Quarterhorse Show Set Here

The 19th annual Bovina Quarterhorse Show will be held this Saturday, August 18 at the Bovina Roping Club Arena. According to Pat Read, show secretary, about the same number of entries are expected this year as there were for the 1978 show.

Entries from Amarillo, Dimmitt, Clovis, Portales, Muleshoe, Lubbock, Snyder, Wildorado, Dumas, Perryton, Friona and Farwell are expected to be on hand for the show, which is held in conjunction with the Bull Town Days celebration.

Entries will be taken in the show up until the judging begins at 10 a.m. The judging will begin with the halter classes, which will run until noon. The performance classes will be judged Saturday afternoon.

Entry fees of \$8 are being charged

for the halter and performance classes. The entry fees for the youth halter and performance classes will be \$5. There will not be any roping or cutting classes this year because of the difficulties in getting stock.

Trophies will be awarded to the Grand and Reserve Champions and each class champion. Rosettes will be awarded to second through sixth places in each class.

Judging the show this year will be W.R. "Bill" Thompson of Roswell, New Mexico.

Halter classes will be judged for mares, stallions, and geldings, with a grand champion named in each division.

Performance classes will be held in junior and senior western pleasure; reining, barrel racing and pole bending.

The show is an approved AQHA show, and American Quarterhorse rules will prevail to all classes.

Parade Slated For BTDFriday

Bull Town Days will feature a parade, something that the celebration did not have last year.

According to Dale Gober, who is in charge of the parade, the route for the event will be down Main Street, turn south down Third Street, and then turn west on Avenue F. The parade will end at the Home Ec Cottage.

Bicycles, floats, fire trucks and the ambulance are all expected to be in the parade. Anyone who is going to be in the parade will need to be at the new Senior Citizens Building at 12:30 p.m. on Friday, August 17. The parade will start at 1 p.m.

REFLECTIONS From The Blade

20 YEARS AGO--AUGUST 12, 1959

Joe M. Pinner of Bovina was admitted to Clovis Memorial Hospital Monday of last week suffering from a slight case of pneumonia.

Opening of Mary Marr Shop in Bovina is set for Saturday morning at nine with approximately 110 dresses on sale at special prices.

A leak or leaks, in plumbing under Bovina Public School buildings spilled 90,000 gallons of water into the nerve system basement of the building during the weekend.

15 YEARS AGO--AUGUST 12, 1964

O.C. Minyen, son of Mr. and Mrs. Ronald Minyen, entered St. Anthony's Hospital in Amarillo last Wednesday for surgery on his hand which was injured by a homemade bomb last December.

Mrs. Lloyd Killough is Bovina's new justice of the peace and city judge. She was appointed to the offices this week.

Mrs. Buck Ellison underwent surgery on her arm at Memorial Hospital in Clovis Tuesday morning.

10 YEARS AGO--AUGUST 13, 1969

Three persons were injured, and their small foreign car heavily damaged in an accident four miles west of Bovina Sunday.

Miss Pamela Grissom, daughter of

Mr. and Mrs. L.L. Grissom of Bovina, tied for first runner-up in the Miss Grain Sorghum of the Nation. She will receive a \$375 scholarship.

Highlighting Bull Town Days 1969 will be the dedication of a bull statue to accompany the historical marker erected in conjunction with last year's celebration.

5 YEARS AGO--AUGUST 14, 1979

Mrs. Larry Heard of Bovina was thrown from a horse near her home at 802 Ridgelea Drive Monday afternoon, suffering two broken arms in the accident.

Jerry Early, son-in-law of Mr. and Mrs. B.L. Marshall of Bovina, was one of 123 students receiving degrees at 8 p.m. Friday, August 9, in Texas A&M University graduation exercises at J.R. Rudder Auditorium.

Marine Col. Rene Rubio, Jr., son of Rene Rubio of Bovina was recently meritoriously promoted to his present rank at the Marine Corps base at Camp Pendleton, Calif. according to information received here.

NEW TOOL...Cindy Cook Friona by Steve Struve and demonstrates the "Sideswipe," a new tool being produced in Leroy Lundy.

New Tool Is Being Produced In Friona

A Friona company is producing a new product designed by a local resident who was wanting an easier way to get rid of his Johnson Grass. If the product goes over well, a lot of people may find this method helpful.

The product is a hand-held applicator for herbicides. It is called the "Sideswipe," and was designed by Steve Struve. It is being produced by Struve and Leroy Lundy at Ag-Chem Farm Services.

The applicator consists of a long plastic pipe which holds the herbicide. On the bottom end of the pipe is a roller device which applies the herbicide to the unwanted grass or weeds.

Struve says he got the idea for the tool from the wick-type applicators which have become popular with the farmers, since they reduce herbicide "drift." Wick type application has proven to be considerably more

economical, and in most cases does a better job than spraying, Struve says.

It took the local resident about two months to develop the applicator. He began to call it the "Sideswipe." Struve has applied for a patent for the invention, and also a trademark on the brand, which has been promised.

"I needed some help building the device, and a place to work, so I went into partnership with Leroy Lundy. We build them in his warehouse, and use the equipment there. We had to design most of our tools, such as a device to thread the plastic pipe.

Struve's daughter Carol designed the trademark label, and his son-in-law, Richard Nicholson, produced the labels for the new product.

Struve said that at first he built some of the tools, and Bob and Nelson Welch began using them. "That was the real test. They gave me some ideas as to ways to improve the

instrument," Struve said.

He said that he has sold about 250 of the units at the present time.

The "Sideswipe" works great anywhere there is a need for controlling weeds or grass by hand. It also has proven effective as an edger for lawns.

Struve and Lundy make two sizes of their product. The field unit sells for \$26.85. The lawn and garden unit sells for \$23.95. The field unit holds a quart of the herbicide solution, and the smaller unit holds a pint.

Teddy Fangman was the first customer for the applicator when Struve and Lundy set up operations.

"I appreciate the encouragement we have received. And I appreciate the help of Leroy and the guys at Ag-Chem," Struve added.

SIDESWIPE

The Ultimate Tool in rubbing out weeds

The Sideswipe Co. presents the newest concept in herbicide application. This new applicator replaces the common hoe, spray attachment for garden hose hand sprayers.

Sideswipe used in conjunction with your favorite herbicide is the ultimate tool in weed eradication. Descriptive uses for garden, farm and commercial units follow.

Sideswipe is the ideal solution to weed control in lawns, gardens, alleys, rock, gravel or bark areas. An entire yard and alley can be eliminated of weeds and edged in the time it takes you to walk over it and you can walk away from the job without backache, blisters and a dull hoe.

The SIDESWIPE Co.

"We're Bullish On Bovina, Texas"

Scooter's Scoops

By Scooter Russell

James and Penny Lawlis and daughters Jodi and Jane of San Antonio have been visiting in Bovina with James' parents, Mr. and Mrs. Ovid Lawlis and Penny's parents, Mr. and Mrs. Buck Lloyd. James and family came Friday and will be here for the Bull Town activities.

The Gaylon Rhodes family have had company: Mr. and Mrs. T. R. Kinlaw of Raeford, North Carolina. The Kinlaws are Shelby's parents. They came Tuesday and left Saturday. Shelby said they had a good visit and enjoyed going Wednesday evening to the "Texas" Production.

Edna Estes was taken to Friona Hospital Friday and transferred to the Methodist Hospital in Lubbock Saturday. The family said she is getting along much better and her room number is 279.

Services were held last Wednesday for Charles La'Barr of Felt, Oklahoma, who suffered a heart attack and passed away Monday of last week. He was the brother of Mary Trienen. I talked with her and she and T-Bone had gone with her brother to the XIT Rodeo in Dalhart over the weekend. They returned home Sunday and got a call that her brother had died Monday. They returned to Felt, Oklahoma for services.

The Jack Patterson's daughter and her children, Cynthia McDaniel and children Cara and Russell of Abilene have been visiting with them this week. Cynthia's husband, James, will be in Bovina Saturday and the family will leave Sunday.

Phyllis and Eddie Gayle Steelman have had company visiting: Phyllis' brother and family, Wayne and Carmen Tucker of Titusville, Florida and their sons, Charles, Brian, and Jeffrey. They came Sunday and left

Tuesday. While here all of them attended the Donaldson reunion at the Running Water Draw Park in Clovis. About 85 members of the family were at the reunion and several people attended from Bovina.

Last Friday night the Bovina Blade employees and Friona Star employees were treated to a trip to Palo Duro Canyon, for the "Texas" production, by our publisher, Bill Ellis.

The food was delicious and "Texas" was better than ever. Those attending were: R.D. Looney and me, from Bovina; Lisa Howell, Vickie and Terry Copley and their nephew Shannon Cochran, June and Glenn Floyd, Bill and Carol Ellis and sons Stanley and Richard, all of Friona; Brenda and Larry Gulley and children Richard and Amy from Farwell.

Doris and Ovid Lawlis had company visiting for the day last Saturday: Doris' brother and his wife, Mr. and Mrs. Don Raymond of Levelland.

Esther and Joe Steelman have had company visiting from Memphis, Texas. Esther's brother, Isiah Mehia, who will return in the fall to teach school in Bovina.

Our deepest sympathies to Marie Redwine and her mother in the loss of their loved one, Marie's father, Raymond Houston, who passed away Thursday night. Services were held for Mr. Houston at the First Baptist Church in Muleshoe Saturday.

Mr. and Mrs. O.H. Jones have returned home from a trip to Ruidoso, New Mexico. Mrs. Jones said they just enjoyed a good stay in the cool mountains and had nice showers every day. They went a week ago last Thursday and returned home Sunday.

Our congratulations to Brother John and Bernice Ferguson of Edinburg on the arrival of their first grandchild! Their daughter and son-in-law, Suzanne and Gary Messersmith of Houston have a baby girl, Ashley Suzanne, born July 28. She weighed six pounds, fourteen ounces.

The Fergusons pastored the First Baptist Church of Bovina about thirteen years ago.

During Bull Town Days the Senior Citizens want to announce that they will be having a bazaar at the City Park, all day, Friday, August 17.

Following the drawing held for the car to be given away, there will be an auction of quilts made by the Senior Citizens and money from the auction will be applied to their building fund for their new building.

Last Thursday, several adults from the Church of Christ went to see the "Texas Production" at Palo Duro Park. Also several young people went and those going as their sponsors were Sandy Johnson and Mr. and Mrs. Herb Howell. The group had a picnic and enjoyed a great time together.

Oma Gunn has company visiting: her son and daughter-in-law, Bert and Pat Gunn of San Antonio. They came Sunday night and will be staying during the Bull Town Days.

Another section of the Blade features items made by the Gunns which will be sold during Bull Town Days at Mrs. Gunn's home on Highway 86. Bert was in the office telling me about the many items that will be on display. It all sounded very interesting, so don't forget to drop by.

Lula and Odis White have had their children visiting: their son and daughter-in-law and granddaughter, Bob, Margaret and Traci Kelly of Salinas, California. The Kelly's came

a week ago Saturday and returned home Monday of this week.

Rose and Les McCain have had company visiting: Rose's sister and her husband, Mr. and Mrs. James Sheek of Pettit and her nephew, Jerry Arthur, also of Pettit.

Donna Mitchell and her brother Dickie Garner were honored with a birthday dinner Sunday at their parents home, Mr. and Mrs. Wendell Garner. Donna and her family, Dickie and his family and also their grandmother, Leora Garner of Plainview, were there. The Garner's other daughter, Susan, was not able to be there. Susan's husband, Bobby Hix, is in traction in West Plains Hospital in Muleshoe following back injuries he suffered last week. Monday of this week, he was still in the hospital.

Last Friday, several from Bovina spent a few days at Fun Valley, a resort out of South Fork, Colorado. They were: Sid Lloyd and Elbert Kelley, Patsy and Larry Webb and children Kendall and Beckv. Julia Ann and Robbie Moody. They reported having a great time together.

Last Saturday several from Bovina attended the Kelleys reunion at the Community Center in Pettersburg. Those going from this area: Sid Lloyd and Elbert Kelley, Irma Jo Englant and daughter Devanee; Larry and Patsy Webb and children Kendall and Beckv; Julia Ann and Robbie Moody; Mr. and Mrs. S. N. Teague and Mr. and Mrs. Homer Kelley and Glen Kelley. About sixty-five attended.

Von and Opal Bowen attended the King family reunion held at the home of Von's brother, Hubert Bowen of Wellington. The reunion was Saturday and Sunday with about 70 family members present.

About fifty-six young people and adults of the First Baptist Church went last Thursday to Ute Lake. The group enjoyed water skiing, and camping out. Thursday night the group attended church services in a large tent at Logan, New Mexico, led by Evangelist Boyce Evans of Lubbock. They returned home Friday.

Prentes and Carolyn Pruitt have had company visiting: Carolyn's sister and brother-in-law, Betty and Dudley Steapp of Mason. The Steapps came Tuesday of last week and left Friday.

A group of Bovinians attended the 1979 Men's State Slowpitch Tournament in Albuquerque the first weekend in August. They included A.L. and Lou Nuttall, Mike and Lisa Spears, Mike and Donna Grissom, Wayne Spears and Harvey Shepherd. The Big Nick team stayed at the "really elegant" Hilton in Albuquerque. The holiday fashion market was going on that weekend, so the women got to see lots of fancy clothes and the guys appreciated the models.

After the tournament was over, A.L. and Lou went on to Taos and Tres Ritos for a couple of days. They stayed with A.L.'s aunt at Angostora Posada. The weather was beautiful and A.L. caught one fish and Lou worked crossword puzzles.

Sue Moten of Copperas Cove visited friends in Bovina a couple of days last week. She just recently returned from a trip to London. Beth Moten has been staying with Skeet and Tom Caldwell and the Oakley Stevensons for awhile. She will be attending North Texas State at Denton this year. Mat has already returned to West Point following a brief vacation in June.

Ron and Sabrina Nuttall will be

moving from Bedford, a Fort Worth suburb, to Beaumont the first week in September. Ron was transferred there by Georgia-Pacific.

Happy Birthday to our daughters, Jane and Tracy, in Mountain Home, Idaho, who will be celebrating their birthdays next week.
We love you--Mom & Dad.

SMILE:
He: "If I threw you a kiss, would you consider me bold?"
She: "No. Just lazy."

Thank you for your calls and have fun during Bull Town Days....

"Some of Fred's business deals bothered his conscience, until he started to tithe!"

Oasis

Read Romans 12:1-10

"I do not pray only for them, but also for those who believe in me because of their message....May they be one, so that the world will believe that you sent me."

--John 17:20-21 (TEV)

IN 1969 I lived on the Asian continent for six months, working as a volunteer in a clinic. The poor, sick, malnourished people were friendly. The Indian staff cooperated well to provide and maintain high medical standards. At times, however, I was almost overwhelmed by the problems we faced: meeting the needs of the people; communicating those needs to people who could help; and keeping faith and hope alive. As a church layman I had been accustomed to finding help and reassurance in the church. There was no Christian church in that village, but four Roman Catholic sisters had a school nearby. I would often walk to their "Good Shepherd School" after work. They would make tea for me, and we would talk over our common problems, sometimes with laughter or tears. Each time before I left I was given the opportunity to be alone in their tiny chapel. I always returned to the hospital refreshed and thankful to God for Christian friends.

PRAYER: Dear God, we thank You for sending Your Son Jesus Christ to teach us how to love You and our brothers. Help us to follow more closely His Way. Amen.

Bovina Team Fifth In Softball Meet

Big Nick Machinery placed fifth in the 1979 State Softball Tournament recently in Albuquerque. The locally-sponsored team was competing in the open division of the ASA-sanctioned event. Albuquerque Merchants took first place, Raleigh's Insurance of Santa Fe second, Gardenswartz of Albuquerque third and Herb's Brewery of Santa Fe fourth.

Big Nick was eliminated from the tournament by the eventual state champions, but not before putting a scare into the powerful team. Big Nick seemingly had the momentum in the game when rain caused a 45 minute delay after that the home run hitters went to work for the Merchants. Bright spots for the Bovina team against the Merchants were Harvey Shepherd, who hit a grand-slam home run, Mike Grissom, who went three for three including a

three run homer and Mike Spears, who went three for four at the plate. For the tournament, Shepherd went seven for 10 at bats and had nine RBIs. Spears went seven for 12 and Grissom went five for nine with seven RBIs. Shepherd and Grissom led the team in runs batted in. In league play, which ended last week in Clovis, Big Nick won first place in the open division. A city tournament will be held the last weekend in August.

Bovina Jaycees

Meet Every
Tuesday Noon

BUYING SHARES.....Mike Beauchamp, Tom Ware, and Darrell Kirkpatrick are shown above presenting Grady Sorley with their checks to buy shares in the High Plains G.P.I. Gasohol plant. There will be a meeting Thursday night at the First State Bank for anyone interested in this plant.

JCs To Hold Dance Saturday

The Bovina Jaycees will sponsor a western dance this Saturday night, August 18, at the Roping Arena.

The Lynn Trimble band will provide the music for the occasion. The dance will start at 10 p.m. and run until 2 a.m.

Admission will be \$2.50 per person and \$4.00 per couple.

Around The House

By LAURA JACOBS

You think prices are high here? Well, they are, but not as high as some places. If you lived in Bonn, W. Germany, a pound of sirloin steak would cost \$6.35. In Tokyo it costs \$18.62. Butter in Tokyo costs \$3.22.

So, while food costs less in America, you still want to get your money's worth. Stretching food dollars is a game everyone is playing these days. And you can be the winner, if you plan carefully.

A few tips should help. Remember, homemade snacks are usually less expensive than store-bought ones and maybe more nutritious too.

Non-food items are not part of your food bill. Paper goods, laundry supplies and dog food do not feed your family.

When buying meats, cost per serving, not cost per pound is your best measure of value. A boneless roast gives more servings than a

bone-in roast, and the cost per serving may be less even though the cost per pound is higher.

You might like to try this recipe for dessert or after-school snack.

PEACH CRISP

6 cups sweetened fresh or canned peach slices, drained
one-third cup sifted all-purpose flour
1 cup oats (quick or old-fashioned, uncooked)

1/2 cup firmly packed brown sugar
1/2 teaspoon salt
1 teaspoon cinnamon
one-third cup melted butter or margarine

Place peach slices in greased baking dish. Combine dry ingredients; add melted margarine, mix until crumbly; sprinkle on top of peaches. Bake at 375 degrees for 30 minutes or until peaches are tender. Serve warm with ice cream on top.

On The Farm In Parmer County

By SETH RALSTON

Rabies is one of the oldest diseases that can spread from animal to man and the one most feared. It is a natural disease of dogs, cats, bats and wild carnivores; however, all warm-blooded animals are susceptible. The disease is transmitted from animal to animal by means of a bite introducing the virus-bearing saliva. It may also be transmitted by virus contamination of fresh, already existing wounds, cut or breaks in the skin. The virus may be present in the saliva and be transmitted by an infected animal 1 to 3 days before the onset of clinical signs. Since there are no "typical" cases of rabies, animals may exhibit a wide range of symptoms; although some cases in domestic animals (dogs, cats, horses, cattle) are suspected from the time of presentation. In such animals, any unexplained central nervous system disturbance should be regarded as a possible case of rabies until proven otherwise.

Clinical rabies in man and most animals is essentially 100 per cent fatal. There is no specific therapy once the clinical course of rabies has begun. For this reason it is very important that anyone suspecting rabies or receiving a bite or scratch from a domestic or wild animal suspected of being rabid, take the proper precautions to diagnose the disease and prevent it from spreading.

Public awareness of rabies prevention is especially important due to the large increase in confirmed cases from many different areas of Texas during the present year. The first quarter of 1979 has produced twice the number of cases that were reported for the same period of 1978. In the first three weeks of April, 1979, there have been 108 cases in skunks, 2 in foxes, 2 in raccoons, 1 cat, 6 dogs, 2 horses and 7 cattle already confirmed positive for rabies in Texas. Each possible exposure to rabies infection must be individually evaluated.

The following advice is given:
1. A healthy domestic dog or cat that bites a person should be confined

and observed by a veterinarian for 10 days.

2. Stray or unwanted dogs or cats that bite a person should be killed immediately and the head submitted for rabies examination by fluorescent microscopy. (Do not kill the animal by shooting or hitting it in the head since the brain is needed for examination.)

3. Signs of rabies in wild animals cannot be interpreted reliably, therefore, any wild animal that bites or scratches a person should be killed at once (without damage to the head) and the brain examined for evidence of rabies.

4. Immediate and thorough first aid treatment of all bite wounds and scratches is perhaps the most effective rabies preventive. The wound should be thoroughly cleansed with soap and

water and a physician contacted for further treatment.

5. All pets, both dogs and cats, should be protected by a rabies vaccination administered by a veterinarian.

6. In areas where rabies is prevalent in wildlife (skunks, foxes, etc.) horses and cattle may be protected by vaccination. A veterinarian can be consulted on vaccination of these animals.

7. Rabies clinics to vaccinate all pets can be organized to help prevent the spread of the disease.

8. All stray animals should be promptly picked up and disposed of humanely.

9. Children should be advised on the dangers of approaching stray animals or other wild animals that are near human habitation.

Hunters Boost Local Economy

Texas Panhandle pheasants bring tens of thousands of dollars into the area's economy every year, and that's not just birdseed to the restaurant, hotel and motel, and service station owners who benefit.

Dr. Fred S. Guthery of the Texas Tech University Range and Wildlife Management faculty says pheasants need promoters and lobbyists to protect their interests.

Guthery, who has just completed a paper on the history, habitat needs, and habitat development opportunities of pheasants on the Texas Panhandle, says the conflict between land owners and fowl hunters restricts appropriate habitats and results in fewer pheasants.

Farmers who have become wary of damage to their property caused by careless hunters will plane off stubble left in fields after crops are harvested. That stubble is prime habitat for pheasants, said Guthery.

Farmers could generate extra income from pheasants on their land, he said. No tradition exists in the Panhandle for selling hunting leases,

but the opportunity is there to sell either day or season leases. The leasee would then help the landowner control trespassing and protect his interests. The landowner would know exactly who was using his land and how it was being used.

Guthery said he is encouraged by the formation of a group started in Plainview called "Pheasants Unlimited, Inc." The group is working to provide free seed and pay farmers and landowners for costs of planting and growing cover and food crops for pheasants on set aside land.

"Winter wheat would be the best possible crop to plant on the set aside lands to benefit pheasants," said Guthery. "It's a cool season plant that starts growing early and can be grown dryland. Pheasants like to nest in it and it provides both food and brood cover."

However, federal regulations prohibit the planting of wheat on set aside lands. If that regulation could be changed to prohibit only the harvesting of the wheat rather than the planting of it, those set aside acres could provide a superior habitat for the birds, he said.

Pheasants are not native to this country, but were imported from Asia in the 1880s. They range from the Gulf Coast of Texas to the southern provinces of Canada, and from the Atlantic to the Pacific Ocean. However, said Guthery, the only area in Texas colonized by the birds other than the Gulf Coast is the Texas Panhandle.

Records suggest that pheasants naturally colonized the Panhandle in the late 1930s or 1940s, but their range has rapidly expanded because of private liberations of the birds by landowners.

Most of the Panhandle provides only marginal pheasant habitat, and without playa lake basins it would support few birds. High value of cropland severely limits opportunities for habitat developments, but cover plantings are feasible around playa lake basins, tail-water recovery pits, along roadsides, and in dry corners associated with center-pivot irrigation systems, he said.

TWO-A-DAYS....Some of the members of the Bovina Mustangs are shown above during their two-a-days practice sessions. Coach Monte Barnes reports that about 30 boys have reported for the practices, and he expects this number to climb to about 40 when school starts.

Whales are the largest and most powerful animals ever known on earth.

Robledo, Hector Robledo, Ben Cantu, Fernando Cruz, Nate Munoz, Manuel Ortiz, and David Segovia.

Cover Your Tracks with a New Parish Rut-Filler

From pumps to windmills, KMP has produced fine equipment for the farmer for many years. Now, KMP has designed and is manufacturing the Parish Rut-Filler which will level tracks behind sprinkler systems. With adjustable width and up and down swivel to match any terrain, the Parish Rut-Filler prevents plowing and harvesting equipment from having to cross over rough ground.

Band Members Need To Report

All Bovina High School and Junior High Band members are requested to report to the band room at 7 p.m. Thursday, August 16 to prepare for the Bull Town Days parade.

A short rehearsal and marching practice will be held at that time. In the event of rain on Thursday evening, the entire rehearsal will be held inside.

The band will march in the Bull Town Days parade at 1 p.m. on Friday, August 17.

Bovina High School band members will be issued uniforms as part of the school registration process this year.

All band members should report to the band room immediately after registering to have uniforms fitted and checked out. Registration for High School classes will be held on Friday, August 31.

It is important that all band members receive their uniforms at that time because of the short period of time between the first day of classes and the first football game.

All High School band members will have to furnish their own white shoes (low top, without stripes or decorations) and white socks. These shoes should be worn on the day of the fitting to insure an accurate pants fitting.

Softball Meet Hosts 20 Teams

The fifth annual Bovina Jaycees Bull Town Days softball tournament will kick off the LTD activities when play begins Thursday night, August 16.

According to Mike Spears, Jaycee spokesman, twenty teams have entered the tournament. The games will be played August 16-17-18-19. They will play on two fields, the regular softball field and a field on the west side of the school building.

This will be a double elimination tournament, with the first game scheduled to begin at 6:30 p.m. on Thursday night. Games will

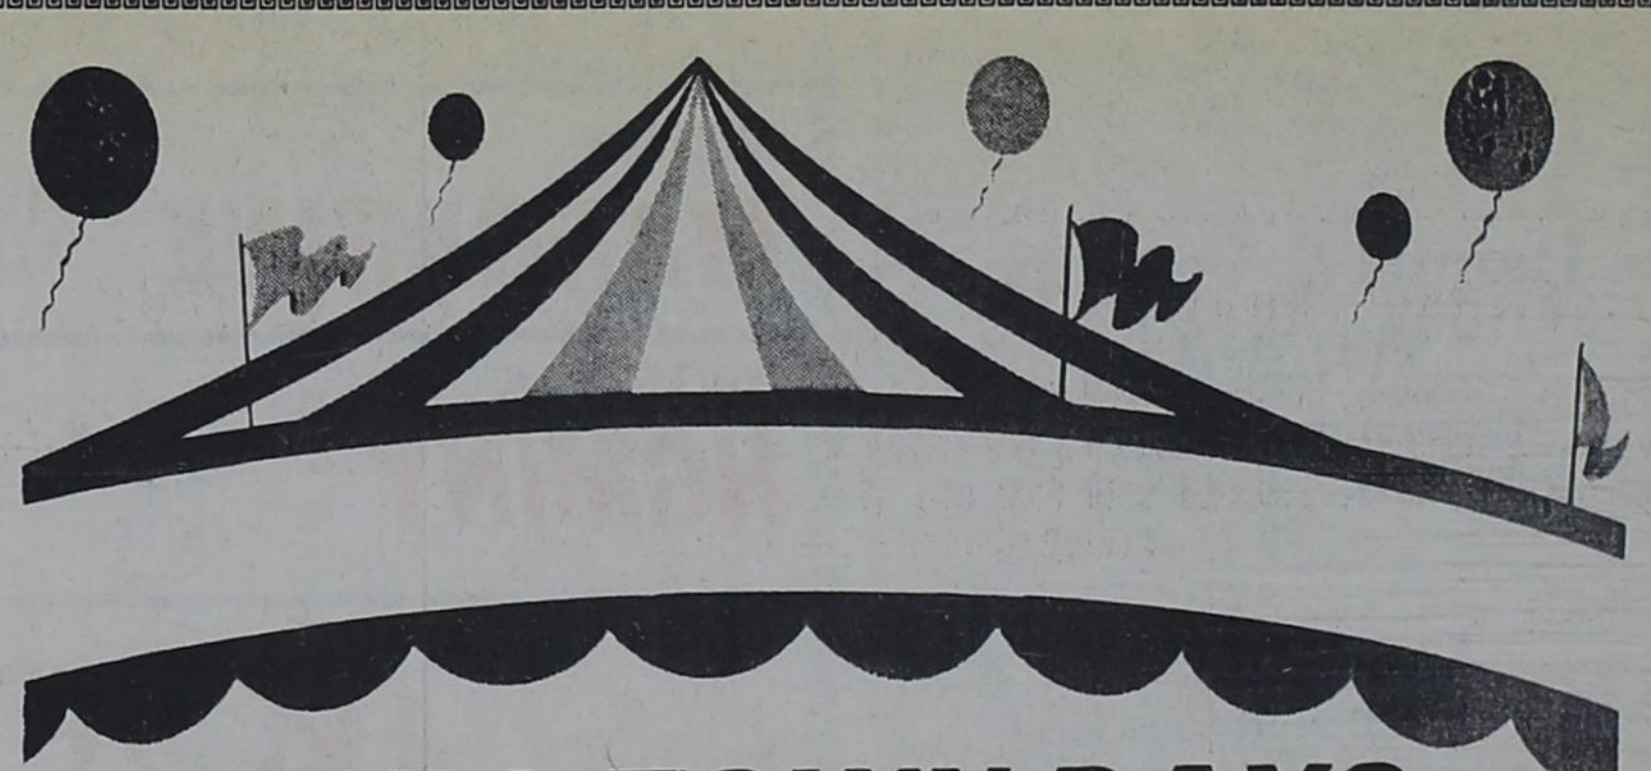

begin at 6:30 p.m. on Friday night, 8:00 a.m. Saturday, and 12:30 p.m. Sunday.

Teams entered from Bovina are: Big Nick's Machinery, Roy's Repair, Horn-Clayton Insurance, and the Dorados. Teams from Clovis are: Snazzy Pig, Rejects, Tequila Sunrise, Big Country Ford, Taylor-Evans, and Dawn Creations.

Teams from Friona are: Black Grain and Road to Ruin. Teams from Hereford are: Mead's Bakery, Beacon A's, Economy Liquor, and Rameriz Tortillias. Teams from Lubbock are J. Patrick O'Malleys and the

Sidewinders. Other teams entered are the Littlefield Panthers and Ag Products from Levelland.

There will be a 15-run rule after five innings and trophies will be awarded to the first, second, and third place teams. In addition, trophies will be given to the tournaments Most Valuable Player and individual trophies to the first place team members.

(Oklahoma Lane)

There's no better way to find out how a hybrid or variety performs in your neighborhood than actually seeing it for yourself. That's exactly what you can do at Pioneer Crop Information Centers and Proof of Performance fields. From the day they're planted until they're harvested these fields are yours to inspect anytime you please.

At Crop Information Centers you'll see the effects of various cultural practices on Pioneer brand seeds including double-row versus single-row planting, corn kernel size variations, planter speed and planting date comparisons, disease tolerance tests, irrigation studies and more. At Proof of Performance fields you'll see side-by-side performance comparisons involving Pioneer brand hybrids and varieties. With firsthand knowledge like this, you can decide on cultural practices and choose your seed on the basis of fact, not guesswork.

Stop at your nearest Pioneer Crop Information Center or Proof of Performance field. You're always welcome.

Watch for Harvest Hotline

in this newspaper.

Performance and yield information from these fields will be published immediately following harvest. Watch for results.

Wilson's Build Unique Home

By JUNE FLOYD

Had a close observer visited the Gregg Wilson farm a couple of years ago when no one was at home, he probably would have gone away with a lot of unanswered questions.

He would have seen a large number

of telephone poles, an old tumbled down barn, a lot of huge bridge timbers, a stack of shipping crates from Malaysia, some old wagon wheels and adobe bricks in the making from soil on the farm.

These materials, a lot of ideas and

a will to work were the beginning of a most unique home which Gregg and his wife, Brenda, and their three children, Christopher Poyntz, 4; Kody Gregg, 2; and Mandy Ann, 1, are now enjoying.

Gregg is a farmer and Brenda is a public school teacher. Neither of them had any formal training in the art of home building, but they had ideas about what they wanted and were not afraid to try the untried.

The result is a comfortable adobe home of approximately 3500 square feet with about one half of it underground.

The walls are about eighteen inches thick and the window sills, which are covered with imported Mexican tile, make ideal places for growing pot plants.

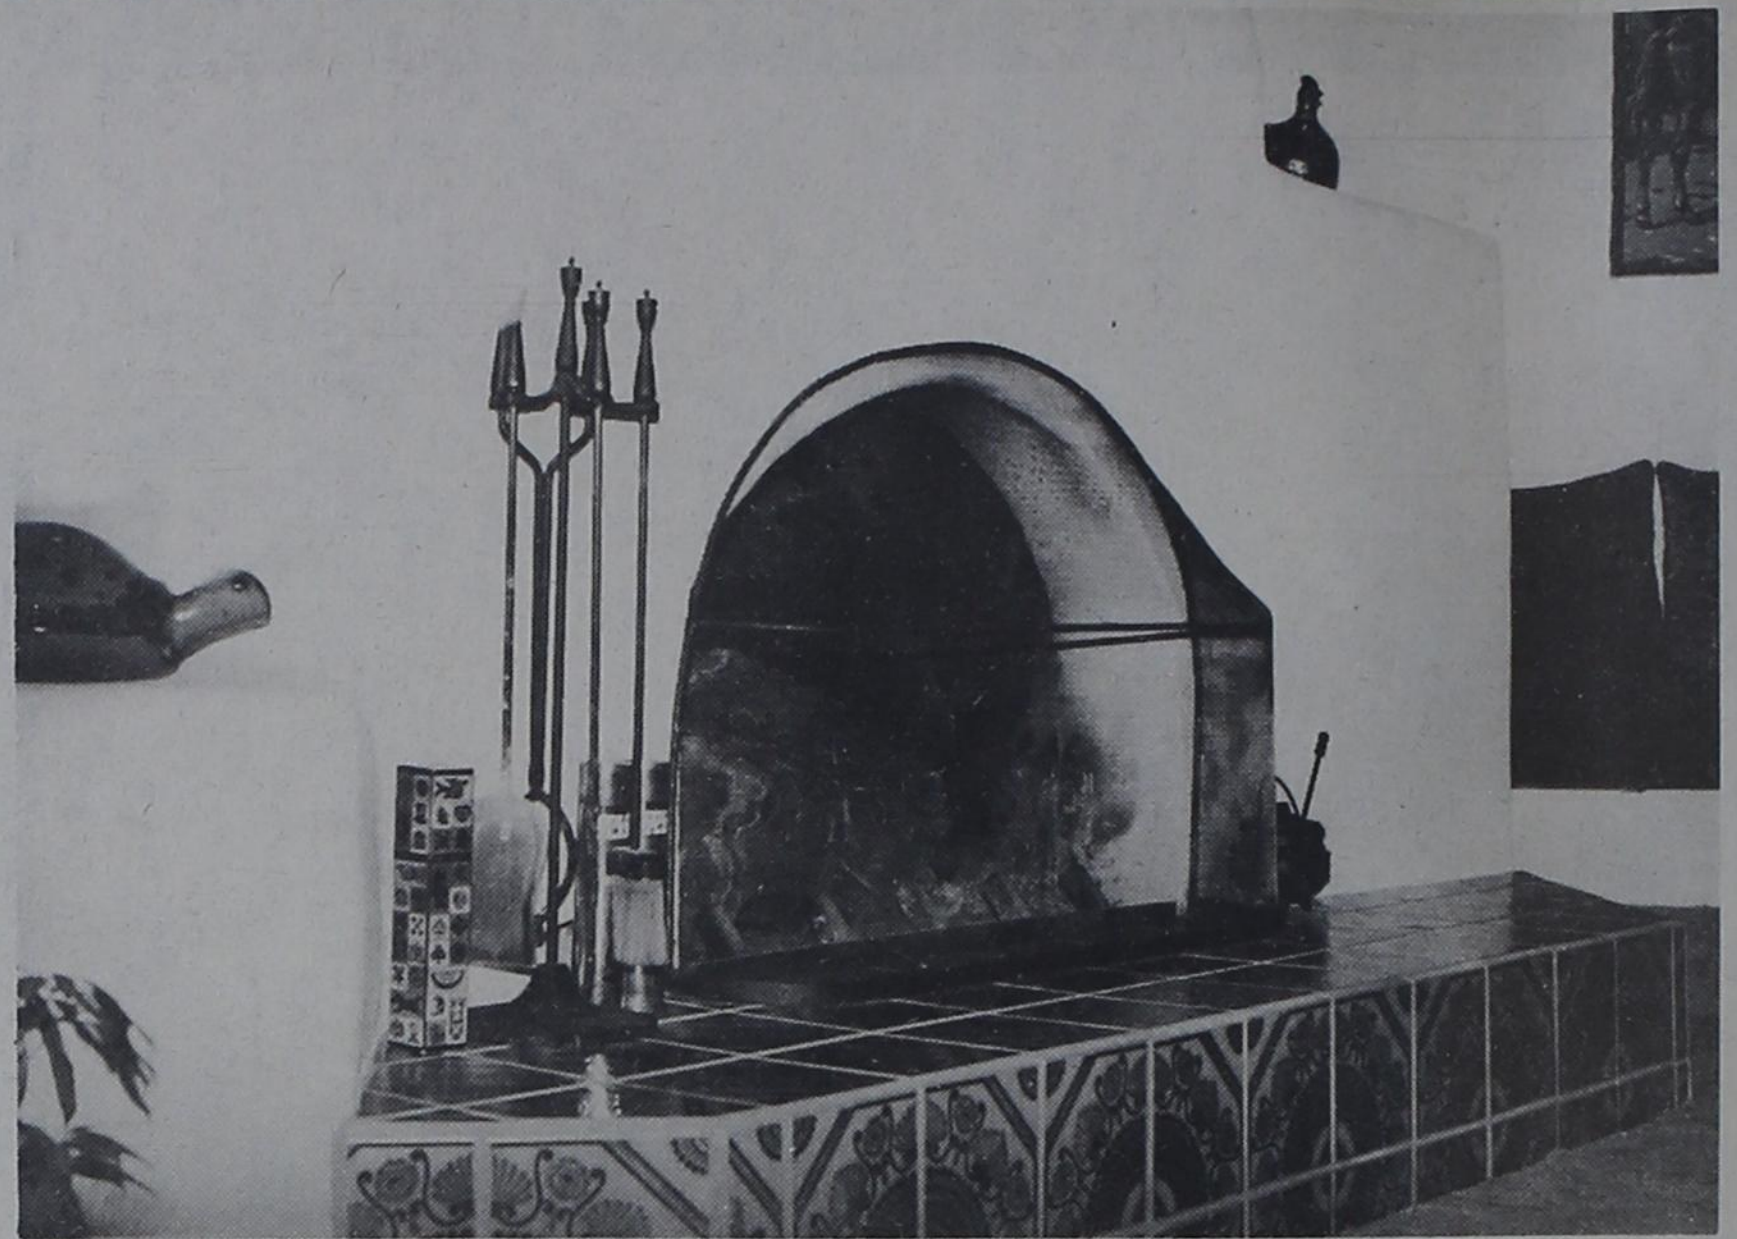

All the windows face the south, as does the house. A circular enclosed patio surrounds the living room. A two car garage is located in the northeast corner of the structure and is part of the excavated part of the building.

This attractive country home is located near a playa lake on a farm which formerly belonged to Gregg's maternal grandparents, the late C.F.

(Continued on Page 3)

LUMBER FROM OLD BARN

....The kitchen cabinet doors and drawers, the pantry doors and some bathroom doors in the Wilson home were laminated with lumber salvaged from an old old barn. The lumber is beautifully aged and is light gray in color. Gregg stands beside the cooking island, which is centered with an electric cook top. The pantry door knobs are glass. One is filled with black eyed peas and the other with pinto beans.

WOODBURNING FIREPLACE....The Gregg Wilsons designed the fireplace in their

new home to blend with other furnishings and to furnish heat for other parts of the house as

well as the living room. The hearth is covered with imported Mexican tile.

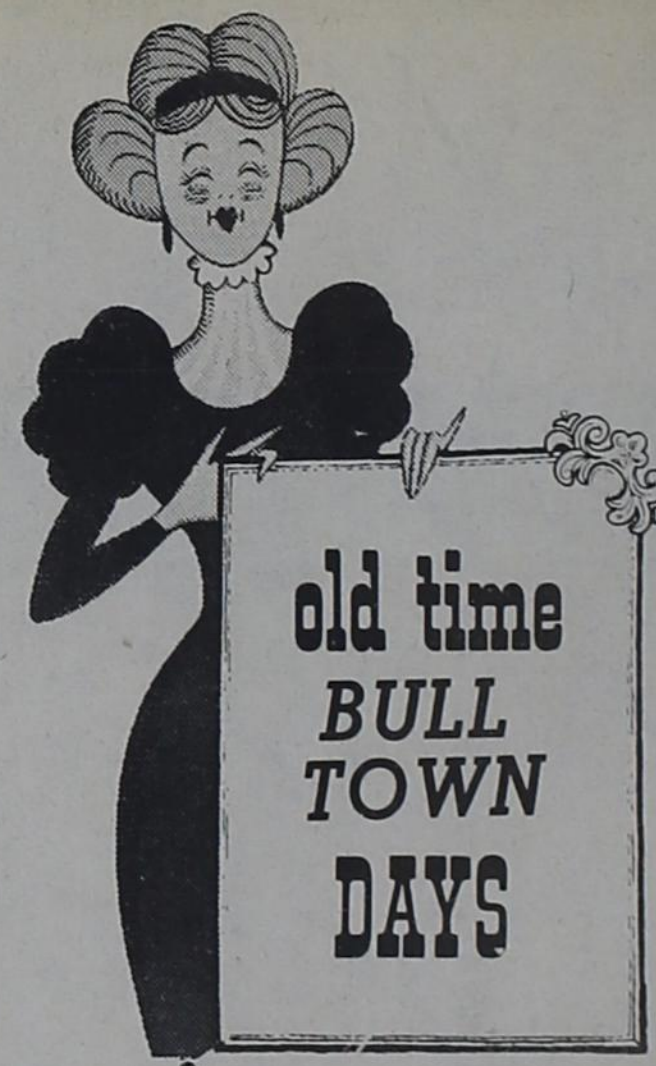

BRENDA AND GREGG WILSON....An enterprising young farm couple near Bovina are shown here in the dining area of their adobe home. The table

is an antique. The picture on the wall is a painting of the original adobe house on the farm, which was painted by Suetta Rushing, local artist.

BULL TOWN DAYS CELEBRATION

EVERYONE IS HEADING TO BOVINA FOR THE FINEST FUN-FILLED COMMUNITY CELEBRATION

LAWLIS GIN CO.

BOVINA HIGHWAY 86 EAST - BOVINA

PARMER COUNTY SPRAYING SERVICE

PHONE THARP 225-4990

Brenda And Gregg Wilson.....

(Continued from Page 2)

Hastings and Mrs. Leora Tidenberg Hastings, who lives in Bovina.

Kregg's grandfather was interested in adobe as a building material long before Kregg became interested in it. Mr. Hastings had earlier built an adobe house for a bunk house and Buck Ellison of Bovina was one of its first residents.

The old adobe house and a barn which Mr. Hastings built from lumber he had salvaged from a livery stable in Bovina years ago were located near Kregg's and Brenda's home.

They have attractively furnished their new home with some antiques, some modern pieces and some hand made pieces. A ranch style kitchen table with benches on either side were inspired by Kregg's remembrances of his grandparents' home. He added two "risers" which make small children high enough to reach the table to one of the benches.

The Wilsons planned their home on the open concept. Only the guest bedroom, closets, and bathrooms have complete walls and doors. The master bedroom, two rooms for the children—with a play area in between—kitchen, dining room, utility room and Kregg's office blend together to make a very attractive home.

Brenda's office is a tiny niche off the kitchen behind the cabinet which holds the microwave oven and is just right for menu planning, cookbook storage, shopping lists and telephone calls.

The entire house is cooled by large old fashioned fans, which hang from the high ceiling in the central part of the house. This part of the house has windows, which face the south and let in a lot of light.

SUNSHINE AND SHADOWS

...This picture shows the inside wall of the patio outside the adobe home of Kregg and Brenda Wilson. Wagon wheels, such as the one pictured here, are also utilized inside the house for decorative and practical purposes. Light and air both go through the openings.

Earth air cooling fans are used throughout the house. A large pipe which reaches to a spot where the soil temperature stays around 57 degrees is part of the air conditioning system.

Kregg says, "We really have a lot of things to do yet. We have plans for solar heat, for which we will use some of our present air conditioning

system; a finishing coat on the outside of the house; extensive landscaping and a few other odds and ends."

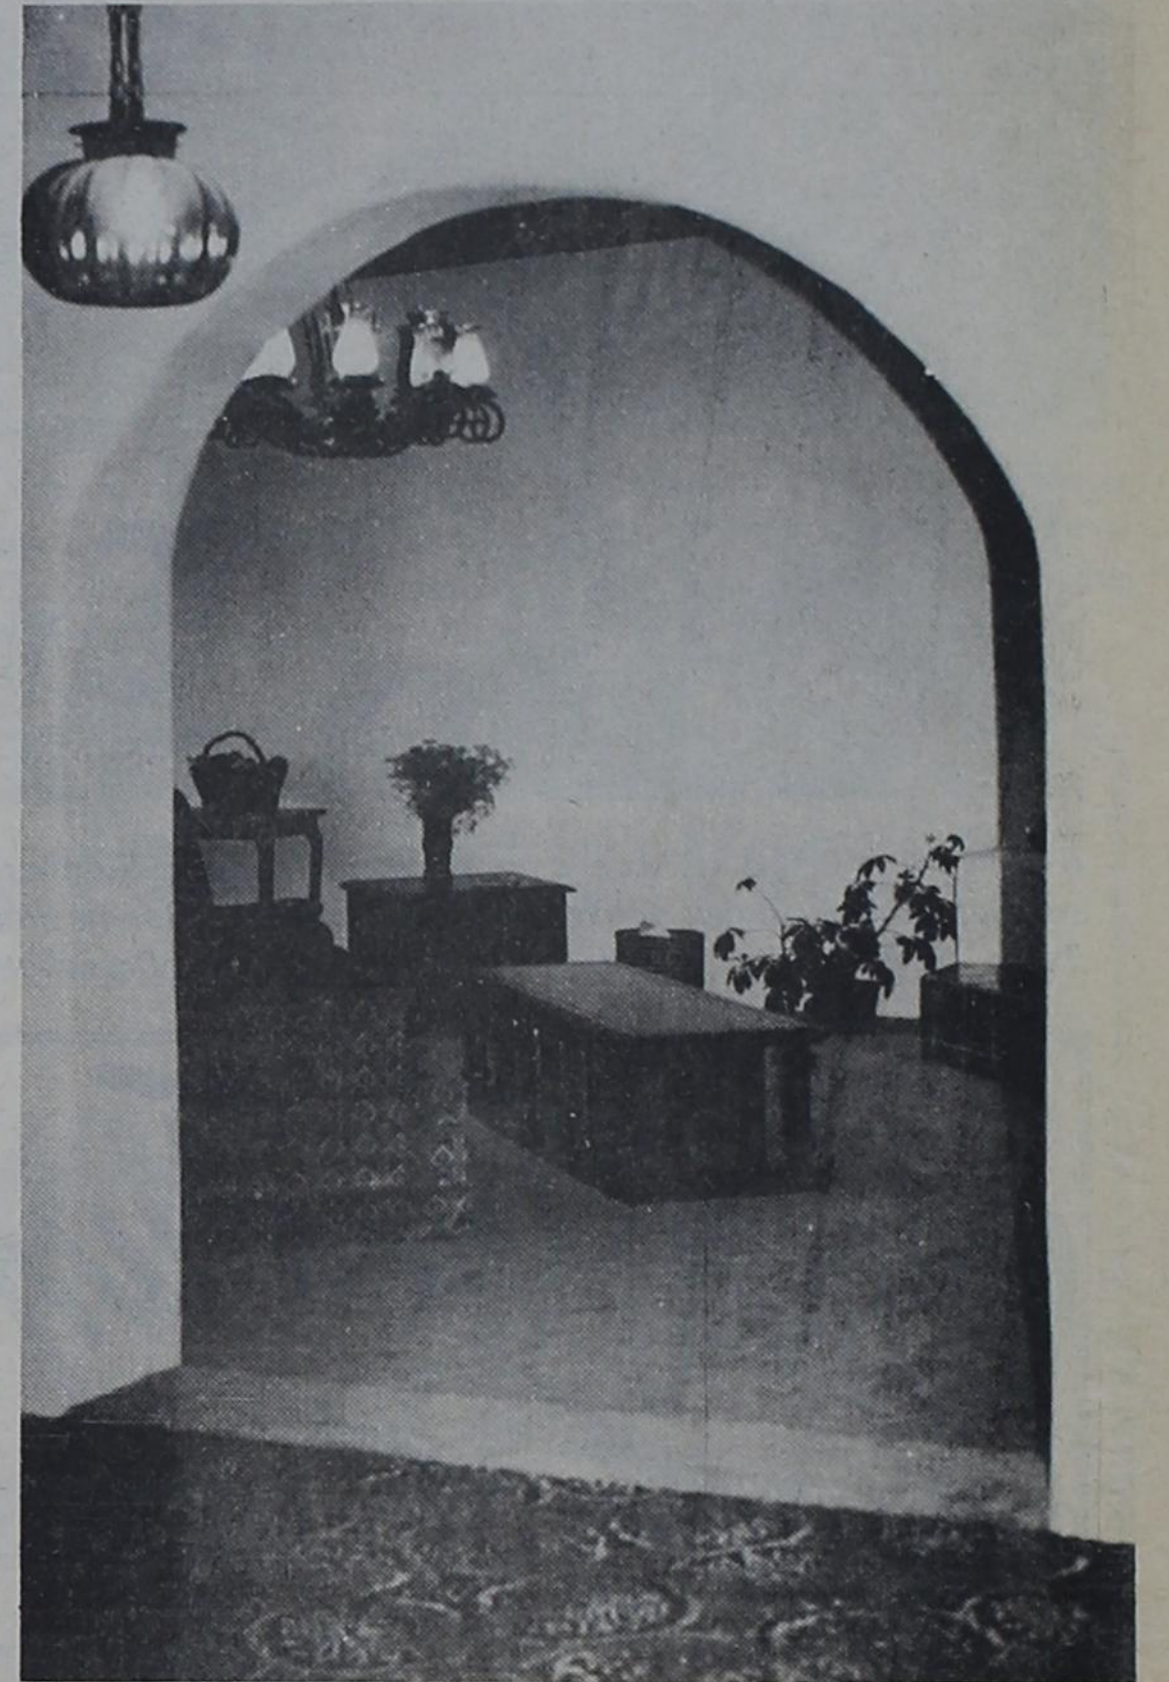

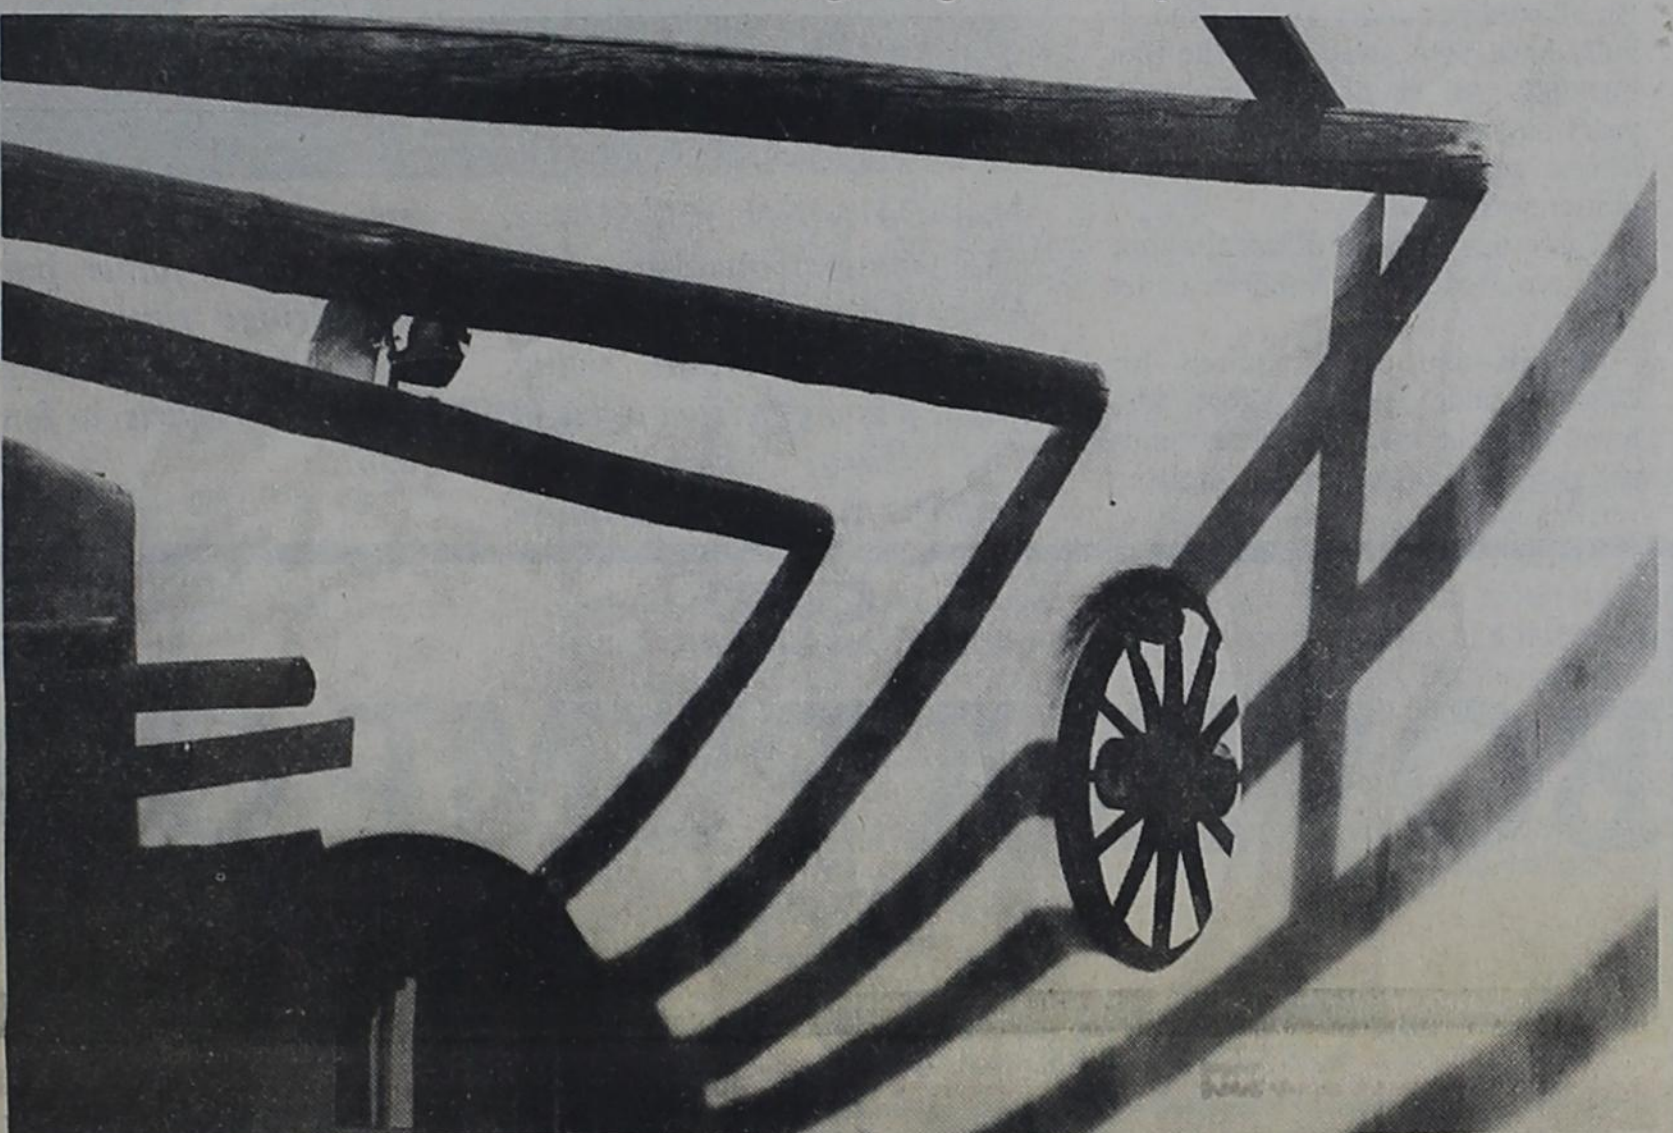

Brenda adds, "With school opening soon, my work on the house will probably be postponed until spring. In the meantime we're going to be enjoying it as it is."

"IT'S JUST TOO HIGH!".... Kody Wilson, two year old son of Brenda and Kregg, would like to ring the bell, but is unable to reach it. The bell was

a gift from Kregg's parents, Mr. and Mrs. Robert E. Wilson and hangs over the passageway through the patio to the front door. Two swings hang on the

ends of telephone poles, used for beams inside the house, several feet to the right of the support on the right side of the picture.

OLD AND NEW COMBINED

...The Wilson's living room, which is one step down to the left of the front door, is tastefully furnished with antique and modern furniture. The corner of the Spanish style

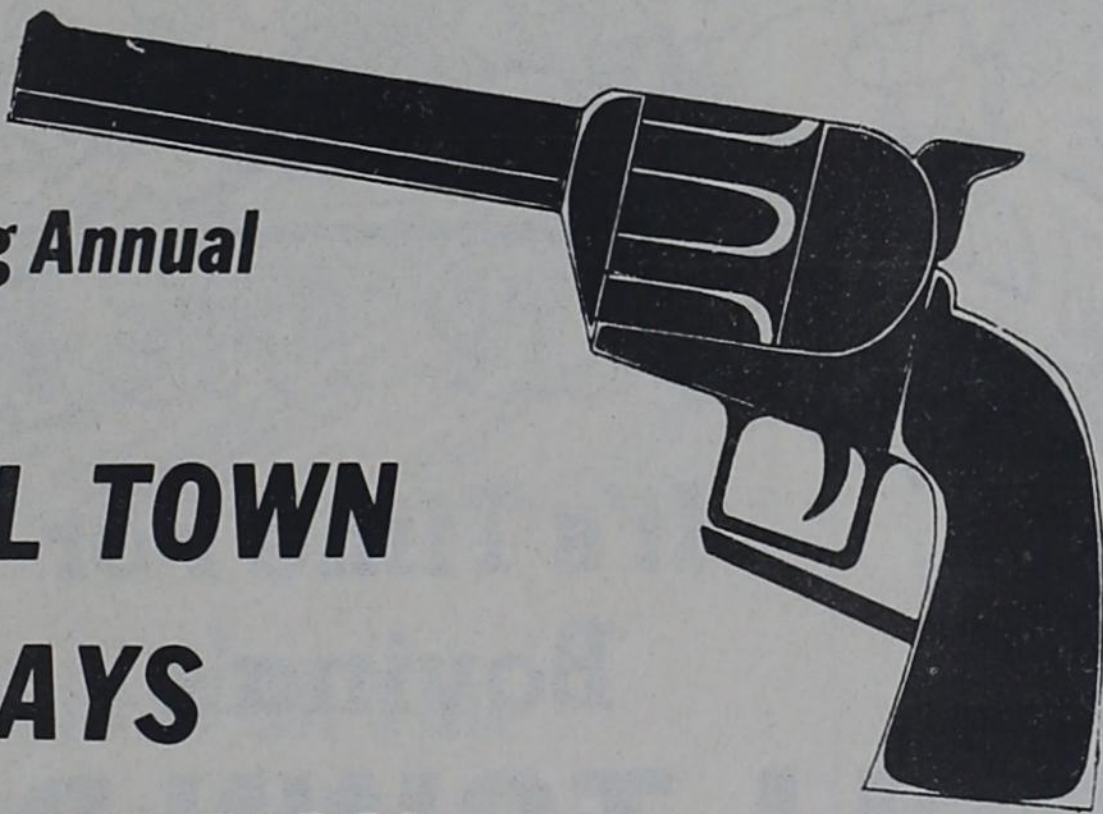

fireplace is noted in the far right hand corner of the picture. The unusual light fixture holding lamps which look like antique kerosene lamps was purchased in Mexico.

Immunization Requirements

Bovina School officials and the school nurse want to remind parents of additional immunization requirements becoming effective this school year.

These requirements are state law enforced by the Texas Department of Health and the Texas Education Agency. The new requirements concern the addition of mumps vaccine for kindergarten and first grade, and the necessity of a doctor's written verification that the child has had mumps or measles illness in lieu of the vaccine for all students entering kindergarten and first grade.

Parents are reminded that to enter their child in kindergarten or first grade they must bring immunization records and an original copy of the birth certificate.

Immunization requirements are:
DPT or DT—at least three doses, the last being during or after the month of the fourth birthday, and a booster in ten years.

Oral polio—at least three doses, the last being during or after the month of the fourth birthday.

Red measles or rubella—one dose for all students under 13 years old. It must have been given after the first birthday. All children under seven years old who have had the measles illness must provide a doctor's written verification.

Three day measles or rubella—one dose required for all children under 12.

Mumps—one dose required for children under seven. Those who have had the mumps illness must provide a doctor's written verification.

MANDY ANN WILSON... The youngest member of the Kregg Wilson family is pictured here in a macrame swing, which was a gift from a friend. The nearby beam, which supports the roof of the house,

was originally part of a railroad bridge. Her father purchased the bridge timbers when a railroad bridge was torn down near St. Francis a few years ago.

4-H Clubs Plan Camp

The Parmer County 4-H Clubs will have a county camp on August 21 in Palo Duro Canyon. 4-H'ers will meet in the canyon at 11 a.m.

Any youth in Parmer County, who is interested in joining 4-H is invited to attend. As with all 4-H programs, this camp is available to everyone without regard to race, color, religion, sex, age, or national origin.

Games, hikes, a hot dog lunch, and more are on the agenda for the day. For more information call 481-3619 or come by the Extension office on the second floor of the courthouse in Farwell.

Bookmobile Schedule

The High Plains Bookmobile will be in your area on the following dates:

Wednesday, August 22--Whiteface, 9:30-11 a.m.; Lehman, 11:05-11:30 a.m.; Bledsoe, 12 noon-1:30 p.m.; and Maple, 2:15-3:15 p.m.

Thursday, August 23--West Camp, 9:15-10:15 a.m.; Lariat, 10:30-11:30 a.m.; and Bovina, 12:30-3:15 p.m.

Friday, August 24--Lums Chapel, 10-10:45 a.m.; Spade, 12 noon-1:30 p.m.; Hart Camp, 1:45-2:30 p.m.; and Fieldton, 2:45-3:30 p.m.

Saturday, August 25--Olton, 9:30-11:45 a.m.; and Amherst, 1:15-3:30 p.m.

SEPTEMBER 1

Soil & Water Test Fees To Increase

Fees for soil and irrigation water tests conducted by the Texas Agricultural Extension Service soil testing laboratories will increase September 1.

The increase in fees is necessitated by the increase in the costs of chemicals, equipment and labor, said Dr. Dale Pennington, soil chemist in charge of the soil testing laboratory at the Texas A&M University Agricultural Research and Extension Center here. It is the first fee increase in several years, Pennington said.

Beginning September 1, the Extension laboratories will charge \$4

for each regular soil fertility test, which now costs \$2. A test of soil fertility plus testing for zinc, iron and manganese will cost \$7 instead of \$5. Testing for soil salinity, which now costs \$4, will increase to \$7. Irrigation water tests will cost \$8 instead of \$5.

The new fees will be charged by the Extension laboratories at College Station and Seymour as well as Lubbock, and the labs at Stephen F. Austin University and Wharton Junior College, said Dr. Uel (cq) Stockard, state Extension agent, College Station. Kits and instructions for collecting soil samples continue to

be available free of charge at county Extension offices.

Even with the fee increase, these tests are still a good investment for the farmer, rancher and homeowner, Pennington said. The increasing costs of fertilizers and fuel used in applying them make it more important than ever to know exactly what is needed and in what amounts to improve the soil for maximum yield, he said.

In the last 12 months, the Lubbock lab processed 8,168 samples. The lab here serves 82 counties in West Texas.

"Working For A Bigger, Better Bovina"

Carlsbad Area Offers Variety Of Exhibits

WATER IN THE DESERT... near the administration building at Living Desert State Park. Fish and lily-filled ponds lie

Park in Carlsbad. The Spanish-style entry building is the gateway to large cacti displays and a zoo filled with birds and animals from North American deserts and mountain areas.

A trio of parks in the Carlsbad area continues to attract Southwesterners, gasoline situation or not. The area is located in the heart of the southwest, an easy day's trip from Houston, Phoenix or Denver.

The parks are unique in that they offer a mixture ranging from mountains to caves to a desert garden, all within a few miles of Carlsbad.

In Carlsbad itself, Living Desert State Park contains exhibits of over 1,000 cacti and has perhaps the most complete collection of desert animals in the nation. The park was opened in 1971 at a cost of \$2.5 million.

From a Spanish-style entry building, the visitor winds his way along paved paths bordered with rare and common cacti to animal exhibits containing American bison, or buffalo, antelope, bear, otter, prairie dogs, javalina and coyotes, to name a few.

In another building, visitors see a sight that gives most people goosebumps: it's a collection of reptiles drawn from North American deserts. Included are many varieties of rattlesnakes, lizards and Gila monsters.

The parks' bird exhibit is popular. It was designed so visitors may stroll beside cages containing birds found in both desert and mountain terrain.

Carlsbad Caverns National Park is open every day of the year and over 800,000 people visit the park each year. It offers a safe and easy peek at one of the largest and most beautiful caves in the world.

Two recent improvements at the Caverns include new high-speed elevators, which whisk visitors from the surface administration building down to the underground lunchroom, and the lunchroom itself, which was remodeled.

Opened to the public in 1972, Guadalupe Mountains National Park is a breath-taking combination of mountain, canyon and forest jammed

into 77,500 acres of desert. It is located 45 minutes from Carlsbad on the highway to El Paso.

Guadalupe Peak, at 8,751 feet the highest point in Texas, is located in the park. From the peak, the terrain slopes north in a "V"-shaped panorama of conifer forests and deep-cut canyons. McKittrick Canyon contains a rushing stream and is home to both broad-leaved and conifer trees, cactus and succulents.

Carlsbad itself is famous for its hospitality and its modern hotels,

motels and restaurants. Most offer live entertainment in the evenings.

Visitors also are drawn to Lake Carlsbad Recreation Area, which contains the largest lake within any city in New Mexico. The city also boasts two standard golf courses and a lighted par-three municipal layout.

Presidents Park, on the banks of Lake Carlsbad, is a theme amusement park with an old-fashioned carousel, double-decked river boat and a mile-long miniature steam locomotive train ride.

Browsabout Will Hold Annual Show

The Browsabout will feature its annual fall style show in conjunction with Bovina's Bull Town Days celebration, according to Mrs. Furne Harris, owner.

The show will be held on Saturday, August 18, at 3 p.m. at First State Bank.

The Browsabout will give two door prizes. First prize will be a \$25.00 gift certificate. Second prize will be a \$10 gift certificate.

A number of local models will be featured in the show, which will spotlight the new fall trends in fashions.

Norma Whitten will serve as

narrator for the show.

Ladies and young ladies who will be featured as models in the show are Angie Beauchamp, Lori Beauchamp, Amy Boozer, Mindy Rhodes, Tiffany Glasscock, Donnell Garner, Jo Ann Clayton, Kim McLaran, Hollie Clayton, Melissa Glasscock, Stacy Whitecotton and Gail Turner.

Also, Misti Boozer, Casey Riddle, Donna Beth Lide, LaToya Hutto, Denise Read, Annette Stevenson, Pam Rhodes, Laura Widner, Elaine Glasscock, Debra Beauchamp, Nancy Rundell, Harriet Glasscock and Bonnie Clayton.

Bond Sales Are Given

June sales of Series E & H United States Savings Bonds in Parmer County were reported today by County Bond Chairman Charles E. Allen to be \$4,354.

Sales for the six month period totaled \$46,254 for 54 per cent of the 1979 sales goal of \$85,000.

Texas sales during the month amounted to \$21,984,775, while sales for the first six months of 1979 totaled \$139,955,459 with 47 per cent of the yearly sales goal of 297.2 million achieved.

Top 4-H Record Books Selected

The top-ranked 4-H record books in 33 awards programs have been selected to represent District 2 in state competition this month. They were judged the best representatives among 7,624 junior and senior 4-H Club members in the district's 20 counties.

The books of the winning seniors now will be forwarded to Texas A&M University for state judging.

Representing Parmer County will be: Johanna Mesman, Farwell 4-H Club, first in dairy.

In District 2 competition, some 200 South Plains 4-H'ers placed their records of achievement on the line. Records include project summaries, information detailing their activities, experiences and leadership development, a narrative about their

4-H experience, photographs and other pertinent information.

At the state level, they will compete against the best books from 13 other districts of the Texas Agricultural Extension Service. The 4-H program in Texas is administered by the Extension Service.

Senior 4-H'ers are competing for scholarships, plaques, trips to the National 4-H Congress in November and other awards.

Record book competition is the critical measurement of the youths' achievements over the years, explained Mrs. Catherine Crawford and Billy C. Gunter, district Extension agents. The records reveal their consistency in achieving their goals, their experience in 4-H, their growth and development in personal, community and civic responsibilities and leadership.

Junior record book winners from Parmer County 4-H club were: Charles Johnson, Bovina 4-H, first in swine; Devera Rhodes, Friona 4-H, first in sheep; Wendy Tatum, Friona 4-H, second in clothing; Kathy Boeckman, Friona 4-H, third in foods; Dawn Gibson, Friona 4-H, second in food preservation; and Frank Jesko, Lazbuddie 4-H, second in achievement.

ELSIE RICHOLSON

Richolson Is SCS Employee

The Parmer County Soil and Water Conservation District announced the employment recently of Elsie Ann Richolson, who is the first-ever lady field technician for the county office.

Ms. Richolson is a native of Western Kansas. She is a graduate of Brownfield High School, and attended West Texas State University for a time.

She is the mother of two sons, Lance, nine, who will be a fourth grader this fall, and Scott, seven, who will be in the second grade.

The new SWCD employee worked for the Federal Crop Insurance program for the past five years, in Kansas and in Amarillo, so is transferring from one government agency to another. Her father, Lyle Dugan of Seminole, has done contract work for the Soil Conservation Service for a number of years.

"Elsie will serve as a technician in the field, assisting farmers on all types of conservation practices. We are happy to have her as a part of our staff," said Mack Mauldin, who heads the Parmer County SWCD office.

"I have worked with farmers for the past five years, and I am anxious to get out from behind a desk. I think I will really enjoy the field work," Ms. Richolson said.

BIG NICK'S MACHINERY... Nuttall, Vernon Willard, Men's softball team is shown above. Team members are: Jackie Hight, Bill Russell, Harold Ray Cast, Mike Spears, Mike Grissom, Clint Cox, A.L. Spears.

Electric Company Gets Study Grant

Berl Springer, president and chief operating officer of Southwestern Public Service Company, has announced that the Department of Energy (DOE) has awarded a grant of approximately \$500 thousand to the General Electric Company and Southwestern Public Service Company to study the feasibility of repowering one of Southwestern's generating units with a solar system.

"This would be one of the largest solar projects in the United States," Springer said. "The grant will fund an engineering study for repowering our No. 3 generating unit at Plant X, near Earth, Texas."

The proposed solar system would utilize a liquid metal-cooled central receiver to re-power the 100,000 kilowatt gas-fired unit at Plant X and would be designed to supply 60 per cent of the thermal energy required for the full output of the generating unit.

The solar portion of the system consists of a surround field of glass, unenclosed heliostats reflecting the solar insolation to a tower-mounted cylindrical receiver. The receiver is cooled by liquid sodium with the flow rate through each receiver panel controlled by individual electromagnetic pumps, so that a constant outlet temperature can be maintained.

The impact on the existing plant is limited to piping tie-ins and controls modifications. Minimum intrusion into existing plant operating requirements and capabilities have been a

major design objective of GE and SPS.

The overall concept of the solar system represents a highly flexible system that would allow the Plant X unit to operate on solar and gas at the same time or on gas or solar alone. The concept is based on the General Electric Alternate Central Receiver Program solar plant design and will benefit from its past and future engineering experience.

It is expected that contracts for the feasibility study will be signed about September 1 and the project completed in approximately 12 months.

"We at SPS are very excited at the prospects of working with General Electric on this project and we feel that this could very well be the breakthrough we have been waiting for as an alternate source of energy," Springer concluded.

Comments Are Sought

The Federal Crop Insurance Corporation is seeking comment on the proposed regulations for insuring cotton in Parmer County. Written data, comment, or views must be submitted by not later than August 17, 1979, to be sure of consideration.

Further information on these regulations may be obtained from the FCIC Office at 1416 West 8th, Amarillo, Texas 79101, telephone 806/376-2268.

Send comments to James D. Deal, Manager, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250.

Cowboys Still Play Vital Role Locally

By JUNE FLOYD

In spite of the vast changes which have been made in the life of the cowboy since this area was a part of the gigantic XIT Ranch, a love for cattle, a strong rope and a good horse and saddle are still very important ingredients for a man who chooses that line of work.

Present day cowboys are not faced with many of the hardships which his forerunners endured. Long hours are still a part of this mode of life, but much of the danger, loneliness and lack of modern conveniences has been eliminated.

When saddle horses were the only way of travel, a cowboy spent many more hours riding than is necessary to-day. Then each cowboy lived on the ranch, generally in a bunk house near the headquarters and occasionally spent the night sleeping in a bedroll on the range.

Present day cowboys many times live with their families many miles from the ranch and begin their day's work by loading their horses into trailers, which they pull behind pickups to the work area. Then by nightfall they are back at home.

Some fence riding, feeding, checking cattle for injuries or illnesses, counting and other like details is now being done by men in pickups or Jeeps or in some cases on motorcycles.

Cattle used to be attracted to the cake wagon by the rattle of the chain harness, which was worn by horses pulling the wagon and the loud yells of the drivers.

Now, all it takes to get their attention is the sound of a blowing horn. Two years ago Mrs. Jim Williams and her daughters, Ruble Wicks, Clova Campbell and Alpha Mae Light, California residents for nearly 50 years, but formerly residents of the Escarbada Ranch in southwest Deaf Smith County, returned for their first visit to the ranch since the family moved to California.

As they were driving up the canyon on the present Reinauer Ranch--formerly the Escarbada Division Headquarters of the XIT Ranch--the girl who was driving blew the horn in an effort to clear the ranch road of cattle.

She was greatly surprised when all the cattle in the pasture began to

gather around the car. When she had lived on the ranch as a girl and helped her daddy on the cake wagon, the cattle were always scared of the horn blowing of an automobile.

The diet of an early day cowboy was very limited. He generally ate a lot of fresh beef, salt pork, beans, dried fruit and sour dough bread.

It isn't unusual now for a branding crew to drive into the nearest town--sometimes as much as 25-30 miles--for their noon meal. If they eat near the place where they're working, they have hot meals, which are brought to them, or cold lunches which include sandwiches with lettuce and tomatoes and iced drinks from chests which they carry in their pickups.

Sight of a 50 or 100 pound block of ice by any resident of this area 50-60 years ago usually meant freshly frozen home made ice cream would soon be served. Very few people at that time had ice boxes since they were so far from a town where ice was sold, and refrigerators as we know them were non-existent.

Vast changes have been made in the marketing of cattle since XIT days. In the early 1900s cowmen began to change from trailing herding cattle north to be sold for beef to shipping them by rail. This beef was all grass fed and feedlots were non-existent.

Cowboys spent many days driving large herds from Texas to the northern states. Some of them were sold for breeding stock to ranchers in Wyoming, Montana and the Dakotas. Trail herding was no job for tenderfeet. Each cowboy had to be able to cope with such disasters as cold weather, stampedes and wild animals.

When the three million acre XIT Ranch was first stocked, an expert estimated that the available grass would carry 150,000 head of cattle in addition to the large number of horses needed to operate successfully.

Records of the ranch indicate that

there were probably never more than 125,000 head at any one time. The capacity of feedlots in Parmer County alone is more than this at the present time.

Present day ranchers who used improved grasses have just about reversed the ratio from one animal for every 20 acres to 20 animals for every acre. Rotating pastures isn't a new idea, but the time limit on each pasture has been greatly reduced since the turn of the century.

Then, too, present day cattlemen rely heavily on irrigation and fertilizer while those of the past depended solely upon the resources of nature.

To-days ranches depend upon men with machines to do many of the chores XIT cowboys did by hand. Trucks move cattle from one pasture to another, to market and to the feedlots. Pickups move cowboys and their saddle horses from one place to another.

Machines do most of the ditch and post hole digging. Hot meals are even transported to men working on the range. When the weather is disagreeable, sometimes helicopters are used to spot and feed cattle.

Rodeos, which were an innovation of early day cowboys, are still numerous and attract many people from all walks of life.

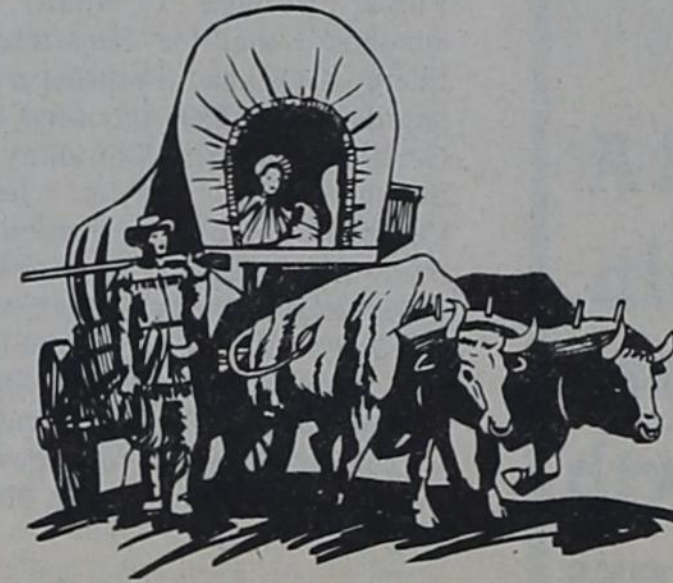

The early day participants were always working cowboys, who became skilled in calf roping, bronc riding, bulldogging and other rodeo events working on the range.

This isn't necessarily true any more. Many men and women who are participants spend their working hours at other occupations then practice in their spare time.

FLOYD ENGLANT

Lloyd Makes Hole-In-One, Wins New Ford Granada

Phil Lloyd of Canadian made a hole-in-one in tournament play at the Perryton Municipal Golf Course, and was presented with a brand new 1979 Ford Granada, which lists for about \$7,800.

Lloyd is the son of Mr. and Mrs. Buck Lloyd of Bovina. His wife, Mary Ann, is also a Bovina native and is the daughter of the late George McKinney.

He was playing in the fifth annual Oil Patch Tournament sponsored by the Perryton Chamber of Commerce last Saturday...a scramble tournament which attracted 196 golfers to the one-day event...the biggest tournament ever for the Perryton course.

The new car was one of the prizes posted by Perryton merchants in cooperation with the Chamber of Commerce, and was presented to the surprised golfer by Joe Easley Ford Inc. of Perryton.

Easley, told that it was Lloyd's first hole-in-one, said it was also the first car he had given away.

The car had been offered as a prize for a hole-in-one on the 160-yard par three 16th hole, and Lloyd, playing in a foursome with three Perryton golfers, was the first off the tee in his group, and the 17th golfer of the day to take a shot at the 16th green. He was unaware, when he teed off, that the car was a prize.

His drive with an 8-iron hit the front edge of the green, a few feet from a sand trap, bounced twice and rolled into the cup with what witnesses described as "a loud clunk."

Robert Maxwell and Johnny Deal were the official witnesses posted to watch the 16th hole for possible prize winners, and Ernest Kendrick, who happened to be standing nearby, also witnessed it.

The odds against making that hole in one were figured at "almost half a million to one," according to Perryton golf course officials.

And Joe Easley Ford was insured against having to pay off on those

WINS NEW CAR....Phil Lloyd, a resident of Canadian who was raised in Bovina, won

a free 1979 Ford Granada by making a hole-in-one at the Perryton Oil Patch Golf

Tournament recently. The new car's list value is about \$7,800. Lloyd is the son of Mr. and Mrs. Buck Lloyd of Bovina.

odds, so the underwriters shared in the big gift.

Golfer Phil Lloyd was still shaking his head in disbelief Tuesday morning when he brought his new car past The Record office to be photographed with it. He plans to sell his 1977 Mercury and enjoy the Granada... "at least until income tax time," he said.

Lloyd's first comment when told of his hole-in-one windfall Saturday morning, according to members of his foursome, was "I wonder what it gets for mileage."

Lloyd, who took up golf when the Canadian Municipal Golf Course was opened three years ago, says he usually plays about once a month, and his scores average 90 to 100. He was playing in the tournament Saturday with a foursome in the 72-handicap bracket, including Darrel Jones, Dave Morris and Lanny

Hargrove of Perryton.

Lloyd said his group was about three strokes off the pace and his hole-in-one pulled them up even...but the excitement of the big one apparently ended everybody's concentration for the rest of the day. They didn't finish in the money.

About \$3,200 in gift certificates were awarded in prizes, in addition to the 1979 Granada.

The tournament is sponsored by the Perryton Chamber of Commerce as an annual Oilfield workers appreciation event.

Ron Filkins, news editor of The Perryton Herald, said Lloyd's hole-in-one for the new car was the talk of the town Saturday. "The news spread in a hurry," Filkins said, "and caused a lot of excitement."

Lloyd said it was the first thing he'd ever won. With the odds at half a million to one, it was a big one.

CAR GIVE-A-WAY....The 1971 Chevrolet sedan, pictured above, will be given away during Bull Town Days. The \$1 donation tickets will give you a chance to win this automobile. Funds will go toward the purchase of a new ambulance for the Bovina Ambulance Service.

Rites Conducted For R. Houston

Raymond Houston, 65, of the Lazbuddie community, died August 9 at 9:25 p.m. in the West Plains Medical Center of Muleshoe.

Services were conducted Saturday at 4 p.m. at the First Baptist Church of Muleshoe with Rev. J.E. Meeks, pastor, and Rev. Jerry Rockwell, First Baptist Church, Bovina, officiating. Interment was held at the Bailey County Memorial Park with Singleton-Ellis Funeral Home officiating.

Houston was born July 13, 1914 at Wanette, Oklahoma. A farmer, he moved to the Lazbuddie Community in 1951 from Bailey County. He married Pauline Bostic on July 12, 1939 at Wanette, Oklahoma. He was a member of the First Baptist Church.

Survivors include his wife, Pauline; one daughter, Mrs. Clyde (Marie) Redwine of Bovina; one son, Eugene Houston of Muleshoe and three grandchildren.

Bovina's Bull Statue Marks 10th Anniversary

By JUNE FLOYD

When the annual Bull Town Days begins here August 13th, residents and visitors will be on hand to help the town's 1000 pound bull statue mark its tenth birthday.

The statue, which has attracted large numbers of tourists since its erection in 1969, is probably the most photographed place in town.

Passersby notice automobiles and recreation vehicles bearing out-of-state license plates stopped in the area just about any time they are in sight of the section of Highway 60 where the statue is located.

Bovina had its beginning in the late 1890s, when the only thing there was a switch dubbed "Bull Town" by train crews on the Pecos and Northern Branch of the Santa Fe Railroad. This designation was the result of a number of bulls being on the tracks at different times.

Small amounts of cottonseed cake, which spilled as large shipments were being unloaded, attracted the bulls to the switch.

This switch was located in Western Parmer County between the two forks of Running Water Creek near the headquarters number eight division of the XIT Ranch and some good quality Hereford bulls had been shipped in from Missouri and were being pastured in the area.

Stock pens lined the railroad near the switch and large herds, which were waiting to be shipped to market, grazed on the open land which surrounded the switch.

"Bull Town," which was at one time called the largest shipping point in Texas, was selected by many ranchers from several hundred miles away because the railroad was a

direct line to market and they were able to get their cattle to market in less time than if they were shipped from other shipping points.

When application was made for a post office, the name "Bull Town" hardly seemed refined enough for the small village, which had grown around the switch, so the name, "Bovina" was chosen.

The post office was established in 1899 with William W. Guy as the first postmaster. Since that time there have been sixteen other postmasters besides the current one, Gene Ezell. From a small frame building near Laird Herring Mercantile Store to a nice modern brick building has been the progress of the institution in 80 years.

From a switch on the prairie to a village of about 200 persons marked the first fifteen years of the life of Bovina. Then by the middle forties the population had increased to slightly over 600 and at the present time about 1,750 people live in the city limits.

At the beginning of World War I, the town boasted a hotel mostly for prospective land buyers who were coming in from other states; two churches, a school and one bank. By this time, there was also a general mercantile store, which housed the post office; a blacksmith shop; a livery stable and a barber shop.

In the next 30 years the little town grew to a population of 600 with a number of shops and many modern facilities. A few years later The Bovina Blade was established by Dolph Moten.

It is a strange quirk of circumstances that the railroad, which played such an important part

in the beginning of the town and in its survival for a number of years, now provides the town or surrounding area with a minimum amount of service.

Even though the cattle population has grown tremendously in recent years, due to the construction of feedlots in the area, very little feed and no cattle are shipped to or from Bovina.

Trucks are used almost exclusively for the movement of any kind of feed or livestock. A train load of cattle headed for market in 1979 would probably attract as much attention as did the first train running on the track.

BULL TOWN LANDMARK
The first historical marker in Parmer County and a statue of a Texas longhorn were dedicated at the 1968 and 1969 Bull Town Days celebration, respectively. Bovina Roping Club commissioned the statue of the longhorn in 1967. The

1500-pound, six-foot-tall at the shoulder statue has a horn spread of 40 inches. It was created by Jim Richards, a Texas Tech graduate student at that time. Charles Woodburn of Amarillo, then president of the Texas State Historical Commission, participated in

dedication ceremonies for the historical landmark concerning the XIT Ranch. The marker and statue, located on U.S. Highway 60 between Bovina Restaurant and the Sands Motel attracts a large number of tourists during the summer season.

Bovina Man Healthy & Happy At 95 Years Old

By BILL ELLIS
Most folks, if they lived to be 95 years of age, would be content just to

have their health. Charlie Gray, who was 95 years old last March 6, has his health, and also

still has a sense of humor. "You see this walking cane?" he asked this reporter. "I don't need it to help me walk. I keep it to beat the women off," he said, adding "But I haven't had to use it lately."

Gray was born March 6, 1884, in the Nevada community of Collin County. He was the son of Mr. and Mrs. Charles Gray, who had emigrated to Texas from Kentucky, coming to Collin County in about 1879.

Gray's parents raised ten children: Walter, Bill, Charlie, Elliott, Henry, Almer, Millard, Theodore, Lela and Annie. Of the original family of eight sons and two daughters, five are still living: Charlie, Almer, Millard, Theodore and Lela.

The Grays left Collin County in 1921, moving to Oklahoma, where they lived for five years. They lived between Duncan and Marlow, Oklahoma. They moved to Parmer County near Bovina on December 31, 1926. Their first place of residence was on what is now the Gene Ezell place.

Gray has been a farmer most of his career, but also worked for the railroad, serving as a section foreman for the railroad while in Collin County.

Gray and his wife Carrie raised three children: Lawrence, Frank and Annie Belle (Severitt). Frank died at the age of 21, shortly after the family moved to Bovina. He broke his leg while playing baseball, and suffered a blood clot.

"We farmed with mules to begin with. We had eight mules, and they could pull just about anything. We farmed 160 acres to begin with, and later, after getting a Ford tractor, we added another 300 acres," Gray stated.

The Grays grew maize, corn, cotton, sudan grass and cane in the early days.

Bovina was a "pretty good town" when the Grays first came here. "There were three grocery stores," Gray said.

"The first five years we lived in this country were the best crop years you could ask for. But we just barely could make a living. We probably would have left, but we just didn't have enough money to leave," Gray said.

Some of the prices recalled by Gray and his son Lawrence during the late 1920s and early 1930s were 28 cents per hundred for cane, 35 cents per hundred for sudan, and 17 cents per bushel for wheat.

"We never did go hungry. We had plenty of milk cows, (from eight to 13), and we raised chickens, hogs, and killed a calf every now and then. We also raised a big garden," Lawrence Gray added.

Some of the Grays' neighbors included Fred Carson, Mr. Ellison

THE GRAYS...Lawrence Gray, seated at left, holds one of several of his wooden creations, a clock. Charlie Gray, in his 96th year, is at right. In the back is Hattie Gray.

and Will and Owen Crewell.

The Grays said they were among the last to convert to tractors from using mule teams, in about 1931. In 1955, they began irrigation farming. Shortly after this, Charlie Gray retired, at about age 72.

Charlie says he liked to try to play baseball as a youngster. "I played every position from 'pigtail' on up," he said. "They had ten men on a team at that time. The first position I ever played was the pigtail (which is a player who backs up the catcher, in case he missed the ball)."

"We had a regular league at one time, with four or five teams in it, down in Collin County," he said. The teams were Rockwall, Royce, Lavon and Wyle, he recalled.

The Grays moved from Oklahoma to Bovina by train, bringing all their belongings, including their livestock, on the train with them.

At the time they moved to Parmer County, the Grays' children, Frank,

Lawrence and Annie Belle were 20, 18 and 16. Annie Belle finished her school work at Bovina, but the boys had already finished.

"But Frank and I joined their baseball team to help them finish out their team," Lawrence recalled.

"The worst thing that ever happened to me was when my house burned, along with everything we owned," Charlie Gray said. This was back in 1909, when the family lived in Collin County.

Gray recalled that in Collin County, it rained a lot, and the roads would really get muddy. You couldn't go anywhere for awhile, he said.

Gray said he never had been one to borrow a lot of money. "When my boy died, after we had moved out here, a banker friend of mine back in Collin County wired me and said if I needed any money, just write a check on him. Well, I needed it, but I never did write the check. I don't reckon

there was a time that I couldn't pay everything I owed, before we bought this place out here," Gray added.

Gray's wife Carrie passed away in 1971, and he has since made his home with his son, Mr. and Mrs. Lawrence Gray. Gray, in addition to being a farmer, is an accomplished carpenter, and has remodeled the family's home on Fourth Street. He built an entire new kitchen, complete with cabinets and built-ins.

He has also made several clocks, hope chests, etc. "I used to make baseball bats for the kids. I bet I've made 40 bats in all," he said.

Lawrence and his wife Hattie are also avid gardeners, and have a beautiful garden, despite getting a late start after moving into town from the country this spring. They have everything from corn and okra to squash, beans, etc.

"It sure takes a lot of water to make a garden, but I guess it's worth it," Mrs. Gray said.
