by don comedy

According to several different groups of government bureaucrats, it only happens once every 100 years.

Well folks, we're way ahead of schedule because it has happened twice in the past two years.

On the other hand, the bureaucrats can always say that the flood of 1978 was YEAR 99 and the flood of 1980 was YEAR 1, which will insure that we don't have another flood for at least 99 more years (which won't bother them or us.)

The City of Haskell has filed applications for Federal assistance regularly for the past five years and received nothing each time.

Normally I subscribe to the theory that we can solve our problems much better without the aid of Uncle Sam, but this isn't a normal problem.

Both City and County officials generally agree that we would have probably been better off if we had refused federal funds following the 1978 flood. The money certainly helped, but the rules, regulations and paperwork required sometimes hampered to the point of having a negative effect.

Federal assistance to prevent future flooding in Haskell is required for at least two reasons. First, the project simply costs more than the City could ever hope to afford. Secondly, work on Rice Springs Creek would have to be done above and below the city and the city would have authority only to do work within the city limits.

The same type problem exists at Lake Stamford and for the second time in two years most of the homes and cabins have been flooded.

It seems ironic that if the first application to complete flood prevention work on Rice Springs Creek had been funded in 1976 when it was submitted, it would have probably cost less than the disaster payments of 1978 and at the same time both floods would have been prevented.

Work at Lake Stamford which would enable excess water to flow from the lake seems like a simple solution.

Residents and property owners around the lake are meeting with the Stamford City Council next Monday afternoon at 1:30 to discuss such a project.

At the same time most are writing letters to Congressman Charles Stenholm who has expressed his eagerness to assist but stated that he needed letters to document his case.

Indians Fall To Stamford Bulldogs

The Haskell Indians scored on a 45 yard punt return and a 91 yard kick-off return and fell 30-13 to the Stamford Bulldogs last Friday night.

The Tribe offense had trouble sustaining a drive during the entire game and managed only 76 yards total offense.

A tough Stamford defense held the Indians to only two first downs and forced the Tribe to punt seven times.

An estimated eight inches of rain had fallen in Stamford in the week preceding the game and both teams were hampered by a wet field and ball.

The Tribe scored first in the game when the Indian defense held Stamford to seven yards on their first possession and forced a punt. The score came on a 45 yard punt return by Joe Benavides. PAT was good.

Whorton Files As Write-In Candidate

Jack Whorton, 35, of Rule, announced Thursday that he has submitted his resignation as a Haskell County Deputy Sheriff, effective September 25, and filed necessary forms to become a write-in candidate for the position of Haskell County Sheriff.

Whorton told the *Free Press* last week, that it was no longer possible to function in the capacity as deputy and the decision to seek the position was made in the best interest of Haskell County.

Whorton was certified as a peace officer in Texas in May 1976 and has worked as Haskell Police Chief and a Deputy Sheriff in Taylor

A goal of 80 units has been set for today's (Thursday) visit of the Red River Red Cross Regional Bloodmobile.

According to Brian Burgess, blood drive chairman, about 100 donors are needed to insure that 80 units are received. Various reasons cause deferments and more people are needed than the actual goal.

The Bloodmobile will be in the First Baptist Church from 1 to 6 p.m.

A successful blood drive insures a readily available supply of blood for emergencies not only in Haskell but the surrounding area.

Haskell Memorial Hospital is a member of the regional organization served by the Red Cross and adequate supplies of blood are insured by regular visits in all communities served in the region.

Early in the second quarter, a bad snap from center enabled the Bulldogs to block an Indian punt.

The blocked punt gave Stamford the ball on the 18 yard line and it took the Bulldogs only two plays to score. A two point conversion was good giving Stamford a 8-7 lead.

On the kick-off following the TD, Indian Johnnie Hise ran 91 yards for a TD. The PAT failed and the Tribe lead 13-8.

Stamford regained the lead eight plays later on a five yard run which capped a 73 yard drive. The PAT was good and Stamford lead 15-13.

The Stamford punt return unit placed their mark on the scoreboard midway in the third period with a 53 yard scoring return.

The final play of the game brought the final Stamford score on a 17 yard run. The PAT was good.

The tribe will host Clyde this Friday at 8 p.m. at Indian Stadium.

County in addition to serving as a Haskell County Deputy.

"My training in up-to-date methods of law enforcement and investigation and past experience should be an asset to the office. In addition, I pledge to maintain the highest professional standards and perform the duties of the office with the utmost integrity possible," said Whorton.

"As a native of Haskell County, I feel a deep and profound debt to this area and I feel that I can best serve Haskell County as a progressive dedicated sheriff," said Whorton.

FLOODWATCH

Many Haskell residents removed the entire contents of their homes Saturday and Sunday as Rice Springs Creek overflowed the banks. Damage to homes was limited in Haskell but most houses at Lake Stamford were flooded. Rainfall reports of up to 14 inches were reported during last week.

WTU Request Increase

West Texas Utilities Company has filed application for a general rate increase, Sue Pate, local manager announced.

The official filing was made Tuesday, September 30, with incorporated towns for retail customers within their jurisdiction and with the Public Utility

Commission of Texas for an increase to customers outside incorporated towns.

The proposed rates would produce an increase in total revenue of \$12,729,619. This amounts to 8.27 per cent based on revenues of \$153,914,156 for the test period ending this past June 30.

The company requested that the new rates become effective November 4.

One of the basic reasons for the increase was cited as inflation.

"The cost of providing electric service continues to increase more rapidly than revenue," the manager said.

This rate adjustment would be only the second general retail rate increase in the company's entire history, which goes back more than 50 years. The other increase was in 1973 and amounted to about six per cent across the board.

"We've managed to make that six per cent go a long way," the WTU manager said, noting that every other utility company in the state, and probably in the nation, has had at least one increase since then and most of them have had several.

Several reasons were given as to how WTU has been able to manage without a rate increase during the past several years of double-digit inflation. Chief among these was the timing of WTU's power plant construction. Its newest and largest station was completed in the mid-1970s and provided generation reserves sufficient not only to last for several years but to allow profitable energy sales to other companies.

The Company also cited its reputation as a conservative company with firm control of its expenditures.

The Company's rate structure, which now has over 125 rates for many types and classes, would be reduced to less than 30 rates. The effect of the increase on the different customer classes would vary according to present relative rates of return from each class.

For example, the typical residential electric bill would increase by about 10 per cent.

Although customer bills have risen substantially in the past few years, the increases have been the result of more usage and higher fuel costs. The average residential customer's electric usage in the WTU system increased from 6,363 kilowatt-hours in 1972 to 8,270 kilowatt-hours this past year.

The cost of fuel has risen from 23 cents per million BTU in 1972 to \$1.96 this past summer. Generally, this fuel cost is the only increased expense that has been shared by the customer under WTU's recent rate schedule.

The city has several options in responding to WTU's rate request. It may approve the increase, deny the increase, or suspend the rates for a certain period of time. The city also has the option of denying the request and ceding future jurisdiction to the Public Utility Commission.

Fischers Recuperating

No, it wasn't a tornado. It was apparently an LP Gas leak under the house which ignited and totally demolished the residence of Paul and Francis Fischer Sunday afternoon. The couple was at home when the explosion occurred and were taken to Haskell Memorial Hospital. She was transferred to Hendrick Medical Center Monday and was listed in guarded condition. He was listed in satisfactory condition. The photo was taken from the northwest corner of the Fischer yard. Bricks were blown as much as 30 feet and other debris was blown as much as 100 feet. Almost all foliage was blown from the small tree in the foreground and debris was hanging in trees all around the home. Friends and relatives began sifting through the debris early Monday and repeatedly voiced their amazement that the Fischers were not injured more seriously or even killed.

Study Club Continues Work on LaBriere Home

BY GINA JENNINGS
 Although the plans were for "dinner on the grounds" members of the Progressive Study Club didn't let the rain dampen their fun Thursday evening.
 Bringing family members and guests, club members moved their first meeting of the club year into the old-time atmosphere of the Haskell Railroad Museum. It was an appropriate setting for the program which included histories from guests for the evening who came from families that pioneered the Haskell area. Several of the families came to Haskell County before the turn of the century.
 Continuing the historical theme, Mary Holden discussed progress on the renovation of the LaBriere Home. Admitting the club's project seemed overwhelming at first because of the severe deterioration of the structure, Mrs. Holden expressed her thanks to Miller Montgomery for his work on the building.

The LaBriere home was one of the first homes in the Haskell area. The nearest neighbors were 10 miles away when it was first built with other settlers still living in tents or dugouts.
 The Study Club plans to restore the home both inside and out to reflect the lifestyle of early settlers. With major work completed on the exterior of the home, the next phase of the club's work will be to refurbish the interior.
 To maintain the authenticity of the home, the club hopes to furnish it with antiques dating around 1900. Items needed include a woodburning stove, a pine table and 2 chairs, pie safe, 2 kerosene lamps, rocking chairs, churn, wooden or iron bed, rag or braided rug, ruffled curtains, trunk and wash stand. Anyone who could help locate any of these may contact a member of the club.

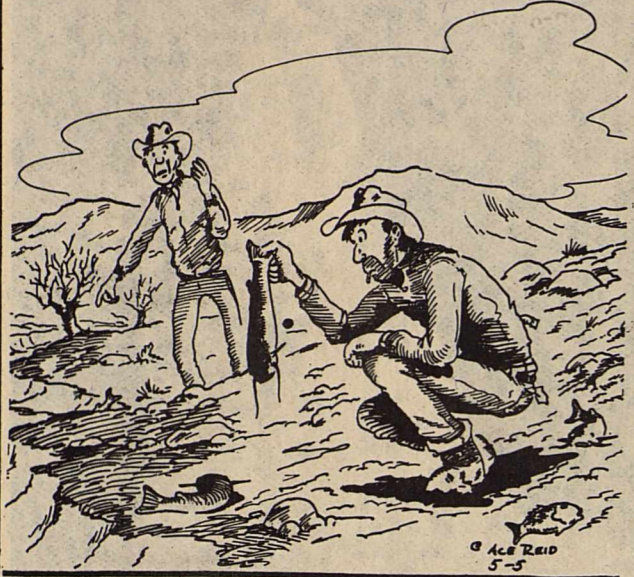

Tickets for the club's Chicken Spaghetti Supper to be held October 10 before the Haskell-Electra game were distributed to members for sale during the Thursday night meeting.
 The meeting also included the presentation of an award to Jill Druesedow by Mrs. R.W. Herren. The award was originally presented at the May convention of the Texas Federation of Women's Clubs convention for public relations and publicity at the district level for the Mesquite District. This is the second year the club has received the award.

College News

More than 2,300 students at Texas Tech University qualified for the deans' honor rolls in the six colleges during the second term of the 1980 summer session.
 Among them was Carol Lehde from Haskell.
 To qualify for a dean's honor roll a student must have a grade point average of 3.0 or more on a 4.0 scale and must have taken as many as 6 semester hours of work.
 Texas Tech has an enrollment of more than 23,000 students in six colleges:
 Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics.
 Johnny Lancaster, Haskell senior, has been elected vice president of the West Texas State University Accounting Club.
 The Accounting Club provides information about career opportunities in the fields of business and industry for professional and certified public accountants.

Discuss Payment Before Cashing Check

The U.S. Veterans Administration must content daily with a large number of cases involving overpayment of VA disability or death benefits. According to C.H. Herren, Service Officer for Haskell County, many of these overpayments can be prevented if someone will merely discuss the matter with the proper authorities before the Government checks are cashed or deposited.
 When a veteran is receiving VA pension or compensation, his benefit payments are terminated effective the end of the month prior to his death. Thus, if he passes away on the 10th day of the month, his VA benefits are terminated effective the last day of the month prior to death. If he leaves a legal widow, and she is found to be eligible for VA benefits under her own entitlement, the VA will, for the month in

which the veteran died, pay her the amount which the veteran was due, or her own monthly amount, whichever is the greater. If the widow is not eligible, then no VA benefits are payable to her for that portion of the month in which the veteran was alive.
 When the widow of a veteran is receiving death pension or compensation, and she remarries, her benefits are also terminated effective the last day of the month prior to her remarriage.
 In some instances, VA benefits for certain beneficiaries may continue for a period of time after a death, divorce or remarriage. Since the laws are different for various situations, the claim-

ant or the next of kin should always contact the local Veterans Service Officer when an event takes place which could affect VA benefit payments. An early contact could prevent any overpayment, which results in a debt, which someone has to repay to the Federal government.

Gannaway Named Prof
 Dr. John Gannaway of El Paso has been named associate professor—cotton breeding for the Texas Agriculture Experiment Station in Lubbock, succeeding Dr. Levon L. Ray.

Dr. Gannaway will have responsibility for upland strip-type cotton breeding for the High Plains, Pecos Valley and El Paso Valley of Texas, according to announcement from Dr. Bill Ott, resident director of research at the Texas A&M University Agricultural Research and Extension Center at Lubbock.
 Dr. Gannaway also will continue Dr. Ray's research endeavors in the areas of hybrid and glandless cotton development, Dr. Ott said.
 Dr. Ray was honored by friends and associates with a retirement dinner at Lubbock's KoKo Palace on September 8. He plans to enter private consulting work.

Dr. Gannaway, a 40-year-old native of Haskell, received his PhD at Texas A&M University Research Center at El Paso in 1974. There, he has held the responsibility for upland cotton variety improvement in the El Paso Valley area.
 Dr. Gannaway is the son of Mr. and Mrs. Maurice Gannaway of Haskell.

State Treasury Receives Record Interest Income

State treasurer, Warren G. Harding, announced today that the State of Texas is enjoying record interest earnings from the money management policies of his office and that these policies of maximizing the State's earning power on its cash funds have a direct bearing toward reducing the amount of revenue that would otherwise need to be derived from taxation.

Statistics of the office reflect that for the fiscal year ending August 31, 1980, interest earned on State funds amounted to a historical high of \$225,229,611.39, which is an increase of \$47,310,115.75 or an increase of 26.6% over the previous year's earnings. Interest income earned by the State of Texas is among the highest of the larger states.

Prudent and timely money management and investment policies have enabled Mr. Harding to consistently improve upon the amount of

State funds that are placed in interest earning accounts. For the month of August, 1980 an all-time high daily average of 98.1% of the State's operating funds were invested and earning interest for the people of this state. Frequent meetings of the Depository Board has enabled this office to stay abreast of the fluctuating money market. Due to the changing money market a called meeting of the State's Depository Board, of which Mr. Harding is Chairman, raised the depository interest rate from 8% to 10% on September 16, 1980.

Mr. Harding stated that it is his primary objective to continue to serve the best interests of the people of Texas, by keeping their hard earned tax dollars working for them and "it is of historical note" that during his three year tenure in office in excess of \$530.7 million in depository interest has been earned.

Tips For Carpet Care And Cleaning

Get "knee deep" in carpet care, a home economist urges homeowners.

Many savings are the reward of learning how to clean your own carpet—significantly longer carpet life and aesthetic "face-saving" too, says Jane Berry, a housing and home furnishings specialist.

Dr. Berry is with the Texas Agricultural Extension Service, The Texas A&M University System.

Carpets need shampooing, she stresses.

Shampoo rugs every year or two to get rid of heavy dirt and grime.

Vacuum or sweep the rug, of course, before shampooing.

Furniture should pose no problem, as you can do half the rug one day and half the next.

10th Annual OS Steer Roping Set

The top three 1980 steer ropers, including World Champion Guy Allen of Santa Anna, will be among the 37 steer ropers who will compete here Sunday afternoon, October 5, in the 10th annual OS Ranch Steer Roping.

Allen by winning the \$8,900 first place check in the National Steer Roping Finals at Laramie, Wyo., recently walked off with the world steer roping title with a new money-winning record for the year of \$20,500.

Arnold Felts of Woodward, Okla., who is the defending OS champion, finished No. 2 in the 1980 standings with \$12,400 in winnings. Jimmy Brazile of Gruver was third in the race for the world title with \$11,500.

Thirty-nine western artists will show some \$500,000 worth of western art in the OS ranch house with a Friday night prelude party leading off the sale of the art which totaled \$181,000 here last year. Most of the artists will be on hand personally for the three-day "OS weekend."

Team roping is scheduled for all day Friday on the Basinger Ranch with the Saturday schedule including girls barrel racing, an invitational calf roping, a NCHA championship cutting horse contest and a dance in the community center here to the music of Red Steagall and the Coleman County Cowboys.

Two new OS events are a fiddlers contest Saturday morning and a colt sale Sunday morning.

The "OS weekend" annually raises between \$40,000 and \$50,000 for the operation of West Texas Boys Ranch near San Angelo.

Letters To The Editor

Don Comedy:

The Abilene Social Security office will no longer provide a monthly visit to the towns of Rochester and Rule. The volume of work has decreased to the point where it does not justify the time, money or energy involved. This change is effective with October 1980.

The Abilene Social Security office will continue to serve the Rochester and Rule residents by phone, use of the Haskell trips and the Abilene office itself. The public is encouraged to use the phone as much as possible.

We will continue to visit Haskell on the 1st, 2nd, and 4th Thursdays of each month (excluding holidays). We meet at the City Hall Annex at 10:00 a.m.

The Abilene Social Security office is located at 142 South Pioneer and is open from 9:00-4:30, Monday-Friday (excluding holidays).

We appreciate your cooperation.

Sincerely,
Ken Hargis
Assistant District Manager

BY COACH BOBBY BUSBY

On behalf of the Haskell Girl's Athletic Association, I would like to extend a big, sincere "thank you" to all of you Haskell residents who patronized us the past two weeks when we painted street numbers on curbs.

The drive was a great success; the money will be used to pay off our video machine.

Thank you again.

Make sure your next loan is easier to pay back

A good loan should be one you can manage on your income.

The nation's poor generally get as much or more medical care than other economic groups, the National Center for Health Statistics says. In 1977 each member of families

earning under \$5,000 annually saw a doctor about six times yearly. The same U.S. government study showed that people with higher incomes had slightly fewer visits.

CHEVY'S UP AHEAD FOR 1981

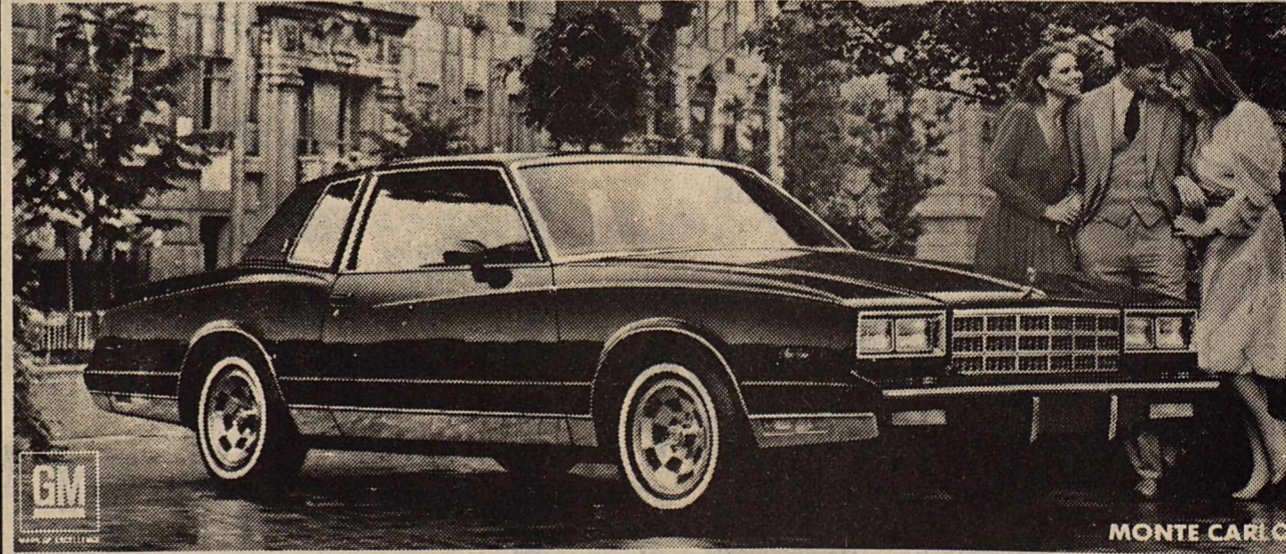

CITATION

CHEVETTE

FLEETSIDE PICKUP

MONTE CARLO

1981 is off and running at your Chevy dealer's now. So now's the time to come in and see a great new year of great new Chevrolet cars and trucks.

Like Chevy Citation, a proven car that has become America's "best-selling front-wheel drive. And Chevy Chevette, the tough son-of-a-gun that's America's best-selling subcompact.

Come see the C10 Fleetside Pickup that's lighter and leaner than last year, yet with greater maximum payloads.

Then take a look at the beautifully new Monte Carlo, with virtually every inch reshaped, every line resculpted.

And for '81, there's a GM-developed on-board computer that continuously monitors and adjusts your car's performance to suit driving conditions... automatically! It's called Computer Command Control. And it's standard on every 1981 gasoline-powered Chevy passenger car.

So come on up ahead with all of the 1981 Chevrolets. At your Chevy dealer's now.

SEE ALL THE 1981 CHEVROLETS AT YOUR CHEVY DEALER'S NOW!

SHOP EARLY FOR CHRISTMAS

Superintendent's Views

BY JAMES LANIER
Superintendent, Haskell ISD

I would like to devote this column to saying "thanks" to Mayor Royce Williams, the City Council, and the City Staff for their concern about the safety of the students of Haskell ISD. The students of Haskell Secondary Schools are constantly crossing Avenue D because of the unique campus arrangement. It is very unique to have a city street running through any school campus. This condition presented a unique safety problem. The school administration had taken action this year to alleviate part of the problem by eliminating parking on the west side of Avenue D. However, students were still crossing the street very often.

Four years ago, a group of Junior High students had gone before the City Council with suggestions to remedy the situation. Because of floods, sanitary landfills, and major problems facing the city, action was delayed. However, the student group persisted with the leadership of Steve Livingston and other students. The majority of these concerned students were members of the original Junior High group.

Early in the present school year, Livingston met with the City Council, again, to plea the case for safety protection on Avenue D for the student body. The Mayor, City Council, and Staff immediately went to work on the problem. The solution arrived at was to make the west side of Avenue D a "No Parking Zone School Hours," the entire length of the school campus. The next step was to close Avenue D to thru traffic from 6th street to 8th street from the hours of 7:30 a.m. until 4:30 p.m. during days of actual school. The city also purchased signs to be placed at each end of this restricted area to remind drivers on Avenue D. These actions have provided a safe, traffic corridor for students to cross. We commend the Mayor,

City Council, and Staff for their great interest in the safety of our students. Interested leadership like this will make Haskell a better and safer place to live. We would like to extend our congratulations and thanks to the persistence of the student group and to their dedication. Steve Livingston, especially, has worked hard and long on this project. We know he has reaped great learning benefits from this experience, but his concern for the safety of other students and his persistence is to be highly commended.

Obituaries Kathleen Lane

Funeral services for Mrs. Kathleen Crawford Lane, 63, of Haskell were held Wednesday, October 1, at the Church of Christ with Rev. William Hodge, pastor of the Assembly of God Mission officiating. Burial was in Willow Cemetery under the direction of Holden-McCauley Funeral Home.

Mrs. Lane died at 10:45 p.m. Sunday at her home following a lengthy illness. Born Nov. 1, 1916, in Stamford, she married H.L. "Jack" Lane Jan. 28, 1951, in Haskell. They lived in Haskell until 1957 when they moved to Burleson. They returned in 1976. She was a member of the Church of Christ.

Survivors include her husband; a daughter, Loretta Kay Lane of Haskell; two sons, Gary Lee and David Alan, both of Haskell; and four brothers, Maurice Crawford of Wichita Falls, Duffer B. Crawford and Horace R. Crawford, both of Houston, and Paul B. Crawford of Bryan.

Pallbearers were John Darnell, H.V. Woodard, Wallace Cox Jr., Burnell Gilliland, Ray Jackson and Maurice Sheppard.

STOCK MARKET

The market at Haskell Livestock Auction was steady to stronger in all classes on a run of 1123 cattle, 48 hogs and 8 sheep and goats at its sale Saturday, according to Tommy Clay, market reporter. A goat was sold to benefit the West Texas Rehabilitation Center and was donated by Howard and Gertrude Hopkins. The total proceeds from the goat reached \$2,235.00. "Anyone who still has stock you wish to donate can call us here at the Sale Barn and we will get them to Abilene for you," said Clay.

Butcher calves: choice, 67-72; good, 62-67; standard, 57-62; rannies, 52-57.

Sheriff Is Special Guest At Crusade

Haskell County Sheriff, Garth Garrett, was the special guest at the Children's Crusade which was held at the Haskell Foursquare Church which was concluded last Wed., Sept. 24.

Sheriff Garrett presented a 5 foot candy bar to Laurie Zahn for bringing the most children to the crusade. She also was named Miss Annie Oakley for earning the most points on the girl's side.

Shane Lewellen was named Buffalo Bill for the boys side. Points were earned by attendance, Scripture memorization and quizzes on the lessons that were taught by Dan and Lorraine Kardokus. Adults 18 years of age or

ONE INJURED

Nina Bryant of Rule was admitted to Haskell Memorial Hospital for treatment of injuries received in an accident Monday afternoon. The accident occurred on the Brazos River bridge west of Rule on U.S. 380. Mrs. Bryant was traveling east when her 1963 Ford and a west bound 1978 Pontiac collided. The Pontiac was driven by Archie Crim of Lubbock. He was not injured. DPS Trooper James Davis investigated the accident. Citations were issued.

Adult Basic Education Classes Scheduled For Three Area Towns

The Adult Education classes for Rule, Rochester and Weinert will begin next week, October 6th and 7th. Classes will be held for three hours weekly in each of the schools.

The Rule Program, instructed by Mrs. Vida White and Mrs. Dora Torres, will begin on Tuesday, October 7th, 6:00 p.m., at the Rule Elementary School. Classes each week will be held from 6:00 to 9:00 p.m.

Registration and the first class meeting for the Rochester Adult Education Program will begin on Monday, October 6th, 6:00 to 9:00 p.m., at the Title I building. Mrs. Jo Ann Gaunt, instructor, will be assisted by Mrs. Jaycoriba Smith.

Registration and instruction for the Weinert Adult Education classes will begin on Tuesday, October 7th, from 6:00 to 9:00 p.m. at the Weinert School. Instructors for the classes will be Mr. H.L. Guess and Mrs. Virginia Barrera. Adults 18 years of age or

VOLUNTEER AWARD

"Experienced Citizens" expressed their appreciation to Karen Smith Tuesday during the noon meal at the E.C.C. when they presented her with an engraved plaque. Mrs. Smith has been a volunteer with the Center since its inception in November of 1977. She teaches various arts and crafts classes as well as helping serve the meals offered to Experienced Citizens of this area.

Gymnastics Donations

Donations to the Haskell Young Homemakers Gymnastics Fund totaled \$85.00 this week. Donations received this week include:

Alice Larned \$10.00
Big Country Savings Assoc.	... 25.00
Owens Radio & Electric 50.00
Total this week 85.00
Previous total 1008.15
Total to date 1093.15

CF Drive Continues

Because of recent rains a door-to-door campaign to solicit donations for Cystic-Fibrosis will continue through this week. Volunteers will be collecting donations throughout Haskell.

Election Set

A director to serve Zone 2, Haskell Soil and Water Conservation District Board will be selected at an election scheduled for October 6 at 10 a.m. in the Weinert Community Center.

Spaghetti Supper

The Haskell Rotary Club will hold their annual spaghetti supper this Friday from 5:30 to 7:30 p.m. in the High School lunchroom.

Tickets are \$2.50 each and are available from any member of the club or at the door.

Creeks Run High

Rainfall had raised the level of Miller Creek lake to within inches of the spillway Tuesday morning and officials said water was still running into the lake.

The lake was about six feet below spillway level prior to the rains.

According to Pete Beecher, manager of the water authority, creeks were still running and the lake would probably overflow the spillway sometime Tuesday.

Booster Club Jackets

Deadline to order Indian Booster Club jackets is 9 a.m. Friday according to Geraldine Hise. The jackets can be ordered by calling Mrs. Hise at 864-2903 or 864-2847 or Joan Baldwin at 864-3339 or 864-2739.

RECEIVES AWARD

Mrs. Anita Herren presented Mrs. Jill Druesedow with an award at the Thursday meeting of the Progressive Study Club. Given by the Texas Federation of Women's Clubs at the convention in May, the award recognizes the Haskell Club for the second year as outstanding in the area of public relations and publicity at the District level.

New Publication

Rock collectors in Texas will be inspired to add to their collections after seeing a new publication prepared by the Travel and Information Division of the State Department of Highways and Public Transportation.

Entitled "Texas Rocks & Fossils," the folder pictures nearly 100 specimens in vivid color. Each is identified by its county or region of origin.

Similar in style and format to the popular "Flowers of Texas" folder, the new publication is designed for the layman rather than the professional collector. It relates helpful suggestions for the amateur rockhound, along with admonitions about unauthorized collecting.

The folder also includes a small map that divides Texas into seven general areas based on the relative age of the surface geology of each region.

"Texas Rocks & Fossils" is available free at any Texas Tourist Bureau or by mail from TEXAS, Dept. DHT, P.O. Box 5064, Austin, Texas 78763.

Welcome to Waterhole #1

We have just purchased the McQuinn Laundry in Rule and would like to invite John and Bertha's old customers and all our friends to come wash with us.

I am also going to do washing for the public on week days after 5:00 p.m. and all day on weekends. An average washing will start at \$10.00, it will include washing, drying and folding. I will do pick-up and delivery, if you wish but to Rule residents only (Out of town customers welcome.)

So if you need help with that washing, call me at

997-2433 or 997-2551

We appreciate your business!
