### PARK PROJECT

Work began this week on a \$100,000.00 plus City Park project. The work is scheduled to be completed in August 1983. Pictured above are City Park Commissioner Franciene Johnson, City Secretary Desmond Dulaney, and Director of Public Works Olen Bartley.

## Completion Scheduled For 1983

## On New City Park Project

Work on a \$111,090.00 City Park improvement program has been started in Haskell according to the City Park Commissioner Franciene Johnson.

The program, scheduled to be completed by August 1983, will include: lighting the softball field; building a concession stand; two lighted tennis courts; rip-rap of creek waterway; channelization of creek; landscaping; low water crossing; signs; parking and restroom renovation.

The project will be funded with a \$55,045.00 grant from the Texas Parks and Wildlife Department and a matching amount from the City of Haskell.

Much of the Cities funds will be provided in the form of labor and materials. These funds can also be supplemented by donations of labor, materials and funds by

interested citizens or organizations.

The Softball Association has agreed to reimburse the City for funds used on the field.

The original grant was approved in the fall of 1980 but has been changed several times. Each portion of the project must be approved by engineers and the Parks and Wildlife Department which has slowed the construction portion of the project.

According to Mrs. Johnson, the park has undergone extensive work since the 1978 flood.

Original flood repairs completed in February 1979 included the purchase of two small carousels, two large carousels, one barrel, 12 new tables, a new fence, two barbeque pits, creek cleanup, reseeding grass and repaving.

In addition to the new equipment,

other equipment and facilities were repaired and repainted.

"The original grant application also included a new foot bridge which was later dropped because of costs. The old bridge was destroyed by vandals until it could no longer be repaired," said Mrs. Johnson.

"Any group or club that would like to consider providing funds for a new bridge may contact me or Desmond Dulaney for more information," stated Mrs. Johnson.

Mrs. Johnson also said, "We hope when this project is completed it will be a source of pride for the community. Everyone using the park is requested to call our

Members of the Board of Directors of the Haskell Chamber of Commerce and other interested persons attended an Industrial Development Workshop Tuesday

night in the Community Building of the Haskell National Bank.

The meeting was conducted by Gary Vest, Area Development Manager of West Texas Utilities.

Those attending the meeting developed a list of beneficial items which already exists in Haskell and a list of priority items which are needed to locate new business and industry here.

The major portion of the meeting was spent in discussing how existing groups and organizations could coordinate their efforts and more easily accomplish goals which would improve the economic growth of

Haskell.

Plans were completed to begin work on the training of an industrial development presentation team. The team will consist of several individuals who will make presentations to potential new businesses and industries.

Plans were also discussed to catalogue all existing potential industrial sites in the Haskell area and where possible obtain purchase options.

Persons interested in assisting with the future industrial planning of Haskell are asked to contact any director of the Chamber of Commerce.

## 1981 Haskell County Fair Set September 24, 25, 26

Directors of the Haskell County Fair Association set the dates of the 1981 Haskell County Fair for September 24, 25 and 26.

Approximately 30 directors of the association met Tuesday night to

discuss plans for the 1981 fair and appoint members of committees.

New officers were also elected and include: B. J. Ray, president; Joyce Hager, vice-president; and Charlene Therwhanger, secretary and treasurer.

Directors of the association are: Mrs. Paul Fischer, Iva Lee Gibson, Mrs. Burl Medford, Mrs. M. C. Cunningham, Mrs. Gus Rueffer, Mary Rike, Jo Fischer, Dorothy Wells, Cecilia Davis, Helen Miller, C. E. (Chunky) Tidwell, Bob Beauchamp, Tom Kutch, Max Stapleton, Marvin Phemister, Mr. and Mrs. Duane Gilly, Mr. and Mrs. Johnny Reid, Bill Comedy, Mrs. W. R. Hager, Jr., Mr. and Mrs. J. R. Perry, Mrs. Odell Helweg, Dr. Tom Hairgrove, Mrs. Louise Chambers, George Mullino, Mrs. Tom Yates, Mrs. Andy Wilfong, Mrs. Truman Therwhanger, C. A. Thomas, Jr., Mrs. Cliff Dunnam, Mr. and Mrs. Bud Turnbow, Mr. and Mrs. David Miller, Mr. and Mrs. Dale Burris, Mrs. R. A. Shaver, Jimmy Cearly, Mr. and Mrs. Billie Jack Ray, Mrs.

Juanita Rhea, Mr. and Mrs. Rod Jeter, Mr. and Mrs. Tommy Matthews, and Brian Burgess.

The meeting was held at the Haskell Country Club and was catered by W. E. Wooten.

## Post Office Site Picked

The U. S. Postal Service has selected a site for the new main post office building at Haskell, Postmaster Joseph V. Alves said here.

The Postal Service has accepted an offer from Mr. and Mrs. John Larned of 206 North "F" Street and Mr. and Mrs. Joseph Thigpen, P. O. Box 412, all of Haskell to sell a tract of land on the west side of Avenue "B" between South 1st Street and South 2nd Street. The site contains 42,688 sq. ft. of land. The price for the land is \$37,000.

The proposed new postal owned building will have 5,384 sq. ft. of interior floor space.

Why me?

After all the wonderful dreaming, the careful planning, and the meticulous preparation, I should have known.

When we first learned that the State Firemen's and Firemarshalls' Association annual conference and the Texas State Trapshoot would be on successive days in San Antonio it seemed too good to be true.

The Fire Convention began June 6 and concluded June 10 and the trapshoot started at noon on the 10th. All in the same town, unlike three years ago when the date was similar but the Fire Convention was in McAllen and the trapshoot was in Amarillo.

It should have been a premonition of things to come when the air conditioning in the headquarters hotel for the Fire Convention quit. During the four days of the Fire Convention the temperature stayed above 80 degrees at night and the humidity was almost unbearable.

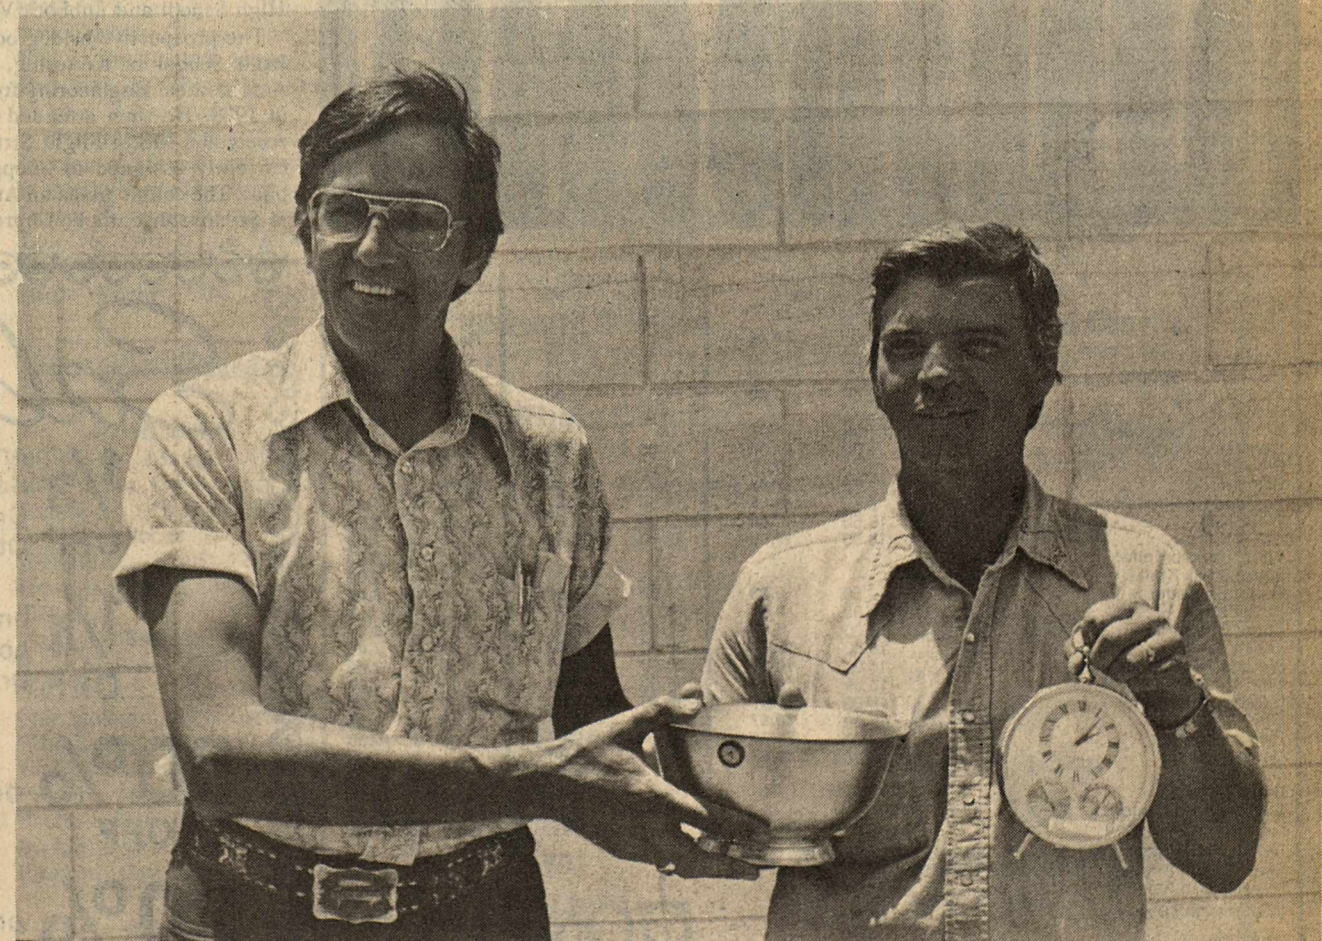

Throughout the convention there was the constant dream of going to the trapshoot and staying in an air conditioned camper.

What could go wrong? No the air conditioning didn't quit, it rained for four days and nights and we didn't need the air conditioning.

I generally enjoy rains, but

standing in six inches of cold water and mud, shooting trap in a driving rain cannot be placed at the top of my list of fun things.

At least the rain did provide a reasonably acceptable excuse for my low scores.

### BURGLARY

Local law enforcement officials are investigating a burglary at Heads or Tails Western Wear. The burglary occurred sometime during the night Tuesday. The front door of the business and a side window were damaged during attempts to enter the building. Preliminary indications Wednesday were that only a small amount of merchandise was taken.

## Cut Clothing Costs By Updating Wardrobe

From LOU GILLY  
County Extension Agent  
Cut clothing costs and stay in fashion with "Update '81".

For summer, update last summer's wardrobe, and with an eye toward fall and winter '81 as you go, you'll be "right in style" at little cost.

Inventory still—wearable items, notice the voids, study current trends, and then begin your own "Update '81."

**COLOR**—Color is the most visible part of a wardrobe, and often it depends on seasonal trends.

Update last season's bright colors with pastels. Fashion-right colors especially important are corals, peaches, apricots, aquas and turquoises.

**PATTERNED FABRICS**—

Update last season's solids with fashionable patterns and prints, particularly madras-like plaids, ethnic prints, folk art and splashy florals. Also jungle prints, camouflage military looks and paislies. Border prints also have returned as a popular patterned look.

**LACE**—Add lace borders or edging to collars, cuffs, belts, and hemlines for feminine detail, or consider a lace applique for a pocket or other focal point.

Often lace can be recycled or reused from garments that are no longer wearable and even from other household items such as tablecloths.

**RUFFLES**—Some designers are calling this the year of the ruffle.

Add garments with ruffled

detail such as tiered skirts, flounce skirts, dresses or blouses with ruffle collars.

A ruffle or lace-trimmed blouse is an excellent update for last year's more tailored, stricter-looking garments.

**TUNICS**—Tunics are particularly strong for fall and winter '81, and in an all-weather fabric, they can update straight-leg pants or skirts now and continue fashionable into cool-weather seasons.

**DRESSES**—Dropped or long-waisted designs are big news for dresses.

Re-do a straight-line unwaisted garment by cutting it apart along the hipline and adding a fuller, contrasting skirt.

**JEWELRY**—Jewelry is bolder and larger than it has been for a number of seasons.

Rummage through your jewelry collection—you may find some ethnic looks or large woods, plastic or ceramic necklaces, bracelets or earrings.

Check by garage sales, too. In wearing bold jewelry, plan carefully to emphasize desirable features and draw attention away from those less desirable.

**SHOES**—Shorter heels are very definitely the trend.

Some heel heights will shorten easily without changing the arch—ask your shoe repairman about the possibilities and cost.

**HEMLINES**—Skirt hemlines are shorter now—worn right below the knee or mid-knee. Trends for fall show even shorter lengths—or much longer lengths, such as mid-calf.

In general, think "fun" when you start "Update '81." Updating wardrobes can be fun—and challenging. Many possibilities exist, depending on the garments and personal preference.

You can update your wardrobe with little or no expense and, at the same time, create a flattering, workable wardrobe that looks as fresh as today.

## Yeary, Patterson Wed In Candlelight Ceremony

Tena Ann Patterson became the bride of John Morgan Yeary in a double ring candlelight ceremony on Saturday, June 13 at 7:30 p.m. in the First Baptist Church in Garland. The Rev. Roger McDonald, pastor, officiated.

The bride is the daughter of Mr. and Mrs. Jack D. Patterson of Garland, and the granddaughter of Idamay Kirrane of California. The bridegroom is the son of Mr. and Mrs. J.C. Yeary of Haskell and the grandson of Leola McCollum of La Grange.

The bride, given in marriage by her father, chose a formal length gown, an original creation fashioned of diamond white organza combined with Chantilly lace and seed pearls. The gown, designed with a fitted bodice overlaid in beaded lace, featured a Queen Ann neckline. The long full bishop sleeves were of lace and were held at the wrist with a fitted cuff of Chantilly lace. The lovely A-line skirt veiled over taffeta was accented with three tiers of organza, bordered in a wide banding of lace flowing softly to the back, releasing a full chapel train. Her three tiered veil of illusion was edged in Chantilly lace. She carried a bridal bouquet of white orchids and stephanotis.

Maid-of-honor was Karla Farris of Borger. Bridesmaids were Donna Bradford of Garland, Linda Blakeley of Fort Worth and Esther Baca of Albuquerque, New Mexico. Bridesmaids wore pale pink sheer dresses and carried long stem pink roses.

Candlelighters were Stacy Yeary of Pauls Valley, Oklahoma, niece of the groom, and Emily SoRelle of Haskell. They wore long pale pink

dresses of Dotted Swiss with pink trim.

Flower girl was Kara Gentsch of Garland. She wore a white organza dress with a tiered skirt and scattered rose petals from a wicker basket.

Ringbearer was Wayne Hodgson of Haskell, nephew of the groom. He wore a white tuxedo and had a pink rose for his lapel.

Best man was Todd Bragg of Pecos. Groomsmen were Jim Yeary, brother of the groom, of Pauls Valley, Oklahoma, Lonnie Hodgson, brother-in-law of the groom of Haskell and Rene Macill of Tucumcari, New Mexico. Ushers were Dean Patterson, brother of the bride of Garland, Keith Kucifer of Dumas, Pete Ondeng of Nairobi, Kenya, Africa and Paul Gomez of Abilene. All were attired in grey tuxedos with pink rosebuds for their lapels.

The groom was attired in a white tuxedo.

Providing the nuptial music were Mrs. Lola Dill at the pipe organ and Harrell Slack, soloist, singing "Savior Like a Shepherd Lead Us," "What Love Is" and "Because You Belong to Christ."

The ceremony included a reaffirming of the family ties, in which both sets of parents participated. After a prayer, the couple presented each other, wearing long gowns in shades of pink, with a long stem pink rose.

The altar was banked with greenery. An arch of greenery with white carnations centered the area. Baskets of carnations and pink roses were at each side. White candles and greenery marked each side. The table with the Unity Candle and two side candles,

lit by the parents, was in the center. Tiers of candelabras were across the back.

The wedding reception was held in the church parlor. Sara Hodgson, sister of the groom, presided at the registry table. The bride's table, covered with a tiered lace cloth was centered with a three tiered wedding cake of white with pink rosebuds. Arrangements of pink and white flowers and candles were at each side. A crystal punch bowl held the punch.

The groom's table was in beige and brown with chocolate cake and coffee being served.

Pink rice bags encased in tiny lace wedding bells were presented to the guests as the bride and groom left for a honeymoon in Puerto Vallarta, Mexico.

The bride is a graduate of South Garland High School and Hardin-Simmons University with a BBA in accounting. She is employed by First State Bank of Abilene.

The groom is a graduate of Haskell High School and is a senior student at Hardin-Simmons University majoring in management. He is employed at West Texas Medical Center in Abilene.

The couple will be at home after June 20 in Abilene.

Haskell residents attending the wedding were: Dr. and Mrs. Frank Cadenhead, Mr. and Mrs. Frankie SoRelle and Emily, Mr. and Mrs. Lonnie Hodgson, Wayne and Jamie.

The rehearsal dinner, hosted by the groom's parents, was held in the Fellowship Hall of the Church.

The bride's parents hosted a buffet luncheon at noon on Saturday for the entire wedding party.

MRS. JOHN MORGAN YEARY  
... formerly Tena Ann Patterson

## Christian Missionary Society Meets

The Christian Missionary Society met Monday evening June 8, in the Fellowship Hall of the First Christian Church to enjoy a Salad Supper for the last meeting of the fiscal year. The serving table was beautifully decorated with many different and appealing salads, which were enjoyed by fourteen members and two visitors.

Billie Cadenhead favored the group with a review of the book, "A Walk Across America" by Peter Jenkins. With her pleasant and appealing manner, she held the attention of all, wondering what was coming next. The

whole group appreciated her favoring it with this most well done review.

The meeting closed with prayer partners being revealed.

The Bill Steeles, in memory of Bebe Middleton and Dr. Philip Cadenhead.

Mr. and Mrs. John W. McDermott, in memory of Bebe Middleton and Dr. Philip Cadenhead.

Mr. and Mrs. Chester Cunningham, in memory of W. H. Baccus, Jr.

Mr. and Mrs. David Larned, in memory of Willie Baccus and W. H. Baccus, Jr.

C. G. and Lee Burson-Trey and Debi Burson, in memory of Philip Cadenhead.

## Around Town

Kelly Archibald of Oklahoma City is visiting with her grandparents, Mr. and Mrs. Sam Herren.

Mr. and Mrs. Fred Brown are in Dallas visiting with their son.

Mr. and Mrs. Bob Herren have returned home after being in Temple.

Mr. and Mrs. H. V. Woodard have returned home after being in Tennessee for a

family reunion. Their two daughters and their families went with them.

Mr. and Mrs. Randy O'Neal and son, Jay from Amarillo and Dr. and Mrs. Barry O'Neal, Benjie, Nathan and Rachel from Irving visited their parents and grandparents, Mr. and Mrs. Lee Roy O'Neal and Mrs. Ed Fouts.

MR. AND MRS. L.B. IVEY are announcing the engagement of their daughter, Cindy, to Lt. Kevin, J. Fitzharris, son of Mr. and Mrs. Edward F. Fitzharris of Kettering, Ohio. The bride elect is a 1977 graduate of Haskell High School and Lubbock Vocational Nursing School.

The prospective bridegroom graduated in 1973 from Alter High School in Kettering, Ohio, and received his BS in Aeronautical Engineering from the U. S. Air Force Academy in 1978. He then attended Columbia University, where he received a MS in Flight Structures in 1979. Lt. Fitzharris is currently assigned to Sheppard AFB, as a T-37 instructor pilot. The couple plans an August 29th wedding at 2:00 p.m., at St. Joseph Catholic Church, Rhineland.

## Garden Series Offers Complete Tips

The past four weeks I've talked a lot about the "whys" and "hows" of growing a successful vegetable garden in Haskell County.

If you've been doing the right things at the right times such as planting the right varieties and fertilizing, watering, mulching and controlling pests properly, chances are you've begun to enjoy the "fruits of your labor."

Most inexperienced gardeners have a tendency to believe all that's left to do is to sit back and enjoy all those tasty, fresh vegetables. Believe me, that's wrong! If anything, you should pay even closer attention to your garden and what's going on out there. An outbreak of disease, and infestation of damaging insects, or even a short drought period can wreck your garden and make all previous efforts worthless.

Also, make it a point to

harvest all your vegetables when they mature. To get the most from your garden, harvest your vegetables at their best stage for eating. This is also a must for canning and freezing. The final quality of your preserved vegetables is no better than the quality you began with. In other words, what you put in the jar is what you take out.

After all the effort you've put into growing your garden this year, make sure that you enjoy your vegetables at their peak of quality. It's important to remember that once a vegetable is removed from your garden, it has no further source of food nor can it replace loss of moisture. So, make the time between harvesting and eating or preserving as short as possible.

Now it's time for a little philosophy. Gardening is a great activity—for everyone. Its rewards are many, but

there's one that's overlooked by most and that's an appreciation of agriculture. You haven't been gardening; you've been "backyard farming."

If you have been successful this year, you owe a lot of the success to the advances brought about by modern science and research conducted by land grant universities and private industry. New varieties, improved cultural techniques, high efficiency fertilizers, and safe and effective pest control chemicals are all the result of a highly sophisticated agricultural system like no other anywhere in the world.

If your garden was a failure or just didn't live up to your expectations, try to figure out what went wrong. Vow to do better next time. And on your next trip to the local grocery store, be appreciative and thankful for the small number of farmers doing a great job to feed America.

I hope you've enjoyed the information I've provided you these past several weeks. Its purpose was to help you have a better garden during 1981. My office has numerous publications on vegetable gardening which are yours for the asking. Drop by, or give us a call, and Good Gardening!

## Escobedo, Gideon Wed In Stephenville

Terri La-Nette Gideon and Steven Julian Escobedo were united in marriage Saturday, June 13, in First Baptist Church in Stephenville with the Rev. Emil Becker officiating.

The bride is the daughter of Mr. and Mrs. Wendell Gideon of Stephenville.

Parent's of the bridegroom are Mr. and Mrs. Rufino Escobedo of Haskell.

Sonja Tidrow was maid of honor. Bridesmaids were Sharon Turner of Haskell, Kim Pack, and Sherri Pack of Stephenville.

Stephen Foster was best man. Groomsman were Giles Kemp, Rufino Escobedo Jr., and Donald VanStory, all from Haskell.

The reception was hosted by Mr. and Mrs. Wendell Gideon at their home in Stephenville.

The bride is a graduate of Stephenville High School and will complete a beauty course at Stephenville Beauty College in July.

The bridegroom attended Haskell High School and is employed by Besco Construction Company in Watauga.

Following a wedding trip to San Antonio, the couple will live in Ft. Worth.

MRS. STEVEN JULIAN ESCOBEDO ... formerly Terri La-Nette Gideon

## Proper Eye Care Is Homemaking Club Topic

Many beautiful spring flowers decorated the yard and home of Mozelle Riley when she entertained her Homemaking Club in Haskell. President Earmal Bevel called the club to order and asked Mozelle to read the devotional which was, Dear World.

Secretary Bamah Ivey called the roll with each member answering to "When I had my last eye examination".

Year Book's June thought is "When someone sings his own praise, he always gets the tune too high".

The program was "Focus on Lenses" presented by Dorothy Brown and Bamah Ivey who

took an A&M extension short course to gather information.

The ancient Chinese were the first to wear eyeglasses. Almost half of the world population needs some form of visual correction. In the United States one in every 20 children between the ages of three and five have eye

problems.

The three types of practitioners are: (1) Ophthalmologist, (2) Optometrist, and (3) Optician.

Normal visual acuity is expressed as 20/20.

Plastic lenses weigh about half as much as glass lenses, however plastic scratches more easily than glass and is harder to clean than glass.

When trying on frames, be sure to check that peripheral vision is not obstructed by the side pieces.

Also choose frames that are complimentary to your facial features.

Some vision problems can best be corrected or improved by wearing contact lenses, while other problems may require eyeglasses. Contact lenses allow a wider field of vision and more realistic size of objects viewed. Also they do not fog from rain and perspiration.

Eyes should be checked every year or two up to age 20, every three or five years to age 40, and after age 45 about every two years for glaucoma and visual acuity.

## O'Neal Reunion Held Recently

The descendants of the late Mr. and Mrs. Willie H. O'Neal observed their reunion Sunday, June 14, 1981.

The day started with a breakfast brunch at 10:00 and lunch at 12:30. Picture taking and visiting continued throughout the day.

The youngest person attending this year was Kendra Friend from Sonora who is two months old. Mrs. Ed Fouts was a guest.

The relative with the most children and grandchildren present was Loree Hamilton.

Those attending were from, Big Lake, Knox City, Irving, Loving, Pampa, Seymour, and Haskell.

## Births

Mr. and Mrs. George Sasseen III of High Rolls, New Mexico, are proud to announce the birth of their daughter, Sarah Elizabeth, born May 11th, weighing 7 lbs., 13 oz. Welcoming her home are her two sisters, Terri and Rachel. Grandparents are Mr. and Mrs. George Sasseen II of Florida, and Mrs. Sally White of Big Spring. Ms. Sasseen is the former Donna White of Haskell.

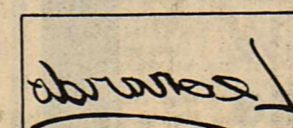

Mr. and Mrs. Earnest Sampson Moore, of Stamford are proud to announce the birth of a daughter, Tierra Devon Moore, born June 9, 1981 at the Haskell Memorial Hospital in Haskell. She weighed 8 lbs., 8 ozs.

Mr. and Mrs. Kenneth Leon Jackson of Haskell are proud to announce the birth of a son, Justin Kyle Jackson, born June 16, 1981 at the Haskell Memorial Hospital in Haskell. Justin weighed 7 lbs., 10 ozs.

## Hospital Notes

**ADMISSIONS**  
MEDICAL: Madgie Allison, Rule; Clara Lowe, Amarillo; Vernon Ivy, Haskell; Forrest Cockerell, Rochester.  
**SURGICAL:** Shari Neskorkik, Throckmorton; Rudy Amaro, Haskell.

**DISMISSALS**  
Helen Matysiak, Cindy Cantu, Otis Nuckels, John Lockhart, Ollie Holland, Jean Turnbow, Ellis Lewis, Modena Lewis, Jackie Coker, C. O. Holt, Pamela Machen, Slover Bledsoe, Kelli Moeller, Mack Boykin, Leta Andrews, Nancy Plunkett, Carl Bruce.

Leonardo Da Vinci was left-handed and he often wrote backwards. To read some of his notes you need a mirror.

## New Cookbook Available On Diabetic Recipes

AUSTIN—Because of the growing number of diabetics in Texas, the Texas Department of Agriculture has published a cookbook meeting the special needs of this group. Agriculture Commissioner Reagan V. Brown has announced. It is estimated that 700,000 Texans are diabetic and that the incidence of diabetes

increases at the rate of six percent per year. Brown said. Diet is very important in the basic treatment of diabetes.

The cookbook contains more than 25 new recipes and sections on nutritional labeling, eating out, brown bagging, and seasoning with herbs and spices.

Janie Sieberg, M.A., R.D., calculated the diabetic

exchange list values for the recipes. Mrs. Sieberg is executive director of the Texas Dietetic Association.

The cookbook, "Recipes for Diabetics (and other who enjoy good food)," is available by writing the Texas Department of Agriculture, P. O. Box 12847, Austin, Texas 78711.

## Thank You

To The People of the Rolling Plains:

Bill and I wish to take this chance to say a great big *Thank You* for all of the support you have shown us so far in our new business.

Because it is a new business, it has had its problems, but the response has been twice what we expected. We feel after four complete weeks of business, we have found some of the flaws and straightened them out.

We pride ourselves in good food and we feel that the service has and will continue to improve.

Below you'll find our menu. We hope you will clip it out and call us anytime you wish to use our drive thru window or place an order before you arrive. Once again we wish to say thanks for making Mitchell's Porthole a success.

Bill & Debbie Mitchell

### The Consumer Alert

by Mark White  
Attorney General

AUSTIN—In February, 1980, Attorney General Mark White sponsored a statewide conference which brought parents, teachers, school administrators, lawyers, enforcement personnel and students together to discuss the problem of discipline in the schools. Among other things, participants agreed that a written code of student conduct which defines student rights and responsibilities in clear and concise language and sets forth the legal limitations within which school officials may exercise their disciplinary authority would help solve the problem. Not only would such a code indicate to students what their rights and duties are, it would also make clear to teachers and administrators that, in fact, they possess sufficient authority to deal with the problem of violence and disruption in the schools.

The code is completed and is now being distributed to school campuses and other interested groups throughout Texas. While the code is voluntary, meaning that it is up to each school district to decide whether to adopt all, part, or none of the code, it should be noted that the State Board of Education has recommended its adoption. School districts which lack clear and comprehensive codes of student conduct should find the Attorney General's code especially useful. Districts which already have a code of conduct in place can use the Attorney General's code to update or strengthen their code.

The code of student conduct is divided into two main sections, "Student Rights and Responsibilities" and "Student Discipline." It is further divided into subsections which address specific aspects of both main topics, such as damage to school property, possession of weapons, possession and use of alcohol and drugs, and general disruption. Guidelines for implementing various disciplinary options such as suspension and corporal punishment are also included.

A large part of the code is based upon legal sources such as statutes, constitutions, and case law; these references are clearly noted. The remainder of the code was developed with the aid of input obtained from questionnaires sent to parents, teachers, students, and administrators throughout

the state and from communications with interested parties. Throughout the last year, meetings involving representatives of these groups were held to discuss and critique preliminary drafts of the code.

The underlying premise of the code is that a workable balance must be achieved between the rights and responsibilities of students, with adequate emphasis placed upon each. Although the courts have held that students are entitled to certain protections and they possess various rights, school officials have a duty to ensure that the exercise of those rights does not infringe the rights of others or create an environment in which learning is difficult, if not unsafe. The Attorney General believes that if students are aware of both their rights and their duties, and teachers and school administrators know that they can, and must, take necessary action to handle disciplinary problems when they arise, most problems can be avoided.

Your school district has, or will soon have, a copy of the Attorney General's code of student conduct. You are encouraged to contact school officials for information concerning the code, and to meet with your school administrators during the coming months to consider adopting it in your district.

### Fines Collected

Judge Geraldine Hise, Justice Court, Precinct 1, Haskell County, reports a total of 199 convictions for the month of May, 1981. Traffic and criminal cases were filed by the following law enforcement agencies: Highway Patrol, 185; Game Warden, 13; Sheriff's Dept., 1; resulting in a total of \$6181.50 in fines.

Geraldine Hise, Judge, City of Haskell, Haskell County, reports a total of 33 convictions for the month of May, 1981, resulting in a total of \$1088.00 in fines.

# Hints For Fireplace Cleaning

**FROM LOU GILLY**  
County Extension Agent  
A fireplace-cleaning "blue-print" isn't really necessary for the job, but this one might help:

#### FIRST STEPS

First, spread a plastic dropcloth or newspapers around the hearth to prevent damage to floor or carpeting.

Remove chunks of logs and ashes that have accumulated. Use a wide spatula or scraper to dislodge sooty deposits from the fireplace walls.

#### CHECK CHIMNEY

And while you're down on your hands and knees, it's a good time to take flashlight in hand and check out the condition of the chimney itself. Heavy accumulations of soot and creosote in the flue can cause smoking by restricting the upward movement of gases—and it can result in fires.

Make it a practice to clean

the chimney regularly—once a year if the fireplace gets frequent use. Clean it twice a year if you build a fire every day.

**COMMERCIAL PRODUCTS**  
For cleaning brick and masonry fireplaces there are commercial cleaning products designed to do these jobs. They are made to safely remove grime, grease, smoke, soot and discoloration.

Instructions may differ with each manufacturer, so follow directions carefully if you choose one of the commercial cleaners.

#### 'FROM BOTTOM TO TOP'

In cleaning any vertical (up-and-down direction) surface, clean from the bottom upward to prevent streaking. Clean large areas by working with a small section at a time. Do not let cleaning solutions remain on tile, chrome, copper or brass surfaces, since discoloration may occur.

#### HOMEMADE PRODUCTS

Another method of cleaning the fireplace attacks the problem "from scratch" and does a nice job with homemade products.

Here's how it works: Start by scrubbing the surfaces of brick or stone fireplaces with thick suds of detergent and water applied with a stiff bristle (non-metal) brush.

After rinsing and drying, check for remaining traces of the stain.

In additional cleaning is required, wash the surface with a solution of one gallon of warm water containing one cup of trisodium phosphate and ¼ cup wash detergent. Trisodium phosphate is available from paint and hardware stores and do-it-yourself outlets.

Work the sudsy solution into the brick, stone and masonry surfaces with a stiff bristle brush for five to 10

minutes. Rinse well.

Wear rubber gloves and protective clothing, since the trisodium phosphate can cause skin irritation.

**FIREPLACE ACCESSORIES**  
Take fireplace tools and screens outside and sweep or vacuum them before washing with detergent and water.

Avoid using abrasives such as powder or steel wool on brass, copper or chrome pieces—and don't use other types of cleaners or polishes on these items, either. Any of those products can damage the clear, protective coating they may have to prevent tarnishing. Simply wash them with the detergent-water mix to keep the protective finish intact.

To clean heat-resistant glass doors on some fireplaces, do the job only when they're cool to the touch. Wash them with diluted household ammonia or a commercial window cleaner as

you would any window.

Although this glass is stronger and much more heat-resistant than ordinary

window glass, it is possible to break it through misuse, overheating or improper damper control.

## Rehab Center To Assist Opening Of Christensen Aviation

Chris Christensen, owner of Christensen Aviation in Munday, has announced the grand opening of their new aviation facility at the Munday Airport and has included the West Texas Rehabilitation Center in the festivities.

The open house is set for 7:30 p.m., Saturday, June 27 and will feature entertainment by the Rehab Opry on the Road Show which includes several Nashville recording artists. Appearing on the show will be Tammy Jo, Whitmire,

Fonda Crawford, Stacey Angle, Cindi Hataway, and the Rehab Opry band and singers.

In addition to the concert, visitors will be treated refreshments and see static aircraft displays.

The public is invited and there will be no admission charge.

The whole family is invited to come out and enjoy a great evening of country music and look over the new Christensen Aviation facilities.

## Ed Asner Shares Recipe And Special Project

Spontaneous get-togethers are the Asner family's style of entertaining and cooking. Although Ed's wife, Nancy, is the boss in the kitchen, everybody gets into the act, including Ed, their teenage twins Matthew and Liza, and younger daughter Kate.

"We never plan very far ahead and we usually prepare meals together on the week-ends," says Ed who is kept busy during the week shooting his television series, LOU GRANT.

Ed also enjoys challenging his abilities with other roles in between his tapings. His latest project is the narration of "Lights! Action! Africa!", a one-hour documentary which will air July 1, 8:00-9:00 p.m. ET on the CBS Television Network. The Special program, sponsored by Kraft, takes viewers behind the scenes to witness the magic of capturing some of nature's most incredible creatures on film. Featured are Joan and Alan Root, award winning wildlife photographers based in Kenya. For this husband and wife team, danger, thrills and hair-raising excitement are an everyday way of life.

"This is a special project for me," says Ed. "I'm a great fan of the Roots." Asner belongs to a number of wildlife organizations including the prestigious Audubon Society, Sierra Club and Defenders of Wildlife.

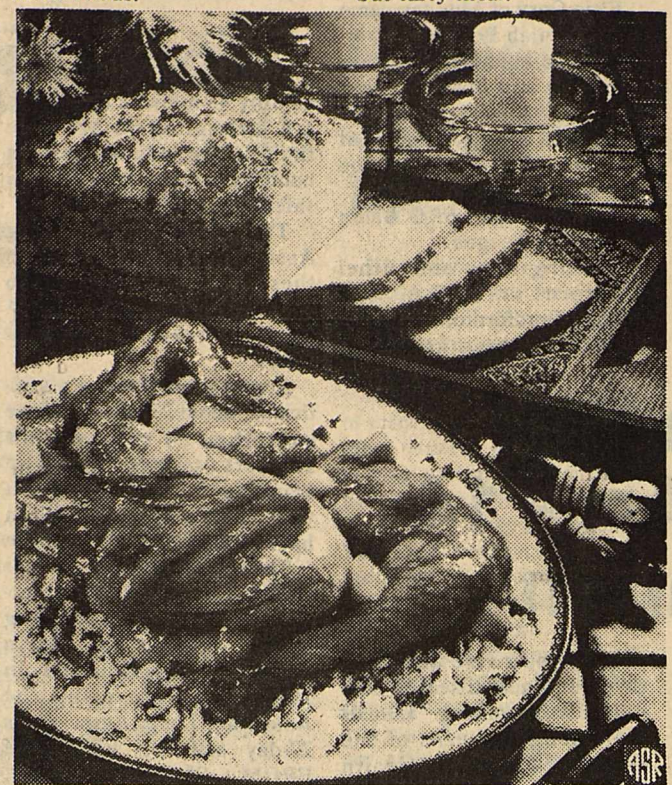

The Asner's three dogs and three cats are the closest the family comes to "wildlife" on a day-to-day basis. However, when on vacation, they enjoy watching for exotic birds and uncommon animals.

"We also make a point of trying to duplicate favorite dishes we've eaten on trips," says Nancy. "The children are especially fond of one which was presented to them by a chef during a vacation in Hawaii."

This Polynesian chicken dish, baked with a sweet papaya sauce or an orange juice variation, is easy to fix and goes well with a number of other foods.

To accompany the Asner favorite, the Kraft Kitchens served Quick Cheese Bread served warm from the oven. Add a tossed salad for a simple but tasty meal.

EDWARD ASNER'S CHICKEN PAPAYA

- |                                        |                            |
|----------------------------------------|----------------------------|
| 1 2-1/2 to 3-lb. broiler-fryer, cut up | 1/2 cup brown packed sugar |
| Salt                                   | 1 tablespoon soy sauce     |
| Pepper                                 | 1 tablespoon lemon juice   |
| 1 cup papaya juice or orange juice     | 1 tablespoon cornstarch    |
|                                        | 1/2 cup papaya chunks      |

Season chicken with salt and pepper; place in lightly greased 11-3/4x7-1/2-inch baking dish. Bake at 350°, 45 minutes. Combine papaya juice, brown sugar, soy sauce and lemon juice in small saucepan. Heat thoroughly, stirring constantly. Remove small amount of sauce from pan; combine with cornstarch, mixing until well blended. Gradually add cornstarch mixture to hot liquid in pan; cook, stirring constantly until mixture boils and thickens. Simmer 3 minutes, stirring constantly. Remove from heat; add papaya. Brush sauce over cooked chicken, continue baking 20 minutes. Serve with remaining sauce.

4 servings.

### QUICK CHEESE BREAD

- |                           |                                                           |
|---------------------------|-----------------------------------------------------------|
| 3-3/4 cups flour          | 2-1/2 cups (10 ozs.) shredded Kraft sharp natural cheddar |
| 5 teaspoons baking powder | 1-1/2 cups milk                                           |
| 1/2 teaspoon salt         | 2 eggs                                                    |
| 1/3 cup Parkay margarine  |                                                           |

Combine dry ingredients. Cut in margarine until mixture resembles coarse crumbs; stir in cheese. Add combined milk and eggs, mixing until just moistened. Spoon into greased 9 x 5-inch loaf pan. Bake at 375°, 1 hour. Remove from pan immediately.

Variation: Add 1/2 teaspoon of dill weed to dry ingredients.

## Superintendent's Views

BY JAMES LANIER  
Superintendent, Haskell ISD

One of those sobering moments to school administrators is when a veteran teacher chooses to retire. All of a sudden, the fact bursts to light that one less steady rock is available. Such a sobering moment occurred to this administration with the retirement of Mrs. Gladys O'Neal.

Mrs. O'Neal has chosen to retire after giving twenty-five years of devoted service to her chosen profession, her school, her community, and the students of Haskell I.S.D. In fact, she taught each of these twenty-five years in the same classroom. Mrs. O'Neal strived all these many years to instill in her students a desire to work and to develop a sense of perfection. She sincerely believed that all students were capable of learning. She emphasized the importance of neatness and the discipline of doing things in a proper way. She tried hard to encourage her students to develop a respect and love for good literature. Mrs. O'Neal was always determined that "her" students were going to learn how to write a good sentence and paragraph. She and I have often laughed over the fact that we were so old fashioned that we believed that students must learn to diagram sentences.

Mrs. O'Neal is probably one of the more talented artists in our town. She not only has a tremendous talent but also has a great love for art. Again, I have often teased her concerning her artistic "temperament". This great love of creative development has caused her to be an inspiration for many students who have developed a strong interest in art and use this media as a hobby. I am sure we can expect Mrs. O'Neal's talent to bloom to its fullest glory now that she has more time and energy to devote to her work. Mrs. O'Neal has been an

inspiration to many students in many ways. Her creativity, her love of literature, her self discipline and even her smallness in size. Many a diminutive boy has come from elementary school and used her as a measuring rod of height development. Many a boy has felt very mature and grown when he could look down upon Mrs. O'Neal.

Mrs. O'Neal's retirement will create a vacuum in our program. She will be missed from the program. This type of teacher which we often refer to as "old heads" cannot be replaced. They have survived the years of low salaries, and poor working conditions. Their work and efforts have made the teaching profession grow. So, we would like to say "thank you, Mrs. O'Neal", for your many years of service and devotion and "good luck" in your retirement. You will be missed at Haskell Junior High.

## STOCK MARKET

The market at Haskell Auction was steady on a run of 2238 head of cattle at its sale June 13, 1981, according to Tommy Clay, reporter.

Butcher calves: choice, 50-55; good, 45-50; standard, 40-45; rannies, 35-40.

Cows: fat, 37-42; cutters, 36-41; canners, 31-36; stockers, 40-45.

Bulls: bologna, 50-55; stockers, 45-50; utility, 45-50.

Stocker Steer Calves: choice, 75-85; good, 70-75; medium, 65-70; common, 60-65.

Stocker Heifer Calves: choice, 55-60; good, 50-55; medium, 45-50; common, 40-45.

Feeder Steer Yearlings: choice, 60-65; good, 55-60; medium, 50-55; common, 45-50.

Feeder Heifer Yearlings: choice, 53-58; good, 48-53; medium, 43-48; common, 38-43.

Cows & Calves: good, 475-575; plain, 400-475.

WE HAVE pencil cups, stackable trays, book-ends, paper clip holders, stamp cubes and telephone files in matching colors. *Haskell Free Press*

## Little League News

BY MARILYN BAHNEY

Contrary to rumors, the Haskell Little League players are not going to strike. Several members reported that they were contacted by representatives of the American and National Leagues. But our dedicated boys, committed to the game and not the money, will continue to play. Seriously, since you baseball fans can't see a good game on TV these days, grab your stadium seats and head to the ball park. Minor league games begin about 5:15; major league, about 6:45.

The home runs reported to me last week were by Michael Rodriguez, Jay Miller and Keith Graham (2) of the Red Horses and Paul Ozuna of the Rams. Coach Bobby Medford commented, "It's difficult to single out one outstanding player because the entire team has greatly improved. All the teams are playing well."

## Circuit Assembly Concludes

Jehovah's witnesses in the local area concluded their semi-annual Circuit Assembly this past weekend at their Arlington Assembly Hall.

Robert E. Hoisington, local congregation spokesman, said "The program was based on the theme 'Fight the Fine Fight of the Faith' taken from the Apostle Paul's words to Timothy, as recorded at 1 Timothy 6:16. We were given Scriptural information to help us appreciate that many of the traits and attitudes displayed by the ancient people of Sodom and Gomorrah are present in today's society, particularly in the field of entertainment. We were aided to see the need to put up a hard fight to adhere to Scriptural standards and how we could do so. This was especially highlighted in Saturday's closing talk entitled 'Why put up a Hard Fight?' based on Jude 3-5. It also brought us great encouragement to see eight new ones symbolize their dedication to God by water baptism."

It was reported that the peak attendance was reached Sunday, as they heard the Public Address entitled "Facing the Future with Faith and Courage", delivered by E. R. Brandt. All 902 in attendance benefited from the faith-strengthening information verifying their Bible-based hope.

**Medical school is accredited for five years**

COLLEGE STATION — Texas A&M University's medical school has received full national accreditation for five years, a period longer than expected and said to be "highly unusual" for a newly established program.

Dr. Charles Samson, acting president of the university, said the organization responsible for such decisions, the Liaison Committee on Medical Education, was originally considering four-year full accreditation for Texas A&M, but the period was ultimately extended to five years.

# Rice Springs News

The residents are liking the summer weather that we have been having. They also enjoyed the nice rains that we had, but were glad that it stopped for the sake of the farmers.

Most of the residents have been feeling quite well. Of course there have been some aches and pains, but nothing real serious.

We have only one resident

to celebrate their birthday this month and that is Artie Bradley, whose birthday was on the 14th of June. We hope she enjoyed her day.

Our residents had a treat on Monday afternoon, June 8th. Little Trece Burson came out and did a dance number, a tap dance number and then did some tumbling exercises for us. The residents certainly enjoyed her and gave her an

invitation to come back any time.

The residents are also enjoying the Sunday morning services that the Independent Baptist Church are presenting each Sunday morning during the month of June.

We appreciated Lena Boedeker of Stamford coming and sharing pictures, mementoes, and telling us all about her trip to eight countries of

Europe.

Our other volunteer people for the past two weeks were Haskell and Paint Creek Methodist women, William Hodges, Martine Jacobsen, Jo Simpson, Maxine Grand, and the Sweet Home Singers.

Our out-of-town visitors for the last two weeks were: Visiting Alvena Holle and Emma Lammert was Lena Boedeker. Also visiting Mrs. Lammert were Mr. and Mrs. Emil Kainer of Bisbee, Arizona. Mrs. J.C. Kainer of Stamford, and Ladain Anderson of Houston.

Visiting Ida Phemister were Frank D. Williams of Harlingen, Mr. and Mrs. Jim Goodwin of Sherman, Lola Tipton of Edinburg, Jenell Morgan of Wichita Falls, Ben McMillin of San Angelo, Stanley McMillin of Andrews, and Mr. and Mrs. Carlos Phemister. The McMillins also visited with A. C. Boggs while they were here.

Mr. and Mrs. Pat Sitton, Carolyn Sitton Coggins, and the James Bigham family, all of Stamford, visited Thelma Gore.

Coming to see A. C. Boggs were Mary Jo Kennady Briggs and Edd Briggs of Clovis New Mexico and H. R. and Flo Cates of Kaufman. The Cates came to the home especially to visit with her mother, Beatrice Livengood.

Visiting Nannie McCaul were Clara Fortune of Pecos, Mr. and Mrs. Everett Simpson, and Ronnie, Kevin, and Kelli Simpson, all of Levelland. Everett Simpson also visited Edna Collins.

Karen Strickland of Breckenridge came to see Edna Collins.

Visiting Harvey Webb were Mr. and Mrs. Clive Parker of Old Glory, Belinda, Kim and T.G. Reed, and Denett and Jennie Tucek, all of Brownwood, and Joe Foster of Stamford.

Grace and Sam West of Lubbock and Truett Rose of Hawley visited Jim and Dutch Cross.

Visiting Texie Perdue and Ellie Cartwright were Bob and Charleen Greene of Stamford, Jeff Wheeler of Lubbock, and Mr. and Mrs. Jack Dozier of Lake Stamford.

Jay and Betty Pumphrey of Fort Worth and Peggy Pumphrey of Dallas visited Jonnye Pumphrey and Elizabeth Yakey.

Visiting Ethel Rose and Charity Bradley was Roland Rose of Abilene. Also visiting

Charity was Alta Stewart of Midland.

Mary Francis Townsend of Abilene visited her mother, Myrtle Gauntt.

Mr. and Mrs. Fred Aycock, Angela and Jennifer, of Abilene, visited A.T. and Mattie Cook.

Visiting Trudie Bush were Recie, Jim, and Missy Bigham of Lubbock, Dollie Via of Oklahoma City, Oklahoma, and James and Jimmy Bilbrey of Abilene.

Visiting Alma Cole were

Ladain Anderson of Houston and Evangelyn Clark and Lisa Mayer, both of Abilene.

Elsie Gary of Munday came to see Beulah Persons.

Visiting Mae Bell Turnbow were Nita and Shawn Leggett of Abilene, Jeff Wheeler of Lubbock, Craig Storey of Wichita Falls, and Joe Hatfield of Moran.

Clara Hodges of O'Brien visited Joe Teague.

Visiting Sam and Ethel Bradford were G.A. and Brenda Bradford of Peacock. That's the news for now.

## Lung Association Offers Manual To Help Smokers

While the nation prepares to celebrate its independence on July 4, millions of citizens are struggling to preserve their independence from a habit harmful to their health, safety and bank accounts.

The North Texas Lung Association offers help to these former smokers who need assistance in maintaining their freedom from cigarettes.

According to federal statisticians, about 27 percent of the more than 54 million adult smokers try to give up smoking during any given year. More than 50 million have succeeded.

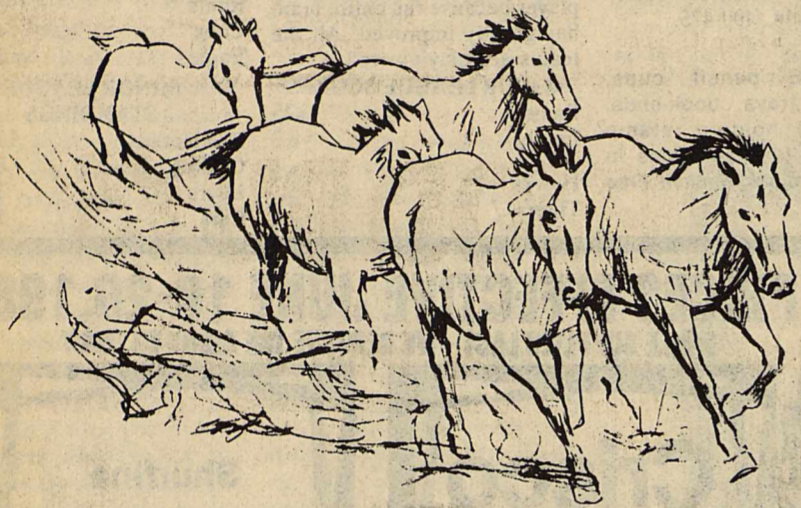

The methods used to quit smoking are almost as numerous as individual smoking habits, reports the North Texas Lung Association. In 1981, many are using the American Lung Association's 20-day self-help FREEDOM FROM SMOKING plan. Others quit cold turkey, or by

hypnosis. For some, the group support of a quit-clinic or individual counseling is helpful.

Whatever the method, most smokers find it easier to get off cigarettes than to stay off. The ALA's manual: "A Lifetime of Freedom from Smoking" teaches recent smokers to become nonsmokers by spending 20 minutes a day in a series of activities and self rewards designed to maintain the nonsmoking habit. It helps the individual anticipate situations likely to produce strong cravings for a cigarette—and then to find nonsmoking ways of dealing with them.

Information about the self-help nonsmoking maintenance manual, and the original 20-day FREEDOM FROM SMOKING quitting plan, is available from the North Texas Lung Association. A donation of \$5.00 is requested.

## DON'T LET YOUR ELECTRIC BILL STAMPEDE THIS SUMMER...

### HORSE-SENSE Tips to help you to pull in the reins on your Summer Electric Bill—

Don't overcool. Keep your thermostat at the highest comfortable temperature — about 78°.

Check your filter every month. A dirty filter clogged with dust and lint reduces the cooling ability of your unit.

Keep drapes closed and outside door openings to a minimum to keep the cool air in, heat out.

Proper insulation helps to keep out heat in the summer. Your insulation supplier can help you check and choose the right amount of insulation needed.

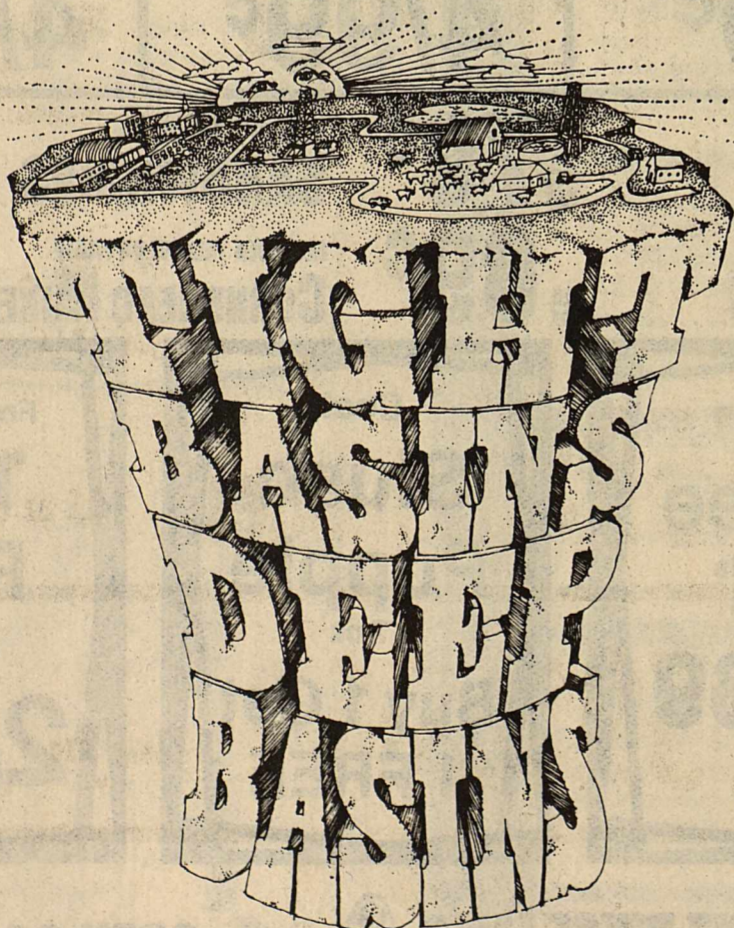

WEST TEXAS UTILITIES COMPANY

A Member of The Central and South West System

Remember, Reddy Supplies the Energy, only you can use it wisely!

## Why gas is plentiful:

### Two New Sources

There's enough natural gas in proven and existing reserves to heat America's homes and run its factories for many years. And now gas is flowing in enormous volumes from two new sources: the tight basins and the deep basins right here in Texas and Oklahoma. Experts

believe each of these sources could double the nation's proven supply. And our pipeline system will let us deliver your share of this gas efficiently and economically. It's another reason to be glad you're served by the Lone Star system.

Gas. It's plentiful, efficient and right for the times.

Lone Star Gas Company

## Dr. Allen Bolt Named Area 14 Veterinarian

Dr. Allen J. Bolt has been named area 14 veterinarian for the Texas Animal Health Commission.

Headquarters of area 14 is Paducah, and it includes these counties: Archer, Baylor, Callahan, Childress, Cottle, Dickens, Eastland, Foard, Hall, Hardeman, Haskell, Jones, Kent, King, Knox, Motley, Shackelford, Stephens, Stonewall, Taylor, Throckmorton, Wichita, Wilbarger and Young.

Dr. Bolt is a native of Paducah. He graduated from Guthrie High School, and attended South Plains Junior College in Levelland for two years. He received his veterinary degree from Texas A&M University in 1977.

Dr. Bolt was in private practice in Paducah and Guthrie for four years. He also taught science in Guthrie High School. He is married, and he and his wife have a one-year-old daughter.

The Texas Animal Health Commission is one of the oldest state agencies being created by the Legislature in 1893. Its primary function is to control and eradicate animal and poultry diseases which are dangerous and communicable to other animals and in some cases to humans.

Brucellosis, scabies, screw-worm eradication, fever ticks,

poultry and swine diseases, sheep and goat diseases, and tuberculosis among animals are among concerns of the Texas Animal Health Commission.

BIG COUNTRY SAVINGS

Stamford, Haskell, Quanah and 1800 South Clark, Abilene. (Formerly First Federal of Stamford)

This is an annual yield. The rate is subject to change at maturity. And federal regulations prohibit the compounding of interest during the term of the account. Substantial penalty for early withdrawal.

Vitavax-200 Treated

Untreated

## Better Roots Are Vital To Higher Yields

Bronco Seed Company's custom conditioning plant assures wheat growers of pure quality seed. And, since quality seed must be combined with a quality seed treatment, we are now offering Vitavax®-200, the leading seed treatment in the United States today.

When your wheat seed and seedlings encounter hot, dry stress conditions, a loss in stand and yield often occurs. Vitavax-200 treated plants normally emerge faster, and the wheat usually develops more extensive root systems and larger crowns. This allows the plant to take up more nutrients and moisture, usually resulting in higher yields.

You will be able to graze your cattle earlier\* since Vitavax-200 treated wheat normally emerges faster and shows more vigorous growth. In various tests, Vitavax-200 has resulted in additional foliage "top growth" when compared to another seed treatment, sometimes as much as a 180% increase. And, since Vitavax-200 treated plants have exhibited a superior root development over untreated wheat, the grazing cattle are less likely to pull the entire plant out of the ground.

Vitavax-200 is a true systemic fungicide. This means that during swelling and germination, Vitavax penetrates the seed coat and translocates into the roots and plant to give you long lasting disease protection. Vitavax-200 protects your yields against losses from true loose smut, plus common bunt, flug smut, seed rots and seedling diseases.

Tests conducted in several major grain growing states indicated that Vitavax-200 treated seed outyielded seed treated with another seed treatment by a big 4.2 bushels per acre. If wheat is selling for \$4.00 per bushel, this 4.2 bushel per acre increase with Vitavax-200 represents a theoretical return-on-investment of \$16.80 an acre.

This year, have Bronco Seed Company treat all your wheat with Vitavax-200 for better yields and higher profits.

**Bronco Seed Co.**

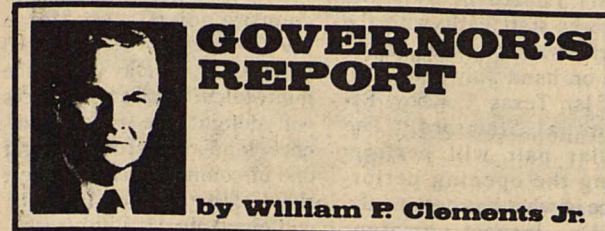

Box 789, Airport Plant, Stamford, Texas 79553 (915) 773-2741

Vitavax is a Reg. TM of Uniroyal Chemical, a division of Uniroyal, Inc.

\*In accordance with the Vitavax-200 federal label, do not graze or feed livestock on treated areas for six weeks after planting.

## GOVERNOR'S REPORT

by William F. Clements Jr.

We are moving forward full speed with a plan to relieve the problem of over-crowding in the Texas prison system.

Through a new conditional parole program utilizing existing halfway houses and a temporary tent encampment within the perimeter of prison security areas, we will be able to get 3,000 inmates who now sleep on Department of Corrections floors into more-comfortable facilities by July 1.

Our plan is responsive to the order of Federal District Judge William Wayne Justice to eliminate triple-celling of inmates by August.

Attorney General Mark White is seeking a stay of Judge Justice's far-reaching decision with regard to the Texas prison system, many aspects of which we strongly disagree with. We do agree, however, that over-crowding must be eliminated promptly.

Hopefully, 750 inmates will be paroled to halfway houses by June 1 and another 750 by July 1. Meanwhile, I have recommended \$16 million be appropriated for intensively-supervised halfway houses during the next biennium.

Board of Pardons and Paroles contracts with halfway houses and individual parolee contracts will be drawn tightly to insure protection of law-abiding citizens, restitution to victims of crimes and minimum cost to taxpayers.

A supplemental grant of \$1.25 million from the Governor's Office of General Counsel and Criminal Justice to the Board of Pardons and Paroles permits immediate placement of conditional parolees in halfway houses. Inmates will receive the highest degree of supervision to assure protection of the public. Initial conditional parolees have been identified and are being processed to halfway houses with advice of local judges, prosecutors and sheriffs.

Meanwhile, we are obtaining military tents from the Texas National Guard to house another 1500 low risk inmates temporarily within prison unit security areas. July 1 is our goal for this relocation. The tents, which have been used by our loyal servicemen in the field, will certainly be a preferred alternative to triple-celling of inmates during a brief, five-months period.

The Legislature already has approved my emergency request for a \$35 million appropriation to construct additional permanent housing for inmates. When this construction is completed November 1, inmates who have spent the summer and early fall in the tent encampments will be transferred to the new quarters.

Texas Department of Corrections is studying possible purchase of the Harris County Rehabilitation Center or building new facilities on state land to expand work furlough programs under my \$18 million appropriations request. We have also increased funding for adult probation programs.

The TDC construction program for the 1982-83 biennium will provide 10,800 additional permanent bed spaces by August 31, 1983.

I am encouraged, based on my meeting with U.S. Attorney General William French Smith, that the Reagan Administration is re-examining its position in the lawsuit involving the Texas prison system. I am increasingly hopeful of a stay on appeal of the Ruiz v. Estelle suit.

We are, indeed, in a crisis situation, however—one which could cost the state billions of dollars.

I am confident the programs I have set out will eliminate the problem of inmates sleeping on floors by July 1, without need for wholesale release to homes via an inadequately-supervised work furlough arrangement.

All of this has been undertaken in good faith and with integrity to alleviate the situation in our prisons. I believe that Judge Justice will be pleased with our efforts.

## Pesticide Selection Important

Before deciding on what insecticide to use for controlling pests in your vegetable garden, you must first identify the pest.

Pesticides are often limited in insect control because they may control one group of insects extremely well while being totally ineffective in controlling others, says Max Stapleton, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

Three pesticides currently are used widely by gardeners—carbaryl (Sevin), diazinon and malathion. Although they are effective against a wide range of chewing and sucking insects, each has limitations, Stapleton notes. For instance, Sevin does not control spider mites and malathion is not recommended for soil insect control.

Gardeners should exercise caution when using broad-spectrum insecticides because these chemicals can adversely affect non-target, beneficial insects such as honeybees, lady bird beetles and praying mantis, Stapleton explains. When beneficial insects are destroyed, the possibility of increased pesticide use is greatly enhanced.

A pesticide with a narrow host range should be used when possible, says Stapleton. An example of such a type of pesticide is the microbial insecticide, Bacillus thuringiensis, more commonly called B.T. It is designed to control cabbage loopers, armyworms, hornworms and several other larvae. B.T., sold under such names as Dipel, Thuricide and Biotrol, is effective, safe to use, does not harm beneficial insects, and does not require a waiting period before vegetables can be eaten.

Another specific pesticide in garden use is Kelthane. It's excellent for controlling spider mites and does not harm beneficial insects.

Stapleton notes that the best bet for the gardener in doubt about pest control is to read the product label, for it provides information about the pesticide and the insects it controls.

NELSON REVISED Standard Version Bibles. Featuring red letters, full color pictures and maps, dictionary, concordance, study helps, presentation page, family record and thumb indexes. Available at the *Haskell Free Press*

Schaake Tuesday night then after supper enjoyed playing games.

Week-end visitors in the home of Mr. and Mrs. Willie Tredemeyer were their children, Mr. and Mrs. Buddy Tredemeyer of Sweetwater, Mr. and Mrs. Larry Letz, Pam and Steven of Abilene, Mary, Todd and Jill of Haskell, other visitors were Mr. and Mrs. Milton Schmidt of Austin, Weldon Tredemeyer, Buck McBay, David Lane all of Leander, who were all here for the Tredemeyer family reunion. Mr. and Mrs. C.R. Bray of Monroe, Louisiana also visited in the Tredemeyer home. Other visitors were Sylvia Tiemann, Mr. and Mrs. Jerry Tiemann and Justin of Austin.

Visitors in the home of Mrs. Lillie Lehmann were Mr. and Mrs. Edgar Schmidt of Austin, Mr. and Mrs. Jerry Tiemann and son also of

Austin and Mrs. Sylvia Tiemann and Milton Schmidt. The group visited their aunt Mrs. Alvina Holle in the Rice Springs Care Home in Haskell on Sunday.

Mrs. Richard Peterson and boys of Brownwood visited with her parents Mr. and Mrs. David Letz over the week-end. Mrs. Davy Letz and April of Abilene also visited the Lets.

Mr. and Mrs. Arthur Knipling, Erna and Walter Schaake, enjoyed playing 84 in the home of Mr. and Mrs. Alfred Hertel Saturday night.

Mr. Clarence Stegemoeller, Ladain Anderson of Houston, and Mr. and Mrs. Arthur Knipling played 84 in the home of Mr. and Mrs. Alfred Hertel Sunday night.

Mr. and Mrs. Alvin Bredthauer, Mr. and Mrs. Arthur Knipling, Erna and Walter Schaake of Stamford, Clarence Stegemoeller, Ladain Anderson of Houston,

and Lena Schaake, played 84 and Pinochle in the home of Mrs. Henrietta Stegemoeller Friday night.

The Bredthauer family had their monthly get-together in the home of Mr. and Mrs. Alfred Bredthauer in Stamford Sunday. Those who attended were Mr. and Mrs. Ernest Bredthauer of Rule, Mr. and Mrs. Alvin Bredthauer. In the afternoon a game of 84 was enjoyed played.

Lillian Neinaast and Mrs. Bertha Vasek went to get Mrs. Emma Lammert of Rice Springs Care Home to take her to eat lunch in the home of Mrs. Lena Boedecker in Stamford Sunday. Mrs. Boedecker showed some pictures that she took while in Germany and other parts of Europe.

Mrs. Johnny Havins of Rockdale is visiting with her mother Bertha Vasek. Mrs. M.Y. Benton has gone

to visit a granddaughter in San Angelo for a week.

Mrs. John L. Brooks entered the Hendricks Hospital in Abilene for eye surgery which will be tomorrow.

The park mowers met Wednesday afternoon of last week to mow and clean up the city park. Those working were: Mr. and Mrs. Joe Swofford, Billie Kupatt, Mrs. J. B. Toney and Bruce, Mrs. Leon Stegemoeller, Cole Bivins and Mr. and Mrs. Joe Clark.

Several families from Sagerton attended the August Tredemeyer family reunion, Saturday afternoon at the Son of Hermann Hall near Old Glory. Contest games, horse shoes and volley ball was enjoyed by approximately 75 people who came from Houston, Austin, Leander, Geronimo, Lubbock, Sweetwater, Stephenville, Abilene, Haskell, Stamford,

Old Glory and Sagerton. New officers elected for the next year were: Johnny Baitz, president; Clayton Stegemoeller, vice president; and Tami Baitz, secretary-treasurer.

The next reunion will be held on the second Saturday in July of 1982.

Mr. and Mrs. Mike Lovvorn of Houston were recognized as the people coming the farthest distance, and Bill Diers of Stamford was the eldest descendent present. He is the son of the late Mr. and Mrs. Fritz Diers. His mother Johanna, was the daughter of August and Helena Tredemeyer.

Phillip Clark of Geronimo has returned to his home after visiting in the Joe Clark home and the Herman Hearn's of Rochester. He is the son of Mr. and Mrs. Roy Clark and grandson of the Hearn's and Joe Clarks.

By Robert L. Haney  
TAES Science Writer

Weeds can be just as big a problem to the spare-time home gardener in Texas as they are to commercial producers of vegetables, according to Dr. Sam Cotner, State Horticulturist with the Texas Agricultural Extension Service.

"Weeds, whether growing in a commercial field or in a backyard garden, not only compete with the desirable plants for water, fertility, sunlight, and air," Cotner says, "but can also harbor many different types of insects, as well as numerous plant diseases."

Experimental gardeners are aware of the time-tested and proven methods of weed control, which include hoeing and mulching.

For many gardeners, hand hoeing is still the best answer to controlling troublesome and pesky weeds. It is inexpensive, obviously selective, very accurate, effective, and for some, even enjoyable.

It is obvious that exercise is also involved, which is one of the added rewards of growing vegetables at home. However, many gardeners simply don't have time to spend hoeing weeds in their vegetable gardens.

Mulching around existing garden vegetables helps control weeds and grasses by keeping light away from the seedlings and providing a mechanical barrier to their emergence. Weeds that do come through the mulch can easily be spotted and removed by pulling.

Mulches that can be utilized by gardeners include compost, straw, leaves, hay, sawdust, wood shavings, bark, newspaper, and plastic sheeting. Mulches applied during mid-summer or early fall have a tendency to cool the soil which is an added advantage.

Herbicides are another weed-control alternative of growing popularity. Although most present herbicides have limited use in vegetable home gardens, research now underway by the Texas Agricultural Experiment Station is expected to result in new advances and wider use of herbicides in the home garden, as well as by the commercial producer.

While herbicides work well in single crop situations and are widely used in commercial agriculture it is difficult to use

them where a wide assortment of vegetables occupy a rather limited space, such as in a garden.

Most herbicides are selective which means that they will work well for weed control in some crops but may damage more sensitive vegetable crops.

There is also the problem of applying small amounts of the chemical evenly to a garden surface. Misapplication or mis-calibration of equipment can cause overtreatment, with resultant problems of chemical residue.

Dacthal, a herbicide currently available under various trade names, can give satisfactory garden-weed control, if used as directed.

Dacthal is generally applied, Cotner says, to the surface of well-tilled garden soil, after planting or transplanting. It is effective in preventing germination and emergence of a large number of weeds and grasses.

If used according to directions, Dacthal will effectively control a number of weed and grass species, for up to 2 or 3 months. But Cotner cautions that if Dacthal is to be used for weed control in gardens, make sure that the label states that it can be used around the vegetables you intend to plant in the garden.

One plan that he says works well on larger gardens, is the grouping in one area of the garden of vegetables which have a tolerance to Dacthal so the herbicide can be used to control weeds in that area. But be prepared to use a long-handled hoe in untreated areas of the garden.

Perhaps the best chemical weed control now available to the home gardener is a pre-plant treatment with Vapam. Vapam can be used in home gardens to rid them of weeds as well as nematodes and several types of fungi.

Since it is a soil sterilant, it must be applied to a totally bare garden soil. Vapam can be easily applied to "well-worked-up" garden soil, using a commonly available, hose-on-type sprayer.

After applying the chemical at the recommended rate, water the garden surface enough to soak the chemical well into the soil.

Water the garden enough during the next few days to soak the surface. This acts as a water seal and prevents chem-

ical loss to the atmosphere. On sandy soils, Cotner says, the Vapam treatment can be made more effective if the garden is covered with plastic sheeting, immediately after applying the chemical.

Vapam works extremely well but has the disadvantage that it must be applied several weeks prior to planting, to allow the chemical to completely dissipate in the soil.

It also does best if applied when soil temperatures are above 55°F. Consequently, best results are obtained when Vapam is applied during late summer or early fall, in anticipation of a relatively weed-and-disease-free fall garden.

Cotner says Vapam will greatly reduce weed and dis-

ease problems in the garden for 9 to 12 months if it is applied by the recommended methods, at the proper rate.

Weeds are one of the biggest obstacles to home gardeners in Texas who want a productive and economical garden. But by judiciously using a mix of a long-handled hoe, a good mulching program, and approved and recommended chemicals, gardeners in Texas can make home gardening both enjoyable and profitable.

## Texas Troubled By Fleas

Fleas seem to be making it big in Texas. Over the last five to seven years, fleas seem to have become more and more of a problem, particularly in urban and suburban areas.

Cat fleas which infest dogs or cats and readily attack humans are the most common, says an urban entomologist with the Texas Agricultural Extension Service, Texas A&M University System.

Flea bites are extremely annoying and generally become increasingly sore and irritated over a period of a week or more, explains Dr. John M. Owens. Fleas most often bite people about the legs and ankles.

A small red spot with light colored center appears where the mouthparts of the adult fleas enters the skin. Applying cooling preparations such as carbolated vaseline, menthol, camphor, calamine lotion or ice will help relieve itching. Severe allergic reactions or infections should be treated promptly by a physician.

Although fleas can transmit bubonic plague and murine typhus, these diseases are rare.

How do you control irritating pests?

Flea control must include treatment of the pets and thorough treatment of the entire premises—indoors and outdoors. These three areas should be treated simultaneously to break the "flea cycle" and get effective control, emphasizes the entomologist.

Insecticides containing (Sevin), dichlorvos (DDVP),

pyrethrin, rotenone, malathion, methoxychlor or propoxur (Baygon or Sendran) are labeled for use on animals. Dusts or powders are generally preferred over sprays for treating pets and should be used at three to four-day intervals when infestations are heavy.

Rub the dust into the animal's fur by hand. Be especially thorough around ears, between legs and around the tail. Try to avoid getting dust in the eyes, mouth and nostrils. Flea collars which contain propoxur appear to be superior to those which only contain dichlorvos. Be sure to read the label before using any of these products and consult a veterinarian if questions arise.

Spray all infested outdoor areas such as the yard, porches, garages and outbuildings with chlorpyrifos (Dursban), diazion, propoxur or cabaryl. Be sure to treat areas used by pets, and let the spray dry before pets or children are allowed to use treated areas, says Owens. Repeat the spray at two-week intervals until fleas are controlled.

Inside the home, begin control measures with thorough cleaning. Vacuum all floors and upholstery and dispose of sweepings immediately to prevent flea escape and subsequent reinfestation. Also, launder all pet bedding.

Apply an insecticide spray of chlorpyrifos (such as Rid-A-Bug) to all floor areas, under and around upholstery cushions, and to pet bedding

## Haskell County Happenings

### Play Day Set In Stamford

Stamford Jr. Sheriff's Posse is having a Jackpot Play Day Sunday, June 21st at 2:00 p.m. at the Sheriff's Posse Arena. Everyone is invited. There will be six events and five age groups.

### VBS Scheduled In Rule

Vacation Bible School at the United Methodist Church in Rule will be held Monday thru Thursday, June 22-25. The sessions will be from 1:30 to 3:30 p.m. Three age groups will hold classes: kindergarten, 1st and 2nd grades, and 3rd and 4th grades. The school is opened to all interested persons in the community.

### Bake Sale Slated In Rule

The Rule and Sagerton United Methodist Youth Fellowship will hold a bake sale Saturday, June 20th at 9:00 a.m. in front of Village Primitive in Rule. All proceeds are for an upcoming trip to Six Flags.

## Haggar Twins To Open 51st TCR

This Fourth of July the fireworks start early with the Hager Twins of "Hee Haw" fame on hand July 1 to open the 51st Texas Cowboy Reunion in Stamford. The popular pair will perform during the opening performance of what has become the world's largest amateur rodeo.

Eugene Swenson, President of the Texas Cowboy Reunion stated, "We feel very fortunate to have Jim and Jon to kick-off our 51st Reunion, as they have gained prominence in the entertainment field through their ten years with the popular "Hee Haw" series which is seen by over 40 million viewers each week.

Thursday night popular country songstress Margo Smith will be the featured entertainer. Friday night the multi-talented Cates Sisters will delight the rodeo audience, and on Saturday night one of country music's fastest rising quartets, the Capitols, will entertain.

Activities for the 51st Texas Cowboy Reunion begin Tuesday, June 30, with the Annual American Quarter Horse Show, the Eighth Annual Western Art Collector's Preview, and a new event the Rehab Quarter Horse Classic.

For more information contact the Stamford Chamber of Commerce.

## College News

Lisa Ann Goss graduated from Hardin-Simmons University, Abilene, during the school's annual commencement exercises held May 9 at 10 a.m.

Goss received a Bachelor of Education degree. She is the wife of Rodney Goss, 906 N. Ave. M, Haskell.

Hardin-Simmons is a multi-purpose university affiliated with the Baptist General Convention of Texas. It recently celebrated its 90th birthday as the oldest liberal arts institution in Abilene.

Randy Glen Darden graduated from Hardin-Simmons University, Abilene, during the school's annual commencement exercises held May 9 at 10 a.m.

Darden received a Bachelor of Business Administration degree. He is the son of Mr. and Mrs. Glen Darden, 918 N. Sixth St., Haskell.

Also spray moldings, baseboards and draperies to a height of one foot above floor level. Try to avoid further vacuuming and cleaning for 10-14 days after treatment.

While this insecticide should give three to four weeks of effective residual indoors, it will not rapidly knock down adult fleas. In conjunction with the residual spray indoors, homeowners might also use a non-residual insecticide applied as a

total-release aerosol or fogger, suggests the entomologist. Products containing pyrethrins, resmethrin (SBP-1382) and dichlorvos are available to provide quick relief from indoor fleas. Again, be sure to read and follow all label directions and precautions with these products.

One final place which may require insecticide treatment is the family car especially if your pet is a frequent rider, adds Owens.

## Stenholm Receiving Service Academy Applications

Congressman Charles W. Stenholm reminds young persons that he is presently receiving applications from young persons interested in competing for nominations to the service academies, for the classes entering July 1982. Stenholm advises that he will be using the competitive method of selection, so that all young persons meeting the necessary requirements may be considered.

The service academies are the Naval Academy at Annapolis, Maryland; the Military Academy at West Point, New York; the Air Force Academy near Colorado Springs, Colorado; the Merchant Marine Academy at Kings Point, New York; and the Coast Guard Academy in New London, Connecticut. These institutions offer an excellent education and a great opportunity for young persons wishing to serve their country through a military career.

In order for congressman Stenholm to consider applicants, a candidate must meet these requirements: (1) must be a U. S. citizen; (2) must be over 17 and under 22 years of

age on July 1, 1982; (3) must be a legal resident of the 17th Congressional District; (4) must never have been married; (5) must be physically fit, including excellent eyesight; (6) must have a good overall high school record.

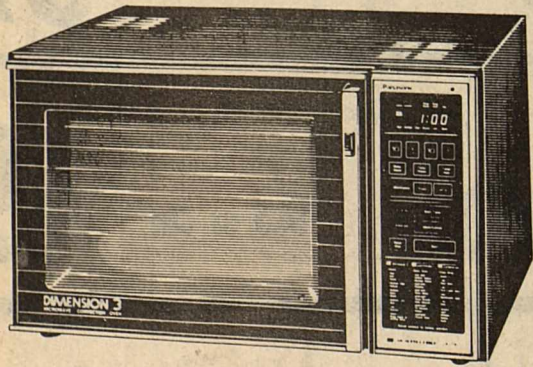

Stenholm stresses that political influence is not a factor in his nominations to the Academies. He is looking for bright, active, well-rounded individuals to offer as nominations.

Interested young persons who meet the above requirements should write to Congressman Charles W. Stenholm, House of Representatives, Washington, D.C. 20515, by August 31. Upon receipt of a letter of interest, the Congressman will provide information as to further steps which should be taken. Young persons should make arrangements on their own to take ACT or SAT examinations.

The competition for these nominations is keen, but Congressman Stenholm wants to assure all young persons interested in a military career that they will be given an equal opportunity to compete for nomination.

## Therwhanger To Run Track At Angelo State

Angelo State University track and field coach David Noble has announced the signing of two schoolboy and one junior college athlete to letters of intent to attend ASU and run track for the Rams next season.

Francis Perkins, a 6-3 sprinter from Seymour, Kerry Therwhanger, a long jumper and intermediate hurdler from Haskell, and Kevin Nance, a multiple event performer from Wharton Junior College, have signed agreements with Angelo State.

Perkins has run bests of 10.3 in the 100 meters and 21.1 in the 200 meters. He was runnerup in the state Class 2A 200 meter dash finals this season.

"He is one of the top young sprinting prospects in the state this year," said Ram coach Noble.

Therwhanger was fourth in the Class 2A long jump this year and has a best of 23-4 in the event.

"He also has great potential in the intermediate hurdles," said Noble.

Nance is an all-around athlete who participates in three field events and most of the short distance races. He has a best of 21.3 at 200 meters and 47.5 at 400 meters. He also participates in the high jump, long jump and triple jump.

Nance ran his schoolboy track at Gregory-Portland.

## Funny or Unfunny

FRAUD FEVER. Fraud against the U.S. government has reached epidemic proportions, and no easy solution is in sight. A recent General Accounting Office (GAO) report found that more than 35,000 people defraud the government each year, costing hundreds of millions of dollars.

Thirty percent of the cases investigated by the GAO involved government workers, and 18 percent were recipients of federal aid. One official said that 30 percent were cases "where we just can't tell who did it."

Out of the more than 12,000 cases reported to federal prosecutors, only 4,300 went to court. The results of the report will be analyzed by officials who hope to reduce the incidence of crime against the government.

The results of such studies can be discouraging, however, as the Department of Energy (DOE) found recently. The DOE is suffering from thousands of dollars in losses from stolen typewriters, despite a security system which costs nearly \$1 million annually. Credit Spotlight

## Robert Stiewert

Funeral services for Robert W. Stiewert, 69, Haskell were held Saturday, June 13 at the Trinity Lutheran Church with the Rev. Harvey Faltisek, pastor, officiating. Burial was in Willow Cemetery under the directions of Holden-McCauley Funeral Home.

Mr. Stiewert died Thursday, June 11 at the Haskell Memorial Hospital.

Born June 25, 1911 in Carmine, he moved to Haskell in 1947 from Carmine. He married Martha Emily Kretschmer on July 2, 1947 in Haskell. He was in the US Army in WW II. He was a farmer and a member of the Trinity Lutheran Church and the VFW.

Survivors include: his wife; two neices and two nephews. He was preceded in death by his parents, two brothers and two sisters.

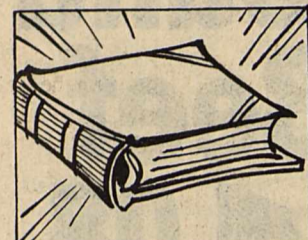

Pallbearers were nephews.

Funeral Home. The Rev. Mike McKinney, pastor of the First Baptist Church of Haskell, officiated.

Mr. Barton died Friday June 5 in Pittsburg, California.

Mr. Barton was born July 8, 1914 in Weinert. He grew up in Weinert and Haskell and had been in California since WW II. He was in the WW II US Marines and was owner and operator of The Steak House.

Survivors include: one son, Tim Barton of El Paso; one daughter, Sherry Barton of Nevada; one sister, Mrs. John Sparkman, Jr. of Haskell; two grandchildren; and several neices and nephews.

New officers of the Haskell Lions Club were installed last week during the annual Ladies Night. The new officers include, l to r, Dusty Garrison, Tall Twister; Lee Bahney, Secretary; Brian Burgess, Retiring President; Mike Struve, Song Leader; Joe Alves, President; and Marty Jacobsen, Second Vice President.

# VA Benefits To Increase In June

Many veterans and their widows and children will be entitled to increases in their Veterans Administration pension benefits effective June 1, 1981, according to C. H. Herren, Veterans Service Officer for Haskell County.

Those entitled to the increases in benefits are the persons who previously elected to change from one of the older VA pension laws to the new pension law which came into effect January 1, 1979, or who have become entitled to benefits since that date. Persons who continue to receive benefits under one of the older pension laws will not be eligible for any increase in their payments.

Under the new pension law, veterans and others who are on the VA rolls June 1, 1981, will be entitled to an increase of 11.2%, the same percentage of increase that will be applied to Social Security benefit payments. When benefits under Social Security are increased, which now occurs June 1 of each year, the Veterans Administration new pension law veterans, widows and

dependent children see their pension payments increase by the same percentage as is applied to the Social Security. A recent announcement indicates that the June 1, 1981 Social Security increase will be 11.2%.

Persons in receipt of new law pension from the VA will receive their increases automatically on the checks to be delivered July 1, 1981. They will not have to apply to the VA for these increases in benefits, as they are automatic.

Persons still receiving benefits under one of the older VA laws may change to the new law if it is to their advantage. All such cases should seek competent counseling from their Veterans Service Officer before making any decision concerning the change, since many people would receive less benefits under the new law.

## College News

J. Edward Harris received a D.D.S. degree from the University of Texas Dental Branch during graduation exercises Saturday, June 13. The Dental Branch is a component of the UT Health Science Center here.

Harris is the son of Mr. and Mrs. Leon D. Harris of Haskell.

John W. Cox of Haskell received an undergraduate degree in accounting at Texas A&M University's spring commencement exercises.

Joseph E. Brass from Rule received an undergraduate degree in aerospace engineering with the honor Magna Cum Laude at Texas A&M University's spring commencement exercises.

A total of 3,046 degrees were awarded, including 2,676 undergraduates, 283 master's and 87 doctorates.

## Both spouses make homebuying decision

COLLEGE STATION — Old ideas about husband-and-wife homebuying behavior is falling by the wayside as new research reveals modern couples are sharing the decision on which home to buy.

In a report to the Texas Real Estate Research Center at Texas A&M University, Dr. Stan Madden says the notion one spouse makes the homebuying decision is outdated.

"It was once believed that one spouse was dominant in the decision-making process, and the other was willing to go along with the dominant spouse's decision," said Madden, an assistant professor of marketing. "But recent research indicates more persons are willing to discard any alternative not acceptable to both spouses."

# Art Foundation Sale, Preview Set June 30

A Collector's Preview featuring the works of thirty six of the top western artists in the nation is set for June 30 on the eve of the 51st annual Texas Cowboy Reunion in Stamford.

Presented by the Stamford Art Foundation as a benefit for the West Texas Rehabilitation Center the eighth annual Western Art Exhibit and Sale will feature the multi-media works of the following artists:

MADE IN THE U.S.A.: THE NEWEST INDY 500 CHALLENGER —Circling the Indianapolis Speedway at more than 190 mph: this brand new AAR Eagle car, the Pepsi Challenger, built by racing great, Dan Gurney. Built in Santa Ana, CA, the vehicle is one of only a handful of 1981 Indy vehicles to use an American stock block engine. It is driven this year by Champ car veteran, Mike Mosley, who completes the "All American" Pepsi team.

Wayne Baize, Dan Bodelson, Jodie Boren, Bill Chappell, Jimmy Cox, Nicholas Firfires, Terry Gilbreth, Martin Grelle, David Halbach, Jim Hamilton, Lee Hamilton, Alan Kinney, Melissa Kohout, Bob Lee, Frank Liljegren, Ted Long, Clay McGaughy, Grant Macdonald, George B. Marks, Vel Miller, Gary Myers, Scott Myers, Tom Ryan, Betty Sabo, David Sanders, Bill Shaddix, Ron Stewart, Jack Swanson, Paul Tadlock, Ronald Thomason, Russ Vickers, Juan Dell Wade, Herman Walker, Patricia Warren, Don Yandell, and H. C. Zachry.

The Collector's Preview is set for 6:30 p.m. with sales to begin at 7:30 p.m. in the John Selmon Memorial Gallery on the Texas Cowboy Reunion Grounds. Tickets for the Preview on June 30 are priced at \$20 per person and include a chuckwagon dinner. Tickets will be available at the door with those wishing to attend asked to make reservations by calling 773-3614 in Stamford.

The exhibit will open to the public July 1 and remain open throughout the Texas Cowboy Reunion. Admittance to the public is a \$1 donation to the West Texas Rehabilitation Center.

# STATEMENT OF SUPPORT

We the people of Haskell County and taxpayers, want to express our thoughts and stand up for Judge John McDermott and what he represents. We, the undersigned, feel Judge McDermott should not be put out of office because he is ill.

## Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas effective July 21, 1981, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 15.8 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas.

### Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs.

## Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 21 de Julio de 1981, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 15.8 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública.

### Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio también afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell.
