BUILDING DAMAGE

Extensive damage occurred to the awning and roof of Farm and Ranch Supply last Friday morning. The building was one of about a dozen in Haskell which received damage. The storm was followed by a total of almost six inches of rain during a three day period.

City Council Expresses Thanks Following Storm

Mayor Franciene Haskell Johnson and members of the Haskell City Council expressed thanks to Tom Watson, Haskell County Commissioners and their crews for the prompt removal of trees and debris following last Fridays storm.

The thanks came during the regular meeting of the Haskell City Council Tuesday night. Councilmen also requested that individuals interested in hauling debris to the dump contact the Haskell Chamber of Commerce. The group also urged residents who

need trees or other debris removed to contact the Chamber for the names of individuals who will contract the job.

In other Council action, members discussed new regulations at the City owned trailer park. Councilmen discussed a two day limit at the park at no charge to prevent competition with existing trailer parks.

Council members also discussed securing an option to purchase additional land to be used as a sanitary landfill.

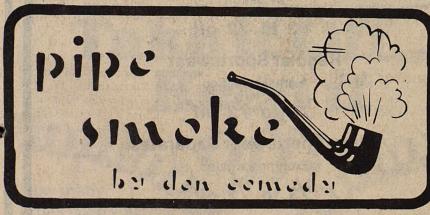

Chamber Of Commerce Box Supper Postponed

Due to the problems last Friday's storm has brought to Haskell area residents, necessitating their mmediate attention, the Haskell Chamber of Commerce is postponing the Centennial Box Supper which had been scheduled for June 29 at the Elementary School Cafeteria.

Don Comedy, Chairman, said the

Box Supper will be set for a later date, to be announced in the near

"Since this old-fashioned social is planned in conjunction with our 100th anniversary, we want to have it at a time when more of our citizens will be able to participate," Comedy said.

As you read this, the Comedy clan will be making final preparations to attend another production of the Fort Griffin Fandangle.

For the past eighteen years, I have looked forward to each year's show with eager anticipation.

The eagerness is not for the beauty of the production, although it is truly beautiful, but for the special insight into the lives of our forefathers which I have never seen anywhere else.

According to the narration which opens the show, the Fandangle is history not as it is found in books, but history as it lingers in the minds of the oldtimers.

All to often in this busy life, we forget to stop and consider how our forefathers solved their problems in order to provide a better life for us.

The Fandangle production gives as an opportunity to relive a wide range of experiences, the happy and sad, the good and bad, which is a part of our history. Not the history of some far off place but the history of a small area bordered by Albany, Fort Throckmorton, Phantom and Haskell.

Another statement in the opening narration states "while other states were made or born, Texas grew from hide and horn". The show which follows gives a new understanding to the pride of Texans and their true love for this

A casual visitor to Albany observes a normal small town with many of the same characteristics of other towns of a like size. What the visitor misses is the realization that the ranchers, businessmen, mothers, housewives, students and children of the town have formed a unique bond which is the foundation of the Fort Griffin Fandangle.

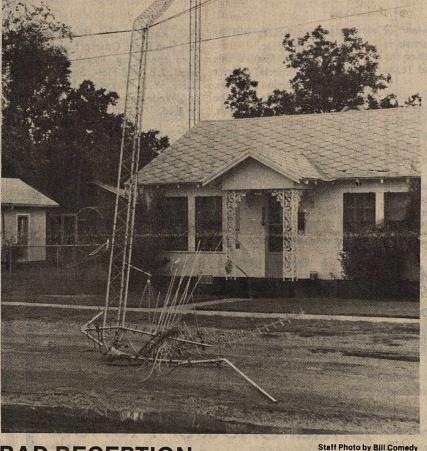

For much of the year, the people of Albany live routine lives, but when Fandangle season arrives everything changes.

The entire town pitches in to work on props and costumes and to tend to the thousands of odd jobs required in such a large undertaking.

Understand that these people are not professional entertainers and that most have never received any training other than Fandangle practice sessions.

No, they are just regular folks with a deep love for our heritage, who have undertaken a larger than life project. The production means many things to many people, but provides unique entertainment to all who attend.

The three final shows of the 1982 edition of the Fandangle will be given Thursday, Friday and Saturday of this week. Ticket information is available by calling 915/762-2525.

BAD RECEPTION

A television tower at the home of Mr. and Mrs. Ed Walling was destroyed by high winds last Friday. The tower fell across a West Texas Utilities power line and added to delays in restoring electric service to the City. Trees, limbs and parts of buildings also fell on local power lines during the storm.

17th Annual Singing **School Set July 5-10**

Students will begin arriving soon for the 17th annual Haskell Singing School to be held July 5-10. The school is under the over-sight of the elders of the Haskell Church of Christ, Haskell. Young people from all sections of the country participate regularly in the school. States represented last year were: Texas, Oklahoma, and Kansas. Students have come from as far away as New Hampshire and Virginia to attend the well-known

Holland Boring, Sr. of Bryan will direct this session of the school. He has assumed this responsibility since 3101 or 864-2241. the school's beginning. Other instructors will be: Holland Boring, Jr., minister Grand Prairie; Bob Connell, minister from Abilene and Paul Epps, minister, Corsicanna.

A unique feature of the Haskell Singing School is that all students are housed with local Christian families. In these individual homes they eat their morning and evening meals, rest, prepare for the following day's classes, help with assigned chores and participate in nightly devotionals. In essence, for the one-week period, they become a part of another Christian family whom they learn to love, made up of "foster-parents" and other young people. It is a concept that has proven most successful in the seventeen year history of the school.

Anyone 10 years of age and older is invited to attend. The purpose of the school is to improve congregational singing by training

all Christians interested. Special emphasis is given to song leading. There are additional courses, however, in song reading, rudiments, song writing, etc. The school is for men and women, boys and girls. Cost of attending the oneweek school is \$45.00 tuition, \$100.00 room and board and approximately \$5.00 for other materials (text books, etc.).

Additional information application forms may be obtained by writing Haskell Church of

Christ, 510 N. Ave. E, Haskell, Texas 79521. Telephone (817) 864-

Chamber Win-A-Trip

The following places of business are paying all expenses for the promotion and for the trips in the Chamber of Commerce "Free Vacation Trip for Two" contest:

Bynum's Furniture, M System Grocery, Wallace Bird Exxon Station, The Sweet Shop, Sue's Flowers Gifts and Photography, Perry Brothers, Martha's Beauty Center, Medford Buick Pontiac, C & B Store, Slipper Shoppe, Personality Shoppe, The Hayloft, Fouts Dry Goods, Jones Cox & Co., Buster's Drive In Grocery, Mitchell's Porthole, Lane Apparel, Johnson Pharmacy, Potpourri, Hassen's Department Store, Kid's

Store,

Customers at any of these stores will receive one free ticket for each \$5.00 purchase. The drawing is set for Saturday, July 10 at 3 p.m., East side Courthouse. You must be present to win, according to Bill Lane chairman of the Chamber's Retail Trade Committee. Two trips will be awarded to customers, one trip for the winning merchant among those participating.

'HASKELL-A GOOD PLACE TO VISIT; A BETTER PLACE TO LIVE" **NUMBER TWENTY-FIVE** HASKELL, TEXAS 79521, JUNE 24, 1982 High Winds, Rain Rip Haskell Area

FREE PRESS

High winds, hail and heavy rains did extensive damage in Haskell and the surrounding area early last Friday morning.

Winds of over 60 mph destroyed

several roofs, overturned one trailer house and did extensive damage to trees throughout the Haskell area.

A delay with the U.S. Weather Bureau in notifying the Haskell Fire Department resulted in no advance warning to local residents. Weather Bureau officials are currently working on additional procedures which will prevent the delay in notification in the future.

THE HASKELL

The mobile home of Mr. and Mrs. Robert Crane was overturned by high winds. The couple and one daughter, were in the home and were not seriously injured.

High winds caused damage to the buildings of Nine Point Grain, K&G Gin, McTids, Farm and Ranch Supply, Strickland Bridge, and the S&H Green Stamp building. Damage to signs and windows occurred at Anderson Tire Co., Bill Wilson Motor Co., Bailey Toliver Chevrolet-Oldsmobile, Allsups, and Ben Franklin.

Local electric service was lost about 2:45 a.m. Friday according to Sue Pate, local West Texas Utilities manager.

Service to most of Haskell had been restored by 8:45 a.m. and all service was restored before noon Thursday.

According to Pate, WTU can supply electric service to Haskell from four different sources: Paint Stamford, Rule, and Munday. Damage to all four supply lines left the city without service until repairs could be completed.

A total of 12 transmission poles were down between Paint Creek and Stamford and poles were also down between Munday and Haskell. Conductors were off insulators

Commissioners File **Disaster Request**

Members of the Haskell County Commissioners Court officially went on record requesting that Haskell County be declared a disaster area following last Friday's

The decision came during the regular meeting of the Court Monday.

Contest In Full Swing

Duds, Lane-Felker, Heads or Tails Western Wear, Boggs & Johnson Furniture, Haskell Free Press, The Sport-About, Heidenheimers Department Store, Pogue Grocery and Sherman's

Carpets & Interiors.

between Rule and Haskell and between Haskell and Paint Creek.

All repairs were slowed due to muddy roads. A total of three extra WTU crews from Abilene, Stamford and Childress, assisted by two contract crews, worked on the repairs.

By noon Tuesday, all repairs had been completed except a portion of the transmission line between Paint Creek and Stamford which crews could not reach because of mud.

Further complicating the restoration of local service immediately following the storm were trees, limbs, and portions of buildings which had blown across lines and several transformers were

Due to the excessive rains, City garbage service has been disrupted, but according to Desmond Dulaney, as soon as alleys dry enough to permit sanitation trucks to pass, the City will get back on schedule. Water and sewer services were not disrupted.

The local radio station, KVRP, was off the air from about 2:30 Friday morning until electric service was restored to the transmitter site Friday afternoon. After service was restored, the station began broadcasting and again went off the air. It was later discovered that lightening had apparently struck the tower and caused some damage and that water had been blown into the building at the tower which caused further damage. Repairs were completed Sunday afternoon and the station began broadcasting about 5:30 p.m. Sunday.

Another storm struck the area Friday night and at about 2:30 a.m. Saturday a fire totally destroyed the home of Mr. and Mrs. Johnny White, Jr. of Rochester.

The home is located about three miles east of Rochester and the fire apparently started when lightening hit the structure. All phone lines were out which caused a delay in notifying the Fire Department. The home and all contents were destroyed, but the family escaped without injury.

A fund has been started in Rochester for the family, persons wishing to donate cash, clothing or furniture should contact Bob Easterling or Owen Aikin for information.

Other extensive damage occurred to area crops and farm land and the County Emergency Board has held several meetings to survey damage.

The board is comprised of Max Stapleton, Glenn Brzozowski, Jim Hudson, and Larry McDaniel.

They estimate that about 135,000 acres of cotton in Haskell County were damaged. The total included unplanted acres.

The board found evidence of scattered terrace damage and also damage to corn, wheat and guar crops in addition to cotton.

Board members urge all producers to complete a disaster application for history credit at the ASCS Office before destroying any

During the entire four days of rain, a total of almost six inches was received in the Haskell area.

Swimming Lessons To Begin Monday

The Haskell Swimming Pool will begin the second session of swimming lessons Monday, June 28. For more information, contact Randy Stone or Bobby Busby at 864-2087.

During the ceremony, Sharla Drinnon of Haskell played "The Lord's Prayer" on the flute, and Patti Wilson, cousin of the bride of Rule, sang "There Is Love," and the theme from Ice Castles, "Looking Through the Eyes of

The reception was held in the First Baptist Church Chapel. The bride's cake was 3-tier with 4 little cakes off each side. It was decorated with blue and yellow flowers with an arrangement of silk yellow roses, white and blue daisies, on the top of the cake.

The groom's cake was 2-layered chocolate with tan and brown icing with "Tim" written on top.

Serving the bride's and groom's table were Cam Klose, Vickie Wallace, Lissa Hunt, and Kim Griffith who also registered guests.

Andrea Hickman passed out rice bags at the reception.

For going away the bride wore a navy blue sun dress with a white jacket and a corsage of yellow roses.

Following a wedding trip to Colorado, the couple will live in Abilene.

The bride graduated from Haskell High School this year. The groom is a 1979 graduate of Stamford High School and is employed by West Texas Utilities Fort Phantom Power Plant in Abilene.

The rehearsal dinner was hosted by the groom's parents at The Porthole in Haskell, June 18, 1982.

Almost everyone agrees, an though every artist has his own personal style, I don't believe that every picture his thoughts, his experiences should be handled in the same manner, with the same materials, the same technique, and acquires knowledge, so his the same thinking, without the work should change - for the danger of becoming repetitious and eventually borrownatural evolution, whether it ing from oneself. Since there be a deeper extension of his are so many good books present direction or a com- available on various phases of

artist shouldn't take advantage of them. Read, study and know your subject before you start to paint! Fine art should be a sincere presentation of a personal conviction or truth as the artist sees it, designed only for the mind of him who is properly attuned to receive it.

Q. I have beads on the canvas often when I apply paint over a dry surface. What am I doing wrong?

A. Several devices can be employed to remedy this situation. Using pumice, chalk, or gypsum, scrub the ground to remove the smooth surface. You can rub the ground with a slice of onion, potato or diluted household ammonia. Another device is to wipe the ground with alcohol. Also, the application of a retouch varnish best remedies the problem - and I like this

Q. How can I get dimension in my pictures? They look so

A. I assume you mean an oil painting. This can be done some extent the illusion of three dimensional space. The cousin, gave the invocation. more heavily glazed an area, the more it tends to recede; opaque surfaces, by contrast, appear to advance. Learning to control the degree of glaze, you can push back or bring forward an area.

Q. I have heard that skim milk makes a good fixative. Can you explain how this is done?

A. One of the oldest methods of fixing drawings or pastel paintings is to spray pure skim milk on them, obtaining a vapourous casein coating in the process.

Showers Honor Cristi Guess

Cristi Guess, bride-elect of Todd Herricks, was honored Saturday, June 12, with a "kinfolk" luncheon given by with glazes. You can control to her aunt, Mrs. Chan Hughes.

Ann Therwhanger, Cristi's After a luncheon, there was an afternoon of entertainment.

Rita Hughes began the program by reminiscing about Cristi and her grandmother, who was known to all her grandchildren as "Ma". Then to bring back more

fond memories, Erlinda Mayfield, cousin of the bride, read the poem that she had written and read first at the party given for Cristi's mother before Cristi was born, entitled "Heard on the Mattson Party Line".

Ann Therwhanger and Jennifer Burgess, cousin of the bride, read several poems. Mrs. Hughes read a favorite Edar A. Guest selection.

A mock wedding, with characters portraying Cristi, Todd and their families, was a highlight of the afternoon. The cast consisted of Cristi's sister. Caron Yates: Erlinda Mayfield, Ann, Teresa and Jeanette Therwhanger, Lisa Teague, Jennifer Burgess, Dana Alderman and Cynthia Murrell, cousins of the bride; her aunts, Sue Guess of Haskell and Lenora Guess, her sister-in-law, Cindy Guess, and the groom's cousin, Donitta Hudgens.

Following the opening of gifts, the activities were closed with the reading of a bride's prayer by Jennifer Burgess.

Special guests at the party were Sarah Guess, mother of the bride, and the groom's mother, Tinka Herricks, and his sister, Tina Herricks, of Weinert.

Also attending were the groom's grandmother and aunt, Mrs. L.Q. Greer of Snyder and Mrs. Joel Greer of Lubbock; Mrs. Mabel Derr, Mrs. Clyde Mayfield and Mrs. W.B. Guess, Weinert, aunts of the bride, and Mrs. Hale Alderman of Fort Worth, cousin of the bride.

Miss Cristi Guess was honored with a lingerie shower in the home of Mrs. Kristi Hutchinson on June 4.

We treat you like a Texan.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective July 27, 1982, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 13.4 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate

Notice to El Paso Area Customers

Effective January 1, 1982, Southwestern Bell adopted the Mountain States tariffs in effect for El Paso County. Southwestern Bell proposes to merge the separate El Paso tariffs with its tariffs applicable to the rest of Texas. The resulting new rate schedule is on file with the PUC and the El Paso area municipalities served by Southwestern Bell, and is available for inspection at our El Paso business office.

> Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs. While Southwestern Bell has proposed no increase in long distance rates, any change in those rates would also affect customers of other telephone companies.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 27 de julio, 1982, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 13.4 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios que resulten de la manera en la cual Southwestern Bell aplique sus tarifas.

Aviso a Clientes en la Región de El Paso

Con vigencia a partir del 10 de enero de 1982. Southwestern Bell ha adoptado las tarifas de Mountain States efectivas en el condado de El Paso. Southwestern Bell propone unir las tarifas de El Paso con sus otras tarifas que se aplican al resto de Texas. El nuevo arancel que resulta de ésta union se ha archivado en la Comisión de Servicios Públicos (Public Utility Commission), al igual que en las municipalidades de la región de El Paso servidas por Southwestern Bell, y está disponible para inspección pública en nuestras oficinas de El Paso.

> Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio tambien afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell. Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para larga distancia, cualquier cambio en las mismas tambien afectaría a los clientes de otras compañías de teléfono.

Sorrells of Weatherford,

Red Cross Offers Aid To Haskell Storm Victims

BY WANDA DULANEY Manager, Haskell **Chamber of Commerce**

It is so good to know that organizations and individuals will come to the aid of our townspeople, to help bring hope out of chaos.

The American Red Cross was on the scene immediately following the storm that hit Haskell last week, to offer assistance to people who had disaster-caused needs.

Allen Brooks, representative of the North Texas Division, American Red Cross, Dallas, explained the role of Red Cross in such a

catastrophe. "Red Cross is prepared to help victims with emergency assistance of food, clothing, shelter, household furnishings, linens, medical needs, occupational tools and other essentials to help bridge the gap between their own resources and their immediate needs that were brought about because of the disaster."

Brooks described the method providing the help through disbursing orders. After the family and the Red Cross disaster specialist have discussed their situation and a survey is made of the home that was destroyed and damaged, and amount is allocated on each segment according to the need and the number in the family. They are asked where they would like to shop for the items needed, and disbursing orders are written for the family to give to the merchants of their choice. The merchants, in turn, bill the Red Cross accordingly.

Needs of families vary. They may need a place to stay and after they locate living quarters, Red Cross can pay

the landlord up to one month's rent in their behalf. Usually, the food in a stricken house is contaminated and should not be eaten, therefore a need for replacements and additional items may exist. A grocery order is executed. Sometimes

clothing, linens are salvaged, but require considerable sums for laundry. Such help is available, as are new clothes if theirs were destroyed. A family may need beds, other household essentials, as

well as mattresses, blankets and pillows. Item by items the needs are determined as the Red Cross worker and the family plan together for their Brooks said the Red Cross is

helping some of the Haskell people with their emergency needs following the disaster and asks that if there are others who were stricken by the storm who may also need help. If so, Brooks asks that they call him at 915-672-1561 in Abilene and if there is no answer to leave a message for him at the Taylor County Red Headquarters

Brooks concluded that all Red Cross disaster assistance is an outright gift, with no repayment asked nor expected. Such help is made possible by the generous contributions of people who care, and share.

Help from the American Red Cross following disasters is not new to Haskell, for many citizens needed and received assistance here following the massive tornado of a few years back and the more recent major flood.

During the first hours following last week's storm, the personnel and equipment of the North Texas Division in Dallas, the Taylor County

Treat Fields For Grasshoppers Now

Grasshoppers are now concentrated in large numbers of 20 to 50 per square yard in fence rows and in weed rows on the edge of many cotton and hay fields. As the weeds and grasses mature and become less attractive the grasshoppers will move into

cotton, hay and other crops. Cotton is most susceptible to grasshoppers from the time it emerges until four leaves have developed not counting the two cotyledonal leaves. Once grasshoppers have damaged the bud between the cotyledonal leaves the plant can not initiate new growth.

Now is the time to control grasshoppers around the fields while most are immature, and have not developed wings. After developing wings the grasshoppers will not be as concentrated and will move further into the field making control more difficult. Early grasshopper damage often results in stand loss around the margin of the field. Last year in some areas heavy grasshopper infestations destroyed a part if not the

complete cotton stand. Sevin XLR or Sevin 4 OIL will effectively control grasshoppers where crop margins are sprayed by air. If there are no livestock that have access to the area add 1/2 pint of parathion (4 lbs. actual insecticide per gallon) per acre to the mixture for quick knockdown. The Sevin XLR and Sevin 4 OIL should give 2-3 weeks residual control but the grasshoppers must eat it to be effective. This is the situation with any Sevin formulation. Don't make the mistake of applying Sevin to the turnrow where there is no vegetation. The effectiveness of Sevin applied to small seedling cotton is also limited because there is very little vegetation to intercept it.

If you are going to spray with conventional ground equipment using Sevin, do not use the more expensive Sevin XLR because if you use more than 21/2 gallons of water with on quart of Sevin XLR the washoff resistance to rain is

lost. Sevin 80S or 50WP cattle nor should treated would be a more economical choice. Cygon and malathion are also effective and can be used in a ground sprayer.

grasshopper control as long as the grasshoppers will feed on them. Information on a toxaphene bait that can be made is

available from your County Extension Agent.

infestation Grasshopper controlled now can prevent stand damage or delay that damage until the cotton is better able to tolerate it. Once grasshoppers are winged they will be more difficult to control and a larger part of the field will require treatment for the same level of control. The need for control should be based on the number of grasshoppers found in weed rows and adjoining pastures.

IS YOUR INSURANCE AGENT LOCKED INTO ONE COMPANY?

There are 2 ways to buy insurance. You can buy your insurance from a onecompany agent. But he's locked into only those policies that his company sells. So his hands are tied.

Or you can buy your insurance from an Independent Insurance Agent...the more-than-one-company agent. You see, your Big "I" Independent Agent doesn't work for one company. He represents several. So he's free to give you an independent opinion and advise yo on the best coverage at the best price. And that goes for homeowners, automobile, business, life and health insurance. YOUR ndependent

American Cancer Society Offers Variety Of Services

The Haskell County Chapter of the American Cancer Society has a number of services available to cancer patients without charge.

"Many people are unaware of all the services we can provide right here in Haskell," said Anita Thigpen, chairman of the service rehabilitation program.

Loan equipment such as hospital beds, wheelchairs, commode chairs and walkers are available as are expendable items including dressings, hospital gowns, bed pads, pillows and other items.

"The loan and gifts service provides necessary and useful items for cancer patients. Gifts items cover an almost endless variety of articles determined by the patients' needs," Anita explained.

In 1981 more than 400,000 patients throughout the country were reached through various service rehabilitation

programs sponsored by the ACS and more than 94,000 patients were reached in the rehabilitation programs, Anita

"These rehabilitation programs include Reach to the patients and their families Recovery for mastectomees, esophageal speech lesson for laryngectomees, ostomy rehabilitation and related patient and family support groups," Anita said.

Since September, an estimated \$653 worth of services to patients has been utilized in Haskell county so far this year, Anita said.

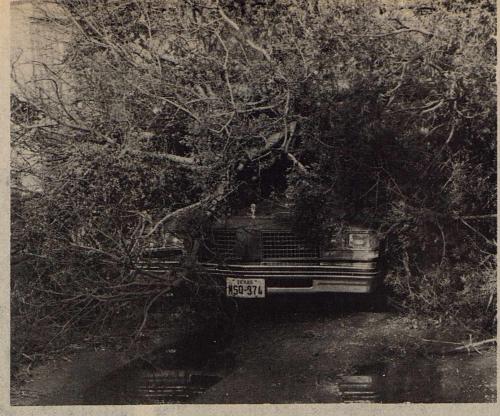

"Even more could be done if more patients were referred to us. If anyone knows of a person who has had the advantage of these programs, then you know what an emotional and physical difference that these programs can make. They also make a tremendous difference to the patients and their families

financially since the programs are free. This can all be enormously supportive from a psychological point of view and can benefit in easing at least some of the stress that must face," Anita said.

"The dollar value of services to patients are tremendous and we are excited about how people are becoming more aware of services which are available to the cancer

Haskell County volunteers are currently participating in the nationwide door-to-door fund raising campaign. Volunteers will be collecting contributions now until April 19.

Those wishing to contribute to the ACS Memorial fund may send their contributions to memorial chairman Evelyn Cobb at Herren Insurance Agency, 115 N. Ave E or box 761, Haskell, Texas 79521.

Water swelled over the bridge on U.S. 83 six miles south of Paducah as Mrs. Henry Salley and 12-year-old DeAnna Salley were returning to Paducah from Weinert. The Rev. Henry Salley, pastor of First Methodist Church of Paducah, said neither his wife nor daughter remember exactly how they got out of the car but that both made their way to safety.

Paducah Sheriff Frank Taylor reported that the two were found about 10:30 p.m. on opposite sides of the creek. The creek, normally a dry bed, had swelled to 50 feet wide and 3 to 8 feet deep.

Taylor said the two escaped the Chevette, which had hung up on another bridge, when the windshield popped out. The girl was found at the top of a windmill tower, and Mrs. Salley was found on the other side of the water on higher waited an hour for help.

Taylor reported that with an eyewitness account of the car crashing end over end in the water, authorities did not have much hope of finding the Salleys. "I don't know how they got

out of that car," said Taylor. 'Being the family of a Methodist preacher didn't hurt anything."

Volunteer firemen rescued the two with the help of a

Conservation Viewpoints **USDA Soil Conservation Service**

Assisting

Haskell Soil and Water **Conservation District**

Graded terraces have been installed to a limited extend in Haskell county for the past few years. The present wet conditions indicate that graded parallel terraces solve the problems of excessive rainfall which can not be drained from level closed end terraces. The problem of standing water on terraced land is aggravated by tight clay soils which comprise most of the terracable land in

the county. Todays farming methods premit deeper plowing that will store adequate moisture to a depth normally used by plants. Heavy rainstorms on level terrace systems tend to break the terraces and the additional rainfall is lost and not stored for future use.

The problem of drainage on level terraces systems can be helped by constructing water ways or emergency outlets to help drain excess water. Waterways on gently slope slopes can be protected with small grains. Slope conditions that do not permit small grain planting, must be protected with permanent grass.

Graded terrace systems must have adequate outlets. Waterways are an essential practice that must be used with graded terraces, unless other suitable outlets are joining the terrace system such as a native pasture that permits drainage.

Technical assistance is available through the Soil Conservation Service to plan and design soil and water conservation practices. If financial assistance is needed, cost share programs are available in Haskell county such as the Great Plains Conservation Program, Long Term Agreement and the Agriculture Conservation Program. Funds may not be available at the present time, but sign up is encouraged.
