

Haskell County Oil Production Over 1 Million Bbls.

Despite a ninth consecutive year of maximum production schedules (the maximum efficient recovery rate) in nearly all of Texas' fields, the state's annual output of crude oil and condensate last year fell below the one-billion barrel mark for the first time since 1965. Moreover, a downward production trend continued for the eighth consecutive year since Texas' output peaked in 1972.

The total of 960-million barrels included more than 931-million barrels of crude oil. Also produced was 29-million barrels of condensate, according to figures compiled by Texas Mid-Continent Oil & Gas Association.

Last year's production level showed a drop of more than 46.5-million barrels from 1979 output and was more than 330-million barrels below 1972 production of almost 1.3-billion barrels. Nevertheless, production in 1980 pushed the all-time cumulative total since 1889 to almost 45.7-billion barrels of crude oil and condensate.

Edwin L. Cox, president of the Dallas-based Association, noted that despite the drop in output there is a very encouraging trend in one aspect of industry activity: Since President Carter began a gradual phaseout of crude oil price controls on June 1, 1979, a phaseout accelerated by President Reagan, the number of wells drilled in Texas has skyrocketed.

Last year's total of 18,697 wells completed was the largest number since 1957, Cox noted. This compares with 16,149 drilled in 1979 and only 7,728 drilled a decade ago in 1971. At that time, the average price of U.S. crude oil was \$3.48.

"Although exploration costs continue to increase, the industry is committed to a policy of intensive drilling in Texas. It is hoped that successes with these wells will help offset further production declines this year and in the future," Cox said.

Haskell County, which has had recorded production since 1929, last year produced 1,411,542 barrels of crude oil and condensate at the rate of 3,857 barrels per day. Production in 1980 boosted Haskell County's production total through the end of the year to 93,309,178 barrels.

Jones Receives Oath Of Office To Council

Archie Jones received the oath of office to the Haskell City Council Tuesday night. Jones was appointed to serve on the Council filling the vacancy created by the resignation of Earl Proctor.

He received the oath of office from Mayor Pro-Tem Franciene Johnson.

Council members discussed the proposed zoning change on portions of Block One of the Cottage Lawn Edition. The proposed change was to change the present zoning of the property to allow the installation of mobile homes.

Members of the Council voted to resubmit the issue to the planning and zoning commission for further study.

In other action Council members appointed R. C. Couch and Joe Alves to serve on the Housing Authority Board and approved the location of a liquefied petroleum gas tank on the property of Matador Pipeline if all state and federal laws are met.

Reports of sales tax receipts in the amount of \$4,690.00; CenTex franchise in the amount of \$2,062.21; and Cities portion of the wheat crop at the airport in the amount of \$2,256.10 were presented to the Council.

In 1980, 21 counties produced more than 10-million barrels of crude oil. This is a decrease of one county from 1979. The following list shows 1980 production figures for the state's five top producing counties, all with production in excess of 43-million barrels. Yoakum retained its spot as the state's top producing county. Gaines retained second place, while Ector remained in third place for the sixth consecutive year. The top five counties are as follows: 1. Yoakum, 60,771,167; 2. Gaines, 60,273,574; 3. Ector, 52,306,753; 4. Pecos, 51,136,629; and 5. Gregg, 43,620,782.

In addition to the top five, 16 other counties topped 10-million barrels of crude oil output last year. They include the following: 6. Hockley, 43,323,526; 7. Andrews, 39,865,476; 8. Scurry, 39,377,274; 9. Crane, 30,398,460; 10. Refugio, 28,602,661; 11. Wood, 25,258,541; 12. Montgomery, 17,002,794; 13. Rusk, 15,194,241; 14. Howard, 14,678,237; 15. Brazoria, 14,512,093; 16. Terry, 14,121,805; 17. Cochran, 11,651,695; 18. Kent, 11,316,272; 19. Harris, 11,092,741; 20. Upton, 10,853,384; 21. Burtleson, 10,196,846.

Gregg County, the first Texas county to produce more than two-billion barrels of crude oil and condensate in the history of recorded production, remains the all-time leader with a cumulative total through 1980 of 2,731,115,094 barrels. Ector County, through the end of last year had produced 2,303,325,078 barrels.

Other counties with cumulative production in excess of one-billion barrels include the following: 3. Andrews, 1,974,877,594; 4. Rusk, 1,645,966,819; 5. Scurry, 1,588,990,857; 6. Crane, 1,318,436,646; 7. Yoakum, 1,268,322,980; 8. Harris, 1,244,709,847; 9. Gaines, 1,231,014,582; 10. Brazoria, 1,153,821,547; 11. Refugio, 1,067,821,289; 12. Pecos, 1,065,876,605.

Judge Tells Commissioners No Intention Of Resigning

Haskell County Judge John Wayne McDermott read a prepared statement to members of the Haskell County Commissioners Court Tuesday stating that he has no intention of resigning.

The statement came following the adoption of a resolution June 8, which asked for the Judge's resignation due to continued absences.

Judge McDermott told members of the Court, "I feel that legally the voters of Haskell County are the ones to decide whether I should resign or not."

Judge McDermott also said, "Since being elected County Judge, I have devoted full time to the office, because I do not have any outside interest, and it is the only means of full time employment to provide for my family."

When members of the Court approved the resolution requesting the resignation of the Judge, he was hospitalized in Lubbock General Hospital undergoing tests to

determine the extent of his back ailment.

He told members of the Court that he would reenter Lubbock

Dr. Kemp Is Board President

Dr. William J. Kemp, Haskell dentist, has been named President of the Texas State Board of Dental Examiners for the third time.

Dr. Kemp has served continuously on the board since 1967 when he was appointed by Governor John Connally. He has served under Governors Connally, Preston Smith, Dolph Briscoe, and William P. Clements.

During the past year the board has conducted about 1,000 exams for new dentists and hygienists.

The board consists of nine members who are appointed by the Governor for staggered terms of six years.

General July 20 for further tests. He added, "If it is decided that I will have to be absent from the office of County Judge, due to the back ailment, I will consider taking a leave of absence."

He also told court members of a law which was recently passed which would allow him to appoint a qualified person to handle judicial matters during the absence of the Judge.

County Clerk Rhonda Moeller presented her resignation to the Court effective July 15. She stated that since the recent birth of a daughter, she felt it was necessary to resign her position as Clerk and assume full time duties as a mother.

In other Court action, Tuesday, the Judge told members of the Court that he had submitted a request to increase the amount of revenue sharing funds received by Haskell County following the 1978 flood.

Former County Tax Assessor-Collector Betty Weise met with the

Court and reported that all audits of her office had been completed and that the accounts had been closed out.

Commissioners voted to increase homestead exemptions for persons over 65 years old from \$3,000.00 to \$12,000.00. The change was necessary following the increase in values to 100% which increased all real property four times.

Members of the Court also agreed to support the proposed bypass of Stamford by U.S. 277. Approximately 45 acres of right-of-way will be purchased by Haskell County for the project and all but 10% of the cost will be paid by the state.

The proposed bypass was started several years ago and at that time the Commissioners Court agreed to cooperate in the project.

Commissioners spent about four hours following their regular meeting on a budget workshop.

The budget process will continue with the setting of the tax rate at the July 13 meeting. Other workshops will be held before the final budget hearing and approval of the budget in September.

Also placed on the agenda for the July 13 meeting will be the appointment of someone to fill the office of County Clerk.

Applications for the position may be presented at the County Judge's office.

City Receives Sales Tax Rebate Check

State Comptroller Bob Bullock Thursday said Texas cities collecting the one-percent city sales tax have received \$310.7 million in rebates during the first six months of 1981.

Bullock said the June sales tax rebates to cities totaled \$28.3 million, compared to \$24.9 million during a comparable period in 1980.

The City of Haskell received \$4,690.00 for this period bringing the 1981 total to \$63,322.

Other area cities and their rebates include: Anson, \$1,390; Hamlin, \$4,560; Knox City, \$3,630; Munday, \$1,860; and Stamford, \$5,440.00.

Sales tax rebates through June of 1980 totaled \$266.9 million, according to Bullock.

Houston's sales tax check for June is \$5.9 million, bringing that city's year-to-date total to \$64.2 million.

Dallas will receive a \$3.3 million check, pushing the city's total for this year to \$35.2 million.

San Antonio will receive \$1.5 million this month, bringing the city's rebates for the first six months to \$16.8 million.

The city sales tax is collected along with the state sales tax by merchants and businesses and is returned each month by the Comptroller to the cities which levy the tax.

Myers, Josselet Repeat Vows In Rhineland

Tena Josselet and Danny Myers were married Saturday June 13, 1981 at 3:00 o'clock in the afternoon in St. Joseph Catholic Church, Rhineland. The ceremony was performed by Father Brendan McGuire, O. S. B.

MRS. DANNY MYERS
... formerly Tena Josselet

The bride is the daughter of Mr. and Mrs. Leo Koenig and the late Wayne Josselet. Mr. and Mrs. Billie J. Myers are parents of the groom.

The church was decorated with the traditional arch covered with ivy and spring flowers. The arch was flanked by matching candelabras entwined in ivy. The pews were marked with votive candles trimmed with ivy and pink and orchid bows.

Kent Josselet, brother of the bride, was candlelighter.

The bride was given in marriage by her step-father. She wore a gown of silk organza accented with Venice lace. The dress had an empire bodice accented with a Queen Anne neckline. Semi-flow skirt of lace and pleats fell into a scalloped chapel train. Her chapel length mantilla was edged in Venice lace and attached to a lace Juliet cap. She carried a cascade bouquet of pink roses, miniature carnations and daisies.

Debbie Wilson, sister of the

bride, served as matron of honor. She was attired in a floor length gown of orchid Quiana. She wore silk flowers in her hair and carried a colonial nosegay. Bridesmaids were Melissa Josselet, sister-in-law of the bride, Mona Choucair, Philda Sloan and Teresa Cypert. They wore dresses identical to the honor attendant.

Mark Kuehler was best man. Groomsmen were: Billie Myers and John Myers, both brothers of the groom, Bob Moore and Kenny Brown. They wore candlelight tuxedos.

Ushers were: Kyle Josselet, brother of the bride, Lowry Wilson Jr., brother-in-law of the bride, Greg Zeissel and Allen Brown.

Traditional wedding music was provided by Mrs. Leo Fetsch. She accompanied Mrs. W. O. Ratliff who sang "We've Only Just Begun," "Always and Forever" and "The Lord's Prayer".

The bride's parents were hosts for a reception in the K.C. Hall following the

ceremony. The bride's table was covered with a candlelight satin cloth overlaid with tulle and lace. The three tiered cake was topped with a fresh colonial nosegay. Appointments were silver and crystal. Cathy Cartwright and Dee Dee Kuehler served.

The groom's table was covered in pale yellow. A chocolate horseshoe cake topped with purple grapes was served. Appointments of pewter and crystal were used. Darla Myers and Caroline Myers presided at this table.

Presiding at the registration table were Julie Partridge and Salwa Choucair. Rice bags were handed out by Laura Burnett and Dana Reeves.

The groom's family hosted the rehearsal dinner in the K. C. Hall.

After a brief wedding trip the couple will live in Munday, where the groom is employed by Osborne's Inc.

The bride is the granddaughter of Mrs. Nevada Hammer, Lois and Shorty Josselet and several other area relatives.

Overton, Hegi Nuptial Vows Read In Lubbock

Debi Hegi and Dwight Irvin Overton, both of Lubbock, were united in marriage on June 20 in the home of Mr. and Mrs. W. R. Collier in Lubbock with the Dr. Roger Hawley of Greenlawn Church of Christ, officiating.

The bride is the daughter of Arthur and Betty Hegi of Shell Knob, Missouri and the groom is the son of Roy I. and Emmie Overton of Stamford.

The bride was given in marriage by her parents. Music was presented by Carolyn Arnett, Catherine Jackson, Steve German and Jimmy Smith.

Maid of honor was Deborah G. Rivas of Lubbock. Denise H. Fellwock of Cape Girardeau, Missouri served as bridesmaid.

Best man was Dan Womack of Odessa. Randy Ramsey of Lubbock served as groomsman.

The bride is a 1971 graduate of Monett High School, Monett, Missouri and received a B. S. in Home Economics from the University of Missouri in 1975, an M. S. in 1977 and a PH.D. in 1979 in

Family Studies from Texas Tech University. She is presently employed as Assistant Clinical Professor in the

Engagement Announced

Mr. and Mrs. Ernest W. Simpson announce the engagement of their daughter, Beth to Joseph van Buran Davis, son of Mr. and Mrs. Henry E. Davis of Dallas.

The bride elect is a Rule High School graduate and received a B.S. and M. Ed. degrees from West Texas State University. She is employed by Highland Park Independent School District in Dallas.

A Highland Park High School graduate, the prospective bridegroom received a B.A. degree from the University of the South at Swannee, Tennessee, and is employed by Doak Walker Sports Center in Dallas.

The couple plan to be married August 1 in St. Michaels and All Angels Church in Dallas.

McFadden Reunion Held In Graham

Relatives and friends of Mattie May Moore McFadden met June 5, 6, and 7 for their annual family reunion. They started gathering Friday afternoon at Kindley Park outside of Graham on the Newcastle Highway.

Over 100 registered as being present. Activities included horseshoe pitching, baseball, boating, fishing and domino playing. Saturday evening's meal included some sand bass caught that day. Ronnie McFadden of Graham brought a gigantic BBQ grill and ice chest on a trailer, all of which he had built, and cooked chicken, dove, quail, steaks and hamburgers contributed by various individuals.

Next year's reunion is scheduled to be held the first weekend of June, 1982.

Mattie May Moore was born January 15, 1889 in Henderson County, to her

parents Heskiah Moore and Martha D. Westbrook Moore. She married Samuel Steele McFadden in 1906 at Corsicana. They had six children: Opal, C.C., A.D., Curtis, Jim and Herman. She passed away November 14, 1979 in Haskell at the age of 90.

Those attending the 1981 reunion from Haskell were: Mr. and Mrs. A.D. McFadden, Caroline and Ernest; Mr. and Mrs. Sammy McFadden, Billy and Clifton; Opal Isbell; Randy Gibbs; Cheryl Strickland; Mr. and Mrs. Marvin Grayson; Mr. and Mrs. Ricky McFadden and Cassie; Mr. and Mrs. James McFadden, Devonna and Theresa; Mr. and Mrs. Marvin McFadden, Matthew and Michael; Mr. and Mrs. Jim McFadden; Lena Overcash; Jama Slayton; Sylvia Gibbs; Donna Martin; and Norla Todd.

RETIREMENT

Mrs. Sue Yeary, right, and Mrs. Betty Sanders were honored May 21 with a retirement party. The event was hosted by the faculty and staff of the Weinert School. Mrs. Yeary has taught for a total of 23 years at the Weinert School and Mrs. Sanders has taught for 20 years. Both teachers were presented with metal plaques picturing the Weinert School and a suitable inscription.

Living Committee Sets 1982 Program

The Family Living Subcommittee of the County Extension Program Building Committee met with the County Extension Agent-Home Economics at 3:30 p.m. on June 17. The main items of business the Committee acted on was the selection of the Home Economics In-Depth Area for 1982. The committee decided that the Home Economics County Extension programs for the coming year should focus on Personal and Family Resource Management. The committee mem-

bers and the agent welcome any suggestions from county residents concerning program ideas in this subject area.

The committee also finalized plans for the Bread Fair they will be sponsoring Wednesday, October 7. Persons interested in learning the art of bread making will assemble at 2:00 p.m. at the Haskell National Bank Community Room. Through instruction by the County Extension Agent-Home Economics and the Committee

members, participants will actually make a loaf of Honey Wheat Bread to take home and cook for supper. There will be a charge of \$2.00 for the Bread Fair. Further details will be announced in the newspaper at a later date.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economics levels, race, color, sex, religion or national origin.

Committee members at-

tending the meeting were: Mrs. Carl Bailey, Mrs. Eldon Anderson, and Mrs. Adell Thomas from Haskell; Mrs. Tom Yates, Mrs. M.C. Cunningham, and Mrs. Tiffin Mayfield from Weinert; and

Mrs. M.E. Overton substituting for Mrs. Martin Coleman from Paint Creek. Those members unable to attend were: Mrs. Paul Fischer, Mrs. Girdle Mae Walker, and Mrs. Burl Medford.

Wright Reunion Held Recently

The J. A. Wright family held its family reunion on June 13th and 14th at the Corral Building in Haskell.

A homemade hamburger supper was enjoyed on Saturday night followed by a family auction of arts and crafts. Seventy-five people attended Saturday night's events. Sixty-five family members gathered for the Sunday noon meal.

Joe and Shirley Davenport and family of Phoenix, Arizona traveled the longest distance. Cassie McFadden was the youngest attending

the reunion being only months old. Ella Mae Atkinson was the oldest. She traveled from Lovington, New Mexico. Dee and Maudie McFadden had the largest number of children to attend. Seven of their children were there. Shirley Davenport received the door prize.

The Wright family had 14 children, 50 grandchildren, 67 great-grandchildren and 12 great-great-grandchildren.

Reception Honors Couple

A reception honoring the 25th wedding anniversary of Mr. and Mrs. A.M. Stocks of Haskell was held Sunday, June 21 in their home. The couple was married June 23, 1956 in Stamford. They have made their home in Haskell since 1957.

The reception was hosted by their children Mr. and Mrs. Randy Shaw of Haskell, Mr. and Mrs. Danny Stocks of Abilene and Phillip Stocks of Haskell.

Mr. Stocks is an employee of West Texas Utilities and works at the Paint Creek Plant. Mrs. Stocks is a homemaker and enjoys sewing and gardening.

Funny or Unfunny

WHERE THERE'S A WILL...Do laws against handgun ownership deter violence? Maryland has a law requiring a seven day waiting period to buy a handgun. The acting mayor of Annapolis, bent on suicide, didn't feel like waiting a week. So he bought a rifle and used it to shoot himself.

UNIFICATION OF WHAT? The "Moonies" are officially known as the Unification Church. Why "Unification?" Because they want to unify the races. Recently the Moonies held a mass wedding ceremony in Toronto, presided over by the Rev. Sun Myung Moon, in which 843 couples were married. Moon himself picked out the matches; no one objected, and every couple was racially mixed.

SO SOON?

A teacher asked each of the pupils in her kindergarten class how near he lived to the school and how long it took him to get home. She couldn't help smiling at one little boy's answer: "I must live pretty close because when I get home, my mother always says, 'Are you home already?'"

WASHINGTON, D.C. 20510

In reading my mail, I detect a growing distrust among my constituents of the news media. Some of those who write me have even suggested various means of regulating the news gatherers.

Though the national media have brought much of this upon themselves, this urge to regulate is unfortunate -- both for the vast majority of news outlets which exercise responsibility, and for our system, which is built on the premise of a free press.

Freedom of the press is guaranteed in the First Amendment. Our Founding Fathers knew that for democracy to work, the people must know what their leaders and their government are doing. Since it is impossible for any one individual to personally watch everyone at every governmental level, the press is the only means by which citizens can learn enough about the affairs of the nation to make informed decisions. And this press must be independent of government control if it is to be free to point out the flaws in the way the system works.

For instance, the people of Texas have the right to know what their senator is doing and what positions he is taking. Since, I can't speak to each of my constituents in person, I must rely on news outlets, such as this newspaper, to communicate with you.

It is unfortunate that some reporters and news outlets have used this freedom without exercising the responsibility that should go with it. But though I have on a number of occasions been angry at distortions or abuses by individual members of the press, that does not mean that the Founding Fathers were wrong.

First, let me emphasize that the vast majority of abuses of freedom of the press have been by the national media, which tends to be highly concentrated on the East Coast, is easily led into "park journalism."

The vast majority of reporters, publishers and broadcasters are conscientious and responsible -- and serve their public well. This is particularly true of Texas media.

Secondly, even if the Constitution didn't prohibit it, I would not be inclined to inject the government into the news process through regulation. We have seen time and time again what happens when the federal government tried to end abuses of one sort or another in the private sector by instituting regulation. In far too many cases, the original problems aren't solved but the regulations become an intrusion on the legitimate rights of business or individuals. The Occupational Health and Safety Administration is a classic example of good intentions gone awry.

It would be disastrous to the American system if we allowed that to happen to the news media.

We have existing protections against libel and violations of national security, and these must be guarded.

But for protection against inaccuracy, distortion or malice, we must rely on pressure from within the journalism community, and on you the discriminating reader, viewer or listener.

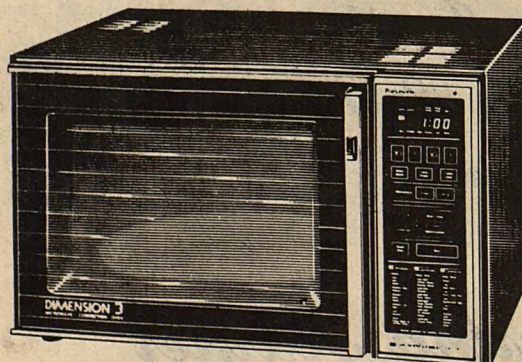

When I'm feeling slighted by a particular news outlet, I take comfort from the fact that even Thomas Jefferson, one of the first and strongest advocates of a free press, occasionally had occasion to feel mis-used. He chafed at his treatment, but he never changed his basic belief in the necessity of maintaining the freedom of the press.

The "Old Chisholm Trail" from San Antonio, Texas to Abilene, Kansas was named for Jesse Chisholm, a part Indian cattle trader who opened the route in the mid 1800's.

DR. FRANK C. SPENCER

Surgeons Elect Dr. Frank Spencer

Frank C. Spencer, M.D., of New York City, Professor and Chairman of the Department of Surgery, was elected in May, 1981, Vice President and President-Elect of the American Association for Thoracic Surgery.

The presidency of this organization is probably the highest honor given in thoracic surgery in the United States. The Association is the oldest and most senior thoracic surgical organization in the world; surgeons are elected to membership only after having attained significant academic recognition in this field, and membership is limited to 600 surgeons under 60 years of age.

It is a particular distinction for Dr. Spencer as he is one of the youngest presidents elected in the past three decades. The annual three-day meet-

ing, in which the most significant developments in thoracic surgery in the past year are presented, is widely attended by thoracic surgeons internationally.

College News

Randy Darden, a native of Haskell, has been named to the 1981 Spring President's List at Hardin-Simmons University, Abilene.

Darden is the son of Mr. and Mrs. Glenn Darden, 918 N. 6th St., Haskell. He graduated from Hardin-Simmons in May with a major in accounting.

Sixty-six students were named to the President's List honoring Hardin-Simmons students enrolled for 12 hours or more and earning A's in all classes for a 4.0 G.P.A.

Game Warden Applications Now Accepted

Applications are now being accepted by the Texas Parks and Wildlife Department for its next game warden training academy which will convene at Austin in January 1982.

Application forms may be obtained through June from department offices across the state or by writing to Recruiting, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Tx., 78744, or by calling (512) 475-4865.

Applicants must be at least 21 years of age upon graduation from the academy, be in good physical condition, be a high school graduate or have passed a GED equivalent and have vision correctable to 20/20.

Department officials said a minimum of 30 cadets will be selected after thorough investigations and interviews are completed. After completion of 4½ months of intensive training, the graduates may be assigned to duty anywhere in the state.

Survivors include: her husband; one son, Felipe Arredondo of Haskell; three sisters, Mrs. Elias Arredondo and Mrs. Santos DeLeon, both of Ft. Worth and Mrs. Tomasa Zavala of Haskell; four grandchildren and four great grandchildren.

Olympic gold medals aren't all gold. They're mostly silver coated with six grams of fine gold, and they're worth about \$110.

LEARNING ABOUT ENERGY

Joyce Jeter of Haskell was among several dozen teachers attending a two-day electric workshop this past week in Abilene. Ms. Jeter is shown with Holman King, vice president of West Texas Utilities Company, which sponsored the workshop. WTU holds the vo-ag workshops annually in Abilene and San Angelo. This year's topic was Energy Conservation.

Some Vets Eligible For Clothing Allowance

Some military service veterans are eligible to receive an annual clothing allowance payment of \$274, but they are unaware of their entitlement. According to C.H. Herren,

Veterans Service Officer for Haskell County, these veterans should make application to the U.S. Veterans Administration for the annual payment.

Eligible for the annual payment is the veteran who is entitled to receive VA compensation for a service-connected disability for which he or she wears or uses one or more prosthetic or orthopedic appliances that tend to wear out or tear the clothing. Included among the many qualifying items would be a wheelchair, leg or arm braces, artificial limbs, etc. Most of the veterans who are eligible but have failed to apply for the annual allowance, paid for the purpose of replacing worn or torn clothing, are those retired from military service and not in receipt of VA disability compensation. Many such veterans have applied for VA benefits, but have continued to receive their military retired pay as the greater benefit. They are eligible for the annual clothing allowance of \$274 if they will apply to the VA.

Application for the allowance by these eligible persons can be made by letter addressed to the VA Regional Office where their claim records are located. Your local Veterans Service Officer can assist in making the proper application for this VA benefit, as well as provide help in any other matters pertaining to the benefit programs for veterans and their dependents and survivors.

Excessive Use Of Salt Tablets May Be Dangerous

Salt tablets can be dangerous, says a specialist in the effects of exercise at Texas College of Osteopathic Medicine.

"The idea behind salt tablets was that you had to replace the salt you lost through heavy perspiring," said Dr. Bob Kaman, associate director of the medical school's Institute for Human Fitness. "We now know that notion is clearly wrong."

While it is true that you lose a certain amount of salt in perspiration, the concentration of salt is lower than that of salt in the blood, the biochemist added. The net effect of heavy perspiring is loss of water, not salt.

"If you replace the lost salt with salt tablets," Dr. Kaman said, "you will concentrate the

salt in the body even more. That's bad."

"Our bodies have to keep the salt in them dissolved and that takes water. If there is too much salt, the body has to retain water. That slows the sweating process, the body's heat-regulating system. The danger is that your core temperature then soars and you can go into heat shock."

Because almost all of us get enough salt in a reasonably well-balanced diet, the water is the important thing to replace, he said.

"Drink more than you feel you need," Dr. Kaman suggested. "When you're thirsty, you've already lost too much water. And when your thirst is satisfied, you still haven't drunk enough."

Salmon Sandwiches With A Scandinavian Accent

Hearty and scrumptious describe these Scandinavian Salmon Club Sandwiches, easily prepared with a unique selection of ingredients typifying the cuisine of the Scandinavian countries. Slices of pumpernickel bread are layered with crisp lettuce, a colorful canned salmon filling, thinly sliced onion, canned beets and hard-cooked egg. For a great luncheon or supper, the delicious flavor of Scandinavian Salmon Club Sandwiches is complemented with crisp dill pickles and mugs of hot potato soup.

Hot or cold, dainty or hero-sized, there is no end to the variety of sandwiches which can be made with versatile and convenient canned salmon. Besides being an excellent sandwich filling, nutritious canned salmon is delicious served alone or combined with other foods in appealing casseroles, salads and soups.

Scandinavian Salmon Club Sandwiches

- | | |
|---|--|
| 9 slices pumpernickel rye bread, buttered | 1 can (8 oz.) sliced beets, well-drained |
| 3 lettuce leaves | Mayonnaise |
| Salmon Filling | 2 hard-cooked eggs, sliced |
| 3 thin onion slices | Salt and pepper |
| | Dill pickles |

To assemble sandwich, layer ingredients as follows: Top each of 3 slices of bread with 1 lettuce leaf, 1/3 of Salmon Filling, 1 slice onion, another slice of bread, 1/3 of beets, mayonnaise to taste, 1/3 of egg slices, salt and pepper to taste and remaining slice of bread. Cut each sandwich diagonally into 4 triangles; spear each section with toothpick to hold sandwich together. Serve with dill pickles. Makes 3 sandwiches.

Salmon Filling: Drain and flake 1 can (7-3/4 oz.) salmon; combine with 2 to 3 tablespoons mayonnaise, 1 finely chopped dill pickle and 1/4 cup chopped celery.

Inspiration #1

It is becoming fashionable again to view the Bible as a "good book" but little more. Yet, the Bible makes some startling claims. If that's true then:

1. It would have to be capable of being understood.
2. It would have to be consistent with itself. Not self-contradictory.
3. It would have to be consistent with known facts from the various fields of learning such as Archaeology, Science, Reason, and others.
4. It would have to be consistent with its claim to be a supernatural revelation.
5. It would have to be adapted to man's spiritual and religious needs.
6. It would have to survive the most energetic and sustained attack against its accuracy, integrity of text and existence.
7. It would have to promote a high-code of ethics.
8. It would undoubtedly attain a supreme position among literary products.
9. It would claim universal authority among all nations.

Proper Care Aids Insect Sting Victims

Please don't pick the daisies. Or at least be careful. You might get stung by a bee, a hornet, a wasp or other biting insect. More people die yearly in the US from insect stings than from snake bites, cautions the Texas Medical Association.

For most people insect stings are annoying and slightly painful. Discomfort can be relieved by applying cold packs to the sting site and by using a soothing lotion.

But other people, who are allergic to the insect venom, react violently to insect stings. They develop a general, all-over reaction which can include hives or itching all over the body, wheezing, a lump in the throat and shortness of breath. Most dangerous of all, they can go into shock.

Shock is characterized by a rapid drop in blood pressure followed by collapse and, often, loss of consciousness. The victim may feel nauseated, dizzy and anxious.

If a general reaction begins within twenty minutes after being stung, medical attention should be sought immediately. Until medical help

arrives, make the victim as comfortable as possible and try to keep him calm and quiet. If you have one handy, give the victim an antihistamine to reduce itching and swelling. These are readily available over-the-counter drugs for allergy and colds, and can be found in most home medicine chests. Some experts advise using a tourniquet in severe reactions where life may be at stake. A watchband or belt can serve as a tourniquet. Do not tie it too tight and be sure to loosen it as the swelling increases. It can be used only if the sting is on the arms or legs.

If you are allergic to stings, it is wise to carry a card or tag that indicates your allergy. Emergency bee sting kits are available by prescription. If you have one of these, take it with you whenever you plan to be outdoors.

At present the only treatment for allergy to insect stings is a series of shots. But the best way to guard against insect bites is to stay away from bees. To avoid stinging bees and other insects, wear white or lightly colored clothing. Bright colors and flowery

prints attract insects. When exposure is unavoidable, wear long-sleeved shirts or blouses and slacks instead of shorts. Do not use scented products such as perfumes, hairspray or suntan lotion. Be careful when walking barefoot outdoors. Also, be cautious when gardening. Wasp or hornet nests near the home should be destroyed.

Brownies Dads Attend Camp

The one hundred and twenty Brownies who arrived at Camp Boothe Oaks June 5-6 with their dads in tow and teddy bears in hand were the first of more than 400 Brownie/Dad Overnight specials. This annual camping event is held for Brownies who sell 7 cases or more of Girl Scout cookies in the West Texas Girl Scout Council Cookie Sale.

It all began as an incentive award some years ago (1974) when 32 Brownies and their dads took advantage of the opportunity. Each year the salesmanship improves and the number of awards increases. Three Specials were held last year; and a second one is scheduled for June 26-27, 1981.

The Brownies were buddies with their dads and settled into units where the girls slept in the cabins and platform tents, and the dads slept out under the stars. With the help of Counselors the group participated in flag ceremonies, nature hikes, arts and crafts, volleyball, archery, firebuilding and swimming, knots, games, canoeing, campfire, star gazing, visiting the Tajar Country Store, and eating in the Oates Dining Hall. There was even free time with daddy around breakfast time.

S.U. 12 was represented by Corie Ann and Glenn Brzozowski of Haskell.

Superintendent's Views

BY JAMES LANIER
Superintendent, Haskell ISD

School's out and all the school personnel are on vacation. All school people have a three month's vacation. Unfortunately this is not true. What do school people do in the summer?

First, the class room teachers are required to work 183 days, so basically they do not instruct students for 3 months. However, often times, they are occupied with school related activities. Many of them return to college to work on advanced degrees or to keep their certificates current and in proper fields. Many teachers and aides have to work in the summer to supplement their salaries. This is especially true of head of households. The ag teachers are on duty twelve months. They fill their time working on year projects, being of assistance to farmers and generally working with their students. Many other teachers use part of their summer time to do preparation and planning work for the coming year. The majority of our teachers make some change in their curriculum each year. Consequently, planning must be done. The majority of our teachers return to school in August with a definite plan in mind.

The principals are on duty 210 days or eleven months. I have often said the hardest month of the year for principals is the month of June. The principals must complete the previous year by filling out all their reports and their records. They must plan schedules, place students in classes, supervise maintenance, and plan purchases for the upcoming year. Textbook work involves a great deal of time also.

The janitorial staff becomes a maintenance staff during the summer. We try to cover every room in all our buildings every summer. Floors must be refinished, any painting needed is done at this time, all windows are cleaned, and we try to do any major repairs during the summer. Also, yards, other grounds, and athletic fields must be main-

tained. Buses must be repaired and put into serviceable condition for the coming year. The maintenance staff has a two week vacation. Otherwise they work every day.

The central administration staff works all summer. Again there are numerous reports due to the state. The budget for the coming year must be planned, the tax roll prepared, teachers employed, and a great deal of planning must come during this period of time. If the central staff does a good, complete job in the summer, they will definitely lighten their load during the school term which will allow the Superintendent to do what he likes best, be involved with teachers and students.

So, I hope this column explains that schools may not be in session for the summer, but much is happening in modern schools. The activities continue the year round. In fact, schools are a beehive of activity throughout the summer.

Doris Howell Is New Employee

Doris Howell of Box 416 in Knox City recently entered the career service of Texas State government through the services of the Merit System Council. She has been selected for probationary appointment as a Social Service Worker I by the Texas Department of Health and will be assigned in Haskell.

Doris earned consideration for this position by participating in the Merit System competitive examination process and scoring well enough for her name to be one of the top ten on the register for the Social Services Worker I classification.

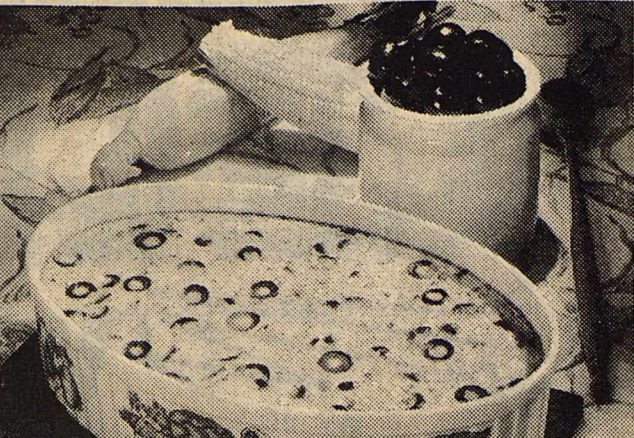

Ripe Olives Add Sparkle To Corn Pudding For Meatless Main Dish

Corn comes off the cob to join canned California ripe olives in a delicious meatless entree for a midsummer meal. The dark ripe olives add color for appetite appeal, as well as a satisfying chewiness, often missing in meatless dishes.

A protein packed combination of eggs, milk and cheese serves as a nutritious base for this handsome vegetable dish. It is easy to prepare. A white sauce is enriched with eggs and cheese. Sliced ripe olives, fresh corn cut from the cobs, bright chopped parsley, soft bread crumbs and seasonings are stirred in. The pudding is then baked slowly.

Ripe olive corn pudding is also an inviting side dish served with grilled chicken or sausages.

Ripe Olive Corn Pudding
5 to 7 ears fresh corn
1-1/2 cups pitted California ripe olives
1/2 cup finely chopped green onion
2 tablespoons butter or margarine
2 tablespoons flour
2-1/2 cups milk
4 large eggs
2 teaspoons salt

2 teaspoons sugar
1 teaspoon dry mustard
1/4 teaspoon white pepper
1-1/2 cups soft fine bread crumbs
1 cup grated sharp cheddar cheese
1/4 cup chopped parsley
Oil a 2-1/2 quart baking dish, 2-1/2 inches deep. Pre-heat oven to 350°F. Cut corn from ears to measure 4 cups. Slice ripe olives. Melt butter. Add onions and ripe olives and cook slowly for 5 minutes. Stir in flour. Slowly

stir in milk. Cook, stirring constantly, until mixture boils and thickens. Beat eggs well. Add salt, sugar, mustard and pepper to eggs and beat again to blend. Add bread crumbs, cheese, parsley, corn and cooked ripe olive mixture to egg mixture and mix well. Turn into oiled baking dish. Set in pan of hot water. Bake in preheated oven 1 hour and 10 minutes, until mixture is set in center, and point of small knife inserted in pudding comes out clean. Serve hot. Makes 8 servings.

Better Roots Are Vital To Higher Yields

Bronco Seed Company's custom conditioning plant assures wheat growers of pure quality seed. And, since quality seed must be combined with a quality seed treatment, we are now offering Vitavax®-200, the leading seed treatment in the United States today.

When your wheat seed and seedlings encounter hot, dry stress conditions, a loss in stand and yield often occurs. Vitavax-200 treated plants normally emerge faster, and the wheat usually develops more extensive root systems and larger crowns. This allows the plant to take up more nutrients and moisture, usually resulting in higher yields.

You will be able to graze your cattle earlier* since Vitavax-200 treated wheat normally emerges faster and shows more vigorous growth. In various tests, Vitavax-200 has resulted in additional foliage "top growth" when compared to another seed treatment, sometimes as much as a 180% increase. And, since Vitavax-200 treated plants have exhibited a superior root development over untreated wheat, the grazing cattle are less likely to pull the entire plant out of the ground.

Vitavax-200 is a true systemic fungicide. This means that during swelling and germination, Vitavax penetrates the seed coat and translocates into the roots and plant to give you long lasting disease protection. Vitavax-200 protects your yields against losses from true loose smut, plus common bunt, flug smut, seed rots and seedling diseases.

Tests conducted in several major grain growing states indicated that Vitavax-200 treated seed outyielded seed treated with another seed treatment by a big 4.2 bushels per acre. If wheat is selling for \$4.00 per bushel, this 4.2 bushel per acre increase with Vitavax-200 represents a theoretical return-on-investment of \$16.80 an acre.

This year, have Bronco Seed Company treat all your wheat with Vitavax-200 for better yields and higher profits.

Little League News

BY MARILYN BAHNEY

After rain cancelled Monday's games, the Little League teams rewarded the fans on Tuesday with two exciting games. The Cats sneaked up on the Crows with a 11-10 victory. Then the Hawks beat the Rams in the seventh inning, thanks to a hit by Tim Johnson, who also hit a home run in the game. Ponciano Lopez and Bobby Medford batted well for the Rams.

In Thursday's game Marty Mitchell (Bears) doubled for his first hit of the season; Craig Hanson tripled to drive in the winning runs for the Bears, who beat the Cats 13-12. In the nightcap the Cubs clubbed the Hawks with a 15-11 score. Roy Graham pitched a fine game for the Cubs. Johnson of the Hawks hit a grand slam.

The Crows couldn't stop the league-leading Red Horses in Friday's game, finally succumbing 23-6. Behind Steven Klose's accurate arm, the Rams won 8-4, over the Tigers. The Cubs outscored the Eagles on Saturday, 23-19. Jeff Baum of the Eagles

TCR Quarter Horse Show Set July 2

The forty-first Texas Cowboy Reunion Quarter Horse Show will begin Thursday, July 2, with 15 year veteran Charles W. Stenholm as Chairman. The annual event, which is part of the Texas Cowboy Reunion at Stamford, has a colorful history which has earned it the "Stamford in July" bumper sticker slogan.

Three of the coveted TCR hand tooled saddles will go to the winners of three shows: the Open Youth Show, Registered Youth and American Quarter Horse Show. Judge for the Open Youth how will be Larry B. Sullivan of Gainesville. James H. Nance of El Reno, Oklahoma will judge the registered Youth and the AQHA Show.

The Open Youth Show will begin at 7:00 a.m., Thursday, July 2 with trophies to the first three places in each event. Three age groups compete in the Open Show, 11 and under, 12 to 14 years and 15 to 18 years. Over-all champion will take the saddle.

Halter classes of the AQHA Show will begin Friday, July 3 at 7:00 a.m. followed at 10:00 a.m. with cutting and other Performance Events. High Point Horse in this show

homered once while Roy Graham homered twice.

Margo Smith To Appear At TCR

Popular country-western singer Margo Smith will be the featured entertainer July 2 in Stamford during the second night of the 51st Texas Cowboy Reunion, according to Eugene Swenson Reunion President.

Swenson said, "Margo has not only endeared herself to music fans through a long string of hit records, but has also found a special place in the hearts of everyone in this area because of her appearances on behalf of the West Texas Rehabilitation Center." Margo Smith was a featured entertainer on last January's "Rehab '81" telecast, and also performed along with Rex Allen, Jr. and Johnny Desmond in March to launch the San Angelo building project for the Center.

The former school teacher from Dayton, Ohio got her first big break in the country music field in 1975 when 20th

Century Records signed her to a recording contract. Her first record, a Margo-penned song called "There I Have Said It," hit the country charts, zooming to the Number 5 slot. Other hit records and an album followed.

Margo now records for Warner Brothers Records and has continued to produce chart busters. Margo recently joined another friend of the West Texas Rehabilitation Center, Rex Allen, Jr. to release a duet on Warner Brothers that climbed to the top.

The young singer, who has a voice that knows no musical boundaries, is one of the few singers left who can yodel. She is an entertainer who instinctively knows how to please an audience and leave them wanting more.

The 51st Texas Cowboy Reunion, featuring the world's largest amateur rodeo, is set for July 1-4 in Stamford.

Local Jehovah's Witnesses Announce Campaign

Jehovah's Witnesses announce a June home visitation campaign for Haskell vicinity to coincide with the two large "Kingdom Loyalty" District Conventions scheduled in Dallas in June and July.

"Is A Happy Life Really Possible?" is the question many Witnesses will be sharing with their neighbors in an effort to show the practicality of Bible counsel for problems of the 1980's.

Dewey M. McDonald, program overseer for the two four-day conventions, said: "More than 1.3 million individuals and families are now benefiting from a regular discussion of the vital questions affecting happiness."

"As an aid to discussion, we recommend the theme: 'Hap-

piness—How To Find It,' and specific discussions of practical advice about money problems, sex, family life, and sickness and death."

McDonald said the Witnesses feel an area of discussion, usually ignored by most churches, is which government will bring worldwide peace.

"Locating that rulership and remaining loyal to it is the theme to over 100 conventions

in the United States this summer. We are privileged to host two of them at Fair Park Coliseum in Dallas over the next few weeks. Eight others are taking place elsewhere in Texas in English and Spanish."

During the Dallas assemblies, thousands of Witnesses from local North Texas cities and towns will join Dallas delegates in a home visitation campaign.

Batting helmets were introduced in major league baseball by the Brooklyn Dodgers in 1941.

It takes me all day to call everyone to see if you have had company. Would appreciate it if you would call me because it is a lot of time for me to call.

The Consumer Alert

by Mark White
Attorney General

AUSTIN—The most significant piece of consumer legislation passed in the State of Texas is the Deceptive Trade Practices and Consumer Protection Act. Since its initial passage in 1973, it has been amended by almost every legislature; however, it still offers strong public and private remedies for violations of its provisions.

The act provides for two means of action. The first, is an enforcement action which can be brought by the Attorney General's Office, Consumer Protection Division. Its primary thrust is to stop a violator from engaging in deceptive trade practices,

thereby protecting the public from illegal activities. Also, the Attorney General's Office can obtain restitution for those damaged and civil penalties which are fines for illegal conduct.

There is a limitation on the Attorney General's Office however, in that it can only file a lawsuit if the action is in the "public interest." The office must determine if the actual damage and/or potential damage is great enough to warrant state enforcement action. In many instances this means the office possesses a number of unresolved complaints against a particular business. The second or

private remedy was created by the legislature to allow for recovery by an injured consumer for situations where the Attorney General's Office cannot find the necessary "public interest."

If injured, a consumer can bring a private lawsuit against a violator of the Consumer Protection Act. The suit can be against an individual, a company, or a corporation and the consumer can recover several times his actual damages, plus his attorney's fees and court costs, if the court finds the Act has been violated. In this way the legislature has provided an incentive to consumers to air their grievances, recover damages, and cause the sellers of goods and services to represent more truthfully and accurately their products.

A consumer can maintain an action if he or she has been damaged by the use of any false, misleading or deceptive act or practice, the breach of any warranty or the employment of any unconscionable action by any person. In essence, if a seller unfairly takes advantage of a consumer by misrepresenting a product or a service, he or she can be found to have violated the Consumer Protection Act, and as a result be subject to an action by the injured consumer.

If you feel you may have been damaged in a consumer transaction, file a complaint with the Consumer Protection Division of the Attorney General's Office. In addition you may want to consult with a private attorney to learn of the possibilities of bringing a private action.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas effective July 21, 1981, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 15.8 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas.

Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs.

Southwestern Bell

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 21 de Julio de 1981, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 15.8 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública.

Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio también afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell.
