NUMBER TWENTY-THREE

DR. AND MRS. WAYNE CADENHEAD and Jeremy and Christy were honored with a reception in the Community Building of the Haskell National Bank Tuesday night. The reception and welcome to Haskell was sponsored by the Haskell Chamber of Commerce. Approximately 50 persons attended. (Staff Photo)

Chamber Members Change Dues

A special membership meeting of the Haskell Chamber of Commerce was held Tuesday night in the Community Building of the Haskell National Bank. The purpose of the meeting was to vote on several changes in the constitution and by-laws of the organization.

Approximately 20 members attended the meeting and unanimously approved the proposed changes.

Only two major changes were included in the proposal and both concerned the dues of members. The minimum annual dues for any firm or professional were set at \$60.00 annually and the minimum dues for an individual were set at \$24.00 annually. Prior to this change there were no minimum dues.

Immediately following the meeting, a reception was held for Dr. and Mrs. Wayne Cadenhead and their children, Jeremy and Christy.

The reception, an official welcome to Haskell, was attended by about 50 persons.

Members of the Haskell Jayceets served refreshments to those attending and also prepared decorations.

CB BOOK AVAILABLE

The Haskell County Jaycees recently published a handbook of local CB handles. The books are ready and are available for purchase at Owens Radio and Electric and M-System.

CowBelle Trot Set Saturday

The Haskell CowBelles will meet Saturday, June 10 at 7:30 a.m. on the courthouse lawn to start their "CowBelle Trot" for the American Heart Association County Fund Drive. Their goal is from the City Square to the Airport a distance of about 2½ miles and back - 5 miles, if enough money is donated.

Each CowBelle needs a

Screening Program Available

The Texas Department of Health, Public Health Region 4, Experienced Citizens Center, Haskell, offers several screening programs to the public at no charge.

Multiphasic Screening: a. Age 16 and over; b. Appointment scheduled: 1. Vision, 2. Hearing, 3. Height, 4. Weight, 5. Temperature, 6. Veneral Disease--a. Blood Tests, 6. Gonorrhea Smear; 7. Blood Pressure, 8. Diabetic; 9. Urinalysis; 10. Anemia; 11. Skin fold Measurement for Ideal Weight.

Counseling and educational services are available. Any questionable findings will be referred to a physician for diagnosis and/or treatment.

For further information concerning these services, contact Marsha Whittemore, 864-3875, Monday thru Friday 8:00 a.m. to 12:00 noon and 1:00 p.m. to 3:00 p.m.

sponsor or sponsors. Sponsors sheets are available at: Heidenheimers, Pat Hale Farm Supply, Richardson Truck & Tractor, Haskell Steak House, The Drug Store, Haskell National Bank, Johnson Pharmacy, M-System, J.R.B.'s.

Sign up to sponsor a CowBelle for a very worthy cause and have fun watching, as they struggle for the airport. All donations and contributions will go for credit to the Haskell County Division of the American Heart Association Drive. Memorial donations can be made at this time and cards will be mailed as is customary.

It is rumored around town that Snuffy Morales will trot in lace cut off shorts and there may also be a "Mystery CowBelle" that will put Dolly Parton "to Shame." Any one else who can get a donation or sponsor for the Heart Fund is welcome to join in the fun.

The CowBelles will be accompanied by their water wagon and very possibly, the ambulance.

Abe Turner is president of the Heart Association Board and Sister Thigpen is serving as Organization Chairman for the County.

Sponsor a CowBelle for the CowBelle Trot Saturday morning.

4-H Leader Lab Set June 14-16

Teen-aged 4-H Club members from District 3 of the Texas Agricultural Extension Service will be holding their annual Teen Leader Lab, June 14-16 at the Texas 4-H Center in Brownwood according to Mrs. Nancy J. Lehman, Area 4-H and Youth Specialist with the Agricultural Extension Service.

Theme of the Leader Lab this year is "Ships to Success" Mrs. Lehman says. These ships are leadership, citizenship, fellowship, friendship and worship.

Agent advisors assisting Mrs. Lehman are Mike McDougall, County Extension Agent Throckmorton County and Mrs. Nancy Wilburn, County Extension Agent Jones County.

Arriving at the Texas 4-H Center two days early to better prepare for their roles as leaders of the lab will be the following District 3 4-H Club members:

Jackie Steinberger, Windthorst; Robert Whitaker, Paducah; Mark Lewis, Rule; Kay Campbell, Haskell; Joe Wilfong, Haskell; Wilma Jackson, Anson; Sue Wagley and Wilma Jackson will strive to motivate the approximately 75 4-H club members expected for the three day training meet.

Not all of the activities will be serious though Mrs. Lehman says, since a shipwrecked party is planned for one evening. A giant banana split built in a rain gutter will be one big attraction the young people can expect during the party.

Other 4-H members from Haskell County that will be attending are: Donna Gilleland, Haskell 4-H Club; Russ Lewis, Rule 4-H Club; Stanley Hager, Weinert 4-H Club; Kraig Kupatt, Rule 4-H Club.

Zone Shoot Hold In Aspermont

The Texas Zone III Trap Shooting Championships were held at the Aspermont Gun Club Saturday and Sunday.

More than 13,000 Clay Trap Targets were thrown for the 64 Trapshooters in the singles Saturday.

W.E. Wooten, Haskell took the Singles Championship missing his 46 target to post a 199x200. Don Comedy, Haskell, won Zone Class C Singles with a 183x200 and 13 year old Gary Bill Womack, Haskell, took the Junior Trophy with 176x200.

Zone III Doubles was taken by Terry Brogdon of Iowa Park with 96x100.

Zone III Handicap Drew 84 Shooters with three high handicap scores being shot. Tommy Thaxton of Paducah and Patrick Daugherty of Wichita Falls, had 97 while Don Comedy scored a lone 96 to take the Zone Short Yardage trophy.

Neal Crausbay of Sweetwater took the high overall trophy with 388x400 and W.E. Wooten and Robert Ward of Floydada tied for runnerup with 381 x 400.

Haskell Library In Summer Program

Young readers in 24 libraries in the 32-county area served by the Big Country Library System will participate in the Summer Reading Club sponsored this year by the Texas State Library and local public libraries. They will be among 140,000 young Texans taking part in the program. Since summer provides a time for recreational reading and for pursuing special interests, it is usually the busiest time of the year in children's departments in public libraries.

The Haskell County Library is among those participating. Participants in the Summer Reading Club for 1978 will be invited to "Come to

WTC Scholarship For Ag Students Available

Western Texas College has received \$1,000 to be used for scholarships for outstanding agriculture students, Glenn Davis, WTC Financial Aids Officer, has announced.

The funds were given to the college by the South Plains Fair Association in Lubbock. This is the first year that WTC has shared in the scholarship program of the Association. Other colleges receiving scholarships were Texas Tech, Lubbock Christian College and South Plains College.

Students interested in applying for the agriculture scholarships or numerous other scholarships available at WTC are invited to contact Davis in his office in the WTC Administration Building.

4-H Dress Revue Set June 10

The Haskell County 4-H Dress Revue will be Saturday, June 10th 7:30 p.m. in the Pat Morrison Memorial Auditorium at Paint Creek School. 4-H members that have participated in Clothing Projects across the county will be modeling garments that they have constructed.

Dress Revue practice and judging will be at 10:00 a.m., Friday, June 9th at the Paint Creek School. 4-H members will need to turn in their garments and Design for Discovery forms at this time.

The public is cordially invited to attend the Dress Revue Saturday evening.

Flag Program Generates Rehab Revenue

Some 5,216 Big Country residents paid \$1.00 each for a plastic American flag pin as part of the Seventh Annual Memorial Day Coffee Project which benefits the West Texas Rehabilitation Center. All but a handful of restaurateurs have been contacted to pick up the money, with the total expected to wind up around \$5,500, or an increase of about 10% over last year's project.

The top waitresses in the Abilene area, on the basis of pins sold, were also announced today. They are: 1. Marilyn Goza (450), Union '76' Truck Stop, Sweetwater; 2. Mildred Mueller (295), Eddie Krieger Pharmacy, Abilene; 3. Susie Gary (242), White Elephant Restaurant, Cisco; and 4. Sandy Sublett (244), White Elephant Restaurant, Cisco. The top four waitresses will receive gift certificates from Luskey's Western Wear of Abilene. In addition, Marilyn Goza, as top overall waitress will receive a weekend for two at the Fairmont Hotel in Dallas, with air transportation provided by Chaparral Airlines plus \$100 in spending money, all arranged through Supertravel, Inc. of Abilene.

Other Abilene area waitresses receiving honorable mention include Mary Floyd (215), Merkel Restaurant, Merkel; Vera Sosibee (151), Pancake House, Abilene; Letta Valley (137), Dixie Pig Restaurant, Abilene; and Marcia Conterres (103), B&B Steak House, Throckmorton. Money raised through the project is used to help support the summer program of therapy and recreation for about 75 handicapped youngsters at the West Texas Rehabilitation Center.

Shooting Sports Try-outs Set June 17

Youngsters enrolled in the Haskell 4-H Shooting Sports will have a chance to compete in the 4-H tryouts to be held at the Aspermont Gun Club Aspermont, Saturday, June 17, 2:00 p.m. 25 trap targets and 25 skeet targets will be thrown with ribbons and medals given in each event and team prizes. The program is one half the program that will be shot at San Antonio Aug. 12-13th in the 4-H State Shooting Sports. 4-H'ers and their parents are invited to attend the Aspermont Program.

Obituaries

Hugo Hohenberger

Hugo Hohenberger, 72, of Marble Falls, died Wednesday evening, May 24, in the Hill County Memorial Hospital at Fredericksburg, after a lengthy illness. Hohenberger was born Feb. 4, 1906 in the Muesebach Community south of Fredericksburg, the son of the late Edwin Hohenberger and Lousie Sauer Hohenberger. In 1920 he moved with his parents to the Shovel Mountain community in southern Burnet County, and was a life-long rancher, there he was married to Bertha Rueffer on September 17, 1944 in Haskell, and was a member of St. Peter's Lutheran Church in Marble Falls. He was also a member of the Order of the Sons of Hermann and served as secretary of the Marble Falls Lodge #39 for 15 years.

Funeral services were held Saturday, May 27, at St. Peter's Lutheran Church in Marble Falls with the Rev. David Lilley officiating. Burial followed at the Lakeland Hills Memorial Park under the direction of Clements-Wilcox Funeral Home.

Survivors include his wife, Bertha Hohenberger, of Marble Falls; one son-Henry Hohenberger of Marble Falls, 2 daughters, Annie, Mrs. Donald Harton of Austin, and Linda, Mrs. Alvin Weber of Fredericksburg; 3 grandchildren; 2 sister-Norman, Mrs. Ernest Crenwolge of Fredericksburg; and Estella, Mrs. Felix Immel of San Antonio; 1 sister-in-law, Mrs. Alvin Hohenberger of Fredericksburg; numerous nieces, nephews, relatives and friends.

He was preceded in death by 1 brother, Alvin Hohenberger and 1 sister, Dora Hohenberger.

Nephews served as pallbearers: Carl Rueffer, Charlie Rueffer, Glenn Rueffer, Jerry Mueller, Dorman Crenwolge, Larry Immel, and Leroy Hohenberger.

Should friends desire, memorials may be made to St. Peter's Lutheran Church, The American Cancer Society or the charity of their choice.

A. J. Smith, Jr.

A. J. Smith Jr. 68 of Anson, long time attorney of Jones County, died 7:30 a.m. June 1 at his Anson Home following a long illness.

Funeral services were conducted at 11:00 a.m. Saturday, in Anson First Baptist Church. Rev. Jerry Hines of Duncanville, former Pastor of the Anson Church officiated. Burial was in Anson's Mt. Hope Cemetery under the direction of the Lawrence Funeral Home.

Born October 15, 1909 in Haskell, he was the son of the late Judge and Mrs. A.J. Smith. He moved with his family to Anson in 1925 and graduated from Anson High School in 1927, where he played on the 1926 All-State

Martha Kretschmer

Martha Mary Kretschmer, 90, longtime Haskell resident died at 3:12 p.m. Saturday at Haskell Memorial Hospital after a long illness. Services were held at 3 p.m. June 6 at Trinity Lutheran Church, with Rev. Don Marquart officiating.

Burial was in Willow Cemetery, under the direction of Holden-McCauley Funeral Home.

Mrs. Kretschmer was born March 7, 1888, in Rockdale in Milan County. She came to Haskell County with her parents the late Fritz and Margaret (Timmermann) Steinfath in 1908. She married Richard Henry Kretschmer May 17, 1915. He died December 21, 1934. Mrs. Kretschmer continued her farming interest until her retirement in 1947. She was a member of Trinity Lutheran Church.

Survivors include five daughters, Lillie Battig of Stockton, Ill., Gertrude Wittenborn of Haskell, Erna Straub of Brooklyn Wis., Irene Thompson of Lena Ill., and Hilda Frierson of Bryan; Ten grandchildren; two step-grandchildren; six great-grandchildren; and a step-great-grandchild Mrs. Kretschmer was preceded in death by three sisters and three brothers.

Pallbearers were Herbert Kretschmer, Walter Kretschmer, Leonard Weise, Wilton Weise, Fritz Steinfath, and Martin Follstaedt. Grandsons served as honorary pallbearers.

YOUR LIFE INSURANCE

Prepared by the American Society of Chartered Life Underwriters, the national society of life insurance professionals who have earned the C.L.U. designation by meeting high educational, ethical and experience requirements.

Q. When I bought my house ten years ago, I paid \$25,000 for it. Now it's worth almost twice that, but my \$25,000 life insurance policy is still worth \$25,000. Inflation has hurt me there, right?

A. Not really. During an inflationary period the money you collect from an insurance company may have less purchasing power but on the other hand, since your salary will usually increase in inflation, the percentage of your income you pay for premiums declines.

Not surprisingly, most people add to their existing life insurance protection during an inflationary period because their incomes have risen and they have more dollars to protect.

WASHINGTON

As It Looks

From Here''

Omar Burleson
Congressman — 17th District

WASHINGTON, D.C.—
THE BARBARIAN ARMIES WHICH FINALLY SACKED ROME were smaller than the armies which had been turned back and cut to pieces by Roman legions in earlier times. The barbarians were not stronger—Rome was weaker—self-weakened. At the time Rome was burned, each Roman legion was smaller than before, less heavily armed and less disciplined.

THE ROMAN ARISTOCRACY NO LONGER PROVIDED OFFICERS for her legions. Emperors no longer led them in battle and Roman youths increasingly evaded military service. The Romans had become wealthier and afforded "Bread and Circuses" for the idle, both rich and poor. Rome's enemies, who had been defeated in each invasion attempt in the century before, were able to overrun and burn it out only after the Roman's will to resist was lost.

COULD IT BE THAT AMERICA'S WILL TO DEFEND OUR NATIONAL INTERESTS is being eroded? No one suggests that we are about to fall apart tomorrow, a year from now or perhaps in the next decade. A civilization does not go that way but some of our actions in the aftermath of Vietnam and Watergate are not lost on our adversaries in this world. Our scoring, or a lack thereof, includes the abandonment of our defense of American vessels seized on the high seas—both fishing boats and U.S. Naval craft. Our once superior military power is reduced to what we now hope is "parity" with Russia, as more and more of our military share of the Federal budget has been diverted to "social services." Rome did that too—it made politicians popular in the short run as it does today.

DURING THE PANAMA CANAL TREATY DEBATE, there were continuous references to our "generous" or even "courageous" act by yielding to pressures, not only from Panama but other nations jealous of our power. There was also the "of course we could defeat Panama militarily if we wanted to." The question is not our ability but our will.

THE WILL TO RESIST OR NOT TO RESIST has been

demonstrated by nations since the fall of Rome. Western democracies were nearly destroyed when Hitler began his rampage in the 1930's. There are always probes for the testing of wills. Small powers test soft spots, first seeking small concessions and, if successful enough, grabbing for the whole thing.

WE CAN BE SURE THAT THE SOVIETS WERE NOT LOOKING THE OTHER WAY while we paid ransom for American fishing boats seized by some South American countries, or while we quibbled and palled to get back the crewmen of the Pueblo, or while derision greeted President Ford's attempt to reverse this trend by using troops to recover the crew of the Mayaguez. Our sophisticates howled at the decision, similar to those of the 1930's who asked, "Why die for Danzig?"

IN THE AFTERMATH OF WORLD WAR I, disillusionment caused young men to take the Oxford "pledge" which meant never to fight for their country. But when they saw bombs falling on their homes, that generation vindicated themselves in the skies over Britain and the beaches of Normandy. A terrible price was paid and it was almost too late. No such timetable can be adopted in a nuclear war.

ONCE WE HAVE TRADED AWAY WHAT HAS BEEN OUR SUPERIOR TECHNOLOGY—since we no longer challenge missiles placed in Cuba, have failed to develop the neutron bomb, and have vacillated on developing and maintaining our strength—we are in effect indulging ourselves with "Bread and Circuses."

College News

Doye Faith Barnett, daughter of Chaplain and Mrs. Robert Barnett of San Antonio graduated with high honors (magna cum laude), from North Texas State University in Denton on May 13. She received a BBA degree with a major in accounting. She is planning to continue at North Texas in the Fall working toward a Masters of Science in accounting.

Doye is the granddaughter of Mrs. Mary Barnett and niece of Tom Paul Barnett, both of Haskell.

Leisure Lodge News

The monthly birthday party was given on Monday by the ladies of the Adult IV Sunday School class of the First Baptist Church with Nettie McCollum as chairman. Cake and punch was served with flower plate favors. Those having birthdays were, Albert Schmidt, Carrie Edwards, Elsie Mitchell, Clara Hendrix and Joe Larned.

The Independent Baptist Church will be having services at 9 a.m. all the month of June. Hospital patients this week are Mary Ray and Oakley Roberts. We miss them and hope they will have a speedy recovery.

Visiting Mr. and Mrs. Oakley Roberts were Mr. Jack West from Hobbs, N.M. Mr. and Mrs. Walter Rinehart of Rule visited Mrs. Clara Hendrix and Carrie Edwards. Mrs. Edwards spent the day on Thursday with Mr. and Mrs. J.M. Pickering. Mr. and Mrs. Archie Jones of Houston visited his mother,

Mrs. Ophelia Medford. Mrs. Medford also visited with the family at Mr. and Mrs. Jack Medford's. Others visiting Mrs. Medford were Mrs. A.Y. Barnes and daughter, Maude Busby of Anson, Mr. and Mrs. John Wilde and Sheri of Munday.

Mr. and Mrs. Carl Baugh of Rule visited Mrs. Eva White and Miss Alpha Dyches. Mr. James R. Massie of Euleus visited his mother Mrs. Ivy Massie.

Opal Little of Abilene visited Miss Myrtle Russell and Betty Ruth Basden of Rochester also visited Miss Russell.

Annie McCAda of Lubbock and Jewel Matura of Knox City visited their mother, Mrs. Martha Darr. Visiting Ned West were, Mr. and Mrs. Sam West, Lubbock, Mr. and Mrs. Jimmie White, Broken Arrow, Okla., Dorothy Duncan, Midland, Matt Webb and Lillie Webb of Rochester.

Mary Frazier, Flossie Frazier and Ione Sheid of Rule visited Tom Rogers. Mr. and Mrs. Bill Nail of Aspermont and Mr. and Mrs. Bill Hunt of Rule visited Bessie Hokett.

Mrs. Lois Buckley of Knox City and Mrs. Nelline Force of Bryan visited their aunt, Ruby Moon on Monday. Visiting Mrs. Mary A. Smith were, Mr. and Mrs. Chuck Hicks, Kevin and Michael, of Abilene, Mr. and Mrs. Elmer Hubbard, Ft. Worth, Mrs. Mary Jacoby, Lori, and W.J. of Riverton, Wyo., Mrs. Georgia Turnbow and Eric, Mr. and Mrs. George Gray of Weinert.

Mrs. Florence Decker of Odessa visited Mr. W.O. Lewis.

Visiting Mrs. Eva White were, Mr. and Mrs. Durward White of O'Brien, Gayle White and Kevin, Mr. and Mrs. Sammy White and Sammy Jr., all of Knox City, Alva LaFevre, Etta Leach of Sagerton, Arlyne Baugh and Rosa Weaver of Rule.

Mr. and Mrs. Charles Pittlo, Darrell and Regina of Ft. Stockton visited their grandmother, Elsie Norman.

RESTRICTING OSHA NECESSARY—U.S. Rep. Bob Krueger talks with businessmen about the U.S. Supreme Court's decision that requires inspectors for the Occupational Safety and Health Administration (OSHA) to obtain search warrants to make unexpected safety checks. Krueger, who supports the decision, is the co-sponsor of federal legislation which would further aid small businesses overburdened with detailed federal requirements. The bill, which is awaiting Congressional action, would limit OSHA to giving only warnings to businesses with 25 or less employees instead of costly fines for first-time safety violations.

TP&W Asked Sportsmen's Assistance

The Texas Parks and Wildlife Department is asking all sportsmen to get permission before going hunting or fishing. Hunters can normally find ideal wildlife habitat to hunt by contacting landowners early in the summer prior to the fall hunting pressure.

The legal owner of any property can be located by checking with the county courthouse and most landowners know who owns the property adjacent to them. Many landowners list their property in local newspapers as the hunting seasons roll around with phone numbers and names for hunters to contact.

Several chamber of commerce offices have furnished listing of property for lease hunting and Texas game wardens should be contacted as they know who allows hunting in their assigned area.

The future of hunting in Texas will depend upon the cooperation between the hunter, landowner and the TP&WD as we strive to furnish outdoor recreation for hunters this fall and the years to follow.

Dulaney, Stark Repeat Vows June 4

Charlotte Ann Stark and Michael Barry Dulaney were united in marriage Sunday, June 4th, in the Chapel of the Christian Church. The Rev. Tom Jones officiated the

MRS. MICHAEL DULANEY ... formerly Charlotte Stark

double ring ceremony. The bride is the daughter of Mrs. John Goodrich of Pierre, South Dakota and Irvin P. Stark of Lake George, Georgia and the groom's parents are Mr. and Mrs. James Barry Dulaney, of Haskell.

Given in marriage by her mother, the bride wore a long traditional gown of satin, by Fink, in candlelight. The fitted bodice with high Victorian neckline and long fitted sleeves, buttoned at the wrist, and the hemline were enhanced with re-embroidered Alencon lace traced with tiny seed pearls. The Princess style skirt fell into a Chapel train. Her tapered floor length veil, of imported English illusion, edged with satin, was held by a satin clip.

Fripped and draped with satin ribbons of blue and candlelight, the bride's bouquet was of blue tipped sweetheart white roses, blue carnations, stephanotis and baby's breath.

For something old, she wore an antique white gold watch belonging to her Mother. Something new was a pair of fabric shoes given the bride by her younger sister, Janelyn. Something borrowed was the penny in her shoe and something blue was a blue garter.

The Maid of Honor, Stephanie Hope Stark, sister of the bride, wore a long Victorian dress of ivory gauze and lace. The scoop neckline with deep bertha, edged in matching lace and blue and pink ribbon, had a full tiered skirt. Lace and ribbon were repeated each tier.

The Mother of the bride wore a floor length princess style gown of blue polyester, having a fitted bodice overlaid with white lace which had been sewn by a sister of the bride. The groom's mother wore a soft pink chiffon gown, also floor length. Both wore corsages of white orchids.

Softly illuminated with candles and graced with ferns and a variety of flowers, the chapel was a lovely setting.

Music was provided by Mrs. John Goodrich, organist. Danny Myers, guitarist, accompanied by Paula Wooten

sang, "We're All The Way," following the vows.

Best Man was James Patrick Dulaney, brother of the groom, of Lubbock. Usher was Michael Boggs, of Lake Jackson. Janelyn Arlette Luken, sister of the bride, registered guests. David Jonathan Luken, brother of the bride, lighted candles.

The reception was held in the Church Fellowship Hall. The bride's table was laid with an antique cutwork tablecloth, belonging to Mrs. Bobby Toliver, of Merkel, aunt of the groom. The table was centered with an arrangement of blue and white carnations and Queen Anne Lace. The tiered cake was served by Gayla Toliver, of Merkel, cousin of the groom, and Keeley Reeves, of Haskell served punch. Reception assistants were Wanda Dulaney, of Dallas, and Mrs. Raymond Rhoads, of Abilene, aunts of the groom.

Following a wedding trip the couple will reside in Haskell. The groom is an Independent Petroleum Landman. The bride plans to further her education in this area.

The rehearsal dinner, held at the Haskell Steak House on Saturday evening, was hosted by the groom's parents.

Engagement Announced

MR. AND MRS. BILL CAGLE of Floydada announce the engagement of their daughter, Reagan, to Cliff Campbell, son of Lois Gamblin of Abilene and Jimmie Campbell of Haskell. The couple will be married August 12 in the First Baptist Church of Floydada. Miss Cagle, a 1971 graduate of Floydada High School and 1975 graduate of Texas Tech, is a teacher in the Hurst-Eules-Bedford School System. Campbell, also a 1975 graduate of Texas Tech is employed by TLC and Associates of Dallas.

Around Town

Mr. Halle Chapman is in the hospital in Wichita Falls. He is now doing well.

Mr. and Mrs. A.H. Allen of Haskell and Pete Tanner of Hawley, and Mr. and Mrs. Fred Standfield of Odessa took off for a weeks trip through our southern states. They traveled by car through La., Miss., Ala., Geo., and S.C. and arrived home last Tuesday night.

While traveling through the south they stopped along the way and visited with friends and relatives they hadn't seen in 55 years. Everyone reports having a wonderful time visiting and seeing the many changes. Mr. Allen states, "Everything was simply beautiful. That was some vacation!"

Mr. and Mrs. E.L. Hilliard were in Lubbock over the weekend attending the 16th annual Square & Round Dance festival held in the Convention Center, in the exhibition were the Clickety Cloggers of Austin, performing were their son and his wife, Mr. and Mrs. Ronald Hilliard, and three other couples of Austin. Mr. and Mrs. Kenneth Hilliard and Jennifer Nicole also attended the festival.

Trinity Lutheran Changes Times of Services

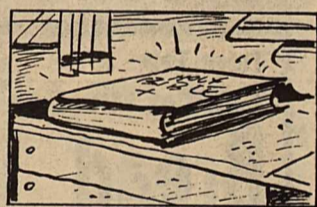

Time changes in Sunday School and worship services at Trinity Lutheran Church are being observed with Sunday School at 10:00 and morning worship at 11:00 a.m.

Previous hours were 8:30 a.m. worship with Sunday School following. The dual parish of Stamford's Christ Lutheran and Haskell's Trinity Lutheran are presently without a full time pastor since Rev. Don Marquart accepted a call to Salem Lutheran Church at Roscoe, with his last Sunday here on May 28. Serving as supply pastor until a call can be issued for a new pastor will be Rev. Zimmerman an retired pastor from Roscoe.

A fare well ice cream social was held on May 28 at 6:30 p.m.

Bride-Elect Honored With Shower

Miss Floradean Hawkins, bride-elect of Phillip Cockerell, was honored June 2nd with a bridal shower at the home of Mrs. Martin Coleman. Guests were served punch and cookies in the brides colors of blue and white. Hostesses were Mrs. Martin Coleman, Mrs. Glen Walton, Mrs. Bill Middlebrook, Mrs. Wayne Peiser, and Mrs. Robbie Peiser. Vows will be exchanged June 10th at the East Side Baptist Church.

The first Gideon bibles appeared in hotel rooms in November, 1908.

Sagerton News

Guests in the home of Mr. and Mrs. Eugene Tichelmann Saturday night for a birthday party in honor of Eugene were: Mr. and Mrs. Leonard Kieke, Mr. and Mrs. J.B. Toney and Bruce, Mr. and Mrs. A.C. Knippling Mr. and Mrs. Herbert Vahlenkamp, Mr. and Mrs. Herbert Lammert, Mr. and Mrs. Carl Lunn, Mr. and Mrs. Tom McGee and children of Pennsylvania, Mr. and Mrs. Larry Tichelmann and family of Abilene, Mr. and Mrs. Jeff Yarborough of Aspermont, Mr. and Mrs. Bill Tichelmann and son of Stamford, and Mr. and Mrs. Lewis Corzine.

The L.O.C. Home Demonstration Club met at the home of Mrs. A.C. Knippling Thursday of last week. Mrs. Herbert Stremmel had the opening and she read a poem, "Life of a Flower."

During the business meeting, Mrs. J.A. Hertel was elected president. The other officers, Mrs. Bill Hertel, as vice-president, Mrs. F.A. Ulmer, secretary-treasurer, Mrs. Delbert LeFevre, council delegate, and Mrs. John Tichelmann, alternate-council delegate, were retained to serve another year.

Mrs. Clarence Tichelmann president, appointed Mrs. Herbert Nierdieck, Mrs. Eugene Tichelmann and Mrs. Herbert Stremmel, to plan the club's annual picnic for July.

The council report was given by Mrs. Lorene Hanson. She reported that Kraig Kupatt, son of Mr. and Mrs. Fred Kupatt, and a Sagerton 4-H'er, was awarded the Haskell County Home Demonstration Scholarship, and a check for \$100 will be sent to the college of his choice to apply on his tuition next fall. All club members were happy that one of our local students received this award.

There will be some new faces in our community this week. The new United Methodist pastor, Bro. Wayland Dowden and his wife, will be moving into the parsonage at Rule from Snyder. He will be conducting his first service here Sunday morning at 9:30

a.m. The Rev. Sammie Ellis Teeter moved to Chillicothe this week. Her new husband, Jim, will be the pastor at Chillicothe while she will be preaching at the Texas Street United Methodist Church in Vernon.

Also this week, the soon-to-be pastor of Faith Lutheran Church, Rev. Ritter and his wife and family will be here on Thursday to meet the congregation. Lunch will be served at the church. He will be moving here in July from Iowa where he has been attending seminary.

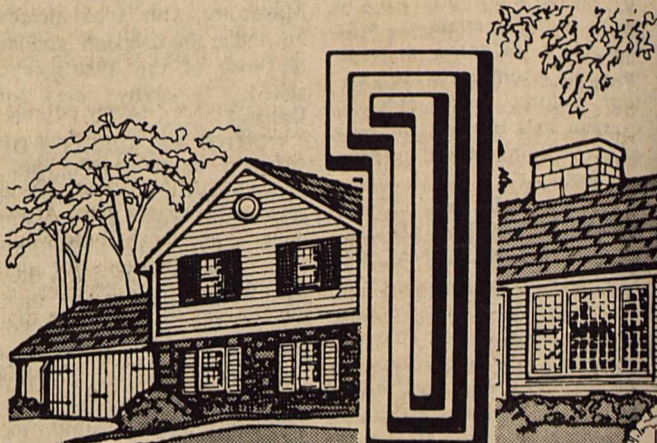

Mrs. John Clark and all her children attended the Clark family reunion at San Marcos last weekend. Those attending were: Mr. and Mrs. Whit Clark of Rotan, Mr. and Mrs. Leslie Cobb of Midland, Mr. and Mrs. Reece Clark, Mr.

and Mrs. Charles Clark and Mr. and Mrs. Joe Clark all of Sagerton. Mrs. John Clark was the oldest in attendance and Johnny Cobb's daughter from Midland was the youngest, the guest who came the farthest was from Montana. Mr. and Mrs. Dick Gibson, former residents of Sagerton who live near there, also visited with the Clarks.

American Ag News

BY BETTYE McBROOM

Every hour of every day you come into contact with food, fiber and many other products that all start on a farm. For example—meat, poultry, cheese, milk, fruits and vegetables, cotton and wool, wheat, peanuts, sugar, leather, wood, corn and soybean oils, chemicals, soaps, inks, cement—almost everything you can think of starts on a farm, in some way or another.

About two out of three people in the world are farmers. But many of them can raise only enough plants and animals to supply their own family needs. In America about 1 out of 20 people are farmers, and this one farmer grows enough food to feed about 57 persons during a year. But about four of every ten jobs in this country are associated in one way or another with agriculture.

A large tractor may cost \$20,000 or more or as much as five cars. Some farmers have as many as three tractors. Total cost for land, machinery, buildings and livestock management by the farmer averaged about \$160,000 in 1974. An acre of the farmer's land is nearly the size of a football field. With a large tractor and plow, a farmer can plow an acre the size of a football field in about 16 minutes. Before modern machinery, it is estimated that it took about 14 hours to plow 2 1/2 acres. Today it takes about 40 minutes. One bushel of wheat (60

pounds) provides about 42 pounds of flour...enough for about 50 loaves of bread. In some wheat growing states, a farmer may average more than 40 bushels per acre in a good year. This would make about 2,000 one-pound loaves of bread enough to furnish a family four loaves of bread every week for 500 weeks or nearly 10 years.

American farmers use more land for corn than any other crop, growing half of all the corn produced in the entire world. It provided more food for more people and animals than any other crop they grow. The United States grows about two billion pounds of peanuts every year. More than half of the farmer's peanut crop is made into peanut butter.

Tree 6 to 10 years to begin fruiting, but when grown, it will average 5 to 10 bushels of apples per year. At 60 pounds per bushel, the average tree would bear about 450 pounds of fruit, enough apples to make about 225 apple pies each year. Farmers who grow potatoes average about 290 bushels per acre. At 60 pounds per bushel, this would be about 17,400 pounds from one acre. At two pounds per meal, there would be enough potatoes for your family to have french fries one meal every day for more than 20 years.

A beef steer weighing approximately 1,100 pounds when sent to market will yield about 450 pounds of useable

carcass meat. This would include about 180 pounds of hamburger, 126 pounds of steak, 126 pounds of roasts and other edible parts. The hamburger meat from a single beef steer will make about 720 quarter-pound hamburger patties—enough for your family to have hamburgers each day for nearly 6 months.

Pigs are usually sent to market when they weigh about 220 pounds. Each pig has been fed nearly 700 pounds of corn and other grain. One pig that the farmer raises could furnish your family with about 20 pounds of bacon, 30 pounds of ham, 30 pounds of pork chops and 80 pounds of other meat.

A hen will lay one egg a day for about 240 days a year—enough to fill 20 egg cartons. It takes 21 days for an egg to hatch and produce a baby chick. Eight weeks later the chicken is large enough to be marketed. It will have eaten about 8 1/2 pounds of feed in this time and will "dress out" at about 3/4 of its live weight.

A hen turkey is usually marketed at 18 to 20 weeks of age. A gobbler is usually held and fed for 3 or 4 more weeks. A 20-pound live weight turkey will weigh only about 15 pounds when it's inside your food store freezer. It had eaten 3 1/2 times its weight in feed when it was sent to market.

A dairy cow gives enough milk to furnish 9 families with one-half gallon of milk every day. In order for a dairy cow to give this much milk, she may eat nearly 100 pounds of food and drink about a bathtub full of water (30-35 gallons) every day. Two cows give enough milk to make about 3 pounds of butter or 9 pounds of cheese every day.

From one 500-pound bale of cotton, you can make 666 long sleeve shirts which would bring approximately \$14,000, or 300 pair of jeans worth farmer's price based on 42 cents a pound (which some farmers received last year) is \$210 for that same bale. And, out of this the farmer pays for the bagging that goes on the bale and the processing, and the processing.

Now, do you think farmers and ranchers are important and necessary people to our economy in the United States today? If so join them in the fight for equal rights in the marketplace.

STAMP CUBES and other desk accessories in matching vivid colors. Haskell Free Press.

Parts of the Arabian Desert have only been seen from the air. Its name in Arabic means "the empty place."

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability.)

Dear Sir:

Occasionally an older and more experienced doctor will refuse to see a patient for the following implied and/or verbally expressed reasons: (1) because the patient is from out-of-town and not a regular patient (although he may have been in the past), (2) because the doctor can't bother to take time out in the middle of his busy schedule, (3) because the patient is literally not on his death bed, (4) because the doctor is financially able to turn away a patient and he doesn't care, etc.

Because of the attitudes encountered above, I say, "Thank You, Dr. Wayne! You put some doctors (?) to shame, and you are definitely an asset to Haskell and the surrounding area."

Patti Simpson Wilson

Dear Editor,

If you are not a concerned citizen, and not willing to become involved with the American Agriculture Movement, don't bother to read this letter, but if you like to eat, and if you like to live in a free country, you are involved.

The "insiders" or bureaucrats of our National Government in Washington D.C. are counting on you being too preoccupied with your personal problems, or just plain too lazy to fight back, while the leaders of our Nation, who are members of the Trilateral Commission (a private club of billionaires and their advisors) continue to plan for the takeover of our Government to form what they call the Third World Government, hopefully as early as 1980. Remember, the "insiders" don't care how

much you know about their conspiracy, so long as you don't do anything about it, so keep reading and then ACT.

Congress must be forced to take a public stand on the Council on Foreign Relations, and the TRILATERAL Commission. Once Congressmen are elected, we must make sure that they do not succumb to the political pressures in Washington D.C.

If some of you are unwilling to become involved because it may be bad for business or jeopardize your social standing, or because you are too lazy, or don't care, just look your children or grandchildren in the eye and tell them that making a buck and climbing the social ladder means more to you than their future. Ask yourself how you feel about your children and grandchildren living in a Communistic America. Impossible, you say? Not if the Trilateral Commission and CFR succeeds in their goals.

If you decide to become involved, support your American Agriculture Office with your donations and your

The HASKELL FREE PRESS—Thursday, June 8, 1978—Page 5

presence at their meetings to learn what they are doing and planning against the conspiracy at the Nation's Capitol. No burglar ever tried to rob a house when the spotlight was on him. With all our efforts together, Congress can be that spotlight, and that conspiracy can at least be delayed until we can elect some honest men and women to lead our Nation.

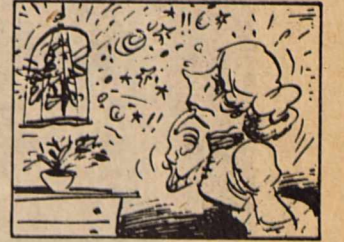

To fellow members of the American Agriculture Movement, don't give up. The AAM is neither dying or dead. We have just begun. We have had a long and tiring eight months, many of us have spent our own money lobbying in the Halls of Congress and when it becomes necessary, we will go back by the thousands.

Farmers, ranchers, bankers, business people, professional men and women, blue collar workers, we should all be in this together. Go to the AAM meetings, and bring your friends and family with you. Learn about the Trilateral Commission, the conspiracy to do away with the American

way of life and our freedom. We as farmers, will continue to work and keep farmers and ranchers in Washington to put together a new farm and ranch program by farmers and ranchers who understand their own problems, but we need the help of every fellow citizen to make America worthy of God's blessings again.

The choice is yours. Act now. It's time we all proceed together for our homes, and our country, or we will all together see it taken over.

Sincerely,
Mrs. Betty Albus
Knox City, Texas

"Sparkie Williams," a bird owned by a woman in Bear Cross, Hampshire, England, reportedly had a vocabulary of 531 words.

LANE APPAREL'S 7th Anniversary STOCK REDUCTION

CLOSING-OUT SALE

THE SAVINGS YOU'VE BEEN WAITING FOR!

Famous Brands. Known Brands. Entire stock of high quality merchandise at Terrific Savings to You! UP TO 50% AND MORE. Smart shoppers go where all prices are always low! Our store wide low prices add up to bigger and better savings. STARTS THURSDAY.

Giant Clearance On Year Around Spring and New Summer Items

Safe Boating Regulations

There are no traffic signals on Texas lakes, but there is a body of regulations which is just as clear-cut and definitive as those governing any land-bound traffic interchange.

As far back as 1895, seamen were beginning to observe standardized international regulations, or "rules of the road" to avoid collisions and to establish the type of lights required for night sailing.

Most Texas boaters operate under the "inland rules of the road" listed in the updated pamphlet "It's the Law" available from the Texas Parks and Wildlife Department office near you.

A quick survey of these rules tell boaters operating on Texas lakes when approaching head and head, it is a standing rule that both boats shall direct their courses to starboard (right) and pass to the port (left) side, each having given one blast of the horn or whistle.

When approaching a boat to your port and only the red light is visible, you may proceed on course after giving and receiving one blast of the horn or whistle.

When approaching a boat to your starboard and only the green light is visible, you may proceed on course after giving and receiving two blasts to the horn or whistle.

When overtaking a boat from the rear give one blast of the horn or whistle to designate your intention to pass to the starboard. Proceed on course after the boat being

overtaken acknowledges with one blast.

Boats in your danger zone have the right-of-way and should hold their course and speed. The danger zone for your boat is starboard. Learn and exchange proper signals to avoid misunderstanding.

To overtake to the port, give two blasts and proceed on course after the boat being overtaken acknowledges with two blasts. If the boat being overtaken does not think it is safe to pass, she shall give several short blasts of the horn or whistle (never less than four).

In addition to the operating rules listed in the pamphlet, all boaters must stop and render aid if you are involved in a boating accident unless to do so would seriously endanger your boat or other persons. Also, you must give your name, address, and identification number of your boat in writing to any injured person and to the owner of any damaged property.

If death results from a boating accident, collision, or casualty, a written report must be submitted to the P&WD. If such occurrence results in injury to any person requiring professional medical attention or physical damage to property (including vessels) in excess of \$100, a written report must be submitted. In all such cases, the report must be prepared and submitted to the P&WD by the operator(s) of the boat (s) involved. These accident reports shall be

confidential and shall not be admissible in court as evidence. Reports must be submitted within 30 days.

It shall be unlawful for any person to: operate a motorboat or vessel or manipulate any water skis, aquaplane or similar device in a willfully or wantonly reckless or negligent manner so as to endanger the life, limb, or property of any person; operate any boat at a rate of speed greater than is reasonable and prudent or greater than will permit him to bring the boat to a stop within the assured clear distance ahead; operate any motorboat so as to cause a hazardous wake or wash; operate any motorboat in a circular course around another boat whose occupant is fishing or around any person swimming.

Safe operation of a boat is a matter of common sense. Do not insist on the right-of-way if the other boat seems not ready to give-way.

Sailing vessels and row-boats are normally small and less maneuverable than powerboats and should be given the right-of-way.

For more information about "Rules of the Road," write the P&WD, Water Safety, 4200 Smith School Road, Austin, Tx. 78744 or call toll-free 1-800-252-9327.

Armadillos Can Be Yard Pests

A very common animal seen in gardens and flower beds is the armadillo. The armadillo is in the anteater family, so he has no front teeth. Therefore, if you see armadillos in your yard, and you notice also scratch marks on your trees, do not think the animals are trying to eat your trees. They are digging around for insects in the yard and happen to scratch the base of your trees with his claws.

Armadillos are insect eaters, primarily, and are seen even more active in yards that are infested with grubs. They can sometimes literally tear up flower beds. Freshly watered areas will attract armadillos because the moisture makes the soil loose and causes bugs to come to the surface for air.

The best control is to shoot or run up on the armadillo and catch it. They can not bite but remember they do have powerful claws. Before shooting, be sure to check with the mayor or city manager on the use of firearms in the city limits. Armadillos are super dumb animals, so they can be easily caught in a live trap as long as the trap is in the path way. You may want to even put a funnel up to the door of the cage using boards. There is no chemical on the market to rid armadillos but there are chemicals to rid insects and grubs. And if you control the food supply, you stop armadillos from digging up yard.

For more information, write Deena Pattillo, 304 Federal Bldg, Wichita Falls, Texas, 76701 or call her at 817-767-4981.

Parade-Track Meet Set For Friday

A bicycle parade and track meet for children, age three years-6th grade, has been scheduled for 9:00 a.m. Friday. These activities are part of Preparation Day for Vacation Bible School at East Side Baptist Church.

Ribbons will be given for first, second, and third places in each event, and participation ribbons will also be given. Free snow cones will also be provided.

Everyone is invited to come and take part in the mornings activities. Vacation Bible School will be held June 1-16 from 10:00 a.m. - 1:00 p.m. according to the pastor, Jimmy Griffith. Each child should bring a sack lunch. Drinks will be provided by the church. For transportation, call 864-2738 or 864-3659.

Grasshopper Control is Garden Problem

Grasshoppers can be a major garden problem in a dry year. There are large numbers of immature grasshoppers in fence rows and pasture land.

These grasshoppers can be controlled now in these breeding areas. This will reduce grasshopper populations later in the growing season if the infested area is limited. Where gardens are located near pastures, control of immature grasshoppers now will give temporary control but when the grasshoppers mature they will fly in the gardens.

Heavier damage than usual can be expected if dry conditions prevail. The foliage that grasshoppers usually feed upon will be limited; therefore, the grasshoppers will be forced into the garden for food.

Grasshoppers can be controlled with Malathion, Carbaryl (Sevin®), Toxaphene or Diazinon®. Baites containing Carbaryl or Toxaphene are effective against most grasshoppers. Malathion can be used to control grasshoppers around home gardens. Diazinon® A G 500 is registered for use on rangeland, ditch banks, roadsides, wasteland, noncrop areas and in barrier strips.

Jaycees Hold Meeting

The Haskell Co. Jaycees held their regular weekly meeting on Thursday June 1, at the City Hall. President Charles Thornhill presided over the meeting. There were 14 members present. It was decided at the meeting that the Board of Directors of the Jaycees would have a monthly meeting, to be on the last Tuesday of the month. The members voted to have once a month either a family night or ladies night.

The Jaycees will have a Rest Stop along with a Fire Works Stand for the July 4 holiday. There were 4 members formally inducted into the club they were: Rickey Lee Address, John Wayne McDermott, Allen Moeller, Phil Henshaw. The membership voted on the Board of Directors recommendation to accept projects for the coming year.

Members of the Haskell County Jaycees attended a Local Officers Training Seminar at Temple, last weekend June 3 and 4. These seminars are held for the benefit of Jaycees Officers.

Haskell County Jaycees will hold their own Mini Local Officers Training Seminar on July 8th here in Haskell. Jim Pace of Haskell will be chairman, and J.W. Headstream, of Abilene will be Co-Chairman. Those attending the Temple meeting were: Bo Owens, Jim Pace, Mike St. John, Thurman M. (Bud) Howeth, Jr., Jake C. Dusak, Jr., Rickey Lee Address and Charles Address.

Grant Approved

Congressman Omar Burrenson announces the approval of a \$248,700 Community Services Administration grant to the Community Action Program, Incorporated with headquarters in Abilene. The counties served are Taylor, Haskell, Stephens, and Mitchell Counties.

The grant was effective May 1, 1978, and will run for 12 months. It will be used in such areas as health care, alcoholism counseling, job training, consumer education, information and referral, outreach, housing and other supportive services.

NEWS OF HEALTH

Effective Sunscreen Blocks Ultraviolet Light

If you're one of millions of Americans who like a good tan without the problems of sunburn, you're probably interested in this finding: octyl dimethyl PABA-based sunscreens are most effective in blocking nearly all of the sun's harmful ultraviolet rays.

Not all suntan lotions and sunscreens work as effectively as others. Some sunscreen products have PABA concentrations so high that they block out both the sun's harmful and tanning rays. Quick-tanning preparations promise a golden glow after only two days in the sun, but you may also get a bad burn.

A sunburn preventive that remains on in water is important to anyone who swims and suns. Children, for example, go into the water 25 percent more than adults and especially need that extra protection.

Many sunscreens wash off while you're in water or when you're perspiring. However, Johnson & Johnson has developed a new product called Sundown brand sunscreen, which stays on for hours, even when you are in or out of fresh or salt water. It has

a film-forming base containing octyl dimethyl PABA that screens out only the sun's damaging rays while allowing gradual tans. With liberal and regular use over the years, it may help reduce the chance of premature aging of skin and skin cancer.

Get into the habit of using sunscreen protection regularly—that's the key to enjoying the sun while saving your skin.

HERE'S TO YOUR HEALTH
from Kenneth Jones

Smarting, itching and inflammation of the eyes and eyelids often are caused by bacteria and viruses or by sensitivity to dust, pollens, or air pollution. Virus infections of the eyes can occur a few days after swimming in natural water or a pool even though chlorinated. Most bacterial infections of the eyes can be cured promptly by a physician, using sulfa or antibiotic drops or ointments.

CHEMISTRY in our lives

Facts From the American Chemical Society

Experts at the world's largest scientific organization devoted to a single science—the American Chemical Society—have some interesting answers to questions about how chemistry benefits mankind. This nationally chartered, 115,000-member organization with 177 sections across the country has played an important role in spreading scientific knowledge for over 100 years.

Q. Can chemists aid in combating the high cost of food by stopping spoilage?

A. Yes, a new, simple chemical treatment has been devised that will help milk retain its flavor and its nutrition for long periods without refrigeration.

Processing milk at 135 to 145 degrees Celsius for two to three seconds destroys germs but not vitamins. After treatment, fluid milk can be transported and stored without refrigeration for six months or longer. Such milk did have a disagreeable cooked flavor, but scientists found that by adding an enzyme, sulfhydryl oxidase, the cooked flavor is removed. The technique could be extended to other foods.

C'mon, kid, Live!

Photo by Paul Caramuto, V.F.D., Mt. Vernon, N.Y.

When the eyes flutter open at last, when the breath finally comes easy and regular—only then can the fireman relax.

And maybe take a little pride and pleasure from the special gift he's been given.

It's a learned gift, with a big name: *mouth-to-mouth resuscitation*. And the gift itself is big, too. Because in many cases it brings people literally back from death.

Whenever you wonder "where Red Cross money goes," think of it. Part of your money goes to train people in all walks of life to do what needs to be done when the chips are really down.

Maybe you'll never need to be brought back to life this way.

Then again, maybe you will.

Isn't Red Cross a good idea? Belong.

Red Cross is counting on you.

Screwworm Cases Increase

Screwworm cases are popping up rapidly in unexpected—and in some instances, unexplained—locations in Texas as the month of May enters its final weeks.

As of May 18, Texas had recorded six screwworm cases. Five were confirmed during May. The state's first 1978 case was confirmed April 21 from Hudspeth County. The worm sample was collected on a ranch about 48 miles east of El Paso.

The second case was confirmed May 8 from a worm sample submitted by a ranch located 20 miles southwest of Marfa in Presidio County, according to the U.S. Department of Agriculture's Screwworm Eradication Laboratory at Mission.

Then on May 15, the year's first screwworm case in central Texas was confirmed from a worm sample collected on a ranch in Coleman County, two miles southwest of Voss. Two days later, a second Coleman County case was confirmed from a sample collected near Coleman on another ranch some 30 miles from the first case.

Two more cases were confirmed the following day (May 18) in widely separated Counties. The northernmost case was in Stonewall County, in Extension District 3. The worm sample was collected on a ranch 17 miles west of Aspermont, along the forks of the Brazos River.

The southernmost case originated in upper Hidalgo County on the Lykes Bros. Ranch at Linn, but was collected from an animal sent to a Live Oak County auction barn.

"With the widely-spread pattern of cases that are erupting this year, producers in every county must remain on the alert for outbreaks," cautions, Dr. M.E. Meadows, Jr., Screwworm Program Director.

The recent dramatic increase in screwworm cases in the states of Chihuahua and Sonora, Mexico—which lie directly south of El Paso and the Big Bend area of Texas, as well as New Mexico and Arizona—provides a logical explanation for the screw-

worm upsurge in those areas, adds Meadows.

After experiencing one of the mildest and wettest winters on record, southern Arizona's screwworm cases have increased rapidly this spring, with 307 cases recorded thus far in 1978. More than 200 of the cases were confirmed in May, notes Meadows, with caseloads averaging around 20 per day in late May.

The screwworm buildup in New Mexico got off to a slower start, with 38 cases being confirmed by the Mission Lab as of May 17. Most of these are in the three southernmost counties of the state: Luna, Grant and Hidalgo.

"Thus, the Texas cases in Hudspeth and Presidio Counties likely are spin-offs from the heavy concentrations that are being reported in those immediate areas. The other Texas cases, however, are more widely spread and have no known history of native fertile screwworm flies in those areas," the program director emphasizes.

Screwworm eradication program staff personnel have maintained fly traps to capture samples of all flies in the area from Brownsville to Laredo all of this year, but have found no native fertile flies. States of northern Mexico have been extremely dry—creating an unfavorable environment for flies—during the past year, with rainfall generally less than eight inches recorded in the 12-month period, officials of the Joint U.S.-Mexico Screwworm Commission report.

At present, large numbers of Mexican cattle are being moved to the El Paso area and other entry points along the Rio Grande awaiting permits to enter Texas, officials add. Permits are not being processed rapidly, and large numbers of animals from drought-stricken areas of Mexico are being inspected and moving to Texas rangelands or feedlots.

Besides cattle movement, other factors which may influence the migration of fertile screwworm flies into Texas are the extremely strong wind currents of April and May; and "hitch-hiking"

flies, which enter trucks and cars and travel many miles before escaping to new areas to infest, say program officials. Following last year's successful "Stamp Out Screwworms" campaign, 1978 was designated as "Screwworm Watch" Year throughout the southwestern United States.

"But the effort can succeed only if everyone gives a year of dedicated effort, contends Meadows.

Livestock producers of Texas (through May 17) had submitted some 475 worm samples that have proven to be non-screwworms, says County Extension Agent Max Stapleton.

"This is a good job of reporting suspected cases, but the effort needs to be beefed up in the forthcoming months. Producers should inspect their animals on a regular basis, collect worm samples from any infested wounds found, and mail the samples to the USDA Screwworm Lab, Box 969, Mission, Texas. The zip code is 78572. Tubes for mailing the samples are available from county agents," reminds Stapleton. Additionally, producers should treat all animal wounds found with approved insecticides. County agents have more details about products and treatment methods.

Screwworms—larvae of the screwworm fly and a deadly parasite of all warm-blooded animals—continue to plague the southeast in spite of efforts to push the fly south of the Isthmus of Tehuantepec, in southern Mexico, near the new fly plant at Tuxtla Gutierrez.

"Your help is needed to keep screwworm populations from building to high levels in Texas and surrounding areas this year. Sterile screwworm flies can't do the job without your help. Early reporting of all worms will enable Mission Screwworm Program Officials to treat case areas with sterile fly drops. These sterile flies then mate with any fertile flies in the area, and the eggs resulting from such matings do not hatch, thus ending the life cycle," explains Stapleton.

Rice Springs News

The Independent Baptist Church will be here the month of June at 9:30 a.m. Mr. and Mrs. Bob Cox of Stonewall, Okla., and Miss Margi Cox of Houston visited with Andy Cox.

Otto and Lula Peiser of Lubbock visited with his mother Martha Peiser.

Visitors of Annie Howard were, Pat Nelson of Baton Rouge, La., Geneice Bull and Geneva Goolsby of Lubbock.

Mr. and Mrs. Raymond Stuart of Odessa visited with his mother Minnie Stuart.

Visitors of Mary Chandler included: Mr. and Mrs. Tom Kiser, Shelley, Kimmie, and Nikki of San Angelo, Helen Turnbow and Rev. Paris Barton of Weinert, and Etta Leach, and Mrs. Cliff LeFevre of Sagerton.

Mr. and Mrs. O.O. Posey and Neta of Knox City visited with Edna Collins.

Aubrey Spalding of Hamlin, Iona Sellers of Ft. Worth, and

Mrs. R.C. Pool, and Mrs. Clara Hines of Rule visited with Charity Bradley.

Mr. and Mrs. Luther Hines welcomed visits from Mrs. G.A. Leach and Mrs. Cliff LeFevre of Sagerton.

Visiting with Alma Cole were Mrs. Mary Sue Henry, Mrs. Oleta Jackson, Mrs. Joe Mathis, and Clara Hines of Rule, Mrs. Etta Leach, and Mrs. Cliff LeFevre of Sagerton.

Jo Simpson brought a very nice devotion Wednesday morning at 9:00 a.m. Everybody enjoys these devotions very much.

Hallie Morgan and Zina Bills of Rule and Lewis May of Coleman visited with Ora McCollough.

Visitors of Herbert Klump included: Cecil Klump, Hazel Letz, Phyllis Letz, Jana and Casey, Garrett and Odine Spitzer all of Old Glory, Mrs. Etta Leach and Mrs. Cliff LeFevre of Sagerton, Linda

Letz and Kevin of Abilene. Visiting with Mr. and Mrs. Sam Bradford were their children Mr. and Mrs. G.A. Bradford and Brenda of Peacock and Faye Cox of Clairmont.

John McQuinn of Rule visited with his mother Fanny McQuinn.

Everyone would like to welcome Beatrice Livengood, and Jonny E. Phumphery.

BIRTHS

Mr. and Mrs. Gary Grant Brown, of Merkel, announce the birth of a daughter, Sharon May Brown, born June 1, 1978 weighing 6 lb. 11 oz., at the Haskell Memorial Hospital.

Mr. and Mrs. Max Derrell McMeans, of Haskell, announce the birth of a daughter, Misty Denise McMeans, born May 30, 1978, weighing 6 lb. 13 1/2 oz., at the Haskell Memorial Hospital.

A Healthy Garden

GETTING RID OF TROUBLE PROMPTLY

A little pull in the right places can help a lot if you have weeds growing between the stones or bricks of a walkway. But since pulling the weeds may also mean pulling your neck, there's now a liquid vegetation killer called Conquer* you can sprinkle on weeds to be rid of them for up to a year, no matter what the breed of weed.

Conservation Viewpoints

USDA Soil Conservation Service
Assisting
Haskell Soil and Water
Conservation District

LESLIE PRESSLER

Leslie E. Pressler, a May graduate of Tarleton State University, is the new soil conservationist in the Haskell Field Office of the Soil Conservation Service. Les has Bachelor of Science degree in General Agriculture. He was raised on a farm and ranch unit near Comfort, in the Hill Country. Les will be assisting farmers and ranchers in this area in carrying out conservation practices thru the ACP and Great Plains programs.

With grass planting season gone for another year, our attention has turned to planting cotton on land having little available moisture and wondering what to do next. For many people, it is still hauling water for livestock needs. Many farmer-stockmen around the Haskell county area have been hauling water to meet their cattle needs, since September. As we all know, this is due to the drought we are experiencing and due also to the inadequacy of many of the old ponds built with teams several years ago. These ponds or tanks are generally good supplies of water for a short time only. They cover large areas of ground with shallow water and consequently shallow water has a higher evaporation loss.

Today we construct what are known as "pit" ponds, which are deep holes, below the normal ground level. These ponds hold equal amounts of water but are confined to a small surface area and deep water. Evaporation loss is held to a minimum due to a small surface area and distribution of dirt from the hole itself. These ponds prove to be more

desirable livestock and wildlife watering places, good erosion control structures and very good farm fish ponds.

Several of these type ponds have been completed in the Haskell county area in the past and are serving as good suppliers of water today. Pit ponds are currently under construction on the following district cooperators: Johnnie Earles, Mrs. Violet Frazier, Raymond Medford, Allen Overton, Kenneth and Eddie Sanders, and Tom Yates. If you have conservation needs for water or other needs, contact the Soil Conservation Service in Haskell.

STOCK MARKET

The market at Haskell Livestock Auction was lower on a run of 955 head of cattle, 165 hogs, and no sheep and goats at its sale June 3, 1978, according to James Powell reporter.

Packer cattle steady, feeder cattle unevenly lower as talk of imports scare feedlot operators.

Accent On Health

Texas Department of Health
Fratris L. Duff, M.D., Commissioner

Don't let mosquitoes take all the fun out of your summer by turning up as uninvited guests at picnics and backyard cookouts, says the Texas Department of Health.

"It only takes a little standing water and some adult mosquitoes to bring on pain, discomfort, aggravation and sometimes disease from the pesky insects," said Kenneth C. Lauderdale, Director of the General Sanitation Division. "Water in which to pass their early life stages is a necessity for mosquitoes."

"Some mosquitoes lay their eggs in standing water where they hatch in a day or two. Other mosquitoes lay their eggs in old tires, tin cans, or other water-holding containers where they remain unhatched for weeks or months until they are covered with water."

With both types of mosquitoes, the wigglers

or larvae grow quickly and turn into tumblers or pupae. Soon the skin of the tumbler splits open and out climbs another hungry mosquito looking for its victim.

In addition to being pests, says Lauderdale, mosquitoes can spread disease. Such diseases as encephalitis, yellow fever, dengue fever and malaria are common diseases spread by mosquitoes.

The largest number of cases of St. Louis Encephalitis (SLE) on record for a single year occurred in 1975 when a total of nearly 1800 cases were reported from 30 states, including Texas.

"While mosquitoes are a threat to health and bodily comfort, there is something that you as an individual can do to ease the situation and lessen the job of local and regional health organizations and mosquito control units," Lauderdale says.

The Ten Commandments of mosquito control are:

1. Empty, remove, cover or turn upside down any receptacle that will hold water—particularly old

bottles and tin cans.

2. Change water and scrub vases holding flowers or cuttings twice each week—or grow cuttings in sand.

3. Discard old tires or store them indoors.

4. Screen rain barrels and openings to water tanks or cisterns.

5. Repair leaky plumbing and outside faucets. They may cause standing water in which mosquitoes can hatch.

6. Connect open wastewater drains to a sewage system, or construct separate sump or leach lines.

7. Clean clogged roof gutters and drain flat roofs.

8. Fill holes in trees with sand or mortar, or drain or spray them, as required.

9. Stock ornamental ponds with mosquito-eating fish.

10. Clean and drain evaporative coolers frequently.

"These tips will help you prevent mosquitoes from reproducing," says Lauderdale. "In addition, your local health department may have summer spraying programs to rid infested areas of the insects. You should also keep your

window screens in good repair, screen fireplaces and other openings, and kill all mosquitoes inside your home with proper insecticides."

What if you're going into areas where mosquitoes may be prevalent? Lauderdale says there are several

repellants on the market which can be used on exposed areas of your skin. Used on clothing, they might also protect you from chiggers and ticks, he said.

Remember, all mosquitoes need water for their early life stages. Adult flying

mosquitoes frequently rest in grass, shrubbery or other foliage, but they never develop there. So, if there are any places around your home where water collects, get rid of them. Don't raise the mosquitoes that bite you!

THANK YOU

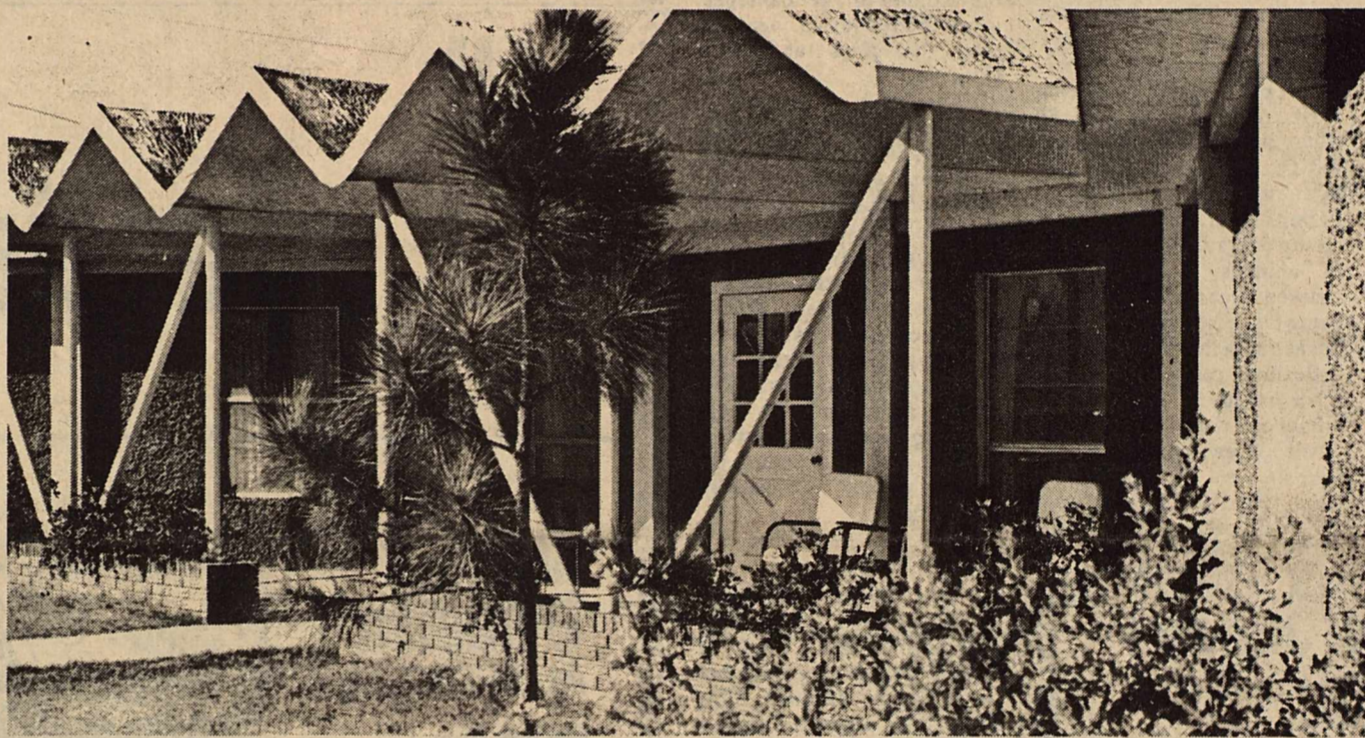

I would like to express my sincere gratitude to all of you that voted, campaigned, and prayed for me during the past months.

It has been a very rewarding experience to make so many new friends and renew old friendships. After campaigning from all four corners of this county, I am totally convinced Haskell County has been blessed with warm, wonderful and friendly people.

It will be a pleasure to serve such people, and as I have promised, I will strive to the best of my ability to be a County Treasurer you will be proud of.

Thank you, for the confidence you have bestowed on me.

Willie Faye Tidrow

Life CAN be beautiful. It is, here.

TEN GOOD REASONS WHY YOU OR SOMEONE YOU LOVE SHOULD LIVE AT LEISURE LODGE.

HAPPINESS. Everyone has the inalienable right to the pursuit of happiness. And for many of us, as we grow older, true happiness comes from being around people our own age — people with whom we can enjoy conversation, reminiscences, our real feelings — people who understand.

COMFORT. At Leisure Lodge, we recognize that we are all individuals; everyone is different, and has different needs. Thus, we make every possible effort to see that these needs are met — from turning a thermostat up or down, locating a more comfortable chair, opening the drapes, or closing the drapes — or whatever it takes.

COMPANIONSHIP. We think one of the best reasons for living at Leisure Lodge is knowing that there will always be someone to be with; someone like you (or perhaps someone different, if you pre-

fer.) At Leisure Lodge, you're alone only when you want to be — and we think that's awfully important.

LOVE. That's what living at Leisure Lodge is all about. From the Nurses, to the Aides, to the Cooks, to the Administrators — and certainly, from one guest to another, our home is filled with love. It always will be. Because that's what makes it a home. And we wouldn't have it any other way.

FOOD. There just isn't any better food anywhere. Hot, home-cooked meals, as much as you want, planned and supervised by a dietician, and prepared with love. (We eat here, too, you know, and we eat the same food as our guests.) Strict attention is paid to special diets. Everyone gets what he or she needs; no one gets what they shouldn't have. And usually, with older people, that's not true in even the best of private homes.

CLEANLINESS. We take special pride in making Leisure Lodge shine. Every part of our home is cleaned daily — and you know how important that is, when it comes to preserving good people's good health, at any age. Linens are always clean and fresh, and our guests' personal laundry is done right here in the home, at no charge.

ECONOMY. You might think it costs a lot of money to live here — but it doesn't. In fact, it doesn't cost a bit more to live at Leisure Lodge than at any other

home. We're approved by the State Welfare Department for Medicaid — and of course, we're licensed by the State Health Department. Yet the fact is, you can probably live here for less than you can live at home.

ACTIVITIES. Want something to do? Want to have fun, with people your own age? Come to Leisure Lodge, and you've come to the right place! Our Activities Director has more ideas than fifteen computers! There's always something going on. And you'll love it!

NURSES. Ours are the very best anywhere. Bar none! We think so, anyway, and we'd bet you will, too. They care for our guests. They see to it that the proper medications are given, at the proper time. And baths, and shots, and all the other things. But, most of all, they like what they're doing, and they love our guests. And they always remember that a smile, and a cheerful greeting, are sometimes the very best medicine of all!

THERAPY. It comes in all types. Not just in helping people learn to use limbs that have grown weak, or to do things for themselves. We do that, of course, but we do other things, too, that may be even more important. Like making people feel good inside. At Leisure Lodge, we really do care.

Boating Hints

How well you handle an emergency aboard a boat may mean the difference in whether or not you survive a boating accident.

Anyone can have an accident and the most common are: man overboard, capsizing, taking on water during squalls collisions and fires.

When a person falls overboard, swing the stern quickly away from the person in the water if the boat is underway. If he is close to the boat, stop the motor so he won't get cut by the prop. Even though he can swim, throw him a life preserver, extend him a paddle or throw him a line. Act quickly and do what the situation demands.

If your boat capsizes, stay with the boat, don't try to swim to shore unless there is a good reason to do so. Modern boats will hold up passengers even when full of water. Remember, it is easier to spot a large boat than a swimmer's head in the water.

Put on a life preserver if not already wearing them. Coolers, gas can and water containers can be used to help keep you afloat. Towels and extra clothing can be used to protect you from sun and wind. Paddles can be used to wave for rescue, to rig shelters, or to reach people in distress.

Sudden storm and squalls are common in Texas and everyone should put on a life preserver and fasten it before the storm hits. Get to the bottom of the boat and stay

low. Secure all movable objects and bail out water as fast as it comes in. Head for shore or the lee side of an island if it is too far away or the water is not too rough. Use motor to head boat into the wind while moving ahead.

Collisions on a lake are more common than most boaters realize. When the hull is rammed, stop or reduce speed immediately. Stuff anything available into the opening to stop the water from coming in such as blankets, bedding or cushions. Do something and do it quickly to stop the flow of water.

Another critical situation is a fire onboard your boat. Stop the boat at once to keep from fanning the flames. When the burning object is portable, try to get it over the side without burning your hands or igniting your clothing.

When the fire is in a confined space, close all hatches, vents, or ports to keep oxygen from feeding the fire. Fire must have fuel, oxygen and heat to burn, take away any of these and the fire will go out.

Panic also should be included in any list of accident causes as it can be the biggest killer of all. Panic-stricken people cannot think, act instinctively, and many times, endanger the lives of everyone around including the rescuers.

An emergency aboard a boat can quickly become a life-or-death situation, so be prepared to handle it.

ZONE III WINNERS in the singles event at the Zone trapshoot held last Saturday and Sunday in Aspermont were: Jimmy Adams, Vernon, C.L. Boynton, Vernon, W.E. Wooten, Haskell, Foye Gatewood, Vernon and Pat Daugherty, Wichita Falls. Front row, Don Comedy, Haskell, Freida Ragland, Wichita Falls and Gary Womack, Haskell.

General Tel. Schedules Rural Area Improvements

All rural eight-party customers served by General Telephone Company of the Southwest will have access to four-party or better telephone service by the end of 1982 and other service improvements are scheduled as a result of a rural action plan inaugurated early in 1978.

General Telephone has budgeted in excess of \$24 million to accomplish this five-year program. The plan is an acceleration of a long-time effort to provide rural customers with the same quality and type of service now available to urban customers. The program is already completed in the company's Arkansas, Oklahoma and New Mexico areas of operations and in over 64 percent of the company's 295 Texas exchanges.

As new or improved rural telephone facilities become available, the company seeks commission approval to eliminate eight-party service offerings and/or restrict eight-party service to existing eight-party customers.

Other rural service improvement programs under the plan include:

Engineering all new and expanded rural facilities for no more than four customers to a line.

Inauguration of new rural forecasting techniques involving marketing and engineering departments which allows the company to have facilities available when and where needed.

Placing one-party facilities in fast-growing rural areas, usually adjacent to urban areas, where the expected

customer group will want single-party service. This will make one-party rural facilities ready prior to the projected need.

Existing equipment is constantly being reviewed to assure efficient use of all facilities in order to provide as economically as possible one-two-or four party service.

General Telephone engineers also are studying new methods, technology, products and systems which show possibilities of improving rural communications services. Some facilities are being field tested.

With a few exceptions familiar rural steel telephone lines (open wire lines) are being phased out. All new telephone line construction is being restricted to the buried type unless aerial facilities provide better service or unfavorable terrain prevents economical use of buried lines.

Dates for individual exchange conversions are subject to change; however, the overall plan to complete has been approved. The tentative action plan calls for elimination by the end of 1979 rural eight-party service in the Company's Southern Area, covering roughly the area of South Texas inside a line from Laredo to San Antonio to Waco to the Louisiana border. The Northern Area, extending from the Dallas/Fort Worth Metro area to Sherman, is expected to be completed by the end of 1980.

Except for one exchange scheduled in 1982, the Eastern Area serving Texas east of Dallas/Fort Worth, will be completed in 1980.

The sprawling Western Area, covering an area from Del Rio to Amarillo and from New Mexico to Fort Worth, is scheduled for completion by the end of 1982. This large area will be the most costly with over \$15 million of the \$24 million going to improve and upgrade service in this area.

agri-facts

Pat Hale

Plastic food has come one step closer with the successful marketing of a new human food protein called "Torutein." This latest step away from natural protein is a derivative of petroleum grown as a yeast from a culture of ethyl alcohol. Most of the buyers will be food processors trying to enhance the flavor of simulated foods now on the market and running into consumer resistance because of taste. Another major market will be bakery products where the oily invader has the extra advantage of a nutritive complement in addition to protein (its only high amino acid, lysine, is desirable in most bakery products). If nothing else, the time and money which went into the research and marketing of an oil-derived protein should illustrate to everyone the critical importance of research to develop and enhance all food-protein sources.

Library News

Mrs. Elsie McGee, Librarian proudly acquainted many children with the Haskell County Library the last weeks of school.

Attending one afternoon were children from Weinert

grade school and their teachers: Mrs. Murphy and Mrs. Van Horn.

Also the third grade students and their teachers: Mrs. Suttle, Mrs. Blackstock, and Mrs. Raughton, from Haskell Elementary School.

On another afternoon the

first grade children of Haskell Elementary School inspected the Library with their teachers Mrs. Thomas, Mrs. Cunningham, and Mrs. Watson.

Mrs. McGee is always pleased to help anyone with reading material and invites the public to take advantage of the Library's many services.

East Side Baptist Church

Pastor Jimmy Griffith

My knees shook and I stumbled over my words as I made the presentation.

How Boom Boom Willis got his name.

I scrawled on the blackboard as big as I could: "Good-bye, Mrs. Willis," taking care to dot all the i's. My best penmanship for my favorite teacher. Mrs. Willis was quitting to have a baby.

When I told my Dad we wanted to give the baby a present, he suggested a U.S. Savings Bond. Said it would be a lot better than any blanket we could buy. So we took up a collection for our Savings Bond baby.

My knees shook and I stumbled over my words as I made the presentation. I thought the Bond would make Mrs. Willis very happy, but she looked like she was going to cry any minute. She finally got control of herself, though.

Then Mrs. Willis let us all come up and listen to the baby's heartbeat through a stethoscope she'd brought. There it was: Boom... boom... boom. You never saw such a bunch of

excited kids. And right then and there is how we gave poor Boom Boom Willis the nickname he is known by to this day.

Saw Boom Boom last week. All 6 feet 2 of him. Sure seems like he grew up fast. Taking off for college this fall. Paying for it with the collection of Savings Bonds we started for him when we were kids. Just think. Not only did we give him his nickname. We got him started on an education, too. It's enough to make you proud!

U.S. Savings Bonds are safe, steady and dependable. And they grow right along with you.

There's no better way to get a good start on the future. Buy Bonds.

Take stock in America.
