: Ruby Purcell, Ina Maxwell, Rood McKee, Marie Thornton, Beatrice Boone, Helen Fuller, Gladys Seaborn, Culla Mae Scoggins, and Kathy Cole.

Remember now, curtain call is 7:30 p.m., Tuesday night, May 31st

boards and basins, a dingy. poorly lit area seemed fitting decor for a laundry room.

Despite technological improvements to brighten laundry chores, many homemakers still wash their clothes in a dismal dungeon.

Ecodyne Corporation points out that things don't have to to Stamford from Paris in be this way. The advent of multi-colored laundry room appliances, decorative wall utility room from an eyesore into a household showcase. Color Coordination,

Compact Lines All major appliance manufacturers now offer color co-ordinated washers and dryers,

Double Duty The boom in slab home construction has increased the ardor of utility room decorators. Since the laundry rooms in these homes are generally next to the kitchen, some homemakers have designed laundry rooms that do "double duty." For example: a "laundry activity room," where space is allotted for sewing, indoor gardening, gift wrapping, letter writing, and handicrafting, as well as laundering.

Washable vinyl wall coverings and dirt resistant indoor-out-door carpeting can turn the laundry room into a area for small children, great for keeping an eye on the kids while you're performing wash day chores; and sturdy ceramic floors and some table height work space can make the room

ideal for sewing. Plywood Bolsters Basements the laundry area is in its traditional place - the basement, or utility room, where there is no basement -the American Plywood Association offers architect conceived plans that will dress it up. A series of 4 by 8 ft. olywood boards fashioned into partitions can hide eyesores like huge furnaces, while plywood overhead supported by decorative urethane beams covers wires, plumbing pipes, and heating ducts. The area, in which work benches, tools, books, and washers and

dryers coexist in harmony. Soft Water Fashionable, Too Lindsay joined the battle against the laundry blahs by introducing the first fashion-designed water softener. The

Karen Burgess To Present Concert

Karen K. Burgess, gospel concert and recording artist, from Bakersfield, California will be presenting an evan-gelistic concert at First Baptist Church on Friday, May 20th at

God has been using Karen's concert ministry in an exciting way as she sings and shares in many churches throughout the United States, radio programs, and civic and community concerts. She is a graduate of Hardin-Simmons University in Abilene where she received her vocal training and a

variety of singing experiences. In the past, Karen has sung in concerts with such nationally known gospel artists as The Hoopers Quartet, The Stamps Quartet. Besides her busy radio and recording schedule, Karen is featured to appear in concert with Tom Netherton, and was chosen as the soloist to sing the National Anthem at the opening of the Los Angeles Dodgers-St. Louis

Cardinals game of this year. In concert at First Baptist Church beginning at 7:30 p.m. May 20th, she will share many favorite gospel songs and will include several songs from her recent record album, "No-Sweeter Blessing." The public is invited to attend.

SOME PSYCHOLOGISTS SAY IT MEANS RE-EDUCATING THE EATING HABITS. MANY PEOPLE WERE 'TAUGHT' TO PREFER FATTENING FOODS WHEN THEY WERE CHILDREN. THEY CAN "UNLEARN" IT AND BEGIN TO ENJOY NON-FATTENING FOODS INSTEAD!

Kittens are supposed to be fluffy, playful creatures who love to test their claws and teeth on anyone who plays

But when the playful kitten displays real antagonism and becomes ill, there's the possibility of rabies, reports the Bureau of Veterinary Public Health of the Texas Department of Health Resour-

That's what happened during 1975 to a kitten which earlier had survived an attack by a skunk on a farm. It was brought to Austin and given away as a pet. The kitten died soon after being put under surveillance by a veterinarian. The Department of Health Resources Laboratory in Austin confirmed that the kitten was a victim of rabies.

As a result, 14 persons who handled and suffered the normal biting and scratching of the kitten underwent a series of rabies shots.

This story had a happy ending for all those involved. In fact, there were no rabies cases among humans in Texas during all of 1976 although the Department of Health Resources supplied 920 series of antirabies treatments to residents here. The last documented case of human death attributed to natural exposure to the rabies virus in Texas was in 1962. During 1972 one human death was attributed to exposure to the rabies virus in

a laboratory. Rabies, despite the low number of human cases, still is one of the most terrifying diseases which can affect man. It is still found in wild animals and is a constant threat to unvaccinated domestic animals and pets, especial-

in rural settings. Rabies was confirmed in 345 animals in Texas last year, an increase from the 329 cases confirmed by laboratory tests in 1975, reports the Department of Health Resources. Of the total number, 16 were found positive in laboratories Fort Sam Houston and Brooks Air Force Base.

The number of dog rabies cases increased slightly in 1976, from 25 the previous year to just 28-17 in Laredo in December. But in the cat population, rabies dropped from 20 cases in 1975 to 12 in 1976-proof that rabies vaccinations are in order for cats, too. Total dog and cat cases decreased to 40 last year from 45 the previous year.

As expected year after year, wild animals accounted for the most confirmed cases-288 during 1976 representing an increase of 25 cases over 1975.

Biggest offender was the skunk with 204 cases. Bats accounted for 70 cases, foxes for 8 cases, raccoons for 5 cases, and one coyote.

Rabies cases are widespread throughout Texas. Of the 345 cases reported last year 93 of Texas' 254 counties had at least one.

In identifying rabies cases in Texas, the Department of Health Resources Laboratories examined a total of 7,566 specimens as suspected rabies cases. These represented more than 51 animal species during 1976. Dog and cat Almost a third of the skunks Mr. Dill states that the tested were positive for

The chance of a human surviving a case of rabies is Ohio boy was the first surviving the dreaded "mad dog" disease, according to the Everyone is urged to come National Center for Disease Control. Another survivor has

been reported since then, in Argentina. Rabies virus attacks the nervous system, the heart, the lungs, the brain and, "You can die from any one of a half-dozen different problems," according to a spokeman for the Center for Disease Control.

The Ohio youngster received intensive supported care which saved his life. He is reported as a normal, health ooy now-some five years later.

Rabies declined in Texas last year, but there's always the possibility of outbreaks as long as the disease is prevalent in wildlife, says the Veterinary Public Health Bureau of the Department of Health Resources. It advises all pet owners to have their pets vaccinated against the disease and to always avoid contact with any wild animal which acts friendly or peculiar and seems to have no fear of man. These animals could be

FACTS & FANCIES

How many Americans go fishing for sport? More all the time. In 1975, the number of fishing licenses sold was fishing ... 34,679,807. * * *

Every year thousands of American anglers cross the border to pursue their sport

in the beautiful lakes and streams of Canada. One lure has been the record fish hooked by fishermen in Canada. They include a 92pound Chinook salmon reeled out of the Skeena River in British Columbia, a 65-pound trout from Great Bear Lake in the Northwest Territory, a 1,120-pound bluefin tuna from North Lake on Prince Edward Island.

On both sides of the border hostesses angling for compliments often serve Harwood Canadian Whisky because its mild taste and milder price appeal to sportsmen. It's the call of the mild to those who answer the call of the wildand there are more of them all the time. One proof: the number of fishing licenses sold in the United States has more than doubled in the last 25 years. * * *

Certain fish prefer certain baits. Bass and walleyed pike like a large, attractive gob of worms. A single worm is best for "pan fish" and trout.

of a busy season for the farmers in our area, getting ready to plant, planting, and soon wheat harvest.

But we are not too busy to congratulate the young people of our community for their accomplishments. We realize that they are the future citizens of tomorrow and that their hard work has brought them the honors they deserve.

We are especially proud of Lyn Dale Dudensing, son of Mr. and Mrs. Wallace Dudensing, who graduated from Texas Tech in Lubbock Friday night, and then on Saturday morning received his degree in Agriculture Science with the highest ranking of a graduate of the College of Agriculture Science at Texas Tech. He was presented a plague in recognition of this honor by the Texas Tech alumni. He has been selected to be in Who's Who in American Universities and

Colleges. Lyn Dale plans to attend graduate school at Tech next

His parents and sister attended the exercises as well as his grandparents, Mr. and Mrs. August Ender and Mr. and Mrs. Gene Ender, Debra and Donald of Stamford.

Bass Stocked At Stamford

The Texas Parks and Wildlife Department announced the stocking of 1,040,000 not the primary business of walleye fry into Lake Stamford during April. These fry were terrorist, the spy and the hatched and delivered from the Departments Fish Hatch-

> Also, 60,700 Florida bass fingerlings were stocked into the lake in May. These fish were delivered from the Eagle Mountain Fish Hatchery.

There have been several reports of fishermen catching some of the walleye stocked in Lake Stamford during 1976. If anyone catches any walleye, it would be appreciated if they would notify fisheries biologist, Roy Bambery, 5325 No. 3rd, Abilene, Texas, 79603, giving the length and weight of the fish caught.

LARRY SUTTLE, MINISTER

LET'S VISIT...

A retired business executive recently commented that success, in his experience, could be summed up in three short words: "and then some."

He continued: "I discovered at an early age that the difference between the average person and the exceptional person could be explained in those three words. The top people did what was expected of them-and then some. They met their obligations and responsibilities-and then some. They could be depended upon in an emergency-and then some.

Jesus had told his disciples the same thing many years before. Think of the difference that could be seen in our society if the majority of people practiced that ideal.

The Bible Says: "... whosoever shall compel thee to go a mile, go with him twain." (Matthew 5:41)

Right Around Home

Visitors can double their pleasure at Gila Cliff Dwellings National Monument in southwestern New Mexico.

The monument is a small area-only 533 acres-set aside from the vast Gila National Forest to be preserved forever for its archeological and historical interest.

But there is much more in the Gila than the monument. especially for the outdoor recreationist who may care nothing about cliff dwellings occupied by prehistoric people. Recreational opportunities of all sorts abound in the Gila National Forest, the Gila Wilderness and the Gila and Black Range Primitive Areas.

A total of 750,000 acres of the forest is maintained in its natural state for those willing to travel by foot or horseback.

For many years both the Forest Service and Park Service cooperatively operated the visitor center in the Gila. But because of the large amount of Forest Service-Mike Rinehart, pastor of managed land in the area,

administration of the monument-still a part of the National Park System-was you will need at least an hour. turned over to the Forest Service in 1975 in an economy

So today, visitors meet and talk with Forest Rangers in a first-of-a-kind cooperative endeavour that saves the government some \$40,000 a

Seven natural caves occur high in the southeast-facing cliff of Cliff Dwelling Canyon and five of these contain ruins totaling about 40 rooms. It is believed they were built in the 1280s and occupied by not more than 10 or 15 families for several generations.

The dwellings are toured by a self-guiding trail that winds a half-mile along Cliff Dwellers' Creek. You buy or borrow a trail leaflet that, by means of numbered stakes, explains this early community.

The trail is steep places-some of the dwellings are 180 feet above the canyon floor. To take the round trip

You should also plan to take the nature trail that follows the West Fork of the Gila River. The trail takes you through an environment that looks much the same as when people lived in the cliffs.

The cliff dwellings are located 44 miles north of Silver City at the end of State Route 15, a two-lane blacktop highway winding through mountainous country.

The nearest conventional overnight facilities are in Silver City, but there are campsites in the area. At Gila Hot Springs, about three miles south of the visitor center, visitors can buy ice, gasoline and groceries.

If you are planning a park vacation, write the National Park Service, P. O. Box 728, Room N-3, Santa Fe, N.M. 87501, for a SUPER 77 trip planner which lists NPS areas withing an easy drive of your

Additional trophies will be given to the Zone high all around Champion on the 400 targets and to the Open high all around champion. Saturday night at 8:00 will

be the time for election of Zone officers for the ensuing year, as well as conducting business pertinent to the zone and state association. The Texas Zone III Handi-

cap Championships will be dedicated to Billy Gladson of Rotan, who passed away while serving in the post of Zone Secretary-Treasurer. Neal Crausbay of Sweet-

water, member of the All-American and Texas State Trapshooting Teams, will be on hand to defend his titles won at last years Zone III

Singles, Doubles, and Handicap Championships, as well as the High All Around.

Defending Class Singles Champions for the Zone are: AA-Terry Brogdon-Wichita Falls; A-H. G. Bishop-Snyder, Henderson-Wichita B-Jim Falls, C-C. D. Bond-Hamlin; D-Loyd Hatfield-Asperment.

The Zone Singles Champion will compete at the Texas State Trapshooting Tournament for the Zone Champion of Champions title, against shooters from the other four zones in the state. Crausbay won this title last year. The Zone Class Singles Champions will compete as a 5 man team at the State Shoot, for the Zone Team title, which Zone III won in 1974.

Help may be on the way for lowering the costs of feeding cattle. Initial research on a new compound called monensin has had positive results at several agricultural colleges and test stations. Classified as an antibiotic, the chemical has produced an inerease in feed efficiency as high as 13 percent. Average improvement in tests at the University of Nebraska was 11 percent. On that basis a dollars and cents evaluation means a savings of about twenty dollars a head in the average feeding cost for feedlot beef. Food and Drug Administration officials are expected to react more favorably toward the new compound than toward the still controversial DES since monensin acts only in the rumen of the animal and reportedly leaves no residues in tissue. Researchers say the compound enhances gain efficiency when used in amounts small enough to be comparable to adding one pint

Sunshine is essential to all life on earth, however repeated sunburn of human skin can cause skin cancer. Skin exposed to sunlight should always be protected with suntan lotions containing a sunscreen to filter out the most harmful rays. And don't forget to coat your lower lip! Don't be fooled by an invisible sun-the ultraviolet rays can penetrate clouds and bounce off concrete, beach sand and water to give a severe sunburn.

Consider Why You Care

Why do you care about the place where you live? Why lend a hand when you've something to give?

It's the sense of belonging; a matter of heart, It's the conscience within you that says: "do your part!"

Why do you care whether your child grows strong, Or learns the difference between right and wrong?

It's the deep inner feeling we sometimes call love That was born within you and comes from Above.

Why do you care about a neighbor's sorrow, Or join in working for a brighter tomorrow?

It's the spirit of grace; your God-given soul; It's the love without which no man is whole.

Why do you care about the Commandments and peace? Why strive to add beauty and see kindness increase?

It's part of the need to hold your head high; To give life more meaning as time goes by.

Why care about freedom and justice for all? Why so quick to defend when liberty calls?

It's the devotion we owe to the land that we cherish; It's the American way we've sworn shall not perish.

Why care about wildlife, tall trees and good soil? Why worry about water that pollution can spoil?

It's the force deep within you that says you should try To better the earth as you look to the sky.

"What's in it for me?" Is the selfish man's test And answers himself: "I couldn't care less!"

No, we're not yet all brothers, sad to say, But your care can help, if you decide it that way.

Consider why you care. Consider it well.

Chamber of Commerce during testimony at a public hearing held in Lubbock Tuesday, May

Testifying for the WTCC was Development Director Edward H. Coltharp who warned that "the OSHA proposals will create an unnecessary economic disaster in West Texas and throughout the nation." The WTCC urged OSHA to withdraw the proposed standards as they would affect the West Texas cotton industry until such time as sufficient research proves beyond reasonable doubt that they are needed.

in the Tuesday, December 28, 1976, issue of the Federal Register would require tremendous capital expenditures facilities including gins, crushers, mills, warehouses, seed processors and other enterprises connected with cotton to comply with dust abatement requirements for which no need has been justified in West Texas.

The proposed standards are based on the occurence among workers engaged in jobs using cotton, primarily in southeastern textile processing mills, of a so-called occupational disease referred to as "byssinosis," a condition affecting the respiratory system that can cause irreversible damage in some cases and temporary damage in others.

William C. (Bill) Donnell of Marathon, Chairman of the

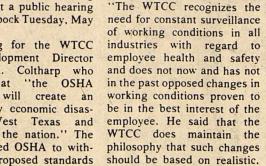

Bilingual Classes End

Tuesday, May 24th, has been set as the date for the graduation exercises of eighteen preschoolers (3, 4, 5 year olds) who have been involved in the bilingual preschool classes out of Region IX Education Service Center in Wichita Falls this

Home tutor Stephania Fernandez of Rhineland explains that the classes for children of limited English speaking ability were held in the homes of project parents in Haskell. Rule, Rochester, Weinert and Rhineland on a rotating basis, with the mothers acting as aides during the course of the classes. The mother observed and used techniques with their children that help in the learning process of their children.

During the program on Tuesday night at 7:00 in the Community Building, diplomas will be awarded to the children, as well as certificates of appreciation to school personnel and community groups who have aided in making the year a successful one. The public is invited to attend.

factual statistics produced by sufficient research so as to provide a sound basis showing clearly the need for change and that they not be brought OSHA proposals as outlined about on the basis of supposition or possibilities so remote as to be almost

ching Committee stated that

OSHA states that the to equip cotton handling majority of evidence relates to the textile industry with a low prevalence of acute byssinosis

ers, statistics not included as to actual percentage of occurrences. Coltharp stated that "WTCC opposition to the proposed standards at the present time stands mute as related to their application to the textile industry.

Based on medical information secured from major cotton producing areas in West Texas, the WTCC feels justified to believe that the proposed OSHA standards are totally unnecessary as far as the West Texas cotton industry is concerned

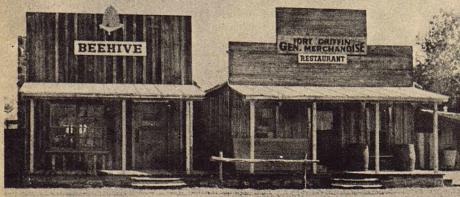

Leadoff witnesses at the Lubbock hearing, which is expected to last throughout the week, were U. Congressman George Mahon and Texas Commissioner of Agriculture Reagan Brown who each voiced strong opposition to the proposals.

JOSEPH WESLEY BROWN (right) has been elected a cheerleader for 1977-78 at McMurry College. A senior at McMurry, Brown is majoring in political science with a minor in history. He is a member of H.E.I. men's social club. He is the son of the Rey, and Mrs. Robert W. Brown of Clarendon First United Methodist Church. Other cheerleaders are Mary Cator, Jan Mason, Julie Loyd, Brad Stalder, and Roy Salazar.
