

Stamford Electric To Hold Annual Meeting

Stamford Electric Cooperative, Inc. will hold its 43rd Annual Meeting on Saturday, March 20 1982 in Stamford at the High School Auditorium. A barbecue meal will be served beginning at 6:00 p.m. with the business session scheduled at 7:00 p.m., according to President John Ed Youngquist. Musical entertainment by the Round-up Boys has been planned. Members and friends of the Cooperative are invited to attend.

Election of three directors will be held during the business session to fill three expiring terms. Incumbent Jimlee Baucum of Anson and Kenneth Herndon of Anson have been nominated for Place 1. Nominees for Place 2 are incumbent Walter E. Fischer and R.V. Earles, both of Paint Creek Community. Incumbent Willie Peiser and Johnny

Wheatley both of the Mattson Community have been nominated for Place 3. Others may be nominated from the floor during the meeting.

Other directors serving on the board are Louis Spitzer, Leo McKeever, Carl A. Thompson, Jr., Sam Turner and President Youngquist.

The Cooperative furnishes electrical energy to the rural areas of part of 6 counties with over 5500 meters on 2200 miles of line. The Cooperative has experienced considerable growth in oil related services during the past two years, according to General Manager M.L. Massey, who noted that about 65 percent of the revenues come from oil services. Mr. Massey encouraged all members to attend this meeting. Drawings for prizes will be held throughout the meeting.

CHEESE ANYONE?

Members of the Haskell Lions Club assisted in giving away 2130 pounds of USDA Surplus Cheese last week. Lions pictured with the cheese are L to R: Aubrey Carroll, Mike Struve, Don Comedy, and O.W. Tooley. A total of 426 packages weighing five pounds each were given away in about three hours.

Congratulations...

Jupiter did her thing last week (along with the other planets) and much to the dismay of the forecasters of doom, the world didn't come to an end.

California didn't fall into the sea. There was no rash of volcanoes. No sudden abundance of tidal waves, hurricanes, tornadoes or other such phenomenon.

The 'Jupiter Effect', the alignment of all nine planets on the same side of the sun, produced a field day for soothsayers around the world.

The unusual event received more public attention than any other single event in recent times. Even politics and violence were overshadowed by the 'Big Flop of March 10'.

Only the false predictions of the Comet Kahoutec can compete with the uneventfulness of the 'Jupiter Effect'.

Things at the Comedy household were almost normal. Almost in that shortly after climbing out of bed, my toes collided with the leg of a

table, an event which was immediately attributed to the alignment of the planets. The lady of the house promptly reminded that the event was entirely common and could be attributed to my usual mental state and physical coordination for that particular time of day.

While recent trends indicate the increased popularity of predicting the end of the world, the logic of such predictions makes little sense.

If you have an impulse to join the ranks of predictors, why not jump on the Jimmy the Greek Band Wagon? It's fun if you're right. After all, the successful predictor of the end of the world won't even receive credit in the History books for being correct.

Next Week: "How to make money on the dice tables of Las Vegas using the Farmers Almanac".

Rep. Joe Hanna To Attend Heart Meeting

State Rep. Joe Hanna and wife Betty will be special guests at a special Heart Association supper March 25, at 7 p.m. at the Haskell Nursing Home.

Rep. Hanna will be on Hand before and after the meal to visit.

The Haskell Nursing Center is donating the meal. Tickets are \$3.00 each and all of the tickets sale money will benefit the Heart Association.

The event is open to the public.

House Dean Not Seeking Re-election

The dean of the Texas House of Representatives, State Representative W. S. (Bill) Healy today said he would not seek reelection to the legislative seat he has held for more than 27 years.

Healy said that while he was retiring from active public service he intended to remain politically active.

"I've spent more than a quarter-century in public service and it has been one of the most rewarding experiences of my life. Nothing can ever replace the honor and responsibility that my friends and neighbors have given me in being their spokesman in Austin. I will

School Board To Hire Athletic Dir.

Following an executive session, members of the Haskell School Board agreed to hire an athletic director.

The position was not filled last year due to last minute coaching staff changes and board members agreed to begin work now to fill the position for the 1982-83 school year.

Board members also agreed to rehire all classroom teachers, coaches and other instructional staff. The coaches assignments will be subject to the assignment of the new athletic director.

During a budget study, board members discussed the bonded indebtedness, teacher salaries, insurance and extracurricular pay. No action was taken.

Board members also agreed to secure bids for the installation of underground pipe for the practice area. The pipe will be used to water the practice area.

Chamber Banquet To Celebrate 100th Birthday

A limited number of tickets are still available to the annual Haskell Chamber of Commerce banquet scheduled Friday night at 7:00 p.m. in the Elementary school cafeteria.

The tickets are available at \$7.50 each at the Chamber office and at West Texas Utilities.

A limited number of tickets will be available at the door, but persons are asked to purchase advance tickets if possible in order to arrange seating arrangements and meal planning.

The theme of this year's banquet

Four Selected To All-District From PC

Four Paint Creek High School girls were named to the All-District teams recently.

Named to the first team All-District were: Julie Coleman and Linda Fischer.

Deeann Pendergraft was named to the second team and Julie Patty received honorable mention.

will be the celebration of the 100th birthday of the city of Haskell.

The program will include special readings centering around the history of Haskell and several special musical presentations.

The banquet meal will be entirely homemade, featuring broiled steak, baked potatoes, salad, homemade rolls, and homemade cakes.

A special event of the annual banquet is the naming of the

outstanding citizen for 1981. The award is presented annually by the Chamber and is the highest honor bestowed by the organization.

Members of the banquet committee are excited about response to the banquet and are confident that the event will be a highlight of the year long celebration of the centennial celebration of the city of Haskell.

UIL Team Place In Stamford Meet

On Feb. 27, the high school and junior high UIL teams traveled to Stamford for a practice meet.

In journalism, Donna Hill captured first in feature writing. Clifton Brister placed first and James Whitehead placed fourth in headlines. Melinda Blakely finished with a fourth place in editorial writing.

Kim Griffith placed first in the poetry division, and Steven Turnbow placed second in informative speaking. In prose, Denise Burris made the finals.

Eighth grade students placing in number sense were Jill Jennings, first place and Rebecca Holt, sixth. Seventh grader Robyn Struve placed third in this event.

Haskell Softball Association To Meet Today

The Haskell Softball Association will have a meeting Thursday night, March 18 at 7:30 p.m. at the Softball Field to discuss beginning of the ball season and also to review plans for the construction of a concession stand.

Time to play ball is here and we must make decisions now if we are to have a successful year. If you plan on playing or sponsoring a team, be at the meeting Thursday.

Saturday, March 20 at 9:00 a.m. at the field will be a work day. They have painting, leveling and mowing that needs to be done. Gather up your team members and be there to get the 1982 season started right. We have lights now so lets get someone under them.

Little League Organizational Meeting Set

There will be an organizational meeting of the Haskell Little League March 24, at 8:30 p.m. in the community building of the Haskell National Bank. All interested persons are urged to attend.

Beautification Is Garden Club Topic

"Let's all have flowers for the living," stated Mrs. Elbert Johnson to the Haskell Garden Club members as she spoke in the home of Mrs. J.C. Dunnam March 11 as part of the beautification program, sponsored by the Beautification Council, which was organized in August 1981.

Around Town

Continuing, Mrs. Johnson said, "If everyone in the community would do his best by keeping his own yard clean and to encourage his neighbor to keep his clean and that neighbor encourage his neighbor, then the ball would start rolling and pretty soon every citizen would have pride in how their town would look. Get your name on the weed burning list if you are not able to trim your trees, Mr. Melvin Hill will do it for a reasonable fee and haul them away, also plow your vacant lots.

In order to have a good clean up campaign, everyone will have to use a little elbow grease to actually do the work in different areas to keep litter from growing community wide.

Have you noticed how some of the yards are taking on a new look by trees being trimmed? Another thing that would help, would be to sell and move old cars that have been sitting for several years and to all fences be torn down or repaired or improved.

Missions In Europe Is Program Topic

The United Methodist Women will be studying the need for missions throughout Europe. This will be a two part study beginning Sunday Mar. 21, at 3:00 p.m. and completing Monday Mar. 22, at 7:00 p.m., in the fellowship hall of the First United Methodist Church. Study leader is Vicki Sturte.

The Study books to be used are **Methodism in Europe** by Peter Stephens, and **Must Walls Divide** by James E. Will. The participants will have to put together the pieces of the puzzle on mission work in Europe. The study parts are: History of Christianity in Europe, European Geography, The types of churches in Europe today, and the evangelism organizations actively working in Europe. We hope, as a result of this study, that the women of Haskell may reach out to help our European neighbors. Please come and learn and care with us.

Brush and Palette

For the most part of my painting career, I have been devoted to the exciting challenge of painting landscapes. The attitudes of people with whom I was associated during my early years of painting played a major part in directing my interest toward nature and the natural environment. My teachers shared with me many insights into nature and opened my eyes to the beauty of this great land that He has given to us. We cannot copy nature but we are taught to use it as a guide.

Q. When painting a watercolor of a structure, how do you approach it?

A. I take into consideration the best possible viewpoint to sketch the building. I observe and decide which angle would make the best composition. I

Book Review Set For Study Club

Mrs. Vester Shultz from Abilene will be the guest speaker at the Progressive Study Club meeting tonight, March 18, at 7:30 in the Bank Community Room.

Mrs. Shultz will present a book review of **Bess and Harry**, a book about the Trumans. Mrs. Shultz, who retired from the military, does volunteer work at Dyess Air Force Base and works extensively in the Christian Church. She reviews books "for fun." The public is cordially invited to attend.

LET US HELP YOU with all your office supply needs. **Haskell Free Press**

this point. Designate the details, such as brick, rocks or fence but only suggest them, rather than precisely drawing them one by one.

Q. What is the most important part of a watercolorist's material?

A. The paper. The surface varies but for a general landscape try 300-pound cold pressed, Arches, either sheet or block. The block is good for painting on location.

Q. When painting a building, do you consider it a portrait?

A. No. I try to inject into every building, a spontaneous quality that will convey a feeling of light and mood. I suggest the details but at the same time I do want the building to appear authentic and structurally correct. When viewing art shows in the area, have you noticed the lack of perspective knowledge? Some of the old houses and barns are pathetic and more attention should be given to learning - and seeing - perspective!

Fad Diets May Be Dangerous

Fad diets—they're becoming a "national obsession."

Americans spend billions of dollars on fad diets, pills, supplements and books in hopes of losing enough weight to become more attractive, healthier, sexier and younger looking.

But such desires to lose weight quickly actually can be harmful to your health.

"What is a fad diet?" is the first question that comes to mind.

A fad diet is any diet concept that remains unproven scientifically and harmlessly lose weight.

TYPES OF FAD DIETS

One of the most common fad diets used by Americans today is the "crash diet."

For example, the dieter may try to lose 20 pounds in two weeks. This is called the "yo-yo syndrome" because one quickly takes off the weight, returns to old food habits and regains the weight.

Some people are successful at losing weight in short times but seldom are able to keep off extra pounds over the long run.

Medical authorities now believe it's better to be a few pounds overweight than to put the body through the stress of losing and gaining weight over such a short time.

The low-carbohydrate diet is another fad approach to losing weight quickly.

These types of diets are dangerous because carbohydrate intake is limited in an attempt to rapidly take off body fat.

Dieters, however, may go into ketosis—an abnormal condition which can lead to coma or death—on low-carbohydrate diets.

Another area of concern in

RECOGNIZING FAD DIETS

Food fads often may be difficult to identify. Consider the following facts about fads before deciding what diets are good to follow.

The author or proponent of the diet will try to undermine your confidence.

The author or proponent of the diet will try to undermine your confidence in the American food supply. But don't worry, we still have the safest food supply of any nation.

They may attack the Food and Drug Administration, The American Medical Association, the Public Health Service or any recognized authority of nutrition.

They use "scare" tactics on health and play on emotions rather than issue factual data about their diet.

They have something to sell, such as a book, supplement or food.

They make extravagant claims about their product.

and you may be getting one in the mail if you break one.

"Cultivate Haskell" is the slogan selected by a committee from The Haskell Young Homemakers. It seems to be a good one for it takes in a variety of things. If you would like to become a member of the Haskell Beautification Council, you may donate any amount of money, however an individual is \$2.50, clubs are \$5.00 and \$25.00 for a sponsor. Virginia Jones, who works at the bank is Treasurer and would be glad to take your money for memorable gifts tax free.

Mrs. Juanita Rhea presided

Garden Club members don't forget the District VIII Convention in Abilene March 24-25.

Weinert Matron's Club Elects New Officers

Weinert Matron's Club met March 5, 1982 in the home of Mrs. W.A. King in Munday, with the president Mrs. D.L. Moody presiding. Minutes were read and approved and reports heard from outstanding committees. Officers were elected for the year 1982 and 1983: President Mrs. J.A. Mayfield, Vice President Mrs. W.A. King, Secretary Mrs. Vern Derr, Treasurer Mrs. Henry Smith, Parliamentarian Mrs. R.C. Liles and Reporter Mrs. Vern Derr. Board members are Mrs. D.L. Moody and Mrs. W.C. Winchester.

Gifts were decided on for district and state presidents. Plans were made for the meeting in Knox City.

Program for the afternoon was directed by Mrs. King. She read the club creed and directed the roll call.

Mrs. Winchester gave a history of Federated Clubs in Texas and listed the Charter Clubs. She told of the state conventions that have followed and related some facts about the head quarters building in Austin.

Mrs. Moody gave an interesting talk on William Sydney Porter, relating facts about his family and early life. She also told of the different jobs he held and troubles he experienced in later life. She described his literary works, explaining his unique style of writing.

Mrs. Ramon Liles read some Texas songs and gave a few facts about the lives of some pioneer Texas women who contributed to the early history of Texas.

Mrs. Derr listed and described ways of celebrating some of the Texas special days.

Mrs. King gave some "do's" for a dedicated club member. She led the salute to the Texas flag, and Mrs. Mayfield read the club collect.

Mrs. King served delicious St. Patrick Day refreshments to seven members.

Tech Medical School Celebrating Anniversary

There are high risk babies alive and healthy today because Texas Tech Universities Health Sciences Center's medical school has developed systems of care during pregnancy and following delivery. There are alcoholics living productive lives with their families. There are people of all ages whose vision problems have been corrected and who are enjoying the privilege of sight. There are hundreds of cases, some of whom have had chronic disabilities, some of whom were brought in as emergencies, all of whom have been able to receive the medical care they needed nearer home because West Texas has a medical school.

All of those people don't live in Lubbock or Amarillo or El Paso, where Tech's medical school has educational centers. They come from Pampa, Monahans, Tahoka, Muleshoe, Sierra Blanca, Dalhart and many places in

between. Most of them have come because their physicians are on the medical school's clinical faculty and have referred them. In the eight years since the med school's ambulatory clinics opened, patient visits have increased 4102. Last year over 90,000 outpatients sought care in its 12 specialty and 59 subspecialty clinics. Before West Texas had a medical school, that care either would not have been available or would have required a trip to Dallas, Albuquerque, Denver or Houston.

This spring, the Medical School of Texas Tech Universities Health Sciences Center is celebrating its first decade in medical education. It is being called "a decade of progress" because it has been. The medical school was created by the 61st Texas Legislature to develop a program of regional medical education and to address problems of rural health care delivery.

Texas Tech Health Sciences Center

practice. Of these, over 752 have elected primary care disciplines and nearly 752 are in practice in Texas, many in towns like Boerne, Denver City, Haskell, Hebronville, Fairview, Fredricksburg, Jourdan, Lockney, Refugio and Olney with populations of less than 5,000. "A medical school complements existing health care and extends its dimensions," Hartman concluded. "We have made substantial contributions during this decade of progress, and the best is yet to come."

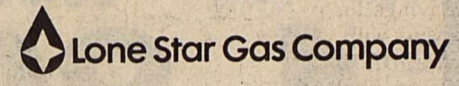

PUBLIC NOTICE

Pursuant to TEX. REV. CIV. STAT. ANN. art. 1446c §43(1975), Lone Star Gas Company hereby gives NOTICE of the Company's intent to implement a new schedule of rates effective on the latter of April 15, 1982

or such other date as new rates become effective in the City of Rule to be charged for natural gas service to residential and commercial customers in the environs areas (outside incorporated limits of Rule, Texas.) The rate schedule is expected to furnish a 11.48 % increase in the Company's gross revenues in the environs of Rule, Texas

A Statement of Intent has been filed with the Railroad Commission of Texas and is available for inspection at the Company's business office located at 304 N. 1st St., Haskell, Texas

Any affected person desiring to contest such changes in rates can file a complaint with the Director of the Gas Utilities Division, Railroad Commission of Texas, P. O. Drawer 12967, Capitol Station, Austin, Texas, 78711.

"We have not accomplished all of the things we plan to do, but we feel a celebration is in order because we have reached the point of critical mass," J. Ted Hartman, M.D., interim dean, noted in announcing the celebration. "Buildings and programs are in place and our faculty contingent is strong. From now on, our plans will be much easier to implement than they have been in the past. From now through

Providing referral support for rural physicians is another product and one that is important to physician retention. Last year the medical school presented 26 two-day continuing education symposia for physicians and over 100 lectures per month. Today, Tech's physician faculty specialists also hold day clinics in the local physician offices of 17 rural towns and contribute to the services of 33 community

graduation in June, we wanted to pause to help West Texans understand the types of services which are available and to thank the many physicians, legislators and civic leaders who have helped us make them so." Creating services which have not been available is a valuable outgrowth of medical education. In the process, the medical school has brought over 600 million in real dollars into the local economy.

agencies. In addition, faculty operate an inner city clinic in El Paso and rural clinics in Claude and Shallowater.

The bottom line, however, is the education and retention of new doctors for Texas and West Texas. Of the 335 physicians who have graduated from Tech Medical School, 100 have finished residencies and gone into

Haskell Nursing Center News

Did you notice the new heading on our news? Among the new things in our facility we have changed our name - same owners, same staff, same friendly atmosphere - same service - a new name HASKELL NURSING CENTER. Tuesday afternoon ladies from the Assembly of God Church came out for their devotional. Several Hymns were sung by all. Mrs. Amburn read to us an inspiring poem entitled "Heaven's Grocery Store", then she gave prayer. The song "One Day at a Time" was sung, as a special, by Mrs. Thurman Medford and Juanita Loyd, at the request of so many of our residents all

expressed how they enjoyed the entire service. The First Baptist of Haskell has the services throughout March each Sunday. Sunday morning, Bro. Hubert Sego brought the message and we sure enjoyed Ford Cole's singing as well as Bro. Sego's message. The service was enjoyed by all. Two of our employees, a few outside volunteers and a few residents spent part Tuesday and Wednesday making beautiful book markers. They really enjoyed making them. They plan to give them to the patients in the Haskell Hospital.

A couple of the offices in our Home got a real face lifting this week. The Director of Nurses, Marlene Avants office and the Activity Director, Chris Collins office. Thanks to the workman and volunteer who caused it to happen. The offices sure look nicer than ever now. Mae Belle Christ of Pampa visited Bessie Hokett. Mr. and Mrs. Burney Camp of Rule visited Ray and Billie Oliphant, Mr. and Mrs. Thurman Lusk of Plainview visited Ray and Billie. Judy Flash and son of Hawley visited Mildred Collins. Mildred spent a few days this week with her

daughter, Judy. Edna Adkins of Rochester and Wanda (Corky) Jeter of Graham visited Lector Thomason. Pansy Koenig of Munday visited Hettie Underwood. Mr. and Mrs. Walter Buerger of Stamford visited Hettie. Mr. and Mrs. Burney Camp of Rule, James and Mildred Lemmond of Dallas, Dave and Thelma Becktold of Shawnee, Ok., David Adams of Choctaw Ok., Irvin and Judy Williams of Rule and Howard Williams of Lubbock visited Lafie and Pauline Williams. Amy and Cynthia Sorrells of Rule, Thelma Bectold and her sister visited Florene Sorrells. We welcome a new resident to our Home, Lottie Hill. Mrs. Sam Basden of Rochester visited Myrtle Russell. Child Care Credits For Working Families

These days it's common to find single parent families or families in which both parents work. Working often means leaving the children with a babysitter, housekeeper, or a day-care center during working hours, and that can be expensive. But the financial pinch can be offset somewhat by taking advantage of a credit on your federal income taxes based on payments to provide care for children, a disabled spouse, or disabled dependent while you work.

Child & Disabled Dependent Care Credit can save you as much as \$800 on your taxes for 1981. You might be entitled to a credit of 20 percent of the expenses to care for your child, disabled dependent or disabled spouse that you paid in 1981.

You may use up to \$2,000 of these expenses to figure your credit if you have one qualifying dependent and up to \$4,000 if you have two or more qualifying dependents. Your credit, however, is limited to \$400 for one, and \$800 for two or more qualifying dependents.

The new tax law will increase the maximum amount of expenses you can claim and will change other provisions of this credit in 1982. That may mean an even bigger savings for you on the return you will file on or before April 15, 1983.

For years beginning after December 31, 1981, the Child Care and Disabled Dependent Care Credit amounts to 30 percent of the qualifying child care expenses of taxpayers with incomes of \$10,000 or less (in this article we'll talk principally about child care, but most of the rules also apply to disabled dependent care). New legislation also provides that the credit will be reduced by one percent of each \$2,000, or fraction thereof, of income above \$10,000. In other words, by the time a taxpayer's adjusted

gross income exceeds \$28,000, the credit rate will eventually and gradually fall to 20 percent. The maximum expense that may be taken into account for computing the credit is \$2,400 for one qualifying individual, and \$4,800 for two or more qualifying individuals. Generally, to qualify for credit you must:

- have maintained a household that included at least one

person under 15 years old, a disabled dependent of any age, or a disabled spouse;

- have paid the expenses to enable you to be gainfully employed, or actively seeking employment when you had the expenses;

- file a joint return if married;

- have made the payments to other than relatives whom you can claim as dependents; payments to nondependent

relatives, such as a grandparent, can qualify for the credit.

You can also qualify for the credit if you paid for child care to allow you to work part-time or go to school fulltime. The only other condition is that your spouse must have been gainfully employed at this time.

The child care expenses can be for services inside or outside your home. For example, a housekeeper, maid, or cook needed to take care of the child will ordinarily be taken into account, as will expenses for nursery or day care if they meet the other requirements. Expenses incurred for out-of-home or institutional care of a disabled spouse or dependent are also eligible for this credit.

When considering expenses for care outside your home, remember that some of these,

though related to care, do not qualify for the child care credit. The costs of transportation between home and school are not eligible for the credit. Care provided by a center which does not meet with state or local standards will not be eligible for this credit.

School tuition at or above the first grade is not considered a child care expense, but this doesn't mean that any child care at this level cannot qualify; just that a division must be made between tuition (for education) and actual child care expenses. For instance, your child might be in an elementary school which provides academic instruction between 9 a.m. and 3:30 p.m., and care for the child before and after these hours. The portion of your expenses for the extended care qualifies for the child care credit, if all the other conditions are met.

The child care credit is computed on Form 2441. "Credit for Child and Dependent Care Expenses." The completed Form 2441 is filed with Form 1040. Even though

you must use Form 1040 to claim the credit, you do not have to itemize your deductions. Remember you cannot use Form 1040A to claim the credit.

More information on the child care credit appears in the IRS Publication 503, "Child and Disabled Dependent Care." Write the IRS for a free copy.

Conservation Viewpoints USDA Soil Conservation Service

The Great Plains Conservation Program has been serving Haskell County producers for 25 years and at present there are 26 producers carrying out intensive conservation measures on 15,899 acres in the county. This includes funding last week for two new Great Plains Contracts on Sam P. Herren and Mrs. Martha Herren Urrea.

These two new contracts will involve construction of 51 acres of grassed waterways and approximately 32 miles of parallel terraces. While we still have a backlog of 11 producer requests for assistance on 4937 acres, it is reassuring to know that monies are still available, even if somewhat restricted, to carry out the much needed conservation work in this county.

Producers involved in GP have constructed 137,325 feet of parallel terraces and 33 acres of waterway shaping to date this year and Van Sedberry of Rule will complete about 30,000 feet of terraces and 14 acres of waterway this week.

As the terracing season comes to a halt until after wheat harvest, attention is turning to seeding grasses for erosion control and increased livestock forage. GP producers

are taking advantage of present moisture conditions and are seeding their waterways, ranges and pastures now. Don Cobb just completed seeding 76 acres using Kleingrass, sideoats grama and green sprangletop in a range mixture. Dale Middlebrook, Allan Overton, Waller Overton, Bill Cox, Dan Griffith, Joe Kimbrough and Jim West all have begun preparation for seeding and will seed about 500 acres within the next 3-4 weeks.

What advantages do Great Plains producers have? They have the ability to make conditions work for them, rather than against them. They have a schedule worked out to achieve their goals and the Great Plains Conservation Program simply allows them to put these goals in motion.

How can you obtain one of these "GP" contracts? Stop by your Soil Conservation Service office and discuss with them your needs.

College News

More than 2,200 students at Texas Tech University qualified for the dean's honor rolls in the university's six colleges during the 1981 fall semester.

Students making the honor roll included: Jimmy Browning, 608 N. Avenue H; Cynthia G. Everett, 405 N. Avenue B, all of Haskell.

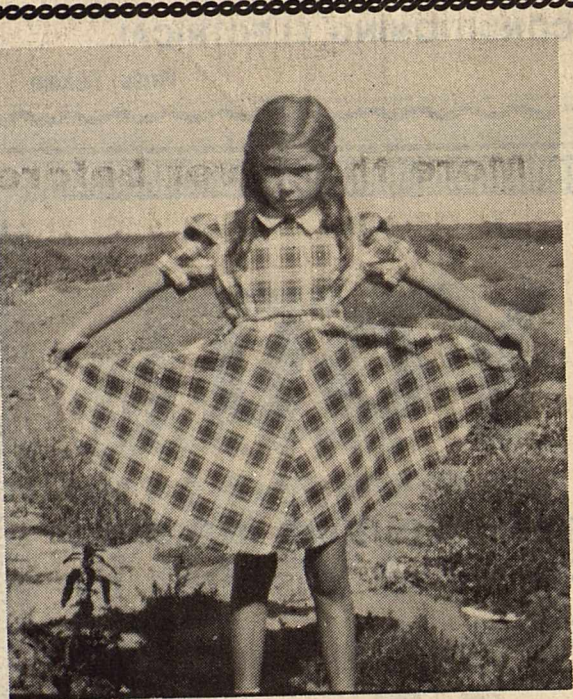

To qualify for a dean's honor roll, a student must have a grade point average of 3.5 or more on a 4.0 scale and must have taken 12 hours or more of work.

Texas Tech has an enrollment of almost 23,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics.

Nancy Lynn Kimbrough daughter of Anna Kimbrough, Abilene, has been awarded a scholarship for Academic Achievement by Tarleton State University, Stephenville. She is currently on the B honor roll with an average of 3.79.

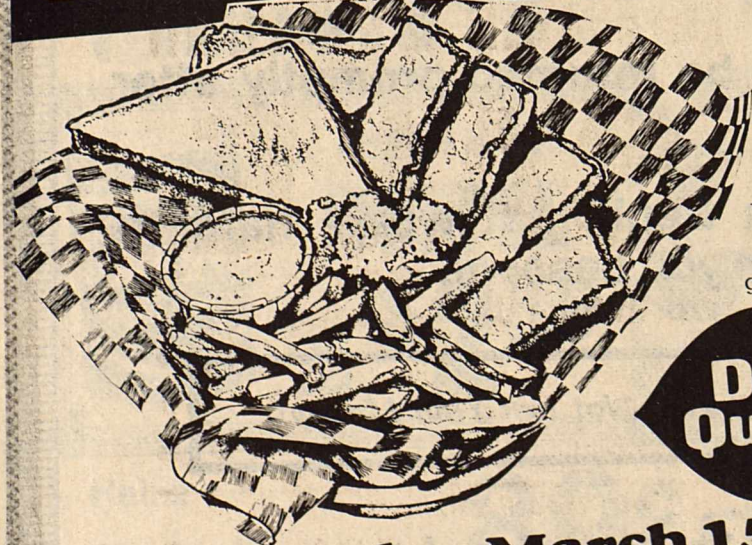

Nancy is a 1980 graduate of Haskell High. She is majoring in Office Administration and is classified as a Junior. She is currently employed by Quetta's, Inc. of Stephenville.

Grain and Cotton Producers Facing Crucial Decisions

One of the most crucial and immediate decisions facing grain and cotton producers is whether to participate in the acreage reduction program announced by the U.S. Department of Agriculture, says an economist in marketing and policy with the Texas Agricultural Extension Service, Texas A&M University System.

Dr. Ron Knutson explains that American agriculture has again entered a period of surplus production—at least temporarily—and the Reagan Administration has responded to these conditions by announcing production controls on all major grains and cotton.

"The 1982 farm program requires that cotton, wheat and rice producers reduce their planted acreage by 15 percent and feed grain growers reduce

planted acreage by 10 percent", Knutson says.

He points out that farmers who choose not to participate won't have access to any of the farm program benefits.

"They will have to fend for themselves in the marketplace," Knutson says.

Many Texas farmers and ranchers have already planted their wheat or prepared their land for planting sorghum, rice, corn or cotton—and in southern parts of the state some of these crops have been planted. The initial "gut" reaction of these producers is likely to be not to participate, Knutson says.

"Producers will find that if they analyze and compute the acreage reduction decision on a crop-by-crop and farm-by-farm basis, there are not benefits from participation," Knutson says.

He points out that an economic decision on acreage reduction involves weighing the costs of reduction against the benefits.

Costs of participation include the income foregone from the reduced acreage, any costs that have already been sunk into the reduced acres, and maintenance costs. In regard to wheat, for example, any returns from grazing or making hay on the reduced acreage should be subtracted from these costs, Knutson says.

Benefits of taking part in the acreage reduction program include potential deficiency payments, access to the farmer-owned reserve and access to the non-recourse loan, Knutson explains.

"These benefits could run as high as 14 cents a pound for cotton, 95 cents per bushel for wheat, 50 cents per bushel for corn, 91 cents per hundred-weight for grain sorghum and \$2.71 cents per hundred-weight for rice, Knutson says.

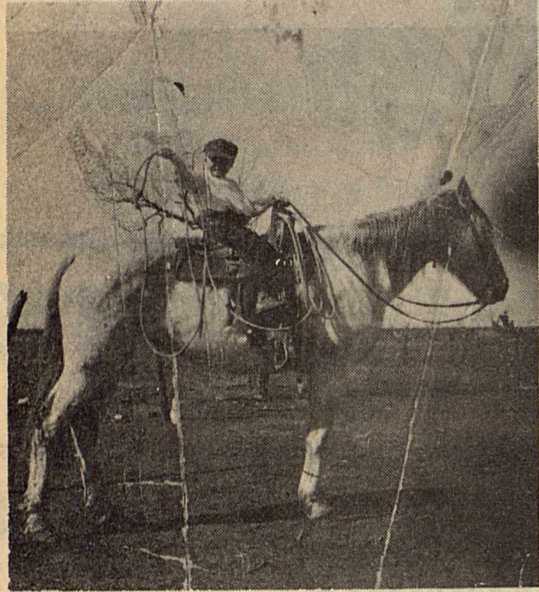

Whether farmers realize these maximum benefits, however, depends on market conditions and grower access to the farmer-owned reserve.

"Even if they realize only 50 percent of the benefits, many Texas farmers and ranchers will find participation will increase their profits," Knutson says.

Farmers who choose not to participate in acreage reduction programs will assume substantially increased price and income risk during times of surplus production. Thus, every farmer should carefully evaluate participation in the acreage reduction program, the economist says.

HOUSTON CALF SCRAMBLE B-6N

CALF SCRAMBLE WINNER

Zachary Wilcox of Rule was a winner in the Calf Scramble at the March 6, 1982 performance of the Houston Livestock Show and Rodeo. Zachary won a \$400 calf purchase certificate donated by Brown & Root, Inc. and will use it toward the purchase of a registered calf. Shown together following the scramble are (left to right): Donald Ballard, VAT; Zachary Wilcox, Winner; Paul Justice, Sponsor.

Zach Wilcox Wins Calf Scramble

Zachary Wilcox of Rule wrestled a calf over the finish line at the March 6, 1982 performance of the Houston Livestock Show and Rodeo to earn a \$400 calf purchase certificate.

The certificate, donated by Brown & Root, Inc. will enable Zachary to purchase a beef heifer which he will feed and groom during the coming year under the direction of Donald Ballard, teacher. At next year's Livestock Show the youngster will return with the calf to compete in the special show ring competition.

The rough and tumble scramble takes place at each of the Rodeo performances. Twelve calves and 24 youngsters are turned loose. Each contestant who manages to halter a calf and drag it across the finish line receives a purchase certificate donated by Houston-area businesses and individuals.

While the viewing public sees only the scramble and judging events, the heart of the Calf Scramble program is the knowledge the scramble winners gain in the intervening year. Closely supervised by a Vocational Agricultural Teacher or County Extension Agent, each youth keeps accurate records and performs other obligations designed to underscore the responsibilities involved in raising a calf.

The Calf Scramble is only one example of the Houston Livestock Show and Rodeo's commitment to the youth of Texas, and the benefits of this one event alone are considerable. Many heifers purchased with these certificated form the basis for future cattle herds. Since the calf scramble began, more than 9,000 animals valued at more than \$2 million have been donated to Texas youngsters.

The all time popular Calf Scramble event is only one of many exciting events which take place during the Houston Livestock Show and Rodeo. The show, which runs February 24 through March 7, draws first-rate professional cowboys who compete for the world's largest rodeo purse and features top names in the entertainment field.

Farmers Union Urges Mobilization Rallies

The worst economic collapse in 50 years can still be remedied, but it will take major emergency amendments to the Agriculture and Food Act of 1981 to turn things around, George W. Stone, president of National Farmers Union said.

Noting that 1982 U.S. net farm income is now being projected at \$14.5 billion, Stone said this would be a 55 percent drop from the 1979 level.

"We are back to the kind of roller-coaster ride farmers used to suffer 50 years ago before the federal farm programs were established in the first year of the New Deal," Stone declared, pointing out that there was a 60 percent drop in farm income from 1919 to 1921 and a 70 percent drop from 1929 to 1932.

"During the years from 1933 to 1973, when we had reasonably strong farm support programs, the swings in farm prices were tamed down to the 20 to 25 percent range," he explained.

Stone called for a grassroots uprising, starting with a series of grassroots mobilization rallies in March and April, aimed at quick legislative or administrative action to undergird farm prices and income.

He announced that the first such rally would be held at the Co-op Cotton Compress in Lubbock at noon on Monday, March 22. Additional mobilization rallies will be held in Kansas, Colorado, South Dakota, Indiana, Wisconsin, Montana, Washington and Arkansas, while state meetings would be held in Minnesota, Oklahoma and

elsewhere.

Stone warned that "simply finding scapegoats is not going to save farmers struggling to survive."

"We have to do more than just point out what is wrong and who is wrong," he insisted, "we have to change what is wrong about farm price and credit policies."

The grassroots mobilization rallies, which will be conducted as public hearings designed to obtain the views of main street businessmen, implement dealers, bankers and farm credit suppliers, community leaders and local governmental officials, will be aimed at getting movement in the Congress as well as in the Executive Branch, Stone explained.

"Farmers Union and other people-centered groups are going to have to help Congress reassert itself during this session, in the November election and beyond," he said.

Chamber of Commerce Salutes Churches

by Wanda Dulaney, Manager
Chamber of Commerce
This is the final article in a series on the churches of Haskell, written from information received from their ministers, in the order received.

HOPEWELL MISSIONARY BAPTIST CHURCH

908 N. Ave. A, Telephone 864-2791, Minister: Lester Williams
Twenty-five members worship at this church which was organized in Haskell in 1920. Sunday services are at 9:45 a.m., 11:00 a.m. and 5:00 p.m. The Women's Missionary Society meets Tuesday at 5:00 p.m., with Prayer Meeting and Teachers Meeting at 6:30 on Wednesdays. Church leaders are called Deacons and Brothers. Gussie Billington is the church pianist. Teaching Universal Sunday School lessons are the following: ADULT CLASS; Sister M. Duffy; JUNIOR CLASS, Sister J. Robinson; WMU Sister M. Duffy; SUNDAY SCHOOL SUPERINTENDENT George Billington. The Church baptism is by immersion and the minister says a person who has been im-

mersed of the Father, Son and Holy Ghost need not be baptized again when they join the Hopewell Baptist Church. The Church votes on its members. Communion is offered every first Sunday night to all baptized believers. Brother Williams says "We believe in the Father, the Son and the Holy Ghost, that He was crucified, died and was buried and rose, that He stands before His Father, pleading for the Father to forgive us for our sins. We believe in the whole Bible." The Pastor says he is a member of the Ministerial Alliance "for fellowship and to further the cause of saving souls, that all men are created equal." Brother Williams and his wife Elnora came to Haskell on August 23, 1981. He studied for the ministry at Farmington, New Mexico and held pastorates at Bethlehem Missionary Baptist Church, Albuquerque, New Mexico and Mission Baptist Church at Farmington.

FIRST ASSEMBLY OF GOD
1500 N. Ave. E, Telephone 864-8097, Minister: J.C. Amburn.
The First Assembly of God

Church, with a present membership of 100, was organized in Haskell in 1922. Church leaders are called Deacons. Baptism is by immersion and previous baptism in another church is accepted of someone

Thomas McWhorter Returns Home After Two Years As Missionary

"It hardly seemed like two years," says Thomas McWhorter, just returned from a two year mission in the Los Angeles, California, area for the Church of Jesus Christ of Latterday Saints (The Mormons) on February 24. Such a statement is indicative of the fulfillment and success that seems to have been his during this service. This is also apparent in the excitement with which he gladly shares his experiences and insights to the message which he bore.

In February 1980, Thomas was called to serve in the California Arcadia Mission, which consists of a small

geographical area in the northwestern suburbs of Los Angeles. At that time, he set aside his job as a manager of a service station and postponed his plans for a college education so that he could perform this service. Two years later, at the completion of his mission, he has returned to Haskell, where he is living with his mother Jeanette Vincent and his sister Rinette. He is working at Allsup's Convenience Store until he can earn enough money to pursue his educational ambitions.

"Most everyone seems to think that Mormon boys have to go on missions," Thomas states. "That's not true. It is completely voluntary. I don't think it would mean as much to the individual or the Lord if it was something that had to be done. I went because I wanted to go." Apparently a lot of Latterday Saint young men share this desire. Their church fields 30,000 missionaries, more than any other U.S. church. This figure, which also includes many young women and retired couples, becomes even more amazing when one realizes that there is not one career missionary in the bunch. All serve a limited period ranging from six months to two years without receiving any payment from the church because they want to do it.

"I think most missionaries are so anxious to serve because they feel it is what the Savior would have them do. A missionary can face some very difficult situations, and it is important for him to have this

conviction. One thing that seemed most frustrating to me was trying to convince some people that Mormons are Christian. A lot of people don't know that. Also, a lot of people think that because we have a living prophet and twelve apostles in our church, these men somehow come before the Lord or between us and Him. I don't see how Peter or Paul hindered the early Christians in their relationships with the Savior. In fact, they were very helpful, even essential, to the organization and functioning of Christ's ancient church. The Latter-day Saints teach that Jesus works with his people in the same way today-- through prophets and apostles. Why would He change?"

Mormons feel that the Lord restored primitive Christianity to the earth after many important facts were lost during the Dark Ages. "The church teaches that Jesus Christ lives today and all mankind is dependent upon Him for salvation. We feel He is the head of our church, the center of our religion, and the pattern for our lives. He continues to speak to men on earth through his chosen servants, the apostles and prophets. And His church is on the earth today with all the fullness of knowledge and

authority that was present in the same organization anciently. This is the message that I shared as a missionary. This is the message of all our missionaries."

When asked how many would respond positively to his message, Thomas seems hesitant. "I didn't keep a tally of how many people that I baptized. I felt like that would take away from the spirit of what I was doing. I could count them; I have the names and addresses of all of them, but I don't because they're my friends, not my victims. Let's just say that I made a lot of friends on my mission. I feel that I was very successful."

Even if Thomas won't give us a number, his church does--over 200,000 convert baptisms per year with increases annually, which makes the Church of Jesus Christ of Latter-day Saints the fastest growing church in the United States, if not in the world.

"I never undermine or criticize the beliefs of others. Everyone has some degree of truth in their lives. If I can add to that or help someone to know Jesus Christ a little bit better, that's important to me. That's why my mission was so important to me."

Mary Ann McFadden. Eugene Gibbs is sponsor of the Christ's Ambassadors Youth Organization and Debra Gibbs, Children's Church. These last two groups meet on Wednesday nights. Pastor Amburn says "The Bible is our all-sufficient rule for faith and practice," as stated in the Fundamental Truths of the General Council of the Assemblies of God. Further stated are the Scriptures Inspired. The one true God, the adorable Godhead, Unity of the One Being of Father, Son and Holy Ghost, the Lord Jesus Christ, God with us. The Deity of the Lord Jesus Christ, the Fall of man, the Salvation of man, baptism in the Holy Ghost, Sanctification. "Since God's purpose concerning man is to seek and to save that which is lost, to be worshiped

by man, and to build a body of believers in the image of His Son, the priority reason-for-being of the Assemblies of God as part of the church is: (a) to be an agency of God for evangelizing the word, (b) to be a corporate body in which man may worship God (c) to be a channel of God's purpose, to build a body of saints being-perfected in the image of His Son." Listed also are Divine Healing, the Blessed Hope, the Millennial Reign of Christ, the Final Judgement, the New Heavens and the New Earth. Pastor Amburn has served in Haskell nine years, with prior service at Hamlin, Littlefield, Granbury and Winters. He is a member of the Ministerial Alliance, and his wife, Nelle, is a talented musician. The Amburns have three children, Olivia, Brenda and Noel.

H & R BLOCK DOES ALL TYPES OF INCOME TAX RETURNS

Skilled preparers conduct personal interviews to be certain that every legal deduction to which the customer is entitled will be uncovered. Often taxpayers are short changed when they simply file the form they received in the mail from the government.

All type of tax returns are done by H & R Block. This included the Federal 1040A, 1040, state returns, complex corporations, and foreign tax income and preparation.

If audited, an H & R BLOCK representative will accompany their clients to the Internal Revenue Service and explain how the return was prepared even though H & R Block will not act as a legal representative. There is no extra cost for this service.

H & R BLOCK assures quality, with the world wide guarantee that states, "If H & R BLOCK makes any error in the preparation of your tax return that costs you any penalty or interest on additional taxes due, while Block does not assume the liability for additional taxes, they will pay that penalty and interest."

ENERGY SAVING IDEAS

HOW TO MEASURE WINDOWS

INSIDE HANG

OUTSIDE HANG

WINDOW LENGTH

ADD 1 IN.

To hang window shades inside a window frame, measure the distance between the point where the brackets are to go, inside the window casement. To hang them outside the frame, measure on the window frame.

With fuel prices going through the roof, many people are looking to their windows as a source of saving both energy and dollars. Windows are notorious as contributors to heat loss in winter and solar heat gain in summer.

Window shades — especially the roller type — are considered by many to be the energy-saving champions. Opaque cloth shades can reduce heat loss by 35 percent in the winter. And, by keeping these shades tightly drawn during summer days, solar heat gain may be lessened by 60 percent.

For maximum savings, leading shade manufacturer Joanna Western Mills offers these tips on inside-the-frame installation:

- Install the shades inside the frame as closely as possible to glass and frame edges.
- Measure at the top of each window, at the actual points where brackets (support casings) will go. Your retailer will cut the shades, taking the bracket measurements into consideration. (For outside hang, measure on the window frame.)
- When measuring the length of the window, start at the roller bracket points and add an extra 12 inches so the shade can be fully extended without coming off the roller.
- To hang shades, attach brackets at the designated installation points and snap shades into place. Brackets should always be mounted with screws rather than nails for greater holding power.

If you'd like to learn more about the benefits of window shades, send 25¢ for a copy of "Saving Graces: A Design Notebook," Dept. P, Joanna Western Mills, 2141 S. Jefferson Street, Chicago, IL 60616.

Arbor Day Foundation Signs of Strokes and What to Watch For To Provide Trees

The National Arbor Day Foundation is giving two free apple trees to all new Foundation members joining during March, 1982.

A red delicious apple tree and a yellow delicious apple tree are being given by the Foundation to help its new members fight the high cost of living by planting "edible landscapes."

The three trees are part of the Foundation's effort to promote tree planting during 1982, the 100th anniversary of the first observance of Arbor Day in schools.

The National Arbor Day Foundation, a nonprofit organization, is working to improve the quality of life throughout the country by encouraging tree planting. The Foundation will give the two free apple trees to new members contributing \$5.00

or more during March. The trees will be 18 to 24 inches tall and will be sent postage paid with enclosed planting and care instructions at an appropriate time for planting this spring. They are guaranteed to grow, or they will be replaced free by the Foundation.

"Arbor Day's founder, J. Sterling Morton, emphasized the value of planting fruit trees. So it is most appropriate that our new members receive free apple trees during this centennial year," a Foundation representative said.

To become a member of the Foundation, and to receive the free trees, a \$5.00 membership contribution should be sent to FREE APPLE TREES, National Arbor Day Foundation, Arbor Lodge 100, Nebraska City, NE 68410, by March 31, 1982.

Usually it occurs in people in their 50's and 60's, but children and even infants can suffer a stroke.

Regardless of the different causes that lead to the various types of stroke, all result ultimately from a change in the blood supply reaching the brain, according to the Texas Medical Association.

Sometimes a clot forms in the artery leading to the brain and blocks the blood's passage. Or the walls of the arteries begin to harden with deposits of calcium or fat that narrow the passageway and reduce blood flow.

At other times, a piece of a clot breaks loose and travels to the brain, plugging a vessel. Or during cerebral hemorrhage, stroke occurs when the

wall of an artery ruptures, flooding the brain with excess blood.

Older people are more susceptible to strokes because the network of arteries and veins becomes less flexible with age. They harden and become less able to handle blood being pumped faster during sudden movements.

For this reason, doctors

constantly warn older patients to slow down their movements, particularly if they are awakened to use the bathroom at night. Statistically, more strokes occur than at any other time. The person's blood pressure is at its lowest point, and suddenly he begins to move.

Major strokes result in paralysis of one or both sides of the body, depending on the side of the brain injured

during the stroke. Loss of vision and speech can result. Still, 75 percent of those surviving a stroke eventually regain most of their lost abilities through rehabilitation. But this can take a year or two.

The main factor contributing to the majority of strokes is high blood pressure. Doctors say that more than 50 percent of stroke cases could be prevented with early treat-

ment of high blood pressure. Other factors contributing to stroke are obesity and smoking.

Certain signals commonly precede a stroke: dizziness; numbness, tingling or burning sensation in toes and fingers; weakness in hand, arm or leg on one or both sides; slurred speech; low tolerance to alcohol; vision disorders; and a personality change, such as increased irritability.

Congressman Stenholm Releases Voluntary Marketing Plan

With farm prices falling to pre-Depression era levels, Congressman Charles W. Stenholm recently unveiled a voluntary orderly marketing plan—dubbed the 20-10-20 Plan—to deal with glutted markets and depressed commodity prices.

"When adjusted for inflation, today's agricultural income levels are far below even those of the Depression days," Stenholm said, "with net farm income estimated at only \$8.4 billion (in constant 1967 dollars) last year, compared to \$12 billion in 1929."

Obituaries

Howard Webster

Howard Russell Webster, 78, died Sunday March 7, 1982 at Valley Baptist Medical Center after a lengthy illness. Webster moved to Raymondville from Haskell in 1971.

Services were held Mar. 9, 1982 at 2:00 p.m. at Duddleston Funeral Home Chapel with Rev. Maurice McLeroy officiating. Burial was in Raymondville Memorial Cemetery.

Survivors include his wife, Lula Mae; five sons, Charles of Anaheim, Cal., Jimmy of Lubbock, Wiley of Stafford, Ariz., and Milton and A.G. Webster, both of Raymondville; three daughters, June Warner of Victoria, Betty Jenkins of Bells and Carolyn Emerson of Sinton; two brothers, Ernest Webster of Houston and Clifford Webster of Mariari; two sisters, Edna Commander of Houston and Mag Garret of Orange, Cal.; 30 grandchildren and 18 great grandchildren.

"The opening salvo of the plan that we are encouraging farmers to voluntarily adopt is quite simple," Stenholm told members of the Washington press March 4. "Stop selling any non-perishable crop below the cost of production."

Stenholm, along with 10 other farm state representatives who support the plan, outlined the four-point plan as follows:

1) Farmers immediately curtail all sales of non-perishable commodities at current prices.

2) Farmers agree to participate in an orderly marketing system (20-10-20) designed to encourage market adjustments. Basically, they would place 20 percent of existing supplies into a farmer-held reserve, with the remainder of the crops to be marketed at

fixed increments during the year or when market prices permit.

3) Farmers agree to participate in production control programs, including the Reduced Acreage Program (RAP) administered by the U.S. Department of Agriculture.

4) An expanded effort is made to use all available resources to increase foreign and domestic sales of farm commodities at profitable prices.

"A growing number of agricultural leaders from across the nation are supporting this marketing concept," Stenholm said, calling it "the only available means farmers have at the moment to stay out of the bankruptcy courts."

Alice Yates To Lead M-H Fund Drive

Alice Yates of Weinert will lead Bellringer workers in a fundraising drive during May, Mental Health Month. Ms. Yates will be calling on others in the community to assist with the organization and working of the drive. All citizens are called upon to aid in this drive to benefit the fight against mental illness and for the improved care for the mentally ill.

"Proceeds will benefit the Mental Health Association in Texas," said Virginia Barlow, state President of the voluntary citizens' association.

As a non-governmental agency, the association can and does speak for the consumer -- the person who needs professional help for an emotional disturbance. Mental illness is America's most costly health problem -- in excess of 40 billion dollars annually. More than two million Texans are affected by mental health illness!

The association offers literature to the public on a variety of topics including depression, stress, and positive mental health concepts. For free

information, contact the Mental Health Association in Texas, 4600 Burnet Road, Austin, Texas 78756 (512-459-6584).

College News

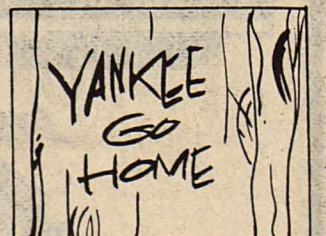

Vicky Hill recently received the Achievement Scholarship given by Hardin-Simmons University in Abilene.

Hill is the daughter of Mr. and Mrs. Melvin R. Hill of 106 South Ave. H in Haskell. She is a junior majoring in Accounting at HSU.

The Achievement Scholarship is presented to those students who were high scorers in college entrance exams, National Merit finalists or semi-finalists, or had the highest average in their graduating class in high school.

Hardin-Simmons is a multipurpose university affiliated with the Baptist General Convention of Texas. It recently celebrated its 90th birthday as the oldest liberal arts institution in Abilene.

Superintendent's Views

BY JAMES LANIER
Superintendent, Haskell ISD

For the next several meetings, the Board of Education and the School Administration staff will be involved in studying and preparing the budget for this coming school year. Last Tuesday was the first step in this process. We will use this column in our continuing efforts to keep you informed about the school and its activities to discuss the on-going process.

The Board studied salaries of personnel and Bonded Indebtedness facet of the budget in their March meeting. Since the salaries will be included in other parts of the budget study, we will describe the Bonded Indebtedness portion of the budget in this column. This portion of the budget is often referred to as interest and sinking. It is that part of the budget that is used to retire bonds for buildings, improvements, etc. as voted by the taxpayers. For several years the incentive money from the consolidation of the Mattson School paid this portion of the budget. However, the time element on this ran out a few years ago and

now this part of the budget is paid from the tax rate.

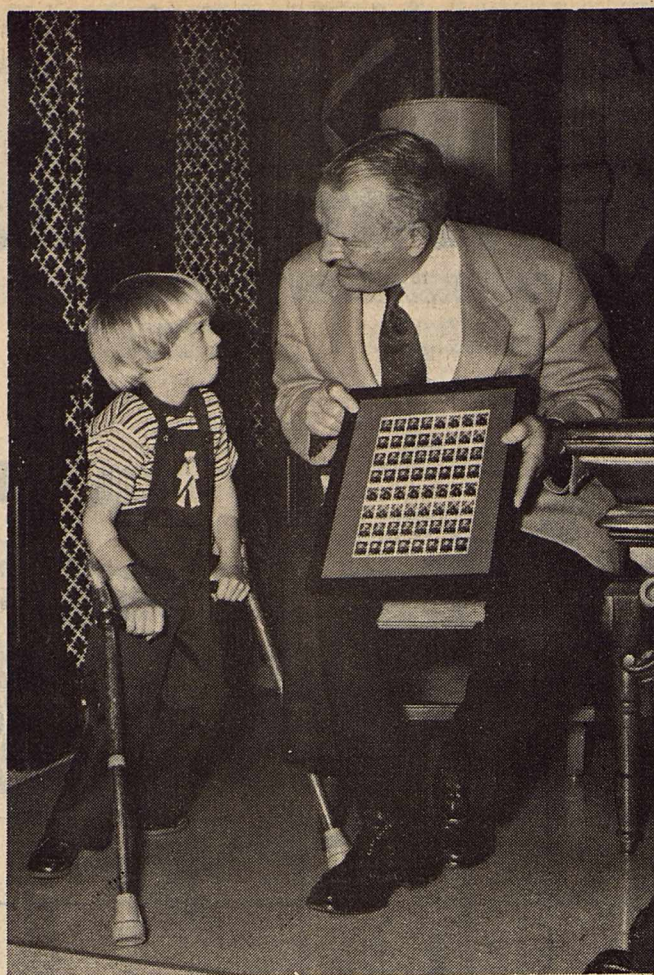

Our debt service for 1982-83 will run \$26,845 as compared to 1981-82's \$26,625. This will break down as principal payment, \$23,000; interest \$3,815, and a service fee of \$30 (estimated). Based on our current property assessment base, this sum will require .05 on the tax rate which has remained the same for several years.

Following is a summary of our current bonds payable to maturity.

1983-84	\$27,010
1984-85	\$28,170
1985-86	\$28,260
1986-87	\$9,157

As you can tell from the above summary, Haskell Schools do not have a great deal of bonded debt and only a few years will be required to pay off the debt.

By using columns like this, we hope we can keep you informed about the school and the progress we are making. Remember, it is your school and requires your attention and support.

EASTER SEAL

Michael Morrill of Forney, Easter Seal Society's 1982 State Poster Child, presented the first sheet of the 1982 Easter Seals to Governor Clements today at the Capitol Building. It has been a tradition with the Easter Seal Society that the Governor of Texas does the honor of opening the annual Easter Seal Spring Campaign appeal in this manner.

Texas judges learn to catch speeders

COLLEGE STATION — City judges from throughout Texas went back to school to learn what it takes to catch a speeder during a recent one-day seminar at Texas A&M University.

The course, presented by the Law Enforcement Training Division of the Texas Engineering Extension Service, taught the magistrates the basics of radar operation and speed violation evidence gathering. During the afternoon, the judges took to the test track to watch radar in use.

Herbicide Control of Weeds

"A robust weed population in dormant bermudagrass or St. Augustinegrass lawns is not only unsightly but can delay recovery of turfgrasses for several months says a turfgrass specialist.

Clover, chickweed, henbit and dandelions are common weed problems in lawns during winter and early spring months, points out Dr. Richard Duple with the Texas Agricultural Extension Service, Texas A&M University System.

According to the specialist, homeowners can take several steps to control winter weeds in lawns.

"Application of a pre-emergence herbicide such as Dacthal or Balan in October will prevent many winter weed problems. However, if you missed that opportunity, there are other methods to keep winter weeds in check," says Duple.

"Close mowing following periods of mild temperatures in February and March will greatly improve the appearance of a weedy lawn and will promote early recovery of turfgrasses," he points out.

However, mowing will not eliminate the weeds. Systemic herbicides (chemical weed killers) such as Wipeout (Greenlight), Weed-B-Gon (Ortho) and Systemic Weed Control (Ferti-lome) will successfully control most broad-leaf weed problems if used according to label instructions. Two applications of these materials about 14 days apart may be required for complete control of broadleaf weeds.

Duple emphasizes that these chemicals will not control grassy weeds such as annual bluegrass and rescue-grass. Preemerge herbicide treatments in the fall are required to control those

grasses. Systemic herbicides can be applied with an air pressure sprayer or a hose-end sprayer, says the specialist. Use care to apply materials uniformly at the recommended dosage when temperatures are above 60 degrees F.

"If herbicides are applied properly, broadleaf weeds will begin to shrivel a few days after the first treatment and will turn brown after the

second treatment," explains Duple. "Close mowing several weeks after the second treatment should remove all traces of the broadleaf weeds and should promote recovery of desirable grasses."

"Quality the Best Bet"

“AGRICULTURE: It's your heartbeat, America...”

Agriculture is vital to our nation's economy and society, the healthy, productive and stable food and fiber system that is in the direct personal interest of every American.

On Agriculture Day, March 18, 1982, the story of what agriculture means to the nation, every day, is retold, reminding us of the strength of this industry.

It is an occasion for sharing with all the facts about an industry that shares with only a very few other enterprises one characteristic: it is absolutely necessary to the survival of our nation.

We salute all involved in the vast food chain of America, from farm suppliers to retail grocers on American Agriculture Day, March 18, 1982!

Card of Thanks
Thanks to all of my friends in Haskell who remembered me with their cards and flowers after the death of my dad. A special thanks to my courthouse family of whom I will always consider myself a part of. Lanny Beauchamp. 11p

CARD OF THANKS
We would like to express our thanks for all your love, prayer, phone calls, flowers, cards and food during the illness of our loved one. Your acts of kindness will always be remembered and appreciated. We ask for your continual prayer. The Family of Alice McGuire. 11p

NOTICE OF ELECTION
*County Water District No. 1
County of Haskell, Texas
To All Whom This May Concern:
It is hereby ordered, and notice is hereby ordered, and notice is hereby given, that there will be an election on Saturday the 3rd day of April A.D. 1982 in Election Precinct No. 8 of County Water District No. 1, County of Haskell State of Texas, for the purpose of electing Directors.
All persons who are legally qualified voters of this State and of this County, and this said Water District shall be entitled to vote at this election, at the Weinert Community Center.
Hal Guess
President,
Board of Directors
Haskell County, Texas
Attest Joe A. Yates
Secretary,
Board of Directors 10-11c

NOTICE OF ELECTION
The Housing Authority of the City of Munday invites bids for the repairing of damaged roof in Project TEX 120-2. Specifications for roof repairs are as follows:
Spud out gravel around base flashing on all sides of each building and install a new 18 inch wide strip of 90 lb. mineral serviced roofing over the damaged 90 lb. roofing; the 18 inch strip of roofing shall be adhered to the existing roof with a coat of hot bitumen.
All vents need to be reworked. Rework all metal coping, repair leaks on apartments no. 547 and 230. Clean up after all work is completed.
This work will consist of 17 flat-roofed buildings. Persons interested in bidding may pick up specifications at Housing Authority Office, 131 West Cisco in Munday. Bids are to be opened Thursday, April 1 at 9 a.m. at the Housing Authority Office.
Jeanie Carden
Executive Director 11-12c

NOTICE OF ELECTION
Notice is hereby given that the election for Weinert School trustees will be held at the Weinert School on Saturday, April 3, 1982 from 7:00 a.m. to 7: p.m. 11c
