

This Friday Decides Playoffs

BY SHANE HADAWAY
The Haskell Indians were upset by the Paducah Dragons 14-7 in both teams fourth district ballgame. The defenses of both teams controlled the game. The Indians only managed 165 yards rushing and 7 yards passing. The Dragons just managed 75 yards rushing and 128 yards passing. The Indians suffered 5 turnovers, 1 interception and 4 fumbles. The Dragons also suffered with 4 turnovers, 3 interceptions and fumble. The Dragons scored first with 12 seconds to go in the first quarter on a 10-yard run by running back Thad

Irons. The PAT by George Luedtke was good. The Indians came fighting back and scored on the first play from scrimmage after the kickoff. Quarterback Todd Harris scampered down the field for a 68-yard touchdown run with no time left in the first quarter. The PAT by Robert Ivey was good. The Dragons scored what would be the winning touchdown on a 21-yard pass from quarterback Richard Geogery to end Larry Trevino with 1:31 left in the second quarter. The PAT by Luedtke was good. Key defense players were linebackers Sam Toliver and Robert Ivey, end Patrick McCoy and safety Ricky Rojas. Shane Gilliam blocked a Dragon punt and recovered it on the Dragons 17-yard line in the fourth quarter. Rojas picked off two passes deep in Dragon territory also in the fourth quarter. The Dragons stopped the Indians

from scoring both times. The Indians will host the Rotan Yellowhammers at 7:30 p.m. on Indian Field Friday. The Yellowhammers, who are 2-2 in district play, are quick and have good size. Their offensive attack is lead by running back Charles Williams and quarterback Greg Gruben. The game is a must win situation for both teams. If the Indians win, they will represent District 4-AA as the second place team. If the Yellowhammers win, they will represent District 4-AA as the second place team.

Booster Club Hears of Indian Playoff Possibilities

The Haskell Booster Club met Tuesday night and viewed the film from the Paducah game. When asked about Rotan's team which we face Friday night, head Coach Blue Holt commented that they have two backs with good speed plus good overall team speed. He said that he hoped we got our poor playing over with during the Paducah match-up. The winner of the Rotan at Haskell game Friday night will advance to the play-offs as the second place team in District 4-AA. That is unless Munday should beat Hamlin and Haskell and Rotan should tie. Then Munday would advance to the play-offs. Officials from first and second place schools of Districts 3-AA and 4-AA will meet Saturday morning to determine play-off sites and dates. The 3-AA contenders are Hale Center, Petersburg, and Spur, tied with one loss. Since they do not play

each other Friday night and all three could win, a coin flip may decide the winners of that district. The Booster Club is backing the Haskell Indians in this important game Friday night against Rotan. This is the big one! For money-making projects to finance the All-Sports banquet in

April, a salad lunch will be held and a concession stand set up at a local basketball tournament. President Bailey Toliver appointed Billie McKeever to be coordinator for the banquet. A tentative theme was chosen and the possibility of having a speaker was discussed.

Sharon Gray Chosen H-SU White Horse Rider

Sharon Gray of Haskell has been chosen one of the riders of Hardin-Simmons University's renowned Six White Horses for 1983-84, according to Dr. William O. Beazley, vice president emeritus and sponsor of the equestrian group. Miss Gray, a junior physical education major, is the daughter of Mr. and Mrs. Robert E. Gray of Haskell.

Hardin-Simmons organized its Six White Horses and Riders in 1930. The group performs frequently in parades and rodeos. It has appeared at events from Los Angeles to New York, including four presidential and five gubernatorial inaugurations, most recently the inaugurations of former President Jimmy Carter and of Gov. Mark White.

Thank You Commodore Savings! Monday night's giant Halloween party and carnival was truly one of the most successful events in recent Haskell history. The success goes far beyond the money received for the Haskell Memorial Civic Center. The event provided Halloween entertainment for all ages at prices that were more than reasonable. Fifty cents was the most expensive ticket and many attractions were available for twenty-five cents. In addition to bobbing for apples, a dunking booth, fortune teller, spook house, face painting, cake walk and a giant dragon space walk, there was a live country western band a special jail house which was visited by many onlookers. The entire event filled a long time gap in Halloween entertainment in Haskell and provided good, clean, family entertainment for young and old. Haskell residents are known throughout the area for pitching in to do a job and it was no surprise

when local Commodore Branch Manager Dickie Greenwood announced plans for the event. The surprise came when he added that the project would be a joint undertaking of all eight Commodore branch offices. Over 100 Commodore employees and their families from Stamford, Abilene, Quanah, Dallas and Clyde started arriving Monday afternoon and their excitement was contagious. They were obviously happy to be in Haskell helping with the carnival and doing their part to help build a Civic Center. In addition to undertaking the project and doing such a great job, Commodore has pledged all funds received from the event to the Civic Center. Not funds left after costs...not a percentage of the funds, but all funds. All to often we see chain or franchise businesses moving into a town and not participating in any endeavor in the town. It's nice to include the entire Commodore organization in the Haskell business family.

Haskell Girls To Purchase Video Equip. With Fund Raising Profits

To raise money for video equipment the Haskell Girls' Athletic Association recently sold over 2,000 sun catchers. Leiza Morales, an eighth grader, sold 85 sun catchers and received the top prize—a mug, bear, bag, umbrella and personalized phone. Other prizes were awarded for 25, 35, 39 or 40 sun catchers sold. Coach Jim Bob Mickler said the project was successful. "We sold 2,165 sun catchers and grossed over \$6,000. After expenses are taken out the profit should pay for the video system," he said. The \$3,000 equipment includes camera, recorder, tripod and 19 inch color TV and will be used for individualized instruction and video taping of all girls' athletic events.

Why do the leaves turn yellow and gold in the fall? During the summer the leaves served as 'factories' where the foods necessary for the trees' growth have been manufactured. This food-making takes place in the tiny cells of the leaf and is carried by small green bodies, which give the leaf its color. In the fall when cool weather causes a slowing down of the process, the work of the leaves comes to an end. The machinery of the leaf factory is dismantled and the green chlorophyll is broken up into various substances of which it is composed and the food on hand is sent to the body of the tree to be stored for use in the spring. All that remains in the cell cavities of the leaf is a watery substance in which a few oil globules and crystals, and a small number of yellow bodies can be seen.

There is the yellow in the leaves. Often when there is more sugar in the leaf than can be transferred back to the tree, the chemical combinations produce many color shades, varying from red to the red-browns of the oaks.

This is a beautiful season to go on a paint-out. Some of us sat under a big oak tree last weekend and painted some of the houses and surroundings. You don't know what you missed!

Q. Please explain the use of a gessoed panel for water-color.

A. Gesso surfaces take stain too readily so I seal it with white glue.

Q. Is it harder to paint directly on the sized masonite?

A. Yes, it dries slowly and you have to get used to the technique. There will be

surprises and happenings that you will have to get used to. Try it, it is an interesting approach to a different technique.

Q. Will the pigment stay on the glue surface?

A. It can become glassy and when it does I just add some of the glue to the water and it acts like a catalyst.

Q. If the effect is not what you're after, what do you do?

A. Simply take water and scrub it off. Most of the color will come off.

Q. When painting with this technique, do you try to keep it as dry as possible?

A. No. It is a wet technique and with the glue sealer, it takes a long time to dry. Using a fan will help it to dry.

Halloween Party Held By VFW Auxiliary

The Ladies Auxiliary of VFW Post 9179 of Stamford hosted a childrens Halloween Party Thursday night, October 27th, at the Post Home.

Special guests were Brownie Troops #255 and #314 of Stamford.

Entertainment consisted of a spook house and various other games.

Refreshments were served to approximately seventy-five children.

Teach Children Self-Care Skills

Thousands of Texas school children are home alone each day after school.

The increasing number of employed mothers and lack of supervised after-school programs means that more and more children will be involved in self-care, says home economist Diane Welch.

"After school self-care beginning at age nine or ten is not necessarily a bad thing, if children are adequately prepared and ready to function on their own," says Welch, a family life education specialist with Texas A&M University's Agricultural Extension Service.

Many working parents feel guilty about having a "latch-key" child, yet fail to realize that all children need to learn coping skills at some point. Even the children of full-time homemakers must sometimes stay by themselves while their mothers keep appointments, do errands, or attend adults-only activities, she notes.

Both employed parents and full-time homemakers, should teach coping skills to their children before allowing them to stay by themselves, says the specialist.

Welch suggests that

Yard Of The Month

November is the month when we look for the brilliant colorful display of chrysanthemums.

So our yard of the month goes to the Richardsons 605 N. Ave. F. They have massed yellow chrysanthemums across the front in a very effective display. This con-

trasts with the neatly mowed green lawn. The espaliered pyracantha against the south wall adds a touch of elegance.

The first runner-up yard goes to Mr. and Mrs. J.E. Walling Jr. 1503 No. 1st. This beautiful, spacious yard has many pecan trees, a bird bath

and fountain and a touch of color using yellow and red chrysanthemums across the front.

Second runner-up yard goes to Mr. and Mrs. Sam Wester Paint Creek Rd. Theirs is a new yard with a potential for a very lovely yard. They have used a circular bed of periwinkles, petunias and copper plants as a focal point. Evergreen shrubs and mums emphasize the entrance.

Third runner-up goes to Mr. and Mrs. Terry Blanks 1001 N. Ave. G. This is an attractive, spacious yard with lush green lawn. Two poodle trees accent the front en-

trance. A weeping willow tree balances a unique, large tree (dead) that adds character and distinction. This seems to be a new trend in landscaping. Wouldn't it be lovely with evergreen ivy growing on it or wisteria with its beautiful spring blossom? Or is it more distinctive with its graceful outspread branches as is?

Another runner-up yard goes to Mr. and Mrs. Jimmy Lisle 602 N. Ave. H. They have beautiful roses blooming now. Two of the most spectacular roses are—Oregon (big yellow) and Double Delight—enclosed by a rail fence. They take great pride in their yard and plan it for all season bloom and color.

parents preparing a child for self-care do the following:

*Teach the child basic safety skills including how to use emergency phone numbers, perform first aid for minor home accidents, escape the house or apartment in case of fire, and handle incoming phone calls or strangers coming to the door.

*Have your child practice emergency situations and test him or her periodically to make sure basic skills have not been forgotten.

*Set clear-cut rules that will guide the child toward responsible behavior. Children need to know what they can or cannot do when it comes to cooking, using appliances, playing outside or having friends over to play.

*Help your child fight boredom and avoid excessive television watching by encouraging hobbies and providing plenty of alternative after-school activities, such as reading, a pet, or arts and crafts projects.

*Set expectations about homework, chores or music practice to help your child learn to manage time and develop self-discipline.

*If possible, arrange for the "indirect supervision" of a relative or neighbor who is willing to take phone calls or help your child with a problem.

*Stay in contact with your child by making a regular phone call every day and occasional unscheduled phone calls, if at all possible. Make sure the child knows the number where you can be reached.

Warriors, Knox City Tie 0-0

BY JIMMY BURSON

The 7th grade Warriors now have a season record of 5 wins, 0 losses, and 1 tie, as they tied the Knox City Greyhounds last Thursday 0-0.

Although the Warriors got inside the five-yard line twice, they failed to score. They also penetrated under the 20 yard line five more times but failed to put any points on the scoreboard.

The Warriors did have one touchdown called back though. The T.D. was called back on an inadvertent whistle, because the Greyhounds as well as the officials thought Chan Guess had the ball when he was swarmed under by Greyhounds.

However, Brad Bevel had the ball and was standing in the end zone. "We had a lot of mental errors. It was mental mistakes not physical mistakes that caused us the victory," Coach Jim Dan Raughton said.

Halloween Costumes-Haskell National Bank Employees American Legion Service Report

American Legionnaires rolled up their sleeves and Legion Posts dug deep into their coffers during the 1982-83 program year to put another proud page of accomplishment in the Legion's record book of service to community, state, and nation. The Consolidated Post Reports turned in prior to the deadline to National Headquarters document the year of dedicated service and generous monetary support. Here is a summary of the reports filed by 45 percent of the posts from throughout the nation:

Veterans Affairs and Rehabilitation
 Post Service Officers handled 258,195 individual rehabilitation cases for their fellow veterans during the 12-month period ending May 31, 1983. More than \$790,000 in direct cash aid was given to

needy veterans. Legionnaires devoted more than 965,000 hours of volunteer service in VA Hospitals and contributed more than \$777,500 to the VAWS program.

National Security
 During the past year, Legionnaires donated more than 300,000 pints of blood (a dramatic 270 percent increase over the preceding year), and posts awarded 5,245 ROTC Medals. More than 1,000 posts reported their participation in the disaster relief preparedness program with the American Red Cross and 953 reported they had established crime resistance programs in their respective communities.

Economic
 With 1,101 posts reporting an active veterans employment program, the Legion can point to 20,412 veterans who

either were helped to find a job, were assisted in entering vocational training, or were helped to resume their education.

Americanism
 American Legion Posts which filed reports spent more than \$1.7 million, providing more than 16,000 boys the opportunity to participate in The American Legion Boys State program. More than \$5.3 million was spent by Legion Posts in the sponsorship of Legion Baseball and other types of athletic teams. Posts also sponsored more than 1,400 Boy Scouts Units at a cost of \$576,475. During the past year, Legion Posts presented 20,482 individual School Awards, sponsored more than 1,000 Oratorical Contests, and awarded more than \$900,000 in scholarships. During the same period, posts reported more than 3 million hours devoted to community service and their sponsorship of more than 23,000 children in the Special Olympics at a cost exceeding \$400,000.

Children & Youth
 The American Legion's commitment to the children of the nation continued to result in impressive statistics at the close of the reporting period, May 31. Direct cash aid from posts to children and their families totaled more than \$1.1 million, and an additional \$4.2 million in goods and services were donated. These generous contributions helped bring about better conditions for more than 950,000 children during the program year.

Charitable Contributions
 The American Legion also supported other charitable organizations as indicated by the posts which reported total donations to other organizations as follows:

22 Performances Set For Original Indoor Rodeo

The 22 performances of the World's Original Indoor Rodeo, scheduled Jan. 25 through Feb. 5 in Fort Worth's Will Rogers Coliseum in conjunction with the 1984 Southwestern Exposition and Fat Stock Show, will feature a variety of entertainment acts, reports W.R. Watt Jr., Stock Show president/manager.

"We have scheduled, in addition to what has been described as the best rodeo of the year, a variety of featured acts planned for outstanding family entertainment," Watt said.

"Nothing like it anywhere!" is the theme of this year's production, and Watt has assured visitors that the lineup of special entertainment will be "just that." He said two internationally known acts have been signed, and more are in the making.

In the lineup will be Mr. Rythm, "The Wonder Horse," from Sedalia, Mo. Trainer and owner Darrel Wallen refers to this American Saddlebred Horse as a "once in a lifetime find."

Appearing for the first time in Texas will be the Ellerman family from Alturas, Calif., with a fast action variety of trick and fancy riding routines billed as the Flying Cossacks.

The physical beauty of Mr. Rythm is coupled with a dazzling performance of more than 50 different dance steps, and he is believed to be the only horse in the world that will canter backwards. He has been featured across the U.S. and Canada.

Wallen obtained the 14-year old animal 12 years ago to train as a Saddlebred show horse, but Mr. Rythm quickly showed the trainer he was more interested in "showing off."

"After a while, I decided to let him do what he wanted," Wallen said. "In less than two weeks, the horse was performing all sorts of tricks, and I knew that I had a remarkable animal on my hands."

The Flying Cossacks, a group made up of family members from 15 to 24 years of age, has been performing to rave reviews on the show circuit, mostly in the Western United States.

Their professional performance makes trick riding look easy, but hard work has made it appear that way. Consisting of three girls and one boy, the team presents a dynamic act of colorful continuous motion. The special zest of enthusiasm with which they perform appeals to all the family.

Ticket orders by mail are being accepted for the Jan. 25 through Feb. 5 rodeo at the Stock Show office, P.O. Box 150, Fort Worth, TX 76101.

Performances on the two Friday nights and both weekends are priced at \$10 each, other week nights are \$8 each, and Monday through Friday matinees are \$6 each. Mail orders should specify which performance is desired, and include \$1 extra for return postage and handling.

Mail orders will be filled in early December, prior to the Dec. 5 opening of the rodeo ticket office in Will Rogers Coliseum lobby.

Researchers Says Population Trends Affect Real Estate

COLLEGE STATION — New households formed at an unprecedented rate in Texas during the 1970's, according to a report from the Texas Real Estate Research Center at Texas A&M University, and the result is changing the types of available housing.

Migration from other states, more young people leaving home for the first time and a high divorce rate were all cited by Texas A&M sociologist Dr. Robert L. Skrabanek as reasons for the record number of households being created. The report appears in the October edition of the center's magazine, Tierra Grande.

Since 1970 the number of Texas households increased by 1.5 million. Earlier this year Skrabanek, a demographer and keeper of the state's 1980 census data, predicted that by 1990 Texas will pass New York to become the second most populous state behind California.

Skrabanek said if current population trends persist, the demand for Texas real estate in the 1980s will be unparalleled in the state's history.

The Texas Farm Bureau's Resolution Committee, comprised of forty-one farmers and ranchers, will meet in Waco Nov. 7-9 to prepare a set of policy recommendations from the 1,500 resolutions received from county Farm Bureaus. Those final resolutions will be presented to the voting delegates attending TFB's 50th annual meeting Nov. 27-30 in Houston.

Resolutions on state matters approved by voting farmers and ranchers in Houston will become state policy for the state farm organization in 1984. Adopted resolutions pertaining to national policy will be forwarded to the American Farm Bureau Federation convention Jan. 8-12, 1984, in Orlando, Fla.

The TFB Resolutions Committee is composed of three leaders from each of the 13 Texas Farm Bureau districts across the state, the chairman of the TFB Young Farmer and Rancher Advisory Committee and the vice president of the state organization, who serves as the chairman.

The 216 county Farm Bureaus in Texas approved policy resolutions during their annual meetings in September and October. Issues covered included farm program provisions, the federal budget, inflation, interest rates, farm chemicals, state and federal regulations, and others.

The Committee's job will be to study the resolutions submitted by county Farm Bureaus and compile a comprehensive set of tentative resolutions to be voted upon by the more than 1,200 delegates at the state convention.

TFB Vice President Wayne Cranfill of Hooks is committee chairman. TFB State Director Roy Johnson of Desdemona is vice chairman, and TFB State Director David Fochner of Boling is secretary.

Other committee members include the following:
TFB State Director Paul Macina, Shamrock; Aubery Rasor, Gruver; Ken Harris, Childress; Douglas Zuber, Morton; Ray Hindman, Spur; Jack Spears, Plains.

Money Matters

A Series Of Informative "Plain Talk" Thoughts Regarding Your Money Matters

TRAVELERS CHECKS

Travelers checks are local currency almost anywhere you go all over the world. Even better, they are "money" that can't be lost or stolen. All travelers checks are numbered. You sign them once in front of the bank officer at the time of purchase. We will give you a list of your check numbers to be kept separately from the checks. As you cash the checks, you will countersign them again in front of the person cashing them for you.

If you should lose your checks just notify the issuing company, give them the numbers and amounts of your lost or stolen checks, and they'll be replaced immediately at no cost to you, as long as you have not countersigned them.

When you travel, travelers checks are safer than cash. Next time you plan a trip stop by and get some travelers checks.

Superintendent's Views

BY JAMES LANIER
Superintendent, Haskell ISD

Next Tuesday, November 8th, is election day. There are eleven amendments to go before the voters. Two of these proposed amendments will effect schools. One amendment is to exempt charitable service and fraternal organizations from paying property taxes. Some of these organizations own buildings and even land and other revenue producing entities. In the vast majority of cases throughout the state, the other taxpayers will have to absorb the additional burden if they are exempted.

The other amendment that directly involves schools is proposition 5 which deals with using the Permanent School Funds to back School Bond issues. I am quoting from a communication mailed out by Comptroller Bob Bullock concerning this matter.

"Texas taxpayers have a lot to gain and nothing to lose in voting for Proposition 5, the school bond amendment, in the November 8th constitutional amendments election.

The amendment could save our schools and local

taxpayers \$435 million in interest payments alone in just the next seventeen years.

It comes as a surprise to many people that the awesome resources the state of Texas dedicates to education are not taken into account by a national bond market when setting local school district bond ratings and interest rates. Local bonds are judged solely by the local district's situation.

Proposition 5 would cure that by permitting qualified local school bond issues to be backed by the state's \$3 billion Permanent School Fund. The result would be better bond ratings and lower interest rates for our local districts.

The state's Permanent Fund would simply be lending its good name; it would not be paying off the bonds. Texas schools have a fine bond record. In the unlikely event of a default, the state would simply pick up the payments by withholding the local districts state allotment.

In local terms based on a small amount of research that I have done, the passage of this amendment would mean about a \$15 thousand on a \$500,000 bond issue for renovation on a ten year payout.

I am not going to get in the political arena by encouraging you to vote a certain way. However I would strongly encourage you to exercise your constitutional right and responsibility and vote.

Arbor Day Kits Available

To help Texas teachers and organizations conduct Arbor Day programs, the Texas Forest Service is offering free program kits.

Each kit includes a loblolly pine seed packet with planting instructions, program aids for a local Arbor Day observance, suggested classroom activities for teachers, and a copy of Governor White's proclamation.

Quantities are limited. Only one kit per teacher, group or organization will be distributed.

Arbor Day, to be observed this year on January 20, 1984 in Texas, has been an annual celebration in Texas since 1889. The event is to promote a greater appreciation of the beauty and value of trees and forests. The 1984 official state observance will be held in Grand Prairie.

Program chairpersons and teachers should address requests for Arbor Day kits to the Texas Forest Service, College Station, Texas 77843.

USDA Soil Conservation Service

The Board of Directors of the Haskell SWCD met on October 21 to review business and elect officers for the coming year. R.V. Earles was elected chairman of the board; M.W. Phemister, vice-chairman; and F.A. Ulmer, secretary-treasurer.

The Board reviewed Great Plains Participation applications from T.J. Poer, Mollie Moeller and the Nancy J. Kevel estate. Discussion of the Great Plains Program revealed another record year in funding for this program in Haskell County. 8 new contracts on 494 acres were prepared in 1983 obligation \$191,883 for installation of conservation practices. This was an increase of 33% over 1982 funding.

Funding of GP for 1984 was discussed and Jim Hudson, District Conservationist with the Soil Conservation Service reported that there are presently 5 contracts in the state SCS office awaiting funding totaling \$77,395.

Also discussed was the implementation of the new state supported Technical Assistance Program through which the state legislature furnishes monies for employment of a technician to assist local Soil and Water Conservation Districts carry out their programs. The program has been in effect for one and a half months in the Haskell District with Nathan Frierson employed to assist producers in the installation of various practices.

In other business the 1983 annual report of accomplishments was presented to the

Board. New cooperators plans were prepared by 19 operators on 4,287 acres with another 16,171 acres of existing farm and ranch plans being revised to meet current land treatment needs. 86% of Haskell County is under district agreement.

221 acres of grassed waterway were established for the conveyance of water to more stable outlets and to serve as outlets for the 1,573,976 ft. of terraces constructed this past year. There now exist 1,965 acres of grassed waterway and 31,310,041 ft. of terraces on the ground in the Haskell SWCD.

Many other practices were applied throughout the District and producers have begun to apply practices for 1984. Participation in activities of the Haskell SWCD is voluntary and assistance is furnished without regard to race, creed, color or national origin. Board meetings are held on the third Friday of each month and are open to the public.

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters to the Editor dealing with any subject. All letters must be signed but names will be withheld by request. All letters are subject to editing for length and liability.)

Dear Sir:

I grew up in the little town of Weinert and as long as I can remember we took the Free Press and now that I am away I enjoy reading it much more. It's a very good newspaper. Just keep up the good work.

Yours truly,
Mrs. Lois Pinkerton

Dear Sir:

Being a new member of the Haskell Chamber of Commerce Welcoming Committee, I had my first experience helping haul tables and chairs and setting them up for a big function like the Country Dinner Theater. Although there were quite a few of us helping, it was a tiring, time-consuming task that is very hard, but necessary for such an activity.

It made me see even more than ever the need for a civic center and the necessary furnishings in it to avoid all this hassle. Because of this realization, I doubled my contribution to the civic center today.

I hope others who have ever been involved with the setting up for a community function like this might like to reconsider the amount they have given or plan to give and increase it also, and that those who never have to be bothered with carrying tables and chairs but just get to go and enjoy the occasion might see fit to increase their donation because of it.

Christian Church Sets Revival

BRO. GUY HARRIS
The Christian Church of Haskell will be holding revival services beginning Sunday, Nov. 6 through Thursday, Nov. 10. Services will begin at 6:00 PM on Sunday evening and 7:00 PM Monday through Thursday. Bro. Guy Harris from Andrews will be the evangelist.

Bro. Harris served the Christian Church here in Haskell from 1957 to 1960. While here he was an active member of the Lions Club, and served one year as president. He also served as head umpire for the Little League Baseball program one summer.

The public is cordially invited to come and share with the church and its revival services. Bro. Phil Harris, son of the evangelist, is presently ministering to the Christian Church.

Dear Editor:
The staff and management of Commodore Savings are to be commended for making Halloween in Haskell both fun and safe.

Not only did they contribute to the enjoyment of the townspeople, but also they contributed the proceeds to the Civic Center.

Thanks, Commodore, for undertaking a time-consuming, expensive task. Our happy memories will linger long after your headaches and blisters are gone.

Budgets Don't Have To Be Painful

Many people think living on a budget is like going on a starvation diet.

But a budget is simply a financial plan that enables families to achieve financial security and reach their goals, says home economist Nancy Granovsky. "Actually, a budget is more like a road map for charting where you want to go than a spending diet," she adds.

According to Granovsky, a specialist in family resource management for the Texas A&M University Agricultural Extension Service, families can develop a livable, non-constricting budget by following these steps:

First, examine past spending patterns for at least two to six months. Use old receipts, check stubs or other records to show where the money has gone and how much has come in during the same period. Or, keep close records for two to three months.

Then determine what percentage of spendable income has gone for major categories such as housing, utilities, transportation, non-mortgage credit payments, health care, food and clothing. If more than 25 percent goes for "miscellaneous", you will need to keep better records for a while in order to track your spending, says the specialist.

Now you are ready to project ahead, using your past financial records as a guide.

Estimate total spending during the budget period, being sure to include expenses like insurance payments that come due only occasionally. On a monthly budget, estimate these occasional costs at 1/12 of the annual cost so you will not be caught short when payments are due, she cautions.

Also project income from all sources during the budgeting period.

Next, bring projected spending and projected income into balance. Some expenses might have to be reduced to make the financial plan balance or you will need to find additional sources of income.

Making decisions about where to reduce spending and

how to do it should be easier because you now have a clear picture of where your money is going, says the home economist.

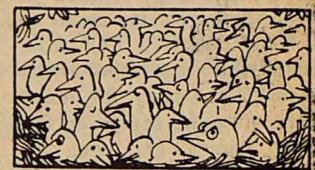

Once you have a budget plan, develop a simple record keeping system to keep track of expenditures and income during a trial period for the budget.

"Give the budget and record-keeping system a fair chance to work," says Granovsky, "but if it isn't working, don't be reluctant to make an adjustment." A livable budget must be realistic and flexible, she notes.

One of the best things about the budget process is that it gives families the chance to discuss and establish long-

term and short-term financial goals, says the specialist.

Goals like obtaining financial security or saving for Christmas gifts, a down-payment, a new car or college tuition can be achieved by small actions over a long period of time. But families must plan their financial actions to achieve those goals, says the specialist.

The weaverbird, a relative of the sparrow, lives in large nest colonies—with as many as seventy birds populating a single tree.

Public Notice

Southwestern Bell, in accordance with rules and orders of the Public Utility Commission of Texas, hereby gives notice of its intent to re-file evidence and appropriate tariff(s) in support of a request to establish rates for the use of certain complex inside telephone wiring in the amount of \$54.5 million annually. This request was previously a part of the considerations in Docket 5141 and now has been re-docketed as Docket 5420.

Customers who do not own the Complex Inside Wire associated with their Customer Premises Systems (such as PBX and Key Systems), and who utilize Southwestern Bell's wiring after January 1, 1984, could be affected by this request. On January 1, 1984, all of the Customer Premises Systems presently provided by Southwestern Bell Telephone Company will be transferred to a subsidiary of AT&T and that subsidiary of AT&T will be almost exclusively responsible for the charges pursuant to the proposed tariff on January 1, 1984. After January 1, 1984, customers who purchase their Complex Customer Premises Equipment and do not purchase, but continue to use, Southwestern Bell Telephone Company's inside wire will be subject to the charges proposed in the tariff.

The proposed effective date for these new rates is January 1, 1984.

Persons interested in intervening in this matter should file a written motion expeditiously with the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Austin, Texas 78757, as the Hearing on the Merits in Docket 5420 is set for November 21, 1983.

Pour egg yolk mixture in a thin, steady stream over entire surface of egg whites; gently fold yolk mixture into whites.

Pour batter into an ungreased 10-inch tube pan, spreading evenly with a spatula. Bake at 325° for 55 to 60 min. or until cake tests done. Remove from oven; invert pan, and let cool completely. Remove from pan, and spread Lemon Fluffy Frosting over top.

Gas dryers maintain one's appearance for less.

Saving money is important. For everyone. That's why natural gas dryers are the preference for those who know.

They cost less to operate than non-gas models. In fact, high-efficiency gas dryers dry about three loads of wash for the cost of drying

one in a non-gas dryer.

And gas dries clothes faster. And it makes them feel soft and fluffy.

So get more for your money and get a gas dryer for your home. Today. After all, in these times, looking one's best for less is something everyone can appreciate.

Greyhounds Defeat JV

BY ROBERT IVY
The Haskell JV were defeated 12-6 by the Knox City Greyhounds.

The Hounds wasted no time, as they scored twice in the first half quarter and were leading 12-0 at the half.

Haskell then put six points on the board midway through the third quarter.

Kendal Larned ran it in from 30 yards out. The game was basically a defensive struggle, and the Indians were unable to score while inside the 5-yard line twice.

Kelby Strickland, Felipe Arredondo and Sammy Baker were the leading tacklers for the night.

The JV will travel to Rotan to take on the Yellowhammers. The game will be Thursday at 7:30 p.m.
