CRASH SITE

Five residents of Seagraves died when their Piper 180 crashed Monday afternoon Northwest of Haskell during a severe thunderstorm. FAA Officials indicated that the weather could possibly have caused structural damage to the plane which caused the crash.

During Severe Storm

Five Seagraves Residents Killed In Plane Crash

Five Seagraves residents were killed in a plane crash Monday afternoon about five miles Northwest of Haskell.

The crash apparently occurred during a severe thunderstorm which included heavy rains and extremely high winds.

The crash occurred in a plowed field between FM 2407 and FM 2163, just North of U.S. 380.

The group was apparently en route home to Seagraves from Possum Kingdom Lake.

Pronounced dead at the scene by peace justice Geraldine Hise were: Roy Williams, 44; Shirley Williams,

40; Lonnie Olen Moore, 38; Jann Kirk Moore, 36; and Melony Moore, 1.

Federal Aviation Administration Officials from Fort Worth were in Haskell Tuesday morning to examine the wreckage. They indicated that the storm possibly caused the tail section of the plane to separate while in flight which in turn caused the crash.

The officials told local authorities that it may be some time before their investigation is complete and until that time they would not say what caused the accident.

The plane was piloted by Williams who had received his license last year according to Seagraves airport personnel.

During the storm Gary Thomas was working in his barn and heard the plane. "It sounded like it was struggling," said Thomas.

Following the storm the wreckage was located and access was available only with the aid of four wheel drive vehicles.

Members of the Haskell Volunteer Fire Department Rescue Squad, aided by citizens in four-wheel drive pickups, recovered the bodies.

Open House Set Sunday For Rule First Responders

The First Responder Unit of Rule will host an Open House on Sunday, June 5th, from 2:00 to 4:00 p.m. at the Rule Fire Station. First Responder equipment and the new Haskell County modular ambulance will be on display.

First Responder Unit is a group of volunteers who provide emergency medical care until the arrival of the Emergency Medical Service (EMS). Activation of the unit is determined by the EMS personnel. Qualifications are: LVN or RN with CPR certification, ECA or EMT, and standard Red Cross and CPR certifications. The area of responsibility is the Rule area or any area requested by the EMS personnel. A coordinator schedules duty assignments, sees that all equipment is maintained and coordinates activities between the First Responder Unit and the EMS unit. Coordinator for the Rule First Responder Unit is Mr. R. W. Callan, certificated ECA. Meetings are held once a month or as needed and duty

assignments are set by the coordinator. This unit is the first in Haskell County and is being formed by concerned citizens, all

Wreck Injures Two Monday

Two Saginaw residents, Cecil D. and Nancy Forehand, were injured in a one car accident Monday afternoon on U.S. 380 between Haskell and Throckmorton.

They were taken to Haskell Memorial Hospital by Throckmorton Ambulance Service and both were later transferred to Abilene, by Haskell County Emergency Ambulance Service.

They were en route to Arizona when their vehicle apparently left the roadway and went out of control.

Both received fractures and lacerations.

The accident was investigated by a Throckmorton DPS Trooper.

volunteers, who are working to provide the community with better health care. Approximately 30 to 35 runs are made yearly to Rule by the Haskell County (EMS) Service.

The First Responder Unit receives no government subsidiary or funds from any organization whatsoever. Thru the generosity of other concerned people of Rule, donations were received, enabling the First Responder Unit to purchase a pager, two way VHF radio and trauma kit. A fund was opened at the Farmers National Bank in Rule to which people made their donations. All funds received into the account now, are being used to keep the Trauma Kit updated and if needed, any repair to be made on equipment.

Future plans for the First Responder Unit include providing Red Cross First Aid and CPR courses for the community, a simulated triage accident and disaster operations.

Bloodmobile To Visit In Haskell June 2

A modern day miracle (that has existed forever) is the ability of the body to replenish the blood supply. According to officials with the Red River Regional Blood Services

Therwanger Finishes Third In NCAA Meet

Kerry Therwanger, sophomore student at Angelo State University, finished in third place in the long jump in the NCAA Division II Track Championship in Cape Girardeau, Mo. last Friday to qualify for All-American status.

Therwanger, a native of Haskell, celebrated his 20th birthday during the meet and also long jumped 25 feet 1 1/2 inches for a new personal record.

During his high school track career his best long jump was 22-7 at the regional meet. During his freshman year at ASU it was also 22-7. Prior to this meet his best jump of the year was 24-8 and he beat that last Wednesday with a qualifying jump of 24-9 1/2.

The 25-1 1/2 jump came on his first jump and he later jumped 24-6.

Therwanger is the son of Mr. and Mrs. Truman Therwanger of Haskell.

in Wichita Falls, a donor will replace the unit of blood he donates in only three to five weeks and, in fact, may donate again in only 56 days.

Mrs. Polly Brumfield, Director of Donor Resources Development in Wichita Falls, explained that with today's modern technology, the pint of fluid donated can now be separated enabling as many as six people to be helped from only one unit of blood.

"So, in effect, your donated blood can help save many lives, and doesn't hurt the donor at all."

Citizens of Haskell will have an opportunity to participate in a bloodmobile today, June 2 from 1-6 p.m. at First Baptist Church.

The blood supply obtained locally is taken back to Wichita Falls for laboratory processing and then distributed to the 42 hospitals in 31 counties in Texas and Oklahoma served by the Regional Blood Services.

Mobile units from Wichita Falls are in one of the serviced cities Monday through Friday. "The need for blood is continuous," Mrs.

Brumfield said. "The quantity of blood required to keep the hospitals serviced adequately, plus allowance for emergencies equates to the number of units our mobiles must collect," Mrs. Brumfield explained.

What happens when several emergencies arise at the same time? "That's when you'll see the notices at the bottom of your television screens and hear pleas on the radio asking for donors."

So far, blood donor responses have satisfied the demand. "The people in our area have always answered the call for blood, and we feel certain their unselfish giving will be even better in the future."

Haskell Dollar Days June 3-4

Community Chorus Being Organized

By Wanda Dulaney Mgr., Haskell Chamber of Commerce

How would you like to hear all of the Lions, Kiwanians, Rotarians singing in unison?

How would you like to listen to the people who make up the combined choirs of the various churches?

If you like to sing, but don't consider yourself a singer, how would you like to add your voice to

the best of them?

How would you like to hear the many good sopranos and tenors and altos and bass in this town pool their melodies into one fantastic harmony?

The potential is unlimited, the results promising, the pleasure for both singers and audience inevitable.

The Haskell Chamber of Commerce, under the auspices of the Community Betterment Committee, Dr. Ed Harris, chairman, is organizing a Community Chorus. Super-song leader Brian Burgess will be the director for the opening performance. It will be a patriotic program on Friday, July 1 filled with familiar songs and some audience participation as well.

Anyone who likes to sing is invited to join. Approximately four concerts are planned per year. Collections will be taken at each one to help defray the cost of music copies and eventual uniforms. Meanwhile the singers will be asked to wear white shirts or blouses, dark skirts or trousers and dark ties or scarves.

Only three rehearsals will be needed prior to the performances since the songs will be ones they already know.

A community chorus can be a great asset - a togetherness with magnificent results. It will be unique in this area.

We especially invite all choir members for you are our most experienced singers and can take the lead.

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability.)

(Editors Note: The following letter was written to State Rep. Joe Hanna by Mr. and Mrs. Elmer Hagins. It is printed along with Rep. Hanna's reply.)

Dear Sir:

We assume that you have already seen this picture that we took from last Saturday's **Abilene Reporter-News** and the letter of apology from Representative Gary Thompson, but since we wanted to write to you, we are sending the articles that we wanted to call to your attention. First, we hope you will write a letter to the **Haskell Free Press** or to us assuring us that you were not one of the Representatives that had a part in hiring the blond stripper to come to the State Capitol to play the so called "practical joke" on Rep. Patronella. We salute the editor of the **Abilene Reporter** for informing the people of Texas just how indecent and what filthy minds some of their elected representatives have because we believe there are enough people in those districts with high standards and morals that they will not want to elect them to represent them again. We have not met you and know nothing what so ever about you, but I would like to think that you would introduce a bill that makes it unlawful who serves in the Texas Legislature to pull a stunt like that. It should carry as much as a \$10,000 fine, and I believe I can remember when I was younger that there was a law that carried a fine for indecent exposure. What is happening in Austin? We thought when the Capitol nearly burned down from evidence found by a drinking and marijuana smoking party that was bad enough, and now this. Why would Speaker Gib Lewis say that the ten men who paid the stripper \$5.00 each to perform the act did not condone it, otherwise why did they do it? How stupid does he think the people of Texas are? I dare say the ten who paid the bill will want their district to know they had any part in it. We are sure there are lewd, indecent characters to be found all over our State and every other one, but it is high time those who condemn such actions stand up and be counted. We heartily agree with the editor when he wrote "Such behavior not only offends the sensibilities, it also makes us question the intellect and judgement of those responsible. How could people who are capable of doing something so dumb also be capable of making the right decisions about our State?" There is much we could say about anyone who would stoop so low as to use their body the way the stripper did, but it could not be printed.

Yours Truly,
Mr. and Mrs. Elmer D. Hagins

Dear Mr. & Mrs. Hagins:
Thank you for your letter that I received on May 17,

1983.

I do not receive the Abilene paper while I am here in Austin.

I am embarrassed and very upset with the stupidity of some freshman members. I was not aware that this was going to happen, did not see it happen, and did not know that it had happened until four or five hours after it had happened.

I regret not having met you but I think that if we had met, you would know that I do not condone this type of thing.

I appreciate you taking the time to write.

Very truly yours,
Joe C. Hanna

Dear Editor,

My profession being insurance, I'd like to use two insurance situations to demonstrate how new anti-discrimination legislation proposed by feminist organizations tend to confuse "equality" with "sameness".

The equality prescribed by House Bill 100 and Senate Bill 372 would require insurance companies to stop basing insurance rates on sex. Everyone knows that women as a group outlive men and this mortality experience is reflected in lower life insurance rates for women.

Automobile loss experience is even more marked, with young males contributing nearly 3 times the losses of the same aged females. So the fair rate for women is not the same rate as that for men.

If you're a woman or a dad with a teenage daughter driver, contact your U.S. representatives and senators to let them know your feelings. Otherwise you may end up paying for sameness when you seek equality.

Brian Burgess

Throckmorton Playnight Set June 4

Throckmorton Riding Club will have a playnight on Sat., June 4, at 7:30 p.m. at Ed Koonsman's arena on the Graham highway 1/8 mile past the Highway Department.

There will be three events, including barrels, flags, and poles. Trophies will be awarded to the top three places in each division, and ribbons will go to all participants.

Age divisions will be 8 and under novice, 8 and under open, 9 through 12 novice, 9 through 12 open, 13 through 15, 16 through 19, and 19 and over open. In the 19 and over division, riders will compete for a jackpot instead of ribbons and trophies.

For more information, call Jerry Cornett- 849-5757, Lisa Cockerell- 849-2521 or Joe Self- 849-6811.

Oates Represents PCA At Recent Washington Conference

Don Oates, a Haskell native and president of East Texas Production Credit Association of Nacogdoches, was among several presidents representing Farm Credit at a PCA president's roundtable discussion with U.S. Secretary of Agriculture John Block and other high level USDA officials in Washington.

The session was set up by **PCA Farming/Ranching Magazine** to provide a positive airing of the issues concerning agricultural lending. PCA presidents and **PCA Farming/Ranching** staff members met for over an hour with ranking USDA officials and Secretary Block to discuss such issues as farm surpluses, government programs, exports, soil erosion and the importance of PCA as a source of credit to agricultural producers.

According to Oates, like it or not, the USDA will play a big role in agricultural operations this year and for several years to come. Price support programs in this fiscal year will cost \$18 billion...almost as much as 1983 net farm income is projected to be. This year's \$18 billion plus the \$12 billion spent last year is almost as much as was spent on price supports in the previous 10 years combined.

A major topic of discussion was credit. During the session, Block and Farmers Home Administration head Frank Naylor expressed extreme dissatisfaction about what they termed "unwarranted and unjustified" attacks against lenders regarding farm foreclosures.

Naylor reported that last year about 7,000 (2.6 percent) of 270,000 farmers served by FmHA went out of business... "a goodly number of them by their own choosing."

About 850 were the result of FmHA foreclosure actions. Farm Credit reported about 1,200 foreclosures out of more than a million loans held. Despite those losses, there was actually a slight increase in the total number of farms for the first time in 50 to 60 years.

Naylor encourages FmHA as well as all lenders "to go the extra mile" to help any farmer with a legitimate chance of pulling through the current tough times. However, he indicated that USDA will recommend a veto of proposals currently being talked about in Congress to place moratoriums on farm foreclosures.

"The farming community would be horribly disserved by doing that," he explains. "It isn't going to do one bit of good to launch another major economic emergency program. More debt isn't going to get anybody out of difficulty."

Block added, "Interest rates would end up higher. The availability of credit would be diminished and we would lose credibility as a reliable credit risk. Agriculture has a very, very fine reputation right now — something that we should protect and safeguard, not

jeopardize."

R.C. "Clif" Cobb, president of Rolling Plains PCA in Stamford said, "We are pleased to have had Don Oates represent Texas PCAs at this important conference."

It is an indication of PCA's effort to keep administrative and legislative officials informed on issues affecting agriculture and agricultural credit. It also served as a forum for PCA leaders to hear the administration's views on the future of agriculture."

Locally, Rolling Plains PCA is a member-owned agricultural finance cooperative which serves the credit needs of 1,085 farmers and ranchers in Briscoe, Childress, Collingsworth, Cottle, Dickens, Donley, Foard, Hall,

Hardeman, Haskell, Jones, Kent, King, Knox, Motley, Shackelford and Stonewall counties.

Last year, the Association loaned approximately \$103 million to area farmers and ranchers. Rolling Plains PCA is one of 30 PCAs in Texas. Collectively they serve more than 16,000 agricultural producers and aquatic harvesters. Last year more than \$2 billion was loaned through Texas PCAs.

PCAs have been a source of agricultural loans since 1933. Nationally they serve the credit needs of more than 380,000 farmers, ranchers and commercial fishermen, with more than \$22 billion in loans outstanding.

AT CONFERENCE

Don Oates, right, a Haskell native, is pictured with USDA Secretary John Block, center, and Bob Wright, President of Sikeston Mo. PCA, during a recent conference of Production Credit Association Officials, Farmers Home Administration Officials, and officials of the Dept. of Agriculture.

Superintendent's Haskell Class Of 1929 Views Holds Reunion In Abilene

BY JAMES LANIER
Superintendent, Haskell ISD

Several awards were passed out at graduation on Friday, May 20th to seniors. Among those receiving awards were David Wheatley, class valedictorian. He received a trophy plus a scholarship to any state supported college or university in the state as well as scholarship offers to various private schools. David is planning on attending Texas A&M.

the recipient of this scholarship. Albert's plans include attending West Texas State University at Canyon.

The prestigious American Legion Award was presented this year to Eric Wilson and Shannon Lane. This award is based on citizenship, scholarship, leadership, and patriotism. Eric is planning to attend Abilene Christian University this fall.

Robert Gielhausen received a Carr Scholarship to San Angelo State where he will attend this year.

A good number of this year's class plan on attending various colleges and universities. The majority of area and major state wide universities will be honored with the presence of members of the Class of '29. I am sure they will make a good showing for themselves and our school system as they continue their studies.

The Haskell High School Class of 1929, which has met intermittently throughout the years, marked their 54th anniversary of its graduation with a reunion Saturday, at the Kiva Inn in Abilene.

Graduates from throughout the state and as far away as California attended.

Faculty member attending was Elaine Mills Kinsey of San Angelo, who taught the Seniors English.

Highlight of the reunion

was a banquet in the evening, with O.B. Ratliff of Lubbock, as Master of Ceremonies.

June Bell Park and Jane Bell Dement, twin graduates of Haskell High School Class of 1961, furnished entertainment with vocal selections.

Class records show that of 48 listed on the graduation program, 11 have died. There were 18 class members of 1929 present.

Roy Baughman, Orange Grove, Ca., coming the farthest distance and others present of the Class of '29: Martha Lou Rogers Wells, Mineral Wells, John J. Short,

Kilgore, Elsie Bradley Eastland, Abilene, David E. Smith, Lubbock, Naomi Poteet

Pipkin, Fort Worth, Chesley B. Cass, Dallas, Hazel Redwine Bland, Yoakum, Mabel Bland Johnson, Abilene, W.O. McDonald, Waco, Robert Goodwin, Mineral Wells, Erma Monke Liles, Weinert, Thomas M. Patterson, San Antonio, Mary Frazier Hoover, Abilene, John C. English, Longview, Jerry Irby, Fort Worth, Theima Perry Atkinson, Water Valley.

The 1985 Reunion will be in Waco.

Vergil Smith Attends Probation Officers Workshop

Vergil Smith, juvenile probation officer of 39th Judicial District joined approximately 90 new probation officers from throughout the state at the 1983 Adult and Juvenile Probation Basic Workshop at the Criminal Justice Center of Sam Houston State University last week.

Sessions designed specifically for the adult or juvenile officer were conducted by professional consultants from the field of corrections. Don

Dillard of Tyler reported on the role of the Texas Adult Probation Commission.

Dr. Frank Williams, Associate Professor of Criminal Justice told a Wednesday morning juvenile group that the lack of adequate research clouded the issue of the learning disabled child and juvenile delinquency. He said, "No research exists that supports and popular notion that children and adolescents with learning dis-

abilities are more likely to be juvenile delinquents. All kinds of things cause delinquency, but learning disabilities is not one of them, at least as far as scientific evidence tells us."

Dr. Jeanne D. Young, Associate Professor, brought an informative update on child placement procedures and availabilities. Much of the problem with child displacement is the fault of the parents, according to Young, but she added, "Few parents want bad things to happen to their children. Believe it or not, most of them do care. And, deep down where they live, they want to be good parents."

Joint sessions of adult and juvenile officers heard William Van Crouch's "Response to the Challenge" and motivational speaker John Cassis explain, "You Can't Spell Success Without U."

The next Probation Training Academy Workshop is scheduled for July 10 at the Criminal Justice Center. Experienced officers will meet for a four-day workshop.

WTU To Sponsor Computer Workshop

High School vocational agricultural teachers from a broad section of West Texas have been invited to attend a workshop on Computer Application and Selection to be sponsored by West Texas Utilities Co. June 16-17.

The workshop will be held at Abilene Christian University. Instructors will be provided by the Texas Agricultural Electric Council at Texas A&M University and by ACU. Teachers from vo-ag areas II and IV have been invited to participate.

Kit Horne, WTU's farm and ranch representative, said that only 40 teachers could be accepted for the workshop due

to the limited number of computers available. He said they would be accepted on a first-come, first-served basis, and urged those interested to contact him at WTU's General Office in Abilene.

The Texas Agri-Business Electric Council is composed of 10 investor-owned electric utility companies in Texas in conjunction with the Department of Agricultural Engineering at Texas A&M. Ken Pollard of College Station is executive director and Bob Woofter, president of Texas-New Mexico Power Co., is chairman of the Executive Committee. The TABEC sponsors youth programs throughout the state in addition to special training opportunities through member companies.

Texas A&M students to raise \$25,000 to sponsor children

COLLEGE STATION — Texas A&M University students have pledged to raise \$25,000 to sponsor an entire village of Colombian children through the Christian Children's Fund (CCF), CCF National Chairperson Sally Struthers announced recently during a two-day visit to the campus.

Struthers was invited to Texas A&M after the 2,300-member Corps of Cadets last year "adopted" five children through the organization. The current project is sponsored by the Inter-Fraternity Council and a number of student religious groups.

You can't afford to plant second best

With today's fluctuating grain prices and profit margins, you have to make the most out of every acre you plant. Now, more than ever, you should be planting top quality seed treated with a quality systemic fungicide... Vitavax[®]-200. Don't be misled by cheap treatments that provide limited disease protection. The systemic activity of Vitavax-200 protects your wheat, barley and oats against disease losses from true loose smut, bunt, scab seedling blight, covered

smut, flag smut, barley stripe, smut of oats and seed rots. Vitavax is patented as a growth stimulant. Under field stress conditions, like drought or cool, wet weather, Vitavax-200 treated plants normally emerge faster, develop more extensive root systems and larger crowns, and produce healthier stands that contribute to higher yields. Here's the bottom line. Since Vitavax-200 usually out-performs ordinary seed treatments, it offers you an excellent return-on-investment. That's why Vitavax-200 has become the leading seed treatment for small grains in the United States today.

Vitavax gets to the heart of the problem. It gets to the heart of the seed. As with any fungicide, always follow instructions on the label.

4-H'ers To Form Giant Clover Leaf At Roundup

What do you have if you assemble 1,600 4-H'ers in the form of a clover leaf? You have a gigantic clover leaf full of vim and vigor.

That's exactly what will happen at Texas A&M University June 7 during the opening of the annual Texas 4-H Roundup. Some 1,600 4-H youth who will be participating in a host of contests and other events will assemble on Kyle Field to form a huge clover leaf in celebration of the 75th anniversary of the beginning of the 4-H program in Texas.

The effort should provide an avalanche of pictures that will find their way into a mass of publications during the remainder of 1983, points out George McArthur, a 4-H and youth specialist with the Texas Agricultural Extension Service, Texas A&M University System. The Extension Service is the parent organiza-

tion of 4-H, a program for youth between the ages of 9 and 19.

Along with the 75th anniversary celebration, Roundup activities June 7-8 will feature the traditional State 4-H Food Show, State 4-H Project Show and competition in 39 different contest areas.

The State 4-H Food Show is held the first day followed by a special assembly at 6:45 p.m. in Rudder Auditorium. Five individuals and businesses will be honored at the assembly for their long-time support of 4-H, and 68 outstanding 4-H members will be awarded scholarships totaling more than \$332,000.

Contests ranging from method demonstrations in agronomy and clothing to public speaking and livestock judging will command attention the second day of Roundup. 4-H'ers competing in these contest must have

won at the county and district level to qualify for state competition, says McArthur. Roundup contest winners will be recognized at a special assembly that evening at 8 o'clock.

The State 4-H Project Show will be open for viewing beginning at 10 a.m. June 8 in G. Rollie White Coliseum. The show provides an opportunity for 4-H'ers to demonstrate their expertise in certain project areas which they have developed over the years, notes the 4-H specialist.

A special luncheon on June 8 will honor 28 outstanding 4-H adult volunteer leaders from across Texas who have been selected from the 14 Extension Service districts.

According to McArthur, the annual Texas 4-H Roundup is a highlight in the lives of many 4-H'ers.

STATE WINNERS

Mark Stewart and Danny McGuire won second in Conference A Debate at the State UIL Literary Meet in Austin. The state winners are recent graduates of Weinert High School. Their parents are Mr. and Mrs. J.N. Stewart, Jr. and Mr. and Mrs. Budge McGuire of Weinert.

June Is National Pest Control Month

President Ronald Reagan has added his support to a nationwide effort during June — National Pest Control Month — to make Americans more aware of the importance of effective pest management.

"No enemy of mankind attacks us as relentlessly as does the vast army of antagonists we call 'pests,'" he said in a special Presidential message.

"Pests strike at our personal health, attack our food supply, and undermine our shelter. Their species are so varied — ranging from microscopic insects to marauding rodents, from rampant field weeds to blanketing aquatic organisms — that the scope of their menace is hard to comprehend."

President Reagan took special notice of National Pest Control Month saying that it puts our struggle with pests into focus and reminds us of the cost they exact from individuals and from communities, in our homes and in the workplace.

He commended the National Pest Control Association

(NPCA) and the pest control industry it represents for educating people on the importance of protecting the environment while using pesticides safely and wisely.

"It is in our best interests to control pests by using appropriate and prescribed methods and materials," his message concluded.

The association has more than 2,500 members nationwide devoted to controlling unwanted pests that attack food and other stored products, destroy frame homes and buildings, transmit a wide variety of diseases and are universally objectionable.

Pest Control firms annually service some 10 million dwellings as well as most of the nation's 240,000 retail food outlets, 400,000 commercial restaurants and kitchens, and 55,000 hotels and motels.

For more information on "How to Select and Use Pest Control Services" or "The Uninvited Guests: Household Pests and How to Get Rid of Them," write Pest Control, P.O. Box 706, Dunn Loring, Virginia 22027.

IRS Reports 1982 Income Tax Refunds Were Higher

Individual federal income tax refunds averaged a record \$740 for 1982, up from \$712 for 1981, according to the Internal Revenue Service.

Tax-deductible contributions to Individual Retirement Accounts (IRAs) were part of the reason.

At the beginning of 1982, everyone who works for a living became eligible to invest up to \$2,000 a year in an IRA, and the IRS says about 11 percent of taxpayers cut their 1982 tax liability by doing just that.

Eventually, of course, taxes are paid on IRAs, but not until withdrawals begin — usually after retirement, when most people are in a lower tax bracket. Until then, contributions and earnings can grow untaxed, which can make quite a difference in the size of a retirement nestegg. (If you didn't put another penny in, a \$740 tax refund check paying

10 percent a year for 30 years would grow to \$12,913. The same amount placed in a taxable investment paying the same rate would grow, over the same period, to \$5,633, for someone in the 30 percent tax bracket.)

Where's the best place to invest IRA money?

According to Money's IRA Money Guide, there's "a strong argument for putting your IRA into a mutual fund family." Why? Flexibility. A family of funds encompasses several different types of mutual funds managed by the same organization; once you've put money in one, you can switch it to another virtually as often as you like, with just a simple phone call — and generally for as little as \$5 per switch.

That means if you're in a money market fund, for example, and would like to put your money in a fund

investing in common stocks, or bonds, it's easy to do.

More and more people are switching — or putting in new money — to the common stock funds, taking advantage of the rise in the stock market. At the end of March, the stock funds accounted for \$2.7 billion of the \$7.4 billion invested in mutual fund IRAs.

Indeed, over both the long and short term, common stock mutual funds have proven to be among the best possible investments. For the five years to the beginning of 1983, for example, such funds returned, on average, 17.1 percent annually — with all dividends and capital gains reinvested and all charges taken out. During the same period, the stock market as a whole — as measured by Standard & Poor's index of 500 common stocks — rose 14.1 percent each year, and the cost of living increased 9.5 percent a year.

Congressional Comments

Stenholm Offers Challenge To Graduates Of 1983

Thousands of students are graduating from high schools and colleges throughout the 17th Congressional District. I have had the opportunity to speak personally with many of these graduates, but would like to take this means of addressing all of the young people who will be leaving school to make their way in the outside world.

Traditionally, graduates are told their education has prepared graduates to tackle any problem and that the entire universe needs those talents and is eagerly seeking them. "The world is yours," my graduating class was told. Reality soon taught me that the world was not patiently and the world would continue on quite well without my services, however eagerly offered, thank you. The world was already in firmly established hands and ideas of how to run that world were firmly entrenched in the minds of those who held it. And they weren't about to just hand it over to any untried, idealistic, green, just-off-the-farm and just-out-of-school young man, no matter how many good ideas he thought he had.

The same world isn't waiting for today's graduate, new diploma in hand, to step in and take control. You are going to have to earn your place in that world, just as

those of my generation had to and as the generation before me had to. We will eventually give up our place to you, but don't think it is going to be without a fight.

Oh, I know you are mentally ticking off the list of the things my generation has made a mess of and the problems we have caused and left to you. I could help you write that list. No generation has passed along a perfect world on to their replacements since the descendants of Adam and Eve were given their shot at it.

The world that is waiting for you is not in too much better — or too much worse — shape than the world that was facing that just-off-the-farm and just-out-of-college young fellow 20 years ago.

We are running out of natural resources and still polluting some of those that remain. We have not come much closer to eliminating world hunger and yet we now produce more food than we can sell. We have far too many Americans without work and yet, on the other hand, our unemployed are better paid and better fed than half the working people in the world today. We want government out of our hair when things are going well for us, but we run to Uncle Sam for deliverance whenever any problem arises. So where does that leave the

Class of 1983? It leaves you with the challenge to do a better job than those who came before you; to find new answers to old problems and to be better prepared to deal with the world you will someday be responsible for and to.

Have the guts to put what you believe in on the line. Have the initiative to reinvent the wheel if necessary...to build a better mousetrap and then a better way to dispose of the mouse. Are we running out of the old forms of energy? Then find new sources of energy for your generation. Are we running out of water? Then find new and better ways to use what is left and make it last longer. Are our cities being buried in piles of our own garbage? Then find new uses for garbage. Find a cure for cancer. Write new music and books and poems. Raise better educated and stronger and healthier children. Those children may well have to compete in a world that knows how to spell correctly...and can add...and can write...and their competitors will be kids who learned computer sciences while still in their cradles.

You don't like the world as it is today? Work to change it. Develop a political philosophy. Find a candidate and work to elect him or her. Go to your county precinct conventions. Don't know what or where those are? Find out. Run for office yourself... whether for city council or county commissioner or for Congress. Challenge, oppose, grow, and pray. Pray louder and longer.

Whatever you do and however the world responds to your efforts, don't ever lose your faith in your God and in your country. And then, maybe — just maybe — you will have earned your right to take over from my generation.

Assistant manager Alicia Tidrow (left) receives her diploma from Rick Garris, instructor for Allsup's Assistant Managers' Training Course. The training is a requirement for all assistant managers and stresses store cleanliness and maintenance procedures as well as customer relations and company policies. According to Garris, "Allsup's company philosophy is to provide better service and quality for our customers. This training is designed to help our employees meet those commitments." Tidrow will return to No. 153, Allsup's store at 1000 North Avenue E in Haskell to assume duties of assistant manager. Allsup's Convenience Stores, Inc. is an Equal Opportunity Employer.

4-H'ers To Represent Haskell Co. June 7-8

Haskell County will be well represented at Texas A&M University June 7-8 at the 1983 State 4-H Food Show, Roundup and Project Show. The county's 4-H members will be among some 1,600 from across Texas taking part in a host of activities, say Lou Gilly and Max Stapleton, County Extension Agents with the Texas Agricultural Extension Service, Texas A&M University System.

4-H'ers from Haskell County who will be participating in these activities are: Jerry Davis, Rebecca Holt, and Jill Jennings. Jerry will be competing in the Entomology Demonstration Contest. Rebecca and Jill will be presenting their demonstration in the Foods and Nutrition Educational Activity.

Jill will also be representing Haskell County and District 3

in the Fruit and Vegetable Division of the State 4-H Food Show. In addition she will have a unique exhibit at the 4-H Project Show.

A special feature of this year's Roundup will be a 75th anniversary celebration commemorating the beginning of the 4-H program in Texas. The 16,000 4-H'ers attending Roundup will assemble on Kyle Field at Texas A&M to form a huge 4-H clover leaf.

Activities will get under way with the State 4-H Food Show on June 7 followed by 39 Roundup contests and the Project Show on June 8. The opening assembly for Roundup will begin at 6:45 p.m. June 7 with the recognition of 72 outstanding 4-H members who will receive scholarships totaling more than \$332,000. Five long-time supporters of the 4-H program also will be recognized with special awards from the Texas 4-H Foundation.

That evening the 4-H'ers will gather on Kyle Field to form the gigantic clover leaf.

A special luncheon on June 8 will recognize 28 outstanding 4-H adult volunteer leaders from across the state who will receive special plaques from the Texas 4-H Foundation.

4-H'ers competing in the State Food Show and Roundup contests must qualify by winning in county and district competition.

The State project Show is open to all 4-H youth who are interested in preparing exhibits about particular project areas in which they have excelled.

Auto Accidents Are Leading Cause Of Death In Texas

Texans between ages 15 and 34 are two and a half times more likely to die in an auto accident than are all other Texans, according to statisticians for the Texas Department of Health.

And the auto death rates for these young Texans are expected to increase while the rates for the same age group nationwide are projected to decrease.

To better understand this major health problem, statisticians Linda Lloyd and Pat Venus analyzed motor vehicle accident deaths among 15- to 34-year-old Texans from 1970 through 1980. Their findings appear in the May issue of Texas Medicine, the journal of the Texas Medical Association.

In 1980, motor vehicle accidents were the fourth leading cause of death for all Texans, the report says. But for the 15-to-34 age group, these accidents were the leading cause of death. "In that year, more than half of all Texans who died in motor vehicle accidents were between the ages of 15 and 34; however, less than one third of the population was in this young age group," the statisticians write.

The group with the highest risk of dying in an auto was males between ages 20 and

24. Among females, the 15-19 age group led.

The report notes that three factors contribute substantially to motor vehicle fatalities: speeding, alcohol and non-use of seatbelts. Speeding and driving while intoxicated each caused 24 percent of all fatal accidents statewide.

As for seatbelts, only 11 percent of drivers nationwide use them and this figure is declining. Detailed information on seatbelt use in Texas is not available, but one study suggests that the percentage of Houston and Dallas residents using seatbelts is smaller than the national

figure. Figures from the Texas Department of Public Safety show that 98 percent of all people killed and 95 percent of all people injured in motor vehicle crashes in 1980 were not wearing seatbelts.

The National Highway Traffic Safety Administration estimates that 50 percent fewer deaths from motor vehicle crashes would occur annually if every driver and passenger wore a seatbelt. Applying this estimate to Texas suggests that 2,150 lives would have been saved in 1980 had all Texans worn their seatbelts.

No Church Services At First Presbyterian Church Sunday

There will be no church services at the First Presbyterian Church in Haskell this Sunday.

Members will worship with the Central Presbyterian Church of Stamford or at First Presbyterian Church in Seymour.

June 12 worship services will be held in the Haskell church at 11 a.m. with the Rev. John Wyle of Wichita Falls as the interim pastor.

Story hour at Sunday School will be from 10:15 to 10:45 a.m. through the summer.

The Seymour Presbyterian church is celebrating their 100th anniversary and special guest speaker will be Harry Sarles.

Stamford church services will be held at Presbyterian encampment at Buffalo Gap and a picnic lunch will be served following the service.

Dollar Day Specials

Friday & Saturday

Mae Bell Turnbow is back from Hendrick's Medical Center in Abilene after having tests made.

Mrs. Hisey is still in Haskell Hospital where she has been for over a month. We have missed her and looking forward to her return.

We have enjoyed the Ivy from the horticulture class from Rule High School.

The monthly birthday party was given by the folk of the Church of Christ. Delicious cake and punch was served by

the children from the Vacation Bible School. Those having May birthdays were J.R. Lankford, Beatrice Barnett, Cleo Mondy, A.T. Cook and Olen Webb.

Mylta Jean Kimbler of Snyder visited Madgie Allison.

Mrs. Mattie Cook visited in Abilene with her granddaughter, Mr. and Mrs. Fred Aycock, Angela and Jennifer.

Alvena Holle and Joe Teague enjoyed the luncheon at the East Side Baptist Church on Thursday.

Mr. and Mrs. Barney Clark of Stamford visited Izetta Clark and Alvena Holle. Mrs. Clark attended the friendship luncheon in Sagerton at the Faith Lutheran Church.

Mae Ray visited with Duane Walker and Mrs. R.D. Turpen of Albuquerque, N.M. in the home of Lorene Camp in Rule.

Jonny Earp and High Miller of Weinert visited with John Earp.

Justin and Kayla Wright of Odessa visited with Mae Dryden.

Bernhard Letz, Mrs. Clancy Lehrmann, Adeline Letz, and Hazel Letz all of Old Glory and Lillie Lehrmann of Sagerton visited with Mr. and Mrs. Herman Letz.

Billy Clay of Dallas, Recie and Jim Bingham, Melissa and Recie Bingham of Floydada visited with Trudie Bush.

Mr. and Mrs. Roland Rose and granddaughter of Abilene visited with Ethel Rose and

Charity Bradley. Maude Kittley of Stamford also visited with Mrs. Bradley and Willard Jones.

G.A. Bradford and Faye Cox of Peacock visited with their parents, Mr. and Mrs. Sam Bradford. A grandson Ronnie Cox of Knox City also visited them, as well as Mr. and Mrs. W.S. Featherston, and Elmer Featherston of Wichita Falls.

Jack and Doris Slater of Ft. Worth, John and Kay Neeley of Irving visited with Bill and Lucy Harrell.

Charlie and Doris Bassing of Perrin, Bill and Patsy Steelman of Odessa visited Onie Camp.

Bill and Virginia Trussell of San Antonio visited Mae Belle Turnbow.

Rev. and Mrs. Truett Kuenstler of Rochester visited Mr. and Mrs. John Kuenstler and Mrs. Sarah Harris.

Betty and John Pumphrey of Ft. Worth and Jeff Pumphrey of Spur visited Jonnye Pumphrey.

Karen Strickland and boys of Ranger visited Mrs. Edna Collins.

We thank all our Church Groups and well as the individuals who come out to visit and make the days a little happier for all the Residents.

We are happy to report that Eva Hisey is now back with us at Rice Springs.

We extend our sympathy to the families of Annie Howard, Ora McCollough and John Sparkman.

Northside of Square
Haskell, Texas

MR. & MRS. O.W. TOOLEY

Many times this past year those at the Experienced Citizens Center have lived up to their name "Experienced". In the fall a new addition of 16' x 80' will begin at the Center adding a work room, dining area, and to the kitchen.

A float was built in December that gave the Center the Grand Prize of Haskell's Christmas Parade.

The Center had a Bar B Que in January for inside furnishings of tables, cabinets, lights, clearing the Center of any debt.

February we had the Dedication of our beautiful building.

We are now preparing for our Volunteer Appreciation Banquet. Tentatively the date has been set for Thursday, June 16th. This banquet awards those who have spent many hours making life much better for others. All ages serve in this capacity.

Serving others is God's gift. A gift because it gives a satisfaction that nothing else can. The knowing you are able to give happiness, help, a security no one else at that moment or any given moment may be able to give.

The volunteer hours are kept daily throughout the year, not to show off but this is the only way the Governor's office knows how busy the Centers are. It not only shows the meal count which is very important but shows an active count of volunteer hours being donated through the Center by helping others to serve the meals, assist on the van bringing participants to the Center and home again.

Volunteers deliver Home Delivered meals in Rule and Haskell. They assist many going shopping, to the doctors, checking by telephone the shut-ins, visiting and caring for those in Nursing Homes.

Volunteers "Care of Others" and it shows by the many many hours given.

Our oldest couple, the Oscar Tooleys, are very active volunteers. Oscar Tooley was born March 24, 1896, on a farm in Clay County, the fourth child of seven children of Rev. and Mrs. R.V. Tooley. Mr. Tooley went to a rural community school, to Henrietta High School, and North Texas State Normal College at Denton.

Mr. Tooley taught in one room, one teacher schools (65 pupils) before and after serving in WWI.

In 1920, Mr. Tooley settled in Tolbert, Wilbarger County, and went into business. In 1921 he was appointed Postmaster at Tolbert.

Mr. Tooley married Velma Sellers, March 22, 1922. They had three children. Their first

Bed Race

The sleeper event of the year is scheduled to roll into the Westgate Mall parking lot on June 25, and you won't want to be caught napping. It's the first invitational Bed Race to benefit the Muscular Dystrophy Association.

The Bed Race is just one of the many events the Westgate Mall plans to sponsor this year for Muscular Dystrophy.

In addition to the Bed Race, Westgate Mall was the location for the first annual Superdance, sponsored by the Cooper High School Key Club. And plans include a Gelatin Jump, presently scheduled for the July 4th Weekend.

For more information regarding the Bed Race or the Gelatin Jump, call 672-6647, or the Westgate Mall at 698-3863.

our community", said Mr. Tooley. "I am thankful the Center is here, helping people who are unable to prepare meals," he added.

"It fills a lot of lonely days seeing old friends," smiled Mr. Tooley, "and meeting new ones. We love it and what it stands for. We cannot see Haskell County without the Center."

Perhaps the Tooleys, like so many members of the Center feel as this poem:

You say I'm growing old?
Not me! This frame I live in
may be. Though eyes grow
dim and hair gets thin. That's
not the me that lives within.

Farm/Retail Prices To Widen

Looking at the farm to retail price spread, it's basically a case of "the poor getting poorer."

Farmers are continuing to get less of the dollars that consumers spend at supermarkets and restaurants, says an economist with the Texas Agricultural Extension Service, Texas A&M University System.

"Last year only 28 cents of every dollar spent on food went back to the farmer," points out Dr. Forrest Stegelin, "while 32 cents went for labor and the remaining 40 cents covered marketing costs."

This difference between what farmers receive and what consumers pay for food products is called the "farm to retail price spread" and

represents food industry charges for handling, processing and retailing farm food commodities, notes the economist. That difference rose 5.1 percent in 1982 and is expected to grow even larger this year.

Why? "Because, while the farm value of food is expected to rise only 1 to 4 percent in 1983, marketing costs are forecast to increase 4 to 7 percent," says Stegelin. Thus the trend of marketing costs rising faster than the farm value is expected to continue as it has for the past three years.

"This means that the overall food price increases have been influenced less and less by changes in farm prices and more and more by

changes in the cost of packaging, processing, fabricating, transporting and distributing, and food industry wages," says the economist. "This year the higher marketing bill will account for more than three-fourths of the increase in total consumer spending on food."

Marketing costs are particularly high for highly pro-

cessed crop products, notes the economist, while they are lower for animal products. The farm value represents 50 to 60 percent of the retail prices for meats, dairy products, and poultry and eggs but only about 20 percent of the retail prices for processed fruits and vegetables and some 14 percent for bakery and cereal products.

PUBLIC NOTICE

Amonett TV has been sold. We, the new owners, are planning to remodel but we must sell or move the present inventory.

We had rather sell it than move it twice.

So starting Thursday, June 2, at 9:00 a.m. you will be able to buy RCA, Litton, Radio Shack, or anything in the store at, near, or below cost.

Because of the low prices we will not be able to offer free delivery. So bring your pickups, trailers, wheel barrows and haul off the savings.

June 2nd—9 a.m.—414 North First Haskell

US Air Force Has Limited Officer Openings

The United States Air Force has limited openings for pilots, navigators, engineers, technical (weather and computers) and non-technical positions. According to Major Ron Sconyers, Commander of the 3544th USAF Recruiting Squadron in Arlington. This is the first time in over a year that many of these positions have been open. Time is extremely critical as these choice positions will fill rapidly. There are openings for both male and female applicants in most of these jobs. The competition for these select positions is intense. Minimum requirements for positions are at least

a 3.0 grade point average on a 4.0 scale and be a June or December 1983 graduate or a recent college graduate in any discipline. Air Force officers lead a rewarding and challenging life. Good pay, opportunity for advancement, additional education, excellent medical and dental care and a strong retirement system are just a few of the many positive benefits of an Air Force career. If you would like more information about opportunities for the college graduate in the United States Air Force, contact your local Air Force recruiter or call Lt John Brettell at (817) 261-0787 collect.

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability.)

Dear Fellow Texan:
During the more than two decades representing Texas in the United States Senate, I have learned that listening to people is as much a part of my job as speaking for them on the Senate floor. Keeping in touch with the individual concerns of Texans enables me to better reflect the interests of our State's 14 million citizens.

This Guide to Constituent Services is intended to serve as a handy reference in communicating with me in Washington or through one of my four Texas offices. One of the most tangible and encour-

aging signs of growing citizen involvement in government is the increasing volume of mail I receive from Texas — an average of 5,000 letters a week, plus mass-produced postcards on various issues. I welcome these expressions of opinion which make me aware of strong opposition to or support for particular legislative measures. I weigh your viewpoints seriously before casting my vote in committee or on the Senate floor.

More than one-third of the letters received seek assistance with problems regarding the federal bureaucracy. For example, a retired citizen's Social Security check is delayed; a local government or school district may request me to act as liaison with a federal agency; a serviceman or woman needs a hardship discharge; the owner of a small business asks help in dealing with government regulations. Realistically, I cannot direct a federal agency to decide favorably on behalf of a constituent, but I can insure that careful and full consideration is given to a citizen's problem.

Letters expressing your opinion or requesting information on legislation before Congress should be directed to me in the Washington office. However, many times it may be more convenient for you to call upon one of my local offices nearer your home. You may find such matters as nominations to military academies, assistance in obtaining federal grants, inquiries concerning Social Security, postal, immigration or military problems more promptly handled at one of these four offices.

I look forward to hearing from you soon and trust that this Guide will bring my services closer to you, the citizen I represent.

Local Employees Attend HHAT Meeting

Janice and Edwin Brom, Wayne and Judy Campbell, Sharon Riggs, Cynthia Slayton, Doris Morgan, Pat Gifford, Mary DiGiacomo, Robin Pelton, and Jimmy Herman of Home Health Agency of Texas, Inc., 110 N. Ave. E, Haskell, 817-864-8046 were among members of the

Texas Association of Home Health Agencies attending the Association's Annual Meeting May 15-18 at the Hyatt Regency Hotel, Austin.

Val Halamandaris, President of the National Association for Home Care, Washington, DC, was keynote speaker for the event that included

workshops and business meetings.

Ida Mae Hebert of Beaumont received the first Ida Mae Hebert Award, named in her honor as the Association's highest award for home health industry efforts. Others cited were Senator Chet Brooks of

Pasadena, who received the Texas Legislative Award; and Charles Gouge of Austin, named outstanding chairperson for TAHHA. Mrs. Linda Gale White, First Lady of Texas, presented Mrs. Helen Farabee of Wichita Falls with the award for volunteer services.
