### Indians Lose By Five To Stamford Bulldogs

Amerillo, Toxas 79000

BY SHANE HADAWAY

The Haskell Indians suffered a heartbreaking 26-21 loss to the Stamford Bulldogs. The loss prevents the Haskell Indians from going to the playoffs. The Bulldogs and the Hamlin Pied Pipers, who play this Friday, will represent 6-AA in the playoffs.

Even though 47 combined points were put on the board, the game was a defensive struggle. The Indians only managed 202 yards total defense, 64 yards rushing and 138 yards passing. The Bulldogs mustered out a little more offense, 241 total yards, with 119 yards rushing and 122 yards passing.

The rain played a big factor in the ball game. Although, only a fine mist fell during the entire ball game, the field was standing in water. This caused many miscues and fumbles.

Players from both teams could not get good footing and running backs from both teams slipped and

The Bulldogs scored twice before the Indians had time to look up. The Indians kicked off to the Bulldogs, and on the Bulldog's first play of the ball game, Bulldog quarterback Michael Young hooked up with end Greg Schoonmaker for a 76-yard touchdown pass. The PAT by Lupe Moreno was good. The Bulldogs were up 7-0 with 11:37 left in the first quarter.

The Indians received the kickoff and after three plays had to punt. Bulldog star running back Timmy Delce grabbed the punt on the 28 yard line and raced 72 yards for a touchdown. The PAT was no good.

The Bulldogs now were up 13-0 with 9:17 left in the first quarter.

The Indians drew within 7 when fullback Robert Ivey bulled his way in from 7 yards out with 6:46 left in the first quarter. The PAT was no good. The touchdown was set up when cornerback Carl Dever picked

off a Young pass on the Bulldog 33 yard line.

The Bulidogs widen their lead to 14 points when Bobby Griffin scampered in from 5 yards out with 9:56 left in the half. The PAT by Moreno was good, putting the Bulldogs up 20-6. The Bulldogs carried their 20-6 lead into the locker room at halftime.

The Indians drew within six in the opening minutes of the third quarter when, after the Indians recovered a Bulldog fumble on their second play of the third quarter, Indian quarterback Todd Harris connected with end Steven Rodriquez on a 19yard pass play.

The touchdown came three plays after the recovered fumble. The Indians went for two on the PAT, and Harris tiptoed in for the points. This brought the score to 20-14 in favor of the Bulldogs.

The Bulldogs scored what would be the deciding touchdown when Griffin danced in from 35 yards out, on a fourth and three play, with 6:54 left in the ball game.

The Bulldogs tried a pass for the PAT, but it fell imcomplete.

A roughing-the-kicker call on the Haskell Indians changed the tempo of the ball game at the end of the third quarter.

The Indians made a heroic comeback to try to win the ball game. Harris teamed up with Rodriquez again on a 16-yard touchdown pass play with 2:17 left in the ball game. The PAT by Harris was good making the score 26-21, Bulldogs.

The Bulldogs received the kickoff and made a couple of first downs to run the clock out to end the game and the Indians play-off chances.

### Discipline **Discussed By School Board**

Members of the Board of Trustees of Haskell Independent School District met for a special called session Tuesday night to discuss discipline problems.

Board president Jerry Hannsz told board members that he had called the meeting not just to discuss a discipline problem during Friday night's football game, but to discuss discipline throughout the system.

Hannsz said that the purpose of the meeting was not to jump on anyone but to express the support of the board to the administration. teachers and coaches in solving any discipline problem.

"I wanted to have this meeting and discuss discipline before it became necessary for the board to meet and take formal action", said Hannsz.

Board members discussed several reported incidents in Junior high and high school in classrooms and athletics and other extra curricular activities.

Board members expressed a desire for the local administration as well as teachers and coaches to deal with discipline problems as soon as they start in order to prevent discipline from becoming a serious problem.

Other events will include a dunking booth, cake walk, basketball toss, dart throw, football throw, and jailhouse.

### **Utility Survey Released**

West Texas Utilities Co. residential customers are paying slightly less than the state average for their electricity this fall, according to surveys reported by the Public Utility Commission of Texas.

In September and October, WTU's standard residential rate for 1,000 kilowatt-hours was \$74.74, while the state average was over \$76, the PUC report shows. For 500 kilowatt-hours, WTU charged \$41, while the state average was \$40.41 in \* \* \* \* \* \* \* \* \*

September and \$40.25 in October. Average monthly usage for WTU residental customers was 1,020 KwH in September 1983 and 701 KwH in October 1983.

The survey included 19 utilities, among which were 10 investor-owned companies. Highest rates in the state were those of El Paso Electric Co. which charged \$98.37 for 1,000 KwH. Lowest rates reported were by the Lower Colorado River Authority, which charged \$53.09 for 1,000 KwH.

### **DEBATERS**

Those attending the Country Dinner Theatre Saturday night were treated to a debate of the contenders for the Presidential race. The debate included several of the "hot" issues concerning the upcoming November 6 election. Shown are President Reagan (Charles Thornhill) and his running mate George Bush (Pat Hale). Their opponents Walter Mondale (Gene Long) and Geraldine Ferraro (Abe Turner) participated in the debate moderated by Barbara Walters (Joel Fox).

One type of parenting says. self-exam takes about a week The first three days are spent observing your friends who have children near the ages of your children, she explains. As you observe, check the following points:

• How do these parents act toward their children? Is their attitude friendly, courteous and pleasant? Do they appear to enjoy the children and approve what they are doing, or do they appear critical,

impatient and nagging? •How many parents something and how many habitually order the children around?

•How many embarrass

their children in front of others? •How many expect conduct beyond their child's years, such as making a two-year old

share his toys in order to teach

him to be generous? •How often do you see one parents who show approval more often than they correct, and who seem to like and enjoy their children?

•How many give orders so endlessly that a child has to develop deafness in selfdefense? How many punish children for disobedience when the child fails to know which order was important enough to follow?

Not all parents will want to devote an entire week to this self-examination, observes Welch. But most can afford some time to reflect on their parenting skills, she adds.

### Study Shows Condo Owners Want Homes

COLLEGE STATION -Owners of apartment-style condominiums are generally less request their children to do satisfied with their housing something or stop doing than owners of townhouses with yards, but neither are as satisfied as people who have houses, says a Texas A&M University professor.

In a study for the Texas Real Estate Research Center headquartered at Texas A&M, Dr. James Leigh said apartmentstyle condominium owners aren't as satisfied partly because they may have wanted to buy a house but couldn't afford

"More than 60 percent of those studied were first-time buyers who preferred to purchase a single-family detached home on the next round," said Leigh. "In other words, the condominiums were serving as starter homes, allowing the household to build equity.'

### **Views From** City Hall

BY ROBERT N. BAKER City Administrator

By Robert N. Baker Landfill

At a recent meeting of the City Council, a decision was made to charge commercial users of the landfill a fee for dumping. These fees are only for commercial operations and do not include any citizen hauling their personal garbage, trees, junk or anything to the landfill. The fees will be charged for operators of demolishing services, tire companies, septic tank cleaning service, roofing companies, building contractors and any other commercial users of the landfill. The fees were set at \$3.00 for a pickup load, \$7.00 for a truck load. Also small tires are .10 each and truck or tractor tires .20 each. An option to these charges is a permit that can be purchased for \$60.00 (Sixty) dollars which is good for one

As I have mentioned before. the landfill operation is very expensive. The State and Federal governments have imposed on us very stiff requirements for disposition of garbage. In addition, the City is in the process of burying accumulated trash that was dumped before the regulations

imposed. Our landfill has been

in use since 1908. Sewer Plant

For the past few months. the sewer treatment plant has been receiving an inordinate amount of grease and oil from our sewer system. This grease is very difficult to do anything with other than skim it off and bury it. The processing plant just cannot handle it.

I would like to caution everyone to be careful of what they put into the sewer system. We feel that most of the grease and oil is coming from commercial establishments. There is a city ordinance that requires grease traps on certain establishments. Every effort will be made by the City to insure traps installed and working properly. Cleaning the sewer lines is very expensive in addition to causing stoppages that are annoying to the users of the system. City employees have found bed-sheets, diapers, beer cans and many other items in the system.

I will be discussing the creek project in the next few

Dear Mr. Editor:

First, I would like to thank you and all of the supporters we have for our band. At first, when we received our rating, we were shocked. It has always been an Indian tradition to win, and even though the judges didn't agree with us, we did win! Our pride was hurt at first, but the Indian pride is back. We are now looking forward to a first division in concert and site reading. I think the Mighty Indian band was the best third division band in the state of Texas. Thanks.

### "Lloyd Doggett is the best thing to hit rural Texas since twist-off caps.

Jim Hightower

producers are paid a fair price for their products, it brings prosperity not only to our small town merchants but to our entire state and the U.S. economy in general. And he says, "The mismanagement of the farm program is a national scandal. We don't ask any other segment of our economy to sell their products for less than what it costs to produce them, but current farm policies have done that for three years running and still cost U.S. taxpayers six times more last year than the average farm program costs throughout the entire decade of the '70s. When our farmers are paid a fair price, the rural economy will boom and it will cost taxpayers much less."

Lloyd will fight for a 1985 Farm Bill that will get a handle on overproduction and assure our family farmers of at least recovering their production costs and give them a chance to make a fair profit.

He supports reasonable debt restructuring and a moratorium on farm foreclosures by FmHA until fair price and production policies can be put into place.

In the Texas Legislature, he fought to grant property tax relief to family farmers and ranchers and to deny the relief to giant corporations and land speculators. In the U.S. Senate, he will continue fighting to eliminate tax breaks that give agribusiness conglomerates, "pinstripe farmers" and land speculators a competitive advantage over our farmers and ranchers who aren't in a position to "farm the tax code."

Lloyd authored the Resolution of the Texas Senate to veto a nuclear waste dump in the farmland of the Panhandle.

Lloyd Doggett is the only candidate in this race who has ever had a vote against gun control and he will continue in the U.S. Senate to oppose gun control.

PHIL GRAMM and two big-city Republicans were the only Texas Congressmen this year to support the Dannemeyer amendment designed to gut agriculture. In voting for the Dannemeyer amendment, Gramm in one stroke voted to:

· Slash agricultural price supports and eliminate deficiency

 Reduce federal price support payments and loans to farmers by \$16 billion (60%) over three years.

· Phase out farm ownership and operating loans by the Farmers Home Administration and replace them with loan guarantees.

· Eliminate the wool and mohair payment program.

Gramm and a Dallas Republican were the only two members of the Texas delegation to oppose, on March 15 of this year, the Small Business Authorization bill which gave the S.B.A. the authority to make disaster loans to Texas farmers and ranchers being wiped out by the disastrous, ongoing drought.

On Sept. 9, 1982, when he was still calling himself a "Democrat," Gramm voted against allowing farmers to defer their FmHA loan payment if they could prove they were in trouble due to circumstances beyond their control. Gramm was one of only 39 who opposed the bill; 372 voted for

On June 6 of this year, Gramm voted for an amendment to slash the Agricultural Research Service, the Extension Service and a variety of other vital federal/state research programs.

Gramm, who has received more money from the nuclear power industry than any other Congressman, even voted to weaken Texas' right to veto a nuclear waste dump in the farmland of the Panhandle.

### **Rule Homecoming Activities Set**

Annual Homecoming activities for Rule High School take place beginning tonight with a bonfire to held at the track field, beginning at 6:30 p.m.

Homecoming Queen candidates from Rule High this year are Senior Lori Landes, who is the daughter of Mr. and Mrs. Ronnie Landes. Lori is a twirler, member of the Beta Club, basketball team, and an FHA member. She was also last year's Haskell County Fair Queen.

From the junior class is candidate Mindy Wilcox, daughter of Mike Wilcox, and Mrs. Sidney Pharr. Mindy is a cheerleader, is in Beta Club, and FHA.

Sophomore candidate is Theresa Menchaca, who is the daughter of Mr. and Mrs. Marshall Conner. She is involved in FHA.

Stephanie Cannon. Stephanie is the daughter of Mr. and Mrs. Jerry Cannon. She is an FHA member.

All of the candidates will be escorted onto their field at halftime of the Rule-Lueders-Avoca game by their fathers.

Presenting the queen and her court with flowers will be the football captains, who are all seniors, and they are: Bruce Toney, Clayton Sorrells, Jackie Workman, and Heath Tibbets.

Each of these girls were selected by their classmates, and the queen will also be chosen by popular vote.

In conjunction also with the Homecoming activities, Friday there will be a chili supper beginning at 5:30 p.m. in the school cafeteria. This will be sponsored by the Lions Club, and the charge will be \$2.00 per person.

Following the game Friday night, there will be a pie and cake reception in the school cafeteria. The Lions Club will be sponsoring this event, and the charge for this will be \$1.00 per person.

Saturday morning at 9 a.m., there will be a registeration of the Rule Exes in the auditorium, and following this there will be a general assembly of all present, beginning at 10 a.m. in the auditorium.

Class members who have traveled the farthest distance, who are the oldest, and the family who has most members present who graduated from RHS will all be honored.

Teachers will also be recognized at the general

There will be a luncheon the general following assembly, and this is being sponsored by the Athletic Boosters, in the school cafeteria. Tickets for this are \$4.50 for adults and \$2.50 for children 12 and under.

In the afternoon on Saturday, the classes will break up into their respective Freshman representative is years, and classmates will have a chance to visit with their former classmates.

On Friday, at the regularly scheduled Pep Rally, which will begin at 2:30 p.m., any Rule Exes who are present will be recognized.

Members of the Horticulture Club and the Drill team are selling mums this week, and there will be some available at the game, which can be purchased for \$10 or \$12, depending upson the style.

These mums are made of silk, and were made by the members of the Horticulture

The Friday night game will be in Bobcat Stadium, beginning at 7:30 p.m., with the Bobcats going against the Lueders-Avoca team. So far, the Bobcats have not won a game, and stand at 0-7, but are hopeful to change this with a Homecoming win.

The Haskell JV was defeated by the Stamford Bulldogs 24-18 in a wet but exciting game.

Stamford was able to score the first two touchdowns early in the game as the Indians threw two interceptions that put the Bulldogs in good scoring position.

The Indians were able to get on the scoreboard before halftime as Mark Young dashed into the end zone from 50 yards out late in the second

The JV's were down 18-6 at the half but were able to come back and play Stamford a good

The Indians got on the board first in the second half when Patrick Perez connected with Jerry Hunt on a 31 yard pass play.

Late in the third quarter the Indians narrowed the gap to 6 points a Perez went in from eight yards out for the JV's final score.

The JV will face the Hawley Bearcats there at 7:30 p.m.

### "MUNICIPAL BONDS"

The stated interest rate paid on many municipal bonds is generally lower than taxable investments. But don't be fooled by this lower interest rate! In the long run you will probably get more from the tax-free Important: Figure out what the actual

after-tax yield is on the taxable investment. The result will give you a more accurate basis for comparison. And you won't miss out on any of the hidden benefits. How to do it: Use this simple formula,

which takes your tax bracket into account for a true analysis.

Step 1. Find out your tax bracket.

Step 2. Substract this number from 100. Step 3. Find out what the interest rate is on

the municipal bonds that you are thinking of investing in. Step 4. Take this interest rate and divide it by the amount from Step 2. The answer tells

you the amount that a fully taxable

investment would have to yield in order to end up with the same final income as a taxexempt investment. Example: You are in the 50% tax bracket and you are trying to decide which investment would be better for you-a tax-free

municipal bond with an interest rate of 9%or a fully taxable instrument with a 13% interest rate.

Using the formula: 100%-50% = 50%; 9% + 50% = 18%

What it means: You would have to invest in a fully taxable investment of at least 18% in order to make the same amount of money you would from a tax-free investment of only 9%. So, the tax-free municipal bond is the better choice in this instance.

When considering your investment alternatives, consult your tax advisor concerning the tax effects of each investment.

### **Editorial**

Well, finally it is almost here. No, I am not talking about the day of the Great Pumpkin, or of the Football game against Hawley, Friday, or even winter. I am referring to the General Election!!!

This year seems to have brought out the best, and WORST, in some of us!

While the members of the media have been trying to decide, who, if anyone, really won the presidential debates, our two nominees for the U.S. Senate seat (namely Gramm and Doggett) win Academy Awards for the mud slinging act they have so busily been engaged in.

Ferraro is still trying to decide which financial statement she will stand by, and George Bush is still trying to explain just what it was that he did kick—part of Ferraro's body or the bucket, politically!!

It seems almost funny that so much money has been spent in order to say so little to so many for such a small length of time!

If all of the politicians would take the same amount of time they have spent mud slinging and use it to try to find answers to how to curb the national debt, feed the hungry, and find jobs for the nation's unemployed, this country would be the most prosperous, well-fed, and productive in the world!

What is even more insane is that hard working, honest people actually send their dollars to these "excavating affairs". (I refer to the dirt digging which has been going on.) Don't they know that for every dollar they send, at least 50 cents goes to hire another researcher who can find more dirt to dig and throw on the name of the opponent? And, the dirtier, the better!

Why, just today I was reading a send out from one of the local campaigns. This candidate was really lowering the boom on his opponent. He out and out called the man's campaign a lie, and even went as far as attacking the poor man's mother!!

I say enough!!

There are plenty of really honest to goodness issues which need to be, and must eventually be, faced. It is high time these politicians stopped stabbing each other in the Old Texas cowboys get to tell back and started discussing the problems which face our their own stories in their own ed a cowhand and said, "I've

Edited by the West Texans Jim and Judy Lanning, these stories from the Federal Writers' Project archives represent how old-time Texas cowhands black, white and Hispanic and the women of the period felt about their life.

The book is reportedly the first publication of these particular FWP narratives.

Every story relates some bit of cowboy humor or joke, usually played on the newcomer. Sometimes the grizzled veterans got it, though. One time been looking for you for a long time. Here's your dollar. When everyone looked puzzl-

### **Gas Hydrates** New Energy Source **Discovered In Gulf**

Texas A&M University oceanographers have reported the discovery of gas hydrates, an icelike formation of methane and water that some feel could be an alternative energy source, under the ocean floor in the Green Canyon area of the Gulf of Mexico.

In the current issue of Science magazine released this week, Drs. James M. Brooks, Mahlon C. Kennicutt II, Roger R. Fay, R. Sassen and others report the occurrence of thermogenic gas hydrates in ocean sediments retrieved during geochemical surveys in the

COLLEGE STATION - northwestern area of the gulf. The gases that form these hydrates have seeped up from much deeper reservoirs, Kennicutt said. The samples, he said, are the result of temperature and pressure under the ocean floor.

The temperature and pressure ranges in the sediments where the hydrates were recovered are very close to the stability limit of methane hydrates, Kennicutt said. Their recovery gives scientists the challenge of discovering what conditions allowed the existence of this frozen gas at elevated temperatures.

## Chad Ballard Named 4-H Gold Star Recipient

Chad Ballard, 15 year old son of Mr. and Mrs. Don Ballard, of Rochester was recently recognized as Haskell County's 4-H Gold Star Recipient for 1984. To qualify for the Gold Star Award, highest 4-H honor at the County level, a 4-H'er must be at least 14 years old, excel in leadership and citizenship abilities, be an outstanding student academically, and have responsibilities outside 4-H work in their home, church and community affairs.

Chad has been an active 4-H member for 7 years. Projects he has swine, carried include livestock judging, sheep, showmanship, recreation, and leadership. He has represented County well participating in local, county, regional, and state livestock shows, fairs, and futurities. He has also participated in judging contests, steer fitting contests, district and state 4-H roundup, and county, district, and state record book competition.

In order to learn more about fitting and showing livestock, Chad has participated in demonstrations, clinics, and symposiums at Haskell, Fredericksburg, Lubbock, Plainview, and Abilene.

Chad is very active in his local 4-H club. He is currently serving as Secretary for the Rochester 4-H club and is a junior leader for the livestock judging project group. He is also president of his local lamb project group, secretary for the swine group, delegate representing his beef group, and treasurer for the

showmanship project group.

Not only is Chad interested in his 4-H projects, but he is also interested in what 4-H'ers are doing in other project areas. He attends the county 4-H food show, and the county and district 4-H fashion shows.

Chad also enjoys the social part of the 4-H by attending countywide 4-H meetings, District Teen Leader Lab, and Texas 4-H Congress. He was instrumental in getting a share-the-fun group organized in his local 4-H Club.

Chad with his family regularly attends the First United Methodist Church in Rochester where they share church responsibilities with other members. The entire family

can also be depended on to help in all community affairs.

A sophomore at Rochester High School, Chad is very active and well thought of by his teachers and fellow students. He is outstanding academically and excels on F.F.A and band. Chad also enjoys playing the piano.

At home Chad is active in helping his family. He works hard in every aspect of his family's farming and livestock operations.

Chad is truly a most dependable and dedicated 4-H member, student, church member, community leader, and family member. He possesses all the citizenship and leadership skills that are desirable in a young person. He is a well-rounded, well-adjusted 4-H member who takes what 4-H has to offer and combines with it his desire to learn, work, and play with other

4-H members, this making him an outstanding citizen with a high moral character. He sets a good example for other 4-H members and everyone he comes in contact with.

In recognition of being chosen as the Gold Star Recipient, Chad was presented a Gold Star pin, a 4-H jacket, donated by Trammel Bit Co. and a U.S. Savings Bond, courtesy of the Home State Bank in Rochester.

For further recognition Chad and his parents will be special guest at the Haskell County Extension Homemakers Information Day in November and the District Gold Star Banquet in Benjamin also in November.

# When it came time to stand and choose, Lloyd Doggett stood with you.

### **ELDERLY**

★ Lloyd Doggett fought to preserve the fiscal integrity of all Texas retirement systems and believes that Social Security "is a sacred contract we cannot turn our backs on."

### **EDUCATION**

Lloyd Doggett has always been one of Texas' leading advocates of a first class public education system. As a State Senator, he has been in the forefront of the struggle to improve the quality of teaching for our children.

### **PUTS TEXAS FIRST**

★ In his eleven years as a Texas Senator, Lloyd Doggett has always put the needs and concerns of Texas first and the greedy special interests last. Lloyd has written and fought to pass 125 people-helping laws, including the Consumer Protection Act, utility reform, and the Human Rights Commission.

# When it came time to stand and choose, Phil Gramm stood against you.

### **ELDERLY**

Gramm led the fight to cut Social Security benefits out from under the most vulnerable people in our society. In fact, he has voted against Social Security on at least eight occasions.

### **EDUCATION**

★ Gramm has been relentless in his efforts to remove all Federal assistance to education, going so far as to exclaim that educational assistance to the handicapped "(encourages) people to be handicapped."

### PUTS TEXAS LAST

★ Gramm's record stands as a monument to callousness and insensitivity to the needs and concerns of ordinary Texans. He voted against helping drought-stricken Texas farmers and ranchers, border busineses hurt by the peso devaluation, and against loans to small businesses across Texas.
